Feb. 25, 2021

In Attendance: Shawn Gillen, Pete Gulbranson, George Shaw, Monty Parks, Barry Brown (via Zoom), Stan Bearden

Approve Minutes- PG, GS Minutes approved.

Shawn Gillen and Pete Gulbranson spoke with Barry Brown about the work going on at the Old Marine Science Center.

Shawn Gillen and Peter Gulbranson went over the Water Sewer CIP with Barry Brown. Spoke about using LMIG to pay for paving of streets that are torn up to do work on the waterlines. Barry asked about the age of our water/sewer system. We have some sewer lines that are over 120 years old. We want to be in a manageable cycle of replacement. Some of the old lines go under houses. Old lines tend to be on the North End.

Pete Gulbranson spoke about our needs in terms of garbage trucks. We need a little bigger truck. We are actually considering Enterprise Lease program to get some trucks for DPW. Barry Brown and Peter Gulbranson spoke about different plants and trees we could plant to beautify the entrance to DPW.

Shawn Gillen spoke about where our spending levels need to be in order to use the building assessment as a guide for improvements.

Peter Gulbranson reviewed some of the CIP with Barry Brown who could not be present at the last Infrastructure meeting. (2-11-21)

Peter Gulbranson will send the committee the updated CIP.

9 Lighthouse Lane – Behind Salt Pines – is having drainage issues. Peter Gulbranson spoke with the resident. Shawn Gillen spoke about the issue. We need to make sure the City actually installed it. If we did, then we own aspects of the problem, but the legal questions must be addressed first. It may be a private road. Barry Brown and Pete Gulbranson will go together to meet with the resident.

Barry Brown – asked about the backflows. Pete Gulbranson explained what we are working on. We have been putting five in per year, roughly.

Pavillion – Peter Gulbranson – The bids are due March 9th. We will award it at the second Council meeting in March.
