The quote from Kyle reflects what I believe is a better product for bike roads. You can see it in action in the Stonecliffe area, as it is what Chad Belonga recently supplied and installed on those roads. It is recognizable by a reddish color.

Dennis,

I cut all our mobilization costs back to the island to \$0. The money you see in the "Mobilization" phase include superintendent costs, ferry fees for trucking the material and other general indirects...

If you have any questions, please reach out.

Attached are pictures of Grand Ave transition to Park Ave. I have added gravel to eliminate the bump.
