**Monday, September 20, 2021
3:30 PM**

MINUTES

1. **CALL TO ORDER**

Chairman Rodman called the meeting to order at 3:30 PM

PRESENT

Committee Chairman Stu Rodman
Committee Vice-Chair York Glover
Council Member Brian Flewelling
Council Member Joseph F. Passiment
Council Member D. Paul Sommerville
Council Member Gerald Dawson
Council Member Chris Hervocho
Council Member Mark Lawson

ABSENT

Council Member Alice Howard
Council Member Lawrence McElynn
Council Member Logan Cunningham

2. **PLEDGE OF ALLEGIANCE**

Chairman Rodman led the Pledge of Allegiance.

3. **FOIA**

Chairman Rodman stated public notice of this meeting had been published, posted, and distributed in compliance with the SC FOIA Act.

4. **APPROVAL OF AGENDA**

Motion: It was moved by Committee Vice-Chair Glover, seconded by Council Member Lawson to approve the agenda. The motion was approved without objection.

5. **APPROVAL OF MINUTES - JULY 19, 2021 AND AUGUST 16, 2021**

Motion: It was moved Council Member Lawson, seconded by Committee Vice-Chair Glover to approve the minutes from July 19, 2021, and August 16, 2021. The motion was approved without objection.

6. **CITIZENS COMMENTS - (ANYONE who wishes to speak during the Citizen Comment portion of the meeting will limit their comments to no longer than three (3) minutes (a total of 15 minutes) and will address Council in a respectful manner appropriate to the decorum of the meeting, refraining from the use of profane, abusive, or obscene language)**

Caroline Smith, the All Joy Preservation Commission, commented on the All joy Pathway project.

7. **ASSISTANT COUNTY ADMINISTRATOR'S REPORT**

To see Assistant County Administrators' report, click the link below.

<https://beaufortcountysc.new.swagit.com/videos/139793>

8. **RECOMMENDATION OF AWARD FOR RFQ 060821 CONSULTING SERVICES TO PROVIDE AN EVALUATION AND STUDY OF ISSUES RELATED TO BEAUFORT COUNTY PUBLIC BOAT LANDINGS (\$312,965.00)**

Mark Rosenau stated Beaufort County published a solicitation for the Consulting Services to provide a study of issues related to Beaufort County Public Boat Landings on May 7, 2021 to which 4 firms submitted qualifications. A committee of 4 evaluated the submissions and determined that Creech and Associates, PLLC was the most qualified.

Discussion: To see the full discussion click the link below.

<https://beaufortcountysc.new.swagit.com/videos/139793>

Motion: It was moved by Council Member Passiment, Seconded by Council Member Dawson to approve award for RFQ 060821 consulting services to provide an evaluation and study of issues related to Beaufort County public boat landings (\$312,965.00) to move forward to County Council for approval. The motion was approved without objection.

9. **REQUEST TO PURCHASE CATERPILLAR MODEL 323 EXCAVATOR W/ LONG REACH (\$221,823.85)**

10. **REQUEST TO PURCHASE OF A TIGER TRUCKAT MOWER (\$218,622.40)**

11. **REQUEST TO PURCHASE PUBLIC WORKS - PURCHASE OF FORD F550 (\$149,826.00)**

Neil Desai stated the need to Purchase of CAT 323 Excavator with the long reach boom. Since there is a current inventory of CAT products, maintenance costs will be streamlined. The excavator is a piece of equipment that is used in numerous different facets, it is essential to the operations of the Public Works Department. The Purchase of Truckat Mower is an essential piece of equipment that will be utilized by the Public Works Department to maintain the County's roadside Right of Ways. The Ford F-450 is currently being used by First Vehicle Services as a Field Service Vehicle, which has 156K miles and numerous mechanical issues. Vic Bailey, a vendor on the state contract, has offered to honor the cost of the vehicle at \$149,826. The funding source for this purchase has been approved in the FY2022 budget within the Public Works Department.

Discussion: To see the full discussion click the link below.

<https://beaufortcountysc.new.swagit.com/videos/139793>

Motion: It was moved Council Member Lawson, seconded by Council Member Dawson to approve the purchase of Caterpillar Model 323 Excavator with Long Reach, a Tiger Truckat Mower, and a Ford F550 and move forward to County Council for approval. The motion was approved without objection.

12. **RECOMMENDATION TO AWARD RFQ #042721E, INDOOR POOL RENOVATIONS ARCHITECTURE AND ENGINEERING SERVICES (> \$1,000)**

Dave Wilhelm stated RMF contract is estimated at \$75,420 over a 112-calendar day period to study/report on the 3 areas of evaluation. With \$1,000 for reimbursable expenses and 10%contingency, the total project cost is \$82,500 to be funded from 2019A GO Bond- other improvements PAR Pools- 40110011-54436 with a balance of \$42,850.

Discussion: To see the full discussion click the link below.

<https://beaufortcountysc.new.swagit.com/videos/139793>

Motion: It was moved by Council Member Dawson, seconded by Council Member Lawson to approve the award of contract for indoor pool renovations Architecture and Engineering Services to RMF Engineering. The motion was approved without objection.

13. **DISCUSSION ON FINANCING FOR THE HILTON HEAD ISLAND AIRPORT EXPANSION**

Jon Rembold stated The Hilton Head Island Airport brings approximately \$405M in revenues to Beaufort SC. Funding this expansion with Local Hospitality Tax Funds would allow for the progress of the expansion. It would be a millage-neutral source of funding.

Hayes Williams presented HHI Airport Terminal Expansion Financial Options Presentation

Discussion: To see the presentation click the link below.

<https://beaufortcountysc.new.swagit.com/videos/139793>

Motion: It was moved by Council Member Flewelling, seconded by Committee Vice-Chair Glover postponed until there is a more definitive proposal on financing from Hilton Head. The motion was approved without objection.

14. **WIMBEE CREEK FISHING PIER – CONDITION ASSESSMENT**

Andrea Atherton stated McSweeney Engineering performed routine inspections of the pier deck and structure in 2018 and 2019. As requested by the County in 2020 they provided an analysis of six (6) repair and demolition alternatives along with probable costs. Alternatives A through F and the cost for a new timber pier are presented for consideration. Alternates range from “do nothing” to various rehabilitation scenarios and a complete demolition alternative with an option for constructing a new timber pier.

Discussion: To see the presentation and discussion click the link below.

<https://beaufortcountysc.new.swagit.com/videos/139793>

15. **UPDATE 170 IMPROVEMENTS (BETWEEN 278 AND 462)**

Status: For Informational Purposes Only

Discussion: To see the discussion click the link below.

<https://beaufortcountysc.new.swagit.com/videos/139793>

16. **SC 170 ACCESS MANAGEMENT PLAN NORTH**

Juliana Smith state Beaufort County and the City of Beaufort are conducting an update from Parris Island Gateway to Castle Rock Road. Engineering services from Andrews Engineering have been procured under small A&E.

Status: For Informational Purposes Only

Discussion: To see the full discussion click the link below.

<https://beaufortcountysc.new.swagit.com/videos/139793>

17. **FIRST READING OF AN ORDINANCE AUTHORIZING THE COUNTY ADMINISTRATOR TO EXECUTE A MODIFICATION OF DRAINAGE EASEMENT ASSOCIATED WITH PARCEL #R112-031-000-0628-0000**

Neil Desai stated Beaufort County was granted a 40' drainage easement by William D. Trask and Harold E. Trask, Jr, recorded in Deed Book 567 on Pages 1768-1769 on 12- 28-1990. The existing drainage ditch does not lie in the area depicted on the Original Easement Plat, and a portion of the Original Drainage Easement associated with parcel R112-031-000-0628-0000was abandoned. Ditch is located off Hwy 170 near Ashton Overlook Dr.

Motion: It was moved by Council Member Sommerville, seconded by Committee Vice-Chair Glover to approve first reading of an ordinance authorizing the County Administrator to execute a modification of drainage easement associated with parcel #R112-031-000-0628-0000. The motion was approved without objection.

18. **CHAIRMAN'S WRAP UP**

19. **ADJOURNMENT**

The meeting adjourned at 5:50 PM

Public Facilities Committee Beaufort County, SC

This meeting will be held both in person at the County Council Chambers, 1000 Ribaut Road, Beaufort, and also virtually through Zoom. Please be aware that there is limited seating available for the in-person meeting, and attendees must wear masks.

Monday, October 18, 2021
3:30 PM

MINUTES

1. **CALL TO ORDER**

Chairman Rodman called the meeting to order at 3:41 PM

PRESENT

Committee Chairman Stu Rodman
Committee Vice-Chair York Glover
Council Member Brian Flewelling
Council Member Joseph F. Passiment
Council Member Gerald Dawson
Council Member Chris Hervochon
Council Member Mark Lawson
Council Member Logan Cunningham

ABSENT

Council Member D. Paul Sommerville
Council Member Alice Howard
Council Member Lawrence McElynn

2. **PLEDGE OF ALLEGIANCE**

Chairman Rodman led the Pledge of Allegiance.

3. **FOIA**

PUBLIC NOTIFICATION OF THIS MEETING HAS BEEN PUBLISHED, POSTED, AND DISTRIBUTED IN COMPLIANCE WITH THE SOUTH CAROLINA FREEDOM OF INFORMATION ACT

4. **APPROVAL OF AGENDA**

Motion to amend: It was moved by Committee Vice-Chair Glover, seconded by Council Member Dawson to amend the agenda by moving agenda item #18 to be agenda item# 7. The motion was approved

without objection.

5. **CITIZEN COMMENTS**

Carol Crutchfield commented on King George Road.

Joe Mac commented on Green Street Gym.

6. **ASSISTANT COUNTY ADMINISTRATOR'S REPORT**

AGENDA ITEMS

7. **PRESENTATION BY THE CITY OF BEAUFORT APPOINTED CHARLES LIND BROWN COMMUNITY CENTER TASK FORCE.**

Status: For Informational Purposes Only

Discussion: To see the full discussion and Presentation click the link below.

<https://beaufortcountysc.new.swagit.com/videos/14177>

8. **RECOMMENDATION OF AWARD RFP HXD 091021 LOWCOUNTRY COMMERCIAL SERVICES (\$259,424)**

Jared Fralix stated the existing county-wide contractor was not willing to provide the level of service needed at the airport, so the airport requested permission to withdraw from that program. This is the second time this opportunity was offered for bid. The initial round did not produce a suitable solution so the opportunity was rewritten and re-bid. In the interim, the airport executed a short-term contract with Lowcountry Commercial Services (LCCS), whose workmanship was loudly and consistently praised by airport tenants. Lowcountry Commercial Services bid is a total of \$235,840 to provide janitorial services at Hilton Head Island Airport. With a 10% contingency of \$23,584, the total cost of these services is \$259,424. The funding source for the janitorial services is the expense account 54000011-51170 with a current balance of \$456,021.10.

Motion: It was moved by Council Member Dawson, seconded by Council Member Lawson to move forward to County Council to recommend award RFP HXD 091021 Lowcountry Commercial Services. The motion was approved without objection.

Discussion: To see the full discussion click the link below.

<https://beaufortcountysc.new.swagit.com/videos/141778>

Voting Yea: Committee Chairman Rodman, Committee Vice-Chair Glover, Council Member Flewelling, Council Member Passiment, Council Member Dawson, Council Member Lawson, Council Member Cunningham. The vote 7:0.

9. **RECOMMENDATION OF AWARD (RFP) HXD 091021 ON POINT COMMERCIAL AND RESIDENTIAL CLEANING (\$34,029.60)**

Jared Fralix stated this contract provides Beaufort Executive Airport with janitorial services on a long-term basis. The scope of required services has been discussed in depth with the selected contractor and they have indicated they have the ability to meet the needs of the airport.

Motion: It was moved by council Member Dawson, seconded by Council Member Lawson to approve the recommendation of Award (RFP) HXD 091021 On Point Commercial and Residential Cleaning (\$34,029.60). The motion passed without objection.

Discussion: To see the full discussion click the link below.

<https://beaufortcountysc.new.swagit.com/videos/141778>

Voting Yea: Committee Chairman Rodman, Committee Vice-Chair Glover, Council Member Flewelling, Council Member Passiment, Council Member Dawson, Council Member Lawson, Council Member Cunningham. The vote 7:0.

10. **CHANGE ORDER #2 FOR DNA LABORATORY ADDITION A&E SERVICES (\$67,717.25)**

Jared Fralix stated an additional \$28,400 approval of change order #2 increases the contract cost to \$67,717.25 which will be fully funded by a deduction from the construction contractor's contract. There will be no additional costs to Beaufort County or Sheriff's Office.

Motion: It was moved by Council Member Dawson, seconded by Council Member Lawson to approve the Andrews Engineering change order #2 in the amount of \$28,400 to increase the contract to a total of \$67,717.25 for the DNA Laboratory Addition. The motion was approved without objection.

Discussion: To see the full discussion click the link below.

<https://beaufortcountysc.new.swagit.com/videos/141778>

Voting Yea: Committee Chairman Rodman, Committee Vice-Chair Glover, Council Member Flewelling, Council Member Passiment, Council Member Dawson, Council Member Lawson, Council Member Cunningham. The vote 7:0.

11. **CHANGE ORDER #1 FOR DETOUR ROAD PATHWAY PROJECT (\$52,400)**

Jared Fralix stated an additional \$3,900 approval of change order #1 increases the contract cost to \$52,400 to be funded from TAG Fees Professional Services account 234201T-51160 with a remaining balance of \$1,048,462.43.

Motion: It was moved by Council Member Dawson, seconded by Council Member Lawson to approve Andrews Engineering change order #1 in the amount of \$3,900 to increase the contract to a total of \$52,400 for the Detour Road Pathway project. The motion was approved without objection.

Discussion: To see the full discussion click the link below.

<https://beaufortcountysc.new.swagit.com/videos/141778>

Voting Yea: Committee Chairman Rodman, Committee Vice-Chair Glover, Council Member Flewelling, Council Member Passiment, Council Member Dawson, Council Member Lawson, Council Member Cunningham. The vote 7:0

12. **INTRODUCTION TO RFQ #092021E – CONSULTING SERVICES FOR CONVERSION TO ELECTRIC FLEET**

Status: For Informational Purposes Only

Discussion: To see the full discussion click the link below.

<https://beaufortcountysc.new.swagit.com/videos/141778>

13. **A RESOLUTION AUTHORIZING THE COUNTY ADMINISTRATOR TO EXECUTE ANY AND ALL NECESSARY DOCUMENTS FOR THE ACCEPTANCE OF PROPERTIES ENCUMBERING THE ROAD RIGHT OF WAY FOR CRYSTAL BEACH LANE**

Jared Fralix stated The County maintained portion of Crystal Beach Lane is (~500 LF) located off Alljoy Road in Bluffton. Property owners associated with this road have requested to donate ROW to the County. This ROW conveyance will help perfect County ownership of legacy roads.

Motion: It was moved by Council Member Lawson, seconded by Committee Vice-Chair Glover to accept ROW associated with the County portion of Crystal Beach Lane to move forward to County Council for approval. The motion was approved without objection.

Discussion: To see the full discussion click the link below.

<https://beaufortcountysc.new.swagit.com/videos/141778>

Voting Yea: Committee Chairman Rodman, Committee Vice-Chair Glover, Council Member Flewelling, Council Member Passiment, Council Member Dawson, Council Member Lawson, Council Member Cunningham. The vote 7:0.

14. **AN ORDINANCE AUTHORIZING THE EXECUTION AND DELIVERY OF AN ACCESS AND UTILITY EASEMENT FOR A PORTION OF A RIGHT OF WAY OWNED BY BEAUFORT COUNTY KNOWN AS CASSIDY DRIVE OFF BUCKWALTER PARKWAY IN BLUFFTON TOWNSHIP SOUTH CAROLINA**

Jared Fralix stated BJWSA has requested an Access and Utility Easement to for a portion of parcel R610 022 000 1125 0000 located on Cassidy Drive off Buckwalter Parkway in Bluffton Township.

Motion: It was moved by Council Member Dawson, seconded by Committee Vice-Chair Glover Approve Access and Utility Easement to BJSWA to move forward to County Council for approval. The motion was approved.

Discussion: To see the full discussion click the link below.

<https://beaufortcountysc.new.swagit.com/videos/141778>

Voting Yea: Committee Chairman Rodman, Committee Vice-Chair Glover, Council Member Flewelling, Council Member Passiment, Council Member Dawson, Council Member Lawson, Council Member Cunningham. The vote 7:0.

15. **FOLLOW UP ON KING GEORGE ROAD PRIVATE ROAD ACCEPTANCE APPLICATION INTO COUNTY ROAD SYSTEM.**

Jared Fralix stated King George Road is a private paved road (~900 LF) located in the Verdier View subdivision off SC 46 in Bluffton. At one time, there was an established HOA; but it was dissolved in 1992 with the interests of the right of ways never being conveyed. Legal staff has recently researched ownership issues associated with HOAs and developers in a subdivision and has determined that only the owner of the road can convey interest. Since the private road petitioners do not own the road, they cannot convey it to the County.

Motion: It was moved by Committee Vice-Chair Glover, seconded by Council Member Passiment to Motion to deny King George Road into County Road Inventory. The motion was approved without objection.

Discussion: To see the full discussion click the link below.

<https://beaufortcountysc.new.swagit.com/videos/141778>

Voting Yea: Committee Chairman Rodman, Committee Vice-Chair Glover, Council Member Flewelling, Council Member Passiment, Council Member Dawson, Council Member Lawson, Council Member Cunningham. The vote 7:0

16. **RAINBOW ROAD STATUS DISCUSSION**

Status: Informational Purposes Only

Discussion: To see the full discussion click the link below.

<https://beaufortcountysc.new.swagit.com/videos/141778>

17. **ADOPTION OF BUCKWALTER ACCESS MANAGEMENT PLAN**

Jared Fralix stated in 2007, Beaufort County adopted the Buckwalter Parkway Access Management Study in Ordinance 2008/17 amending the Zoning and Development Standards regarding access management standards for Buckwalter Parkway and Bluffton Parkway, respectively. As this access management plan is 13 years old, Beaufort County procured Bihl Engineering to analysis the corridor from US 278 just short of Bluffton Parkway and update the plan.

Motion: It was moved by Council Member Cunningham, Seconded by Council Member Flewelling to approve adopting the Buckwalter Access Management Plan by amending Ordinance 2008/17 to move forward to County Council. The motion was approved without objection.

Discussion: To see the full discussion click the link below.

<https://beaufortcountysc.new.swagit.com/videos/141778>

Voting Yea: Committee Chairman Rodman, Committee Vice-Chair Glover, Council Member Flewelling, Council Member Passiment, Council Member Dawson, Council Member Hervochon, Council Member Lawson, Council Member Cunningham. The vote 8:0

18. **BUCKWALTER/BLUFFTON PARKWAY (BP²) INTERSECTION DISCUSSION**

Jared Fralix stated Staff has been working with HDR engineering consultant to develop various access options to accompany the intersection realignment. Four options (A-D) have been developed. These four options have been presented to Town of Bluffton staff and Bluffton Town Council for review and comments. Town Council provided comments and suggested a fifth option (Option E) along with concepts for potential phasing for the project. A public meeting was on October 14, 2021 at the Buckwalter Recreation Complex for further comments.

22. **ADJOURNMENT**

The meeting was adjourned at 5:55 PM

BEAUFORT COUNTY COUNCIL AGENDA ITEM SUMMARY

ITEM TITLE:
Hilton Head Island Airport – Recommendation of approval to apply for the American Rescue Plan Act 2021 (ARPA) Grant Funds <i>(Fiscal impact: Incoming Grant Funds - \$1,995,069)</i>
MEETING NAME AND DATE:
<i>Public Facilities Committee – November 15, 2021</i>
PRESENTER INFORMATION:
<i>Jared Fralix, Assistant County Administrator – Engineering Jon Rembold, Airports Director - Alternate (2minutes)</i>
ITEM BACKGROUND:
On June 22, 2021, Hilton Head Island Airport became eligible for funds under the American Rescue Plan Act 2021 (Public Law 117-2) (ARPA). The purpose of these funds is to provide economic relief to airports in response to the COVID-19 pandemic. Hilton Head Island Airport has two grant opportunities: <ul style="list-style-type: none">➤ Airport Operations -\$1,900,312➤ Concessionaire Relief -\$94,757
PROJECT / ITEM NARRATIVE:
These funds are to be used for costs related to operations, personnel, cleaning, sanitization, janitorial services, combating the spread of pathogens at the airport, and other similar costs. These projects mentioned above will be 100% funded by these grants. <i>The grant offer cover letter requires the governing body to approve the permission to apply for the ARPA grant application to the individual signing the grant, in this case, the County Administrator.</i>
FISCAL IMPACT:
<i>The airport will receive grant funds in the amount of \$1,995,069 which will fund efforts as outlined in the ARPA documents (including relief to concessionaires).</i>
STAFF RECOMMENDATIONS TO COMMITTEE:
<i>Staff is requesting permission to apply for the American Rescue Plan Act 2021 (ARPA) grant funds.</i>
OPTIONS FOR COMMITTEE MOTION:
<i>Motion to approve /deny the permission to apply for the American Rescue Plan Act 2021 (ARPA) grant funds. (Next step: County Council Meeting - December 13, 2021)</i>

BEAUFORT COUNTY COUNCIL AGENDA ITEM SUMMARY

ITEM TITLE:
Beaufort Executive Airport – Recommendation of approval to apply for the American Rescue Plan Act 2021 (ARPA) <i>(Fiscal impact: Incoming Grant Funds - \$32,000)</i>
MEETING NAME AND DATE:
<i>Public Facilities Committee – November 15, 2021</i>
PRESENTER INFORMATION:
<i>Jared Fralix, Assistant County Administrator – Engineering Jon Rembold, Airports Director - Alternate (2 minutes)</i>
ITEM BACKGROUND:
On June 22, 2021, Beaufort Executive Airport (ARW) became eligible for funds under the American Rescue Plan Act 2021 (Public Law 117-2) (ARPA). The purpose of these funds is to provide economic relief to airports in response to the COVID-19 pandemic. Beaufort Executive Airport has one grant opportunity: <ul style="list-style-type: none">➤ Airport Operations -\$32,000
PROJECT / ITEM NARRATIVE:
These funds are to be used for costs related to operations, personnel, cleaning, sanitization, janitorial services, combating the spread of pathogens at the airport, and other similar costs. This project mentioned above will be 100% funded by this grant. <i>The grant offer cover letter requires the governing body to approve the permission to apply for the ARPA grant application to the individual signing the grant, in this case, the County Administrator.</i>
FISCAL IMPACT:
<i>The airport will receive grant funds in the amount of \$32,000 which fully funds this project.</i>
STAFF RECOMMENDATIONS TO COMMITTEE:
<i>Staff is requesting permission to apply for the American Rescue Plan Act 2021 (ARPA) grant funds.</i>
OPTIONS FOR COMMITTEE MOTION:
<i>Motion to approve /deny the permission to apply for the American Rescue Plan Act 2021 (ARPA) grant funds. (Next step: County Council Meeting - December 13, 2021)</i>

BEAUFORT COUNTY COUNCIL AGENDA ITEM SUMMARY

ITEM TITLE:
Hilton Head Island Airport – Recommendation of approval to apply for the American Rescue Plan Act 2021 (ARPA) Grant Funds <i>(Fiscal impact: Incoming Grant Funds - \$1,995,069)</i>

BEAUFORT COUNTY COUNCIL AGENDA ITEM SUMMARY

ITEM TITLE:
Recommendation of FAA AIP CIP List Approval – FY 2023-2027 forecasted project list
MEETING NAME AND DATE:
Public Facilities Committee – November 15, 2021
PRESENTER INFORMATION:
Jared Fralix, P.E. ACA – Engineering Jon Rembold, C.M. Airports Director (Alternate) (5 minutes)
ITEM BACKGROUND:
Each year the 5-year CIP list is presented to council committee for information. This year, since grant applications must be approved by council, this informational brief includes approval the pre-applications for FY 2023 projects that will be sent to the FAA.
PROJECT / ITEM NARRATIVE:
The ACIP listing is the projected five (5) year funding plan for both airports. It is updated each year in order to reflect changes in planned projects. These lists are compiled by the airport team with the aid of our consultant team and with input from our FAA project team.
FISCAL IMPACT:
No immediate impact. The typical funding formula of a FAA grant project is 90% FAA, 10% Airport and State share.
STAFF RECOMMENDATIONS TO COMMITTEE:
<i>Staff recommends approval of FAA AIP CIP– FY 2023-2027 project list and the pre-applications for 2023 projects.</i>
OPTIONS FOR COMMITTEE MOTION:
<i>Motion to approve /deny the recommendation of FAA AIP CIP List – FY 2023-2027 project list and the pre-applications for 2023 projects. (Next Steps -Not Applicable due to no immediate fiscal impact.)</i>

BEAUFORT COUNTY COUNCIL AGENDA ITEM SUMMARY

ITEM TITLE:
Recommendation of Hilton Head Island Airport (HXD) and Beaufort Executive Airport (ARW) Hangar rent increase approval.
MEETING NAME AND DATE:
Public Facilities Committee – November 15, 2021
PRESENTER INFORMATION:
Jared Fralix, P.E. ACA – Engineering Jon Rembold, C.M. Airports Director (Alternate) (2 minutes)
ITEM BACKGROUND:
The last increase for All County hangar use agreements at Hilton Head Island Airport (HXD) and Beaufort Executive Airport (ARW) was on August 1, 2019. The proposed increases effective January 01, 2022 will be: <ul style="list-style-type: none">➤ HXD<ul style="list-style-type: none">• T-Hangar from current rate \$439.80 to \$462.00• Corporate Hangar (60’x52’) from current rate \$1,307.35 to \$1,373.00• Box Hangar (80’x80’) from current rate \$2,680.19 to \$2,815.00➤ ARW<ul style="list-style-type: none">• T-Hangar from current rate \$326.55 to \$345.00
PROJECT / ITEM NARRATIVE:
This increase helps cover the costs of building insurance, operations, and maintenance. Hangar use fees also help to pay for the airport’s portion of the cost of the airfield improvements that are ongoing at HXD & ARW. The current waiting lists for Hangar space: HXD: (24) ARW: (54)
FISCAL IMPACT:
54000001-47220 (Hangar rent for HXD) total annual amount: <ul style="list-style-type: none">➤ HXD<ul style="list-style-type: none">• T-Hangar annual rate - \$5,545.00• Corporate Hangar (60’x52’) annual rate - \$16,476.00• Box Hangar (80’x80’) annual rate - \$33,780.00 51000001-47210 (Hangar rent for ARW) total annual amount: <ul style="list-style-type: none">➤ ARW<ul style="list-style-type: none">• T-Hangar annual rate - \$4,140.00
STAFF RECOMMENDATIONS TO COMMITTEE:

Staff recommends approval of Hangar Rent Increase for both Hilton Head Island Airport (HXD) and Beaufort Executive Airport (ARW).

OPTIONS FOR COMMITTEE MOTION:

Motion to approve /deny the recommendation of Hangar Rent Increase for both Hilton Head Island Airport (HXD) and Beaufort Executive Airport (ARW).

(Next Steps -N/A – This is a revenue generating item.)

MINUTES

Beaufort County Airports Board

October 21, 2021 | 1:30 pm | WebEx Meeting called to order by Chairman Howard Ackerman

In Attendance

Howard Ackerman, Anne Esposito, Leslie Adlam Flory, Brian Turrisi, Nicholas Mesenburg, Thomas Sheahan and James Buckley, Chris Butler, Mark Bailey, Ian Scott.

Absent: Trey Ambrose.

County Staff: Jon Rembold, Airports Director; Stephen Parry, Assistant Airports Director; Paul Dolin, Beaufort Executive Airport Supervisor; Elena Milbrandt, Airports Administrative Assistant.

Stewart Rodman - Beaufort County Council member.

Public: Ben Klimko – Signature Flight Support.

Approval of Agenda

Motion: Mr. Howard Ackerman made a motion to accept the agenda. The vote was FOR- Howard Ackerman, Anne Esposito, Leslie Adlam Flory, Brian Turrisi, Nicholas Mesenburg, James Buckley, and Thomas Sheahan.

The amended agenda was approved as distributed.

AGAINST –None. ABSENT Trey Ambrose.

Approval of Minutes

Motion: Mr. Brian Turrisi made a motion to accept the September 16, 2021 meeting minutes. The vote was FOR –Howard Ackerman, Anne Esposito, Leslie Adlam Flory, Brian Turrisi, Nicholas Mesenburg, James Buckley, Chris Butler, Mark Bailey, Ian Scott and Thomas Sheahan.

The minutes were approved as distributed.

AGAINST – None. ABSENT – Trey Ambrose.

Public Comments

There were no public comments offered.

Director's Report - Beaufort Executive Airport Update

❖ BEAUFORT EXECUTIVE AIRPORT EVENT:

- Mr. Dolin discussed the success and positive feedback of the Runway 5K Race (October 9th) to the board members.

BEAUFORT COUNTY COUNCIL AGENDA ITEM SUMMARY

ITEM TITLE:
Contract Award: Recommendation to Award IFB #101121E, Sun City EMS/Fire Renovations
MEETING NAME AND DATE:
Public Facilities Committee – November 15, 2021
PRESENTER INFORMATION:
Jared Fralix, Assistant County Administrator – Engineering (5 mins)
ITEM BACKGROUND:
Sun City EMS/Fire Station 34 at 25 William Pope Drive, Bluffton, is more than 20 years old and is in need of renovation and expansion to continue to meet the first responders needs for Sun City and Unincorporated Beaufort County. Additionally, current personnel quarters are limited to a large bay room with bunks, providing no privacy or virus protection/spread. Extra space is limited and does not allow for sufficient storage space for expendables, supplies, materials, etc.
PROJECT / ITEM NARRATIVE:
The work would be in two phases. Phase I would be new construction of an East Wing to include individual bunk rooms, bathrooms, workout room, storage and decontamination rooms. Once completed and occupied, Phase II would be a renovation of the existing living area to increase storage, office space, community room, and add a walk-in clinic. IFB#101121 had three bidders, and Brantley Construction Services, LLC out of Charleston SC was the lowest, most responsive bidder at \$1,234,000.00.
FISCAL IMPACT:
An MOA, executed May 14, 2021, between Beaufort County and the Bluffton Township Fire District makes the parties mutually financially responsible for this Work. Beaufort County would encumber the entire estimated amount of \$1,234,000.00; however, BTFD would reimburse 50% of all costs (\$617,000.00). With a 10% contingency, the total budget is \$1,357,400 to be funded from 2017 GO Bond.
STAFF RECOMMENDATIONS TO COUNCIL:

BID FORM

THIS BID SUBMITTED TO: Beaufort County Capital Projects Department

TITLE OF WORK: Sun City EMS/Fire Renovations

LOCATION OF WORK: 25 William Pope Drive, Bluffton SC

1. **BIDDER** has examined all Contract Documents including Addenda.
2. **BIDDER** understands and accepts the terms and conditions of the Invitation to Bid, Instructions to Bidders, and all other Contract Documents.
3. **BIDDER** having examined the plans and specifications with related documents and the site of the proposed work, and being familiar with all of the conditions surrounding the construction of the proposed project including the availability of materials and supplies to construct the project in accordance with the contract documents, within the time set forth herein, and at the process stated below, proposed to enter into a contract with the County to provide the necessary machinery, tools, apparatus, all materials and labor, and other means of construction necessary to complete the Work. The undersigned proposes to furnish and construct the items listed in the attached Schedule of Items for the unit prices stated.
4. **BIDDER** agrees that the cost of any work performed, materials furnished, services provided or expenses incurred, which are not specifically delineated in the Contract Documents, but which are incidental to the scope, intent, and completion of the Contract, shall be deemed to have been included in the prices bid for the various items scheduled.

Start and Completion of Work

The Bidder further proposes and agrees hereby to promptly commence the Work **with adequate force and equipment within ten (10) calendar days** from receipt of Notice to Proceed, or as may be specified by Special Provision. **Contractor shall complete all work not later than 365 calendar days following the date of the Notice to Proceed or IAW any Special Provision by the Owner.**

Bidder acknowledges receipt of the following addenda:

No. 1, 2, 3, 4

5. **BIDDER** acknowledges that, in accordance with the Agreement, Liquidated Damages are set at \$800 per calendar day.

6. In accordance with Paragraph 5.1 of the Agreement, progress payments will be made less retainage in an amount equal to ten percent (10%). If the Contractor is **50% complete** with the project

and **on schedule**, the retainage may be reduced to five percent (**5%**).

7. The Work shall be completed in accordance with the Schedule of Prices set forth by **BIDDERS** in Bid Form - Schedule of Prices which is attached hereto and made a part hereof.

8. **BIDDER** will, if this Bid is accepted by Owner, enter into the Agreement included in the Contract Documents to perform and furnish all Work as specified or indicated in the Contract Documents.

9. **BIDDER** has completed the following additional documents, which are attached hereto and made a part hereof:

- (a) **NON-COLLUSION AFFIDAVIT**
- (b) **CONSENT OF SURETY**
- (c) **BID BOND**
- (d) **CERTIFICATION BY CONTRACTOR**

10. **BIDDER** has included with this Bid Form a Bid security in an amount and under the terms and conditions indicated in the Instructions to Bidders.

11. **BIDDER** is organized under the laws of the State of South Carolina as

a LLC, S-Corp (indicate proprietorship, partnership, or corporation) as follows:

Name (of business): Brantley Construction Services, LLC DBA Brantley Construction Company, LLC

Address: 8300 Dorchester Rd, Charleston, SC 29418

Telephone: 843-552-0150 FAX: 843-552-9072

South Carolina Bidder's License No.: G111944

Licensing Authority: South Carolina Contractor's Licensing Board

12. Communications concerning this Bid should be addressed to the **BIDDER**'s company, to the attention of:

Name: Brantley Construction Services, LLC DBA Brantley Construction Company, LLC

Address: 8300 Dorchester Rd, Charleston, SC 29418

Telephone: 843-552-0150 FAX: 843-552-9072

IFB #101321E

BID BOND

(Five Percent [5%] of Bid)

KNOW ALL MEN BY THESE PRESENTS, that we, the undersigned: Brantley Construction Services, LLC DBA Brantley Construction Company, LLC, as Principal, and Fidelity and Deposit Company of Maryland

, as Surety, are hereby held and firmly bound unto Beaufort County, South Carolina as County in the penal sum of Five Percent of the Amount Bid.....

Dollars (\$5%) for the payment of which, well and truly to be made, we hereby jointly and severally bid ourselves, our heirs, executors, administrators, successors, and assigns. Signed this 13th day of October, 2021.

The condition of the above obligation is such that whereas the Principal has submitted to Beaufort County, South Carolina a certain bid attached hereto and hereby made a part hereof to enter into a contract in writing for the construction of: Sun City Ems/Fire Renovations IFB #101321E

NOW, THEREFORE,

- a) If said bid shall be rejected or in the alternate.
b) If said bid shall be accepted and the Principal shall execute and deliver a Contract in the Form of Contract attached hereto (properly complete in accordance with said bid) and shall furnish a bond for his faithful performance of said Contract and for the payment of all persons performing labor and furnishing material in connection therewith, and shall in all other respects perform the agreement created by the acceptance of said bid, then this obligation shall be void, otherwise the same shall remain in force and effect, it being expressly understood and agreed that the liability of the surety for any and all claims hereunder shall, in no event, exceed the penal amount of this obligation as herein stated.

The Surety, for value received, hereby stipulates and agrees that the obligations of said Surety and its bond shall be in no way impaired or affected by any extension of the time within which the County may accept such bids, and said Surety does hereby waive notice of any such extension.

IN WITNESS WHEREOF, the Principal and the Surety have hereunto set their hands and seals, and such of them as are corporations have caused their corporate seals to be hereto affixed and these presents to be signed by their proper officers, the day and year first set forth above.

EXTRACT FROM BY-LAWS OF THE COMPANIES

"Article V, Section 8, Attorneys-in-Fact. The Chief Executive Officer, the President, or any Executive Vice President or Vice President may, by written instrument under the attested corporate seal, appoint attorneys-in-fact with authority to execute bonds, policies, recognizances, stipulations, undertakings, or other like instruments on behalf of the Company, and may authorize any officer or any such attorney-in-fact to affix the corporate seal thereto; and may with or without cause modify or revoke any such appointment or authority at any time."

CERTIFICATE

I, the undersigned, Secretary of the ZURICH AMERICAN INSURANCE COMPANY, the COLONIAL AMERICAN CASUALTY AND SURETY COMPANY, and the FIDELITY AND DEPOSIT COMPANY OF MARYLAND, do hereby certify that the foregoing Power of Attorney is still in full force and effect on the date of this certificate; and I do further certify that Article V, Section 8, of the By-Laws of the Companies is still in force.

This Power of Attorney and Certificate may be signed by facsimile under and by authority of the following resolution of the Board of Directors of the ZURICH AMERICAN INSURANCE COMPANY at a meeting duly called and held on the 15th day of December 1998.

RESOLVED: "That the signature of the President or a Vice President and the attesting signature of a Secretary or an Assistant Secretary and the Seal of the Company may be affixed by facsimile on any Power of Attorney...Any such Power or any certificate thereof bearing such facsimile signature and seal shall be valid and binding on the Company."

This Power of Attorney and Certificate may be signed by facsimile under and by authority of the following resolution of the Board of Directors of the COLONIAL AMERICAN CASUALTY AND SURETY COMPANY at a meeting duly called and held on the 5th day of May, 1994, and the following resolution of the Board of Directors of the FIDELITY AND DEPOSIT COMPANY OF MARYLAND at a meeting duly called and held on the 10th day of May, 1990.

RESOLVED: "That the facsimile or mechanically reproduced seal of the company and facsimile or mechanically reproduced signature of any Vice-President, Secretary, or Assistant Secretary of the Company, whether made heretofore or hereafter, wherever appearing upon a certified copy of any power of attorney issued by the Company, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

IN TESTIMONY WHEREOF, I have hereunto subscribed my name and affixed the corporate seals of the said Companies, this 13th day of October, 2021

IFB #101321E

CONSENT OF SURETY

OWNER: Beaufort County

TITLE OF WORK: Sun City Ems/Fire Renovations IFB #101321E

(Complete above exactly as given in Invitation to Bid)

In consideration of the premises and of One Dollar (**\$1.00**), lawful money of the United States, it is in hand paid by the Contractor, the receipt whereof, is hereby acknowledged, the undersigned surety consents and agrees that if the contract, for which the preceding Bid is made, be awarded to the person or persons submitting the same as contracted, it will become bound as surety and guarantor for its faithful performance in an amount equal to one hundred percent (**100%**) of the Contract Price, and will execute as surety thereto when required to do so by the Owner, and if the said Contractor shall omit or refuse to execute such contract, if so awarded, it will pay without proof of notice and on demand to the Owner any increase between the sum of which the said Contractor would have been entitled upon the completion of the said Contract and the sum which the said Owner may be obligated to pay to another contractor to whom the contract may be afterwards awarded, the amount in such case to be determined by the bids plus the cost, if any, of re-advertising for bids for this work, less the amount of any certified check or bid bond payable and received.

In witness whereof, said surety has caused these presents to be signed and attested by a duly authorized officer and its corporate seal to be hereto affixed this 13th day of October, 2021.

CERTIFICATION BY CONTRACTOR

Regarding

NON-SEGREGATED FACILITIES

The Bidder certifies that he does not, and will not, provide and maintain segregated facilities for his employees at his establishments and, further that he does not, and will not, permit his employees to perform their services at those locations, under his control, where segregated facilities are provided and maintained. Segregated fountains, transportation, parking, entertainment, recreation, ad housing facilities; waiting, rest, wash, dressing, and locker room, and time clock, work, storage, restaurant, and other eating areas which are set apart in fact, or by explicit directive, habit, local custom, or otherwise, on the basis of color, creed, national origin, and race. The Bidder agrees that, except where he has obtained identical certifications from proposed subcontractors for specific time periods, he will obtain identical certifications from proposed subcontractors prior to the award of subcontractors exceeding **\$10,000.00** which are not exempt from the provisions of the Equal Opportunity clause, and that he will retain such certifications in his files.

The Bidder agrees that a breach of this certification is a violation of the Equal Opportunity clause in this Contract. The penalty for making false statements is prescribed in 18 U.S.C. 1001.

2017 *Appeal of Brantley Construction Services, LLC* under Contract No. W912HN-10-D-0056, ABSCA No. 61118

This matter involves a claim for additional compensation for changes to the contract involving paving at Camp Mackall Army Air Field and Pope Army Air Field. The company successfully completed the work. Brantley Construction successfully negotiated a settlement of this matter, which resulted in no materially adverse effect upon the company's financial position.

§ C.8.h. In the last five years, paid liquidated damages for being late on a project?

In 2019, Brantley Construction Company, LLC was assessed 18 days liquidated damages on a Company Operations Facility on Hunter Army Airfield, GA for an overhead plumbing line leak repair, as well as repairs to the drywall, paint, and flooring. The leak was found just days prior to an already scheduled substantial completion inspection. In the previous 42 years, Brantley Construction Company, LLC had not been assessed liquidated damages on any other projects.

RE: Brantley Construction Company, LLC
Experience Modification Rate

To Whom It May Concern,

The purpose of this letter is to confirm Brantley Construction Company, LLC's experience modification rate (EMR) history and to provide an explanation of the current EMR. In no way is the current EMR a reflection of Brantley's dedication to safety or indicative of their performance.

7/1/2021	1.04	7/1/2018	.80
7/1/2020	1.01	7/1/2017	.79
7/1/2019	.81	7/1/2016	.79

Brantley has not had a lost time workers' compensation claim nor a jobsite incident since February 2008. We feel the EMR is unjustly calculated based on one small claim for the three years of data and their safety record is the best indicator for evaluation. Please see the description and details of the claim below.

Date of Hire: 10/15/2018

Date of Injury: 10/16/2018

Description of Claim: Claimant was on his first day of employment and fell off the toilet in his hotel room injury his right knee. No lost time.

Cost Incurred: \$12,500.00

Status: Closed

Please Note:

- **The employee was employed for one (1) day**
- **There was no lost time**
- **There were underlining pre-existing conditions with his knee**
- **It was not a job site injury**

This one claim is having a .19 impact on Brantley's current EMR. Without this claim, their EMR would be .85

Brantley is in excellent standings with their insurance company, Amerisure. Their management team is dedicated to providing the safest working environment for their employees and others on the job site. We believe Brantley is an organization of the highest quality and has the experience and capabilities to build any project safely. Please do not hesitate to call me with any questions at (404) 433-0786.

Many thanks,

Jim Clarke
Senior Vice President
3400 Overton Park Drive, Suite 300
Atlanta, Georgia 30339

**Certification regarding Debarment, Suspension, Ineligibility,
and Voluntary Exclusion:**

Company Name: Brantley Construction Services, LLC DBA Brantley Construction Company, LLC

The contractor certifies, by submission of this qualification statement or acceptance of a contract, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any State, Federal department, or agency. It further agrees by submitting this qualification statement that it will include this clause without modification in all lower tier transactions, solicitations, proposals, contracts, and subcontracts. Where the bidder/contractor or any lower tier participant is unable to certify to this statement, it shall attach an explanation to this solicitation/bid. State whether or not your company has been involved in any litigation within the past five (5) years arising out of your performance.

Circle Yes or No

If you answer yes, explain fully if it has been involved in any litigation involving performance.

Signature 
Gary D. Brantley, President

LOCAL VENDOR PREFERENCE – PARTICIPATION AFFIDAVIT

SECTION 2.537.1

A competitive procurement made by Beaufort County shall be made from responsive and responsible resident vendors in the County for procurement, if such bid does not exceed the lowest qualified bid from a non-county vendor by more than five (5%) percent or Ten Thousand (\$10,000.00) Dollars, whichever is less of the lowest non-county bidder. The resident vendor has the discretion to match the bid submitted by the non-county vendor and receive the contract award.

A vendor shall be deemed to be a “local vendor” if such vendor is an individual, partnership, association or corporation that is authorized to transact business within the state, maintains an office in the Beaufort County, has a business license of Beaufort County or one of the municipalities within Beaufort County, and maintains a representative inventory of commodities within Beaufort County or one of the municipalities on which the bid is submitted and has paid all taxes duly assessed.

If no bids are received, from a Beaufort County Local Vendor a vendor shall be deemed to be a “local vendor” if such vendor is an individual, partnership, association or corporation that is authorized to transact business within the state, maintains an office in Jasper, Hampton, or Colleton Counties (local preference only applies if Jasper, Hampton and Colleton Counties offer reciprocity to Beaufort County). A competitive procurement made by the county shall be made from responsive and responsible resident vendors in the respective counties for procurement, if such bid does not exceed the lowest qualified bid from a non-local vendor by more than five (5%) percent or \$10,000.00, whichever is less, local vendor has the discretion to match the bid submitted by the non-local vendor and receive the contract award.

If the procurement is to be made pursuant to state or federal guidelines, which prohibit or restrict a local or state preference, there shall be no local or state preference unless a more restricted variation is allowed under the guidelines. Local/state preference shall not be applied to the procurement of construction services.

The undersigned hereby attests that the criteria of the “RESIDENT VENDOR PREFERENCE, SECTION 2.537.1” are met for the purposes of bid document _____, dated _____.

Self-Performance Affidavit

If self-performing 100% of the entire project with your own workforce/staff on your payroll, complete and return this form with your bid package. If self-performing all work, you do not need to solicit SMBs.

I hereby certify my company's intent to self-perform 100% of the work required for the referenced project:

Project Name: Sun City EMS/FIRE Renovations

Project Number: IFB#101121E

By signing this affidavit, I further certify that my company has the capability to perform and will perform all elements of the work on the project referenced above with my company's employees.

I further agree to provide additional information or documentation requested by Beaufort County in support of the above statement.

If a need to subcontract work on this project arises, I will notify the Beaufort County Purchasing Department in writing via email to dthomas@bcgov.net within two (2) business days after submission of the bid.

Good Faith Efforts Checklist

This form and supporting documents are due with the bid package, if not self-performing 100% of the work.

- Include copies of the written notice to SMBs notifying them of bid opportunities. Notices only need to be sent to those subcontractors and suppliers offering the services which the bidder intends to subcontract and purchase. Notices can be e-mailed or faxed. If emailed, the notice may be sent to all applicable subcontractors with one email. If faxed, include a copy of the fax transmittal confirmation slip.
The notice should contain the following:
 - Bidder’s name and contact information
 - Project name and number
 - Scope of work/bid packages available for subcontracting
 - Information on availability of plans and specifications
 - Bidder’s insurance, bonding, and financial requirements

- Include Exhibits 1, 2 and 3, with all requested supporting documentation, where applicable. These exhibits are available on the Beaufort County website (www.beaufortcountysc.gov) under the Purchasing Department page.

The undersigned acknowledges making a good faith effort to comply with the above areas checked.

Exhibit 1 Non-Discrimination Statement

This form is due with the bid package.

The bidder certifies the following:

- No person shall be excluded from participation in, denied the benefit of, or otherwise discriminated against on the basis of race, color, national origin, age, sex/gender, disability, religion, language, or income in connection with any bid submitted to Beaufort County or the performance of any contract resulting thereof;
- That it is and shall be the policy of the bidder to provide equal opportunity to all businesses or persons seeking to contract or otherwise interested in contracting with the bidder for Beaufort County contracts, including those businesses owned and controlled by socio-economic and racial minorities;
- In connection herewith, we acknowledge and warrant that this bidder has been made aware of, understands, and agrees to take affirmative action to provide such companies with the maximum practicable opportunities to do business with this bidder;
- That this promise of non-discrimination as made and set forth herein shall be continuing in nature and shall remain in full force and effect without interruption throughout the life of the referenced contract with Beaufort County;
- That the promises of non-discrimination as made and set forth herein shall be and are hereby deemed to be made a part of and included by reference into any contract or portion thereof which this bidder may hereafter obtain and;
- That the failure of this bidder to satisfactorily discharge any of the promises of non-discrimination as made and set forth herein shall constitute a material breach of contract entitling Beaufort County to declare the contract in default and to exercise any and all applicable right and remedies including, but not limited to cancellation of the contract, termination of the contract, suspension and debarment from future contracting opportunities, and withholding and/or forfeiture of compensation due and owing on a contract.

BID FORM

THIS BID SUBMITTED TO: Beaufort County Capital Projects Department

TITLE OF WORK: Sun City EMS/Fire Renovations

LOCATION OF WORK: 25 William Pope Drive, Bluffton SC

1. **BIDDER** has examined all Contract Documents including Addenda.
2. **BIDDER** understands and accepts the terms and conditions of the Invitation to Bid, Instructions to Bidders, and all other Contract Documents.
3. **BIDDER** having examined the plans and specifications with related documents and the site of the proposed work, and being familiar with all of the conditions surrounding the construction of the proposed project including the availability of materials and supplies to construct the project in accordance with the contract documents, within the time set forth herein, and at the process stated below, proposed to enter into a contract with the County to provide the necessary machinery, tools, apparatus, all materials and labor, and other means of construction necessary to complete the Work. The undersigned proposes to furnish and construct the items listed in the attached Schedule of Items for the unit prices stated.
4. **BIDDER** agrees that the cost of any work performed, materials furnished, services provided or expenses incurred, which are not specifically delineated in the Contract Documents, but which are incidental to the scope, intent, and completion of the Contract, shall be deemed to have been included in the prices bid for the various items scheduled.

Start and Completion of Work

The Bidder further proposes and agrees hereby to promptly commence the Work **with adequate force and equipment within ten (10) calendar days** from receipt of Notice to Proceed, or as may be specified by Special Provision. **Contractor shall complete all work not later than 365 calendar days following the date of the Notice to Proceed or IAW any Special Provision by the Owner.**

Bidder acknowledges receipt of the following addenda:

1,2,3,4

5. **BIDDER** acknowledges that, in accordance with the Agreement, Liquidated Damages are set at \$800 per calendar day.
6. In accordance with Paragraph 5.1 of the Agreement, progress payments will be made less retainage in an amount equal to ten percent (10%). If the Contractor is **50% complete** with the project

and **on schedule**, the retainage may be reduced to five percent (**5%**).

7. The Work shall be completed in accordance with the Schedule of Prices set forth by **BIDDERS** in Bid Form - Schedule of Prices which is attached hereto and made a part hereof.

8. **BIDDER** will, if this Bid is accepted by Owner, enter into the Agreement included in the Contract Documents to perform and furnish all Work as specified or indicated in the Contract Documents.

9. **BIDDER** has completed the following additional documents, which are attached hereto and made a part hereof:

- (a) **NON-COLLUSION AFFIDAVIT**
- (b) **CONSENT OF SURETY**
- (c) **BID BOND**
- (d) **CERTIFICATION BY CONTRACTOR**

10. **BIDDER** has included with this Bid Form a Bid security in an amount and under the terms and conditions indicated in the Instructions to Bidders.

11. **BIDDER** is organized under the laws of the State of Georgia as
a Corporation (indicate proprietorship, partnership, or corporation) as follows:

Name (of business): Paul S. Akins Company, Inc.

Address: 520 Park Avenue, Statesboro, GA 30458

CONSENT OF SURETY

OWNER: Beaufort County Treasurer

TITLE OF WORK: Sun City EMS/Fire Renovations
(Complete above exactly as given in Invitation to Bid)

In consideration of the premises and of One Dollar (\$1.00), lawful money of the United States, it is in hand paid by the Contractor, the receipt whereof, is hereby acknowledged, the undersigned surety consents and agrees that if the contract, for which the preceding Bid is made, be awarded to the person or persons submitting the same as contracted, it will become bound as surety and guarantor for its faithful performance in an amount equal to one hundred percent (100%) of the Contract Price, and will execute as surety thereto when required to do so by the Owner, and if the said Contractor shall omit or refuse to execute such contract, if so awarded, it will pay without proof of notice and on demand to the Owner any increase between the sum of which the said Contractor would have been entitled upon the completion of the said Contract and the sum which the said Owner may be obligated to pay to another contractor to whom the contract may be afterwards awarded, the amount in such case to be determined by the bids plus the cost, if any, of re-advertising for bids for this work, less the amount of any certified check or bid bond payable and received.

In witness whereof, said surety has caused these presents to be signed and attested by a duly authorized officer and its corporate seal to be hereto affixed this 15th day of October, 2021.

(A corporate acknowledgment and statement of authority to be here attached by the surety company).

CERTIFICATION BY CONTRACTOR

Regarding

NON-SEGREGATED FACILITIES

The Bidder certifies that he does not, and will not, provide and maintain segregated facilities for his employees at his establishments and, further that he does not, and will not, permit his employees to perform their services at those locations, under his control, where segregated facilities are provided and maintained. Segregated fountains, transportation, parking, entertainment, recreation, ad housing facilities; waiting, rest, wash, dressing, and locker room, and time clock, work, storage, restaurant, and other eating areas which are set apart in fact, or by explicit directive, habit, local custom, or otherwise, on the basis of color, creed, national origin, and race. The Bidder agrees that, except where he has obtained identical certifications from proposed subcontractors for specific time periods, he will obtain identical certifications from proposed subcontractors prior to the award of subcontractors exceeding **\$10,000.00** which are not exempt from the provisions of the Equal Opportunity clause, and that he will retain such certifications in his files.

The Bidder agrees that a breach of this certification is a violation of the Equal Opportunity clause in this Contract. The penalty for making false statements is prescribed in 18 U.S.C. 1001.

LOCAL VENDOR PREFERENCE – PARTICIPATION AFFIDAVIT

SECTION 2.537.1

A competitive procurement made by Beaufort County shall be made from responsive and responsible resident vendors in the County for procurement, if such bid does not exceed the lowest qualified bid from a non-county vendor by more than five (5%) percent or Ten Thousand (\$10,000.00) Dollars, whichever is less of the lowest non-county bidder. The resident vendor has the discretion to match the bid submitted by the non-county vendor and receive the contract award.

A vendor shall be deemed to be a “local vendor” if such vendor is an individual, partnership, association or corporation that is authorized to transact business within the state, maintains an office in the Beaufort County, has a business license of Beaufort County or one of the municipalities within Beaufort County, and maintains a representative inventory of commodities within Beaufort County or one of the municipalities on which the bid is submitted and has paid all taxes duly assessed.

If no bids are received, from a Beaufort County Local Vendor a vendor shall be deemed to be a “local vendor” if such vendor is an individual, partnership, association or corporation that is authorized to transact business within the state, maintains an office in Jasper, Hampton, or Colleton Counties (local preference only applies if Jasper, Hampton and Colleton Counties offer reciprocity to Beaufort County). A competitive procurement made by the county shall be made from responsive and responsible resident vendors in the respective counties for procurement, if such bid does not exceed the lowest qualified bid from a non-local vendor by more than five (5%) percent or \$10,000.00, whichever is less, local vendor has the discretion to match the bid submitted by the non-local vendor and receive the contract award.

If the procurement is to be made pursuant to state or federal guidelines, which prohibit or restrict a local or state preference, there shall be no local or state preference unless a more restricted variation is allowed under the guidelines. Local/state preference shall not be applied to the procurement of construction services.

The undersigned hereby attests that the criteria of the “RESIDENT VENDOR PREFERENCE, SECTION 2.537.1” are met for the purposes of bid document Sun City EMS/Fire Renovations, dated 10/15/21.

Good Faith Efforts Checklist

This form and supporting documents are due with the bid package, if not self-performing 100% of the work.

- Include copies of the written notice to SMBs notifying them of bid opportunities. Notices only need to be sent to those subcontractors and suppliers offering the services which the bidder intends to subcontract and purchase. Notices can be e-mailed or faxed. If emailed, the notice may be sent to all applicable subcontractors with one email. If faxed, include a copy of the fax transmittal confirmation slip.
The notice should contain the following:
 - Bidder’s name and contact information
 - Project name and number
 - Scope of work/bid packages available for subcontracting
 - Information on availability of plans and specifications
 - Bidder’s insurance, bonding, and financial requirements

- Include Exhibits 1, 2 and 3, with all requested supporting documentation, where applicable. These exhibits are available on the Beaufort County website (www.beaufortcountysc.gov) under the Purchasing Department page.

The undersigned acknowledges making a good faith effort to comply with the above areas checked.

This form is due with the bid package.

The bidder certifies the following:

- No person shall be excluded from participation in, denied the benefit of, or otherwise discriminated against on the basis of race, color, national origin, age, sex/gender, disability, religion, language, or income in connection with any bid submitted to Beaufort County or the performance of any contract resulting thereof;
- That it is and shall be the policy of the bidder to provide equal opportunity to all businesses or persons seeking to contract or otherwise interested in contracting with the bidder for Beaufort County contracts, including those businesses owned and controlled by socio-economic and racial minorities;
- In connection herewith, we acknowledge and warrant that this bidder has been made aware of, understands, and agrees to take affirmative action to provide such companies with the maximum practicable opportunities to do business with this bidder;
- That this promise of non-discrimination as made and set forth herein shall be continuing in nature and shall remain in full force and effect without interruption throughout the life of the referenced contract with Beaufort County;
- That the promises of non-discrimination as made and set forth herein shall be and are hereby deemed to be made a part of and included by reference into any contract or portion thereof which this bidder may hereafter obtain and;
- That the failure of this bidder to satisfactorily discharge any of the promises of non-discrimination as made and set forth herein shall constitute a material breach of contract entitling Beaufort County to declare the contract in default and to exercise any and all applicable right and remedies including, but not limited to cancellation of the contract, termination of the contract, suspension and debarment from future contracting opportunities, and withholding and/or forfeiture of compensation due and owing on a contract.

Date: 10/15/2021

INVITATION TO BID

From: Paul S. Akins Company, Inc.
Sent: Wednesday, September 22, 2021 4:20 PM ET
Email: amandab@akinsco.com
Phone: (912) 764-6925
Fax: (912) 764-5677

Let us know your bid intention here:

Attention: John Doe - John.Doe@email.com
Company: ACME, Inc.

You have been invited to bid:
Sun City EMS/FIRE Renovation

Bid Due Date: Monday, October 11, 2021 3:00 PM ET
Project Location: SC 29901
Project Start Date:
Contact: Amanda Boykin
Contact Number: (912) 764-6925
Contact Email: amandab@akinsco.com

Description:
Construction of an addition and renovations of the existing Sun City EMS/Fire Facility. The work will be divided in two phases. Phase I will be the addition of a 2534 sq ft East Wing, housing eight dorm rooms, bathroom facilities, gear room, laundry, exercise room, office, server room, janitor closet, and storage. Phase II will be the renovation of the existing 1910 sq ft West Wing eliminating the current bunk rooms and increasing community room, kitchen storage areas.

Message to Bidders:
Please note Specs will be sent out in future addendum.

Akins Company invites and strongly encourages all qualified Local, Disadvantage, Small and Minority Business Enterprises complaints to submit a bid on this project.

Question and Quotes maybe sent to:
Jarrod Akins, jarroda@akins.com
Jacob Schofill, jacobs@akins.com
Amanda Boykin, amandab@akins.com

BID FORM

THIS BID SUBMITTED TO: Beaufort County Capital Projects Department

TITLE OF WORK: Sun City EMS/Fire Renovations

LOCATION OF WORK: 25 William Pope Drive, Bluffton SC

1. **BIDDER** has examined all Contract Documents including Addenda.
2. **BIDDER** understands and accepts the terms and conditions of the Invitation to Bid, Instructions to Bidders, and all other Contract Documents.
3. **BIDDER** having examined the plans and specifications with related documents and the site of the proposed work, and being familiar with all of the conditions surrounding the construction of the proposed project including the availability of materials and supplies to construct the project in accordance with the contract documents, within the time set forth herein, and at the process stated below, proposed to enter into a contract with the County to provide the necessary machinery, tools, apparatus, all materials and labor, and other means of construction necessary to complete the Work. The undersigned proposes to furnish and construct the items listed in the attached Schedule of Items for the unit prices stated.
4. **BIDDER** agrees that the cost of any work performed, materials furnished, services provided or expenses incurred, which are not specifically delineated in the Contract Documents, but which are incidental to the scope, intent, and completion of the Contract, shall be deemed to have been included in the prices bid for the various items scheduled.

Start and Completion of Work

The Bidder further proposes and agrees hereby to promptly commence the Work **with adequate force and equipment within ten (10) calendar days** from receipt of Notice to Proceed, or as may be specified by Special Provision. **Contractor shall complete all work not later than 365 calendar days following the date of the Notice to Proceed or IAW any Special Provision by the Owner.**

Bidder acknowledges receipt of the following addenda:

Addenda #1 09-15-2021

Addendum #2 09-27-2021

Addendum #3 10-05-2021

Addendum # 4 10-8-2021

5. **BIDDER** acknowledges that, in accordance with the Agreement, Liquidated Damages are set at \$800 per calendar day.
6. In accordance with Paragraph 5.1 of the Agreement, progress payments will be made less retainage in an amount equal to ten percent (10%). If the Contractor is **50% complete** with the project

and **on schedule**, the retainage may be reduced to five percent (**5%**).

7. The Work shall be completed in accordance with the Schedule of Prices set forth by **BIDDERS** in Bid Form - Schedule of Prices which is attached hereto and made a part hereof.

8. **BIDDER** will, if this Bid is accepted by Owner, enter into the Agreement included in the Contract Documents to perform and furnish all Work as specified or indicated in the Contract Documents.

9. **BIDDER** has completed the following additional documents, which are attached hereto and made a part hereof:

- (a) **NON-COLLUSION AFFIDAVIT**
- (b) **CONSENT OF SURETY**
- (c) **BID BOND**
- (d) **CERTIFICATION BY CONTRACTOR**

10. **BIDDER** has included with this Bid Form a Bid security in an amount and under the terms and conditions indicated in the Instructions to Bidders.

11. **BIDDER** is organized under the laws of the State of Georgia as a Corporation (indicate proprietorship, partnership, or corporation) as follows:

Name (of business): Collins Construction Services, Inc.

Address: 2135 C Rowland Avenue Savannah, Georgia 31404

Telephone: 912-233-2001 FAX: _____

South Carolina Bidder's License No.: CLG.14790 GC

Licensing Authority: SC Dept of Labor, Licensing and Regulation

12. Communications concerning this Bid should be addressed to the **BIDDER**'s company, to the attention of:

Name: Dawn Morgan

Address: 2135 C Rowland Avenue Savannah, Georgia 31404

Telephone: 912-233-2001 FAX: _____

BID BOND

(Five Percent [5%] of Bid)

KNOW ALL MEN BY THESE PRESENTS, that we, the undersigned:
Collins Construction Services, Inc., as Principal, and
Frankenmuth Mutual Insurance Company
 _____, as Surety, are hereby held and firmly bound unto Beaufort County, South
 Carolina as County in the penal sum of ---Five Percent (5%) of Amount Bid---
 _____ Dollars
 (\$ ---5%---) for the payment of which, well and truly to be made, we hereby jointly
 and severally bid ourselves, our heirs, executors, administrators, successors, and assigns. Signed this 13th day
 of October, 2021.

The condition of the above obligation is such that whereas the Principal has submitted to Beaufort County, South
 Carolina a certain bid attached hereto and hereby made a part hereof to enter into a contract in writing for the
 construction of: Sun City EMS/Fire Renovations Project #IFB3101321E

NOW, THEREFORE,

- a) If said bid shall be rejected or in the alternate.
- b) If said bid shall be accepted and the Principal shall execute and deliver a Contract in the Form of
 Contract attached hereto (properly complete in accordance with said bid) and shall furnish a bond
 for his faithful performance of said Contract and for the payment of all persons performing labor
 and furnishing material in connection therewith, and shall in all other respects perform the
 agreement created by the acceptance of said bid, then this obligation shall be void, otherwise the
 same shall remain in force and effect, it being expressly understood and agreed that the liability of
 the surety for any and all claims hereunder shall, in no event, exceed the penal amount of this
 obligation as herein stated.

The Surety, for value received, hereby stipulates and agrees that the obligations of said Surety and its bond shall
 be in no way impaired or affected by any extension of the time within which the County may accept such bids,
 and said Surety does hereby waive notice of any such extension.

IN WITNESS WHEREOF, the Principal and the Surety have hereunto set their hands and seals, and such of them
 as are corporations have caused their corporate seals to be hereto affixed and these presents to be signed by their
 proper officers, the day and year first set forth above.

FRANKENMUTH MUTUAL INSURANCE COMPANY

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS, that Frankenmuth Mutual Insurance Company (the "Company"), a corporation duly organized and existing under the laws of the State of Michigan, having its principal office at 1 Mutual Avenue, Frankenmuth, Michigan 48787, does hereby nominate, constitute and appoint:

John David Potts, Melissa Potts, Marvala Erinkitola, Keri Anderson Cynthia Kay Troxel

Their true and lawful attorney(s)-in-fact, each in their separate capacity if more than one is named above, to make, execute, seal, acknowledge and deliver any and all bonds, contracts and undertakings of suretyship, with the exception of Financial Guaranty Insurance, provided, however, that the penal sum of any one such instrument shall not exceed the sum of:

Fifty Million and 00/100 Dollars (\$50,000,000)

This Power of Attorney is granted pursuant to the following Resolution duly adopted at a meeting of the Board of Directors of Frankenmuth Mutual Insurance Company:

"RESOLVED, that the President, Senior Vice President or Vice President and each of them under their respective designations, hereby is authorized to execute powers of attorney, and such authority can be executed by use of facsimile signature, which may be attested or acknowledged by any officer of the Company, qualifying the attorney(s) named in the given power of attorney, to execute on behalf of, and acknowledge as the act and deed of Frankenmuth Mutual Insurance Company on all bonds, contracts and undertakings of suretyship, and to affix the corporate seal thereto."

IN WITNESS WHEREOF, the Company has caused these presents to be signed and attested by its appropriate officers and its corporate seal hereunto affixed this 10th day of September, 2018.

Frankenmuth Mutual Insurance Company

By *Frederick A. Edmond, Jr.*
Frederick A. Edmond, Jr.,

CONSENT OF SURETY

OWNER: Beaufort County, South Carolina

TITLE OF WORK: Sun City EMS/Fire Renovations Project #IFB3101321E

(Complete above exactly as given in Invitation to Bid)

In consideration of the premises and of One Dollar (\$1.00), lawful money of the United States, it is in hand paid by the Contractor, the receipt whereof, is hereby acknowledged, the undersigned surety consents and agrees that if the contract, for which the preceding Bid is made, be awarded to the person or persons submitting the same as contracted, it will become bound as surety and guarantor for its faithful performance in an amount equal to one hundred percent (100%) of the Contract Price, and will execute as surety thereto when required to do so by the Owner, and if the said Contractor shall omit or refuse to execute such contract, if so awarded, it will pay without proof of notice and on demand to the Owner any increase between the sum of which the said Contractor would have been entitled upon the completion of the said Contract and the sum which the said Owner may be obligated to pay to another contractor to whom the contract may be afterwards awarded, the amount in such case to be determined by the bids plus the cost, if any, of re-advertising for bids for this work, less the amount of any certified check or bid bond payable and received.

In witness whereof, said surety has caused these presents to be signed and attested by a duly authorized officer and its corporate seal to be hereto affixed this 13th day of October, 2021.

(A corporate acknowledgment and statement of authority to be here attached by the surety company).

CERTIFICATION BY CONTRACTOR

Regarding

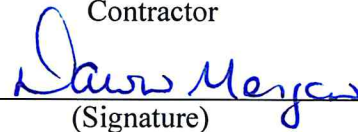

NON-SEGREGATED FACILITIES

The Bidder certifies that he does not, and will not, provide and maintain segregated facilities for his employees at his establishments and, further that he does not, and will not, permit his employees to perform their services at those locations, under his control, where segregated facilities are provided and maintained. Segregated fountains, transportation, parking, entertainment, recreation, ad housing facilities; waiting, rest, wash, dressing, and locker room, and time clock, work, storage, restaurant, and other eating areas which are set apart in fact, or by explicit directive, habit, local custom, or otherwise, on the basis of color, creed, national origin, and race. The Bidder agrees that, except where he has obtained identical certifications from proposed subcontractors for specific time periods, he will obtain identical certifications from proposed subcontractors prior to the award of subcontractors exceeding **\$10,000.00** which are not exempt from the provisions of the Equal Opportunity clause, and that he will retain such certifications in his files.

The Bidder agrees that a breach of this certification is a violation of the Equal Opportunity clause in this Contract. The penalty for making false statements is prescribed in 18 U.S.C. 1001.

**Certification regarding Debarment, Suspension, Ineligibility,
and Voluntary Exclusion:**

Company Name: Collins Construction Services, Inc.

The contractor certifies, by submission of this qualification statement or acceptance of a contract, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any State, Federal department, or agency. It further agrees by submitting this qualification statement that it will include this clause without modification in all lower tier transactions, solicitations, proposals, contracts, and subcontracts. Where the bidder/contractor or any lower tier participant is unable to certify to this statement, it shall attach an explanation to this solicitation/bid. State whether or not your company has been involved in any litigation within the past five (5) years arising out of your performance.

Circle Yes or No.

If you answer yes, explain fully if it has been involved in any litigation involving performance.

LOCAL VENDOR PREFERENCE – PARTICIPATION AFFIDAVIT

SECTION 2.537.1

A competitive procurement made by Beaufort County shall be made from responsive and responsible resident vendors in the County for procurement, if such bid does not exceed the lowest qualified bid from a non-county vendor by more than five (5%) percent or Ten Thousand (\$10,000.00) Dollars, whichever is less of the lowest non-county bidder. The resident vendor has the discretion to match the bid submitted by the non-county vendor and receive the contract award.

A vendor shall be deemed to be a “local vendor” if such vendor is an individual, partnership, association or corporation that is authorized to transact business within the state, maintains an office in the Beaufort County, has a business license of Beaufort County or one of the municipalities within Beaufort County, and maintains a representative inventory of commodities within Beaufort County or one of the municipalities on which the bid is submitted and has paid all taxes duly assessed.

If no bids are received, from a Beaufort County Local Vendor a vendor shall be deemed to be a “local vendor” if such vendor is an individual, partnership, association or corporation that is authorized to transact business within the state, maintains an office in Jasper, Hampton, or Colleton Counties (local preference only applies if Jasper, Hampton and Colleton Counties offer reciprocity to Beaufort County). A competitive procurement made by the county shall be made from responsive and responsible resident vendors in the respective counties for procurement, if such bid does not exceed the lowest qualified bid from a non-local vendor by more than five (5%) percent or \$10,000.00, whichever is less, local vendor has the discretion to match the bid submitted by the non-local vendor and receive the contract award.

If the procurement is to be made pursuant to state or federal guidelines, which prohibit or restrict a local or state preference, there shall be no local or state preference unless a more restricted variation is allowed under the guidelines. Local/state preference shall not be applied to the procurement of construction services.

The undersigned hereby attests that the criteria of the “RESIDENT VENDOR PREFERENCE, SECTION 2.537.1” are met for the purposes of bid document IFB#101321E, dated 09-13-2021.

Program Provisions and Good Faith Outreach Effort Requirements for **Small and Minority Business Participation**

Project Name: Sun City/ EMS Fire Renovation
IFB #101321E

FAILURE TO COMPLETE ALL GOOD FAITH OUTREACH EFFORT REQUIREMENTS MAY RESULT IN BID REJECTION. SPECIFIED DOCUMENTS WITHIN THESE PROGRAM PROVISIONS MUST BE RETURNED WITH THE BID PACKAGE. FALSIFICATION OF ANY REQUESTED DOCUMENTS WILL BE CONSIDERED A BREACH OF PUBLIC TRUST.

Direct questions regarding these provisions to dthomas@bcgov.net.

Important Actions and Notes for Bidders

- **These program provisions affect bid responsiveness** and are required for all prime bidders, regardless of whether the prime bidder is a small or minority business (SMB).
- Bidders currently registered with Beaufort County (via a Vendor Registry user account and password) can review information for local SMBs when logging into the site accessible from the County's website [here](#) or by going to "Bidding Opportunities" at the bottom of the home page and then selecting "Vendor Registration". Vendors previously registered with Beaufort County before April 2017 need to register through this new system.
- If not self-performing one hundred percent (100%) of the project with your company's workforce, bid packages should include the following items to meet compliance with these program provisions:
 1. Good Faith Efforts Checklist form.
 2. Non-Discrimination Statement form (Exhibit 1).
 3. Outreach Documentation Log (Exhibit 2).
 4. Proposed Utilization Plan (Exhibit 3).

Note: Exhibits 1-3 are available on the Beaufort County website (www.beaufortcountysc.gov) at the Purchasing Department page under "Small and Minority Business Program" [here](#).

5. Proof of sending written notice to SMBs notifying them of any bid opportunities **at least 10 business days in advance of the bid due date**. Notices only need to be sent to those subcontractors and suppliers offering the services which the bidder intends to subcontract and purchase. Notices can be e-mailed or faxed.
- If you need assistance identifying SMB firms, please contact any of the following entities:
 - **Beaufort County Purchasing Department**
Telephone: 843.255.2295
 - **SC Office of Small and Minority Business Assistance (OSMBA)**
[Business Directory](#) | Telephone: 803.734.5044 | <http://osmba.sc.gov/>
 - **SC Department Of Transportation's Business Development and Special Programs**
[Business Directory](#) | Telephone: 803.737.2314 | www.scdot.org
 - **Beaufort County Black Chamber of Commerce**

- **Greater Bluffton Chamber of Commerce**
Email: info@blufftonchamberofcommerce.org
- **Hilton Head Island-Bluffton Chamber of Commerce**
Email: info@Hiltonheadisland.org

Program Overview

Beaufort County recognizes that the South Carolina General Assembly, in South Carolina Code of Laws Section 11-35-5210*, has declared that businesses owned and operated by minority persons have been historically restricted from full participation in our free enterprise system to a degree disproportionate to other businesses; and that it is in the state's best interest to assist minority-owned businesses to develop fully as part of the state's policies and programs which are designed to promote balanced economic and community growth throughout the state. Therefore, Beaufort County wishes to ensure that those businesses owned and operated by minorities are afforded the opportunity to fully participate in its overall procurement process for goods and services. Further, Beaufort County seeks to ensure that small businesses are likewise afforded the same participation opportunity as minority businesses. Consequently, attention of all bidders is called to contract provisions contained herein pertaining to Beaufort County's "Small and Minority Business Participation Program", as described in the Beaufort County Code of Ordinances, Section 2-537.2**.

Pre-Award and Post-Award Requirements

Beaufort County requires all bidders for this project to fulfill specific good faith outreach efforts. The successful bidder (contractor) is required to fulfill any commitments made to the best of their ability in conjunction with pre-award good faith outreach efforts, unless good cause is demonstrated for any failure to fulfill such commitment. Beaufort County shall have the right to inspect the contractor's records related to the activity and expenditures to SMBs utilized on County projects, to include related contracts and purchase orders and payment records, such as cancelled check copies. Further, Beaufort County personnel are permitted access to County project sites with the purpose of confirming workers on the project. Beaufort County may require the contractor to provide post-award reports regarding its utilization and expenditures to small and minority businesses on Beaufort County projects.

Definitions

Minority Business means a concern at least fifty-one percent (51%) owned by a person determined to be socially and economically disadvantaged. *Socially disadvantaged* means those persons who have been subject to racial or ethnic prejudice or cultural bias because of their identification as members of a certain group without regard to their individual qualities. Such groups include, but are not limited to, Black Americans, Hispanic Americans, Native Americans (including American Indians, Eskimos, Aleuts and Native Hawaiians), Asian Pacific Americans, women, and other minorities to be designated by the state or Beaufort County. *Economically disadvantaged* means those socially disadvantaged persons whose ability to compete in the free enterprise system has been impaired due to diminished capital and credit opportunities as compared to others in the same business area that are not socially disadvantaged.

Small Business means a for-profit concern that is independently owned and operated, not dominant in the field of operation in which it is bidding on government contracts, and qualified as a small business under the criteria and size standards in the Code of Federal Regulations, Title 13, Part 121, as amended.

* South Carolina Code of Laws, Chapter 35 "South Carolina Consolidated Procurement Code", Article 21 "Assistance to Minority Businesses".

** Beaufort County Code of Ordinances, Article 7 "Finance, Division 4 "Purchasing", Section 2-537.2 "Small and Minority-owned Business Program".

*** Code of Federal Regulations, Title 13 "Business Credit and Assistance", Chapter 1 "Small Business Administration", Part 121 "Small Business Size Standards".

Good Faith Efforts Checklist

This form and supporting documents are due with the bid package, if not self-performing 100% of the work.

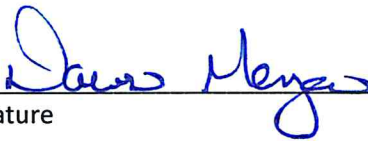

- Include copies of the written notice to SMBs notifying them of bid opportunities. Notices only need to be sent to those subcontractors and suppliers offering the services which the bidder intends to subcontract and purchase. Notices can be e-mailed or faxed. If emailed, the notice may be sent to all applicable subcontractors with one email. If faxed, include a copy of the fax transmittal confirmation slip.
The notice should contain the following:
 - Bidder's name and contact information
 - Project name and number
 - Scope of work/bid packages available for subcontracting
 - Information on availability of plans and specifications
 - Bidder's insurance, bonding, and financial requirements

- Include Exhibits 1, 2 and 3, with all requested supporting documentation, where applicable. These exhibits are available on the Beaufort County website (www.beaufortcountysc.gov) under the Purchasing Department page.

The undersigned acknowledges making a good faith effort to comply with the above areas checked.

Exhibit 1 Non-Discrimination Statement

This form is due with the bid package.

The bidder certifies the following:

- No person shall be excluded from participation in, denied the benefit of, or otherwise discriminated against on the basis of race, color, national origin, age, sex/gender, disability, religion, language, or income in connection with any bid submitted to Beaufort County or the performance of any contract resulting thereof;
- That it is and shall be the policy of the bidder to provide equal opportunity to all businesses or persons seeking to contract or otherwise interested in contracting with the bidder for Beaufort County contracts, including those businesses owned and controlled by socio-economic and racial minorities;
- In connection herewith, we acknowledge and warrant that this bidder has been made aware of, understands, and agrees to take affirmative action to provide such companies with the maximum practicable opportunities to do business with this bidder;
- That this promise of non-discrimination as made and set forth herein shall be continuing in nature and shall remain in full force and effect without interruption throughout the life of the referenced contract with Beaufort County;
- That the promises of non-discrimination as made and set forth herein shall be and are hereby deemed to be made a part of and included by reference into any contract or portion thereof which this bidder may hereafter obtain and;
- That the failure of this bidder to satisfactorily discharge any of the promises of non-discrimination as made and set forth herein shall constitute a material breach of contract entitling Beaufort County to declare the contract in default and to exercise any and all applicable right and remedies including, but not limited to cancellation of the contract, termination of the contract, suspension and debarment from future contracting opportunities, and withholding and/or forfeiture of compensation due and owing on a contract.

BEAUFORT COUNTY COUNCIL AGENDA ITEM SUMMARY

ITEM TITLE:
Recommendation of award for RFQ 092021E Consulting Services for Conversion to Electric Fleet & Community Readiness (\$269,509)
MEETING NAME AND DATE:
Public Facilities Committee Meeting – November 15, 2021
PRESENTER INFORMATION:
Jared Fralix, P.E., Assistant County Administrator, Engineering Neil J. Desai, P.E., Public Works Director (5 Minutes)
ITEM BACKGROUND:
Per RFQ #092021E - Consulting Services for Conversion to Electric Fleet, the evaluation committee has selected Longbart Ross DBA Seamless Transition Group as the number one candidate to assist Beaufort County with evaluating and recommending the conversion of its fleet to an electric fleet.
PROJECT / ITEM NARRATIVE:
On July 22 nd a request for qualifications was published for a consultant to assess the various criteria that County staff felt would need to be addressed during the adoption of an electric County fleet. Along with addressing the included criteria, applicants would also need to provide an implementation plan for an electric vehicle fleet and its accompanying infrastructure. The request for qualifications ended on September 20 th and the evaluation committee selected 3 of the respondents for interviews which took place on October 15 th .
FISCAL IMPACT:
The project cost is not to exceed to \$269,509 for five phases of the project. Funding will be provided through the American Rescue Plan Act (ARPA) funds.
STAFF RECOMMENDATIONS TO COUNCIL:
Staff recommends the award of RFQ #092021E– Consulting Services for Conversion to Electric Fleet) to Longbart Ross DBA Seamless Transition Group.
OPTIONS FOR COUNCIL MOTION:
Motion to approve/deny recommendation of award for RFQ #092021E– Consulting Services for Conversion to Electric Fleet to Longbart Ross DBA Seamless Transition Group. <i>(Next Step – Move forward to County Council for approval)</i>

RE: Consulting Services for Conversion to Electric Fleet
RFQ No. 092021E

Dear Mr. Thomas and Members of the Selection Committee,

Longobart-Ross Consulting, aka Seamless EV Transition Group, is a consulting firm with 44 years of government fleet experience. Longobart-Ross Consulting is a California based company that provides services nationwide, including Canada. We are a Women-Owned Business and have a CA Small Business Certification, attached in the County of Beaufort portal.

LRC has analyzed the scope of work described in the referenced RFQ. With our expertise in the step-by-step process required to make this transition 'seamless,' we have taken the liberty of putting the scope of work provided into the sequence in which it should be completed in order to create a 'smart transition plan' which then provides the perfect roadmap needed when you are ready to begin implementation.

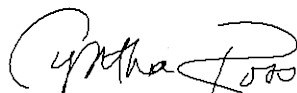

Upon acceptance of this proposal, we will provide the required insurance through Brown and Brown/Hartford Insurance. As noted by the County of Beaufort, we also agree to obtain the required business licenses for both prime and each sub.

Please allow this cover letter to serve as a qualification statement that this proposal is firm for a period of 120 days from the closing date for submission, Sept. 20, 2021. I am an official who is authorized to bind this offer. We have not been involved in any litigation within the past five (5) years, arising out of our performance nor any other issue.

We would like to receive a copy of the Statement of Award.

Feel free to contact me with any questions. We look forward to assisting you and the County of Beaufort as you transition to electric. Congratulations on this commitment!

Warm Regards,

CYNTHIA ROSS, President

Executive Summary

Dear Members of the Proposal Selection Committee,

FIRM, AREA OF OPERATIONS

Longobart-Ross Consulting, aka LRC, has over 44 years of municipal fleet industry experience. As consultants to municipal fleets through the country, we understand the complexities of transitioning a fleet to electric. This is why we developed Seamless EV Transition Group, comprised of several companies who are experts in their own fields under one collaborative called SEVT Group. This allows fleets like the County of Beaufort to have a seamless flow from one step of the plan development to the next with only one Project Manager, Cynthia Ross. You have her commitment, and that of the group, to adhere to the best methods for achieving success and staying on schedule.

This approach creates a strong team capable of providing fleets with a single touchpoint that can address all aspects of fleet electrification planning. The seamless step-by-step plan provides fleets with all the details and cost estimates for each step of fleet electrification, from fleet right sizing and vehicle suitability analyses, to charging infrastructure assessments and even distributed energy resources (DERs) potential, if desired. By addressing each aspect of fleet electrification and wrapping the entire analysis up into an easy to understand “fleet electrification pro forma”, the team provides the comprehensive approach and results needed to advance through planning, to executive approval and move into the implementation phase with confidence that your fleet is making decisions that reduce emissions and are financially sound.

PRINCIPLE STRENGTHS

By utilizing one team with predetermined roles, the challenge of working through each step with multiple companies is eliminated entirely. The County will find this cohesive process simple because our team will work closely with your staff across multiple departments, understanding their needs and meeting the milestones we have set forth, every step of the way. Here are the experts who will be an integral part of your project, ensuring commitment to project and to the schedule.

Longobart-Ross Consulting (PRIME)

In addition to the first introductory paragraph, using industry best practices, LRC developed proprietary software called PROFIT\$ that determines the optimal time for replacing vehicles and equipment. The reports will give a thorough fleet equipment review and 10-year projections on the optimal time to replace. The latter is instrumental in determining what vehicles are candidates for electric currently and in the future.

Distributed Engineering (Subconsultant)

Using physics-based modelling and a robust database of vehicles, we collect fleet data and predict energy consumption at varying levels of electrification. The Fleet AI platform solves the needs of fleet owners who are interested in electrifying, but do not have the necessary tools to make optimal procurement decisions. Our software makes it easy for fleet owners to find electric vehicles, plan for charging infrastructure roll-out, and create convincing reports for internal stakeholders. We choose to work with industry leaders who appreciate the urgency to drive transportation electrification and who want fleets to understand and adopt electric mobility.

Optony Inc. (Subconsultant)

Optony is an award-winning independent energy advisory consulting firm founded in 2007. They provide support to both private and public clients, from banks and utilities, to cities, counties, schools, water agencies and community choice aggregators. They have assisted hundreds of clients worldwide with clean energy planning and program development and have been instrumental in renewable energy developments totaling nearly 3,000 MW, through services in site evaluation, procurement, policy development, or a combination of these tasks. Due to Optony's expertise and market-leading projects, the company was recognized by the Silicon Valley Business Journal as one of the very best energy service companies in the region, and the company's projects have won awards from the Interstate Renewable Energy Council, Acterra Business Environment Awards, and the Governor of California. Since 2015, they have been providing fleet electrification consulting services for local governments specializing in EV load modeling, charging infrastructure needs assessments and distributed energy resource integration to reduce charging costs and maximize the financial and environmental benefits of vehicle electrification.

Northshore Build LLC (Subconsultant)

Northshore Build LLC (NSB) is Construction Management consulting firm. NSB personnel come with over 10 years of construction experience on large scale infrastructure planning and implementation. NSB specializes in a programmatic view, managing large scale capital budgets up to \$100M. Our team has extensive experience in the installation of electric vehicle chargers. Collectively we have design, procured, and constructed over 7,000 charging stations for a variety of clients including utility companies, local governments, County governments, school districts, private companies, and private residential condominiums. We completed both the Utility Design (To the Meter) and the Commercial Construction Design (Beyond the meter). Those designs included the electrical, civil, and ADA requirements. We managed over 250 individual electric vehicle projects over a 3-year period.

RBW Strategy (Subconsultant)

RBW Strategy is a virtual incubator of nonprofit and public sector writers, researchers, and thought leaders who have collectively garnered nearly \$130 million and managed over \$2 billion in funding from private and government sources. As a proud member of the Fleet Consultants group, we offer a two-phased research process: (1) A landscape review of viable local, state, federal, utilities, OEM, and all other incentive monies that includes exploration of funding needs in alignment with program requirements. (2) More in-depth research that categorizes specific funding and incentive opportunities and reviews the eligibility and competitive requirements to be successful including resources, data, cultivation, and other outreach or partnerships.

CONCEPT OF PROJECT OBJECTIVES, SCOPE OF SERVICES, SUMMARY OF ISSUES TO BE ADDRESSED DURING EACH PHASE

The Project Team recognizes that the main objective of this project is to create a cost-effective fleet electrification plan for the County that includes an assessment of opportunities to replace existing vehicles with EVs, an identification of the required infrastructure to support the vehicle transition over time, including a phased adoption and a determination of the correct mix of renewable energy resources to support operation of zero-emission vehicles during emergencies. The Project Team's proposed approach to the scope of services will result in the creation of such a plan with the breadth and depth desired by the County.

Additionally, the Project Team has identified a workflow that will enable all additional issues, which are ancillary yet related to the core analysis, noted by the County in the RFQ to be addressed. The Project Team understands that operational resilience is paramount to a County with Beaufort's unique geography and wide range of services and will bring robust past experience in facility resilience and microgrid planning to compliment the vehicle and charger analysis.

Rest assured SEVT Group believes in planning out projects, making financially sound decisions-based on all project requirements to achieve the client's goals.

ENSURE COMMITMENT TO PROJECT AND SCHEDULE

Thank you for the opportunity to bid on the County of Beaufort's Fleet Electrification Study. Our commitment: We are ready and able to assist the County as you embark upon this exciting mission. Important to note we have always hit our established milestones and exceeded our client's expectations. We are staffed to handle the projects we contract and promise to deliver our project as drafted on the timeline provided on Page 10. We have provided a few clients we have successfully worked for on Pages 10 and 11. Direct contacts are available upon request.

Approach to the Process

PROJECT MANAGEMENT & COUNTY STAFF COORDINATION

To best manage this project, SEVT Group will use its disciplined and well-practiced structure for meetings, communications, data requests, tracking and reporting. Cynthia Ross will coordinate and manage all activities as Project Manager. In order to simplify communications, Cynthia will serve as the primary liaison to all team members of the County. Ms. Ross has an open-door policy for client communication; calls and emails are welcome at any time. Through years of collaborative work experience with municipal governments, Cynthia also understands the importance of establishing effective lines of communication internally and externally to ensure the seamless transfer of information and project flow.

PHASE 1: FLEET BASELINE, DATA COLLECTION & REPLACEMENT SCHEDULE

Section of RFQ Scope Addressed: *Analyze data on Beaufort County's existing fleet to produce a report on the fleet's current performance with a comparison of a proposed EV exchange.*

Quantitative Data Collection: Following the kick-off meeting, the Project Team will work with County staff to collect all data on existing vehicles and domicile facilities. *To ensure seamless integration with the software platforms used by the Project Team, a clear four (4) step process with data templates to guide staff through each step will be followed.* The Project Team will also assist with data cleaning and organization. Examples of data fields to be requested include equipment ID, make, model, fuel type, powertrain, expected service life, monthly and annual odometer readings and fueling records. In addition to the data fields in these templates, the Project Team will also request additional facility data including (1) as built single line diagrams of vehicle domicile locations, (2) location of main electrical service for each domicile location, (3) current peak electrical demand of vehicle domicile locations.

Qualitative Data Collection: The Project Team will also review qualitative data provided by the County and collect additional qualitative through staff interviews. Qualitative data provided by the County will include descriptions of existing fleet operations, vehicle duty cycles, vehicle replacement policies and details of past electrification projects.

Following completion of the data organization process, the Longobart-Ross team will leverage its PROFIT\$ software to create a 10-year replacement schedule that prioritizes vehicles for replacement and recommends a replacement year for every existing asset in the fleet. The 10-year replacement plan will be the foundation for determining what assets are candidates for electric.

PHASE 2: ELECTRIC VEHICLE IDENTIFICATION & SUITABILITY ANALYSIS

Section of RFQ Scope Addressed: *Develop an in-depth cost analysis on the comparison of an internal combustion vehicle fleet versus an EV fleet. Make specific electric vehicle model recommendations that will adequately fill the roles of existing fleet vehicles.*

The Project Team will provide recommendations on EV replacement models based on existing vehicle body type, duty cycle, daily driving distance, operational needs (e.g., all-wheel drive, cargo space) and maintenance and service considerations (e.g., the County prefers only Ford vehicles). Recommendations will be reviewed with County staff to identify acceptable EV replacement model(s) for each vehicle type in the County fleet. Following identification, all potential EV models will be simulated in the Fleet AI platform to calculate energy use required to meet the historical driving patterns of the existing vehicle and confirm that EV range is sufficient.

The Fleet AI platform will then be used to compare replacement of existing vehicles with a new EV or a new internal combustion engine (ICE) vehicle on a total cost of ownership basis over the expected lifespan of the vehicle (e.g., 5 years, 10 years). The TCO analysis will consider purchase cost, auxiliary equipment cost, fuel/electricity cost and maintenance costs. Multiple EV models can be modeled against each other, and multiple potential ICE replacement vehicles, to compare TCO in varying scenarios.

PHASE 3: CHARGING INFRASTRUCTURE NEEDS ASSESSMENT & RENEWABLE ENERGY ANALYSIS

Section of RFQ Scope Addressed: *Recommend sustainable and renewable infrastructure to power an electric fleet that allows for growth alongside fleet implementation phases in addition to maintaining compatibility across different manufacturer types that may be added into the County's Fleet.*

The Load Profile Builder will be used to simulate future 15-minute load profiles based on vehicle behavior, the total energy needs of a given site and, depending on electricity rate structures and vehicle duty cycles, certain managed charging parameters. Charger needs and type will be determined based on the number of coincident ports in use under the different charging scenarios modeled, daily vehicle electricity needs and estimated dwell time. This detailed load forecasting prevents the possibility of significantly overestimating charger needs which would result in unnecessarily high infrastructure costs.

It also enables a detailed simulation of the effect of future charging on electricity bills, which will be completed at this stage and used in Phase 4 to inform financing and funding needs. A detailed description of charger needs and a recommended vehicle to port ratio will be created for each of the four (4) domicile facilities prioritized by the County.

All recommended infrastructure will be vehicle agnostic and follow standard charging port conventions enabling charging stations to function with any vehicle purchased. To summarize scenarios of phased implementation and all cash flows related to vehicle electrification, the Project Team will leverage Optony's proprietary "Fleet Electrification Pro-Forma" template to clearly communicate capital costs and operational budget costs/savings. A copy of the final pro-forma with instructions and adjustable inputs will be provided to County staff to use moving forward.

Section of RFQ Scope Addressed: *Recommend sustainable and renewable infrastructure to power an electric fleet which will be practical and accessible before, during and after disaster events i.e. hurricanes.*

Once future electrical load resulting from vehicle electrification has been estimated and appropriate charging infrastructure needs identified, the Project Team will work with the County to identify an emergency scenario to inform resilience modeling and identify the correct mix of distributed energy resources (e.g. solar, battery storage, generator, if necessary) to support charging during the identified scenario. For example, a hurricane resulting in a 72-hour outage will be identified as the example emergency and the correct mix of resources will be determined to ensure that the County's fleet can meet its required operation while the electrical grid is not operational.

Section of RFQ Scope Addressed: *Evaluate and recommend County owned properties that are best suited to install the infrastructure and support an electric fleet.*

With the estimated future infrastructure needs in mind, we would start by evaluating each property with the key determining factors in mind. These are a few factors to consider when evaluating the sites.

1. Driving radius limitations - we want to make sure that the sites are centrally located so that it's easy to cover the County.
2. Space for infrastructure - depending on the needs of the County, sites with large areas for parking that have the space to install the chargers.
3. Existing infrastructure - we would determine the utility service that is provided and compare that to the existing demand to see how much capacity is at each facility and determine how many chargers can be installed.
4. Cost to upgrade - each site will require some level of construction to either upgrade the utility service and or install new equipment and charging stations. Once we determine how many charging stations can go to each site, we can determine a rough order of magnitude for the cost to make those upgrades without doing a full design.

Section of RFQ Scope Addressed: *Complete analysis of what current grid capacity electrical infrastructure exists at County owned properties and maximum grid capacity. If the infrastructure is limited, what process will need to be completed to better suit the needs of implementation.*

The Project Team will evaluate the utility infrastructure at each facility by doing a site walk and completing load studies on all the main panels to understand what each site's total usage of their utility service and compare that back to the utility bills for the facility. This will determine what the capacity is for each site and if there is enough power to supply the number of chargers. Once each site has been evaluated, we will match up the sites that are best suited for implementation. If there are any upgrades that need to happen, we will understand what those upgrades need to be, and roughly how much they will cost to achieve the desired goal and then engage the utility company that provides power to the sites. We will work with them to design an upgraded service, but either replacing existing equipment with higher capacity equipment or installing a new service and electrical system for just the electric vehicle charging system. Once we know how much to increase capacity of the facility, we can do an engineered utility design and submit that to the utility for review. Once its approved we can proceed with the procurement and installation of the new upgrades.

Section of RFQ Scope Addressed: Provide a map of an area showing all existing and proposed locations for commercial electric vehicle charging stations within a 300-mile radius of Beaufort County.

The Project Team will leverage 3rd-party resources, such as PlugShare, to identify all existing, publicly available charging stations and create a map to support County employees commuting to work in an electric vehicle.

PHASE 4: FINANCING & FUNDING

Section of RFQ Scope Addressed: Coordinate with local energy providers for potential partnerships to be had in this endeavor and highlight any incentives or regulations for both parties included.

Our team has extensive experience working with utility companies and utilizing incentive programs. With combined experience our team has submitted rebates or incentives for different utilities all over the country with about \$15M in incentives earned. The key is to highlight the new revenue growth the utility company will experience with a large amount of consistent electrical demand. A comprehensive review of available vehicle and infrastructure incentives will be completed, and relevant opportunities will be incorporated into the Pro-Forma (mentioned above) at the instruction of County Staff.

Section of RFQ Scope Addressed: Provide information on important regulations as well as all incentives available for electric vehicles as it relates to a local government.

There are sections of the IBC that dictate requirements for Electric Vehicle charging stations and the Accessibility requirements. Those are determined on vehicle and facility usage.

ADA compliant stalls and path of travel will be reviewed on a case-by-case basis. If the facility already has ADA code compliant parking, then public charging is relatively easy to add, if the facility is not ADA code compliant then those costs to upgrade can be significant and come with their own inherent liabilities. This will be researched and reported on during this phase.

All financial incentives available will be researched for local, state, federal, utilities, and OEM to include grants and other monetary resources. Assistance for applying is available through our team at an additional cost to be quoted per expressed County interest.

PHASE 5: ANCILLARY TECHNOLOGIES & POLICIES TO SUPPORT FLEET ELECTRIFICATION

Although these are noted to match the RFQ, any of these may be moved into earlier phases. To be discussed during Kick-Off.

A. Section(s) of RFQ Scope Addressed: Make recommendations on the most fiscally conscious method of electric vehicle procurement. Develop a written set of Standard Operating Procedures for "good driving behaviors" of electric vehicles to optimize range and longevity of electric fleet vehicles.

Using industry found best practices and information gathered from three (3) other municipalities who have successfully transitioned to electric, we will report on the most fiscally conscious method of electric vehicle procurement and develop a written set of Standard Operating Procedures for "good driving behaviors" of electric vehicles to optimize range and longevity of electric fleet vehicles.

B. Section(s) of RFQ Scope Addressed: Advise Beaufort County on trainings available for operators of EV, highlighting safety, proper usage and other education that may be both beneficial to employees and the County.

Research will be completed for training programs and fees that are available for operators of EV, highlighting safety, proper usage and other education that may be both beneficial to employees and the County. County agreed upon findings will be incorporated into the Standard Operating Procedures for EVs.

C. Section(s) of RFQ Scope Addressed: Provide an "End of Service Routine" that will give guidance on an approximate when and how an electric vehicle should be removed from the fleet as well as a disposal plan for batteries and any other "hard to dispose" materials stemming from electric vehicles.

Due to the growth in the secondary market for EVs, it is anticipated that "End of EV Service Routine" will be similar to current vehicles and the County will auction vehicles. Thus, the County will not be required to manage the disposal of batteries. However, if the County is responsible for disposal of the vehicle (and thus the battery), the Project Team can provide insight on the secondary market for the battery itself.

When batteries are deemed insufficient for use in an EV, or the EV is disposed of, that battery often has a significant portion of its capacity remaining which can be used for stationary applications such as on-site battery storage. Thus, the County is likely to be able to resell the battery instead of having to dispose of it.

D. Section(s) of RFQ Scope Addressed: Provide recommendation on security to prevent unauthorized citizens from utilizing charging stations and/or suggest a public utilization plan and how the County will cover inquired expenditures along with an operation plan.

The Project Team expects most charging stations will be recommended for fleet use only and placed behind a fence in secured County parking. To minimize infrastructure costs, however, the Project Team will look for opportunities for certain departments to share infrastructure with the public (e.g., during the day while fleet vehicles charge at night). For stations that may be used by the public, there are risk and opportunities. The Project Team will recommend best practices for pricing and tracking billing on the back end. Questions related to this topic will be added to the questionnaire for the three (3) municipality interviews noted in Section A above.

E. Section(s) of RFQ Scope Addressed: Recommend multiple software and tools that will allow the County to remotely monitor the performance of an electric fleet. Performance will be described to include, but not be limited to the management of charging locations, real-time energy use, analytics of multiple sites charging by employees and real-time driving efficiency. System will need to communicate with any and all software currently in use by the County unless the County plans to update accordingly.

Project Team to recommend models equipped with wireless and software capability enabling tracking of real-time energy use, modulation of charging rates and billing across multiple sites, all trackable through a single portal. Real-time driving efficiency of vehicles cannot be tracked via the charging station's software and will need to be tracked through telematic units installed on vehicles. Will recommend leading telematics providers, including those that specialize in electric vehicles.

TIMELINE IN EXCEL AVAILABLE UPON REQUEST																																															
Timeline - To be discussed & agreed upon with County during Kick-Off.		2022

Experience and Qualifications of the Design Team

More projects are available as well as project contact information and further descriptions.

Fleet Electrification Roadmap and EV Infrastructure Planning, (2021 - present)

Client: City of Burbank, California

Project Highlights: Creating a comprehensive fleet electrification plan and EV infrastructure study with a Project Scope including a systematic assessment of vehicle electrification opportunities, load modeling to understand the potential impacts of electrification on City facilities and an identification and cost estimate of the most cost-effective infrastructure solution to support vehicle electrification.

Clean Energy Plan for County Operations (2020-present)

Client: Durham County, North Carolina

Project Highlights: Optony completed a clean energy plan for county operations, providing a roadmap for the County to meet its clean energy goals by 2030 and 2050. A key part of the plan was a comprehensive fleet analysis to identify the opportunities and cost for vehicle electrification across a fleet of ~400 assets over the next 10 to 30 years. Led the creation of a vehicle replacement timeline and estimate of annual budget needs to support various levels of vehicle electrification.

EV Infrastructure & Microgrid Procurement, (2021 - present)

Client: City of Menlo Park, California

Project Highlights: Working with the City of Menlo Park to provide procurement management for a resilient PV + energy storage microgrid and 15 EV charging stations at a new community center. Work includes collaboration with engineering and architecture teams, incorporation of appropriate EV charging load forecasts into microgrid functionality for resilient charging and utility company engagement.

Fleet Electrification Roadmap and EV Infrastructure Planning (2021-present)

Client: Town of Concord, Massachusetts

Project Highlights: Leading a fleet electrification and EV infrastructure study including the following work: vehicle replacement planning, EV suitability assessment, total cost of ownership analysis, charging needs analysis.

Fleet Electrification Roadmap and EV Infrastructure Planning (2021-present)

Client: City of Palo Alto, California

Project Highlights: Leading a fleet electrification and EV infrastructure study including the following work: EV suitability assessment, total cost of ownership analysis under vehicle leasing and ownership scenarios, charging needs analysis across all City sites.

Fleet Electrification Roadmap and Municipal Fleet Planning Tools, 2019 - 2021

Client: City of Fremont, California

Project Highlights: Provided strategic planning to identify actionable ways to achieve robust decarbonization of municipal vehicles and facilities. The analysis includes a comprehensive fleet assessment and electrification analysis of over 500 assets paired with a detailed distributed energy resource study and recommendations for facilities. Optony is currently engaged in follow-on work to facilitate EV infrastructure procurement.

PG&E Pilot Electric Vehicle Charging Network Program (2018-2021)

Client: Pacific Gas & Electric (PG&E)

Project Highlights: For California to hit its emissions target mandated by California State Bill 350, the California Public Utility Commission (CPUC) mandated that PG&E install 7000 charging stations all over their service territory. All type of properties were allowed to enroll into the program to have charging stations installed at subsidized cost. Over 500 sites were walked, over 250 sites were constructed over a 3-year period. The scope included a utility assessment of the existing infrastructure of a site to determine the capacity, an electrical and ADA assessment of the existing site to determine the code compliant location for charging stations, engineering design services, cost estimate evaluation based on budget requirements, permitting through the local jurisdiction (AHJ - Authorization having Jurisdiction), construction and construction management, and finally commissioning and close out documentation.

PG&E Pilot Fleet Vehicle Charging Program (2019-2021)

Client: Pacific Gas & Electric (PG&E)

Project Highlights: The California Public Utility Commission (CPUC) mandated that PG&E work with Government and Private customers to transition ICE fleet vehicle to electric and help design and implement the necessary charging stations infrastructure all over their service territory. Over 100 sites were walked, over 35 sites were constructed over a 2-year period. The scope included a utility assessment of the existing infrastructure of a site to determine the capacity, an electrical and ADA assessment of the existing site to determine the code compliant location for charging stations, engineering design services, cost estimate evaluation based on budget requirements, permitting through the local jurisdiction (AHJ - Authorization having Jurisdiction), construction and construction management, and finally commissioning and close out documentation.

Key Personnel

The Proposing Team, SEVT Group, includes a diverse group of key personnel with substantial experience in the skills, subject matter, and specific subtasks necessary to complete this project successfully.

These are the persons authorized to make representations for our firm.

LONGOBART-ROSS CONSULTING dba SEAMLESS EV TRANSITION GROUP		
PRIME		
Cynthia Ross, President Role: Project Manager Project Coordinator Timeline Management	Longobart-Ross Consulting & Seamless EV Transition Group PO Box 2273 Big Bear City, CA 92314	949.943.0023
Rick Longobart, Vice President Role: Lead data collection, scrub, organize and validate fleet data through PROFIT\$ software reporting	Longobart-Ross Consulting 4720 Shannonhouse Dr., #102 Raleigh, NC 27612 Closest to branch office availability to Beaufort County.	949.943.0034
SUBCONSULTANTS (Part of SEVT Group)		
Igor Lukac, P Engineer, Managing Partner Role: Using software Fleet A1, analysis of fleet for all comparison studies and EV recommendations Engineering	Distributed Engineering Limited 370 Sixteen Mile Drive Oakville, Canada	905.399.3671

Christopher Sampson Role: Constructability assessment and construction management Utility coordination and support Engineering, Design, Construction	Northshore Build, 1160 Battery Street, Suite 100, San Francisco, CA 94111	949.244.7937
Rachel Werner, MPA, GPC, PMP Role: Incentives, Grants	RBW Strategy, 5012 Tothill Drive, Olney, MD 20832	301.325.8552

Prime Consultant

Longobart-Ross Consulting dba Seamless EV Transition Group

SBE Certification &

Cynthia Ross, CEO/President

Cynthia came from the private sector in December of 2013 where she was the VP of Client Relations throughout her career and earned her Accreditation in Leadership and Energy and Environmental Design. With a fascination of the government sector, she developed Longobart-Ross Consulting where she is President and co-owner. As a genuine advocate for meeting a client's needs, Cynthia learned the inner workings of a fleet operation in order to then assist fleets throughout the country become more efficient by utilizing industry best standards.

Combining her client liaison skills and her skills as a strategic planner, she acts as the company's Project Manager. Her phenomenal communication skills allow her to go below the surface of external challenges. Combining this knowledge with the thorough understanding of a fleet's current practices and their goals, she is then able to provide prudent solutions that result in a written plan toward the achievement of a more efficient operation. Her ability to hit milestones, manage cost control, and stay within budget allocations allow her to oversee projects ensuring all Client goals are met and exceeded. Cynthia manages all collaboration between Client, LRC, alliance members, subcontractors, and others involved in the project. In 2017, she co-authored a proprietary software called PROFIT\$. This software is the perfect tool to provide a variety of reports that allow fleet operations to plan their replacement budgets for all vehicles and equipment within their fleet. These reports also allow for long-term planning for the transition to electric and/or hybrid.

In 2021, Cynthia created Seamless EV Transition Group, aka SEVT Group, which is doing business under Longobart-Ross Consulting. SEVT Group is a solid collaboration of experts who work with clients throughout the country to plan a "seamless transition" to electric and hybrid.

Rick Longobart, Principal

Rick is a highly accomplished management professional with proven leadership skills and a track record of award-winning performance in the public service sector of Public Works handling fleet, facility, street maintenance, solid waste management and custodial services. He possesses an extensive background in budgeting, equipment replacement, capital improvements and management of internal service funds using lifecycle cost analysis, real-time operating charges, and cooperative agreements for purchase of products and services. Rick excels at the development and implementation of cost containment strategies and at dramatically improving operations through institution of creative solutions. He demonstrates ability in successful representation of division to governing bodies and in the management of hazardous materials.

Involved in the fleet industry for 32 years, Rick led the City of Santa Ana fleet to 3rd Best Fleet overall, #1 Mid-Size Fleet in the country, and 9th on 100 Best and Greenest Fleet in the Nation in 2014. A member of (MEMA) for 29 years, he was President for 10. He chairs the NAFA Pacific Southwest Chapter.

Rick Longobart would be closest to branch office availability to Beaufort County. He is located on Raleigh, North Carolina.

SEVT Group – Subconsultants

Igor Lukac, P.E., Director of Fleet Analytics for EV

Igor Lukac, a licenced professional engineer, discovered his passion for high-tech clean energy while working with a team of engineers to build a solar-powered electric car. Since then, he created an engineering consultancy that has helped clients evaluate and successfully deploy renewable energy projects. Igor holds two degrees, one in Integrated Engineering and one in Business Administration with a specialization in finance. Through collaboration with General Electric and Siemens on wind turbine projects in Canada and the United States, Igor developed a deep understanding of the challenges that coincide with rapid deployment of renewable technology. Now, more than 14 years since Igor built his first electric car, the technology is ready to help fleet owners achieve significant savings. The goal is to utilize Fleet-AI software and the engineering talent of their team to assist your fleet determine which vehicles to electrify thus ensuring a cleaner, more profitable future.

Sam Hill-Cristol, Energy Program Manager

Mr. Hill-Cristol currently serves as a Project Manager and Energy Analyst at Optony. He currently leads all of Optony's work on fleet electrification, managing comprehensive consulting teams and leading analysis to create actionable results driving strategic and cost-effective electric vehicle, charging infrastructure and distributed energy resource procurement. He has worked in all facets of the renewable energy -- public policy nexus and uses that experience to interface with public and private stakeholders in order to catalyze clean technology deployment at the local level. Prior to joining Optony, Mr. Hill-Cristol served as the Sustainable Energy & Transportation Associate at Alameda County, where he led the County's efforts to overcome the charging constraints hindering efforts to achieve mass deployment of electric vehicles in their fleet. He is the lead author of a paper analyzing how energy markets could support utility scale battery storage in New England. He holds a Bachelor of Arts in Environmental Studies, with Honors, from Brown University.

Christopher Sampson, P.E, Director of Infrastructure Planning and Construction Operations

Chris joined Seamless EV Transition Group to advance environmental and sustainability priorities across the construction sector. He has 10 years of experience in both commercial and large-scale infrastructure construction. In recent years, Chris worked for one of the nation's largest electrical construction companies, supporting green initiatives advanced by PG&E and the state of California for Electric Vehicle charging station targets. He oversaw the engineering and construction of over 7,000 charging stations throughout California and completed over 250 individual sites with level 2, level 3, and Fleet charging. Chris has worked with a variety of different clients such as Technology companies, Municipalities, Utilities, School Districts, Commercial and Residential Real Estate companies, and EV Charing Manufacturers. Chris Sampson would be conducting site walk.

He delivers projects on time and on budget. He has a thorough understanding of both the utility and commercial side of construction and knows how to operate within the utilities to get projects completed. Chris funnels his expertise in project development, design management, procurement, and construction management to further the mission to reduce carbon emissions. Chris received a Bachelor's in Civil Engineering and a Master's in Structural Engineering from Santa Clara University and is a Professional Engineer in the State of California.

Rachel Werner, MPA, PMP, GPC Director Fundraising

Rachel has served as a non-profit fundraiser/grant writer, grants manager at an education management organization, and management consultant overseeing federal government contracts. She is now the Owner and CEO of RBW Strategy, a grants and fundraising consulting firm located in Montgomery County, MD. She and her team have collectively raised over \$130 million in grant funding, and she has managed over \$2 billion in federal grant awards. She studied at Vassar College and received a Master's in Public Administration from New York University's Wagner School of Public Service. She has also obtained a Certificate in Grants Management, is a certified Project Management Professional, and a Certified Grants Professional.

Acknowledgement of Amendments

I, Cynthia Ross, President of the Proposing Firm, do hereby affirm receipt of Addendum #1 dated August 12, 2021.

ATTN: David Thomas, Purchasing Director

RE: Consulting Services for Conversion to Electric Fleet
RFQ No. 092021E | SEVT21.1235_R

Dear Mr. Thomas and Members of the Selection Committee,

Thank you for the opportunity to present our Scope of Work with suggested timeline, Exhibit A, and fees, Exhibit B. Each Phase is Optional to fit within your budgetary requirements.

1.0 SCOPE OF WORK DELIVERABLES

PROJECT MANAGEMENT & COUNTY STAFF COORDINATION

To best manage this project, SEVT Group will use its disciplined and well-practiced structure for meetings, communications, data requests, project and timeline tracking and reporting. Cynthia Ross will coordinate and manage all activities as Project Manager. In order to simplify communications, Cynthia will serve as the primary liaison to all team members of the County as well as her group. Ms. Ross has an open-door policy for client communication; calls and emails are welcome at any time. Through years of collaborative work experience with municipal governments, Cynthia also understands the importance of establishing effective lines of communication internally and externally to ensure the seamless transfer of information and project flow. Her hours are calculated in each phase of this project with additional hours for coordination of nine (9) bi-weekly meetings in Phases 2 and 3, team coordination, timeline management, coordinating and finalizing all reports. Throughout the 9.5-month project, Cynthia conducts client outreach to ensure every step within each phase is running smoothly from everyone's perspective.

Timeline

The Timeline is attached as Exhibit A. County and Consultant will agree on a detailed Schedule of Work within five (5) days after a Notice to Proceed is issued. The overall schedule duration for this project is to accommodate County needs, and as directed, provide services to meet Project and Schedule objectives.

Scope of Work

LRC has analyzed the scope of work described in the referenced RFQ. With our expertise in the step-by-step process required to make this transition '*seamless*,' we have taken the liberty of putting the scope of work provided into the sequence in which it should be completed in order to create a 'smart transition plan' which then provides the perfect roadmap needed when you are ready to begin implementation.

PHASE 1: FLEET BASELINE, DATA COLLECTION & REPLACEMENT SCHEDULE

DELIVERABLES

D:1-1	Coordination of Team and County Kick-Off Meeting
	Collection of Existing Assets and Domicile Facilities Data Scrub
D:1-1(A)	Additional data collection to support Phase 3
D:1-2	Six Individual (one person only) Staff Interviews Questions regarding rightsizing to be approved by County Review Replacement Policies and Past Electrification Discuss findings and recommendations with County
D:1-3	PROFIT\$ 10-Year Replacement Report and Report on Replacement Schedule

Section of RFQ Scope Addressed: Analyze data on Beaufort County's existing fleet to produce a report on the fleet's current performance with a comparison of a proposed EV exchange.

D:1-1: Quantitative Data Collection: Following the kick-off meeting, the Project Team will work with County staff to collect all data on existing vehicles and domicile facilities. *To ensure seamless integration with the software platforms used by the Project Team, a clear four (4) step process with data templates to guide staff through each step will be followed.* The Project Team will also assist with data cleaning and organization. Examples of data fields to be requested include equipment ID, make, model, fuel type, powertrain, expected service life, monthly and annual odometer readings and fueling records.

D:1-1(A): In addition to the data fields in these templates, the Project Team will also request additional facility data including (1) as built single line diagrams of vehicle domicile locations, (2) location of main electrical service for each domicile location, (3) current peak electrical demand of vehicle domicile locations. This data is required for Phase Three.

D:1-2: Qualitative Data Collection: The Project Team will also review qualitative data provided by the County and collect additional qualitative through a total of six (6) one-on-one staff interviews. Qualitative data provided by the County will include descriptions of existing fleet operations, vehicle duty cycles, vehicle replacement policies and details of past electrification projects. Note: Since each phase is optional, it is recommended that collecting data on vehicle duty cycles by included in the initial scope so interviews with County staff do not have to be scheduled twice.

D:1-3: Following completion of the data organization process, the Longobart-Ross team will leverage its PROFIT\$ software to create a 10-year replacement schedule that prioritizes vehicles for replacement and recommends a replacement year for every existing asset in the fleet. The 10-year replacement plan will be the foundation for determining what assets are candidates for electric.

PHASE 2: ELECTRIC VEHICLE IDENTIFICATION & SUITABILITY ANALYSIS

DELIVERABLES

D:2-1	Electric Vehicle Replacement Assessment
D:2-2	Fleet-AI Software Simulation
D:2-3	ICE/EV Comparison and Feasibility Report
D:2-4	Additional Fleet Analysis (OPTIONAL)

Section of RFQ Scope Addressed: Develop an in-depth cost analysis on the comparison of an internal combustion vehicle fleet versus an EV fleet. Make specific electric vehicle model recommendations that will adequately fill the roles of existing fleet vehicles.

D:2-1: The Project Team will provide recommendations on EV replacement models based on existing vehicle body type, duty cycle, daily driving distance, operational needs (e.g., all-wheel drive, cargo space) and maintenance and service considerations (e.g., the County prefers only Ford vehicles). Recommendations will be reviewed with County staff to identify acceptable EV replacement model(s) for each vehicle type in the County fleet.

D:2-2: Following identification, all potential EV models will be simulated in the Fleet AI platform to calculate energy use required to meet the historical driving patterns of the existing vehicle and confirm that EV range is sufficient. In addition, the Fleet AI platform will be used to calculate costs and emissions of the vehicles considered for replacement.

D:2-3: The Fleet AI platform will then be used to compare replacement of existing vehicles with a new EV or a new internal combustion engine (ICE) vehicle on a total cost of ownership basis over the expected lifespan of the vehicle (e.g., 5 years, 10 years). The TCO analysis will consider purchase cost, auxiliary equipment cost, fuel/electricity cost and maintenance costs. Multiple EV models can be modeled against each other, and multiple potential ICE replacement vehicles, to compare TCO in varying scenarios.

D:2-4: (OPTIONAL) The same analysis described in D2-1 to D2-3 will be performed for the additional fleet of 285 vehicles.

PHASE 3: CHARGING INFRASTRUCTURE NEEDS ASSESSMENT & RENEWABLE ENERGY ANALYSIS

DELIVERABLES

D:3-1	Report summarizing charging infrastructure recommendations, cost estimates and Electrification Pro-Formas
D:3-1(A)	Expansion of 3-1 to include Myrtle
D:3-1(B)	Expansion of 3-1 to include Sheriff Facility
D:3-2	Report summarizing results of Resilient Charging Analysis (DER recommendations)
D:3-3	Desktop Review of Existing site and ROM pricing
D:3-4	Preliminary High-Level Design

D:3-5 | Existing Local Charging Coordination

Section of RFQ Scope Addressed: *Recommend sustainable and renewable infrastructure to power an electric fleet that allows for growth alongside fleet implementation phases in addition to maintaining compatibility across different manufacturer types that may be added into the County's Fleet.*

D:3-1: A review of qualitative information on vehicle operations, fueling transaction records and any telematic data available will be completed to inform port rating(s) appropriate for the charging infrastructure at each site. The Load Profile Builder will be used to simulate future 15-minute load profiles based on vehicle behavior, the total energy needs of a given site and, depending on electricity rate structures and vehicle duty cycles, certain managed charging parameters. Charger needs and type will be determined based on the number of coincident ports in use under the different charging scenarios modeled, daily vehicle electricity needs and estimated dwell time. This detailed load forecasting prevents the possibility of significantly overestimating charger needs which would result in unnecessarily high infrastructure costs.

It also enables a detailed simulation of the effect of future charging on electricity bills, which will be completed at this stage and used in Phase 4 to inform financing and funding needs.

A detailed description of charger needs and a recommended vehicle to port ratio will be created for each of the three (3) main domicile facilities prioritized by the County (Public Works facility at 120 Shanklin Road 2) The Government Administration Building at 100 Ribaut Road and 3) Public Works and Fuel Facility on Benton Field Road in Bluffton).

All recommended infrastructure will be vehicle agnostic and follow standard charging port conventions enabling charging stations to function with any vehicle purchased. To summarize scenarios of phased implementation and all cash flows related to vehicle electrification, the Project Team will leverage Optony's proprietary "Fleet Electrification Pro-Forma" template to clearly communicate capital costs and operational budget costs/savings. A copy of the final pro-forma with instructions and adjustable inputs will be provided to County staff to use moving forward.

D:3-1-A+B:(OPTIONAL) Depending on the priorities of the County, two (2) additional facilities can be considered for study with the same scope of analysis. Examples include the Myrtle Park facility and Sheriff's Department facility (if Sheriff's vehicles are added). Additional facilities are priced on a per facility basis in the Price Quote.

Section of RFQ Scope Addressed: *Recommend sustainable and renewable infrastructure to power an electric fleet which will be practical and accessible before, during and after disaster events i.e. hurricanes.*

D:3-2: (OPTIONAL) Once future electrical load resulting from vehicle electrification has been estimated and appropriate charging infrastructure needs identified, the Project Team will work with the County to identify an emergency scenario to inform resilience modeling and identify the correct mix of distributed energy resources (e.g. solar, battery storage, generator, if necessary) to support charging during the

identified scenario. For example, a hurricane resulting in a 72-hour outage will be identified as the example emergency and the correct mix of resources will be determined to ensure that the County's fleet can meet its required operation while the electrical grid is not operational.

Section of RFQ Scope Addressed: Evaluate and recommend County owned properties that are best suited to install the infrastructure and support an electric fleet.

D:3-3: With the estimated future infrastructure needs in mind, we would start by evaluating each property with the key determining factors in mind. These are a few factors to consider when evaluating the sites.

1. Driving radius limitations – we want to make sure that the sites are centrally located so that it's easy to cover the County. **Note:** This consideration likely does not apply to this project and may be deleted.
2. Space for infrastructure – depending on the needs of the County, sites with large areas for parking that have the space to install the chargers.
3. Existing infrastructure – we would determine the utility service that is provided and compare that to the existing demand to see how much capacity is at each facility and determine how many chargers can be installed. For this we will need existing As-Builds for the facilities. We will also need to coordinate with the local utility provider and need access to utility bills from the County.
4. Cost to upgrade – each site will require some level of construction to either upgrade the utility service and or install new equipment and charging stations. Once we determine how many charging stations can go to each site, we can determine a rough order of magnitude for the cost to make those upgrades without doing a full design. Material costs are subject to change due to global supply chain issues. We will take the costs as they are at the time of assessment, the county needs to be aware of the fact that costs could go up or down significantly if the current issues continue.

Section of RFQ Scope Addressed: Complete analysis of what current grid capacity electrical infrastructure exists at County owned properties and maximum grid capacity. If the infrastructure is limited, what process will need to be completed to better suit the needs of implementation.

D:3-4: The Project Team will evaluate the utility infrastructure at each facility by doing a site walk and completing load studies taken from the interval data utility service to understand each site's total usage of their utility service. This will determine what the capacity is for each site and if there is enough power to supply the number of chargers. Once each site has been evaluated, we will match up the sites that are best suited for implementation. If there are any upgrades that need to happen, we will understand what those upgrades need to be, and roughly how much they will cost to achieve the desired goal and then engage the utility company that provides power to the sites. We will work with them to design an upgraded service, but either replacing existing equipment with higher capacity equipment or installing a new service and electrical system for just the electric vehicle charging system. Once we know how much to increase capacity of the facility, we can do a one-page high level review of the existing service, location of existing equipment and size, location of new equipment.

If necessary, location of the new trench lines and charger locations. We will also assess the sites where the County would like to implement public charging options, this will require an ADA assessment for the sites. If changes happen with the site walk, rough order of magnitude pricing will be updated.

In this proposal and pricing, we have included one (1) site walk for each facility that will be completed in a one-week trip. We will allocate one (1) week to complete this walk (Travel Monday and Friday, site walks Tuesday through Thursday).

We anticipate each of the three (3) sites will take one (1) day to be reviewed. Before scheduling the site walk, we will need all existing as-builds for the facility, pictures of the panel schedules at each panel at the facility and its location, locations of all the utility transformers that power the facility. We would need to meet with the local Facilities Manager, and any other parties that are familiar with the facilities so we can gain access to all relevant equipment. We will not need them for the entire day, but we will need access to electrical rooms, parking areas, control rooms, etc. If additional site walks are needed, they will be charged as requested.

(OPTIONAL)

An additional site walk, and evaluation might be requested for Myrtle Park facility located at 4819 Bluffton Pkwy, Bluffton, SC 29910. If that is decided before the site walk is performed, then no additional travel cost will be applied. If it is decided after the site walk is performed, then a second site walk would be necessary.

Section of RFQ Scope Addressed: Provide a map of an area showing all existing and proposed locations for commercial electric vehicle charging stations within a 300-mile radius of Beaufort County.

D:3-5: The Project Team will leverage 3rd-party resources, such as PlugShare, to identify all existing, publicly available charging stations and create a map to support County employees commuting to work in an electric vehicle.

PHASE 4: FINANCING & FUNDING

DELIVERABLES

D:4-1	Meeting notes from any discussions with local energy providers
D:4-1(A)	Additional utility engagement is based upon Phase 3 results
D:4-2	Completion of Funding landscape report (Part 1), and Incentive and grant opportunities report and strategic coaching (Part 2)
D:4-3	N/A - See below

Section of RFQ Scope Addressed: Coordinate with local energy providers for potential partnerships to be had in this endeavor and highlight any incentives or regulations for both parties included.

COUNTY OF BEAUFORT

RFQ NO. 092021E - SEVT21-1235_R

Page 7 of 11

D:4-1 Our team has extensive experience working with utility companies and utilizing incentive programs and can support conversations with Palmetto Electric Cooperative (or other local energy providers) to explore opportunities for collaboration in support of the County's electrification goals. With combined experience our team has submitted rebates or incentives for different utilities all over the country with about \$15M in incentives earned. The key to engagement is to highlight the new revenue growth the utility company will experience with a large amount of consistent electrical demand.

D:4-1(A): Without inclusion of Phase 3 in the initial SOW, 4-1 will focus on engagement with Utility around vehicle funding opportunities and sharing high-level approaches to EV infrastructure make-ready strategies but cannot focus on specific charging needs of County because those have not been identified. Additional hours will be added when Phase 3 is completed, and associated budget has been noted in the fee schedule.

D: 4-2 Our team will conduct a comprehensive review, beginning in April, of available vehicle and infrastructure incentives for local, state, federal, utilities, and OEM, including grants and other monetary resources.

We will request a meeting with the Beaufort team prior to the intensive research work to map out keywords and priority areas for funding. The first component of this research is a funding landscape to identify the incentive and grants landscape from a strategic orientation, and then a report will be developed of key findings.

The second component of the research is a detailed report of specific incentive and grant opportunities, which will be made available for review in Q3. Relevant opportunities will be incorporated into the Pro-Forma (mentioned above) at the instruction of County Staff. Since new funding opportunities are arising at a rapid pace, ongoing research will take place to ensure appropriate opportunities are identified, and the team is well positioned to pursue funding. In addition, the team will receive additional coaching on how to best position itself to be responsive to various opportunities, through internal infrastructure enhancements, project concept refinements, and budgetary information, which will help increase the likelihood of positive responses to application submissions.

Assistance for applying is available through our team at an additional cost to be quoted per expressed County interest.

We anticipate a meeting with the Beaufort team in early April to scope out Part 1 of the research, review findings in late April, and then review the Part 2 report in June. If strategic coaching is needed, this can occur at any time.

Section of RFQ Scope Addressed: Provide information on important regulations as well as all incentives available for electric vehicles as it relates to a local government.

There are sections of the IBC that dictate requirements for Electric Vehicle charging stations and the Accessibility requirements. Those are determined on vehicle and facility usage.

D: 4-3 ADA compliant stalls and path of travel will be reviewed on a case-by-case basis.

If the facility already has ADA code compliant parking, then public charging is relatively easy to add. If the facility is not ADA code compliant, then those costs to upgrade can be significant and come with their own inherent liabilities. This will be researched and reported on during this phase. **Note:** Content from this section of the RFQ response has been moved and addressed in other sections. Incentives are addressed in the previous deliverable (D:4-2) and ADA compliance in previous deliverable D:3-4.

PHASE 5: ANCILLARY TECHNOLOGIES & POLICIES TO SUPPORT FLEET ELECTRIFICATION
 Although these are noted to match the RFQ, any of these may be moved into earlier phases. To be discussed during Kick-Off. (OPTIONAL)

DELIVERABLES

D:5-1	EV Standard Operating Procedures
D:5-2	EV Operators Training Advice
D:5-3	EV End of Service Routine for Asset and Battery
D:5-4	Unauthorized User Security Plan
	Public Utilization Plan w operation and recovery of expenditures
D:5-5	Software and Tools (EV Monitoring) Recommendations

A. Section(s) of RFQ Scope Addressed: *Make recommendations on the most fiscally conscious method of electric vehicle procurement. Develop a written set of Standard Operating Procedures for "good driving behaviors" of electric vehicles to optimize range and longevity of electric fleet vehicles.*

Using industry found best practices and information gathered from three (3) other municipalities who have successfully transitioned to electric, we will report on the most fiscally conscious method of electric vehicle procurement and develop a written set of Standard Operating Procedures for "good driving behaviors" of electric vehicles to optimize range and longevity of electric fleet vehicles.

B. Section(s) of RFQ Scope Addressed: *Advise Beaufort County on trainings available for operators of EV, highlighting safety, proper usage and other education that may be both beneficial to employees and the County.*

Research will be completed for training programs and fees that are available for operators of EV, highlighting safety, proper usage and other education that may be both beneficial to employees and the County. County agreed upon findings will be incorporated into the Standard Operating Procedures for EVs.

C. Section(s) of RFQ Scope Addressed: *Provide an "End of Service Routine" that will give guidance on an approximate when and how an electric vehicle should be removed from the fleet as well as a disposal plan for batteries and any other "hard to dispose" materials stemming from electric vehicles*

Due to the growth in the secondary market for EVs, it is anticipated that "End of EV Service Routine" will be similar to current vehicles and the County will auction vehicles. Thus, the County will not be required to manage the disposal of batteries.

However, if the County is responsible for disposal of the vehicle (and thus the battery), the Project Team can provide insight on the secondary market for the battery itself.

When batteries are deemed insufficient for use in an EV, or the EV is disposed of, that battery often has a significant portion of its capacity remaining which can be used for stationary applications such as on-site battery storage. Thus, the County is likely to be able to resell the battery instead of having to dispose of it.

D. Section(s) of RFQ Scope Addressed: Provide recommendations on security to prevent unauthorized citizens from utilizing charging stations and/or suggest a public utilization plan and how the County will cover inquired expenditures along with an operation plan.

The Project Team expects most charging stations will be recommended for fleet use only and placed behind a fence in secured County parking. To minimize infrastructure costs, however, the Project Team will look for opportunities for certain departments to share infrastructure with the public (e.g., during the day while fleet vehicles charge at night). For stations that may be used by the public, there are risk and opportunities. The Project Team will recommend best practices for pricing and tracking billing on the back end. Questions related to this topic will be added to the questionnaire for the three (3) municipality interviews noted in Section A above.

E. Section(s) of RFQ Scope Addressed: Recommend multiple software and tools that will allow the County to remotely monitor the performance of an electric fleet. Performance will be described to include, but not be limited to the management of charging locations, real-time energy use, analytics of multiple sites charging by employees and real-time driving efficiency. System will need to communicate with any and all software currently in use by the County unless the County plans to update accordingly.

Project Team to recommend models equipped with wireless and software capability enabling tracking of real-time energy use, modulation of charging rates and billing across multiple sites, all trackable through a single portal. Real-time driving efficiency of vehicles cannot be tracked via the charging station's software and will need to be tracked through telematic units installed on vehicles. Will recommend leading telematics providers, including those that specialize in electric vehicles.

It is understood that in order to provide the services noted above in a timely fashion, CLIENT will respond to all LRC requests within an 8-hour period. These requests may include responses to voicemails, emails, scheduling meetings and site visits, and providing contact information or requested data that corresponds to said contract.

2.0 SCHEDULE

A kick-off call by our team will be scheduled based upon arrangements with the County following receipt of an executed copy of this Agreement.

A firm schedule of service will be discussed during the Kick-Off Meeting between Consultant and County.

The Timeline will be adjusted to fit the County's team calendar and team schedules. This schedule may be modified during the term of the project, with County's approval.

For the duration of Phase 2 and Phase 3 our team anticipates bi-weekly meetings with the County's project team to track progress, solicit ongoing project input and vet preliminary results. This is anticipated to be a total of 9 meetings.

3.0 DELIVERABLES

All content within Deliverables will be owned by the County and theirs to use at their discretion. Project deliverables noted under Scope of Work.

4.0 FEE AND PAYMENT SCHEDULE

FEES PAYABLE TO

Payments to be made to:
Longobart-Ross Consulting
RFQ092021E-SEVT21-1235_R
Electronic wire transfer information will be sent with acceptance of this proposal.

Subconsultant billing to go through Longobart-Ross Consulting.

FEE SCHEDULE

See Exhibit B for a break-down of hours and fees. Please note the Summary Totals are in Rows 3-8 and prior to the start of Phase One. Cells highlighted in light green include software and site walk fees.

BUSINESS LICENSE AND INSURANCE

LRC acknowledges that we will provide the required documentation.

INVOICING AND PAYMENT

Consultant shall provide the County with an invoice noting completion of work every 30 days. Invoice will list the Deliverable Number as noted in Section 1.0. County to approve invoice within 2-5 days of receipt with all payments made within thirty (30) days after receipt of said invoice.

Site walk: Charging Infrastructure Needs Assessment & Renewable Energy Analysis & Implementation Feasibility Study

Travel expenses in Phase 3 will be itemized and sent to the County for approval, via email, prior to site visit. A separate invoice for the site walk expenditures will be submitted upon completion of the site walk. The invoice will be sent to the County with all receipts attached. Travel expenses will include flights, car rental, per diem, and meals and are estimated at \$7,000. All only actual cost will be charged and reimbursed based of County approval.

COUNTY OF BEAUFORT
RFQ NO. 092021E - SEVT21-1235_R
Page 11 of 11

The terms and conditions of this proposal are firm for a period of 120 days from the closing date of the RFQ submission date which was Sept. 20, 2021. Should this contract be accepted initially selecting only certain phases, the remaining terms herein and the fee schedule will stay in effect on all other phases until contracted phases are completed.

Thank you again for this opportunity to present our proposal for these services to Beaufort County. We are confident that our services will reflect the high standards your County and your organization deserve.

Should you have any questions, please do not hesitate to contact the undersigned.

Sincerely,

SEAMLESS EV TRANSITION GROUP
A Division of Longobart-Ross Consulting

Cynthia Ross

BEAUFORT COUNTY COUNCIL AGENDA ITEM SUMMARY

ITEM TITLE:
Recommendation to Award RFQ#083021E On-Call Traffic Consultants
MEETING NAME AND DATE:
Public Facilities Committee – November 15, 2021
PRESENTER INFORMATION:
Jared Fralix, Assistant County Administrator – Engineering (5 mins)
ITEM BACKGROUND:
On July 29, 2021, Beaufort County Transportation Engineering Department published a solicitation to contract with up to 3 qualified consultants experienced in providing traffic engineering services.
PROJECT / ITEM NARRATIVE:
11 submissions were received on August 30, 2021 and reviewed by an evaluation team which determined Bihl Engineering, Kimley-Horn, and Stantec were the most qualified firms.
FISCAL IMPACT:
The on-call consultants will provide proposals for each project they are assigned and will be brought before Committee and Council as outlined in the Beaufort County Procurement Code. The project will determine the funding source which could include, but not limit to, Road Use Fees, Impact Fees, C-Funds, Grants, Sales Tax, and any future funding source available for traffic and transportation projects.
STAFF RECOMMENDATIONS TO COUNCIL:
Staff recommends awarding contracts to Bihl Engineering, Kimley-Horn and Stantec for the RFQ#083021E On-Call Traffic Consultants.
OPTIONS FOR COUNCIL MOTION:
Motion to approve/deny awarding contracts to Bihl Engineering, Kimley-Horn and Stantec for the RFQ#083021E On-Call Traffic Consultants. <i>Next Step: Move to Council to approve/deny awarding contracts to Bihl Engineering, Kimley-Horn and Stantec for the RFQ#083021E On-Call Traffic Consultants.</i>

BEAUFORT COUNTY COUNCIL AGENDA ITEM SUMMARY

ITEM TITLE:
Identifying Funding Source for Graves Road and Primary Park Access Road (\$1,300,000.00)
MEETING NAME AND DATE:
Public Facilities Committee – November 15, 2021
PRESENTER INFORMATION:
Jared Fralix, Assistant County Administrator – Engineering (5 mins)
ITEM BACKGROUND:
On October 6, 2020, Beaufort County amended the Pepper Hall and Okatie River Park Joint Development Agreement to clarify and implement certain provisions pertaining to the construction and funding for the road improvements. The amendment states that the County will reimburse the Owner, Robert L. Graves, \$1.3 million of the costs to construct the roads, however; a funding source is not identified.
PROJECT / ITEM NARRATIVE:
Road Use Fees (Tag Fees) had previously been discussed at a staff level as the source of funding, however; with a recent decline in revenue and future obligations of the funding, this account should be spent conservatively. The major uses of these funds currently is the dirt road paving program which is an average of \$2.5 million annually. These funds are also spent on other road projects not identified in impact fee and other capital project lists.
FISCAL IMPACT:
\$1.3 million to be reimbursed to Robert L. Graves for the construction of Graves Road and Primary Park Access Road. Funding source to be determined and approved by County Council.
STAFF RECOMMENDATIONS TO COUNCIL:
Staff recommends the use of \$1.3M of General Fund fund balance to source this expenditure commitment.
OPTIONS FOR COUNCIL MOTION:
Motion to approve/deny funding the \$1.3 million expenditure commitment for paving Graves Road from the fund balance within the General Fund. <i>(Next Step: Move action forward to County Council for approval)</i>

ORDINANCE 2020/31

APPROVING AN AMENDMENT TO THAT CERTAIN PEPPER HALL AND OKATIE RIVER PARK JOINT DEVELOPMENT AGREEMENT BY AND BETWEEN THE COUNTY OF BEAUFORT, SOUTH CAROLINA, AND ROBERT L. GRAVES EFFECTIVE FEBRUARY 1, 2019, AND RECORDED IN THE BEAUFORT COUNTY REGISTER OF DEEDS OFFICE IN BOOK 3735, PAGE 1 ON FEBRUARY 4, 2019

WHEREAS, Beaufort County (“County”) and Robert L. Graves (“Property Owner”) entered into that certain Pepper Hall and Okatie River Park Joint Development Agreement effective February 1, 2019, and recorded in the Beaufort County Register of Deeds Office on February 4, 2019, in Book 3735, Page 1 (the “Development Agreement”) pursuant to the South Carolina Development Agreement Act, S.C. Code of Laws 6-31-10, et seq., as amended (the “Act”) and the Beaufort County Community Development Code (the “CDC”); and

WHEREAS, the Development Agreement sets forth the terms and conditions for a mutually binding agreement to allow the County and the Property Owner to work together to protect and preserve the natural environment and to secure for Beaufort County citizens a quality, well-planned and well-designed development and a stable and viable tax base; to provide an unprecedented opportunity to secure quality planning and growth in the public and private sectors; and to enhance and provide public access to the Okatie River Park for public benefit; and

WHEREAS, the Development Agreement provides for, among other things, the construction of certain road improvements necessary to access the Okatie River Park; and

WHEREAS, pursuant to the Development Agreement, the County will pay for the design, permitting, and the construction costs of the road improvements; and

WHEREAS, the County has identified a funding source for approximately \$2.2 million of the road improvement costs and anticipates appropriating \$1.1 million in each of the Fiscal years 2021 and 2022 for this purpose; and

WHEREAS, the Development Agreement provided that the County may establish an improvement district for the assessment and collection of revenue to provide a mechanism for the County to recover the cost of the construction of the road improvements; and

WHEREAS, Property Owner and County desire to clarify and implement certain provisions of the Development Agreement regarding the construction and funding for the cost of certain road improvements and the establishment of an improvement district by executing an amendment to the Development Agreement (the “Amendment”); and

NOW, THEREFORE, BE IT ORDAINED, by the County Council of Beaufort County, South Carolina, in a meeting duly assembled, as follows:

SECTION I. FINDINGS INCORPORATED

The above recitals and findings are incorporated herein by reference and made a part of this Ordinance. In addition to the recitals set forth above, which the County Council hereby adopts as findings of fact, the County Council specifically finds that the Amendment attached hereto as Exhibit "A" and incorporated herein by reference, complies with the Act, the Comprehensive Plan, and the CDC.

SECTION II. DEVELOPMENT AGREEMENT

The terms of the Amendment are hereby approved in accordance with the Act and the CDC. The Amendment shall be effective upon approval of this Ordinance after third reading, execution by both parties and recording in the Beaufort County Register Deeds Office as required under the Act.

SECTION III. EXECUTION

The County Administrator is authorized to execute and deliver the Amendment on behalf of the County, and any and all other necessary documents or instruments incidental to the approval of this Ordinance and the Amendment.

SECTION IV. EFFECTIVE DATE

This Ordinance shall become effective immediately upon its approval following third reading by the County Council

ENACTED and **APPROVED**, in meeting duly assembled, this 28th day of September, 2020.

NC Legal Dept.

STATE OF SOUTH CAROLINA)
)
COUNTY OF BEAUFORT) AMENDMENT TO THE PEPPER HALL
AND OKATIE RIVER PARK JOINT
DEVELOPMENT AGREEMENT

This AMENDMENT TO THE PEPPER HALL AND OKATIE RIVER PARK JOINT DEVELOPMENT AGREEMENT (the "Amendment") is made effective as of the 6th day of Oct., 2020 (the "Effective Date") by and between ROBERT L. GRAVES ("Owner"), and BEAUFORT COUNTY, SOUTH CAROLINA, a body politic and corporate (the "County").

RECITALS

WHEREAS, Property Owner is the owner of several tracts of land containing a total of approximately eighty-four and eighty-one hundredths (84.81) acres near the Okatie River, as more particularly described on Exhibit A of the Development Agreement, defined below (the "Property"). The Property, commonly known as Pepper Hall, is located in the unincorporated area of Bluffton Township, Beaufort County, South Carolina; and

WHEREAS, County is the owner of approximately eighteen (18) acres of land lying adjacent to the Property and the waters and marshes of the Okatie River, on which it intends to develop and establish a county-wide passive park (the "Okatie River Park"); and

WHEREAS, Property and County Owner entered into that certain Pepper Hall and Okatie River Park Joint Development Agreement effective February 1, 2019, and recorded in the Beaufort County Register of Deeds Office on February 4, 2019, in Book 3735, Page 1 (the "Development Agreement"); and

WHEREAS, the Development Agreement provides for, among other things, the construction of certain road improvements necessary to access the Okatie River Park; and

WHEREAS, the design of the road improvements has been completed; and

WHEREAS, Owner and County desire to clarify and implement certain provisions of the Development Agreement regarding the construction and funding for the cost of certain road improvements, and provide that the Owner and County will share in the cost of the road improvements; and

WHEREAS, the County is committed to developing the Okatie River Park at a cost of approximately \$1.15 million; and

WHEREAS, the County shall be in sole control of the scope and design of the Okatie River Park Improvements, and will pay for the design and construction thereof; and

WHEREAS, the Development Agreement provided that the County may establish an improvement district for the assessment and collection of revenue to provide a mechanism for the County to recover the cost of the road and park improvements; and

WHEREAS, the County no longer desires to establish an improvement district for the assessment and collection of revenue for the cost of the construction of the road and park improvements; and

WHEREAS, pursuant to the Code of Laws of South Carolina Section 6-31-60, the County conducted a public hearing regarding its consideration of this Amendment on September 14, 2020, after publishing and announcing notice; and

WHEREAS, the County, acting by and through County Council adopted Ordinance Number 20/31 on September 25, 2020, approving this Amendment.

NOW, THEREFORE, in consideration of the foregoing and the terms and conditions set forth in this Amendment, the receipt and sufficiency of such consideration being acknowledged by the parties, and pursuant to the South Carolina Local Government Development Agreement Act, codified as S.C. Code §§ 6-31-10 to -160, the parties to this Amendment, intending to be legally bound, agree as follows:

- 1. Recitals. The above recitals are herein incorporated.
- 2. Improvement District. The parties acknowledge and agree that an improvement district will not be established.

- a. The seventeenth, eighteenth, and nineteenth Recitals and Sections VI.N, IV.B.2 and IV.B.3.b shall be deleted in their entirety. The last two sentences of Section VI.B shall be deleted in their entirety. In addition, any reference to South Carolina Code 6-35-10, et seq., South Carolina Code 4-35-10, et seq., "Residential Improvement District," "RID" or "County Public Works Improvement Act" shall be deleted in their entirety.

- b. The County will reimburse the Owner for all legal and professional costs incurred in investigating the feasibility of establishing an improvement district at the request of the County (the "Establishment Costs"). Upon execution of this Amendment, Owner shall submit a certification of the Establishment Costs incurred as of the Effective Date, and County shall remit payment within thirty (30) days of receipt the certification.

- 3. Okatie River Park Improvements.

- a. The following sentence shall be added to Section IV.B.1:

The Property Owner will contribute \$50,000 to the cost of the design and construction of the Okatie River Park Improvements, On-Site (the "Park Contribution").

- b. Section VI.P.i of the Development Agreement shall be amended and re-stated as follows:

10287

As to the Okatie River Park, Owner has agreed to construct the park improvements. The County shall be in the sole control of the scope and design of the Okatie River Park improvements and, upon approval by County staff of plans and permits, Property Owner is authorized to begin construction. County staff shall use best efforts to review and approve plans and permits expeditiously, but in no case later than 30 days from the date of submission of a full and complete application. The County shall provide any and all construction easements or other rights of access needed to complete construction of the Okatie River Park improvements.

The County shall reimburse the Owner for the costs of the construction of the park improvements, less and excepting the Park Contribution. The reimbursement schedule shall be mutually agreed upon by the Parties upon design completion. The County shall reimburse the Owner within thirty (30) days of receipt of a reimbursement request and a certification of costs.

Beaufort County has previously determined that Owner will be the single source for construction purposes. This determination satisfies the Beaufort County and South Carolina public works bidding and proposal requirements.

4. Construction and Funding for Graves Road and Park Access Road.

a. The third sentence of Section IV.B.3.a shall be revised as follows:

The County and Owner will share the costs for the design, permitting and construction costs of Graves Road and the Primary Access Road in accordance with Section VI.P.ii. Graves Road shall be constructed to those County standards required for a publicly-dedicated road.

b. Section VI.P.ii of the Development Agreement shall be amended and re-stated as follows:

ii. As to the roads provided by the County under this Agreement (a portion of Graves Road and Primary Park Access Road), Owner has agreed to construct them at an estimated cost of \$3.7 million. Upon approval by County staff of plans and permits, Owner is authorized to begin construction. County staff shall use best efforts to review and approve plans and permits expeditiously, but in no case later than 30 days from the date of submission of a full and complete application.

The County will reimburse the Owner for \$1.3 million of the costs of the construction of the roads provided by the County under this Agreement (a portion of Graves Road and Primary Park Access Road) with Owner having responsibility for all remaining costs of construction. The County shall reimburse Owner as work is materially completed (i.e., 90% completion) at

PJ 3/17

each of the following stages: design (10%), site work (15%), concrete (20%), road construction (30%), hardscape and landscaping (15%), and final inspection and acceptance (10%). The County shall reimburse Owner within thirty (30) days of receipt of a reimbursement request and a certification of costs. The County shall be responsible for the maintenance of Graves Road, and Owner shall be responsible for the maintenance of the Park Access Road.

Beaufort County has previously determined that Owner will be the single source for construction purposes. This determination satisfies the Beaufort County and South Carolina public works bidding and proposal requirements.

5. Graves Road. The following is added to Section VI.C.2 as follows:

The Parties agree that the County will take the necessary actions through the appropriate legal process to obtain ownership of Graves Road if it is determined by the County that it does not presently have ownership of the road. Owner agrees to convey that portion of the Property necessary to meet County right-of-way requirements to the County by way of a limited warranty deed. In addition, Owner will provide a quit claim deed to the current Graves Road, and cooperate with the County in a condemnation action, provided there is no cost to Owner.

6. Private-Public Partnership. Any reference contained with the Development Agreement to a private-public partnership is hereby deleted.

7. Effect. Terms and provisions of the Development Agreement that are not expressly modified by this Amendment shall remain in full force and effect. All of the provisions of the Development Agreement affected by this Amendment shall be deemed amended, whether or not actually specified herein, if such amendment is clearly necessary to effectuate the intent of the parties hereto. The Development Agreement, as modified hereby, is hereby ratified and approved in all respects.

8. Final Agreement. This Amendment and the Development Agreement, as amended by the Amendment, represent the final agreement between the parties regarding the subject matter hereof and may not be contradicted by evidence of prior, subsequent or contemporaneous oral agreements of the parties. No amendment or modification hereto shall be valid and binding unless expressed in writing and executed by both parties hereto.

9. Counterparts. This Amendment may be executed in any number of counterparts, which may be electronically transmitted to the originating office, all of which when executed and delivered shall have the force and effect of an original.

BEAUFORT COUNTY COUNCIL AGENDA ITEM SUMMARY

ITEM TITLE:
Subrecipient Agreement between Beaufort County and City of Beaufort for Community Development Block Grant Award to Depot Road Pathway Project
MEETING NAME AND DATE:
Public Facilities Committee - November 15, 2021
PRESENTER INFORMATION:
Jared Fralix, Assistant County Administrator - Engineering (2 mins)
ITEM BACKGROUND:
The City of Beaufort has been awarded a \$200,000 Community Development Block Grant for Depot Road Pathway. Depot Road is 1 of 24 sidewalks and multi-use pathways in the 2018 One Cent Sales Tax Referendum.
PROJECT / ITEM NARRATIVE:
Beaufort County will be the subrecipient of the grant award and take responsibility for administrating engineering, construction, and acquisition of the project.
FISCAL IMPACT:
\$200,000 Community Development Block Grant for the Depot Road Pathway.
STAFF RECOMMENDATIONS TO COUNCIL:
Approval to enter into the subrecipient agreement and obtain the \$200,000 Community Development Block Grant.
OPTIONS FOR COUNCIL MOTION:
Motion to approve/deny to enter into the subrecipient agreement and obtain the \$200,000 Community Development Block Grant. <i>Next Step: Move forward to County Council for approval to enter into the subrecipient agreement and obtain the \$200,000 Community Development Block Grant.</i>

SUBRECIPIENT AGREEMENT

The following statements and provisions are acknowledged and agreed upon by and between, Beaufort County, as subrecipient (the "Subrecipient") of the Community Development Block Grant ("CDBG") funds, and the City of Beaufort, as the grantee (the "Grantee") and provider of such funds pursuant to a CDBG award, grant number CDBG #4-SP-20-001, (the "Grant"), made by the South Carolina Department of Commerce, Grants Administration ("Grants Administration") under provisions of Title I of the Housing and Urban Development Act of 1974, as amended ("the Act"). It is mutually agreed that no funds will be disbursed prior to the date of the execution of this Subrecipient Agreement (the "Agreement"). This Agreement will remain in effect as long as the Subrecipient has control over CDBG funds, including program income, or assets including real property acquired with funds dispersed under the Grant. Any modification or amendment to this Agreement must be approved by Grants Administration.

Any provisions contained herein which are found to be inconsistent with the Act, Federal or State laws, and implementing regulations, will be deleted or appropriately modified as directed by Grants Administration and in no case shall any such inconsistency, whether remedied or not impair the remainder.

Purpose: It is the purpose and intent of this Agreement to enable the Grantee to provide CDBG funds to the Subrecipient for their use to carry out the project described in the application which was approved and funded by Grants Administration pursuant to the Grant.

Under this Agreement, the Grantee is still responsible for the overall administration and monitoring of the use of CDBG funds in accordance with program requirements.

Description of Work: (BE VERY SPECIFIC)

The Subrecipient will be responsible for administering the following activities in a manner satisfactory to the Grantee consistent with any standards and CDBG requirements as a condition of providing these funds.

- **CONSTRUCTION:** Beaufort County will be responsible for the construction of 2,125 LF of 10' Pathway from the Spanish Moss Trail to Ribaut Road along Depot Road. Construction will be done by a competitively procured contractor. This project will benefit 11,770 persons, 51.66% LMI.

LCOG will assist Beaufort County in the procurement of the contractor.

- **ACQUISITION:** The majority of the project will be constructed in the right-of-way. There is only one permanent easement needed. The easement is located at the intersection of Ribaut road which is the end of this phase. LCOG will assist Beaufort County with URA.
- **ENGINEERING:** Beaufort County will procure an engineer to be paid with local match.

Time of Performance:

Services of the Subrecipient shall commence on November 1, 2021, and are expected to be complete on December 31, 2022. D The terms of this Agreement and the provisions herein shall be extended to cover any additional time period during which the Subrecipient remains responsible for carrying out the approved activities and any assets or program income.

Provide a detailed timeframe (milestones) for specific activities/tasks involved.

Start-up & ERR	LCOG, City of Beaufort & Engineer	Underway – October 2021
Project Design	Engineer & Beaufort County	Underway – January 2022
Acquisition	Beaufort County & LCOG	October 2021 – January 2022
Competitively Procure Contractor	Engineer, Beaufort County & LCOG	February 2022 – April 2022
Construction Contract Review	LCOG & GA	April 2022 – May 2022
Contract Award – Pre-con	Engineer, Beaufort County & LCOG	May 2022
Construction	Competitively Procured Engineer	May 2022 - November 2022
SCDOT Inspection	SCDOT, Engineer, & Beaufort County	November 2022
Closeout	LCOG, City of Beaufort	November 2022 – December 2022

Budget for Activities:

	<u>TOTAL</u>	<u>CDBG</u>	<u>LOCAL MATCH</u>
Street Improvements	\$553,340	\$200,000	\$353,340
Engineering	\$100,608	0	\$100,608
Acquisition	<u>\$ 50,000</u>	<u>0</u>	<u>\$ 50,000</u>
	\$703,948	\$200,000	\$503,948

Program Income: Briefly describe how the program income generated from CDBG funded activities will be handled. *Attach* Program Income Plan.

Drawdown of Funds: The Subrecipient will request a drawdown of needed funds by submitting a request for payment to the Grantee. The Subrecipient will make this request at least three weeks in advance of need.

Funds must be disbursed by the Grantee within a timely manner as defined in the CDBG Implementation Manual. No more than five thousand dollars (\$5,000) in CDBG funds may be kept on hand by the Subrecipient at any time.

Unexpended Grant Funds: The Subrecipient agrees that it will return to the Grantee any unexpended grant funds provided by the Grantee under this Agreement.

Records and Reports: Records for nonexpendable real property purchased totally or partially by the Subrecipient with CDBG funds must be retained for five years after its final disposition. Subrecipient must provide a quarterly progress report. All other pertinent grant records, including beneficiary data, financial records, supporting documents, and statistical records, shall be retained for a minimum of five years after final close-out of the Grant. If, however, any litigation, claim or audit is started before the expiration of the five year period, then records must be retained for five years after the litigation, claim or audit is resolved.

CDBG Program Requirements: Subrecipients must comply with the requirements of Title I of the Housing and Community Development Act of 1974, as amended; with 24 CFR Part 570, Subpart I Community Development Block Grant State Program Regulations, and Subpart C, Eligible Activities; as well as the policies and procedures of the South Carolina CDBG program as included in the CDBG Program Implementation Manual or other State program documents.

Uniform Administrative requirements: The Subrecipient shall adhere to the following administrative requirements:

Financial: The Subrecipient shall comply with the guidelines for financial and compliance audits of federally assisted programs per 2 CFR Part 200.

Procurement: The Subrecipient must comply with federal and Grants Administration procurement requirements if a contractor is hired to carry out the project including submission of the contract and procurement method for review prior to execution.

The following provisions regarding "conflicts of interest" apply to the use and expenditure of CDBG funds by the Grantee and its subrecipients.

In the procurement of supplies, equipment, construction and services, the more restrictive conflict of interest provisions of the State of South Carolina Ethics, Government Accountability and Campaign Reform Act of 1991 or of the Subrecipient shall apply.

In cases not governed by the above, such as acquisition and disposition of real property and the provision of CDBG assistance to individuals, businesses, and other private entities, the following provisions shall apply.

Except for eligible administrative or personnel costs, the general rule is that no person who is an employee, agent, consultant, officer, or elected or appointed official of the State of South Carolina or a unit of general local government or any designated public agencies or subrecipient which are receiving CDBG funds who exercise or have exercised any function or responsibilities with respect to CDBG activities assisted under the Grant or are in a position to participate in a decision making process or gain inside information with regard to such activities, may obtain a financial interest or benefit from the activity, or have an interest in any contract, subcontract or agreement with respect thereto, or the proceeds thereunder either for themselves or those with whom they have family or business ties during their tenure or for one year thereafter. Exceptions may be granted by Grants Administration on a case by case basis as requested upon full disclosure in writing.

Should any governmental entity, recipient, subrecipient, employee or official know or perceive any breach of ethical standards or conflict of interest involving the Grant or any other CDBG grant, they shall immediately notify the Department of Commerce, Grants Administration, 1201 Main Street, Suite 1600, Columbia, South Carolina 29201.

Personnel: All contractors and subcontractors engaged in the project shall be fully qualified and properly licensed under State and local law to perform such services.

The Subrecipient shall insure that all prime contractors/subcontractors are bonded and insured in accordance with State and Federal requirements.

Federal and State Laws: The Subrecipient is responsible for compliance with all applicable Federal or State laws, Executive Orders, and regulations of the CDBG program.

Other Program Requirements: All activities by the Subrecipient shall be carried out in compliance with all Federal laws and regulations except for environmental responsibilities and review process under Executive Order 12372, which are the responsibility of the Grantee. No construction or acquisition activities may be undertaken by the subrecipient or its contractors prior to Environmental Release of Funds.

Use of Real Property and Reversion of Assets: Upon expiration or termination of this Agreement the Subrecipient shall transfer on behalf of the Grantee, to Grants Administration, or Grants Administration’s assignee, any CDBG funds on hand at that time and any accounts receivable attributable to the use of CDBG funds.

Any real property acquired or improved in whole or in part with CDBG funds must continue to be used for the purpose for which it was acquired or improved. Any changes in its use within five years of closeout of the Grant must be approved by Grants Administration in writing.

Amendments: Any changes in the scope of the project, as outlined in this Agreement, including cost increases, must be submitted in writing by the Subrecipient to the Grantee as a request for an award adjustment. Any adjustment granted by the Grantee shall be appended to this Agreement as an amendment. Copies of any changes must be submitted to Grants Administration for programmatic purposes.

Monitoring: All Subrecipient records with respect to any matters covered by this Agreement shall be made available to the Federal, State, or Grantee officials at any time during normal business hours, as often as deemed necessary to audit, examine, and make excerpts or transcripts of all relevant data. Any deficiencies noted in reports must be fully cleared by the Subrecipient within 30 days after receipt by the Subrecipient of notice of such deficiency. Failure of the Subrecipient to comply with the above requirements will constitute a violation of this Agreement and may result in the withholding of future payments.

Suspension and Termination: In accordance with 2 CFR Part 200, suspension or termination of payment to the Subrecipient under this Agreement may occur if the Subrecipient materially fails to comply with any terms of this Agreement, and the Agreement may be terminated for convenience in accordance with 2 CFR Part 200.

Ethics, Accountability and Campaign Reform Act of 1991 (the “Act”): All provisions of this Act have been and will be complied with by the parties to this Agreement in regard to actions and expenditures of funds related to the CDBG project giving rise to this Agreement.

Special Provisions: The Subrecipient Agreement Standard Provisions attached to this Agreement are considered to be an integral part of this Agreement and are hereby incorporated by reference herein. These provisions are subject to change from time to time as Federal laws and regulations are promulgated. The Subrecipient will be notified in writing if any changes occur.

BEAUFORT COUNTY COUNCIL AGENDA ITEM SUMMARY

Item 17.

ITEM TITLE:
A RESOLUTION AUTHORIZING THE COUNTY ADMINISTRATOR TO EXECUTE ANY AND ALL NECESSARY DOCUMENTS FOR THE ACCEPTANCE OF PROPERTIES ENCUMBERING THE ROAD RIGHT OF WAY FOR KLINE CIRCLE
MEETING NAME AND DATE:
Public Facilities Committee Meeting 11-15-2021
PRESENTER INFORMATION:
Jared Fralix, P.E., Assistant County Administrator, Engineering (5 Minutes)
ITEM BACKGROUND:
The County has been maintaining many roads for over 20 years with an assumed prescriptive right of way referred to as "legacy roads". Right of Way staff have been working with property owners to perfect the right of way on "legacy roads" by requesting formal conveyance of ROW from associated property owners.
PROJECT / ITEM NARRATIVE:
Kline Circle is (~1700 LF) located off Keans Neck Road in Sheldon. Property owners associated with this road have requested to donate ROW to the County. This ROW conveyance will help perfect County ownership of legacy roads.
FISCAL IMPACT:
N/A
STAFF RECOMMENDATIONS TO COUNCIL:
Staff recommends acceptance of ROW associated with Kline Circle
OPTIONS FOR COUNCIL MOTION:
Motion to either accept/deny ROW associated with Kline Circle <i>Next Step – Public hearing for Resolution at County Council Meeting</i>

A RESOLUTION AUTHORIZING THE COUNTY ADMINISTRATOR TO EXECUTE ANY AND ALL NECESSARY DOCUMENTS FOR THE ACCEPTANCE OF PROPERTIES ENCUMBERING THE ROAD RIGHT OF WAY FOR KLINE CIRCLE

WHEREAS, the property owners abutting and encumbering all or a portion of the right of way shown and described as Kline Circle, more particularly described on Exhibit A attached hereto and incorporated herein (“ROW”); and

WHEREAS, the aforementioned property owners have requested to have the ROW conveyed to Beaufort County (“County”); and

WHEREAS, the County desires to accept the ROW in order to perfect right of way on County maintained roads for current road maintenance and future improvements such as rocking or paving; and

WHEREAS, it is in the best interest of the Kline Circle community and the County to accept the properties from the property owners and perfect the right of way.

NOW, THEREFORE, BE IT RESOLVED that Beaufort County Council hereby authorizes the County Administrator to execute any and all necessary documents for the acceptance of properties encumbering the road right of way for Kline Circle.

ADOPTED this _____ day of _____, 20____.

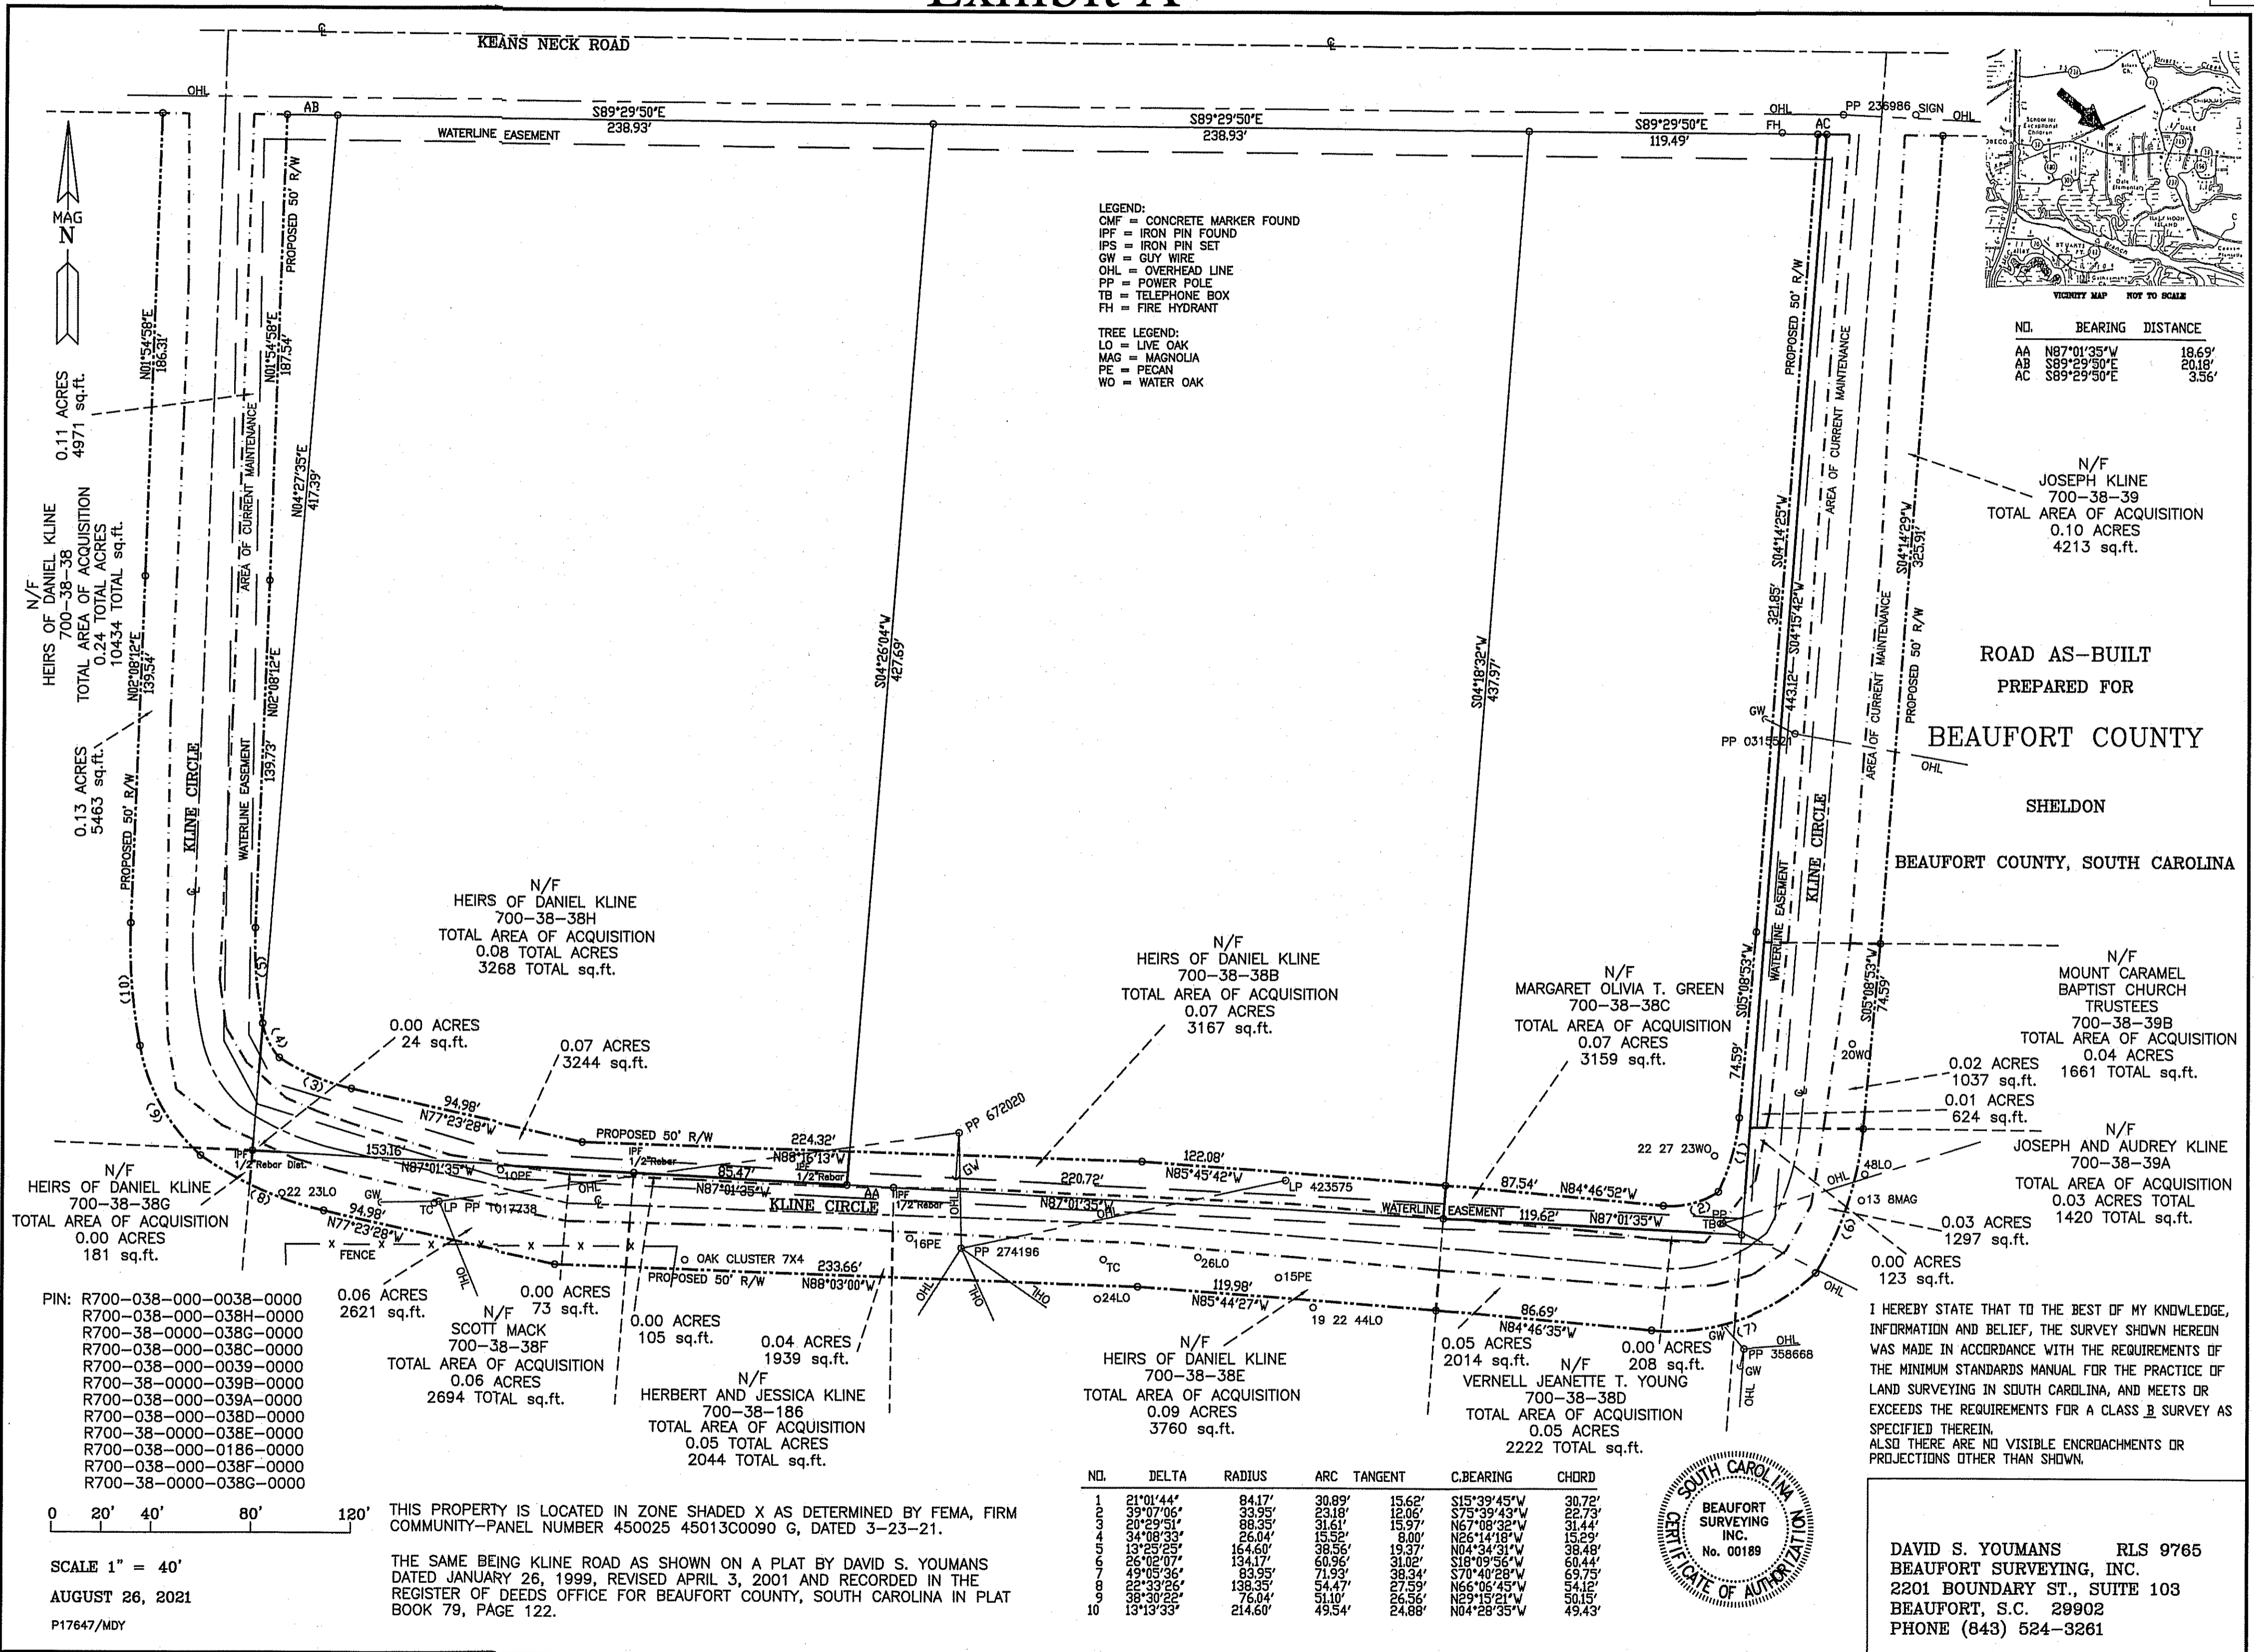

COUNTY COUNCIL OF BEAUFORT COUNTY

BEAUFORT COUNTY COUNCIL AGENDA ITEM SUMMARY

ITEM TITLE:
Pathways Project Virtual Public Meeting Summary – Stuart Point Road Pathway
MEETING NAME AND DATE:
Public Facilities Committee – November 15, 2021
PRESENTER INFORMATION:
Jared Fralix, Assistant County Administrator – Engineering (2 mins)
ITEM BACKGROUND:
As per Resolution 2019-44, Beaufort County is to conduct two public meetings on each of the projects associated with the 2018 One Cent Sales Tax Referendum. The first public meeting was held October 19, 2020 through November 20, 2020 with only 1 response for the project. A community meeting was held in-person on October 5, 2021 followed by a virtual meeting from October 6, 2021 through October 20, 2021 to disseminate information and obtain public input regarding the proposed 8’ pathway from US 21 to Delaney Circle.
PROJECT / ITEM NARRATIVE:
44 comment responses were submitted for the project; 27 comments received at the public meeting, 7 online comments, 10 comments hand-delivered, and 2 comments mailed. 35 comments support the pathway while 6 comments do not support the pathway. With the majority in favor, it is recommended to proceed with the proposed 8’ pathway.
FISCAL IMPACT:
For information only.
STAFF RECOMMENDATIONS TO COUNCIL:
For information only.
OPTIONS FOR COUNCIL MOTION:
For information only.

Beaufort County conducted an in-person Community Meeting on October 5, 2021 at the Whale Branch Elementary School Cafeteria at 6 pm. This is the second meeting conducted for Stuart Point Pathway, one of the 14 priority pathways presented during the first Pathway Project Virtual Public Meeting held October 19, 2020 through November 20, 2020. A virtual meeting page was also created in association with the Community Meeting.

The project is a proposed 8-ft multi-use pathway along Stuart Point Road from the US 21 (Trask Parkway) intersection to Delaney Circle/Abdullah Lane/Stuart Point Road intersection. This pathway is approximately 2 miles and will provide a safe route for residents along the corridor and connect to Whale Branch Elementary and Middle Schools. Stuart Point Road is a SCDOT-owned and maintained roadway with a present 33’ right of way from the centerline of roadway or total 66’ width from US 21 to Delaney Circle/Abdullah Lane intersection. It is anticipated the pathway would be located within the present right of way with minimal or no new right of way required.

The meeting creation was a collaboration of the County and J. Bragg Consulting, Inc. with an overview exhibit provided by Infrastructure Consulting & Engineering, PLLC and a typical section exhibit prepared by J. Bragg Consulting, Inc. Other meeting materials were also prepared by J. Bragg Consulting, Inc.

Meeting Summary:

Time Period:

- Community Meeting: October 5, 2021 at the Whale Branch Elementary School Cafeteria, 15 Stuart Point Road, Seabrook, SC
 - In-person meeting conducted by Councilman Gerald Dawson, Capital Projects Coordinator Brittane Fields, and Sales Tax Program Manager, Jennifer Bragg, PE. The meeting format was originally intended as an informal drop-in with exhibits and a handout as well as an area to leave a written comment. It was quickly switched to a presentation with question & answer session since citizens were sitting at the cafeteria tables instead of viewing the exhibits. 42 attendees sign-in, but it is estimated around 50 attended (i.e. several entered through a different door.)
- Virtual Meeting Page: October 6, 2021 through October 20, 2021 – Hosted on www.BeaufortCountyPenny.com
 - Meeting page was created based on comments received during the Community Meeting question & answer session and it hosted the exhibits shown at the Community Meeting and provided an online comment form.

Advertisements:

- Press Release for public meeting published on September 27, 2021
- E-mail newsletter was sent out to 472 recipients on September 23, 2021
- Flyers were mailed to 112 property owners on or near the project
- 6 Sales Tax “Yard” Signs were placed on Stuart Point Road

Public Comments:

Comment forms were provided at the Community Meeting, and the extra forms were collected by attendees to distribute to friends/neighbors. The County also hand-delivered additional forms to a resident for distribution within

the community. In addition, an e-mail was sent to attendees with an electronic copy of the meeting handout and comment form as well as a link to the Virtual Meeting Page which could be forwarded. This is a summary of comments received:

Public Meeting: 44 comment responses were submitted as follows:

- 27 comments were submitted at the Community Meeting.
- 7 online comments were submitted.
- 10 comments were hand-delivered to Beaufort County.
- 2 comments were mailed to Beaufort County Capital Projects.

Comments with a valid address will receive a mailed response.

On the Comment Form, they were asked if they were “In Favor Of” the project by answering “Yes” or “No”, and if no, were they in favor of a reduced width pathway/sidewalk “Yes” or “No”. This is a summary of those who responded to the questions:

Questions	Yes	No
Are you in favor of the proposed 8’ shared-use pathway?	35	6
If no, are you in favor of a reduced width pathway/sidewalk?	6	7

Note:

- First Question: 1 person wrote in “Don’t know” to the first question and 2 persons provided a written response but did not answer first question.
- Second Question: 1 person wrote “either” to the second question. 4 “No” responses are from citizens who want the proposed 8’ pathway and aren’t in favor of a reduced width. 3 “No” responses are from citizens who do not want the pathway and also voted “No” to the first question.

Recommendation:

Although there were a few comments not in favor of the pathway, the majority of the comments are in favor, and it is recommended to proceed with the proposed 8’ pathway.

Comment Summary:

Note: Comments are copied as is with no edits.

In favor.
Very much interested in the widening of the road and where this take place as far as road sides. Are we considering the change in the 8 ft or downsizing the multiuse path. Are you all considering speed limit reduction as well?
I know this is not part of the project however, would there any way to coordinate this with Jasper Water to add a water line down the road to Abdullah Lane.
Thanks to Councilman Dawson and Beaufort County Council and staff for initiating this much needed project. While I do not live along the Stuart Point Road and proposed pathway, I am a property owner and concerned for the safety of the neighborhood. I fully support this project and will work to convince others to support it.
for this reason... I am concerned that children riding bikes will fall into the ditch; the ditch presents a real hazard. Are there other paths that have similar topography? Also your brochure states a "5 foot grassed shoulder" - not really transparent it is usually a ditch. So just a walking path. However - I think overall this will benefit the kids
I am in favor of the Stuart Point Road Pathway. It will provide a safe option for residence to walk, exercise, etc. I highly recommend the pathway be lite with lanterns along the way.
Reduce speed limit from 45? If reduce speed, what mph can you put speed bumps into plan? Trash is terrible on Stuart Point Rd. Clean up is done by volunteers - about 8 - who will clean the trash from the pathway. Individuals will not do this for their own property. Trash cans along path might be good.
We need the pathway regardless
Thank you for doing a pathway for us. Maybe a good time for BJWSA to put water & sewer lines in. Lower speed limit would be great. Wanted to add to my comment form: would be great to have a light at Stuart Point Rd & Hwy 21 especially with the 44 house development happening on that corner. Also to do water & sewer pipes when dug up for the pathway. Thank you
I think it is wishfull thinking that property owners will maintain adjacent land and pathway. So, what is spending budget for county's maintenance? During recent repaving of Stuart Pd Road, there was also some widening of roadway and the excavated dirt still is piled up on the edge of the road. The county seems to be saying: "Not for us to do." I think responsibility for maintenance needs to be funded.
Lighting for sidewalk. Trash Service. Reduce Speed
Info on county bike & ped. Path please
Concerns are lighting and trash bins (pet bins).
My concern will there be trash bin along the sidewalk. Will there be lighting along the sidewalk. Thank you!
Trash container & pooper scoopers

I think it will be a great improvement to our community as a whole. I would like a copy of the plan to be emailed to me.

Would like to have a 5 ft pathway not 8 ft. I like plan for connection of bikes in Beaufort.

Mail please. I'm in favor of the sidewalk. But I live on a dirt road, I can't the the road scraped. You don't have to pave it, just scrape it from time to time. My tax money is being used to put in this sidewalk.

Trash cans

No we do not need. Leave it like it is Just fine"

We do not want or need a sidewalk that "steals" our land to accommodate new-comers. The county has never cared about Stuart Point Community until new-comers/developers came in and decide what they want, which only affects the Black people's lands.

I oppose the building of a sidewalk in the Stuart Point Community for the following reasons 1. This is a rural community that no one walks from place to place 2. the funds could be used for something that would benefit both the youth and seniors a Community Center would be better utilization of the funds. 3. The sidewalk would take away from individual property.

I would love to see a traffic light put to the end of Stuart Point Road. I am the waving man and I stand to the end of Stuart Point Road and Trask Parkway. And that traffic get bill up there quickly especially when school buses is in it. You need to consider putting a traffic light there.

Robert wanted me to add that a good idea to put water & sewer pipes in when area dug up for pathway (Cheryl Mansson)

A few wastebaskets along the way

Any enhancement done regarding Stuart Point is appreciated.

BEAUFORT COUNTY COUNCIL AGENDA ITEM SUMMARY

ITEM TITLE:
Pathways Project Public Meeting Summary – Alljoy Road Sidewalk
MEETING NAME AND DATE:
Public Facilities Committee – November 15, 2021
PRESENTER INFORMATION:
Jared Fralix, Assistant County Administrator – Engineering (2 mins)
ITEM BACKGROUND:
Beaufort County conducted in-person public meetings on July 1, 2021, September 14, 2021 and October 28, 2021 along with a virtual public meeting from July 1, 2021 through July 30, 2021 to disseminate information and obtain public input for pedestrian and bicycle accommodations on Alljoy Road.
PROJECT / ITEM NARRATIVE:
Based on comments received, there are more supporting pedestrian and bicycle improvements along Alljoy Road. The proposed recommendation is a 6-ft sidewalk offset by a 5-ft grassed shoulder. It will be located on the north side of Alljoy Road from Burnt Church Road to Shad Avenue, cross Alljoy Road on the south side from Shad Avenue to Thomas Lawton Drive.
FISCAL IMPACT:
For information only.
STAFF RECOMMENDATIONS TO COUNCIL:
For information only.
OPTIONS FOR COUNCIL MOTION:
For information only.

Since the first in-person Public Meeting held on July 1, 2021 and in association with the Virtual Public Meeting held from July 1 – July 30, 2021, Beaufort County conducted two additional in-person Public Meetings on Tuesday, September 14, 2021, and on Thursday, October 28, 2021, for the Proposed Alljoy Road Pathway Project, now Proposed Alljoy Road Sidewalk Project. All in-person public meetings were held at Bluffton Recreation Center, 61B Ulmer Road, Bluffton, SC.

This Summary & Recommendation is a publication for the two additional in-person Public Meetings and is building upon the *Alljoy Road Pathway Public Meeting Summary*, available at the following links:

<https://beaufortcountypenny.com/wp-content/uploads/2021/09/Alljoy-Rd-Pathway-Meeting-1-Summary.pdf>

<https://beaufortcountypenny.com/meetings/>

In addition to the in-person meetings, meeting webpages were created to present other alternatives for the proposed bicycle and pedestrian facility on <https://beaufortcountypenny.com/meetings/> for:

- Alljoy Road Pathway Public Meeting: Tuesday, September 14, 2021
- Alljoy Road Sidewalk Public Meeting: Thursday, October 28, 2021

For the public meetings, the overview exhibits were prepared by Infrastructure Consulting & Engineering, PLLC with Alljoy “Loop” and typical section exhibits and other meeting materials prepared by J. Bragg Consulting, Inc.

Meeting Summary:

Time Period:

- Public Meeting 2: September 14, 2021 at 6 pm at the Bluffton Recreation Center, 61B Ulmer Road, Bluffton, SC - In-person meeting hosted by County Councilmember Mark Lawson. Deputy County Administrator Whitney Richland, CPA, CGFM; Capital Projects Coordinator Brittanee Fields; and Sales Tax Program Manager Jennifer Bragg, PE were present to answer any questions the public may have about the proposed 8’ pathway on Alljoy Road.
- Public Meeting 3: October 28, 2021 at 6 pm at the Bluffton Recreation Center, 61B Ulmer Road, Bluffton, SC - In-person meeting hosted by County Councilmember Mark Lawson. County Administrator Eric Greenway, AICP; Deputy County Administrator Whitney Richland, CPA, CGFM; Capital Projects Coordinator Brittanee Fields; and Sales Tax Program Manager Jennifer Bragg, PE were present to answer any questions the public may have about the proposed 6’ sidewalk on Alljoy Road.

 - E-mail Newsletters – sent to: 489 recipients on October 15, 2021
 - Webpage – published on: October 15, 2021

Additional Public Comments:

For Public Meetings 2 & 3, following a brief presentation by Councilmember Lawson, a question & answer session was conducted with verbal comments addressed. The following is a brief summary of comments:

- Request for Summary of Comments from Public Meeting 1/Virtual Meeting:

Alljoy Road e-mail newsletter sent on September 16, 2021 with information on revised Alljoy Road “Loop” exhibit and the Public Meeting 1 & Virtual Meeting Summary. These items were also published to the webpage.

- North Side versus South Side of Road- Why was north side selected?

Initial field investigations were performed by the design team and County when the project was scoped in Fall 2019. From their review, the north side of the road was selected based on:

- Utilities: Minimize impacts as overhead utilities are on the south side
- Mailboxes: Minimize/eliminate disruption as they are on the south side
- Other obstacles such as fencing: These are mostly on the south side
- R/W: existing 75' R/W (37.5' from road centerline) on both sides, except at Loop where it changes
- Trees: Trees appear to be clear from the R/W, and if located within the R/W, the path/sidewalk would be designed to minimize impacts
- Ditches: Deep ditch on south side; north side has shallow swale or shoulder section with a short section of a deeper ditch
- Wetlands: There is a wetland on the south side which would be impacted by a path/sidewalk and there is minimal impact on north side (< 0.5 ac).
- Path/Sidewalk Connectivity: If the path/sidewalk is located on the north side, it would facilitate better connectivity with the proposed path on Burnt Church Road and the future path on Shad Avenue as the users would not have to cross Alljoy Road to continue on the path/sidewalk.

- Environmental Document:

Several had requested an Environmental Impact Statement (EIS). An EIS is not warranted for this project and it along with two other document types- Categorical Exclusion (CE) and Environmental Assessment (EA) – are part of the National Environmental Policy Act (NEPA) which governs the environmental process on projects with federal funds. This project is locally funded and will comply with SCDOT’s Municipal Separate Storm Sewer System (MS4) requirements for stormwater activities during and after construction, and if a wetland permit is needed, this will comply with USACE permit requirements. This is the required environmental documentation and another document is not warranted.

- Trees:

The County does have a tree policy; however, it does not apply to SCDOT’s R/W. Although it does not apply, the path/sidewalk would be designed to minimize/eliminate impacts to trees. Also tree removal does not warrant an environmental review under state or federal policies. It only applies to local policies.

- **Traffic Analysis:**

A traffic analysis is not warranted for a path/sidewalk. The path/sidewalk is offset from the road and will not affect traffic operations. If there is an intersection change, such as an all-way stop being proposed on Alljoy Road at Shad Avenue or Alljoy Road at Thomas Lawton Drive, then an analysis would be required to determine if it met SCDOT's warrant analysis for an intersection improvement. This would also include other intersection safety features such as rumble strips in advance of an all-way stop.

An at-grade pedestrian crossing would be installed where applicable, such as on Alljoy Road at Shad Avenue intersection where the sidewalk is proposed to cross from the north side to the south side, and may not require an analysis.

- **Traffic Calming:**

Speed humps/bumps are a road improvement project outside of the Sales Tax Program, specifically since they have been requested for the Alljoy Road "Loop". They must also meet SCDOT's Traffic Calming Guidelines, dated 2006. Visit <https://www.scdot.org/business/traffic-calming.aspx> for more information regarding the eligibility criteria for a residential road.

- **Safety:**

This has been mentioned in regards to the residential driveways. Residential driveways are very low volume, and the path/sidewalk will not affect the operations of the driveway or vice versa. If a bicyclist or jogger is in the road, they have equal right of way. For instance, if a car is turning left into their driveway, they should yield right of way to the bicyclist/jogger same as if another vehicle were approaching. This would apply to the path/sidewalk too. Likewise, if a vehicle is exiting their driveway, the bicyclist/jogger has right of way same as a vehicle in the road.

Although the north side may have more residential driveways, it has fewer road intersections. Road intersections have considerably more traffic volumes than a residential driveway. The north side has 7 intersections at Confederate Avenue (2), River Oaks Drive, Palmetto Avenue, River Tree Circle, Shad Avenue, and Thomas Lawton Drive versus the south side with 16 intersections. The north side proposes fewer conflicts since it has fewer intersections.

Also, safety is improved for all users with a separate path/sidewalk as the potential for conflicts between vehicle and bicyclists/pedestrians would be minimal whereas it is currently extremely high since everyone is in the road. Several people commented on past and current incidences between vehicles and bicyclists/pedestrians.

- **Comprehensive Plan:**

The comprehensive plan included a section on the Alljoy Road Community Preservation Plan. Within this plan, it included a section for Multi-use Trails on Alljoy Road, Shad Avenue, and Ulmer Road. The proposed Multi-use trail was a shoulder extension, and if installed by SCDOT's standards, it would be a 4-ft paved shoulder on both sides of the road for bicyclists. This would accommodate pedestrians, but is not ideal nor is it recommended. The 4-ft paved shoulders, at times, has significant impacts if ditches need to be relocated, shoulders widened, mailboxes relocated, etc. The offset path can be designed to minimize/eliminate the impacts.

The pathway, as voted on in the referendum, combines the 4-ft paved shoulders into one 8-ft path, offset from the road. This path width is the minimum width recommended by AASHTO (American Association of State Highway Transportation Officials) and current guidance is minimum 10-ft and to only use 8-ft where necessary to avoid an obstacle. The offset path accommodates all users.

The current proposed facility is a 6-ft sidewalk. Although it is not recommended by AASHTO for bicyclists, there are safety benefits as it will contain a minimum 5-ft offset where possible and provides a separate facility to minimize conflicts between vehicles and bicyclists/pedestrians.

- **Connectivity to Other Bicycle/Pedestrian Facilities:**

While Shad Avenue and Ulmer Road were included as one project to include Burnt Church Road, the Sidewalk and Multi-use Pathways project has a fiscally-constrained budget of \$10 million. This project category is underfunded by the sales tax program, and project locations have been developed to contain at least one project within the represented council districts. For District 9, Bluffton Parkway Pathway will be completed near the roundabout, and based on the overall budget and comments from the first virtual public meeting, Alljoy Road was selected to proceed into design.

Although Burnt Church Road, Shad Avenue and Ulmer Road were originally selected as a priority project, they were programmed for conceptual design but not programmed to proceed to final design and construction. The County recognized the need for the Burnt Church Road roadway improvements to include the bicycle and pedestrian accommodations, and this project is being expedited and funded by road impact fees as it was included in the County's 2006 Road Impact Fee Study. For the Burnt Church Road project, the County issued a Request for Qualifications for design services and received proposals on August 31, 2021. They have evaluated the proposals and selected the most qualified consultant team. Once the consultant team is under contract, the Burnt Church Road project will proceed into design, and project-specific public meetings will be conducted for this project. Also, the Burnt Church Road project will include connectivity from the Alljoy Road/Burnt Church Road/Bridge Street intersection along Bridge Street to connect to the Town of Bluffton's proposed improvements.

Shad Avenue and Ulmer Road may be addressed if additional funds are available or potentially combined with another funding source. At this time, Alljoy Road is funded, but there are not enough funds to substitute Shad Avenue and Ulmer Road in its place.

Recommendations:

Based on the comments received, there are more comments supporting pedestrian and bicycle improvements along Alljoy Road. Also, additional coordination has been conducted by Councilmember Lawson with the Alljoy Road community as well as with County representatives, and revised exhibits, incorporating citizens' comments, were published on <https://beaufortcountypenny.com/meetings/> and presented at Public Meetings 2 & 3.

The proposed recommendation is a 6-ft sidewalk offset by a 5-ft grassed shoulder. It will be located along Alljoy Road on the north side from Burnt Church Road to Shad Avenue and on the south side from Shad Avenue to Thomas Lawton Drive.

Another public meeting will be held to present and receive comments on the proposed design once the plans are approximately 65% complete.

Beaufort County conducted an in-person Community Meeting on July 1, 2021 in conjunction with a Virtual Pathway Public Meeting from July 1, 2021 through July 30, 2021 for the Proposed Alljoy Road Pathway Project. This Public Meeting involves one (1) of the original 24 locations as approved in the 2018 One Cent Sales Tax for Sidewalks and Multi-use Pathways project. Although Alljoy Road was not recognized as one of the 14 priority pathways during the first Pathway Project Virtual Public Meeting held October 19, 2020 through November 20, 2020, based on comments received, it along with 7 other locations was recommended to proceed into design.

Alljoy Road is a SCDOT-owned and maintained roadway. It has a present 37.5' right of way from the centerline of roadway or total 75' width from Burnt Church Road to Thomas Lawton Drive. Around the Alljoy Road "Loop", the right of way varies as based on SCDOT plans File Number 7.271.

Meeting Summary:

Time Period:

- Virtual Meeting: July 1, 2021 through July 30, 2021 – 30-day virtual meeting hosted on www.BeaufortCountyPenny.com
- Community Meeting: July 1, 2021 at 6 pm at the Bluffton Recreation Center, 61B Ulmer Road, Bluffton, SC - In-person meeting hosted by County Councilmember Mark Lawson. County Administrator Eric Greenway and Capital Projects Coordinator Brittane Fields were present to answer any questions the public may have about the proposed 8' pathway on Alljoy Road.

Advertisements:

- Press Release for Community Meeting on June 28, 2021
- E-mail Newsletters – sent to: 313 recipients on July 1, 2021; 414 recipients on July 13, 2021; and 448 recipients on July 28, 2021
- 20 Sales Tax "Yard" signs were placed on the project corridor or surrounding corridors on July 2, 2021

Public Comments: 208 total comments were received from an online comment form, mail-in comments, and direct emails. The comment form provided a comment field in which participants expressed their concerns and/or opinions on the proposed Alljoy Road Pathway Project.

Highlights from the written comments are:

- **Safety** - The pathway would provide a safer route for families, children, residents walking pets, and the general public.
- **Bike paths** - Those interested in bike riding showed strong support.
- **Changes to the "Loop"** - Citizens were concerned that changes to the "Loop" would lead to congestion and problems for boating traffic.
- **Path specifics** - Commenters had questions about the size of the path and the design of the path.
- **Roadway** - Some felt that shoulder widening and repaving the road was an acceptable alternative.

- **Public Meeting Opposition**

- **Advertising Interference**

- On July 3, 2021, Capital Projects Coordinator Brittane Fields was notified by a resident that multiple signs were spray-painted and/or vandalized. This was confirmed on July 4, 2021, and a police report was completed.
 - During the meeting, it was noticed several signs were missing. Upon collection of the signs on July 31, 2021, 8 signs were unable to be located.
 - Opposition placed their own “No Path” signs throughout the corridor.

- **Organized Opposition**

- Residents, interested in spreading their own message and not relaying project specifics to the public, would continue to share the comment form but not the virtual public meeting page developed to inform the public of the proposed design. The County and Program Management Team monitored these initiatives and redirected the shared comment form link to the actual project meeting page. This sharing of only the comment form occurred multiple times and the team redirected each time to the project meeting page.
 - Residents contacted local media (WSAV) to express their opposition to the pathway and spread their own message.

[Lowcountry community members speak out against Beaufort County bike path proposal | WSAV-TV](#)

- **Submitted Petitions** – A Change.org petition was submitted twice to Beaufort County in response to the proposed pathway design. The petition reflected inaccurate information and revealed biased points-of-view by the petition creator.

The petition has a significant number of responses that cannot be traced back to residents actually residing in the area, and therefore affected by the proposed project. The vast majority of the signatures presented cannot be validated to adhere to basic regulations such as signers should be of legal age to vote, should reside in or have ties to the county or state in which the grievances to redress are being presented to higher parties. The list of signatures has also existed outside of the timeline for public comments to be submitted. The following websites address the validity of petition signatures.

<https://www.ncsl.org/research/elections-and-campaigns/laws-governing-petition-circulators.aspx>

<https://www.sog.unc.edu/resources/faqs/what-information-needs-be-included-petition-about-each-person-signing-it>

- Many commenters were concerned about other unrelated issues to the pathway project:

- Beach Renourishment
 - Boat Ramp and Landing updates
 - Drainage Problems
 - Conversion to city sewer vs. septic tanks in the Alljoy area
 - Excessive speeding and speed control options

Comment Summary

Note: Comments are copied as is with no edits.

- I am strongly in favor of the 8' pathway along Alljoy Road. Alljoy has a considerable amount of traffic and is increasing steadily since the opening of Thomas Lawton Road several years ago. Walking or biking is dangerous at best on Alljoy under the present conditions. Several years ago new legislation allowed golf carts to be used on roads with speed limits under 35 mph which gave those people with golf carts some relief in the use of their alternate means of transportation. Many residents of the area would like to be able to walk in the neighborhood but it can't be done safely, the new pathway would be most helpful.

I agree that the drainage in the area of the boat landing needs to be improved and I am in favor of any help that might be available, I am also in favor of local sewer for the Alljoy area. As to the pathway, I think reversing the traffic flow at the boat landing would make using the landing much easier. The current proposal does not work at all for most boats because there is not enough room available to turn the vehicle and trailer around to back into the water.

2nd Comment: Please let's get this pathway done. It's only a matter of time before someone gets killed walking down Alljoy road. We have been trying to get this done for years let's not let this slip away. Thanks

3rd Comment: Since the in person meeting in early July I have talked to a number of our neighbors who live in the Alljoy area and are opposed to the pathway project. They seem to all answer questions first with, I don't want it because it is going to make the flooding at the beach area worse." Hopefully the decision makers will look over that kind of response because it simply is not true and putting in the pathway is probably the only chance we have of improving the drainage in this area. The installation of the bike path will demand drainage improvements as a result of the new construction and our own County drainage rules. Second, the bike path will be built in the existing right of way, not in people's yard as many are saying, again I hope those comments will be discounted. Third, many people say the bike path will increase development, What? How do we make that leap of faith? It will increase traffic, again Why? are more cars coming into our neighborhood because of the bike path. The long and short of the opposition to the project is unfounded and based on uneducated reasoning that is wrong and invalid. Most of the opposition should be discounted from the start because all people are really opposed to is change, change which is needed for safety and personal enjoyment of the community. Our neighbors want to stick their head in the sand, they can't argue the merits of the project because they don't understand the project and are denying the rest of us the value of the project in our community. We want the Path, don't be fooled by a small number of people or a petition signed by people from a wide area who say they are opposed to to the project for reasons they cannot support. We want the Path!

- I am not opposed to a "sidewalk" down Alljoy Road. I attended the meeting at the Rec Center July 1st, and it was repeatedly referred to as a pathway. When I questioned why it had to be 8', and could they not use a sidewalk standard with is 5', I was just told "we have to do what SCDOT tells us to do." I feel the whole Brighton Beach area would be made safer for children (particularly) and adult who walk and bike around the area. I do feel, as was mentioned at that meeting, that it is not a busy enough area to require an 8' path

with a 5' buffer between the path and roadway. I think that also, in any construction project in the area, that drainage needs to be taken into consideration always. While I understand that bringing sewer to the area does not fall under this penny tax program, it should be strongly looked at and perhaps addressed simultaneously so as not to install a sidewalk/pathway only to come back through in a couple years and rip it out to install sewer. As far as extending the "path" around the Alljoy Beach area, I would only welcome the proposed changes if it did not negatively impact the ability to maneuver a boat and trailer in and out of the landing. I don't think that that area as it stands now is as dangerous to pedestrians/bikers as people are not generally speeding there.

- My family lives in the Alljoy community and we support of the Alljoy pathway. It will make the road significantly safer for pedestrians and cyclists. Currently Alljoy is not safe for children or adults to walk or bike. The pathway will encourage outdoor activity for the Alljoy community as well as the Bluffton community in general. We do not believe the pathway will take away from the uniqueness or quaintness of the Alljoy community. We believe it will enhance it. There are many concerns that need to be addressed on Alljoy, including the need for sewer lines and safer golf cart options, however those topics need to be separate from the pathway. The pathway is a step in the right direction and will improve the quality of life in our community.
- Thinking back to my years of spending summers walking all the the streets down Alljoy, I can say personally say I know of 4 instances of people being hit walking towards the beach. A pathway would greatly improve the safety of my great friends and neighbors walking on the busy Alljoy Road. I know of many, that take walks with their young children in tow in wagons. We all try to drive the speed limit, but we know there are more speeders and instances of people not paying attention to the road. We need safe ways to leave our homes to visit neighbors. I'll drive to nickel pumpers. I wanna walk the circle. Thanks and Please Support!
- I am in favor of the pathway in any plan proposed. I have been a resident full time for 25 years and starting advocating for a bike trail in 1996. Please proceed with whichever plan is most suitable and acceptable. thank You.
- This project seems to be creating opportunity for the entire community to have a safe access to a walking path, exercise and way to get to the river. The pathway will be a great addition!
- I would LOVE to have a bike path in our area of Bluffton. I attempt to ride my bike near my home, which is off of Alljoy road, but it is too dangerous due to the car traffic. I start on the road and have to move to the grassy areas beside the road. Those areas have holes and rocks which make the ride unpleasant. We built our home in 1989 and I have been waiting for a path for the past 10 years. Thank you for planning this path.
- The path should stop at shad if one is to be built. Ulmer and shad should be the area to have the path if safety is really the reason. Most that actually live in the area do not use Alljoy for walking or biking. It's such a shame that there is an actual need for a path for safety, but because there's not enough monies that

was allocated to our area for what is truly needed, that this idiotic plan has been thrown at us just to not lose this money. Our roads (some not even paved) ones that haven't been maintained in forever get crush and run in holes! Really???? This money should be used to fix real issues that are a problem. Not for making more problems! Roads should come before paths!

- I spoke for a second at the meeting. I walk Alljoy almost everyday. There's absolutely NO need for a 8 foot wide path. 5 or 6 at the most. Just enough for a bike. And this area still has its charm and ANY major disruption would completely ruin what we all love about living here. Many have been here for years. The Town of Bluffton is changing, some are trying desperately to keep that charm as well. No need for anything past Shad. And god forbid don't disrupt the homes on the River by changing the entrance and exit. I think anyone that doesn't truly understand needs to actually take the time to go and sit for awhile. See what we are talking about. Enjoy the ambiance of our corner of the world.

- I agree with sidewalks on Alljoy.

- Beaufort County needs to provide a permeable surface solution to allow runoff. A sidewalk option is preferred. What % of Beaufort County is complaining about all joy traffic patterns? Do not change the traffic near all joy beach, you will cause more issues than help.

- Hello, First, thank you for creating a communication system for this project that circumvents having to yell over each other at a meeting. This will impact a lot of people, and it's nice knowing all opinions are being heard. I've been an Alljoy resident for a decade now, with two young children who LOVE biking. You'll often see me and my son riding to downtown Bluffton or taking the Brighton Beach loop before heading out to Pine Island, with my daughter smiling in her (between the handlebar) seat on my bike waving to everybody. She'll have her own set of wheels soon. I AM 100% IN FAVOR OF THIS PROJECT. My wife and I both voted for this referendum when we read that there was a possibility that our area would be the benefactor of such a program. Fast forward to now, we were elated to hear it was finally in the initial stages and that Alljoy was the new focus! Our neck of the May River is a wonderful casual bike ride for the most part.

HOWEVER, Alljoy Road itself is dangerous for biking! Especially for slower bikers, i.e. children. When our ride takes us onto Alljoy, my son and I use a phrase ""white line"" which reminds him to hug the right (white lined) side of the road. Having surveyed it, I'm sure you know that MUCH of Alljoy has a very soft and sandy shoulder, often with a drop or change in height. My son's taken several hard falls trying to stay on the right side of the road and avoid (BUSY) traffic; only to lose a tire off the edge and take a spill. On a scarier note, many times I've cringed as cars tailgating us have whipped around to pass on the double yellow, somewhat blind portions. I understand there is a contingent of locals who live around the boat launch with strong opinions of this project. In light of it, THAT component may require extra attention, planning, and time to finalize an optimal strategy (if being completed at all) ... but PLEASE do not scrap this entire idea if that part of the project hits a stalemate. I'm pretty sure none of those people have had to walk a crying kid's bike home .9 miles down Alljoy with traffic wizzing by. In discussions with neighbors, I KNOW there are people who are in favor of this pathway at very least ending at Shad. The conceptual diagram posted for that

section looks great to me! I'd gladly settle for that. if it means my family and I can safely ride downtown and back. Thank you again for listening. PRO PATHWAY!

- I am in favor of the project and have no problem with the path being routed as proposed. I would like to see the path have a pervious surface material to minimize runoff. Thank you.
- I am in favor of the pathway as long as it stops at Shad Avenue and does NOT go around the beach. Also I think it will be better if we could make the path no larger that 5 ft.
- Yes to alljoy bike paths
- Sidewalks are needed ON ALLJOY.
- My family and I have been in, around, or living in this area for over 45 years. My Dad moved here in the 1970s. Before moving here permanently, I lived in Charleston for 26 years. Access to good public pedestrian pathways, walkways, and trails is important. The proposed path should be pervious material to protect the river, it should focus on walkers and runners. Alljoy Rd is only 1.5-2.0 miles which is not enough length for bikers. I feel a 4-5 ft path for walkers and runners is what is needed for this project. Focus on making Bluffton Parkway more enjoyable for bicyclists. Beach renourishment at Alljoy should be the number one priority. Thank you.
- I am in support of this project for either a pathway or sidewalk! We have lived off Aljoy for 23 years and its is a dangerous place to walk, run, or ride a bike...we would have loved to walk our kids to MC Riley, but now that they are all grown up we would love to get exercise and walk to the park, the church or our beautiful downtown Bluffton! We would love to walk to the beach or back from the boat to your house safely. This should be a priority! Thanks for your consideration!
- A bike path in Alljoy Road will be a great addition to Bluffton. Alljoy is already one of the best roads to ride. A bike path will make it safer and easier for both bikes and cars
- As a Bluffton resident and recreational cyclist —and also wife of a serious cyclist and mother of two recreational cyclists -- I support the plan to add a pathway to Alljoy Road. Many cyclists of all ages use this road because the May River at Alljoy Boat Landing is a beautiful destination for a bike ride, and there are many close calls of near collisions bike vs. car on Alljoy Road. It is a narrow road and cars and trucks are often driving fast and pulling boats on trailers, making them less manueverable and wider. The residents of Alljoy Road have a history of opposing a pathway that goes back at least 20 years, I believe because they don't want crowds at the small beach beside the Alljoy Boat Landing. This had some validity when the property owner's association owned and maintained this "beach park," but now that the county has taken

over this responsibility, citizens should be able to safely ride their bikes to enjoy this beautiful park. Because parking is limited, it makes sense to reduce the number of park-goers vehicles as much as possible by encouraging all to safely bike to the May River.

- Yes to Alljoy walkways.
- I will support this project when the county addresses other issues like drainage first. Until then, I will vocally and vehemently oppose it, unless the sidewalks are pervious.
- Please build Alljoy bike paths. I am an avid bike rider and they are needed.
- I visit the Alljoy Landing and have a 6 year old daughter. The paths would allow us to walk and her ride her bike when we are in the area. We are often at the boat landing.
- Having lived in Bluffton over 21 years The need for bike paths is urgent! Alloy road is heavily travelled with cars, golf carts, walkers and bikers. For the safety of our residents and visitors, I urge you to build the bike path on Alljoy Rd
- In support of a bike path!
- I want the pathway on Alljoy. We need a pathway or sidewalk for walkers and bike riders. My concern, and this is not your department, is we need Beaufort County Police to enforce the speed limit. The fines and fees they collect will pay for full time police offer(s) to patrol this area. I am against the beach refurbishment for the sole reason that will bring more traffic given how popular downtown Bluffon has become.
- Paths please
- Walkways will be an improvement to Alljoy.
- Please get sidewalks on Alljoy.
- Alljoy needs sidewalks.please put them in.
- I am writing in support of the Alljoy Path! I see many runners/joggers and people walking their dogs that are almost hit by cars. I also know neighbors that have fallen and injured themselves on the uneven ground

on the side of the road while walking. Providing a safe way for those that are walking/running down Alljoy would improve the quality of life of those that live on Alljoy and even those in nearby neighborhoods. Thank you.

- I feel the pathway would be an improvement for Alljoy Rd but i don't have enough knowledge of the boat - ramp traffic etc to see why it is necessary to change traffic flow i wish government could do one project without over complicating projects by adding other major changes to the job. Give us a bike path 4 to 6 feet wide is big enough. It would be extremely important to our neighborhood if we had more police presence to keep the speeding, litter and vandalism monitored on Alljoy I am always so happy to see a Sheriff car on our street but it is very seldom. Our families and pets are at important to us too.
- I am excited by the prospect of pathways for Alljoy Rd. There is a significant amount of pedestrian and bicycle traffic on Alljoy. Pathways would help limit dangerous interaction between motorized vehicular traffic and residents who live in the area, and their children, as they walk and bicycle in their rather densely populated neighborhood. In my experience, pathways also enhanced the sense of community in a neighborhood. A pathway is a safe place to stop and chat with your neighbor, and a far better decision than the middle of the road. Building pathways is a win, win, win situation: it increases pedestrian and bicycle safety, it adds aesthetic value, and enhances a sense of neighborhood community. I strongly urge our decision makers to fund this project.
- Please build the 8' pathway - we've lived off Alljoy Road since 1999. To be able to safely ride a bike, to jog or just walk to school, to church or to one of our many great festivals would be amazing. As an adult being on Alljoy Road currently with anything but a tank or armored car is foolish as the boat traffic, the speeders and heavy traffic is not to be taken lightly. To allow a child on Alljoy Road is insane! Build it please! Aa to the county signage being regarding this project being vandalized by adults - SHAMEFUL BUT NO SURPRISE!
- Please build walking paths on Alljoy
- Bike paths!
- Would love to see a bike path in the Alljoy area!
- I think that the walkway/path could be a good idea but only if changes are made. I reside at Alljoy inside the circle so I see & live with all the cars, boats, and people. My family has owned property here since the fifties. And now, I am "living the dream" as my friends say by living permanently at Alljoy next to my childhood family cottage. This is a boating & fishing community. Traffic & parking is crazy on the weekends. But it is quietly managed by people who love the May River and all that it offers. If you develop walkways down Alljoy, the already boat-car congestion will increase and cause big safety concerns for all who travel on the walkway. If the pathway went down Confederate or Shad, it would provide a much need protection

for all the children who live permanently on these roads and offer a walkway for those who wish to just walk. Many bikers already use Confederate due to Alljoy traffic. I am against the plan as written but with a few adjustments & suggestions from those who actually live here at Alljoy, a much useable & safer walkway could be enjoyed by many. Also, I am against cutting down any of our Palm or Oak trees on the river side. They provide much needed shade. Lowering the speed limits and more patrols to enforce said limits are greatly needed. I do hope you will consider the concerns of those that actually live in the Alljoy area.

- Walkways would make Alljoy safe.
- We need paths
- Please build bike paths all Alljoy
- Yes for Alljoy sidewalks.
- Good afternoon I am in favor of the Alljoy bike path. I have owned my house here since 2003 and would like to help however I can. Thank you
- Our community needs a pathway for bikers and dog walkers. It makes more sense for a pathway to be put in on Shad and Ulmer so all the children who live on Shad have access to the rec center and Michael C. Riley. If the pathway must go in on Alljoy, it should stop at Shad. Trying to go around the loop at the boat ramp and beach will make those areas inaccessible for trucks/boats and I think will ultimately negatively impact the people who live on the loop. I have some concern about people driving to Alljoy to use the pathway who are not. Where will they park? Our landing does not have restroom facilities or trash receptacles. there is no parking for bikers to come in to use the pathway. The beach absolutely needs rejuvenation, it has been in a state of disrepair for as long as I can remember, but a boardwalk is overkill for our small beach; perhaps just put the steps back. There is no parking as it is and bringing more visitors to that area will exacerbate that problem. However, having a clean and kept area that is safe for children and dogs would be great for our community.
- Sidewalks on Alljoy would be a huge improvement-. The street is too dangerous to walk on.
- The path needs to take a left on Shad and continue to the recreation center. It does not need to go around the boat landing or Beach.
- All Joy does need a path to make it a safe place to walk. A five foot sidewalk would be fine. The 8' path is way too large particularly if using an impervious material. I am concerned about drainage and road pollution for both types of construction. We have lived here 50 years and the drainage at the beach area has always

been a problem. The land is low and really unsuitable for septic systems. I worry about compounding existing problems.

- While I agree that a sidewalk is a positive thing for Alljoy Road, I feel that this proposal is way too much. The majority of people who ride bicycles in our area do not use the bike paths that are currently in place. They ride in the street. So, if a path is to be built, let it be the 5'0" walk and 2" space, so as not to severely damage the properties of those homeowners on Alljoy that will lose 13' of their front yards to the currently proposed plan. With the current "bike lanes" on Rt 46 being just painted lines on the road, why would concrete barriers and islands be needed on these small residential streets? By changing the two way section of street that accesses the boat ramp, you will increase the traffic of trucks and trailers through the small "loop" area that now does not have any of that traffic. I hope this plan will be re-worked to lessen the impact that would be done by such an extreme and overly extensive amount of changes and construction.
- I think an 8' path would be an asset to the Alljoy area. I don't know how it will impact the boat ramp area, but I think it can be worked out with a comprehensive plan, study & debate. Alljoy is a great place to reside, but like everywhere we have our problems, speeding, drainage, litter, noise, etc. I'm glad we were able to move here & blend into the Alljoy vibe. We've lived all over the South, Florida, Georgia & South Carolina. Bluffton / Alljoy is one of the coolest places we've lived. It's a state of mind.
- I am for a 6 foot pathway from burnt church to shad street.
- Please build paths so we can walk our dogs
- Please build paths on Alljoy. Paths are important for a quality of life.
- Our vote would be for the 5' sidewalk. It's less impact/concrete while still accomplishing the goal. Please also consider boat trailers when deciding the length of the concrete islands by the landing. If trailers are going to run over them, they will quickly deteriorate and become an eyesore. Thank you
- Yes to Alljoy sidewalks
- In looking at the proposals I feel the 5' pathway would provide residents of the area with a safe walking and biking area. As a resident of the area I see too many residents unable to walk safely during ALL times of the day on the current road. I strongly feel the pathway should end at Shad until such time the Shad/Ulmer project can be completed. I also strongly feel the pathway should be a non-pervious "nature trail" of sorts as to have the least impact on drainage and aesthetics of the area as possible. If a nature trail is not an option due to future upkeep and maintenance, is it possible you use material, similar to what parking lots

use around trees, that are "breathable" brick pavers or pervious concrete. Also along 46 which is a state road as well, why cant' the sides of Alljoy be widened to allow room for walkers and bicyclists with aesthetically changing the entire look of Alljoy Road? Also as said in the meeting 7/1/21 I hope none of the existing trees and vegetation will be removed as the trees on Alljoy serve a far more important purpose than a pathway.

- Yes! Please make the pathways to keep walkers and runners safe from all the traffic, especially the boats.
- I want to see bike paths on Alljoy.
- I'm full support of this project. Alljoy is a dangerous road. We need to offer a safe environment for walkers and bikers. This will be a huge benefit to our community as well.
- Due to traffic increase and speeding, I am for a bike path on Alljoy Road. Some of the comments that I have heard are from residents who think It is to wide and will take up to much space in front of their house. Maybe 6ft would be better. AS FOR ME, I AM FOR BIKE PATH.

From General Contact Form: With the increase of speeding traffic on Alljoy Road, I am in favor of the bike path. In order to attract moe people to vote yes I think it should be made smaller than the 8ft

- Please build the Bike paths!!
- Every day Beaufort County residents and children are at high risk of injury or fatality when on foot, pushing a baby stroller, or cycling when traveling up and down Alljoy road. I am a resident of Beaufort county, living off Alljoy road for several years during my time here, and now off of connected Burnt Church Road. Several family members live off of Alljoy, and many, many friends and their children, and elderly relatives. Having a safe pathway on this road is absolutely vital and long overdue. My husband grew up off Alljoy road and as a child and youth traveled by foot and bicycle directly on the two lane road with no shoulder. All these years later there is still no safe pedestrian walkway or pathway. I travel down this road multiple times per day, and how many dangerous situations do I witness daily involving vehicles and pedestrians/cyclists sharing the same roadway? Countless, including residents walking their dogs, parents pushing children in a stroller, residents seeking fresh air and exercise by foot or on bicycle, and families attempting a family bicycle ride. All this, while large SUVs, trucks, commercial work vehicles, and tractor-trailers drive by, sometimes mere inches away from the pedestrians. Beaufort county has an oppportunity to create a safe pathway for residents who have long endured extremely unsafe conditions. Beaufort county has an opportunity to add value to properties, with tax dollars voted, passed, and paid by these very residents for the well-being of all. Beaufort county needs to continue to prioritize this pathway, with an absolute responsibility to the safety of its residents. Do not let this oppportunity pass; hear the pleas of the residents in support of this vital pathway. Prioritize life and safe travel on this corridor!

- I absolutely support a pathway along Alljoy Rd. I frequently run and ride my bike along Alljoy Rd and have had some close encounters with the vehicles on that road despite keeping as close to the shoulder as possible. A pathway would hopefully make the pedestrian and bicycle traffic a lot safer and encourage many more people to be active along that route.
- Please build Alljoy bike paths
- I support the path but I feel like an 8 foot path is too invasive, excessive and unnecessary. Maybe a smaller path would be just as effective with less resistance from residents. There needs to be something done to alleviate the parking along all joy road due to limited parking at the boat landing. As for the boat landing area, if the entrance and exit are going to be reversed (meaning the current exit would be the new entrance and the current entrance would be the new exit) and the flow of traffic stays as is, I believe the proposal could work and be more effective. I do have concerns as to how this will affect the residents between Thomas Lawton and the loop. But ultimately the boat landing and beach areas needs to have some improvements done! Thank you
- I am for the 5ft walkways. 8 ft is ridiculous Please leave the boat landing as is currently.
- Bike paths are needed on Alljoy
- Please build Alljoy bike paths
- Good morning, I left the area in 1984 as the first home owner in the Fernlakes area. I returned in 1998 taking a job on staff with a local utility company. There and also my prior job in Charleston I was exposed to budgets, line item changes, project schedules, modifications, deletions and additions. I sat in on your meeting here in Bluffton, not only am I a strong supporter of paths and sidewalks for all the right reasons as safety, easy access, community, etc. but really appreciated the effort and expertise level demonstrated from the county explaining and willingness to modify the project going forward for the local population. Several years ago (around the time of the Burnt Church Road work) I reached out to representatives and asked what I could we do in order to bring a path installation and completion from Burnt Church Rd (Martin's Place) to Old Town Bluffton (Pritchard Street). The response and information was limited and became quiet quickly, I would like to revisit that today. I believe the opportunity is there specially if the dollars are not all used for the Aljoy project. As the president of the Martin's Place POA we are extremely interested in the "how to" to get our small segment done joining into the town. If there is no funds available and we must raise them or ask if overage possibly is available from other areas, etc. - we are asking for the steps going forward to whatever we should do to get it done. Our connection to the community is strong and we have been very fortunate to have local support for years from the county, local mayor Lisa Sulka,

state representatives The Honorable Bill Herbkersman and The Honorable Weston Newton. I look forward to hearing from you

- As a life long member of the All Joy community (from birth 1982), I fully support a pathway along Alljoy Rd. I spent most of my youth dodging boat trailers and fast cars as a runner and biker. As a mother of two young children, we avoid using Alljoy Rd for a number of reasons. First and foremost, the idea of sharing the road is lacking from most of the community. Boat trailers scream by your face. Second, the community loves to cocktail and golf cart. It seems that there is a clear misunderstanding of what operating a vehicle under the influence means. Third, the shoulder of the road angles off sharply. It's dangerous to ride alone as an adult much less with children. I feel it would benefit our community greatly to have a safe space to walk and ride bikes. Activity is paramount to the health of our community. Growing up in an area where bike riding, walking, and running were not safe was a huge impediment to my well being. I was grossly overweight by the age of 10, and remember daring Alljoy Rd from Myrtle Island Rd. to walk to MC Riley. It lasted only one time. Our children should have a better option.
- When I visit the Alljoy area I enjoy walking. It is not possible to walk without the sidewalks. They would be a huge benefit to the community.
- Looks like a good plan. A pathway is definitely need as I see pedestrians, baby strollers, bicycles every day walking down AllJoy past my house that are in danger due to the large pickup trucks speeding up and down Alljoy with their lift kits, big tires and loud exhausts.
- A sidewalk. Ok. Bike path. No way. And nothing needs to be done to the boat ramp. Or beach Or not what was proposed anyway.
- S I D E W A L K S ! No one wants a 13 foot addition to Alljoy. Just put a regular sidewalk that people can use, so they aren't walking in the ditch. Just stop with the 8' path and 5' grass buffer. That is a ridiculous waste of tax money.
- Sidewalks are needed on Alljoy.
- I would like to have a bike path down Alljoy and have it stop at Shad. Keeping the path narrower than the 8 feet discussed and allowing for keeping trees and natural landscaping so that it blends into the environment is my recommendation. Thank you
- I frequent the Alljoy Boat landing and area to visit friends. A bike path would be an improvement to the area.

- As a long time resident of Bluffton, this is an opportunity to bring the positive attention in which Alljoy deserves. Right now with Bluffton growing, we should also share this area with others. I vote yes!
- In addition to riding my bike with my dog around Bluffton, I also train dogs and local volunteers at Palmetto Animal League in Okatie. Weekly we take rescue dogs to different places around Beaufort County. This includes many parts of Bluffton. A side walk / bike path would be an outstanding addition not only for locals (I grew up on North Forest Beach on the south end) but also a safer way for every day folks (visitors and lifers alike) to commute from point A to point B. Many counties are upgrading their trails and sidewalks. Glad to see yall are keeping up with the Joneses.
- I think this would really be an exciting addition to the community!
- We need paths. It is a dangerous road.
- I am in favor of a smaller sidewalk but 8 feet is way too big.
- Bike paths are essential in quality of life. Please build on Alljoy.
- Please build the paths on Alljoy
- Please build paths on Alljoy. They don't have to be 8' wide, but a path would be used.
- I am for the Alljoy path. This will increase the safety of walkers, joggers, and those who walk dogs along this road. It will also be an improvement to the town and those who would like to push a stroller down this beautiful road. Thank you!
- I am for Alljoy sidewalks
- Please build paths that will allow me to walk my dogs
- I am for the path from Burnt Church rd to Shad. I am undecided on the path from shad around the loop until we see what the actual engineered plans are to know what is viable and really able to be proposed. Thank you

- I think this is wonderful and has been needed for a very long time. Without a pathway, Alljoy Rd is just too dangerous to walk/ride a bike on. The boat ramp definitely is in need of an upgrade as well. Thank you!!!
- This is a great idea! While we are at it can we also get the beach fixed up down there? It's becoming overgrown making it difficult to access the water.
- Yes to Alljoy bike paths
- Hello, I am for the path, however I do agree that we need to address the sewer and drainage situation. A path would help the walkers and joggers, I also feel we need to change the speed limit from 35 down to 25- I see many vehicles speeding past my house doing at least 45-50 MPH. If you change it to 25, people will do 30- which is ok and would help with golf carts on the road. The entrance to the boat landing should remain the same, it would be difficult to pull your boat into the first drive and loop around to back down the ramp. My hopes are that the boat landing would be the next upgrade to this area- I use the landing weekly and we need an upgrade- not to mention on low tides there is the chance of your trailer slipping off the end of the boat ramp and getting stuck- the ramp is not long enough under the water for longer trailers. Thank you
- As a 10yr resident I am thrilled at the choice to have a pathway on Alljoy. I walk this route daily with my dogs and recently with my 5yr old grandson as well as attempting to use Alljoy for biking. I can personally attest to the safety issues along this road. The increased boat trailer traffic has only made it worse and walking in the weeds is not a reasonable alternative. I feel many of the opposing neighbors never attempt to utilize this area in a way that is less offensive to the nature they believe they are protecting.
- We use the Boat Landing so much. We enjoy the area and would love to have bike paths to walk.
- Our household welcomes the addition of walking/biking pathways in the Alljoy area. It's been along time coming and we also. look forward to sewer ASAP
- I support the all joy paths. They will add safe way to enjoy our community, and will serve multiple generations. I propose narrowing them to 6ft. But this has long been needed for our area, and allow us to become more walkable.
- comments Strongly in favor as it will provide a long needed improvement for the neighborhood for now and future generations. Our family will use the path often for biking into town and running. All Joy is dangerous to walk on but yet home to so many residents. We are just starting our family and will be in this area for awhile to come. Our child will use this path to visit friends. I will use it to safety run. We should make decisions on betterment of community for the long term and not based on current circumstances and

simply because there is a resistance to change. I support the paths but think they should be made more narrow to 6ft and should not go around the all joy loop.

- Yes for sidewalks on Alljoy!
- I do not mind the sidewalk project but it seems to me that goes against all basic rules of conservation of our environment. This area is notorious for its poor drainage system. Some ditches never rid themselves of water, many lots are saturated with ground water after a normal rain and many septic systems do not work when these events happen. Without correcting this problem before you add more impervious surface such as sidewalks and paving you are adding to an already severe problem. you are putting the cart before the horse. It would be nice to have this walking trail but there are other problems that need to be addressed before before starting such a project. Please do not make the environment worse for those who live here so that others may visit here. You must deal with the storm water first!
- Please act responsibly. Thank you for taking this into consideration.
- Im writing as the owner of multiple pieces of property in the Brighton Beach Area, on Alljoy Rd and Shad Ave. I did vote in favor of the one cent sales tax to improve the communities of Beaufort County and the main reason I voted was the title "Safety to Schools" and the underlying comment to better residential communities, which I consider to be what is best for a community, and the county has blessed the Alljoy Community Zoning area with the Bailey Park and taking control of the Alljoy Beach Swimming area and now trying to improve the swimming conditions for the public, and planning to improve the Boat Ramp, which all can be done with careful consideration of putting these things first along with improving drainage. The Alljoy Community Preservation was formed in 2005 and that time there was much discussion about a pathway and if you look at page 5 of the zoning for Alljoy you will see what at that time and now the majority of the residents requested. The Alljoy Area Zoning runs from the Burnt Church to the Beach and it was formed with all residents in mind and keeping the community Clean, Safe and Environmentally Healthy and as I see it a 8 FOOT PATHWAY is not Environmentally Healthy, especially on Alljoy Rd, I know many people want to walk for their safety and a pathway on Shad and Ulmer Rd or even toward the new Bailey Park would be much better. We all know that this money can only be used for a pathway and That pathway needs to have the school children in mind, to this day in no way has not having a path way keep anyone who wishes to come to the beach or boat ramp from doing so. So if this project does advance I ask that the pathway only be about 4Ft wide and I have a idea about the Boat ramp and Beach I would like to share before the next plans are drawn. Thanks
- I think this is a great idea. I am not aware of any flooding but accept that is an issue. I would like to see golf carts be able to use the path. They are a concern on Alljoy Road. I live on Pine Island and encounter them frequently. However, a path for dog walkers and joggers would be a plus. I had thought of lobbying for one until I found out about the proposal.

- In Favor of 8 foot path, which would allow bikes to use. without this provision, the present alljoy road is scary to ride a bike on. Current motor vehicles pass cyclists very closely. This is especially true around curves. Please make this a safer street. word of mouth comment by homeowners: they do not want their beach accessed by outsiders (non alljoy road residents). Alljoy road is a very beautiful bike ride. I have to travel it very early as less cars travel it then.

2nd Comment: I do bike on Alljoy road and would very much welcome a bike lane. It would be so much safer. I have a super safe bike helmet and front and rear lights on my bike. But these are no match for a big old car/truck. Easements are for the city to decide. Please make it safe. It is a beautiful ride along the may river.

- I wish to express my support for the 8 ft pathway along Alljoy Rd from Burnt Church Rd to Thomas Lawton Dr. I have been a property owner on Trout St for over 20 years of the house my father built in 1954 and is time to address this very serious safety issue!
- I fully support all proposals to construct multi-use pathways as safer routes for pedestrian and bicycle travel - including the Alljoy Proposals.
- I wish to express my support for the 8 ft pathway along Alljoy Rd from Burnt Church Rd to Thomas Lawton Dr. We are currently building our permanent residence in this area and this very serious safety issue need to be addressed.
- I grew up on Myrtle Island Road and rode my bike to friends houses along all joy road in the mid 90's. Being there was no shoulder, let alone a sidewalk, I would ride my bike along the painted edge of the road but dip off into the grass every time a car came up behind me, which wasn't the best because there is a perpetual rut from the tires of the mail delivery car. I always felt it was unsafe as a 13 year old kid and have always wished for a bike path, sidewalk, or at least a 36" paved shoulder. In the 2000's the number of golf carts has increased exponentially. Now carts won't be able to use a sidewalk, but they could use a bike path and certainly use a widened shoulder to let the cars behind them get around. Even the mailman would appreciate a widened shoulder. One time in 1998, I was riding my bike with a 6' leash to my chocolate Labrador Ginger. As i turned left from myrtle island road onto all joy road, a car turned right off all joy road onto Myrtle island road and hit ginger, spinning her in circles on her side across all joy. If there had been a pathway for my bike and leash, she would have been safe. She did survive, but ever since then I have been a hard line proponent of needing the bike paths, sidewalks or shoulder. In response to any arguments that we shouldn't have a path because we don't want carts, joggers, and bicyclists coming into all joy, it is too late - they are already there. Lets make them safe and separate them from the vehicles. All Joy Road is a pretty, Live Oak and Spanish moss laden greenway and something we should all be proud of as beaufort Countians to enhance, not hide.
- I ride my bike along the proposed path often (3-4 times per week) when I am staying in Bluffton. I am always very concerned about vehicle traffic along Alljoy Rd, due to volume and speed of vehicles. I worry

that if drivers are not attentive, I could be run over by the vehicle. I fully support the plan to provide a separate path for bike riding down Alljoy, a very busy road.

- I support having an eight foot pathway for pedestrians and bicycles on Alljoy Road. It will be a great amenity to the County and Town. At present it is totally unsafe for pedestrians and any bicyclists foolish enough to venture on the highway. The shoulder is not improved or clear enough at present for safe foot traffic. I must use Alljoy every day when leaving my house so I am very aware of this. My wife and I would use the path regularly for exercise and a safe way to walk to Olde Town.
- I AM FOR THE BIKE PATH! I hope that we can work to make it happen! The best option in my opinion is to make the path 5-6 feet wide and have it end at Shad Ave. I understand that the boat ramp is going to be updated, but there is no way that boats will be able to maneuver one way and make the swing around the beach on Alljoy, plus I have measured and its not possible to have a bike path on the last stretch of Alljoy past the beach without taking out live oak trees, beautiful palmettos, and my neighbors yards. I measured the boats last weekend and the average boat was 20 feet with quite a few in the 30+ foot range. Its not possible to make the swing out of the ramp and loop the beach. My boat is 20 feet and I can barely do it. The bike/walking path will be a great addition to the area, but change to the loop/beach area will negatively change our small piece of heaven! Thank you for your time! Please let me know if or how I can help make the path happen.
- My family has owned property and have been summer vacationers at Brighten Beach for 67 years. I have been a property and home owner myself since 1997 and a permanent full time resident since 2017. I own 6 rental homes in the brighten beach area. My personal residence and one of my rentals, 45 Alljoy, will be directly impacted. My other 5 rentals are indirectly impacted. Thank you for cleaning up some of the speculation, providing some clarity and hearing our comments both in person and setting up an avenue for more constructive discussion. The Alljoy community in general, and the Brighten Beach area in particular, are Boating communities, not beach, not tennis, not golf, not pickle ball, not bike, and not even retirement : it is a boating community. The primary draw, and history of this community is the May River, boating on it and our beautiful waterways. Anything that negatively the impacts the River and local boating access will rile the community and potentially have a detrimental impact forever. Living on the corner of Alljoy and Shad I am keenly familiar with the traffic issues, both pedestrian and vehicular. Since the opening of Forman Hill Rd, Alljoy and Shad have had a major increase in through-traffic (vehicular). It is a perceived short cut for many and has become a habit for most. Yes, due to the vehicular traffic, I certainly see a safety advantage for a sidewalk running down Aljoy, from Burnt Church down to Shad, then down Shad to Ulmer or possibly the Rec center. This, Shad and Ulmer, are where true pedestrian safety concerns exist. I see it daily. To me, Shad (with no accessible right of way/easement) is a much bigger hazard for pedestrians and the many children, than any of the Burnt Church down Alljoy to Shad, (pre-Shad Alljoy). Continuing after Shad down Alljoy toward the beach, (post-Shad) is primarily local residential traffic, which of course includes boat ramp traffic, and some vehicle, sightseers and golf carts "cutting the water". The existing 15 foot right of way is well maintained by the residents along this route from Shad to the beach. Pedestrians choose the roadway by choice not necessity (on Shad, walking in the roadway is out of necessity). The actual vehicular and golf cart traffic cutting the water is light. Pedestrians access the road surface by choice but easily move

to the right of way when required. I have seen no issues, with the exception of a few people driving too fast. Local Boaters going to and from the ramp are generally courteous, patient and not in a rush until they hit the ramp. A speed bump or two on Alljoy, between the Shad intersection and the boat ramp, as well as a 25 MPH speed limit would be beneficial. Beach refurbishment would be great for us locals, those that can walk, bike or golf cart to the beach from their residence. But to think an 8 foot walking path is going to encourage people to park in old town and walk 2.5 miles to Brighten Beach and back is nuts. There is almost no parking at the beach, plus there are no facilities along the way. Considering this, "the connectivity" of an 8 foot walking trail sounds good and looks good on paper but is useless and a waste. Not to mention it will have to be undone when??? sewer comes. With the undoing and redoing; Property owners will incur an increase in the impact or hook-up connection fees. This alone should stop the post Shad extension. YES, I am for the proposal IF IT addresses the true safety issues: A 4 or 5 foot sidewalk along Alljoy from Burnt Church to Shad, then down Shad from Alljoy to Ulmer in order to separate pedestrians and vehicles. The pathway for Shad is major, with lots of children walking, playing and on bikes, with no right-of-way access, only roadway. Once they hit Alljoy to the beach it is relatively safe. The Shad portion will address a second major safety issue, water shed during rain events. Additional note: "Sun City" Cycle Clubs are in favor, My understanding is they are restricted to the road.

- Please only build a small bike path. No 8 foot wide path, no boardwalk & no concrete barrier
- Please add bike paths to All Joy Road area and any area in Bluffton. I ride my bike all over town and feel very safe when on a bike path. When there is no bike path the roads are too narrow and the cars do not pay attention to bikes and speed. I am treefied that I will be hit - especially sine there are so many drivers that have been drinking alcohol and just do not pay attention.
- Thank you for your consideration of public feedback as you proceed with the proposed pathways for Alljoy. Based on the proposal of a pathway from Burnt Church to Thomas Lawton I find it beneficial to have a designated space for peditricians and cyclists to navigate the roadway. I often walk on the grassy shoulder, and I don't find it the most ideal walking route. I feel the road on that stretch of Alljoy has the girth to accommodate the thirteen total feet for the pathway and barrier while not interrupting the flow of traffic. I understand that at this time the "loop" portion of the project is not part of the discussion, but I feel the necessity to begin addressing concerns for the future of this project. We are on the corner of the Alljoy Loop. It has historically been a favorite spot to rev your engine and speed around the corner. Beaufort County has done a commendable job the last few years enforcing the nine o'clock parking curfew and establishing rules for the public "beach". I believe these diligent efforts and rules have led to a little quieter corner. I am concerned that the "loop" pathways will undo the progress we have seen in these areas. The project requires the two way section of the loop in front of the boat ramp to become one way. The purpose of the two way portion is to divert boat traffic away from the beachfront. Our little corner is a tight turn that would only become tighter with a pathway making it dangerous for inexperienced boaters to navigate with trailers. I fear the increased traffic could lead to injury of the children that enjoy running back and forth to the beach from their front yards or the ice cream truck. I can't imagine how increased traffic into an area that is often littered with beachgoers' cars parked on homeowner's lawns and golf carts blocking portions of the roads on weekend afternoons could be considered positive progress for the community. If

anything this portion of the project should include speed humps to slow down rather than increase traffic. It is not uncommon for visitors to gaze at the beauty of the river as they navigate that portion of the loop paying no attention to those on foot. Creating havoc for boaters trying to enter and exit the boat landing also doesn't appear to make positive progress. The Bluffton area is already deficient for easy water access and boat parking as can be observed at Alljoy and the Oyster Factory any fair weather weekend. As for the beach front for years we had a wooden stairway leading from the grassy area down to the beach. It didn't take long for mother nature to erode away the stairway without constant maintenance to the structure. For a few summers it was a welcomed asset and then it became a hazard as boards with exposed nails had to be dodged when accessing the beach. How does the "loop" plan address ongoing maintenance to a boardwalk that will encounter the effects of the king tides? The draft shows the pathway circling the marshside of our picturesque live oak. This portion of the path would be in the marsh not bordering the marsh. Another great concern of the "loop" project is the effect it will have on our existing fragile drainfields. Lifestyle along Alljoy is less than glamorous when it comes to drainage and sewage, but we take the good with the bad to enjoy the beauty of the May River. In an ideal world we all would have been able to spend the tens of thousands of dollars needed to pay to upgrade to public sewer. For most of the homeowners this wasn't in the budget. The drainage fields become saturated when experiencing king tides or long stretches of rain. If portions of our green spaces become concrete how will this affect these already fragile infrastructures. The trees and grass are important features in making these systems along Alljoy functioning. Once again thank you for your consideration of the residents as you create future plans for our communities.

- We have lived on Alljoy Road for over 60 years and we support the proposed bike path that will extend down the length of the roadway. As a runner, I find it difficult and unsafe to run along Alljoy Road now and welcome this addition. Thank you so much for this consideration.
- My next door neighbor, Dr. J Moultrie Lee, whose parents built on of the first houses on Myrtle Island told me about his relative named Percy Huger , who developed Myrtle Island. Dr Lee said the Mr Huger planted azaleas all the way down Alljoy and continued all the way down Myrtle Island. One of the Coves in Bluffton is Huger Cove. Many of these Azaleas still exist., almost 100 years later. A beautiful patchy lined with gorgeous azaleas could be called the Alljoy Azalea Path. Possibly a local initiative to procure and plant the shrubs. I would prefer the path to be placed on the riverside of Alljoy, where the yards are deeper and the focal point of most homes faces the May River, not the Alljoy road I am in favor of a path for walkers, and families with children on bikes, etc. Thank you for your consideration

2nd Comment: I would be in favor of a pathway down Alljoy road but I would prefer it to be scaled back from the proposed 13'. I have lived on Myrtle Island for forty years. For years, when there was no money, I would hear people begging for a bike path. Now that it is within reach, a lot of complaints about taking up people's yards (which it won't), throngs of people from other areas, etc. preserving the unique charm of Alljoy is first and foremost in the minds of those of us who love "Old Bluffton" and the way we have been. Maybe less concrete and Disneyesque style design would be advisable when it comes to the actual landing and beach, as opposed to the style implemented in Wright family park or Oyster factory park. Again, reduced size, I think, is the answer Thank you

- We enjoy walking Alljoy when we visit our friends. Paths are needed.
- I want to see the path. A suggestion would be smaller than 8ft. I like the width of the paths at the Oyster Factory. I would also suggest the path stop at Thomas Lawton and no affect the Alljoy Landing. BUILD THE PATH!
- I am in favor of All Joy Atl Rt 1 option. This would allow better access for walkers & bikers and would still allow smooth access to the boat ramp for launching boats. Thanks!
- These are not solutions to any actual problems that the residence of All Joy face regularly. This addresses nothing - not one thing! Sure, it brings more people to the All Joy area to see and enjoy the sights of the May River; however, those of us that live there don't want this!

This does not address storm water run off which is an issue every time it rains, in more than one way.

1. There is excessive storm water displaced into peoples homes, like mine for example. I reported numerous times to Beaufort County that my neighbors that were building had NO way to displace their water and I was constantly being flooded. The county suggested my new construction neighbors install a rain garden. It's now a fire pit and I am still taking on water. My other neighbors had the county back them for a FEMA grant that no one else is eligible for because they are related to the Mayor of Bluffton... This was relayed to me in a phone conversation with Eric Larson; he said no one else would receive such assistance and it was only given because my neighbor's mother/mother-in-law is the Mayor of Bluffton. HE ACTUALLY SAID THAT. Unbelievable!

2. All Joy/Thomas Lawton Drive are primarily on septic tanks versus sewage. What do you think happens when the drainfields are saturated? Or the fact that the ditches along Thomas Lawton are tidal... which leads to #3 below

3. The May River's have multiple issues with bacteria and ecoli. More people, more pavement isn't the solution to lowering sewage/septic run off that will keep the waters of the May River pristine.

Do we really need to add more pressure to an already senative ecosystem?

Neither plan addresses the parking situation along All Joy Road for boat landing overflow. In fact it will make parking on the shoulder of the road impossible for those that currently park on the shoulder. So where do the people that are enjoying the river, fishing, shrimoing, oystering park?

More people wandering around - means more crime and we already have enough of that that goes unaddressed.

If these plans resolved one of the above issues that would be fantastic; however, it does not even address one of the issues.

If the residents of All Joy wanted a bike and walking path - there would already be one. It's the land of anarchy - if we want it, we will build it.

We don't want to be incorporated.

We don't want more taxes and we don't want more people wandering around down there.

If this is allowed; then All Joy residents should have free reign to wander through every other community, gated included.

- I oppose the AllJoy Pathway Proposal at this time. I also strongly oppose making a one-way street from Thomas Lawton to the landing and changing the Landing entrance. This will create congestion and cause havoc. I was on the AllJoy Community Preservation Committee. The committee as of May 3, 2005 zoned AllJoy for a multi-purpose trail that consist of a paved extended shoulder. The trail and I quote "would start at the intersection of AllJoy Road and Burnt Church Road; proceed east to the intersection of AllJoy Road and Shad Road; proceed north on Shad Road to Ulmer Road; and proceed west along Ulmer Road to the intersection with Burnt Church Road." I would support this route for the pathway once sewage connection with BJWS was in place. I was also on a committee to secure sewage in the AllJoy area. I spoke with a representative last week from BJWS that stated AllJoy is on schedule for 2025 pending funding, or earlier if funding is obtained. I feel we need to work on obtaining funding for sewage and revisit the pathway once that is obtained.
- This area, also known as the Brighton Beach area, has a long history (personally & collectively) of being a boating community where we respect the laid-back way of life of the Low Country & what it has to offer as well as a desire to maintain the health of our May River. This is a community that has invested their lives and livelihood in this area. We are your local ground roots community that loves our neighbors, golf carts and simple way of life, and believe that if it is not broke, don't fix it. As for the pathways, I am in favor of some of the pathways projected by Beaufort County, BUT I am NOT in favor of the Alljoy Road Pathway Project, for reasons listed below.

Prioritizing the need for pathways: I completely understand that the voters voted in the Penny Tax to create pathways in and around the county as needed, but there is not a need on Alljoy Road. The need for a pathway is on Shad Ave/Ulmer Road where there is a larger concentration of children, where it can connect to Burnt Church Road by the Elementary School. Shad Ave also is a hazard for those walking or riding a bike; there is no accessible right of way for them to use, except the roads, which are like a drag strip. That should be part of the consideration for a pathway on Shad/Ulmer. Alljoy Road, from Shad down towards the beach has well maintained easements and is easy for those that walk or ride bikes. The residents take good care of their property by the road, so there is just not a need for a pathway there. And I do understand that the Shad/Ulmer Pathway Project is considerably more expensive than Alljoy Road Pathway Project, and that the \$2,000,000 plus that is needed for the Shad/Ulmer Pathway is not yet available. But that is not a good enough reason to forgo it. Choosing a different pathway that is cheaper, and not desired by the residents that live in that area is not the answer, even though you have the money to do it. That is not smart spending by the County of my hard-earned taxes. Isn't it wiser to save for what you really need, and wait, then to spend the money on something not wanted, and not needed? I realize that there was a problem with the pathway on Ulmer that was mentioned at the meeting, regarding wetlands. As an alternative, could they not build boardwalks over the wetlands, as opposed to impervious concrete? Would that be an answer to the wetlands problem? Also, would it not be advantageous to connect the new

proposed park off of Confederate Ave to the pathway? It seems a better idea to make the pathway on Shad Ave/Ulmer Road where it is need for children to walk to school, and to connect to the future park between Confederate Ave & Ulmer Road. Then people on the southeastern side of Confederate could have a safer way to walk to school and access the park as well.

Protecting the May River: If the county is trying to make the area a better place to live, then they should work together with BJWSA to get sewer systems in place down at the Brighton Beach area. It would be very beneficial to the May River. Putting in the impervious pathway on Alljoy Road would cause more problems with the ever-poor drainage system we currently have/experience. I attended the meeting and recall that the engineer(s) said they would be required to make sure there was no more runoff than what is currently here, and that they would build something (don't recall the term) that would assist with that problem, so it would not add to our terrible drainage situation. After hearing this, a local resident stated that they were approached by the county who wanted to purchase some of their land for \$1 to build this system to assist with runoff. But it was in the marsh – which to me is destroying more of our natural resources. Please do not continue taking albeit small steps, in destroying the May River anymore than it has been. We are hurting our community and our town by not addressing the concerns of the May River. This is another big reason a lot of people come here & live here. We are blessed to have a beautiful estuary in our very own backyard. Let's keep it healthy so it will serve us for the next generations to come; let's leave our grandchildren a river they can still fish in, swim in and enjoy. And that means getting sewer down to the Brighton Beach/Alljoy area as opposed to putting in a Pathway.

Spend wisely & prudently: I do understand that the Alljoy Road Pathway will not cost the residents since it was voted that the Penny Tax be utilized for same. But putting the pathway in BEFORE sewer would result in only those residents that are getting the sewer system (HOPEFULLY in the near future) to pay for it after BJSWA tears it up, & then is required to build back the pathway as required by Beaufort County. We would bear that financial burden, not the county. So, we will be paying for it. Misunderstanding the pathway's function: Beaufort County did not originally propose a pathway for Alljoy Road; it was not one of the original 14 projects. After reading the County's notes from the 1st Public Meeting, I saw that there was a suggestion to put pathways in golf cart "friendly" areas. But I am concerned that those people at this meeting, or those who proposed this suggestion were not even aware that these pathways are/were NOT intended for golf cart use. At the meeting, this question was asked and we were told that golf carts are NOT allowed on the pathways, but must remain on the street, and if they were found on the pathway, they would receive a ticket. So, those that put forth the suggestion for a pathway for Alljoy Road a golf cart community may not have realized it would NOT be beneficial to golf carts at all, therefore, promoting an Alljoy Road Pathway Project in vain.

Maintaining our southern charm: Over the last few years Bluffton has grown as a new "destination" for tourists. The things that draw them to our quaint, charming & eclectic artsy town IS the quaintness, charm & eclectic art of this small southern town nestled on the bluff of the beautiful May River. They are coming to experience "Old Town Bluffton" (something our town boasts of & addresses publicly on signs leading to downtown). When riding down Alljoy in a car, golf cart or a bicycle, you are transported back into another time, where life was more simple, natural & alluring. This is most definitely part of Bluffton's southern

charm. Putting a pathway from down Alljoy from Burnt Church Rd to Thomas Lawton Dr, then around the loop of Alljoy Road definitely detracts from that charm & replaces it with more modern avenues of transport. It takes away from the beauty, appeal, lure & the ability to be carried away to a more genteel time. This is what tourists are coming to experience, yet you want to bring our sleepy little part of Bluffton into the modern, safer age with Pathways (and boardwalks). Please keep our town as small and charming as possible, so we can all enjoy a respite in this hectic world. Isn't that what the town of Bluffton wants to promote, so people will want to come here & enjoy that peace & relaxation as they look out over the river from the new public dock down on Calhoun Street? If we continue to change "Old Town Bluffton", we lose that appeal, for the residents and tourists alike, to enjoy something money cannot buy. So please, don't put a pathway on Alljoy Road—we want to maintain our quaint, peaceful laid-back way of life—we want to be prudent in our choices to help where it is needed, not where it is not needed (waste not, want not)—we want to keep our river clean and safe—we want to be wise in our personal and local spending—we want to continue to feel like we are stepping back in time when we drive down Alljoy—we want to allow our grandchildren to have the opportunity to enjoy what we have here, for years to come. Don't make us another HHI where businesses and people are leaving because they grew too much, losing the beauty of the island to the almighty dollar.

2nd Comment: Please excuse the incorrect date of the meeting on my previous comment – it should have read July 1st as opposed to June 12th.

- My family and I are unwavering in our strong opposition to the proposed project involving Brighton Beach and the absurdity of paving the last remaining wild bits of Bluffton. Fix drainage and sewers please. Protect the May from litter and raw sewage that currently flows directly into the river! Fix the flooding issues we endure every time there's a rainstorm! NO to more pavement. No to more development and tourism and profiting off of our quiet, eclectic, residential neighborhood! No to the development-happy engineer who thinks more mosquito-infested retention ponds are a good solution to these problems! We will fight this every step of the way: that is a promise.

Y'all are seriously underestimating the growing opposition here. I have been involved in grassroots activism and fundraising (both personally and professionally) for many years- and I have never seen a community organize so quickly and passionately as these citizens have. We are fundraising. We are having our own strategic planning sessions to oppose this. We are organized and stand in solidarity against this project. And we are interviewing lawyers and environmental justice organizations because we will do whatever needs to be done to stop this project.

If y'all think you can sneak or rush this project through because one wealthy and influential person and a few of her cronies have been very quietly pushing this behind the scenes, you need to be aware that we will march in the streets before we allow you to gentrify the last remaining ecosystem and community in Bluffton. This will negatively impact not only the river, the land and the community, but also my neighbor's livelihoods! I believe it was Brittaney Fields who (SO snidely and condescendingly!) said, "I would jUsT gO tO aNoThEr bOaT LaNdiNg." The loud, instant boos she got from the entire crowd at the town meeting are well deserved, have continued though the meeting has ended, and are indicative of the majority sentiment. Quite frankly, from a marketing and PR standpoint, it was great for organizing in opposition. I believe that

comment sealed the deal, and now this community is fired up! (Someone actually printed t-shirts with the Spongebob meme and her quote, which are proving to be excellent for fundraising! You can try to ruin this place with over-development, but we still have a sense of humor.) So, this is what you'll be up against in the coming months.

Finally, I would also like to say thank you for motivating us to organize and for inspiring this community to come together for preservation. We have phone trees, email lists, and contributions coming in- which means it will be very easy to organize again when it's time for elections. We are taking our inspiration from Margaret Mead: "Never doubt that a small group of thoughtful, committed, citizens can change the world. Indeed, it is the only thing that ever has."

Please leave everything past Shad Rd. alone, and if you do anything at all, fix the drainage and sewers!

- Alljoy Rd is part of the SC Scenic Byway system and is best viewed by car. This area is a private neighborhood and most people travel around on golf carts. There is no destination for pedestrians like a park or businesses to access. The bicycles that do ride down through here are the die hards that won't use a bike path anyway. Extending sewer service has been a debate for a long time. Properly installed and maintained septic systems do not contribute pollution into the environment. The proposed change to the boat ramp exit would be contradictory to improvement. I would be inclined to oppose having additional traffic coming from Bluffton whether it be by foot, bike, or motor vehicle. There are plenty of other ways to use the money.

- **OPPOSED –**

- I am in OPPOSITION to Beaufort County's proposed 8' wide Pathway - CONCRETING of AllJoy Road.
- I am in OPPOSITION to Beaufort County's proposed 4' wide 4" high CONCRETE barriers at the AllJoy Boat Landing, the proposed 8-10' wide multi-path and "flipping the exit/entrances" at the landing.

FOR

I am FOR the Pathway reverting back to Shad Avenue and Ulmer Road.

Shad & Ulmer were the prior focus of this proposed Pathway project. THAT MAKES SENSE - as there are 50+ school aged children on Shad Avenue and their SAFETY needs to be the PRIORITY.

A Pathway would provide them – CONNECTIVITY – to the Bluffton Rec Center on Ulmer, SAFETY and be more *COST EFFECTIVE.

*From the start of Shad Avenue to the Bluffton Rec Center = .07 miles opposed to Burnt Church down Alljoy past the landing = 1.6 miles

I would be FOR a Natural Trail on Alljoy, a pervious surface, in consideration of our ecosystem.

I would be FOR an extended shoulder on AllJoy Road per Beaufort County's Comprehensive Plan signed Ordinance (Appendix F, Section 5) - 4/25/05

ALSO -

- I am FOR – Beaufort County cleaning / maintaining ditches that haven't been done in 10+ years.
- I am FOR – Beaufort County encouraging BJWSA to put the AllJoy / Brighton Beach area on the TOP of their Capital Projects list OVER Stoney Creek.

PLEASE - #donotconcretealljoy - AllJoy resident.

- Although a pathway down Alljoy Road to Brighton Beach would be beneficial, I don't think the proposed plan fits the bill. I think it needs to be studied more with input from all of those affected by the plan. Also before any of this takes place, the sewage situation needs to be rectified. In its existing state (septic tanks) the situation is both detrimental to the May River and the homeowners in the Brighton Beach Subdivision. Thank you.
- I am currently opposed to the Alljoy Pathway Proposal and strongly oppose making a one-way street from Thomas Lawton to the landing because it will cause congestion for everyone and havoc for boaters. Sewage connection to Beaufort Jasper Water and Sewer Authority should be in place before the Pathway so as to avoid digging up some of the Pathways impervious pavement.

Once Sewage is in place I'm OK with the Pathway going from Burnt Church Rd. and ending at Shad Ave as was originally planned. Consideration should be given to reducing the width. Adding 54912 sq ft (1,3 mi = 6894 ft X 8) of impervious pavement cannot be good for the May River since everything drains into it.

- We are not in favor of the pathway down Alljoy Road. The landing is over crowded as it is and this would bring more people to a location which has no facilities!

Focus should be on infrastructure, mainly sewer, drainage and roads. A pathway, before these long avoided county issues, would be very destructive.

- I have been coming to the Alljoy area of Bluffton for 59 years. My grandmother had a house on Alljoy Rd. We have enjoyed the "slow" pace lifestyle down here. We have so many more issues that need to be met than a "pathway". We have been begging for sewage and drainage ditches. The beach needs referbishing before drawing a crowd. Someone from your planning board needs to come spend a Saturday or Sunday at the boat ramp to see the traffic and parking problems we already have. We Do Not need a pathway!! If you want to spend the money on Alljoy, fix the problems we already have and don't add to them!!
- Can we please address our need for sewers and storm runoff first? Our biggest town asset is the May River and protecting its health should be our first priority. We need to better deal with harmful storm runoff and properly treat human waste containing bacteria (sewers) as this continues to damage our May River. Let's use our tax dollars to solve this problem and keep the river safe to swim in and fish from before building an elaborate Alljoy bike path. A simple solution for pedestrian and bike safety would be to widen the Alljoy Road shoulder by 2 feet on both sides while installing sewers.
- I have lived on Confederate Avenue for 20years and lived on Alljoy Road almost 10 years before that. My morning routine starts with walking the Alljoy - Confederate loop before daylight or just after daylight so I'm intimately familiar with both roads. Not once have I thought that it would be better to have a walking path. The bicyclists will not use it and golf carts would not be allowed on it. The bottom line is the residents of Alljoy have made it clear that this pathway is not wanted or needed. Speaking of "need", what is needed

is the pathway on Shad & Ulmer roads, which was part of the original group of pathway projects before it was recommended to swap Alljoy for Shad & Ulmer. The need is much greater on Shad / Ulmer with the amount of students that attend MC Riley and also would provide access to the Rec center.

The residents of Alljoy would rather see money spent toward our drainage issues and eventually sewer, which would not only benefit the homeowners but most importantly the May River. The River is why we are all here to begin with and the Alljoy area is the last bastion of the old Bluffton eccentric "State of Mind". Alljoy is the final frontier, all that is left of the real Bluffton. We need to fight to keep it that way. We don't need to be connected to downtown Bluffton any more that we already are. Connectivity with downtown Bluffton to the Alljoy boat landing / beach has been brought up a lot. We do not need to become another selling point for the Town to market and profit from, sending more tourists to our area. Keep Alljoy the way it is!

- We are against this project.
PLEASE leave Alljoy Rd alone!!!
- We do not need extra traffic down All Joy Road it will cause more activity which means more crime.
- This would totally destroy the charm and Bluffton State of Mind that remains only in the Alljoy area. Renourish the beach. Improve the boat ramp area. Only.

Concreting the loop and the beach is a horrifying idea. Our beautiful and fragile May River does NOT need more impermeable surfaces.

- I do not believe it is a good idea to make a bike path that intrudes the alljoy beach
- Please focus on the drainage fir the area first... there is so much over congestion in what use to be a wonderful quaint down town area... why would u ruin the bluffton beach to create more congestion in an area that can't withstand! People have loved the eclectic little town feel of Bluffton and that is slowly diminishing! Leave Alljoy the way it is and just fix the drainage!!!!
- I say no to the future bike bath.
- As a 27 year owner on Alljoy rd I do not wish to see a path or sidewalk on Alljoy Rd. If possible to widen a couple fee teach side would be better!

From Email: I as a 27 year resident on Alljoy am opposed to any new path. I did like the idea of widening the road 2 ft each side. No path or pier please.

- No path in Alljoy. We do not want this
- Please do NOT do this!!!! As a lifelong resident of bluffton you are absolutely ruining this small town for those of us that live here at the expense of tourist dollars. My parents own a house on Thomas Lawton so this sidewalk will go in their front yard and the last change from paving ulmer was not a positive one. Is this to punish those of us that cant afford to live in fancy gated communities? Because that is what it is. You are basically tearing apart my childhood by messing with all joy. Put in speed bumps if you are so concerned about pedestrians.
- I live in the Alljoy area and feel that spending money on a path before improving the basic infrastructure to support more people is crazy! We need city sewer before anything else. We are at the water Table at high tide and with a good rain our drain fields are flooded - toilets don't flush and our sewer runs into the beautiful May River. If the May becomes polluted, Bluffton will have nothing to offer tourists.
- Greetings, in an effort to be concise I've bulleted my family's thoughts below.
 - We need better infrastructure in our community, this begins with sewer, underground power and fiber optic installation.
 - The money designated for our pathway should not be lost to another location simply because of poor planning.
 - Let's focus on a date at which the needed infrastructure will be put in place and utilize these funds for the pathway once the repairs are being made.
 - If the money must be used then simply re-pave AllJoy and incorporate a bike path or lane.
 - Do not move forward with the originally planned path or other alternative at this time. This will only increase runoff into the May.
 - I am totally opposed to any type of 4' concrete island just based on the description. We need to be focused on the beautification of anything that is disturbed, concrete islands do not lend themselves to that objective.

I suggest the following three options:

1. Do nothing at this time. Wait for the permanent sewer, underground power and fiberoptic wire installation to be in place then use the funds at that time for a pathway.
 2. Repave AllJoy and incorporate a bike path, adjacent to the roadway. Do nothing to the boat landing and its traffic flow, it is not broken, do not try to fix it. It is not perfect but there are no perfect solutions either.
 3. Let the money go towards another part of the county that is ready and deserving of such a pathway.
- If options 1 and 2 aren't feasible then I elect option #3. Peace, Health and Blessings

- Sidewalk from 170 mayriver to old town

- I was raised in the Alljoy community. My parents and many of my relatives live in the Alljoy community. I would encourage the county to consider a design workshop with the Alljoy community.

General feedback is the proposal is an overreach of ideas. Consider changing the 13 foot bike path (5' separation and 8' path) to widened shoulders on both sides.

- We own a lot off of Alljoy & will be building our forever home there this year. The proposed updates will be an eyesore & unwanted by the residents who use the road & boat landing regularly. The only appropriate answer would be to add a small black top bike path, possibly by widening the road slightly. We are not interested in making this a place for tourists, just keeping residents safe.
- As someone who lived in bluffton for 8 years i used this road frequently and it was always dangerous as cars drive fast and recklessly. I still ride this road on occassion with friends who live near by.
- I do not feel you should bring more people to the Alljoy Beach area until you fix the beach area. There is no room to swim because of all the marsh grass. You need to rethink the boat travel on that one way area you have planned. Someone from your planning board needs to actually come and sit to watch the boat traffic on a weekend when the sandbar is out. The parking is insufficient and traffic is tremendous for this small area already. Drawing attention to it is going to make it worse not better. Please come see for yourselves. I'm sure it looks great on paper, but is not feasible at this time.
- It was obvious to me from the hundreds in attendance at the July 1 meeting held at the Ulmer Rd Rec Center that a large majority of Alljoy residents do NOT want this 8' pathway (or, for that matter, the 5' pathway). What we DO want and all we need is a decent shoulder on each side of Alljoy Rd, say 2.5 to 3 feet. There is absolutely no shoulder at this time and the roadway edge is crumbling. Walkers and bike riders have to travel through sand and broken pavement. Please just fix the road and add shoulders.
- This is beautiful. Why would y'all close this?
- Please consider the comments, petitions, and local community's opinions on this matter. Many residents who signed are not dead set against improvement projects, but have a variety of ideas for how to proceed. Many folks are happy to see a sidewalk, but not such a wide swath of impervious concrete. Many are happy to have a bike path, but want the beach area left alone. Many are rightfully concerned about the environmental ramifications of this project, noting that the May River is our most precious resource. What is most important, is that the County Council reps respectfully listen to the will of the citizens who elect them. A

As a 25 year Beaufort County resident, my personal opinion is that a sidewalk for the neighborhood would be beneficial, but the project as presented is over-reaching. What makes Alljoy and Brighton Beach so special is the natural, old-school vibe of the area. Let's compromise on this project in order to maintain the community culture, while improving quality of life for those who live there. Let's compromise to protect

the May River from excessive run-off, keeping it clean, pristine, and functioning as a natural estuary/waterway should. Let's focus on improvements to drainage to further protect the river and improve the quality of life for the Alljoy community. In addition, please uphold your promise to host another meeting for citizens before the final vote.

- Definitely opposed to cart path! Don't make us secede again!
- As a longtime Bluffton resident & retail shop owner, please no more taxes.
- Seems no one on Alljoy really wants the bike path which is understandable, I think they have other issues with septic, flooding. With that said please take a look @ diverting funds to a nice bike/walking path down Sawmill Creek Rd from 278 to boat landing. Our neighborhood Victoria Bluff has a petition that was started years back with no response from county. Well not that I am aware of, the road is quiet next to national forest with parking mid way. Very promotable. Thats my 2 cents and best of lucky.
- Ask a resident of alljoy my entire life (30+yrs) I truly love and appreciate that alljoy is the only part of Bluffton that is untouched. Bluffton has grown so much that it's disheartening for the true locals. I see this pathway bringing an excessive amount of traffic to our beautiful community. Foreman hill rd was once a quiet dirt road now it's heavily traveled by cars; that do not follow the speed limit and walkers and bikers not to mention the amount of litter we see. Please we the residents of alljoy rd beg you to leave our beautiful River community alone!
- Very disappointed with the decision to attempt to add this pathway to Alljoy Road. I feel that there are other issues/projects in our community that make more sense to address. One of the biggest issues is drainage and ditches for storm water. When we first moved into the community over a decade ago the ditches were on the agenda. At some point that was never addressed. The second issue on my list would be the road itself. the road is very narrow and needs repaving. With the boat traffic, trailered boats can barely fit in their own lane. Thirdly, the boat ramp and floating dock would be a worthy project that would benefit our waterway community. The floating dock especially could use an upgrade. It was damaged I'm the hurricanes and never repaired. Also, it is impossible to tie up a boat on the upstream side of the dock due to its design. These are just some of the things I feel are needed in our community over the pathway. I'm sure there are others.
- No pathway please! Alljoy is the only whats left of old Bluffton. No need to change.
- As a lifelong Lowcountry resident, here are my thoughts regarding the bike path. My family moved to Hilton Head in 1960 and our home was the 8th house in Sea Pines. When the island changed with homes being built on every square inch of land I began searching for a place that still retained the true Lowcountry feel. Quiet, neighborly and by chance found the house I have now lived in for 25 years. Most homes in the Alljoy area are family owned and passed down from generation to generation. Most everyone here remains

committed to keeping their property and the lifestyle that goes with it. Then, in the last few years, Bluffton proper is exploding with little regard for the Bluffton lifestyle that was the initial draw. Along Alljoy we have very few bike riders while golf carts are the means of transportation. Also, having the path will only compound our drainage problems and continuing it around the boat landing and beach is unacceptable. At present, every weekend boat trailers are parked along the road from the landing all the way to the first entrance of Oyster Street. They even park in front of my house ignoring the "Do Not Park" signs. With that said, the last thing we need is more people in our area. We cherish that we have managed to keep our unique way of life and rather than a bike path, address our drainage problems and conditions of our streets. I know I speak for most everyone in our Oyster Street community when I say NO! to the bike path.

- I oppose the AllJoy Pathway Proposal and I also am against making a one-way street from Thomas Lawton to the Landing. I am against changing the landing entrance. This will create Havoc and congestion.
- I have lived here for 20 years. I am opposed the the proposed pathway. Trash, congestion, safety, use of the boat landing, and crime.
- No, this is not wanted or needed by the people that live in Alljoy area. They want to be left alone. Spend our money on something helpful and worthwhile.
- I would only like the sidewalk to be from shad all the way to ulmer and to burnt church roads
- I totally oppose this project. I have lived here for years and don't want to see it ruined. Too many people, trash, runoff.
- Leave Alljoy alone. This town has been ruined by developers. You will continue to ruin it by continually destroying wetlands and nature.
- The people on the All Joy beach have given land 2 times. Don't you think that is enough? People I see riding bicycles, ride in the road even if there is a path.

Burnt church road is the one in need of work. If you have ever been caught in school traffic and try to get out of the way for the fire truck and rescue squad you would know what I am talking about

- I am 100% against the proposed pathway on Alljoy Toad. There are more than enough areas where people can ride their bikes. The overwhelming majority of residents in the Alljoy area do not want or need this pathway.
- The area already gets damaged and litter from visitors. We don't need a path to make it easier for them to ruin the natural beauty of the place.
- I think a 5' sidewalk (not the 8' path) between burnt church and the intersection of Alljoy and Shad would be great. In my opinion, the sidewalk should be installed on Ulmer and Shad, not Alljoy. We were told that

route is too expensive but were not told how it was estimated. Was the estimate based on the 8' path or the 5' sidewalk?

I don't think the path or sidewalk should extend past Thomas Lawton Drive on Alljoy.

- I am totally opposed to this pathway. To make it short, runoff, trash, change to the entry and exit to the boat landing, safety issues and traffic.
A terrible idea.
- As a resident of Alljoy we do not want a pathway to bring more traffic and congestion to our once quiet area! We do not want more construction and progression. Leave our last bit of untouched lowcountry heaven alone! More traffic and more people lead to more trash/litter and trouble
- No path in Alljoy, No bike path at Alljoy. The run off into the River, traffic, lack of parking and making the landing unusable are unacceptable. Use the money to put a path somewhere else in the county.
- As a resident of Alljoy Road who lives in Brighton Oaks, I simply say NO! It's enough already building on every parcel of land in Old Town Bluffton, but working your way down Alljoy road is unacceptable.
- This project would only contribute to more water runoff, contribute to more trash in the beach area, almost prohibit the use of the boat ramp, make it very restrictive for emergency vehicles to use the area around the beach area and add to more congestion. I am totally against this project.
From General Comment Form: I am against the Alljoy pathway. This would only create more runoff, more trash, congestion and interfere with any emergency vehicles in the Brighton beach area. Spend the money somewhere else.
- Do not make the pathway on alljoy
- I do not approve of any of the changes proposed to Alljoy Rd. , the Alljoy Boat Ramp or Brighton Beach.
- No to the Alljoy bike path. Stop ruining our little town.
- I own property off of all joy down Fairfax Street. I was not happy when they made my street a one-way and I certainly do not want the county to make Thomas Lawton drive a one-way. There are better ways to spend these funds. What we really need is a sidewalk feature that runs from the All Joy area all the way to MC Riley so our children can walk and ride their bikes to school not some tourist attraction. I VOTE NO!
- We are Totally against this proposal!!!!

- My family and I have lived in the Alljoy area for 40 years. I am also a walker and a boater that uses Alljoy landing.
- The place that really needs a walk path is Shad Ave and Ulmer Rd. All those kids on Shad that go to school at MCRiley and that walk to the Rec Center. Also a path down Ulmer to the Rec Center draws more attention to this county facility to utilize it better. If there must be a path down Alljoy, stop it at Shad but make it a walking path, not a bike path. This prevents the issues with it coming close to homes along Alljoy between Shad and Mullet as well as interfering with the parking problem for the landing.

I AM TOTALLY AGAINST ANY PATH!

I AM TOTALLY AGAINST ANY CHANGES TO THE LANDING!. It works now with the land we have to work with. There is NO way to get a larger boat and /or pontoon through there with any path and no way to make a right hand turn onto Thomas Lawton with any kind of path. You Definitely do not want to route the landing traffic around the beach and bring all the boats and trailers around the population there. That's a safety hazard.

The beach area needs renourished, nothing fancy.

Please do not ruin the last of old Bluffton. The Alljoy area is just about all that is left untouched and true Bluffton. Those of us that have been here so long will fight to save it. Use the money somewhere else where it is needed!

- We do not want the path past Shad Ave
If you can build a boardwalk around the beach. You can use that to continue around Shad to the 5ft path on Ulmer. Bring speed humps like these on Foreman Hill Rd. Down Alljoy and Shad. Leave our boat landing and the residents homes past Shad alone.
- I am not against a pathway from Burnt Church Road to Shad Avenue. The proposal to go beyond Shad avenue around the loop is only asking for problems and will be detrimental to the ALLJOY community.
- The "pathway" is not needed in our neighborhood. I think a natural walkway would be sufficient from Confederate to Shad so as not to extend into the city limits as we do not want "connectivity" . I was fine with a pedestrian route on Shad and Ulmer which would connect to the new passive park , the rec center and would be a school route for the abundance of children that live there. This route could also be further removed from the roadside so it would be safer and more pleasurable to walk. If cost is an issue just wait until the money is available
- I do not support the proposed sidewalk/pathway to the Alljoy Rd/Brighton Beach area.

I grew up in this neighborhood and revisit it every few months or so (I work on Hilton head), and love feeling the nostalgia of it all. Already disappointed by the fact that the beach itself is disappearing, being re taken

over by the natural sea grass, but it's still beautiful and part of the nostalgia is the walk there. Most tourists don't know of the place, and most locals don't need the pathway to enjoy the beauty of the neighborhood/beach.

Plus it will make the boat ramp just unnecessarily awkward and cumbersome to maneuver.

- The pathway down Alljoy road and changes to boat landing traffic would create more congestion than is needed. A pathway down Ulmer road from Burnt Church to Malphrus rd would be better suited for cycling, and down Malphrus rd to Bluffton parkway.
- I oppose the pathway project. AllJoy doesn't need any major changes. I'm happy with the way it is now. Leave AllJoy Road and the Loop alone.

Money should be better spent on improving conditions at the landing.

- My comments about Alljoy Rd Pathway 1) I do not want a pathway on Alljoy Rd. 2) I observe only 4-5 walkers a day compared to about 20 golf carts a day which effects the traffic more than walkers and the bikers use the road sometime there are no individual bikers 3) The drainage at this location is also bad and I think more payment will make the drainage worst. 4) The Boat Ramp needs to stay as is and the beach needs to be renourished but no boardwalk. I have lived on Alljoy Rd for 61 years and there has been a lot of wrecks on the curve and the Alljoy Road maintenance and obeying the speed is needed more than pathways. I suggest the pathway be built on Shad and Ulmer.
- Please No more development in the AllJoy area, we don't need it.
- I am against the proposed Alljoy pathway.
My following statement shows very good reasons why the pathway should not be realized. Why change an area that doesn't want to be changed? Change is not always good even if you have the money to make a change. Change doesn't always make things better and neither does money. I think we all have realized that in our lives at some point in time.

Improvements for those that have lived in the Alljoy area for years is something that makes sense like city sewage. You have to remember those that actually live on Alljoy and in that area are the ones keeping up their property and paying taxes. Some of these homes on Alljoy have been in families for many generations and they have kept it that way because of the laid-back atmosphere, and the untouched modernization of this area. Why would you want to ruin an area that has always been a relaxing place to live? The improvements we desperately need like city sewage somehow just keeps being put on the back burner which makes no sense when this affects our environment. The city sewage issue should be of utmost concern because of how septic tanks and water runoffs affects our environment and our most precious May River. We all know that May River has had a problem from time to time with pollution. Keeping the river safe should be a main priority, not a pathway on Alljoy rd. I live on Alljoy road and there is no way on earth

there is a fraction of enough people walking or riding bikes to warrant the use of a pathway. It would be such a waste of money. I emphasize A waste of money.

Another problem I have with this pathway is it would be in the front yards of most of the home owners on Alljoy Road. I have looked and looked and have not seen a pathway like you are proposing in the front yards of homeowners. Take A look all the way down Alljoy road and around the circle by the boat ramp on May River and notice the front doors and parking of the home owners. Many of us are very close to the road. A pathway would cause problems with entering and exiting our homes and affecting our parking greatly. It could also be very hazardous to the homeowners and the pedestrians. The pathway would also cause rainwater runoff to flood our yards and increase issues with drain ditches which already have problems on high tides which all of these affects our septic tanks which in turn increases the chance of them polluting the May River.

The proposed Alljoy pathway would also cause grave problems with our boat ramp for loading and unloading boats. Many people use the boat ramp for loading and unloading their boats for work transportation to other islands, fishing, and recreation. The boat ramp parking area is a vital part of Alljoy area residence for parking boat trailers. This area must not be reduced in size. This area is much more important than a pathway for bikers. Again, this boat ramp and parking is plays a vital part in making a living for some. The parking at this boat ramp needs to accommodate all size boats and trailers and as many as possible. On Alljoy there are many residents with large boats and have used this boat ramp for many years. There should not be any interference with them continuing to use this close proximity boat ramp.

Brighton Beach is the name of a small area where some people can cool off and enjoy some leisure time. It is not a real beach where hundreds can spend a day and enjoy the water. Again face it, not even 100 can enjoy it at one time. It's a small area for small families or groups that can enjoy the water on mid to high tide only. This area is also very limited in parking. The only improvement needed here is the removal of seagrass that is taking over what little swim area that is left. That's the type improvement needed so that those that live here and visit here can continue to enjoy this small Brighton Beach area. Like I said this is a very small area. The proposed all joy pathway would reduce this area even further.

Put yourself in one of our homes in this quaint area. Would you want it modernized and busier taking away your comfort?

Please don't ruin our area with a pathway.

Thank you.

- I am against the current plan. It's too big!
I suggest making the road wider on each side by 3 feet. That would not ruin the area!
- So, you've got some money to spend in our beloved All Joy area! Well, the majority of people living here DO NOT WANT a bike path or a sidewalk created! Leadership has assured us that the power of the people will be adhered to and we have spoken and continue to speak! The money allocated toward "change" can be better spent on minimal speed bumps along the way and perhaps a caution light at the intersection of Thomas Lawton and All Joy. Traffic on the road and around the loop along Brighton Beach is very often too fast! Don't create an Avenue for intensifying traffic and people which will only overcrowd and destroy the

environment. This area is accommodating what is present now while maintaining the integrity of this cherished piece of Bluffton. If you must place a sidewalk somewhere put it where it will serve the community best, accommodating school students and their families! The majority of those citizens do not live on All Joy! Build a sidewalk, not on the All Joy road but starting at Shad, going along Ulmer and ending at the school! That would even compliment the recreation field/center! A sidewalk/bike path on that stretch of road will do a better job offering community safety as well as inclusiveness within our diverse population!

Drainage remains a problem in our area and demands attention! I understand that this work falls under a different funding resource! Quite unfortunate! This community need has long been ignored to the detriment of the environment!

Thank you for an opportunity to comment.

- We are not in favor of making the pathway extending past Shad Street, one way street from Lawton Street and Alljoy Road to the landing, and cutting/removing oak and palm trees.
- Because I have not received a response in 3 weeks, I am unsure that my comments were received. I am re-submitting. I have also sent these comments to all listed town and county representatives. The proposed Alljoy Pathway should not extend beyond Shad Street because:
Safety: Boats having to travel the entire circle would endanger children running between cars back and forth to their homes in Alljoy circle and beyond.

Safety: Getting area children safely to and from Michael C Riley Elementary should be a first priority. Wouldn't the pathway from Burnt Church to the end of Shad Street be safer if it followed Ulmer and Shad Street, as was first proposed? How did only a few comments move the proposed pathway to Alljoy Road? The penny tax passed in order to provide safety-not endanger area children.

Feasibility: Could 3-axle boats even make the turn at the curve near the lone oak of the swimming area? This turn is too sharp for boat trailers and emergency vehicles and the trees would be damaged. Also, residents would be cut off and/or delayed going to and from their homes by the boat and car traffic following the proposed one way loop.

Historical preservation: There simply is not enough roadway or right of way for this project to extend beyond Shad Street and still provide safety. This area is historic and should retain its unique and quaint quality for the residents who own these properties. To extend the pathway beyond Shad Street would drastically change the quality of life for those who live here. Many families, such as ours, are generations old.

Long range results: BJWSA would have to dig up and repair the walkway to provide sewage which is desperately needed to reverse the current rate of pollution of the May River. Can residents please see an environmental impact report for this project?

'Alljoy' was the name given to the hotel built by my husband's grandmother in 1923-24. It was situated on the property now housing the homes inside the circle of the Alljoy loop. (See article in "The Bluffton Breeze, November, 2004). Later a 2nd hotel was built. Both hotels burned in 1935 and Antoinette Bailey All purchased the property, now identified as 263 Alljoy Road. Her 5th generation grandchildren now stay with her grandson, JHC All, jr, and myself, current owners. They enjoy the quaint circle to the small swimming/marsh grass area.

Point: This is an historical area. In the 1923 Brighton Beach map by Tomlinson Engineering Co, the lot beside the boat landing, now owned by Forrest Baughman, was granted to the residents of Alljoy circle as their common area. The common area language at that time gave residents of Alljoy Circle the option to close traffic to the circle, like Palmetto and Crystal Beach do today. On 10/18/1944, SC Hwy Dept sold 15' right of way along Alljoy Rd, then called Oyster Street, back to residents between Lawton Drive and Mullet Street. The current SCHED right of way is less than 15' in this area. DB62/PG124

'Alljoy', our home's name since Antoinette's 1925 hotel, was an old Paris Island army barrack elevated and placed nearly to the edge of the property line in 1944/1945. No setbacks were required for these 30' deep lots at that time. Therefore any pathway or sidewalk would nearly touch the stairs into our house, severely de-valuing our property. This would be the case for 4 properties between Lawton and Mullet streets. To compensate these owners, repair and build drainage ditches that currently flood in heavy rain and many high tides, and build the pathway in this area alone would exceed the \$750,000 budget allocated for the entire project. Then BJWSA would have to dig up and repair the walkway to provide sewage which is desperately needed to reverse the current rate of pollution of the May River. (Can residents please see an environmental impact report for this project?)

This pathway project should not extend beyond Shad Street because:

1. Safety: Boats having to travel the entire circle would endanger children running from the swimming area back and forth to their homes in Alljoy circle and beyond. Currently the boat landing can be avoided by walkers and bikers (and golf carts for that matter) by traveling the dirt roads inside the circle.
2. Feasibility: Could 3 axle boats even make the turn at the curve near the lone oak of the swimming area? This turn is too sharp and the trees would be damaged. Also, residents would be cut off and/or delayed to and from their homes by boat and car traffic following the proposed one-way loop.
3. Safety: Getting area children safely to and from Michael C Riley Elementary should be a first priority. Wouldn't the pathway from Burnt Church to the end of Shad Street be safer if it followed Confederate and Shad Streets?
4. Historical Preservation: There simply is not enough roadway or right of way for this project to extend beyond Shad Street. This area is historic and should retain its unique and quaint quality for the residents who own these properties. To extend this pathway project beyond Shad would drastically change the quality of life for those who live here. Many families, such as ours, are generations old.

From Email: I am against the proposed 8' pathway on Alljoy Road past Shad Street. As a tax paying retired engineer and a 3rd generation owner of this property, I am impacted by this project, I would have appreciated a review prior to the planning of this project or at least a courtesy notification. Our only parking at 263 Alljoy Rd has been in the right of way since 1945. The 3 lots between our house and Lawton Dr are in a similar situation. This project should be reviewed by the South Carolina State Historical Preservation Office, a safety engineer, an environmental impact team and a close review by the SCDOT engineers. There is unacceptable risk associated with the project and the existing congestion which creates an obvious liability for the state and the county. My wife and I stress our desire to keep the Alljoy/Brighton Beach loop as it is now to protect our extended family of 13. I am the grandson of Sara Antoinette All, who built the Alljoy Hotel here in 1921.

- We have property in the Town of Bluffton. We do not have property on All Joy but feel that it should be left the way it is. Hasn't Bluffton been destroyed enough. It's so shocking to see what it has become. So darn sad!! Leave All Joy the way it is. Ask all the people on All Joy what they want. Ultimately they are the ones that have to live with this planned mess!!
- 1. Eric Greenway stated, "if you, the people of the community, don't want it...we will be glad to take that \$750,000 and spend it somewhere else." Then the people of the Alljoy community CHEERED, and said, "TAKE IT! We don't want it!"

I also heard a lot of, "comment on the penny website and make the comment online." This is simply a way to get us to hush.

After this meeting, I feel much stronger against the pathway than I felt going into the meeting. This is NOT WANTED, and it's being forced on us for greed. I feel all of the answers given by Eric Greenway were vague, dismissive, and when the question was specific, he just said, "post your comment online." This meeting was simply to try to quiet those of us who live in Alljoy. The QUESTION I have, is who, specifically, makes this decision? If the citizens who live in the area DO NOT want it, then why can it be decided to be done despite the wishes of the people who live in the area? WHO is the person who can decide that????

2. WHY does the path HAVE to be 8' wide? The answer tonight was, "SCDOT code is 8' wide." But when I looked it up, it says 5'. Why can't we pave the smallest sidewalk possible, and use the money saved to continue the sidewalk down Shad, Ulmer, to the rec center?

- I have been reviewing the material on the Alljoy project and find that the link you have for the "Meeting 1 Summary and Recommendations" is entirely for Lady's Island Project. Alljoy is not mentioned in these meeting notes. We really need to see the Meeting notes where the Alljoy project was defined and Ulmer/Shad project removed.

Other concerns are the Proposed Alternate 1 and 2 for the Loop/Landing/Beach area.

Proposed Alternate 1: Looks to me like you have created a 3 way stop at Alljoy/Thomas Lawton and Loop road. At this intersection you have created a change in the Pathway from the recommended 8' pathway to a smaller pathway on the remainder of Alljoy and the Loop around the Beach back to Alljoy. A pedestrian/biker will need to cross at this intersection Thomas Lawton and then immediately cross Alljoy to get to the right hand side of the proposed one way street. Very dangerous. It then appears as the pedestrian/biker would need to cross on the first CURVE at the Alljoy and Mullet Street intersection. This is also putting the pedestrian/biker on the same side as the public landing. right at the proposed entrance and exit of vehicle/boat trailers. Again, not a safe situation. This is also an area where houses on that first curve do not have ways to enter/exit their property without backing into oncoming traffic. Now lets get to the Beach area. On the drawings the proposed pathway completely disappears from the drawings. One can only assume that the pedestrian/biker is back in the road way that you have now made the only way that vehicles/trailers can exit the boat landing. So lets see how much more traffic and congestion we can put in this small area. Wait, we still have the question of parking for people at the Beach. These folks will now be backing out in the vehicle/trailer oncoming traffic and running over pedestrian/biker that is now in the road.

Proposed Alternate 2: Again the same issue at the 3 way stop for pedestrian/biker crossing. Same problem on the first Curve at the landing. And same issue with the Beach - no shown walkway.

I find both of the proposed alternates to be lacking in judgement and safety concerns. You profess to have made this project a priority based on safety and you are creating a serious problem.

Now let me address the landing. With Alternate 2 the proposed entrance is at the current entrance to the landing with the exit as it has been. Main concern is the continued parking of vehicles in the landing that do not have trailers, thereby limiting the number of vehicles with trailers that can park. And, again, this brings all the vehicle/trailer traffic on the Loop/Beach road along with people walking and riding bikes.

Alternate 1 would reverse the entrance and exit of the landing. If you look at the aerial photo you are using for the proposals you can clearly see the traffic pattern in the landing. This photo also shows only a few smaller vehicles/trailers. The entrance angle would not allow for the average person to make the necessary turn and back their boat to the water. Normally there are 5-7 vehicles/with trailers parked in the areas facing the Loop road and if a large trailer is sticking out in the middle that faces the Baughman property it will be nearly impossible.

Lets talk about the covered drainage. Where will this be and where will the water go. You mentioned a couple of things that actually raise more questions - retention pond and swales. We need to see proposed plans for either or both of those as part of this project.

I have several other concerns that I am researching and will address later in comments. Let me finish by saying I would like to see these plans reviewed by our Emergency/Fire personnel and strongly believe that the Sheriff's department needs to look at the issues created as you so emphatically stated at the 7/1/21 public meeting with the Alljoy residents, "That is not my problem. It is the Sheriff's Departments problem." Well, Mr. Greenway, where does the Sheriff's budget come from? Tax Payers and I think we do have a say in this. As you and your staff said we will just have to call the Sheriff's office to complain when people are parked on the side of the road and in the pathway. Trust me, we will as we have in the past. Just anticipate the need for additional personnel to be able to monitor all these issues you are creating.

I am not in favor of any formal pathways past Shad Ave. And, still question what happened to the Ulmer/Shad proposal. If Burnt Church was removed, those funds saved could have been added to the Ulmer/Shad. This area desperately needs at a minimum sidewalks. This is where most of the children are in the road.

- I would like to say that the path is a nice idea, but it isn't fit for the Alljoy circle. It is a small area of a wonderful town. This small area needs updating (drainage, beach upkeep), but a bike path would only hurt the area because of the traffic. Traffic is getting out of control as it is and adding path and changing the flow of the boating area is not a good idea. If anything, we need speed bumps to slow down the traffic. I sit on my porch (corner of Alljoy and Lawton) and these cars (some with boat trailers) fly down the road heading around the circle. Bike paths won't help this, it will only crowd the area.
- It's time to take our long-term residents, the true locals, into consideration. This project expansion is ill-advised.
- I am definitely opposed to the AllJoy pathway project. It's totally unnecessary. Leave AllJoy as is. It makes no sense to make major changes down AllJoy Road and around the loop. Bike path, sidewalk or whatever is not needed. It will detract from the natural beauty of the AllJoy community, and it will create more traffic which will lead to the busy, noisy atmosphere we want to avoid. It will open up to more tourists, outsiders, invading our quaint area. Ask AllJoy residents for their suggestions on how to spend the \$750,000 more wisely in order to keep people happy. I feel this money should go towards addressing drainage problems, improving the landing, and refurbishing the beach area. Please leave AllJoy Road and the loop alone.
