INTRODUCTION TO CITY BUDGETING

Defining a City Budget

A City Budget is a plan for using City government's financial resources. The budget estimates proposed spending for a given period and estimates the proposed means of paying for them. Two components of a budget are the revenue or sources and the expenditure or uses.

Defining Revenue

Revenues are the financial resources. The City of Green Cove Springs has a large variety of revenue sources including property taxes, licenses, permits, charges for services, fines, and grants.

Defining Expenditure

Expenditure is a use of financial resources. There are three types of expenditures: operating, capital and debt. Operating expenditures include the day-to-day expenses such as salaries, supplies, utilities, and equipment purchases. Capital expenditures include construction of roads, parks, buildings, and the purchase of land. Debt is the expense related to principal and interest on long-term bonds and notes issued by the City.

Defining Fund Balance

Fund balances are funds carried over from the previous fiscal year. The City has a variety of uses for fund balance including reserve for future capital projects, for emergencies and catastrophes, for certain bond issues, and for other contingencies and expenditures.

Defining Fund Accounting

Government budgeting divides the budget into categories called funds. Fund accounting and budgeting allows a government to budget and account for revenues restricted by law or policy. Some restrictions are imposed by national accounting standards, the federal and state governments and by the City Council. As a result, the City develops a budget with categories to reflect imposed restrictions. This is done by using a variety of funds. Funds allow the City to segregate the restricted revenues and related expenditures.

The City budget has various funds that account for restricted revenues and expenditures. Each fund must balance – revenues (sources) must equal expenditures (uses) – and each fund must be separately monitored. The City budget, adopted each year by the Council, is the total of all funds.

THE BUDGET PROCESS

The process of compiling the City of Green Cove Springs annual budget is practically a year-round activity. The basis for the process is statutory deadlines established by the State of Florida. The Finance Department establishes the remainder of the process to ensure necessary information is collected, priorities are determined, and recommendations can be made by the City Manager to the Council. The City Manager is the official Budget Officer for the City of Green Cove Springs. The Council establishes tax rates and adopts the annual budget.

The budget process began with a review and consideration of comments from the prior year budget process. This led to the budget “kick-off” meeting in April 2024 with Department Directors. Directions for the budget process were provided and written budget instructions were distributed. Departments were instructed to prepare budgets using a “continuation” funding level. “Continuation” level funding is the level of funding needed to provide the same level of service in the next fiscal year as was provided in the current fiscal year.

The City Manager formally presents the Proposed Budgets in August 2024. The Council and public review, changes, and formal adoption lasts through late September.

This includes workshops with the Council to discuss the operating budget and the capital improvement budget.

The proposed millage rates for FY 2024/2025 was set on July 23, 2024. The proposed millage rates are used by the Property Appraiser to prepare Truth-in-Millage or “TRIM” notices which will be distributed in mid-August. TRIM notices advise County taxpayers of how tax rates proposed by all local taxing authorities combines with current information on assessed value of real property and how it will affect the taxes on each taxed parcel of land. The TRIM notice also serves as the official notification of the time and place of the first public hearing for adoption of tentative millage rates and budget by each taxing authority.

State law requires two public budget hearings. The first public budget hearing will be held on September 3, 2024. After hearing public testimony, the Council will adopt tentative millage rates and a proposed FY 2024/2025 budget. The second public hearing will be held on September 17, 2024. The hearing will be advertised by a published notice and a published breakdown of the millage rates and budget. Like the first public hearing, the Council will hear public testimony prior to adopting the final millage rates and the final budget.

SUMMARY INFORMATION

The proposed budget for FY 2024/2025 increased \$6,517,636 from the FY 2023/2024 approved budget.

The Operating Budget

Expenditures

The major component of the budget is the operating budget, which is the portion that pays for the day-to-day services. The operating budget is composed of five types of expenditures: personal services, operating expenses, capital outlay, debt service and grants and aids.

Personal Services reflects salaries of elected officials, salaried and hourly employees, and temporary employees. It includes overtime pay, mandatory contributions to the Florida Retirement System, social security and Medicare Taxes and employee health insurance, and life insurance premiums.

Operating Expense reflects costs of supplies, utilities, fuel, rent, professional service contracts, etc. Increases in this area reflect mostly adjustments for materials, supplies, fuel, and other operating costs.

Capital Outlay reflects costs of equipment, fleet, data processing and other equipment. The changes in this category represent mainly equipment and vehicles necessary to replace an aging fleet and equipment in various City Departments.

Debt Service reflects legally obligated payments (principal and interest), reserves, and debt administration costs on outstanding borrowings of the City.

Grants and Aids reflect amounts appropriated to regional governments, agencies, or other not-for-profit organizations and businesses to support programs or activities provided by those organizations that provide benefit to the City.

Revenues

Property Taxes – Overall, the City’s taxable value increased by \$52.0 million or 7.54% from FY 2023/2024.

Other Taxes – There are increases in other tax revenue which includes increased receipts from existing taxes, which include the Infrastructure Surtax, Telecommunications Taxes, Gas Taxes, and Sales Taxes.

Charges for Services – The charges and fees associated with the operations of the City’s utility system are \$28.9 million or \$2.1 million more than FY 2023/2024.

Licenses and Permits – The City Council authorizes the collection of Building Permit Fees that are used as an offset for the cost of building inspection operations.

Additional detailed information on the City’s Millage Rate and Major Revenues Sources historical data can be found in Appendix section.
