

CITY of CLOVIS

AGENDA • CITY COUNCIL MEETING

Council Chamber, 1033 Fifth Street, Clovis, CA 93612 (559) 324-2060 www.cityofclovis.com

December 9, 2024 6:00 PM Council Chamber

In compliance with the Americans with Disabilities Act, if you need special assistance to access the City Council Chamber to participate at this meeting, please contact the City Clerk or General Services Director at (559) 324-2060 (TTY – 711). Notification 48 hours prior to the meeting will enable the City to make reasonable arrangements to ensure accessibility to the Council Chamber.

The Clovis City Council meetings are open to the public at the physical address listed above. There are numerous ways to participate in the City Council meetings: you are able to attend in person; you may submit written comments as described below; and you may view the meeting which is webcast and accessed at www.cityofclovis.com/agendas.

Written Comments

- Members of the public are encouraged to submit written comments at: <u>www.cityofclovis.com/agendas</u> at least two (2) hours before the meeting (4:00 p.m.). You will be prompted to provide:
 - Council Meeting Date
 - Item Number
 - Name
 - Email
 - Comment
- Please submit a separate form for each item you are commenting on.
- SCAN ME
- A copy of your written comment will be provided to the City Council noting the item number.
 If you wish to make a verbal comment, please see instructions below.
- Please be aware that any written comments received that do not specify a particular agenda item will be marked for the general public comment portion of the agenda.
- If a written comment is received after 4:00 p.m. on the day of the meeting, efforts will be
 made to provide the comment to the City Council during the meeting. However, staff cannot
 guarantee that written comments received after 4:00 p.m. will be provided to City Council
 during the meeting. All written comments received prior to the end of the meeting will be
 made part of the record of proceedings.

CAMPAIGN CONTRIBUTION PROHIBITIONS AND MANDATORY DISCLOSURE - Pursuant to Government Code section 84308, a Councilmember shall not accept, solicit, or direct a campaign contribution of more than \$250 from any party or their agent, or from any participant or their agent, while a proceeding involving a license, permit, contract, or other entitlement for use is pending before the City or for 12 months after a final decision is rendered in that proceeding. Any Councilmember who has received a campaign contribution of more than \$250 within the preceding 12 months from a party or their agent, or from a participant or their agent, must disclose that fact on the record of the proceeding and shall not make, participate in making, or in any way attempt to use their official position to influence the decision.

Pursuant to Government Code section 84308(e), any party to a covered proceeding before the City Council is required to disclose on the record of the proceeding any campaign contribution, including aggregated contributions, of more than \$250 made within the preceding 12 months by the party or their agent to any Councilmember. The disclosure shall be made as required by Government Code Section 84308(e)(1) and 2 CCR Section 18438.8. No party or their agent, and no participant or their agent, shall make a campaign contribution of more than \$250 to any Councilmember during the covered proceeding or for 12 months after a final decision is made in that proceeding. The foregoing statements do not constitute legal advice, and parties and participants are urged to consult with their own legal counsel regarding the applicable requirements of the law.

CALL TO ORDER

FLAG SALUTE - Councilmember Bessinger

ROLL CALL

PUBLIC COMMENTS - This is an opportunity for the members of the public to address the City Council on any matter within the City Council's jurisdiction that is not listed on the Agenda. In order for everyone to be heard, please limit your comments to 3 minutes or less, or 10 minutes per topic. Anyone wishing to be placed on the Agenda for a specific topic should contact the City Manager's office and submit correspondence at least 10 days before the desired date of appearance.

CONSENT CALENDAR - Items considered routine in nature are to be placed upon the Consent Calendar. They will all be considered and voted upon in one vote as one item unless a Councilmember requests individual consideration. A Councilmember's vote in favor of the Consent Calendar is considered and recorded as a separate affirmative vote in favor of each action listed. Motions in favor of adoption of the Consent Calendar are deemed to include a motion to waive the reading of any ordinance or resolution on the Consent Calendar. For adoption of ordinances, only those that have received a unanimous vote upon introduction are considered Consent items.

- 1. Administration Approval Minutes from the December 2, 2024, Council Meeting.
- Administration Adopt Ord. 24-18, R2024-004, A request to amend the development standards and preliminary development plan for the Tuscan Village Planned Commercial Center, associated with approximately 33 acres of land located at the northwest corner of Sierra and N. Clovis Avenues. Blanchimont Corner LLC et al., owners; Legacy Realty and Development, applicant; Roger Hurtado, representative. (Vote: 5-0)

3. Police – Approval – Waive the City's formal bidding requirements and authorize the sole-source purchase of a Video Wall Management System for the Real Time Information Center through Wildfire Technology Integration for a total purchase of \$700.088.00.

COUNCIL ITEMS

- 4. Consider various actions related to the November 5, 2024, Clovis General Municipal Election for Clovis City Council and Measure Y (Sales Tax):
 - a. Consider Approval Res. 24-___, Declaring the results of the November 5, 2024, Clovis General Municipal Election for Clovis City Council and Measure Y.
 - b. Oath of Office: Councilmembers Ashbeck and Mouanoutoua.

Staff: Briana Parra, City Clerk **Recommendation:** Approve

- 5. Consider various actions related to the City Council Reorganization:
 - a. Election of Mayor by City Council Mayor Pro Tem Mouanoutoua
 - b. Election of Mayor Pro Tem by City Council Mayor
 - c. Presentation of gavel to outgoing Mayor Ashbeck Mayor
 - d. Council Comments / Introductions by Mayor and Councilmembers

RECESS FOR PHOTOS AND REFRESHMENTS (City Hall Foyer)

ADMINISTRATIVE ITEMS - Administrative Items are matters on the regular City Council Agenda other than Public Hearings.

6. Workshop to begin discussion of how city growth impacts county roads and joint efforts to improve safety.

Staff: Councilmember Ashbeck

Recommendation: Provide Direction

RECESS AND RECONVENE AT DAIS

ADMINISTRATIVE ITEMS - Administrative Items are matters on the regular City Council Agenda other than Public Hearings.

7. Consider Approval - 2023-24 Annual Comprehensive Financial Report.

Staff: Jay Schengel, Finance Director

Recommendation: Approve

CITY MANAGER COMMENTS

COUNCIL COMMENTS

CLOSED SESSION - A "closed door" (not public) City Council meeting, allowed by State law, for consideration of pending legal matters and certain matters related to personnel and real estate transactions.

8. Government Code Section 54957.6
Conference with Labor Negotiator(s)
Agency designated representative: City Attorney
Unrepresented employee: City Manager

9. Government Code Section 54957
PUBLIC EMPLOYEE APPOINTMENT/EMPLOYMENT
Title: City Manager

RECONVENE INTO OPEN SESSION AND REPORT FROM CLOSED SESSION

ADJOURNMENT

FUTURE MEETINGS

Regular City Council Meetings are held at 6:00 P.M. in the Council Chamber. The following are future meeting dates:

Dec. 16, 2024 (Mon.) Jan. 6, 2025 (Mon.) Jan. 13, 2025 (Mon.) Jan. 21, 2025 (Tue.)

CLOVIS CITY COUNCIL MEETING

December 2, 2024 6:00 P.M. Council Chamber

Meeting called to order by Mayor Ashbeck at 6:02 Flag Salute led by Councilmember Basgall

Roll Call: Present: Councilmembers, Basgall, Bessinger, Mouanoutoua, and

Mayor Ashbeck

Absent: Councilmember Pearce

PUBLIC COMMENTS - 6:03

Bill Scott, resident, addressed concerns with public awareness and outreach regarding the Clovis districting process and highlighted transparency and better public engagement.

Steven Trevino, resident, addressed concerns regarding insufficient public outreach regarding the Clovis district process and suggested broader outreach efforts including radio talk shows, Spanish-language platforms.

CONSENT CALENDAR - 6:08

Upon call, there was no public comment.

Motion by Councilmember Bessinger, seconded by Councilmember Basgall, that the items on the Consent Calendar be approved, with the exception of item 7, including the waiver of the reading of the ordinance. Motion carried by 4-0-1 vote, with Councilmember Pearce absent.

- 1. Administration Approval Minutes for the November 18, 2024, Regular Council Meeting and the November 18, 2024, Special Council Meeting.
- 2. Administration Adopt **Ord. 24-17**, Amending Sections 2.7.06 and 2.7.08 of Chapter 2.7 and Section 2.9.03 of Chapter 2.9 of Title 2 of the Clovis Municipal Code Pertaining to the City Purchasing System and Procurement Procedures for Public Projects. (Vote: 5-0)
- 3. Administration Approval Waive Normal Purchasing Process and approve the purchase of a next generation enterprise cybersecurity system from CDWG Corporation using the Omnia cooperative purchasing program; a competitively bid contract with purchasing provisions for California State and Local government agencies in the amount of \$54,978.89 per year for three years.
- 4. General Services Approval **Res. 24-133**, Authorizing Amendments to the City's Classification and Compensation Plans to Adopt the Parks Supervisor Classification with a Salary Range of \$8,773 to \$10,665 per month.
- 5. General Services Approval Waive the City's Usual Purchasing Requirements and Authorize the Purchase of One (1) Ram Promaster Transit Vehicle for \$170,610.05 Utilizing the California Association for Cooperative Transportation (CalACT) Competitive Bid Award.

- 6. Planning and Development Services Approval Final Acceptance for CIP 24-01, Rubberized Cape Seal 2024.
- 8. Planning and Development Services Approval Bid Award for CIP 24-24, Santa Ana Sidewalk Improvements to Platinum Dirt Worx, LLC, in the amount of \$74,594.02; and authorize the City Manager to execute the contract on behalf of the City.
- 9. Planning and Development Services Approval **Res. 24-134**, Final Map Tract 6205 located on northeast corner of Shepherd Avenue and Sunnyside Avenue (Great Bigland, Inc., a California Corporation).
- 10. Planning and Development Services Approval **Res. 24-135**, Annexation of Proposed Tract 6205 located on northeast corner of Shepherd Avenue and Sunnyside Avenue to the Landscape Maintenance District No. 1 of the City of Clovis. (Great Bigland, Inc., a California Corporation).
- 11. Public Utilities Approval Waive Formal Bidding Requirements and Authorize the Purchase of One Case 521G XT Wheel Loader Tractor from Sequoia Equipment Company Using the Sourcewell Cooperative Purchasing Contract in the Amount of \$204,892.59.
- 12. Public Utilities Approval Final Acceptance for CIP 23-17, Sierra Bicentennial Dog Park Improvements, with a Final Contract Cost of \$66,196.86.

ITEMS PULLED FROM CONSENT CALENDAR

6:08 ITEM 7 - Planning and Development Services – Approval – Bid Award for CIP 24-06, New Bus Stops: B2 to Cervantes Landscape Services, Inc., in the amount of \$167,172.00; and authorize the City Manager to execute the contract on behalf of the City.

The above item was continued to December 16, 2024, by staff.

CHRISTMAS TREE LIGHTING CEREMONY - 6:27

Meeting called to order by Mayor Ashbeck at 7:04

COUNCIL ITEMS – 6:09

Upon call, there was no public comment.

6:09 ITEM 13 - CONSIDER APPROVAL - RE-APPOINTMENT TO CONSOLIDATED MOSQUITO ABATEMENT DISTRICT FOR A TERM ENDING DECEMBER 31, 2026.

Motion for approval by Councilmember Mouanoutoua, seconded by Councilmember Bessinger. Motion carried by 4-0-1 vote, with Councilmember Pearce absent.

PRESENTATION – 7:10

7:10 ITEM 14 - PRESENTATION OF PROCLAMATION HONORING GENERAL SERVICES DIRECTOR SHONNA HALTERMAN UPON HER RETIREMENT AND COMMENDING HER FOR 30 YEARS OF SERVICE TO THE CLOVIS COMMUNITY.

PUBLIC HEARINGS – 6:11

6:11 ITEM 15 - CONSIDER APPROVAL - **RES. 24-XX**, ADOPTION OF A RESOLUTION AMENDING THE 2019-2020 COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) ACTION PLAN AND THE 2016-2020 CONSOLIDATED PLAN TO CHANGE THE USE OF COMMUNITY DEVELOPMENT BLOCK GRANT - CORONAVIRUS (CDBG-CV) FUNDS FROM THE UTILITIES ASSISTANCE PROGRAM AND PROGRAM ADMINISTRATION TO THE WATER TOWER I TRAIL EXPANSION FOR THE PREVENTION OF THE SPREAD OF CORONAVIRUS BY INCREASING THE CAPACITY FOR SOCIAL DISTANCING; AND CONSIDER APPROVAL - **RES. 24-XX**, AMEND THE 2024-2025 COMMUNITY INVESTMENT PROGRAM BUDGET FOR PARKS IMPROVEMENTS, TO INCLUDE WATER TOWER 1 TRAIL PLAZA IMPROVEMENTS IN THE AMOUNT OF \$155,876.

Steven Trevino, resident, suggested improving lighting and beautification efforts in the areas of downtown and addressed aesthetic concerns around tiny house and unused spaces.

The Council discussed whether the proposed trail improvement project was the best use of CDBG funds to serve the neediest communities and addressed public usage, connectivity for seniors, potential safety hazards, and if there are alternative projects in the southwest or other areas that might better address community priorities within the funding and eligibility criteria.

Motion by Councilmember Bessinger, seconded by Councilmember Basgall to continue the item to a date uncertain in 2025. Motion carried by 4-0-1 vote, with Councilmember Pearce absent.

7:29 ITEM 16 - CONDUCT A PROPOSITION 218 PUBLIC HEARING AND MAJORITY PROTEST VOTE TO IMPLEMENT A WATER METER INSTALLATION FEE TO UNMETERED PARCELS IN TARPEY VILLAGE; AND CONSIDER APPROVAL – RES. 24 -136, A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF CLOVIS AUTHORIZING A WATER METER INSTALLATION FEE.

Lilian, resident, requested the council to consider delaying the decision on the proposed fee increase, citing economic hardships, concerns about accessibility for non-English speakers, public outreach, and the need for clearer communication on how residents can formally submit protests.

The public hearing was closed at 7:43 p.m.

City Clerk Parra announced the City received a total of 11 written protests.

The Council discussed concerns about ensuring public meetings and communications are accessible to non-English speakers, emphasizing the need for future communications to include Spanish and Hmong translations.

Motion for approval by Councilmember Mouanoutoua, seconded by Councilmember Bessinger. Motion carried by 4-0-1 vote, with Councilmember Pearce absent.

ADMINISTRATIVE ITEMS - 7:53

7:53 ITEM 17 - CONSIDER VARIOUS REQUESTS FROM WILSON HOMES REGARDING TRACT MAP 6205, A 580-LOT SUBDIVISION LOCATED AT THE NORTHEAST CORNER OF SUNNYSIDE AND SHEPHERD AVENUES.

Goldie Lewis with Wilson Homes, addressed the challenges of the development project, emphasized the need for fair and equitable policies related to fees and reimbursement.

Todd Wilson Vice President of Wilson Homes also emphasized the need to find an equitable solution to allow development to continue while addressing the challenges and complexities faced by all parties involved.

Brandon DeYoung with DeYoung Properties expressed support for Wilson's proposals, provided they are applied equitably to all developers in the future and recommended seeking solutions already established elsewhere rather than reinventing the wheel.

Andrew Phelps representing Woodside Homes, emphasized the importance of distinguishing between setting policy and granting exceptions, opposing exceptions while supporting the development of clear criteria for fee credits and project prioritization.

Mayor Ashbeck motions to approve staffs' recommendation as presented. Motion dies for lack of second.

17A - ALLOW FOR A DEVIATION FROM CITY POLICY REGARDING REIMBURSEMENTS WITHIN STREET AREA 1 AS REQUESTED BY WILSON HOMES.

Motion by Councilmember Mouanoutoua, seconded by Councilmember Bessinger, to continue to a date uncertain and bring back to Council a workshop and policy discussion. Motion carried by 4-0-1 vote, with Councilmember Pearce absent.

17B - DENY THE REQUEST TO DEVIATE FROM CITY POLICY REGARDING REIMBURSEMENTS OF SEWER MAJOR FACILITY IMPROVEMENTS AS REQUESTED BY WILSON HOMES.

Motion by Councilmember Mouanoutoua, seconded by Councilmember Bessinger, to continue to a date uncertain and bring back to Council a workshop and policy discussion. Motion carried by 4-0-1 vote, with Councilmember Pearce absent.

17C - DENY THE REQUEST TO DEVIATE FROM CITY POLICY REGARDING REIMBURSEMENTS OF WATER MAJOR FACILITY IMPROVEMENTS AS REQUESTED BY WILSON HOMES.

Motion by Councilmember Mouanoutoua, seconded by Councilmember Bessinger, to continue to a date uncertain and bring back to Council a workshop and policy discussion. Motion carried by 4-0-1 vote, with Councilmember Pearce absent.

17D - DENY THE REQUEST TO DEVIATE FROM THE CITY'S MUNICIPAL CODE AND ALLOW FOR THE DEFERMENT OF THE WATER SUPPLY FEE AS REQUESTED BY WILSON HOMES.

Motion by Councilmember Mouanoutoua, seconded by Councilmember Bessinger, to approve staff's recommendation to deny the request for deferment of the Water Supply Fee, and if there is a subsequent amendment to the City's policy on fee deferment a refund or reimbursement of the Water Supply Fee paid can be considered at that time. Motion carried by 4-0-1 vote, with Councilmember Pearce absent.

CITY MANAGER COMMENTS - 10:18 None.

COUNCIL COMMENTS –10:19 None.

CLOSED SESSION – 10:23

Upon call, there was no public comment.

ITEM 18 - <u>GOVERNMENT CODE SECTION 54956.9</u> CONFERENCE WITH LEGAL COUNSEL – ANTICIPATED LITIGATION DECIDING WHETHER TO INITIATE LITIGATION PURSUANT TO GOVERNMENT CODE SECTION 54956.9, SUBDIVISION (D)(4): ONE POTENTIAL CASE

Motion by Councilmember Bessinger, seconded by Councilmember Basgall, that the Council authorized initiating litigation in the form of a receivership action to abate the nuisance condition at 1495 Fourth Street. Motion carried 4-0 1, with Councilmember Pearce absent.

CITY of CLOVIS

REPORT TO THE CITY COUNCIL

TO: Mayor and City Council

FROM: Police Department
DATE: December 9, 2024

SUBJECT: Police – Approval – Waive the City's formal bidding requirements and

authorize the sole-source purchase of a Video Wall Management System for the Real Time Information Center through Wildfire Technology

Integration for a total purchase of \$700,088.00.

ATTACHMENTS: 1. Wildfire Proposal

RECOMMENDATION

For the City Council to approve the waiving of the City's formal bidding requirements and authorize the sole-source purchase of Video Wall Management system from Wildfire Technology Integration for the Real Time Information Center (RTIC) in the amount of \$700,088.00.

EXECUTIVE SUMMARY

Approval of this purchase will allow the RTIC to be equipped and operational by the acquisition and implementation of a Video Wall Management System from Wildfire Technology Integration. This system will allow the RTIC to integrate disparate systems and allow the synthesizing and delivery of robust intelligence information to officers in a rapid timeframe. Thus, increasing officer safety, reducing response times, and increasing solvability rates.

BACKGROUND

The Clovis Police Department remains at the forefront of leveraging technology to enhance service quality, efficiency, and officer safety.

The Clovis Police Department is looking to increase the efficiency and effectiveness of officers in the field by creating a Real Time Information Center or RTIC. The RTIC unit will utilize real-time integrated technology and data analysis to provide support for active police operations. Analysts will support Officers by monitoring city cameras and providing immediate intelligence and investigative leads, allowing officers to make better informed decisions. The program will also improve emergency responses and prevent crime by allowing for camera integration with residents, business owners, and other government agencies.

This RTIC is essential in allowing the Department to maintain our top priority response time and goals of being the safest City in the Valley. The geographical and population growth of the City

has and will continue to increase, thus adding to the necessity of using an integrated technology system. The RTIC will also house the Drone First Responder (DFR) program, increasing the capacity of sending time sensitive information to officers and decision-makers. The program will also integrate with the Emergency Operation Center in the Public Safety building allowing all City Departments the ability to make more informed decisions during disaster response.

A successful RTIC will rely on the integration of multiple data sources such as surveillance cameras, license plate readers, social media monitoring and local intelligence information. Interoperability between all these technologies is vital to making a RTIC successful. Implementation of the Wildfire Integration and the Video Wall Management System will be fundamental to the success and operation of this program.

FISCAL IMPACT

Purchase via sole source is based upon the characteristics of this Video Management System. The sole-source purchase provides a cohesive integrated product that includes proprietary features only available from Wildfire. These features include the ability to insert and extract LED video modules without the risk of damage to the surrounding modules and a redundant "Four-Way Failover" which prevents other modules from failing in the event of a single module failure.

The total purchase price is \$700,088.00 and the purchasing schedule program is in the proposal. Funding for the system has been secured through existing funds. Wildfire Technologies will purchase, pre-build, test, install, and provide training on the Video Wall Management System within approximately 12 weeks after acceptance of the contract.

REASON FOR RECOMMENDATION

The RTIC integration of a Video Wall Management system will improve public safety by providing situational awareness for officers, supporting criminal investigations, providing information for City decision-makers, and fostering collaboration with the Community in crime prevention.

Unlike other integration companies that only provide portions of services, Wildfire Technology systems will provide a turn-key solution and has the expertise and experience to provide a standardized and consolidated work process that does an in-house fabrication and testing of the product prior to installation. They provide an end-to-end service of project management, system engineering, pre-build fabrication, factory acceptance testing, control programing, installation, and post installation services, including training.

ACTIONS FOLLOWING APPROVAL

The Police Department will finalize the contract with Wildfire Technology Integration and move forward with the Video Wall Management System.

CONFLICT OF INTEREST

None.

Re: Clovis Police Department – Real Time Information Center (RTIC) - Video Wall Management System

Proposal # WP-4308 V1.2 Barco / RGB

Dear Mr. Anthony Lee,

Wildfire Technology Integration is pleased to present our proposal for a custom full Turnkey RTIC Solution to Design, Furnish, Install, Service and Support the Video Wall Management System for the Real Time Information Center, site location 1233 5th Street, Clovis, CA 93612.

For over 16 years, Wildfire has built its reputation on designing and building custom solutions for our customers. We are a financially strong, privately owned AV integration corporation with a proven history of success in the industry. We are known to faithfully fulfill our client's vision with highly advanced engineered systems that perform reliably and dynamically. We understand that this is a high-profile project requiring a team who can mobilize quickly, has an inventive understanding of complex systems, and can ensure attentive service.

Our understanding of your operations, attention to detail, and expertise sets us apart from anyone else in the industry. It goes without saying we look forward to having **Clovis Police Department RTIC** as another one of our satisfied customers.

At your earliest convenience, we would appreciate the opportunity to review this proposal with you and your team so we can discuss in more detail and answer any questions you may. If you have any questions, please direct them to me at 714-913-3182 or j.zaffino@wildfireav.com.

Warm regards,

Janine Zaffino

SECTION A. | ABOUT WILDFIRE TECHNOLOGY INTEGRATION

Wildfire Technology Integration is a Privately Held company since 2008 designing, building, and servicing innovative AV solutions. We service clients Nationwide by utilizing our in-house team of experts, and our strategic partner alliance. After many years of experience, our ability to grow and adapt to the latest technology and customer needs has made us a leader in the industry.

Our flexibility allows us to provide a variety of services to a wide range of industries from conference rooms to boardrooms to corporate complexes to mission critical control room spaces, we can create the ideal audio/visual solutions that fit your unique needs and budget.

Wildfire Divisions Include:

The AV System Solutions Group delivers fully integrated AV solutions. Discover, consult, design, pre-build, install, service and support. We evaluate your space, create a plan, and then bring the audio and visual components together into one unified system.

The Command and Control Room Group focuses on providing a wide range of comprehensive and collaborative 24/7 control room and mission critical solutions specially designed to fit into each unique workspace and meet each client's specific requirements.

The Support Services Group ensures that your system is working perfectly, responds to technical issues, and provides training and peace of mind.

SECTION B. | QUALIFICATIONS

TECHNICAL OPERATIONS RESPONSIBILITIES

Wildfire maintains a core group of highly qualified and experienced Engineering, Project Management, Service, and Implementation staff in the pursuit of its core business. The technical segment of the core group maintains a highly talented and experienced staff. This seasoned and experienced technical staff culminates decades of real-world experience in the broadcast, video conferencing, audio and presentation system, acoustic and sound masking implementation process.

The operations and installation staff have many years of experience. Each team will follow a project through, from assembling the equipment and building the system in-house to shipping, receiving, and installation of the equipment on site. The installers are provided with on-going training by their management and our engineers. Manufacturer training is also provided where required for set-up and adjustment of equipment in the field. Sub-contractors are utilized primarily for projects requiring union labor.

The technical staff is experienced with system design, implementation and service support in various systems including but not limited to Crestron, AMX, Extron, Barco, VuWall, RGB Spectrum system design and implementation. Resident software skills are utilized for system de-bugging and field changes made when new systems are commissioned, or equipment is introduced into existing systems.

Wildfire Project Managers and Engineering Technicians have a minimum of ten years of experience in their respective positions.

Wildfire maintains a fulltime installation staff and is supplemented with a well-established union and non-union subcontractor base. Sub-contractors are also utilized for projects requiring union labor and to supplement our permanent staff as required for timely systems installation. Vehicles and all the associated tools of our trade are maintained by our organization. Installation personnel are provided with on-going training by their management and our engineering staff. Manufacturer training is also provided as a standard and where required for set-up and adjustment of equipment in the field.

Our project teams are experienced and well versed in every aspect of Control Room and Commercial AV Systems, system design and integration. From pre-sales activities including customer needs analyses, system design, product/technology selection, proposal presentation/revision, to implementation of the design, refinement of the software and user interface, testing and adjustment, training and documentation, and system maintenance and repair, Wildfire has successfully performed for our Customers since 2008.

Wildfire completed the Audiovisual Providers of Excellence (APEx) certification program from AVIXA (formerly InfoComm). The program is for integration companies and AV design consulting firms dedicated to upholding industry excellence by providing quality service to customers. The AVIXA APEx program recognizes companies based on the number of employees holding key industry certifications, including AVIXA's CTS, CTS-I, & CTS-D credentials, completion of continuing education classes, and positive customer survey responses. APEx providers must also prove that they meet or exceed the requirements within 2 ANSI/AVIXA standards, the Standard Guide for Audiovisual Systems Design and Coordination Processes and the AV System Performance Verification Standard, to foster better communication between the AV provider and the client.

Wildfire Technology Integration

Proposal No. WP-4308 V 1.2

Page 4 of 28

SYSTEM INTEGRATION METHODOLOGY

Wildfire has developed a methodology for completing projects efficiently and successfully. When it absolutely must be right, we will make sure it is. To achieve this, every client project is serviced by a committed Wildfire team who deploys standardized, consolidated work processes and uses our in-house fabrication and testing facilities to ensure clients always benefit from maximized up-time, not downtime. We provide an End-to-End total service offering.

Wildfire has established relationships with architects, electrical and data, general contractors and union contractors to accomplish the installation services required and is accustomed to working with on-site contractors to facilitate the successful integration of our work with their work. In the case of Millwork for example, we can provide equipment specifications/dimensions or the appropriate templates for cutting in equipment such as touch panels, monitors, input plates and displays.

Wildfire is not a union shop; however, we have close relationships with audiovisual installation sub-contractors that are union shops, employing union members.

Project Management & Engineering – How These Roles Align:

Wildfire <u>Project Managers</u> and <u>Engineering Technicians</u> have a minimum of five years of experience in their respective positions. A Project Manager will be assigned to coordinate and manage the various Wildfire and other required resources needed to deliver the project as ordered.

The project scope and Wildfire/Customer responsibilities will be reviewed and confirmed. A project schedule will be developed by mutual agreement to specific milestones. The Project Manager will be available for a customer site visit and to coordinate facility issues with the customer's architects when these requirements are clearly identified in the proposal.

The Project Manager will monitor the progress of the project and initiate any corrective actions required. The Project Manager will be responsible for identifying changes in the project's scope as well as providing and obtaining approval for all resulting price changes. Coordination of in-house acceptance, system shipment, site readiness, on-site activities, and development of a mutually agreed upon punch list will also occur during this phase.

The Project Manager will coordinate resolution of all Wildfire punch list items, additional training (if included), final billing issues, and initiation of the service contract and delivery of as-built drawings. The Engineering Technician is trained in all the product lines as an engineer. The Engineering Technician is responsible for the technical testing and setup of the system.

SECTION C. | STATEMENT OF WORK

SYSTEM INTEGRATION SERVICES include:

Project Management

Developing clear lines of communication is the first step in setting up a successful project. At the beginning of the project, Wildfire appoints a Project Manager who will be your main point of contact and the responsible individual for the Wildfire scope of work.

The Project Manager interfaces with the Client's representative and other vendors involved in the project as necessary to insure a smooth and timely flow of information.

The Project Manager also coordinates with the Wildfire Engineers and Technicians assigned to the project while managing the schedule, scope, and invoicing for the project.

- Meetings with clients technical and contract representatives, status reports, and resolution of questions or issues outstanding.
- Develop project schedule and oversight of Wildfire team.
- Stage equipment and materials at our shop, create as built drawings.
- Submit owner manual binders of all equipment documentation.
- Supervise end user training on systems operation.
- Facilitate competition of final punch list items.

System Engineering

The Wildfire Project Engineer works with the Wildfire technical team to generate the drawings, diagrams, and facility impact reports necessary for the project. The engineering team also tests and commissions the various systems provided by Wildfire.

- Complete submittal packages including architectural and audio/video and control drawings.
- All System Diagrams and As-Built drawings are produced in Auto CAD.
- Weekly team meetings with all participants to review project timeline and engineering drawings.
- Final testing and commissioning of system: balancing audio, equalizing sound, perform mechanical and electronic procedures delivery of equipment.

Fabrication (Pre-Build)

To minimize onsite technical problems and to speed up installation, fabrication and testing of equipment racks and sub-assemblies may be performed in one of Wildfire's facilities prior to the start of installation. The equipment racks containing the AV equipment will be wired, labeled, and tested before being shipped to site.

Factory Acceptance Testing ("FAT")

Wildfire will include checking for continuity and correct functionality and operation of all wiring, connections and equipment contained within the system. The system will also be pre-programmed as much as possible.

Control Programming

Prior to installation start date, a pre-programming meeting with client and WILDFIRE will be scheduled to define the functional requirements and associative workflows.

Wildfire Technology Integration

Proposal No. WP-4308 V 1.2

Page 6 of 28

- Clarify functional requirements with client.
- Develop and receive client approval of layout using the high-resolution logo from client.
- Program software to specific approved design for human interface control of the audiovisual systems.
- Submit sample and receive approval from client for final user interface.
- Base touch panel from drawings.
- Base program from functional list.
- Loading and testing of all control functions.

Installation

Wildfire will supply the labor, special tools and equipment needed to affect a timely installation of the system(s) according to established procedures and practices and in good and workmanlike manner to meet the schedule defined herein.

Wildfire will supply the products and equipment per the equipment list needed to make the proposed systems complete and operational. This includes both "off the shelf" and custom-built items.

Installations are overseen by a Site Supervisor, who ensures tasks are assigned appropriately, and standards are adhered to. The Site Supervisor conducts reviews of all work performed to ensure the quality of workmanship is met. The installation team conducts tests dependent on the type of equipment being installed, to ensure 100% functionality.

Commissioning, System Set-up, Testing

A function of the Engineering department, our Commissioning Engineers are responsible for bringing the system up once it is installed. After installation and termination of all cables is complete, the Wildfire Engineering Team will test and commission the installed system according to the following proven standards:

- The presence of all equipment purchased as part of this proposal will be verified.
- Signal flow will be checked throughout.
- Image and audio quality will be checked.
- Alignment of images will be performed as required by the program.
- Control of all items will be confirmed.
- Functional operations will be tested and confirmed.

Post Installation Services

- Documenting and labeling of all cables.
- Copy of all newly installed equipment that includes:
 - o equipment manuals, spec sheets, serial #'s, IP/Mac addresses, as-built room AV system drawings.
- Provide user training and orientation sessions.
- Provide service and warranty coverage contact info.

System Acceptance

Upon completion of Systems Set-up and Testing, Wildfire will demonstrate to the Client's Representative that the System performs as specified. If the performance is satisfactory, the Client will sign Wildfire's System Acceptance Wildfire Technology Integration Proposal No. WP-4308 V 1.2 Page 7 of 28

Form. In the event of agreed non-performance, Wildfire will rectify the fault(s) and re-demonstrate the system until the system performs as specified.

Completion

Substantial Completion is achieved at the point when the system is operational and ready for use or is put into use on a daily basis, at the Client's instruction. This is also considered the start of the standard workmanship warranty period.

Actual Completion is achieved at the point when the system has been accepted by the Client's Representative and the training and documentation is complete and delivered to the Client.

Training

Wildfire has included **4 hours** of training on the same day for the owner's technical representatives on site. The owner's technical representatives should be familiar with audio visual technology and if problems arise, these technical representatives will be the first line of defense. The technical representatives will also interface with the Wildfire service and support team, so it is important that all the owner's technical representatives be trained on the system operation, preventative maintenance, and troubleshooting. In summary, each technical representative will be trained on the following:

- Equipment Handling and Installation
 System Connectivity
 System Operation
 System Adjustment
- Preventative Maintenance Parts Change-out Troubleshooting

Shipping

Shipping estimate of equipment to site via ground service has been included in this proposal. Ground or freight shipping of equipment to site has been included in this proposal, according to Wildfire's Standard Terms and Conditions. If equipment needs to be expedited to site for reasons outside of Wildfire's control or sent to other locations, such as to a content producer, additional fees will apply.

Taxes

Taxes are included in this proposal.

SECTION D. | SCOPE OF WORK

OVERVIEW

The Clovis Police Department serves a community of 120,000 people and is ranked the safest city in Central Valley and is listed in the top ten present of cities in national rankings.

The Clovis Police Department is seeking to add a Real Time Information Center to an existing space in their existing building.

(bold applies):

- Prevailing wage rates apply
- Non-Union installation labor
- Hard Hats, Personal Protective Equipment and Jobsite Safety Certification
- Free Parking in front of the building
- Hours of Room Availability Mon-Fri 7:00AM-6:00PM
- Visitors should **Show Identification**
- Delivery hours of Mon-Fri 9:00AM-4:00PM
- Delivery to Loading Dock, Freight, Freight Elevator

The construction project completion date is estimated as February 2025.

The audiovisual project completion date is estimated as March 2025.

Expecting to occupy the space 1st week of March / April 2025

DESCRIPTION OF THE SYSTEMS & SPACES

The AV System Installation shall include the following space:

- Real Time Information Center (RTIC)
- > 911 Dispatch Center
- **➢** EOC
- > MDF Equipment Room

Real Time Information Center

The primary function of this room is for the analysts and selected staff members to monitor, manage and display situational awareness and real time crime events at the analysts workstations with overflow view on the new video wall system.

The video wall management system in this space will require a new array of seamless adjoining Direct View LED modules creating one canvas across the front of the room, a new controller system for the analysts to control their content viewing at their workstations or the video wall (permissions based), and a new KVM (keyboard, video, mouse) solution to combine multiple keyboards and mice with a singular keyboard and mouse.

Note: Consoles and related furniture, Rack, PC's and content sources are Owner Furnished Equipment (OFE).

AV SYSTEM DESCRIPTION

The room is located on the 1st floor of the building in an enclosed room, approximately 17' wide x 16' long with concrete walls, concrete 10' ceilings with 2x2 and 4x2 acoustic ceiling tiles.

No floor boxes, No raised flooring.

This space has no obstructive ambient light, no outer windows.

IMPLEMENTATION

WILDFIRE will perform the following "Tasks" for the implementation of the proposed custom full turnkey system solution.

A. VIDEO WALL MANAGEMENT SYSTEM

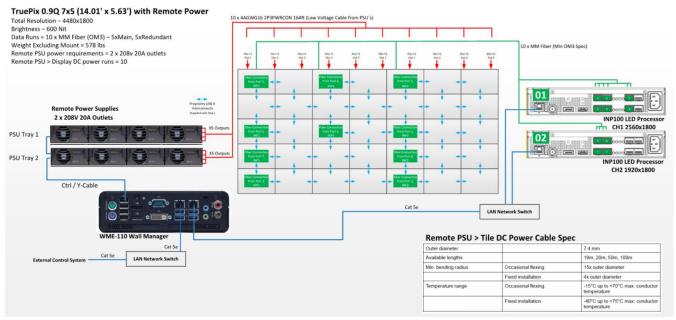

- A. Barco Video Wall Direct View LED Display System.
 - a. Provide and Install (1) new 7x5 Barco TruePix-Q 0.9mm seamless displays.
 - i. Location at front of room.
 - ii. Overall Dimensions = 14.01" W x 5.63" H
 - iii. Resolution = 4480 x 1800
 - b. Provide and Install (1) new Wall Manager Edge in customer's rack.
 - i. Analyst PC's are to be located at the analyst workstation.
 - c. Provide and install (1) new AMD Seismic rated freestanding mount structure with cladding.
 - i. Seismic Engineering Stamp included.
 - d. Provide and install (1) new Video Wall Trim Kit around the edges.
 - e. Note:
 - i. The City is responsible for removing the entrance / exit door nearest the video wall displays.
 - f. Additional Information:
 - i. Data Runs = 10 x MM Fiber
 - i. 5 redundant / 5 required / 4 spare pairs
 - ii. Max Power Consumption (W) = 5,611 at 600nits
 - iii. BTU per Hour = 19125 at 600nits
 - iv. Remote PSU power requirements = 2 x 208v 20A
 - v. Remote PSU > Display DC Power runs = 10
 - vi. Weight excluding mount = 578 lbs.
 - vii. Unistrut requirements = 5 structs, length of struts 68.09"

Wildfire Technology Integration

Proposal No. WP-4308 V 1.2

Page 10 of 28

Not actual product, sample photo only. CPD structure will be standard black.

B. RGB Spectrum Control Processing w/ KVM

- a. Provide and install (1) new Zio User Interface with XtendPoint controller.
 - i. The video wall controller will be configured and installed with RGB Spectrum Zio User Interface with XtendPoint controller system with KVM-over-IP backbone.
 - i. System to run on 2 networks.
 - ii. GUI Control PC.
 - iii. XtendPoint Transmitters (RTIC, 911, EOC & MDF).
 - iv. XtendPoint Receivers (in MDF).
 - ii. 4 analyst positions each analysts position is described below.
 - i. 2 displays and 2 PC's.
 - a. (1) OFE 49" PD network PC and (1) OFE 27" Video network.
 - b. (2) OFE PC's will control the (2) displays via a single keyboard and mouse (KVM).
 - c. Location of PC's at the analyst positions.
 - d. Note: cost increases if OFE PC's are to be located in rack room.

iii. RTIC AUX Displays

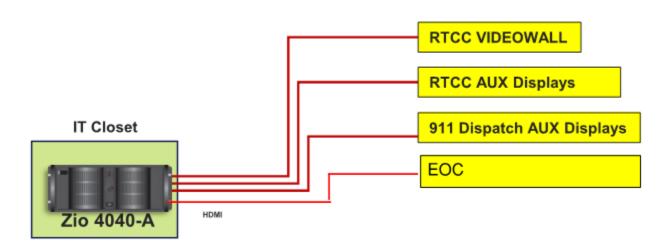

- i. Provide and install (2) new 65" wall mounted flat panel as AUX Displays to view the RTIC resources.
- ii. Provide and run necessary cabling.

iv. EOC Existing Projection System

- Connect and integrate (1) OFE ceiling mount Projector as AUX Display to view the RTIC resources.
- ii. Provide and run necessary cabling.

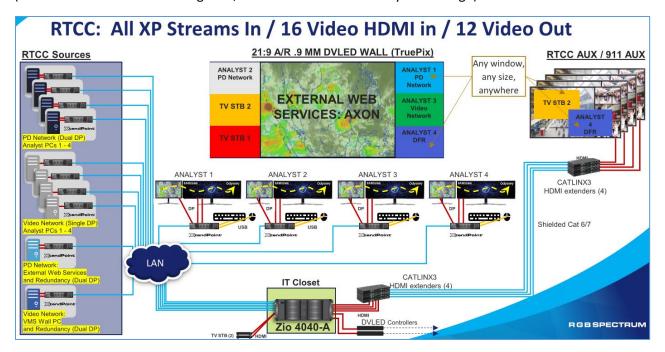

v. 911 Dispatch AUX Displays

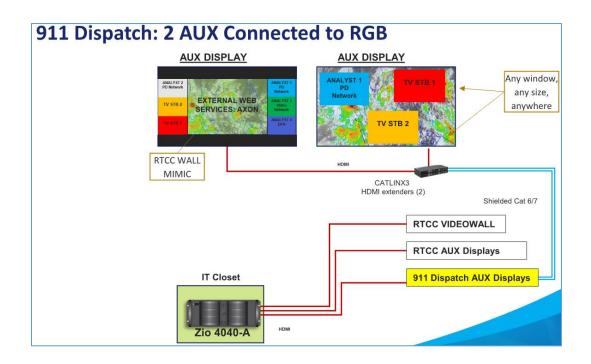

- i. Provide and install (2) new Sharp NEC 65" wall mounted flat panel displays as AUX displays to view the RTIC resources.
- ii. Provide and install (2) new Premier Mounts articulating wall mounts.
- iii. Location upper left and upper right corner of the wall with CPD artwork and logo mural.
- iv. Provide and run necessary cabling.
- vi. Note: Owner Furnished Equipment (OFE) includes.
 - i. Furniture, PC's, content sources, and analysts desk top monitors.

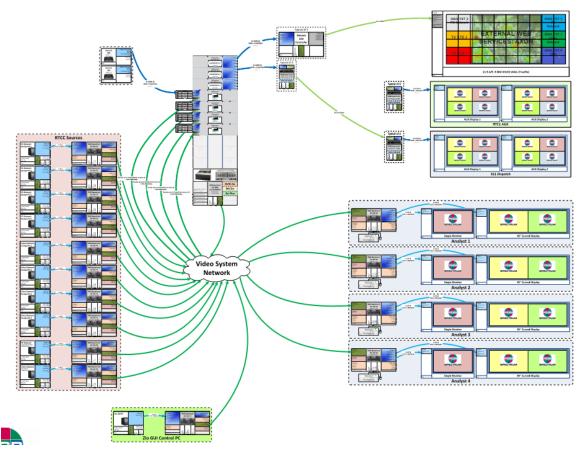

(EOC not included in below diagrams, but is included in overall system design)

C. AUDIO & CONTROL

Audio

- a. Audio for Cable TV
 - i. Provide and Install (1) new Biamp Audio Digital Signal Processor (DSP) in MDF.
 - ii. Provide and Install (1) new Audio Amplifier in MDF.
 - iii. Provide and Install (4) new ceiling speakers into 4x2 ceiling tiles.
 - iv. Provide and install (1) new encoder (control) in MDF.
 - v. Note:
 - i. Customer has requested laptop audio not be sent to the video wall management system.
 - ii. Customer has requested no Video Teleconference capability.

Control

- b. Control for Cable TV
 - i. Provide and Install (1) new Crestron MC4, 4-Series Control Engine.
 - ii. Provide and Run new IR cables from (2) cable boxes to MC4.
 - iii. Provide and Install (1) new Crestron 10" Touch Panel TS-1070 to be located on the centered on the workstations.
 - i. Functionality:

- a. Application provided to mimic the functionality of the Touchscreen at each workstation.
 - i. Power on/off for video wall, volume up/down for cable boxes, source selection for (2) cable boxes.

D. MDF - EQUIPMENT ROOM

- a. Use existing OFE rack.
- b. Location 1st Floor.
- c. Client to provide OFE UPS.
- d. Power requirements to be provided upon contract award.
- e. Provide and Run Cables from MDF to RTIC, 911 Dispatch and EOC.
 - i. Distance from RTIC room is approximately 115ft (center to center).
 - ii. Cable Runs 165ft MDF to RTIC, 911 to be verified, and EOC to be verified (estimation included).
 - i. DC Power runs.
 - ii. Fiber runs.
 - iii. Cat 6 Cable runs.

Note: Wildfire will provide all cable runs necessary for a functional system.

SECTION E. | SPECIALIZED PRODUCTS UNIQUE IDENTIFIERS

Barco Product:

TruePix 0.9 Q

- Made in Belgium
- Processing Barco's proprietary Infinipix processing offers unprecedented color accuracy, gray scale tracking, low light performance irrelevant of the brightness level of the display. It is important to be able to set the brightness of the display to a level that makes for comfortable viewing dependent on the environmental conditions. Barco's Infinipix processes internally at 23bit; this enables image integrity with respect to color accuracy and greyscale to be maintained irrelevant of the brightness level of the display. Many other displays are unable to achieve this meaning that information within the content will be lost as the brightness is decreased. Infinipix also benefits from advanced scaling, low latency and ease of use via its web-based GUI.
- Steady View Many displays can cause eye fatigue after prolonged viewing which generally leads to headaches. This is caused due to the synchronous nature by which the content is scanned onto the DVLED panels. Barco's Steady View randomizes this process thus preventing the eye from latching onto a repetitive sequence which prevents eye fatigue.
- Redundancy Designed and built specifically for mission critical applications, TruePix offers many redundant features. "Four-Way Failover", with most displays the signal from the processor is distributed serially from one LED module to the next. The downside of this is that if one module fails every module downstream from that one will lose signal, resulting in a large portion of the display turning black. Redundant processing is typically offered as a solution to this which feeds an identical signal into the other end of the chain. This works providing there is no more than one failure. With Barco's "Four-Way Failover" every module can communicate with every other module around it. This provides for multiple signal paths, meaning that in the event of a failure the signal is automatically re-routed preventing any other modules from being affected by the one failure. In addition to this Barco's Infinipix Processor allows for redundant connections between the processor and the display. This can also be taken one step further by adding redundant processors.
- Power options Barco offer both single and redundant onboard power. Remote power is also available
 allowing the power supplies to be rack mounted and low voltage cables to be utilized to the display. Remote
 power automatically provides redundancy by default. All power options are auto ranging allowing for supply
 voltages of 110V > 240V.
- Smart Mechanics Shift Insertion and parallel motorized extraction. Shift insertion derisks the entire installation process. The installation of most LED displays requires the provision of onsite spares due to the high probability that damage will be incurred to LED modules as they are inserted into the display. It is worth noting that as LED display are manufactured to order, due to the requirement of batch matched LED's; spares must be accounted for at the same time. This means that the number of spares is limited and therefore protecting those spares is critical to achieving the desired life expectancy of the display. Shift insertion allows for the placement of LED modules without any risk of damage being incurred due to the collision with an adjacent module. Different manufactures have utilized different methods by which a module can be removed from a display in the event of a failure. Most of these processes have a level of risk which can result in damage to adjacent modules. Barco's proprietary parallel motorized extraction allows for easy and risk-free removal and insertion of a replacement module. This involves holding nothing else other than a magnet up to the surface of the module requiring removal. As such this is a process that can be carried out by the user vs the need for a service tech.
- **Automatic Calibration** In the event that an LED module is replaced; the new module will automatically be calibrated without any user intervention to ensure the display stays perfectly uniform.

- Seam performance Due to the mechanical design and tight manufacturing tolerances, the seam performance between modules is exceptional. This contributes towards perfect visual performance across the entire display irrelevant of the viewing angle.
- **Future Proof**, TruePix is a platform meaning the frames are the same irrelevant of the specific module being used. Point being if at a later date there is need to increase resolution, it would just be a case of swapping the modules and adding to the front-end processing. No need to remove the frames or change most of the infrastructure supporting the display.
- Ease of use As Barco provides a complete end to end solution and does not make use of third-party processors which inevitable have to support multiple manufacturers displays; we are able to offer a truly integrated, intuitive and simple to use web-based GUI (Graphical User Interface). This simplifies setup and operation of the display.
- 23 Bit Processing Ensures perfect gray scale and color tracking irrelevant of display brightness.
- **Four-way inter-tile communication** Ensures that in the event of an LED module failure; only the effected panel will have no image.
- **Four-corner motorized tile extraction** Ensures that a panel can be exchanged by the user easily, and with little to no risk of incurring any damage.
- Automatic Tile Calibration. Ensures that no additional user intervention is required after replacing an LED module.
- **5G Fiber links between processor and LED tiles** Reduces the number of cables required between the processor and the display.
- **Redundant links between processor and display** Provides for redundant/backup lines between the processor and the display.

RGB Spectrum Product:

XtendPoint powered by Zio Wall Processor with AV-over-IP and KVM-over IP

- Made in the USA and fully TAA and BAA compliant.
- With over 30 years of experience in command-and-control solutions, RGB Spectrum brings unparalleled expertise. The XtendPoint KVM-over-IP solution is designed to meet the rigorous demands of real-time operations, offering robust, reliable support for critical decision-making.
- In mission-critical environments, like emergency communications centers and police command-and-control operations, relay of visual data and rapid assessment are crucial.
- Integrating XtendPoint with the Zio AV-over-IP platform brings additional and unparalleled command-and control functionality. The combination enables seamless integration with video walls and other front of room displays, enhancing data management and collaboration.

ZIO:

The Zio Wall Processor is a complete video, audio, and control distribution and management system that replaces traditional dedicated switchers. Zio connects to a Gigabit Ethernet switch to provide seamless video and audio switching and distribution over a dedicated or shared IP network. Encoders (transmitters) accept the computer and video signals, Decoders (receivers) feed the individual displays, and the Zio Wall Processor feeds the video wall displays.

- **Scalability:** The Zio architecture supports systems in sizes ranging from a handful of devices to large configurations. Additional endpoints can be added easily as system requirements grow.
- **Seamless Switching:** Zio offers nearly instantaneous switching, thereby overcoming one of the traditional limits of encoded video.

Wildfire Technology Integration

Proposal No. WP-4308 V 1.2

Page 17 of 28

- **Reliability:** The peer-to-peer Zio architecture avoids "single point of failure" vulnerability by providing multiple endpoints with automatic failover protection to ensure continuous operation for mission-critical applications.
- **Third-Party Control:** Zio includes an API for control by third-party control systems. Scripting enables sophisticated interaction.
- **Control:** The Zio control interface provides administrators with advanced configuration, monitoring and management tools.
- Mobile App: Extends capabilities to a mobile workforce, providing real-time access to critical information
 anywhere. The app ensures that first responders and other field personnel can view and interact with live video
 feeds and essential data on the go, facilitating more effective collaboration.

Mobile Capability:

- Each Zio encoder can connect to 10 concurrent mobile devices (though hundreds can be indexed).
- Zio Recording and Media Server can be used for relay functions to expand the number of concurrent sessions able to connect in real time to a given encoder's stream.
- Search: The Zio user interface includes search tools that make finding content quick and easy.
- Web Access: Any number of users can control distribution of content and manage endpoints using HTML5compliant web browser.
- Fast, simple, setup: Automatic device discovery eases installation and system modifications.
- **Grouping:** Zio endpoints can be assigned to groups to manage administrative functions and communications with other groups, thereby speeding up set-up and facilitating switching in complex environments.

XtendPoint:

Secure, centralized management of all networked XtendPoint endpoints is overseen through the XtendPoint Central Manager. XtendPoint is an easy-to-use software app for configuring, managing, and monitoring XtendPoint transmitter and receiver endpoints.

- XtendPoint users can create and manage password-protected user rights through XtendPoint Central Manager or use Microsoft Active Directory Services to manage user authorization.
- XtendPoint system uses HTTPS—a secure communication protocol—to send control commands over the network, encrypting audio, video, and USB signals.
- XtendPoint Central Manager Allows administrators to easily discover, configure and monitor XtendPoint endpoints on the network.
- XtendPoint Central Manager provides a system-level view of all connections between transmitter and receiver endpoints.
- Reduces clutter, heat, and noise, further enhancing the working environment and reducing operator fatigue by consolidating computers away from operators' consoles.
- Extend ultra-high resolution desktops up to 3840x2160 @60Hz.
- Support dual-monitor and quad-monitor configurations with a single encoder (transmitter) and decoder (receiver) pair.
- Deliver pristine image quality, smooth video playback, and excellent keyboard and mouse responsiveness over a LAN or WAN with latency as low as 40ms.
- XtendPoint provides a scalable KVM matrix over IP, supporting one-to-one, one-to-many, many-to-one, or many-to-many configurations.
- Operators can view multiple desktops on a multi-display or multiview operator station and take control of a system by simply moving the mouse to the target desktop using KlickSimple™ cursor navigation.

KVM-over-IP: This solution revolutionizes these processes by streamlining workflows, improving ergonomics, and even facilitating multi-office and multi-agency collaboration.

 IP distribution architecture allows seamless access to LAN or WAN networks using dedicated encoders and decoders, enabling real-time visual data sharing between operator consoles and IT closets, remote data

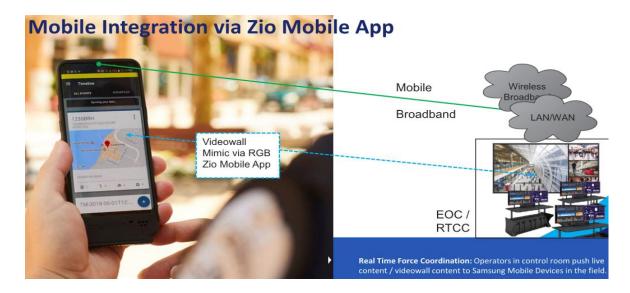

- sources, and across multiple locations, ensuring that operators, supervisors, and first responders have the information they need when they need it.
- Display and control up to eight video sources on just two large 4K multi-window displays with single keyboard and mouse control.
- Replace a cluttered, work environment containing multiple monitors and input devices with an ergonomically efficient workspace.

ADDITIONAL CAPABILITIES AND EXPANSION

Mobile Integration via Zio Mobile App

Route 911 or RTCC sources to Zio Wall Processor, where they can be "pushed" or "pulled" to an mobile device in the field.

SECTION F. | PRICE SUMMARY

A. Video Wall Management System

Full Turn-Key Solution (Design & Engineering, Equipment, Pre-Build & Test, Programming, Installation, Commissioning, and Logistics)	TOTAL
Equipment	\$405,087.72
Barco Displays 5 Years Essential Care Extended Warranty	\$45,446.40
RGB Controller 5 Years Extended Warranty	\$40,907.96
Professional Services & Labor	\$106,300.00
Shipping	\$10,550.00
Sales Tax 7.98% (on equipment only)	\$32,026.00
TOTAL	\$640,618.08

B. OPTIONS

OPTIONS	TOTAL
Barco Displays Years 5 - 7 Essential Care Extended Warranty	+ \$22,924
RGB Controller Years 5 - 7 Extended Warranty	+ \$36,546
Wildfire 1 Year Enhanced On-Site Service Support	+18,500

SECTION G. | PROJECT NOTES

Owner Furnished Equipment (OFE):

- Owner furnished equipment or equipment by others that is integrated into the systems (as described above) is
 assumed to be current industry acceptable equipment in good working order. If it is determined that this
 equipment is faulty upon installation or adversely affects the system, additional project charges may be incurred.
- Wildfire does not warrant either directly or indirectly the functionality or serviceability of any equipment not sold directly through Wildfire. Any estimates made that reference OFE are made with the client's assurance that the equipment is functional and meets the standards as required by the entire system that is being implemented.
- The client further warrants that any OFE will be available at the time of the implementation and understands that any delays in the availability of said equipment may result in significant delays in project completion and/or additional billable costs due to trip charges, schedule changes or any other costs incurred by Wildfire resulting from the equipment not being available at the time of implementation.
- Except as directly stated within the Scope of Work, Wildfire will not perform any work in the setup, maintenance or integration of OFE. Wildfire is not responsible for issues arising from the integration of Wildfire provided equipment with information systems such as security, software integration, data access or any other issue involving such integration unless specifically listed in the Scope of Work.
- Any OFE AV equipment not used for the project that is uninstalled will be returned to the owner for disposal.

Wildfire On-Site General Rules:

Wildfire is committed to quality control of the system as specified in the contract. To keep your project on time and within budget, the client is restricted from approaching the on-site installation team with modification of scope or schedule requests. WILDFIRE on-site team is required to adhere to the scope of the contract and WILDFIRE quality control process prevents scope creep. Therefore, the on-site team does not have the authorization to modify the system specification or Scope of Work (SOW).

Any request regarding changes in scope or schedule must be discussed with project manager and approved by the project manager. Changes to the contracted SOW may require change orders developed and submitted by WILDFIRE sales and project management require client's signed approval.

Client is responsible for:

- Designating a key customer representative to act as a point of contact. This individual will coordinate the activities of internal customer departments and services required for successful completion of the project.
- All permits and passes required for Wildfire personnel.
- Temporary storage area for AV equipment and installation material (equipment, cables, connectors, etc.).
- A designated trash area(s) for all packing material.
- Providing customer-furnished equipment as per Wildfire requirements for its integration.
- Customer to provide any required power.
- Providing Wildfire IP addresses for all devices we will be controlling.

Wildfire Technology Integration

Proposal No. WP-4308 V 1.2

- During onsite integration, the client will have a member of their IT department available.
- The client warrants that any items listed in the Scope of Work that are to be provided by the client prior to the start of the project will be complete. Items such as electrical outlets, phone lines, data lines, building structure or any other items to be provided by the client are to be in place prior to work beginning on the project. Delays in the completion of these items may result in significant delays in project completion and/or additional billable costs due to trip charges, schedule changes or any other costs incurred by Wildfire resulting from the equipment not being available at the time of implementation.

Assumptions and Clarifications:

- Work does not begin until deposit is paid in full or agreed upon and alternative financial terms are in place.
- This proposal assumes the use of non-union labor on site.
- This proposal assumes non-prevailing wage labor on site.
- Wildfire standard working hours shift starts anytime between 8:00am and 5:00pm for 9 hours shift with a 1-hour lunch. Any start time or overtime outside this window is subject to an hourly labor rate increase.
- The installation schedule is based upon uninterrupted and consecutive daily installation during normal business hours.
- Wildfire will assign a Project Manager as a single point of contact during the life of this project.
- Any delay or interruption in providing access to Wildfire personnel to the AV installation areas may impact the scheduled completion date and/or incur additional charges.
- All shipping via ground unless otherwise specified in writing by the Customer.
- Demolition and removal of facility infrastructure by others.
- Drawings provided and are subject to change, but the room will be the size and dimensions required for displays and viewing angles.
- All AV systems circuits require independent neutral, ground, and isolated ground conductors of equal current carrying capacity per circuit, unless otherwise noted.
- Areas will require that all free-standing equipment racks will allow the 36" of unobstructed access from the front and rear of the racks.
- Any carpet and/or drywall work/repair/removal will be by others.
- Should additional work be required that by its nature could not have been known or determined at the time this SOW was created, a written change order describing the additional work, and any related expenses will be required.

Exclusions:

The following work is not included in our Scope of Work.

- All conduits, high voltage, wiring panels, breakers, relays, boxes, receptacles, etc. Any related electrical work, including but not limited to 110/220VAC, conduit, core drilling, raceway, and boxes.
- Network connectivity, routing, switching and port configuration are necessary to support audio-visual equipment.
- Concrete saw cutting and/or core drilling.
- Fire wall, ceiling, roof and floor penetration, patching, removal, or fire stopping.

Wildfire Technology Integration

Proposal No. WP-4308 V 1.2

Page 23 of 28

- Necessary gypsum board replacement and/or repair.
- Necessary T-bar modifications, replacements and/or repair.
- Any and all millwork (moldings, trim, cut outs, etc..). All millwork or modifications to project millwork to accommodate the AV equipment is to be provided by others unless otherwise noted in this proposal.
- Painting, patching, or finishing of architectural surfaces unless otherwise noted in this proposal.
- Building permits (unless specifically provided for and identified within the contract).
- HVAC and plumbing relocation
- Rough-in, bracing, framing, or finish trim carpentry for installation.
- Cutting, structural welding, or reinforcement of structural steel members required for support of assemblies, if required.

Note:

Any applicable permits or bonds related to the project are not included unless requested by client.

Freight estimate for ground service is included.

SECTION H. | SYSTEM WARRANTY & ENHANCE SERVICE PLAN

WILDFIRE INITIAL WORKMANSHIP STANDARD WARRANTY

INCLUDED: Wildfire standard initial system workmanship warranty, warrants all provided equipment, to be free from all defects in material and workmanship under controlled, clean conditions of use and service, for a period of **(1) One year after system acceptance.**

- Source components from suppliers to Wildfire are subject to the OEM warranties and corrective actions as provided
 to Wildfire. Components, which by normal industry practices have a shorter or no warranty period, will take
 precedence over the stated warranty.
- All components subject to warranty conditions will be return to bench (RTB). Purchaser is responsible to obtain a
 Return Merchandise Authorization (RMA) number from Wildfire and prepay all return shipment to designated repair
 facility. Wildfire reserves the right to determine the best method to fulfilling the warranty requirement of a claim
 with regards to Wildfire proprietary components/systems.
- Warranty service will primarily consist of telephone and email support.
- Purchasers purchasing the Wildfire Enhanced Service Plan (if applicable) will be given preferential priority in telephone and e-mail response.
- Enhanced service plan requests (if required) will generally be conducted within 48 hours and allowing for travel, but are not a standard warranty service, rather a purchased service.
- Outside the initial warranty period, the purchaser is responsible for time, materials, travel and per diem except as covered in the Comprehensive Service Agreement (if any).
- Inclusive of the Warranty Period, individual or discrete equipment and materials purchased under this Agreement shall be covered under the manufacturer's standard warranty and take precedence to any Wildfire warranty.
- Wildfire hereby assigns all such warranties to Purchaser, and warrants it has the authority to assign such Warranties.
- Wildfire's warranty excludes fixes for damages or defect caused by abuse, external causes outside the control of Wildfire including but not limited to man-made, natural or *force majeure*, modifications not executed by Wildfire, improper or insufficient maintenance, improper operation, or normal wear and tear.
- The customer may be required to do basic troubleshooting steps on the phone with a Wildfire Technician to
 determine if the issue can be corrected on the phone or if it is confirmed failure which requires Wildfire to dispatch
 a Technician to resolve the issue.
- If it is deemed that a product is indeed defective Wildfire will dispatch a technician to the installation site to correct the issue within 48 business hours from the time the product was deemed defective. (If a replacement product is needed, that requires a lead time, will be ordered, and shipped quickest way possible, which may delay the dispatch of the technician.)
- All work will occur during normal business hours of Monday-Friday 8:00am 5:00pm with the exception of observed holidays.
- A full explanation of this service is available upon request.

This warranty shall be in addition to and not in limitation of any other warranty or remedy required by law or by the Agreement.

If the enhanced service plan is purchased, the entire system is covered by On-Site parts and labor warranty for all components within the purchased system with the exception of consumables items.

WILDFIRE ENHANCED SERVICES & SUPPORT

OPTIONAL: WILDFIRE ONE YEAR ENHANCED SERVICE PLAN

Summary of Contract Services – ENHANCED PLAN

- 1) ENHANCED priority service status with service support desk response, via email or phone call.
 - Open a ticket @ support@wildfireav.com
 - Call 888-333-9127
- 2) 8:30 AM 5 PM local time Monday through Friday Service Help Desk call support.

(Added as an option - not included in Video Wall Management System Pricing)

SECTION I. | TERMS AND CONDITIONS

- 1. Wildfire's standard milestone-based payment terms are listed below:
 - i. 40% deposit due upon signed contract acceptance Wildfire mobilizes internally a project engineer is assigned, and design and drawings are scheduled; a project manager is assigned, and a complete project schedule is developed. Upon engineering approval and sign-off of the equipment, purchasing will order materials to arrive within the appropriate timeframe that ensures installation is taking place as scheduled. The project manager may make a site visit if necessary. The work to be performed under the terms of this agreement shall commence immediately upon receipt of the signed agreement and deposit.
 - ii. **40% upon successful factory testing** All engineering has been completed; programming is in process; and all equipment has been purchased and has been delivered to the Wildfire or the end user. Assembly of racks begins; testing takes place and factory testing is performed; installation is now ready to take place on-site.
 - iii. **10% due upon receipt of Substantial Completion** The system is functional, however there may be punch list items that need to be completed.
 - iv. **10% Upon final completion Due Net 30 Days upon acceptance and signoff** The system is functional; any punch list items have been taken care of; manuals complete with warranty, guarantee and as-built drawings have been sent; and training is complete.
 - v. Any delinquent payments will bear interest at a rate of 1.5% per month (or, if lower, the highest rate permitted by law).
- 2. This Proposal, Statement of Work and Scope of Work shall be accepted upon Buyer's delivery of a Purchase Order and/or a signed, unrevised Statement of Work. Terms and conditions of sale as described in this proposal supersede all prior quotations, purchase orders and other prior communications between Buyer and Seller. Any change order to the proposal shall not be effective unless signed by both Buyer and Seller.
- 3. In the event of a conflict or variance between the terms and conditions herein and Buyer's Purchase Order, the terms and conditions herein shall prevail.
- 4. CANCELLATION: Customer is subject to cancellation fees once this proposal has been fully executed and/or Wildfire is in receipt of a Purchase Order. Please notify Wildfire immediately if cancellation and or returns are necessary. Product order that is cancelled is subject to a minimum 15% restocking fee. Should the manufacturer charge more or not accept the product for return, then the customer will be charged additionally or in full. If a cancellation of a System installation occurs, then any labor and materials charges that have been incurred, will be invoiced to the customer. Design and consulting fees will be charged to the customer. Postponement of jobs by the customer is subject to storage and finance charges, should the materials have been ordered. General and Administrative fees may be charged to the customer as well.
- 5. COLLECTIONS: Client agrees to pay any and all attorney's fees, collection fees, and expenses incurred to collect unpaid balances.
- 6. ESTIMATED DELIVERY: 12-24 weeks' lead time is expected from receipt of PO to commissioning.
- 7. FREIGHT: Wildfire freight estimate is included and if necessary, add additional freight fees to the final invoice.
- 8. TAXES: Payment of all required taxes remains the responsibility of the Customer. Wildfire is authorized and obligated to collect sales tax, and shall do so unless the Customer furnishes a valid tax exemption certificate, or notifies us of their intention to direct pay.
- 9. TITLE: Title to the goods shall pass to Buyer only when Buyer has made full payment. Until title passes on receipt by Seller of full payment, Buyer shall have the right of repossession in the event of Buyer's default of its payment obligations under this Proposal or should Buyer become insolvent or file for bankruptcy. Buyer or his agent shall have the right to enter onto Seller's premises to repossess the goods. Buyer shall mark or otherwise segregate the goods from other goods. While Buyer has custody of the goods, Buyer shall be responsible for risk of loss and casualty insurance for the replacement value of the goods.
- 10. STANDARD WARRANTY: Wildfire warrants workmanship including cable and connectors for a **period of (1) one year.** Optional Service Plans are available at an additional charge.

11. DISPUTES: Any and all disputes arising out of this transaction shall be governed by the laws of New Jersey irrespective of the location of the services to be provided or goods delivered. All questions regarding the validity or interpretation of these sales documents and any dispute, controversy or claim of any nature arising from this transaction shall be subject to the exclusive jurisdiction of the Courts of Common Pleas of New Jersey and the parties consent to the jurisdiction of that court.

SECTION J. | ACKNOWLEDGEMENT AND ACCEPTANCE

On behalf of the entire Wildfire Team, we are honored to be considered for this project. We believe that with our years of experience and professional team, Wildfire is the right partner for you and your company. We welcome the opportunity to present our ideas and approach to you and your team in person and answer any questions you may have. We look forward to hearing from you.

Signature below or the issuance of a purchase order constitutes an agreement between

City of Clovis Police Department and Wildfire Technology Integration, LLC to the terms and conditions listed herein. Applicable state and local sales tax will be added at the time of purchase.

This proposal is valid for 35 days* from date of proposal.

CITY of CLOVIS

REPORT TO THE CITY COUNCIL

TO: Mayor and City Council

FROM: Administration

DATE: December 9, 2024

SUBJECT: Consider various actions related to the November 5, 2024, Clovis

General Municipal Election for Clovis City Council and Measure Y (Sales

Tax):

a. Consider Approval – Res. 24-___, Declaring the results of the November 5, 2024, Clovis General Municipal Election for Clovis City

Council and Measure Y.

b. Oath of Office: Councilmembers Ashbeck and Mouanoutoua

Staff: Briana Parra, City Clerk **Recommendation:** Approve

ATTACHMENTS: 1. Res. 24-

RECOMMENDATION

For the City Council to approve Resolution 24-___, Declaring the results of the November 5, 2024, Clovis General Municipal Election for Clovis City Council and Measure Y.

EXECUTIVE SUMMARY

As previously requested by the City Council, the City of Clovis municipal election was consolidated with the statewide general election, and the Fresno County Clerk/Registrar of Voters conducted the consolidated election including the municipal election. The municipal election included the election of two City Council members and Measure Y, a proposed 1.0% increase to the Sales Tax. The official canvass of ballots cast for the November 5, 2024, Consolidated Statewide General Election, including the City's municipal election, has been completed by the Fresno County Clerk/Registrar of Voters in accordance with applicable provisions of the California Elections Code.

Attached for Council's review is a copy of the Fresno County Clerk/Registrar of Voters Statement of Votes Cast certifying the results of the canvass, and the certification from the City Clerk as required by Elections Code Section 10262.

FISCAL IMPACT

None.

REASON FOR RECOMMENDATION

The Council is required by Elections Code Section 10263 to declare the results of the election before the new Councilmembers can be sworn into office.

ACTIONS FOLLOWING APPROVAL

After the resolution is approved, the City Clerk will administer the Oath of Office to the newly elected Councilmembers.

CONFLICT OF INTEREST

None.

Prepared by: Briana Parra, City Clerk

Reviewed by: City Manager 774

RESOLUTION 24-___

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF CLOVIS DECLARING THE RESULTS OF THE MUNICIPAL ELECTION HELD IN THE CITY OF CLOVIS ON NOVEMBER 5, 2024

WHEREAS, the City of Clovis municipal election was consolidated with the Statewide General Election held and conducted in the City of Clovis, on Tuesday, November 5, 2024, as required and prescribed by law, for the purpose of the voters electing two (2) members of the City Council for the term of four (4) years (December 2024 – November 2028) and for the voters to consider a proposed Measure Y, a proposed 1.0% increase to the Sales Tax; and

WHEREAS, it appears to the satisfaction of the City Council of the City of Clovis that notice of the holding of said election was duly and legally given for the time and in the manner prescribed by law, that the voting precincts were properly established, that the election officers were appointed and election supplies furnished, and that in all respects, said election was held and conducted, and the votes cast have been received and canvassed, and the returns thereof made and declared in the time, form, and manner as required by applicable provisions of the Elections Code of the State of California; and

WHEREAS, the Council of the City of Clovis met in the Council Chamber of the Clovis Civic Center, 1033 Fifth Street, in the City of Clovis on Monday, December 9, 2024, at the hour of 6:00 P.M., to examine the Statement of Votes Cast at said election as certified by the Fresno County Clerk/Registrar of Voters and provided to the City Clerk as the City's election official, declare the results of said election, and install the newly elected officers in accordance with applicable provisions of the Elections Code of the State of California. Said County Clerk/Registrar of Voters having canvassed said returns in the form and manner required by law, and having certified the results of the canvass of the election returns to the City Clerk, and the City Clerk having certified the results to the City Council as required by Elections Code Section 10262(b), and said results are received, attached, and made a part hereof as **Attachment A**, the Council finds that the whole number of votes cast, results, and all other matters required by law, to be as hereinafter stated.

NOW, THEREFORE, BE IT RESOLVED, by the City of Clovis, as follows:

SECTION 1: That said election was held and conducted in the City of Clovis on Tuesday, the 5th day of November 2024, in the time, form and manner required by law.

SECTION 2: That there was a total of 25 voting precincts, consisting of consolidations of the regular election precincts of the City of Clovis, established for the holding of state, county, and municipal elections.

SECTION 3: That the total number of ballots cast in said City at said election is 56,410, the names of the persons voted for and the whole number of votes received is as shown in **Attachment A**, and the results as shown in **Attachment A** are hereby approved.

SECTION 4: That at said election, two persons, Lynne Ashbeck and Vong Mouanoutoua were elected Council Members for a term of four (4) years through November 2028.

SECTION 5: A Certificate of Election shall be executed and delivered to each person so elected. The City Clerk shall administer, to each person so elected Council Member, the oath of office prescribed in the State Constitution, and have each of them subscribe thereto, whereupon they shall be inducted into the respective offices to which they have been elected.

SECTION 6: The measure voted upon at said election was as follows:

MEASURE Y - CITY OF CLOVIS PUBLIC SAFETY/CITY SERVICES MEASURE:

"Shall the measure maintaining 9-1-1 emergency medical/police/fire/paramedic response, fire protection, police patrols; keeping public areas safe/clean; retaining local small businesses/jobs; protecting local drinking water sources; accelerating repairs to streets/roads; addressing homelessness; maintaining youth, parks programs; and other general services, by establishing a 1¢ sales tax providing approximately \$28,000,000 annually until ended by voters; requiring public spending disclosure, all funds spent locally, be adopted?"

SECTION 7: The number of votes given at each precinct, and the number of votes given in the City for and against Measure Y are listed in the Statement attached as **Attachment A**.

SECTION 8: The City Council declares and determines that a majority of the voters voting on Measure Y did vote in favor of the measure, and that the measure was successful.

City Clerk

SECTION 9: In accordance with Elections Code section 10264, the City Clerk shall enter on to the records of the City of Clovis the Statement of the results of the election attached hereto as **Attachment A**, showing: (a) the whole number of votes cast in the City; (b) the measure voted upon; (c) the number of votes given at each precinct for and against the measure; and (d) the number of votes given in the City for and against the measure.

The foregoing resolution was introduced and adopted at a regular meeting of the City Council of the City of Clovis held on December 9, 2024, by the following vote, to wit.

CITY of CLOVIS

REPORT TO THE CITY COUNCIL

TO: Mayor and City Council

FROM: Administration

DATE: December 9, 2024

SUBJECT: Workshop to begin discussion of how city growth impacts county roads

and joint efforts to improve safety.

Staff: Councilmember Ashbeck

Recommendation: Provide Direction

ATTACHMENTS: None.

RECOMMENDATION

Begin discussion of how Clovis's growth impacts county roads and joint efforts to improve safety.

The joint workshop will be introduced by Mayor Lynne Ashbeck and Board of Supervisors Nathan Magsig.

City Engineer Thad Avery, Fresno County Public Works and Planning Director Steve White and CUSD Assistant Superintendent Denver Stairs will give a verbal presentation on this item.

City of Clovis

- Introduction
 - History of issues in the vicinity
- Planning & Development Services
 - Development projects currently approved
 - Estimated timing of projects within the next 5 years
 - Additional grants and programs to aid with improvements
- Public Outreach and Safety

Fresno County

CITY of CLOVIS

REPORT TO THE CITY COUNCIL

TO: Mayor and City Council

FROM: Finance Department
DATE: December 9, 2024

SUBJECT: Consider Approval - 2023-24 Annual Comprehensive Financial Report.

Staff: Jay Schengel, Finance Director

Recommendation: Approve

ATTACHMENTS: 1. 2023-24 Annual Comprehensive Financial Report (ACFR)

2. Statement on Auditing Standards Letter

RECOMMENDATION

For the Council to approve the 2023-24 Annual Comprehensive Financial Report.

EXECUTIVE SUMMARY

Annual Comprehensive Financial Reports (ACFR) are a primary objective source of information to most persons concerned about a government's financial condition. Taxpayers are interested in the amount of revenues and expenditures. Investors and bond-rating agencies are interested in the ability of a jurisdiction to meet its debt obligations. For the City Council, the financial reports provide an opportunity to determine compliance with budgetary appropriations as well as the status of the government's assets and liabilities and the financial condition of the City.

The City of Clovis' 2023-24 ACFR was audited and received an unqualified opinion from The Pun Group, LLP, a firm of independent, licensed certified public accountants, which means the financial statements for the fiscal year ending June 30, 2024, are free of material misstatement and are fairly presented in conformity with Generally Accepted Accounting Principles (GAAP).

BACKGROUND

The 2023-24 ACFR represents the City's financial, operational, and current economic condition for the fiscal year ending June 30, 2024. The City's financial statements for this period have been audited by The PUN Group, Certified Public Accountants, the City's independent auditing firm. Their Independent Auditors Report has been incorporated into the ACFR and their opinion letter is included on pages 13 - 15. The auditors have also prepared the Statement on Auditing Standards (SAS114) letter (Attachment 2) that was submitted subsequent to the completion of the financial report.

State law requires the City of Clovis to prepare a complete set of audited financial statements. The attached 2023-24 ACFR fulfills this requirement.

The PUN Group has audited the City's financial statements prepared by finance staff for the fiscal year ended June 30, 2024, and have provided an unqualified (clean) opinion. An unqualified opinion concludes that the ACFR presents fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, and the respective changes in financial position. This audit includes a review of the City's financial records, internal controls, management of assets and review of major account balances and large dollar activities to validate year-end balances. There were no audit findings for fiscal year 2023-24.

The ACFR is prepared annually in accordance with GAAP and reporting standards established by the Governmental Accounting Standards Board (GASB), as verified during the independent auditor's examination. The June 30, 2024, ACFR continues to comply with the GASB reporting standards.

The financial statement information and audit opinion, as well as additional narrative and statistical information, is presented within the ACFR. The layout of the ACFR follows guidelines established by the Government Finance Officers Association (GFOA). Four major sections are presented:

- Introductory Section This section includes the Letter of Transmittal, which discusses
 the profile of the City and factors affecting the City's financial condition along with the
 City's long-term policies and plans. Additionally, this section includes the GFOA
 Certificate of Achievement for Excellence in Financial Reporting for the prior fiscal
 year, the City's Organizational Chart, and a listing of the City of Clovis' principal
 officials.
- Financial Section This section includes the Independent Auditor's Report, Management's Discussion and Analysis, the audited financial statements, the notes to the financial statements and additional required supplementary information.
- Statistical Section This section includes supplemental data not evident in the Financial Section, such as financial trend information and demographic information.
- Single Audit Section This compliance-based audit is required by law for government entities with federal expenditures in excess of \$750,000. This audit includes an audit of both the financial statements and the federal awards. This section includes the Independent Auditor's Report on internal controls and compliance for each major program along with the Schedule of Expenditures of Federal Awards and notes to those expenditures. Finally, the Appropriations Limit Schedule and corresponding notes complete the section.

Two Kinds of Financial Statements - Two distinct forms of information are provided in the basic financial statements:

Government-wide statements. These are consolidated financial statements for all of a city's operations on a full accrual basis of accounting. They are not presented on a fund basis; instead, fiscal operations are organized into two major activities: governmental and business-type. They will have a "net position" focus and exclude interfund transactions (such as internal service funds) and fiduciary funds. Expenses (which may include allocated "indirect costs") are shown both gross and net of related revenues such as fees and grants (see page 31).

Fund statements. In meeting stewardship and accountability concerns, financial statements are also presented on a fund basis - but not using the same basis of accounting as the government-wide statements for governmental funds (see pages 32-43).

Because there are differences in the basis of accounting and scope of transactions, there are significant differences between these two financial statements - but they are not obvious. For this reason, a detailed reconciliation between them is required as part of the audited basic financial statements (see page 34).

The ACFR includes all funds of the City. In addition to the City's funds, the Clovis Successor Agency, a private purpose trust fund separate from the City, is reported in the ACFR.

This is the thirty-sixth year that the City's Finance Department has prepared the Annual Comprehensive Financial Report. The previous reports prepared by the Finance Department (1987-88 through 2022-23) were submitted to the Government Finance Officers Association (GFOA) for consideration of the GFOA Certificate of Achievement Program. The City subsequently received the Certificate of Achievement for Excellence in Financial Reporting presented by the GFOA for each of these years. We believe the report for 2023-24 continues to meet the requirements of the Certificate of Achievement Program and will be submitted to GFOA for review.

FISCAL IMPACT

This information provided in the ACFR is important to the Council, public, and financial institutions to affirm that the City's financial activity is accounted for in accordance with GAAP. In addition, the ACFR includes all necessary disclosures to provide an understanding of the City's financial activities and fiscal condition.

REASON FOR RECOMMENDATION

The Annual Comprehensive Financial Report is formally being submitted to the Council.

ACTIONS FOLLOWING APPROVAL

After receipt by the Council, the ACFR will be distributed to interested parties, other agencies, financial institutions, bond-rating services, and copies will be made available for public review. In addition, the ACFR will be submitted to the GFOA for consideration of the GFOA Certificate of Achievement Program.

CONFLICT OF INTEREST

None.

CITY of CLOVIS, CA 93612

November 25, 2024

To the Honorable Mayor, Members of the City Council, and Citizens of the City of Clovis:

It is with pleasure that I present to you the City of Clovis Annual Comprehensive Financial Report (ACFR). This report has been formatted to comply with the financial reporting model as prescribed by the Governmental Accounting Standards Board (GASB). These statements have been audited in accordance with Generally Accepted Auditing Standards (GAAS) by a firm of licensed certified public accountants as required by State law. Pursuant to that requirement, we hereby issue the ACFR of the City of Clovis for the fiscal year ended June 30, 2024.

This report consists of management's representations concerning the finances of the City of Clovis. Consequently, management assumes full responsibility for the completeness and reliability of all information presented in this report. To provide a reasonable basis for making these representations, management of the City of Clovis has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Clovis' financial statements in conformity with Generally Accepted Accounting Principles (GAAP). Because the cost of internal controls should not outweigh their benefits, the City of Clovis' comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatements. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Clovis' financial statements have been audited by The Pun Group LLP. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Clovis for the fiscal year ended June 30, 2024, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was reasonable basis for rendering an unmodified opinion that the City of Clovis' financial statements for the fiscal year ended June 30, 2024, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Clovis' MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The City of Clovis, incorporated in 1912, as a general law City of the State of California, is located near the middle of the state in the San Joaquin Valley. The Central Valley is considered to be a national and world leader in the agricultural industry. The City of Clovis currently occupies over 25 square miles and serves a population of 126,133.

The City of Clovis operates under the council-manager form of government. Policy-making and legislative authority are vested in a governing council consisting of the mayor and four other members. The council is elected on a non-partisan basis. Council members serve four-year staggered terms, with two council members elected in one election and three elected in another election, separated by two years. The mayor is selected from among the council members by the council members and serves a two-year term. All five members of the governing board are elected at large. The council is responsible, among other things, for passing ordinances, adopting the budget, appointing committees, and hiring the City's manager and attorney. The City manager is responsible for carrying out the policies and ordinances of the governing council, for overseeing the day-to-day operations of the government, and for appointing the heads of the various departments.

The City of Clovis provides a full range of services, including police and fire protection; the construction, maintenance, and cleaning of streets and other infrastructure; planning and development services; water service; refuse collection, disposal, and recycling services; sewer service; storm drainage; transit services; recreation activities and cultural events; and general administration.

The annual budget serves as the foundation for the City's financial planning and control. All departments of the City are required to submit requests for appropriations to the City manager during the second week of March each year. The City manager uses these requests along with input from the council to develop a proposed budget. By the second Monday in May the proposed budget is presented to the City council for review. The council is required to hold public hearings on the proposed budget and to adopt a final budget by no later than June 30, the close of the City of Clovis' fiscal year. The appropriated budget is prepared by fund and department. The City manager may make transfers of appropriations between departments within a specific fund of up to \$5,000 and up to \$2,500 from reserves. Transfers in excess of those amounts require council action. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, the budget-to-actual comparison is presented on page 35 as part of the basic financial statements. For all other governmental funds with appropriated annual budgets, other than the general fund, this comparison is presented in the governmental fund subsection of this report, which starts on page 92.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City of Clovis operates.

Local economy. The City's unemployment rate in June of 2024 was 4.5% and has held steady this past year. The City is beginning to see a decline in historically high sales tax revenue from last year as residents struggle with the impacts of high inflation and rapidly increasing interest rates. The City has also enjoyed higher than average retail sales when compared to other cities and the state, and significantly better occupancy at hotels than experienced elsewhere. This has rapidly increased the City revenues, but the rate of increase is proving to be unsustainable and has begun to drop off. The recovery was coupled with historic inflation rates, nearing 10% and coming down to 4% in June of 2024. This inflationary pressure pushed the Federal Reserve to make rapid increases in interest rates to moderate demand.

The national economy is forecasted to slow, but a recession is not being forecast in the next year. However, some signs of slowing are evident. As was evident during the 2020 recession, the City's efforts over many years to build a strong and diverse economy that attracts high quality businesses, employees, and residents to our community will be key in walking through more uncertainty.

In addition, the City is faced with a rapidly changing environment. The method of product delivery is transitioning to non-taxable digital services and delivery services rather than brick and mortar locations. Many employees are continuing to telecommute, changing daily traffic patterns, and finding labor is a continued challenge. This has resulted in changes in real estate demand. In this, there are opportunities for the City to address the changes in the upcoming General Plan Update and projects such as the Shaw Avenue revitalization strategy being developed. The City has also supported and leveraged the large and continued increases in entrepreneurial start-ups.

As we gain deeper knowledge of the economic shifts that rapidly occurred during the pandemic, it has confirmed that the City is on solid ground economically with new businesses, ideas, and ways of doing business to keep Clovis strong for the long run despite short term challenges in the labor market, inflationary pressures, and monetary policy. The fundamentals of a well-educated community, excellent infrastructure, good land use policies, and a heritage of hard work will provide for an economic engine that gives hope for the future. Continuing a spirit of partnership with Clovis businesses is going to be critical in reaching mutual goals of a vibrant community that allows for success of all residents.

The City of Clovis is part of the Fresno/Clovis Metropolitan Area. This includes the City of Clovis, City of Fresno and the developed areas of the County of Fresno. The population of Fresno County is 1,017,431 as of January 1, 2024. The City's population of 126,133 experienced a .1% growth in 2024 compared to a .1% growth rate in the County. There are approximately 429,000 jobs in Fresno County. The City of Clovis has 56,500 employed out of a total labor force of 59,400 with many Clovis residents employed outside of the City limits.

Major employers include Target and Costco with over 400 employees, Clovis Community Hospital with over 2,900 employees, Wawona Frozen Foods with over 700 employees, Anlin

Industries with 500 employees, the County of Fresno with over 1,800 employees, and the largest employer, Clovis Unified School District with over 5,200 employees. Of the approximately 40,000 total jobs in Clovis, 14,199 jobs are generated by the City's top ten employers.

Long-term financial planning. As part of the City of Clovis land use planning process, the City's completed General Plan is at the top of the City's land use regulation hierarchy. It is the foundation for most of the Council's budgeting decisions in terms of capital facilities, staffing, programs, utility infrastructure, and levels of service; it establishes a land use pattern for lands beyond the City limit; it provides the vision and guidance for capital improvements and the development of City infrastructure; and it is used to create development impact fees and provides the basis for environmental analysis of the growth of the City. The plan is intended to guide development for a period of ten years and will be the basis of the City's annual 5 year operating and capital forecast.

Part of the previous General Plan was the construction of a wastewater treatment plant to serve the needs of the new growth area. The plant is expected to accommodate growth through 2033 when construction of phase two of the facility is anticipated. The wastewater treatment plant creates approximately 2.8 million gallons of disinfected recycled water each day and distributes this water through a "purple pipe" distribution system for landscape irrigation throughout the east side of the City. The reuse of this water will help conserve and manage a limited water supply.

Also, to finance current growth, the City has in place a variety of user and developer fees to pay for streets, parks, water wells and lines, and sewer lines. The City reviews these fees on an annual basis to assure that the fee structure is in line with the cost of construction. The Water and Sewer Funds have approved annual increases of 3% into the future if necessary. The Community Sanitation Fund has approved annual increases of 4% into the future if needed. For fiscal year 2023/24, the City implemented a 3% annual increase in water and sewer rates and a 4% annual increase in refuse, residential recycling, greeenwaste and street sweeping rates. The Sewer Fund bond surcharge of \$7.30 was fully rebated for the fiscal year.

Structurally Balanced Budget Policy. Prior to the economic recession, in fiscal year 2006/07, the City Council utilized the emergency reserve when budgetary demand for services exceeded available resources. However, with a decline in building activity beginning in the fall of 2007, the City Council acted quickly to cut costs and services to ensure a balanced budget. Although it was necessary in 2007/08 to utilize additional funds from the emergency reserve, the efforts of the Council to develop a "structurally balanced budget" has paid off and the reserve has been rebuilt from 5.5% of expenditures in 2007/08 to 20.3% of the 2024/25 general fund budgeted expenditures. The Council is determined to maintain a structurally balanced budget where current estimated expenditures are within projected current revenues in order to provide budgetary stability for all operating budgets.

Assigned for Emergencies. The City currently has a policy to assign a portion of its fund balance for emergencies. These emergencies can range from major catastrophic incidents to significant economic downturns. The City Council annually considers an increase in the fund balance assigned for emergencies whenever there is unexpected or one-time revenue or expenditure savings are realized. The use of the assigned fund balance must be approved by 4/5ths of the Council.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Clovis for its ACFR for the fiscal year ended June 30, 2023. This was the thirty sixth consecutive year that the City has received this prestigious award. To be awarded a Certificate of Achievement, the City published an easily readable and efficiently organized ACFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the City also received the GFOA's Distinguished Budget Presentation Award for its annual budget document dated July 1, 2024. To qualify for the Distinguished Budget Presentation Award, the governments' budget document was judged to be proficient in several categories, including as a policy document, a financial plan, an operations guide, and a communications device.

The preparation of this report has been accomplished with the efficient and dedicated service of the City's Finance Department. I would like to express my appreciation to everyone who assisted in its preparation, especially, Gina Daniels, Jeff Blanks, Susan Evans, Jose Reynoso, Jose Cortez and Ran Chan.

Respectfully submitted,

Jay Schengel, CPA Finance Director

Government Finance Officers Association

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and Members of City Council of the City of Clovis
Clovis, California

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Clovis, California (the "City"), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of June 30, 2024, and the respective changes in financial position, cash flows, and the budgetary comparison schedule for the General Fund, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

To the Honorable Mayor and Members of City Council of the City of Clovis
Clovis, California
Page 2

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
 error, and design and perform audit procedures responsive to those risks. Such procedures include
 examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedules of Changes in Net Pension Liability and Related Ratios, and the Schedule of Pension Contributions as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

To the Honorable Mayor and Members of City Council of the City of Clovis
Clovis, California
Page 3

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The Combining and Individual Fund Financial Statements and Budgetary Comparison Schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Individual Fund Financial Statements and Budgetary Comparison Schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

The Ren Group, UP

In accordance with *Government Auditing Standards*, we have also issued our report dated November 25, 2024 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

San Diego, California November 25, 2024

Management's Discussion and Analysis

This discussion and analysis of the City of Clovis' financial performance provides an overview of the City's financial activities for the fiscal year ended June 30, 2024. Please read it in conjunction with the accompanying transmittal letter, the basic financial statements and the accompanying notes to those financial statements.

Financial Highlights

The City's government-wide total assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources (net position) at the close of the fiscal year by \$1.04 billion, which is 5% more than 2023. Of this amount, \$91 million is in unrestricted net position, which is available to meet the City's ongoing commitments to citizens and creditors.

The City's General Fund, including Landscape Maintenance, Parking and Business Improvement (PBIA), and Supplemental Law Enforcement, ended the year with a fund balance of \$38 million, which represents a small increase from the previous year. The unassigned balance of \$4.2 million is available for carryover to fund future general fund expenditures.

During the year, approved rates for recycling and green waste programs increased by 4% along with a 4% increase in the refuse collection and disposal program. A 3% increase in the Water and Sewer Funds were implemented during the 2024 fiscal year. The City continued to rebate the full sewer bond surcharge of \$7.30 per month.

Overview of the Financial Statements

This annual report consists of a series of financial statements. These statements include all activities of the City of Clovis, using the integrated approach as prescribed by GASB Statement No. 34. The Statement of Net Position and Statement of Activities provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Fund financial statements tell how these services are financed in the short term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. The remaining statements provide financial information about activities for which the City acts solely as a trustee or agent for the benefit of those outside the Government.

Reporting the City as a Whole

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances. These statements include all assets and liabilities of the City using the *accrual basis of accounting*, which is similar to the accounting method used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid out.

The *statement of net position* presents information on all the City's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as one indicator of whether the City's financial position is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed in the most recent fiscal year. All changes of net position are reported as soon as the underlying event giving rise to the change occurs. Thus, revenues and expenses are reported on this statement for some items that will result in cash flows in future fiscal periods (e.g. earned but unused vacation leave).

The government-wide financial statements of the City are divided as follows:

Governmental Activities: Most of the City's basic services are included here such as public safety, transportation (street and roads), community development, culture and recreation and general government. These services are primarily financed by property and sales taxes and federal and state grants.

Business-type Activities: The City charges fees to customers to cover the costs of services provided. The City's utilities, water, sewer, community sanitation (refuse and street cleaning), planning and development services as well as public transit services are included here.

The government-wide financial statements can be found on pages 30-31 of this report.

Fund financial statements. The fund financial statements provide more detailed information about the City's most significant funds, not the City as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Some funds are required to be established by State Law or by bond covenants. Management establishes other funds to control and manage money for particular purposes or to show the City is meeting legal responsibilities for using certain taxes, grants, and other money. All the funds of the City can be classified into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other financial assets that can readily be converted to cash. Such information is useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the governmental funds with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide reconciliation between governmental funds and governmental activities. This reconciliation explains the relationship (or differences) between the fund statements and the government-wide statements.

The City of Clovis maintains seven individual governmental funds. Information is presented separately in the governmental funds' balance sheet and in the governmental funds' statement of revenues, expenditures, and changes in fund balances for the General Fund and the Local Transportation Fund, both of which are considered major funds. Data from the other five funds are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for the General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance to this budget. The basic governmental fund financial statements can be found on pages 32-35 of this report.

Proprietary funds. The City has two different types of proprietary funds, enterprise funds and internal service funds. Enterprise funds are used to report the same functions represented as business-type activities in the government-wide financial statements. The City utilizes enterprise funds to account for those activities that are supported primarily by user charges to external users, and includes community sanitation, sewer disposal, water, transit and planning and development services. Internal service funds are used to account for activities that are supported by user charges primarily to the City's other programs and activities and include employee benefits, general services, self-insurance and fleet services. Because all these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for each of the enterprise funds since they are all major funds. All the internal service funds are combined into a single, aggregated presentation in the fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report. The basic proprietary fund financial statements can be found on pages 36-41 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefits of parties outside the city. Fiduciary funds are **not** reflected in the government-wide financial statements because the City cannot use these funds to finance its operations. The basic fiduciary fund financial statements can be found on pages 42-43 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund statements. The notes to the financial statements can be found on pages 44-82 of this report.

Government-wide Financial Analysis

Below is a table showing the City's net position for the fiscal year ended June 30, 2024, with comparative data for the fiscal year ended June 30, 2023.

City of Clovis' Net Position

	Govern	mental	Busine	ss-type				
	activities		activ	vities	Total			
	2024 2023 2024		2023	2024	2023			
Current and other assets	\$ 204,221,975	\$ 194,225,820	\$ 182,456,659	\$ 180,168,967	\$ 386,678,634	\$ 374,394,787		
Capital and intangible assets	733,488,241	695,091,365	287,182,814	283,439,214	1,020,671,055	978,530,579		
Total assets	937,710,216	889,317,185	469,639,473	463,608,181	1,407,349,689	1,352,925,366		
Deferred Outflows of Resources	38,297,623	40,425,670	10,301,502	11,539,472	48,599,125	51,965,142		
Long-term liabilities outstanding	234,575,496	224,996,672	140,585,580	147,410,288	375,161,076	372,406,960

Total liabilities	250,607,978	239,093,561	157,760,123	162,401,814	408,368,101	401,495,375		
Deferred Inflows of Resources	2,866,503	4,226,807	3,818,342	3,737,850	6,684,845	7,964,657		
Net Position:								
Net investment in capital assets	707,385,881	668,222,549	197,511,336	186,867,688	904,897,217	855,090,237		
Restricted	45,148,172	50,688,092	2,105	2,214	45,150,277	50,690,306		
Unrestricted	(30,000,695)	(32,488,154)	120,849,069	122,138,087	90,848,374	89,649,933		
Total net position	\$ 722,533,358	\$ 686,422,487	\$ 318,362,510	\$ 309,007,989	\$ 1,040,895,868	\$ 995,430,476		

As of June 30, 2024, the City's government-wide total assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources (net position) by \$1.04 billion. Governmental activities finished the year with a positive net position balance of \$723 million, an increase of \$36 million, or 5%, over 2023. Business-type activities finished the year with a positive balance of \$318 million, an increase of \$9 million, or 3%, over 2023. Net position, as noted earlier, may serve over time as a useful indicator of the City's health of financial position.

Of the total net position, \$905 million, or 87%, is the City's net investment in capital assets (e.g. land, buildings and improvements, machinery and equipment and the road network) less any related debt used to acquire those assets that is still outstanding. The City's investment in capital assets increased \$50 million, restricted net position decreased by \$6 million and unrestricted net position increased by \$1 million, accounting for the increase in total net position of \$45 million. This is primarily due to the City's investment in the road network, buildings and related improvements, and machinery and equipment.

The majority of the City's long-term liabilities relate to the City's net pension liability and the acquisition of capital assets. Some of those assets include the City's corporation yard, fire stations, police vehicles and sewer and water infrastructure including the surface water treatment plant and the sewer treatment-water reuse facility. These capital assets are utilized to provide services to citizens and are not available for future spending. The repayment of the debt on these assets must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

Restricted net position is \$45 million, which represents 4% of the total net position. Restricted net position represents those resources that are subject to external restrictions on how they may be used. These restrictions are established by bond covenants or restrictions on the use of funds by state or federal regulations.

Unrestricted net position represents those resources which may be used to meet the City's ongoing commitments to citizens and creditors. Government-wide unrestricted net position is \$91 million, or 9% of the total net position, which is a 1% increase from the previous year. Governmental activities have a negative \$(30) million unrestricted net position, which is a increase of \$2 million compared to last year. Business-type activities have \$121 million in unrestricted net position, a decrease of \$1 million, or 1%, compared to last year.

Governmental activities. Governmental activities account for \$723 million, or 69%, of the total Government-wide net position. This is an increase of \$36 million, or 5%, over June 30, 2023. Donated and constructed assets increased by \$39 million while the amounts available for debt service, street and road construction and community development decreased by \$6 million. Additionally, the amount accumulated during the year for normal activities, unrestricted net position, increased by \$2 million.

The following lists key components of this increase:

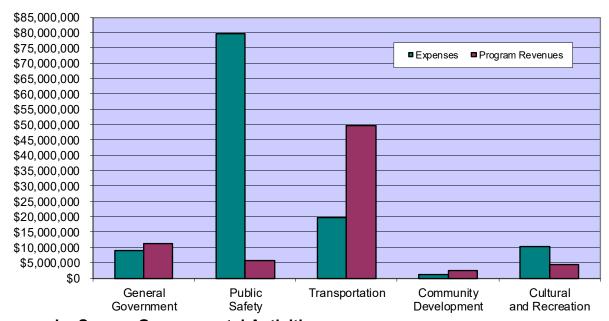

City of Clovis' Changes in Net Position

	Governmental activities			Business-type activities				Total		
	2024	- 2	2023		2024		2023		2024	2023
Revenues:										
Program revenues:										
Charges for services	\$ 34,300,015	\$ 4	12,360,599	\$	88,034,447	\$	95,360,776	\$	122,334,462	\$ 137,721,375
Operating grants and contributions	5,007,289		537,308		7,987,902		5,849,464		12,995,191	6,386,772
Capital grants and contributions	34,127,517	1	17,368,142		2,769,840		1,405,622		36,897,357	18,773,764
General revenues:										
Property taxes	39,288,942	3	36,213,178						39,288,942	36,213,178

Interest and other charges	617,657		462,097						617,657	462,097
Community Sanitation					26,696,040		24,729,993		26,696,040	24,729,993
Sewer					22,316,767		21,030,572		22,316,767	21,030,572
Water					24,680,751		22,083,398		24,680,751	22,083,398
Transit					10,091,917		8,357,494		10,091,917	8,357,494
Planning & Development Services					13,748,338		13,739,734		13,748,338	13,739,734
Total expenses	120,375,727	10	06,884,854		97,533,813		89,941,191		217,909,540	196,826,045
Increase in net position before transfers	38,330,871	2	28,288,591		7,134,521		14,973,720		45,465,392	43,262,311
Transfers	(2,220,000)		(450,000)		2,220,000		450,000		0	0
Increase in net position	36,110,871	2	27,838,591		9,354,521		15,423,720		45,465,392	43,262,311
Net position-beginning	686,422,487	65	58,583,896	3	309,007,989		293,584,269		995,430,476	952,168,165
Net position - ending	\$ 722,533,358	\$ 68	36,422,487	\$ 3	318,362,510	\$:	309,007,989	\$ ^	1,040,895,868	\$ 995,430,476

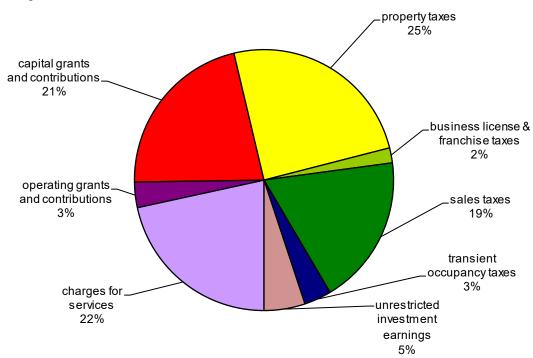

Total governmental revenues for the year were \$159 million, which is \$24 million, or 17%, more than in 2023. Most of this increase is attributable to federal and state grant revenue increases. Taxes, including property, sales, franchise, and transient occupancy, account for \$77 million, or 49%, of the City's governmental activities revenue and increased \$3 million, or 5%, from 2023. Property taxes increased by \$3 million due to increased assessed values related to new construction, increased valuation base due to annexations and the statutory annual increase in taxes not to exceed 2%. Sales taxes decreased by \$721 thousand mainly due to the inflationary pressures on consumers reducing their discretionary spending on taxable goods as the cost of housing, food and gas increased significantly.

Total governmental expenses for the year were \$120 million, an increase of \$13 million, or 12%, from 2023. Public Safety, which includes police and fire, accounts for \$80 million, or 67%, of the total governmental activities' expenses. Public Safety expenses increased \$11 million, or 17%, from 2023 primarily due to salary increases related to the police and fire departments. Community development expenses decreased from 2023. General government expenses decreased from 2023. Transportation expenses increased from 2023. Cultural and Recreation expenses were \$10 million, slightly increased when compared to 2023.

Expenses and Program Revenues-Governmental Activities

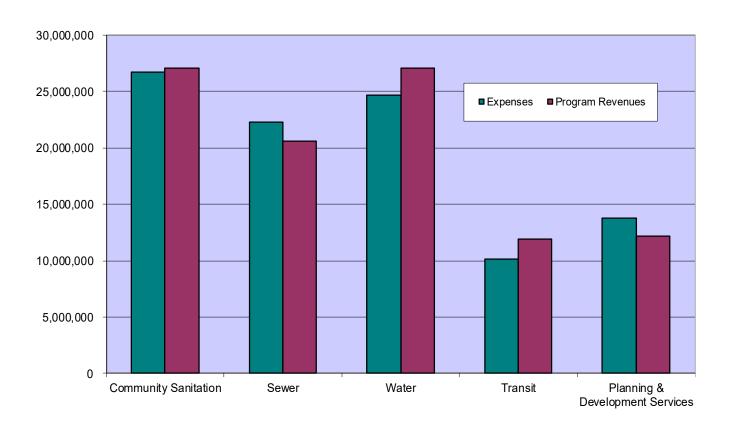

Revenues by Source-Governmental Activities

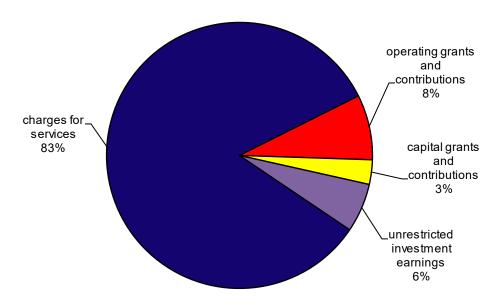

Program revenues that include charges for services and grants specific to certain programs were \$73 million, or 46% of the total governmental activity revenue. The largest change in program revenues, notably in General Government, resulted in an increase of federal and state grants. The amounts necessary to fully fund the governmental activity programs are made up of "general" revenues such as taxes, interest, and grants and contributions.

Business-type Activities. Business-type activities account for \$318 million, or 31% of the total Government-wide net position. This is an increase of \$9 million, or 3%, from June 30, 2023. The component, "Net Investment in Capital Assets" accounts for \$198 million, or 62% of the total net position, and is an increase of \$11 million from 2023. The amount of restricted net position represents less than 1% of the total net position. The amount of net position that is unrestricted, \$121 million, or 38%, decreased \$1 million from 2023. Charges for services were \$88 million, or 84% of the total business-type activity revenue, a decrease from 2023. Grants and contributions of \$11 million represent \$8 million in contributions of sewer and water mains from developers and \$3 million in state transit funding.

Expenses and Program Revenues-Business-type Activities

Revenues by Source-Business-type Activities

Included in charges for services are development fees relating to the construction of capital improvements for sewer disposal and water operations. The revenues generated by these development fees are normally accumulated until such time as there are sufficient reserves to construct or acquire capital assets or to pay debt service on previously incurred debt. Debt service payments of principal are not considered a program expense and are, therefore, not reflected in this chart.

Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. Fund balance is defined in five categories: nonspendable, restricted, committed, assigned and unassigned. Nonspendable fund balances cannot be spent because of their form. Restricted fund balance has limitations imposed externally by creditors, grantors, contributors, or laws and regulations of other governments. Committed fund balance has self-imposed limitations set in place prior to the end of the period. Assigned fund balance is the amount left available for appropriation at the City's discretion within the fund's purpose.

The City's governmental funds ended the year with positive fund balances. The ending fund balance for all funds is \$76 million, which is a \$1 million increase from the previous year. Of the total fund balance, \$4.2 million or 6% is unassigned, which, within the limitations of the fund's purpose, is available for spending at the City's discretion. The remainder of the fund balance is not available for new spending because it is either in a form not able to be spent or has already been restricted, assigned or committed for the following: (in millions)

Capital Projects	\$23.5
Community Development	11.7
Debt service	0.4
Landscape Maintenance	9.1
Parking and Business Improvement	0.2
Law Enforcement	<0.1
Services materials and supplies	1.6
Capital Outlay	2.1
Emergencies	22.6

The general fund is the chief operating fund of the City. As of June 30, 2024, the *total* fund balance (including all categories) of the general fund was \$38 million. The total fund balance of \$38 million includes restricted balances of \$9.5 million, assigned balances of \$24.3 million, and an unassigned balance of \$4.2 million. The change in fund balance was primarily due to the increases in transfers out related to capital project reimbursements.

The local transportation fund, used to account for all street construction projects, incurred less than budgeted expenditures as a result of several large projects awarded towards the end of the fiscal year and limited staff resources. The ending fund balance of \$23.4 million is \$3.6 million more than June 30, 2023.

Proprietary funds. As indicated in the description of proprietary funds, there are two types of funds, enterprise and internal service funds. The City's enterprise funds ended the year with positive unrestricted net position except for the Transit Fund. This deficit balance is attributable to the liability of CalPERS pension funds. This liability is long-term in nature, not requiring current resources, and is not being funded at this time.

All the internal service funds finished with positive unrestricted net position. The current liability for workers' compensation claims is \$9.2 million. The City funds the current year workers' compensation expenditures with charges to City programs. The City has also funded approximately \$3.5 million of the accrued liability through charges to City programs in prior years. The balance of the liability is of a long-term nature, not requiring current resources, and therefore has not been funded.

General Fund Budgetary Highlights

Throughout the fiscal year it was necessary to adjust the original General Fund budget. The Statement of Revenues, Expenditures, and Change in Fund Balance-Budget to Actual, General Fund, on page 35 shows the original budget and final budget.

The Variance with Final Budget within the same statement allows the City to analyze and improve the upcoming fiscal year budget. Below is a summary of the primary variances:

	Compari		ies, Expenditu get and Actual	-	ges in Fund Balance
	Budgeted Original	Budgeted Final	Actual Amounts	Final Budget Variance	Explanation
Revenues:					
Property Taxes	\$38,144,000	\$38,144,000	\$39,288,942	\$1,144,942	Variance due to larger amounts realized in various property taxes mostly in current year secured, unsecured and in lieu of vehicle license fees.
Sales Taxes	31,995,000	31,995,000	29,516,137	(2,478,863)	Variance due to inflationary pressures on consumers causing less discretionary spending on taxable goods.
Use of Money and Property	463,000	463,000	1,139,847	676,847	Variance due to an increase in interest income collected, due to higher yielding investments
From Other Agencies	4,779,000	4,927,182	6,473,310	1,546,128	Variance mostly due to reimbursement of out-of-county emergency response services provided.
Expenditures:					
Police	54,781,771	54,841,771	53,482,541	1,359,230	Variance due to open positions of patrol officers, resulting in salary savings.
Public Utilities	14,190,041	14,240,041	13,055,979	1,184,062	Variance due to salary savings and a reduction of service and supply usage versus originally budget.

Capital Assets and Debt Administration

Capital Assets. The City's capital assets for its governmental and business-type activities as of June 30, 2024, amount to \$1.02 billion (net of depreciation/amortization), an increase of \$42 million over 2023. Capital assets include land, buildings and improvements, machinery and equipment, and road network and intangible capacity rights for water and sewer.

Major capital asset additions this year include the following:

Land	\$ 17 million
Building and improvements	\$ 10 million
Road network improvements and land acquisitions	\$ 10 million

During the year the City made improvements to various streets and received developer donated infrastructure. The sewer system improvements include the City's share of capital projects for the Fresno-Clovis regional wastewater treatment plant. Additional information on the City's capital assets can be found in note IV.E on pages 62-64.

General obligation debt are direct obligations of the City and are backed by the full faith and credit of the City requiring voter approval and may have a tax rate set to cover repayment. State statues limit the amount of general obligation debt to 15% of the City's total assessed valuation. The City of Clovis' debt limit is \$2.0 billion. The City currently has no general obligation debt outstanding. Detailed information on the City's long-term debt activity can be found in Note F. of the notes to the financial statements.

Economic Factors and Next Year's Budgets and Rates

The City is closely watching the national economy along with the state's budget and the impact these have on Clovis. During the budget development process for the 2024/25 fiscal year, the City was able to increase general fund expenditures by \$5 million, or 5% compared to the estimated 2023/24 expenditures. The increase is largely due to funding new positions, cost-of-living salary increases, increased costs of employee benefits, and general price increases impacting the cost of services and supplies.

While the City's unemployment rate is currently low at 5%, the U.S. has experienced historically high inflation over the last several years. This continues to be a concern for the City in the next budget year. The increase in prices is putting further pressure on households and shifting household dollars away from discretionary spending which could have a significant impact on the City's sales taxes as a larger portion of income goes to essentials such as food, transportation and housing costs. High inflation has originated from a mismatch

between total demand and supply in the economy, largely as a result of constraints from the pandemic and an aggressive fiscal and monetary policy response. The Federal Reserve has recently started lowering interest rates as its aggressive response has helped to bring inflation under control.

On June 30, 2024, the General Fund has an assigned fund balance of \$22.6 million, or 22% of 2023/24 budgeted expenditures set aside for unforeseen emergencies. The City continues to monitor the impacts of high inflation and rising interest rates on the economy and the City's budget and will continue to adjust its strategies to address those impacts.

The Council determined that it was necessary for the Community Sanitation Fund to implement a rate increase of 4% for the green waste and recycling programs, the refuse collection and disposal program and the street sweeping program for the 2024/25 fiscal year. Furthermore, the Council determined that a 3% increase was necessary for the Water Fund. The Sewer Fund will have a 3% rate increase and the full \$7.30 bond surcharge will continue to be fully rebated.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the City of Clovis' finances and to demonstrate the City's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Finance Director, City of Clovis, 1033 Fifth Street, Clovis, CA, 93612.

Reconciliation of the Governmental Fund Balances to the Governmental Activities Net Position

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore, are not reported in the funds. (Net of \$120,418,723 of internal service fund capital assets)

Internal service funds are used by management to charge the costs of fleet management, employee benefits, liability and property insurance and general services to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position. (Net of \$16,024,811 allocated to business-type activities)

Long-term liabilities, including compensated absences, and net pension liability, are not due and payable in the current period and therefore are not reported in the funds.

Net Position of Governmental Activities

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Government-Wide Statement of Activities For the Year Ended June 30, 2024

Amounts reported for governmental activities in the statement of activities (page 31) are different because:

Net change in fund balances-total governmental funds (page 33)	\$	599,234
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives a reported as depreciation/amortization expense. This is the amount by which depreciation/amortization exceeded capital outlays in the current period.		5,030,846
The net effect of donations and miscellaneous transactions involving capital assets (i.e., sales and trade-ins) is to increase net position.		26,169,156
Some expenses reported in the statement of activities do not require the use of curre financial resources and, therefore, are not reported as expenditures in governmental funds.	ent	(5,078,198)
Internal service funds are used by management to charge the costs of fleet maintener employee benefits, liability and property insurance and general services to individual The net revenue of certain activities of internal service funds is reported with		
governmental activities. Net of \$2,146,808 allocated to business-type activities.		9,389,833
Change in net position of governmental activities (page 31)	\$	36,110,871

I. Summary of significant accounting policies

A. Reporting entity

The City of Clovis, California (City) was incorporated on February 27, 1912 as a general law city of the State of California, and as such can exercise the powers specified by the constitution and laws of the State of California. The City is governed by an elected five-member City Council under the administration of an appointed City Manager. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended components units, although legally separate entities, are, in substance, part of the government's operations.

1. Blended component units

Although the following are legally separate from the City, they have been "blended" as though they are part of the City because the component unit's governing body is substantially the same as the City's and there is a financial benefit or burden relationship between the City and the component unit; management of the City has operational responsibilities for the component unit; and/or the component units provide services entirely, or almost entirely, to the City or otherwise exclusively, or almost exclusively, benefits the City, even though it does not provide services directly.

The Clovis Municipal Development Corporation (Corporation) was established by the Clovis City Council in January 1985 to handle the City's and the Clovis Community Development Agency's development of property. There were no assets, liabilities, equity or activity to report for the current or prior fiscal years.

The Clovis Public Financing Authority (Authority) was established by the Clovis City Council in July 1991 to facilitate the issuance of the City's debt. There were no assets, liabilities, equity or other activity to report for the current or prior fiscal years.

2. Fiduciary activities

The City presents its fiduciary activity information for assessing its accountability and financial reporting of the City in their role as fiduciaries. The definition of a "fiduciary" is a person or organization that acts on behalf of another person or persons to manage assets. Fiduciary responsibility refers to the obligation that one party has in relationship with another one to act entirely on the other party's behalf and best interest. It is considered to be the standard of highest care.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its components units. The effects of interfund activity have been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function of a segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The basic financial statements of the City have been prepared in conformity with accounting principles generally accepted of the United States of America (U.S. GAAP) as applied to governmental agencies. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting.

The government-wide, proprietary fund, and fiduciary fund financial statements are reported using the "economic resources" measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirement imposed by the provider have been met.

Governmental fund financial statements are reported using the "current financial resources" measurement focus and the modified accrual basis of accounting. Revenues are recognized when they have been earned and they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service principal and interest expenditures on general long-term debt, including lease liabilities, as well as expenditures related to compensated absences, and claims and judgments, postemployment benefits and environmental obligations are recognized later based on specific accounting rules applicable to each, generally when payment is due. General capital asset acquisitions, including entering into contracts giving the City the right to use lease assets, are reported as expenditures in governmental funds. Issuance of long-term debt and financing through leases are reported as other financing sources.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The City reports the following major governmental funds:

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The local transportation fund accounts for the City's share of Transportation Development Act (SB 325) funds allocated by the State that are restricted to expenditures for capital street improvements and maintenance and for the deposits by developers for special street improvement projects.

The City reports the following major proprietary funds:

The community sanitation fund accounts for the activities of the City's refuse collection and disposal operations, landfill operations and street sweeping operations.

The sewer disposal fund accounts for the activities of the City's sanitary sewer system operations.

The water fund accounts for the activities of the City's water production and distribution operations.

The planning and development services fund accounts for the activities of the City's engineering operations.

The transit fund accounts for the activities of the City's transit operations.

Additionally, the City reports the following fund types:

Internal service funds account for general liability and property damage insurance, fleet management services, retirement, workers' compensation, and health, unemployment and Medicare insurance, facility maintenance and enhancement, telecommunication and information technology, and other general services provided to other departments or agencies of the City on cost reimbursement bases.

Custodial funds account for assets held by the City for, certain special assessments collected and distributed on behalf of the districts.

Private-purpose trust funds are used to account for the assets of the former Clovis Community Development Agency during the wind down period.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. The exception to this general rule is payments-in-lieu of taxes. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. The principal operating revenues of the community sanitation enterprise fund, of the sewer enterprise fund, of the water enterprise fund and of the City's internal service funds are charges to customers for sales and services. The sewer enterprise fund and the water enterprise fund also recognize as operating revenue the portion of developer fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses and depreciation on capital assets: All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, liabilities, deferred outflows/inflows, and net position/fund balance

1. Cash and investments

The City maintains a cash and investment pool that is available for use by all funds. This pool utilizes investments authorized by the Government Code and is further defined by the City's investment policy that is reviewed annually by the City Council.

Highly liquid market investments with maturities of 1 year or less at the time of purchase are stated at amortized cost. All other investments are stated at fair value. Market value is used as fair value for the securities for which market quotations are readily available.

Authorized investments include deposits in the State of California administered Local Agency Investment Fund, insured certificates of deposits, collateralized certificates of deposits, commercial paper, bankers acceptances, medium term notes, money market mutual funds and securities backed by the U.S. Government. All investments are stated at fair value.

Interest income earned as a result of pooling is distributed to the appropriate funds based on month end cash balances in each fund. Interest income from cash and investments with fiscal agents and deferred compensation is credited directly to the related fund.

For purposes of the statement of cash flows, the City considers short term and highly liquid investments (including restricted assets) to be cash and cash equivalents.

The City invests its excess cash principally in U.S. Government Securities, U.S. Treasuries and the State of California Local Agency Investment Fund (LAIF). Investments in the LAIF are available for withdrawal on demand.

The City is also required to deposit funds with fiscal agents under the provisions of Revenue Bonds, Contracts and/or Lease Agreements. These funds are invested by the fiscal agent in instruments generally more restrictive than the City's investment policy.

U.S. GAAP defines fair values, establishes a framework for measuring fair value and establishes disclosures about fair value measurement. Investments, unless otherwise specified, recorded fair value in the Statement of Net Position/Balance Sheet, are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Levels of inputs are as follows:

Level 1 – Inputs are unadjusted, quoted prices for identical assets and liabilities in active markets at the measurement date.

Level 2 – Inputs, other than quoted prices included in Level 1, that are observable for the assets or liabilities through corroboration with market data at the measurement date.

Level 3 – Unobservable inputs that reflect management's best estimate of what market participants would use in pricing the assets or liabilities at the measurement date.

2. Receivables

Billed but unpaid services provided to individuals or non-governmental entities are recorded as "receivables." Services provided to other governmental entities are recorded as "due from other governments." The City's utility enterprise funds include an estimated amount for services rendered but not yet billed as of June 30, 2024, determined by prorating the July 2024 bi-monthly billing.

The City has not experienced any material write-off of receivables; and therefore, an "allowance for bad debts" is not included on the City's balance sheet or statement of net position.

3. Interfund receivables/payables

During the course of operations, interfund receivables and payables transactions arise. These receivables and payables are classified as "due from other funds" or "due to other funds" on the fund financial statements. On the government-wide statement of net position, the "internal balances" represents the amounts receivable/payable between business-type activities and governmental activities. All other interfund transactions have been eliminated on the statement of net position.

4. Inventories

Inventories, consisting of fuel and vehicle parts, are valued at cost.

5. Capital assets/intangible assets

Capital assets, which include property, plant, equipment, right to use and infrastructure assets (roadways), are reported in the applicable governmental or business-type activities columns in the government-wide financial

statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$10,000, and an estimated useful life of at least three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at estimated acquisition value at the date donated. Intangible assets are valued at historical cost.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Intangible assets include the purchase of sewer capacity rights and water entitlement rights. The City purchased sewer capacity rights from the City of Fresno at the Fresno Regional Waste Water Treatment Plant. The total amount of \$44,313,638 is reported in the City's Sewer Disposal Enterprise Fund. The City purchased water entitlement rights from the Fresno Irrigation District for surface water. The total amount of \$14,618,786 reported in the City's Water Enterprise Fund.

Donated assets include developer donated land as well as the improvements on the land including streets, curbs and gutters, sidewalks, street lighting and landscaping. Included in the total amount of capital grants and contributions on the government-wide statement of activities is \$29,060,413 of developer donated assets.

Property, plant and equipment of the primary government is depreciated over the estimated useful lives using the straight-line method, half-year convention. Estimated useful lives are as follows:

Distribution Systems	50 years
Roadways	50
Buildings	20-40
Vehicles	5-20
Right to use	5-35
Other Equipment	3-10

Amortization of intangibles is computed over 40 years using the straight-line method, half-year convention. As the life of the rights have a life of 40 years.

6. Compensated absences

The liability for vested leave (vacation, compensated time off, holiday) earned but not used in governmental funds is expensed and established as a liability and is reported in the government-wide statement of net position in the governmental activities column. Vested leave of proprietary funds is recorded as an expense and liability of those funds as the benefits accrue. No liability is recorded for non-vesting leave such as sick leave.

7. Long-term liabilities

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term liabilities and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts not withheld from the actual debt proceeds received are reported as debt service expenditures. Discounts withheld from the debt proceeds are reported as other financing uses.

8. Unearned Revenue

For the Government-wide Financial Statements, unearned revenue is recognized in connection with a transaction before the earnings process is completed.

For the Governmental Fund Financial Statements, unearned revenues arise when potential revenues do not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenues also arise when the government receives resources before it has a legal claim to them, as when grant monies are received prior to incurring qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met or when the government has a legal claim to the resources, unearned revenues are removed from the balance sheet and revenue is recognized.

9. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the plans and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Plan investments are reported at fair value.

The following timeframes are used for pension plan reporting:

CalPERS

Valuation Date June 30, 2022 Measurement Date June 30, 2023

Measurement Period July 1, 2022 to June 30, 2023

Gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time. The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense. The amortization period differs depending on the source of the gain or loss. The difference between projected and actual earnings is amortized straight-line over 5 years. All other amounts are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits (active, inactive, and retired) as of the beginning of the measurement period.

10. Fund balances

In the fund financial statements, governmental funds report components of fund balance based on constraints on the specific purposes for which amounts can be spent. "Nonspendable" fund balance is not in a spendable form or has a requirement to maintain intact. "Restricted" fund balance has externally enforceable limitations on its use such as restrictions from outside parties such as creditors, grantors, contributors, laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. "Committed" fund balance is constrained by limits imposed by the government's highest level of decision-making and can only be removed or modified by a formal action by that authority. "Assigned" fund balance is limited by City Council, the City Manager or the designated department head as delegated by City Council. "Unassigned" fund balance is the residual net resources.

The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than the general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

The City will spend the funds restricted for their purpose within those funds first followed by assigned funds for their intended purposes prior to spending any unassigned funds. The City Council has established a target of a minimum unassigned fund balance for any operational fund is 10% of the budgeted expenditures with the goal for unassigned fund balance of up to 15% of budgeted expenditures unless capital borrowing or extraordinary fiscal conditions require higher levels of unassigned fund balance be maintained.

The local transportation fund is the City's only major capital project fund. This fund accounts for the capital street projects paid for out of the City's share of Transportation Development Act (SB 325) funds allocated by the state, 1/2 cent sales tax for transportation, Special Gas Tax Select Street funds, and federal funding sources under the Federal Intermodel Surface Transportation Efficiency Act. In addition, funds are transferred from the Developer Trust Fund as reimbursements are made for developer-financed projects.

11. Net Position

In the government-wide financial statements and proprietary fund financial statements, net position is classified as follows:

Net Investment in Capital Assets – This component of net position consists of capital assets, net of accumulated depreciation/amortization, reduced by the outstanding balances of debt, net of deferred refunding, that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – This component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets.

Unrestricted – This component of net position is the amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

When expenses are incurred for purposes for which both restricted and unrestricted components of net position are available, the City's policy is to apply the restricted component of net position first, then the unrestricted component of net position as needed.

12. Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

13. Deferred outflows/inflows of resources

In addition to assets, the statement of financial position includes a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has two items that qualify for reporting in this category. It is the deferred charge on refunding reported in the government-wide statement of net position, and deferred amounts related to pension. The deferred charge on refunding resulted from the difference between the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred amounts related to pension relate differences between estimated and actual investment earnings, changes in actuarial assumptions, and other pension related changes.

14. Leases

Lessee: The City has a policy to recognize a lease liability and a right-to-use lease asset (lease asset) in the government-wide financial statements. The City recognizes lease liabilities with an initial, individual value of \$10,000 or more.

At the commencement of a lease, the City initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the City determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The City uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the City generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the City is reasonably certain to exercise.

The City monitors changes in circumstances that would require a remeasurement of its lease and will remeasure any lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported as right to use along with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Lessor: The City is a lessor for a leases of a building and land at four locations. The City recognizes a lease receivable and a deferred inflows of resources in both the government-wide and fund financial statements.

At the commencement of a lease, the City initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflows of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflows of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the City determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The City uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The City monitors changes in circumstances that would require a remeasurement of its lease, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

15. Subscription Based Information Technology Arrangements (SBITA)

The City has a policy to recognize a subscription liability and a right-to-use subscription asset (subscription asset) in the government-wide financial statements and proprietary fund financial statements. The City recognizes subscription liabilities with an initial, individual value of \$10,000 or more with a subscription term greater than one year. Variable payments based on future performance of the City, usage of the underlying IT asset, or number of user seats are not included in the measurement of the subscription liability, rather, those variable payments are recognized as outflows of resources (expenses) in the period the obligation for those payments is incurred.

At the commencement of a SBITA, the City initially measures the subscription liability at the present value of payments expected to be made during the subscription term. Subsequently, the subscription liability is reduced by the principal portion of subscription payments made.

Subscription assets are recorded at the amount of the initial measurement of the subscription liabilities, less any payments made to the SBITA vendor before the commencement of the subscription term, and capitalizable initial implementation cost, less any incentives received from the SBITA vendor at or before the commencement of the subscription term.

Costs associated with a SBITA, other than the subscription payments, are accounted for as follows:

- Preliminary Project Stage: Outlays are expensed as incurred.
- Initial Implementation Stage: Outlays are capitalized as an addition to the subscription asset.
- Operation and Additional Implementation Stage: Outlays are expensed as incurred unless they meet specific capitalization criteria.

Upon adoption, the City elected to exclude the capitalizable outlays associated with the initial implementation stage and the operation and additional implementation stage that were incurred prior to the implementation of this Statement in the measurement of subscription assets as of July 1, 2022.

Subscription assets are reported in capital assets and subscription liabilities are reported with long-term liabilities on the statement of net position.

Subscription assets are amortized using the straight-line method over the shorter of the subscription term or the useful life of the underlying IT asset, unless the subscription contains a purchase option that the City has determined is reasonably certain of being exercised. In this case, the subscription asset is amortized over the useful life of the underlying IT asset.

Key estimates and judgments related to SBITA include how the City determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) subscription term, and (3) subscription payments.

- The City uses the interest rate charged by the SBITA vendor as the discount rate. When the interest
 rate charged by the SBITA vendor is not provided, the City generally uses its estimated incremental
 borrowing rate as the discount rate for SBITA.
- The subscription term includes the noncancellable period of the SBITA. Subscription payments included
 in the measurement of the subscription liability are composed of fixed payments and purchase option
 price that the City is reasonably certain to exercise.

The City monitors changes in circumstances that would require a remeasurement of its subscription liability and will remeasure if certain changes occur that are expected to significantly affect the amount of the subscription liability.

16. Implementation of New GASB Pronouncements

The requirements of the following accounting standards are effective for the purpose of implementation, if applicable to the City, for the year ended June 30, 2024. The financial statements included herein apply the requirements and provisions of these statements, including necessary retroactive adjustments to financial statement classifications and presentations.

Implementation of New GASB Pronouncements for the Year Ended June 30, 2024:

GASB Statement No. 100

In June 2022, GASB issued Statement No. 100, Accounting Changes and Error Corrections – an Amendment of GASB Statement No. 62. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. Application of this statement is effective for The City's fiscal year ending June 30, 2024.

Upcoming Governmental Accounting Standards Implementation:

GASB Statement No. 101

In June 2022, GASB issued Statement No. 101, Compensated Absences. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. Application of this statement is effective for The City's fiscal year ending June 30, 2025.

GASB Statement No. 102

In December 2023, GASB issued Statement No. 102, Certain Risk Disclosures. The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints which may limit a government's ability to acquire resources or control spending. Application of this statement is effective for the City's fiscal year ending June 30, 2025.

GASB Statement No. 103

In December 2023, GASB issued Statement No. Financial Reporting Model Improvements. The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. Application of this statement is effective for the City's fiscal year ending June 30, 2026.

II. Reconciliation of government-wide and fund financial statements

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position

The governmental fund balance sheet includes a reconciliation between *fund balance-total governmental funds* and *net position-governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this (\$103,526,900) difference are as follows:

Pension related items of \$99,289,432 (net of \$7,811,082 reported in Internal Service Funds)	\$ 98,227,696
Accrued compensated absences of \$5,606,190 (net of \$329,078 reported in Internal Service Funds) Accrued SBITA of \$1,102,730	5,277,112
(net of \$1,080,638 reported in Internal Service Funds)	22,092
Net adjustment to reduce fund balance-total governmental funds to arrive at net position-governmental activities	\$ 103,526,900

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances-total governmental funds and changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense."

The details of this \$5,030,846 difference are as follows:

Capital Outlay Depreciation/amortization expense (net of \$7,550,529 reported in Internal Service Funds)	<u> </u>	19,083,552 (14,052,706)
Net adjustment to decrease <i>net changes in fund balance-total governmental</i> funds to arrive at <i>changes in net position-governmental activities</i>	\$	5,030,846

Another element of that reconciliation states that "The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase net position." Donated capital assets increase net position in the statement of activities, but do not appear in the governmental funds because they are not financial resources.

The details of this \$19,083,552 difference are as follows:

General government capital asset additions Internal service fund capital asset additions Donated capital asset additions	\$ 60,023,261 (14,649,137) (26,290,572)
Net capital outlay	\$ 19,083,552

Another element of that reconciliation states that "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$5,078,198 difference are as follows:

Pension related items (Net of \$430,003 reported in Internal Service Funds)	\$ 5,058,172
Compensated absences (Net of \$10,819 reported in Internal	(2,066)
SBITA related items (Net of \$1,080,638 reported in Internal	 22,092
Service Funds)	 _
Net adjustment to decrease net changes in fund balance-total governmental	
funds to arrive at changes in net position-governmental activities	\$ 5,078,198

III. Stewardship, compliance, and accountability

A. Budgetary information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse at fiscal year-end.

On or before the second week of March of each year, all departments of the City submit request for appropriations to the City Manager so that a budget may be prepared. On or before the third Monday in May, the proposed budget is presented to the City council for review. The council holds public hearings and a final budget must be adopted no later than June 30.

The appropriated budget is prepared by fund and department. The City Manager may make transfers of appropriations between departments within a specific fund of up to \$5,000 and up to \$2,500 from any established reserves. Transfers in excess of those amounts require council action. No action is required at any level lower than the department level. The legal level of budgetary control is the department level. During the year, supplementary appropriations approved by the council were necessary for some departments.

B. Deficit fund equity

Government-Wide Financial Statements

At June 30, 2024, deficit unrestricted net position was reported for governmental activities in the amount of \$(30,000,695). The deficit is the result of reporting net pension liabilities of \$141,586,813 in the government-wide financial statements. City management believes the present cash aggregate position of the General Fund is adequate to meet current needs.

Proprietary Funds

The Transit Fund has a deficit net position of \$(1,316,949) as of June 30, 2024. The deficit is the result of reporting net pension liabilities of \$6,090,234 in the proprietary fund financial statements. City management believes the present cash aggregate position of the Transit Fund is adequate to meet current needs.

IV. Detailed notes on all funds

A. Cash and investments

Cash and investments as of June 30, 2024 are classified in the accompanying financial statements as follows:

Primary Government:	
Cash and investments	\$ 345,923,060
Cash and investments - restricted	227,340
Fiduciary funds:	
Cash and investments	1,160,499
Cash and investments with agent - restricted	 1,059,951
Total cash and investments	\$ 348,370,850

Fair value of cash and investments based on quoted market prices. The City categorizes its fair value measurements within the fair value hierarchy established by GASB Statement No. 72 Fair Value Measurement and Application. This hierarchy recognizes three tiers, outlined as follows:

- Level 1: Investments reflect prices quoted in active markets;
- Level 2: Investments reflect prices that are based on a similar observable asset either directly or indirectly, which may include inputs in markets that are not considered to be active; and,
- Level 3: Investments reflect prices based upon unobservable sources.

The table below presents the fair value measurements of investments recognized in the accompanying statements of net position at June 30, 2024:

	Fair		Measurement
		Value	Input
Cash on hand	\$	8,085	N/A
Deposit with financial institution		8,700,734	
Investments:			
Money Market Funds		31,626,776	N/A
Certificates of Deposit		32,250,000	N/A
Municipal Securities		57,393,714	N/A
Corporate Securities		29,748,493	N/A
U.S. Agency Securities		130,043,090	Level 2
Local Agency Investment Fund (LAIF)		57,312,667	N/A
Held by Bond Trustee:			
Money Market Funds		1,287,291	N/A
Total	\$	348,370,850	

Investment securities classified in Level 2 of the fair value hierarchy are valued using prices determined by the use of matrix pricing techniques maintained by the pricing vendors for these securities. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

Investments Authorized by the California Government Code and the City's Investment Policy. The table below identifies the investment types that are authorized for the City of Clovis by the California Government Code (or the City of Clovis investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the City of Clovis Investment Policy, where more restrictive) that address interest rate risk, credit risk and concentration of credit risk. This table does not address investments of debt

proceeds held by bond trustee that are governed by the provisions of debt agreements of the City of Clovis, rather than the general provisions of the California Government Code or the City of Clovis' investment policy.

		Maximum	Maximum
		Percentage	Investment
	Maximum	of Portfolio	or One Issuer
Authorized Investment Type	Maturity	or Amount*	or Amount
U.S. Treasury Obligations	3 years	None	None
U.S. Agency Securities	3 years	None	None
Bankers Acceptances	180 days	30%	30%
Commercial Paper	270 days	15%	10%
Negotiable Certificates of Deposit	3 years	30%	Legal Limit
Repurchase Agreements	1 year	None	None
Medium-Term Notes	3 years	30%	None
Qualified Mutual Funds	N/A	\$2,000,000	\$2,000,000
Money Market Accounts	N/A	\$10,000,000	\$10,000,000
Local Agency Investment Fund (LAIF)	N/A	None	None

^{*} Excluding amounts held by bond trustee that are not subject to California Government Code restrictions.

Investments Authorized by Debt Agreements. Investment of debt proceeds held by bond trustee are governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the City's investment policy. The table below identifies the investment types that are authorized for investments held by bond trustee. The table also identifies certain provisions of these debt agreements that address interest rate risk, credit risk, and concentration of credit risk.

Disclosures Relating to Interest Rate Risk. Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the City manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations. The City monitors the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio. The City investment policy states that no investment can have a maturity in excess of three years unless approved by the City Manager.

	Maximum	Maximum Percentage	Maximum Investment
<u>_</u>		J	
Authorized Investment Type	<u>Maturity</u>	of Portfolio	or One Issuer
U.S. Treasury Obligations	5 years	None	None
U.S. Agency Securities	5 years	None	None
Bankers Acceptances	180 days	30%	30%
Commercial Paper	270 days	15%	10%
Qualified Mutual Funds	N/A	None	None
Money Market Accounts	N/A	None	None
Local Agency Investment Fund (LAIF)	N/A	None	None

Investments with Fair Values Highly Sensitive to Interest Rate Fluctuations. The City's investments do not include any investments that are highly sensitive to interest rate fluctuations (to a greater degree than already indicated in the information provided above).

Disclosures Relating to Credit Risk. Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable)

the California Government Code, the City's investment policy, or debt agreements, and the actual rating as of year-end for each investment type.

Investment Type	Amount	Weighted Average Maturity (in years)
Money Market Funds	\$ 31,626,776	N/A
Municipal Securities	57,393,714	2.91
Certificates of Deposit	32,250,000	1.69
Corporate Securities	29,748,493	4.69
U.S. Agency Securities	130,043,090	2.52
Local Agency Investment Fund (LAIF)	57,312,667	N/A
Held by Bond Trustee:		
Money Market Funds	1,287,291	N/A
Total	\$ 339,662,031	

Concentration of Credit Risk. The investment policy of the City contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. Investments in any one issuer (other than U.S. Treasury securities and external investment pools) that represent 5% or more of total City of Clovis' investments are as follows:

Issuer	Investment Type	1 (Reported Amount	Percent of Total Invested	
Federal Farm Credit Banks	Federal Agency Securities	\$	31,700,000	21.26%	
Federal Home Loan Mortgage Co.	Federal Agency Securities		6,000,000	4.03%	
Federal Home Loan Banks	Federal Agency Securities		96,330,000	64.64%	
Federal National Mortgage Assoc.	Federal Agency Securities		6,000,000	4.03%	
Federal Agricultural Mort. Corp.	Federal Agency Securities		9,000,000	6.04%	
		\$	149,030,000		

Custodial Credit Risk. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the broker or dealer to a transaction, a government will not be able to recover the value of its investments or collateral securities that are in the possession of another party. The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provisions for deposits: The California Government Code requires that a financial institution secure deposits made by state or local government units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

As of June 30, 2024, no City's deposits with financial institutions in excess of federal depository insurance limits were held in uncollateralized accounts. In addition, as of June 30, 2024, no investments were held by the same broker dealer (counterparty) that was used by the City to purchase the securities.

Disclosures Relating to Interest Rate Risk. Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. As of year-end, the average life-month end maturity of the investments contained in the LAIF investment pool is approximately 260.

Investment in State Investment Pool. The City's investments with Local Agency Investment Fund (LAIF) at June 30, 2024 included a portion of the pooled funds invested in Structured Notes and Assets-Backed Securities. These investments included the following:

<u>Structured Notes</u> are debt securities (other than asset-backed securities) whose cash flow characteristics (coupon rate, redemption amount, or stated maturity) depend upon one or more indices and/or that have embedded forwards or options.

<u>Asset-Backed Securities</u>, the bulk of which are mortgage-backed securities, entitle their purchasers to receive a share of the cash flows from a pool of assets such as principal and interest repayments from a pool of mortgages (such as CMO's) or credit card receivables.

As of June 30, 2024, the City had \$57,312,667 invested in LAIF, which had invested 1.40% of the pool investment funds in Structured Notes and Medium-term Asset-Backed Securities and 1.60% of pool investment funds in Short-term Asset-Backed Commercial Paper.

The fair value of the City's position in the LAIF pool is the same as the value of the pool shares.

The Pooled Money Investment Board provides oversight to the State Treasurer's pooled investment program. The purpose of the board is to design and administer an effective cash management and investment program, using all monies flowing through the State Treasurer's Office bank accounts and keeping all available funds invested in a manner consistent with the goals of safety, liquidity, and yield. The Pooled Money Investment Board is comprised of the State Treasurer as chair, the State Controller, and the Director of Finance. The investment program is not registered with the Securities and Exchange Commission as an investment company.

The State Treasurer's Office reports its investments at fair value. The fair value of securities in the State Treasurer's pooled investment program generally is based on quoted market prices. The value of the deposits in the State Treasurer's pooled investment program, including the Local Agency Investment Fund, is equal to the dollars deposited in the program.

Certain funds have elected to participate in the pooled investment program even though they have the authority to make their own investments. Others may be required by legislation to participate in the program; as a result, the deposits of these funds or accounts may be considered involuntary. However, these funds or accounts are part of the State's reporting entity. The remaining participation in the pool, the Local Agency Investment Fund, is voluntary.

B. Property taxes

Secured property taxes become a lien on the property as of January 1 and are levied in two equal installments: the first due November 1 and delinquent on December 11, and the second due February 1 and delinquent April 11. Property taxes on unsecured property are due on the lien date of March 1 and become delinquent on September 1. The County of Fresno is responsible for the assessment, collection and apportionment for all jurisdictions within the County, including the City.

C. Receivables

Receivables as of June 30, 2024 for the City's individual major funds and nonmajor, internal service, and fiduciary funds in the aggregate, are as follows:

	General	Tra	Local ansportation	Nonmajor Funds	Go	Total vernmental Funds	Internal Service Funds		Fiduciary Funds
Interest Taxes Loans Accounts Leases	\$ 74,752 729,203 3,575,670	\$	206,791 22,644 435,061	\$ 36,718 3,255 4,748,374 12,192	\$	318,261 732,458 4,771,018 4,022,923	\$ 229,182 42,747 166,850 130,245	\$	796 1,968
	\$ 4,379,625	\$	664,496	\$ 4,800,539	\$	9,844,660	\$ 569,024	\$	2,764
	Community Sanitation		Sewer Disposal	Water	De	Planning & evelopment Services	Transit	ı	Total Proprietary Funds
Interest Loans Accounts Leases	\$ 46,036 4,824,680	\$	114,808 20,537 3,091,226 665,780	\$ 167,710 8,663 4,077,453 740,905	\$	46,361 34,237	\$ 26,657 108,226	\$	401,572 29,200 12,135,822 1,406,685
	\$ 4,870,716	\$	3,892,351	\$ 4,994,731	\$	80,598	\$ 134,883	\$	13,973,279

Lease receivables consists of agreements with cellular network companies and Pacific Gas & Electric for the right to use land at various locations throughout the City. The terms of these arrangements range from 6 to 23 years and the interest rate on these is calculated at the City's fiscal year 2024 borrowing rate of 3.032%. This is the All-in True Interest Cost rate derived from the City's most recent bond issuance from fiscal year 2024. The City records any outstanding annual lease income as a deferred inflow on the government-wide financial statements.

The annual payments to be received for the lease receivables outstanding at June 30, 2024, are as follows:

	Lease Receivables							
Year ending June 30,		Principal		Interest		Total		
2025	\$	123,317	\$	38,039	\$	161,356		
2026		135,230		34,987		170,217		
2027		72,797		31,640		104,437		
2028		77,492		29,838		107,330		
2029		87,236		27,920		115,156		
2030-2034		248,233		117,542		365,775		
2035-2039		378,262		80,740		459,002		
2040-2043		414,364	26,492			440,856		
				_				
Total	\$	1,536,931	\$	387,198	\$	1,924,129		

D. Interfund receivables, payables and transfers

Interfund balances for the purpose of the government-wide financial statements have been eliminated. The composition of interfund balances in the fund level statements for the year ended June 30, 2024, is as follows:

Interfund transfers:

Transfers In	Transfers Out	Purpose	Amount
Community Sanitation Fund	Nonmajor Governmental Fund	Development capital cost	\$ 150,000
Water Service Fund	Local Transportation Fund	Capital projects	1,700,000
Nonmajor Governmental Fund	Local Transportation Fund	Capital projects	114,000
Internal Service Fund	General Fund	Capital projects	2,580,000
Internal Service Fund	General Fund	Fleet replacement costs	1,000,000
Planning & Development Services Fund	General Fund	Operating costs	370,000
	Total transfers		\$ 5,914,000

Interfund receivables/payables:

			Total
Advances To	Advances From	Purpose	Amount
Internal Service Fund	Water Fund	Advance for capital project	\$ 6,000,000

E. Capital assets and intangible assets

Summary of changes in capital and intangible assets for the year ended June 30, 2024 was as follows:

		Beginning Balance		Additions		etirements/ djustments		Ending Balance
Government activities:

activities	\$ 147,410,288	\$ 19,747,569	\$ (26,572,277)	\$ 140,585,580	\$ 13,481,199	\$	127,104,381

Internal service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. At year end \$329,078 of internal service funds compensated absences are included in the above amounts. Included in deposits and other liabilities in governmental activities are \$50,204,166 in developer funded deposits related to streets and \$1,263,860 in miscellaneous deposits. Business-type activities include utility customer deposits of \$2,119,123 and miscellaneous deposits and other liabilities of \$5,014,716. For the governmental activities, accrued compensated absences are generally liquidated by the general fund. In addition, in prior years the employee benefit fund has be used to liquidate pension liabilities.

Governmental activities long-term debt

1. Revenue bonds

The City issues revenue bonds to provide funds for the acquisition and construction of major capital facilities. The current bond outstanding has a maturity of 30 years.

Revenue bonds at June 30, 2024, consisted of the following:

										Clas	ssification		
		Balance						Balance		Due in	С	ue in more	
		7/1/2023	Ad	dditions	R	Reductions 6/3		6/30/2024		One Year		than One Year

Buildings and improvements	\$ 3,521,408
Less accumulated depreciation	(1,040,164)
Total	\$ 2,481,244

3. Notes from Direct Borrowings

The City issues notes from direct borrowings to provide funds for the acquisition of public safety vehicles and governmental buildings. The maturity dates may range from 5 to 35 years. The City also recognizes an intangible right to use direct borrowing assets. The City recognizes right to use direct borrowings with an initial, individual value of \$10,000 or more.

Notes from direct borrowings at June 30, 2024, are as follows:

	Original	Interest	Final	Outstanding		
	 Borrowing	Rates	Maturity	a	t Year-end	_
Governmental Activities						
2014 corp yard	\$ 14,377,528	3.10%	2027	\$	3,636,936

The following is an analysis of the improvements made with the proceeds of these bonds as of June 30, 2024:

Land, structures and equipment Less accumulated depreciation	\$ 140,291,752 (56,960,029)
Total	\$ 83,331,723

2013 wastewater revenue refunding bonds

In July 2013, The City issued wastewater revenue refunding bonds in the amount of \$12,500,000. The net proceeds of \$12,698,281 (after the original issue premium of \$596,726 and payment of \$398,445 in underwriting fees, insurance, and other issuance costs) from the bonds were used to refund the \$13,745,000 aggregate principal amount outstanding on the City's 1998 wastewater bonds. The aggregate debt service payments of the new debt are \$2,519,935 less than the old debt. The bonds have interest rates varying from 2.00% to 5.00% and the final payment is scheduled for August 2028. The issuance of the new debt and refunding of the old debt resulted in an economic gain (the difference between the net present value of the old debt and new debt service payments) of approximately \$644,000. The wastewater revenue refunding bonds contain an acceleration clause that allows the bondholders to accelerate payment of the entire principal amount to become immediately due if default in payment occurs.

2015 wastewater revenue refunding bonds

In August 2015, The City refinanced the 2005 wastewater revenue bonds and issued 2015 wastewater revenue bonds in the amount of \$21,600,000. The net proceeds of \$22,881,723 (after the original issue premium of \$1,652,032 and payment of \$370,309 in underwriting fees, insurance, and other issuance costs) from the bonds were used to refund the \$24,885,000 aggregate principal amount outstanding on the City's 2005 wastewater bonds. The aggregate debt service payments of the new debt are \$10,852,200 less than the old debt. The bonds have interest rates varying from 2.0% to 3.75% and the final payment is scheduled for August 2035. The issuance of the new debt and refunding of the old debt resulted in an economic gain (the difference between the net present value of the old debt and new debt service payments) of approximately \$4,410,265. The wastewater revenue bonds contain an acceleration clause that allows the bondholders to accelerate payment of the entire principal amount to become immediately due if default in payment occurs.

2017 wastewater revenue refunding bonds

In August 2017, The City refinanced the 2007 wastewater revenue bonds and issued 2017 wastewater revenue bonds in the amount of \$50,710,000. The net proceeds of \$59,836,790 (after the original issue premium of \$9,687,427 and payment of \$560,637 in underwriting fees, insurance, and other issuance costs) from the bonds were used to refund the \$59,620,000 aggregate principal amount outstanding on the City's 2007 wastewater bonds. The aggregate debt service payments of the new debt are \$18,669,931 less than the old debt. The bonds have interest rates varying from 2.0% to 5.0% and the final payment is scheduled for August 2038. The issuance of the new debt and refunding of the old debt resulted in an economic gain (the difference between the net present value of the old debt and new debt service payments) of approximately \$8,750,978. The wastewater revenue bonds contain an acceleration clause that allows the bondholders to accelerate payment of the entire principal amount to become immediately due if default in payment occurs.

2024 water refunding revenue refunding bond

In September 2023, The City issued water revenue refunding bonds in the amount of \$12,710,000. The net proceeds of \$13,379,188 (after the original issue premium of \$669,188 and payment of \$232,086 in underwriting fees, insurance, and other issuance costs) from the bonds were used to refund the \$31,810,000 aggregate principal amount outstanding on the City's 2014 water revenue bonds. The aggregate debt service payments of the new debt are \$30,111,596 less than the old debt. The bonds have interest rates varying from 2.0% to 5.0% and the final payment is scheduled for March 2028. The issuance of the new debt and refunding of the old debt resulted in an economic gain (the difference between the present value of the old debt and new debt service payments) of approximately \$393,000. The wastewater revenue bonds contain an acceleration clause that allows the bondholders to accelerate payment of the entire principal amount to become immediately due if default in payment occurs.

2. Contracts payable

The City enters into contracts to provide funds to provide sewer services. The City has currently entered into one contract and the contract has a maturity of 30 years.

Contracts payable at June 30, 2024, consisted of the following:

	Original Borrowing	Interest Rates	Final Maturity	standing ear-end
Business-type Activities 1993 wastewater renovation	\$ 12,423,873	3.50%-6.25%	2024	\$
Total contracts payable				\$

1993 wastewater renovation

The City has entered into a contract with the City of Fresno to purchase capacity rights in the form of participation in the cost of sewer system improvements. These improvements include the renovation and expansion of the Fresno Clovis Regional Wastewater Treatment Plant. The 1993 contract is for the City's share of the 1993 renovation of the Fresno Clovis Regional Wastewater Treatment Plant. The underlying City of Fresno 1993 Revenue Bonds on which the City of Clovis' contract payable amount is based have interest rates varying from 3.50%-6.25% and the final payments are scheduled for September 2023. The City's \$12,423,873 share of the renovation is capitalized as an intangible asset in the Sewer Disposal Fund, an enterprise fund, as disclosed in Note IV.E. The City made a final payment on the 1993 contract in September 2023.

Fiduciary funds long-term debt

1. Tax allocation bonds payable

2008 Tax allocation bonds

The former Clovis Community Development Agency issued tax allocation bonds in the amount of \$19,100,000 in April 2008. The interest rates on the 2008 tax allocation bonds vary from 3.00% to 4.75% and the final payment is scheduled for August 2037. Bonds outstanding at January 31, 2012 were \$17,445,000 and were transferred to the Successor Agency on February 1, 2012 due to the dissolution of the Agency. The balance outstanding at June 30, 2024 is \$8,620,000 and is held in the City's Redevelopment Successor Agency Private-purpose Trust Fund.

Tax allocation bonds at June 30, 2024, consisted of the following:

							Cla	ssific	cation
	Balance				Balance		Due in		Due in more

Subscription liability

The City has entered into subscription-based information technology arrangements (SBITA) for various administrative and operational purposes. These subscriptions include services related to cloud-based software applications, data storage, and management services. Under the terms of these arrangements, the City does not take possession of the software at any time and the vendor provides ongoing services for the software's operation. The subscription periods vary, with initial non-cancellable terms ranging from 2 to 5 years. The calculated interest rate used was 3.032%.

As of June 30, 2024, the capitalized right-to-use assets related to SBITA was \$1,509,730 and the total subscription liability was \$1,219,800, of which \$682,014 is classified as current liability representing the portion due within the next fiscal year. The City recognized \$75,989 of interest expense related to these arrangements.

SBITAs at June 30, 2024, consisted of the following:

								Cla	assif	ication
	Balance					Balance		Due in		Due in more

Lease liability

The City entered a contract to provide workspace for various departments. The City has currently entered one contract and the contract has a maturity of 7 years. The calculated interest rate used was 3.032%.

As of June 30, 2024, the capitalized assets related to lease liabilities was \$633,506 and the total lease liability was \$577,017, of which \$71,581 is classified as current liability representing the portion due within the next fiscal year. The City recognized \$13,937 of interest expense related to these arrangements.

Lease liabilities at June 30, 2024, consisted of the following:

								Class	sification	on

G. Landfill closure

The City has recorded liabilities for landfill closure, post-closure maintenance and for landfill corrective action in the Community Sanitation Fund, an enterprise fund. The State of California performs an annual analysis to determine estimated total cost of the landfill closure, post-closure care costs, total capacity and remaining life. The City's landfill closure liability, based on landfill capacity used to date, is recorded based on the information provided by their analysis. The landfill corrective action liability is based on the estimated cost of known or reasonably foreseeable corrective action that may be required at the facility.

The City is currently estimating at June 30, 2024 that the capacity of the landfill used is approximately 39%, the estimated remaining life is approximately 33 years and the estimated remaining cost to be recognized is \$23,131,721. The estimated capacity remaining is 6,064,431 cubic yards and the estimated landfill closure liability is \$5,700,540. The current estimated cost of known and/or reasonably foreseeable corrective action is \$4,988,340 and the City currently has \$1,000,000 set aside for this purpose. These estimates are based on a closure and post-closure maintenance plan and corrective action plan. The estimates have been adjusted for inflation and other factors such as technology and laws and regulations.

H. Pension Plans

General Information about the Pension Plan

Plan Description

The City contributes to the California Public Employees' Retirement System (CalPERS), an agent multiple-employer public employee defined benefit pension plan. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by state statute and City ordinance. A full description of the pension plan regarding number of employees covered, benefit provisions, assumptions (for funding, but not accounting purposes), and membership information are listed in the June 30, 2023 Annual Actuarial Valuation Report. This report and CalPERS' audited financial statements are publicly available reports that can be obtained at CalPERS' website under Forms and Publications.

Benefit Provided

CalPERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. A classic miscellaneous member becomes eligible for Service Retirement upon attainment of age 55 with at least 5 years of credited service. PEPRA miscellaneous members become eligible for service retirement upon attainment of age 62 with at least 5 years of service. A classic safety member becomes eligible for Service Retirement upon attainment of age 50 with at least 5 years of credited service. PEPRA safety members become eligible for service retirement upon attainment of age 57 with at least 5 years of service. The service retirement benefit is a monthly allowance equal to the product of the benefit factor, years of service, and final compensation. The final compensation is the monthly average of the member's highest 36 or 12 consecutive months' full-time equivalent monthly pay. Retirement benefits for classic miscellaneous employees are calculated as 2.7% of the average final 12 months compensation. Retirement benefits for PEPRA miscellaneous employees are calculated as 2% of the highest average annual compensation over a three-year period. Retirement benefits for classic safety employees are calculated as 3% of the average highest 12 months compensation. Retirement benefits for PEPRA safety employees are calculated as 2.7% of the average highest 36 months compensation.

Participants are eligible for non-industrial disability retirement if they become disabled and have at least 5 years of credited service. There is no special age requirement. The standard non-industrial disability retirement benefit is a monthly allowance equal to 1.8 percent of final compensation, multiplied by service. Industrial disability benefits are not offered to miscellaneous employees. The City provides industrial disability retirement benefits to safety employees. The industrial disability retirement benefit is a monthly allowance equal to 50 percent of highest compensation.

An employee's beneficiary may receive the basic death benefit if the employee dies while actively employed. The employee must be actively employed with the City to be eligible for this benefit. An employee's survivor who is eligible for any other pre-retirement death benefit may choose to receive that death benefit instead of this basic death benefit. The basic death benefit is a lump sum in the amount of the employee's accumulated contributions, where interest is currently credited at 7.375 percent per year, plus a lump sum in the amount of one month's salary for each completed year of current service, up to a maximum of six months' salary. For purposes of this benefit, one month's salary is defined as the member's average monthly full-time rate of compensation during the 12 months preceding death.

Benefit terms provide for annual cost-of-living adjustments to each employee's retirement allowance. Beginning the second calendar year after the year of retirement, retirement and survivor allowances will be annually adjusted by 2 percent applied to the original retirement allowance.

Employees Covered by Benefit Terms

At June 30, 2023, the measurement date, the following employees were covered by the benefit terms: *Employee information*

	Plans	3
	Miscellaneous	Safety
Active employees	539	175
Transferred and terminated employees	780	74
Retired Employees and Beneficiaries	360	199
Total	1,679	448

Contributions

For the measurement period ended June 30, 2023, contributions were as follows:

	Miscellaneous				Aggregate Total		
Contributions - employer	\$	6,599,704	\$	9,807,362	\$	16,407,066	

Section 20814(c) of the California Public Employees' Retirement Law ("PERL") requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contributions for the measurement period were as follows:

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

For the measurement period ended June 30, 2023, the total pension liability was determined by rolling forward the June 30, 2022 total pension liability. The June 30, 2023 total pension liability was based on the following actuarial methods and assumptions:

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Discount Rate	6.90%
Inflation	2.30%
Salary Increases	Varies by Entry Age and Service
Investment Rate of Return	7.00% Net of Pension Plan Investment and Administrative
	Expenses; includes Inflation
Mortality Rate Table	Derived using CalPERS' Membership Data for all Funds
Post Retirement Benefit Increase	Contract COLA up to 2.0% until Purchasing Power Protection
	Allowance Floor on Purchasing Power applies, 2.30%
	thereafter

The Experience Study report can be obtained at CalPERS' website under Forms and Publications.

Discount Rate

In Fiscal Year 2021-22, the discount rate was lowered from 7.15 percent to 6.90 percent. The last adjustment to the discount rate was in fiscal year 2016-17 when it was lowered from 7.65 percent to 7.15 percent in fiscal year. The funding discount rate includes a 15 basis-point reduction for administrative expenses, and the remaining decrease is consistent with the change in the financial reporting discount rate.

Long-term Expected Real Rates of Return by Asset Class

The table below reflects long-term expected real rates of return by asset class. The rates of return were calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

Asset Class ¹	Assumed Asset Allocation	Real Return		
Global Equity Cap-weighted	30.00%	4.54%		
Global Equity Non-Cap-weighted	12.00%	3.84%		
Private Equity	13.00%	7.28%		
Treasury	5.00%	0.27%		
Mortgage-backed Securities	5.00%	0.50%		
Investment Grade Corporates	10.00%	1.56%		
High Yields	5.00%	2.27%		
Emerging Market Debt	5.00%	2.48%		
• • • • • • • • • • • • • • • • • • • •				

¹ In the Basic Financial Statements, Fixed Income is included in Global Debt Securities; Liquidity is included in Short-Term Investments; Inflation Assets are included in both Global Equity Securities and Global Debt Securities.

Pension Expense

The Net Pension Expense for the year ended June 30, 2024 is itemized as follows:

	Net Felision
	 Expense
Miscellaneous Plan	\$ 3,222,868
Safety Plan	 3,835,107
	\$ 7,057,975

Not Donoion

² An expected inflation of 2.30% used for this period.

³ Figures are based on the 2021-22 Asset Liability Management study.

Changes in the Net Pension Liability

The following table shows the changes in net pension liability recognized over the measurement period.

Miscellaneous Plan			Inc	rease (Decrease))	
	T	otal Pension Liability	Pla	n Fiduciary Net Position		Net Pension ability/(Asset)
Balance at June 30, 2022 (Valuation Date)	\$	262,535,660	\$	187,202,646	\$	75,333,014
Changes Recognized for the Measurement Period:

Benefit payments, including refunds of employee contributions		(12,745,618)		(12,745,618)		(10,898,008)
		(12,745,618)				(10,898,008)
contributions	\$	(12,745,618)	\$	(12,745,618)	\$,

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Plan as of the measurement date, calculated using the discount rate of 6.90 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (5.90 percent) or 1 percentage-point higher (7.90 percent) than the current rate:

	Di	scount Rate - 1%	Cι	ırrent Discount	Dis	scount Rate + 1%		
		(5.9%)	F	Rate (6.90%)	(7.90%)			
Miscellaneous Plan	\$	114,793,038	\$	76,782,125	\$	45,437,195		
Safety Plan	\$	143,901,948	\$	103,342,418	\$	67,770,536		
Aggretate Total	\$	258,694,986	\$	180,124,543	\$	113,207,731		

Pension Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available in the separately issued CalPERS financial report.

<u>Deferred Outflows and Deferred Inflows of Resources Related to Pensions</u>

Deferred Outflows of Resources

	pen	eferred employer sion contributions made after easurement date	 Changes in assumptions	nvestment earnings less than expected earnings	 erences between actual versus ected experience	Total pension-related deferred outflows		
Miscellaneous Plan Safety Plan	\$	7,027,464 10,457,046	\$ 3,938,373 6,256,077	\$ 8,930,761 8,421,676	\$ 537,606 3,030,122	\$	20,434,204 28,164,921	
Total	\$	17,484,510	\$ 10,194,450	\$ 17,352,437	\$ 3,567,728	\$	48,599,125	

The City reported \$7,027,464 and \$10,457,046 as deferred outflows of resources related to contributions for the miscellaneous and safety plan, respectively, subsequent to the measurement date that will be recognized as a reduction of the net pension liability in the year ending June 30, 2024.

Deferred Inflows of Resources

	Changes in assumptions	 Investment earnings less than expected earnings		Differences between actual versus expected experience	Total pension-related deferred inflows		
Miscellaneous Plan Safety Plan	\$ 0	\$ 0	\$	(903,442) (2,292,382)	\$ (903,442) (2,292,382)		
Total	\$ 0	\$ 0	\$	(3,195,824)	\$ (3,195,824)		

Amortization of deferred outflows/(inflows) of resources

Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

Measurement Period		Deferred Outflows/(Inflows) of Resources								
Ended June 30	N	liscellaneous Plan		Safety Plan						
2024	\$	3,717,082	\$	3,964,241						
2025		2,332,038		2,943,822						
2026		6,213,533		7,697,414						
2027		240,645	810,01							
	\$	12,503,298	\$	15,415,493						

Payable to Pension Plan

At June 30, 2024, the City reported a payable of \$0 for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2024.

I. Tax Abatements

The City has not entered into any tax abatement agreements as of June 30, 2024. However, the County of Fresno (County) has provided certain tax abatements that affect the property tax revenues of the City.

The County provides property tax abatements through the California Land Conservation (Williamson) Act of 1965. The program enrolls land in Williamson Act or Farmland Security Zone contracts within established agricultural preserves, whereby the land is restricted to agricultural or qualified recreational uses in exchange for reduced property tax assessments. The Williamson Act Program is administered according to the statute and the County's Interim Program Guidelines adopted by the County's Board of Supervisors. The County's Assessor administers the property tax reduction that parcels enrolled in the program receive. Parcels enrolled in the Williamson Act Program are assessed for property tax purposes at a rate consistent with their actual use, rather than the market value of the property. The minimum contract term for the Williamson Act is ten years and for the Farmland Security Zone is twenty years. Both, the Williamson Act and the Farmland Security Zone contracts automatically renew until a notice of non-renewal or a certificate of cancellation is recorded. Under the non-renewal process, the annual tax assessment gradually increases over a defined period of time until the assessment reflects the market value of the property. Under the cancellation process, a onetime cancellation fee is assessed based upon a certain percentage of the unrestricted, current fair market value of the property.

For the fiscal year ended June 30, 2024, the County's Williamson Act Program tax abatements were \$67,648,947. The City's affected portion of property tax revenues (approx. 1.9%) is, therefore, \$1,285,330.

V. Other information

A. Self insurance

The City is self-insured for general liability, automobile liability, workers' compensation, group dental and group vision programs. The City is responsible for all claims up to \$5,000 per occurrence for automobile liability, \$5,000 per occurrence for property, \$250,000 per occurrence for workers' compensation, and \$100,000 per occurrence on general liability. The dental and vision programs have no individual per occurrence stop-loss and no aggregate annual stop-loss. Excess insurance for all amounts in excess of the self-insured retention in the workers' compensation program is purchased from Local Agency Workers' Compensation Excess JPA (LAWCX). Consistent with the LAWCX Memorandum of Coverage, LAWCX provides coverage for the City above its self-insured retention of \$250,000 up to \$5,000,000. LAWCX purchases excess insurance which covers the pool for losses from \$5,000,000 to statutory limits.

The City is a member of the Central San Joaquin Valley Risk Management Authority (RMA) for the purpose of pooling general liability coverage under a retrospectively rated Memorandum of Coverage. Deposit premiums to the RMA are based on actuarially determined claims costs, including incurred but not reported claims, and expenses. Premiums are accrued based on the ultimate cost determined by the experience to date of the pool's member cities. The risk pool covers the City above its self-insured retention of \$100,000 up to \$1,000,000. The Authority purchases excess insurance which covers the pool for losses from \$1,000,001 to \$34,500,000. Pool Members may receive rebates when declared by RMA or, in the event excess liability claims against RMA exceed available resources, may be required to make additional contributions through a retrospective adjustment process.

The City accounts for the self-insurance programs in the Self-Insurance Fund and Employee Benefits Fund, both internal service funds. Charges to user departments are reported as interfund transactions.

Incurred but not reported claims have been accrued as a liability for the workers' compensation and dental programs as required in the amount of \$4,490,850 based on previous claims experience and actuarial studies.

There were no reductions in insurance coverage from the prior year and there were no settlements that exceeded insurance coverage for the past three fiscal years. Following is a reconciliation of the changes in the City's aggregate liabilities for claims for the current and prior fiscal year:

	Cc	Workers' empensation	Dental	Total
Balance, 06/30/22 Claims provision Claims paid	\$	8,673,000 3,150,811 (3,448,811)	\$ 48,000 354,695 (354,695)	\$ 8,721,000 3,505,506 (3,803,506)
Balance, 06/30/23 Claims provision Claims paid		8,375,000 4,652,367 (3,862,367)	48,000 431,698 (431,698)	8,423,000 5,084,065 (4,294,065)
Balance, 06/30/24	\$	9,165,000	\$ 48,000	\$ 9,213,000

B. Deferred compensation

The City has established a deferred compensation plan in accordance with Internal Revenue Code Section 457. The plan, available to all full time employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. All amounts deferred under the plan and all income attributable to those amounts are solely the property and rights of the plan participants.

Semi-monthly the City forwards all contributions to the plan administrator, the ICMA Retirement Corporation. Plan participants may choose from investment options which are managed by the plan trustee. The City has no liability for losses under the plan. As of January 1, 1998 ICMA Retirement Corporation amended the agreement with the City to comply with IRC Section 457 regulations. The assets and related liabilities are not reported on the City's financial statements in accordance with Governmental Accounting Standards Board Statement No. 32 - "Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans."

C. Postretirement benefits

The City allows its retirees who retire under provisions of a regular service retirement and who have five years of service the opportunity to continue enrollment in the City's health insurance program until age 65. The retirees have the same choice of insurance plans as those of current employees. The retirees are pooled together separately from the active employee pool and pay the full cost of the insurance premiums without cost to the City.

D. Contingent liabilities

The City participates in a number of federally assisted grant programs, including those from the U.S. Department of Housing and Urban Development, U.S. Department of Justice, U.S. Department of Transportation, U.S. Department of Labor, U.S. Department of Health and Human Services and the U.S. Department of Homeland Security. Receipts from these grant programs are subject to audit to determine if the monies were expended in accordance with the appropriate statutes, grant terms and regulations. The City believes no significant liabilities will result.

E. Claims and litigation

The City is directly and indirectly involved in various suits relating principally to claims arising from construction contracts, personal injury, and property damage. In the opinion of the City Attorney and City's management, potential claims against the City resulting from such litigation, not covered by insurance, would not materially affect the basic financial statements of the City. As a result, no liability has been accrued by the City relating to these matters as of June 30, 2024.

F. Subsequent events

In August 2024, the Clovis City Council voted to place Measure Y on the November 2024 ballot. Measure Y is 1% sales and use tax measure that, if approved by voters, will provide a local source of funding that the City will be able to use to pay for services such as public safety, repairs to streets, youth programs, parks, programs addressing homelessness, retaining local small businesses/jobs, and other general services. If passed, it is estimated that the sales tax measure would provide approximately \$28 million annually until ended by voters. The tax is considered a general tax and requires over 50% of voters to approve it to pass. Initial projections show the measure passing, but the results have not been officially certified by the County of Fresno.

¹ During Fiscal Year 2017-18, as a result of Governmental Accounting Standards Board Statement (GASB) No. 75, Accounting and Financial Reporting for Postemployment Benefit Plans Other than Pensions (GASB 75), CalPERS reported its proportionate share of activity related to postemployment benefits for participation in the State of California's agent OPEB plan. Accordingly, CalPERS recorded a one-time expense as a result of the adoption of GASB 75. Additionally, CalPERS employees participate in various State of California agent pension plans and during Fiscal Year 2017-18, CalPERS recorded a correction to previously reported financial statements to properly reflect its proportionate share of activity related to pensions in accordance with GASB Statement No. 68, Accounting and Financial Reporting for Pensions (GASB 68).

Notes to Schedule of Changes in Net Pension Liability and Related Ratios:

Benefit Changes: The figures above include any liability impact that may have resulted from voluntary benefit changes that occurred after the June 30, 2019 valuation. However, offers of Two Years Additional Service Credit (a.k.a. Golden Handshakes) that occurred after the June 30, 2019 valuation date are not included in the figures above, unless the liability impact is deemed to be material by the plan actuary.

² Includes any beginning of year adjustment

³ Includes one year's payroll growth using 2.75 percent payroll growth assumption for fiscal years ended June 30, 2018-20; 3.00 percent payroll growth assumption for fiscal years ended June 30, 2014-17.

¹ During Fiscal Year 2017-18, as a result of Governmental Accounting Standards Board Statement (GASB) No. 75, Accounting and Financial Reporting for Postemployment Benefit Plans Other than Pensions (GASB 75), CalPERS reported its proportionate share of activity related to postemployment benefits for participation in the State of California's agent OPEB plan. Accordingly, CalPERS recorded a one-time expense as a result of the adoption of GASB 75. Additionally, CalPERS employees participate in various State of California agent pension plans and during Fiscal Year 2017-18, CalPERS recorded a correction to previously reported financial statements to properly reflect its proportionate share of activity related to pensions in accordance with GASB Statement No. 68, Accounting and Financial Reporting for Pensions (GASB 68).

Notes to Schedule of Changes in Net Pension Liability and Related Ratios:

Benefit Changes: The figures above include any liability impact that may have resulted from voluntary benefit changes that occurred after the June 30, 2019 valuation. However, offers of Two Years Additional Service Credit (a.k.a. Golden Handshakes) that occurred after the June 30, 2019 valuation date are not included in the figures above, unless the liability impact is deemed to be material by the plan actuary.

² Includes any beginning of year adjustment

³ Includes one year's payroll growth using 2.75 percent payroll growth assumption for fiscal years ended June 30, 2018-20; 3.00 percent payroll growth assumption for fiscal years ended June 30, 2014-17.

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted for particular purposes.

Off Highway Use Fund - This fund is used to account for the revenue received from the off-highway users fee since the fee can only be used for off-road facilities.

Housing & Community Development Fund - This fund is used to account for the revenue and expenses for the Community Development Block Grant operational activities.

Community Facilities District 2020-1 Fund (Dry Creek Preserve Sewer Facilities and Services) - This fund is used to collect funds to finance all costs associated with the maintenance and operation of certain temporary public sewer facilities and the eventual replacement of those temporary facilities with permanent public sewer facilities.

Debt Service Funds

The debt service fund is used to account for the accumulation of resources and payment of bond principal and interest when the government is obligated in some manner for the payment.

1976 Fire and Sewer Bond Fund - This fund is used to account for the proceeds of the 1976 Fire and Sewer Bond sale and the annual debt service.

Capital Projects Funds

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

Park and Recreation Improvement Fund - This fund is used to account for capital improvements for parks, including acquisition of property. Revenues come from developer fees and grants.

Refuse Equipment Reserve Fund - This fund is used to account for the revenue generated by developer fees for the acquisition of equipment for refuse collection and disposal.

Internal Service Funds

Internal service funds are used to account for the financing of goods or services provided by one department of the agency to other departments or agencies of the government and to other government units, on a cost reimbursement basis.

Self-Insurance Fund - This fund is used to account for the cost of general liability and property damage insurance. It is funded by a charge to all operating departments.

Fleet Fund - This fund is used to account for rental charges to all operating departments for maintenance and replacement cost for equipment and vehicles.

Employee Benefit Fund - This fund is used to account for the cost of employee benefits including retirement, workers' compensation, health insurance, unemployment insurance and Medicare insurance. It is funded by a charge to all operating departments.

General Services - This fund is used to account for the centralized support provided to other departments and for government facility enhancements and acquisitions.

Noncash investing, capital, and financing activities:

During the year the Fleet Maintenance Fund, an internal service fund, received \$121,417 in donated assets.

Fiduciary Funds

Custodial Funds are used to account for assets held by the government for individuals, private organizations, other governments and/or other funds.

Blackhorse Assessment Fund - This fund is used to account for revenue and expenditures related to the maintenance within the Blackhorse III (95-1) Assessment District such as streets, curb & gutter, street lighting, sidewalks and gates.

Temperance/Barstow Assessment Fund - This fund is used to account for the receipts and disbursements of the Temperance Barstow Assessment District.

Shepherd/Temperance Assessment Fund - This fund is used to account for the receipts and disbursements of the Shepherd Temperance Assessment District.

Statistical Section

This part of the City of Clovis' Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Statistical Section

Contents	Page
Financial Trends	113
These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.	
Revenue Capacity	121
These schedules contain information to help the reader assess the governments most significant local revenue source, the property tax.	•
Debt Capacity	125
These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	
Demographic and Economic Information	131
These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.	
Operating Information	134
These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.	Э

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN **ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Independent Auditors' Report

To the Honorable Mayor and Members of City Council of the City of Clovis Clovis, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City of Clovis, California (the "City") as of and for the year ended June 30, 2024, and the related notes to the basic financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated November 25, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's basic financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

To the Honorable Mayor and Members of City Council of the City of Clovis
Clovis, California
Page 2

The Red Group, LLP

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

San Diego, California November 25, 2024

4660 La Jolla Village Drive, Suite 100 San Diego, California 92122

REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM, ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE, AND ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Independent Auditors' Report

To the Honorable Mayor and Members of City Council of the City of Clovis Clovis, California

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the City of Clovis, California's (the "City") compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2024. The City's major federal programs are identified in the summary of the auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City's federal programs.

To the Honorable Mayor and Members of City Council of the City of Clovis
Clovis, California
Page 2

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, Government Auditing Standards, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City's internal control over compliance relevant to the audit in order to design
 audit procedures that are appropriate in the circumstances and to test and report on internal control over
 compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the
 effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

To the Honorable Mayor and Members of City Council of the City of Clovis
Clovis, California
Page 3

The Red Group, LLP

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City as of and for the year ended June 30, 2024, and the related notes to the financial statements, and have issued our report thereon dated November 25, 2024, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming our opinions on the City's financial statements. The accompanying Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain other records used to prepare the financial statements of the underlying accounting and other records used to prepare the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

AGENDA ITEM NO. 7.

City of Clovis

Notes to the Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2024

Note 1 – Reporting Entity

The financial reporting entity consists of (a) the primary government, City of Clovis, California (the "City"), (b) organizations for which the primary government is financially accountable, including the Clovis Community Development Agency (dissolved on February 1, 2012 and established a Successor Agency, which is reported as a private-purpose trust fund in the City's financial statements), Clovis Municipal Development Corporation, and Clovis Public Financing Authority, and (c) other organizations for which the primary government is not accountable, but for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Note 2 - Basis of Accounting

Funds received under the various grant programs have been recorded within the General Fund, special revenue, and enterprise funds of the City. The City utilizes the modified accrual method of accounting for the General Fund and special revenue funds and full accrual basis of accounting for the enterprise funds. The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") is presented in accordance with the requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and includes the federal award activity for the year ended June 30, 2024. Therefore, some amounts presented in the schedule may differ from amounts presented in, or used in, the preparation of the City's basic financial statements.

Note 3 – Schedule of Expenditures of Federal Awards

The accompanying Schedule presents the activity of all federal financial assistance programs of the City. Federal financial assistance received directly from federal agencies as well as federal financial assistance passed through the State of California, County of Fresno, and/or City of Fresno are included in the Schedule. The Schedule was prepared from only the accounts of various grant programs and, therefore, does not present the financial position, change in net position or fund balance, or results of operations and cash flows of the City.

Note 4 - Subrecipients

The City passed-through \$45,787 in Federal Assistance Listing No. 15.514 WaterSMART Program funding to the Fresno Metropolitan Flood Control District during the fiscal year ended June 30, 2024.

Note 5 - Indirect Cost Rate

The City did not elect to use the 10-percent de minimis indirect rate as allowed under the Uniform Guidance.

Note 6 – Contingencies

Under the terms of federal and state grants, additional audits may be requested by the grantor agencies and certain costs may be questioned as not being appropriate expenditures under the terms of the grants. Such audits could lead to a request for reimbursement to the grantor agencies.

City of Clovis Schedule of Findings and Questioned Costs For the Year Ended June 30, 2024

SECTION I - SUMMARY OF AUDITORS' RESULTS

Financial Statements

Type of auditors' report issued:

Unmodified

REPORT ON COMPLIANCE AND OTHER MATTERS AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS IN RELATION TO THE LOCAL TRANSPORTATION PURPOSE FUNDS PERFORMED IN **ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Independent Auditors' Report

To the Honorable Mayor and Members of City Council of the City of Clovis Clovis, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Clovis, California (the "City"), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated November 25, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

To the Honorable Mayor and Members of City Council of the City of Clovis

Page 2

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, including the requirements of the California Public Utilities Code Section 142257 regulations as it applies to Local Transportation Purpose Funds noncompliance, with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with such provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported herein under the California Public Utilities Code Section 142257 regulations as applies to Local Transportation Purpose Funds and Government Auditing Standards.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other The Red Group, LLP

San Diego, California November 25, 2024

INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED-UPON PROCEDURES

To the Honorable Mayor and Members of City Council of the City of Clovis Clovis, California

We have performed the procedures enumerated below to the accompanying Appropriations Limit Schedule of the City of Clovis, California (City) for the year ended June 30, 2024. The management of the City is responsible for the Appropriations Limit Schedule.

The City has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of meeting the requirements set forth in Section 1.5 of Article XIII-B of the California Constitution. These procedures, which were suggested by the League of California Cities and presented in the publication entitled Agreed-upon Procedures Applied to the Appropriations Limitation Prescribed by Article XIII-B of the California Constitution, were performed solely to assist you in meeting the requirements. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows:

1. We obtained the completed worksheets for the year ended June 30, 2024 and compared the limit and annual adjustment factors included in those worksheets to the limit and annual adjustment factors included in those worksheets to the limit and annual adjustment factors that were adopted by resolution of the City Council. We also compared the population and inflation options included in the aforementioned worksheet to those that were selected by a recorded vote of the City Council.

Finding: No exceptions were noted as a result of our procedures.

2. For the accompanying Appropriations Limit Schedule, we added the last year's limit to the total adjustments, and agreed the resulting amount to this year's limit.

Finding: No exceptions were noted as a result of our procedures.

3. We compared the current year information presented in the accompanying Appropriations Limit Schedule to corresponding information in worksheets used by the City.

Finding: No exceptions were noted as a result of our procedures.

4. We compared the prior year appropriations limit presented in the accompanying Appropriations Limit Schedule to the prior year appropriations limit adopted by the City Council for the prior year.

Finding: No exceptions were noted as a result of our procedures.

To the Honorable Mayor and Members of the City Council of the City of Clovis
Clovis, California
Page 2

The Rew Group, LLP

We were engaged by the City to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to, and did not, conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the accompanying Appropriation Limit Schedule. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely for the information and use of the City Council and management of the City and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

San Diego, California November 25, 2024

City of Clovis Notes to Appropriations Limit Schedule For the Year Ended June 30, 2024

Note 1 - Purpose of Limited Procedures Review

Under Article XIIIB of the California Constitution (the Gann Spending Limitation Initiative), California governmental agencies are restricted as to the amount of annual appropriations from proceeds of taxes. Effective for years beginning on or after July 1, 1990, under Section 1.5 of Article XIIIB, the annual calculation of the appropriations limit is subject to a limited procedures review in connection with the annual audit.

Note 2 - Method of Calculation

Under Section 10.5 of Article XIIIB, for fiscal years beginning on or after July 1, 1990, the appropriations limit is required to be calculated based on the limit for the fiscal year 1986-87, adjusted for the inflation and population factors discussed in Notes 3 and 4 below.

Note 3 - Population Factors

A California governmental agency may use as its population factor either the annual percentage change of the jurisdiction's own population or the annual percentage change in population of the county where the jurisdiction is located. The factor adopted by the City for fiscal year 2024 represents the annual percentage change in population for the City.

Note 4 - Inflation Factors

A California governmental agency may use as its inflation factor either the annual percentage change in the 4th quarter per capita personal income (which percentage is supplied by the State Department of Finance) or the percentage change in the local assessment roll from the preceding year due to the change of local nonresidential construction. The factor adopted by the City for fiscal year 2024 represents the annual percentage change in per capita personal income.

Note 5 - Other Adjustments

A California government agency may be required to adjust its appropriations limit when certain events occur, such as the transfer of responsibility for municipal services to, or from, another government agency or private entity. The City had no such adjustments for fiscal year 2024.

November 25, 2024

4660 La Jolla Village Drive, Suite 100 San Diego, California 92122

www.pungroup.cpa

To the Honorable Mayor and Members of the City Council of the City of Clovis
Clovis, California

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Clovis (the "City") for the year ended June 30, 2024, and have issued our report thereon dated November 21, 2024. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and the Uniform Guidance, as well as certain information related to the scope and timing of our audit. We have communicated such information in our letter to you dated June 1, 2024. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the City are described in Note 1 to the basic financial statements.

New Accounting Standards

In June 2022, GASB issued Statement No. 100, Accounting Changes and Error Corrections – an Amendment of GASB Statement No. 62. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. Application of this statement did not have a significant effect on the City's fiscal year ending June 30, 2024.

We noted no other new accounting policies were adopted and the application of existing policies was not changed during 2024. We noted no transactions entered into by the City during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

The most sensitive estimates affecting the City's financial statements were:

- Investments valuation
- Depreciation on capital assets
- Amortization on intangible assets
- Landfill post-closure obligation
- Claims payable
- Net pension liability

Attachment 2

To the Honorable Mayor and Members of the City Council of the City of Clovis Clovis, California Page 2

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements were:

Note I – Summary of Significant Accounting Polices

Note II – Reconciliation of Government-Wide and Fund Financial Statements

Note IV – Detailed Notes on All Funds

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated November 25, 2024.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

To the Honorable Mayor and Members of the City Council of the City of Clovis
Clovis, California
Page 3

Other Matters

We applied certain limited procedures to the MD&A, Budgetary Comparison Schedules for General Fund and Major Special Revenue Funds, the Schedule of Changes in Net Pension Liability and Related Ratios for CalPERS, and the Schedule of Pension Contributions for CalPERS, which are RSI that supplement the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the Combining and Individual Fund Financial Statements and the Budgetary Comparison Schedules, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on the Introductory and Statistical Sections, which accompany the financial statements but are not RSI. We did not audit or perform other procedures on this other information and we do not express an opinion or provide any assurance on it.

Restriction on Use

This information is intended solely for the use of the City Council and management of the City and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

San Diego, California

The Ren Group, LLP
