INVOCATION – Commissioner Arrowsmith gave the invocation.

PLEDGE OF ALLEGIANCE – Mayor Kilsheimer said on June 1, 1942, Apopka leaders voted unanimously to enter into a five year agreement with Dr. Tommy McBride for the Apopka Municipal Airport. With the country deeply involved in the war effort and the military in need of skilled pilots, Doctor McBride and his wife, an accomplished aviatrix, Helen McBride, successfully appealed to the City to partner in development of a pilot training school at the City's airfield which was located on what is now Dream Lake Elementary School. By the middle of 1943, it was reported that Helen McBride had trained more than 300 bomber pilots. He asked everyone to remember the contributions of the McBride family to Apopka's history and certainly to the success of our Country's war efforts during World War II as he led in the Pledge of Allegiance.

4. Pre-Budget Presentation - Presented by Chief Bronson

Chief Bronson provided a Power Point presentation on his upcoming fiscal year budget and said the main area he was going to address was the need for a new Fire Station, vehicles and equipment, and some essential medical equipment, as well as two replacement staff vehicles. He said the City is growing and the land continues to be developed. In 2014, the Apopka Fire Department responded to more than 5,300 emergency calls, and 80% of those calls were medical emergencies. The call volume has steadily increased by an average of 2% each year. The City is currently covered by four stations: Station 1 responds to an average of 2,400 emergency calls per year, Station 2 responds to around 1,100 calls per years, Station 3 handles 1,000 calls per year, and Station 4 responds to an additional 900 emergencies per year. He declared this arrangement of centrally located Fire Stations has served the City very well up to this point in time. However, with the expected growth in the north and south regions of the City, additional stations will be needed to adequately cover these locations. He advised the first location for this consideration is a large area to the north which may experience some response times that border being acceptable to ISO and NFPA standards. The second location for consideration is to the south where new commercial and residential construction is planned. This growth could greatly increase the call volume for the station that currently serves this area. He went on to review the required equipment and the vehicle inventory, as well as replacement of vehicles and equipment.

Chief Bronson responded in the affirmative when Commissioner Dean inquired if the Fire Department had a ladder truck to accommodate the height of the new hospital.

Mayor Kilsheimer advised this was a quasi-judicial hearing. Witnesses were sworn in by the City Clerk.

Tom Sullivan, Esquire, representing the applicant, said they agree with staff’s recommendation and would appreciate Council’s continued support on the project.

Mayor Kilsheimer opened the meeting to a public hearing. No one wishing to speak he closed the public hearing.

Commissioner Velasquez said she had met previously with Mr. Moon earlier in the day regarding some questions she had. She asked for clarification with regards to when the spine road would be constructed. She expressed a concern for public safety.

Mr. Sullivan said there were two different agreements: the Development Agreement and the Transportation Agreement. He said the Transportation Agreement has some extensive obligations on the part of the developer in terms of constructing a spine road through the center of the project to provide connectivity. As part of their initial phase, which cannot go above 455 units, they will be required to construct Segment A of the spine road.

Mr. Moon further clarified the road is broken into Segments A, B, C, and D. The development is in phases. There is no required sequence for the development.

Commissioner Arrowsmith said he could agree with the development as such, but he could not agree with the long term ingress/egress of that total area. He said we needed something like Vick Road in this area for what is being called the spine road.

Mayor Kilsheimer said he would rather see the road meander rather than being straight in order to calm and slow the traffic.

Frank Bombeeck, applicant, said the City was currently working with property owners for the north access of the spine road. He advised Apopka Clear Lake Investments have secured enough entitlements and right, so both sides will be completely open to public safety from both sides.

In response to Commissioner Velasquez inquiring if the developer would consider lowering the ceiling for construction of Segment A of the spine road from in excess of 455 units to 234 units, the applicant, Ken Stoltenberg responded in the affirmative.

Mayor Kilsheimer opened the meeting to a public hearing.

Venus Griffith said she lives in Clear Lake Estates and when they moved there it was extremely quiet and they were the only gated community off of Binion Road. She expressed a concern regarding safety when pulling out on to Binion Road as well as the added traffic.

No others wishing to speak, Mayor Kilsheimer closed the public hearing.

Mr. Moon and City Attorney Shepard were in agreement to recommend having two motions: one to adopt the ordinance and a separate motion for the Development Agreement subject to the change presented that in every place for both the Transportation Agreement and the Development Agreement where the number is 455 be changed to 234.

MOTION by Commissioner Velasquez and seconded by Commissioner Ruth to adopt Ordinance 2433 subject to the change of 455 units to 234 units. Motion carried by a 4/1 vote with Mayor Kilsheimer, and Commissioners Dean, Velazquez, and Dean voting aye and Commissioner Arrowsmith voting nay.
