Councilwoman White provided an update on the Louisiana Development Ready Communities Program. They met with Louisiana Economic Development last week for the Louisiana Development Ready Communities Program. The team consisted of Stacey Neal and Robbie Abboud from Louisiana Economic Development. They are now putting together a community survey and doing a community assessment. When complete we will have a strategic plan for economic development steps that the City can take to make us more appealing to businesses wanting to locate in Louisiana. It will also put us ahead of other communities when businesses reach out to Louisiana Economic Development because we will be part of the certified plan. Be on the lookout for a survey. We will put it together, send it out and try to push it out in several ways to try and get the community to fill it out. We will be updating the Council and the public as we have updates on that program.

We will not sell fuel during the work as we will be changing the tanks too.

Ike Funderburk, City Attorney

- *He reached out to Louisiana Crime Stoppers last week and they have informed him that they will have the cameras installed within the next 10 days. At which time, they will invoice the City and we will pay that since it has already been approved by the Council.*
- *The City will be receiving about \$52,000 more than we anticipated as a result of the American Rescue Plan. We do not know when the first payment will arrive.*
- *The statement of loss has been filed for Hurricane Delta and it has been accepted by our insurance company. Partial payment for the claim has been received and the balance*

could be received any day now. Upon receipt of that check, the City will be filing a supplemental claim for damages that occurred as a result of the hurricane but were not originally identified.

Clay Menard, Public Works Director

- *We hauled a lot of dirt to Harmony Park, leveled it and dressed it up. We will see how it will handle all the recent rain. We have cut a swale ditch from the western boundary coming back toward South Lamar along the property line to make sure there will be no flooding from the neighbor unto the park and also no flooding from the park to the neighbor's property.*
- *The splashpad was put in service last week. There are a few minor things that have to be worked out. We are looking at putting a pressure reducer valve. There were a lot of kids out there this past weekend.*
- *The Fifth Street inlet project was completed. We installed two new inlets.*
- *We replaced a big section of sidewalk on Main Street in front of St. Mary Magdalen Church that were trip hazards.*
- *City workers cleared the right of way on South Hollingsworth.*
- *For the walking trail grant, he and Mr. Gene have to attend the public agency qualification training in Baton Rouge. He will be attending tomorrow and Mr. Gene will attend on Thursday. That is a requirement to receive the grant.*
- *Councilman Touchet asked about the sidewalk at Herod Elementary. Clay stated that he and Richard took a look at the problem. It is the telephone cables underneath that. We did reach out to AT&T but we have not heard back from them. It is all their lines in there that causes the erosion. We are working on a solution for that. We have barricaded the area.*
- *Councilman Touchet asked about the concrete that was put for the parish to pick up. Clay stated the parish will pick up concrete at certain times of the year.*

Tommy Picard, Public Works Director-QSA

- *Discussed the necessity of times for the splashpad. He will have a sign made with posted times once it is decided. Councilman Broussard stated we could go from 7 AM to 9PM since school is out. This would concur with the times the other parts of the park are open. Tommy stated that Brian Ford, with the Boys and Girls Club, would like to have the splashpad one day during the week for use by them. Councilwoman White asked if the splashpad would be open every day. Mayor Piazza stated that would be a council decision. He was thinking that maybe we would have it open on Saturday and Sunday and upon special request, during the week. Councilwoman White stated that she thinks it should be open every day of the week. Mayor Piazza stated that we would not open it during the rain. Councilman Broussard stated maybe we could give the Brian Ford Wednesday. Councilwoman White stated he should only have it for a half day. Mayor Piazza stated we will get a better idea now that it is open and we can change the hours and days as needed. He also wanted the Council to consider if they want to allow people to reserve it for special events. Tommy stated people are willing to pay for that. Mayor Piazza stated we would not allow special events on weekends. Councilwoman White suggested that we could charge \$25 per hour. Councilman Plaisance asked how we would keep the other children out of the splashpad if we let someone reserve it. Councilwoman White stated maybe it would be best to not allow it to be reserved the first summer and then we can see how it goes. They can still have their party there but it just wouldn't be private.*
- *Brandon Briggs will start on the tennis court gate tomorrow.*
- *Had a tournament this past weekend. We had a lot of rain.*
- *We will start trimming the trees in the park.*

- *Paul will be painting all the lines where they walk. We will paint it yellow.*
- *We need some no parking signs. Mayor Piazza asked him to look at temporary signs that could be put out when needed. We will have the road markings repainted.*

Mayor Mark Piazza

- *Discussed the Police Chief's breakdown of the service calls.*
- *The splashpad is open. He will get with Tommy to discuss the specifics and come up with some signs and details. It is a learning experience. We will monitor the number of people utilizing the splashpad. They were out there all weekend long. He thanked the Rotary Club for their participation. It is a great addition to the park. We have some new tables that we will put back around the splashpad. It is a big improvement and it looks great. Along with the new tennis courts, we have had some really nice improvements to Comeaux Park.*
- *We need to put up security cameras at the park. He will get with the Chief about that. We had a break in at the press box in Seller's Field.*
- *He distributed a sheet that he received from LEPA on the residential electric bills for the month of May. If you look at how we compare to other electricity providers, it is fantastic news for our residential constituents. When you can compare us when using 1,000 KWH to be only \$2.00 away from SLEMCO that is good news. We are way below CLECO and Entergy. The price of natural gas is \$3.60 compared to \$2.00 last summer. We have a fixed rate with our electricity provider, Constellation.*

Councilman Brady Broussard, Jr.

- *There were hundreds of cars at Comeaux Park this weekend for the tournament. It was a big success.*
- *The splashpad is a great success. There were a lot of children on the splashpad. Credit to the Abbeville Rotary Club and the City of Abbeville.*

Councilman Francis Plaisance

- *Recognized 4-H and the Abbeville Garden Club. They will be planting at least 10 trees in the large dog park at LaFitte Park.*
- *People are catching a lot of bass in the park. There was a 7-pound bass caught recently.*

There being no further business to discuss, Mayor Piazza declared this meeting adjourned.
