My professional career has been in the field of design, art, historic preservation, and researching. I worked for almost seven years at the state level with the Texas Main Street Program, under the State Historic Preservation Office. The Main Street Program at its core is a downtown revitalization program utilizing historic preservation under the umbrella of a Four Point Approach: Design, Economic Vitality, Promotion and Organization. My core job was performing design renderings and preservation technical reports to help downtown building and business owners both restore their buildings and market their businesses, through signage, branding and merchandising. Other functions of my position were to promote downtown as a whole by providing towns with technical services to help them create design ordinances and preservation guidelines to protect their valuable historic resources, as well as perform historic resource surveys, facilitate town hall meeting type visioning and branding, and orchestrate training opportunities for our towns' Main Street Managers, as well as training for the general public.

In the seven years my family and I have lived in downtown Oroville, it has made so many positives strides in the right direction. Downtown Oroville is the crown jewel of this gem of a place and I look forward to using my passion and expertise to further bring Oroville to a place people are even more proud to call their home. Thank you for your time and consideration.
