BOARD REPORT

CRTPO presentation. Mr. Neil Burke, Deputy Director, and Secretary to the Board, began the presentation and introduced fellow members, Will Snyder, Brian Elgort, and Judy Dellert. He said that MPO's are federally designated transportation planning agencies for any urban area with a population greater than 50,000 residents. The CRTPO is the designated agency for the Charlotte urban areas, which includes the counties of Iredell, Mecklenburg, and most of Union county. There are over 400 MPO's in the United States. Funding is contingent upon implementing the federally mandated three C-planning

processes: continuing, cooperative and comprehensive. The planning area includes 21 cities and towns and 3 counties. Council Member Amelia Stinson-Wesley is the CRTPO delegate for Pineville and Mayor Phillips is the alternate. NCDOT is the project deliverer for many of the large capital projects. The CRTPO acts as the intermediate area for the Federal Highway Administration, the NCDOT and a number of jurisdictions in our planning area.

Will Snyder, Associate Planner, continued the presentation with explaining the purpose of a Metropolitan Transportation Planning (MTP) and outlined its key components. You can see more information at 2055MTP.org. They coordinate their efforts with NCDOT and are encouraging public involvement by sharing their schedule of opportunities to provide input.

Brian Elgort, Project Implementation Coordinator, discussed infrastructure and the RAISE Program. It's focused on making roads safer, making it easier for people to move around their community and improving supply chains to keep costs down. They recently announced that they were awarded \$5 million dollars for making roads safer. This equates to safety improvements, accessible design, flexible trips, equitable planning, and reconnecting communities (SAFER).

Neil Burke summarized and discussed member benefits. They meet the first Thursday of every month at 10:00 am. There is a public comment period at the end of each meeting to give feedback and weigh in on projects.
