5. APPROVAL OF MINUTES - October 10, 2022 & November 7, 2022 Natural Resource Committee Minutes

Natural Resources Committee Beaufort County, SC

This meeting was held in person at the County Council Chambers, 100 Ribaut Road, Beaufort, and virtually through Zoom.

**Monday, October 10, 2022
3:00 PM**

MINUTES

Watch the video stream available on the County's Website to hear the whole discussion or presentation on a specific topic or the complete meeting. <https://beaufortcountysc.new.swagit.com/videos/186243>

1. CALL TO ORDER

Committee Chair Howard called the meeting to order at or around 3:05 PM.

PRESENT

Committee Chair Alice Howard
Committee Vice-Chair Gerald Dawson
Council Member D. Paul Sommerville
Council Member Stu Rodman
Council Member York Glover
Council Member Chris Hervocho
Council Member Mark Lawson
Council Member Lawrence McElynn
Council Member Logan Cunningham

ABSENT

Council Member Joseph F. Passiment
Council Member Brian Flewelling

2. PLEDGE OF ALLEGIANCE

Committee Chair Howard led the Pledge of Allegiance.

3. FOIA

Committee Chair Howard noted that public notification of this meeting has been published, posted, and distributed in compliance with the South Carolina Freedom of Information Act.

4. APPROVAL OF AGENDA

Motion: It was moved by Council Member McElynn, seconded by Council Member Dawson, to approve the agenda.

The Vote - The motion was approved without objection.

5. APPROVAL OF MINUTES

Motion: It was moved by Council Member McElynn, seconded by Council Member Cunningham, to approve the minutes of September 6, 2022.

The Vote - The motion was approved without objection.

6. CITIZEN COMMENTS

No citizen comments.

7. RECOMMEND APPROVAL OF AN ORDINANCE TO AMEND THE ZONING MAP OF BEAUFORT COUNTY TO CHANGE 175 FORDING ISLAND ROAD (PARC ID NUMBER R600 022 000 011A 0000) FROM T2 RURAL TO C5 REGIONAL CENTER MIXED USE

Please watch the video stream available on the County's website to view the entire discussion.

<https://beaufortcountysc.new.swagit.com/videos/186243?ts=181>

Robert Merchant briefed the Committee on the zoning amendment, the property, and the applicant's proposed site use. Mr. Merchant highlighted that the change is compatible with existing land uses.

Council Member Cunningham confirmed that the parcel is near the Honda dealership.

Council Member Dawson and County Administrator Greenway discussed the previous decision to leave a portion designated as T2 Rural.

Council Member Sommerville and Mr. Merchant discussed whether the property is contiguous and possible annexation into Bluffton.

Motion: It was moved by Council Member Dawson, seconded by Council Member Rodman, to recommend approval of an ordinance to amend the zoning map of Beaufort County to change 175 Fording Island Road (Parcel ID Number R600 022 000 011A 0000) from T2 Rural to C5 Regional Center Mixed Use and to send this back to the Planning Commission to consider the adjacent T2 Rural parcel.

Discussion: Committee Chair Howard and County Administrator Greenway discussed action to be taken at the next Council meeting.

The Vote - The motion was approved without objection.

8. RECOMMEND APPROVAL OF AN ORDINANCE FOR A TEXT AMENDMENT TO THE COMMUNITY DEVELOPMENT CODE (CDC): SECTION 5.11.60 (RIVER BUFFER) TO CLARIFY PENALTIES FOR REMOVING TREES FROM THE RIVER BUFFER WITHOUT APPROPRIATE PERMITS

Mark Davis outlined the text amendment's penalties and the requirement for the removed tree to be planted back in the space before payment into the mitigation bank.

Motion: It was moved by Council Member Rodman, seconded by Council Member Dawson, to recommend approval of an ordinance for a text amendment to the Community Development Code (CDC): Section 5.11.60 (River Buffer) to clarify penalties for removing trees from the river buffer without appropriate permits.

The Vote - The motion was approved without objection.

9. RECOMMEND APPROVAL OF AN ORDINANCE AMENDING THE BEAUFORT COUNTY CODE OF ORDINANCES, CHAPTER 74 – BUILDING AND BUILDING REGULATIONS, SECTION 74-64, ADOPTION OF BUILDING CODES (AMENDS CODE OF ORDINANCES TO ADOPT THE 2021 STATE MANDATED CODE EDITIONS)

Please watch the video stream available on the County's website to view the entire discussion.

<https://beaufortcountysc.new.swagit.com/videos/186243?ts=925>

Michael Brantley described additions and modifications to building codes as required by the South Carolina Building Codes Council's adoption of the latest edition of nationally recognized construction codes and appendices.

Committee Chair Howard and Mr. Brantley discussed the application of the code to house renovations and whole-house surge protection.

Motion: It was moved by Council Member Rodman, seconded by Council Member Glover, to recommend approval of an ordinance amending the Beaufort County Code of Ordinances, Chapter 74- Building and Building Regulations, Section 74-64, adoption of building codes (amends Code of Ordinances to adopt the 2021 state-mandated code editions).

The Vote - The motion was approved without objection.

10. RESOLUTION TO APPROVE THE AMENDED OYSTER FACTORY PARK MASTER PLAN (2020 OYSTER FACTORY PARK MASTER PLAN) WITH REDUCED ADDITIONAL PARKING

Please watch the video stream available on the County's website to view the entire discussion.

<https://beaufortcountysc.new.swagit.com/videos/186243?ts=1196>

Stefanie Nagid briefed the Committee on the proposed parking area included in the 2020 Oyster Factory Park Master Plan and recommended limiting the parking area to preserve open space.

Council Member Rodman asked if there would be a barrier to prevent overflow parking in the preserved open space. Mrs. Nagid replied that there is an agreement with the Town of Bluffton allowing the area to be used for overflow parking if needed for an event.

Council Member Glover and Charles Savino discussed the treehouse included in the Master Plan and potential liability concerns.

County Administrator Greenway expressed concerns about building a parking lot on property bought through the Rural and Critical Lands program and having the treehouse built on County property.

Council Member Glover and Mrs. Nagid discussed the number of parking spaces currently and potentially available and the use of those spaces for trailers.

Council Member Glover made a motion to recommend approval of the item. The Committee and Mr. Greenway discussed the postponement of the item to allow time for the Town of Bluffton to produce sketches of the property that reflect the parking change.

Motion to Postpone: It was moved by Council Member Glover, seconded by Council Member Cunningham, to postpone this item until the next Natural Resources Committee meeting.

The Vote - The motion to postpone was approved without objection.

11. RECOMMEND APPROVAL OF THE APPOINTMENT OF STODD MCEWAN TO THE RURAL AND CRITICAL LANDS BOARD FOR A PARTIAL-TERM APPOINTMENT EXPIRING IN FEBRUARY 2023 (DISTRICT 4 SUB FOR DISTRICT 7)

Items 11, 12, and 13 were voted on as a package.

Motion: It was moved by Council Member Glover, seconded by Council Member Dawson, to recommend approval of the appointment of Stodd McEwan to the Rural and Critical Lands Board for a partial-term appointment expiring in February 2023 (District 4 sub for District 7).

The Vote - The motion was approved without objection.

12. RECOMMEND APPROVAL OF THE APPOINTMENT OF LUCIA O'FARRELL TO THE RURAL AND CRITICAL LANDS BOARD AS A REPRESENTATIVE FOR DISTRICT 4 FOR A PARTIAL TERM APPOINTMENT EXPIRING IN FEBRUARY 2023

Motion: It was moved by Council Member Glover, seconded by Council Member Dawson, to recommend approval of the appointment of Lucia O'Farrell to the Rural and Critical Lands Board as a representative for District 4 for a partial term appointment expiring in February 2023.

The Vote - The motion was approved without objection.

13. RECOMMEND APPROVAL OF THE APPOINTMENT OF WENDY ZARA TO THE REGIONAL HOUSING TRUST OVERSIGHT BOARD AS THE REPRESENTATIVE FROM BEAUFORT COUNTY FOR A TWO-YEAR TERM PURSUANT TO THE REGIONAL HOUSING TRUST FUND IGA

Motion: It was moved by Council Member Glover, seconded by Council Member Dawson, to recommend approval of the appointment of Wendy Zara to the Regional Housing Trust Oversight Board as the representative from Beaufort County for a two-year term pursuant to the Regional Housing Trust Fund IGA.

The Vote - The motion was approved without objection.

14. EXECUTIVE SESSION

PURSUANT TO S.C. CODE SECTION 30-4-70(A)(2): DISCUSSION OF NEGOTIATIONS INCIDENT TO PROPOSED CONTRACTUAL ARRANGEMENTS AND PROPOSED SALE OR PURCHASE OF DEVELOPMENT RIGHTS ON REAL PROPERTY KNOWN AS VILLAGE CREEKSIDE PDR

Please watch the video stream available on the County's website to view the entire discussion.

<https://beaufortcountysc.new.swagit.com/videos/186243?ts=2095>

Motion: It was moved by Council Member Rodman, seconded by Council Member Glover, to enter into executive session at or around 3:40 PM.

Discussion: Council Member Glover asked for landowners in attendance to be introduced to the Committee.

County Administrator Greenway stated that the Committee was in jeopardy by going into executive session and that the discussion should be continued in open session.

Kate Schaefer briefed the Committee on the recommendation to purchase development rights to establish a conservation easement.

The Committee and Mrs. Schaefer discussed the number of structures allowed on the property.

Motion: It was moved by Council Member Glover, seconded by Council Member Rodman, to approve the recommendation of development rights purchase on real property known as Village Creekside PDR and forward the item to the County Council.

The Vote - The motion was approved without objection.

Council Member McElynn confirmed that the funding for this project is coming from the Rural and Critical Lands Program.

15. MATTERS ARISING OUT OF EXECUTIVE SESSION

The executive session item was discussed and voted on in an open session.

16. ADJOURNMENT

Adjourned: at or around 3:51 PM

Ratified:

Natural Resources Committee Beaufort County, SC

This meeting was held in person at the County Council Chambers, 100 Ribaut Road, Beaufort, and virtually through Zoom.

Monday, November 07, 2022
3:00 PM

MINUTES

Watch the video stream available on the County's Website to hear the whole discussion or presentation on a specific topic or the complete meeting. <https://beaufortcountysc.new.swagit.com/videos/189087>

1. CALL TO ORDER

Committee Chair Howard called the meeting to order at 3 PM.

PRESENT

Committee Chair Alice Howard
Committee Vice-Chair Gerald Dawson
Council Member Joseph F. Passiment
Council Member D. Paul Sommerville (arrived late)
Council Member York Glover
Council Member Logan Cunningham

ABSENT

Council Member Brian Flewelling
Council Member Stu Rodman
Council Member Chris Hervochon
Council Member Mark Lawson
Council Member Lawrence McElynn

2. PLEDGE OF ALLEGIANCE

Committee Chair Howard led the Pledge of Allegiance.

3. FOIA

Committee Chair Howard noted that public notification of this meeting has been published, posted, and distributed in compliance with the South Carolina Freedom of Information Act.

4. APPROVAL OF AGENDA

Motion: It was moved by Council Member Passiment, seconded by Council Member Glover, to approve the agenda.

The Vote - The motion was approved without objection.

5. CITIZEN COMMENTS

No citizen comments.

6. RECOMMEND APPROVAL OF A RESOLUTION AUTHORIZING THE COUNTY ADMINISTRATOR TO EXECUTE THE NECESSARY DOCUMENTS AND PROVIDE FUNDING FOR THE PURCHASE OF DEVELOPMENT RIGHTS ON TAX MAP SERIAL NUMBER R700 037 000 0131 0000 AND ALSO KNOWN AS LOBECO FARMS

Please watch the video stream available on the County's website to view the entire discussion.

<https://beaufortcountysc.new.swagit.com/videos/189087?ts=92>

Kate Schaefer provided background on the Lobeco Farms property, the due diligence reports, the plan to purchase the development rights to create a conservation easement, and the allowed use of a community garden.

Council Member Dawson commented on the agricultural history of the property and expressed his support for the item.

Motion: It was moved by Council Member Dawson, seconded by Council Member Glover, to recommend approval of a resolution authorizing the County Administrator to execute the necessary documents and provide funding for the purchase of development rights on tax map serial number R700 037 000 0131 0000 and also known as Lobeco Farms.

The Vote - The motion was approved without objection.

7. RECOMMEND APPROVAL OF A RESOLUTION TO THE AMENDED OYSTER FACTORY PARK MASTER PLAN (2022 OYSTER FACTORY PARK MASTER PLAN) AND SITE LAYOUT PLAN

Please watch the video stream available on the County's website to view the entire discussion.

<https://beaufortcountysc.new.swagit.com/videos/189087?ts=486>

Stefanie Nagid updated the Committee on the Town of Bluffton's revised treehouse location and parking layout plan.

Committee Chair Howard confirmed that the potential site of the treehouse had been moved from County-owned property to property co-owned by the County and the Town of Bluffton.

Motion: It was moved by Council Member Cunningham, seconded by Council Member Dawson, to recommend approval of a resolution to the amended Oyster Factory Park Master Plan (2022 Oyster Factory Park Master Plan) and Site Layout Plan.

The Vote - The motion was approved without objection.

8. RECOMMEND APPROVAL OF A RESOLUTION TO UPDATE POLICY 19- ACQUISITION OF STORMWATER DRAINAGE EASEMENTS

Please watch the video stream available on the County's website to view the entire discussion.

<https://beaufortcountysc.new.swagit.com/videos/189087?ts=630>

Neil Desai outlined the update to the stormwater drainage easement policy, which would add some standard operating procedures to make the process more customer friendly.

Motion: It was moved by Council Member Passiment, seconded by Council Member Glover, to recommend approval of a resolution to update Policy 19 - Acquisition of Stormwater Drainage Easements.

The Vote - The motion was approved without objection.

9. RECOMMEND APPROVAL OF THE ARTHUR HORNE PARK STORMWATER PROJECT FUNDING OPPORTUNITY (Fiscal Impact for this project is \$400,000 per FY23 and FY24 Stormwater Utility budget)

Please watch the video stream available on the County's website to view the entire discussion.

<https://beaufortcountysc.new.swagit.com/videos/189087?ts=745>

Neil Desai provided the Committee with background on the funding application through the Natural Resource Conservation Service, the water quality and quantity project, and the multiple jurisdictions covering the project area.

Committee Chair Howard commented on how the project will help address freshwater contamination and public engagement with the park, especially regarding animal observation.

10. RECOMMEND APPROVAL OF THE APPOINTMENTS TO A CULTURAL PROTECTION OVERLAY DISTRICT COMMITTEE

Please watch the video stream available on the County's website to view the entire discussion.

<https://beaufortcountysc.new.swagit.com/videos/189087?ts=862>

Robert Merchant briefed the Committee on the steering committee for the Cultural Protection Overlay District and the recommended nominees for appointment.

Council Member Glover commented on his support for the recommended nominees.

Motion: It was moved by Council Member Glover, seconded by Council Member Passiment, that this committee be formed and the nominations of those on the list of names, including Queen Quet, Jeffrey Gardner, Daryl Orage, Bernice Wright, Philander McDomick, Ethel Sumpter, Elaine Scott, Mac Sanders, and Bob Semmler, be approved.

The Vote - The motion was approved without objection.

11. RECOMMEND APPROVAL OF A REQUEST FOR DUE DILIGENCE ON THE PURCHASE OF DEVELOPMENT RIGHTS (PDR) FOR TMS# R600 038 000 0023 KNOWN AS THE TARVER TRACT

Please watch the video stream available on the County's website to view the entire discussion.

<https://beaufortcountysc.new.swagit.com/videos/189087?ts=1111>

Kate Schaefer discussed the recommendation for due diligence by the Rural and Critical Lands Board, the environmental benefits of land protection on this property, the water quality of the May River watershed, its location relative to other easements, and partner funding that could be available through DOT for property protection along scenic highways.

Committee Chair Howard asked about the cost of due diligence. Mrs. Schaefer replied that the appraisals run between \$5 - 15 thousand and that there needs to be an appraisal by a qualified easement appraiser.

Motion: It was moved by Council Member Glover, seconded by Council Member Passiment, to recommend approval of a request for due diligence on the purchase of development rights (PDR) for TMS# R600 038 000 0023, known as the Tarver Tract.

The Vote - The motion was approved without objection.

12. RECOMMEND APPROVAL OF A RESOLUTION TO ADOPT A COUNTY-OWNED REAL PROPERTY LEASE POLICY (*Fiscal Impact: No immediate fiscal impact. If adopted the County would receive the monthly lease rates moving forward*)

Please watch the video stream available on the County's website to view the entire discussion.

<https://beaufortcountysc.new.swagit.com/videos/189087?ts=1508>

County Administrator Greenway briefed the Committee on efforts to develop written agreements for properties that previously had verbal agreements for leasing and maintenance. Mr. Greenway also

described the template created by staff for establishing property leases and the need for the finalized lease agreements to come back to the Committee for authorization.

Brittany Ward provided an overview of the policy applied to all properties the County will lease out, including the application process, lease rates, deductions, types of properties appraised, and requirements to pay for utilities and maintenance costs. Also outlined were three parts to be included in each lease agreement:

- 1) the term for each tenancy and a renewal clause
- 2) the lease rate, an explanation of the deductions, and a 3% inflation rate increase
- 3) the utility and maintenance clause

Committee Chair Howard and Mrs. Ward discussed having a lease agreement versus an intergovernmental agreement for properties. Mrs. Ward also clarified that this lease policy is for County owned property.

Council Member Glover asked about the agencies subject to the policy and how the policy would be applied. Council Member Glover, Mr. Greenway, and Mrs. Ward discussed the policy's steps for an organization like the Economic Opportunity Commission.

Council Members Dawson, Sommerville, and Cunningham flagged audio issues and said they missed Council Member Glover's questions. Mr. Greenway provided a summary of the discussion.

Council Member Dawson asked staff to provide a list of properties leased by the County. Mr. Dawson and Mrs. Ward also discussed the inflation rate increase.

Motion: It was moved by Council Member Passiment, seconded by Council Member Glover, to recommend approval of a resolution to adopt a County-owned real property lease policy.

The Vote - The motion was approved without objection.

13. ADJOURNMENT

Adjourned: 3:45 PM.

Ratified:

January 5, 2023

To Beaufort County Planning Commissioners & Beaufort County Council:

I am writing you on behalf of the **Gullah/Geechee Sea Island Coalition** and the citizens of the Gullah/Geechee Nation in OPPOSITION to text amendments and/or alterations regarding St. Helena Island, Pine Island, St. Helenaville or other outer lying islands that are currently within the Cultural Protection Overlay District that St. Helena Island is the center of. I have served two terms at different periods of time as the Chair of the Cultural Protection Overlay District and was recently reappointed to the committee that is to deliberate on furthering the protections of historic St. Helena Island via this overlay district designation. Given my decades of work in the formation of the Cultural Protection Overlay District for historic St. Helena Island and due to the countless community meetings that I and previous committee members have held, I rest assured that native Gullah/Geechees of St. Helena Island are NOT seeking to have the Cultural Protection Overlay District altered.

I have been presented with the document that has been submitted to the Beaufort County Planning Office in regard to St. Helenaville and Pine Island. The proposal for a text amendment to allow a PUD, a gated area, a resort, a golf course, and multiple docks should not be considered due to the fact that these are all inappropriate and incompatible for any of the properties that are under the Cultural Protection Overlay District. These islands were placed under the Cultural Protection Overlay District designation in order to prevent the building of resorts, gated areas and golf courses specifically.

Given that Pine Island and St. Helenaville are barrier islands to historic St. Helena Island, they have acted as significant environmental protection to St. Helena. The minimal amount of structures that have existed there and the fact that those areas have been farmland and forested has not posed the threat to the waterways and significant historical artifacts of these locations. These things just as Gullah/Geechee culture are invaluable and irreplaceable. Therefore, Beaufort County should uphold the work of the 2040 Comprehensive Plan and previous comprehensive plans by seeking to protect the environmental and cultural resources of our county. As specifically pointed out in the comprehensive plan and the zoning ordinance, **“The Cultural Protection Overlay zone is established to provide for the long term protection of the culturally significant resources found on St. Helena Island. The CPO zone acknowledges St. Helena’s historic cultural landscape and its importance as a center of Beaufort County’s most notable concentration of Gullah culture.”** A cultural landscape does not end within the boundaries of one island. The cultural landscape expands to the footprint of what is embodied in the vantage point in a single view. The single view of natives of St. Helena Island when pushing Beaufort County to provide measures to protect St. Helena Island included Pine Island, St. Helenaville, Polowana and several other outlying areas that we have seen for generations especially as we navigate the vital waters surrounding historic St. Helena Island proper.

As we currently focus on enhancing the resilience of St. Helena Island, the quality of life considerations must include the protecting and improvement of water quality, the prevention of further coastal erosion and protection of our fisheries. The negative impacts that multiple docks will have on the waterway and the disruption of the ability for Gullah/Geechee traditional navigation of the waterway is not a logical thing to allow.

Our county is already well aware of stormwater and water quality issues existing in the St. Helena Island region. Massive building and golf courses would only put further strain on the natural resources and bring harm to the fishing areas that neighbor St. Helena Island, Pine Island and St. Helenaville. The building request includes all aspects of the very gentrification that the Beaufort County Comprehensive Plan's *"Spotlight: St. Helena"* states *"would result in a greater demand for services and higher property values, making it more difficult and costly to maintain the traditional rural lifestyle on the island....Beaufort County's Gullah/Geechee community makes evident that the region's cultural resources are not just the historic sites, waterways, sacred grounds, farmlands, open spaces, hunting grounds, and the land on which traditional events have occurred. The most important cultural resource is the people themselves."*

I was elected by native Gullah/Geechee people to stand up and speak out for them around the world in order to protect our culture. I recently returned from deliberating with other world leaders about what to do in regard to climate action and one of the decisions that emerged from the United Nations Council of Parties (COP27) meeting was a 'loss and damage fund' that the United States and other nations will contribute to in order to pay restitution in essence to the numerous cultural communities that are suffering due to the environmental degradation that western society has brought to the world. I was able to stand before a global audience and present the Cultural Protection Overlay District as an example of what can be used as a replicable example of how to ensure that cultural heritage is protected, retained and sustained within an environmentally balanced area. The Gullah/Geechee culture is irreplaceable and priceless. Therefore, Beaufort County need not trade it for that which already exist elsewhere in the county. Instead, I call on you on behalf of Gullah/Geechees not only of St. Helena Island, but throughout the Gullah/Geechee Nation and the world to hold on to that which is the most valuable resource-the people! Gullah/Geechee binya and we ain gwine nowhey!

Uphold stopping the growth boundary that the Planning Department established which ends on Lady's Island and was not to continue east beyond that point. DO NOT provide any text amendments or changes to the Cultural Protection Overlay District and do not remove any areas that are under it from it. DO NOT allow any gated areas, massive housing plans nor resorts to be built on Pine Island nor St. Helenaville. Allow the recently seated Cultural Protection Overlay District Committee the opportunity to do the work that has just been assigned to our hands last month in order to further protect historic St. Helena Island and ensure the continued existence of this as the Gullah/Geechee epicenter of not only Beaufort County, but of the South Carolina coast and the Gullah/Geechee Nation. This is part of what makes our county Beautiful Beaufort by the Sea and South Carolina the place of "Beautiful Places and Smiling Faces." Win hunnuh look pun St. Helena, hunnuh hafa kno sey, GAWD dun smile pun we and disya da de land of de anointed Gullah/Geechee.

I look forward to working with you to protect our cultural and environmental treasures in Beaufort County which includes ensuring the continuation of the Gullah/Geechee cultural heritage and legacy.

Peace,

Queen Zuet

Chieftess of the Gullah/Geechee Nation

HENRY McMASTER
GOVERNOR

January 3, 2023

Mr. Ed Pappas
Chairman
Beaufort County Planning Commission
100 Ribaut Road
Beaufort, South Carolina 29902

Dear Mr. Pappas,

I write to you today to share my concerns regarding the development of a luxury golf course and gated community on the historic 498-acre Pine Island Plantation and St. Helenaville property on St. Helena Island.

As you are most certainly aware, on January 5th the Beaufort County Planning Commission will consider an agenda item to amend the St. Helena Island Cultural Protection Overlay District (CPO) to allow for this development.

With South Carolina's population rapidly expanding, debates like this are happening across our state but few threaten the natural beauty, history, and rich culture of our state as this one does.

It is my fear that changes to the CPO, which has protected St. Helena from this type of development since 1999, will signal "open season" to other developers and create a domino effect on St. Helena Island and beyond. It is my opinion that careful consideration of the benefits of development weighed against the certain damage to this pristine, historic, and culturally significant land will yield a decision to leave the CPO untouched.

I ask that you and the commission take these concerns and similar concerns shared by the Gullah/Geechee Sea Island Coalition, the Coastal Conservation League (CCL), the Penn Center and many residents to heart and protect the area from this and similar future developments.

Furthermore, as our state continues to expand, I ask that you and other planning commissions across the state prioritize protecting and conserving our state's uncommon beauty and rich culture from similar projects.

Yours very truly,

Henry McMaster

January 5, 2023

Mr. Ed Pappas
Chairman, Beaufort County Planning Commission
100 Ribaut Road
Beaufort, South Carolina 29902

- Via E-mail -

Dear Chairman Pappas:

Beautiful Saint Helena Island is the most culturally rich sea island on the South Carolina coast. As the South Carolina Senator that represents Saint Helena I wish to express my strong opposition to the proposed amendment to the Cultural Protection Overlay (CPO) that would allow a golf course and gated community on the 498-acre Pine Island Plantation property.

Saint Helena Island is the heart of the Gullah-Geechee Corridor and one of the last Sea Islands that remains relatively untouched by development. This did not happen by chance. The Saint Helena community has fought and defended itself against numerous outside threats to its culture, history and way of life for centuries.

To date, the CPO has protected Saint Helena from suffering the fate of so many other sea islands—gated communities, golf courses and resultant gentrification and marginalization of Gullah-Geechee culture. If the proposed CPO amendment is adopted more intensive development will undoubtedly follow. Hilton Head is similar in size to Saint Helena and has over 20 golf courses. But Saint Helena has taken a different path—a path that values and preserves its rich history, culture and natural resources.

The Gullah-Geechee Nation fights for Saint Helena because Saint Helena has been their historic refuge for well over a century. From Saint Helenaville where freed slaves settled during the Civil War, to the Penn Center where generations received the education they had so long been denied, to historic and bountiful Port Royal Sound that supplies them with sustenance, to Martin Luther King's covert meetings during the Civil Rights Movement—the history and heritage of the Gullah-Geechee culture is inextricably intertwined with Saint Helena. This proposed amendment threatens all of that heritage, for it certainly would not be the last effort to water-down Saint Helena protections.

I attended the Penn Center's 160th anniversary celebration last year where I announced that Representative Michael Rivers and I were able to secure almost \$2 million to preserve the Penn Center and further its important work. Watering down the CPO would be counterproductive to this state appropriation designed to preserve Saint Helena's past and equip its future.

I support the Saint Helena community in their opposition to the proposed CPO amendment. Please heed their concerns and deny this amendment. Preservation of Saint Helena Island and the Gullah-Geechee culture hangs in the balance.

Thank you for your time and service to your community.

Respectfully,

A handwritten signature in black ink, appearing to read "Chip Campsen". The signature is fluid and cursive, with a small "r" above the "i" in "Campsen".

Senator George E. "Chip" Campsen III

CC: Beaufort County Planning Commission
Beaufort County Council
Queen Quet, Chieftess of the Gullah-Geechee Nation
Mr. Bernie Wright, Penn Center, Interim Director

Gullah/Geechee Sea Island Coalition started this petition

Historic **St. Helena Island** (www.SaintHelenaGullahGeechee.com) in Beaufort County, SC in the **Gullah/Geechee Nation** is the largest Sea Island with contiguous Gullah/Geechee culture throughout the island. Not only has the self-determination and self-sufficiency of the native Gullah/Geechees of **St. Helena** been the reason that this rich unique cultural community has not only thrived since the 1500s, but it has survived the onslaught of destructionment via gated areas, resorts and golf courses surrounding the island up and down the southeastern coast. One the major reasons that **St. Helena Island** has remained a unique rural culturally rich Sea Island is because the community fought for the "**Cultural Protection Overlay District (CPO)**" for this island. Beaufort County has upheld the CPO as a zoning law that protects the Gullah/Geechee culture of **St. Helena Island** since this district came into existence in the 1990s to prevent:

- Restricted / Gates Areas

At 7,500 signatures, this petition is more likely to get a reaction from the **decision maker!**

At the beginning of December 2022 a company that seeks to bring destruction to St. Helenaville, Pine Island and St. Helena Island requested to have St. Helenaville and Pine Island removed from the Cultural Protection Overlay District in order to allow them to build a gated resort and golf course that would not only cut off the historic waterway access for the native Gullah/Geechees of St. Helena Island, but would also remove the forested area of this barrier island which has protected larger St. Helena Island for generations. The 498 acres of Pine Island has kept its name because this island is primarily maritime forest that has been hunted and the exterior of the island has been used for subsistence and recreational fishing. Just like St. Helena Island, St. Helenaville and Pine Island have also been places of subsistence due to the farmland and fishing areas that have served as places of harvest for decades. All of this will be lost if the building of 66 homes, 10 docks, a museum (to exploit the artifacts that are being uncovered) and an 18 hole golf course are allowed on this ecologically sensitive island that is already dealing with sea level rise impacts.

You cannot access St. Helenaville and Pine Island without driving through historic St. Helena Island. Take a journey to St. Helena Island via the award winning story map www.SaintHelenaGullahGeechee.com and see why this unique place does not need to be disturbed by being opened up to destruction via a resort, golf course or gated area. This tactic has been used to displace native Gullah/Geechees from other Sea Islands and the southeastern coast numerous times. St. Helena Islanders are standing up to stay on their island once again! We binya! We ain da gwine nowhey!

We are calling on you to stand with the Gullah/Geechees of St. Helena Island to protect our cultural heritage and the sustainability of our island! Tell Beaufort County to keep the St. Helena Island Cultural Protection Overlay District in tact as it is! DO NOT provide any text changes to the CPO! DO NOT allow any map amendments to the CPO District! DO NOT allow any building on St. Helenaville nor Pine Island! Stop the destruction of historic St. Helena, St. Helenaville and Pine Islands in the Gullah/Geechee Nation and continue to protect the human and environmental rights of native Gullah/Geechees!

The Beaufort County Planning Commission will meet to discuss this matter on Thursday, January 5, 2023 at 6 pm before sending this on to Beaufort County Council. The meeting will be held in Beaufort County Council Chambers at the County Administrative Building, 100 Ribaut Rd, Beaufort, SC. Please sign and share this petition and attend and speak out to let Beaufort County know that you support the St. Helena Island Gullah/Geechee Famlee and you want to the St. Helena Cultural Protection Overlay District zoning to remain as it is!

Tenki Tenki fa standin wid de Gullah/Geechee!

To: Members of the Beaufort County Natural Resources Committee,

I represent the Hanna Family, who are the owners of various parcels of real property located within the Community of St. Helena. I urge the Beaufort County Natural Resources Committee to thoughtfully consider and **approve the proposed text amendment to the Cultural Protection Overlay (the "CPO") Zone Standards** because they provide an opportunity to keep the CPO intact while providing additional environmental and cultural resource protections through thoughtful development.

These Owners were recently informed of the restrictions imposed by the CPO and were surprised to learn that constraints on the use of private property were placed on such a large portion of Beaufort County and imposed on private property owners.

These Owners were not informed of these changes to the zoning and land use rights which affect their property when the CPO was implemented in 1999. The family's ownership and use of this property pre-dates the CPO and the family is truly concerned by the overly broad, inconsistent and unclear provisions of the CPO.

Further, the family is confused how such extreme restrictions on the use of private property can be imposed, as these restrictions have an economic impact on the property owners which interfere with the property owners' distinct and reasonable investment-backed expectations. The character of the government action has no clear connection between the restrictions imposed and the purposes of the CPO zone.

For example, the restriction against gated communities, as currently written, implies that even family compounds within the CPO zone may not have perimeter fencing or restricted access. Why not? Safety and security matter to all citizens.

For example, the prohibition against lodging with recreational uses seemingly prohibits the use of private hunting retreats – which have abounded on St. Helena Island for decades.

For example, the prohibition against design features that restrict access to water is confusing and if strictly applied would prevent even single family homesites from fencing their perimeters or preventing trespassing or accessing waterways?

We appreciate and support the worthy goals of the CPO – the long-term protection of culturally significant resources found on St. Helena Island. But, as stated above, we struggle with the current use limitations that have been imposed. We have reviewed the text amendment proposed by County staff and are encouraged by the opportunities it provides Beaufort County and the Community of St. Helena to affect and guide development and to ensure the long-term protection of culturally significant resources found on St. Helena Island. We hope these amendments remain a priority by imposing additional criteria to protect and enhance the culture of the surrounding community and environment and within the CPO zone. Accordingly, we encourage the Beaufort County Natural Resources Committee to **approve the County's proposed text amendment** and protect the purposes of the CPO.

January 9, 2023

J. Thomas Mikell, P.C.

January 9, 2023

Ms. Alice Howard, Chairwoman
 Beaufort County Community Services & Land Use Committee
 100 Ribaut Rd
 Beaufort, SC 29902

Dear Chairwoman Howard and Committee Members,

Thank you for the opportunity to comment on behalf of the Coastal Conservation League regarding Agenda Item 12, a proposed text amendment by staff to Section 3.4.50 Cultural Protection Overlay (CPO) Zone Standards of the Beaufort County Community Development Code (CDC).

We ask you to deny the proposed text amendment because it directly undermines the purpose and intent of the CPO zoning district, it is inconsistent with the Beaufort County 2040 Comprehensive Plan, and it will result in significant adverse impacts to the natural environment, historic cultural resources, and the traditional rural land uses on St. Helena Island as a whole.¹ Notably, the Planning Commission voted unanimously to *not recommend* the proposed text amendment.

In consideration of the discussion by Commission members, staff, and members of the original CPO Committee before the Planning Commission, we instead offer alternative language for your consideration and ask that this matter be referred to the County's recently sat CPO Committee for their consideration, in line with their charge to review and strengthen the CPO's purpose and protections.²

Specifically, we recommend that the CPO be restored to its original form by striking all qualifiers that have been added regarding golf courses, thereby prohibiting all golf courses within the zoning district. Suggested language is redlined in the attachment to this letter, with changes highlighted in yellow.

Under current law, golf courses, resorts and gated communities are prohibited within the CPO zoning district. Staff's proposed "exception" amendment would cancel the overlay's restrictions on large tracts of land and inject uncertainty into the process through transactional negotiations on every parcel that comes up for consideration. Opening St. Helena up to exceptions on 50+ acre tracts would expose *more than 5,613 acres* of land to gentrifying resorts, gated communities, and golf course developments. The St. Helena community made an informed choice to reject this type of development 20 years ago. Just last year, Beaufort County's 2040 Comprehensive Plan recommended strengthening the overlay and its protections.³

The CPO's intent is to prevent gentrification and the loss of Gullah Geechee culture and land, specifically acknowledging "*St. Helena's historic cultural landscape and its importance as a center of*

¹ CDC Section 7.3.30.C.

² Consent Agenda Item 2, Recommendation to Approve Appointments to Cultural Protection Overlay District Committee, Beaufort County Council Meeting November 14, 2022, available at: <https://www.beaufortcountysc.gov/council/council-committee-meetings/index.html>.

³ Envision Beaufort County 2040 Comprehensive Plan, pages 36-38, available at: <https://www.beaufortcountysc.gov/council/comprehensive-plan/index.html>.

Beaufort County's most notable concentration of Gullah culture." (emphasis added).⁴ The CPO explicitly prohibits gated communities, resorts, and golf courses because these particular land uses are directly linked to increasing residential property taxes, which contributes to the loss of Gullah Geechee land ownership, and thereby Gullah Geechee culture. Indeed, this was documented in the findings used to establish the federally designated Gullah Geechee Cultural Heritage Corridor:

The demarcation between planned resort communities and traditional rural agricultural lands is dramatic. Resorts, golf courses, and coastal suburban development on the islands led to steadily increasing property values and skyrocketing taxes. Island economies changed from rural subsistence farming to a service-based economy. Native islanders were often unable to bear the tax burden, and many were forced to leave their homes. Not just Gullah Geechee people but all islanders of modest means, black and white, have been adversely affected by the rising taxes caused by development and population growth.⁵

It is our belief that the alternative language suggested herein fortifies the CPO's intent and that it should be referred to the CPO Committee as well.

Thank you for your consideration.

Respectfully,

Jessie White

Beaufort County Cultural Protection Overlay Original Text Proposal

Division 3.4: - Overlay Zones

3.4.10 - Purpose

This Division provides regulatory standards governing land use and building form within special overlay zones. These zones are typically applied to certain areas of the County where extreme environmental, physical or cultural constraints need increased planning guidelines and consideration.

3.4.20 - Applicability

The requirements of this Division shall apply to all proposed development within the overlay zones, and shall be considered in combination with the standards for specific uses in Article 4 (Specific to Use), if applicable, and the development standards in Article 5 (Supplemental to Zones). If there is a conflict between any standards, the provisions of Article 4 (Specific to Use) control over Article 3 (Specific to Zones) and Article 5 (Supplemental to Zones).

...

3.4.50 - Cultural Protection Overlay (CPO) Zone Standards

- A. **Purpose.** The Cultural Protection Overlay (CPO) zone is established to provide for the long term protection of the culturally significant resources found on St. Helena Island. The CPO zone acknowledges St. Helena's historic cultural landscape and its importance as a center of Beaufort County's most notable concentration of Gullah culture.
- B. **District Boundaries.** The boundaries of the CPO zone on St. Helena Island are depicted on the Beaufort County Official Zoning Map. Where the CPO zone is applied, the permitted uses shall be limited to the base zoning, except where additional limitations are established within the CPO zone.
- C. **Site Design.** Design features that restrict access to water and other culturally significant locations, and franchise design are prohibited.

D. **Use Limitations.** The following specific uses are deemed to be incompatible with the CPO zone; and therefore, are prohibited: unless:

1. The parcel contains fifty (50) acres of highland and

2. A Development Agreement is entered into with Beaufort County that imposes and implements criteria (eg. additional buffers, density reductions, additional open space allocations, dock spacing limitations, infrastructure improvements, local cultural support mechanisms, etc.) that protects and enhances the surrounding community, environment, and the CPO zone; and

3. The Development Agreement shall include terms for the regulation of land uses in order to protect and otherwise improve the PO zone more significantly.¹

Restricted Access (Gated Communities) An intentionally designed, secured bounded area with designated and landscaped perimeters, usually walled or fenced, that are designed to prevent access by non-residents.

Resort This use includes lodging that serves as a destination point for visitors and designed with some combination of recreation uses or natural areas. Typical types of activities and facilities include marinas, beaches, pools, tennis, golf, equestrian, restaurants, shops, and the like. This restriction does not apply to ecotourism or its associated lodging.

Golf Course This use includes all regulation and par three golf courses having nine or more holes.

¹ Strikes Proposed Text Amendment, offered by County staff, but not recommended by Planning Commission on Jan. 6, 2023.

7. BEAUFORT CONSERVATION DISTRICT ANNUAL REPORT - DENISE PARSICK

FY22 Annual Report Highlights

Hugh Hammond Bennett

“Land must be nurtured; not plundered and wasted.” - Hugh Hammond Bennett

Considered the "Father" of soil conservation, Hugh Hammond Bennet was a savior for agriculture.

Noticing that agricultural fields were turning into dry savannahs during the early 1900s, he worked to spread awareness of this soil epidemic.

Fortunately, his hard work paid off, and he became the head of the Soil Conservation Service, that is now known as Natural Resources Conservation Service, NRCS.

Beaufort Soil & Water Conservation District

Serving Beaufort County for over 75 years

Mission

“To help people conserve, maintain, and improve our natural resources and environment by promoting wise land use practices, environmental education, and technical assistance.”

The Conservation Partnership

Working with Federal and State Governments

USDA-NRCS & SC DNR

We are the local county partner for USDA- NRCS, Natural Resources Conservation Service.

USDA-NRCS provides Farm Bill Programs and technical assistance for agriculture producers in Beaufort County.

Our Commission is guided by SC DNR Land Conservation Division and they help with technical & education assistance.

Federal Partnership: USDA-NRCS

Natural Resources Conservation Service

In FY22 USDA-NRCS & Beaufort Conservation District partnership helped Beaufort County landowners by:

- Paying out \$30,588.33 in Cost-Share for Best Management Practices
- Obligating \$11,000 Seasonal High Tunnels
- Applying conservation to roughly 200+ ac of land in Beaufort County
- Helping Landowners apply for EQIP Cost share (Environmental Quality Incentives Program)
- Providing Education & Outreach programs

USDA-NRCS Provides Cost share for Best Management Practices

➤ **Tree Shrub/Site Preparation**
Backpack spray treats areas to support establishment of woody plant species

➤ **Seasonal High Tunnel**
Farmers can begin crops early to extend the growing season

➤ **Pollinator Habitat Management**
Planting cover crops help enrich the soil and prepare it for the next planting season

➤ **Tree Planting**
Preparing land to plant Loblolly Pine

Denise Parsick, Secretary/Treasurer, was reelected in November 2020

From Left to Right: Luke Inabinett; Elected Commissioner, Dannie Lesesne; Elected Commissioner, Alan Ulmer, Jr; Chair, Claude McLeod; Vice-Chair

BSWCD Board of Commissioners

Beaufort Conservation District has 5 Commissioners, 2 are appointed by SC DNR and 3 are elected in November general elections. Commissioners are unpaid volunteers.

Between the five commissioners they have over 120 years of experience!

Conservation Staff Changes

- Shelby Berry retired this past summer. She joined us as a volunteer and then for almost two decades she was our amazing District Manager, juggling all the facets of our programs and conservation education efforts in Beaufort County.
- New Staff

Leslie Meola,
District Manager

Annie Boyd,
Education Coordinator

Hilary Gallop,
Education Specialist

Conservation and Education Outreach

Education: This past year Beaufort SWCD presented 210 classroom, camp, and festival outreach programs reaching over 3,860 students and adults.

Festivals: Beaufort SWCD planned and presented Earth Day at the Port Royal Farmers Market. District staff worked on the Kidfest planning committee as well as setting up an outreach booth and supplying volunteer staff to help with the hospitality booth. Staff and educators also presented at the Soft Shell Crab Festival, and Birthday for the Birds.

Green Steps Schools: Bluffton Middle School participated in the Green Steps Schools programs this past year. They did a great job incorporating Green Activities throughout the year in several classes. Check out the Green Step programs and school websites at <http://greenstepschools.com/>. Contact us or any of the mentors online to assist your school in becoming a Green Steps School!

Green Steps
Bluffton Middle School

Water Fest 2022

OktoPRFest 2021 Bats!

Sharks! KidFest April 2022

Eco Camp 2022

We were thrilled to host our summer **Eco Camp** again after a 2 year break due to COVID-19. With help from Meghan Barkley, **Clemson 4H Extension** Agent, campers learned about **farm conservation**. Classes were led by **SC Forestry Commission, BJWSA, Gullah Cooperative, Linda Peters**; Beekeeper, and our own education specialists focusing on local natural resources. Campers explored topics including, but not limited to, the **water cycle, pollinators, papermaking, water usage, forestry, gardening and growing crops such as cotton, tomatoes, and watermelon**. They finished the week with a Field Day at **Crystal Lake Park** where they participated in fun Agriculture Olympic activities. We greatly appreciated the lunch **Beaufort County Farm Bureau Women's Committee** provided. What a treat!

Together for Beaufort Water Quality Coalition

As a member of the Beaufort County Human Services Alliance, Beaufort SWCD supports *Together for Beaufort County* by leading the T4BC Water Quality Coalition. Beaufort SWCD continues to strengthen this coalition that consists of agencies and organizations involved in promoting, educating, & enforcing clean water in Beaufort County. We meet with **Lowcountry Stormwater Partners** since many members belong to both groups. Each meeting has a special presentation on a relevant topic as well as partner updates and upcoming events.

Local Work Group

The Local Work Group for Beaufort and Jasper Counties met on July 21. This year the focus was on the priority areas of concern and then review of the Environmental Quality Incentives Program (EQIP) ranking questions. Their input into the ranking of resource concerns is critical to the success of these programs in Beaufort and Jasper Counties. The decisions made by the group are a significant factor in determining how Federal funds will be distributed to applicants in the Salkehatchie Watershed under the EQIP.

Other Significant Partnerships

Friends of Cypress Wetlands

Beaufort Conservation District developed an activity book several years ago to highlight the Cypress Wetlands. We have partnered with this new Friends group by editing the activity booklet and having copies printed.

Cypress Wetlands Activity Book

Exploring Wildlife Habitats of the Port Royal Cypress Wetlands

Learn how to be a Habitat Hero!
by Beaufort Soil & Water Conservation District
This activity booklet was made possible by a Youth Environmental Education grant from the Lowcountry Resource Conservation & Development (RC & D)

Friends of Hunting Island

We have worked with FOHI for several years on a variety of projects from education to festivals. We also help distribute FOHI memberships and sell their merchandise.

Port Royal Farmers Market

Beaufort Conservation District has been organizing Earth Days in Beaufort & Port Royal for over 31 years. The Port Royal Farmers Market has become a wonderful venue for Earth Day and hope to have a 2023 event.

KidFest Planning Committee

Beaufort Conservation District has been working on this important committee for over 24 years. Several agencies partner to plan this important educational event for families.

KBCB

Associate Commissioner Carol Murphy has been an active Keep Beaufort County Beautiful member for several years.

Farm Bureau

Farm Bureau partners with us on education projects and festivals. They fund Scholarships and lunch for Eco Camp and always bring great activities to KidFest.

8. RECOMMEND APPROVAL OF A BEAUFORT COUNTY GREEN SPACE PROGRAM APPLICATION PROCESS, GEOGRAPHIC DESIGNATIONS, AND TIMELINE FOR APPOINTING THE GREEN SPACE ADVISORY COMMITTEE AND ESTABLISHING GREEN SPACE PROGRAM

BEAUFORT COUNTY COUNCIL AGENDA ITEM SUMMARY

ITEM TITLE:
Beaufort County Green Space Program – Timeline and Application Process to Appoint Green Space Advisory Committee and Establish Green Space Program
MEETING NAME AND DATE:
Community Services and Land Use Committee Meeting, January 9, 2023
PRESENTER INFORMATION:
Robert Merchant, Planning and Zoning Department Director 20 minutes
ITEM BACKGROUND:
On November 8, 2022, Beaufort County voters approved a referendum which authorized the establishment of the Beaufort County Green Space Program. The purpose of the Green Space Program is to preserve open space, to protect critical and natural resources, and/or to provide land for recreation. It allows for the purchase of development rights and fee simple interest in lands that are threatened by development, which, if it occurs, will have detrimental effects on land use patterns, traffic, public safety, stormwater runoff, water quality or other conservation objectives. The Green Space Program requires the establishment of a Green Space Advisory Committee which will, among other duties, develop the program criteria, application process, and review and recommend to Council lands to be acquired through the program. The Advisory Committee’s membership requirements and duties are established in Beaufort County’s Ordinance No. 2022/39.
PROJECT / ITEM NARRATIVE:
The Community Service and Land Use Committee is being asked to review and recommend to Council the following items: <ul style="list-style-type: none">• An application for membership on the Green Space Advisory Committee;• The definition of state required Committee representation from the north, south, east and west (see attached map);• A timeline for appointing the Green Space Advisory Committee and establishing the program criteria.
FISCAL IMPACT:
Not for this particular action.
STAFF RECOMMENDATIONS TO COUNCIL:
Staff recommends approval
OPTIONS FOR COUNCIL MOTION:
To recommend to Council approval or denial of the following items: <ul style="list-style-type: none">• An application for membership on the Green Space Advisory Committee;• The definition of state required Committee representation from the north, south, east and west (see attached map);• A timeline for appointing the Green Space Advisory Committee and establishing the program criteria.

COUNTY COUNCIL OF BEAUFORT COUNTY

Green Space Advisory Committee Application

Item 8.

On November 8, 2022, Beaufort County voters approved a referendum which authorized the establishment of the Beaufort County Green Space Program in accordance with Section 4-10-1010 et seq. of the Code of Laws of South Carolina. The purpose of the Green Space Program is set forth in detail in Beaufort County’s Ordinance No. 2022/39 and applicants are encouraged to review the ordinance in its entirety. The overall purpose of the program is to preserve open space, to protect critical and natural resources, and/or to provide land for recreation. It allows for the purchase of development rights and fee simple interest in lands that are threatened by development, which, if it occurs, will have detrimental effects on land use patterns, traffic, public safety, stormwater runoff, water quality or other conservation objectives.

The Green Space Program requires the establishment of a Green Space Advisory Committee. The duties and responsibilities of the Advisory Committee are:

- to identify stakeholder groups with extensive knowledge of and experience in land preservation to assist with recommendations to the Advisory Committee on which area and types of properties to target for acquisition;
- to develop and recommend to County Council for adoption program Criteria to guide the identification and prioritization of lands to be acquired through the Green Space Program;
- to develop and recommend to County Council an application process that includes a measurable scoring system based on adopted program criteria;
- to submit to South Carolina Department of Revenue, Council approved program criteria and application process for acknowledgement;
- to review and recommend to Council, lands to be acquired based on the adopted program criteria and scoring system; and
- to perform such other duties as may be assigned by County Council.

Minimum Requirements: To be considered for appointment to the Green Space Advisory Committee, applicants shall possess considerable experience with, and a comprehensive knowledge of, the geography and condition of Beaufort County’s land, the natural environment, land development dynamics, and land preservation and development.

DATE: _____ NAME: _____

OCCUPATION: _____

TELEPHONE: _____ EMAIL: _____

HOME ADDRESS: _____ STATE: _____ ZIP CODE: _____

Are you presently serving on a Board, Agency, Commission, Authority or Committee? Yes No

If “yes”, when does the term expire? _____

If recommended by a Council Member, indicate name and relationship: _____

Which County region do you reside in (see attached map)? North South East West

Please answer the following questions in detail. Provide additional sheets if necessary

1. Please explain why you want to serve on the Green Space Advisory Committee.
2. Please describe your professional background, skills and experience and how they contribute to you being an exceptional candidate to serve on the Committee.
3. What do you envision as the role of the Green Space Advisory Committee?
4. Please describe in detail what your understanding of the most pressing development and preservation issues of the region that could be addressed by the Green Space Program.
5. Please provide a resume and any additional documentation and/or information that you believe could assist the Selection Committee in considering your application.

Applications without a resume cannot be considered. Applications will be held for three (3) years for consideration. All information contained on this application is subject to public disclosure.

9. APPROVAL OF A RESOLUTION TO INCLUDE THE OKATIE REGIONAL PRESERVE IN THE OLD GROWTH FOREST NETWORK PRIVATE FOREST REGISTRY AND ENTER INTO A MEMORANDUM OF AGREEMENT FOR THE PROPERTY TO REMAIN PERPETUALLY UNLOGGED

BEAUFORT COUNTY COUNCIL AGENDA ITEM SUMMARY

ITEM TITLE:
Resolution to include the Okatie Regional Preserve in the Old Growth Forest Network Private Forest Registry and enter into a Memorandum of Agreement for the property to remain perpetually unlogged
MEETING NAME AND DATE:
Community Services and Land Use Committee on January 9, 2023
PRESENTER INFORMATION:
Stefanie M. Nagid, Passive Parks Manager (10 minutes)
ITEM BACKGROUND:
New item for Committee/Council consideration
PROJECT / ITEM NARRATIVE:
The Old Growth Forest Network (OGFN) is the only national network in the U.S. of protected, old-growth, native forests where people of all generations can experience biodiversity and the beauty of nature. OGFN’s goal is to locate and designate at least one protected forest in every county in the United States that can sustain a native old-growth forest. Mr. Michael Murphy, local long-time arborist, contacted Beaufort County to inquire about the County’s interest in including one of the County’s passive park properties in the OGFN registry. After a site visit to Okatie Regional Preserve with Mr. Murphy and the County’s Passive Parks Manager, it was determined that property would be applicable to the OGFN’s criteria and requirements. The 2020 Forest Management Plan for the property recommends it is maintained in its current mature forest conditions, and the 2018 Passive Park Public Use Work Plan recommends future public access and passive recreation in the form of hiking and bicycling trails. Inclusion on the OGFN registry will provide positive forest management exposure for Beaufort County and may be conducive to obtaining future grants for trail development.
FISCAL IMPACT:
No fiscal impact to Beaufort County
STAFF RECOMMENDATIONS TO COUNCIL:
Staff recommends approval of the Resolution
OPTIONS FOR COUNCIL MOTION:
Motion to approve/deny the Resolution as titled. Move forward to County Council for adoption on January 23,, 2023

RESOLUTION 2023/___

A RESOLUTION TO INCLUDE THE OKATIE REGIONAL PRESERVE IN THE OLD GROWTH FOREST NETWORK PRIVATE FOREST REGISTRY AND ENTER INTO A MEMORANDUM OF AGREEMENT FOR THE PROPERTY TO REMAIN PERPITUALLY UNLOGGED

WHEREAS Beaufort County has been a frontrunner among local governments in land preservation since 1999 with the creation of the Rural and Critical Land Preservation Program, and;

WHEREAS Beaufort County acquired 180 acres known as Okatie Regional Preserve in 2004 and 2012 through the Rural and Critical Land Preservation Program for a total of \$11,900,000 for the perpetual protection of the natural resources surrounding the headwaters of the Okatie River, and;

WHEREAS Beaufort County’s 2020 Forest Management Plan recommends maintaining Okatie Regional Preserve in its current mature forest condition, which provides wildlife values of cover, food, and water sources, and;

WHEREAS Beaufort County’s 2018 Passive Park Public Use Work Plan recommends future public access for passive recreation opportunities on Okatie Regional Preserve in the form of hiking and biking trails, and;

WHEREAS Beaufort County recognizes mature forests are best at purifying the air and water and creating fertile soil that create successful conditions for many species of plants, animals and fungi, and;

WHEREAS Beaufort County recognizes that less than 1% of the eastern US forests have remained undisturbed long enough to develop old-growth characteristics.

NOW THEREFORE, BE IT RESOLVED, THAT THE COUNTY COUNCIL OF BEAUFORT COUNTY, SOUTH CAROLINA approves the inclusion of the Okatie Regional Preserve in the Old Growth Forest Network (OGFN) Private Forest Registry and agrees to enter into the OGFN Memorandum of Agreement for the property to remain perpetually unlogged.

Adopted this ___ day of _____, 2023.

COUNTY COUNCIL OF BEAUFORT COUNTY

BY: _____
_____, Chairman

ATTEST:

Sarah Brock, Clerk to Council

Contact: info@oldgrowthforest.net
P.O. Box 21, Easton, MD 21601; 404-585-0329

Congratulations! We are excited that your forest may soon be recognized as part of the national Old-Growth Forest Network.

The Old-Growth Forest Network is the first national organization working specifically to preserve ancient forests for the enjoyment of present and future generations. The Old-Growth Forest Network recognizes the importance of private landowners who have made the commitment to keep their forests unlogged. Often these owners are sacrificing timber income to let their forests mature toward their full potential to provide habitat, beauty, clean water, and clean air. The result will be a national network of treasured forests where all generations can experience native biodiversity and the beauty of nature. Visit the Old-Growth Forest Network at www.oldgrowthforest.net.

The categories marked with * will be included on our website. Please fill out as much of the form as possible and answer with complete statements.

State* (Spelled out please)	South Carolina
County*	Beaufort
Forest* (Name of forest area as you would like it to appear on the website. Specific area first then hyphen and name of general area, if applicable.)	Okatie Regional Preserve - Beaufort County Passive Parks
Description* (Please give a brief description of the forest, including: Total acreage, and how much, if any, is old-growth? Age of oldest trees [known or approximate]? Dominant tree species or forest type? What, if anything, makes this forest special?)	Okatie Regional Preserve is located in southern Beaufort County near the Town of Bluffton. It is 180 acres of pine flatwoods, mixed pine-hardwood forest, bottomland forest, and salt marsh. All but 30 acres appears to be old-growth with no previously known harvesting, although the exact age of the trees is not known by Beaufort County staff. Dominant tree species include loblolly pine, pignut hickory, southern magnolia, eastern red cedar and various oak species including live oak, southern red oak, white oak, and swamp chestnut oak. This forest is special due to the presence of a large grove of white oaks and pockets of slope forest, which is uncommon in Beaufort County.
Protection (Describe how this forest is specifically protected from commercial logging. Please include the name of the written document that states what protections are in place for this forest (e.g. XYZ Management Plan), as well as the actual language quoted from the	Beaufort County acquired the property through the County's Rural and Critical Lands Preservation Program in 2004 and 2012 for the perpetual protection of the headwaters of the Okatie River and for public passive outdoor recreation. In 2020, Beaufort County staff hired a South Carolina certified forester to inventory the property and develop a Forest Management Plan. The Forest Management Plan recommendations are to "maintain the property in its current condition", which "provides wildlife values of cover, food and water sources". Additionally, the Beaufort County Passive Parks Manager created a Passive Parks Public Use Work Plan in 2018 that lists the Okatie Regional Preserve as a future passive park

<p>document. Alternatively, you can simply send us the document itself.)</p>	<p>to be opened to the public for nature-based passive recreation, which will include hiking, bicycling and water access opportunities.</p>
<p>Acres of Protected Forest (Approx. total acres of forest land where documented plans or restrictions specifically prevent commercial logging from occurring. Please include a map of the protected forest with boundaries drawn, if available.)</p>	<p>The entire 180 acres of Okatie Regional Preserve are protected through Beaufort County’s purchase of fee-simple title to the property in 2004 and 2012 for a total of \$11,900,000. The 2020 Forest Management Plan states a management recommendation to “maintain in its current condition”. Please see the attached map of the property in its entirety.</p>
<p>Preservation History (If known, give a brief history of how this forest became protected. Do you know the name of the person who first sought to preserve the area? Any notable naturalists that studied the forest? Historical or other info that helped secure protection of the forest?)</p>	<p>This property was identified by the Beaufort County Rural and Critical Lands Preservation Program as a critical property for the preservation of the headwaters of the Oakie River in order to protect water quality in the river. This is a fast-growing area for residential development in Beaufort County and the protection of this property provides much needed natural habitat and river buffer protection from any future development and the surrounding subdivisions.</p>
<p>Coordinates (Approximate center of the forest. Coordinates should be in this form: 42.4941667 - 72.9364167).</p>	<p>32.286 -80.931</p>

OLD-GROWTH FOREST NETWORK

MEMORANDUM OF AGREEMENT

To include a forest in the Old-Growth Forest Network Private Forest Registry

Recognizing that less than 1% of the eastern US forests, and less than 5% of the western US forests, have remained undisturbed long enough to develop old-growth characteristics.

Recognizing that many species of plants, animals, and fungi are most successful in older forests.

Recognizing that the older forests are best at purifying the air and the water, and creating fertile soil.

Recognizing that most humans consider older forests to be the most beautiful forests, and will travel to see them.

Recognizing that ecotourism is economically beneficial for nearby communities.

Recognizing that all people, but especially the younger generations, need contact with natural areas.

Therefore

The *Old-Growth Forest Network Private Forest Registry* shall be established. Private landowners protecting maturing native forests on their land will be invited to be a part of this network. They shall remain unlogged for all time, allowing old-growth characteristics to develop naturally. Exceptions to the ‘no logging’ requirement are allowed for situations of safety, trail maintenance, non-native tree species, and non-native insect infestations. Additionally, exceptions can include not for profit low-impact restoration activities that promote restoration of native, old-growth forests, outlined by a forest management plan.

For Beaufort County in the State of South Carolina, the forest to be recognized as part of the Private Forest Registry shall be Okatie Regional Preserve, which is owned by Beaufort County

10. RECOMMEND APPROVAL OF AN ORDINANCE TO AMEND THE SOUTHERN LOWCOUNTRY DESIGN MANUAL TO MEET THE MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) PERMIT REQUIREMENTS

BEAUFORT COUNTY COUNCIL AGENDA ITEM SUMMARY

Item 10.

ITEM TITLE:
AN ORDINANCE TO AMEND THE SOUTHERN LOWCOUNTRY DESIGN MANUAL TO MEET THE MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) PERMIT REQUIREMENTS
MEETING NAME AND DATE:
Community Services and Land Use – January 9, 2023
PRESENTER INFORMATION
Jared Fralix, P.E. – ACA Engineering (alternate) Neil Desai, P.E. – Public Works Director (10 min)
ITEM BACKGROUND:
January 11th, 2021 – County Council Approved adoption of Southern Lowcountry Design Manual December 14th, 2022 – Stormwater Utility Board approved proposed updates to the Southern Lowcountry Design Manual.
PROJECT / ITEM NARRATIVE:
As Beaufort County has implemented the Southern Lowcountry Design Manual, staff has recognized the need for updates to be made to stay current as knowledge in our field improves. Updates to this manual also include process improvements for the development community in Beaufort County. The manual updates are consistent with the regional standards for those who have adopted the Southern Lowcountry Design Manual.
FISCAL IMPACT:
There are no fiscal impacts associated with the adoption of the Southern Lowcountry Design Manual updates.
STAFF RECOMMENDATIONS TO COUNCIL:
Staff recommends approval of the proposed Southern Lowcountry Design Manual updates.
OPTIONS FOR COUNCIL MOTION:
Motion to approve/deny the adoption of the proposed Southern Lowcountry Design Manual updates. (Next Step – Upon approval, send to County Council for First Reading)

AN ORDINANCE TO AMEND THE SOUTHERN LOWCOUNTRY DESIGN MANUAL TO MEET THE MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) PERMIT REQUIREMENTS

WHEREAS, Act 283 of 1975, The Home Rule Act, vested Beaufort County Council with the independent authority to control all acts and powers of local governmental authority that are not expressly prohibited by South Carolina law; and

WHEREAS, Chapter 99, Article II, “Stormwater Management Utility” was adopted on August 27, 2001 and was modified by ordinance on August 22, 2005, September 28, 2015 and September 26, 2016; and

WHEREAS, Stormwater Management Utility was established for the purpose of managing, acquiring, constructing, protecting, operating, maintaining, enhancing, controlling, and regulating the use of stormwater drainage systems in the county; and

WHEREAS, pursuant to the requirements mandated by the Municipal Separate Storm Sewer System (MS4) permit issued by the South Carolina Department of Health and Environmental Control (DHEC) on December 1, 2015, Beaufort County is required to adopt standards related to Stormwater management and create a regulatory framework to enforce the same; and

WHEREAS, County Council adopted the Southern Lowcountry Design Manual on January 11th, 2021 (2021/01) as the source of the technical stormwater standards used in the development of Stormwater Plans; and

WHEREAS, County Council desires to adopt the updates to the Southern Lowcountry Design Manual as set forth in Exhibit A.

NOW THEREFORE, BE IT RESOLVED, THAT BEAUFORT COUNTY COUNCIL, in a meeting duly assembled, does hereby adopt and implement Southern Lowcountry Design Manual text amendments as set forth In Exhibit A.

ADOPTED, this ___ day of _____, 2023.

COUNTY COUNCIL OF BEAUFORT COUNTY

BY: _____
Joseph Passiment, Chairman

ATTEST:

Sarah Brock, Clerk to Council

Southern Lowcountry Design Manual Technical Subcommittee

Manual Edits – Third Draft – October 25, 2022

Clarify as-builts must be submitted prior to final inspection under Chapter 2.3.2.

In 2.3.2 Final Inspection:

Final Inspection. The applicant is required to contact Beaufort County and the professional engineer responsible for certifying the as-built SWMP to schedule a final inspection one week prior to the completion of a BMP construction to schedule a final inspection of the BMP. The professional engineer responsible for certifying the as-built SWMP shall provide an inspection report and punch-list items to be performed by applicant to Beaufort County. Upon owner/applicant request and Town of Bluffton receipt of Final Inspection report and punch list from the professional engineer responsible for certifying the as-built SWMP Beaufort County will conduct a final inspection to review project work, punch list and determine if any additional punch list items are required to be performed. **As-builts, all requisite paperwork, and close out materials must be submitted to and approved by Beaufort County for final approval. Final approval of the BMP will not be issued until As-builts are submitted and approved by Beaufort County and all requisite paperwork and close-out materials have been submitted to and approved by Beaufort County.**

Revise to change Final Construction to Notice of Termination for inspection reports.

2.3.3 Final Construction Notice of Termination (NOT) Inspection Reports (change to NOT vs. Final to not confuse with final BMP inspections)

Upon notification of the applicant, Beaufort County will conduct an **final NOT** inspection to determine if the complete work is constructed in accordance with approved plans and the intent of this Manual and the Unified Development Ordinance. Within 21 days of **the final inspection construction site completion**, the applicant must submit an as-built package, as required by the Design Manual and/or As-built submittal checklist, as may be provided by Beaufort County. The As-Built submittal must be certified by a registered professional engineer licensed in the State of South Carolina. For a project consisting entirely of work in the PROW, the submission of a Record Drawing certified by an officer of the project contracting company is acceptable if it details the as-built construction of the BMPs, related stormwater infrastructure, and land covers.

A registered professional engineer licensed in South Carolina is required to certify as-built SWMPs and state that “all activities including clearing, grading, site stabilization, the preservation or creation of pervious land cover, the construction of drainage conveyance systems, the construction of BMPs, and all other stormwater-related components of the project were accomplished in strict accordance with the approved SWMP and specifications. Furthermore, to the best of my knowledge and belief this As-Built truly represents existing field conditions including but not limited to sizes, diameters, dimensions, horizontal location, line and

grade, and elevation". As stated in Section 2.2.2 Resubmission of Stormwater Management Plans, all plan changes are subject to Beaufort County approval. The as-built certification must be on the original SWMP.

Upon completion, these plans will be submitted to Beaufort County for processing. The estimated time for processing will be two weeks (10 working days), after which the plans will be returned to the engineer. Beaufort County will provide the applicant with written notification of the **final NOT** inspection results.

2.4.33.4 Post-Construction BMP Inspection for Preventative Maintenance

Add statement on certification section of checklist that makes submitters acknowledge that incomplete submittals may be returned without a full review

- Certification Statement will now read "The engineering features of all stormwater best management practices (BMPs), stormwater infrastructure, and land covers (collectively the "Facility") have been designed/examined by me and found to be in conformity with the standard of care applicable to the treatment and disposal of stormwater pollutants. The Facility has been designed in accordance with the specification required under Chapter 99 of the Beaufort County Ordinance. **Further, I acknowledge that incomplete submittals may be returned without a full review and that new material supplied in response to comments may result in new comments.**"

Add Compliance Calculator Sheets/water quality requirements as an item for final review on Appendix D Design Checklist

- Updated Appendix D attached

10% rule

- Add language as a stand-alone paragraph at the end of Section 3.8 Extreme Flood Requirement: 10% Rule –

Flooding problem areas exist in many locations in the Southern Lowcountry to the point that stormwater controls have become overwhelmed where controls were never adequately designed or installed to control runoff. The ability to maintain a system is also suspected to contribute to some of the frequent flooding. In an effort to relieve existing flooding problems, <insert jurisdiction> requires this additional design criteria during the site permitting process. Acceptable means of determining the hydrology of the study area may include StreamStats (if the drainage area meets the minimum acceptable area required by StreamStats), NRCS (TR-55, TR-20), or any approved hydrology methodology used while in stormwater or drainage design. Drainage areas (utilizing County obtained LIDAR) can be delineated using automated tools found in software packages, GIS,

or by hand. Automated delineated drainage areas must still be reviewed by the plan reviewer for accuracy.

Typically, County obtained LIDAR may be utilized for development of channel contours to be used in the hydraulic model. Using this information, a simplistic HEC-RAS model (or suitable alternative including PCSWMM, XPSWMM, ICPR) can be established to determine the hydraulic performance of the channel. In the event the channel is not reflected in the LIDAR data, near survey grade GPS units can be utilized to collect the general channel alignment, with hand measurements taken periodically to determine channel dimensions. Culverts and bridges dimensions and elevations within the study limits may be obtained using near survey grade GPS locating and measuring the depth from the roadway surface. These measurements can then be converted to an elevation based off the LIDAR elevation of the roadway. Generally speaking, a PLS sealed survey is not needed for this application. If the area includes a FEMA regulated floodway, the FEMA effective model may be utilized where appropriate. However, depending on the magnitude of the impact and the specific conditions of the analysis, additional information and data may be necessary such as collecting PLS field run topography, establishing building elevations and culvert sizes, or investigating specific drainage concerns or complaints may be required. Land use can be determined through recent aerial imagery obtained from the County or by using National Land Cover Database, Zoning Maps, or other data sets if approved by the County.

Additional resources for this exercise may include Coastal Stormwater Supplement to the Georgia Stormwater Management Manual, Spreadsheet for the South Carolina Synthetic Unit Hydrograph Method. Attenuation patterns of other stormwater ponds in the contributing drainage area of the watershed should not be assumed without valid documentation.

Infiltration rates- The black is existing text from the manual and the red represents edits.

4.2.3 - Site Conditions & Physical Feasibility While some BMPs can be applied almost anywhere, others require specific conditions to be most effective. Physical feasibility refers to the physical site conditions necessary to effectively design and install a BMP. Table 4.2 includes the feasibility factors listed below.

- **Contributing Drainage Area (CDA):** Volume of water received by a practice can affect BMP performance. This column indicates the contributing drainage areas that typically apply for each BMP.
- **Slope:** This column describes the influence that site slope can have on the performance of the BMP. It indicates the maximum slope on which the BMP should be installed.
- **Minimum Head:** This column provides an estimate of the minimum amount of elevation difference needed within the BMP, from the inflow to the outflow, to allow for gravity operation.
- **Minimum Depth to Seasonal High Water Table:** This column indicates the minimum distance that should be provided between the bottom of the stormwater management practice and the top of the water table.
- **Soils:** This column describes the influence that the underlying soils (i.e., hydrologic soil groups) can have on the performance of the stormwater management practice.

Infiltration rates modeled in hydrologic and hydraulic computations must be verified by a licensed professional (geotechnical engineer or soil scientist). Maximum infiltration rate modeled in these calculations should be less than or equal to 7 inches per hour for any of the BMPs listed in this chapter.

In 4.3.1 - Soils and Underdrains Soil conditions do not typically constrain the use of bioretention, although they do determine whether an underdrain is needed. Underdrains ~~may be~~ are required if the measured permeability of the underlying soils is ~~less than~~ between 0.3 inches per hour and 1 inch per hour. When designing a bioretention practice, designers must verify soil permeability by using the on-site soil investigation methods provided in Appendix B for Geotechnical Information Requirements for Underground BMPs. Impermeable soils will require an underdrain and may not be suitable for bioretention. ~~For fill soil locations,~~ Geotechnical investigations are required to support modeled infiltration rates and determine if it is necessary to use an impermeable liner and/or underdrain. Modeled permeability must be supported by a geotechnical report.

4.3.4 - Ponding Depth The recommended surface ponding depth is 6 to 12 inches. Minimum surface ponding depth is 3 inches (averaged over the surface area of the BMP). Ponding depths can be increased to a maximum of 18 inches. However, when higher ponding depths are utilized, the design must consider carefully issues such as safety, fencing requirements, aesthetics, the viability and survival of plants, and erosion and scour of side slopes. This is especially true where bioretention areas are built next to sidewalks or other areas where pedestrians or bicyclists travel. Shallower ponding depths (typically 6 to 12 inches) are recommended for streetscape bioretention (B-2), engineered tree boxes (B-3), and stormwater planters (B-4).

The discharge rate of the bioretention area when evaluating the 10- and 25- year, 24-hour storm events should not exceed that of the contributing drainage area with predevelopment slope and CN of 39. Note that utilizing bioretention for peak attenuation for storm events with return periods of greater than 25 years is beyond the scope of this BMP and that bioretention areas should be in sequence with other BMPs as not to be surcharged by flows that disrupt the integrity of the landscaping.

Irrigation Ponds - All mention of irrigation ponds receiving Stormwater Retention Volume (SWRV) credits have been removed and replaced opportunity for cost-savings.

original text in black, edits in red

1. Site Conditions & Physical Feasibility

While some BMPs can be applied almost anywhere, others require specific conditions to be most effective. Physical feasibility refers to the physical site conditions necessary to effectively design and install a BMP. Table 4.2 includes the feasibility factors listed below.

- Contributing Drainage Area (CDA): Volume of water received by a practice can affect BMP performance. This column indicates the contributing drainage areas that typically apply for each BMP.

- **Slope:** This column describes the influence that site slope can have on the performance of the BMP. It indicates the maximum slope on which the BMP should be installed.
- **Minimum Head:** This column provides an estimate of the minimum amount of elevation difference needed within the BMP, from the inflow to the outflow, to allow for gravity operation.
- **Minimum Depth to Seasonal High Water Table:** This column indicates the minimum distance that should be provided between the bottom of the stormwater management practice and the top of the water table.
- **Soils:** This column describes the influence that the underlying soils (i.e., hydrologic soil groups) can have on the performance of the stormwater management practice.

~~Irrigation from ponds is not included as a specific best management practice in this Manual but is included as Rainwater Harvesting (§4.5).~~ Requirements and guidance for irrigation use of retained stormwater have been included in Hydrologic and Hydraulic Analysis (ARC requirements in §3.7.2); ~~Ponds (§4.10);~~ and Rainwater Harvesting Treatment and Management Requirements (Appendix J). ~~The Rainwater Harvesting Calculator in Appendix K will be used to determine the SWRV credit for ponds used for irrigation, and then these ponds are entered in the Compliance Calculator in Appendix H as rainwater harvesting.~~ Instructions for these entries in the Compliance Calculator are included in Appendix G Compliance Calculator Instructions.

In 4.7 under Definition:

~~Rainwater stored in a settling pond may only be used for landscape irrigation. Pond design criteria in Section 4.10 and landscaping criteria of Section 4.7.5 shall be followed.~~

In 4.7.4 under Rainwater Harvesting Storage Volume Calculator:

The design specification provided in this section follows the Rainwater Harvesting Storage Volume Calculator Appendix J1. The spreadsheet uses daily rainfall data from January 1, 2007 to December 31, 2019 to model performance parameters of the cistern under varying CDAs, demands on the system and cistern size.

~~The size of ponds used for irrigation, their irrigation area and characteristics of soil and land use can be entered in the calculator to determine stormwater volume retained.~~ The runoff that reaches the cistern each day is added to the water level that existed in the cistern the previous day, with all of the total demands subtracted on a daily basis. If any overflow is realized, the volume is quantified and recorded. If the cistern runs dry (reaches the cut-off volume level), then the volume in the cistern is fixed at the low level. A summary of the water balance for the system is provided below.

In 4.7.4 under Storage Volume Results:

The Rainwater Harvesting Storage Volume Calculator determines the average daily volume of water in the cistern for a range of cistern sizes. From this value, the available storage volume for the 85th and 95th percentile storm can be calculated; it is simply the difference between the cistern size and the average daily volume. The available storage volume for the selected cistern size should be used as an input to the General Retention Compliance Calculator. ~~If a pond is used for irrigation, stormwater volume is entered in the General Retention Compliance Calculator in the rainwater harvesting Ponds row rather than the stormwater pond row to~~

produce runoff reduction and pollutant removal credit with the other BMPs for the stormwater plan.

1. Ponds

Ponds				
Definition: Stormwater storage practices that consist of a combination of a permanent pool, micropool, or shallow marsh that promote a good environment for gravitational settling, biological uptake, and microbial activity.				
Site Applicability		BMP Performance Summary		
Land Uses	Required Footprint	WQ Improvement: Moderate to High		
<ul style="list-style-type: none"> Urban Suburban Rural 	Medium	TSS ^a	Total N ^a	Bacteria ^a
		80%	30%	60%
		Runoff Reductions		
Construction Costs	Maintenance Burden	Volume		
Moderate	Moderate	Low		
Maintenance Frequency:		SWR _v		
Routine	Non-Routine	0%		
At least annually	Every 5–7 years			
Advantages/Benefits		Disadvantages/Limitation		
<ul style="list-style-type: none"> Moderate to high pollutant removal Can be designed as a multi-functional BMP Cost effective Good for sites with high water table and/or poorly drained soils Wildlife habitat potential High community acceptance when integrated into a development 		<ul style="list-style-type: none"> Requires large amount of flat land (1-3% of CDA) Must be properly designed, installed, and maintained to avoid nuisance problems Routine sediment cleanout may be needed Potential for thermal impacts downstream 		
Components		Design considerations		
<ul style="list-style-type: none"> Conveyance Forebay Ponding area with available storage Micropool Spillway system(s) Liners, as needed 		<ul style="list-style-type: none"> CDA of at least 10 acres and slopes <15% Use CN adjustment factor ARC III for CDA that are irrigated with harvested rainwater Minimum length to width ratio = 3:1 Maximum depth of permanent pool = 8' 3:1 side slopes or flatter around pond perimeter 		

Maintenance Activities	
<ul style="list-style-type: none"> Remove debris from inlet and outlet structures Maintain side slopes/remove invasive vegetation 	<ul style="list-style-type: none"> Monitor sediment accumulation and remove periodically

Credited pollutant load removal

4.12.3 Pond Pretreatment Criteria

Sediment forebays are considered to be an integral design feature to maintain the longevity of all ponds. A forebay must be located at each major inlet to trap sediment and preserve the capacity of the main treatment cell. The following criteria apply to forebay design:

- A major inlet is defined as an individual storm drain inlet pipe or open channel serving at least 10% of the pond's CDA.
- The forebay consists of a separate cell, formed by an acceptable barrier (e.g., an earthen berm, concrete weir, gabion baskets, etc.).
- The forebay should be between 4 and 6 feet deep and must be equipped with a variable width aquatic bench for safety purposes. The aquatic bench should be 4 to 6 feet wide at a depth of 1 to 2 feet below the water surface. Small forebays may require alternate geometry to achieve the goals of pretreatment and safety within a small area.
- The forebay shall be sized to contain 0.1 inches of runoff from the contributing drainage impervious area. The relative size of individual forebays should be proportional to the percentage of the total inflow to the pond.
- The bottom of the forebay may be hardened (e.g., with concrete, asphalt, or grouted riprap) to make sediment removal easier.
- The forebay must be equipped with a metered rod in the center of the pool (as measured lengthwise along the low-flow water travel path) for long-term monitoring of sediment accumulation.
- Exit velocities from the forebay shall be non-erosive or an armored overflow shall be provided. Non-erosive velocities are 4 feet per second for the 2-year event, and 6 feet per second for the 25-year event.
- Direct maintenance access for appropriate equipment shall be provided to each forebay.
- Designers of ponds that are used for irrigation should be mindful of pretreatment provisions that help prevent irrigation system pluggages and operational issues.

MEP Submittals

original text in black, **edits in red**

In Section 3.9 - Maximum Extent Practicable

This evaluation is intended to be evaluated, considered, and presented during the concept review stage of the Stormwater Management Plan for the proposed development.

1. Present a SWMP for the proposed development that meets stormwater retention volume (SWRv), and peak flow requirements for channel and extreme flood protection for the proposed development and identify the reasons that this plan cannot be implemented.
2. Demonstrate why SWRv cannot be achieved by a reduction of impervious and disturbed area and/or increase in green space area on site.
3. Demonstrate how Better Site Design (BSD) has been implemented to the maximum extent practicable or document site restrictions that prevent BSD application.
 1. What efforts have been made to reduce impervious cover in the project limits of disturbance?
 2. **Are What natural assets, such as forests, wetlands, and areas of environmental or archaeological significance, are protected or conserved within the Development? Provide the accumulated acreage of land cover within the development that is protected.**
 3. Is stream restoration considered?
 4. **Are structural and non-structural BMPs used in this project? Provide a list, subject to change, of structural and non-structural BMPs used, the Contributing Drainage Area, the BMP surface area, and the storage volume provided by the individual BMP.**
4. List site restrictions that prevent or otherwise limit effective use of stormwater BMPs.
5. Provide SWRv and Pollutant Load reductions for alternatives analyzed as compared to pollutant load reductions for full SWRv.
6. What site limitations prevent retention of the SWRv or meeting the required peak discharge limits?
7. Is there off-site opportunity and capacity in the same drainage catchment to meet the volume/peak flow and/or SWRv requirements for the site's contributing drainage area(s)?
8. Does the publicly maintained stormwater drainage system have sufficient capacity for the development site's extreme flood peak flow?
9. Develop a cost versus aggregated stormwater retention volume achieved curve for the site's contributing drainage area (e.g. cost vs. % SWRv met). **A minimum of five cost points with various BMP iterations/%SWRv met are necessary for the curve. One of the cost points shall be for 100% of the SWRv.** Provide a minimum of five various BMP iterations with their associated costs and %SWRv met by each BMP iteration. One of the cost points shall be for 100% of the SWRv. If it's available, off-site capacity cost may be included in your evaluation. Identify the inflection point of the cost curve to select the optimal solution where increased cost does not result in increased effectiveness. What is the projected cost to meet the SWRv with filtering BMPs with underdrains and green roofs? What alternatives have been considered to reduce impervious and disturbed area and/or increase green space area on site.
10. The optimum aggregated retention value and BMP selection and size analysis must be submitted as a part of the stormwater management plan for the project.
11. Offsite stormwater volume retention credit or fee-in-lieu documents will be required for project completion.

The MEP submittal must provide documentable evidence of the process the applicant has performed that demonstrates the restrictions to the use and implementation of BMPs to meet the requirements of this Manual in whole or in part.

11. RECOMMEND APPROVAL OF AN ORDINANCE FOR A TEXT AMENDMENT TO THE COMMUNITY DEVELOPMENT CODE (CDC): SECTION 5.11.90.D (PENALTY FOR CLEAR CUTTING PRIOR TO DEVELOPMENT) TO INCREASE THE PENALTIES FOR CLEAR CUTTING PROPERTY AND PROVIDE GUIDANCE ON ACCEPTABLE FORESTRY PRACTICES.

BEAUFORT COUNTY COUNCIL AGENDA ITEM SUMMARY

ITEM TITLE:
TEXT AMENDMENT TO THE COMMUNITY DEVELOPMENT CODE (CDC): SECTION 5.11.90.D (PENALTY FOR CLEAR CUTTING PRIOR TO DEVELOPMENT) TO INCREASE THE PENALTIES FOR CLEAR CUTTING PROPERTY AND PROVIDE GUIDANCE ON ACCEPTABLE FORESTRY PRACTICES.
MEETING NAME AND DATE:
<i>Community Services and Land Use Committee Meeting, January 9, 2023</i>
PRESENTER INFORMATION:
<i>Robert Merchant, AICP, Director, Beaufort County Planning and Zoning (10 minutes needed for item discussion)</i>
ITEM BACKGROUND:
<i>Staff have been reviewing the Community Development Code (CDC) for necessary amendments as a result of the adoption of the 2040 Comprehensive Plan. During our review and at the request of the Planning Commission, staff has drafted amendments related to the clear cutting of property prior to development. At their December 5, 2022 meeting, the Beaufort County Planning Commission voted unanimously to recommend approval of the amendments.</i>
PROJECT / ITEM NARRATIVE:
<i>To achieve the desired results of the Planning Commission while taking into consideration the existing South Carolina State laws regarding the industry of Silviculture, staff has entirely removed the language of Section 5.11.90.D. Staff has replaced this section with a structure separating out the penalties depending on the manner in which the property is clear cut. To meet the requirements of the one-year deferral, the land will require a Forestry Management Plan prepared/approved by a registered South Carolina Forester. If a landowner and/or operator does not have a Forestry Management Plan and proceeds to clear cut the property, a five-year deferral will be imposed. In addition to the five-year deferral the landowner and/or operator will be responsible for planting the site back.</i>
FISCAL IMPACT:
<i>Not applicable.</i>
STAFF RECOMMENDATIONS TO COUNCIL:
<i>Staff recommends approval.</i>
OPTIONS FOR COUNCIL MOTION:
<i>To approve or deny the proposed amendment to the Community Development Code (CDC): Section 5.11.90.D (Penalty for Clear Cutting Prior to Development)</i>

ORDINANCE 2023 /

TEXT AMENDMENT TO THE COMMUNITY DEVELOPMENT CODE (CDC): SECTION 5.11.90.D (PENALTY FOR CLEAR CUTTING PRIOR TO DEVELOPMENT) TO INCREASE THE PENALTIES FOR CLEAR CUTTING PROPERTY AND PROVIDE GUIDANCE ON ACCEPTABLE FORESTRY PRACTICES.

WHEREAS, forestry is an important industry in Beaufort County that allows property owners to responsibly manage their property in a natural state while profiting from its natural resources; and

WHEREAS, Beaufort County supports the forestry industry and has also invested heavily in protecting trees during the development of property; and

WHEREAS, the Community Development Code addresses penalties for clear cutting property with the intention to encourage forestry lands remain in forestry, and

WHEREAS, Section 5.11.90.D currently has a two-year deferral penalty which does not adequately protect forestry and forested lands in Beaufort County from clear cutting with the intention to develop property; and

WHEREAS, the 2040 Comprehensive Plan recommends Beaufort County assess the amount of time a property owner must wait to apply for a development permit after clear cutting a property for development; and

WHEREAS, during the September 8th, 2022 meeting of the Beaufort County Planning Commission, the Commissioners requested staff strengthen the penalties for clear cutting by considering a five-year deferral on development permits.

NOW, THEREFORE be it ordained by County Council in a meeting duly assembled that Section 5.11.90.D is hereby amended as set forth in Exhibit A hereto. Deletions in the existing code are stricken through. Additions are highlighted and underlined.

Adopted this ___ day of _____ 2023.

COUNTY COUNCIL OF BEAUFORT COUNTY

By: _____
Joseph Passiment, Chairman

ATTEST:

Sarah W. Brock, JD, Clerk to Council

Division 5.11 Resource Protection Standards

5.11.90 Forests

- A. **Existing Forest Preservation.** Existing forest types listed below shall be protected in accordance with Table 5.11.90.A:

Zone	Maritime Forest	Upland Forest (Mature)	Upland Forest (Young)
T1, T2	70% minimum	55% minimum	25% minimum
T3, C3, C4, CP	65% minimum	45% minimum	20% minimum
T4, C5, SI	60% minimum	20% minimum	10% minimum

- B. **Mitigation.** Existing forests may be cut over a greater area than permitted in Table 5.11.90.A only if mitigation is provided and the following standards are met:
1. The mitigation is determined by the Director to be necessary due to unique conditions on the site that make it impossible to meet the protection standards due to site size, shape, utilities, or other elements that are unique to the property.
 2. The best forests, in terms of percentage of tree size, tree health, and habitat value, shall be preserved.
 3. The protection level given forests shall not be less than 80 percent of that required in Table 5.11.90.A. Thus, a forest with a protection level of 45 percent could be reduced to 36 percent ($45\% \times .80 = 36\%$).
 4. The land on which the mitigation is to occur shall be on the project site, except that within the T4 district only, where existing lots may be too small to permit on site mitigation, the land on which mitigation is to occur may be off-site, if within an approved mitigation bank area. All land used for mitigation shall be preserved as permanent open space.
 5. Mitigation shall consist of planting 1.25 acres of new woodland of comparable species for every one acre of disturbed forest for which mitigation is required. Planting requirements are shown in Table 5.11.90.B.

Plant Type	Quantity Per Acre	Size
Maritime Forest		
Canopy Tree	25	2 ½-in. caliper
Understory Tree	50	1 ½-in. caliper
Shrubs	325	3-gallon pot
Upland Forest		
Canopy Tree	15	2 ½-in. caliper
Pine	25	8-foot height
Understory Tree	50	1 ½-in. caliper
Shrubs	325	3-gallon pot

- C. **Penalty for Disturbing Protected Forest Areas.** If a protected forest area is damaged or cut down during or after construction, the mitigation shall involve the creation of protected open

space that is 1.25 times the area destroyed. This may result in a loss of buildable area and/or lots. The area shall be replanted at the rate specified in Table 5.11.90.B for the type of forest damaged or cut down.

D. Penalty for Clear Cutting Prior to Development. ~~If a property owner clear cuts all or any portion of his or her property under the claim of good faith forestry practice, and then seeks a development permit for any portion of the property within two years of the clear cut, a rebuttable presumption shall arise that the clear cut was done in anticipation of future development and the permit denied. Any person seeking to rebut the presumption shall have the burden of proving their claim by clear and convincing evidence to the Zoning Board of Appeals.~~ Nothing in this section shall be construed as to prevent the practice of Silviculture for forestry as defined in Section 3.1.70 (Land Use Definitions). Forestry practiced in the County shall be accompanied by a Forestry Management Plan that has been approved by a certified South Carolina Forester. If the landowner and/or operator does not have a Forestry Management Plan, it shall be considered a willful violation of county ordinances. This section will apply to parcels greater than 5 acres. For tree removal on parcels less than 5 acres, see section (Section 5.11.100.D) for penalties.

1. **One Year Deferral.** If a property owner and/or operator clear cuts their property under the claim of forestry practice as described in Section 5.11.90.D, the submittal of an application for a development permit on any portion of the property will be deferred for one year. If the clear cutting operation violates the Forest Management Plan in place, a five year deferral may be applied.
2. **Five Year Deferral.** If a property owner and/or operator clear cuts their property and cannot meet the standards as defined in Section 5.11.90.D (does not have a Forestry Management Plan), an application for a development permit on any portion of the property will be deferred for five years. In addition, mitigation plantings for clear cutting activities will be required as outlined in Table 5.11.90.B (Forest Mitigation Planting Requirements). For the purposes of this section, clear cutting is defined as more than twenty-five (25) percent of the area of a parcel(s) acreage being cleared. If less than twenty-five (25) percent is cleared, staff may consider enforcement using Tree Removal standards (Section 5.11.100.D).

MEMORANDUM

TO: Beaufort County Community Services and Land Use Committee

FROM: Beaufort County Planning and Zoning Department

DATE: January 9, 2023

SUBJECT: Proposed Text Amendment to Section 5.11.90.D (Penalty for Clear Cutting Prior to Development)

STAFF REPORT:

A. BACKGROUND:

The recently adopted 2040 Comprehensive Plan recommends Beaufort County assess the amount of time a property owner must wait to apply for a development permit after clear cutting property for development. During the September 8th, 2022 meeting of the Beaufort County Planning Commission, the Commissioners requested staff strengthen the penalties for clear cutting by considering a five-year deferral on development permits. Currently, the existing language in Section 5.11.90.D (Penalty for Clear Cutting Prior to Development) imposes a two-year deferral on property for a development permit. This amendment seeks to implement a recommendation of the Comprehensive Plan by increasing the penalties for clear cutting in Beaufort County while encouraging professional foresters to practice best management practices in Beaufort County.

B. SUMMARY OF PROPOSED REVISIONS:

To achieve the desired results of the Planning Commission while taking into consideration the existing South Carolina State laws regarding the industry of Silviculture, staff has entirely removed the language of Section 5.11.90.D. Staff has replaced this section with a structure separating out the penalties depending on the manner in which the property is clear cut. To meet the requirements of the one-year deferral, the land will require a Forestry Management Plan prepared/approved by a registered South Carolina Forester. If a landowner and/or operator does not have a Forestry Management Plan and proceeds to clear cut the property, a five-year deferral will be imposed. In addition to the five-year deferral the landowner and/or operator will be responsible for planting the site back.

C. STAFF RECOMMENDATION: Staff recommends approval.

D. BEAUFORT COUNTY PLANNING COMMISSION: At the December 5, 2022 meeting of the Beaufort County Planning Commission, the Commission voted unanimously to recommend approval of the proposed text amendments.

E. ATTACHMENTS:

1. Revised Community Development Code Section 5.11.90.D (Penalty for Clear Cutting Prior to Development)
2. South Carolina Code of Laws Title 48 – Environmental Protection and Conservation (Section 48-23-205 Local regulation of development affecting forest land)

Portion of South Carolina Code of Laws Title 48 – Environmental Protection and Conservation

Chapter 23 – Forestry Generally

SECTION 48-23-205. Local regulation of development affecting forest land.

(A) For purposes of this section:

(1) "Development" means any activity, including timber harvesting, that is associated with the conversion of forestland to nonforest or nonagricultural use.

(2) "Forestland" means land supporting a stand or potential stand of trees valuable for timber products, watershed or wildlife protection, recreational uses, or for other purposes.

(3) "Forest management plan" means a document or documents prepared or approved by a forester registered in this State that defines a landowner's forest management objectives and describes specific measures to be taken to achieve those objectives. A management plan shall include silvicultural practices, objectives, and measures to achieve them, that relate to a stand or potential stand of trees that may be utilized for timber products, watershed or wildlife protection, recreational uses, or for other purposes.

(4) "Forestry activity" includes, but is not limited to, timber harvest, site preparation, controlled burning, tree planting, applications of fertilizers, herbicides, pesticides, weed control, animal damage control, fire control, insect and disease control, forest road construction, and any other generally accepted forestry practices.

(B) A county or municipality must not adopt or enforce any ordinance, rule, regulation, resolution, or permit related to forestry activities on forestland that is:

(1) taxed on the basis of its present use value as forestland under Section 12-43-220(d);

(2) managed in accordance with a forest management plan;

(3) certified under the Sustainable Forestry Initiative, the Forest Stewardship Council, the American Forest Foundations Tree Farm System, or any other nationally recognized forest certification system;

(4) subject to a legally binding conservation easement under which the owner limits the right to develop or subdivide the land; or

(5) managed and harvested in accordance with the best management practices established by the State Commission of Forestry pursuant to Section 48-36-30.

(C) This section does not limit, expand, or otherwise alter the authority of a county or municipality to:

(1) regulate activities associated with development, provided that a county or municipality requires a deferral of consideration of an application for a building permit, a site disturbance or subdivision plan, or any other approval for development that if implemented would result in a change from forest land to nonforest or nonagricultural use, the deferral may not exceed a period of up to:

(a) one year after the completion of a timber harvest if the harvest results in the removal of all or substantially all of the trees from the specific area included in a building permit, site disturbance or subdivision plan in item (1), and the removal qualified for an exemption contained in subsection (B); or

(b) five years after the completion of a timber harvest if the harvest results in the removal of all or substantially all of the trees from the specific area included in a building permit, site disturbance or subdivision plan in item (1), and the removal qualified for an exemption contained in subsection (B) for which the permit or approval is sought and the harvest was a wilful violation of the county regulations;

(2) regulate trees pursuant to any act of the General Assembly;

(3) adopt ordinances that are necessary to comply with any federal or state law, regulation, or rule; or

(4) exercise its development permitting, planning, or zoning authority as provided by law.

(D) A person whose application for a building permit, a site disturbance or subdivision plan, or any other approval for development is deferred pursuant to the provisions contained in this section may appeal the decision to the appropriate governmental authority.

HISTORY: 2009 Act No. 48, Section 1, eff June 2, 2009.

12. RECOMMEND APPROVAL OF AN ORDINANCE FOR A TEXT AMENDMENT TO THE COMMUNITY DEVELOPMENT CODE (CDC): SECTION 3.4.50 CULTURAL PROTECTION OVERLAY (CPO) ZONE STANDARDS

Recommended to postpone on January 9, 2022.

MEMORANDUM

TO: Alice Howard, Chair, Community Services and Land Use Committee, Beaufort County Council

DATE: January 9, 2023

SUBJECT: Text Amendment to the Community Development Code (CDC) Section 3.4.50 - Cultural Protection Overlay (CPO) Zone Standards

A. BACKGROUND: The Cultural Protection Overlay (CPO) District was originally adopted in April 1999 when the County adopted the Zoning and Development Standards Ordinance (ZDSO). The CPO district was formulated through a community-based process. When the County adopted the Community Development Code (CDC) in 2014, the CPO district remained in the new code and remains intact.

Purpose of CPO District: The CPO District applies to the entirety of St. Helena Island with the exception of Dataw, Harbor, Hunting and Fripp Islands. The purpose of the CPO District is defined in the CDC as follows: “The Cultural Protection Overlay (CPO) zone is established to provide for the long term protection of the culturally significant resources found on St. Helena Island. The CPO zone acknowledges St. Helena’s historic cultural landscape and its importance as a center of Beaufort County’s most notable concentration of Gullah culture.”

Summary of CPO District: The CPO District basically provides additional development and use restrictions that may otherwise be permitted in the underlying zoning district. These restrictions include developments “that restrict access to water and other culturally significant locations, and franchise design.” The district also specifically prohibits the following uses:

- Restricted Access (Gated Communities)
- Resorts
- Golf Courses (defined as having nine or more holes)

B. SUMMARY OF PROPOSED REVISIONS: The County Administration is proposing to make revisions the CPO district. The purpose of the revisions would be to give greater flexibility for developments to utilize previously prohibited uses in the CPO district if the developer takes measures to further protect and otherwise enhance the purpose of the CPO district. The revised language would apply to parcels containing a minimum of 50 acres of high ground. It would require a developer to enter into a Development Agreement with County Council and use the development agreement process to provide additional restrictions and protections “that protect and enhance the surrounding community, environment, and the CPO”. The attached additions to the language of the Cultural Protection Overlay District are underlined and highlighted on the next page.

**TEXT AMENDMENT TO THE COMMUNITY DEVELOPMENT CODE (CDC):
SECTION 3.4.50 CULTURAL PROTECTION OVERLAY (CPO) ZONE STANDARDS**

WHEREAS, the Community Development Code in Section 3.4.50 is established to provide for the long term protection of the culturally significant resources found on St. Helena Island; and

WHEREAS, the County Administration has determined that amendments to Section 3.4.50 are necessary to ensure the legal defensibility of the Cultural Protection Overlay Zone;

NOW, THEREFORE be it ordained by County Council in meeting duly assembled that Section 3.4.50 of the Community Development Code is hereby amended as set forth in Exhibit A. Deletions in the existing code are stricken through. Additions are highlighted and underlined.

Adopted this ____ day of _____ 2023.

COUNTY COUNCIL OF BEAUFORT COUNTY

By: _____
Joseph Passiment, Chairman

ATTEST:

Sarah W. Brock, JD, Clerk to Council

.4.50 Cultural Protection Overlay (CPO) Zone Standards

A. Purpose

The Cultural Protection Overlay (CPO) zone is established to provide for the long term protection of the culturally significant resources found on St. Helena Island. The CPO zone acknowledges St. Helena's historic cultural landscape and its importance as a center of Beaufort County's most notable concentration of Gullah culture.

B. District Boundaries

The boundaries of the CPO zone on St. Helena Island are depicted on the Beaufort County Official Zoning Map. Where the CPO zone is applied, the permitted uses shall be limited to the base zoning, except where additional limitations are established within the CPO zone.

C. Site Design

Design features that restrict access to water and other culturally significant locations, and franchise design are prohibited.

D. Use Limitations

The following specific uses are deemed to be incompatible with the CPO zone; and therefore, are prohibited unless:

1. The parcel contains fifty (50) acres of highland and,
2. A Development Agreement is approved by the Beaufort County Council that imposes and implements criteria (e.g., additional buffers, density reductions, additional open space allocations, dock spacing limitations, infrastructure improvements, local cultural support mechanisms, etc.) that protect and enhance the surrounding community, environment, and the CPO and
3. Limitations for the use that are designed to protect and otherwise improve the CPO more significantly.

Restricted Access (Gated Communities).

An intentionally designed, secured bounded area with designated and landscaped perimeters, usually walled or fenced, that are designed to prevent access by non-residents.

Resort

This use includes lodging that serves as a destination point for visitors and designed with some combination of recreation uses or natural areas. Typical types of activities and facilities include marinas, beaches, pools, tennis, golf, equestrian, restaurants, shops, and the like. *This restriction does not apply to ecotourism or its associated lodging.*

Golf Course

This use includes regulation and par three golf courses having nine or more holes.

3.4.50 Cultural Protection Overlay (CPO) Zone Standards

A. Purpose

The Cultural Protection Overlay (CPO) zone is established to provide for the long term protection of the culturally significant resources found on St. Helena Island. The CPO zone acknowledges St. Helena's historic cultural landscape and its importance as a center of Beaufort County's most notable concentration of Gullah culture.

B. District Boundaries

The boundaries of the CPO zone on St. Helena Island are depicted on the Beaufort County Official Zoning Map.

Where the CPO zone is applied, the permitted uses shall

be limited to the base zoning, except where additional

limitations are established within the CPO zone.

C. Site Design

Design features that restrict access to water and other culturally significant locations, and franchise design are prohibited.

D. Use Limitations

The following specific uses are deemed to be incompatible with the CPO zone; and therefore, are prohibited unless:

1. The parcel contains fifty (50) acres of highland; and

2. A Development Agreement is entered into with Beaufort County that imposes and implements criteria (e.g. additional buffers, density reductions, additional open space allocations, dock spacing limitations, infrastructure improvements, local cultural support mechanisms, etc.) that protects and enhances the surrounding community, environment, and the CPO zone; and

3. The Development Agreement shall include terms for the regulation of land uses in order to protect and otherwise improve the CPO zone more significantly.

Restricted Access (Gated Communities).

An intentionally designed, secured bounded area with designated and landscaped perimeters, usually walled or fenced, that are designed to prevent access by non-residents.

Resort

This use includes lodging that serves as a destination point for visitors and designed with some combination of recreation uses or natural areas. Typical types of activities and facilities include marinas, beaches, pools, tennis, golf, equestrian, restaurants, shops, and the like. *This restriction does not apply to ecotourism or its associated lodging.*

Golf Course

This use includes regulation and par three golf courses having nine or more holes.

13. FIRST READING OF AN ORDINANCE FOR A TEXT AMENDMENT TO THE COMMUNITY DEVELOPMENT CODE (CDC): APPENDIX C.2 (ROBERT SMALLS PARKWAY (SC 170)) TO UPDATE ACCESS MANAGEMENT STANDARDS.

BEAUFORT COUNTY COUNCIL AGENDA ITEM SUMMARY

ITEM TITLE:
TEXT AMENDMENT TO THE COMMUNITY DEVELOPMENT CODE (CDC): APPENDIX C.2 (ROBERT SMALLS PARKWAY (SC 170)) TO UPDATE ACCESS MANAGEMENT STANDARDS.
MEETING NAME AND DATE:
<i>Community Services and Land Use Committee Meeting, January 9, 2023</i>
PRESENTER INFORMATION:
<i>Eric Claussen, PE, Engineering Director (10 minutes needed for item discussion)</i>
ITEM BACKGROUND:
<i>The Transportation Engineering Department has contracted Andrews Engineering to analyze Robert Smalls Parkway (SC 170) & Broad River Boulevard from Castle Rock Road to W.K. Alston Drive to update the County's access management standards for these roadways. Andrews Engineering's analysis revealed necessary updates to the access management plan for this corridor based upon review of existing and planned developments, existing and future traffic patterns, and crash history along with the 2040 traffic projects from the Lowcountry Council of Governments (LCOG) Regional Travel Demand Model prepared by CDM Smith.</i>
<i>At their December 5, 2022 meeting, the Beaufort County Planning Commission voted unanimously to recommend approval of the amendments.</i>
PROJECT / ITEM NARRATIVE:
<i>The review of Robert Smalls Parkway and Broad River Boulevard revealed a need to update the future signal location recommendations to include 2 new intersection locations:</i> <ul style="list-style-type: none"><i>• SC 170 at Goethe Hill Road</i><i>• Broad River Boulevard at Joe Frazier Road</i> <i>Additionally, the amendments will update the distances in feet between each planned or existing signalized intersection from 1,900 feet to 2,640 feet.</i>
FISCAL IMPACT:
<i>Not applicable.</i>
STAFF RECOMMENDATIONS TO COUNCIL:
<i>Staff recommends approval.</i>
OPTIONS FOR COUNCIL MOTION:
<i>To approve or deny the proposed amendment to the Community Development Code (CDC): Appendix C.2 Robert Smalls Parkway (SC 170) Access Management Plan</i>

ORDINANCE 2023 /

**TEXT AMENDMENT TO THE COMMUNITY DEVELOPMENT CODE (CDC):
APPENDIX C.2 (ROBERT SMALLS PARKWAY (SC 170)) TO UPDATE ACCESS
MANAGEMENT STANDARDS.**

WHEREAS, Beaufort County’s Community Development Code currently recommends spacing for traffic signals and access breaks along the SC 170 corridor; and

WHEREAS, Beaufort County’s Engineering Department contracted with Andrews Engineering to provide a corridor and access management plan for segments of SC 170 between Castle Rock Road and W. K. Alston Drive as well as Broad River Boulevard between Joe Frazier Road and W. K. Alston Drive; and

WHEREAS, the corridor study assessed existing and proposed developments, traffic patterns at the intersections and segments, crash history, and projected 2040 traffic volumes from LCOG’s regional travel demand model; and

WHEREAS, the corridor study recommended mobility and safety improvements to manage the projected increase in traffic between SC170 and Broad River Boulevard.

NOW, THEREFORE be it ordained by County Council in a meeting duly assembled that Appendix C.2 Robert Smalls Parkway (SC 170) Access Management Plan is hereby amended as set forth in Exhibit A hereto. Deletions in the existing code are stricken through. Additions are highlighted and underlined.

Adopted this ____ day of _____ 2023.

COUNTY COUNCIL OF BEAUFORT COUNTY

By: _____
Joseph Passiment, Chairman

ATTEST:

Sarah W. Brock, JD, Clerk to Council

Division C.2: - Robert Smalls Parkway (SC 170) & Broad River Boulevard

C.2.10 - Application

The following access management standards apply to all properties within Beaufort County's jurisdiction on Robert Smalls Parkway (SC 170) between the intersection of SC 280 (Parris Island Gateway) and the Broad River Bridge to include **Broad River Boulevard**.

C.2.20 - Signal Spacing

The minimum spacing between full signalized access is 3,200 feet. The minimum spacing between directional signalized access is **approximately 4,900 feet 2,640 feet**.

C.2.30 - Future Signal Locations

The specific signalized access locations shall correspond to the Future Signal Locations provided in **the Figure 1 in Appendix 10-B: Robert Smalls Parkway Joint Corridor Plan of the Beaufort County Comprehensive Plan Corridor Review of SC 170 & Broad River Boulevard (2022)**. If a modification of the defined signal locations is desired to meet the demands of a specific development, the following conditions shall be satisfied:

- A. The modified location must meet the warrants for signalization with the proposed development as defined in the Manual on Uniform Traffic Control Devices (MUTCD) by the Federal Highway Administration (FHWA) with the analysis and specific application of traffic signal warrants to be approved by the Beaufort County Traffic Engineer.
- B. The modified location must provide adequate spacing (as defined in the spacing standards indicated above) from existing traffic signals, programmed traffic signals, and future signalization of primary roadway intersections, including:
 1. SC 170 at SC 280. **(Existing)**
 2. SC 170 at W.K. Alston. **(Existing)**
 3. **SC 170 at Goethe Hill Road. (Future)**
 - ~~3.~~ **4. SC 170 at Castle Rock Road. (Existing)**
 - ~~4.~~ **5. SC 170 at Broad River Road. (Existing)**
 - ~~5.~~ **6. SC 170 at SC 802. (Existing)**
 - 7. Broad River Boulevard at Joe Frazier Road. (Existing)**
 - 8. Broad River Boulevard at W.K. Alston. (Future)**
- C. The modified location shall not have an adverse impact on existing or future LOS based on comparative analysis of conditions with the recommended signal locations indicated in **the Appendix I: Robert Smalls Parkway Joint Corridor Plan of the Beaufort County Comprehensive Plan above Corridor Review of SC 170 & Broad River Boulevard (2022)**. The developer shall be required to conduct LOS and signal system progression analysis to demonstrate compatibility of the proposed signal location with operation of the remainder of the signal system.

C.2.40 - Driveways

- A. **Spacing:** A minimum of one point of access to a property will be allowed. Additional access points above the one permitted may be granted provided the continuous roadway frontage of the property exceeds 500 feet. Single parcel access is strongly discouraged. Joint access driveways are encouraged for small parcels to adhere to the 500-foot spacing. Driveways should be limited to the number needed to provide adequate access to a property. Factors such as alignment with opposing driveways and minimum spacing requirements will have a bearing on the location and number of driveways approved. Refer to Table B.2.40.A.

Table C.2.40.A: Maximum Number of Driveways Per Frontage

Length of Frontage	Maximum Number of Driveways
500 feet or less	1
500+ to 1,000 feet	2
1,000+ to 1,500 feet	3
1,500+ to 2,000 feet	4
More than 2,000 feet	4 plus 1 per each additional 500 feet of frontage

For parcels with frontage both on Robert Smalls Parkway and a secondary road, a minimum spacing of 500 feet shall be maintained along Robert Smalls Parkway between a driveway and a signalized intersection. Within 500 feet of signalized intersections, access shall be off a secondary road. Driveway spacing shall be measured from the closest edge of pavement to the next closest edge of pavement.

- B. **Driveway design:** Driveway width and turning radii shall conform to SCDOT's Access and Roadside Management Standards.
- C. **Driveway linkages:** See Article VI, Section 6.3.10.D for driveway linkage requirements for non-residential development.
- D. **Retrofitting existing driveways:** As changes are made to previously developed property or to the roadway, driveways will be evaluated for the need to be relocated, consolidated, or eliminated if they do not meet the access management standards.

C.2.50 - Deceleration Lanes

Deceleration lanes shall be required when the volume of traffic turning at a site is high enough in relation to the through traffic to constitute the potential for disruption as indicated in the traffic impact analysis.

C.2.60 - Traffic Impact Analysis

A traffic impact analysis study shall be provided for proposed developments along the Robert Smalls Parkway corridor anticipated to generate at least 50 peak-hour trips. The procedures and guidelines for a traffic impact analysis as set forth in Article 6, Division 6.3 shall be followed.

MEMORANDUM

To: Beaufort County Community Services and Land Use Committee

From: Eric Claussen, PE, Engineering Director

Subject: Text Amendments to the Community Development Code (CDC): Appendix C.2 Robert Smalls Parkway (SC 170) Access Management Plan

Date: January 9, 2023

A. BACKGROUND: The Transportation Engineering Department has contracted Andrews Engineering to analyze Robert Smalls Parkway (SC 170) & Broad River Boulevard from Castle Rock Road to W.K. Alston Drive to update the County's access management standards for these roadways. Andrews Engineering's analysis revealed necessary updates to the access management plan for this corridor based upon review of existing and planned developments, existing and future traffic patterns, and crash history along with the 2040 traffic projects from the Lowcountry Council of Governments (LCOG) *Regional Travel Demand Model* prepared by CDM Smith.

B. SUMMARY OF PROPOSED AMENDMENTS: The review of Robert Smalls Parkway and Broad River Boulevard revealed a need to update the future signal location recommendations to include 2 new intersection locations:

- SC 170 at Goethe Hill Road
- Broad River Boulevard at Joe Frazier Road

Additionally, the amendments will update the distances in feet between each planned or existing signalized intersection from 1,900 feet to 2,640 feet.

INTRODUCTION

This study has been conducted to assess the transportation system located/serving the Burton area of the City of Beaufort/Beaufort County concentrating on the major arterial of SC 170 between WK Alston Drive and Castle Rock Road and the major collector of Broad River Boulevard between WK Alston Drive and Joe Frazier Road/Colonial Avenue.

The study's main purpose is to define current traffic conditions, review available data for planned development projects and review future 2040 traffic projections from the Lowcountry Council of Governments (LCOG) *Regional Travel Demand Model* prepared by CDM Smith. This compiled information will be used to develop an access management strategy for both SC 170 and to lesser of a degree Broad River Boulevard to plan properly spaced future intersections, traffic signals and a secondary system of roadways/connectivity which will provide for alternative access of future developments.

The preparation of this report has been completed in individual sections outlining the main corridor of SC 170 and secondly the Broad River Boulevard corridor. Within each section, separate intersections which make up the defined study area are also provided. This method will allow individual sections or chapters of the report to be separately utilized for specific interests.

Each section of the report will present free-standing information on the subject intersection/corridor, however the general methodologies utilized in the preparation of the analyses, growth trends, modeling, etc. will be described in this section of the report to avoid redundancy in individual corridor report sections.

STUDY AREA

The study area has been defined as a total of seven intersections within the Planning Area. These intersections are:

SC 170:

1. WK Alston Drive
2. Goethe Hill Road (west)
3. Bridges Prep School Access
4. Castle Rock Road

Broad River Boulevard:

5. WK Alston Drive
6. Jennings Road
7. Joe Frazier Road/Colonial Avenue

Figure 1 (Figures located at end of each respective section) presents the entire study area along SC 170, Broad River Boulevard, Goethe Hill Road, Joe Frazier Road etc. Also shown by this exhibit are the locations of known development projects (to be discussed later in this section) which are either approved or currently in the approval process. **Figure 1** also provides a graphic overview of the known pending developments and the recommendations presented in this study.

EXISTING CONDITIONS

Traffic Volume Data

To determine the existing traffic volume flow patterns within the study area, manual turning movement counts were performed for the above referenced intersections in late August and early September 2021 when schools were in session. This data was collected for a weekday morning (7:00-9:00 AM) and evening (4:00-6:00 PM) peak periods and are turning movement specific. **Figures 2a** and **2b** depict the summarized traffic volume data for the respective AM and PM peak hours for the entire study area. It should be noted that this report concentrates on the peak commute time periods and did not include the Midday School peak-hour. These additional time periods maybe considered in the future as planning continues along these corridors.

In addition to the intersection peak-hour volumes, existing daily two-way traffic volumes in vehicles-per-day (vpd) have been obtained using the SCDOT permanent count program for the 2019 condition which are presented below:

- SC 170 west of WK Alston Drive east of Goethe Hill Road: 17,200 vpd;
- Broad River Boulevard west of WK Alston Drive: 7,200 vpd;
- Joe Frazier Road north of Broad River Boulevard: 8,700 vpd; and
- Colonial Avenue south of Broad River Boulevard: 5,700 vpd.

FUTURE CONDITIONS

Development trends in the study area have been the basis for this analysis/report. Currently, the following four projects are in the preliminary stages of permitting which are located within or in close proximity of the study area:

- Watercrest Apartments: Located along Broad Rover Boulevard east of WK Alston Drive this project plans 528 apartment style units;
- SC 170/WK Alston Commercial Center (Beaufort Station): Located on the south side of SC 170, west of US 21 the commercial center plans general retail, gas/c-store, drive-up coffee shop, and both fast-food and high turnover restaurants totaling 195,300 sf;
- Old Jericho Apartments: Located along the northern segment of Old Jericho Road between SC 170 and US 21 this project plans 96 apartment units; and
- SC 170 Apartments and Medical Office: Located on the north side of SC 170 west of WK Alston Drive this project plans 340 apartment units and 80,000 sf of medical office.

Information of the site-generated traffic for each of these developments has been taken from the respective traffic studies and is presented in the Appendix of this report. **Figures 3a** and **3b** depict the respective AM and PM peak-hour volumes illustrating Existing traffic volumes plus the above respective developments.

Another source to define future traffic conditions has utilized the roadway traffic volumes. LCOG’s *Regional Travel Demand Model Scenario Analyses Report* prepared in June 2016 by CDM Smith has been referenced for the roadway segments of SC 170, Joe Frazier Road, and Broad River Boulevard. Utilizing the projection for the *Future Year of 2040, 80-Percent Build-out* (scenario 2) the following information has been gathered for roadways within the study area:

1. SC 170-Broad River Bridge: 38,481 vpd;
2. Joe Frazier Road- North of Broad River Road: 11,141 vpd; and
3. Broad River Boulevard West of Joe Frazier Road: 10,825 vpd.

EXISTING & KNOWN PROJECTS
PM PEAK HOUR
 SC-170 Access Plan, Burton Area, Beaufort, S.C.

ROBERT SMALLS PARKWAY (SC 170)

This section of Robert Smalls Parkway (SC 170) studied as part of this review is an approximately 1.4-mile section containing the four studied intersections of WK Alston Drive, Goethe Hill Road (east and west legs), Bridges Prep School access and Castle Rock Road.

EXISTING CONDITIONS

SC 170

In general, SC 170 is a Principal Arterial which provides a five-lane cross-section where directional traffic flow is separated by a two-way left-turn lane (TWLTL). Sidewalks, immediately adjacent to the curb, exist on both sides of SC 170 in the vicinity of the WK Alston Drive intersection and to the east. West of WK Alston Drive (5-lane section), sidewalks are not provided however 8-foot striped shoulders are provided on each side. Posted speed limits are 45 mph from the area of WK Alston Drive towards the east and 55 mph west of WK Alston Drive to Castle Rock Road.

Recently, the SCDOT completed a safety improvement project upgrading the ½-mile section of SC 170 between Parris Island Gateway (US 21) and WK Alston Drive to install a raised median and install signalization at the WK Alston Drive intersection. This improvement has resulted in the removal of minor street approach left turns from both Cross Creek shopping center access drives as well as future access drives that are planned to be developed on the south side of SC 170.

In general, access points along the defined section of SC 170 are mainly oriented towards intersecting roadways with a limited number of drives serving commercial uses, a church, and school. Only two single-family residential unit driveways are located along this roadway.

Intersections

WK Alston Drive- Is currently a three-legged intersection recently signalized via the SCDOT safety improvement project. Geometrics are as follows:

- Eastbound SC 170- Separate 200-foot left-turn lane and two through lanes;
- Westbound SC 170- Separate 200-foot U-turn-lane, two through lanes and a separate 225-foot right-turn lane; and
- Southbound WK Alston Drive- Separate left-turn lane and a separate 280-foot right-turn lane.

It should be noted that this intersection is expected to add a new fourth approach leg from the south to intersect SC 170 opposite WK Alston Drive. This new approach would serve a proposed mixed-use retail center and is expected to make mitigation improvements to this intersection including separate turning lanes and signal modifications.

Goethe Hill Road (east)- Is currently a three-legged STOP sign controlled intersection with the following geometrics:

- Eastbound SC 170- Two through lanes and a separate 300-foot right-turn lane;
- Westbound SC 170- Separate 230-foot left-turn lane and two through lanes; and
- Northbound Goethe Hill Road- Separate 185-foot left-turn lane and a separate right-turn lane.

Goethe Hill Road (west)- Is currently a three-legged STOP sign controlled intersection with the following geometrics:

- Eastbound SC 170- Separate 160-foot left-turn lane and two through lanes;
- Westbound SC 170- Two through lanes and a separate 300-foot right-turn lane; and
- Southbound Goethe Hill Road- Separate 200-foot left-turn lane and a separate right-turn lane

Bridges Prep School Access- Is currently a three-legged STOP sign controlled intersection with the following geometrics:

- Eastbound SC 170- Two through lanes and a separate 300-foot right-turn lane;
- Westbound SC 170- Separate 230-foot left-turn lane and two through lanes; and
- Northbound Bridges Prep Access- Separate left-turn lane and a separate right-turn lane.

Castle Rock Road- Is currently a four-legged signalized intersection with the following geometrics:

- Eastbound SC 170- Separate 250-foot left-turn lane, two through lanes and a separate 300-foot right-turn lane;
- Westbound SC 170- Separate 220-foot left-turn lane, two through lanes and a separate 180-foot right-turn lane;
- Northbound Castle Rock Road - Separate 350-foot left-turn lane and a shared thru-right-turn lane and;
- Southbound Castle Rock Road- Separate 275-foot left-turn lane and a shared thru-right-turn lane.

TRAFFIC VOLUMES

Daily traffic volumes within this section of SC 170 indicate an Existing two-way average annual daily traffic volume (AADT) of 17,200 vehicles per day (vpd). Future daily traffic volumes in accordance with the LCOG model indicate a greater than 100-percent increase to approximately 38,500 vpd. These future 2040 volumes indicate a level-of-service D (LOS D) and are nearly a LOS E (max. threshold of a LOS D is 38,640 vpd) based on SCDOT guidelines (*Level-of-Service for Urban Facilities: Divided Principal Arterial*).

INTERSECTION ANALAYSES

Analyses have been conducted for the AM and PM peak hour for the five intersections located along the SC 170 corridor. **Table 1** presents the results of these analyses for both Existing conditions as well as the Existing plus Development conditions.

Table 1
LEVEL-OF-SERVICE SUMMARY¹
SC 170 Corridor Segment

<u>Signalized Intersections</u>	Time Period	2021 EXISTING		EXISTING + PROJECTS	
		<u>Delay²</u>	<u>LOS³</u>	<u>Delay</u>	<u>LOS</u>
SC 170 at WK Alston Drive	AM	13.4	B	19.9	B
	PM	12.5	B	21.2	C
SC 170 at Castlerock Road	AM	14.9	B	17.8	B
	PM	13.9	B	14.4	B
<u>Unsignalized Intersections</u>					
SC 170 at Goethe Hill Road (East)	AM	49.4	E	80.7	F
	PM	46.0	E	111.9	F
SC 170 at Goethe Hill Road (West) Sammie Lane	AM	62.8	F	137.7	F
	PM	81.8	F	178.3	F
SC 170 at Bridges Prep	AM	38.3	E⁴	38.6	E⁴
	PM	51.1	F	82.2	F

1. Calculations completed using the HCM 6th Ed methodology.
2. Delay in seconds-per-vehicle.
3. LOS = Level-of-Service.
4. Due to extreme delays opening day, only right-turn exiting school is allowed, PM peak allows left and right turns.

GENERAL NOTES:

1. For unsignalized intersections, delay is representative of the worst approach.
2. For signalized intersections, delay is weighted average of all approaches.
3. LOS A thru LOS C defined as short delays, LOS D & E defined as moderate delays and LOS F defined as long delays.

As shown by the above, operations at the study area intersections along SC 170 are generally acceptable if under traffic signal control and poor if under STOP sign control. These operations are indicative of major arterials which serve high volumes of through traffic where unsignalized intersections operate poorly due to the minor street left-turn movement. One point should be noted that during the recent counts, the unsignalized intersection of SC 170 at the Bridges Prep school DID NOT allow minor street left-turn movements during the AM peak-hour however the PM peak-hour (between 4-6 PM) did allow the minor left-turn. This movement restriction was added during the AM peak-hour due to significant operational issues during the first days the school was open.

According to the LCOG 2040 Transportation model, projections along SC 170 are expected to be very near the capacity of a 4-lane divided/5-lane facility maintaining an acceptable service level (LOS D).

RECOMMENDATIONS

This section of SC 170 currently operates at good conditions and is expected to marginally maintain acceptable conditions based on growth projections. Future growth combined with access drives will be a major consideration to maintaining the capacity integrity along this corridor. Expectations of access by abutting private properties play the biggest part of maintaining capacity for a principal arterial such as SC 170. The importance of proper spacing between signalized intersections, spacing of limited movement drives and connectivity between abutting land-uses is each important to the ability of SC 170 to serve traffic loads.

After review of the existing and future traffic loadings (daily and peak-hour) as well as development proposals currently under consideration within the study area, the following concept plan, **Figure 4** has been developed which provides an over-view of the SC 170 corridor.

As shown by this figure, two new signalized intersections are planned where the first is the result of an extension of Joe Frazier Road from Broad River Boulevard to SC 170 with a re-alignment of the eastern leg of Goethe Hill Road. The second is signalization of the Bridges Prep School access with a new extension road from SC 170 north to Goethe Hill Road/Sammie Lane which follows the current alignment of an unimproved roadway (Estelle Road). Also indicated are two development access drives planned as part of the apartment/MOB project located between WK Alston Drive and the new Joe Frazier Extension.

Key notes of this proposed SC 170 access plan are as follows:

1. Extension of Joe Frazier Road: Joe Frazier accesses dense residential areas/neighborhoods to the north and east such as Habersham, Cherokee Farms, Laurel Bay, Iron Gate & Pinewood in addition to Beaufort County School(s). This extension will allow an alternative route to SC 170 as opposed to Broad River Boulevard to the west, WK Alston to the east and Colonial Avenue or Castle Rock Road to south.
2. Separation of signalized intersections:
 - WK Alston Drive to Joe Frazier Extension/Re-aligned Goethe Hill Road: 2,230-feet.
 - Joe Frazier Extension/Re-aligned Goethe Hill Road to Bridges Prep Access: 2,635-feet.
 - Bridges Prep Access to Castle Rock Road: 2,310-feet.

These separations are each approximately ½-mile which will provide for the ability to implement a signal system along this corridor.

3. Re-alignment of Goethe Hill Road: Straightens the current curved approach to SC 170 and aligns opposite the proposed extension of Joe Frazier Road operating under traffic signal control. Allows closure of the current intersection of Goethe Hill Road (east) with SC 170.
4. Extension of Colonial Avenue: Provision of connectivity to the proposed signalized intersection along SC 170 (opposite Bridges Prep) maintaining access for the Colonial Avenue neighborhood and residences along Goethe Hill Road (west) in immediate vicinity of SC 170.
5. Potential closure of approaches to SC 170:
 - Brookins Path.
 - Sammie Lane/Goethe Hill Road (west).
6. Apartment/MOB Access Drives: Two access points are currently being planned as part of this development, location of the main access should be half-way between WK Alston Drive and Joe Frazier (approx. 1,100-feet) and will provide full access for both projects. This will allow future planning of a fourth approach leg from the undeveloped parcel to the south of SC 170. The RIRO which serves the MOB should be located approximately 400-600 feet west of WK Alston Drive.

The following exhibits (**Figures A-D**) present each of the study area intersections along SC 170 in a blow-up view of the suggested geometrics and traffic control improvements.

BROAD RIVER BOULEVARD

The section of Broad River Boulevard studied as part of this review is a slightly less than 1-mile section containing the three studied intersections of WK Alston Drive, Jennings Road, and Joe Frazier Road.

EXISTING CONDITIONS

Broad River Boulevard

In general, this roadway is a collector providing a two-lane cross-section where directional traffic flow is separated by a double-yellow centerline. Sidewalks, immediately adjacent to the curb, exist on the north side throughout the study area (WK Alston Drive to Joe Frazier Road). Minimal shoulders are provided ranging in width of 1-2-feet. The posted speed limit is 45 mph throughout the study area.

Being a collector, there are frequent access points along the defined section of Broad River Boulevard serving mainly residential units with an occasional industrial/commercial drive (Talisman Drive).

Intersections

WK Alston Drive- Is currently a three-legged signalized intersection. Geometrics are as follows:

- Eastbound Broad River Boulevard - Single-lane approach serving both through and right-turn movements;
- Westbound Broad River Boulevard - Single-lane approach serving both left and through movements; and
- Northbound WK Alston Drive- Separate 230-foot left-turn lane and a separate right-turn lane.

Jennings Road- Is currently a three-legged STOP sign controlled intersection. Geometrics are as follows:

- Eastbound Broad River Boulevard - Separate 200-foot left-turn lane and a single through lane;
- Westbound Broad River Boulevard - Single through lane and a separate 210-foot right-turn lane separated by a painted median; and
- Southbound Jennings Road- Separate 175-foot left-turn lane and a separate right-turn lane.

Joe Frazier Road/Colonial Avenue- Is currently a four-legged signalized intersection. Geometrics are as follows:

- Eastbound Broad River Boulevard - Separate 280-foot left-turn lane and a shared thru/right-turn lane;
- Westbound Broad River Boulevard - Separate 200-foot left-turn lane and a shared thru/right-turn lane;
- Northbound Colonial Ave – Single-lane for left/thru/right-turn movements; and
- Southbound Joe Frazier Road- Separate 260-foot left-turn lane and a shared thru-right-turn lane.

TRAFFIC VOLUMES

Daily traffic volumes within this section of Broad River Boulevard (just west of Joe Frazier Road) indicate an Existing two-way average annual daily traffic volume (AADT) of 7,200 vpd. Future daily traffic volumes in accordance with the LCOG’s model indicate an over 20-percent increase to approximately 10,825 vpd. This future 2040 volume results in a LOS E (LOS D max is 9,890 vpd for an undivided Collector) by *Level-of-Service for Urban Facilities (ref. Appendix SCDOT References)*.

INTERSECTION ANALYSES

Analyses have been conducted for the AM and PM peak hour for the three intersections located along the Broad River Boulevard corridor. **Table 2** presents the results of these analyses for both Existing conditions as well as the Existing plus Development conditions.

**Table 2
LEVEL-OF-SERVICE SUMMARY¹
Broad River Boulevard Corridor Segment**

<u>Signalized Intersection</u>	<u>Time Period</u>	<u>2021 EXISTING</u>		<u>EXISTING + PROJECTS</u>	
		<u>Delay²</u>	<u>LOS³</u>	<u>Delay</u>	<u>LOS</u>
Broad River Boulevard at Joe Frazier Road/Colonial Ave	AM	23.3	C	25.1	C
	PM	20.5	C	22.5	C
<u>Unsignalized Intersections</u>					
Broad River Boulevard at WK Alston Drive	AM	15.8	C	17.8	C
	PM	16.3	C	19.7	C
Broad River Boulevard at Jennings Road	AM	16.0	C	17.1	C
	PM	17.6	C	19.1	C

1. Calculations completed using the HCM 6th Ed methodology.
2. Delay in seconds-per-vehicle.
3. LOS = Level-of-Service.

GENERAL NOTES:

1. For unsignalized intersections, delay is representative of the worst approach.
2. For signalized intersections, delay is weighted average of all approaches.
3. LOS A thru LOS C defined as short delays, LOS D & E defined as moderate delays and LOS F defined as long delays.

As shown by the above, operations at the study area intersections along Broad River Boulevard are currently at a LOS C and are expected to maintain a LOS C under the near-term Existing plus projects scenario. Further review of the signalized intersection of Broad River Boulevard at Joe Frazier Road indicated a travel pattern to/from the west on Broad River Boulevard (towards the Broad River Bridge) as indicated by the following high-volume movements which are currently capacity concerns:

- Southbound right-turn movement from Joe Frazier Road to westbound Broad River Boulevard (AM=401, PM=226 veh.); and
- Eastbound left-turn movement from Broad River Boulevard to northbound Joe Frazier Road (AM=181, PM=336 veh.).

While in the near term, operations at individual intersections are expected to remain as a LOS C, the LCOG 2040 Transportation model defines two roadway sections which are expected to experience capability issues operating at or above capacity limits. Joe Frazier Road north of Broad River Boulevard is expected to operate poorly as a two-lane cross-section and Broad River Boulevard west of Joe Frazier Road is expected to operate at capacity.

RECOMMENDATIONS

This section of Broad River Boulevard currently operates in good condition and is expected to maintain acceptable conditions based on immediate growth projections. Future growth to the area north of Broad River Boulevard (Habersham area, etc.) will be a major consideration to maintaining the capacity integrity along this corridor. This growth has been expressed as an issue under the LCOG Regional Model Version #2 (LRMv2) which expects the approach of Joe Frazier Road to Broad River Boulevard to require widening to a multi-lane cross-section.

After review of the existing and future traffic loadings (daily and peak-hour) as well as development proposals currently under consideration within the study area, the following concept plan, **Figure 5** has been developed which provides an over-view of the Broad River Boulevard corridor.

Key notes of this proposed Broad River Boulevard access plan are as follows:

1. Widening of Joe Frazier Road: Widen section between Broad River Boulevard and Possum Hill Road to provide a 3-lane section where center-lane will operate as a two-way left-turn lane (TWLTL);
2. Extension of Joe Frazier Road: As indicated earlier, this extension will allow an alternative route to SC 170 as opposed to Broad River Boulevard to the west towards SC 170 (Broad River Bridge).
3. Enhancement of intersection geometrics and traffic control:
 - WK Alston Drive to be provided separate turning lanes and likely signalization when MUTCD warrants are met.
 - Jennings Road to be provided with separate turning lanes and the possibility of a fourth approach leg. Operations to remain as an unsignalized intersection however a single-lane round-a-bout could be considered (would remove the need for separate turning lanes).
 - Joe Frazier Road/Extension to be provided separate turning lanes and maintain signal control. Can be expected to reduce traffic volumes along Broad River Boulevard to the west.
4. Extension of Jennings Road: Provision of creating a four-legged intersection opposite Jennings Road for future development. Consideration of continuing connectivity to the south via expected development located along the north side of SC 170 (possible connection to SC 170).
5. Close the Colonial Avenue direct access to Broad River Road (Fig G). Provide a connection between Colonial Avenue and Joe Frazier Road Extension by realigning Walker Circle (Fig 7).

The following exhibits (**Figures E-G**) present each of the study area intersections along Broad River Boulevard in a blow-up view of the suggested geometrics and traffic control improvements.

ADDITIONAL SUGGESTIONS

Details of connectivity intersections have also been completed which are related to potential development projects and/or additional connectivity suggested for the over-all study area. These suggested connectivity points will aid in traffic flow by providing outlets for traffic potentially to not depend on SC 170, limiting full-movement intersections or allowing consolidation to signalized intersections along the corridor of SC 170.

RECOMMENDATIONS

WK Alston Drive Connectivity: With the recent completion of the SCDOT project on SC 170 along the frontage of Walmart and the signalization of SC 170 at WK Alston Drive, connectivity access to/from WK Alston Drive is recommended (and is in accordance with the Beaufort Code, Section C.2.3, “Street Network Diagram – Section 4”) for the existing Walmart development and future development proposals located east and west of WK Alston Drive.

As shown by **Figure 6**, connections suggested including:

- Apartment complex aligning opposite the school’s most northern access;
- Walmart potentially accessing along WK Alston Drive; and
- Medical Office/Apartments potential of connecting to the school’s southern access.

It should be noted that WK Alston Drive is an SCDOT maintained roadway (S-761) and currently provides access to Robert Smalls Middle school.

Joe Frazier Extension Connectivity: As part of the extension of Joe Frazier Road to SC 170, connectivity access to/from abutting land uses (existing and proposed) should be considered.

As shown by **Figure 7**, connections suggested including:

- Colonial Avenue is suggested to be closed at Broad River Boulevard as part of the Joe Frazier Extension. A connector between the new three-lane alignment of Joe Frazier Road and Walker Circle would re-establish this access; and
- Apartment complex planned to the east of Joe Frazier Road Extension would provide potential of allowing access to both SC 170 and Joe Frazier Extension.

Goethe Hill Connections: New points of access/connectivity are suggested along the section of Goethe Hill Road between SC 170 and Parris Island Gateway (includes the portion re-aligned as part of the Joe Frazier Extension).

As shown by **Figure 8**, connections suggested including:

- Vacant triangular shaped parcel bordered by SC 170, Goethe Hill Road, and US 21. Currently a

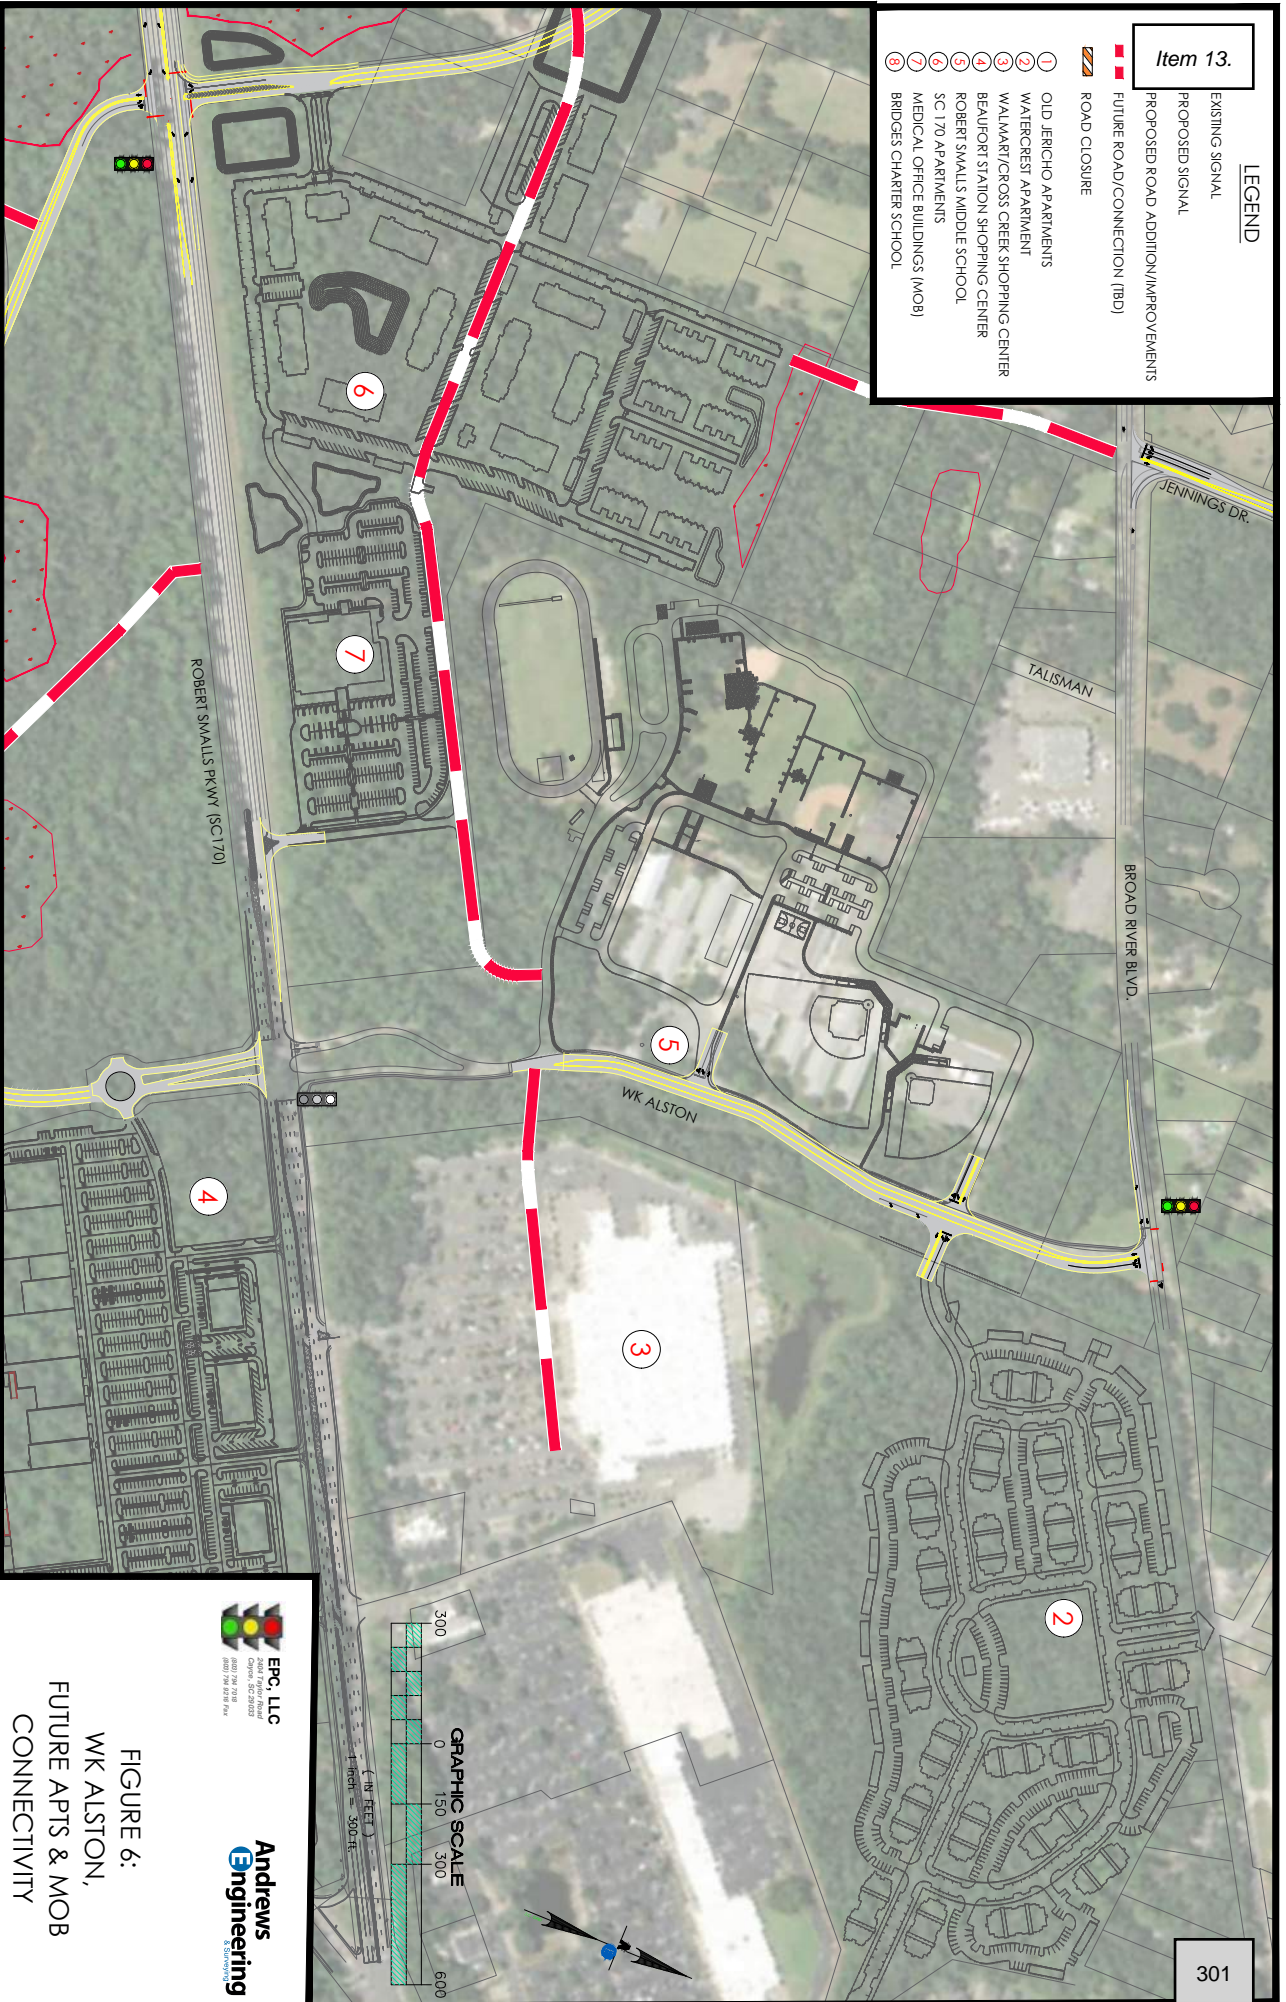

portion of this parcel (northeast section) is being planned as a major retail center. Extending the main access drive, located opposite WK Alston Drive at SC 170 to Goethe Hill Road will reduce/minimize future access along US 21 while providing access for current unplanned development areas of this over-all parcel.

- Re-establish access for Singleton Hill Circle and UPS facility by maintaining a portion of Goethe Hill Road and intersecting with the new alignment of Goethe Hill. This connector is recommended to extend to Bridges Prep school, providing a second access alternative for the school.

CONNECTIVITY

SUMMARY of IMPROVEMENTS

The following presents a summary of the over-all recommendations for this study area in both bullet form as well as the attached comprehensive graphic (**Figure 9**).

ROBERT SMALLS PARKWAY (SC 170)

- Provision of a new connection to SC 170 via the extension of Joe Frazier Road from its current termini with Broad River Boulevard.
- Signalization and connectivity for the Bridges Prep School.
- Re-alignment of both approaches of Goethe Hill Road. The Eastern section aligns opposite the suggested Joe Frazier Road Extension and the western section aligns opposite Bridges Prep School.
- Planning of existing and future intersections to provide adequate spacing for efficient traffic signal control/operations with a progression system.
- Connectivity between signalized intersections with internal connectivity between development projects.
- Planning of development access between WK Alston Drive and Joe Frazier Extension.

BROAD RIVER BOULEVARD

- The extension of Joe Frazier Road to SC 170 will improve the roadway between Broad River Road and SC 170 as a multi-lane facility. The traffic signal control at this intersection will be upgraded to accommodate the new geometrics of the intersection improvements. The Joe Frazier Extension provides a direct access to SC 170 opposed to traveling west along Broad River Road to SC 170, toward the Broad River bridge, which will reduce the traffic demand on Broad River Road. Widen Joe Frazier to 3-lane cross-section to Possum Hill Road north of Broad River per the Lowcountry Council of Government *Regional Travel Demand Model*.
- Possible signalization of WK Alston Drive when warranted.
- Possible new approach leg opposite Jennings Road serving as access to future development and/or connectivity to developed properties to the south. Traffic control for the Broad River Boulevard at Jennings Road intersection is planned as STOP sign control or maybe a practical location for a roundabout.

FIGURE 9:
OVERALL PROPOSED
IMPROVEMENTS

CONNECTIVITY/ACCESS ENHANCEMENTS

- New connectivity for the Colonial Avenue area to the new Joe Frazier Road Extension, which results in the closure of the current direct access to Broad River Boulevard. Additionally, a new connection to SC 170 via an extension across/re-alignment of Goethe Hill Road.
- Possible connections to adjacent properties east or west of WK Alston Drive.
- The connectivity of the retail center/future development along Goethe Hill Road between US 21 and SC 170.
- The connectivity of Bridges Prep school and Singleton Hill Circle to the relocated segment of Goethe Hill Road (east) provides a second outlet for school traffic and access for a number of residential homes.
- Vehicular connectivity will include multimodal bike and pedestrian paths in accordance with the City of Beaufort’s and Beaufort County’s respective Comprehensive Plans, including Beaufort County Connects; Bicycle and Pedestrian Plan 2021, where feasible.
