PLEDGE OF ALLEGIANCE: Mayor Kilsheimer said while doing some research on Black History Month, he came across the story of noted African-American scientist George Washington Carver. A botanist and inventor, he was born around 1864, educated at Iowa State University, and later became a faculty member of the prestigious Tuskegee Institute. His reputation as a scientist is based on his research and promotion of crop rotation and the development of crops that were alternatives to cotton, including peanuts, soybeans, sweet potatoes, and pecans. He urged farmers to use the alternative crops as sources of food, creating hundreds of recipes and bulletins that he distributed to farmers. He also developed hundreds of products including plastics, paints, dyes and even a type of gasoline. His advice was sought from world leaders such as President Theodore Roosevelt, Mahatma Gandhi and business tycoons such as Henry Ford and Thomas Edison. His scholarship and research contributed to improve quality of life for many farming families and made Carver an icon for all Americans. He asked everyone to reflect on the pioneering spirit and legacy of George Washington Carver as he led in the Pledge of Allegiance.

The study was conducted over the past year by Littlejohn Consultants which was funded by five key stakeholders. He affirmed there was community participation that included two community meetings with the property owners within the small area study, as well as two meetings with the stakeholders that funded the project. There were also presentations and workshops with the Planning Commission and City Council. He reviewed a Power Point presentation, and reviewed maps of a map of the market area and small area study area. A copy of his presentation is on file in the Community Development Department. The City Clerk read the title as follows:

RESOLUTION NO. 2015-03

AUTHORIZATION TO EXECUTE A JOINT PARTICIPATION AGREEMENT BETWEEN THE STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION (THE DEPARTMENT) AND THE CITY OF APOPKA (CITY) FOR THE CONSTRUCTION OF CURB RAMPS AND PEDESTRIAN CROSSINGS AT THE INTERSECTION OF STATE ROAD 500/US 441 AND HIAWASSEE ROAD (FM NUMBER 432402-3-58-01) FOR THE PROJECT “CONSTRUCTION OF CURB RAMPS AND PEDESTRIAN CROSSINGS AT THE INTERSECTION OF STATE ROAD 500/US 441 AND HIAWASSEE ROAD.”

Jay Davoll, Community Development Director, gave a brief lead in, stating this was basically a joint participation agreement with the FDOT. He explained with the Sam’s project approved in

2013, they had to obtain a driveway permit for State Road 441. At the time they approached FDOT, they were also advised that FDOT had some other work they had planned on doing in this intersection, but further in the future, and they negotiated having this construction project done all at the same time with FDOT reimbursing for the work. He advised that FDOT cannot reimburse a private company, but they can reimburse the City, so the City will coordinate this with the private company. He advised there were two minor corrections to the information provided: page 314 of the agenda packet had a blank under the term and he received the date of September 30, 2015 today for completion of the Project. Also, Exhibit C has a correction of dates for the beginning of construction in February 2015, and completing the construction by June 2015, with the final closeout in September. He advised these modifications were acceptable by FDOT, staff, and the representatives for Sam's Club.

In response to Commissioner Dean inquiring if the City would have any authority for bids with this project, Mr. Davoll advised that Sam's Club has all of the contractors and subcontractors hired, and with accordance of the agreement, they also have a construction inspection company that is doing all of the construction inspections and providing reports on a daily basis. The City is helping to expedite the work in the intersection to be done all at one time.

MOTION by Commissioner Dean, and seconded by Commissioner Ruth to adopt Resolution No. 2015-03 as presented. Motion carried unanimously with Mayor Kilsheimer, and Commissioners Dean, Velazquez, and Ruth voting aye.

He advised the Planning Commission and Development Review Committee recommended approval.

Bob Blanchard said he was the Vice President of the Sheeler Oaks Community Association and stated they have had a problem for many years with speeding vehicles. He stated Indian Bluff and Larkwood were being used as a cut through. He said they didn't mind anyone driving through, but they wanted to keep the speed down through this residential area. He affirmed they feel that they have a solution and suggested having a 3-way stop at two intersections would slow some of the speeding. He declared their Association would pay for the stop signs and the installation.

Alexander Smith said he was a resident of Apopka and as a resident, at a previous City Council meeting there were several comments made in reference to things that appeared not to be in sync on both sides of the railroad tracks. As a result of that, he would like to address the Council that we have a "One Apopka Resolution" that would be a transparency resolution. He provided copies of the Draft Resolution for "One Apopka for Progress" and asked the Council to consider it for adoption. He read the resolution and a copy of which is on file in the Clerk's office. He stated he thought we were headed in the right direction and this would assist in that movement.

Ray Shackelford said he hoped the Council would give consideration to the "One Apopka for Progress" resolution. He stated every Council meeting they come to, they hear some outstanding prayers, including the words "we all are children of God" and the Pledge of Allegiance to the Flag was also recited, including the words "and justice for all" and declared if we are sincere and committed to those words, there should be overwhelming support for

this resolution. He also said he would appreciate the City contributing to the Special Olympics held at Apopka High School. He applauded the Old Florida Outdoor Festival and said it can be bigger with greater diversity in planning and implementation.

Commissioner Dean requested the "One Apopka Resolution" be placed on the agenda for the meeting on the third Wednesday in March for a vote stating it was about transparency and inclusion.
