STAFF REPORT

TO: Planning Commission Chair and Commissioners

FROM: Gabriel Perez, Development Services Director

SUBJECT: Zoning Ordinance Amendment No. 24-10 – Streamline Code Amendments (Phase 2) to amend Coachella Municipal Code Title 17 regarding zoning district permitted uses, development standards and development review process in the City. City-Initiated.

STAFF RECOMMENDATION:

Staff recommends that the Planning Commission review and discuss proposed amendments to the Coachella Municipal Code (C.M.C.) chapters 17.11, 17.13, 17.14, 17.15, 17.16, 17.24, 17.26, 17.28, 17.30, 17.38, 17.60, 17.70, 17.72, 17.76, 17.77 and Adding Chapter 17.21 to modify zoning district permitted uses, development standards and development review process.

BACKGROUND:

On December 14, 2022 Planning Division staff identified to the Coachella City Council a work program to update the Coachella Municipal Code Title 17, Zoning, to streamline the development review process, create more flexibility in development standards, and modify Zoning Ordinance to address new changes required by State Law. Staff has identified Code Amendments as follows:

- Sidewalk Vending: Adopt amendments to address SB 946 allowing cities, by ordinance or resolution, to adopt requirements for the public safety regulating any type of vending and the time, place, and manner of vending from a vehicle upon a street if requirements are directly related to objective health, safety, or welfare concern.
- Housing Law Updates: Revise residential zoning standards to address new State housing law related to flexibility for construction of accessory dwelling units (ADUs) and SB 9 (Atkins) that requires cities to apply a ministerial review process for eligible development of up to two principal dwelling units on a parcel in a single-family residential zone.
- Residential Front Yard Structures: Revise requirements for residential front yards that would permit certain structures to encroach into the front yard setback such as covered vehicle canopies over residential driveways.
- Parking Standards: Revise commercial parking requirement to be commensurate with parking standards in surrounding Coachella Valley cities and allow for applicant initiated parking studies as a method to identify projected parking demand for proposed uses and reduce parking below minimum parking requirements if warranted. Staff will further

evaluate the merits of eliminating minimum parking requirements.

- Sign Ordinance: Revise sign ordinance to only permit freestanding signs in association with multi-tenant commercial centers. The existing sign ordinance permits a 25-foot high freestanding sign for any business.
- Special Events: Establish a new permitting mechanism for a range of allowable special events in the Zoning Ordinance.
- Residential Block Walls: Revise residential development standards to allow for front yard obscuring block walls in the front yard that would accommodate courtyards and front yard pools subject to aesthetic performance standards.
- Commercial Landscape Maintenance: Revise requirements for commercial landscape maintenance responsibilities to ensure landscape areas subject to approved landscape plans are maintained in a first class condition.
- Architectural Review Permit Findings: Currently no findings are identified in the Zoning Ordinance for the approval of Architectural Review permits.
- Minor Variances: Modify minor variance provisions that allow for administrative variances to allow for more flexibility from a numeric development standard by as much as 20% without strict variance findings.
- ADU Ordinance: Relocate ADU regulations as its own separate chapter in the municipal code and update the ordinance to comply with State ADU requirements. Revise ADU regulations to clarify approval, parking, and architectural requirements.

The proposed amendments would modernize the Coachella Municipal Code, allow greater flexibility in development standards, improve aesthetics of residential neighborhoods and commercial centers, streamline the development review process, and establish performance standards for energy efficiency and heat island reduction. The Planning Commission at the regular meeting of September 4, 2024 requested the following amendments be reviewed at a study session.

DISCUSSION/ANALYSIS:

Planning staff prepared code amendments to the Coachella Municipal Code and proposes several Municipal Code Amendments to Title 17, Zoning to streamline the Zoning Ordinance as follows:

Planned Unit Developments (Chapter 17.38)

- All Zoning Districts. Extends ability for a planned unit development (PUD) application across all zoning districts. The current ordinance limits planned unit developments to residential districts. Staff believes this change would promote flexibility and creativity for new development projects across all zoning districts. The City of Palm Springs allows for a planned unit development across all zoning districts.
- Procedure. The procedures for a planned unit development would be amended by removing the need for a PUD overlay zone and would only require approval of a conditions use permit (CUP). The City of La Quinta currently allows PUDs with approval of a CUP.
- Public Benefit. The new PUD standards would require a public benefit to offset impact of the exception from development standards which may include affordable housing, on-site

public amenities, or off-site improvements. The current PUD standards allow for flexibility in development standards without any consideration of a public benefit.

Development Standards (Chapter 17.60)

- Front Yard Wall: This would allow front yard courtyards in single-family zones by allowing a 6-foot-high wall built to front property line subject to findings related to design, materials, and health/safety considerations. The current wall standard requires that wall may not obscure view to the front yard.
- Front Yard Pool and Spa: Allows a front yard pool and spa with construction of a courtyard. The current standards prohibit front yard pools and spas.
- Driveway Trellis: Established development standards for a single-family driveway canopy as follows:
 - Height. Maximum height of 12 feet
 - Coverage: 60% total driveway coverage or 400 square feet in area, whichever is less.
 - Setbacks: 5 feet from side property lines and no encroachment into public right of way. Driveway canopies are not permitted in the C.M.C. but have proliferated as unpermitted structures throughout the city.

Administration Generally (Chapter 17.70)

- Appeals. Modify requirement of the application decision appeal date from 15 days on which the decision was made, rather than current standards that identifies the appeal date from when the notice of determination was mailed.
- Minor Modification Permit. Allow for minor modifications by 10% of any numerical development standard with approval of a minor modification permit with a limit of 4 modifications per land parcel without the requirement of variance hardship findings. The existing minor modification regulations of Section 17.70.120 is classified as a minor variance requiring variance hardship findings.
- Applicant Requests to Change Approved Applications. Establishes a process for project modifications by an applicant where the Planning Director may approve minor modifications if deemed minor by the Director. Any modification not considered minor shall require approval by the final decision-making authority that considered the project.

Architectural Review (Chapter 17.72)

- Architectural Review Findings. Establishes findings for granting architectural review approval.

Residential Districts (R-R Rural Rancho Chapter 17.11, S-N Suburban Neighborhood Chapter 17.13, G-N General Neighborhood Chapter 17.14, U-N Urban Neighborhood 17.15)

- Agricultural Uses. Add existing commercial agricultural activity as a permitted use.
- Energy Efficient Design and Heat Island Reduction Strategies. Requires energy efficient design and heat island reduction strategies for residential development to implement General Plan Policy 2.2 (Energy efficient building and site design strategies) and Policy 4.5 (Heat island reduction strategies). (S-N and G-N zones only)
- Perimeter Landscape Setback. Established a 10-foot minimum perimeter landscape setback for residential developments and an average 20-foot perimeter landscape setback. This is a common setback for Coachella Valley cities. A shade standard of 30 percent of landscape area is required. (R-R Chapter 17.11, R-E Chapter 17.12, S-N, G-N zones only)
- California Native Species. Requires California native plant and tree species in at least 40 percent of required landscape areas. (S-N and G-N zones only)
- Perimeter Rear-facing Building Variation. Require single-family dwellings greater than 1 story with rear elevations with frontage along perimeter streets to include structural variation. (S-N and G-N zones only)
- Vista Santa Rosa equestrian and agricultural themed improvements. Requires equestrian themed improvements modeled after the Vista Santa Rosa design guidelines at project perimeters along Avenue 50, Avenue 52, Van Buren Street, Avenue 53, Avenue 54 South of Avenue 50 to include equestrian rail fencing, agrarian lighting, signage, 10-foot-wide decomposed grant trail and date palms planted 20 feet on center. (S-N, G-N, and R-C zones only)
- Proactive Circulation Design. Residential projects with new proposed streets shall incorporate circulation design to minimize traffic speeds and reduce the need for speed bumps. (S-N and G-N zones only)

C-N Neighborhood Commercial Zone (Chapter 17.24)

- Remove building size limits. Remove the limit of 10,000 square feet for single commercial building floor area and 35,000 square feet for multi-tenant retail building floor area. The current building limits make many existing commercial buildings nonconforming structures.
- Cesar Chavez Street Sidewalk Improvements. Sidewalks shall be constructed at a minimum nine (9) feet for new development projects.
- New Cesar Chavez Street Development. New development on the Cesar Chavez Street Corridor shall demonstrate compliance with the Improving Neighborhood Connections Along Coachella's Harrison Street Corridor report.

C-N Neighborhood Commercial, C-G General Commercial and R-C Regional Commercial Zones (Chapters 17.24, 17.26, and 17.28)

- Agricultural Uses. Add existing commercial agricultural activity as a permitted use.
- Landscape Maintenance. All landscape areas shall be maintained consistent with approved landscape plans. Landscape modifications shall be approved by the Planning Director and referred to the Planning Commission for review at the Director's discretion.
- Rooftop Screening. Requires mechanical equipment to be screened.
- Energy Efficient Design and Heat Island Reduction Strategies Require Energy Efficient Design and Heat Island Reduction Strategies for Commercial and Residential Development to implement General Plan Policy 2.2 (Energy efficient building and site design strategies) and Policy 4.5 (Heat island reduction strategies).

M-S Manufacturing Zone (Chapter 17.30)

- Permitted Uses. Adds existing commercial agricultural activity and nurseries as permitted uses.
- Conditional Uses. Adds hotels as a conditional use on building sites along frontage of Major or Primary Arterials.

Accessory Dwelling Units (New Chapter 17.21)

- Accessory Dwelling Units (ADUs): Assign ADU regulations as its own code chapter and update ADU requirements for consistency with State Law. The modifications also eliminate the need for a separate ADU permit from a building permit and separate ADU permit fees.

The proposed amendments would provide much needed updates to the Coachella Municipal Code. Staff requests that the Planning Commission review and discuss the proposed amendments.

Chapter 17.24 C-N NEIGHBORHOOD COMMERCIAL ZONE

17.24.010 Intent and purpose.

This zone is intended to provide for every day convenience shopping intended to serve residential neighborhoods, consistent with the environmental requirements of such neighborhoods. Convenience shopping facilities are those which provide space for retail and service businesses serving the immediate neighborhood. This zone also provides the opportunity for multi-family housing mixed in with the neighborhood serving uses, all within convenient walking or biking distance of nearby neighborhoods. These areas provide gathering places for the residents of surrounding neighborhoods. The provisions of this zone are intended to minimize or eliminate, insofar as possible, any conflicting aspects of commercial land use within residential neighborhoods, particularly as related to traffic, type of activity, and site requirements. This zone implements the Neighborhood Center land use designation in the General Plan.

 - 1) — Converted on Single-family Lot: Only one ADU or JADU on a lot with a proposed or existing single-family dwelling on it, where the ADU or JADU:

- (i) — Is either: within the space of a proposed single-family dwelling; within the existing space of an existing single-family dwelling; or within the existing space of an accessory structure, plus up to one hundred fifty (150) additional square feet if the expansion is limited to accommodating ingress and egress.

- 1) — An ADU permit is considered and approved ministerially, without discretionary review or a hearing.
 - 2) — The city must act on an application to create an ADU or JADU within sixty (60) days from the date that the city receives a completed application, unless either:
 - (i) — The applicant requests a delay, in which case the 60-day time period is tolled for the period of the requested delay, or
 - (ii) — In the case of a JADU and the application to create a junior accessory dwelling unit is submitted with a permit application to create a new single-family dwelling on the lot, the city may delay acting on the permit application for the

JADU until the city acts on the permit application to create the new single-family dwelling, but the application to create the JADU will still be considered ministerially without discretionary review or a hearing.

5. ~~General ADU and JADU Requirements. The following requirements apply to all ADUs and JADUs that are approved under subsections (4)(a) or (4)(b) above:~~
- a. ~~Zoning.~~
- 1) ~~An ADU or JADU subject only to a building permit under subsection (4)(a) above may be created on a lot in a residential or mixed-use zone.~~
 - 2) ~~An ADU or JADU subject to an ADU permit under subsection (4)(b) may be created on a lot that is zoned to allow single-family dwelling residential use or multifamily dwelling residential use.~~
- b. ~~Fire Sprinklers. Fire sprinklers are required in an ADU if sprinklers are required in the primary residence.~~
- c. ~~Rental Term. No ADU or JADU may be rented for a term that is shorter than 30 days.~~
- d. ~~No Separate Conveyance. An ADU or JADU may be rented, but no ADU or JADU may be sold or otherwise conveyed separately from the lot and the primary dwelling (in the case of a single-family lot) or from the lot and all of the dwellings (in the case of a multifamily lot).~~
- e. ~~Septic System. If the ADU or JADU will connect to an onsite water treatment system, the owner must include with the application a percolation test completed within the last five years or, if the percolation test has been recertified, within the last ten (10) years.~~
- f. ~~Owner Occupancy.~~
- 1) ~~All ADUs created before January 1, 2020 are subject to the owner-occupancy requirement that was in place when the ADU was created.~~
 - 2) ~~An ADU that is created after that date but before January 1, 2025, is not subject to any owner-occupancy requirement.~~
 - 3) ~~All ADUs that are created on or after January 1, 2025 are subject to an owner-occupancy requirement. A natural person with legal or equitable title to the property must reside on the property as the person's legal domicile and permanent residence.~~
 - 4) ~~All JADUs are subject to an owner-occupancy requirement. A natural person with legal or equitable title to the property must reside on the property, in either the primary dwelling or JADU, as the person's legal domicile and permanent residence. However, the owner-occupancy requirement of this paragraph does not apply if the property is entirely owned by another governmental agency, land trust, or housing organization.~~
- g. ~~Deed Restriction. Prior to issuance of a building permit for an ADU or JADU, a deed restriction must be recorded against the title of the property in the county recorder's office and a copy filed with the planning director. The deed restriction must run with the land and bind all future owners. The form of the deed restriction will be provided by the city and must provide that:~~
- 1) ~~The ADU or JADU may not be sold separately from the primary dwelling.~~
 - 2) ~~The ADU or JADU is restricted to the approved size and to other attributes allowed by this section.~~
 - 3) ~~The deed restriction runs with the land and may be enforced against future property owners.~~

- 4) — The deed restriction may be removed if the owner eliminates the ADU or JADU, as evidenced by, for example, removal of the kitchen facilities. To remove the deed restriction, an owner may make a written request of the director, providing evidence that the ADU or JADU has in fact been eliminated. The director may then determine whether the evidence supports the claim that the ADU or JADU has been eliminated. Appeal may be taken from the director's determination consistent with other provisions of this code. If the ADU or JADU is not entirely physically removed, but is only eliminated by virtue of having a necessary component of an ADU or JADU removed, the remaining structure and improvements must otherwise comply with applicable provisions of this code.
- 5) — The deed restriction is enforceable by the director or his or her designee for the benefit of the city. Failure of the property owner to comply with the deed restriction may result in legal action against the property owner, and the city is authorized to obtain any remedy available to it at law or equity, including, but not limited to, obtaining an injunction enjoining the use of the ADU or JADU in violation of the recorded restrictions or abatement of the illegal unit.
6. — Specific ADU Requirements. The following requirements apply only to ADUs that require an ADU permit under subsection (4)(b) above.
- a. — Maximum Size.
- 1) — The maximum size of a detached or attached ADU subject to this subsection (6) is eight hundred fifty (850) square feet for a studio or one-bedroom unit and one thousand (1,000) square feet for a unit with two bedrooms. No more than two bedrooms are allowed.
 - 2) — An attached ADU that is created on a lot with an existing primary dwelling is further limited to fifty (50) percent of the floor area of the existing primary dwelling.
 - 3) — Application of other development standards in this subsection (6), such as FAR or lot coverage, might further limit the size of the ADU, but no application of FAR, lot coverage, or open-space requirements may require the ADU to be less than eight hundred (800) square feet.
- b. — Floor Area Ratio (FAR). No ADU subject to this subsection (6) may cause the total FAR of the lot to exceed forty five (45) percent, subject to subsection (6)(a)(3).

~~2) — Any impact fee that is required for an ADU that is seven hundred fifty (750) square feet or larger in size must be charged proportionately in relation to the square footage of the primary dwelling unit. (e.g., the floor area of the primary dwelling, divided by the floor area of the ADU, times the typical fee amount charged for a new dwelling.) "Impact fee" here does not include any connection fee or capacity charge for water or sewer service.~~

~~b. — Utility Fees:~~

~~1) — Converted ADUs and JADUs on a single-family lot, created under subsection (4)(a)(1) above, are not required to have a new or separate utility connection directly between the ADU or JADU and the utility. Nor is a connection fee or capacity charge required unless the ADU or JADU is constructed with a new single-family home.~~

17.77.010 Intent and purpose.

The purpose of a pre-application review includes the following:

- F. To avoid significant investment in the design of a project without preliminary directions from city staff; and to identify issues that may arise during review of the projects (e.g., conformance with applicable design guidelines, conformance with goals, policies, and objectives of the general plan, environmental requirements and possible recommended mitigation measures, possible recommended conditions of approval, and requirements for public improvements).

17.77.060 Validity of agency comments.

- A. Agency Comments. No issues other than those identified in the written report shall be raised by staff during processing of the development proposal unless there are changed circumstances or new information identified during the processing of entitlement applications. The written report shall be valid for two years from the date thereof, unless a shorter period is specified in the written report.
- B. Changed Circumstances. Notwithstanding the provisions of this section, where the director, department head, or agency representative subsequently determine that conditions have changed or that the existing information does not fully address all significant concerns, staff may require an additional study or studies not specified in the pre-application written report. Similarly, city and special district policies may change during the report's two year life, and policy recommendations, which were valid when the written report was issued, may or may not be valid when the development proposal is filed and processed. In such cases, the development application will be subject to City and special district policies in effect at the time of filing or hearing, whichever is appropriate. State and federal policies and laws unknown or not effective at the time of pre- application review may also affect the subsequent application.
- C. Amended Recommendations. Notwithstanding the provisions of this section, the written report shall not in any manner whatsoever bind any city hearing body and shall not preclude such hearing body from requiring additional information or studies or from making additional recommendations in the course of the decision making process.

17.77.070 Revisions.

- A. Revisions. The pre-application written report shall apply to the development proposal described in the request for pre-application and discussed at the pre-application review meeting. Substantial revisions to the proposal after issuance of the written report which do not conform to the agency comments shall invalidate the written report.
- B. New Project. To process a substantially revised proposal, a new request for pre-application review and new fee will be required of the applicant. For purposes of this section, the director shall determine whether or not revisions made are substantial and constitute a new project.
