WHEREAS, said Section 53607 requires that once the Treasurer of the local agency is delegated that DISTRICT, he thereafter assumes full responsibility for such transactions until such time as the delegated DISTRICT is revoked; and

WHEREAS, said Section 53607 requires the Treasurer of the local Agency to make a monthly report of such transactions to the legislative body; and

WHEREAS, said Section 53607 requires an annual ratification of the delegation of DISTRICT of the legislative body to the Treasurer; and

WHEREAS, Government Code Section 53646 (2) requires that the Treasurer shall annually render to the BOARD and any oversight committee a Statement of Investment Policy and any change in the policy, which the BOARD shall consider at a public meeting; and

WHEREAS, it is in the best interest of the DISTRICT to have any surplus or idle DISTRICT funds invested so as to provide additional income to the DISTRICT.

NOW THEREFORE, THE BOARD OF DIRECTORS OF THE COACHELLA SANITARY DISTRICT HEREBY RESOLVES AS FOLLOWS:

SECTION 1 - That the DISTRICT Treasurer, or their authorized designee(s), is hereby delegated the DISTRICT to invest or reinvest surplus funds of the DISTRICT, or to sell, or exchange securities so purchased.

SECTION 2 - The DISTRICT Treasurer, or their authorized designee(s), will assume full responsibility for such transactions until such time as the aforementioned delegated DISTRICT is revoked, and that the DISTRICT Treasurer will make a monthly report of such transactions to the BOARD of the DISTRICT.

SECTION 3 - The DISTRICT Treasurer shall render to the BOARD a Statement of Investment Policy in the first quarter of each calendar year. Any changes to said policy shall be considered by the BOARD at such a regular public meeting.

SECTION 4 - The Statement of Investment Policy, attached hereto and incorporated herewith, is adopted as the Statement of Investment Policy of the DISTRICT for fiscal year 2022-2023.

SECTION 5 - The DISTRICT Treasurer shall comply with the Statement of Investment Policy of the DISTRICT adopted by this Resolution.

SECTION 6 - The DISTRICT Treasurer shall report to the BOARD, the Executive Director and the DISTRICT'S Auditor as required by the Statement of Investment Policy and all applicable laws.

PASSED, APPROVED and **ADOPTED,** this 28th day of June 2023.

STAFF REPORT
6/28/2023

TO: Honorable Mayor and City Council Members

FROM: Lizzandro Diaz, Building Official

SUBJECT: Professional Service Agreement with Access Services Plus to provide the City with an American with Disabilities Act (ADA) Self-evaluation and Transition Plan.

STAFF RECOMMENDATION:

Authorize City Manager to execute a Professional Service Agreement with Access Services, Plus to prepare an ADA transition plan as required by the State of California. This plan is an essential document that outlines the strategies and steps the City will take to comply with the Americans with Disabilities Act.

BACKGROUND:

The Americans with Disabilities Act (ADA) is a civil rights law that prohibits discrimination against individuals with disabilities in all areas of public life, including jobs, schools, transportation, and all public and private places that are open to the general public. The purpose of the law is to make sure that people with disabilities have the same rights and opportunities as everyone else. The ADA provides civil rights protections to individuals with disabilities similar to those provided to individuals on the basis of race, color, sex, national origin, age, and religion. It guarantees equal opportunity for individuals with disabilities in public accommodations, employment, transportation, state and local government services, and telecommunications.

DISCUSSION/ANALYSIS:

As California works towards enhancing accessibility for all, the City of Coachella recognizes the value and importance of developing an ADA Transition Plan. This plan is necessary to ensure that city facilities, parks, sidewalks, electronics, and communications are fully compliant with the ADA and meet the disability community's needs as much as possible.

The plan will be implemented by engaging the services of consultants specializing in ADA compliance. The consultants will conduct a comprehensive survey of facilities and outdoor areas within the city, as well as analyze existing plans, policies and practices. Once the survey is completed, they will develop tailored recommendations to make all city facilities, outdoor areas

pedestrian paths, and electronics fully accessible, utilizing best practices and state-of-the-art designs. The report will outline a comprehensive action plan for implementation, and will set out metrics for measuring success, ensuring compliance with the ADA. The project will be funded under the city budget to ensure that the costs of compliance are met responsibly and efficiently.

FISCAL IMPACT:

There will be a fiscal impact to the FY 22/23 of $45,000 coming from surplus funds from the Building Departments Professional/Contract Services account. The contract is in the amount not to exceed $45,000.

ATTACHMENTS:

1. Professional Service Agreement – Access Services, Plus
2. Exhibit "A" Scope of Services
3. Exhibit "B" Proposals from Consultants

CITY OF COACHELLA

PROFESSIONAL SERVICES AGREEMENT

CITY OF COACHELLA PROFESSIONAL SERVICES AGREEMENT

FOR ON-CALL SERVICES

1. PARTIES AND DATE.

This Agreement is made and entered into this June day of 29, 2023, by and between the City of Coachella, a municipal corporation organized under the laws of the State of California with its principal place of business at 1515 6th Street, Coachella, California 92236, County of Riverside, State of California ("City") and Access Services, Plus, a LIMITED LIABILITY COMPANY, with its principal place of business at 1548 Columbia St., Redlands, CA 92374 ("Consultant"). City and Consultant are sometimes individually referred to herein as "Party" and collectively as "Parties."

2. RECITALS.

2.1 Consultant.

Consultant desires to perform and assume responsibility for the provision of certain professional services required by the City on the terms and conditions set forth in this Agreement. Consultant represents that it is experienced in providing accessibility consulting services to public clients, is licensed in the State of California, and is familiar with the plans of City.

2.2 Project.

City desires to engage Consultant to render such professional services for the American with Disabilities Act compliance and transition project ("Project") as set forth in this Agreement.

3. TERMS.

3.1 Scope of Services and Term.

3.1.1 General Scope of Services. Consultant promises and agrees to furnish to the City all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately supply the professional accessibility consulting services necessary for the Project described in Exhibit "A" attached hereto and incorporated herein by reference (“Services”). The Services shall be more particularly described in the individual Task Order issued by the City or its designee. No Services shall be performed unless authorized by a fully executed Task Order in the form attached hereto as Exhibit “B”. All Services shall be subject to, and performed in accordance with, this Agreement, each Task Order, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

3.1.2 Term. The term of this Agreement shall be from July 1, 2023 to December 1, 2023, unless earlier terminated as provided herein.

3.2 Compensation.

3.2.1 Compensation. Consultant shall receive compensation, including authorized reimbursements, for all Services rendered under this Agreement. The total compensation for hereunder shall not exceed forty five thousand dollars ($45,000.00) without written approval of the City Council or City Manager, as applicable. Extra Work may be authorized, as described below, and if authorized, will be compensated at the rates and manner set forth in this Agreement.

3.2.2 Payment of Compensation. Consultant shall submit to City a monthly invoice which indicates work completed and hours of Services rendered by Consultant. The invoice shall describe the amount of Services provided since the initial commencement date, or since the start of the subsequent billing periods, as appropriate, through the date of the invoice. City shall, within 30 days of receiving such invoice, review the invoice and pay all non-disputed and approved charges. If the City disputes any of Consultant's fees, the City shall give written notice to Consultant within thirty (30) days of receipt of an invoice of any disputed fees set forth therein. Payment shall not constitute acceptance of any Services completed by Consultant. The making of final payment shall not constitute a waiver of any claims by the City for any reason whatsoever.

3.2.3 Reimbursement for Expenses. Consultant shall not be reimbursed for any expenses unless authorized in writing by City.

3.2.4 Extra Work. At any time during the term of this Agreement, City may request that Consultant perform Extra Work. As used herein, "Extra Work" means any work which is determined by City to be necessary for the proper completion of the Project, but which the Parties did not reasonably anticipate would be necessary at the execution of this Agreement. Consultant shall not perform, nor be compensated for, Extra Work without written authorization from the City.

3.3 Responsibilities of Consultant.

3.3.1 Independent Contractor; Control and Payment of Subordinates. The Services shall be performed by Consultant or under its supervision. Consultant will determine the means, methods and details of performing the Services subject to the requirements of this Agreement. City retains Consultant on an independent contractor basis and not as an employee. Any personnel performing the Services on behalf of Consultant shall not be employees of City and shall at all times be under Consultant's exclusive direction and control. Neither City, or any of its officials, officers, directors, employees or agents shall have control over the conduct of Consultant or any of Consultants officers, employees or agents, except as set forth in this Agreement. Consultant shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this Agreement and as required by law. Consultant shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation insurance.

3.3.2 Schedule of Services. Consultant shall perform the Services in a prompt and timely manner. Consultant shall complete the Services within the term of this Agreement, and shall meet any other established schedules and deadlines set forth in each individual Task Order issued by the City. Consultant represents that it has the professional and technical personnel required to perform the

Services expeditiously. Upon request of City, Consultant shall provide a more detailed schedule of anticipated performance to meet the established schedules and deadlines.

3.3.3 Conformance to Applicable Requirements. All work prepared by Consultant shall be subject to the approval of City.

3.3.4 Substitution of Key Personnel. Consultant has represented to City that certain key personnel will perform and coordinate the Services under this Agreement. Should one or more of such personnel become unavailable, Consultant may substitute other personnel of at least equal competence upon written approval of City. In the event that City and Consultant cannot agree as to the substitution of key personnel, City shall be entitled to terminate this Agreement for cause. The key personnel for performance of this Agreement are as follows: Daniel F. Kaiser.

3.3.5 City's Representative. The City hereby designates Lizzandro Diaz, Building Official, or his/her designee, to act as its representative in all matters pertaining to the administration and performance of this Agreement ("City's Representative"). City's Representative shall have the power to act on behalf of the City for review and approval of all products submitted by Consultant but not the authority to enlarge the Scope of Services or change the total compensation due to Consultant under this Agreement. The City Manager shall be authorized to act on City's behalf and to execute all necessary documents which enlarge the Scope of Services or change the Consultant's total compensation subject to the provisions contained in this Agreement. Consultant shall not accept direction or orders from any person other than the City Manager, City's Representative or his/her designee.

3.3.6 Consultant's Representative. Consultant hereby designates Daniel F. Kaiser, or his/her designee, to act as its representative for the performance of this Agreement ("Consultant's Representative"). Consultant's Representative shall have full authority to represent and act on behalf of the Consultant for all purposes under this Agreement. The Consultant's Representative shall supervise and direct the Services, using his/her best skill and attention, and shall be responsible for all means, methods, techniques, sequences, and procedures and for the satisfactory coordination of all portions of the Services under this Agreement.

3.3.7 Coordination of Services. Consultant agrees to work closely with City staff in the performance of Services and shall be available to City's staff, consultants and other staff at all reasonable times.

3.3.8 Standard of Care; Performance of Employees. Consultant shall perform all Services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Consultant represents and maintains that it is skilled in the professional calling necessary to perform the Services. Consultant warrants that all employees and subconsultants shall have sufficient skill and experience to perform the Services assigned to them. Consultant represents that it, its employees and subconsultants have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, and that such licenses and approvals shall be maintained throughout the term of this Agreement. Consultant shall perform, at its own cost and expense and without reimbursement from the City, any services necessary to correct errors or omissions which are caused by the Consultant's failure to comply with the standard of care provided for herein. Any employee of the Consultant or its subconsultants who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of the Project, a threat to the safety of persons or property, or any

employee who fails or refuses to perform the Services in a manner acceptable to the City, shall be promptly removed from the Project by the Consultant and shall not be re-employed to perform any of the Services or to work on the Project.

3.3.9 Period of Performance.

3.3.9.1 Consultant shall perform and complete all Services under this Agreement within the term set forth in Section 3.1.2 above ("Performance Time"). Consultant shall also perform the Services in strict accordance with any completion schedule or Project milestones described in Exhibit "A" attached hereto, or which may be separately agreed upon in writing by the City and Consultant ("Performance Milestones"). Consultant agrees that if the Services are not completed within the aforementioned Performance Time and/or pursuant to any such Performance Milestones developed pursuant to provisions of this Agreement, it is understood, acknowledged and agreed that the City will suffer damage.

3.3.9.2 Neither City nor Consultant shall be considered in default of this Agreement for delays in performance caused by circumstances beyond the reasonable control of the non-performing Party. For purposes of this Agreement, such circumstances include a Force Majeure Event. A Force Majeure Event shall mean an event that materially affects a Party's performance and is one or more of the following: (1) Acts of God or other natural disasters; (2) terrorism or other acts of a public enemy; (3) orders of governmental authorities (including, without limitation, unreasonable and unforeseeable delay in the issuance of permits or approvals by governmental authorities that are required for the services); (4) strikes and other organized labor action occurring at the site and the effects thereof on the services, only to the extent such strikes and other organized labor action are beyond the control of Consultant and its subcontractors, and to the extent the effects thereof cannot be avoided by use of replacement workers; and (5) pandemics, epidemics or quarantine restrictions. For purposes of this section, "orders of governmental authorities," includes ordinances, emergency proclamations and orders, rules to protect the public health, welfare and safety, and other actions of a public agency applicable to the services and Agreement.

3.3.9.3 Should a Force Majeure Event occur, the non-performing Party shall, within a reasonable time of being prevented from performing, give written notice to the other Party describing the circumstances preventing continued performance and the efforts being made to resume performance of this Agreement. Force Majeure Events and/or delays, regardless of the Party responsible for the delay, shall not entitle Consultant to any additional compensation. Notwithstanding the foregoing in this section, the City may still terminate this Agreement in accordance with the termination provisions of this Agreement.

3.3.10 Laws and Regulations; Employee/Labor Certification.

3.3.10.1 Compliance with Laws. Consultant shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting the performance of the Project or the Services, including all Cal/OSHA requirements, and shall give all notices required by law. Consultant shall be liable for all violations of such laws and regulations in connection with the Services and this Agreement. All violations of such laws and regulations shall be grounds for the City to terminate the Agreement for cause.

3.3.10.2 Employment Eligibility; Consultant. Consultant certifies that it fully complies with all requirements and restrictions of state and federal law respecting the employment of undocumented aliens, including, but not limited to, the Immigration Reform and Control Act of 1986, as may be amended from time to time and shall require all subconsultants and sub-subconsultants to comply with the same. Consultant certifies that it has not committed a violation of any such law within the five (5) years immediately preceding the date of execution of this Agreement, and shall not violate any such law at any time during the term of the Agreement.

3.3.10.3 Equal Opportunity Employment. Consultant represents that it is an equal opportunity employer and it shall not discriminate against any subconsultant, employee or applicant for employment because of race, religion, color, national origin, handicap, ancestry, sex or age. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination. Consultant shall also comply with all relevant provisions of City's Minority Business Enterprise program, Affirmative Action Plan or other related programs or guidelines currently in effect or hereinafter enacted.

3.3.10.4 Air Quality. To the extent applicable, Consultant must fully comply with all applicable laws, rules and regulations in furnishing or using equipment and/or providing services, including, but not limited to, emissions limits and permitting requirements imposed by the South Coast Air Quality Management District (SCAQMD) and/or California Air Resources Board (CARB). Consultant shall indemnify City against any fines or penalties imposed by SCAQMD, CARB, or any other governmental or regulatory agency for violations of applicable laws, rules and/or regulations by Consultant, its subconsultants, or others for whom Consultant is responsible under its indemnity obligations provided for in this Agreement.

3.3.10.5 Water Quality Management and Compliance. Consultant shall keep itself and all subcontractors, staff, and employees fully informed of and in compliance with all local, state and federal laws, rules and regulations that may impact, or be implicated by the performance of the Services including, without limitation, all applicable provisions of the City's ordinances regulating water quality and storm water; the Federal Water Pollution Control Act (33U.S.C. § 1251, et seq.); the California Porter-Cologne Water Quality Control Act (Water Code§ 13000 et seq.); and any and all regulations, policies, or permits issued pursuant to any such authority. Consultant must additionally comply with the lawful requirements of the City, and any other municipality, drainage district, or other local agency with jurisdiction over the location where the Services are to be conducted, regulating water quality and storm water discharges. City may seek damages from Consultant for delay in completing the Services caused by Consultant's failure to comply with the laws, regulations and policies described in this Section, or any other relevant water quality law, regulation, or policy.

3.3.10.6 Safety. Consultant shall execute and maintain its work so as to avoid injury or damage to any person or property. In carrying out its Services, the Consultant shall at all times be in compliance with all applicable local, state and federal laws, rules and regulations, and shall exercise all necessary precautions for the safety of employees appropriate to the nature of the work and the conditions under which the work is to be performed.

3.3.11 Insurance.

3.3.11.1 Time for Compliance. Consultant shall not commence work under this Agreement until it has provided evidence satisfactory to the City that it has secured all insurance required under this section. In addition, Consultant shall not allow any subconsultant to commence work on any subcontract until it has provided evidence satisfactory to the City that the subconsultant has secured all insurance required under this section. Failure to provide and maintain all required insurance shall be grounds for the City to terminate this Agreement for cause.

3.3.11.2 Types of Insurance Required. As a condition precedent to the effectiveness of this Agreement for work to be performed hereunder, and without limiting the indemnity provisions of the Agreement, the Consultant, in partial performance of its obligations under such Agreement, shall procure and maintain in full force and effect during the term of the Agreement the following policies of insurance. If the existing policies do not meet the insurance requirements set forth herein, Consultant agrees to amend, supplement or endorse the policies to do so.

(A) Commercial General Liability: Commercial General Liability Insurance which affords coverage at least as broad as Insurance Services Office "occurrence" form CG 00 01, or the exact equivalent, with limits of not less than $1,000,000 per occurrence and no less than $2,000,000 in the general aggregate. Defense costs shall be paid in addition to the limits. The policy shall contain no endorsements or provisions (1) limiting coverage for contractual liability; (2) excluding coverage for claims or suits by one insured against another (cross-liability); (3) products/completed operations liability; or (4) containing any other exclusion(s) contrary to the terms or purposes of this Agreement.

(B) Automobile Liability Insurance: Automobile Liability Insurance with coverage at least as broad as Insurance Services Office Form CA 00 01 covering "Any Auto" (Symbol 1), or the exact equivalent, covering bodily injury and property damage for all activities with limits of not less than $1,000,000 combined limit for each occurrence.

(C) Workers' Compensation: Workers' Compensation Insurance, as required by the State of California and Employer's Liability Insurance with a limit of not less than $1,000,000 per accident for bodily injury and disease.

3.3.11.3 Insurance Endorsements. Required insurance policies shall contain the following provisions, or Consultant shall provide endorsements on forms approved by the City to add the following provisions to the insurance policies:

(A) Commercial General Liability: (1) Additional Insured: The City, its officials, officers, employees, agents, and volunteers shall be additional insureds with regard to liability and defense of suits or claims arising out of the performance of the Agreement. Additional Insured Endorsements shall not (1) be restricted to "ongoing operations"; (2) exclude "contractual liability"; (3) restrict coverage to "sole" liability of Consultant; or (4) contain any other exclusions contrary to the terms or purposes of this Agreement. For all policies of Commercial General Liability insurance, Consultant shall provide endorsements in the form of ISO CG 20 10 10 01 and 20 37 10 01 (or endorsements providing the exact same coverage) to effectuate this requirement. (2) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium.

(B) Automobile Liability. (1) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium.

(C) Professional Liability (Errors & Omissions): (1) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium.

(2) Contractual Liability Exclusion Deleted: This insurance shall include contractual liability applicable to this Agreement. The policy must “pay on behalf of” the insured and include a provision establishing the insurer’s duty to defend.

(D) Workers' Compensation: (1) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium. (2) Waiver of Subrogation: A waiver of subrogation stating that the insurer waives all rights of subrogation against the City, its officials, officers, employees, agents, and volunteers.

3.3.11.4 Primary and Non-Contributing Insurance. All policies of Commercial General Liability and Automobile Liability insurance shall be primary and any other insurance, deductible, or self-insurance maintained by the City, its officials, officers, employees, agents, or volunteers shall not contribute with this primary insurance. Policies shall contain or be endorsed to contain such provisions.

3.3.11.5 Waiver of Subrogation. All required insurance coverages, except for the professional liability coverage, shall contain or be endorsed to waiver of subrogation in favor of the City, its officials, officers, employees, agents, and volunteers or shall specifically allow Consultant or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Consultant hereby waives its own right of recovery against City, and shall require similar written express waivers and insurance clauses from each of its subconsultants.

3.3.11.6 Deductibles and Self-Insured Retentions. Any deductible or self- insured retention must be approved in writing by the City and shall protect the City, its officials, officers, employees, agents, and volunteers in the same manner and to the same extent as they would have been protected had the policy or policies not contained a deductible or self-insured retention.

3.3.11.7 Evidence of Insurance. The Consultant, concurrently with the execution of the Agreement, and as a condition precedent to the effectiveness thereof, shall deliver either certified copies of the required policies, or original certificates on forms approved by the City, together with all endorsements affecting each policy. Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the City for approval. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf. At least fifteen (15 days) prior to the expiration of any such policy, evidence of insurance showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or reduced and not replaced immediately so as to avoid a lapse in the required coverage, Consultant shall, within ten (10) days after receipt of written notice of such

cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies.

3.3.11.8 Acceptability of Insurers. Each such policy shall be from a company or companies with a current A.M. Best's rating of no less than A:VII and authorized to transact business of insurance in the State of California, or otherwise allowed to place insurance through surplus line brokers under applicable provisions of the California Insurance Code or any federal law.

3.3.11.9 Enforcement of Agreement Provisions (non estoppel). Consultant acknowledges and agrees that actual or alleged failure on the part of the City to inform Consultant of non-compliance with any requirement imposes no additional obligation on the City nor does it waive any rights hereunder.

3.3.11.10 Requirements Not Limiting. Requirement of specific coverage or minimum limits contained in this Section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance.

3.3.11.11 Additional Insurance Provisions

(A) The foregoing requirements as to the types and limits of insurance coverage to be maintained by Consultant, and any approval of said insurance by the City, is not intended to and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Consultant pursuant to this Agreement, including but not limited to, the provisions concerning indemnification.

(B) If at any time during the life of the Agreement, any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, City has the right but not the duty to obtain the insurance it deems necessary and any premium paid by City will be promptly reimbursed by Consultant or City will withhold amounts sufficient to pay premium from Consultant payments. In the alternative, City may cancel this Agreement.

(C) The City may require the Consultant to provide complete copies of all insurance policies in effect for the duration of the Project.

(D) Neither the City nor any of its officials, officers, employees, agents or volunteers shall be personally responsible for any liability arising under or by virtue of this Agreement.

(E) The limits set forth herein shall apply separately to each insured against whom claims are made or suits are brought, except with respect to the limits of liability. Further the limits set forth herein shall not be construed to relieve the Consultant from liability in excess of such coverage, nor shall it limit the Consultant’s indemnification obligations to the City and shall not preclude the City from taking such other actions available to the City under other provisions of the Agreement or law.

(F) Consultant shall report to the City, in addition to Consultant’s insurer, any and all insurance claims submitted by Consultant in connection with the Services under this Agreement.

3.3.11.12 Insurance for Subconsultants. Consultant shall include all subconsultants engaged in any work for Consultant relating to this Agreement as additional insureds under the Consultant's policies, or the Consultant shall be responsible for causing subconsultants to purchase the appropriate insurance in compliance with the terms of these Insurance Requirements, including adding the City, its officials, officers, employees, agents, and volunteers as additional insureds to the subconsultant's policies. All

policies of Commercial General Liability insurance provided by Consultant's subconsultants performing work relating to this Agreement shall be endorsed to name the City, its officials, officers, employees, agents and volunteers as additional insureds using endorsement form ISO CG 20 38 04 13 or an endorsement providing equivalent coverage. Consultant shall not allow any subconsultant to commence work on any subcontract relating to this Agreement until it has received satisfactory evidence of subconsultant's compliance with all insurance requirements under this Agreement, to the extent applicable. The Consultant shall provide satisfactory evidence of compliance with this section upon request of the City.

3.4 Labor Code Requirements.

3.4.1 Prevailing Wages. Consultant is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. If the Services are being performed as part of an applicable "public works" or "maintenance" project, as defined by the Prevailing Wage Laws, and if the total compensation is

$1,000 or more, Consultant agrees to fully comply with such Prevailing Wage Laws. City shall provide Consultant with a copy of the prevailing rates of per diem wages in effect at the commencement of this Agreement. Consultant shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services available to interested parties upon request, and shall post copies at the Consultant's principal place of business and at the project site. It is the intent of the parties to effectuate the requirements of sections 1771, 1774, 1775, 1776, 1777.5, 1813, and 1815 of the Labor Code within this Agreement, and Consultant shall therefore comply with such Labor Code sections to the fullest extent required by law. Consultant shall defend, indemnify and hold the City, its officials, officers, employees, agents, and volunteers free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws.

3.4.2 Registration/DIR Compliance. If the Services are being performed on a public works project of over $25,000 when the project is for construction, alteration, demolition, installation, or repair work, or a public works project of over $15,000 when the project is for maintenance work, in addition to the foregoing, then pursuant to Labor Code sections 1725.5 and 1771.1, the Consultant and all subconsultants must be registered with the Department of Industrial Relations ("DIR"). Consultant shall maintain registration for the duration of the Project and require the same of any subconsultants.

3.4.3 Compliance Monitoring. This Project may also be subject to compliance monitoring and enforcement by the DIR. It shall be Consultant's sole responsibility to comply with all applicable registration and labor compliance requirements, including the submission of payroll records directly to the DIR. Any stop orders issued by the DIR against Consultant or any subconsultant that affect Consultant's performance of services, including any delay, shall be Consultant's sole responsibility. Any delay arising out of or resulting from such stop orders shall be considered Consultant caused delay and shall not be compensable by the City. Consultant shall defend, indemnify and hold the City, its officials, officers, employees and agents free and harmless from any claim or liability arising out of stop orders issued by the DIR against Consultant or any subconsultant.

3.4.4 Labor Certification. By its signature hereunder, Consultant certifies that it is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of that Code, and agrees to comply with such provisions before commencing the performance of the Services.

3.5 Termination of Agreement.

3.5.1.1 Grounds for Termination. City may, by written notice to Consultant, terminate the whole or any part of this Agreement at any time and without cause by giving written notice to Consultant of such termination, and specifying the effective date thereof, at least seven (7) days before the effective date of such termination. Upon termination, Consultant shall be compensated only for those Services which have been adequately rendered to City, and Consultant shall be entitled to no further compensation. Consultant may not terminate this Agreement except for cause. The rights and remedies of the City provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this Agreement.

3.5.1.2 Effect of Termination. If this Agreement is terminated as provided herein, City may require Consultant to provide all finished or unfinished Documents and Data and other information of any kind prepared by Consultant in connection with the performance of Services under this Agreement. Consultant shall be required to provide such document and other information within fifteen (15) days of the request.

3.5.1.3 Additional Services. In the event this Agreement is terminated in whole or in part as provided herein, City may procure, upon such terms and in such manner as it may determine appropriate, services similar to those terminated.

3.6 Indemnification.

3.6.1 To the fullest extent permitted by law, Consultant shall defend (with counsel of City's choosing), indemnify and hold the City, its officials, officers, employees, volunteers, and agents free and harmless from any and all claims, demands, causes of action, costs, expenses, liability, loss, damage or injury of any kind, in law or equity, to property or persons, including wrongful death, in any manner arising out of, pertaining to, or incident to any acts, errors or omissions, or willful misconduct of Consultant, its officials, officers, employees, subcontractors, consultants or agents in connection with the performance of the Consultant's Services, the Project or this Agreement, including without limitation the payment of all damages, expert witness fees and attorney's fees and other related costs and expenses except such loss or damage caused by the sole negligence or willful misconduct of the City. Consultant's obligation to indemnify shall survive expiration or termination of this Agreement and shall not be restricted to insurance proceeds, if any, received by Consultant, the City, its officials, officers, employees, agents, or volunteers.

3.6.2 If Consultant's obligation to defend, indemnify, and/or hold harmless arises out of Consultant's performance as a "design professional" (as that term is defined under Civil Code section 2782.8), then, and only to the extent required by Civil Code section 2782.8, which is fully incorporated herein, Consultant's indemnification obligation shall be limited to claims that arise out of, pertain to, or relate to the negligence, recklessness, or willful misconduct of the Consultant, and, upon Consultant obtaining a

final adjudication by a court of competent jurisdiction, Consultant's liability for such claim, including the cost to defend, shall not exceed the Consultant's proportionate percentage of fault.

3.7 General Provisions.

3.7.1 Accounting Records. Consultant shall maintain complete and accurate records with respect to all costs and expenses incurred under this Agreement. All such records shall be clearly identifiable. Consultant shall allow a representative of City during normal business hours to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement. Consultant shall allow inspection of all work, data, documents, proceedings, and activities related to the Agreement for a period of three (3) years from the date of final payment under this Agreement.

3.7.2 Independent Contractors and Subcontracting.

3.7.2.1 Use of Consultants. Consultant is aware of statutory and case law regarding classification of workers as independent contractors, including California Labor Code Section 2750.3 and Dynamex Operations West, Inc. v. Superior Court, 4 Cal. 5th 903 (2018). To ensure that Consultant is in compliance with the California Labor Code, Consultant shall only utilize its employees to provide the Services. Consultant may not provide the services through any independent contractor, subcontractor or subconsultant ("Subcontractor(s)") unless approved by the City as set forth in Section 3.7.2.2 below. Consultant represents and warrants that all personnel who perform the Services on Consultant's behalf are Consultant's employees, and that Consultant complies with all applicable laws, rules and regulations governing its employees, including, but not limited to, the California Labor Code, Unemployment Insurance Code and all applicable Industrial Welfare Commission Wage Orders.

3.7.2.2 Prior Approval Required. Consultant shall not use any Subcontractor to provide the Services, or any portion of the work required by this Agreement, without prior written approval of City. In the event that City authorizes Consultant to use a Subcontractor, Consultant shall enter into a written agreement with the Subcontractor, which must include all provisions of the Agreement, including a restriction on the Subcontractor's use of further independent contractors, subcontractors or subconsultants without the City's prior written consent.

3.7.3 Delivery of Notices. All notices permitted or required under this Agreement shall be given to the respective parties at the following address, or at such other address as the respective parties may provide in writing for this purpose:

Consultant: Access Services, Plus

1548 Columbia St., Redlands, California 92374

ATTN: Daniel F. Kaiser

City: City of Coachella 1515 6th Street, Coachella, CA 92236

ATTN: Lizzandro Diaz

Such notice shall be deemed made when personally delivered or when mailed, forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

3.7.4 Ownership of Materials and Confidentiality.

3.7.4.1 Documents & Data; Licensing of Intellectual Property. This Agreement creates a non-exclusive and perpetual license for City to copy, use, modify, reuse, or sublicense any and all copyrights, designs, and other intellectual property embodied in plans, specifications, studies, drawings, estimates, and other documents or works of authorship fixed in any tangible medium of expression, including but not limited to, physical drawings or data magnetically or otherwise recorded on computer diskettes, which are prepared or caused to be prepared by Consultant under this Agreement ("Documents & Data"). All Documents & Data shall be and remain the property of City, and shall not be used in whole or in substantial part by Consultant on other projects without the City's express written permission. Within thirty (30) days following the completion, suspension, abandonment or termination of this Agreement, Consultant shall provide to City reproducible copies of all Documents & Data, in a form and amount required by City. City reserves the right to select the method of document reproduction and to establish where the reproduction will be accomplished. The reproduction expense shall be borne by City at the actual cost of duplication. In the event of a dispute regarding the amount of compensation to which the Consultant is entitled under the termination provisions of this Agreement, Consultant shall provide all Documents & Data to City upon payment of the undisputed amount. Consultant shall have no right to retain or fail to provide to City any such documents pending resolution of the dispute. In addition, Consultant shall retain copies of all Documents & Data on file for a minimum of fifteen (15) years following completion of the Project, and shall make copies available to City upon the payment of actual reasonable duplication costs. Before destroying the Documents & Data following this retention period, Consultant shall make a reasonable effort to notify City and provide City with the opportunity to obtain the documents.

3.7.4.2 Subconsultants. Consultant shall require all subconsultants to agree in writing that City is granted a non-exclusive and perpetual license for any Documents & Data the subconsultant prepares under this Agreement. Consultant represents and warrants that Consultant has the legal right to license any and all Documents & Data. Consultant makes no such representation and warranty in regard to Documents & Data which were prepared by design professionals other than Consultant or its subconsultants, or those provided to Consultant by the City.

3.7.4.3 Right to Use. City shall not be limited in any way in its use or reuse of the Documents and Data or any part of them at any time for purposes of this Project or another project, provided that any such use not within the purposes intended by this Agreement or on a project other than this Project without employing the services of Consultant shall be at City's sole risk. If City uses or reuses the Documents & Data on any project other than this Project, it shall remove the Consultant's seal from the Documents & Data and indemnify and hold harmless Consultant and its officers, directors, agents and employees from claims arising out of the negligent use or re-use of the Documents & Data on such other project. Consultant shall be responsible and liable for its Documents & Data, pursuant to the terms of this Agreement, only with respect to the condition of the Documents & Data at the time they are provided to the City upon completion, suspension, abandonment or termination. Consultant shall not be

responsible or liable for any revisions to the Documents & Data made by any party other than Consultant, a party for whom the Consultant is legally responsible or liable, or anyone approved by the Consultant.

3.7.4.4 Indemnification. Consultant shall defend, indemnify and hold the City, its directors, officials, officers, employees, volunteers and agents free and harmless, pursuant to the indemnification provisions of this Agreement, for any alleged infringement of any patent, copyright, trade secret, trade name, trademark, or any other proprietary right of any person or entity in consequence of the use on the Project by City of the Documents & Data, including any method, process, product, or concept specified or depicted.

3.7.4.5 Confidentiality. All ideas, memoranda, specifications, plans, procedures, drawings, descriptions, computer program data, input record data, written information, and other Documents & Data either created by or provided to Consultant in connection with the performance of this Agreement shall be held confidential by Consultant. Such materials shall not, without the prior written consent of City, be used by Consultant for any purposes other than the performance of the Services. Nor shall such materials be disclosed to any person or entity not connected with the performance of the Services or the Project. Nothing furnished to Consultant which is otherwise known to Consultant or is generally known, or has become known, to the related industry shall be deemed confidential. Consultant shall not use City's name or insignia, photographs of the Project, or any publicity pertaining to the Services or the Project in any magazine, trade paper, newspaper, television or radio production or other similar medium without the prior written consent of City.

3.7.4.6 Confidential Information. The City shall refrain from releasing Consultant’s proprietary information ("Proprietary Information") unless the City's legal counsel determines that the release of the Proprietary Information is required by the California Public Records Act or other applicable state or federal law, or order of a court of competent jurisdiction, in which case the City shall notify Consultant of its intention to release Proprietary Information. Consultant shall have five (5) working days after receipt of the release notice to give City written notice of Consultant's objection to the City's release of Proprietary Information. Consultant shall indemnify, defend and hold harmless the City, and its officers, directors, employees, and agents from and against all liability, loss, cost or expense (including attorney’s fees) arising out of a legal action brought to compel the release of Proprietary Information. City shall not release the Proprietary Information after receipt of an objection notice unless either: (1) Consultant fails to fully indemnify, defend (with City's choice of legal counsel), and hold City harmless from any legal action brought to compel such release; and/or (2) a final and non-appealable order by a court of competent jurisdiction requires that City release such information.

3.7.5 Cooperation; Further Acts. The Parties shall fully cooperate with one another, and shall take any additional acts or sign any additional documents as may be necessary, appropriate or convenient to attain the purposes of this Agreement.

3.7.6 Entire Agreement. This Agreement contains the entire agreement of the Parties with respect to the subject matter hereof, and supersedes all prior negotiations, understandings or agreements.

3.7.7 Attorneys’ Fees. If either party commences an action against the other party, either legal, administrative or otherwise, arising out of or in connection with this Agreement, the prevailing party in

such litigation shall be entitled to have and recover from the losing party reasonable attorneys' fees and all costs of such action.

3.7.8 Governing Law. This Agreement shall be governed by the laws of the State of California. Venue shall be in Riverside County. In addition to any and all contract requirements pertaining to notices of and requests for compensation or payment for extra work, disputed work, claims and/or changed conditions, Consultant must comply with the claim procedures set forth in Government Code sections 900 et seq. prior to filing any lawsuit against the City. Such Government Code claims and any subsequent lawsuit based upon the Government Code claims shall be limited to those matters that remain unresolved after all procedures pertaining to extra work, disputed work, claims, and/or changed conditions have been followed by Consultant. If no such Government Code claim is submitted, or if any prerequisite contractual requirements are not otherwise satisfied as specified herein, Consultant shall be barred from bringing and maintaining a valid lawsuit against the City.

3.7.9 Time of Essence. Time is of the essence for each and every provision of this Agreement.

3.7.10 City's Right to Employ Other Consultants. City reserves right to employ other consultants in connection with this Project.

3.7.11 Successors and Assigns. This Agreement shall be binding on the successors and assigns of the parties.

3.7.12 Assignment or Transfer. Consultant shall not assign, sublet, or transfer this Agreement or any rights under or interest in this Agreement without the written consent of the City, which may be withheld for any reason. Any attempt to so assign or so transfer without such consent shall be void and without legal effect and shall constitute grounds for termination. Consultant shall not subcontract any portion of the Services required by this Agreement, except as expressly stated herein, without prior written approval of City. Subcontracts, if any, shall contain a provision making them subject to all provisions stipulated in this Agreement.

3.7.13 Construction; References; Captions. Since the Parties or their agents have participated fully in the preparation of this Agreement, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any Party. Any term referencing time, days or period for performance shall be deemed calendar days and not work days. All references to Consultant include all personnel, employees, agents, and subconsultants of Consultant, except as otherwise specified in this Agreement. All references to City include its elected officials, officers, employees, agents, and volunteers except as otherwise specified in this Agreement. The captions of the various articles and paragraphs are for convenience and ease of reference only, and do not define, limit, augment, or describe the scope, content, or intent of this Agreement.

3.7.14 Amendment; Modification. No supplement, modification, or amendment of this Agreement shall be binding unless executed in writing and signed by both Parties.

3.7.15 Waiver. No waiver of any default shall constitute a waiver of any other default or breach, whether of the same or other covenant or condition. No waiver, benefit, privilege, or service voluntarily

given or performed by a Party shall give the other Party any contractual rights by custom, estoppel, or otherwise.

3.7.16 No Third-Party Beneficiaries. There are no intended third party beneficiaries of any right or obligation assumed by the Parties.

3.7.17 Invalidity; Severability. If any portion of this Agreement is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.7.18 Prohibited Interests. Consultant maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Consultant, to solicit or secure this Agreement. Consultant warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Consultant, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. Consultant further agrees to file, or shall cause its employees or subconsultants to file, a Statement of Economic Interest with the City's Filing Officer as required under state law in the performance of the Services. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

3.7.19 Authority to Enter Agreement. Consultant has all requisite power and authority to conduct its business and to execute, deliver, and perform the Agreement. Each Party warrants that the individuals who have signed this Agreement have the legal power, right, and authority to make this Agreement and bind each respective Party.

3.7.20 Counterparts. This Agreement may be signed in counterparts, each of which shall constitute an original.

3.7.21 Survival. All rights and obligations hereunder that by their nature are to continue after any expiration or termination of this Agreement, including, but not limited to, the indemnification obligations, shall survive any such expiration or termination.

3.7.22 Order of Precedence. The following order and succession of the referenced documents shall govern in the event of conflict between documents:

3.7.22.1 Amendment(s)

3.7.22.2 This Agreement

STAFF REPORT
6/28/2023

TO: Honorable Mayor and City Council Members

FROM: Lizzandro Diaz, Building Official

SUBJECT: Adopt Ordinance No. 1201, Second Reading, Revising Municipal Code Title 15 for the Purpose of Adopting the 2022 California State Building Codes

---

STAFF RECOMMENDATION:

Staff recommends that the City Council adopt Ordinance No. 1201 by second reading to amend Chapter 15 of the Coachella Municipal Code.

BACKGROUND:

It is customary to conduct regular updates to the building code every three years. These updates are carried out to bring the state building code in line with current standards and reflect any changes made to the Coachella Municipal Code.

We are pleased to report that the latest building code was successfully adopted in January 2023. As a result, we are now bringing forward an update to ensure that the language used in the municipal code aligns with the state building code. This will enable us to maintain consistency and accuracy in our regulations and ensure that all relevant rules and requirements are accurately reflected in our building code.

DISCUSSION/ANALYSIS:

The proposed adoption of revisions to the California Building Code to align with the City of Coachella Municipal Code is a positive development that will go a long way in improving the safety of structures within the City. By aligning the building code with the specific needs of Coachella, the construction process will be safer and more efficient.

One of the key advantages of this adoption is that it will help address the challenges posed by the City's unique environment. With specific guidelines for construction materials and practices, the building code will better serve the needs of Coachella, which experiences extreme weather and seismic activity. This will lead to more resilient structures that can withstand the environmental challenges the City faces.

Aligning the building code with the municipal code will also streamline the building permit process. By ensuring that the building code matches the specific needs of the City, obtaining building permits will be faster and smoother. This means that construction projects can be completed on time and within budget, resulting in less disruption to the community.

Overall, the adoption of revisions to the California Building Code to align with the City of Coachella Municipal Code is a positive step for the City. It will enhance the safety and resilience of structures and streamline the building permit process. The result will be a more vibrant and thriving Coachella that can better meet the needs of its community.

ENVIRONMENTAL REVIEW:

It is recommended Council make the following determination that this action is exempt from environmental review in accordance with the California Environmental Quality Act (CEQA) under the general rule contained in Section 15061(b)(3). This action involves updates and revisions to existing regulations consistent with State law and will not result in any direct or indirect physical changes to the environment.

FISCAL IMPACTS:

Adoption of the proposed Code Amendment would not have a fiscal impact to the City's General Fund. The cost to administer the Codes is recovered through permit fees.

ALTERNATIVES:

1. Adopt Ordinance No. 1201 (second reading) adopting the new California State Building Code.
2. Continue this matter and provide staff direction.
3. Take no action.

RECOMMENDED ALTERNATIVE(S):

Staff recommends Alternative #1 as shown above.

Attachments:

1. Ordinance No. 1201 (second reading)
   Amendments to Coachella Municipal Code Title 15 adopting California Building Codes Title 24 Parts 1,2,2.5,3,4,5,6,8,10,11,12

ORDINANCE NO. 1201

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF COACHELLA, CALIFORNIA, ADOPTING BY REFERENCE THE 2022 EDITION OF THE CALIFORNIA BUILDING STANDARDS CODE (CALIFORNIA CODE OF REGULATIONS, TITLE 24), INCLUDING THE 2022 CALIFORNIA BUILDING CODE; THE 2022 CALIFORNIA ELECTRICAL CODE; THE 2022 CALIFORNIA MECHANICAL CODE; THE 2022 CALIFORNIA PLUMBING CODE; THE 2022 CALIFORNIA FIRE CODE; MAKING CERTAIN LOCAL AMENDMENTS THERETO; ADOPTING THE 2022 CALIFORNIA EXISTING BUILDING CODE; AMENDING CHAPTER 15.54 OF THE COACHELLA MUNICIPAL CODE RELATED TO RECYCLING AND DIVERSION OF WASTE FROM CONSTRUCTION AND DEMOLITION; AND FINDING THE ACTION EXEMPT FROM THE CALIFORNIA ENVIRONMENTAL QUALITY ACT. ***(Second reading)***

WHEREAS, the City Coachella, California ("City") is a general law city and municipal corporation, duly organized under the California Constitution and laws of the State of California; and

WHEREAS, in July 2022, the California Building Standards Commission adopted the 2022 Edition of the California Building Standards Code ("CBSC"), effective January 1, 2023 and codified in Title 24 of the California Code of Regulations ("CCR"); and

WHEREAS, the CBSC consists of building standards that regulate the erection, construction, enlargement, alteration, repair, moving, removal, demolition, conversion, occupancy, equipment, use, height, area, electrical systems, plumbing, mechanical systems, and maintenance of all buildings in the state and includes the California Building Code (CCR, Title 24, Part 2); the California Residential Code (CCR, Title 24, Part 2.5); the California Electrical Code (CCR, Title 24, Part 3); the California Mechanical Code (CCR, Title 24, Part 4); the California Plumbing Code (CCR, Title 24, Part 5); the California Energy Code (CCR, Title 24, Part 6); the California Existing Building Code (CCR, Title 24, Part 10); and the California Green Building Standards Code (CCR, Title 24, Part 11); and

WHEREAS, pursuant to California Government Code Section 50022.2, the City may adopt the 2022 Edition of the CBSC by reference; and

WHEREAS, pursuant to sections 17958.7 and 18941.5 of the California Health & Safety Code, the City may adopt local amendments to the CBSC determined by the City Council to be reasonably necessary because of local climatic, geological, or topographical conditions; and

WHEREAS, the City desires to adopt the 2022 edition of the CBSC with local amendments to provide for the issuance of permits and the collection of fees, to provide adequate

remedies for code violations, to establish administrative procedures consistent with City protocols, and to ensure that the state standards are reasonably tailored to local conditions.

NOW THEREFORE, THE CITY COUNCIL OF THE CITY OF COACHELLA, CALIFORNIA, DOES HEREBY ORDAIN AS FOLLOWS:

SECTION 1. Recitals. The above recitals are true and correct and are incorporated herein by this reference.

SECTION 2. Findings. Based on the foregoing, the City Council of the City of Coachella does hereby find that the proposed amendments to the 2022 Edition of the CBSC are reasonably necessary for reasons of local climatic, geologic, and topographic conditions as set forth in Exhibit "A" of this Ordinance.

SECTION 3. Code Amendment.

Chapter 15.08 of Title 15 of the Coachella Municipal Code is hereby amended in its entirety to read as follows:

"**Chapter 15.08 Building Code**

15.08.010 Adoption of specific sections of the California Building Code.

15.08.020 Enforcement.

15.08.025 Express Findings.

15.08.030 Amendments to the California Building Code.

15.08.010 Adoption of specific sections of the California Building Code.

Except as amended in this chapter, those certain building codes known and designated as the 2022 California Building Code (CBC), including Chapters 2 through 35, and Appendix C, G, H, I, J, N, and O as adopted by the State of California, based on the 2021 International Building Code as published by the International Code Council, except as amended herein, shall become the building code of the City of Coachella for regulating the erection, construction, enlargement, alteration, repair, moving, removal, demolition, conversion, occupancy, equipment, use, height, area and maintenance of all buildings and/or structures in the City. The 2022 California Building Code and its adopted appendices and amendments are on file for public examination in the offices of the Building Official.

15.08.020 Enforcement.

Pursuant to California Building Code, (California) Chapter 1, Section 1.11.2.1, the delegated enforcement official responsible for the enforcement of the building standards relating to fire and panic safety and other regulations of the State Fire Marshal as they relate to Group R, Division 3 Dwellings shall be the Building Official.

15.08.025 Express Findings.

The City of Coachella finds that the proposed amendments to the California Building Code are reasonable and necessary because of local climactic, geologic, and topographical conditions within the City of Coachella. This finding is supported and based upon the following express findings which address each of these conditions and present the local situation which make the proposed amendments necessary.

I. Climatic Conditions:

A. The City of Coachella located in Riverside County is located in Southern California and covers a vast and varied geographic area. The base climate in western Riverside County consists of semi-arid Mediterranean weather patterns. Eastern Riverside County is a desert area with Mohave Desert temperatures and weather patterns. Those two primary areas are divided by the San Bernardino Mountain Range. Both areas outside of the mountain terrain annually experience extended periods of high temperatures with little or no precipitation. Hot, dry winds, which may reach speeds of seventy (70) miles per hour or greater, are common to the area. Examples are: Santa Ana/Foehn winds, afternoon surface-heating generated winds, and prevailing desert winds.

These climatic conditions cause extreme drying of vegetation and common building materials. Frequent periods of drought and low humidity add to the fire danger. This predisposes the area to large destructive fires (conflagration) which necessitates rapid identification, locating and extinguishment of all fires in the smallest stage possible. In addition to directly damaging or destroying buildings, these fires are also prone to disrupt utility services throughout the county. Obstacles generated by a strong wind, such as fallen trees, street lights and utility poles, will greatly impact the response time to reach an incident scene. During these winds, the inability to use aerial type firefighting apparatus would further decrease our ability to stop fires in large buildings and place rescue personnel at increased risk of injury.

B. Although Riverside County and the City of Coachella occasionally experiences periods of significant drought, the county can also experience periods of substantial rainfall. Annual rainfall varying from three inches in Blythe to over thirty-three (33) inches in Pine Cove. When Riverside County does experience heavy rain, or rain over a period of days or weeks, many areas of the county are subject to flooding. Runoff from rain drains either naturally into rivers, washes, and creeks or into flood control facilities. Flash flooding is also a common problem, especially in the Coachella Valley and the easterly portions of the county. Flash flooding is typically associated with short duration, high intensity precipitation events often associated with summer thunderstorms. Such events can occur even during a drought.

C. Water demand in densely populated Southern California far exceeds the quantity supplied by natural precipitation; and although the population continues to grow, the already-taxed water supply does not. California is projected to increase in population by nearly ten million over the next quarter of a century with fifty (50) percent of that growth centered in Southern California. Due to storage capacities and consumption, and a limited amount of rainfall future water allocation is not fully dependable. This necessitates the need for additional and on-site fire protection features. It would also leave tall buildings vulnerable to uncontrolled fires due to a lack of available water and an inability to pump sufficient quantities of available water to floors in a fire.

D. These dry climatic conditions and winds contribute to the rapid spread of even small fires originating in high-density housing or vegetation. These fires spread very quickly and create a need for increased levels of fire protection. The added protection of fire sprinkler systems and other fire protection features such as identification and notification will supplement normal fire department response by providing immediate protection for the building occupants and by containing and controlling the fire spread to the area of origin. Fire sprinkler systems will also reduce the use of water for firefighting by as much as fifty (50) to seventy-five (75) percent.

II. Topographical Conditions

A. Natural: The topographical conditions of Riverside County varies from three hundred (300) feet below sea-level, flat desert communities, to mountains over ten thousand (10,000) feet in Alpine-like areas of the San Bernardino Mountain Range. In between these areas, developable slopes of twenty-five (25) percent and greater generally occur throughout the foothills. Riverside County extends from Orange County to the state of Arizona and is mixed with congested urban areas, rural lands and wild lands. A large number of sensitive habitats for various animal species and vegetation consist within large open space areas between major urban centers that impact building and structure location, which impedes emergency access and response. This variety in regions contributes to an increased emergency response time, which necessitates cooperation between local agencies.

B. Traffic and circulation congestion is an artificially created, obstructive topographical condition, which is common throughout Riverside County.

C. These topographical conditions combine to create a situation, which places fire department response time to fire occurrences at risk, and makes it necessary to provide automatic on-site fire-extinguishing systems and other protection measures to protect occupants and property.

III. Geological Conditions: Located within Riverside County are several known active and potentially active earthquake faults, including the San Andreas, San Jacinto, and Elsinore Fault. In the event of an earthquake, the location of the epicenter as well as the time of day and season of the year would have a profound effect on the number of deaths and casualties, as well as property damage.

The major form of direct damage from most earthquakes is damage to construction. Bridges are particularly vulnerable to collapse, and dam failure may generate major downstream flooding. Buildings vary in susceptibility, dependent upon construction and the types of soils on which they are built. Earthquakes destroy power and telephone lines; gas, sewer, or water mains; which, in tum, may set off fires and/or hinder firefighting or rescue efforts. The hazard of earthquakes varies from place to place, dependent upon the regional and local geology. Ground shaking may occur in areas sixty-five (65) miles or more from the epicenter (the point on the ground surface above the focus). Ground shaking can change the mechanical properties of some fine grained, saturated soils, where upon they liquefy and act as a fluid (liquefaction).

A. Previous earthquakes in southern California have been accompanied by disruption of traffic flow and fires. A severe seismic event has the potential to negatively impact any rescue or fire suppression activities because it is likely to create obstacles similar to those indicated under the high wind section above. With the probability of strong aftershocks there exists a need to provide increased protection for anyone on upper floors of buildings.

B. Road circulation features located throughout the county also make amendments reasonably necessary. Located through the county are major roadways, highways and flood control channels that create barriers and slow response times. Hills, slopes, street and storm drain design accompanies with occasional heavy rainfall, causes roadway flooding and landslides and at times may make an emergency access route impassable. There are areas in Riverside County that naturally have extended emergency response times that exceed the five-minute goal.

IV. Administrative Conditions. Alternatively, the City of Coachella finds that the proposed amendments to the California Building Code are administrative in nature.

California Health and Safety Code Sections 17958.7 and 18941.5 require that the modification or change be expressly marked and identified as to which each finding refers. Therefore, the City Council finds that the following table sets forth the 2022 California Existing Building Code sections that have been modified and the associated local climatic, geological, topographical, and/or administrative conditions described above supporting the modification.

2022 BUILDING CODE SECTION	TITLE/SUBJECT	FINDINGS I, II, III
1904.3	Type of cement	I, II, III
1907.1	Base course required	I, II, III
G101.6	Administration and enforcement	Administrative

J101.3	Administration and Enforcement	Administrative
J104.3	Exception	Administrative
J107.4	Using alkaline fill soil	I, II, III
J109.5	Drainage Devices	I, II, III

15.08.030 Amendments to the California Building Code.

A. Automatic Sprinkler Systems. Where determined by the Fire Chief that no major life safety hazard exists, and the fuel load does not pose a significant threat to firefighter safety or to other structures or property, automatic fire sprinklers may be exempted.

One- and two-family dwellings shall have an automatic fire sprinkler system regardless of square footage in accordance with the California Residential Code. Fire sprinkler systems shall be installed in mobile homes, manufactured homes and multifamily manufactured homes with two dwelling units in accordance with Title 25 of the California Code of Regulations.

The following exceptions in the California Fire Code shall not be allowed:

a. Exception in Section 903.2.3

b. Exceptions 2 in Section 903.2.11.3

B. Section 1904 is hereby amended by adding thereto Section 1904.3 to read as follows:

1904.3 Type of cement. All concrete used in floor slabs where floor slab is supported by earth or fill of any kind and all concrete used in footings, foundations, curbs, gutters, sidewalks, driveways and walls supporting or retaining earth or fill shall contain only sulfate resistant Type V. Portland cement. Portland cement concrete shall be composed of not less than four hundred seventy (470) pound (five sacks) of Portland cement per cubic yard of concrete, except that any concrete containing an approved water reducing admixture, used in accordance with the manufacturer's recommendations shall contain not less than four hundred eighteen (418) pound (4.5 sacks) of Portland cement per cubic yard of concrete.

C. Section 1907.1 is hereby amended by adding thereto Sections 1907.1.2 and 1907.1.3 to read as follows:

1907.1.2 Base course required. A base course shall be provided beneath the concrete floor slab of any structure consisting of at least a four inch thickness of a limited capillarity material. Base course shall be either clean graded gravel or crushed rock. Material shall pass a two inch sieve and be retained in a one-fourth inch sieve. Capillary break in conformance with the California Green Building Standards Code Chapter 4, Division 4.5 is required.

1907.1.3 Expansion protection for slab. A two-inch layer of dry washed sand shall be placed on top of the base course under of a ten (10) mil thick water-proof membrane. This waterproof membrane shall be placed on top of the base course under all slabs to provide for expansion protection for concrete.

D. Section G101.6 is hereby added to Appendix G, FLOOD-RESISTANT CONSTRUCTION, to read as follows:

G101.6 Administration and Enforcement. For the purpose of the administration and enforcement of this Appendix G, Flood-Resistant Construction, the Building Official shall mean the City Director of Public Works or their designated representative.

E. Appendix J, GRADING, is hereby amended as follows:

1. Section J101.3 is hereby added to read as follows:

J101.3 Administration and Enforcement. For the purpose of the administration and enforcement of this Appendix Chapter, Grading, the Building Official shall mean the City Director of Public Works or their designated representative.

2. The "Exception" in Section J104.3 is hereby amended to read as follows:

Exception: A soils report is not required where the building official determines that the nature of the work applied for is such that a report is not necessary.

3. Section J107.4 is hereby amended by adding thereto Section J107.4.1 to read as follows:

J107.4.1 Using alkaline fill soil. Soils or materials which may have an alkali or sulfate content shall not be relocated, placed or used as fill at any location within the city unless a test sample of the soil is first obtained under the direction of the department of building and tests conducted by an approved testing agency indicates that the alkali or sulfate content of the soil sample does not exceed the amount in the natural soil at the location where the fill is to be placed. The director of building may waive the test sample requirements for good cause.

4. Section J109.5 is hereby added to read as follows:

J109.5 Drainage Devices.

J109.5.1 Minimum gradients. Except on slopes, drainage devices shall be constructed with minimum gradients as follows: Poured in place cement concrete construction - 0.5%; Shotcrete concrete construction - 0.5%; Asphaltic concrete pavement - 1.0%; Soils swales - 0.5%; Pipes - 0.4%.

J109.5.2 Slopes. Drainage devices constructed on slopes shall have a minimum gradient of five percent (5.0%). Such drainage devices shall be constructed of shotcrete or poured in place concrete with suitable reinforcement. Closed piping, unpaved swales and Asphaltic concrete drainage structures shall not be used for slope drainage.

J109.5.3 Erosion prevention. Drainage devices shall be constructed to convey drainage to an established private or public watercourse, channel, storm drain or public street, and shall be designed to prevent erosion.

J109.5.4 Device design. Drainage devices conveying water to the public streets shall drain over driveway approaches, through curb drains, through sidewalk culverts, or through non-concentrated sheet flow over the curb as designated by the City Engineer."

SECTION 4. Code Amendment.

Chapter 15.12 of Title 15 of the Coachella Municipal Code is hereby amended in its entirety to read as follows:

"**Chapter 15.12 Electrical Code**

15.12.010 Adoption of the Electrical Code.

15.12.020 Amendments to the California Building Code.

15.12.010 Adoption of the Electrical Code.

Except as provided in this chapter, the 2022 California Electrical Code, including informative Annexes A, B, C, D, E, F, G, H, I, and J, as adopted by the state of California, based on the 2020 National Electrical Code as published by the National Fire Protection Association (NFPA), shall become the electrical code of the City of Coachella, regulating all installation, arrangement, alteration, repair, use and other operation of electrical wiring, connections, fixtures and other electrical appliances on premises within the City. The California Electrical Code is on file for public examination in the office of the Building Official.

15.12.020 Amendments to the California Building Code.

The 2022 Edition of the California Electrical Code is hereby adopted with no amendments."

SECTION 5. Code Amendment.

Chapter 15.16 of Title 15 of the Coachella Municipal Code is hereby amended in its entirety to read as follows:

"**Chapter 15.16 Mechanical Code**

15.16.010 Adoption of the Mechanical Code.

15.16.020 Amendments to the California Mechanical Code.

15.16.010 Adoption of the Mechanical Code.

Except as provided in this chapter, the 2022 California Electrical Code, including Appendix Chapters A, B, C, D, E, F, G, H, I, and J, as adopted by the state of California, based on the 2020 National Electrical Code as published by the National Fire Protection Association (NFPA), shall become the electrical code of the City of Coachella, regulating all installation, arrangement, alteration, repair, use and other operation of electrical wiring, connections, fixtures and other electrical appliances on premises within the city. The California Electrical Code is on file for public examination in the office of the Building Official.

15.16.020 Amendments to the California Mechanical Code.

The 2022 Edition of the California Mechanical Code is hereby adopted with no amendments."

SECTION 6. Code Amendment.

Chapter 15.20 of Title 15 of the Coachella Municipal Code is hereby amended in its entirety to read as follows:

"**Chapter 15.20 Plumbing Code**

15.20.010 Adoption of the Plumbing Code.

15.20.015 Express Findings.

15.20.020 Amendments to Chapter 1, Division II of the California Plumbing Code.

15.20.010 Adoption of the Plumbing Code.

Except as provided in this chapter, the 2022 California Plumbing Code, including Appendix Chapters A, B, D, G, H, I, J, K, L, M, and N, as adopted by the state of California, based on the 2021 Uniform Plumbing Code as published by the International Association of Plumbing and Mechanical Officials (IAPMO), shall be and become the plumbing code of the City of Coachella, regulating erection, installation, alteration, repair, relocation, replacement, maintenance or use of plumbing systems within the City. The California Plumbing Code will be on file for public examination in the office of the Building Official.

15.20.015 Express Findings.

The City of Coachella finds that the proposed amendments to the California Plumbing Code are administrative in nature, and therefore do not require express topographic, geologic, or climatic findings pursuant to California Health and Safety Code Sections 17958.7 and 18941.5.

Therefore, the City Council finds that the following table sets forth the 2022 California Existing Building Code sections that have been modified and the associated local climatic, geological, topographical, and/or administrative conditions described above supporting the modification.

2022 PLUMBING CODE SECTION	TITLE/SUBJECT	FINDINGS I, II, III
104.1	Permits Required	Administrative

15.20.020 Amendments to Chapter 1, Division II of the California Plumbing Code.

The 2022 Edition of the California Plumbing Code is hereby adopted with the following amendment to section 104.1.

A. "104.1 Permits Required." is amended to read as follows:

It shall be unlawful for a person, firm, or corporation to make an installation, alteration, repair, replacement, or remodel a plumbing system regulated by this code except as permitted in Section 104.2, or to cause the same to be done without first obtaining a separate plumbing permit for each separate building or structure. The City of Coachella requires a plumbing permit to abandon an existing private disposal system, and connect to a public sewer system for the following projects:

1. Additions to existing buildings or structures that result in the need for enlarged capacity of septic tank pursuant to Table H 201.1(1), whenever there is an existing public sewer main line or lateral line within 30 feet of the property boundaries.

2. Remodels to existing buildings or structures that increase the number of plumbing fixtures to a structure served by an existing septic tank that is out of compliance with Table H 201.1(1), whenever there is an existing public sewer main line or lateral line within 30 feet of the property boundaries."

SECTION 7. Code Amendment.

Chapter 15.24 of Title 15 of the Coachella Municipal Code is hereby amended in its entirety to read as follows:

"**Chapter 15.24 Fire Code**

15.24.010 Adoption of the Fire Code.

15.24.015 Fire Authority Adoption of the Fire Code.

15.24.020 Express Findings.

15.24.030 Amendments to the Fire Code.

15.24.010 Adoption of the Fire Code.

Except as stated in this section or as amended below in Section 5 [sic] of this chapter, all of the provisions and appendices of the 2022 California Fire Code, inclusive of all of the inclusions and exclusions set for in each chapter's matrix, are hereby adopted and shall apply to the city of Coachella. In addition, the following provisions that are excluded in the 2022 California Fire Code are hereby adopted - Chapter 1, Division II of the California Fire Code is hereby adopted, except that Section 103.2 and 109.3 are not adopted, and Chapters 3, 25, and Sections 403.12, 503, 510.2, and 1103.2 are adopted. The California Fire Code and its adopted appendices and amendments are on file for public examination in the office of the Building Official.

15.24.015 Fire Authority Adoption of the Fire Code.

Except as stated in this section or as amended below in Section 15.24.030 of this chapter, all of the provisions and appendices of the 2022 California Fire Code, inclusive of all of the inclusions and exclusions set for in each chapter's matrix, are hereby adopted and shall apply to the City of Coachella Fire Authority. In addition, the following provisions that are excluded in the 2022 California Fire Code are hereby adopted - Chapter 1, Division II of the California Fire Code is hereby adopted, except that Section 103.2 and 109.3 are not adopted, and Chapters 3, 25, and Sections 403.12, 503, 510.2, and 1103.2 are adopted.

15.24.020 Express Findings.

The City of Coachella finds the following:

The fire department hereby finds that the proposed amendments to the Fire Code are reasonable and necessary because of local climactic, geologic, and topographical conditions within the City of Coachella. This finding is supported and based upon the following express findings which address each of these conditions and present the local situation which make the proposed amendments necessary.

I. Climatic Conditions:

A. The City of Coachella located in Riverside County is located in Southern California and covers a vast and varied geographic area. The base climate in western Riverside County consists of semi-arid Mediterranean weather patterns. Eastern Riverside County is a desert area with Mohave Desert temperatures and weather patterns. Those two primary areas are divided by the San Bernardino Mountain Range. Both areas outside of the mountain terrain annually experience extended periods of high temperatures with little or no precipitation. Hot, dry winds, which may reach speeds of seventy (70) miles per hour or greater, are common to the area. Examples are: Santa Ana/Foehn winds, afternoon surface-heating generated winds, and prevailing desert winds.

These climatic conditions cause extreme drying of vegetation and common building materials. Frequent periods of drought and low humidity add to the fire danger. This predisposes the area to large destructive fires (conflagration) which necessitates rapid identification, locating and

extinguishment of all fires in the smallest stage possible. In addition to directly damaging or destroying buildings, these fires are also prone to disrupt utility services throughout the county. Obstacles generated by a strong wind, such as fallen trees, street lights and utility poles, will greatly impact the response time to reach an incident scene. During these winds, the inability to use aerial type firefighting apparatus would further decrease our ability to stop fires in large buildings and place rescue personnel at increased risk of injury.

B. Although Riverside County and the City of Coachella occasionally experiences periods of significant drought, the county can also experience periods of substantial rainfall. Annual rainfall varying from three inches in Blythe to over thirty-three (33) inches in Pine Cove. When Riverside County does experience heavy rain, or rain over a period of days or weeks, many areas of the county are subject to flooding. Runoff from rain drains either naturally into rivers, washes, and creeks or into flood control facilities. Flash flooding is also a common problem, especially in the Coachella Valley and the easterly portions of the county. Flash flooding is typically associated with short duration, high intensity precipitation events often associated with summer thunderstorms. Such events can occur even during a drought.

C. Water demand in densely populated Southern California far exceeds the quantity supplied by natural precipitation; and although the population continues to grow, the already-taxed water supply does not. California is projected to increase in population by nearly ten million over the next quarter of a century with fifty (50) percent of that growth centered in Southern California. Due to storage capacities and consumption, and a limited amount of rainfall future water allocation is not fully dependable. This necessitates the need for additional and on-site fire protection features. It would also leave tall buildings vulnerable to uncontrolled fires due to a lack of available water and an inability to pump sufficient quantities of available water to floors in a fire.

D. These dry climatic conditions and winds contribute to the rapid spread of even small fires originating in high-density housing or vegetation. These fires spread very quickly and create a need for increased levels of fire protection. The added protection of fire sprinkler systems and other fire protection features such as identification and notification will supplement normal fire department response by providing immediate protection for the building occupants and by containing and controlling the fire spread to the area of origin. Fire sprinkler systems will also reduce the use of water for firefighting by as much as fifty (50) to seventy-five (75) percent.

II. Topographical Conditions

A. Natural: The topographical conditions of Riverside County varies from three hundred (300) feet below sea-level, flat desert communities, to mountains over ten thousand (10,000) feet in Alpine-like areas of the San Bernardino Mountain Range. In between these areas, developable slopes of twenty-five (25) percent and greater generally occur throughout the foothills. Riverside County extends from Orange County to the state of Arizona and is mixed with congested urban areas, rural lands and wild lands. A large number of sensitive habitats for various animal species and vegetation consist within large open space areas between major urban centers that impact building and structure location, which impedes emergency access and response. This variety in regions contributes to an increased emergency response time, which necessitates cooperation between local agencies.

B. Traffic and circulation congestion is an artificially created, obstructive topographical condition, which is common throughout Riverside County.

C. These topographical conditions combine to create a situation, which places fire department response time to fire occurrences at risk, and makes it necessary to provide automatic on-site fire-extinguishing systems and other protection measures to protect occupants and property.

III. Geological Conditions: Located within Riverside County are several known active and potentially active earthquake faults, including the San Andreas, San Jacinto, and Elsinore Fault. In the event of an earthquake, the location of the epicenter as well as the time of day and season of the year would have a profound effect on the number of deaths and casualties, as well as property damage.

The major form of direct damage from most earthquakes is damage to construction. Bridges are particularly vulnerable to collapse, and dam failure may generate major downstream flooding. Buildings vary in susceptibility, dependent upon construction and the types of soils on which they are built. Earthquakes destroy power and telephone lines; gas, sewer, or water mains; which, in tum, may set off fires and/or hinder firefighting or rescue efforts. The hazard of earthquakes varies from place to place, dependent upon the regional and local geology. Ground shaking may occur in areas sixty-five (65) miles or more from the epicenter (the point on the ground surface above the focus). Ground shaking can change the mechanical properties of some fine grained, saturated soils, where upon they liquefy and act as a fluid (liquefaction).

A. Previous earthquakes in southern California have been accompanied by disruption of traffic flow and fires. A severe seismic event has the potential to negatively impact any rescue or fire suppression activities because it is likely to create obstacles similar to those indicated under the high wind section above. With the probability of strong aftershocks there exists a need to provide increased protection for anyone on upper floors of buildings.

B. Road circulation features located throughout the county also make amendments reasonably necessary. Located through the county are major roadways, highways and flood control channels that create barriers and slow response times. Hills, slopes, street and storm drain design accompanies with occasional heavy rainfall, causes roadway flooding and landslides and at times may make an emergency access route impassable. There are areas in Riverside County that naturally have extended emergency response times that exceed the five-minute goal.

California Health and Safety Code Sections 17958.7 and 18941.5 require that the modification or change be expressly marked and identified as to which each finding refers. Therefore, the City Council finds that the following table sets forth the 2022 California Fire Code sections that have been modified and the associated local climatic, geological, and/or topographical conditions described above supporting the modification.

2022 FIRE CODE SECTION	TITLE/SUBJECT	FINDINGS I, II, III
101.4	Severability	Administrative
102.5	Application of the residential code	I, II & III
104.7 and 104.7.1	Liability	Administrative
104.1.1	Authority of the Fire Chief and Fire Department	Administrative
104.13	Authority of the Fire Chief to close hazardous fire areas	Administrative
107.1	Fees	Administrative
107.7	Cost Recovery	Administrative
111.1	Board of Appeals established	Administrative
112.4	Violation and Penalties	Administrative
202	Fire Chief	Administrative
308.1.6.3	Sky Lanterns	I, II & III
503.2.1	Dimensions	Administrative
503.2.2	Authority	Administrative
503.6.1	Automatic opener	Administrative
503.7	Loading areas and passenger drop-offs	Administrative
507.5.7	Fire hydrant size and outlets	I & III
507.5.8	Fire hydrant street marker	I, II & III
508.1, 508.1.1, 508.1.3, 508.1.6, 508.1.9	Fire command center	I, II & III
509.2.1	Minimum clearances	I & III
608.11.1.2	Manual operation	II & III
903.2	Where required (automatic sprinkler systems)	I, II & III
903.3.5.3	Hydraulically calculated systems	I & II
3204.2.1	Minimum requirements for client leased or occupant	Administrative
4904.4	High Fire Hazard Severity Zone Maps	Administrative
App Ch. B, Table B105.2	Buildings other than one- or two-family dwellings	I, II & III

15.24.030 Amendments to the Fire Code.

A. **DEFINITIONS.** Section 202, definition of "Fire Chief" in the California Fire Code is deleted in its entirety and replaced with the following:

FIRE CHIEF. The Fire Chief of Riverside County or the Fire Chief's designee.

B. **SCOPE AND GENERAL REQUIREMENTS.**

1. Section 101.4 of the California Fire Code is deleted in its entirety and replaced with the following:

101.4 Severability. If any provision, clause, sentence or paragraph of this ordinance or the application thereof to any person or circumstances shall be held invalid, such invalidity shall not affect the other provisions of this ordinance which can be given effect without the invalid provision or application, and to this end, the provisions of this ordinance are hereby declared to be severable.

C. **APPLICABILITY.**

1. Section 102.5 of the California Fire Code is amended as follows:

102.5 Application of residential code. Where structures are designed and constructed in accordance with the California Residential Code, the provisions of this code shall apply as follows:

1. Construction and design provisions of this code pertaining to the exterior of the structure shall apply including, but not limited to, premises identification, fire apparatus access and water supplies. Where interior or exterior systems or devices are installed, construction permits required by Section 105.7 of this code shall apply.
2. Administrative, operational and maintenance provisions of this code shall apply.
3. Automatic fire sprinkler system requirements of this code shall apply to detached accessory buildings 3,600 square feet or greater in accordance with Section 903.2. The provisions contained in Section 903.2.18 of the California Fire Code or Section R309.6 of the California Residential Code may be used for the design of the automatic fire sprinkler system for detached private garages.

D. **DEPARTMENT OF FIRE PREVENTION**

1. Sections 104.7 and 104.7.1 of the California Fire Code are deleted in their entirety and replaced with the following:

104.7 Liability. Any liability against Riverside County or the City of Coachella or any officer or employee for damages resulting from the discharge of their duties shall be as provided by law.

E. **GENERAL AUTHORITY AND RESPONSIBILITIES.**

1. A new Section 104.1.1 is added to Section 104.1 of the California Fire Code to read as follows:

104.1.1 Authority of the Fire Chief and Fire Department.

1. The Fire Chief is authorized and directed to enforce all applicable State fire laws and provisions of this ordinance and to perform such duties as directed by the City Council.
2. The Fire Chief is authorized to administer, interpret and enforce this ordinance. Under the Fire Chief's direction, the Riverside County Fire Department is authorized to enforce ordinances of the City of Coachella pertaining to the following:
   - 2.1. The prevention of fires.
   - 2.2. The suppression or extinguishment of dangerous or hazardous fires.
   - 2.3. The storage, use and handling of hazardous materials.
   - 2.4. The installation and maintenance of automatic, manual and other private fire alarm systems and fire extinguishing equipment.
   - 2.5. The maintenance and regulation of fire escapes.
   - 2.6. The maintenance of fire protection and the elimination of fire hazards on land, in buildings, structures and other property, including those under construction.
   - 2.7. The maintenance of means of egress.
   - 2.8. The investigation of the cause, origin and circumstances of fire and unauthorized releases of hazardous materials.
3. The following persons are hereby authorized to interpret and enforce the provisions of this ordinance and to make arrests and issue citations as authorized by law:
   - 3.1. The Unit Chief, Peace Officers and Public Officers of the California Department of Forestry and Fire Protection.
   - 3.2. The Fire Chief, Peace Officers and Public Officers of the Riverside County Fire Department.
   - 3.3. The Riverside County Sheriff and any deputy sheriff.

3.4. The Police Chief and any police officer of any city served by the Riverside County Fire Department.

3.5. Officers of the California Highway Patrol.

3.6. Code Officers of the City of Coachella Code Enforcement Department.

3.7. Peace Officers of the California Department of Parks and Recreation.

3.8. The law enforcement officer of the Federal Bureau of Land Management.

2. Section 104.13 is added to Section 104 of the California Fire Code to read as follows:

104.13 Authority of the Fire Chief to close hazardous fire areas. Except upon National Forest Land, the Fire Chief is authorized to determine and announce the closure of any hazardous fire area or portion thereof. Any closure by the Fire Chief for a period of more than fifteen (15) calendar days must be approved by the Riverside County Board of Supervisors and/or the City Council within fifteen (15) calendar days of the Fire Chief's original order of closure. Upon such closure, no person shall go in or be upon any hazardous fire area, except upon the public roadways and inhabited areas. During such closure, the Fire Chief shall erect and maintain at all entrances to the closed area sufficient signs giving notice of closure. This section shall not prohibit residents or owners of private property within any closed area, or their invitees, from going in or being upon their lands. This section shall not apply to any entry, in the course of duty, by a peace officer, duly authorized public officer or fire department personnel. For the purpose of this section, "hazardous fire area" shall mean public or private land that is covered with grass, grain, brush or forest and situated in a location that makes suppression difficult resulting in great damage. Such areas are designated on Hazardous Fire Area maps filed with the office of the Fire Chief.

F. **FEES.**

1. Section 107.1 of the California Fire Code is deleted in its entirety and replaced with the following:

107.1 Schedule of permit fees. Fees for services and permits shall be as set forth in the City of Coachella fee schedule.

2. A new Section 107.7 is added to Section 107 of the California Fire Code to read as follows:

107.7 Cost recovery. Fire suppression, investigation, rescue or emergency medical costs are recoverable in accordance with Health and Safety Code Sections 13009 and 13009.1, as may be amended from time to time. Additionally, any person who negligently, intentionally or in violation of law causes an emergency response, including, but not limited to, a traffic accident, spill of toxic or flammable fluids or chemicals is liable for the costs of securing such emergency, including those costs

pursuant to Government Code Section 53150, et seq, as may be amended from time to time. Any expense incurred by the Riverside County Fire Department for securing such emergency shall constitute a debt of such person and shall be collectable by Riverside County in the same manner as in the case of an obligation under contract, express or implied.

G. **BOARD OF APPEALS.**

1. Section 111.1 of the California Fire Code is deleted in its entirety and replaced with the following:

111.1 Board of appeals established. The Board of Appeals shall be the City Manager. If he or she determines an outside board is needed, he or she shall designate an outside hearing officer to hear the appeal. The Fire Chief shall be notified of any appeal and the Fire Chief or designee shall be in attendance at the appeal hearing. Depending on the subject of the appeal, specialized expertise may be solicited, at the expense of the applicant, for the purpose of providing input to the Appeals Board.

H. **VIOLATIONS.**

1. Section 112.4 of the California Fire Code is deleted in its entirety and replaced with the following:

112.4 Violation and penalties. It shall be unlawful for any person, firm, corporation or association of persons to violate any provision of this ordinance, or to violate the provisions of any permit granted pursuant to this code or Ordinance. Punishments and penalties for violations shall be in accordance with the City of Coachella ordinances, fee schedule and Health and Safety Code Sections 17995 through 17995.5.

I. **OPEN FLAMES.**

1. Section 308.1.6.3 of the California Fire Code is deleted in its entirety and replaced with the following:

308.1.6.3 Sky lanterns or similar devices. A person shall not release or cause to be released a sky lantern or similar device.

J. **FIRE APPARATUS ACCESS ROADS.**

1. Section 503.2.1 of the California Fire Code is deleted in its entirety and replaced with the following:

503.2.1 Dimensions. Fire apparatus access roads shall have an unobstructed width of not less than 24 feet (7315 mm), exclusive of shoulders, except for approved security gates in accordance with Section 503.6, and an unobstructed vertical clearance of not less than 13 feet 6 inches (4115 mm). For additional requirements or alternatives see Riverside County Fire Department Standards and Policies, as may be amended from time to time.

2. Section 503.2.2 of the California Fire Code is deleted in its entirety and replaced with the following:

503.2.2 Authority. The fire code official shall be the only authority authorized to designate fire apparatus access roads and fire lanes and to modify the minimum fire lane access widths for fire or rescue operations.

3. A new Section 503.6.1 is added to Section 503.6 of the California Fire Code to read as follows:

503.6.1 Automatic opener. New motorized gates shall be provided with means to be automatically opened remotely by emergency vehicle in accordance with Riverside County Fire Department standards and Policies, as may be amended from time to time.

Exception: Gates serving individual one- and two-family dwelling parcels.

4. A new Section 503.7 is added to Section 503 of the California Fire Code to read as follows:

503.7 Loading areas and passenger drop-off areas. On private properties, where fire apparatus access roads are utilized for loading or unloading or utilized for passenger drop-off or pick-up, an additional eight (8) feet of width shall be added to the minimum required width for the fire apparatus access road.

K. **FIRE PROTECTION WATER SUPPLIES.**

1. A new Section 507.5.7 is added to Section 507 of the California Fire Code to read as follows:

507.5.7 Fire hydrant size and outlets. As determined by the fire code official, fire hydrant sizes and outlets shall be based on the following:

1. Residential Standard - one (1) four (4) inch outlet and one (1) two and half (2 ½) inch outlet.

2. Super Hydrant Standard - one (1) four (4) inch outlet and two (2) two and one half (2 ½) inch outlet.

3. Super Hydrant Enhanced - two (2) four (4) inch outlet and one (1) two and one half (2 ½) inch outlet.

2. A new Section 507.5.8 is added to Section 507 of the California Fire Code to read as follows:

507.5.8 Fire hydrant street marker. Fire hydrant locations shall be visually indicated in accordance with Riverside County Fire Department Technical Policy 06-11, as may be amended from time to time. Any hydrant marker damaged or removed during the course of street construction or repair shall be immediately replaced by the contractor, developer or person responsible for removal or damage.

L. **FIRE COMMAND CENTER.**

1. Section 508.1 of the California Fire Code is deleted in its entirety and replaced with the following:

508.1 General. Where required by other sections of this code and in all buildings classified as high-rise buildings by the California Building Code, in buildings greater than 300,000 square feet in area and in Group I-2 occupancies having occupied floors located more than 75 feet above the lowest level of fire department vehicle access, a fire command center for fire department operations shall be provided and comply with Sections 508.1.1 through 508.1.8.

2. Section 508.1.1 of the California Fire Code is deleted in its entirety and replaced with the following:

508.1.1 Location and access. The fire command center shall be located adjacent to the main lobby and shall be accessible from fire department vehicular access or as approved by the fire code official. The room shall have direct access from the building exterior at the lowest level of fire department access.

3. Section 508.1.3 of the California Fire Code is amended to add the following:

Exception: A fire command center solely required because a building is greater than 300,000 square feet in area shall be a minimum of 96 square feet (9 $m^{2)}$ with a minimum dimension of 8 feet (2438 mm).

4. Section 508.1.6 of the California Fire Code is amended to add the following:

Exception: A fire command center solely required because a building is greater than 300,000 square feet in area shall comply with NFPA 72 and contain the features set forth in Section 508.1.6 subsections 5, 8, 10, 12, 13 and 14. The features set forth in Section 508.1.6 subsections 1, 2, 3, 4, 6, 7, 9, 11, 15, 16, 17, 18 and 19 shall be required when such building contains systems or functions related to these features.

5. A new Section 508.1.9 is added to Section 508 of the California Fire Code to read as follows:

508.1.9 Fire command center identification. The fire command center shall be identified by a permanent easily visible sign stating "Fire Dept. Command Center," located on the door to the fire command center.

M. FIRE PROTECTION AND UTILITY EQUIPMENT IDENTIFICATION AND LOCATION.

1. Section 509.2.1 of the California Fire Code is amended to add the following:

509.2.1 Minimum clearances. A 3-foot (914 mm) clear space shall be maintained around the circumference of exterior fire protection system control valves, or any other exterior fire protection system component that may require immediate access, except as otherwise required or approved.

N. MECHANICAL REFRIGERATION.

1. Section 608.11.1.2 of the California Fire Code is deleted in its entirety and replaced with the following:

608.11.1.2 Manual operation. When required by the fire code official, automatic crossover valves shall be capable of manual operation. The manual valves shall be located in an approved location immediately outside of the machinery room in a secure metal box or equivalent and marked as Emergency Controls.

O. **AUTOMATIC SPRINKLER SYSTEMS.**

1. Section 903.2 of the California Fire Code is deleted in its entirety and replaced with the following:

903.2 Where required. In all new buildings and structures which are 3,600 square feet or greater, an approved automatic sprinkler system shall be provided regardless of occupancy classification. Where the Sections 903.2.1 - 903.2.20 of the California Fire Code require more restrictive requirements than those listed below, the more restrictive requirement shall take precedence.

Exception: Unless required elsewhere in this code or the California Building Code, automatic fire sprinkler systems shall not be required for the following:

1. Detached Group U occupancies used for agricultural purposes constructed in accordance with the California Building Code.
2. Detached non-combustible equestrian arena shade canopies that are open on all sides and used for riding only - no commercial, assembly or storage uses.
3. Detached fabric or non-combustible shade structures that are open on all sides and used to shade playground equipment, temporary storage of vehicles and dining areas with no cooking.
4. Where determined by the Fire Chief that no major life safety hazard exists, and the fuel load does not pose a significant threat to firefighter safety or to other structures or property, automatic fire sprinklers may be exempted.

One- and two-family dwellings shall have an automatic fire sprinkler system regardless of square footage in accordance with the California Residential Code. Fire sprinkler systems shall be installed in mobilehomes, manufactured homes and multifamily manufactured homes with two dwelling units in accordance with Title 25 of the California Code of Regulations.

The following exceptions in the California Fire Code shall not be allowed:

a. Exception in Section 903.2.3
b. Exception 2 in Section 903.2.11.3

2. A new Section 903.3.5.3 is added to Section 903 of the California Fire Code to read as follows:

903.3.5.3 Hydraulically calculated systems. The design of hydraulically calculated fire sprinkler systems shall not exceed 90% of the water supply capacity.

P. **DESIGNATION OF HIGH-PILED STORAGE AREAS.**

1. A new Section is added to Section 3204.2 of the California Fire Code to read as follows:

3204.2.1 Minimum requirements for client leased or occupant owned warehouses. Designs of an automatic sprinkler system for client leased or occupant owned buildings containing high pile storage shall be based on the requirements of NFPA 13. The responsible fire protection engineer shall perform a survey of the building to determine commodity classification, storage configuration, building height and other information related to the development of an appropriate sprinkler system design. The fire protection engineer shall also make reasonable efforts to meet with the building owner or operator to understand seasonal or customer related fluctuations to the stored commodities, storage height, and configuration. The sprinkler design shall be based on the most demanding requirements determined through the onsite survey and discussions with the building owner or operator. The technical report shall describe the basis for determining the commodity and sprinkler design selection, how the commodities will be isolated or separated, and include references to the design document(s). If a specific fire test is used as the basis of design, a copy of the fire test report shall be provided at the time of plan review.

Q. **FIRE HAZARD SEVERITY ZONES.**

1. A new Section 4904.4 is added to Section 4904 of the California Fire Code to read as follows:

4904.4 High Fire Hazard Severity Zone Maps. In accordance with Government Code Sections 51175 through 51189, Very High Fire Hazard Severity Zones are designated as shown on a map titled Very High Fire Hazard Severity Zones, dated December 24, 2009, and retained on file at the office of the Fire Chief, which supersedes other maps previously adopted by Riverside County designating high fire hazard areas.

R. **APPENDIX B.**

1. Table B105.2 of the California Fire Code is amended as follows:

TABLE B105.2
REQUIRED FIRE-FLOW FOR BUILDINGS OTHER
THAN ONE- AND TWO-FAMILY
DWELLINGS, GROUP R-3 AND R-4 BUILDINGS AND TOWNHOUSES

AUTOMATIC SPRINKLER SYSTEM (Design Standard)	MINIMUM FIRE-FLOW (gallons per minute)	FLOW DURATION (hours)
No automatic sprinkler system	Value in Table B105.1(2)	Duration in Table B105.1(2)
Section 903.3.1.1 of the California Fire Code	50% of the value in Table B105.1(2)[a]	Duration in Table B105.1(2) at the reduced flow rate

Section 903.3.1.2 of the California Fire Code	50% of the value in Table B105.1(2)[b]	Duration in Table B105.1(2) at the reduced flow rate

For SI: 1 gallon per minute = 3.785 L/m.

a. The reduced fire-flow shall be not less than 1,000 gallons per minute.

b. The reduced fire-flow shall be not less than 1,500 gallons per minute.

S. **APPENDIX C.**

1. Section C103.1 of the California Fire Code is deleted in its entirety and replaced with the following:

C103.1 Hydrant spacing. Fire apparatus access roads and public streets providing required access to buildings in accordance with Section 503 of the International Fire Code shall be provided with one or more fire hydrants, as determined by Section C102.1. Where more than one fire hydrant is required, the distance between required fire hydrants shall be in accordance with Sections C103.2 and C103.3. Fire hydrants shall be provided at street intersections."

SECTION 7. Code Amendment.

Chapter 15.32 of Title 15 of the Coachella Municipal Code is hereby amended in its entirety to read as follows:

"**Chapter 15.32 Existing Building Code**

15.32.010 Adoption of the Existing Building Code.

15.32.015 Express Findings.

15.32.020 Amendments to the Existing Building Code.

15.32.010 Adoption of the Existing Building Code.

Except as provided in this chapter, the 2022 California Existing Building Code, including Appendices A-1, based on the 2021 International Existing Building Code, as adopted by the state of California, as published by the International Code Council (ICC), shall become the Existing Building Code of the City of Coachella for the purpose of regulating the repair, alteration, change of occupancy, addition to and relocation of the Seismic Strengthening Provisions for Unreinforced Masonry Bearing Wall Buildings, in existing buildings in the City. The California Existing Building Code is on file for public examination in the office of the Building Official.

15.32.015 Express Findings.

The City of Coachella finds that the proposed amendments to the Existing Building Code are reasonable and necessary because of local climactic, geologic, and topographical conditions within the City of Coachella. This finding is supported and based upon the following express findings which address each of these conditions and present the local situation which make the proposed amendments necessary.

V. Climatic Conditions:

E. The City of Coachella located in Riverside County is located in Southern California and covers a vast and varied geographic area. The base climate in western Riverside County consists of semi-arid Mediterranean weather patterns. Eastern Riverside County is a desert area with Mohave Desert temperatures and weather patterns. Those two primary areas are divided by the San Bernardino Mountain Range. Both areas outside of the mountain terrain annually experience extended periods of high temperatures with little or no precipitation. Hot, dry winds, which may reach speeds of seventy (70) miles per hour or greater, are common to the area. Examples are: Santa Ana/Foehn winds, afternoon surface-heating generated winds, and prevailing desert winds.

These climatic conditions cause extreme drying of vegetation and common building materials. Frequent periods of drought and low humidity add to the fire danger. This predisposes the area to large destructive fires (conflagration) which necessitates rapid identification, locating and extinguishment of all fires in the smallest stage possible. In addition to directly damaging or destroying buildings, these fires are also prone to disrupt utility services throughout the county. Obstacles generated by a strong wind, such as fallen trees, street lights and utility poles, will greatly impact the response time to reach an incident scene. During these winds, the inability to use aerial type firefighting apparatus would further decrease our ability to stop fires in large buildings and place rescue personnel at increased risk of injury.

F. Although Riverside County and the City of Coachella occasionally experiences periods of significant drought, the county can also experience periods of substantial rainfall. Annual rainfall varying from three inches in Blythe to over thirty-three (33) inches in Pine Cove. When Riverside County does experience heavy rain, or rain over a period of days or weeks, many areas of the county are subject to flooding. Runoff from rain drains either naturally into rivers, washes, and creeks or into flood control facilities. Flash flooding is also a common problem, especially in the Coachella Valley and the easterly portions of the county. Flash flooding is typically associated with short duration, high intensity precipitation events often associated with summer thunderstorms. Such events can occur even during a drought.

G. Water demand in densely populated Southern California far exceeds the quantity supplied by natural precipitation; and although the population continues to grow, the already-taxed water supply does not. California is projected to increase in population by nearly ten million over the next quarter of a century with fifty (50) percent of that growth centered in Southern California. Due to storage capacities and consumption, and a limited amount of rainfall future water allocation is not fully dependable. This necessitates the need for additional and on-site fire protection features.

It would also leave tall buildings vulnerable to uncontrolled fires due to a lack of available water and an inability to pump sufficient quantities of available water to floors in a fire.

H. These dry climatic conditions and winds contribute to the rapid spread of even small fires originating in high-density housing or vegetation. These fires spread very quickly and create a need for increased levels of fire protection. The added protection of fire sprinkler systems and other fire protection features such as identification and notification will supplement normal fire department response by providing immediate protection for the building occupants and by containing and controlling the fire spread to the area of origin. Fire sprinkler systems will also reduce the use of water for firefighting by as much as fifty (50) to seventy-five (75) percent.

VI. Topographical Conditions

D. Natural: The topographical conditions of Riverside County varies from three hundred (300) feet below sea-level, flat desert communities, to mountains over ten thousand (10,000) feet in Alpine-like areas of the San Bernardino Mountain Range. In between these areas, developable slopes of twenty-five (25) percent and greater generally occur throughout the foothills. Riverside County extends from Orange County to the state of Arizona and is mixed with congested urban areas, rural lands and wild lands. A large number of sensitive habitats for various animal species and vegetation consist within large open space areas between major urban centers that impact building and structure location, which impedes emergency access and response. This variety in regions contributes to an increased emergency response time, which necessitates cooperation between local agencies.

E. Traffic and circulation congestion is an artificially created, obstructive topographical condition, which is common throughout Riverside County.

F. These topographical conditions combine to create a situation, which places fire department response time to fire occurrences at risk, and makes it necessary to provide automatic on-site fire-extinguishing systems and other protection measures to protect occupants and property.

VII. Geological Conditions: Located within Riverside County are several known active and potentially active earthquake faults, including the San Andreas, San Jacinto, and Elsinore Fault. In the event of an earthquake, the location of the epicenter as well as the time of day and season of the year would have a profound effect on the number of deaths and casualties, as well as property damage.

The major form of direct damage from most earthquakes is damage to construction. Bridges are particularly vulnerable to collapse, and dam failure may generate major downstream flooding. Buildings vary in susceptibility, dependent

upon construction and the types of soils on which they are built. Earthquakes destroy power and telephone lines; gas, sewer, or water mains; which, in tum, may set off fires and/or hinder firefighting or rescue efforts. The hazard of earthquakes varies from place to place, dependent upon the regional and local geology. Ground shaking may occur in areas sixty-five (65) miles or more from the epicenter (the point on the ground surface above the focus). Ground shaking can change the mechanical properties of some fine grained, saturated soils, where upon they liquefy and act as a fluid (liquefaction).

C. Previous earthquakes in southern California have been accompanied by disruption of traffic flow and fires. A severe seismic event has the potential to negatively impact any rescue or fire suppression activities because it is likely to create obstacles similar to those indicated under the high wind section above. With the probability of strong aftershocks there exists a need to provide increased protection for anyone on upper floors of buildings.

D. Road circulation features located throughout the county also make amendments reasonably necessary. Located through the county are major roadways, highways and flood control channels that create barriers and slow response times. Hills, slopes, street and storm drain design accompanies with occasional heavy rainfall, causes roadway flooding and landslides and at times may make an emergency access route impassable. There are areas in Riverside County that naturally have extended emergency response times that exceed the five-minute goal.

VIII. Administrative Conditions. Alternatively, the City of Coachella finds that the proposed amendments to the Existing Building Code are administrative in nature.

California Health and Safety Code Sections 17958.7 and 18941.5 require that the modification or change be expressly marked and identified as to which each finding refers. Therefore, the City Council finds that the following table sets forth the 2022 California Existing Building Code sections that have been modified and the associated local climatic, geological, topographical, and/or administrative conditions described above supporting the modification.

2022 EXISTING BUILDING CODE SECTION	TITLE/SUBJECT	FINDINGS I, II, III
202	Definitions	Administrative, III

15.32.020 Amendments to the Existing Building Code.

A. Section 202, Definitions, is hereby amended by adding thereto the following definition to read as follows:

Substantial Structural Damage. A condition where:

1. In any story, the vertical elements of the lateral-force-resisting system, have suffered damage such that the lateral load-carrying capacity of the structure in any direction has been reduced by more than 20 percent from its pre-damaged condition, or

2. The capacity of any vertical gravity load-carrying component, or any group of such components, that supports more than 30 percent of the total area of the structure's floor(s) and roof(s) has been reduced more than 20 percent from its pre-damaged condition, and the remaining capacity of such affected elements with respect to all dead and live loads is less than 75 percent of that required by the building code for new buildings of similar structure, purpose, and location."

SECTION 8. Code Amendment.

Chapter 15.54 of Title 15 of the Coachella Municipal Code is hereby amended in its entirety to read as follows:

"**Chapter 15.54 Recycling and Diversion of Waste from Construction and Demolition**

15.54.010 Findings and Purpose.

15.54.020 [Deleted].

15.54.030 [Deleted].

15.54.040 [Deleted].

15.54.050 [Deleted].

15.54.060 [Deleted].

15.54.070 [Deleted].

15.54.080 Performance Security.

15.54.090 Refund of Performance Security.

15.54.100 Use of Performance Security.

15.54.110 [Deleted].

15.54.120 Forfeiture of Performance Security.

15.54.130 Compliance and Release of Performance Security.

15.54.010 Findings and Purpose.

The City Council of the City of Coachella hereby finds and determines that the City is committed to protecting the public health, safety, welfare, and environment; that in order to meet these goals, it is necessary that the City promote the reduction of solid waste and reduce the stream of solid waste going to landfills; that under California law, as embodied in the California Waste Management Act (California Public Resources Code Section 40000 et seq.), Coachella is required to prepare, adopt, and implement source reduction and recycling elements to reach reduction goals, and is required to make substantial reductions in the volume of waste materials going to landfill, under the threat of penalties of ten thousand dollars ($10,000.00) per day; that waste from demolition and construction of commercial and residential buildings represents a large portion of the volume presently coming from Coachella, and that a percentage of that waste is particularly suitable for recycling; that Coachella's commitment to the reduction of waste and to compliance with state law requires the establishment of programs for recycling and salvaging construction and demolition materials; that the City Council recognizes that requiring demolition and construction waste to be recycled and reused may in some respects add modestly to the cost of demolition and construction and in other respects may make possible some cost recovery and cost reduction; and that it is necessary in order to protect the public health, safety, and welfare that the following regulations be adopted.

15.54.020 [Deleted].

15.54.020 [Deleted].

15.54.030 [Deleted].

15.54.040 [Deleted].

15.54.050 [Deleted].

15.54.060 [Deleted].

15.54.070 [Deleted].

15.54.080 Performance Security.

A. The applicant for a building or demolition permit shall submit a performance security along with the C&D waste plan. This performance security shall be in the amount of one percent of the building permit valuation, but not greater than one hundred thousand dollars ($100,000.00).

B. For large projects, a one hundred thousand dollars ($100,000.00) performance security will be deposited. The security may be carried forward to the following phase provided the contractor has met the required diversion requirements. If diversion requirements are not met and a portion or all of the performance security is forfeited, the security must be replenished to meet one hundred thousand dollars ($100,000.00). The dollar amount to be replenished will be based on the diversion schedule in Section 15.54.130 of this chapter.

C. The applicant shall post performance security in the form of cash, money order, letter of credit, performance or surety bond.

15.54.090 Refund of Performance Security.

A. The compliance official may authorize the refund of any performance security which was erroneously paid or collected.

B. The compliance official may authorize the refund of any performance security when the building permit application is withdrawn or cancelled before any work has begun.

C. The performance security shall be returned, without interest, in total or prorated, upon proof of satisfaction by the compliance official that no less than the required percentage of construction and demolition waste tonnage generated by the covered project has been diverted from disposal and has been recycled or reused. If a lesser percentage of construction and demolition waste tonnage than is required is diverted, a proportionate share of the deposit shall be returned. The deposit shall be forfeited entirely or to the prorated extent that there is a failure to comply with the requirements of this chapter. The city may, by formal resolution, modify the amount of the required security.

15.54.100 Use of Performance Security.

A. Monies received by the city as performance security shall be used only for:

1. Payment of performance security refunds;
2. Programs to divert construction, demolition, and alteration projects from the landfill;
3. Programs whose purpose is to develop or improve the infrastructure needed to divert wastes from construction, demolition, and alteration projects from landfill disposal;
4. Allocated staff costs.

15.54.110 [Deleted].

15.54.120 Forfeiture of Performance Security.

A. If the compliance official determines that the applicant has not made a good faith effort to comply with this chapter, or if the applicant fails to submit the documentation required within the sixty (60)-day time period, then the deposit shall be forfeited to the city.

B. If the compliance official determines that the applicant has diverted a lesser percentage of construction and demolition waste tonnage than required, the deposit shall be forfeited entirely or to the prorated extent that there is failure of compliance.

15.54.130 Compliance and Release of Performance Security.

The compliance official shall review the information submitted under Section 15.54.110 of this chapter and determine whether the applicant has complied with the diversion requirement as follows:

A. Full Compliance. If the compliance official determines that the applicant has fully complied with the diversion requirement applicable to the project, the compliance official shall cause the performance security to be returned in full, without interest, within fifteen (15) days.

B. Partial Compliance. If the contractor is not found in compliance but has submitted required forms and documentation, the city may refund a percentage of the deposit for partial compliance. See schedule in this subsection to determine the amount of the security to be refunded based on the level of diversion obtained and supported.

% Diverted	% Deposit Returned
65%	100%
55–64%	80%
45–54%	60%
35–44%	40%
25–34%	20%
Under 25%	0%

C. Noncompliance. If the compliance official determines that the applicant has not fully or partially complied with the diversion requirement, or if the applicant fails to submit the documentation required by Section 15.54.110 of this chapter within the sixty (60)-day time period, then the performance security shall be forfeited to the city."

SECTION 9. Certification. The City Clerk of the City of Coachella shall certify to the adoption of this Ordinance and cause publication to occur in a newspaper of general circulation and published and circulated in the City in a manner permitted under section 36933 of the Government Code of the State of California.

SECTION 10. CEQA Analysis. The City Council finds that the adoption of the California Buildings Standards Code and local amendments thereof is exempt from the California Environmental Quality Act ("CEQA") under CEQA Guideline section 15061(b)(3) (the common sense exemption). The action is largely administrative in nature and designed to improve and not degrade environmental quality such that there is no possibility that adopting this Ordinance would adversely affect the environment in any manner that could be significant.

SECTION 11. Existing Contracts. Operators of Shared Micromobility Devices that have entered into agreements for operation with the City prior to the effective date of this Ordinance, must comply by any and all agreement provisions for the term of the agreement and thereafter

must cease conducting business in the City or enter into a new operating agreement with the City and comply with Chapter 15.08 of the Coachella Municipal Code.

SECTION 12. Severability. If any section, subsection, subdivision, paragraph, sentence, clause, or phrase of this Ordinance, or any part thereof, is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Ordinance, or any part thereof. The City Council hereby declares that it would have passed each section, subsection, subdivision, paragraph, sentence, clause or phrase thereof, irrespective of the fact that any one or more section, subsection, subdivision, paragraph, sentence, clause or phrase would be subsequently declared invalid or unconstitutional.

SECTION 13. Publication and Effective Date. The City Clerk shall certify to the passage and adoption of this Ordinance and shall cause this Ordinance to published or posted as required by law, which shall take full force and effect thirty (30) days from its adoption.

PASSED, APPROVED, AND ADOPTED at a regular meeting of the City Council on this 28th day of June, 2023.

Art in Public Places Application Form

Purpose: The purpose of the Public Arts Commission shall be to act in an advisory capacity to the City Council on matters pertaining to the enrichment of the community through fine arts, visual arts, performing arts, arts education, historic preservation and cultural issues; to serve as an advocate for cultural activities and programs within the City; to implement the City's Art in Public Places Program, and to encourage the integration of cultural affairs into the social and economic fabric of the City to improve the quality of life for City residents. Art in public places are intended to promote the general welfare of the public through the acquisition and installation of public art works (Municipal Code Chapter 4.48).

The completeness of this application, which includes accompanying plans, shall be subject to the review of the Planning Division and Development Services Department. If you have any questions while completing this application please ask a member of the Planning Division for assistance. Incomplete applications will not be accepted (or the process may be delayed).

Fees apply to:

1. New commercial and industrial construction
2. Remodeling or reconstruction of existing commercial or industrial property;
3. New residential development of two or more units built in the same tract by the same owner or developer;
4. New individual single-family dwelling units in an existing subdivision with a permit valuation over $100,000.

Fees are based on a percentage of the building cost:

1. One-half of one percent (.005) for new commercial or residential construction;
2. One-half of one percent (.005) for remodel or reconstruction of existing commercial or industrial property;
3. One quarter of one percent (.0025) for new residential subdivision of two or more units;
4. One quarter or one percent (.0025) for new individual single-family units constructed in an existing subdivision with a building permit over $100,000 for that portion of the building permit valuation in excess of $100,000.

Guidelines for approval and maintenance of art in public places shall include, but are not limited to, the following criteria:

A. Quality of the artwork;
B. Media. All visual art forms may be considered, subject to limitations set by the selection jury or the Planning Commission;
C. Style. Artworks of all schools, styles, and tastes should be considered for the city collection;
D. Environment. Artworks and art places should be appropriate in scale, material, form and content for the immediate, general, social and physical environments with which they relate;
E. Permanence. Consideration should be given to structural and surface integrity, permanence, and protection against theft, vandalism, weathering, excessive maintenance, and repair costs;
F. Elements of Design. Consideration should take into account that public art, in addition to meeting aesthetic requirements, also may serve to establish focal points, terminate areas, modify, enhance, or define specific spaces, or establish identity;
G. Diversity. The public arts program should strive for diversity of style, scale, media, artists—including ethnicity and gender and equitable distribution of artworks and art places throughout the city;
H. Visibility. The art work shall be clearly visible and easily accessible to the public
I. Site Plan. The application shall include a site plan showing the location of the art work, complete with landscaping, lighting and other accessories to complement and protect the art work
J. Artist. The art work shall be designed and constructed by persons experienced in the production of such art work and recognized by critics and by his or her peers as one who produces works of art

SUBMITAL REQUIREMENTS

The Submittal Requirements provides the basic information necessary for review by the Development Services Department (staff review by City Departments). The Development Services Department may determine that additional information is required before further processing can take place.

a. Complete and signed Art in Public Places Application Form
b. Copy of Fee Receipt for $_____
c. One overall concept drawing showing the work in plan, and;
d. One rendered presentation drawing (plan and elevation), and;
e. A site plan with building and grade elevation showing the placement of the proposed artwork, and;
f. An artist concept statement, and;
g. An artist resume or CV, and;
h. Examples of artist's previous work, and;
i. Evidence of the value of the proposed artwork (contract draft showing contract value and payment schedule will be sufficient).
j. Maintenance plan (including frequency and anticipated costs of maintenance and description of materials).

ARTWORK PROPOSAL AND SPECIFICATIONS

Describe the artwork, its location, materials, installation requirements, and maintenance needs as completely as possible. You may use additional paper to complete this section of the application.

1. Artwork Description

El Mural integra a dos brazos uniendo fuerzas como hermanos al chocar las manos sobre un símbolo de agua como recurso primordial a cuidar. Alrededor del cerro del centinela que es parte de ambas naciones, se muestran los paisajes más representativos y emblemáticos de las zonas desértica de las californias.
En la opción 2 del boceto, adicionalmente se contempla agregar alrededor del agua las palabras de ciudades hermanas.

2. Siting

10 dias habiles

3. Materials with Specifications

8 cajas de pinturas de aerosol
2 cubetas color azul pintura acrilica
2 cubetas de pintura blanca
1 cubeta pintura morada bhr
10 rodillos de esponjas
8 brochas 6”
1 cubeta de sellador

4. Fabrication and Installation Procedures

Date:

a. Break out fabrication points

Phase IV — Installation Completion
Date:

a. Acquisition of all appropriate certificates and permits
b. Site preparation
c. Installation of artwork on site
d. Site clean up

Phase V — Final Acceptance
Date:

a. Notification of Completion received by City staff
b. Final approval from Art in Public Places Commission and City Council (submit letter requesting approval)
c. Application of Certificate of Occupancy
d. Submittal of Project Completion Notification and request for return of funds

STAFF REPORT
6/28/2023

TO: Honorable Mayor and City Council Members

FROM: Celina Jimenez, Economic Development Director

SUBJECT: Approve an Art in Public Places Proposal for a Mural Celebrating the Importance of Maintaining the City of Coachella's Sister City Relationship with the City of Mexicali in the Amount of $25,000

STAFF RECOMMENDATION:

Staff recommends that the City Council consider approving and awarding a grant to Jorge Alberto Gomez Castro in the amount of $25,000 from the City of Coachella's Art in Public Places Program to install a mural on the Plaza De Oro building wall on Grapefruit Boulevard between Avenue 52 and Hill Drive.

BACKGROUND:

On January 1, 2011, the City Council approved Ordinance No. 1034 establishing an Art in Public Places Program and implementing a new development impact fee for certain new construction, remodeling and reconstruction of public art installations. The purpose of the Art in Public Places ordinance is to develop and maintain a visual arts program for the residents and visitors of Coachella, to add to the economic vitality of the community, and to enhance the environment and unique character of Coachella by providing for the acquisition and maintenance of quality works of public art.

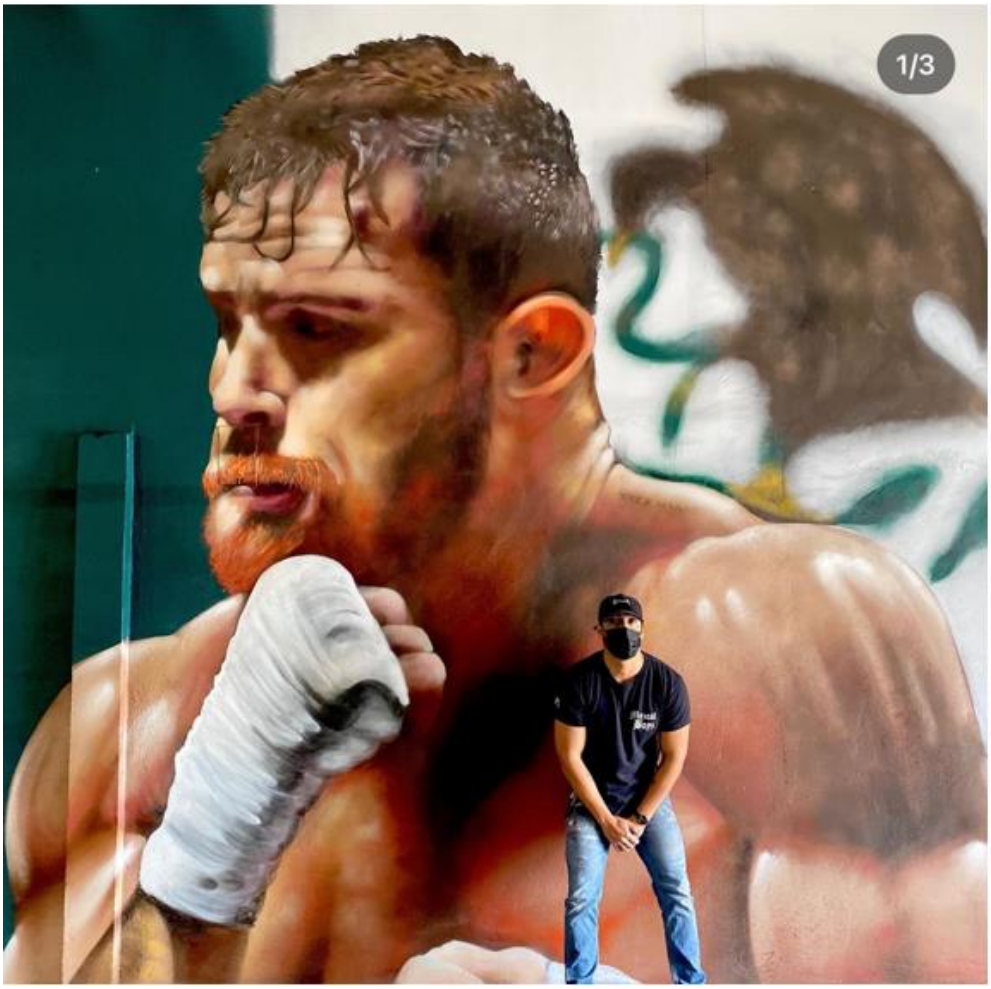
DISCUSSION/ANALYSIS:

The submitted proposal is a painted mural project approximately 197' feet in length and 23' feet high celebrating the City of Coachella's relationship with its sister city, the City of Mexicali, Mexico. Both cities believe that fostering relationships with neighboring international cities, like the City of Mexicali, play an essential part in creating a more prosperous world through exchanges and initiatives. The value of relationships across borders not only changes the lives of individuals, but helps both communities to thrive. The City is championing prosperity by fostering bonds between people from different communities through this art initiative.

Budget

Installation Costs – Labor + Crew	$ 13,750
Installation Costs – Equipment Rental	$ 2,250
Other Costs – Materials	$ 3,000
Miscellaneous Costs	$ 6,000 (travel, video, photography, mobility)
TOTAL	$ 25,000

About the Artist



Jorge Alberto Gomez Castro, known as “Boms, the Artist” is an artist who had his beginnings in the 1990s graffiti art movement in Mexicali, Mexico at the tender age of 12. During that time, he was influenced by Hip Hop music, which later complemented his career in marketing. With more than 50 murals under his belt, he has become one of the most prominent muralists in the urban genre by gracing commercial buildings with his work, public plazas, restaurants, including government buildings. His work has gained the praise of the Los Angeles Times

1/4

Proposed Mural Design Rendition

ALTERNATIVES:

1. Approve the Art in Public Places Proposal for a Mural Celebrating the Importance of Maintaining the City of Coachella's Sister City Relationship with the City of Mexicali in the Amount of $25,000

2. Not approve the art mural and provide alternative direction

FISCAL IMPACT:

If the City Council approves the staff recommendation, the $25,000 will be withdrawn from the Special Revenue Funds (130) – Development Impact Fees for Public Art for Fiscal Year 2022-23.

Application

STAFF REPORT
6/28/2023

TO: Honorable Mayor and City Council Members

FROM: Maritza Martinez, Public Works Director

SUBJECT: Authorize award of a construction agreement for Vista Escondida Landscaping and Park Improvements Project LL-04 to Urban Habitat, for $1,137,624.05, and allocate $1,137,624.05 from undesignated LLMD 33 fund balance.

STAFF RECOMMENDATION:

Authorize award of a construction agreement for Vista Escondida Landscaping and Park Improvements Project LL-04 to Urban Habitat, for $1,137,624.05, and allocate $1,137,624.05 from undesignated LLMD 33 fund balance.

EXECUTIVE SUMMARY:

A formal bid was published for the Vista Escondida Landscaping and Park Improvements Project LL-04. The project consists of finished grading in preparation for furnishing and installation of irrigation, trees, plant material and solar lights at three retention basins. The project also includes finished grading in preparation for furnishing and installation of irrigation, trees, plant material, site lighting park amenities (sand volleyball court, pavilion area, and playground equipment) for a small pocket park within the Vista Escondida residential development. The bid closed on May 30, 2023 and two (2) bid responses were received:

- Urban Habitat; $ 1,137,524.05
    - Including Bid Alternate (shade structure over playground)
        i. $1,318,916.05
- Conserve LandCare; $ 1,305,882.00
    - Including Bid Alternate (shade structure over playground)
        i. $1,501,382.00

Staff is recommending award of a construction agreement to the lowest responsive bidder, Urban Habitat, Inc., for the base bid amount of $1,137,524.05. Based on available funding staff is not recommending award of the bid alternate at this time, a shade structure over the playground structure. Once LLMD 33 has funds available to fund the playground shade structure this improvement will be rebid and installed at a future time.

FISCAL IMPACT:

Staff is requesting allocation of $1,137,524.05 be allocated from LLMD 33 (Vista Escondida) undesignated fund balance; these funds are available in the LLMD 33 fund balance and will not have a negative impact to the fund.

Attachments: Proposed Construction Agreement

CONTRACTOR AGREEMENT

This Contract for Construction ("Contract"), is made and entered into this 28th day of June, 2023, by and between City of Coachella, a municipal corporation, organized under the laws of the State of California, with its principal place of business at 53462 Enterprise Way, Coachella, California 92236, sometimes hereinafter called the "City" and Urban Habitat Inc., sometimes hereinafter called "Contractor."

WITNESSETH: That the parties hereto have mutually covenanted and agreed, and by these presents do covenant and agree with each other as follows:

ARTICLE 1. SCOPE OF WORK.

The Contractor shall perform all Work within the time stipulated in the Contract, and shall provide all labor, materials, equipment, tools, utility services, and transportation to complete all of the Work required in strict compliance with the Contract Documents as specified in Article 5, below, for the following Project:

Vista Escondida Landscaping and Park Improvements
CITY PROJECT NO. LL-04

Contractor is an independent contractor and not an agent of the City. The Contractor and its surety shall be liable to the City for any damages arising as a result of the Contractor's failure to comply with this obligation.

ARTICLE 2. TERM.

The term of this Agreement shall commence on the 1st day of July, and shall terminate on the 30th day of November 2023, unless terminated earlier as set forth herein.

Contractor and City agree that time is of the essence regarding the performance of this Agreement. All work called for under this Agreement will require the Contractor submit and City approve a Project Schedule for completion of work requested.

ARTICLE 3. CONTRACT PRICE.

The City shall pay to the Contractor as full compensation for the performance of the Contract, subject to any additions or deductions as provided in the Contract Documents, and including all applicable taxes and costs, the not to exceed sum of **One Million One Hundred Thirty Seven Thousand Six Hundred Twenty Four Dollars and Five Cents ($1,137,624.05)**. Payment shall be made as set forth in the General Conditions. The City will pay to Contractor compensation based upon the prices set forth in the Proposal Schedule.

ARTICLE 4. LIQUIDATED DAMAGES.

Contractor acknowledges that the City will sustain actual damages for each and every Working Day completion of the Project is delayed beyond the Contract Time (per approved Project Schedule). Because of the nature of the Project, it would be impracticable or extremely difficult to determine the City's actual damages. Accordingly, in accordance with Government Code section 53069.85, it is agreed that the Contractor will pay the City the sum of **$500.00** for each and every

Working Day of delay beyond the time prescribed in the Contract Documents. In the event this is not paid, the Contractor agrees the City may deduct that amount from any money due or that may become due the Contractor under the Contract. This Section does not exclude recovery of other damages specified in the Contract Documents. Liquidated damages may be deducted from progress payments due Contractor, Project retention or may be collected directly from Contractor, or from Contractor's surety. These provisions for liquidated damages shall not prevent the City, in case of Contractor's default, from terminating the Contractor.

ARTICLE 5. COMPONENT PARTS OF THE CONTRACT.

The “Contract Documents” include the following:

Notice Inviting Bids
Instructions to Proposers
ProposalForms
ProposalAcknowledgement
ProposalSchedule
ProposalGuarantee
Designation of Subcontractors
Information Required of Proposers
Non-Collusion Declaration Form
Iran Contracting Act Certification
Drug-Free Workplace Certification
Asbestos-Free Material Certification
Recycled Content Certification
Public Works Contractor DIR Registration Certification
Performance Bond
Payment (Labor and Materials) Bond
Contract for Construction
General Conditions
Special Conditions
Technical Specifications
Addenda
Construction Plans and Drawings
City of Coachella Standard Specifications and Procedures (June 2007)
City of Coachella Standard Infrastructure Drawings (2007 Edition) including Surface Improvement Standards and Water Standards
Standard Specifications for Public Works Construction “Greenbook” (2018), Except Sections 1-9
Standard Plans for Public Works Construction “Greenbook” (2018)
Caltrans Standard Specifications (2018), except Division 1
Caltrans Standard Plans (2018)
Applicable Local Agency Standards and Specifications, as last revised
Reference Specifications
Approved and fully executed Change Orders
Permits
Any other documents contained in or incorporated into the Contract

The Contractor shall complete the Work in strict accordance with all of the Contract Documents.

All of the Contract Documents are intended to be complementary. Work required by one of the Contract Documents and not by others shall be done as if required by all. In the event of conflict, the various Contract Documents will be given effect in the order set forth in the General Conditions. This Contract shall supersede any prior agreement of the parties.

ARTICLE 6. PROVISIONS REQUIRED BY LAW AND CONTRACTOR COMPLIANCE.

Each and every provision of law required to be included in these Contract Documents shall be deemed to be included in these Contract Documents. The Contractor shall comply with all requirements of applicable federal, state and local laws, rules and regulations, including, but not limited to, the provisions of the California Labor Code and California Public Contract Code which are applicable to this Work.

ARTICLE 7. INDEMNIFICATION.

Contractor shall provide indemnification and defense as set forth in the General Conditions.

ARTICLE 8. PREVAILING WAGES.

Contractor shall be required to pay the prevailing rate of wages in accordance with the Labor Code which such rates may be obtained online at **http://www.dir.ca.gov** and which must be posted at the job site.

ARTICLE 9. FALSE CLAIMS.

Contractor acknowledges that if a false claim is submitted to the City, it may be considered fraud and Contractor may be subject to criminal prosecution. Contractor acknowledges that the False Claims Act, California Government Code sections 12650, et seq., provides for civil penalties where a person knowingly submits a false claim to a public entity. These provisions include within their scope false claims made with deliberate ignorance of the false information or in reckless disregard of the truth or falsity of the information. In the event the City seeks to recover penalties pursuant to the False Claims Act, it is entitled to recover its litigation costs, including attorneys' fees. Contractor hereby acknowledges that the filing of a false claim may the Contractor to an administrative debarment proceeding wherein Contractor may be prevented from further bidding on public contracts for a period of up to five (5) years.

[REMAINDER OF PAGE LEFT INTENTIONALLY BLANK]

IN WITNESS WHEREOF, this Contract has been duly executed by the above-named parties, on the day and year above written.

STAFF REPORT
6/28/2023

TO: Honorable Mayor and City Council Members

FROM: Maritza Martinez, Public Works Director

SUBJECT: Greater Coachella Valley Chamber of Commerce March 2023 – June 2023.

STAFF RECOMMENDATION:

Receive and file the Greater Coachella Valley Chamber of Commerce Report for March 2023 – June 2023.

EXECUTIVE SUMMARY:

The City of Coachella has partnered with the Greater Coachella Valley Chamber of Commerce (Chamber), as a private business support organization within the City to provide professional services. The City renews the service agreement annually with the Chamber, which commemorates the services the Chamber will provide to the City each fiscal year. These services include supporting the City's economic development efforts by providing: business services, various community and city events, and further development of Coachella's tourism market.

This fiscal year the agreement was executed on November 9, 2022. The GCVCC has submitted their report of economic development and Chamber activities for the period of March 2023 – June 2023.

FISCAL IMPACT:

None.

GREATER COACHELLA VALLEY CHAMBER

STAFF REPORT
6/28/2023

TO: Honorable Mayor and City Council Members

FROM: Dr. Gabriel Martin, City Manager

SUBJECT: Resolution No. 2023-31 Approving Amendments to the City of Coachella Management Employee Compensation Plan

---

STAFF RECOMMENDATION:

Staff recommends that the City Council approve Resolution No. 2023-31 approving amendments to the City of Coachella Management Employee Compensation Plan; authorizing the City Manager to execute said Plan; and authorize the City Attorney to make non-substantive changes.

BACKGROUND:

On March 14, 2007, the City Council adopted Resolution No. 2007-11 approving the establishment of a comprehensive policy covering the compensation, benefits and employment status of specified "at will" management employees, referred to as the Management Employee Compensation Plan. The Plan was last amended by Council on September 8, 2021. A summary of the new terms are outlined below and included in the attached proposed Compensation Plan:

1. Salaries (Section 4)
   Employees will receive a 7% COLA effective 7/1/23; a 5% COLA effective 7/1/24; a 4% COLA effective 7/1/25; and a 3% COLA effective 7/1/26.

2. Retirement (Section 5A, 5D)
   Updated language. PEPRA rate increasing to 7.75% effective 7/1/23. City's contribution for retiree's medical premium remains at $647.00 for the term of the contract.

3. Health Insurance (Section 6A)
   Updated language. CalPERS renamed PERS Choice to PERS Platinum.

4. Administrative Leave (Section 6G)
   Updated language. Employees whose trackable hours show that they have worked 120 hours or more above their normal work schedule during the fiscal year will receive one hour of additional administrative leave returned to their leave bank for every hour worked in excess of 120 hours.

5. Holidays (Section 6H)
   Indigenous Peoples' Day (October 9) added to the paid holiday schedule.

6. Vacation (Section 6I)
   Updated language. Employees with 16 years or more of service may cash in up to one hundred sixty (160) hours of vacation annually (based on a fiscal year: July 1– June30).

7. Longevity Pay (Section 6L)
   Updated language. Employees with 20 years of service shall be eligible for 4% longevity pay.

ALTERNATIVES:

Do not approve the amendments to the City of Coachella Management Employee Compensation Plan.

FISCAL IMPACT:

The total fiscal impact to all funds for FY 23/24 is $80,450. The budget adjustment has been included in the FY 23/24 annual operating budget.

Resolution No. 2023-31
Proposed Management Employee Compensation Plan Agreement

RESOLUTION NO. 2023-31

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF COACHELLA, CALIFORNIA, APPROVING AMENDMENTS TO THE CITY OF COACHELLA MANAGEMENT EMPLOYEE COMPENSATION PLAN

WHEREAS, at its meeting of March 14, 2007, the City Council approved Resolution No. 2007-11, which established a comprehensive policy covering the compensation, benefits and employment status of specified "at will" management employees, referred to as the Management Employee Compensation Plan.

WHEREAS, the Plan was last amended on September 8, 2021, staff is recommending Council approve the following revisions:

1. Salaries (Section 4)
   Employees will receive a 7% COLA effective 7/1/23; a 5% COLA effective 7/1/24; a 4% COLA effective 7/1/25; and a 3% COLA effective 7/1/26.

2. Retirement (Section 5A, 5D)
   Updated language. PEPRA rate increasing to 7.75% effective 7/1/23. City's contribution for retiree's medical premium remains at $647.00 for the term of the contract.

3. Health Insurance (Section 6A)
   Updated language. CalPERS renamed PERS Choice to PERS Platinum.

4. Administrative Leave (Section 6G)
   Updated language. Employees whose trackable hours show that they have worked 120 hours or more above their normal work schedule during the fiscal year will receive one hour of additional administrative leave returned to their leave bank for every hour worked in excess of 120 hours.

5. Holidays (Section 6H)
   Indigenous Peoples' Day (October 9) added to the paid holiday schedule.

6. Vacation (Section 6I)
   Updated language. Employees with 16 years or more of service may cash in up to one hundred sixty (160) hours of vacation annually (based on a fiscal year: July 1– June30).

7. Longevity Pay (Section 6L)
   Updated language. Employees with 20 years of service shall be eligible for 4% longevity pay.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED by the City Council of the City of Coachella, as follows:

Section 1. Incorporation of Recitals. The City Council hereby finds and determines that the foregoing Recitals of this Resolution are true and correct and hereby incorporated into this Resolution as though fully set forth herein.

Section 2. Title. Adopt Resolution No. 2023-31, a Resolution of the City Council of Coachella, California, Approving Amendments to the City of Coachella Management Employee Compensation Plan.

PASSED, APPROVED and **ADOPTED** this 28th day of June, 2023.

DRAFT

CITY OF COACHELLA
MANAGEMENT
EMPLOYEE COMPENSATION PLAN

SECTION 1 - PURPOSE

To maintain a distinct and separate procedure for establishing the compensation of City of Coachella Management employees. The employees in this plan, as designated below, shall be compensated as set forth in this plan. The City Manager shall meet on an annual basis with management employees to discuss this plan. Employees in these groups may not be represented by any employee association which also represents employees who are not in these groups.

SECTION 2 - ACKNOWLEDGEMENTS

The City of Coachella recognizes the special responsibilities and demands placed upon its Management employees. The City also notes the necessity to compensate these employees appropriately in order to maintain a high caliber of top leadership and administrative support. At the same time, the City expects certain levels of performance in return for the compensation considerations.

SECTION 3 - MANAGEMENT EMPLOYEES

Employees in this Plan are exempt from the competitive service. Their appointments are at-will and incumbents serve at the pleasure of the City Manager. Employees in Group I direct one or more departments and employees in Group II serve in a deputy director level capacity to a Department Director or report directly to the City Manager.

Group I:	**Group II:**
City Engineer	Assistant Community Development Director
Director of Development Services	Controller
Director of Economic Development	Human Resources Manager
Director of Public Works	Public Information Officer
Director of Finance	Utilities Manager

Any other position that may be created within the Management Compensation Plan.

DRAFT

SECTION 4 – SALARIES

- The salary bands for Management positions shall be established and adjusted by the City Council upon the recommendation of the City Manager.

- The City Manager shall annually review the pay bands for Management employees and recommend cost-of-living or other changes when deemed necessary to the City Council. Such salary bands shall consist of a maximum and minimum salary.

- Any adjustment in salary, other than cost-of-living increases, for the eligible positions shall be approved by the City Manager and shall be subject to the determination by the City Manager that the eligible employee's overall level of documented performance is rated at the level of meritorious or higher.

- Performance evaluation of Management employees in Group I will be conducted by the City Manager and employees in Group II will be evaluated by the supervising Director or the City Manager if applicable. Performance evaluations will be conducted in writing annually or on the anniversary date of their appointment or other suitable date not exceeding one (1) year as determined by the City Manager.

- The City Manager may adjust the salary within the established band to reflect job performance.

- The salary band for positions subject to this Plan will be reviewed annually, based on changes in the labor market, internal equity and funds available for salaries.

- The salary schedule for employees covered under this Compensation Plan is attached as Appendi~~x~~ces "A-D".

    - Appendix A reflects a ~~three and one-half percent (3.5%)~~ seven percent (7%) cost of living adjustment effective July 1, ~~2021~~ 2023.
    - Appendix B reflects a ~~three and one-half percent (3.5%)~~ five percent (5%) cost of living adjustment effective July 1, ~~2022~~ 2024.
    - Appendix C reflects a four percent (4%) cost of living adjustment effective July 1, 2025.
    - Appendix D reflects a three percent (3%) cost of living adjustment effective July 1, 2025.

DRAFT

SECTION 5 - RETIREMENT

A. The City contracts with the California Public Employees Retirement System (CalPERS). Effective October 20, 2012, the City adopted a two-tier retirement plan:

- Employees hired prior to October 20, 2012 are covered under the 3%@60 CalPERS plan (First Level) and are on the one-year final compensation benefit plan. Employees under the 3%@60 CalPERS plan currently pay an 8% member contribution. This amount is set by CalPERS.

- Employees hired after October 20, 2012 are covered under the 2%@60 CalPERS plan (Second Level) and are on the three-year final compensation benefit plan. Employees under the 2%@60 CalPERS plan currently pay a 7% member contribution. This amount is set by CalPERS.

- Effective January 1, 2013, new employees are covered under the 2%@62 CalPERS plan (PEPRA) and are on the three-year final compensation benefit plan. Employees under the 2%@62 CalPERS plan currently pay a 6.75% member contribution, which increases to 7.75% effective July 1, 2023. This amount is set by CalPERS.

B. Effective July 1, 2019, employees under the 3%@60, 2%@60, and 2%@62 CalPERS plans agreed to pay an additional one percent (1%) of the City's share of their CalPERS pension contribution.

Effective July 1, 2020, employees under the 3%@60, 2%@60, and 2%@62 CalPERS plans agreed to pay an additional one percent (1%) of the City's share of their CalPERS pension contribution.

C. The City agrees to pay two dollars $2.00 per month per employee for their participation in the 1959 CalPERS Survivor's Benefit Program (Government Code Sections 21570 et seq.).

D. The City currently contributes the following towards an eligible retiree's CalPERS medical premium:
~~2021 - $614.65~~
~~2022 - $647.00~~
2023-2027 - $647.00 per month

DRAFT

SECTION 6 - BENEFITS

A. HEALTH, OPTICAL AND DENTAL INSURANCE

- The City shall provide major medical, dental and optical plans for employees in this plan and their dependents with the following premium limits:

- For employees choosing coverage, the City will pay no more than the cost of the premium for the PPO, PERS ~~Choice~~ Platinum health plan and the full premium for the dental and optical plans.

- For employees choosing to waive medical coverage, the City will allow a cash-in of up to the amount of the two-party premium for the PPO, PERS ~~Choice~~ Platinum health plan. An employee must submit a written request for payment and annual evidence of duplicate coverage. There is no cash-in for waiving dental or vision coverage.

B. SICK LEAVE

Sick leave shall be earned at the rate of ten (10) hours per month. The maximum accrual of sick leave shall be two hundred (200) days, two thousand (2,000) hours. Sick leave shall be used only for the employee's illness or disability or for an illness in the employee's immediate family. Misuse of sick leave shall be grounds for disciplinary action.

Notification of Sickness

1. To receive compensation while absent on sick leave an employee must notify his/her immediate supervisor in the manner provided for in departmental rules and regulations or as otherwise allowed by law.
2. When an employee requests sick leave, the City shall follow the guidelines outlined in SB 579 and all other applicable laws to determine whether a doctor's note will be required.

Family Sick Leave

1. In the case of an illness of a member of the employee's immediate family, the employee, upon submission of proper notice, may take up to one-half of his/her annual sick leave accrual (60 hours) per year for family sick leave.
2. Immediate family for the purpose of this section shall be defined as spouse, mother, mother-in-law, father, father-in-law, sister, sister- in-law,

DRAFT

brother, brother-in-law, child, stepchild, guardian, stepfather, stepmother, registered domestic partner, grandparents or grandchildren.

3. Family sick leave shall be deducted from the employee's accumulated sick leave.

Return from Sick Leave

Upon return from sick leave, an employee may be required by the City Manager or Department Head to report for an examination by a City selected medical examiner to determine his/her fitness for duty.

Cash Out: Termination of Employment

1. Death: 50% of accrued sick leave
2. Discharged: None
3. Layoff: 50% of accrued sick leave
4. Resignation: None
5. Retirement: 50% of accrued sick leave

Cash Out: Annual

Employees have the option of accruing all of their yearly sick leave or being paid for it in accordance with the following provisions:

1. Provisions for the payment of unused sick leave shall be based on a fiscal year basis (July 1 to June 30).
2. Employees may cash in, convert to vacation, or accrue one-half (1/2) of their annual unused sick leave hours at the end of each fiscal year. If neither of these options is exercised, the unused sick leave will be accrued.
3. The cash in of sick leave shall be based on an employee's hourly rate as of June 30, except for retirement or layoff.
4. Upon retirement, employees shall be paid in accordance with the same schedule provided for at termination of employment and shall be computed at the employee's hourly rate of pay at the time of separation.

C. BEREAVEMENT LEAVE

1. In case of a death in the employee's immediate family the employee, upon submission of proper notice, may take up to three (3) consecutive work days of bereavement leave. Bereavement leave shall not be deducted from an employee's accrued sick leave.

DRAFT

2. Immediate family is defined as spouse, mother, mother-in-law, father, father-in-law, sister, sister-in-law, brother, brother-in-law, child, stepchild, guardian, stepfather, stepmother, registered domestic partner, grandparents and grandchildren.
3. The City may require an employee to submit evidence of the relationship to the employee and the death of the immediate family member.

D. LIFE INSURANCE

All employees covered by this agreement shall be covered by a life insurance policy in the following coverage amounts: Group I - $250,000 and Group II - $150,000. The City shall pay the premium.

E. SHORT AND LONG TERM DISABILITY INSURANCE

Employees shall be covered by long-term and short-term disability insurance plans. The City shall pay the premium for both policies.

F. DEFERRED COMPENSATION PLAN

The City shall maintain a deferred compensation plan and participation in the plan is voluntary. The City does not match funds.

G. ADMINISTRATIVE LEAVE

Employees shall be granted twelve (12) days administrative leave per year on July 1. Administrative leave may be prorated for employees hired after July 1. Use of administrative leave is subject to City Manager approval. Employees shall be allowed to cash in sixty (60) hours of administrative leave per year.

Employees whose trackable hours show that they have worked 120 hours or more above their normal work schedule during the fiscal year will receive one hour of additional administrative leave returned to their leave bank for every hour worked in excess of 120 hours.

H. HOLIDAYS

1. The following days shall be considered holidays with pay:
    - New Year's Day
    - Martin Luther King's Birthday
    - President's Day
    - Cesar Chavez's Birthday
    - Memorial Day

DRAFT

- Juneteenth
- Independence Day
- Indigenous Peoples' Day
- Labor Day
- Veterans' Day
- Thanksgiving Day
- Christmas Eve
- Christmas Day
- New Year's Eve

2. If a holiday falls on a Saturday it will be observed on the preceding Thursday. If a holiday falls on a Sunday it will be observed on the following Monday.

3. Floating Holidays:
In lieu of three (3) former holidays (Lincoln's Birthday, Admission Day, and the day after Thanksgiving), three (3) floating holidays will accrue to employees on July 1 each year. Floating holidays earned in a fiscal year and unused as of June 30, shall either be cashed out or converted to vacation and carried over to the next fiscal year at the employee's option.

I. VACATION

Vacation shall be earned as follows:

1. During first 12 months service - 12 days per year.
2. 2nd year through 5th year of service - 18 days per year.
3. 6th year through 10th year of service - 21 days per year.
4. 11th year through 15th year of service - 25 days per year.
5. 16th year through 20th year of service - 30 days per year.
6. Over 20 years of service - 40 days per year

Vacation schedules must be submitted to the City Manager or Department Head for approval. Vacation may only be taken in increments of full days or shifts unless specific approval is given for smaller increments of not less than four (4) hours.

DRAFT

Vacation hours may be accrued up to the amount earned over 24 months, provided that the employee has used a minimum of eight (8) days of vacation annually (July 1 - June 30).

Cash Out: Vacation

Subject to filing an official request, an employee may cash in up to eighty (80) hours of vacation annually (based on a fiscal year: July 1-June 30). Employees with 16 years or more of service may cash in up to one hundred sixty (160) hours of vacation annually (based on a fiscal year: July 1-June 30).

J. CITY VEHICLES

Employees may be provided City vehicles subject to the determination of the City Manager that the vehicles are necessary for use in the performance of their job duties.

K. CAR ALLOWANCE

Employees in Group I will receive a car allowance in the amount of $100.00 per week.

L. LONGEVITY PAY

City Management employees shall be eligible for longevity pay above the base rate of pay, as indicated below, based on total hours of completed continuous* service with the City. Longevity pay shall be paid on all paid hours up to an employee's standard hours and shall not be considered when determining the appropriate rate of pay for a promotion or demotion.

~~Longevity payments will be effective July 1, 2022.~~

TOTAL COMPLETED SERVICE	COMPENSATION
31,200 Continuous Service Hours (15 years)	2%
41,600 Continuous Service Hours (20 years)	4%

*For purposes of this section, continuous service hours includes periods of service from the initial date of hire through an employee's severance with the City in specific instances when the City initiates lay-off actions for economic reasons and

DRAFT

the employee was subsequently re-hired. Additionally, part-time service hours are excluded from the calculation of continuous service hours.

M. TUITION REIMBURSEMENT

The City will reimburse employees 50% of tuition for continuing education in non-job related courses and 100% of tuition for classes in job related courses. Payment is predicated on an employee receiving a 2.0 grade or better. The cost to the City for the education reimbursement shall not exceed $5,000 per employee per fiscal year. Requests for educational reimbursement must be submitted and approved by the City Manager prior to enrolling in a course. Requests for reimbursement of professional training or professional licenses must be approved by the City Manager.

N. MEDICAL FLEX PLAN

The City will provide and administer an "employee benefits plan" for medical expenses pursuant to Section 125 of the Internal Revenue Service Code. Participation in the plan is voluntary. The annual deduction is determined by the Internal Revenue Service.

O. SEVERANCE BENEFITS

The City Manager shall authorize the payment of up to 120 calendar days for Group I and up to 90 calendar days for Group II of base salary in effect at the time and benefit payments upon separation from City service if not for cause. If such severance compensation is approved, it shall be paid in addition to any accrued leave otherwise payable to the employee.

P. JURY DUTY

An employee who is summoned for attendance to any court for jury duty during his/her normal working hours shall be deemed to be on duty and there shall be no loss of salary. Any jury fees received by an employee shall be paid to the City.

Compensation for mileage or subsistence allowances are not considered as a fee and shall be retained by the employee. Any employee who is called as a witness arising out of and in the course of his/her City employment shall be deemed to be on duty and there shall be no loss of salary. Any witness fees received by an employee shall be paid to the City together with any mileage received by the

DRAFT

employee if he/she uses City transportation. An employee absent as a witness in a private matter shall not be entitled to be paid during such absence.

Nothing herein shall be deemed to affect the right of the City Manager to discuss with an employee the possibility and practicability of seeking an exemption or excuse from jury duty or as a witness as may legally be available, when absence by the employee would create undue hardship for the employee or his/her department, or would materially affect required service to the public.

STAFF REPORT
6/28/2023

TO: Honorable Mayor and City Council Members

FROM: Anahi Fernandez, Management Analyst

SUBJECT: City of Coachella Resident Engagement Academy

STAFF RECOMMENDATION:

Staff recommends that the City Council authorize establishment of a Resident Engagement Academy for the City of Coachella and provide staff feedback.

BACKGROUND:

The City of Coachella General Plan encourages active community engagement with City of Coachella residents as a "high priority" with a short implementation timeframe of 2 to 4 years after Plan adoption. The General Plan encourages the City to work with partner agencies to create minimum protocols for community outreach and engagement processes for different types of municipal decisions so community members can easily learn about input opportunities and know how to best contribute in the City.

In 2013, the City of Coachella participated in the "Coachella Civic Engagement Academy" (CCAE), which was a conceptual product that resulted from a 1-year collaboration between the City and partner organizations working on the City's General Plan Update. The CCAE focused on developing a system of community empowerment in the City, while also bridging traditional gaps between community and government. Although the concept was not implemented, the main purpose of the CCAE was to:

1. To create a space where community members can have an opportunity learn about decision-making processes, local government functions and operations, and their impact on the public's health, and
2. To develop an avenue for the City of Coachella's leadership to communicate its roles and functions and to raise an objective awareness of civic participation's barriers.

DISCUSSION/ANALYSIS:

The establishment of a Resident Engagement Academy in the City of Coachella is fundamental as it plays a key role in the implementation of the City's General Plan and has been in the works for the past 10 years. The academy is set to be an interactive civic education program for Coachella

residents that will develop an avenue for the City to communicate its roles and functions and increase civic engagement in the City. The goals and purpose of the Resident Engagement Academy are as follows:

1. Inform the community regarding city government and the decision-making process
2. Provide residents with input opportunities
3. Teach residents how they can contribute to the City
4. Generate active citizens with a sense of belonging

The Resident Engagement Academy would be scheduled to start in the fall of 2023 with a group of up to 25 Coachella residents. Outreach would begin in the Summer through the City's social media platform and flier postings in both English and Spanish. The following Academy modules are proposed and were identified discussion between local nonprofit, county and local government entities:

1. History of Coachella
2. Parks and Recreation
3. Wastewater and Water Utilities
4. City Finances
5. Land Use Planning/Building and Safety
6. Engineering and Streets
7. Community Health and Wellness
8. Community Engagement.

City Directors and Managers would facilitate each module based on their discipline, which will include a presentation and interactive group activity. At the conclusion of the Academy, participants would be presented with certificates at a closing ceremony in recognition of their participation. Staff has communicated with the Riverside University Health System to provide evaluation services for the program to determine the program's effectiveness in increasing civic engagement and awareness of City government.

Staff seeks additional feedback and direction from the City Council in the implementation a Resident Engagement Academy in the City.

FISCAL IMPACT:

The provision of meals is budgeted for each Academy meeting in the Fiscal Year 23-24 budget for the Development Services Department. The program is designed to minimize the use of City resources and will be hosted in the conference rooms of the Coachella Library.

Coachella Civic Engagement Academy

Final Project

The California Leadership Academy for the Public's Health

February 21, 2013

Eastern Coachella Valley Team:
Cristina Mendez , Community Worker, California Rural Legal Assistance
Gabriel Perez, Senior Planner, City of Coachella
Karen Borja, Community Organizer, Inland Congregations United for Change
Miguel A. Vazquez, AICP Healthy Communities Planner,
Riverside County Department of Public Health

Coachella Civic Engagement Academy

Background

The Coachella Civic Engagement Academy (CCEA) is the conceptual product that resulted from 1-year collaboration between a selected group of individuals from partner organizations working on the City of Coachella's General Plan Update. The organization and participants are:

- California Rural Legal Assistance—Cristina Mendez[1], Community Worker
- City of Coachella—Gabriel Perez, Senior Planner
- Inland Congregations United for Change—Karen Borja, Community Organizer
- Riverside County Department of Public Health—Miguel A. Vazquez, AICP Healthy Communities Planner

This team came together through an invitation from The California Endowment to participate in the California Leadership Academy for the Public's Health (CaLAPH)—a project of the Center for Health and Leadership & Practice. The CaLAPH is designed to "develop a multi-sector and trans-disciplinary network of transformative change agent leaders in California. These leaders will have the commitment and capacity to lead the policy, systems, and community change needed to improve community health and health equity in California".

After much brainstorming, debate and coaching, the team decided to focus its attention on developing a system of community empowerment. The Coachella Civic Engagement Academy is the first attempt to bridge traditional gaps between community and government. The main purpose of the CCAE is twofold:

1. To create a space where community members can have an opportunity learn about decision-making processes, local government functions and operations, and their impact on the public's health, and
2. To develop an avenue for the City of Coachella's leadership to communicate its roles and functions and to raise an objective awareness of civic participation's barriers.

[1] Cristina Mendez is no longer in the position as a Community Worker for the California Rural Legal Assistance but is still providing support for the CCEA project.

Introduction

This report identifies a framework for a Coachella Civic Engagement Academy (CCEA) as a vehicle to provide residents with opportunities and resources to increase civic engagement in the City of Coachella. For the purpose of this project, civic engagement is defined as "activities such as voting, participating in community meetings, volunteering and membership in community associations". To this end, a key component for towards civic engagement is the existence of a capacity building system that supports bilateral education and awareness between local government and community at large. Based on our collaborative experience our team identified the lack of civic engagement in the City of Coachella as a major barrier in addressing health disparities not only in the City, but also throughout communities located in the eastern part of the Coachella Valley. We believe the lack of civic engagement is largely attributed to structural barriers and demographic characteristics in the City of Coachella. Civic engagement is essential for healthy communities since there are major decisions made in the public interest by local agencies. Healthy communities are created by residents that are active in local government and engage in the decision that take place in their communities. The primary focus of our project is the City of Coachella as the responsible agency for local decision-making and is where many structural barriers to civic engagement may be encountered.

The City of Coachella is 96% Latino, low-income, largely Spanish-speaking with a low level of educational attainment. Research indicates that individuals with higher levels of education tend to be more civically engaged.[2] In the 2012 November elections, the voter registration numbers were considerably different between the City of Coachella and the nearby City of Palm Desert, of comparable population size. In the November 2012 Presidential election, there were 25,044 registered voters (51% registered) in Palm Desert with a total population size of 48,445, compared to 9,795 registered voters (24% registered) in the City of Coachella with a population size of 40,707. Voter turnout in the November 6, 2012 Presidential election showed a turnout of 5,883 people or 60% for the City of Coachella compared to a turnout of 20,136 or 80% for the City of Palm Desert. In Coachella 55% of residents have less than a high school education compared to 10.8% in the nearby City of Palm Desert with a similar population size. Since there is a positive correlation between educational attainment and civic engagement, we may be able to conclude that the City of Coachella may also have the lowest level of civic engagement in the Coachella Valley since it also has the lowest level of educational attainment.

[2] Verba, S., Scholzman, K.L., and Brady, H (1995) "Voice and equality: Civic Voluntarism in American Politics." Harvard University Press.

The per capita income in the City of Coachella is considerably low at $11,685, versus $40,784 in the City of Palm Desert. Higher economic inequality leads to less trust and in turn lower rates of volunteering.[3]

In Coachella 88.4% of residents speak Spanish at home and 43.4% Speak English less than "very well." In the City of Palm Desert only 7.9% of residents speak English less than "very well." This means that nearly half of Coachella residents are at a distinct disadvantage since the official business at the local, county, state and national level is conducted in English. The City Council and Planning Commission meetings are conducted primarily in English, though translation services are available to residents on an as needed basis. All documents related to items for consideration by these decision-making bodies are largely printed in English. All Zoning and General Plan documents that include all standards and policies in the City are all printed in English. Since nearly half of the residents of the City of Coachella do not Speak English very well, many may be disengaged since they do not understand the language in which official business is conducted and they do not understand dominant cultural norms.

Research indicates that greater civic knowledge among residents leads to support for democratic values, promotes political participation, and builds trust in government and elected officials.[4] The less connected and involved residents are in the local political process, the less likely they are to be able to influence decisions that are made about their communities and can lead to disenfranchisement. Civic knowledge helps residents understand their interests as individuals and as members of groups. The more knowledge residents have the more readily they can connect with and defend their interests in the political process.[5]

The Eastern Coachella Valley CALAPH group decided that a civic engagement academy would serve as a way to address structural barriers and demographic challenges to civic engagement in Coachella. Civic engagement academies have been implemented in other local jurisdictions in Southern California such as the cities of Chula Vista and Riverside to increase civic engagement. These academies provide a group of residents selected for the academy with knowledge about the operation of local government and important local issues.
The Coachella Civic Engagement Academy is designed to lead to the following outcomes:

1. **Residents are comfortable to participate in local government decision-making.**
2. **Residents understand how their City government functions.**
3. **Residents can clearly communicate how City of Coachella operates.**
4. **Resident are more civically engaged.**

[3] Uslaner, Eric and Brown, Mitchell (2005) "Inequality, Trust, and Civic Engagement" Sage Publications.
[4] William A Galston, "Civic Education and Political Participation," Political Science Online, April 2004.
[5] Ibid.

5. **Residents understand the connection between City government and its impacts on public health.**
6. **City leaders are able to communicate the functions of the local government and City departments clearly.**
7. **City leaders are more aware of barriers to local civic participation.**

Discussions between local nonprofit, county and local government entities have led to a consensus of the topics that would shape the curriculum for the academy. We believe the Coachella Academy would be unique since it involves collaboration and exchange between government and community organizations. These topics for the Academy would include the following:

1. **History of Coachella**
2. **Parks and Recreation**
3. **Wastewater and Water Utilities**
4. **City Finances**
5. **Land Use Planning/Building and Safety**
6. **Engineering and Streets**
7. **Community Health and Wellness**
8. **Community Engagement.**

Structure of the Coachella Civic Engagement Academy

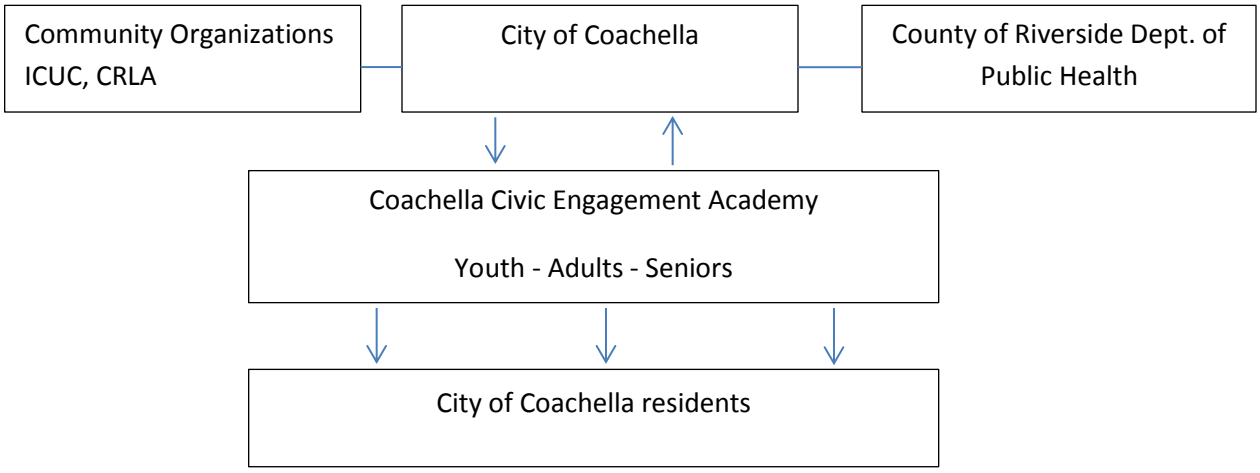

Figure 1: The CCEA is envisioned as a cyclical process with the agency partners providing logistical support and information sharing with academy participants. It is expected that the groups will also learn from the CCEA participants. The participants will be equipped to share information from the CCEA with other residents. The expected outcome is increased civic engagement, including more resident interest in local elected office and more participation in City commissions and/or community organizations.

Coachella Civic Engagement Academy

Topic 1: HISTORY OF COACHELLA

Purpose: To share the informational history of the City of Coachella (when the city was first settled, who settled it, where did the name come from, who was here, how big was the city with people and land, who has lived here, our incorporation and why, 2-3 social movements, our political history).

Session leader: CALAPH Member

Guest presenters: Librarian of Coachella, former political leaders [Mayors, council members, Union Organizers, organizers], elders, maybe even the mayor.

Agenda:

1. How long have you lived in Coachella? [one important change since you've started living here?]

2. Introduction to the CCEA and sharing of the information and expectations for the program.

3. Presentation of History of the City of Coachella by invited guest such as librarian or former councilmembers. Other guests can share social change experiences in the City, and a union representative or organizer to share experiences of social change and the relevance of those experiences to the lives of the community presently. City of Coachella will share archive of historical photos. Participants will be asked to share historical photos they own that they would like to share with the group. Invite guest speakers to add on to any historical research.

4. Questions & Answer section

5. (Next Steps) What is the Coachella legacy you want to leave behind? [Visioning]

6. **Group Task**: Identify an upcoming City public meeting to attend.

Topic 2: PARKS AND RECREATION

Purpose: To share information on the operations of the Parks and Recreation division and other park and recreation providers. The session will discuss the latest improvements and challenges for the City Parks and Recreation division. The session will also discuss the impact of parks and recreation on creating positive community health outcomes and the role community members can play in improving parks and recreation opportunities.

Guests: Maritza Martinez (Public Works Director), Steve Salado (Parks and Recreation Superintendent), Community Organization Member, City of Coachella Parks and Recreation Commissioner, Sports League representative

Other Parks and Recreation stakeholders:
Public Works Dept., City of Coachella Parks and Recreation Commission, Desert Recreation District, Coachella Senior Center, Baseball Leagues, Football and Soccer Leagues, Youth Clubs and Organizations.

Activity: Field Trip

Agenda:

1. **Introduce** members to existing and planned community parks and spaces.
    a. Number of parks
    b. City and State Park Standards
    c. Map of existing public facilities.

2. **Inform** residents of the list of recreational organizations listed in the City's web-site, and add additional programs that may not be listed. Ask if any group is missing in the list of players/participants in this department?

3. **Discuss** the Department's budget, the source, and financial responsibilities.

4. **Field Trip**: Visit up to two parks with City staff (Bagdouma Park and Rancho Las Flores)

5. **Evaluate** the current programs and lists to see if they're responsive to the community's leisure, physical, cultural, and social programs needs.
    a. Such as an enclosed facility in the summertime and what are the possible ways to make it happen
    b. Discuss ways in which residents and city department can better promote safety, preservation of park space, graffiti abatement, etc.

Topic 3: WASTEWATER AND WATER AGENCIES OF COACHELLA

Purpose: Share information on importance of the Wastewater and water agencies of the City of Coachella including customer usage information [importance of water and water for our community, how many people do water business with Coachella, what parts of the city have water lines/pipes/etc., water history- infrastructure/managing/pricing etc.]

Session leader: CALAPH Member

Guest: City employees- Utilities Manager, City Manager, city employees that work at the plants and read meters etc.,

Activity: FIELD TRIP to City of Coachella Wastewater Treatment plant

Agenda:

1. Intro Question: How many of you know what it takes to get water to your faucet?
2. **TAKE FIELD TRIP**!
3. Invite guest speakers to add on to any research. Where our water comes from; the difference between having a municipal water agency and privatizing; little known facts about City operations that residents may be interested; the cost to keep the water facilities in operation; Individual resident responsibilities with household services and the do's and don'ts; history of water for the City; how clean drinking water is secured for the City.
4. Costs of water and wastewater operation and their relationship to household utility charges.
5. Questions & Answer section
6. (Next Steps) How does water protect our City? [Visioning]

Topic 4: CITY OF COACHELLA FINANCE DEPARTMENT

Purpose: Share with people the reasons to understand city finances and budget in order to have a realistic perspective of what can be achieved through means of the city and what cannot. Share community issues such as water and how the budget is affecting water rates.

Session leader: CALAPH team member

Guests: Bill Pattison (City Finance Director), Council Member, David Garcia (City Manager)

Agenda:

1. **Intro Questions:** Where do you think most revenue for the city is generated from? Where do you think the least amount of revenue is generated?

2. **Interactive Activity**: Each person is designated as their own Finance Director for their own imaginary City and is provided with a designated amount of funds and responsible creating a budget for determining how the funds will be distributed for City's service obligations. Each person will share their budget and their experiences.

3. Invite City Finance Director to share with the community a simple version of the city budget, how to understand it, where to find it. Ensure that people are aware of how revenue comes into the city and how money must be spent. Share with people the biggest expenditures and why they have to be set up in a city as large as Coachella. Inform people of those who with the responsibility to organize the budget and important dates.

4. **Questions and Answer**

5. **Next Steps**: How can city residents participate with the city in creating the next budget?

Topic Area 5: Land Use, Planning and Building and Safety

Purpose: To inform residents of the Land Use, Planning, Building and Safety responsibilities of the City of Coachella. Residents will learn about the development process in the City and how the built environment impacts the financial and public health of the community. Residents will also learn about the avenues to participate in these processes and discuss ways to improve community engagement in these efforts.

Session Leader: Planning Division, Building, and Code Enforcement

Location: City Hall

Agenda:

1. **Community Activity**- (Break out into groups with a map)
    1. Identify the things that are the most positive in your community.
    2. Identify the things that you view as negative or as challenges.
    3. What is your vision on how Coachella will grow in the next 20 years?

2. **Why is Planning Important? Staff Presentation on Planning and Building Operations**
    1. Police Power over the Use of Land
    2. Stakeholder map- City Council, City Staff, residents, businesses, developers
    3. Planning History
    4. Planning Documents- General Plan and Zoning Code
    5. Zoning in the City
    6. Code Enforcement
    7. Identify important Planning Issues
    8. Planning Trends- Smart Growth, Health, Art in Public Places
    9. Costs of operations and revenues from Planning services.

3. **Community Participation:** Discussion

4. **Question and Answer**

Topic Area 6: Engineering and Streets

Purpose: To provide information on the role of the Engineering Department on the operation and safety of streets and transportation system in the City of Coachella. To share City plans to create complete streets and provide opportunities for all modes of transportation.

Session Leader: Engineering Dept and Public Works Department, Sunline Transit Agency, Riverside County Safe Routes to School representative.

Location: City Hall

Activity: Walking Audit (Downtown 6th Street)

Agenda:

1. **Walking Audit (Identify Location)**
    a. Identify Safety hazards
    b. Identify barriers for automobiles, pedestrians, and bicycles
    c. Wrap-Up with identified solutions

2. **Presentation by City Engineer**
    a. Engineering Operations
    b. Planned Projects
    c. Capital Improvement Projects
    d. Complete Streets
    e. Safe Routes to School

3. **Question and Answer**

Topic 7: Community Health and Wellness through prevention

Purpose: To understand the local efforts to improve health outcomes including the City's new Community Health and Wellness Element. The session will also identify the importance of healthy living in Coachella at a City-wide, neighborhood, family, and individual level.

Session leader: CALAPH Member

Guest: Riv Co. Mental Health Official, Riv Co, Nutritionist

Activities.

1. Cooking a healthy meal in a group
2. Conduct a group physical activity that all participants can do together
3. Review health-related maps from the City of Coachella's Health and Wellness element

Agenda:

1. **Happiness**. Define happiness and discuss how happiness makes us healthy and vice versa

2. **Healthy habits begin at home**. Discuss ways to stay healthy at home
    a. An agent of healthy behavior. Discuss how our behavior can influence our neighborhood.
    b. Discuss Creativity as a method to influence healthy behaviors.

3. Discuss Health Conditions in the City of Coachella

4. Discuss the City of Coachella's Health and Wellness Element

5. **The Food Environment**. Discuss food value in terms of costs and nutrition

6. **Physical Activity**. Discuss the value of embedding physical activities throughout the day. Take this opportunity to discuss building physical strength and value for cardiovascular health.

7. **Healthy in Coachella**. Discussion.
    a. What does it mean to be healthy in Coachella
    b. How can the City of Coachella help provide opportunities for healthy living?

c. How does health link to the other topics of this academy?

Topic 8: COMMUNITY ENGAGEMENT

Purpose: Showcase the various options participants have in getting involved and creating change after the academy. Talk more about commissions that exist and explore which others could be developed and how. Also talk about the power voting can have in civic participation, and explore other means of participation.

Session Leader: CALAPH Team Member

Guest: Organizations that engage residents in the community, City Commission members

Activity: Community organization fair.

Agenda:

1. **Leading Question**: Have you ever been a part of a group or committee in your city, neighborhood, school? If you could create a committee with people to do one thing in the City of Coachella, what would that committee be?

2. Invite guest to set up tables/panel, to have participants learn the different work the organizations are engaging in currently.

3. **Questions, comments, evaluation**

4. **Next Steps**: What commission/organization are you committed to perfroming 10 hours of community service with?

CCEA LOGISTICS

The Coachella Civic Engagement Academy will be hosted primarily at Bagdouma Community Center. There will be activities that lead participants to other locations such as city hall, the corporate yard, or the water treatment plant; all within city limits.

The team will invite people who are known to have shown interest in civic participation; the team will make those specific invitations through one to one conversations. Current city commission members will be highly sought after and invited specifically as well. Still, a simple application is to be available to all city residents- the program will only be accepting twenty-five participants for the first academy. A clear goal is to insure a successful academy promotes new and varied residents to participate in the forthcoming academies.

Due to the large Spanish- monolingual population of the City of Coachella, the academy will be bilingual with the aid of translators and translation equipment. Sessions, no longer than four hours at a time, will be held on 8 Saturdays over a period of 2 months. Once the academy cycle has come to a close, a graduation ceremony will be hosted at a local city council meeting. Participants will be recognized by the council and presented with a “City of Coachella” pendant. At the ceremony, participants will share where they will be investing their ten hours of community service following the academy to the community.

The academy team will have to also plan roles that will be on going throughout the academy and a budget that includes printing, food, speakers, possibly gas. The different ongoing roles anticipated are of timekeeper, discussion moderator, welcome crew, set-up crew, phoning and/or email lead. There is the strong possibly that these roles be filled with academy team members for starters and later developed as leadership roles for the participants.

EVALUATION

Purpose: In order to build a genuine relationship and bridge between community residents, and City representatives and structures, we hope to better understand which sessions and information in this Civic Engagement Academy are of most use and interest to you as a City of Coachella resident and participant. We hope this feedback will let us see if we're building bridges, thus, accomplishing our goal and the opportunity to improve as we learn together. We provide a few sample questions to serve as conversation starters and to be discussed in a group setting in order to learn from each others' learning experiences and evaluation. Also, we want to give everyone the opportunity to share your ideas, comments and suggestions in an individual and private manner.

Leader: Community Organization Leader, Mayor, City Council Member, and/or City Commission Member

Group Evaluation:

- What information topic was most useful to you?
- What data have you been able to utilize in your personal life?
- Do you have a better understanding of how decisions are made in your community?
- Are there any suggestions for the Community Engagement Academy Team for the next session?
- How many of you attended council meetings, wrote letters, and/or made phone calls to inquire or learn about a situation in the city?
- How many of you volunteered service hours to any group/organization in the community?
- How many of you would recommend the academy to your peers or neighbors?
- Do you have people in mind who could benefit from this learning experience?

Individual Evaluation:

- What part of the Program was most useful to you? What activity did you learn from the most?
- What suggestions do you have? What areas can we improve on?

12 | IMPLEMENTATION ACTIONS

IMPLEMENTATION PROGRAM

For some topics in this General Plan, the new adopted policies are sufficient to realize certain goals. However, most goals will require additional implementation actions to help make those operational. This section ties together the goals and policies in the General Plan. The following pages contain actions organized under each of the General Plan Elements (except for Housing) to realize the vision for Coachella's future. These are generally one-time actions needed to mobilize and execute specific policies within the General Plan, such as creating an ordinance or updating a master plan. The actions are in the following order:

1. Land Use + Community Design (LU)
2. Mobility (M)
3. Community Health + Wellness (CHW)
4. Sustainability + Natural Environment (SNE)
5. Safety (S)
6. Infrastructure + Public Services (IPS)
7. Noise (N)

MATRIX ORGANIZATION

In the matrix that follows, each implementation action includes the following information:

#	ACTION DESCRIPTION	PRIORITY	TIME FRAME	RESPONSIBILITY	RELEVANT GOALS
Each action is numbered as a comprehensive list for each element	An actionable description of the implementation action. Some actions include end-note references to supportive background material or example projects.	Action items are marked as "High", "Medium", or "Low" depending on community and staff input throughout the process. Some of the criteria that helped determine priority included: • Cost. • Feasibility. • Whether the action would help engage and empower residents. • Whether action could improve or enhance existing programs/infrastructure (instead of create something new).	A broad timeframe that refers to when the action should be implemented. The timeframes are as follows: • Immediate – Current/ongoing projects or within one year of Plan adoption. • Short – Within 2 to 4 years of Plan adoption. • Medium – Between approximately 5 and 7 years of Plan adoption. • Long – 10+ years after Plan adoption. • Ongoing – Reoccurring or immediate action.	Identification of the agency or department responsible for implementing the action.	List of goal(s) that the action item will help implement. Goals will be listed with the Element title acronym and the goal number. For example an action that implements Goal 3 from the Land Use + Community Design Element and Goal 2 from the Community Health + Wellness Element, this column would contain "LU-3, CHW-2".

COMMUNITY COLLABORATION

Coachella is a smaller city, with big ideas and a clear vision of its future. The City staff and elected officials welcome and encourage community organizations, the business community, other public agencies, neighborhood groups and passionate individuals to help implement many of these actions. The City and community members have endorsed all of the action items below. While, some items are marked as "low" priority, that should not preclude any partner organization or individual from making it a "high" priority in their own work in collaboration with the City.

LAND USE + COMMUNITY CHARACTER (LU)

#	ACTION DESCRIPTION	PRIORITY	TIME FRAME	RESPONSIBILITY	RELEVANT GOALS
1.	**Zoning ordinance update.** Following the adoption of the General Plan, update Coachella's Zoning Ordinance. The City Council and planning staff should explore and/or modify the following items in addition to others in line with the Plan's vision. The zoning consistency analysis can be found in Appendix C. • Update the zoning code and official Zoning Map to comply with and implement the General Plan Designations and General Plan Designation Map. • Update the zoning code to encourage creative leisure and recreational uses in transit accessible and walkable areas. • Create a park once district. • Establish climate-appropriate, design guidelines that recommend best practices for passive heating and cooling in Coachella's climate. • Develop an incentive program that will assist developers in revitalizing existing structures. • Develop an incentive program to encourage and assist developers to develop along transit routes and to revitalize existing structures. • Create bicycle parking and storage requirements for all new development (or remodeling/rebuilding to the extent feasible) to cover a broad range of bike parking needs, including parking in multi-family residential dwellings, employee parking for commuters and general purpose parking in commercial areas, civic facilities and parks. Collaborate with the School Districts to provide adequate bicycle parking facilities for students and staff. • Require a certain proportion or number of units in each residential development to include universal design elements, ensuring easy modifications to accommodate wheelchairs. • Establish community gardens in appropriate locations and set forth basic regulations for community gardens, such as creation, maintenance, and operating rules. • Allow food gardening by right in residential open space areas, including front, back, and side yard space. • Prevent schools and other sensitive receptors from locating near known or expected new sources of air pollution and vice versa. The specific "safe" distance from a pollution source is dependent on the source and amount of pollution releases; however, a good rule of thumb is at least 500 feet from busy roadways, highways, and stationary sources. • When permitting new child-care facilities, require them to submit a customized, or adopt a standard, wellness policy plan to address physical activity programs, interdisciplinary nutrition education and provide meals and snacks that are consistent with current guidelines established by the US Department of Agriculture. • Allow physicians and other medical providers to convert foreclosed or other vacant residential structures into neighborhood health clinics. The City may set restrictions (such as hours of operation, parking, signage, and services offered) to ensure the clinic is not a burden to the neighborhood. • Strive for and encourage all new health and social service facilities to be transit-accessible and pedestrian-friendly. Work with Sun Line to improve transit routes and Sun Dial (Dial a Ride) access to service related facilities. • Encourage the co-location of medical healthcare, mental/behavioral health and social services to increase access to care. • Update development standards and/or create a development checklist to incorporate climate change adaption techniques into the development process. • Establish minimum tree planting requirements and guidelines for different sub areas, development types, street trees and parking lot landscaping to ensure the City's urban forest/tree canopy is extensive and well maintained. These requirements should also address drought tolerant and native plants and landscaping to reduce overall water usage. • Allow and encourage the creation of legal accessory dwelling units (ADUs) to enhance the diversity of housing options in existing residential neighborhoods. ADUs may be detached or attached to the principal structure. • Require below market rate units to come in a mix of sizes/number of bedrooms to address the need for affordable housing for different household types. • Require developers/contractors to recycle at least 50 percent of all construction and demolition waste. • Allow and incentivize renewable energy and energy efficiency technologies. • Identify and remove regulatory or procedural barriers to implementing green building practices within the City, such as updating codes, guidelines and zoning, and ensure that all plan review and building inspection staff are trained in green building design practices and techniques. • Identify appropriate buffers between agricultural and urban uses. • Develop standards to provide for cluster development and conservation design to minimize the impacts of urban development on areas where sensitive species are identified. • Identify standards for green roofs. • Create guidelines/requirements for permeable paving. • Expand allowances for home occupations/businesses in residential areas. • Reduce parking minimum requirements in projects where the developer conducts a traffic study to determine that unbundled parking and other measures will reduce the number of spaces required per unit.	High	Short	Planning	LU-1 LU-2 LU-3 LU-5 M-1 M-4 M-7 CHW-5 CHW-8 CHW-9 SNE-1 SNE-2 SNE-4 SNE-5 SNE-9 SNE-11

2.	**Design guidelines update.** Update the City's design guidelines to encourage human-scale urban design at the neighborhood-, block-, and building-scale to promote walkability and social interaction. Elaborate and expand upon the contents of the Land Use + Community Design and Mobility Elements. Guidelines should specify how development along existing and planned transit lines should provide convenient, direct and safe connections to nearby transit stops and integrate transit stops into public space designs.	Medium	Medium	Planning Engineering	LU-2, LU-3 LU-5 LU -6
3.	**Healthy development review.** Work with the Riverside County Department of Public Health to create a development review process to analyze the health and social equity impacts of development proposals prior to the beginning of the CEQA review process. This could include the creation of a checklist that includes a key set of high priority questions related to how the project affects the food, recreation, and active transportation environments; affordability and access; pollution and toxics exposure; local wealth creation and other topics deemed relevant. The City can choose to integrate this review into the approval process. For larger or more complex projects the City may partner with others (the County Public Health Department, community groups, independent consultants, universities, etc.) to compile a more extensive health impact assessment.	High	Short	Planning Engineering County Public Health	LU-3
4.	**Community engagement process protocols.** Work with community groups and the school district to create minimum protocols for community outreach and engagement processes for different types of municipal decisions so community members can easily learn about input opportunities and know how best to contribute. These protocols should be utilized by all City departments and could include a single electronic database/spreadsheet of institutions, community groups, business, and interested individuals who want to receive meeting announcements; a list of public outreach methods; Spanish translation/interpretation guidance (in what cases to use); social media strategies; youth engagement; provision of food and child-care at public meetings; and other related items. The City should also consider purchasing translation headsets to support increased inclusion.	High	Short	Planning City Clerk School District Local community groups	LU-15
5.	**Sphere of Influence update.** Update the City's Sphere of Influence to exclude undevelopable land in Sub-Area 17.	Medium	Medium	Planning	LU-1
6.	**Open space conservation strategy.** Create an open space conservation program that prioritizes which open space lands to preserve. Emphasize the creation of a citywide greenbelt to achieve conservation goals.	Medium	Medium	Planning Parks	LU-2 LU-4
7.	**Economic development strategic plan.** Develop a long-term economic development strategy that develops and retains businesses and a strong middle class in Coachella for the decades to come. The plan should place a strong importance on creating quality jobs in Coachella for existing Coachella residents, career support programs and lifelong education, and professional development. The plan should also highlight the community's desire for industries that use a "triple bottom line" (health/people, environmental sustainability and profit) and invest back into Coachella's local economy.	High	Short	Planning City Manager Finance Library	LU-2 LU-7 LU-10 LU-11
8.	**Fiscal impact assessment fees.** Establish guidelines and create a fiscal impact assessments fee structure for new projects over 20 acres.	High	Medium	Planning Finance	LU-13
9.	**Historic preservation study.** Study neighborhoods with a significant number of buildings over 50 years old to determine whether historic districts should be established. Create and maintain an inventory of historic and pre-historic sites, structures and landmarks of historic and cultural significance in order to determine the potential impact on these resources from proposed projects.	Low	Ongoing	Planning	LU-1

STAFF REPORT
6/28/2023

TO: Honorable Mayor and City Council Members

FROM: Gabriel Perez, Development Services Director

SUBJECT: Approval of a Purchase and Sale Agreement between City of Coachella and Hidden Harvest Corporation for purchase of a 2.09 acre parcel, APN 778-030-012, with an approximately 17,800 sq. ft. building at 85-711 Peter Rabbit Lane for $900,000.00 and 5-year lease agreement for continued operation of Hidden Harvest at the property.

STAFF RECOMMENDATION:

Staff recommends that the Planning Commission:

- Adopt Resolution No. 2023-45 authorizing the City Manager to execute a Purchase and Sale Agreement with Hidden Harvest Corporation for the purchase of 2.09 acre parcel, APN 778-030-012, located at 85-711 Peter Rabbit Lane for a contract amount of $900,000.
- Adopt Resolution No. 2023-46 authorizing the City Manager to execute a Lease Agreement with Hidden Harvest Corporation for the lease of office and cold storage space located at 85-711 Peter Rabbit Lane, APN 778-030-012, for a contract amount of $900,000.

BACKGROUND:

On February 22, 2023 the City Council authorized staff to Negotiate with Hidden Harvest Corporation (seller) for the sale of parcel identified as APN 778-030-012 located at 85-711 Peter Rabbit Lane herein known as the "Site". Since 2000, Hidden Harvest has harvested over 24 million pounds of fresh, surplus crops from Coachella Valley fields and local packing houses for distribution to nearly 50,000 people monthly through their programs and more than 60 partner agencies that serve low-income families. The Site has served as their operational headquarters since the early 2000s. Staff negotiated a Purchase and Sale Agreement (PSA) with the seller, and is seeking City Council authorization for the City Manager to execute the Agreement and open escrow for the sale of the land pursuant to the terms of the PSA.

DISCUSSION/ANALYSIS:

The Site is currently owned by the Hidden Harvest Corporation and consists of 2.09 acres located adjacent to the Union Pacific Railroad and surrounded by agricultural uses (Peter Rabbit Farms) and light industrial uses. The Site has an approximately 17,800 sq. ft. packinghouse building

constructed of a concrete block, steel and wood frame. The appraisal for the building identifies the structure as constructed in 1947 and in fair condition with some deferred maintenance. Sanborn Maps from 1928 identify that the packinghouse was in existence in 1928 and served as the location for the Coachella Valley Grape Grower's Association. The building is divided into three sections: the office area, the warehouse area, and the cold storage area. The office area is a two story wood structure exists at the entrance to the packinghouse with conference rooms, restroom, and storage. The warehouse area is on a raised concrete platform with steel walls, joists and roof cover. There are two docks and truck wells with four roll up doors at the Southside of the building. A dock exists at the rear of the building. The building consists of 3 cooling areas at the east end of the building: 1 is 30' x 40' and the other two are 40' by 40'. The perimeter fencing is chain-link and barbed wire. The on-site groundkeeper indicates that the original rail spur connecting from the railroad to the packinghouse remains buried at the site.

The site is currently in the Manufacturing Service zoning district and is anticipated to change to the Urban Employment zoning district with the proposed Zoning Consistency Update. The Urban Employment zone allows for an expanded list of the uses that include housing, commercial and office uses. The City retains a 60-foot wide easement for street purposes for 5th Street connecting from Grapefruit Boulevard across the railroad to the South of the Site. The easement could be improved in the future to provide for an at-grade or overhead pedestrian crossing connecting Pueblo Viejo to the areas East of the railroad. Renderings envisioning the rehabilitation of the packinghouse by Hidden Harvest as a community gathering space are shown in attachment 4, consisting of an urban farm, classrooms, gathering areas offices, and food storage. City staff anticipates that the site could be rehabilitated similar to the vision of a community gathering space that may include a food hub, small business incubator, and event venue with the support of existing State funding opportunities.

Attached for City Council's review is a copy of the latest Purchase and Sale Agreement for the sale of the subject parcel for $900,000.00 subject to certain terms and conditions. Additionally, a lease agreement is attached for the Hidden Harvest Corporation to continue to at the parcel to continue to gather and distribute produce to low-income families in the Coachella Valley. The City Attorney's office has assisted staff with the PSA and lease documents. A Phase 1 Environmental Site Assessment was prepared and that based on the findings in the assessment there are no known on-site conditions that would warrant regulatory involvement (Attachment 3).

ALTERNATIVES:

1) Adopt Resolution No. 2023-45 authorizing the City Manager to execute a Purchase and Sale Agreement with Hidden Harvest Corporation for the purchase of 2.09 acre parcel, APN 778-030-012, located at 85-711 Peter Rabbit Lane for a contract amount of $900,000; and Adopt Resolution No. 2023-46 authorizing the City Manager to execute a Lease Agreement with Hidden Harvest Corporation for the lease of office and cold storage space located at 85-711 Peter Rabbit Lane, APN 778-030-012, for a contract amount of $900,000.
2) Continue this item and provide staff with direction.
3) Take no action.

FISCAL IMPACT:

The land transaction will require a $900,000 appropriation from the City's General Fund and an estimated obligation of $30,000 over a five-year term for payment of water and electricity utilities related to the operation of Hidden Harvest at the facility during that period.

RECOMMENDED ALTERNATIVE(S):

Staff recommends Alternative #1 as noted above.

Attachment:

RESOLUTION NO. 2023-45

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF COACHELLA, CALIFORNIA, APPROVING THE PURCHASE AND SALE AGREEMENT OF A 2.09 ACRE PARCEL WITH THE HIDDEN HARVEST CORPORATION ALSO IDENTIFIED AS ASSESSOR PARCEL NUMBER (APN) 778-030-012.

WHEREAS, the City of Coachella staff (buyer) negotiated the purchase and sale of a 2.09 acre parcel at 85-711 Peter Rabbit Lane (APN 778-030-012), with an approximately 17,800 sq. ft. industrial packinghouse building owned by the Hidden Harvest Corporation, a nonprofit organization (seller).

WHEREAS, on or about August 27, 2022, the City obtained a preliminary property appraisal for the Site, which appraisal indicates that the Site is worth approximately $890,000.00; and

WHEREAS, on or about March 16, 2023, Buyer provided an offer letter to the City to purchase the Site for $900,000; and

WHEREAS, the City desires to accept the offer from Buyer, as described in the Purchase and Sale Agreement, attached hereto and incorporated herein by reference as Exhibit A (the "PSA"); and

WHEREAS, on June 7, 2023 the City Council at their regular meeting reviewed and considered the PSA; and

WHEREAS, all other legal prerequisites to the adoption of this Resolution have occurred.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF COACHELLA DOES HEREBY FIND, DETERMINE AND RESOLVE AS FOLLOWS:

SECTION 1. Recitals. All of the above recitals are true and correct and incorporated herein by reference.

SECTION 2. Findings. The City Council hereby finds and declares that the purchase of the parcel is consistent with the General Plan 2035 as the site is suitable to accommodate future implementation action of the General Plan that include edible landscapes, community gardens and composting education, gardening tools and resources, emergency food, and agricultural education park.

SECTION 2. Approval. The City Council hereby approves purchase of the Site from Seller for valuable consideration and approves the related PSA as enclosed as Exhibit A. The City Council hereby finds that the purchase of the Site from Seller is in the best interest of the City for the above stated reasons.

SECTION 3. Signature Authority. The Mayor is authorized to take any and all actions necessary to facilitate the purposes of this Resolution including, without limitation, execution of the PSA and any documents required for recording in the Recorder's office for the County of Riverside.

SECTION 4. CEOA. The City Council finds that the approval of this Resolution is not subject to the Califomia Environmental Quality Act ("CEQA") pursuant to Sections 15060(c)(2), the activity will not result in a direct or reasonably foreseeable indirect physical change in the environment.

SECTION 5. Effective Date. This Resolution shall take effect upon adoption by the City Council.

PASSED APPROVED and ADOPTED this 28th day of June 2023 by the following vote:

Exhibit A - PSA

PURCHASE AND SALE AGREEMENT
AND JOINT ESCROW INSTRUCTIONS

This Purchase and Sale Agreement and Joint Escrow Instructions (this "**Agreement**") is made as of June ___, 2023 (the "**Effective Date**"), between HIDDEN HARVEST CORPORATION, a California nonprofit public benefit corporation ("**Seller**"), and CITY OF COACHELLA, a municipal corporation organized and existing under the laws of the State of California ("**Buyer**").

ARTICLE 1. AGREEMENT OF SALE.

Subject to and on the terms and conditions of this Agreement, Seller shall sell to Buyer and Buyer shall purchase from Seller all of the following (collectively, the "**Property**"):

1.1 Land. The real property commonly known as 85-711 Peter Rabbit Lane, Coachella, California (APN 778-030-012**)**, which is more particularly described in Exhibit A, together with (a) all privileges, rights, easements and appurtenances belonging to the real property, including without limitation all minerals, oil, gas and other hydrocarbon substances on and under the real property, (b) all development rights, air rights, water, water rights and water stock relating to the real property, and (c) all right, title and interest of Seller in and to any streets, alleys, passages, other easements and other rights-of-way or appurtenances included in, adjacent to or used in connection with such real property, before or after the vacation thereof (collectively, the "**Land**");

1.2 Improvements. Any and all structures, systems, facilities, fixtures, fences and parking areas located on the Land and any and all machinery, equipment, apparatus and appliances used in connection with the operation or occupancy of the Land (such as heating and air conditioning systems and facilities used to provide utility services, refrigeration, ventilation, garbage disposal or other amenities on the Land) and other improvements located upon the Land, including, but not limited to, the industrial coolers located on the Property (collectively, the "**Improvements**".

The Land and the Improvements are sometimes collectively referred to in this Agreement as the "**Property**".

1.3 Personal Property. All of Seller's right, title and interest in and to any personal property located within or used in connection with the Property (collectively, the "**Personal Property**").

1.4 Service Contracts. Those Service Contracts (defined in Section 5.7) which Buyer expressly agrees to assume; and

1.5 Other Assets. To the extent owned by Seller, all tangible and intangible assets of any nature relating to the Property or the Personal Property, including without limitation (a) all warranties upon the Improvements or Personal Property, to the full extent such warranties are

assignable, (b) copies of all plans, specifications, engineering drawings and prints relating to the construction of the Improvements, (c) all license agreements, copyrights, logos, designs, trademarks, trade names, service marks and all goodwill associated with the Property, (d) all other intellectual or intangible property used by Seller in connection with the Property; and (e) all claims and causes of action arising out of or in connection with the Property.

ARTICLE 2. PURCHASE PRICE.

2.1 Amount. The purchase price (the "**Purchase Price**") for the Property shall be $900,000.00.

2.2 Deposit/Purchase Price. Within 3 business days after the Effective Date, Buyer shall deposit $50,000.00 into Escrow (as defined below) into an interest bearing account on behalf of Buyer (the "**Deposit**"). The deposit shall be refundable to Buyer unless Buyer waives all contingencies by the expiration of the Due Diligence Period. If the Closing of the transaction contemplated by this transaction occurs, the Deposit shall be disbursed to Seller and applied to the Purchase Price at Closing. The failure of Buyer to make the Deposit within the time frame specified in this Section shall be material breach of this Agreement and Seller may terminate the Agreement. Buyer shall pay the Purchase Price to Seller through escrow at the Closing described in Section 9.1. On or before the Closing Date (as defined below), Buyer shall deposit into Escrow the Purchase Price, subject to adjustment by reason of any applicable prorations and the allocation of closing costs described below. The Deposit and Purchase Price shall be made by wire transfer of federal funds, cashiers check or in another immediately available form. Notwithstanding anything herein to the contrary, One Hundred Dollars ($100.00) of the Initial Deposit (the "**Independent Consideration**") shall not be refundable to Buyer, but shall represent consideration for this Agreement and shall be paid to Seller. The Independent Consideration shall be paid to Seller within 3 days of the Effective Date. The Independent Consideration shall serve as consideration for the granting of the time periods herein contained for Buyer to exercise Buyer's right to satisfy and approve all of Buyer's conditions herein contained. If the Deposit is refunded to Buyer for any reason pursuant to this Agreement, the Independent Consideration shall be subtracted from the Deposit pursuant to this Section.

ARTICLE 3. DUE DILIGENCE.

3.1 Due Diligence Period; Inspection and Access.

3.1.1 Due Diligence Period. The "**Due Diligence Period**" means the period beginning the later of (a) the Effective Date or (b) the date on which Buyer has received all of the Due Diligence Documents (defined in Section 3.2) from Seller and ending at 5:00 p.m. on the date forty-five (45) days later.

3.1.2 Access to Information and the Property. Buyer shall conduct its investigation of the Property during the Due Diligence Period at no cost to Seller. This investigation ("**Due Diligence Investigation**") may include, at Buyer's option: a physical inspection of the Land and all Improvements thereon, including soil, geological and other tests, engineering evaluations of the mechanical, electrical, HVAC and other systems in the Improvements and review of the Plans; review of all governmental matters affecting the

Property, including zoning, environmental and building permit and occupancy matters; review and verification of all financial and other information previously provided by Seller relating to the operation of the Property; review of the condition of title to the Property, including the building, structural system and roof inspection; and review of such other matters pertaining to an investment in the Property as Buyer deems advisable. Buyer hereby agrees to and shall indemnify, defend and hold harmless Seller and Seller's members, managers, partners, officers, directors, shareholders, employees, agents, representatives, invitees, successors and assigns (each, a "Seller Indemnitee"), from and against any and all claims, demands, and causes of action for personal injury or property damage, and all damages, judgments, liabilities, costs, fees and expenses (including reasonable attorneys' fees) resulting therefrom, arising out of any entry onto the Land by Buyer, its agents, employees, contractors and/or subcontractors, pursuant to this Section 3.1.2 hereof. In addition to the Preliminary Documents delivered to Buyer pursuant to Section 3.2, Buyer and its representatives shall have the right of access during reasonable business hours to all files, books and records maintained by Seller or its agents (including, without limitation, all of the Additional Documents to be made available to Buyer at the Property pursuant to Section 3.3), wherever located, relating to the Property, including the right to copy the same. Buyer and its representatives shall also have the right of access to the Property during reasonable business hours to conduct its investigation of the physical condition of the Property. Seller agrees that the rights granted to Buyer herein and the results of its Due Diligence Investigation shall not relieve Seller of any obligations Seller may have under any other provisions of this Agreement, or under other documents entered into concurrently herewith, or implied by law, nor shall they constitute a waiver by Buyer of the right to enforce any of the same. Seller shall cooperate with Buyer in its due diligence activities and provide access to the Property, its records, or provide information so long as it is within Seller's control.

3.2 Delivery of Preliminary Documents. Within 5 business days after the Effective Date, Seller shall deliver to Buyer, at Seller's expense, all of the documents described in the remaining subsections of this Section 3.2 (collectively, the "**Preliminary Documents**") in Seller's possession or control.

3.2.1 Title Report and Survey. A preliminary title report or commitment for title insurance (the "**Preliminary Title Report**"), dated no earlier than 10 days before the Effective Date, covering the Property and issued by a title insurance company or companies acceptable to Buyer (the "**Title Company**"), together with a legible copy of each document, map and survey referred to in the Preliminary Title Report. Buyer, at Buyer's sole cost, may obtain an as-built survey of the Property (the "**Survey**") prepared by a certified land surveyor in accordance with the most recent American Land Title Association standards, certified by such surveyor to Buyer and the Title Company in a form acceptable to the Title Company for the purpose of deleting any survey exception from the Title Policy described in Section 4.1.3.

3.2.2 Plans. Copies of all as-built plans and specifications for the Improvements, including without limitation the plans and specifications for and a complete description of all existing renovations and improvements to the Property and all rentable space therein, and as-built drawings for all underground utilities (collectively, the "**Plans**"), together with a certificate from an architect approved by Buyer certifying to Buyer that the Improvements were constructed and completed in accordance with the Plans;

3.2.3 Soils Report. Any soils report on the Land prepared at Seller's request or in the possession or control of Seller, including (if available) a report on compliance with any soils work recommended to be done prior to construction of the Improvements;

3.2.4 Engineers' Reports. Any structural, mechanical, environmental or geological reports concerning the Property which have been prepared at Seller's request or which are within Seller's possession or control;

3.2.5 Operating Statements; Tax Bills. Copies of operating statements for the Property certified by Seller including an itemization of income and expenses and copies of all real property tax bills for the Property for such periods;

3.2.6 Licenses, Etc. Copies of any licenses, permits or certificates required by governmental authorities in connection with construction or occupancy of the Improvements, including, without limitation, building permits, certificates of completion, certificates of occupancy and environmental permits and licenses;

3.2.7 Inspection Reports. Copies of all written reports received by Seller within three (3) years prior to the Effective Date from Seller's insurance companies, any governmental agency or any other person or entity, which requires or demands correction of any condition, or requests modification in or termination of any uses of the Property, accompanied by Seller's summary of (a) any oral reports from such insurance companies or governmental agencies, and (b) the present status of any matter noted in any oral or written report.

3.3 Additional Documents and Information. From the Effective Date through the Closing Date, Seller shall make available to Buyer at the Property in accordance with Section 3.1, the documents and information described in this Section 3.3 (collectively, the "**Additional Documents**"):

3.3.1 Agreements. Copies of written, and written descriptions of oral, easements, covenants, restrictions, agreements, contracts and other documents, whether existing or, to the knowledge of Seller, proposed as of the Effective Date, including without limitation any agreements relating to the insurance, service, operation, repair, supply, advertising, promotion, sale, leasing or management of the Property, which (a) affect the Property, (b) are not disclosed by the Preliminary Title Report, and (c) have not been delivered to Buyer pursuant to Section 3.2. If no such documents exist, Seller shall furnish its certification to that effect;

3.3.2 Warranties/Roof Inspections/HVAC Inspections. Copies of any and all guarantees or warranties and other rights given to Seller in connection with the construction, maintenance, repair or remodeling of the Improvements, periodic inspections, or the purchase of any of the Personal Property. If no such documents exist, Seller shall furnish its certification to that effect;

3.3.3 Insurance Policies. Copies of certificates evidencing the insurance carried by Seller of the Property;

3.3.4 Other Documents. All data, correspondence, documents, agreements, waivers, notices, applications and other records with respect to the Property relating to transactions with taxing authorities, governmental agencies, utilities, vendors and others with whom Buyer may be dealing from and after the Closing Date; and

3.3.5 Requested Information. Such other documents and information concerning the Property as Buyer may reasonably request.

3.4 Approval/Disapproval of Due Diligence Investigations. Buyer shall approve or disapprove the results of Buyer's Due Diligence Investigation, in the exercise of Buyer's sole discretion, by written notice delivered to Seller no later than the expiration of the Due Diligence Period. Buyer's disapproval shall terminate this Agreement unless, at the time Buyer gives notice of its disapproval, Buyer also notifies Seller of Buyer's desire to enter into negotiations with Seller for the purpose of reaching an accommodation concerning the disapproval. If Buyer so notifies Seller and the parties have not reached a written agreement satisfactory to both of them regarding the disapproval within 10 days after the date of the disapproval notice, Buyer, at its option, may either (a) elect to terminate this Agreement by so notifying Seller and recover the Deposit, or (b) elect to proceed with the transactions contemplated by this Agreement notwithstanding its earlier disapproval. If Buyer fails to deliver to Seller notice of its approval or disapproval of the results of its Due Diligence Investigation, Buyer shall be deemed to have disapproved such results. If Buyer elects to terminate the Agreement, Buyer shall return to Seller all of the Preliminary Documents and Additional Documents previously delivered by Seller to Buyer within 5 business days of such termination.

3.5 Title Review.

3.5.1 Monetary Liens. At its expense, Seller shall remove all liens on the Property at or prior to the Closing (collectively, "**Monetary Liens**"): (i) all delinquent taxes, bonds and assessments and interest and penalties thereon (it being agreed that Seller shall not be required to remove any non-delinquent taxes and assessments imposed by any governmental agency that are paid with the property taxes for the Property); and (ii) all other monetary liens, including without limitation all those shown on the Preliminary Title Report (including judgment and mechanics' liens, whether or not liquidated, and mortgages and deeds of trust, with Seller being fully responsible for any fees or penalties incurred in connection therewith).

3.5.2 Approval/Disapproval of Title Review. Buyer shall approve or disapprove of the Preliminary Title Report, the Survey and any exceptions to title shown thereon (other than the Monetary Liens) in the exercise of Buyer's sole discretion, by the expiration of the Due Diligence Period. If Buyer disapproves, Buyer may either (a) terminate this Agreement by giving Seller written notice of termination or (b) give Seller a written notice ("**Disapproval Notice**") identifying the disapproved title matters ("**Disapproved Title Matters**"). With respect to any Disapproved Title Matters, other than the Monetary Liens, Seller shall notify Buyer in writing within 5 days after Seller's receipt of the Disapproval Notice whether Seller will cause the Disapproved Title Matters to be removed or cured at or prior to Closing. If Seller elects not to remove or cure all Disapproved Title Matters, Buyer may, at its option: (i) subject to satisfaction of the other conditions to Closing, close the purchase of the Property and take title

subject to the Disapproved Title Matters which Seller elects not to remove or cure; or (ii) terminate this Agreement in accordance with Section 9.6.1.

3.5.3 Buyer's Options. If any Disapproved Title Matters (including the Monetary Liens) have not been removed at least 5 days prior to Closing or provision for their removal at the Closing has not been made to Buyer's satisfaction, Buyer may, at its option: (i) close the purchase of the Property and take title subject to the Disapproved Title Matters which have not been removed; (ii) close the purchase of the Property and cure or remove the Disapproved Title Matters which have not been removed. Buyer may credit the costs of such cure or removal against the Purchase Price by reducing the amount of cash payable by Buyer at the Closing, but only to the extent such costs are expended to remove (A) Monetary Liens referred to in Section 3.5.1 or (B) Disapproved Title Matters which Seller agreed to remove; or (iii) terminate this Agreement in accordance with Section 9.6.1.

3.5.4 Failure to Disapprove. If Buyer fails to notify Seller of its approval or disapproval of the Preliminary Title Report, the Survey or the exceptions shown thereon by the end of the Due Diligence Period, then Buyer shall be deemed to have disapproved the same.

ARTICLE 4. CONDITIONS PRECEDENT.

4.1 Buyer's Conditions. Buyer's obligations under this Agreement are expressly subject to the timely fulfillment of the conditions set forth in this Section 4.1 on or before the Closing Date, or such earlier date as is set forth below. Each condition may be waived in whole or in part by Buyer by written notice to Seller.

4.1.1 Due Diligence. Buyer having approved of the results of its Due Diligence Investigation pursuant to Section 3.4;

4.1.2 Title Review. Buyer having approved of the results of its review of title pursuant to Section 3.5.

4.1.3 Title Policy. Seller having caused the Title Company to deliver to Buyer (a) a CLTA Owner's policy of title insurance, provided that Buyer may require an ALTA Owner's Policy if Buyer pays the incremental premium for ALTA coverage ("**Title Policy**") (or at Buyer's election a binder therefor) for the Property, or (b) the Title Company's irrevocable commitment to issue such policy of title insurance, (including such coinsurance, reinsurance and endorsements as Buyer shall require), with liability equal to the Purchase Price showing fee title to the Property vested in Buyer and subject only to: (i) the matters and exceptions which were approved by Buyer pursuant to Section 3.5; and (ii) the standard printed exceptions in the form of title policy called for (collectively, "**Conditions of Title**").

4.1.4 Performance of Covenants. Seller performing and complying in all material respects with all of the terms of this Agreement to be performed and complied with by Seller prior to or at the Closing.

4.1.5 Representations and Warranties. The representations and warranties of Seller set forth in Article 5 being true and accurate on the Closing Date, as if made on such date.

4.1.6 Non-Foreign Certification. Seller having executed and delivered to Buyer on or prior to the Closing Date a certification (the "**Non-Foreign Certification**"), substantially in the form of Exhibit B.

4.1.7 California Certification. Seller having furnished the residency certification required pursuant to Sections 18805 and 26131 of the California Revenue and Taxation Code ("**Form 593**") or having authorized Escrow Holder in writing to withhold from the Purchase Price the amounts required to be withheld by such Sections.

4.1.8 Lease. Buyer and Seller shall have entered into a lease agreement (the "**Lease**") for a portion of the Real Property to be effective as of the Closing Date, substantially in the form of Exhibit F.

4.2 Seller's Conditions. Seller's obligations under this Agreement are expressly subject to the timely fulfillment of the conditions set forth in this Section 4.2 on or before the Closing Date, or such earlier date as is set forth below. Each condition may be waived in whole or part by Seller by written notice to Buyer.

4.2.1 Covenants. Buyer performing and complying in all material respects with all of the terms of this Agreement to be performed and complied with by Buyer prior to or at the Closing.

4.2.2 Representations and Warranties. The representations of Buyer set forth in Article 6 being true and accurate on the Closing Date, as if made on such date.'

4.2.3 Lease. Buyer and Seller shall have entered into the Lease to be effective as of the Closing Date, substantially in the form of Exhibit F.

ARTICLE 5. SELLER'S REPRESENTATIONS AND WARRANTIES.

Seller hereby makes the following representations and warranties to Buyer with the understanding that each such representation and warranty is material and is being relied upon by Buyer:

5.1 Defects. To the best of Seller's knowledge, the Improvements and the Personal Property are in good condition and repair and are free of any latent or patent design, construction, physical or mechanical defects and there is no actual or threatened settlement, earth movement, termite infestation or damage affecting the Property.

5.2 Compliance. To the best of Seller's knowledge, the Property, and the operation thereof, are in compliance with all applicable laws, ordinances, rules, regulations, judgments, orders, covenants, conditions, restrictions, whether federal, state, local, foreign or private, and Seller has not received any notice of any violation of the same. Seller has not received any request either formal or informal, oral or written, that Seller modify or terminate any use of the Property. The zoning of the Property permits the current Improvements and use of the Property, and, there is no pending or to Seller's knowledge, contemplated rezoning. The Property

complies with all applicable subdivision laws and all local ordinances enacted thereunder and no subdivision or parcel map not already obtained is required to transfer the Property to Buyer.

5.3 Documents. All of the Preliminary Documents and the Additional Documents which have been delivered or made available to Buyer pursuant to Article 3, and all other documents delivered to Buyer by or on behalf of Seller (a) are true, correct and complete copies of what they purport to be, (b) represent truly the factual matters stated therein, (c) are in full force and effect, (d) have not been modified, except as set forth therein and (e) do not omit any information required to make the submission thereof accurate and complete in all material respects.

5.4 Taxes and Condemnation. There are no presently pending or, to Seller's knowledge, contemplated special taxes or assessments which will affect the Property. There are no presently pending or, to Seller's knowledge, contemplated proceedings to condemn or demolish the Property or any part of it.

5.5 Utilities. To the best of Seller's knowledge, all water, sewer, gas, electric, telephone and drainage facilities, and all other utilities required by law or by the normal operation of the Property, are (a) installed to the property lines of the Property, (b) connected to the Property, (c) adequate to service the Property in its present use and to permit full compliance with all requirements of law and normal usage by the occupants of the Property and (d) in good working order and repair. All such utilities and storm and sanitary sewers required for the operation of the Property enter the Land through adjoining public streets or through adjoining private land in accordance with valid public or private easements that will inure to the benefit of Buyer.

5.6 Licenses. Seller has all required licenses, permits (including, without limitation, all building permits and occupancy permits), easements and rights-of-way which are required in order to continue the present use of the Property. Seller has no knowledge of any law or regulation of any governmental authority having jurisdiction which might require the Property to be improved beyond its present state or which might restrict the use and enjoyment of the Property in the manner it is presently being used and enjoyed.

5.7 Contracts/Leases/Occupancy Rights. Schedule 5.7 contains a description of all contracts entered into by Seller or its property manager or leasing agent relating to the management, maintenance, leasing or operation of the Property ("**Service Contracts**"). Except for the Service Contracts, there are no agreements or other obligations to which Seller is party or, to Seller's knowledge, by which it or the Property is bound which may affect the current use of the Property, nor are there any current leases, occupancy or operating agreements in force. No party has a right to occupancy, tenancy, or a license to use or enter the Property. Except as set forth in Schedule 5.7, Seller has fully performed all the obligations required to be performed by Seller under the Service Contracts, and to Seller's knowledge, the other parties to the same are not in default thereunder. There are no collective bargaining agreements, other union contracts of any nature, pension plans or other benefit plans of any nature in existence to which Seller is a party and which affect the Property or the operation thereof.

5.8 Litigation. There are no actions, suits, proceedings, judgments, orders, decrees or governmental investigations pending or, to Seller's knowledge, threatened against the Property or Seller which could affect the Property or the purchase, use or enjoyment thereof by Buyer.

5.9 Agreements with Governmental Authorities. There are no agreements with governmental authorities, agencies, utilities or quasi-governmental entities which affect the Property except those agreements which are identified in the Preliminary Title Report and those matters which are disclosed by the Survey.

5.10 Hazardous Materials.

5.10.1 Definitions. For purposes of this Agreement:

(a) "**Environmental Law(s)**" means the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, 42 U.S.C. Sections 9601, et seq., the Resource Conservation and Recovery Act of 1976, 42 U.S.C. Sections 6901 et seq., the Toxic Substances Control Act, 15 U.S.C. Sections 2601 et. seq., the Hazardous Materials Transportation Act, 49 U.S.C. 1801 et seq., the Clean Water Act, 33 U.S.C. Sections 1251 et seq., [The Safe Drinking Water and Toxic Enforcement Act of 1986 (Cal. H&S Code Sections 25249.5-25249.13), the Carpenter-Presley-Tanner Hazardous Substance Account Act (Cal. H&S Code Sections 25300 et seq.), and the California Water Code Sections 1300, et seq.], as said laws have been supplemented or amended to date, the regulations promulgated pursuant to said laws and any other federal, state or local law, statute, rule, regulation or ordinance which regulates or proscribes the use, storage, disposal, presence, cleanup, transportation or Release or threatened Release into the environment of Hazardous Material.

(b) "**Hazardous Material**" means any substance which is (i) designated, defined, classified or regulated as a hazardous substance, hazardous material, hazardous waste, pollutant or contaminant under any Environmental Law, as currently in effect or as hereafter amended or enacted, (ii) a petroleum hydrocarbon, including crude oil or any fraction thereof and all petroleum products, (iii) PCBs, (iv) lead, (v) asbestos, (vi) flammable explosives, (vii) infectious materials or (viii) radioactive materials.

(c) "**Release**" means any spilling, leaking, pumping, pouring, emitting, discharging, injecting, escaping, leaching, dumping or disposing into the environment of any Hazardous Material (including the abandonment or discarding of barrels, containers, and other receptacles containing any Hazardous Material).

5.10.2 Representations. Except as otherwise disclosed in Schedule 5.10.2:

(a) To the best of Seller's knowledge the Property and all existing uses and conditions of the Property are in compliance with all Environmental Laws, and Seller has not received any written notice of violation issued pursuant to any Environmental Law with respect to the Property or any use or condition thereof.

(b) To the best of Seller's knowledge neither Seller nor any other present or former owner of the Property has used, handled, stored, transported, released or

disposed of any Hazardous Material on, under or from the Property in violation of any Environmental Law.

(c) To the best of Seller's knowledge there is no Release of any Hazardous Material existing on, beneath or from or in the surface or ground water associated with the Property.

(d) To the best of Seller's knowledge all required permits, licenses and other authorizations required by or issued pursuant to any Environmental Law for the ownership or operation of the Property by Seller have been obtained and are presently maintained in full force and effect.

(e) To the best of Seller's knowledge there exists no writ, injunction, decree, order or judgment outstanding, nor any lawsuit, claim, proceeding, citation, directive, summons or investigation pending or, to Seller's knowledge, threatened pursuant to any Environmental Law relating to (i) the ownership, occupancy or use of any portion of the Property by Seller or occupant or user of any portion of the Property or any former owner of any portion of the Property, (ii) any alleged violation of any Environmental Law by Seller or occupant or user of any portion of the Property or any former owner of any portion of the Property or (iii) the suspected presence, Release or threatened Release of any Hazardous Material on, under, in or from any portion of the Property.

(f) To Seller's knowledge, there are no above-ground or underground tanks located on the Property used or formerly used for the purpose of storing any Hazardous Material.

(g) To the best of Seller's knowledge, no asbestos abatement or remediation work has been performed on the Property.

(h) To the best of Seller's knowledge, there is no PCB-containing equipment or PCB-containing material located on or in the Property.

5.11 Title to the Property. Seller has good and marketable title to the Property, subject to the Conditions of Title. There are no outstanding rights of first refusal or first look, options to purchase, rights of reverter, or claim of right relating to the transfer or sale of the Property or any interest therein. To Seller's knowledge, there are no unrecorded or undisclosed documents or other matters which affect title to the Property. No person holding a security interest in the Property or any part thereof has the right to consent or deny consent to the sale of the Property as contemplated herein, and Seller has the right to pay off such person and to remove all such liens as of the Closing Date. Seller has enjoyed the continuous and uninterrupted quiet possession, use and operation of the Property.

5.12 Seller's Authority. Seller has the requisite power and authority to own and operate the Property and conduct its business where the same is now owned or operated. The execution, delivery and performance of this Agreement by Seller have been duly and validly authorized by all necessary action and proceedings, and no further action or authorization is necessary on the part of Seller (or its board of directors or shareholders) in order to consummate

the transactions contemplated herein. This Agreement and the other documents executed by Seller in connection herewith are legal, valid and binding obligations of Seller, enforceable in accordance with their respective terms. Neither the execution and delivery of this Agreement by Seller, nor performance of any of its obligations hereunder, nor consummation of the transactions contemplated hereby, shall conflict with, result in a breach of, or constitute a default under, the terms and conditions of the organizational documents pursuant to which Seller was organized, or any indenture, mortgage, deed of trust, agreement, undertaking, instrument or document to which Seller or any affiliate thereof is a party or is bound, or any order or regulation of any court, regulatory body, administrative agency or governmental body having jurisdiction over Seller.

5.13 Foreign Person. Seller is not a "foreign person" within the meaning of Section 1445(f) of the Internal Revenue Code.

5.14 Misstatements and Omissions. Neither the representations and warranties made by Seller in this Article 5 nor elsewhere in this Agreement contain any untrue statement or any omission of a material fact. Seller has no documents in its possession, nor has any knowledge, that omits material facts related to the property or which would contradict or negate any of its representations contained in this Agreement.

ARTICLE 6. BUYER'S REPRESENTATIONS AND WARRANTIES.

Buyer makes the following representation and warranties to Seller with the understanding that each such representation and warranty is material and is being relied upon by Seller:

6.1 Buyer's Authority. The execution, delivery and performance of this Agreement by Buyer have been duly and validly authorized by all necessary action and proceedings, and no further action or authorization is necessary on the part of Buyer in order to consummate the transactions contemplated herein.

6.2 No Conflict. Neither the execution nor delivery of this Agreement by Buyer, nor performance of any of its obligations hereunder, nor consummation of the transactions contemplated hereby, shall conflict with, result in a breach of, or constitute a default under, the terms and conditions of the organizational documents pursuant to which Buyer was organized, or any agreement to which Buyer is a party or is bound, or any order or regulation of any court, regulatory body, administrative agency or governmental body having jurisdiction over Buyer.

ARTICLE 7. SURVIVAL OF REPRESENTATIONS AND WARRANTIES AND INDEMNIFICATION.

7.1 Survival of Warranties. Buyer and Seller agree that each representation and warranty, covenant by the respective parties contained herein or made in writing pursuant to this Agreement are intended to and shall be deemed made as of the date of this Agreement or such writing and again at the Closing, shall be deemed to be material, and unless expressly provided to the contrary shall survive the execution and delivery of this Agreement, the Deed and the Closing.

7.2 Notice of Changed Circumstances. If either party becomes aware of any fact or circumstances which would render false or misleading a representation or warranty made by such party, then it shall immediately give notice of such fact or circumstance to the other party, but such notice shall not relieve any party of any liabilities or obligations with respect to any representation or warranty.

7.3 Indemnification.

7.3.1 Seller's Indemnity. Seller's obligations pursuant to this Section 7.3.1 shall survive the Closing. Seller at its sole cost and expense hereby agrees to indemnify, defend (with counsel acceptable to Buyer), protect and hold harmless Buyer, from and against any and all claims, demands, losses, damages, liabilities, fines, penalties, charges, administrative and judicial proceedings and orders, judgments, remedial action and compliance requirements, enforcement and clean-up actions of any kind, and all costs and expenses incurred in connection therewith, including, without limitation, actual attorneys' fees and costs of defense and costs and expenses of all experts and consultants (collectively, the "**Losses**), arising directly or indirectly, in whole or in part, out of any one or more of the following:

(a) the breach or alleged breach of any covenant of Seller contained in this Agreement or the inaccuracy or alleged inaccuracy of any representation or warranty of Seller contained in this Agreement;

(b) Seller's ownership of the Property or the operation of the Property prior to the Closing Date;

(c) the presence on, in or under the Property of any Hazardous Material on or before the Closing Date, any Release of any Hazardous Material, on, under or from the Property prior to the Closing Date or the use, generation, manufacturing, production, handling, storage, transport, discharge or disposal of any such Hazardous Materials on or before the Closing Date, from, under or about the Property, irrespective of whether any of such activities were or will be undertaken in accordance with Environmental Law or other applicable laws, regulations, codes and ordinances. The indemnity contained in this paragraph (c) shall further apply, without limitation, to: (i) all residual contamination and contamination affecting any natural resources; (ii) all consequential damages; (iii) the costs of any required remediation or removal work on the Property, including, without limitation: (A) costs of remediation or removal incurred by the United States Government or the State or any other person; and (B) fines or penalties which arise from the provisions of any statute, state or federal; and (iv) liability for personal injury or property damage arising under any statutory or common-law tort theory, including damages assessed for the maintenance of a public or private nuisance, response costs or for the carrying on of an abnormally dangerous activity; or

(d) from the provisions of any statute, state or federal; and (iv) liability for personal injury or property damage arising under any statutory or common-law tort theory, including damages assessed for the maintenance of a public or private nuisance, response costs or for the carrying on of an abnormally dangerous activity.

ARTICLE 8. SELLER'S PRECLOSING COVENANTS.

Seller shall comply with the covenants contained in this Article 8 from the Effective Date through the Closing Date unless Buyer consents otherwise in writing. Buyer may grant or withhold any such consent requested by Seller in Buyer's sole discretion.

8.1 Contracts and Documents. Seller shall not, without Buyer's approval, not to be unreasonably withheld or delayed, (a) amend or waive any right under any Service Contract, Preliminary Document or Additional Document, or (b) enter into any material agreement of any type affecting the Property that would survive the Closing Date.

8.2 Insurance. Seller shall maintain or cause to be maintained in full force and effect its present insurance policies for the Property.

8.3 Compliance with Obligations. Seller shall fully and timely comply with all obligations to be performed by it under the Service Contracts, the other Preliminary Documents, the Conditions of Title and all permits, licenses, approvals and laws, regulations and orders applicable to the Property.

8.4 No Transfers. Seller shall not sell, encumber or otherwise transfer any interest in all or any portion of the Property, or agree to do so.

8.5 Termination of Contracts. Seller at its sole cost and expense shall terminate all of the Service Contracts described in Section 5.7 at or before the Closing Date, except for those contracts which Buyer expressly agrees to assume and which are actually assumed by Buyer pursuant to Section 9.3.3.

8.6 Maintenance. At its sole cost and expense, Seller shall operate and maintain the Property such that on the Closing Date the Property shall be in at least as good a condition and repair as on the Effective Date, reasonable wear and tear excepted. Without limiting the generality of the foregoing, Seller shall, at a minimum, spend such amounts for repair and maintenance as are consistent with its prior practice. Seller shall promptly advise Buyer of any significant repair or improvement required to keep the Property in such condition. Seller shall not make any material alterations to the Property, or remove any of the Personal Property therefrom, without Buyer's prior consent, unless such Personal Property so removed is simultaneously replaced with new Personal Property of similar quality and utility.

8.7 Best Efforts. Seller shall use its best efforts to cause the conditions set forth in Section 4.1 to be satisfied by the Closing Date, and Seller shall not take or permit any action that would result in any of the representations and warranties set forth in Article 5 becoming false or incorrect.

ARTICLE 9. CLOSING.

9.1 Time. Provided all conditions set forth in Article 4 have been either satisfied or waived, the parties shall close this transaction (the "**Closing**"), on the date which is 15 business

days after the expiration of the Due Diligence Period (the "**Closing Date**"), as such date may be extended by the provisions of Article 10.

9.2 Escrow. This Article 9, together with such additional instructions as First American Title Company, Attention: _____, _____, California ("**Escrow Holder**"), shall reasonably request and the parties shall agree to, shall constitute the escrow instructions to Escrow Holder. If there is any inconsistency between this Agreement and the Escrow Holder's additional escrow instructions, this Agreement shall control unless the intent to amend this Agreement is clearly stated in said additional instructions. Buyer and Seller shall cause Escrow Holder to execute and deliver a counterpart of this Agreement to each of them. If the Title Company does not serve as the Escrow Holder, the Title Company shall provide a letter to Buyer, in form and content acceptable to Buyer, pursuant to which the Title Company accepts responsibility and liability for the acts and omissions of Escrow Holder in discharging Escrow Holder's obligations hereunder, including, without limitation, any acts or omissions of Escrow Holder relating to the Title Company's commitment to issue the Title Policy, the receipt, recordation or delivery of any documents placed into escrow, and the receipt and disbursement of any funds placed into escrow.

9.3 Seller's Deposit of Documents and Funds Into Escrow. Seller shall deposit into escrow on or before Closing the following documents:

9.3.1 A duly executed and acknowledged grant deed, in the form acceptable to Buyer, conveying the Property to Buyer ("**Grant Deed**") in the form attached as Exhibit E;

9.3.2 A duly executed bill of sale, in the form of Exhibit C, conveying the Personal Property to Buyer free and clear of liens, encumbrances and restrictions ("**Bill of Sale**");

9.3.3 A duly executed assignment, in the form of Exhibit D, assigning to Buyer all of Seller's interest (a) in the Plans, (b) in all warranties of which Seller is the beneficiary with respect to the Property, (c) in all intangible assets of the Property, and (d) in the Service Contracts which Buyer has elected to assume (the "**General Assignment**");

9.3.4 The originals (or copies if originals are unavailable) of the Service Contracts Buyer has elected to assume, if any, and estoppel certificates from the other parties to such Service Contracts in form and substance satisfactory to Buyer;

9.3.5 All costs of Closing, including, but not limited to, the CLTA increment of the premium for the Title Policy, recording fees (if any), transfer taxes (if any) and fees, one-half of the escrow fees, sales tax and any other costs of Closing customarily paid by sellers of real property, plus or minus prorations as provided in Section 9.8; provided that, subject to Section 9.6, Buyer and Seller shall bear their own attorneys' fees and costs in connection with the negotiation and preparation of this Agreement and the transactions completed by this Agreement;

9.3.6 Seller's Non-foreign Certification;

9.3.7 All records and files relating to the management or operation of the Property, including, without limitation, property tax bills, insurance, and property taxes;

9.3.8 Such additional documents, including written escrow instructions consistent with this Agreement, as may be necessary or desirable for conveyance of the Property in accordance with this Agreement; and

9.3.9 Form 593.

9.4 Deliveries Outside of Escrow. Notwithstanding Section 9.3, Seller and Buyer may elect to deliver the documents described in Section 9.3 outside of escrow (other than documents which are to be recorded) by giving Escrow Holder a joint written notice of such election, specifying the documents which will be so delivered outside of escrow. Upon receipt of such notice, Escrow Holder shall have no further obligation concerning such specified documents.

9.5 Buyer's Deposit of Documents and Funds. Buyer shall deposit into escrow:

9.5.1 The Purchase Price in accordance with the provisions of Article 2, plus or minus prorations as provided in Section 9.8, by electronic transfer of federal funds to Escrow Holder, on or before the Closing Date; and

9.5.2 Such additional documents, including written escrow instructions consistent with this Agreement, as may be necessary or desirable for conveyance of the Property in accordance with this Agreement.

9.6 Default, Termination and Remedies.

9.6.1 Buyer's Termination. This Agreement shall automatically terminate without further notice or action by Buyer upon the occurrence of any of the following events, provided that Buyer is not then in material breach of this Agreement: (a) any condition to Closing contained in Section 4.1 has not been satisfied or waived by Buyer by the Closing Date; or (b) Buyer having exercised its right to terminate this Agreement pursuant to Section 3.4 (disapproval of Due Diligence Investigation), Section 3.5 (disapproval of title) or Article 10 (damage or condemnation). In such event, the parties shall have no further obligation to each other except for those obligations that specifically survive the termination of this Agreement. If this Agreement terminates as a result of Seller's material breach of this Agreement, Buyer shall have all remedies it may have hereunder or at law as a result of such occurrence, including the remedy of specific performance.

9.6.2 Seller's Termination. Provided that Seller is not then in material breach of this Agreement, this Agreement shall automatically terminate without further notice or action by Seller if any condition to Closing contained in Section 4.2 has not been satisfied or waived by Seller by the Closing Date.

9.6.3 Release from Escrow. Upon termination of this Agreement pursuant to Section 9.6.1 or 9.6.2, Escrow Holder shall promptly return to Buyer and Seller, respectively, all

documents and monies deposited by them into escrow without prejudice to their rights and remedies hereunder.

9.6.4 Remedies.

(a) Buyer's Remedies. If Seller breaches this Agreement, Buyer shall be entitled to pursue all remedies permitted herein and by law, including the remedy of specific performance. No termination of the escrow by Buyer following a breach by Seller shall be deemed to waive such breach or any remedy otherwise available to Buyer.

(b) Seller's Remedies/Liquidated Damages. IF BEFORE THE CLOSE OF ESCROW BUYER FAILS TO COMPLY WITH OR PERFORM BUYER'S OBLIGATIONS UNDER THIS AGREEMENT AND (EXCEPT AS OTHERWISE PROVIDED IN PARAGRAPH 9.6) DOES NOT CURE SUCH FAILURE WITHIN TEN BUSINESS DAYS AFTER SELLER'S WRITTEN NOTICE OF SUCH FAILURE, THEN SELLER MAY THEREAFTER: (I) TERMINATE THIS AGREEMENT; (II) RECEIVE AND RETAIN THE DEPOSIT AS LIQUIDATED DAMAGES IF SUCH DEFAULT OCCURS AFTER BUYER'S APPROVAL PERIOD; AND (III) EXERCISE THE OTHER RIGHTS AND REMEDIES RESERVED BY SELLER AS PROVIDED IN THIS PARAGRAPH. IN THE EVENT SELLER TERMINATES THIS AGREEMENT BY REASON OF BUYER'S DEFAULT, BUYER AND SELLER SHALL BE RELIEVED OF ANY FURTHER OBLIGATION TO EACH OTHER WITH RESPECT TO THIS AGREEMENT AND THE PROPERTY EXCEPT FOR ANY OBLIGATIONS WHICH EXPRESSLY SURVIVE. IT IS EXPRESSLY UNDERSTOOD AND AGREED BY BUYER AND SELLER: THAT SELLER WILL INCUR SUBSTANTIAL DAMAGES AS A RESULT OF ANY FAILURE BY BUYER TO COMPLY WITH OR PERFORM BUYER'S OBLIGATIONS UNDER THIS AGREEMENT; THAT IT IS EXTREMELY DIFFICULT AND IMPRACTICAL TO CALCULATE AND ASCERTAIN AS OF THE EFFECTIVE DATE OF THIS AGREEMENT THE ACTUAL DAMAGES WHICH WOULD BE SUFFERED IN SUCH EVENT BY SELLER; AND THAT THE DEPOSIT IS A REASONABLE ESTIMATE OF THE EXTENT TO WHICH SELLER MAY BE DAMAGED BY BUYER'S DEFAULT IN LIGHT OF THE DIFFICULTY THE PARTIES WOULD HAVE IN DETERMINING SELLER'S ACTUAL DAMAGES AS A RESULT OF SUCH DEFAULT BY BUYER.

_____ _____

SELLER'S INITIALS BUYER'S INITIALS

(c) Waiver of Specific Performance. SELLER HEREBY WAIVES THE RIGHT TO MAINTAIN AN ACTION FOR SPECIFIC PERFORMANCE OF BUYER'S OBLIGATION TO PURCHASE THE PROPERTY AND SELLER AGREES THAT SELLER CAN BE ADEQUATELY COMPENSATED IN MONEY DAMAGES IF BUYER FAILS TO PURCHASE THE PROPERTY IN BREACH OF THIS AGREEMENT. SELLER ACKNOWLEDGES THAT THE PROVISIONS OF THIS PARAGRAPH ARE A MATERIAL PART OF THE CONSIDERATION BEING GIVEN TO BUYER FOR ENTERING INTO THIS AGREEMENT AND THAT BUYER WOULD BE UNWILLING TO ENTER INTO THIS AGREEMENT IN THE ABSENCE OF THE PROVISIONS OF THIS PARAGRAPH.

_____ _____
SELLER'S INITIALS BUYER'S INITIALS

9.7 Closing. When Escrow Holder has received all documents and funds identified in Sections 9.3 and 9.5, has received notification from Buyer and Seller that all conditions to Closing to be satisfied outside of escrow have been satisfied or waived and Title Company is irrevocably committed to issue the Title Policy, then, and only then, Escrow Holder shall:

9.7.1 Record the Grant Deed;

9.7.2 Cause the Title Company to issue the Title Policy to Buyer;

9.7.3 To the extent not otherwise delivered to Buyer outside of escrow, deliver to Buyer: (a) a conformed copy (showing all recording information thereon) of the Grant Deed; (b) fully executed original counterparts of the Bill of Sale, the General Assignment; and (c) the Seller's Certificate, the Service Contracts referred to in Section 9.3.6, the Non-foreign Certification;

9.7.4 Deliver the Purchase Price (as adjusted pursuant to Section 9.8) to Seller;

9.7.5 Deliver or mail Tenant Notice Letter to tenants for each Lease.

Escrow Holder shall prepare and sign closing statements showing all receipts and disbursements and deliver copies to Buyer and Seller and, if applicable, shall file with the Internal Revenue Service (with copies to Buyer and Seller) the reporting statement required under Section 6045(e) of the Internal Revenue Code.

9.8 Prorations.

9.8.1 Property Taxes. General real estate taxes, water or sewer rates and charges (if not metered), personal property taxes, or any other governmental tax or charge levied or assessed against the Property (collectively, the "**Taxes**"), relating to the Property and payable during the year in which Closing occurs shall not be prorated between Seller and Buyer in Escrow. Upon recordation of the Grant Deed, Buyer will request cancellation of the real property taxes for the Property pursuant to California Revenue and Taxation Code Section 4986. If current taxes have not yet been paid as of the Closing Date, then at Closing Seller shall pay through Escrow or out of Seller's proceeds, the full amount of the installment applicable for the period in which Closing occurs. Seller shall be entitled to a refund of any excess payment made to the taxing authority on account of the Property, including any taxes paid by Seller and applicable to any period from and after the Closing Date. The taxing authority will notify Seller of any refund due Seller resulting from the subject acquisition after a review and any subsequent proration of the property tax assessment by the county assessor. Seller retains the right, following close of escrow, to apply to the appropriate governmental authority/ies for refund of real property taxes pursuant to Revenue and Taxation Code Section 5096.7 (or such other applicable law), and Buyer shall reasonably cooperate with Seller's efforts to obtain said refund.

9.8.2 Utility Charges. All utility charges shall be prorated as of the Closing Date and Seller shall obtain a final billing therefor. All utility security deposits, if any, shall be retained by Seller.

9.9 Possession. Seller shall deliver exclusive right of possession of the Property to Buyer on the Closing Date, subject only to the Conditions of Title.

ARTICLE 10. DAMAGE, DESTRUCTION AND CONDEMNATION.

This Agreement shall be governed by the Uniform Vendor and Purchaser Risk Act as set forth in Section 1662 of the California Civil Code as supplemented and modified by this Article 10. Seller shall promptly notify Buyer in writing of any material damage to the Property and of any taking or threatened taking of all or any portion of the Property. Within a reasonable period of time after receipt of such notice, Buyer shall determine whether a material part of the Property has been damaged or whether such taking or threatened taking has affected or will affect a material part of the Property. As used herein, (a) the destruction of a "**material part**" of the Property shall be deemed to mean an insured or uninsured casualty to the Property having an estimated cost of repair which in the reasonable judgment of Buyer equals or exceeds $100,000 and (b) a taking by eminent domain of a portion of the Property shall be deemed to affect a "**material part**" of the Property if in the reasonable judgment of Buyer the estimated value of the portion of the Property taken exceeds $100,000. Upon making its determination, Buyer shall notify Seller in writing of the results of such determination. Buyer may elect, by written notice delivered to Seller within 30 days after giving Seller notice of such determination, to terminate this Agreement in accordance with Section 9.6.1 if a material part of the Property has been damaged or if such taking has affected or will affect a material part of the Property. If Buyer does not so terminate, (i) in the case of damage to a material part of the Property, Seller shall assign to Buyer at the Closing its right to recover under any insurance policies covering such damage and shall pay Buyer at the Closing the amount of the deductible, if any, and (ii) in the case of a threatened or actual taking of a material part of the Property, Seller shall assign to Buyer at the Closing Seller's entire right, title and interest in the proceeds thereof. If between the Effective Date and the Closing Date the Property suffers damage which is not material, Seller shall repair such damage at its expense prior to the Closing, and the Closing Date shall be extended for a reasonable period of time not to exceed 30 days to allow for completion of such repairs. The Closing Date shall be extended as necessary to permit Buyer to exercise its rights under this Article 10.

ARTICLE 11. GENERAL.

11.1 Notices. All notices, demands, approvals, and other communications provided for in this Agreement shall be in writing and shall be effective (a) when personally delivered to the recipient at the recipient's address set forth below; (b) three business days after deposit in a sealed envelope in the United States mail, postage prepaid, by registered or certified mail, return receipt requested, addressed to the recipient as set forth below; or (c) one business day after deposit with a recognized overnight courier or delivery service, addressed to the recipient as set forth below, whichever is earlier. If the date on which any notice to be given hereunder falls on a Saturday, Sunday or legal holiday, then such date shall automatically be extended to the next business day immediately following such Saturday, Sunday or legal holiday. Email notices may

be used for convenience only, unless otherwise agreed by the parties in writing, and shall be deemed delivered one (1) business day after delivery if sent after 5 pm, or received the same day if sent on a business day between 8 am and 5 pm, and a duplicate shall be sent via United States mail on the same day as the email.

The addresses for notice are:

SELLER:	City of Coachella 1515 Sixth Street Coachella, CA 92236 Attn: Gabriel Martin, City Manager Email: gmartin@coachella.org
With a copy to:	Best Best & Krieger LLP 74760 Highway 111, Suite 100 Indian Wells, CA 92210 Attn: Carlos Campos Email: carlos.campos@bbklaw.com
BUYER:	Hidden Harvest Corporation Attn: Christy Porter 85-711 Peter Rabbit Coachella, CA 92236 Email: christy@hiddenharvest.org

Either party may change its address by written notice to the other given in the manner set forth above.

11.2 Entire Agreement. This Agreement and the Schedules and Exhibits hereto contain the entire agreement and understanding between Buyer and Seller concerning the subject matter of this Agreement and supersede all prior agreements, including any previous letter of intent or terms, understandings, conditions, representations and warranties, whether written or oral, made by Buyer or Seller concerning the Property or the other matters which are the subject of this Agreement.

11.3 Amendments and Waivers. No addition to or modification of this Agreement shall be effective unless set forth in writing and signed by the party against whom the addition or modification is sought to be enforced. The party benefited by any condition or obligation may waive the same, but such waiver shall not be enforceable by another party unless made in writing and signed by the waiving party.

11.4 Invalidity of Provision. If any provision of this Agreement as applied to either party or to any circumstance shall be adjudged by a court of competent jurisdiction to be void or unenforceable for any reason, the same shall in no way affect (to the maximum extent permissible by law) any other provision of this Agreement, the application of any such provision

under circumstances different from those adjudicated by the court, or the validity or enforceability of this Agreement as a whole.

11.5 References. Unless otherwise indicated, (a) all Article, Section, Schedule and Exhibit references are to the articles, sections, schedules and exhibits of this Agreement, and (b) all references to days are to calendar days. All the Schedules and Exhibits attached hereto are incorporated herein by this reference. Whenever under the terms of this Agreement the time for performance of a covenant or condition falls upon a Saturday, Sunday or California state holiday, such time for performance shall be extended to the next business day. The headings used in this Agreement are provided for convenience only and this Agreement shall be interpreted without reference to any headings. The masculine, feminine or neuter gender and the singular or plural number shall be deemed to include the others whenever the context so indicates or requires.

11.6 Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of California applicable to contracts made and to be performed in California.

11.7 Confidentiality and Publicity. Buyer is a public entity and as such, this Agreement, upon its presentation for approval at Buyer's City council at a duly called and agendized public meeting, shall be subject to the Public Records Act and the Freedom of Information Act. No press release or other public disclosure may be made by Seller or any of its agents regarding Buyer's intent for this Property this transaction without the prior consent of Buyer.

11.8 Time. Time is of the essence in the performance of the parties' respective obligations under this Agreement.

11.9 Attorneys' Fees. In the event of any legal or equitable proceeding to enforce any of the terms or conditions of this Agreement, or any alleged disputes, breaches, defaults or misrepresentations in connection with any provision of this Agreement, the prevailing party in such proceeding shall be entitled to recover its reasonable costs and expenses, including, without limitation, reasonable attorneys' fees and costs of defense paid or incurred in good faith.

11.10 Assignment. This Agreement shall inure to the benefit of and be binding upon the parties hereto and their respective successors and assigns. However, Seller shall not have the right to assign all or any portion of its interest in this Agreement without Buyer's prior written consent. Buyer shall have the right to assign all or any portion of its interest in this Agreement, or substitute for itself a nominee, upon notice to Seller not later than three days prior to the Closing Date.

11.11 Further Assurances. Seller, at any time before or after Closing, shall, at its own expense, execute, acknowledge and deliver any further deeds, assignments, conveyances and other assurances, documents and instruments of transfer reasonably requested by Buyer and shall take any other action consistent with the terms of this Agreement that may reasonably be requested by Buyer for the purpose of transferring and confirming to Buyer, or reducing to Buyer's possession, any or all of the Property or otherwise carrying out the terms of this Agreement.

11.12 Cooperation With Exchange. Buyer agrees to cooperate with the other if Seller intends to accomplish a tax-deferred exchange pursuant to Section 1031 of the Internal Revenue Code of 1986. Buyer and/or Seller may assign this Agreement to an exchange intermediary for the purpose of facilitating such an exchange by the assigning party. Buyer's duty to cooperate shall be limited to the transfer of money to Seller or Seller's designee in exchange for the Property, and in no event shall Buyer act as purchaser or acquirer of any exchange property. Seller shall indemnify and defend and hold Buyer harmless from any claims, loss, damages or liability arising out of participation in an exchange.

11.13 No Third Party Beneficiaries. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies under or by reason of this Agreement on any person other than the parties to it and their respective permitted successors and assigns, nor is anything in this Agreement intended to relieve or discharge any obligation of any third person to any party hereto or give any third person any right of subrogation or action over against any party to this Agreement.

11.14 Remedies Cumulative. The remedies set forth in this Agreement are cumulative and not exclusive to any other legal or equitable remedy available to a party.

11.15 Commissions, Indemnity, Disclosure. Each party represents to the other party that there is no broker representing such party in the current transaction, and that the representing party has incurred no liability for any brokerage commission or finder's fee arising from or relating to the transactions contemplated by this Agreement. Seller shall be responsible for any broker commission associated with this purchase. Each party hereby indemnifies and agrees to protect, defend and hold harmless the other party from and against all liability, cost, damage or expense (including without limitation attorneys' fees and costs incurred in connection therewith) on account of any brokerage commission or finder's fee which the indemnifying party has agreed to pay or which is claimed to be due as a result of the actions of the indemnifying party. This Section 11.15 is intended to be solely for the benefit of the parties hereto and is not intended to benefit, nor may it be relied upon by, any person or entity not a party to this Agreement.

11.16 Counterparts/Facsimile/PDF Signatures. This Agreement may be executed in counterparts and when so executed by the parties, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument that shall be binding upon the parties, notwithstanding that the parties may not be signatories to the same counterpart or counterparts. The parties may integrate their respective counterparts by attaching the signature pages of each separate counterpart to a single counterpart. In order to expedite the transaction contemplated herein, facsimile or .pdf signatures may be used in place of original signatures on this Agreement. Seller and Buyer intend to be bound by the signatures on the facsimile or .pdf document, are aware that the other party will rely on the facsimile or .pdf signatures, and hereby waive any defenses to the enforcement of the terms of this Agreement based on the form of signature.

TRANSFEROR'S CERTIFICATION OF NON-FOREIGN STATUS

Section 1445 of the Internal Revenue Code of 1986, as amended (the "Code"), provides that a transferee of a U.S. real property interest must withhold tax if the transferor is a foreign person. To inform the CITY OF COACHELLA, a California municipal corporation (the "Transferee"), that withholding of tax under Section 1445 of the Code will not be required upon the transfer of a U.S. real property interest to the Transferee by _____ (the "Transferor"), the undersigned hereby certifies the following on behalf of the Transferor:

1. The Transferor is not a foreign corporation, foreign partnership, foreign trust or foreign estate (as those terms are defined in the Code and the Income Tax Regulations promulgated thereunder);

2. The Transferor's U.S. employer identification number is _____; and

3. The Transferor's office address is _____.

The Transferor understands that this Certificate may be disclosed to the Internal Revenue Service by the Transferee and that any false statement contained herein could be punished by fine, imprisonment, or both.

Under penalty of perjury I declare that I have examined this Certification and, to the best of my knowledge and belief, it is true, correct and complete, and I further declare that I have authority to sign this document on behalf of the Transferor.

BILL OF SALE

This Bill of Sale (the "Bill of Sale") is made as of _____, 2023, by HIDDEN HARVEST CORPORATION, a California nonprofit public benefit corporation ("Transferor").

FOR VALUABLE CONSIDERATION, as set forth in that certain Purchase and Sale Agreement dated May __, 2023 (the "Agreement"), Transferor hereby sells, transfers, assigns and delivers to the CITY OF COACHELLA, a California municipal corporation ("Transferee"), any and all personal property (the "Personal Property") located within or used in connection with that certain improved real property commonly known as _____, CA (the "Real Property"). The Personal Property shall include, without limitation, the items described in the personal property inventory attached hereto as Schedule 1.

1. Transferor hereby assigns all warranties, guarantees and indemnities, whether those warranties are express or implied, and all similar rights which Transferor may have against any other manufacturer or supplier of the Personal property or any portion thereof or against any seller, engineer, contractor or builder, in respect of the Personal Property.

2. Transferor warrants that each item of the Personal Property is in good condition, order and repair and suitable for its intended purpose on the date of this Bill of Sale.

3. Transferor at any time at or after the date of this Bill of Sale shall execute, acknowledge and deliver any further deeds, assignments, conveyances and other assurances, documents and instruments of transfer reasonably requested by Transferee, and shall take any other action consistent with the terms of this Bill of Sale that may reasonably be requested by Transferee for the purpose of granting and confirming to Transferee, or reducing to Transferee's possession, any or all of the Personal Property. If requested by Transferee, Transferor further agrees to prosecute or otherwise enforce in its own name for the benefit of Transferee any claims, rights or benefits included in the Personal Property that require prosecution or enforcement in Transferor's name. Transferor also hereby appoints Transferee as its agent to act in Transferor's name and on Transferor's behalf to take any action necessary to effect the transfer of any of the Personal Property to Transferee, or prosecute or otherwise enforce any claims, rights or benefits included in the Personal Property in Transferor's name, including bringing suit in Transferor's name.

4. This Bill of Sale shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, executors, administrators, successors and assigns.

GENERAL ASSIGNMENT

This Assignment (the "Assignment") is dated for reference purposes only as of _____, 2023, by HIDDEN HARVEST CORPORATION, a California nonprofit public benefit corporation ("Assignor").

FOR VALUABLE CONSIDERATION, as set forth in that certain Agreement of Purchase and Sale and Joint Escrow Instructions dated _____, 2023 (the "Agreement"), Assignor hereby assigns and transfers to the CITY OF COACHELLA, a California municipal corporation ("Assignee"), following:

A. All equipment leases, service and/or maintenance agreements and contracts relating to the Real Property (collectively, the "Contracts");

B. All permits, licenses, consents, registrations and other similar approvals applicable to the Real Property (collectively, the "Approvals");

C. All as-built plans and specifications for: (1) the Real Property; (2) any and all improvements used in connection with the operation or occupancy of the Real Property or located upon the Real Property (the "Improvements"); and (3) any and all personal property owned by Assignor located within or used in connection with the operation of the Real Property and Improvements (the "Personal Property") (collectively, the "Plans"); and

D. All warranties of which Assignor is the beneficiary (the "Warranties") with respect to the Improvements or Personal Property.

This Assignment shall not supersede the Agreement and, in the event of conflict between this Assignment and the Agreement, the Agreement shall control.

This Assignment shall be binding upon and inure to the benefit of Assignor and Assignee and their respective heirs, executors, administrators, successors and assigns.

This Assignment shall take effect the last to occur of the following: (i) full execution by all parties and Lessor's consent, as shown by the last date entered below the parties' signatures and (ii) upon the consummation of the transaction between Assignee and Assignor

IN WITNESS WHEREOF, Assignor has executed this Assignment as of the date first above written.

Service Contracts

RESOLUTION NO. 2023-46

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF COACHELLA, CALIFORNIA, APPROVING A 5 YEAR LEASE AGREEMENT WITH THE HIDDEN HARVEST CORPORATION FOR CONTINUATION OF OPERATIONS AT THE 2.09 ACRE PARCEL IDENTIFIED AS ASSESSOR PARCEL NUMBER (APN) 778-030-012.

WHEREAS, the City of Coachella staff (buyer) negotiated the purchase and sale of a 2.09 acre parcel at 85-711 Peter Rabbit Lane (APN 778-030-012), with an approximately 17,800 sq. ft. industrial packinghouse building owned by the Hidden Harvest Corporation, a nonprofit organization (seller).

WHEREAS, on or about August 27, 2022, the City obtained a preliminary property appraisal for the Site, which appraisal indicates that the Site is worth approximately $890,000.00; and

WHEREAS, on or about March 16, 2023, Buyer provided an offer letter to the City to purchase the Site for $900,000; and

WHEREAS, the City desires to accept the offer from Buyer, as described in the Purchase and Sale Agreement, attached hereto and incorporated herein by reference as Exhibit A (the "PSA"); and

WHEREAS, the Seller as a stipulation of the sale of the subject parcel to the City of Coachella (buyer) requests to continue to lease office and cold storage space from the City of Coachella at the subject site to continue its mission of gathering and distributing produce to low-income families of the Coachella Valley for a term of 5 years, as described in the Lease Agreement, attached hereto and incorporated herein by reference as Exhibit A (the "Lease Agreement"); and

WHEREAS, on June 21, 2023 the City Council considered the lease agreement at a regular scheduled City Council meeting; and

WHEREAS, all other legal prerequisites to the adoption of this Resolution have occurred.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF COACHELLA DOES HEREBY FIND, DETERMINE AND RESOLVE AS FOLLOWS:

SECTION 1. Recitals. All of the above recitals are true and correct and incorporated herein by reference.

SECTION 2. Findings. The City Council hereby finds and declares that the lease of the parcel is consistent with the General Plan 2035 as the site under lease terms with Hidden Harvest will facilitate General Plan implementation actions for the creation of edible landscapes, community gardens and composting education, gardening tools and resources, emergency food, and agricultural education park.

SECTION 2. Approval. The City Council hereby approves lease of the Site to Hidden Harvest Corporation for valuable consideration and approves the related lease agreement as enclosed as Exhibit A. The City Council hereby finds that the lease of the Site to Hidden Harvest Corporation is in the best interest of the City for the above stated reasons.

SECTION 3. Signature Authority. The Mayor is authorized to take any and all actions necessary to facilitate the purposes of this Resolution including, without limitation, execution of the lease agreement and any documents required for recording in the Recorder's office for the County of Riverside.

SECTION 4. CEOA. The City Council finds that the approval of this Resolution is not subject to the Califomia Environmental Quality Act ("CEQA") pursuant to Sections 15060(c)(2), the activity will not result in a direct or reasonably foreseeable indirect physical change in the environment.

SECTION 5. Effective Date. This Resolution shall take effect upon adoption by the City Council.

LEASE

1. **PARTIES**. This lease ("Lease") is entered into as of the date on which this Lease is fully executed by the parties as indicated on the signature page ("Effective Date"), by and between the CITY OF COACHELLA, a municipal corporation organized and existing under the laws of the State of California, hereinafter described as landlord ("Landlord") and the HIDDEN HARVEST CORPORATION, a California nonprofit public benefit corporation, as tenant ("Tenant").

2. **PREMISES**.

2.1 Landlord hereby leases to Tenant and Tenant leases from Landlord a portion of the real property located at 85-711 Peter Rabbit Lane, Coachella, California (APN 778-030-012), consisting of office space and industrial cooler space, as more particularly described on Exhibit A.1 attached hereto, and all existing improvements thereon (hereinafter the "Premises").

2.2 Landlord covenants and warrants that as long as Tenant is not in default of the terms of this Lease, Tenant shall have quiet and peaceful possession of the Premises and shall enjoy all the rights herein granted without interference, subject to the limitations, reservations and conditions set forth herein.

3. **TERM**. The term ("Term") of this Lease shall commence on _____, 2023 ("Commencement Date") for a term of five (5) years, unless sooner terminated as provided herein.

4. **RENT**. The initial rent of this Lease ("Rent") shall be one and no/100 dollars ($1.00) per year, payable in advance on the first day of each year commencing on the Commencement Date and thereafter on each anniversary of the Commencement Date.

5. **USE**.

5.1 The Premises shall be used and occupied by Tenant and its employees for office and industrial cooler space relating to the storage and distribution of food to underserved families in the Coachella Valley in accordance with Tenant’s mission. Tenant acknowledges and agrees that in entering into this Lease, it is not relying on any representations of Landlord or any of its officers, agents or employees for permission for any use beyond that expressly provided herein. The Premises shall not be used for any other unrelated use without the prior written consent of Landlord, which may be withheld in Landlord's sole and absolute discretion. Tenant shall be solely responsible for obtaining any permits necessary to allow such use prior to occupancy of the Premises.

5.2 As the prior owner of the Premises, Tenant shall be deemed to have examined and determined the condition of the Premises and have accepted the present condition and repair. Landlord makes no representation or warranty concerning the condition of the Premises or its fitness for use for the purposes described above Tenant assumes all responsibility and all costs of making any tenant improvements, alterations, refurbishment and repairs which may be necessary or appropriate for Tenant's use and occupancy.

5.3 Tenant shall promptly comply with all applicable statutes, ordinances, rules, regulations, orders and requirements of any governmental agency in effect during the Term or any part of the Term of this Lease regulating Tenant's use of the Premises. Without limiting the generality of the foregoing, Tenant shall, at Tenant's sole cost and expense, comply with all applicable laws, ordinances and regulations with respect to any and all required permits for operation of the Premises for its intended purpose. Tenant shall also promptly comply with all reasonable rules and requirements issued by Landlord during the term of this Lease, so long as such rules and requirements are in conformity with common practice and usage in similar property, are not inconsistent with the provisions of this Lease, or Tenant's permitted use of the Premises, and providing further that a written copy thereof is received by Tenant sufficiently in advance of the time any new rule is effective. Tenant shall not use or permit the use of the Premises in any manner that will tend to create waste or a nuisance or use the Premises for any unlawful or hazardous purpose.

5.4 Tenant agrees that its use of the Premises shall be conducted in compliance with all applicable state, local and federal laws, and regulations.

6. MAINTENANCE, REPAIRS AND ALTERATIONS.

6.1 The obligations and duties enumerated below which require Tenant to repair and maintain the Premises are a part of the consideration for Landlord's renting the Premises:

(a) Except as otherwise expressly provided herein, Tenant shall, at Tenant's expense, keep and maintain the Premises and every part thereof in good order, condition and repair (normal wear and tear excepted), including without limitation, all plumbing, structural components, the exterior of the building, including exterior walls, exterior doors and window frames, gutters and downspouts, parking lot surface and lighting, heating, ventilation and air conditioning systems, and wiring and plumbing within the walls and floors and equipment within the Premises, fixtures, interior walls and interior surfaces of exterior walls, ceilings, windows, doors, plate glass and industrial coolers located within the Premises. Tenant shall maintain all exterior landscaping in a pleasing condition.

(b) If Tenant fails to perform Tenant's obligations under Section 6.1, Landlord may, at Landlord's option, enter upon the Premises if Tenant fails to cure the deficiency after ten (10) days prior written notice to Tenant, and put the same in good order, condition and repair, to the same condition as when accepted by Tenant pursuant to Section 5.2 above, and the reasonable cost of such repair shall be due and payable within thirty (30) days of written request by Landlord, provided Landlord has provided Tenant at least ten (10) days written notice and reasonable opportunity for cure and submits copies of detailed invoices or receipts for the cost of such repairs.

(c) Landlord shall be responsible for any capitalized repairs that may be required to the roof of Premises (but not regular maintenance) during the term of this Lease.

(d) On the last day of the term or any extended term of this Lease or on any sooner termination, Tenant shall surrender the Premises to Landlord in as good a condition as received, broom clean, ordinary wear and tear excepted. Landlord shall inspect the Premises on Tenant's departure

and notice Tenant in writing of Landlord's requirements to return the Premises to good condition, ordinary wear and tear excepted.

(e) Tenant shall promptly give Landlord written notice of any damage, destruction or deterioration of or to the Premises, including without limitation the discharge by Tenant of any hazardous materials which are not immediately and completely remedied by Tenant.

(f) Notwithstanding anything herein to the contrary, in the event Landlord commences on a major rehabilitation of the building which includes the Premises (the "Rehabilitation Project"), Tenant shall thereafter only be responsible to maintain the Premises (and not the remainder of the building); provided further that Tenant shall not be required to maintain the Premises during any period the Tenant has been relocated from the Premises pursuant to Section 12.

6.2.

(a) Tenant agrees not to make any alterations of, changes in or additions to the Premises without the prior written consent of Landlord, which shall not be unreasonably withheld. Any request for alteration should also inquire as to whether such alterations will be required to be removed by Tenant at the end of the Term, or alternatively whether such alteration may remain on the Premises. Tenant agrees that should Landlord give written consent, unless otherwise agreed in writing, all such alterations, additions and improvements, including fixtures, made in, to or on the Premises shall be made at the sole cost and expense of Tenant and shall (except for unattached movable personal property not the property of Landlord) be the property of Landlord and shall remain upon and be surrendered with the Premises, except that if Landlord requires it at the end of the Term, Tenant shall restore the Premises to the same condition as before the alterations, entirely at Tenant's cost and expense.

(b) Tenant covenants and agrees to indemnify, defend and hold harmless Landlord and the Premises from all claims, liens or demands arising out of any work performed, materials furnished, or obligations incurred by or for Tenant upon the Premises during the term.

(c) All work done by Tenant under these provisions shall be done in a good and workmanlike manner, and in compliance with all applicable laws and all ordinances, regulations and orders of governmental authority, including but not limited to Labor Code Section 1720 et seq.

(d) Upon completion of tenant improvement plans, if any, Tenant shall promptly provide Landlord, at no cost to Landlord, with copies of all engineering, architectural and/or mechanical plans and specifications and original final building permits for all alterations, modification and repairs to the Premises by Tenant.

(e) Pursuant to California Civil Code § 1938(a), Landlord hereby states that the Premises have not undergone inspection by a Certified Access Specialist (CASp) (defined in California Civil Code § 55.52). Accordingly, pursuant to California Civil Code § 1938(e), Landlord hereby further states as follows: "A Certified Access Specialist (CASp) can inspect the subject premises and determine whether the subject premises comply with all of the applicable construction-related accessibility standards under state law. Although state law does not require a CASp inspection of the subject premises, the commercial property owner or lessor may not prohibit the lessee or tenant from obtaining a CASp inspection

of the subject premises for the occupancy or potential occupancy of the lessee or tenant, if requested by the lessee or tenant. The parties shall mutually agree on the arrangements for the time and manner of the CASp inspection, the payment of the fee for the CASp inspection, and the cost of making any repairs necessary to correct violations of construction-related accessibility standards within the premises." In accordance with the foregoing, Landlord and Tenant agree that if Tenant obtains a CASp inspection of the Premises, then Tenant shall pay (i) the fee for such inspection, and (ii) the cost of making any repairs necessary to correct violations of construction-related accessibility standards within the Premises.

7. **INSURANCE**.

7.1 Property Insurance.

Tenant shall obtain and maintain property casualty insurance covering the full replacement cost of the improvements on the Premises, less a deductible not to exceed $10,000.00. The Premises may be included in a blanket policy. Landlord shall be named as an additional insured or loss payee, as applicable, on the policy of casualty insurance maintained by Tenant pursuant to this Section 7.1. Notwithstanding anything herein to the contrary, in the event Landlord commences on the Rehabilitation Project, Landlord shall thereafter maintain property casualty insurance covering the full replacement cost of the improvements on the Premises (excluding any personal property of Tenant).

7.2 Commercial General Liability Insurance.

Tenant shall, during the term of this Lease and at no expense to Landlord, maintain commercial general liability insurance, including products liability and completed operations, and contractual liability coverage, not less than Two Million Dollars ($2,000,000) per occurrence, and not less than Two Million Dollars ($2,000,000) annual aggregate. This insurance shall be per occurrence policy. The policy shall also cover Operations, Independent Contractors, Products and Completed Operations, Contractual Liability covering Tenant's indemnity obligations contained in Section 13 herein, severability of interest and cross liability clauses. The limits of liability of the insurance coverage specified in this paragraph may be provided by any combination of primary and excess liability policies carried by Tenant. Certificate of insurance must be presented prior to Tenant moving into the Premises.

7.3 Automobile Liability Insurance.

Tenant shall, during the term of this Lease and at no expense to Landlord, maintain business automobile insurance, not less than One Million Dollars ($1,000,000) per occurrence, combined single limit. This insurance shall be a per occurrence policy. The limits of liability of the insurance coverage specified in this paragraph may be provided by any combination of primary and excess liability policies carried by Tenant. Certificate of insurance must be presented prior to Tenant moving into Premises.

7.4 Additional Insured Endorsement.

Under the commercial general liability and automobile liability insurance required in Sections 7.1 and 7.2 above, Landlord, its officers, agents and employees shall be named as additional insured by endorsement and as to such additional insured, the insurance shall be primary and the policies

shall contain by endorsement a cross Liability clause. All coverage types and limits required are subject to approval, modification and additional requirements by the Landlord, as the need arises.

7.5 Workers' Compensation and Employer's Liability Insurance.

Tenant shall, during the term of this Lease and at no expense to Landlord, maintain workers' compensation insurance, as required by law, and employer's liability insurance at a minimum limit of One Million Dollars ($1,000,000) for all Tenant's employees.

7.6 Tenant's Property, Fixtures and Equipment.

During the Term of this Lease, Tenant shall maintain, at Tenant's expense, a policy of insurance covering loss or damage to all personal property of Tenant. Except to the extent caused by Landlord, its employees, agents, contractors, guests or invitees, Tenant agrees that it shall bear the risk of damage to (or loss of) any furniture, equipment, machinery, cooler, goods, supplies, fixtures, or other items whether they are or remain the property of Tenant, or to remain with the Premises in favor of Landlord at the end of the Term.

7.7 Certificates,

The insurance required by Paragraphs 7.1, 7.2, 7.3, 7.5, and 7.6 above shall be evidenced by a certificate or certificates submitted to Landlord which shall be executed by the insurance company or companies involved and which shall state that this insurance may not be terminated without 30 days prior written notice being received by Landlord, or ten (10) days for non-payment. The certificate(s) shall be submitted to Landlord before or at the time Tenant is entering into use of Premises. All insurance coverage and limits provided hereunder and available or applicable to this Lease are intended to apply to the full extent of the policies. Nothing contained in this Lease limits the application of such insurance coverage.

7.8 Except to the extent caused by the active negligence or intentional misconduct of Landlord, its employees, agents, contractors, guests or invitees, Tenant agrees that Landlord shall not be liable for injury to Tenant's business or any loss of income therefrom or damages to the goods, wares, merchandise or other property of Tenant, Tenant's employees, invitees, contractors or any other person on or about the Premises by or through Tenant, nor shall Landlord be liable for injury to the person of Tenant's employees, agents, or contractors whether such damage or injury is caused by or results from fire, steam, electricity, water or rain, or from breakage, leakage, obstruction or other defects of pipes, sprinklers, wires, appliances, plumbing, air conditioning or lighting fixtures, or from any other cause.

7.9 Tenant agrees to pay for all damage to the Premises caused by Tenant, its agents, servants, employees or invitees misuse or neglect of said Premises and its apparatus and appurtenances.

8. **DAMAGE OR DESTRUCTION**.

8.1 In the event of damage or destruction of the Premises during the Term of the Lease, Landlord shall, to the extent of available insurance proceeds, repair the damage to the Premises, provided such repairs can be made within sixty (60) days under the laws and regulations of state, federal, county or municipal authorities, but such destruction shall in no way annul or void this Lease except if such damage

or destruction is without fault of Tenant and/or Tenant's agents, employees and invitees, in which case Tenant may opt to terminate the Lease immediately. Tenant shall be entitled to a reduction of Rent while such repairs are made proportionate to the extent to which the repair operations interfere with Tenant's business conducted on the Premises. If the repairs cannot be made in sixty (60) days, either party has the option to terminate this Lease. Landlord shall provide Tenant with written notice of Landlord's election to terminate within thirty (30) days after such damage or destruction. If Landlord elects to repair and restore the Premises, but fails to do so within sixty (60) days of-the event causing the damage, Tenant may elect to terminate the Lease. Tenant shall not be responsible for Lease payments during the time the Premises were unusable or following termination.

8.2 If the damage or destruction does not result from a peril for which insurance is required to be carried pursuant to Section 7, Landlord may at its sole election either repair and restore the Premises or terminate this Lease. Provided, however, that Tenant may elect to restore the Premises to substantially the same condition as they were in immediately before destruction at Tenant's cost in which event such damage or destruction shall not terminate this Lease. Tenant shall restore the Premises if the destruction is caused by the negligence of Tenant.

8.3 Notwithstanding anything in this Lease to the contrary, if at any time during the term of this Lease any governmental agency having jurisdiction over the Premises, other than Landlord, shall require the making of any repairs, improvements or alteration to the building or Premises:

(a) Landlord may, but shall not be required to, elect, in Landlord's sole and absolute discretion, to make said repairs, improvements or alterations to the Premises, in which event the Lease shall continue in full force and effect;

(b) If Landlord, in Landlord's sole and absolute discretion, elects not to make said repairs, improvements or alterations to the Premises, then Tenant shall have the right, at Tenant's sole option and at Tenant's sole cost and expense, to make such repairs, improvements or alternations and to continue the Lease in full force and effect; or

(c) If neither Tenant or Landlord elects to make such repair, improvements or alteration, then, Tenant shall be required to vacate and surrender to Landlord such portion of the building(s) or Premises (together with exclusive or non-exclusive access thereto) upon which the repairs or alterations are required without making such repairs or alterations, and continue the Lease in effect as to the balance of the Premises but with a proportionate reduction, adjustment or abatement of the Rent or other charges due hereunder, if any. However, if Tenant determines that the remaining available portion of the Premises is inadequate for Tenant's permitted use of the Premises, Tenant may terminate the Lease and neither party shall have any further liability to the other.

9. **UTILITIES**. Tenant shall pay for gas, water, sewer, garbage collection service, telephone and other communication services supplied to the Premises, which are separately metered to the Premises; provided, however, that Landlord shall pay for the cost of water and power for the Premises, provided such water and power consumption is reasonable and customary for Tenant's operations at the Premises. Landlord shall not be responsible to Tenant for any disruption, decrease or loss in utility services not within the control of Landlord. Tenant shall ensure that the garbage collection services will provide sufficient

container capacity and sufficient frequency of collection to ensure that the Premises are maintained in a safe and sanitary condition in compliance with applicable health and safety laws and regulations.

10. **SURRENDER OF PREMISES; HOLDING OVER**. On the termination or the end of any extension or renewal of this Lease, Tenant shall promptly surrender and deliver the Premises to Landlord in as good condition as they are now at the date of this Lease, but including the installation of all improvements, equipment and fixtures, reasonable wear and tear excepted. At the end of the Term or any extension thereof, should Tenant hold over for any reason, it is agreed that in the absence of a written agreement to the contrary, that tenancy shall be from month-to-month only and not a renewal of this Lease, nor an extension for any further term. Tenant shall pay a monthly amount equal to One Hundred Twenty-Five Percent (125%) of the Rent payable prior to the end of the Term and the month-to-month tenancy shall be subject to every other term, covenant, and condition in this Lease that is consistent with and not contrary to a month-to-month tenancy.

11. **HAZARDOUS MATERIALS**.

11.1 Hazardous Materials Laws. "Hazardous Materials Laws" means any and all federal, state or local laws, ordinances, rules, decrees, orders, regulations or court decisions relating to hazardous substances, hazardous materials, hazardous waste, toxic substances, environmental conditions on, under or about the Premises, or soil and ground water conditions, including, but not limited to, the Comprehensive Environmental Response, Compensation and Liability Act of 1980 ("CERCLA"), as amended, 42 U.S.C. § 9601, et seq., the Resource Conservation and Recovery Act (“RCRA"), 42 U.S.C. § 6901, et seq., the Hazardous Materials Transportation Act, 49 U.S.C. § 1801, et seq., the California Hazardous Waste Control Act, Cal. Health and Safety Code §25100, et seq., the Carpenter-Presley-Tanner Hazardous Substances Account Act, Cal. Health and Safety Code §25300, et seq., the Safe Drinking Water and Toxic Enforcement Act, Cal. Health and Safety Code §25249.5, et seq., the Porter-Cologne Water Quality Control Act, Cal. Water Code § 13000, et seq., any amendments to the foregoing, and any similar federal, state or local laws, ordinances, rules, decrees, orders or regulations.

11.2 Hazardous Materials. "Hazardous Materials" means any chemical, compound, material, substance or other matter that: (a) is defined as a hazardous substance, hazardous material, hazardous waste or toxic substance under any Hazardous Materials Law; (b) is controlled or governed by any Hazardous Materials Law or gives rise to any reporting, notice or publication requirements hereunder, or gives rise to any liability, responsibility or duty on the part of Tenant or Landlord with respect to any third person hereunder; or (c) is flammable or explosive material, oil, asbestos, urea formaldehyde, radioactive material, nuclear medicine material, drug, vaccine, bacteria, virus, hazardous waste, toxic substance, or related injurious or potentially injurious material (by itself or in combination with other materials).

11.3 Use. Tenant shall not allow any Hazardous Material to be used, generated, manufactured, released, stored or disposed of on, under or about, or transported from, the Premises, unless: (a) such use is specifically required in the ordinary course of Tenant's business operations on the Premises; and (b) such use is conducted in compliance with the provisions of this Section 12, and further provided that Tenant shall handle, use, store and dispose of such Hazardous Materials in a safe and lawful manner and shall not allow such Hazardous Materials to contaminate the Premises.

11.4 Compliance With Laws; Handling of Hazardous Materials. Tenant shall strictly comply with, and shall maintain the Premises in compliance with, all Hazardous Materials Laws. Tenant shall obtain, maintain in effect and comply with the conditions of all permits, licenses and other governmental approvals required for Tenant's operations on the Premises under any Hazardous Materials Laws, including, but not limited to, the discharge of appropriately treated Hazardous Materials into or through any sanitary sewer serving the Premises and the use of private disposal service licensed to remove, transport and dispose of Hazardous Materials. At Landlord's request, Tenant shall deliver copies of, or allow Landlord to inspect, all such permits, licenses and approvals. All Hazardous Materials removed from the Premises shall be removed and transported by duly licensed haulers to duly licensed disposal facilities, in compliance with all Hazardous Materials Laws. Tenant shall perform any monitoring, investigation, clean-up, removal, detoxification, preparation of closure or other required plans and any other remedial work (collectively, "Remedial Work") required as a result of any release or discharge of Hazardous Materials affecting the Premises or any violation of Hazardous-Materials Laws by Tenant or any successor or sublessee of Tenant or . their respective agents, contractors, employees, licensees or invitees. Landlord shall have the right in Landlord's sole and absolute discretion (but not the obligation) to intervene at Tenant's cost and expense, in any governmental action or proceeding involving any Remedial Work, and to review and approve performance of the Remedial Work, in order to protect Landlord's interests. Tenant shall not enter into any settlement agreement, consent decree or other compromise with respect to any claims relating to Hazardous Materials without notifying Landlord in writing and providing ample opportunity for Landlord to intervene.

11.5 Notice: Reporting. Tenant shall notify Landlord, in writing, and provide copies of any written notices or related correspondence received by Tenant within three (3) business days after any of the following: (a) Tenant has knowledge, or has reasonable cause to believe, that any Hazardous Material has been released, discharged or is located on, under or about the Premises, whether or not the release or discharge is in quantities that would otherwise be reportable to a public agency; (b) Tenant receives any order of a governmental agency requiring any Remedial Work pursuant to any Hazardous Materials Laws; (c) Tenant receives any warning, notice of inspection, notice of violation or alleged violation, or Tenant receives notice or knowledge of any proceeding, investigation of enforcement action, pursuant to any Hazardous Materials Laws; or (d) Tenant receives notice or knowledge of any claims made or threatened by any third party against Tenant or the Premises relating to any loss or injury resulting from Hazardous Materials. If the potential risk of any of the foregoing events is material, Tenant shall deliver immediate oral notice to Landlord, in addition to written notice as set forth above. Tenant shall promptly deliver to Landlord copies of all test results, reports and business or management plans required to be filed with any governmental agency pursuant to any Hazardous Materials Laws.

11.6 Indemnity. Tenant shall indemnify, protect, defend and hold harmless Landlord (and its officers, directors, employees and agents) from and against any and all liabilities, claims, suits, judgments, actions, investigations, proceedings, costs and expenses (including reasonable attorneys' fees and court costs) to the extent arising out of or in connection with any breach of any provisions of this Section 11 or directly or indirectly arising out of the use, generation, storage, release, disposal or transportation of Hazardous Materials by Tenant, or any successor or sublessee of Tenant, or their respective agents, contractors, employees, licensees, or invitees, on, under or about the Premises, including, but not limited to, all foreseeable and unforeseeable consequential damages and the cost of any Remedial Work. Neither the consent by Landlord to the use, generation, storage, release, disposal or transportation of Hazardous Materials nor the strict compliance with all Hazardous

Materials Laws shall excuse Tenant from Tenant's indemnification obligations pursuant to this Section 11. Tenant's indemnity obligation in this paragraph does not extend to any liabilities, claims, suits, judgments, actions, investigations, proceeds, costs or expenses arising out of or in connection with Landlord's active negligence, or· breach of any provision of this Lease, or non-compliance with or violation of any Hazardous Material Laws. The foregoing indemnity shall be in addition to and not a limitation of the indemnification provisions of Section 13 of this Lease. Tenant's obligations pursuant to this Section 12 shall survive the termination or expiration of this Lease.

12. **RELOCATION**. In the event Landlord is able to obtain sufficient funding sources to rehabilitate the building which includes the Premises during the Term, upon prior written notice to Tenant, Landlord shall have the right to perform such rehabilitation work and (i) avoid performing such work within the Premises; (ii) if only Tenant's office space will be affected by such rehabilitation, relocate Tenant's offices to temporary accommodations either on-site or offsite as reasonably determined by Landlord, or (iii) relocate Tenant's offices, including provisions for vehicle parking and access to an industrial cooler, to temporary accommodations offsite as reasonably determined by Landlord; provided, however, if Landlord in the exercise of its reasonable judgment is unable to locate a feasible relocation site at a reasonable expense, Landlord shall have the right to (a) request Tenant to vacate the Premises (or such portion as requested by Landlord) during the period of the Rehabilitation Project, or (b) terminate this Lease, in either case on ninety (180) days written notice to Tenant, and Tenant shall promptly comply with such notice. Such relocation will be effective on a date specified by Landlord in its relocation notice, which date will not be less than sixty (60) days after the date of such notice. If Landlord relocates Tenant, Landlord will reimburse Tenant for Tenant's reasonable out-of-pocket expenses for relocating to and from such temporary accommodations. Upon completion of any such rehabilitation of the building, Tenant may return to and utilize the Premises for the remainder of the Term. Notwithstanding anything herein to the contrary, Landlord shall not be responsible for the cost of any temporary accommodations beyond the date of which the rehabilitation of the building has been completed and the Premises have been made available to Tenant for occupancy. Landlord's exercise of its rights as permitted by this Section shall not (a) constitute a constructive eviction, an interference with Tenant's right of quiet enjoyment, or a disturbance of Tenant's right to use the Premises; and (b) subject Landlord to damages, including, but not limited to, damages for loss of goodwill, business, or profits. Time is of the essence with respect to Tenant's obligations under this Section.

13. **INDEMNITY.** Tenant agrees to indemnify and defend Landlord from any claims, demands, causes of action and liability of any nature and any reasonable expense incident to the defense, for injury to or death of persons or loss of or damage to property occurring on or about the Premises arising out of or resulting from Tenant's use, and use its employees, contractors, invitees and guests, and occupation of the Premises or the condition of the Premises (unless the condition is one for which Landlord has expressly assumed the responsibility for remedying), during the Term, excepting only that caused by the active negligence or intentional misconduct of Landlord, its officers, agents, licensees, invitees, volunteers, or employees.

14. **ASSIGNMENT AND SUBLETTING**. Tenant shall not voluntarily or by operation of law assign, transfer, mortgage, sublet or otherwise transfer or encumber ("transfer") all or any part of Tenant's interest in this Lease or in the Premises, except with the prior written consent of the Landlord. Any attempt at transfer of this Lease or the Premises shall be voidable at the Landlord's option and shall constitute a material breach of this Lease..

15. **DEFAULT**.

15.1 The occurrence of any of the following events shall constitute a material default and breach of this Lease by Tenant:

(a) Vacation or abandonment of the Premises for a period of ninety (90) days or longer, unless the Premises have become unusable for Tenant's permitted use as set forth in Section 5, above.

(b) The failure by Tenant to make any payment of Rent or other payment required to be made by Tenant under the provisions of this Lease, as and when due, unless otherwise excused under Section 8 above.

(c) The failure by Tenant to observe or perform any of the covenants, conditions or provisions of this Lease to be observed or performed by Tenant within thirty (30) days after receiving written notice thereof, or if such breach cannot be cured within said thirty (30) day period, then the failure to commence cure within said thirty (30) day period and thereafter diligently pursue to completion.

(d) Transfer or attempted transfer of this Lease by Tenant contrary to the provisions of Section 14 above.

15.2 Upon the happening of any such event of default, Landlord shall have the following remedies. These remedies are not exclusive; they are cumulative in addition to any remedies now or later allowed by law:

(a) Landlord can continue this Lease in full force and effect and this Lease will continue in effect as long as Landlord does not terminate Tenant's right to possession, and Landlord shall have the right to collect rent when due. During the period Tenant is in default, Landlord can enter the Premises and re-let them, or any part of them, to third parties for Tenant's account. Tenant shall pay to Landlord the rent due under this Lease on the dates the rent is due, less the rent Landlord receives from any reletting. No act by Landlord allowed by this paragraph shall terminate this Lease unless Landlord notifies Tenant that Landlord elects to terminate this Lease. After Tenant's default and for as long as Landlord does not terminate Tenant's right to possession of the Premises, if Tenant obtains Landlord's consent Tenant shall have the right to assign or sublet its interest in this Lease, but Tenant shall not be released from liability. Landlord's consent to a proposed assignment or subletting shall not be unreasonably withheld. If Landlord elects to re-let the Premises as provided in this paragraph, rent that Landlord receives from reletting shall be applied to the payment of:

(i) First, any indebtedness from Tenant to Landlord other than rent due from Tenant;

(ii) Second, Rent due and unpaid under this Lease. After deducting the payments referred to in this paragraph, any sum remaining from the Rent Landlord receives from reletting shall be held by Landlord and applied in payment of future Rent as Rent becomes due under this Lease. In no event shall Tenant be entitled to any

excess Rent received by Landlord.

(b) Landlord can terminate Tenant's right to possession of the Premises at any time. No act by Landlord other than giving notice to Tenant shall terminate this Lease. Acts of maintenance, efforts to relet the Premises or the appointment of a.receiver on Landlord's initiative to protect Landlord's interest under this Lease shall not constitute a termination of Tenant's right to possession. On termination, Landlord has the right to recover from Tenant:

(i) The worth, at the time of the award, of the unpaid rent that had been earned at the time of termination of this Lease;

(ii) The worth, at the time of the award, of the amount by which the unpaid rent that would have been earned after the date of termination of this Lease until the time of award exceeds the amount of the loss of rent that Tenant proves could have been reasonably avoided;

(iii) The worth, at the time of the award, of the amount by which the unpaid rent for the balance of the term after the time of award exceeds the amount of the loss of rent that Tenant proves could have been reasonably avoided; and

(iv) Any other amount, and court costs, necessary to compensate Landlord for all detriment proximately caused by Tenant's default.

"The worth, at the time of the award," as used in (i) and (ii) of this paragraph, is to be computed by allowing interest at the maximum rate allowable by law. "The worth, at the time of the award," as referred to in (iii) of this paragraph, is to be computed by discounting the amount at the discount rate of the Federal Reserve Bank of San Francisco at the time of the award, plus one percent (1%).

(c) Landlord, at any time after Tenant commits a default, may cure the default at Tenant's cost following not less·than thirty (30) days prior written notice and opportunity to cure.

16. **CONDEMNATION**.

16.1 If any part of the Premises are condemned for a public or quasi-public use by right of eminent domain, with or without litigation, or transferred by agreement in connection with such public or quasi-public use, by a public agency other than Landlord, this Lease and the leasehold estate of the Tenant, as to the part taken, shall terminate as of the date title shall vest in the condemner, and Tenant shall have no further-obligation to pay Rent once Tenant is no longer in possession of the Premises.

16.2 All compensation awarded upon such condemnation or taking shall belong and be paid to Landlord and Tenant shall have no claim thereto, and Tenant hereby irrevocably assigns and transfers to Landlord any right to compensation or damages to which Tenant may become entitled during the Term of this Lease by reason of the condemnation of all or part of the Premises, except that Tenant shall receive from the award: (i) the pro rata value of Tenant's additions, alterations and improvements as determined by the same appraiser establishing the value of the Premises for Landlord;

(ii) the value of Tenant's trade fixtures to the extent taken; and (iii) in the event of a partial taking and Tenant restores the Premises, Tenant shall receive a sum attributable to that portion of the award constituting severance damages for the restoration of the Premises. In addition, Tenant shall not be deprived of making any direct claims against the condemning Landlord for loss of goodwill and/or relocation assistance payments.

17. **MISCELLANEOUS**.

17.1 Whenever any notice, approval, consent, request or election is given or made pursuant to this Lease, it shall be in writing. Communication and payments shall be addressed, if to Landlord, at Landlord's address as indicated below or at such other address as may have been specified by prior notice to Tenant, and if to Tenant, at Tenant's address as indicated below or at such other place as may have been specified by prior notice to Landlord. Any communication so addressed shall be deemed duly served when (i) personally served, (ii) if mailed, as of seventy two hours from the time such notice was deposited in the U.S. Mail, by registered or certified mail, return receipt requested, or (iii) if by email, when such email is received (unless given after 5:00 pm in the receiving location, in which case such receipt shall be deemed the next business day).

LANDLORD:

Email: christy@hiddenharvest.org and sallyrsimonds@gmail.com

17.2 Each party hereunder shall provide to the other, and keep updated in the event of any change, the name and contact information for the on-site representative in order to facilitate the coordination of day-to-day operations at the Premises.

17.3 The receipt by Landlord of Rent or additional rent with knowledge of the breach of any covenant of this Lease shall not be deemed a waiver of such breach. No provision of this Lease shall be deemed to have been waived by Landlord, or by Tenant, unless such waiver is in writing signed by the party to be charged. No consent or waiver, express or implied, by Landlord or Tenant to or of any breach of any agreement or duty shall be construed as a waiver or consent to or of any other breach of the same or any other agreement or duty.

17.4 If any term of this Lease shall to any extent be invalid or unenforceable, the remainder of this Lease shall not be affected thereby and each term of this Lease shall he valid and enforceable to the fullest extent permitted by law.

17.5 Landlord and its agents shall have the right at any time, upon not less than twenty-four hours notice, except in cases where Landlord believes there exists an emergency in which case such notice shall be deemed waived, to enter upon the Premises, provided that Landlord shall take all reasonable measure to assure that such entry does not interfere with the activities of Tenant on the Premises. Entry may be had for purposes of inspection, serving or posting notices, maintaining the Premises, and making any necessary repairs, alternations or additions to the Premises to the extent required or permitted to Landlord under this Lease.

17.6 Time is of the essence for each and every provision of this Lease requiring performance within a specified time.

17.7 Except for the Purchase and Sale Agreement between Landlord and Tenant, the closing of which is a condition precedent for this Lease, this Lease contains all agreements of the parties with respect to any matter mentioned in this Lease. No prior agreement or understanding pertaining to any such matter shall be affected. This Lease may be modified in writing only, signed by the parties in interest at the time of the modification.

17.8 Each provision of this Lease performable by either party shall be deemed both a covenant and a condition.

17.9 In any action to enforce the terms of this Lease, the prevailing party shall be entitled to an award of reasonable attorneys' fees and litigation expenses in addition to other relief and costs allowable pursuance to California law.

17.10 Landlord and Landlord's agents shall have the right to enter the Premises, after prior notice to Tenant, at reasonable times for the purpose of inspecting the same, showing the same to prospective purchasers or lenders and making such alterations, repairs, improvements or additions to the Premises or to the building of which they are a part as Landlord may deem necessary or desirable, with Tenant's consent. Tenant's consent to such alterations, repairs, improvements or additions shall not be withheld unreasonably. Landlord may at any time place on or about the Premises any ordinary "for lease" signs, all without rebate of rent or liability to Tenant.

17.11 All exhibits attached to this Lease shall be deemed incorporated herein by this reference and all such exhibits shall be deemed to be a part of this Lease as though set forth in full in the body of this Lease. The exhibits to be attached and incorporated herein are as follows:

EXECUTIVE SUMMARY

This Phase I environmental site assessment was conducted in general conformance with the scope and limitations of American Society for Testing and Materials (ASTM) Standard E1527-13. The purpose of this assessment was to determine if Recognized Environmental Conditions (RECs) were present within the property located at 85-711 Peter Rabbit Lane, in the City of Coachella, California. RECs are the presence or likely presence of hazardous material releases within a property. A review of the site conditions at the time of this assessment, the site's background, and a summary of any potential RECs at the site are provided below.

Site Description - The site was in use as a produce packing facility at the time of this assessment. One onsite building, approximately 16,500 square feet in area, was located in the site's central portion. This building contained three relatively large cooler rooms for fresh produce. Storage and work areas occupied most of the building's remaining areas. An addition for offices and a kitchen was located on the building's southern side.

The areas that adjoined the onsite building were generally covered with sandy soil and sparse vegetation. A relatively small date palm orchard was located in the site's northern portion. Two rows of date palms were also located in the site's southern portion.

Site History - Based on data collected during this assessment, the site has been in use as a produce packing facility since at least 1928. It was used by the Coachella Valley Grape Growers Association in the late 1920s and early 1930s. Since then, the site has been occupied by Chuchian Ranch, Stanley Packaging, Sun Grown Company, Aristocrat Produce, Great Date in the Morning, and Coachella Valley Date. It has been occupied by Hidden Harvest since approximately 2001.

The onsite building was constructed between 1904 and 1928. The relatively large cooler rooms on the building's eastern side were constructed between 1953 and 1959. The office and kitchen addition was constructed on the building's southern side in approximately 1976.

A railroad spur was constructed within the site prior to 1928. This railroad spur enters the site's southwestern portion, traverses along the building's western side, and then terminates in the site's northwestern portion. This spur is currently buried beneath the ground surface.

Agricultural fields extended into the site's northern and southern portions in the early 1930s. With the exception of date palms, agricultural activities have not taken place onsite since that time. Two rows of date palms were planted in the site's southern portion between 1984 and 1996. A date palm orchard was planted in the site's northern portion between 2009 and 2011.

Onsite Hazardous Material Sources and Releases - Evidence for aboveground or underground storage tanks, clarifiers, sumps, or other potentially hazardous material-containing structures was not encountered on any portion of the site during this assessment or in documents obtained for this assessment. Potential releases of petroleum hydrocarbons and/or chemicals were also not encountered within the site during this assessment.

As noted above, portions of the site were in use as agricultural fields in the early 1930s. In addition, date palms have been grown within the site since at least 1996. Due to relatively limited agricultural activities onsite, however, elevated pesticide concentrations (concentrations greater than regulatory limits) are not suspected in the surficial soils that cover the site.

Regional Hazardous Material Releases - Based on a review of properties within the site vicinity and data made available during this assessment, it is our opinion that there is a very low likelihood that contaminants from offsite properties have migrated to the subject site and have impacted the underlying soil and/or groundwater.

Recognized Environmental Conditions - RECs were not identified within the site during this assessment. Historical RECs were also not identified at the site. Historical RECs refer to a past release that has been remediated to below residential-cleanup standards and given regulatory closure.

Two Other Environmental Conditions (OECs) were encountered within the site. OECs are features or issues that, while being judged to have a relatively low probability of resulting in significant contaminant impact to the site, should be considered in project planning and risk management. It is considered possible that asbestos-containing materials and lead-based paint exist within the onsite building structure. The City of Coachella requires testing and abatement of these materials prior to removing buildings constructed before 1979.

A buried railroad spur is located along most of the site's western side. The removal of the tracks and railroad ties would likely be required prior to development of this area.

Recommendations - Environmental studies pertaining to soil and groundwater contamination beneath the site are not recommended. Based on the findings of this assessment, there are no known onsite conditions that would warrant regulatory involvement, including actions leading to environmental soil sampling, soil remediation, groundwater sampling, and/or groundwater remediation.

Phase I Environmental Site Assessment Report

85-711 Peter Rabbit Lane, Coachella, California

1.0 INTRODUCTION

1.1 PURPOSE

Terra Nova Planning & Research, Inc. was retained by the City of Coachella to perform a Phase I Environmental Site Assessment (ESA) for the property located at 85-711 Peter Rabbit Lane, in the City of Coachella, California (Figure 1). The purpose of this Phase I ESA was to identify apparent and potential sources of contamination that, by their association or proximity to the site, could represent a recognized environmental condition (REC) as defined by American Society for Testing and Materials (ASTM) Standard No. E1527-13. A REC is defined as the presence or likely presence of hazardous substances or petroleum products in, on, or at a property due to any release to the environment, under any condition indicative of a release to the environment, or under conditions that pose a material threat of a future release to the environment.

1.2 SCOPE OF WORK

The scope of work for this assessment included the following.

- Site reconnaissance to visually assess the current site utilization, potential onsite use or storage of hazardous materials, and indications of surface and subsurface contamination.
- Review of local geology and hydrogeology using readily available data.
- Review of current and historical conditions and uses of the site and immediate vicinity using available resources, including:
  - historical aerial photographs, topographic maps, and Sanborn maps
  - environmental and geologic reports and maps,
  - state and federal government databases, and
  - local agency files.
- Preparation of this report.

Data gaps to the ASTM Standard E1527-13 for this report include the following:

- Interviews with representatives of the adjoining properties, and
- An assessment of the site's purchase price and the fair market value.

The references used in this study are listed in Section 8.0. Photographs taken during the site reconnaissance are included in Appendix A. Copies of aerial photographs, topographic maps, Sanborn insurance maps, and an assessor parcel map are provided in Appendix B. The search of select government documents was subcontracted to Environmental Data Resources, Inc. (EDR). A copy of the full EDR report is included in Appendix C. Agency documents are provided in Appendix D. A preliminary title report is provided as Appendix E.

2.0 SITE OVERVIEW

2.1 LOCATION

The subject site, which comprises 2.09 acres of land, is located at the southern terminus of Peter Rabbit Lane, approximately 850 feet south of Avenue 50, in the City of Coachella, California (Figure 1). The site's formal address is 85-711 Peter Rabbit Lane. The Riverside County Assessor reports that the site's address is 89-711 Peter Rabbit Lane, which does not match the current street numbering system. The site's address between at least 1990 and 2014 was listed as 85-710 Grapefruit Boulevard.

The site is located within the northwest quarter of Section 5, Township 6 South, Range 8 East, San Bernardino Base and Meridian. Its assessor parcel number is 778-030-012. A parcel map that shows the location of the site is provided in Appendix B.

2.2 DESCRIPTION

The site was in use as a produce packing facility at the time of this assessment. One onsite building, approximately 16,500 square feet in area, was located in the site's central portion (Figure 2). This building contained three relatively large cooler rooms for fresh produce. Storage and work areas occupied most of the building's remaining areas. An addition for offices and a kitchen was located on the building's southern side.

The areas that adjoined the onsite building were generally covered with sandy soil and sparse vegetation. A relatively small date palm orchard was located in the site's northern portion. Two rows of date palms were also located in the site's southern portion. For a more detailed description of the site, refer to Section 3.1 below.

2.3 HISTORY

Based on data collected during this assessment, the site has been in use as a produce packing facility since at least 1928. It was used by the Coachella Valley Grape Growers Association in the late 1920s and early 1930s. Since then, the site has been occupied by Chuchian Ranch, Stanley Packaging, Sun Grown Company, Aristocrat Produce, Great Date in the Morning, and Coachella Valley Date. It has been occupied by Hidden Harvest since approximately 2001.

The onsite building was constructed between 1904 and 1928. The relatively large cooler rooms on the building's eastern side were constructed between 1953 and 1959. The office and kitchen addition was constructed on the building's southern side in approximately 1976.

A railroad spur was constructed within the site prior to 1928. This railroad spur enters the site's southwestern portion, traverses along the building's western side, and then terminates in the site's northwestern portion. This spur is currently buried beneath the ground surface.

Agricultural fields extended into the site's northern and southern portions in the early 1930s. With the exception of date palms, agricultural activities have not taken place onsite since that time. Two rows of date palms were planted in the site's southern portion between 1984 and 1996. A date palm orchard was planted in the site's northern portion between 2009 and 2011.

2.4 TOPOGRAPHY

The subject site is located at elevations between 65 and 70 feet below mean sea level (USGS, 2012). The site slopes very gently to the southeast.

2.5 GEOLOGY

Soils underlying the site are comprised of Quaternary-age alluvial (river) and lake deposits (Rodgers, 1965). These deposits are comprised of mixtures and layers of clay, silt, and sand. Based on the soil types mapped by the U.S. Soil Conservation Service, the soils covering the site are comprised of fine sand to loamy fine sand to a depth of at least 60 inches.

The San Andreas Fault is the closest known active fault to the site. At its closest approach, this fault is mapped approximately 2.4 miles northeast of the site (Jennings and Bryant, 2010).

2.6 HYDROLOGY

Based on a review of records for the site and nearby properties, groundwater is located between 25 and 27 feet below ground surface. This is based on groundwater measurements at four wells located within a property approximately 300 feet west of the site (RME, 2023). The groundwater flow direction beneath that property was reported to be toward the southeast, coincident with the topographic gradient. It is expected to be similar beneath the site.

3.0 ASSESSMENT REVIEW

3.1 SITE INSPECTIONS AND OBSERVATIONS

On March 17, 2023, a Terra Nova Planning & Research, Inc. representative visited the site in order to assess its current utilization and to visually search for indications of surface and subsurface contamination. Photographs taken during the site visit are included in Appendix A. Observations made during the site reconnaissance are presented below.

- The site was in commercial use at the time of this assessment. A one-story building was located in its central portion (Photo Nos. 1 through 9; Figure 2). This building generally had corrugated metal exterior walls and roof. An older brick wall was exposed along a portion of the building's western side.
- A two-story addition comprised of wood framing and wood siding was located on the building's southern side. This addition contained a lower kitchen (Photo No. 10) and upper offices. These areas contained typical kitchen and office equipment, furniture, and supplies.
- The building's northern and western portions contained storage areas, work areas, and vacant areas (Photo Nos. 11 through 21). A bathroom and two relatively small offices were also located in these areas. These open areas contained a relatively small quantity of materials, including wooden pallets, empty produce containers, and miscellaneous equipment. Potentially hazardous material sources were not encountered within these portions of the building.
- Most of the building's work and storage areas were open to upper metal trusses and the roof's corrugated metal sheeting. An elevated mezzanine (storage area) was located along portions of the building's western side. This storage area appeared mostly vacant. Some relatively large airduct pieces and empty produce containers were located in this storage area.
- A relatively long floor drain that was covered with a steel grate traversed through most of the building's central and northern portions. It was noted to transfer wash-water away from the produce work areas. The associated drain pipe exited the building's northern exterior side, where it then drained into an underground pipe.

- Three relatively large cooler rooms were located along the building's eastern side (Figure 2). The southern-most room was in use as a storage room for furniture and other office- and home-related items (Photo No. 22).
- The central cooler room had been partitioned into two areas. The southern portion was cooled and contained fresh produce (Photo No. 23). The northern half of this cooler was vacant. The northern-most cooler was mostly vacant, with the exception of some furniture, trash containers, paint containers, and equipment related to food packing (Photo No. 24).
- Loading docks adjoined the onsite building's northern and southern sides (Photo Nos. 3, 7, and 8). The northern dock contained empty food crates, wooden pallets, and some miscellaneous equipment. The southern dock was empty.
- The areas adjoining the onsite building were covered with sandy soil and sparse vegetation (Photo Nos. 25 through 30). A date palm orchard was located in the site's northern portion (Photo No. 26). Some date palm trees were also located in the site's southern portion (Photo No. 29).
- Electric lines and utility poles were located along the site's eastern border. Two of the utility poles contained electric transformers. Indications of oil releases from these transformers were not observed at the time of the site reconnaissance.
- None of the following were observed within or immediately adjacent to the site:
  - Fill ports or vent pipes to underground storage tanks
  - Aboveground storage tanks
  - Groundwater and/or vadose zone wells
  - Pools of potentially hazardous substances
  - Clarifiers, ponds, pits, sumps, or other underground waste disposal areas
  - Unusual or noxious odors

3.2 PROJECT VICINITY

Properties adjoining the site were reviewed for evidence of possible contaminant releases. A brief description of these properties is provided below. Potential contaminant sources and/or releases were not observed in their visible portions.

- A chain-link fence bordered the site's northern, eastern, and southern sides. The property located north of the site and this fence was occupied by Tri-State Materials, which is a supplier of landscaping rock. This property contained an office trailer and numerous piles and pallets of rock (Photo No. 31).
- Peter Rabbit Lane was located along the site's eastern side (Photo No. 32). A date palm orchard was located immediately east of the site's northern half and Peter Rabbit Lane (Photo No. 33). The property located east of the site's southern half and south of the site was in use by Peter Rabbit Farms, a fresh produce packing facility. The portion of this property located east of the site was comprised of vacant land. The portion of this property located south of the site was in use as an unpaved parking lot (Photo No. 34).
- The site's western border was open to a vacant parcel of land that contained two rows of date palm trees. A chain-link fence bordered the western side of this vacant area. A railroad with two sets of tracks was located east of the fence (Photo Nos. 35 and 36). Indications of potentially hazardous material sources and/or releases were not observed in the visible portions of the railroad property.

3.3 REVIEW OF AERIAL PHOTOGRAPHS

The following aerial photographs were reviewed in order to assess land use over time and look for evidence of potentially hazardous material storage, usage, and/or disposal areas. Copies of these photographs are provided in Appendix B. As noted below, potential contaminant sources and/or release areas were not visible within the site between 1932 and 2018.

Aerial Photograph Review	
Date	**Observations**
1932	In the 1932 aerial photograph, a building is located within the site's central portion, similar to present. An unpaved driveway is located along the building's northern, eastern and southern sides. The areas adjoining this driveway appear unpaved and covered with a relatively light growth of vegetation. The site's northern and southern portions appear part of larger fields that encroach onsite from adjoining properties. A railroad spur is faintly visible along the onsite building's western side. This railroad spur connects to the railroad tracks located immediately west of the site. Agricultural fields are located north, east, and south of the site. Farm roads traverse between these fields. The railroad tracks located west of the site appear in a similar state to that observed during the site reconnaissance. The property located west of the railroad tracks and the site appears covered with some trees and a relatively light growth of vegetation. Grapefruit Boulevard and a residential neighborhood are located further to the west, similar to present.
1949	Similar to 1932. Relatively large trucks are visible adjacent to the onsite building. The railroad spur is no longer visible within the site. The property located to the north now appears in a fallow state.
1953	Similar to 1949. An apparent windbreak containing well-established trees is now visible in the site's northern portion. A commercial-size building is visible southeast of the site. A commercial-size building is also visible west of the site and the railroad tracks.
1959	The three large cooler rooms are now visible on the eastern side of the onsite building. The site's exterior portions generally appear covered with soil and a relatively light growth of vegetation. The property located north of the site now appears in commercial use, similar to present.
1965	Similar to 1959.
1972	Similar to 1965. The row of trees (windbreak) in the site's northern portion is no longer visible. The agricultural property located east of the site now appears in a fallow state. A second commercial-size building is now visible within the property located west of the site and railroad tracks.
1984	Similar to 1972. The addition containing the office and kitchen is now visible on the southern side of the onsite building. A moderate covering of vegetation is now visible in the site's northern portion. A relatively large building (currently occupied by Peter Rabbit Farms) is now visible southeast of the site. The portion of this property located east of the site appears in use as material storage areas.
1996	Similar to 1984. Two rows of palm trees are now visible in the site's southern portion. One of the commercial-size buildings located west of the site has been removed.
2002	Similar to 1996.
2006	Similar to 2002. The vegetation has been cleared from the site's northern portion.
2009	Similar to 2006.

Aerial Photograph Review	
Date	**Observations**
2012	Similar to 2009. Relatively young palm trees are now visible in the site's northern portion.
2016	Similar to 2012. A date palm orchard is now visible east of the site's northern portion.
2018 (Figure 2)	Similar to 2016.

3.4 REVIEW OF MAPS AND REPORTS

3.4.1 USGS TOPOGRAPHIC MAPS

Topographic maps dating between 1904 and 2018 were reviewed as part of this assessment. These maps are provided in Appendix B of this report. A description of these maps is provided in the table below. As noted on these maps, structures of concern, such as pipelines, oil wells, large aboveground tanks, and landfills are not shown within the site or immediate site vicinity.

Topographic Map Review	
Date	**Observations**
1904	In the 1904 topographic map, manmade structures are not shown within the site. A railroad is shown along the site's western side. A road (currently Grapefruit Boulevard) is show west of the site and railroad. Building structures are shown along the western side of this road.
1941	A building is now shown in the site's central portion. A road enters the site's northeastern portion. No other manmade structures are shown within the site. The properties located west of railroad tracks and Grapefruit Boulevard are now shown as developed.
1947	Similar to the 1941 topographic map.
1956	Similar to 1947. A commercial-size building is now shown southeast of the site.
1972	Similar to 1956.
2012	Building structures are not shown within the site or within the adjoining properties. The uses of the site and the site vicinity are not shown.
2018	Similar to 2012.

3.4.2 SANBORN INSURANCE MAPS

Two Sanborn Insurance Maps were found for the site. These maps, which were dated 1928 and 1931, are provided in Appendix B. These maps show the site in identical conditions in 1928 and 1931. A packing house for the Coachella Valley Grape Growers Association occupies the site's central portion. This building is shown in a location that is similar to the existing building structure. A 3-foot-high platform (loading dock) is located on the southern side of the building. A railroad spur is located along the building's western side, within the subject site. No other manmade structures are shown within the site.

The uses of the properties to the north and east are not shown. Three sets of railroad tracks are shown immediately west of the site. Commercial properties are shown west, southwest, and south of the site. Potential contaminant sources are not shown within the site or the immediate site vicinity.

3.4.3 ASSESSOR PARCEL MAP

An assessor parcel map and associated property profile were obtained for the site for review. A copy of the assessor parcel map is included in Appendix B. This map shows the location and dimensions of the onsite parcel. Easements for chemical and/or petroleum hydrocarbon pipelines are not shown on this map.

The property profile for the site (APN 778-030-012) reports that the site's owner is "Hidden Harvest Corp". Owners commonly associated with hazardous material use, such as dry cleaners and fuel service stations, were not listed in the property profiles. The use of the onsite parcel is reported as being "Warehouse". The construction date of the site is reported as "1947 / 1976". The onsite parcel is noted to comprise 2.09 acres in area.

3.4.4 STREET DIRECTORIES

Street directories dating between 1971 and 2020 were reviewed as part of this assessment. These directories provide the name of site occupants listed during this period. The site is not listed prior to 1971. A summary of the site occupants listed between 1975 and 2020 is provided below.

Summary of Street Directory Listing		
Listed Address	**Year**	**Listed Site Occupant**
85-690 Grapefruit Boulevard (Possible site address)	1976	Chuchian Ranch
	1980	Stanley Packaging, Sun Grown Company, and Aristocrat Produce
	1985	Stanley Produce Company & Sun Grown Company
85-710 Grapefruit Boulevard	1990	Great Date in the Morning, Jim Dunn, & Desert Interior Design
	1992	Desert Interior Design & Jim Dunn
	1995	Great Date in the Morning & Jim Dunn
	2000	Coachella Valley Date
	2005	No listed address
	2010	No listed address
	2014	Hidden Harvest
	2017	Hidden Harvest
85-711 Peter Rabbit Lane	2020	Hidden Harvest

As indicated above, the site was in use as a produce packaging company between at least 1980 and 2020. It was also partially in use by an interior design company between at least 1990 and 1995. Typical users of potentially hazardous materials, such as fuel stations or dry cleaners, were not reported at the site.

3.4.5 PRELIMINARY TITLE REPORT

A preliminary title report, dated April 5, 2023, was prepared for the subject site by the Commonwealth Land Title Insurance Company. A copy of this report is included in Appendix E. This title report states that the site's owner at that time was Hidden Harvest Corporation. The site's address is noted to be both

85-711 Peter Rabbit Lane and 85-710 Grapefruit Boulevard. It is reported to be both APNs 778-030-010 and -012, which appear to be the same parcel on the provided map.

The title report also reports the site's legal description and associated easements. Easements through the site were noted to include the following. The locations of these easements were not provided. Easements for potentially hazardous material structures, such as petroleum pipelines, were not listed in the title report.

- Pipeline easement for the Coachella Valley Water District (no recorded date)
- Easement for the City of Coachella for a street or highway (recorded March 2, 1961)
- Easement for the Coachella Sanitation District for a pipeline (recorded October 29, 1964)
- Easement for MCI Telecommunication Corporation for telecommunication transmission (recorded May 17, 1991)
- Easement for a County of Riverside right-of-way (recorded August 29, 2013)

Environmental liens have not been filed for the site.

3.5 ENVIRONMENTAL DATABASE REVIEW

Environmental Data Resources, Inc. (EDR) conducted a search of available environmental records for the site and properties up to 1 mile away from the site. The search met the specific requirements of ASTM Standard Practice for Environmental Site Assessments (E1527-13), including those associated with government databases, search distances, and data currency. EDR's report, dated March 10, 2022, is included as Appendix C of this report. Pages 4 through 19 of the Executive Summary in EDR's report list the federal and state environmental databases searched for this assessment. A description of these databases is provided at the end of EDR's report.

A map provided in EDR's report shows the location of the subject site and EDR-listed properties within the search distances defined by ASTM (see Page 2 in Appendix A). As noted in EDR's report, the site is not listed within any of the environmental databases searched.

There are 32 properties reported within 1 mile of the site that have, or have had the potential to release hazardous materials into the subsurface soil and/or groundwater. Six of these properties are located immediately adjacent to the site or up-gradient (northwest) and within 1/4 mile of the site. Hazardous materials released at such properties would, due to their location, have the greatest potential to impact the soil and/or groundwater underlying the site. Impacted groundwater beneath these properties could migrate into or toward the subject site. A description of these properties is listed in the table below.

Summary of EDR® Properties Located Upgradient and within ¼ Mile of the Site			
EDR ID No.	**Property/Business Name & Address**	**Listed Databases**	**Comments**
A1 A2 A3 A4 A9	Amigo Mini Mart/EZ Serve Station #1195 85509 Highway 111, Coachella	RCRA-SQG, LUST, SWEEPS UST, HIST UST, FINDS, ECHO, Cortese, HIST Cortese, CERS, UST, HIST Auto	This fuel station was reported with a release of gasoline. An investigation at this property in 2022 and 2023 revealed no significant gasoline release to the soil and/or groundwater. Based on the reported information, the gasoline spilled at this property is not a potential threat to the soil and/or groundwater underlying the site.

Summary of EDR® Properties Located Upgradient and within ¼ Mile of the Site			
EDR ID No.	**Property/Business Name & Address**	**Listed Databases**	**Comments**
A11	Coachella City Yard 1670 2nd Street Coachella	LUST, Cortese, HIST Cortese, CERS	This property was reported with a release of diesel. This case was closed in 1999, indicating that the impacted soil and/or groundwater were remediated to the satisfaction of the RWQCB.
C7 C8	Peter Rabbit Farms 85-810 Peter Rabbit Lane, Coachella	CERS WASTE, CERS TANKS, ENF, CIWQS, CERS, RCRA-LQG	The business at this property is reported to use and generate potentially hazardous materials. It also uses aboveground petroleum storage tanks. This business has been issued violations pertaining to handling and labelling of waste containers. Hazardous material releases, however, have not been reported at this facility.
G22	Old Builders Supply 85220 Avenue 50, Coachella	LUST, Cortese, HIST Cortese, CERS	This property was reported with a release of gasoline. This case was closed in 1992, indicating that the impacted soil and/or groundwater were remediated to the satisfaction of the RWQCB.
I27	Foster-Gardner 1577 1st Street Coachella	RCRA NonGen / NLR	This property is reported to either generate, transport, store, treat and/or dispose potentially hazardous waste. Hazardous material releases have not been reported at this facility.
K36 K37 K38	Lee Escher Oil 85119 Avenue 50, Coachella	LUST, Cortese, ENF, HIST Cortese, CERS, RCRA-LQG, HIST UST, EMI, Notify 65	This fuel storage facility was reported with a release of gasoline. Investigations at this property are ongoing. The most recent data indicated that the impacted soil and groundwater are contained within and immediately adjacent to this property. Based on the reported information, the gasoline spilled at this property is not a potential threat to the soil and/or groundwater underlying the site.

Table information source: EDR. These properties and a description of the acronyms above are identified on Pages 4 through 19 of the Executive Summary of EDR's Report (Appendix C).

As noted in the table above, potentially hazardous materials were released at four properties located potentially upgradient and within 1/4 miles of the site. Two of these cases have been closed, indicating that the impacted materials on these properties have been remediated to the satisfaction of the regulatory agency. The remaining two cases involved gasoline spills that were contained within or immediately adjacent to those properties. The potential for the gasoline at those properties to impact the soil and/or groundwater underlying the site is considered very low.

The remaining listed properties are located more than ¼ mile up-gradient of the site, cross-gradient of the site, or down gradient of the site. Based on the distance, location, and status of these properties, the potentially hazardous materials associated with the remaining properties are considered to have a relatively low potential of impacting the soil and/or groundwater underlying the subject site.

3.6 AGENCY CONTACT AND MATERIALS

Environmental records pertaining to onsite or near-vicinity hazardous material sources and/or releases were obtained from the following sources.

- Coachella Building Department
- Riverside County Department of Environmental Health
- California Regional Water Quality Control Board
- California Department of Toxic Substances Control
- California Division of Oil, Gas, and Geothermal Resources
- South Coast Air Quality Management District

3.6.1 COACHELLA BUILDING DEPARTMENT

Historic permits for the site were requested from the Coachella Building Department (CBD). The CBD noted that they had no finalized permits. They had one record of a plumbing permit pulled, but that permit was never finalized (Appendix D1). That permit, applied for on January 6, 2006, was for an additional restroom at 85-711 Peter Rabbit Lane. There were no permits pulled for 85-710 Grapefruit Boulevard.

3.6.2 RIVERSIDE COUNTY DEPARTMENT OF ENVIRONMENTAL HEALTH

Records provided by the Riverside County Department of Environmental Health (RCDEH) include information about potentially hazardous material usage, storage structures (including underground storage tanks), and known or suspected hazardous material releases. The RCDEH stated that they had no records for the site (Appendix D2). Note that the RCDEH's records are now also partially included on the website for the California Regional Water Quality Control Board (RWQCB).

3.6.3 REGIONAL WATER QUALITY CONTROL BOARD

The RWQCB's records were searched using their map interface database at http://geotracker.swrcb.ca.gov. The properties listed in this database are known to have released potentially hazardous materials into the underlying soil and/or groundwater. The site was not listed within the RWQCB database. A search of that database revealed three properties either located adjacent to the site or within 1/4 mile and potentially upgradient (northwest) that have been or currently are regulated by the RWQCB as a result of a hazardous material release (Appendix D3). The closest listed property, which is the Amigo Minimart located approximately 300 feet west of the site, was reported with a suspected release of gasoline. An investigation at this property revealed no significant gasoline release to the soil and/or groundwater.

The remaining two properties are located 1,000 to 1,200 feet northwest of the site. Gasoline was released at each of these properties. One of the properties (W C Hancock) was closed, indicating that the soil and/or groundwater contamination was not significant or was remediated to the satisfaction of the RWQCB. The third property, referred to as the former Escher Oil Company, was reported with a significant release of gasoline. The impacted soil and groundwater, however, are contained within that property and the adjoining area. The potential that the gasoline has impacted the soil and/or groundwater underlying the site is very low.

3.6.4 DEPARTMENT OF TOXIC SUBSTANCES CONTROL

The Department of Toxic Substances Control's (DTSC's) records were searched using their map interface program at http://www.envirostor.dtsc.ca.gov/public. A search of that database revealed no DTSC-regulated properties (properties reported with contaminant releases) within 1/4 mile and upgradient of the site (Appendix D4).

3.6.5 CALIFORNIA GEOLOGIC ENERGY MANAGEMENT DIVISION

Oil well maps provided by the California Geologic Energy Management Division (CalGEM) were searched via their search program at http://maps.conservation.ca.gov/doms/index.html. Oil wells are not shown within the subject site or within 1 mile of the site. The closest oil well (C.H.S. Co., Ltd. 'Bobbie' 1) is located approximately 5.2 miles northwest of the site. The location of this well is provided on a CalGEM map included in Appendix D5.

3.6.6 SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT

South Coast Air Quality Management District (SCAQMD) files for the site were searched via the SCAQMD online search program at http://www.aqmd.gov. The site is not listed within SCAQMD files (Appendix D6). The closest listed property is located immediately south of the site (Peter Rabbit Farms). Potentially hazardous material sources and/or releases were not reported at this facility. The business on this property was issued a violation for tilling an agricultural field on a day forecasted with high winds (July 2, 1999). Due to the down-gradient location of this property, any hazardous material releases within that property would not likely be considered a potential threat to the soil and/or groundwater underlying the site.

3.7 DISCUSSION WITH ONSITE REPRESENTATIVE

During the March 17 site reconnaissance, the site manager (Francisco) provided access to the entire site. He noted that Hidden Harvest had occupied the site since about 2001. He was not aware of any underground storage tanks, aboveground storage tanks, or other potential contaminant sources within the site. He was also not aware of any potential releases of hazardous materials. The old railroad spur along the building' western side was noted to be buried beneath the ground surface.

4.0 FINDINGS

4.1 BUILDING CONSTRUCTION MATERIALS

Due to the age of the onsite building, asbestos and/or lead may be present in its construction materials. Asbestos-containing building materials and lead-based paint were phased out in the middle to late 1970s. The existing steel framed and sided building was constructed in or prior to 1928. The cooler rooms were constructed in the 1950s, and the office/kitchen addition was constructed in approximately 1976. Testing for asbestos and lead was not conducted as part of this assessment. If demolition activities are planned, the City of Coachella may require asbestos and lead testing and abatement due to the buildings age.

4.2 ONSITE HAZARDOUS MATERIAL USE

Pesticides - The potential that elevated pesticide concentrations are present in the site's surficial soils is considered to be relatively low. Agricultural activities that are generally associated with relatively heavy pesticide use, such as row crops and citrus orchards, have not been conducted within the site. Agricultural fields extended into the site's northern and southern portions in the early 1930s. With the exception of date palms, agricultural activities have not taken place onsite since that time. Date palm trees have been located in the site's southern and northern portions since at least 1996 and 2011, respectively.

Chemical/Petroleum Hydrocarbon Materials - Potentially hazardous materials were not encountered within the site at the time of this assessment.

Potential Hazardous Materials Storage Structures - Potentially hazardous material sources were not encountered within the site at the time of this assessment.

Regulatory Actions - Regulatory actions are not known or suspected of having been issued for the site.

4.3 SUBJECT SITE VICINITY

Landfills - There is one landfills reported within 1 mile of the subject site. An open dump is reported within a reservation property located approximately 2,000 feet north of the site. Due to its distance, location, and anticipated small size, there is a low potential that hazardous leachate from this open dump will impact the soil and/or groundwater underlying the site.

Regional or Adjacent Hazardous Material Releases - National Priority List (NPL) properties (large-scale releases of hazardous materials) are not reported within 1 mile of the site. In addition, there are no known hazardous material releases within 1 mile of the site that are considered as having the potential to impact the soil and/or groundwater underlying the site.

Radon - Radon levels reportedly average 0.117 picocuries in first-floor levels and 1.7 picocuries in basement levels for properties within zip code 92236. The U.S. Environmental Protection Agency's (EPA's) maximum allowable radon level is 4 picocuries. Radon concentrations above EPA's allowable level are not expected at the site.

Asbestos - Sources for asbestos-containing rock are not reported within 50 miles of the site (CDOGGR, 2000).

Potable Water Source - Water is supplied to the site vicinity by the Coachella Water Authority and Sanitation District (CWASD). The CWASD primarily obtains its water from local groundwater aquifers. The CWASD's 2021 Water Quality Report can be reviewed online at: https://www.coachella.org/departments/public-works-department/water-operations/water-reports. As noted in this report, the water provided by the CWASD meets all State and Federal drinking water standards.

5.0 CONCLUSIONS AND RECOMMENDATIONS

5.1 CONCLUSIONS

5.1.1 SITE BACKGROUND

Based on data collected during this assessment, the site has been in use as a produce packing facility since at least 1928. It was used by the Coachella Valley Grape Growers Association in the late 1920s and early 1930s. Since then, the site has been occupied by Chuchian Ranch, Stanley Packaging, Sun Grown Company, Aristocrat Produce, Great Date in the Morning, and Coachella Valley Date. It has been occupied by Hidden Harvest since approximately 2001.

The onsite building was constructed between 1904 and 1928. The relatively large cooler rooms on the building's eastern side were constructed between 1953 and 1959. The office and kitchen addition was constructed on the building's southern side in approximately 1976.

A railroad spur was constructed within the site prior to 1928. This railroad spur enters the site's southwestern portion, traverses along the building's western side, and then terminates in the site's northwestern portion. This spur is currently buried beneath the ground surface.

Agricultural fields extended into the site's northern and southern portions in the early 1930s. With the exception of date palms, agricultural activities have not taken place onsite since that time. Two rows of date palms were planted in the site's southern portion between 1984 and 1996. A date palm orchard was planted in the site's northern portion between 2009 and 2011.

5.1.2 ONSITE HAZARDOUS MATERIAL SOURCES AND RELEASES

Evidence for aboveground or underground storage tanks, clarifiers, sumps, or other potentially hazardous material-containing structures was not encountered on any portion of the site during this assessment or in documents obtained for this assessment. Potential releases of petroleum hydrocarbons and/or chemicals were also not encountered within the site during this assessment.

As noted above, portions of the site were in use as agricultural fields in the early 1930s. In addition, date palms have been grown within the site since at least 1996. Due to relatively limited agricultural activities onsite, however, elevated pesticide concentrations (concentrations greater than regulatory limits) are not suspected in the surficial soils that cover the site.

5.1.3 REGIONAL HAZARDOUS MATERIAL RELEASES

Based on a review of properties within the site vicinity and data made available during this assessment, it is our opinion that there is a very low likelihood that contaminants from offsite properties have migrated to the subject site and have impacted the underlying soil and/or groundwater.

5.1.4 RECOGNIZED ENVIRONMENTAL CONDITIONS

RECs were not identified within the site during this assessment. Historical RECs were also not identified at the site. Historical RECs refer to a past release that has been remediated to below residential-cleanup standards and given regulatory closure.

Two Other Environmental Conditions (OECs) were encountered within the site. OECs are features or issues that, while being judged to have a relatively low probability of resulting in significant contaminant impact to the site, should be considered in project planning and risk management. It is considered possible that asbestos-containing materials and lead-based paint exist within the onsite building structure. The City of Coachella requires testing and abatement of these materials prior to removing buildings constructed before 1979.

A buried railroad spur is located along most of the site's western side. The removal of the tracks and railroad ties would likely be required prior to development of this area.

5.2 RECOMMENDATIONS

Environmental studies pertaining to soil and groundwater contamination beneath the site are not recommended. Based on the findings of this assessment, there are no known onsite conditions that would warrant regulatory involvement, including actions leading to environmental soil sampling, soil remediation, groundwater sampling, and/or groundwater remediation.

6.0 LIMITATIONS

The information provided in this report is based on the scope of work authorized by the client, information obtained during the investigation, ASTM Standard E1527-13, current regulatory guidelines and laws, state-of-the-industry practices, and the professional judgment of Terra Nova Planning & Research, Inc. personnel.

This Phase I environmental site assessment, conducted in March and April 2023, is based on information made available during the course of this assessment. Terra Nova Planning & Research, Inc. relied on the information collected during our investigation, presented in the former report(s), and/or provided by the client or others to conduct our investigation and arrive at our conclusions. Terra Nova Planning & Research, Inc. assumes that information provided by others is accurate to the extent used by Terra Nova Planning & Research, Inc.

The information obtained during this assessment, at a minimum, complies with criteria specified in Standard Practice for Environmental Site Assessments: Phase I, ASTM Standard E1527-13. Data gaps to this standard for this report include the following:

- Interviews with representatives of the site and adjoining properties, and
- An assessment of the site's purchase price and the fair market value.

Services performed by Terra Nova Planning & Research, Inc. were conducted in a manner consistent with state-of-the-industry-practices, recognizing that even the most comprehensive investigation may not detect all hazardous materials/waste at the site. Therefore, Terra Nova Planning & Research, Inc. cannot act as an insurer or certify that the site is free of hazardous materials/waste beyond that identified in this report. Except as expressly set forth herein, no representation or warranty is included in our report.

The report is the property of the client for whom it was prepared. Its distribution to others is at client's discretion.

7.0 PROFESSIONAL STATEMENT

This Phase I ESA report was prepared by Mr. Quin Kinnebrew, an Environmental Professional who possesses sufficient specific education, training, and experience necessary to exercise professional judgment to develop opinions and conclusions regarding conditions indicative of hazardous material releases or threatened releases on, at, in, or to a property. He is sufficiently qualified to meet the objectives and performance of this assessment. Mr. Kinnebrew holds a current Professional Geologist's license (PG# 5696) in California and has more than 30 years of full-time relevant experience. He obtained his Master's degree from an accredited institution (Texas A&M University) in the discipline of engineering geology. Mr. Kinnebrew has continued to build on his environmental-related knowledge through participation in continuing education and work-related experience.

Environmental Professional Statement - I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in §312.10 of 40 CFR Part 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all-appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Quin Kinnebrew

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527-21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

EXECUTIVE SUMMARY

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal RCRA generators

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 11/21/2022 has revealed that there are 2 RCRA-LQG sites within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 11/21/2022 has revealed that there are 3 RCRA-SQG sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

Lists of state- and tribal (Superfund) equivalent sites

RESPONSE: Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

A review of the RESPONSE list, as provided by EDR, has revealed that there is 1 RESPONSE site within approximately 1 mile of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
FOSTER-GARDNER	***1577 FIRST STREET***	***WNW 1/8 - 1/4 (0.200 mi.)***	***I29***	***96***
Database: RESPONSE, Date of Government Version: 10/24/2022 Status: Active Facility Id: 33280137				

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 10/24/2022 has revealed that there are 4 ENVIROSTOR sites within approximately 1 mile of the target property.

EXECUTIVE SUMMARY

Lists of state and tribal leaking storage tanks

LUST: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the LUST list, as provided by EDR, has revealed that there are 21 LUST sites within approximately 0.5 miles of the target property.

CPS-SLIC: Cleanup Program Sites (CPS; also known as Site Cleanups [SC] and formerly known as Spills, Leaks, Investigations, and Cleanups [SLIC] sites) included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the CPS-SLIC list, as provided by EDR, has revealed that there are 3 CPS-SLIC sites

within approximately 0.5 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 11/21/2022 has revealed that there are 3 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

Notify 65: Listings of all Proposition 65 incidents reported to counties by the State Water Resources Control Board and the Regional Water Quality Control Board. This database is no longer updated by the reporting agency.

A review of the Notify 65 list, as provided by EDR, and dated 12/07/2022 has revealed that there are 8 Notify 65 sites within approximately 1 mile of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 4 EDR Hist Auto sites within approximately 0.125 miles of the target property.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Local Agency:	Not reported
File Location:	Regional Board
Local Case Number:	89162
Potential Media Affect:	Aquifer used for drinking water supply
Potential Contaminants of Concern:	Gasoline
Site History:	The property consisted of a gasoline service station, two pump islands, and three underground storage tanks (USTs). In 1986 two (2) 8,000 gallon USTs and one (1) 10,000 gallon UST. During the removal

AMIGO MINIMART (Continued) **S111760381**

operation a hole was identified in bottom of the 10,000 gallon UST. It is estimated that gasoline leaked from the tank since 1976 Contaminated soils were removed from the area on May 20, 1986.

Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes: Returned to compliance on 01/04/2019. OBSERVATION: The most recent business plan submission in the statewide information management system (CERS) failed to contain a chemical inventory description page for Alias 4F, driveway asphalt, Fontelis, forklift batteries and cooling trt sodium silicate. CORRECTIVE ACTION: Owner/operator shall complete a chemical inventory page for all reportable hazardous materials on site and submit to the statewide information management system at http://cers.calepa.ca.gov. OBSERVATION: The chemical inventory description page submitted for propane & antifreeze contained incorrect information. Observed 500 gallons of propane, not 500 cubic feet. Observed 280 gallons of antifreeze not 100 gallons. CORRECTIVE ACTION: Owner/operator shall update the chemical inventory page for propane and antifreeze and submit to the statewide information management system at http://cers.calepa.ca.gov. Missing information may be found by looking at the chemical safety data sheet.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Alternate Address:	1577 1ST STREET
Alternate City,St,Zip:	COACHELLA, CA 92236
Background Info:	The property is located at 1577 First Street, Coachella, and

FOSTER MFG INC (Continued) **1000401455**

covers approximately 3 acres. It is surrounded by a vacant lot to the north and west, a residential area to the south and southeast, and a concrete septic tank/pipe manufacturing and storage yard to the east. The site includes a truck loading area, a service shop, a fertilizer blending room, an equipment cleaning pad, two main storage sheds, an open area to the north of the storage sheds, two fertilizer tank farms, and a sales office.
Not reported
Foster-Gardner purchased a pesticide and fertilizer business from Shell in 1958. From 1959 through the early 1970s, operations at this site included formulation of base fertilizer and repackaging and mixing (blending) of pesticides and fertilizers. This company ceased mixing pesticides in the early 1970s. From the early 1960s to 1990, this company formulated aqueous ammonia at the facility by mixing anhydrous ammonia with water. Currently, this company stores herbicides, soil and grain fumigants, insecticides, nematocides, fungicides, and fertilizers. Fertilizers are stored and sold in bags and in bulk liquids. Other agricultural chemicals are stored & sold in the original bags & small metal containers. Operation and Maintenance is on-going at the Site for natural attenuation. DTSC is evaluating whether or not monitored natural attenuation is working at the site.

Violations:

Site ID:	31338
Site Name:	Foster-Gardner, Inc
Violation Date:	08-03-2022
Citation:	HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)
Violation Description:	Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes:	Returned to compliance on 08/25/2022. OBSERVATION: The chemical inventory description page submitted for the contained incorrect information. Parazone 3SL is currently being stored on site in 130 gallon containers rather than only in 30 gallon containers (per operator the 30 gallon containers are no longer available). CORRECTIVE ACTION: Owner/operator shall update the chemical inventory page for Parazone 3SL to reflect larger container size and larger quantity stored on site, four totes observed on site during inspection, and submit to the statewide information management system (e.g. CERS) at http://cers.calepa.ca.gov. Please refer to a current Safety Data Sheet (SDS) for guidance.

Citation:	HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description:	Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes:	Returned to compliance on 08/25/2022. OBSERVATION: Observed 3 drums located on a pallet in the fertilizer tank storage area on site without an accumulation start date. CORRECTIVE ACTION: Owner/operator shall ensure all hazardous wastes are transported off site within 180 days of the accumulation start date. Owner/operator shall have the 3 drums tested to verify if they are storing hazardous waste or rain water and properly hauled off site by a registered hazardous waste transporter.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Local Agency:	Not reported
File Location:	Local Agency
Local Case Number:	90565
Potential Media Affect:	Aquifer used for drinking water supply, Other Groundwater (uses other than drinking water)
Potential Contaminants of Concern:	Gasoline
Site History:	***Data prior to 2005 does not appear in GeoTracker. Consult agency file for all site data*** During June 1990, hydrocarbon odors were noted in a trench excavation along 4th Street south and adjacent to the site. Soil samples were obtained, confirming hydrocarbon compounds were present in the soils. Groundwater was encountered at approximately 12 feet below the ground surface. The County of Riverside Department of Health Services requested The SoCo Group conduct a site investigation. In February 1992, three 4-inch diameter groundwater monitoring wells (MW-1 through MW-3) were installed at the site. Free Product was found in both down gradients wells MW-2 and MW-3. During September 1993, monitoring wells MW-1 through MW-3 were sampled and an aquifer pump test performed to assess the feasibility of installing a free product recovery system. In January 1994, a free product recovery system was installed and began operating. The system ceased operation in 1995 when no further free product was observed. Approximately 250 gallons of product were recovered. In July 1994, eleven hydro-punch borings were conducted to further delineate the lateral extent of hydrocarbon contamination. The hydro-punch groundwater results indicated the near surface groundwater had been impacted by hydrocarbons, and the south migration of the groundwater hydrocarbon plume had extended beyond the residential structures located on the south side of 4th Street south of the site. During April 1996, one waste oil tank was removed from the site. Elevated concentrations of TPH (12ppm), benzene (3.3 ppm), benzene (3.3 ppm), ethylbenzene (3.7 ppm), toluene (11 ppm), and xylenes (16 ppm), were detected in a soil sample obtained at 13 feet bgs in the area of the tank excavation. On July 22, 1998, three 10,000-gallon gasoline USTs, six dispensers, and associated underground piping were removed from the site. Sixteen soil samples were collected and analyzed. Elevated concentrations of hydrocarbon compounds were detected in all of the collected soil samples. Between August 7 and 10, 1998, approximately 913 tons of hydrocarbon contaminated soils were removed. The excavated soil was transported to Candeleria Environmental located in Anza, California. Between November 2000 and May 2002, five geoprobe borings (GB-1 through GB-5) were drilled in the area of the former dispensers and USTs. Five additional groundwater monitoring wells (MW-5 through MW-8) were installed on and down-gradient of the site. Between August 2006 and August 2007, monitoring well MW-8 was lost as a result of grading activities conducted in the vicinity of the well. In August 2007, wells MW-6 and MW-7 have been measured "dry " to the total wells depths of 22.25 ft. and 22.20 ft., respectively. On August 28, 2008, a work plan was submitted to the RCDEH for the installation of replacement wells for MW-6 through MW-8 and placement of one additional down-gradient well. The work plan was approved on September 16, 2008. Wells MW-6 through MW-8 were destroyed Sept. 8, 2010 by overdrilling to ~25 and backfilling with a bentonite/concrete

SOCO APPLE MARKET #4 (Continued) **S120761092**

slurry. The upper 3 on each boring was filled with hydrated bentonite chips and covered with native soils. Missing well MW-8 was located and destroyed also. Wells MW-9 through MW-12 were installed August 19 and 20, 2010 to replace dry wells MW-6 through MW-8 and further assess the lateral migration of hydrocarbon gw contamination. Wells MW-13 through MW-16 were installed off site onJan. 18 and 19, 2011. The wells were screened from 20-35 . VE-5 through VE-7 and VE-14 were installed Jan. 17, 2011. Wells VE-5 and VE-6 were screened from 13 to 23 . Wells VE-7 and VE-14 were screened from 10 to 20 . SVE pilot testing was conducted on wells VE-5, VE-6, and VE-14 between January 25 and 28, 2011. A total of 179.19 lbs of hydrocarbons were removed. The radius of influence was determined to be 30 . 6 geoprobe borings (GP-1A through GP-6A) were advanced off site June 17, 2013 to the capillary zone at 24.5 and 26 feet bgs. Soil samples were taken at the capillary zone. TPHg and BTEX were not detected. MTBE was detected at 0.011 ppm in GP-5A. Groundwater samples were taken in all 6 borings using a screen point sampler. No TPHg or BTEX was detected in the groundwater. MTBE was detected at 1410 ppb in GP-2A, 168 ppb in GP-3A, and 107 ppb in GP-5A. Vapor wells VE-2 through VE-4, VE-8 through VE-11 and VE-13 were drilled June 17 and 18, 2013. VE-2 through VE-4 were screened from 5 to 10 feet. VE-8 through VE-11 and VE-13 were screened from 10 to 20 feet. The wells were drilled to 31 feet and soil samples were taken every 5 . VE-3 had 0.243 ppm TPHg at 15 and 0.191 ppm TPHg at 25 . VE-4 had 0.194 ppm TPHg at 5 and 7.77 ppm at 15 . No BTEX was detected in the soil of any of the vapor wells. VE-3 had 0.021 ppm MTBE and 0.327 ppm TBA at 15 . Off-site monitoring wells MW-17 and MW-18 were installed January 19, 2015, to depths of 37 bgs and screened from 22 to 37 . Soil samples were taken every 5 to depth. No TPHg, BTEX, VOCs or oxygenates were detected in the soil. TPHd was detected at 10 in MW-17 at 220 ppm. Seven nested soil gas probes (SGP-1 through SGP-7) were installed December 2, 2015 in the central and northwest portions of the property located south of 4th Street across from the gas station property to conduct a.Human Health Risk Assessment (HHRA). Soil samples were collected at 5 and 10 feet bgs. No TPHg, TPHd, BTEX, VOCs or fuel oxygenates were detected in the soil samples. Vapor filter tips were placed at 5 and 20 foot depths in the nested vapor probes. Soil gas probe vapor sampling was conducted December 3, 2015. The results of the HHRA indicated the cancer risk for exposure to maximum concentrations for residential receptors for all contaminates at 2.35E-07 which is below the cancer risk threshold of 10-6. The non-cancer hazard for maximum concentrations for residential exposure for all contaminates was 2.56E-03 which is below the non-cancer threshold of 1. The results of the HHRA indicated the risk for exposure to maximum concentrations for commercial receptors for all contaminates at 5.39E-08 which is below the cancer threshold of 10-6. The non-cancer hazard for maximum concentrations for commercial exposure for all contaminates was 6.10-04 which is below the threshold of 1 for non-cancer risks. The HHRA indicated no significant human health risk from vapor intrusion for the proposed development of the site.

Global Id:	T10000002057
Latitude:	33.671568491458
Longitude:	-116.16466999054
Status:	Completed - Case Closed
Status Date:	01/13/2011
Case Worker:	Not reported
RB Case Number:	7T2236037
Local Agency:	Not reported
File Location:	Local Agency Warehouse
Local Case Number:	201033973
Potential Media Affect:	Soil
Potential Contaminants of Concern:	Waste Oil / Motor / Hydraulic / Lubricating
Site History:	On April 15, 2010, soil samples were taken during a spill bucket replacement at the waste oil tank. 3.1 ppb tetrachloroethene was detected 2 under the spill bucket. CVWD decided to try to dig out the tetrachloroethene. They dug to the top of the tank on May 17, 2010. 4 soil samples were taken. Up to 29 ppm TPHoil and 71 ppm TPHd was detected. The site was placed into LOP due to increasing TPHd and TPHoil with depth and groundwater levels of ~20 . (The water table has been dropping over the past decade, previously it had been as shallow as 12 .) The Water District decided to remove the tank and replace it with an above ground tank. On October 28, 2010, the tank was removed. The tank pull contractor stated that a vent line had been connected to the tank and was capped below grade. The line had corroded and there were holes in it. Whenever the tank was overfilled, the waste oil would leak into the surrounding soils. The soil around the vent line was dug out and containerized in two drums. 1 confirmation sample was taken beneath the former tank at 11 and analyzed. The 14 sample was held awaiting the results of the 11 sample. The 11 sample had ND <0.1 ppm TPHg, 3.9 ppm TPHd, and ND BTEX and VOCs. One soil sample was also taken from each of the two drums and labeled A and B. The A drum sampled had ND<0.1 ppm TPHg, 125 ppm TPHd, and 2720 ppm TPHmotor oil. The B drum sample had 1.88 ppm TPHg, 7960 ppm TPHd, 9260 ppm TPHmotor oil, 5.03 ppb 1,3,5-TMB, 2.66 ppb 1,2,4-TMB and 2.88 ppb naphthalene. RWQCB and Riv Co concur with closure. Case closed 1/13/2011.

CERS:
Name: COACHELLA VALLEY WATER DISTRICT
Address: 85995 AVENUE 52
City,State,Zip: COACHELLA, CA 92236
Site ID: 216378
CERS ID: T10000002057
CERS Description: Leaking Underground Storage Tank Cleanup Site

Count: 0 records.

ORPHAN SUMMARY

City	EDR ID	Site Name	Site Address	Zip	Database(s)
		NO SITES FOUND			

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 08/25/2022

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines
An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS ECHO FIRE TRAINING: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PART 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991

UTM Y (Meters):	3727071.0
Elevation:	65 ft. below sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	12002848 INDIO, CA
Version Date:	2018

EDR’s GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

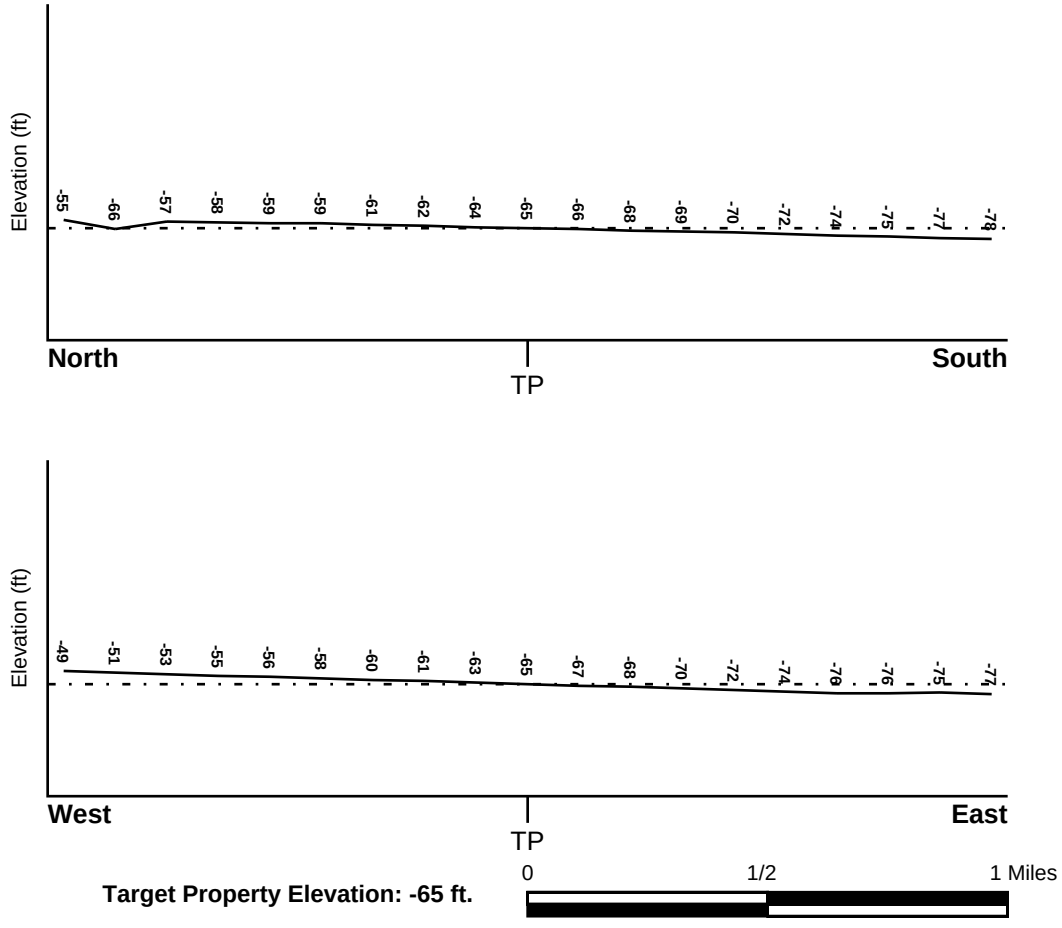
1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).



TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SE

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Target Property Elevation: -65 ft.

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
INDIO	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Coachella

Soil Surface Texture: fine sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Moderately well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 122 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	11 inches	fine sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 42 Min: 14	Max: 8.4 Min: 7.9
2	11 inches	59 inches	stratified sand to loamy fine sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 42 Min: 14	Max: 8.4 Min: 7.9

Soil Map ID: 2

Soil Component Name: Gilman

Soil Surface Texture: fine sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Moderately well drained

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 122 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	7 inches	fine sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 14 Min: 4	Max: 8.4 Min: 7.9
2	7 inches	59 inches	stratified loamy sand to silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 14 Min: 4	Max: 8.4 Min: 7.9

Soil Map ID: 3

Soil Component Name: Indio

Soil Surface Texture: very fine sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Moderately well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 122 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	9 inches	very fine sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 14 Min: 4	Max: 8.4 Min: 7.9
2	9 inches	59 inches	very fine sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 14 Min: 4	Max: 8.4 Min: 7.9

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
Source: Department of Public Health
Telephone: 916-210-8558
Radon Database for California

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

APPENDIX D1

AGENCY DOCUMENTS
(CITY OF COACHELLA BUILDING DEPARTMENT)

DATE: 03/13/23

CITY OF COACHELLA
PUBLIC RECORDS ACT REQUEST FORM

All Public Records Act requests for information must be submitted in writing on this form and delivered to the City Clerk's Office at City Hall. Please fill out this form completely with as much detail as possible and identify specifically the records you are requesting.

The California Public Records Act (Government Code Section 6250 et. seq.) applies to writings in city files "containing information relating to the conduct of the public's business prepared, owned, used, or retained by any state or local agency regardless of physical form or characteristics." The City will provide those documents to you, unless they are exempt from disclosure under the Public Records Act or other legal reason prevents the documents from being disclosed to the public. Please note that the City is not required by law to create a list from an existing record or create a new record.

NAME: Quin Kinnebrew PHONE NUMBER: 714-315-5354

EMAIL (*PLEASE PRINT CLEARLY*): blackrock@msn.com

ADDRESS: 85711 and 85911 Peter Rabit Lane (same property)

INQUIRY:
historical building permit, plumbing permits, and electrical permits

The Act allows staff ten (10) days in which to respond to requests for information as well as the recovery of associated costs. Staff will contact you when a response has been completed for your request. (Due to staff reductions, staff is unable to respond to walk-in inquiries that have not previously scheduled an appointment prior to or after submission of the inquiry to the City Clerk's Office.) All Fees involved must be paid in the City's Finance Department prior to the release of documents.

DO NOT WRITE BELOW THIS AREA – FOR CITY STAFF USE ONLY

PRELIMINARY REPORT

Dated as of April 5, 2023 at 7:30 a.m.

In response to the application for a policy of title insurance referenced herein, Commonwealth Land Title Company hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.
The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitation on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

The policy(s) of title insurance to be issued hereunder will be policy(s) of **Commonwealth Land Title Insurance Company.**

Please read the exceptions shown or referred to below and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered. It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

SCHEDULE A

The form of policy of title insurance contemplated by this report is:

CLTA Standard Coverage Policy of Title Insurance (4-8-14)

The estate or interest in the land hereinafter described or referred to covered by this report is:

A FEE

Title to said estate or interest at the date hereof is vested in:

Hidden Harvest Corporation, a California non-profit mutual benefit corporation

The land referred to herein is situated in the County of RIVERSIDE, State of California, and is described as follows:

SEE EXHIBIT "A" ATTACHED HERETO AND MADE A PART HEREOF

EXHIBIT "A"

ALL THAT CERTAIN REAL PROPERTY SITUATED IN THE CITY OF COACHELLA, COUNTY OF RIVERSIDE, STATE OF CALIFORNIA, DESCRIBED AS FOLLOWS:

ADJUSTED PARCEL 2 OF CERTIFICATE OF COMPLIANCE FOR LOT LINE ADJUSTMENT RECORDED OCTOBER 23, 2006 AS INSTRUMENT NO. 777181 OF OFFICIAL RECORDS.

A 150.00 FEET WIDE STRIP OF LAND LYING WITHIN THE NORTH WEST QUARTER (NORTH WEST 1/4) AND WITHIN THE WEST HALF OF THE EAST HALF (WI/2E1/2) 01: SECTIONS. Assessor's Parcel Number: 778-030-010 and 778-030-012

SCHEDULE B – Section A

The following exceptions will appear in policies when providing standard coverage as outlined below:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.

2. Any facts, rights, interests or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.

3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.

4. Any encroachment, encumbrance, violation, variation or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.

5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the Public Records.

6. Any lien or right to a lien for services, labor or material not shown by the Public Records.

SCHEDULE B – Section B

At the date hereof Exceptions to coverage in addition to the printed exceptions and exclusions in said policy form would be as follows:

A. Property taxes, which are a lien not yet due and payable, including any assessments collected with taxes to be levied for the fiscal year 2023-2024.

B. There were no taxes levied for the fiscal year 2022-2023 as the property was vested in a public entity.

Affects: 778-030-010

C. Property taxes, including any personal property taxes and any assessments collected with taxes, are as follows:

Tax Identification No.:	778-030-012
Fiscal Year:	2022-2023

Recording No:	2006-777186 of Official Records

The document entitled “Partial Reconveyance”

Recording Date:	October 23, 2006
Recording No.:	2006-777187 of Official Records

7. The Land described herein is included within a project area of the Redevelopment Agency shown below, and that proceedings for the redevelopment of said project have been instituted under the Redevelopment Law (such redevelopment to proceed only after the adoption of the Redevelopment Plan) as disclosed by a document.

Redevelopment Agency:	The Redevelopment Agency for the City of Coachella
Recording Date:	July 10, 2007
Recording No:	2007-449636 of Official Records

8. Easement(s) for the purpose(s) shown below and rights incidental thereto as condemned by an instrument,

Entitled:	Easement Deed by Court Order in Settlement of Landowner Action
Court:	Superior Court of California
Case No.:	3:11-cv-02599-TEH
In favor of:	County of Riverside
Purpose:	Right-of-way
Recording Date:	August 29, 2013
Recording No:	2013-423943 of Official Records
Affects:	A portion of said land

9. Please be advised that our search did not disclose any open Deeds of Trust of record. If you should have knowledge of any outstanding obligation, please contact the Title Department immediately for further review prior to closing.

10. Any rights of the parties in possession of a portion of, or all of, said Land, which rights are not disclosed by the public records.

The Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage.

The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

11. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other matters which a correct survey would disclose and which are not shown by the public records.

12. Any easements not disclosed by the public records as to matters affecting title to real property, whether or not said easements are visible and apparent.

13. Matters which may be disclosed by an inspection and/or by a correct ALTA/NSPS Land Title Survey of said Land that is satisfactory to the Company, and/or by inquiry of the parties in possession thereof.

END OF SCHEDULE B EXCEPTIONS

PLEASE REFER TO THE "NOTES AND REQUIREMENTS SECTION" WHICH FOLLOWS FOR INFORMATION NECESSARY TO COMPLETE THIS TRANSACTION

REQUIREMENTS SECTION:

1. The Company will require the following documents for review prior to the issuance of any title insurance predicated upon a conveyance or encumbrance by the corporation named below:

   Name of Corporation: Hidden Harvest Corporation, a California non-profit mutual benefit corporation

   a) A Copy of the corporation By-laws and Articles of Incorporation

   b) An original or certified copy of a resolution authorizing the transaction contemplated herein

   c) If the Articles and/or By-laws require approval by a 'parent' organization, a copy of the Articles and By-laws of the parent

   The Company reserves the right to add additional items or make further requirements after review of the requested documentation.

2. In order to complete this report, the Company requires a Statement of Information to be completed by the following party(s),

   Party(s): All Parties

   The Company reserves the right to add additional items or make further requirements after review of the requested Statement of Information.

   NOTE: The Statement of Information is necessary to complete the search and examination of title under this order. Any title search includes matters that are indexed by name only, and having a completed Statement of Information assists the Company in the elimination of certain matters which appear to involve the parties but in fact affect another party with the same or similar name. Be assured that the Statement of Information is essential and will be kept strictly confidential to this file.

3. Unrecorded matters which may be disclosed by an Owner's Affidavit or Declaration. A form of the Owner's Affidavit/Declaration is attached to this Preliminary Report/Commitment. This Affidavit/Declaration is to be completed by the record owner of the land and submitted for review prior to the closing of this transaction. Your prompt attention to this requirement will help avoid delays in the closing of this transaction. Thank you.

   The Company reserves the right to add additional items or make further requirements after review of the requested Affidavit/Declaration.

INFORMATIONAL NOTES SECTION

1. The information on the attached plat is provided for your convenience as a guide to the general location of the subject property. The accuracy of this plat is not guaranteed, nor is it a part of any policy, report or guarantee to which it may be attached.

2. For wiring Instructions please contact your Title Officer or Title Company Escrow officer.

3. Notice: Please be aware that due to the conflict between federal and state laws concerning the cultivation, distribution, manufacture or sale of marijuana, the Company is not able to close or insure any transaction involving Land that is associated with these activities.

4. Pursuant to Government Code Section 27388.1, as amended and effective as of 1-1-2018, a Documentary Transfer Tax (DTT) Affidavit may be required to be completed and submitted with each document when DTT is being paid or when an exemption is being claimed from paying the tax. If a governmental agency is a party to the document, the form will not be required. DTT Affidavits may be available at a Tax Assessor-County Clerk-Recorder.

5. Note: The policy of title insurance will include an arbitration provision. The Company or the insured may demand arbitration. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the insured arising out of or relating to this policy, any service of the Company in connection with its issuance or the breach of a policy provision or other obligation. Please ask your escrow or title officer for a sample copy of the policy to be issued if you wish to review the arbitration provisions and any other provisions pertaining to your Title Insurance coverage.

6. The following Exclusion(s) are added to preliminary reports, commitments and will be included as an endorsement in the following policies:

   A. 2006 ALTA Owner's Policy (06-17-06).

      6. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the Public Records but that would be disclosed by an examination of any records maintained by or on behalf of a Tribe or on behalf of its members.

   B. 2006 ALTA Loan Policy (06-17-06).

      8. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the Public Records but that would be disclosed by an examination of any records maintained by or on behalf of a Tribe or on behalf of its members.

      9. Any claim of invalidity, unenforceability, or lack of priority of the lien of the Insured Mortgage based on the application of a Tribe's law resulting from the failure of the Insured Mortgage to specify State law as the governing law with respect to the lien of the Insured Mortgage.

   C. ALTA Homeowner's Policy of Title Insurance (12-02-13) and CLTA Homeowner's Policy of Title Insurance (12-02-13).

      10. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the Public Records but that would be disclosed by an examination of any records maintained by or on behalf of a Tribe or on behalf of its members.

   D. ALTA Expanded Coverage Residential Loan Policy - Assessments Priority (04-02-15).

      12. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the Public Records but that would be disclosed by an examination of any records maintained by or on behalf of a Tribe or on behalf of its members.

      13. Any claim of invalidity, unenforceability, or lack of priority of the lien of the Insured Mortgage based on the application of a Tribe's law resulting from the failure of the Insured Mortgage to specify State law as the governing law with respect to the lien of the Insured Mortgage.

E. CLTA Standard Coverage Policy 1990 (11-09-18).

7. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the public records but that would be disclosed by an examination of any records maintained by or on behalf of a tribe or on behalf of its members.

8. Any claim of invalidity, unenforceability, or lack of priority of the lien of the insured mortgage based on the application of a tribe's law resulting from the failure of the insured mortgage to specify state law as the governing law with respect to the lien of the insured mortgage.

7. Please be aware that withholding is required on all California real estate transfers, with some exceptions. For more information go to the California Franchise Tax Board website at: https://www.ftb.ca.gov/forms/search/..

8. Note: None of the items shown in this report will cause the Company to decline to attach CLTA Endorsement Form 100 to an ALTA Loan Policy, when issued.

9. Note: The following information will be included in the CLTA Form 116 or ALTA Form 22-06 Endorsement to be issued pursuant to this order:

There is located on said Land:	a Commercial property
Known as:	85710 Grapefruit and 89711 Peter Rabitt Lane, City of Coachella, County of Riverside, CA

10. Note: There are no conveyances affecting said Land recorded within 24 months of the date of this report.

11. Note: The Company requires current beneficiary demands prior to closing. If the demand is expired and a current demand cannot be obtained, our requirements will be as follows:

a) If the Company accepts a verbal update on the demand, we may hold an amount equal to one monthly mortgage payment. This hold will be in addition to the verbal hold the lender may have stipulated.

b) If the Company cannot obtain a verbal update on the demand, we will either pay off the expired demand or wait for the amended demand, at our discretion.

c) All payoff figures are verified at closing. If the customer's last payment was made within 15 days of closing, our Payoff Department may hold one month's payment to insure the check has cleared the bank (unless a copy of the cancelled check is provided, in which case there will be no hold).

12. Due to the special requirements of SB 50 (California Public Resources Code Section 8560 et seq.), any transaction that includes the conveyance of title by an agency of the United States must be approved in advance by the Company's State Counsel, Regional Counsel, or one of their designees.

Wire Fraud Alert

This Notice is not intended to provide legal or professional advice. If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. DO NOT use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the phone number of relevant parties to the transaction as soon as an escrow account is opened**. DO NOT send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do NOT reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

For more information on wire-fraud scams or to report an incident, please refer to the following links:

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the filed rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for such discount. These discounts only apply to transactions involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

Not all discounts are offered by every FNF Company. The discount will only be applicable to the FNF Company as indicated by the named discount.

FIDELITY NATIONAL FINANCIAL, INC.
PRIVACY NOTICE

Effective January 1, 2023

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, "FNF," "our," or "we") respect and are committed to protecting your privacy. This Privacy Notice explains how we collect, use, and protect personal information, when and to whom we disclose such information, and the choices you have about the use and disclosure of that information.

A limited number of FNF subsidiaries have their own privacy notices. If a subsidiary has its own privacy notice, the privacy notice will be available on the subsidiary's website and this Privacy Notice does not apply.

Collection of Personal Information

FNF may collect the following categories of Personal Information:

- contact information (e.g., name, address, phone number, email address);
- demographic information (e.g., date of birth, gender, marital status);
- identity information (e.g. Social Security Number, driver's license, passport, or other government ID number);
- financial account information (e.g. loan or bank account information); and
- other personal information necessary to provide products or services to you.

We may collect Personal Information about you from:

- information we receive from you or your agent;
- information about your transactions with FNF, our affiliates, or others; and
- information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities or through others.

Collection of Browsing Information

FNF automatically collects the following types of Browsing Information when you access an FNF website, online service, or application (each an "FNF Website") from your Internet browser, computer, and/or device:

- Internet Protocol (IP) address and operating system;
- browser version, language, and type;
- domain name system requests; and
- browsing history on the FNF Website, such as date and time of your visit to the FNF Website and visits to the pages within the FNF Website.

Like most websites, our servers automatically log each visitor to the FNF Website and may collect the Browsing Information described above. We use Browsing Information for system administration, troubleshooting, fraud investigation, and to improve our websites. Browsing Information generally does not reveal anything personal about you, though if you have created a user account for an FNF Website and are logged into that account, the FNF Website may be able to link certain browsing activity to your user account.

Other Online Specifics

Cookies. When you visit an FNF Website, a "cookie" may be sent to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer's hard drive. Information gathered using cookies helps us improve your user experience. For example, a cookie can help the website load properly or can customize the display page based on your browser type and user preferences. You can choose whether or not to accept cookies by changing your Internet browser settings. Be aware that doing so may impair or limit some functionality of the FNF Website.

Web Beacons. We use web beacons to determine when and how many times a page has been viewed. This information is used to improve our websites.

Do Not Track. Currently our FNF Websites do not respond to "Do Not Track" features enabled through your browser.

Links to Other Sites. FNF Websites may contain links to unaffiliated third-party websites. FNF is not responsible for the privacy practices or content of those websites. We recommend that you read the privacy policy of every website you visit.

Use of Personal Information

FNF uses Personal Information for three main purposes:

- To provide products and services to you or in connection with a transaction involving you.
- To improve our products and services.
- To communicate with you about our, our affiliates', and others' products and services, jointly or independently.

When Information Is Disclosed

We may disclose your Personal Information and Browsing Information in the following circumstances:

- to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;
- to affiliated or nonaffiliated service providers who provide or perform services or functions on our behalf and who agree to use the information only to provide such services or functions;

opyright © 2023. Fidelity National Financial, Inc. All Rights Reserved

- to affiliated or nonaffiliated third parties with whom we perform joint marketing, pursuant to an agreement with them to jointly market financial products or services to you;
- to law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order; or
- in the good-faith belief that such disclosure is necessary to comply with legal process or applicable laws, or to protect the rights, property, or safety of FNF, its customers, or the public.

The law does not require your prior authorization and does not allow you to restrict the disclosures described above. Additionally, we may disclose your information to third parties for whom you have given us authorization or consent to make such disclosure. We do not otherwise share your Personal Information or Browsing Information with nonaffiliated third parties, except as required or permitted by law.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of bankruptcy, reorganization, insolvency, receivership, or an assignment for the benefit of creditors. By submitting Personal Information and/or Browsing Information to FNF, you expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings.

Security of Your Information
We maintain physical, electronic, and procedural safeguards to protect your Personal Information.

Choices With Your Information
Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you.

For California Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties, except as permitted by California law. For additional information about your California privacy rights, please visit the "California Privacy" link on our website (https://fnf.com/pages/californiaprivacy.aspx) or call (888) 413-1748.

For Nevada Residents: We are providing this notice pursuant to state law. You may be placed on our internal Do Not Call List by calling FNF Privacy at (888) 714-2710 or by contacting us via the information set forth at the end of this Privacy Notice. For further information concerning Nevada's telephone solicitation law, you may contact: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: aginquiries@ag.state.nv.us.
For Oregon Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes.

For Vermont Residents: We will not disclose information about your creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

For Virginia Residents: For additional information about your Virginia privacy rights, please email privacy@fnf.com or call (888) 714-2710.

Information From Children
The FNF Websites are not intended or designed to attract persons under the age of eighteen (18).We do not collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

International Users
FNF's headquarters is located within the United States. If you reside outside the United States and choose to provide Personal Information or Browsing Information to us, please note that we may transfer that information outside of your country of residence. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection, transfer, and use of such information in accordance with this Privacy Notice.

FNF Website Services for Mortgage Loans
Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the "Service Websites"). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender's privacy notice. The sections of this Privacy Notice titled When Information is Disclosed, Choices with Your Information, and Accessing and Correcting Information do not apply to the Service Websites. The mortgage loan servicer or lender's privacy notice governs use, disclosure, and access to your Personal Information. FNF does not share Personal Information collected through the Service Websites, except as required or authorized by contract with the mortgage loan servicer or lender, or as required by law or in the good-faith belief that such disclosure is necessary: to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

Your Consent To This Privacy Notice; Notice Changes
By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of the information in accordance with this Privacy Notice. We may change this Privacy Notice at any time. The Privacy Notice's effective date will show the

opyright © 2023. Fidelity National Financial, Inc. All Rights Reserved

last date changes were made. If you provide information to us following any change of the Privacy Notice, that signifies your assent to and acceptance of the changes to the Privacy Notice.

CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE POLICY – 1990 (11-09-18)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
   (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy; or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any claim, which arises out of the transaction vesting in the insured the estate of interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.
   Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
6. Any lien or right to a lien for services, labor or material unless such lien is shown by the public records at Date of Policy.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART II

(Variable exceptions such as taxes, easements, CC&R's, etc., are inserted here)

CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE OWNER'S POLICY (02-04-22)

EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
      i. the occupancy, use, or enjoyment of the Land;
      ii. the character, dimensions, or location of any improvement on the Land;
      iii. the subdivision of land; or
      iv. environmental remediation or protection.
   b. any governmental forfeiture, police, regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b. Exclusion 1 does not modify or limit the coverage provided under Covered Risk 5 or 6.
2. Any power of eminent domain. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 7.
3. Any defect, lien, encumbrance, adverse claim, or other matter:

a. created, suffered, assumed, or agreed to by the Insured Claimant;
b. not Known to the Company, not recorded in the Public Records at the Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
c. resulting in no loss or damage to the Insured Claimant;
d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 9 or 10); or
e. resulting in loss or damage that would not have been sustained if consideration sufficient to qualify the Insured named in Schedule A as a bona fide purchaser had been given for the Title at the Date of Policy.

4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transaction vesting the Title as shown in Schedule A is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 9.b.
5. Any claim of a PACA-PSA Trust. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 8.
6. Any lien on the Title for real estate taxes or assessments imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 6 does not modify or limit the coverage provided under Covered Risk 2.b.
7. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

EXCEPTIONS FROM COVERAGE

Some historical land records contain Discriminatory Covenants that are illegal and unenforceable by law. This policy treats any Discriminatory Covenant in a document referenced in Schedule B as if each Discriminatory Covenant is redacted, repudiated, removed, and not republished or recirculated. Only the remaining provisions of the document are excepted from coverage.

This policy does not insure against loss or damage and the Company will not pay costs, attorneys' fees, or expenses resulting from the terms and conditions of any lease or easement identified in Schedule A, and the following matters:

PART I

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land, or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

PART II

(Variable exceptions such as taxes, easements, CC&R's, etc., are inserted here)

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (07-01-2021)

EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy and We will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
      i. the occupancy, use, or enjoyment of the Land;
      ii. the character, dimensions, or location of any improvement on the Land;
      iii. the subdivision of land; or
      iv. environmental remediation or protection.
   b. any governmental forfeiture, police, or regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b. Exclusion 1 does not modify or limit the coverage provided under Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23, or 27.
2. Any power to take the Land by condemnation. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 17.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by You;
   b. not Known to Us, not recorded in the Public Records at the Date of Policy, but Known to You and not disclosed in writing to Us by You prior to the date You became an Insured under this policy;
   c. resulting in no loss or damage to You;

d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 5, 8.f., 25, 26, 27, 28, or 32); or
e. resulting in loss or damage that would not have been sustained if You paid consideration sufficient to qualify You as a bona fide purchaser of the Title at the Date of Policy.

4. Lack of a right:
   a. to any land outside the area specifically described and referred to in Item 3 of Schedule A; and
   b. in any street, road, avenue, alley, lane, right-of-way, body of water, or waterway that abut the Land.
   Exclusion 4 does not modify or limit the coverage provided under Covered Risk 11 or 21.
5. The failure of Your existing structures, or any portion of Your existing structures, to have been constructed before, on, or after the Date of Policy in accordance with applicable building codes. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 14 or 15.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transfer of the Title to You is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 30.
7. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
8. Negligence by a person or an entity exercising a right to extract or develop oil, gas, minerals, groundwater, or any other subsurface substance.
9. Any lien on Your Title for real estate taxes or assessments imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 9 does not modify or limit the coverage provided under Covered Risk 8.a. or 27.
10. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$5,000.00

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13)

EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
   a. building;
   b. zoning;
   c. land use;
   d. improvements on the Land;
   e. land division; and
   f. environmental protection.
   This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
   b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
   c. that result in no loss to You; or
   d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
6. Lack of a right:
   a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.
   This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

Our Maximum Dollar

	Your Deductible Amount	Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$5,000.00

ALTA OWNER'S POLICY (07-01-2021)

EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement on the Land;
   iii. the subdivision of land; or
   iv. environmental remediation or protection.
   b. any governmental forfeiture, police, regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b. Exclusion 1 does not modify or limit the coverage provided under Covered Risk 5 or 6.
2. Any power of eminent domain. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 7.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not Known to the Company, not recorded in the Public Records at the Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 9 or 10); or
   e. resulting in loss or damage that would not have been sustained if consideration sufficient to qualify the Insured named in Schedule A as a bona fide purchaser had been given for the Title at the Date of Policy.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transaction vesting the Title as shown in Schedule A is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 9.b.
   5. Any claim of a PACA-PSA Trust. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 8.
   6. Any lien on the Title for real estate taxes or assessments imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 6 does not modify or limit the coverage provided under Covered Risk 2.b.
   7. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

EXCEPTIONS FROM COVERAGE

Some historical land records contain Discriminatory Covenants that are illegal and unenforceable by law. This policy treats any Discriminatory Covenant in a document referenced in Schedule B as if each Discriminatory Covenant is redacted, repudiated, removed, and not republished or recirculated. Only the remaining provisions of the document are excepted from coverage.

This policy does not insure against loss or damage and the Company will not pay costs, attorneys' fees, or expenses resulting from the terms and conditions of any lease or easement identified in Schedule A, and the following matters:

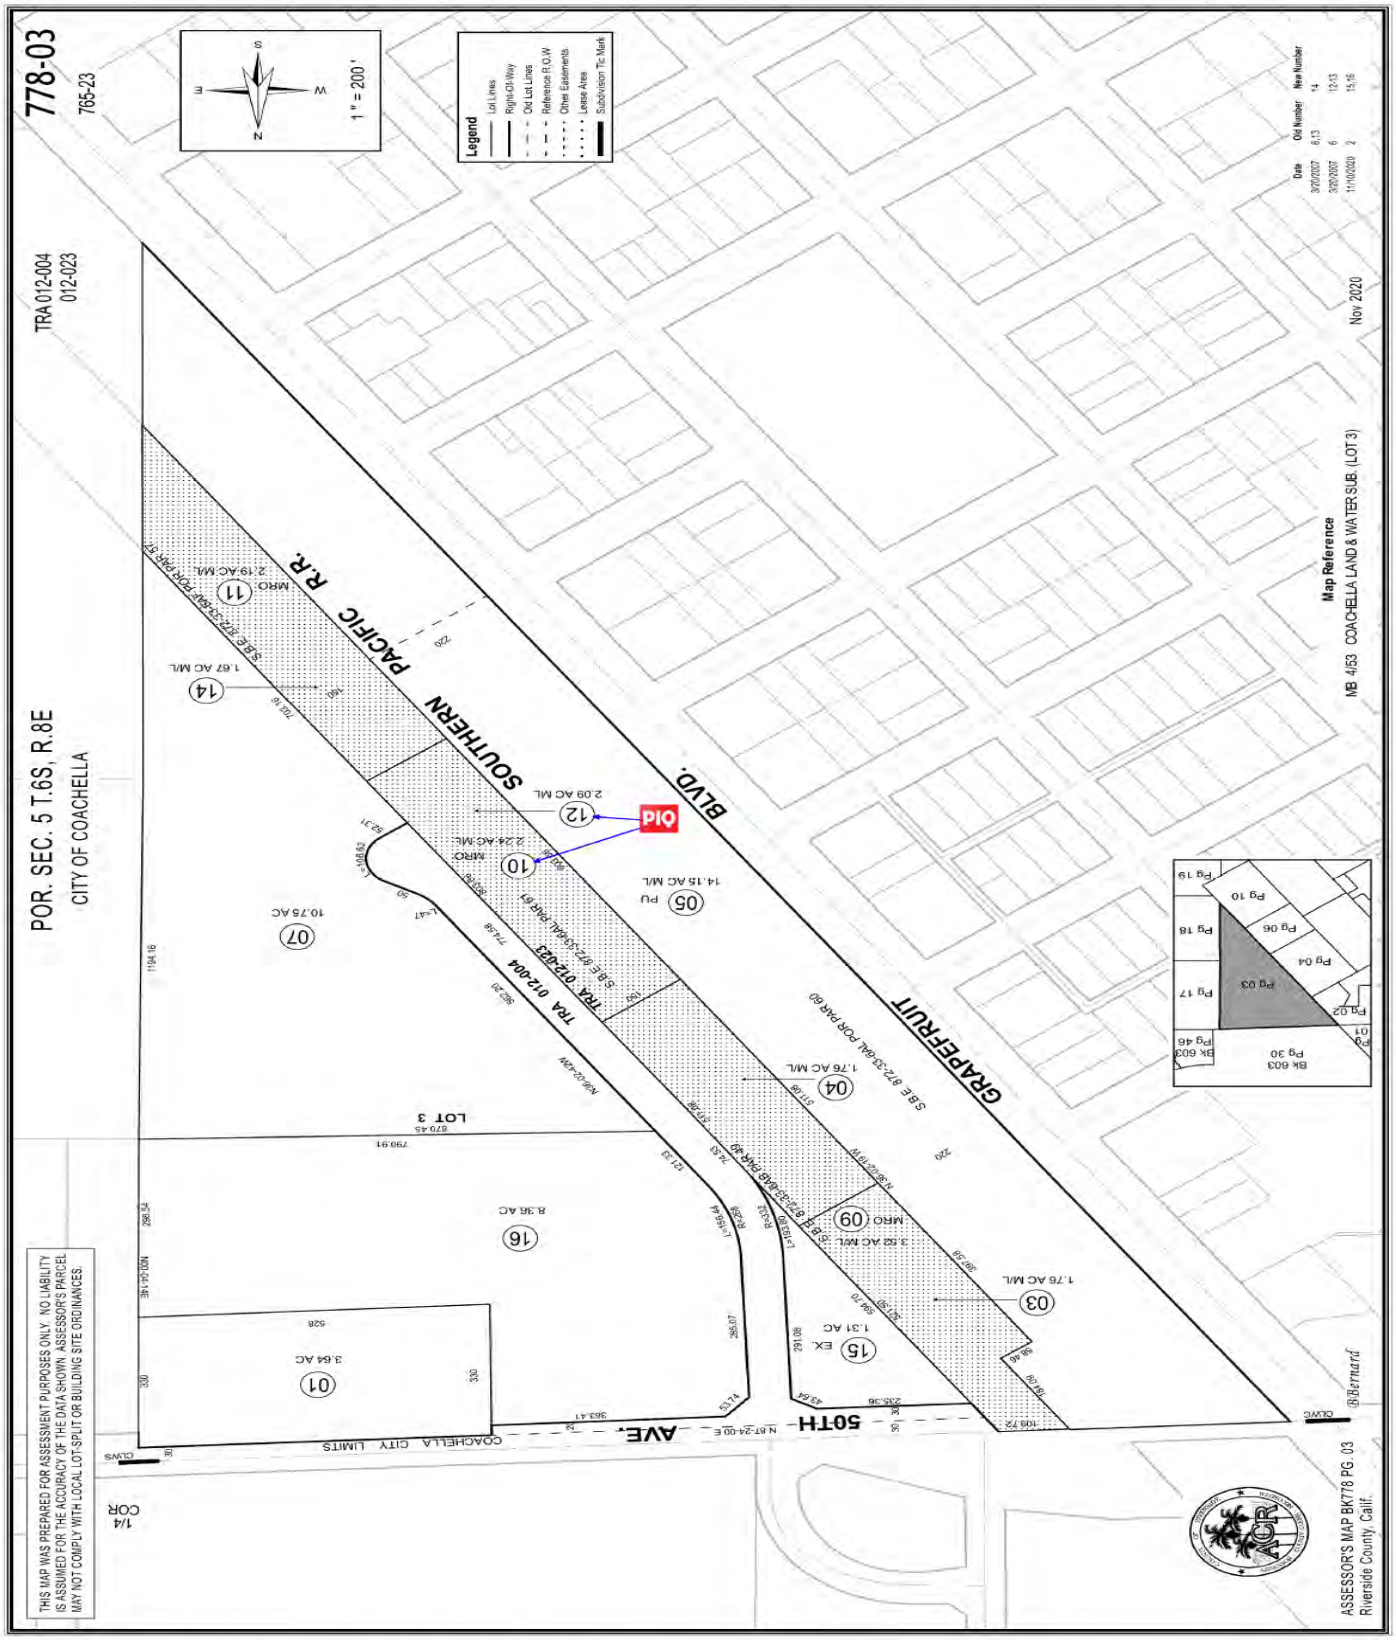
NOTE: The 2021 ALTA Owner's Policy may be issued to afford either Standard Coverage or Extended Coverage. In addition to variable exceptions such as taxes, easements, CC&R's, etc., the Exceptions from Coverage in a Standard Coverage policy will also include the Western Regional Standard Coverage Exceptions listed as 1 through 7 below:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:



1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

NOTE: The 2006 ALTA Owner's Policy may be issued to afford either Standard Coverage or Extended Coverage. In addition to variable exceptions such as taxes, easements, CC&R's, etc., the Exceptions from Coverage in a Standard Coverage policy will also include the Western Regional Standard Coverage Exceptions listed below as 1 through 7 below:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land, or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

This map/plat is being furnished as an aid in locating the herein described Land in relation to adjoining streets, natural boundaries and other land, and is not a survey of the land depicted. Except to the extent a policy of title insurance is expressly modified by endorsement, if any, the Company does not insure dimensions, distances, location of easements, acreage or other matters shown thereon.

OWNER'S DECLARATION

The undersigned hereby declares as follows:

1. (Fill in the applicable paragraph and strike the other)

   a. Declarant ("Owner") is the owner or lessee, as the case may be, of certain premises located at _____, further described as follows: See Preliminary Report/Commitment No. 92020474-920-CMM-CM8 for full legal description (the "Land").

   b. Declarant is the _____ of _____ ("Owner"), which is the owner or lessee, as the case may be, of certain premises located at _____, further described as follows: See Preliminary Report/Commitment No. 92020474-920-CMM-CM8 for full legal description (the "Land").

2. (Fill in the applicable paragraph and strike the other)

   a. During the period of six months immediately preceding the date of this declaration no work has been done, no surveys or architectural or engineering plans have been prepared, and no materials have been furnished in connection with the erection, equipment, repair, protection or removal of any building or other structure on the Land or in connection with the improvement of the Land in any manner whatsoever.

   b. During the period of six months immediately preceding the date of this declaration certain work has been done and materials furnished in connection with _____ upon the Land in the approximate total sum of $_____, but no work whatever remains to be done and no materials remain to be furnished to complete the construction in full compliance with the plans and specifications, nor are there any unpaid bills incurred for labor and materials used in making such improvements or repairs upon the Land, or for the services of architects, surveyors or engineers, except as follows: _____. Owner, by the undersigned Declarant, agrees to and does hereby indemnify and hold harmless Commonwealth Land Title Company against any and all claims arising therefrom.

3. Owner has not previously conveyed the Land; is not a debtor in bankruptcy (and if a partnership, the general partner thereof is not a debtor in bankruptcy); and has not received notice of any pending court action affecting the title to the Land.

4. Except as shown in the above-referenced Preliminary Report/Commitment, there are no unpaid or unsatisfied mortgages, deeds of trust, Uniform Commercial Code financing statements, regular assessments, or taxes that constitute a lien against the Land or that affect the Land but have not been recorded in the public records.

5. The Land is currently in use as _____ ; _____occupy/occupies the Land; and the following are all of the leases or other occupancy rights affecting the Land:

   _____

6. There are no other persons or entities that assert an ownership interest in the Land, nor are there unrecorded easements, claims of easement, or boundary disputes that affect the Land.

7. There are no outstanding options to purchase or rights of first refusal affecting the Land.

8. There are no material violations of any current, enforceable covenant affecting the Property and the Undersigned has received no written notice from any third party claiming that there is a present violation of any current, enforceable covenant affecting the Property.

This declaration is made with the intention that Commonwealth Land Title Company and Commonwealth Land Title Insurance Company (the "Company") and its policy issuing agents will rely upon it in issuing their title insurance policies and endorsements. Owner, by the undersigned Declarant, agrees to indemnify the Company against loss or damage (including attorneys fees, expenses, and costs) incurred by the Company as a result of any untrue statement made herein.

I declare under penalty of perjury that the foregoing is true and correct and that this declaration was executed on ___ at _____.

  Please provide the name of the High School you attend: _____

PLEASE FURNISH BRIEF RESPONSES TO THE QUESTIONS BELOW:

1. Why do you think you should be appointed? What is there specifically in your background, training, education and interests that qualifies you as a candidate?

I think I should be appointed because of my passion for community engagement in the arts. I have been a member of Raíces Culturas since I was a freshman in high school and am now the Program implementation and outreach specialist at Raices 11 years later. Throughout my time in this organization I have been involved with the planning of the cities Dia de los muertos events, experience in building large art instillations, creating murals, arts and culture programming for youth, cultivated partnerships with other organizations and much more. I also have a Bachelors degree in Art Education therefore I have deep knowledge and understanding of curriculum building and implementation in multiple educational settings. On top of all of this I also have experience hosting art workshops at the Palm Springs art museum, Raíces Culturas and other organizations like C.O.F.E.M and the Migrant Education program at our school district. I believe in the power of the arts to bring people together and foster a sense of belonging and understanding among community members. I would love to continue being a part of this journey through this position.

2. What do you see as the goals and objectives of the Commission? How would you help achieve these objectives and goals?

I some of the goals of the arts commission as, promoting citywide appreciation and access to the arts. Develop initiatives that encourage youth involvement in the arts.Create and support opportunities for professional artists and arts organizations. Advocate for the inclusion of the arts in public spaces and the public sphere. Generate economic opportunities and support economic growth in the arts and simply just help make arts and culture more accessible to all residents. I would help achieve these objectives and goals by making sure that we have as much community involvement as possible in the decision making processes. Making sure that funds are being allocated fairly

3. What special qualities can you bring to the Commission?

My passion for the arts, creativity, and community organizing are some of my greatest assets that I can bring to an Arts Commission. I have excellent communication skills and highly enjoy working with a team to bring a collaborative vision to life. Above all, I am dedicated to the pursuit of knowledge, and finding innovative ways to bring artistic and cultural enrichment to our local community.

4. Do you have any questions or comments about the Commission's structure or functions?

How much authority does to commission have towards the overall decision making within city structure? How often are objectives changed or modified if they are at all? How much control does the commission have over funding?

5. Other comments and/or ideas as to how you as a member of the Commission could benefit the City of Coachella.

I would just like to comment that I grew up In down town Coachella and I love all of our murals but I would love to see where I can help more local artists get these opportunities.

PLEASE FURNISH BRIEF RESPONSES TO THE QUESTIONS BELOW:

1. Why do you think you should be appointed? What is there specifically in your background, training, education and interests that qualifies you as a candidate?

I've worked for over 15 years in the arts to engage the community with artworks and facilitate programs for families and children to learn more about art and to be comfortable around it.

In addition, I am one of the co-director of the student exhibition county-wide, Fine Arts Spectacular, which is sponsored by the Riverside County Office of Education. With my other colleague, we review the submissions, select the jurors, and determine the theme of the student exhibition.

I have a B.A. in Arts History and Business Economics and a M.A. in Museum Studies.

2. What do you see as the goals and objectives of the Commission? How would you help achieve these objectives and goals?

The Commission's goals and objectives are to bring art to the city created by emerging and well-known artists. These artists need to be contacted and or identified 1) from the city of Coachella; 2) from Coachella Valley; and then, 3) from outside the area. Through my various contacts, I can begin the process of identifying artists to bring more art in various forms to Coachella. At the moment, Coachella has beautiful murals and sculptures. It will be interesting what other media of art we can bring into the city.

3. What special qualities can you bring to the Commission?

I was raised Coachella and upon finishing my education, I have made my Coachella my home since 2004.
I have seen its growth and would like to be part of it in bring the arts and cultural aspect to the community.
Throughout my work experience, one key element is always connecting with the community. This one quality I will bring to the Commission.

4. Do you have any questions or comments about the Commission's structure or functions?

Some questions:
1. Who develops the agenda for the meeting?
2. Does the Commission have a staff liaison?
3. Does the Commission meet at any point with the City Council members and the Mayor?
4. What is the budget for the Commission?
5. How many times does the Commission meet and for how long?

5. Other comments and/or ideas as to how you as a member of the Commission could benefit the City of Coachella.

Thank you for this opportunity to apply for the Arts and Cultural Commission.

PLEASE FURNISH BRIEF RESPONSES TO THE QUESTIONS BELOW:

1. Why do you think you should be appointed? What is there specifically in your background, training, education and interests that qualifies you as a candidate?

   I am looking to participate more in my community and help it grow. After leaving away for college, I came to the realization of how much I care for this Valley that I call my home. I would like to see it grow and prosper even more than it already is, and to be a part of that growth in a more "hands-on" role.

2. What do you see as the goals and objectives of the Commission? How would you help achieve these objectives and goals?

   The goals and objectives of the commission are to ensure that we are providing our community with well maintained parks and open spaces as well as inclusive and innovative recreational and community service programs for all indivudals. I want to help achieve these goals by helping the community become more aware of these programs and engaged in them.

3. What special qualities can you bring to the Commission?

   Critical thinking and problem solvings skills. I am able to think outside the box whenever it's needed and I am able to be receptive when receiving feedback or hearing other's thoughts.

4. Do you have any questions or comments about the Commission's structure or functions?

No questions at this time.

5. Other comments and/or ideas as to how you as a member of the Commission could benefit the City of Coachella.

I think I would be a great addition to the committe. I bring new perspective and ideas as well a mindset that believes in being neutral and coming to an agreement. I am looking forward to helping my community grow in any way possible.

CULTURAL AND ARTS COMMISSION APPLICATION

Application **deadline** is **6:00 p.m.** on **Monday, April 12, 2021**
Application must be received by the deadline in order to be considered

NAME: Oralia "Yaya" Ortiz

ADDRESS: 85092 Damascus Ave Coachella, CA 92236

TELEPHONE: 760-984-2365 **E-MAIL:** culturascoachellavalley@gmail.com

To be eligible for appointment to the Commission you must be a resident of the City of Coachella. Members may only serve on one commission/committee.

Note: In the event a member of the commission has three (3) consecutive unexcused absences from meetings of the Commission, the City Council may declare the office of such member vacant.

PLEASE FURNISH BRIEF RESPONSES TO THE QUESTIONS BELOW:

1. Why do you think you should be appointed? What is there specifically in your background, training, education and interests that qualifies you as a candidate?

   Since 2009 I have worked dilengenlty to bring art programs & venues to the community of Coachellla. Beginning with the Shadly Lane Mural, Synergy Music & Arts Festival, Women Rising, Arte De Barrio etc. Currently, a art & music center that would benefit at-risk youth and the community at large.

2. What do you see as the goals and objectives of the Commission? How would you help achieve these objectives and goals?

   Goals & Objectives of an Arts Commission should always have the community in mind, to be objective and fair to every artist that submit RFP's and ideas. Art installations should also reflect the community it's serving .

3. What special qualities can you bring to the Commission?

   I believe art in an intergal part of every community. It brings vitality, socail engagement, inspires local culture of creative thinkers. I will continue that these values are instilled in every potential art project that is submitted.

4. Do you have any questions or comments about the Commission's structure or functions?

I would like to see the arts commission to include funding for programs and venues.

5. Other comments and/or ideas as to how you as a member of the Cultural and Arts Commission could benefit the City of Coachella.

I will stirve for fairness to assure every artist has an opportunity to submit art work that reflects our community.

That funds be distrubutied fairly so eveyone has an opportunity to showcase their art work.

(Revised 02-10-2021)

STAFF REPORT
6/28/2023

TO: Honorable Mayor and City Council Members

FROM: Celina Jimenez, Economic Development Director

SUBJECT: Appointments to the Cultural and Arts Commission

STAFF RECOMMENDATION:

Appoint to the City of Coachella Cultural and Arts Commission, five new Commissioners and one Alternate Commissioner.

BACKGROUND:

The Cultural and Arts Commission was established on February 10, 2021 by Ordinance No. 1173 with the purpose of enacting a Cultural and Arts Commission that would in an advisory capacity, advise the City Council on matters pertaining to enrichment of the community through the fine arts, visual arts, performing arts, arts education, historic preservation and cultural issues; to serve as an advocate for cultural activities and programs within the city; to implement the city's Art in Public Places program, and to encourage the integration of cultural affairs into the social and economic fabric of the city to improve the quality of life for city residents.

DISCUSSION/ANALYSIS:

The City invited applications and closed the application submission period on February 3, 2023 and was extended to allow for more applicants. Six Coachella residents submitted applications for the identified vacancies:

1. Armando Lerma
2. Clara Nieblas
3. Irene N. Rodriguez
4. Javier Figueroa
5. Juan Ponce Ramos
6. Oralia Ortiz

Council may at this time direct selection of Commissioners as follows:

1) Vote to elect the applicants currently on file (attached hereto); 2) Choose to establish a new application period to invite additional applicants to apply for the vacant Commissioner and Alternate Commissioner positions; and/or 3) Provide alternate direction.

FISCAL IMPACT

None of the recommended actions have a direct fiscal impact on the adopted budget.

ATTACHMENTS:

1. Applications received (6)

STAFF REPORT
6/28/2023

TO: Honorable Mayor and City Council Members

FROM: Maritza Martinez, Public Works Director

SUBJECT: Public hearing and adoption of resolution affirming the solid waste rates for Fiscal Year 2023/2024 and authorizing the collection of residential solid waste service charges for Fiscal Year 2023/2024 on the County of Riverside's property tax roll.

STAFF RECOMMENDATION:

1. Conduct a public hearing to receive public comment related to the collection of solid waste service charges for residences for Fiscal Year (FY) 2023/2024 on the County of Riverside's property tax roll.

2. Adopt resolution affirming the fiscal year 2023/2024 solid waste rates, adopting the report proposing to collect residential solid waste service charges on the tax roll for Fiscal Year 2023/2024 and direct the City Clerk to file said report with the Riverside County Auditor Controller to place said charges on the tax roll..

BACKGROUND:

The City of Coachella entered into a franchise agreement with Burrtec Waste and Recycling Services (Burrtec) on May 30, 2006. Since 2006, Burrtec has been the provider for all solid waste disposal services for Coachella residents and businesses. The City Council approved a first amendment to this agreement on May 27, 2009, which required the City to collect solid waste service charges for residential customers through the county tax roll. Commercial customers continue to be billed directly by Burrtec. The City Council approved a second amendment on June 19, 2013 extending the term of the agreement through May 30, 2023. The City Council approved a third amendment on January 17, 2018 to include street sweeping services. The City Council approved a fourth amendment on July 27, 2022 to include organic waste collection services as required by the SB 1383 regulations.

DISCUSSION/ANALYSIS:

The franchise agreement allows for annual rate adjustments based on two components of the rate 1) service component and 2) disposal component.

1. The service component may be increased annually based upon the change in the Consumer Price Index (CPI) for All Urban Consumers Series Title: All items in Riverside-San

Bernardino-Ontario, CA., from January to January published by the U.S. Bureau of Labor Statistics, and is capped at 5%.

2. The disposal component is a pass through of the tipping fee adjustments at the landfill.

The current monthly residential rate is $29.94. The annual adjustment to the FY 2023/24 residential rate total $2.03; the new adjusted residential rate for FY 2023/2024 is $31.97. As approved by voters on June 8, 2010, this rate is subject to a 5% Utilities Users Tax, which will bring the monthly charged rate to $33.57.

The most common commercial service is a three-yard cubic bin, with one pick up per week. Currently, the commercial rate for this service is $171.38. Based on the same factors noted above, the adjustment for fiscal year 2023/2024 totals $9.20; the new adjusted rate for fiscal year 2023/2024 is $180.58. As noted above, a 5% Utility Users Tax will be applied to this monthly service, which will bring the rate for a standard three cubic yard bin, with one pickup per week, to $189.61.

The Proposition 218 proceeding that approved the annual adjustments to the solid waste service rates through July 1, 2026, was held on July 27, 2022. Notice of the annual adjustments to the solid waste service rates, effective July 1, 2023, were mailed out to all residential customers June 2023. Staff is recommending approval of the attached resolution adopting the report proposing to collect residential solid waste service charges on the tax roll for Fiscal Year 2023/2024.

FISCAL IMPACT:

The recommended action will not have a fiscal impact to the general fund.

Attachment:
Resolution
Exhibit A – Report
Exhibit B - FY 2023/2024 Solid Waste Fees

RESOLUTION NO. 2023-40

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF COACHELLA, CALIFORNIA ADOPTING THE REPORT PROPOSING TO COLLECT RESIDENTIAL SOLID WASTE SERVICE CHARGES ON THE TAX ROLL FOR FISCAL YEAR 2023/2024 AND AFFIRMING THE FISCAL YEAR 2023/2024 SOLID WASTE RATES

WHEREAS, California Health and Safety Code Sections 5473 et seq. and Section 8.44.035 of the Coachella Municipal Code authorize the City of Coachella ("City") to collect solid waste services charges on the tax roll, in the same manner and at the same time as the general taxes upon a two-thirds vote by the City Council;

WHEREAS, on May 30, 2006, the City Council entered into a service agreement with Burrtec Waste and Recycling Services, LLC ("Burrtec") for the collection and disposal of residential and commercial waste within the City;

WHEREAS, the City Council approved an amendment to the franchise agreement with Burrtec on May 27, 2009 requiring the City to bill the residential customers for solid waste services through the County property tax roll instead of direct monthly billing;

WHEREAS, a copy of the written report containing the parcel listing of all residences included in tax roll billing and the charges proposed to be assessed was made available for public review by contacting the City Clerk's Office.

NOW, THEREFORE, BE IT RESOLVED, BY THE CITY COUNCIL OF THE CITY OF COACHELLA, CALIFORNIA, AS FOLLOWS:

1. The above recitals are true and correct.
2. The adjusted service rates for fiscal year 2023/2024 have been included as Exhibit B to this Resolution.
3. City staff prepared and filed a written report of the charges for solid waste services for residential properties to be placed on the property tax roll (the "Report").
4. Following notice duly given in accordance with law, the City Council has held a full and fair public hearing regarding the Report attached hereto as "Exhibit A" and the levy and collection of the proposed assessment for Fiscal Year 2023-2024 and heard and considered all objections and protests thereto.
5. Based upon its review of the Report, a copy of which has been presented to the City Council and which has been filed with the City Clerk, the City Council hereby finds and determines that (i) each parcel specified in the Report benefits from receiving solid waste services (ii) the net amount to be assessed upon each parcel of real property for Fiscal Year 2023-2024 in accordance with the Report is apportioned by a formula and method that fairly distributes the net amount among all assessable parcels in proportion to the estimated benefits received by each

parcel, and (iii) no assessment is imposed on any parcel that exceeds the reasonable cost of the benefits conferred on that parcel.

6. The City Council of the City of Coachella hereby adopts the Report attached as Exhibit A. The adoption of this resolution constitutes the levy of an assessment against all residential parcels of property in the City identified in "Exhibit A" for the fiscal year commencing July 1, 2023 and ending June 30, 2024.
7. The City Clerk is hereby authorized and directed to file with the Riverside County Auditor Controller the assessment or a certified copy of the Report together with a certified copy of this Resolution. A certified copy of the assessment shall be filed in the office of the City Clerk and open for public inspection.
8. The City Council hereby requests Riverside County place the collection of charges for solid waste services for residential parcels on the County's tax rolls as described in Section 5, and to collect the charges in the same manner, subject to the same penalties and priority of lien as, other charges and taxes fixed and collected by, or on behalf of the City.

PASSED, APPROVED AND ADOPTED at a regular meeting of the City Council of the City of Coachella held on the 28th day of June 2023, by the following roll call vote:

AYES:

STAFF REPORT
6/28/2023

TO: Honorable Mayor and City Council Members

FROM: Gabriel Perez, Development Services Director

SUBJECT: City of Coachella Zoning Consistency Update - General Plan Amendment No. 23-03, Zoning Ordinance Amendment No. 22-03, and Change of Zone No. 23-01 a proposed update of the Official Zoning Map and Zoning Ordinance for consistency with the Coachella General Plan and amendments to the General Plan 2035 and Official General Plan Map. (City-Initiated)

STAFF RECOMMENDATION:

Staff recommends that the City Council:

1. Find and determine that additional environmental review is not required pursuant to CEQA Guidelines Section 15183 (Projects Consistent with a Community Plan or Zoning); and

2. Continue Resolution No. 2023-43 approving General Plan Amendment No. 23-02 amending the City of Coachella 2035 General Plan and the Official General Plan Map to the Council meeting of July 26, 2023; and

3. Introduce Ordinance No.1204, by title only, approving Zoning Ordinance Amendment No. 22-03 and Change of Zone No. 23-01 amending the Official Zoning Map and Amending Municipal Code Title 17 (Zoning) for consistency with the City of Coachella 2035 General Plan; and

4. Direct staff to initiate updates to the engineering standard specifications for roadways to implement the Mobility Element of the General Plan

BACKGROUND:

The City Council adopted the Coachella General Plan 2035 on April 22, 2015, that established the goals, policies, and implementation strategies that will implement the vision for the City of Coachella. The General Plan 2035 also included a new adopted General Plan Land Use Map and a Zoning Consistency Analysis that called for the establishment of new zoning districts that currently do not exist in the City's Official Zoning Map.

Many of the existing zoning districts are inconsistent with the General Plan Land Use Map, thereby creating a lack of regulatory clarity and hardship for residents, businesses, and developers to

establish new businesses or develop their properties. In many instances, planning staff must communicate with potential applicants that the proper zoning district does not exist when they consult with staff about potential development projects or businesses. The inconsistent zoning led the City to apply State grant funding for professional services to complete focused zoning efforts to comply with the City's Housing Element.

The City Council adopted the Pueblo Viejo Implementation Strategy Plan on October 23, 2019, and in the adopting Council Resolution 2019-59 Council requested that staff bring back General Plan Amendments, Zoning Amendments, and related environmental assessments that are necessary to implement the zoning districts drafted in the Strategy Plan. The Pueblo Viejo Plan identifies four (4) new zones that would be established in the Downtown. Since the zoning amendments have not occurred for the Pueblo Viejo District, projects such as the Pueblo Viejo Villas and Tripoli mixed-use project require planned unit development overlay zoning approvals from the Planning Commission and City Council.

In 2022 Planning staff engaged the professional services of Raimi + Associates to assist in preparation of the Zoning Consistency Update that would include the following:

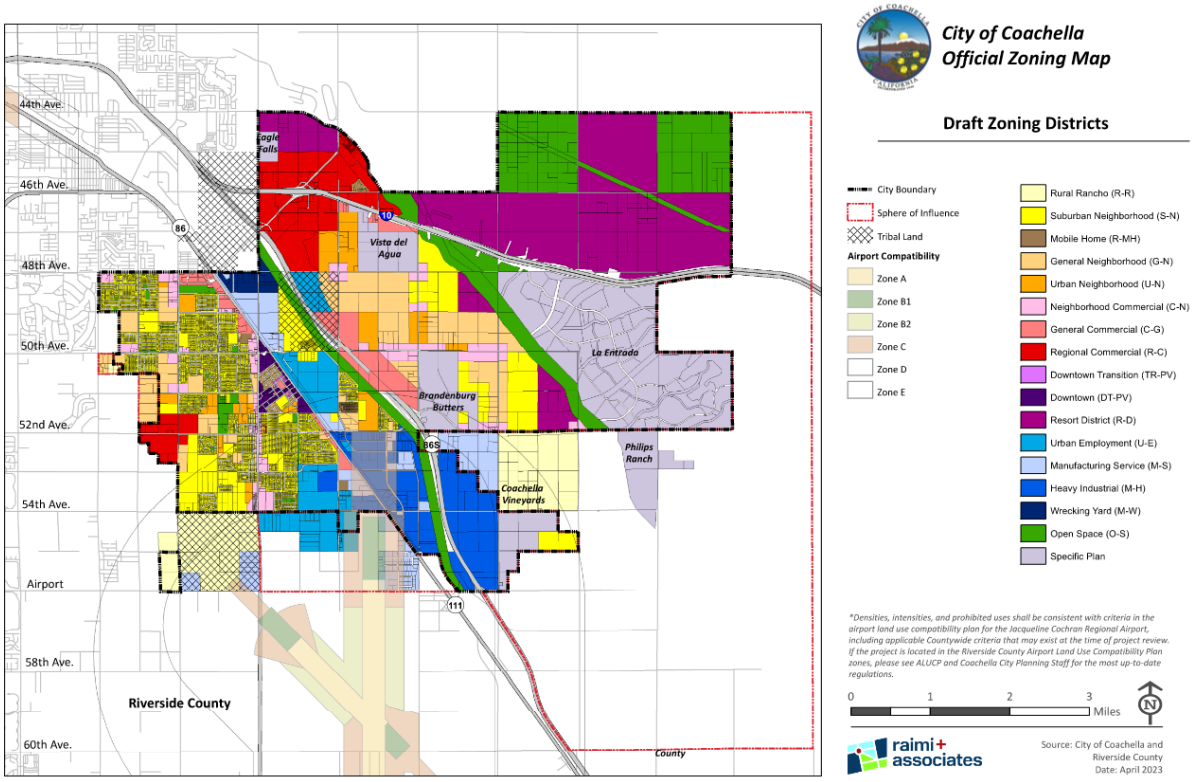
- Prepare new or revised citywide zones to implement the 2035 General Plan
- Consolidate and incorporate the zones in the Pueblo Viejo Strategy Implementation Plan into the Zoning Code
- Update the Official Citywide Zoning Map
- Provide environmental clearance for the above changes to the Zoning Code and General Plan
- Update the General Plan Land Use Map for consistency with the Zoning Code and address "clean up."

DISCUSSION/ANALYSIS:

Zoning Code Updates

The City of Coachella Municipal Code (C.M.C.), Title 17, Zoning, is known as "The Comprehensive Zoning Ordinance of the City of Coachella" and is referenced herein as the "Zoning Code." The City's Zoning Code is adopted as a means to implement the General Plan and currently includes 13 zoning districts. The Zoning Consistency Analysis developed with the 2035 General Plan Update effort identified Zoning Code changes necessary to implement the General Plan as follows:

- Reclassify five (5) zones (Agricultural Transition to Rural Rancho, Residential Single Family and 6000 Overlay to Suburban Neighborhood, Residential Multiple Family to General Neighborhood, Tourist Commercial to Regional Commercial Zones)
- Revise eight (8) zones (Agricultural Reserve, Residential Estate, Mobilehome Park, Neighborhood Commercial, General Commercial, Manufacturing Service, Heavy Industrial, and Wrecking Yard Zones)



- Create four (4) new zoning districts (Urban Neighborhood, Urban Employment, Resort District, , Open Space Zones)
- Delete the Tourist Commercial District and incorporate it into the Regional Commercial and Resort Districts.

Additionally, the Pueblo Viejo Implementation Strategy Plan identified the need to create four (4) new Downtown zones rather than a single district identified in the General Plan. Staff observed that many of the permitted uses and development standards identified for the 4 recommended Downtown zones were similar and proposes to simplify the recommendations by consolidating them into two new zoning districts as follows:

- Downtown Pueblo Viejo, DT-PV: Achieves more intensified urban development standards in key destination areas of Pueblo Viejo.
- Downtown Transition, DT-PV: Allows for less intensified development standards as a transition between residential zoning and more intense Downtown zoning.

The proposed Downtown Zones would allow for uses and establish development standards that would facilitate a thriving downtown environment with everyday shopping and dining as envisioned in the General Plan defined by active building facades and frontages that provide for shops, restaurants, hotels, residences, and community facilities.

Figure 1: Zoning Map Update consistent with Zoning Consistency Update

The table below provides a summary of existing zones, revised or new zones and the corresponding General Plan designation. New zones are shown in red text.

Table 1: Summary of Existing, Revised and New Zones for Zoning Consistency Update

Current Chapter #	Current Zoning District	New Chapter #	New/Revised Zoning District	New Density Range (du/ac)	New FAR	Corresponding GPLU
Residential Zones						
17.10	Agricultural Reserve (A-R)	17.10	Agricultural Reserve (A-R)	Up to 0.025	-	Agricultural Rancho
17.12	Agricultural Transition (A-T)	17.11	Rural Rancho (R-R)	0.4 to 1	-	Rural Rancho
17.14	Residential Estate (R-E)	17.12	Residential Estate (R-E)	1 to 2.2	-	Estate Rancho
17.16	Residential Single Family (R-S)	17.13	Suburban Neighborhood (S-N)	2 to 8	-	Suburban Neighborhood
17.18	6000 Overlay (R-O-6000)					
17.20	Residential Multiple Family (R-M)	17.14	General Neighborhood (G-N)	8 to 25	-	General Neighborhood
		17.15	Urban Neighborhood (U-N)	20 to 38	0.5	Urban Neighborhood
17.22	Mobilehome Park (R-MH)	17.22	Mobile Home Park (R-MH)	(1 mobile home/ 4,500 sf)	-	Varies
Commercial and Mixed Use Zones						
		17.16	Urban Employment (U-E)	30 to 65	2	Urban Employment
		17.17	Resort District (R-D)	Up to 8	0.1	Resort District
Pueblo Viejo Plan	Transition Area Pueblo Viejo Zone (TR-PV)	17.18	Downtown Transition (TR-PV)	Up to 25	1.5	Downtown Transition
	Sixth Street Pueblo Viejo Zone (SS-PV)					
	Grapefruit Boulevard Pueblo Viejo Zone (GB-PV)	17.18	Downtown Zone (DT-PV) – collapses several Pueblo Viejo zones	20 to 65	3	Downtown Center
	Cesar Chavez Street Pueblo Viejo Zone (CC-PV)					
17.24	Neighborhood Commercial (C-N)	17.24	Neighborhood Commercial (C-N)	15 to 40	1.5	Neighborhood Center
17.26	General Commercial (C-G)	17.26	General Commercial (C-G)	-	1	Suburban Retail
17.28	Tourist Commercial (C-T)	17.28	Regional Commercial (R-C)	10 to 15	2	Regional Retail
Industrial and Other Zones						
17.30	Manufacturing Service (M-S)	17.30	Manufacturing Service (M-S)	-	2	Industrial
17.32	Heavy Industrial (M-H)	17.32	Heavy Industrial (M-H)	-	2	Industrial
17.34	Wrecking Yard (M-W)	17.34	Wrecking Yard (M-W)	-	2	Industrial
		17.35	Open Space (OS)	-	-	Parks and Open Space

Several notable proposed Zoning Code modifications depart from the City's existing development standards and permitted uses as follows:

- Affordable Housing Requirement – Pueblo Viejo. For the Downtown Pueblo Viejo, DT-PV, and Downtown Transition, TR-PV, Zones, a minimum of 10% of all residential units for projects of more than 10 units must affordable for low and/or moderate-income residents consistent with the adopted Pueblo Viejo Revitalization Implementation Plan.
- Recreational Vehicle (RV) Storage limitation in the M-S, Manufacturing Service, M-H, Heavy Industrial Zones, and M-W, Wrecking Yard Zones. Establishes a cap of 15% for the area RV storage uses can occupy within the M-S, M-H, and M-W Zones. Currently, the Municipal Code does not expressly permit RV Storage and the use has been interpreted to be similar to a mini-storage warehouse. The Zoning Code modification is proposed to ensure that a sufficient balance of revenue and employment generating uses compatible with the intent of the M-S, M-H, and M-W Zones. Existing and proposed projects would total 62 acres, or 4% of the total area within the M-S, M-H, and M-W Zones. On May 4, 2023, the Economic Development Subcommittee discussed limitations for both RV and Mini-storage and recommended further limitations of 10% for these uses in the M-S, M-H, and M-W Zones.
- Suburban Neighborhood Zone includes a proposed minimum lot size reduction from 7,200 sq. ft. to 5,400 sq. ft. Currently, 5,000 sq. ft. lot sizes are only permitted in the R-S, Residential Single Family Zone with custom development standards approved through a planned unit development (PUD) overlay.
- Objective Design Standards for single-family residential units. State law under Senate Bill (SB) 330 requires new housing development to be reviewed against objective design standards. Currently, the City does not have any adopted objective design standards and cannot apply subjective design criteria such as compatibility with the surrounding built environment for new residential development. The proposed supplemental standards for single-family residential units address site planning and building façade standards to ensure adequate building modulation and variation of building materials. Objective design standards for multi-family residential units are under development and will be considered separately by the City Council in June 2023.

General Plan Modifications

The Zoning Consistency Update project includes addition of text in the City of Coachella 2035 General Plan Chapter 4 Land Use and Community Character to establish the Downtown Transition land use. The General Plan Designation Compatible Uses Table 4-1 is proposed to be deleted and will instead be applied within text of permitted uses of zoning districts within the Zoning Code. The General Plan map is updated to include the Vista Del Agua Specific Plan, designate the Downtown Transition land use area, and identify land uses for parcels that were erroneously omitted in the 2035 General Plan Update.

Public Review and Comments

The draft of the Zoning Consistency Update document and zoning map were published on the City website beginning May 2, 2023, and the City hosted two virtual questions and answer sessions for the public in English and Spanish on May 8 and May 11, 2023, that were advertised on the City's social media platforms. The comment letters received by Planning staff are listed in Attachment 6 and staff has outlined responses below and included modification in the draft Zoning Consistency Update. The items highlighted in blue are items that were not modified in the draft Zoning Consistency Update and require additional consideration by the City Council.

- **David Turner Letter on behald of Tyler 52 and Associaties Inc regarding 51-996 Tyler Street** – Request to allow commercial day care services in the Urban Neighborhood Zone.
  Staff Recommendation:
  - Amend the code to allow commercial daycare facilities in Urban Employment (UE) zone.
- **David Turner Letter on behalf of Dakota Dunes, Inc regarding 85-220 Avenue 50** – 1) Request to allow legacy uses on his multitenant property with industrial type uses in the new Urban Employment Zone without being considered nonconforming and requirements of a Conditional Use Permit; and 2) Allow Towing and Impounding as a use in the Urban Employment Zone
  Staff Recommendation:
  - Add following language to 17.16.020.C. Conditional Uses for Urban Employment zone:
    5. Light Industrial uses as permitted in the M-S (Manufacturing Service) Zone, and as stand-alone uses operating indoors. Such uses in existence and permitted at the time of adoption of this code amendment shall be permitted to continue as a permitted use without obtaining a conditional use permit.
  - No recommendation for towing and impounding uses.
- **David Turner Letter on behalf of CVE regarding Manfucturing Service Zone RV Storage limitations** – Request that staff determine where storage facilities be located and create subcategory where they be allowed, whether or not that encompasses the 15% limitation.
  Options for Council to consider:
  - Maintain current requirement.
  - Make it more restrictive - reduce to 10%. (Economic Development Subcommittee is considering making this requirement more restrictive for RV storage and ministorage.)
  - Another option is to limit these uses on parcels that do not front on the major arterials.
- **Fountainhead Development Letter request to remove the Fountainhead Commercial Site (Southeast corner of Cesar Chavez Street and Avenue 50) from the Downtown Center General Plan Land Use to allow auto-oriented uses**.
  Staff Recommendation: Change the GPLU and Zoning to Urban Employment to better reflect current and proposed uses in this area.
  - Current GPLU – Downtown Center
  - Recommended GPLU – Urban Employment
  - Draft Zone – Downtown (DT-PV)
  - Recommended Zone – Urban Employment (U-E)

- **Law Office of Luis Lopez Letter regarding request to rezone properties (APN 612-250-010, 612-250-011, and 612-250-012) to General Neighborhood zoning.**
  Staff Recommendation: Allow existing single family uses to continue as permitted uses. The property owners referenced in the letter would be able to enjoy their property with existing single-family homes as conforming uses while also maintaining the ability to incorporate multi-family or commercial uses in the future as permitted in the Neighborhood Commercial Zone. Staff does not support the change to General Neighborhood General Plan land use and zoning.

PLANNING COMMISSION REVIEW:

The Planning Commission considered the proposed Zoning Consistency Update and recommended changes memo (Attachment 6) and recommended approval of the Zoning Consistency Update on June 7, 2023 with the following modifications:

1. Maintaining existing Downtown Center General Plan land use in the triangle bounded by Cesar Chavez Street to the West, First Street to the South, and Grapefruit Boulevard to the East that would prohibit auto-oriented uses such as drive through businesses. **Staff supports this change as this would support General Plan policies to encourage walkability and active transportation.**
2. Allow towing and impounding for 1% of area of Urban Employment Zone with approval of a Conditional Use Permit. **Staff does not support this change as it permits a use not intended for the zoning district.**
3. Limit RV and Mini-Storage to 10% of the area of the Heavy Industrial (M-H), Manufacturing Service (M-S) and Wrecking Yard (M-W) zone. **Staff supports this change.**
4. Modify General Plan Land Use Map and Official Zoning Map for APN 612-250-010, -011, and -012 as General Neighborhood General Plan land use and General Neighborhood Zoning as requested in the letter from the Law Office of Luis Lopez. **Staff does not support this change as the initial accommodation to maintain existing residential uses as conforming uses was included in the Neighborhood Commercial zone.**

The Commission further recommended that the City Council direct staff to prepare visual representations of the proposed single-family residential objective design standards in the Zoning Ordinance.

ENVIRONMENTAL REVIEW:

The City's proposed Zoning Code and General Plan Amendment is in accordance with Section §15183 (Projects Consistent with a Community Plan or Zoning) of the California Environmental Quality Act (CEQA) Guidelines, subsection (a) which states that additional environmental review is not required for projects "which are consistent with the development density established by existing zoning, community plan, or general plan policies for which an EIR was certified", except as might be necessary to determine whether there are project-specific significant effects. In this case, the proposed project is consistent with the City's General Plan 2035 and Final Environmental

Impact Report (EIR), which were adopted and certified by the City Council on April 22, 2015. Therefore, the proposed project is consistent with State CEQA Guidelines Section §15168(c)(2) since it is within the programmatic scope covered by the Final EIR and there is no substantial evidence that the proposed Zoning Code Update would require additional environmental analysis.

Similarly, the proposed project is consistent with CEQA Guidelines Section §15183 (d)(1)(C) since it meets the consistency with "a general plan of a local agency", and with Section §15183 (d) (2) which states that "an EIR was certified by the lead agency for the…. general plan".
Additionally, the proposed project is consistent with CEQA Guidelines Section §15162(a) in that no subsequent environmental documentation will be required for the proposed project. Specifically, the proposed project is not proposing any substantial changes to the City's GP 2035 [§15162(a)(1)], would not result in substantial changes due to the GPU and Zoning Code Update [§15162(a)(2)], nor would it present new information of substantial importance, which was not known and could not have been known with the exercise of reasonable due diligence at the time the previous EIR was certified as complete, showing any of the following [§15162(a)(3)]:

A. The project will have one or more significant effects not discussed in the previous EIR
B. Significant effects previously examined will be substantially more severe than shown in the previous EIR
C. Mitigation measures or alternatives previously found not to be feasible would in fact be feasible, and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative
D. Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.

A memorandum of the consistency findings for the Zoning Consistency Update project with CEQA is provided as Attachment 3.

Additional General Plan Implementation Measures

The proposed General Plan and Zoning Code changes will provide greater regulatory clarity and certainty for residents, businesses and developers to establish new businesses or develop their properties. Upon adoption of the Zoning Consistency Update, the City Council is recommended to direct staff to initiate updates to the engineering standard specifications for roadways to implement the Mobility Element of the General Plan. Currently, the City's engineering standard specifications are inconsistent with the General Plan roadway standards, which creates difficulty in administering the General Plan for new development (Attachment 1).

Airport Land Use Commission (ALUC) Review

The Zoning Consistency Update is currently under review by the Airport Land Use Commission (ALUC) to determine consistency with the ALUC Compatibility Plan for Jaqueline Cochran Airport due to the citywide impact of the proposed Zoning Map changes. An ALUC public hearing regarding the Zoning Consistency Update will occur on July 13, 2023. City staff recommends that

the City Council introduce the ordinance for the proposed zoning changes and consider the second reading of the ordinance on July 26, 2023 to ensure adoption occurs before the City Council recess in August. Staff also recommends continuance of the Council resolution for the General Plan Amendment to July 26, 2023 to ensure that final adoption of the General Plan Amendment does not occur before the final ALUC action on July 13, 2023.

ALTERNATIVES:

1) Find and determine that additional environmental review is not required pursuant to CEQA Guidelines Section 15183 (Projects Consistent with a Community Plan or Zoning); Continue Resolution No. 2023-43 to the Council meeting of July 26, 2023; Introduce Ordinance No. 1204, by title only, approving the Zoning Consistency Update; and direct staff to initiate updates to the engineering standard specifications for roadways to implement the Mobility Element of the General Plan.
2) Find and determine that additional environmental review is not required pursuant to CEQA Guidelines Section 15183 (Projects Consistent with a Community Plan or Zoning); Continue Resolution No. 2023-43 to the Council meeting of July 26, 2023; Introduce Ordinance No. 1204, by title only, approving the Zoning Consistency Update ***with amendments***; and direct staff to initiate updates to the engineering standard specifications for roadways to implement the Mobility Element of the General Plan.
3) Recommend denial of the Zoning Consistency Update.
4) Continue this item and provide staff with direction.

FISCAL IMPACT:

There is no expected fiscal impact of the adoption of the Zoning Consistency Update. The adoption of the Zoning Consistency Update would provide greater certainty to residents, property owners, and developers in the development review process and is anticipated to result in increased development activity in the City that could result in greater permit and sales tax revenues.

RECOMMENDED ALTERNATIVE(S):

Staff recommends Alternative #1 as noted above.

RESOLUTION NO. 2023-43

A RESOLUTION OF THE COACHELLA CITY COUNCIL APPROVING OF GENERAL PLAN AMENDMENT NO. 23-02 TO AMEND THE CITY OF COACHELLA GENERAL PLAN 2035 AND THE OFFICIAL GENERAL PLAN DESIGNATION MAP. APPLICANT: CITY-INITIATED

WHEREAS, the City initiated General Plan Amendment No. 23-02 to address text amendments to the General plan Chapter 4 Land Use and Community Character Element which include establishment of the Downtown Transition land use and deletion of General Plan Designation Compatible Uses Table 4-1. The General Plan map was updated to include the Vista Del Agua Specific Plan, designate the Downtown Transition land use area, and identify land uses for parcels that were erroneously omitted in the General Plan 2035.

WHEREAS, pursuant to the California Environmental Quality Act (Pub. Resources Code, § 21000 *et seq*.) ("CEQA") and the State CEQA Guidelines (Cal. Code of Regs., tit. 14, § 15000 *et seq*.), in 2015 the City certified the Final Environmental Impact Report ("CGPU EIR") (SCH # 2009021007), in connection with the General Plan Update; and

WHEREAS, The City's proposed Zoning Code and General Plan Amendment is in accordance with Section §15183 (Projects Consistent with a Community Plan or Zoning) of the California Environmental Quality Act (CEQA) Guidelines, subsection (a) which states that additional environmental review is not required for projects "which are consistent with the development density established by existing zoning, community plan, or general plan policies for which an EIR was certified", except as might be necessary to determine whether there are project-specific significant effects.

WHEREAS, based on that analysis, the City Council does not require preparation of a subsequent or supplemental EIR because in this case, the proposed project is consistent with the City's General Plan 2035 and Final Environmental Impact Report (EIR), which were adopted and certified by the City Council on April 22, 2015. Therefore, the proposed project is consistent with State CEQA Guidelines Section §15168(c)(2) since it is within the programmatic scope covered by the Final EIR and there is no substantial evidence that the proposed Zoning Code Update would require additional environmental analysis.

WHEREAS, on June 7, 2023 the Planning Commission held a duly noticed public hearing to review the project, as modified and the related environmental documents, at which time during the hearing members of the public were given an opportunity to testify regarding the Project; and

WHEREAS, after said public hearing, the Planning Commission recommended that the City Council approve this Resolution; and,

WHEREAS, on June 28, 2023 the City Council held a duly noticed public hearing to review the project, as modified and the related environmental documents, at which time during the hearing members of the public were given an opportunity to testify regarding the Project; and

WHEREAS, all other legal prerequisites to the adoption of this Resolution have occurred.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF COACHELLA DOES HEREBY FIND, DETERMINE AND RESOLVE AS FOLLOWS:

SECTION 1. Recitals. The above recitals are true and correct and incorporated herein as findings of fact.

SECTION 2. General Plan Amendment No. 23-01. The City Council hereby approves text modifications to Chapter 4 Land Use and Community Character Element as shown in "Exhibit A" and a change to Figure 4-23 of the General Plan 2035 Land Use and Community Character Element, entitled "General Plan Designation Map" as shown in "Exhibit B" attached and made a part hereto.

SECTION 3. Findings. The City Council finds that the amendments to General Plan proposed by "Exhibit A" and "Exhibit B" are consistent with the goals and policies of all elements of the General Plan and exercise the City's land use powers to protect the health, safety, and welfare of the public.

The City Council also finds that the proposed amendments to the Coachella General Plan 2035 would not be detrimental to the public interest, health, safety, convenience, or welfare of the City in that they will ensure parcels within the City limits include have assigned land use and that the City's Pueblo Viejo Implementation Strategy Plan is implemented with appropriate land use to ensure a thriving downtown environment.

SECTION 4. CEQA. The City Council finds that proposed Zoning Code and General Plan Amendment is in accordance with Section §15183 (Projects Consistent with a Community Plan or Zoning) of the California Environmental Quality Act (CEQA) Guidelines, subsection (a) which states that additional environmental review is not required for projects "which are consistent with the development density established by existing zoning, community plan, or general plan policies for which an EIR was certified", except as might be necessary to determine whether there are project-specific significant effects. In this case, the proposed project is consistent with the City's GP 2035 and Final Environmental Impact Report (EIR) which were adopted and certified by the City Council on April 22, 2015. Therefore, the proposed project is consistent with State CEQA Guidelines Section §15168(c)(2) since it is within the programmatic scope covered by the Final EIR and there is no substantial evidence that the proposed Zoning Code Update would require additional environmental analysis.

Similarly, the proposed project is consistent with CEQA Guidelines Section §15183 (d)(1)(C) since it meets the consistency with "a general plan of a local agency", and with Section §15183 (d) (2) which states that "an EIR was certified by the lead agency for the…. general plan".

Additionally, the proposed project is consistent with CEQA Guidelines Section §15162(a) in that no subsequent environmental documentation will be required for the proposed project. Specifically, the proposed project is not proposing any substantial changes to the City's GP 2035 [§15162(a)(1)], would not result in substantial changes due to the GPU and Zoning Code Update [§15162(a)(2)], nor would it present new information of substantial importance, which was not

known and could not have been known with the exercise of reasonable due diligence at the time the previous EIR was certified as complete, showing any of the following [§15162(a)(3)]:

A. The project will have one or more significant effects not discussed in the previous EIR
B. Significant effects previously examined will be substantially more severe than shown in the previous EIR
C. Mitigation measures or alternatives previously found not to be feasible would in fact be feasible, and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative
D. Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative

The proposed project is further analyzed for consistency with the certified 2015 EIR prepared for the City's General Plan 2035 in the Findings of Consistency Memorandum (Exhibit C) prepared pursuant to the applicable provisions of §15183 of the California Environmental Quality Act (CEQA) Guidelines. Since the Zoning Code Update is a regulatory document that affects the entire City, any future development and redevelopment project in the City would have to be analyzed at a project level for all CEQA related impacts.

SECTION 5. Custodian of Records. The documents and materials that constitute the record of proceedings on which these findings are based are located at Coachella City Hall. City Clerk is the custodian of the record of proceedings.

SECTION 6. Execution of Resolution. The Mayor shall sign this Resolution and the City Clerk shall attest and certify to the passage and adoption thereof.

PASSED APPROVED and ADOPTED this 28th day of June 2023 by the following vote:

Deputy City Clerk

04 | LAND USE + COMMUNITY CHARACTER

INTRODUCTION

This Element provides a long-term vision, goals and policies for land use and development in Coachella over the next 20 to 30 years. Over this time, Coachella is expected to grow significantly and transform from a small town to a medium sized city. Coachella will become a community of walkable neighborhoods, tied together by multi-modal transportation corridors and interspersed with vibrant districts for shopping, working, entertaining and commerce. The walkable neighborhoods will have a diverse mix of housing and will be in close proximity to shopping and services so the majority of one's daily needs are a short walk away. Downtown will grow and expand to serve as the cultural and economic hub of the City with a variety of retail, entertainment and office uses where residents of the region may shop and play. There will also be a significant number of new jobs in industrial areas near the airport, as well as office, and research and development space adjacent to downtown. The urban area of the City will also be supported by a vast network of parks, trails and open spaces.

While high level of growth is desired by the residents and elected officials of Coachella, it also comes with a unique set of challenges that includes maintaining the small-town character, paying for infrastructure, public facilities and services and ensuring the growth improves the quality of life for residents and the economic environment for businesses. Given the amount of development that will occur and the large geographic area of the City, the Element balances the need for long-term flexibility with necessary regulations to meet the City's vision.

The goals and policies in the Land Use and Community Character Element are critical to the overall success of the City. Thus, it goes beyond typical land use element requirements prescribed by California. In addition to regulating land use and development intensity, the Element also regulates the form and character of development that will occur and the connections between development projects. There are also regulations for the provision of the necessary public facilities and services to create the high quality of life desired by the residents of Coachella. However, the regulation of land use is highly flexible to allow for changes in economic and demographic conditions over time. This balance of flexibility and regulation will ensure project sponsors have a high degree of control of what is proposed and the City develops as a network of high-quality neighborhoods, retail areas and employment centers.

ORGANIZATION OF THIS ELEMENT

The Land Use and Community Character Element is organized into the following sections:

- **Our Community's Goals:** This section includes a brief summary of the overall goals and direction of the Element.

- **General Plan Designations:** The General Plan Designations are one of the most important components of the General Plan because they identify the intended future land use, development intensity and development character for the entire City. The designations are divided into six base designations: Ranchos, Neighborhoods, Centers, Districts, Specific Plans, and Public. This section includes descriptions of designations, a designation map, a summary table of regulations and requirements and a description of the master planning process for new development projects.
- **Subarea Descriptions:** For planning purposes and to ensure the City has unique and distinct areas, Coachella is divided into 17 distinct subareas. Each subarea includes an overview of the existing conditions of the area, a vision statement for the area and specific policies that guide future development in the subarea.
- **Goals and Policies:** This section includes broad goals and policies for land use and community design topics that apply to the entire City.

OUR COMMUNITY'S GOALS

The General Plan is designed to be a transformative vision for the future of Coachella through the year 2035 and beyond. It provides guidance not just for day-to-day planning decisions but for how these individual decisions should move the City toward a new future.

During the General Plan update process, the citizens of Coachella, along with the City Council and Planning Commission, provided their ideas for what Coachella should look like in the future. They identified the unique aspects of the City as well as the vision for the growth as Coachella transforms from a small town into a medium-sized city. As part of this process, the community identified key land use and community design concepts, described below, which are the foundation for both the City's future land-use vision, the development of General Plan designations and for the specific goals and policies contained in this Element, as well as elsewhere in the General Plan.

To achieve the community's vision as presented in Chapter 3 of the General Plan, the Land Use and Community Design Element is organized around the following broad goals.

- **Grow into a medium sized City while preserving small town character and identity.** The City is expected to grow from approximately 40,000 people in 2010 to upwards of 150,000 by 2035 and more growth is envisioned for the City beyond 2035. As the City grows, there is a strong desire to preserve the small-town character and identity while also becoming a full-service city. Allowing for growth while maintaining the character of the community is a critical goal of the plan.
- **Preserve cultural and ethnic heritage.** The City is culturally diverse with a rich heritage. While the City will change over time, the community desires that maintaining cultural and ethnic diversity be a priority of the City.
- **Create walkable and interconnected neighborhoods.** Neighborhoods are the building blocks of cities and the residents of Coachella desire those that are walkable, attractive and near goods and services.
- **Create neighborhood-oriented retail centers.** Interspersed between neighborhoods should be retail and commercial centers that provide daily goods and services for residents within a walking distance of most homes. The centers should be designed to be easily accessible from neighborhoods and have a walkable, main street character.

- **Revitalize the existing City.** While the City will grow and change over time, care and attention must be given to the current residents and businesses and the existing built environment. This plan calls for a revitalization and improvement of the City's character and infrastructure. Projects such as streetscape improvements, attracting new uses and revitalizing the downtown and the major transportation corridors will enable Coachella to move toward becoming a complete city.
- **Define the form and character of new development.** Moving forward, the City will use urban design to differentiate Coachella from its neighbors. There are standards and guidelines for how the City – its neighborhoods, centers and districts - should look, feel and function.
- **Make the City connected and multi-modal.** Connectivity for pedestrians, cyclists, transit and vehicles is a critical component of a livable and sustainable city. While much of the plan is flexible and visionary, this plan includes specific standards for how areas of the City should link to one another and how individual development projects should be connected internally and externally.
- **Preserve the natural beauty and scenic quality of the City.** The City is located in an area of striking natural beauty. While the landscape will be altered with future development, the views of the mountains and the rural, agricultural character should be respected. In general, the natural topography of the hills should be maintained, some of the existing agricultural uses should be preserved or integrated into the landscape and views of the surrounding mountains should be maintained.
- **Provide public facilities and services to improve the quality of life.** As the City grows, it is essential that quality public facilities and services be provided for residents. This includes parks, civic buildings, community centers and programs, such as athletic leagues. Providing services at the time development occurs, and requiring developers pay for their fair share of the costs, is an important part of transforming Coachella into a full-service city.
- **Revitalize and expand the Downtown.** The Downtown is the heart of the City and should be supported, revitalized and expanded to accommodate Coachella's growing population. Arts and cultural activities, civic uses and destination retail and shopping should be focused here. Festivals and farmers markets should occur Downtown whenever possible and the Downtown can be expanded to become a hub of office and economic activity for the Coachella Valley.
- **Make Coachella a destination for tourism and entertainment.** Coachella should expand the number and variety of tourism and entertainment uses as the City grows and changes over time. While difficult to attract, such uses could include hotels, theme parks, sports complexes, performing arts venues and major retail centers.
- **Expand economic development opportunities.** As the City's population grows, so too should the number and diversity of jobs. Over time, the job base should expand considerably so Coachella is not just a bedroom community but is also a thriving job center and a major hub of commerce in the Coachella Valley. There should be a diversity of jobs that match the diversity and skill level of its residents. Supplementing this should be an educational system – including a college or university – and vocational training to improve the socio-economic conditions of Coachella residents.
- **Improve the fiscal health of the City.** As the City and its economy grows and diversifies over time, the fiscal health of Coachella should also improve. New development should pay its own way and all decisions should be made with an understanding of the overall, long-term fiscal health of the City.
- **Allow for creativity and flexibility in development and growth.** Coachella is going to grow considerably over time and the exact location of each use is difficult to predict. Thus, this plan provides for significant flexibility in the location of new uses. This will allow developers to define

the range of new uses in their projects so long as it conforms to the overall vision of the City and the vision of the subarea where the project is located.

- SB 244. A description of the disadvantaged communities found in the Planning Area is in Chapter 3, Existing Conditions.

GENERAL PLAN DESIGNATIONS

State law requires that General Plans identify the future intended land use in the City and the allowable density or intensity of development. The General Plan designations are developed to provide a vision of the organization of uses in the City and a flexible structure to allow for changes in economic conditions and community visions. Further flexibility is added in the General Plan to account for the large amounts of undeveloped land that may be converted into urban uses as Coachella grows from a small town to a medium-sized city by 2035.

The General Plan designations are organized into six base designations. A description of each is below and summarized in ~~Table 4-1~~Table 4-1 and Table 4-2~~:~~

- **Ranchos.** These rural areas include space for agriculture and low density residential development. The preservation of agriculture in viable sizes for continued agricultural production is critical as the City urbanizes over time.
- **Neighborhoods.** Neighborhoods are the basic building block of great cities and this General Plan identifies a range of neighborhood types. The vision of the plan is to create complete, compact and connected neighborhoods that provide a high quality of life for residents.
- **Centers.** Centers are the primary places of commerce, neighborhood-serving retail, arts and culture and civic activities. There are a variety of centers ranging from walkable, mixed-use Neighborhood Center to Downtown to higher intensity employment areas. Centers are characterized by the urban and walkable character and their mix of uses.
- **Districts.** Districts are areas of the City that are more single use and automobile-oriented. The Districts include large format retail and commercial areas, industrial areas and resorts. These areas are critical to the overall economic prosperity of the City but have a lower level of design regulation and pedestrian-orientation than other areas of the City.
- **Specific Plans.** These areas are approved Specific Plans. In these areas, the Specific Plan defines the land uses and development intensity. As approved Specific Plans are updated or modified, they should conform to the vision and policies in this General Plan.
- **Public.** This category of designations is for a range of public facilities and uses including parks, public buildings and preserved open spaces.

Within the six base designations there are ~~16~~ 18 General Plan character designations, each of which is described in the next section.

In addition to the required information on allowed land use and intensity of development, the General Plan character designations provide more detailed information on the built form and character of the uses than is typically found in a general plan. With the exception of the Public and Specific Plan designations (which are described more generally), each designation has policy guidance on:

- **Intent and purpose.** This describes the overall purpose of the land use designation.

- **Intended physical character.** This describes the intended physical form and character that new development will take.
- **Allowed land uses.** The allowed land uses are generally described. Additional detail on specific land uses is provided in a separate table that follows the land use designation descriptions. (See Table 3-1.)
- **Development intensity.** The intensity of development as measured in dwelling units per acre for residential development and floor area ratio (FAR) for non-residential development.
- **Network and connectivity.** This includes descriptions and metrics for ensuring a high level of connectivity in the transportation system.
- **Street design.** A description of the roadways desired in each designation is included. This description works in concert with the policies and street types in the Mobility Element.
- **Parks and open space.** This includes descriptions of the range of parks and open spaces desired. Additional detail on specific park types is provided in a separate table presented in the Sustainability and Natural Environment Element. (See Table 6-1.)
- **Urban form guidelines.** This includes information on the overall urban form of the designation including lot coverage, building frontages, parking location and access and allowed building types.

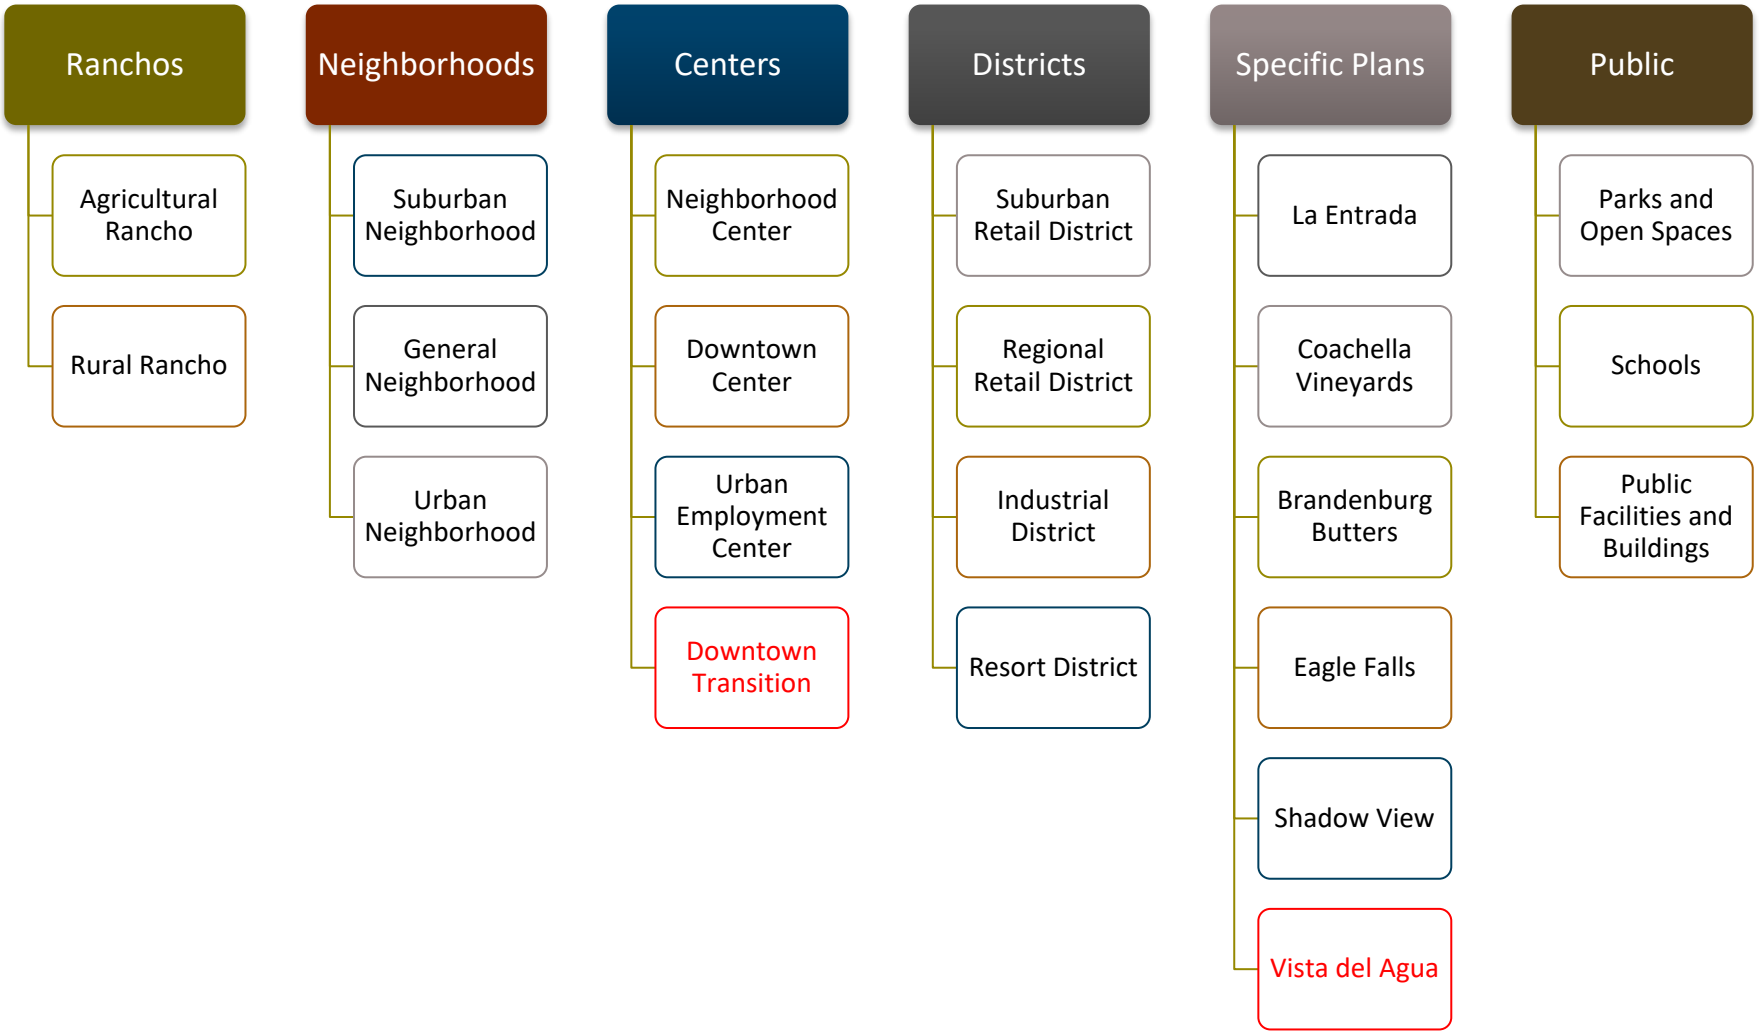

Figure 4-1: General Plan Base Designations and Character Designations.

RANCHO DESIGNATIONS

Rural and agricultural areas are part of the history and heritage of Coachella and are important aspects of the community's image and identity. These land use designations are intended to preserve agriculture in the City for economic development and aesthetic benefits. This category also allows for rural development, both in a common pattern of homes on large parcels and in developments with homes clustered together and surrounded by preserved open space. Based on these characteristics, the General Plan contains two Rancho designations: Agricultural Rancho and Rural Rancho.

AGRICULTURAL RANCHO

Intent and Purpose

The Agricultural Rancho designation provides areas for productive agriculture uses in the City. Agricultural areas provide for active uses such as date farms, field crops or grapes. In some cases, this designation also encompasses other working lands that provide an open space benefit or are in other ways a non-urban land use, such as mining. These rural environments – and the natural and agricultural systems that define them – are intended to be preserved in perpetuity and may not be converted for urban use.

Intended Physical Character

Areas with this designation are undeveloped except for rural roads providing access and buildings related agricultural production.

Allowed Land Uses

Allowed uses include agricultural lands and small amounts of accessory uses that support the agricultural use. Agricultural uses include housing for farm owners and workers, equestrian stables, barns and sheds for packaging, processing and selling produce grown on site. In certain cases, mining is also allowed.

Development Intensity

DU/AC = 1 unit per parcel or 1 unit per 40 acres, whichever is smaller.
Commercial = 0.01 FAR max.

Network and Connectivity

"Blocks" defined by public roads through these environments are very large – in some cases 1 mile by 1 mile or ½ mile by ½ mile, in some cases transected by private roads – paved and unpaved – and by trails to the extent necessary for access. Some dead end roads may be warranted to preserve existing topography and/or natural environment.

Street Design

Streets accessing these properties are rural in character, with:

1. Paved and/or compact aggregate pedestrian and multi-use trails – generally separated from the roadway – in lieu of sidewalks.
2. Compacted shoulders in lieu of on-street parking lanes.

3. Open drainage swales (ditches) in lieu of curb and gutter improvements.
4. Minimal or no street lights.

Parks and Open Space

This designation is intrinsically an open space designation, so no additional open-space requirements are necessary.

Rural Form Guidelines

1. Parcels are large, ranging from 40 acres to several hundred acres.
2. Grading is strictly limited to the bare minimum necessary for access or cultivation. Buildings conform themselves to the natural terrain.
3. Buildings are generally set back from roads with deep front, side and rear setbacks. Frontages are generally defined by rustic, open fences.
4. Building heights are generally one to two stories and in some cases 2 ½ stories with a partial third floor under the roof on larger lots. In the case of agricultural barns and buildings, structures may be taller and the equivalent of multiple stories.

Existing farmlands in eastern Coachella.

Very large blocks are acceptable in Agricultural Rancho designations.

Cultivation is an integral part of the Coachella heritage and economy.

Buildings should be agricultural in character and design.

Figure 4-2: Examples of Agricultural Rancho character

RURAL RANCHO

Intent and Purpose

The Rural Rancho designation accommodates low intensity residential development within a preserved rural landscape. These areas are intended to serve as a buffer between Agriculture and any of the urban designations of this Plan or as the edge of the urbanized City.

Intended Physical Character

Dwellings and their accessory buildings are integrated into the natural or agricultural landscape and don't fundamentally alter that landscape. Residences may be distributed throughout the landscape on large lots or may be clustered as a village.

Allowed Land Uses

Residential primarily, except for home occupations, and uses accessory to agricultural cultivation.

Development Intensity

DU/AC = 0.4 (1 unit per 2.5 aces) – 1 DU/AC
FAR = n/a

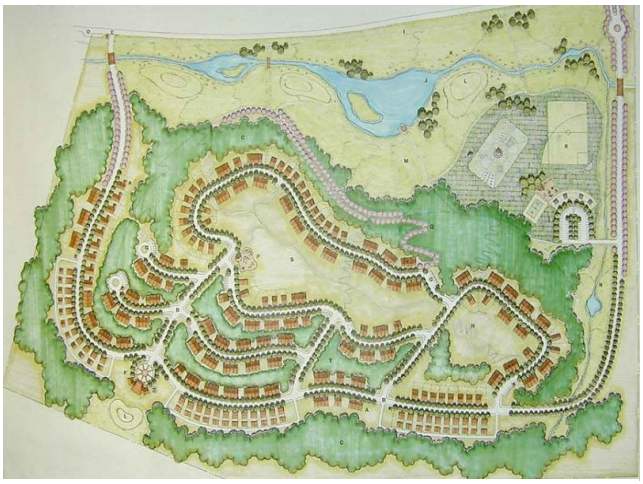
Network and Connectivity

"Blocks" defined by public roads through this rural environment are large, up to ¼ mile by ¼ mile, in some cases transected by private roads – paved and unpaved. Some dead end roads may be warranted to preserve existing topography and/or natural environment.

Street Design

Streets accessing these properties are rural in character, with:

1. Paved and/or compact aggregate pedestrian and multi-use trails – generally separated from the roadway – in lieu of sidewalks.
2. Compacted shoulders in lieu of on-street parking lanes.
3. Open drainage swales (ditches) in lieu of curb and gutter improvements.
4. Minimal or no street lights.



Parks and Open Space

1. Neighborhood Parks and Mini Parks, such as tot-lots, are required as part of rural development projects.
2. Community Parks may be located in limited amounts throughout these areas.
3. Areas should be connected to the urban parts of the community through multi-use trails and greenways.
4. Nature, as exemplified by agriculture and open space, is acceptable, as well, when resource conservation is a priority at a given site.

Rural Form Guidelines

1. Parcels are large with low building coverage (generally less than 10 percent), except for rural cluster development (where parcels are smaller and clustered in order to preserve large open space areas for common use, public use and/or natural preservation).

2. Grading is strictly limited to the bare minimum necessary for access or cultivation. Buildings conform themselves to the natural terrain.
3. Buildings are generally set back from roads with deep front, side and rear setbacks to maintain the rural character. Frontages are generally defined by rustic, open fences.
4. Buildings are limited to single family houses, accessory second units and agricultural barns and sheds.
5. Building heights are generally one to two stories and in some cases 2 ½ stories with a partial third floor under the roof on larger lots. In the case of agricultural barns and buildings, structures may be taller and the equivalent of multiple stories.

Cluster pattern achieved through "conservation subdivision" design (Source: University of Idaho Junior Design Studio).

Rural Rancho houses have deep setbacks with rustic fencing.

Clustered development allows for substantial open-space preservation (Source: Capitol Development Design).

Figure 4-3: Examples of Rural Rancho land use character.

NEIGHBORHOOD DESIGNATIONS

Neighborhoods are the basic building blocks of a livable and sustainable Coachella. A Coachella neighborhood – as defined in this Plan – mixes a variety of residential types within a walkable network of green streets and parks, well-connected to parks, schools and neighborhood centers to serve daily shopping needs. Almost all of Coachella's residents live in neighborhoods, which must provide safe, attractive and comfortable places to live and play. The neighborhood designations presented below call for the development of such traditional neighborhoods throughout the City. The design character and mix of residential types will vary by neighborhood and by location within town, but all neighborhoods should have the following common characteristics:

- A diversity of housing types.
- A diversity of architectural styles.
- A variety of attractive, green, walkable streets that provide a safe environment for pedestrians, bicyclists and children.
- A focus on a public amenity, such as a park, school or civic or recreational center.
- Comfortable walking and biking access to a neighborhood center with basic commercial amenities, such as shops and restaurants.
- A street network designed to provide abundant routes within the neighborhood – and connecting to adjoining neighborhoods, districts and corridors – for walking, biking and short car trips.

Neighborhoods with these simple, timeless characteristics have generally proven to be the most desirable living environments in cities throughout California over the past century, holding their value through economic downturns and enjoying multiple cycles of reinvestment and renovation. The conventional, automobile-oriented residential development patterns that have been prevalent in recent years in the Coachella Valley, and Southern California at large– such as those with gated subdivisions, cul-de-sacs, treeless walled arterial streets, and limited connectivity to adjoining neighborhoods and amenities – do not support the active, healthy lifestyles that Coachella envisions for its future.

Based on these characteristics, the Coachella General Plan identifies three designations for the creation of neighborhoods within the City. These are:

1. **Suburban Neighborhood.** Predominantly single family residential housing types.
2. **General Neighborhoods.** A mix of single-family and multi-family housing types with good non-motorized access to a range of civic and commercial amenities.
3. **Urban neighborhoods.** Predominantly – although not exclusively – multi-family housing types with very good non-motorized access to a wide range of civic and commercial amenities located at the edges and/or within the mixed-use fabric of the neighborhood.

Many existing residential areas of Coachella do not meet the criteria identified here, and most are valued by the residents who call them home. However, their long-term value and livability may be further enhanced by the introduction of selected elements of this vision for Coachella's neighborhoods over time. Improved landscape, pedestrian and bike facilities along with enhanced access and connections to nearby civic and commercial amenities should be considered in particular.

SUBURBAN NEIGHBORHOOD

Intent and Purpose

Suburban Neighborhoods provide a lower intensity, quieter, family-living environment but are still well connected to surrounding neighborhoods, retail areas as well as natural and agricultural open spaces. Because Suburban Neighborhoods are less compact than General Neighborhoods, they are inherently less walkable and amenities such as parks, schools and convenience retail are farther from most residences. Accordingly, greater accommodation is provided to the automobile in these Neighborhoods, and greater attention must be paid to bike routes.

Intended Physical Character

Suburban Neighborhoods provide a more naturalistic, landscaped setting than General Neighborhoods, and tend to have larger lots, larger yards, larger setbacks, more landscaping and predominantly single-family houses.

Allowed Land Uses

Residential only (except for home occupations).

Development Intensity

DU/AC = 2 – 8, with 5 DU/AC average for new projects
FAR = n/a

Network and Connectivity

1. The street network should be well connected with walkable blocks – between 400 and 600 feet long in most cases. The maximum block perimeter should be 3,200 feet. Larger blocks or dead-end streets may be considered where the community design value of natural elements – such as waterways, hills or sensitive habitats – warrant compromise.
2. Neighborhoods must be designed with at least one through street every 800 feet, unless the community design value of natural elements – such as waterways, hills or sensitive habitats – warrant compromise. Considerations warranting such compromise do *not* include increasing the number of lots or reducing the connectivity within a neighborhood or adjoining neighborhoods.

Street Design

1. Residential streets should be as narrow as practical to encourage slow, safe driving speeds, with curbside parking on both sides. Recommended curb to curb dimensions range from 34 to 36 feet, depending on expected traffic volumes.
2. Sidewalks (minimum of six feet) should be provided on both sides of the street, separated from the curb by a parkway strip least six feet wide or more.
3. Street trees should be planted approximately 30 to 40 feet apart – sometimes in uneven, naturalistic patterns – to provide a picturesque canopy to shade the yards and street while enhancing neighborhood character and identity. Broad canopied, deciduous trees are preferred near homes to provide shade in the summer and still allow heating and daylight from the winter sun.

Parks and Open Space

1. Mini Parks and Neighborhood Parks should be integrated into the neighborhood, approximately a quarter-mile walk distance of at least 75 percent of the dwelling units. Other allowed park

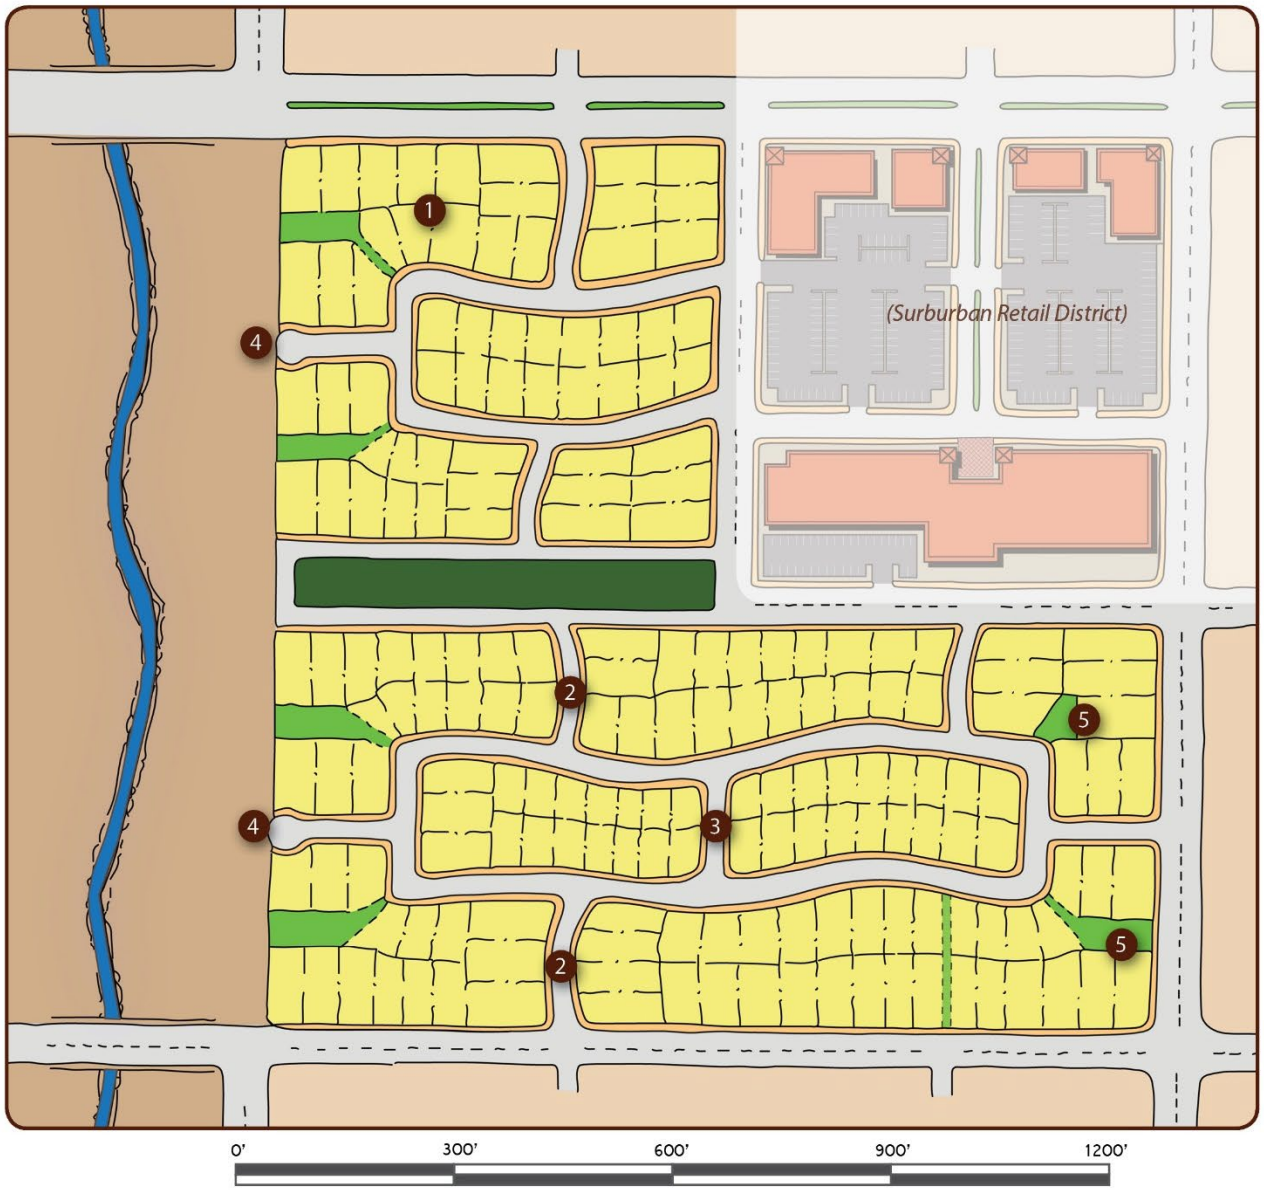
types include Community Parks, Plazas/Greens, Linear Parks, Special Use Parks, Greenways/Trails and Nature.

Urban Form Guidelines

1. Lot coverage generally does not exceed 40 percent.
2. Buildings should have generous front, rear and side yards.
3. The main entrance to the residence should be located within the front façade, accessed directly from the street and designed to welcome visitors.
4. Building heights are generally one and two stories, and in some cases 2 ½ stories with a partial third floor under the roof on larger lots.
5. Alleys are recommended for lots less than 60 feet wide to minimize dominating streets with garages. Driveways from the street should be as narrow as practical, and not more than 20% of the lot width within the front yard setback to minimize front yard paving.

Typical Suburban Neighborhood land use pattern.

Architecture appropriate to the Coachella context.



If alleys are not possible, design a frontage which minimizes the visual impact of the garage/driveway.

Generous front yard setbacks with planter strip between sidewalk and roadway.

Figure 4-4: Examples of Suburban Neighborhood pattern and character.

Suburban Neighborhood

1. Predominantly detached single-family housing type.
2. Walkable blocks with through streets at regular intervals.
3. Sidewalks provided on both sides of the street.
4. Cul-de-sacs permitted if waterways or sensitive habitats exist.
5. Tot lots or mini-parks integrated into neighborhood,

Figure 4-5: Illustrative land use diagram for desired character and form of Suburban Neighborhood.

GENERAL NEIGHBORHOOD

Intent and Purpose

General Neighborhoods provide a diversity of housing that meets the needs of Coachella's many household sizes, incomes and lifestyle preferences. General Neighborhoods integrate a range of single- and multi-family housing options within a green, walkable neighborhood environment that offers parks and playgrounds for their residents and access to schools and basic shopping needs within a comfortable walk, bike ride or short drive.

Intended Physical Character

The fundamental character of these neighborhoods is defined by tree-lined streets and small blocks, well-landscaped front yards and welcoming entries to each residence. Vehicular access and parking on each lot should not intrude into the front yards, primarily places for children to play and neighbors to meet. Although most of the residences are single-family detached houses, multi-family housing is also provided in "house-form" building types – such as duplexes, garden apartments and rowhouses – that are compatible in scale and character with houses. Large apartment buildings or complexes are not compatible with this sort of neighborhood setting.

Allowed Land Uses

Residential only (except for home occupations)

Development Intensity

DU/AC = 7 – 25 DU/AC, with 12 DU/AC average for new projects
FAR = n/a

Network and Connectivity

1. The street network should be well interconnected with pedestrian friendly blocks – between 400 and 500 feet long in most cases. The maximum block perimeter should be 2,400 feet. Larger blocks or dead-end streets may be considered where the community design value of natural elements – such as creeks, hills or sensitive habitats – warrant compromise.
2. Neighborhoods must be designed with at least one through street every 800 feet, unless the community design value of natural elements – such as creeks, hills or sensitive habitats – warrant compromise. Considerations warranting such compromise do *not* include increasing the number of lots or reducing the connectivity within a neighborhood or adjoining neighborhoods.

Street Design

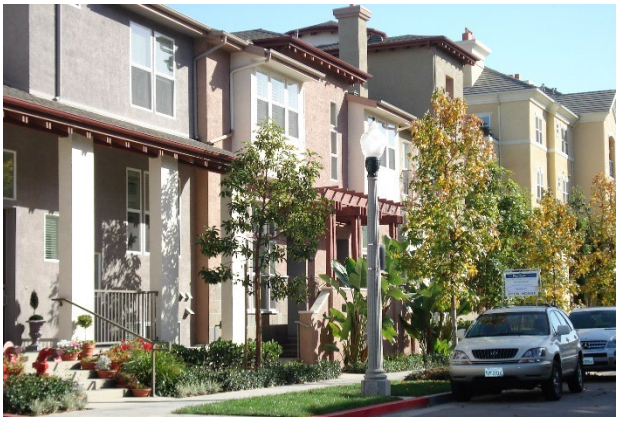
1. Residential streets should be as narrow as practical to encourage slow, safe driving speeds, with curbside parking on both sides. Recommended curb-to-curb dimensions range from 34 to 36 feet, depending on expected traffic volume. Narrower dimensions might be acceptable if approved by the city engineer and fire department.
2. Sidewalks (minimum of six feet) should be provided on both sides of the street, separated from the curb by a parkway strip at least six feet wide.
3. Trees should be planted approximately 30 to 40 feet apart to provide a canopy and shade to enhance neighborhood character and identity. Deciduous trees and those with broad, shading canopies are preferred.

Parks and Open Space

1. Mini Parks and Neighborhood Parks should be integrated into the neighborhood, within approximately a ¼-mile distance of at least 75 percent of the dwelling units. Other allowed park types include Plazas/Greens, Linear Parks, Community Parks, Special Use Parks, Greenways/Trails and Nature.

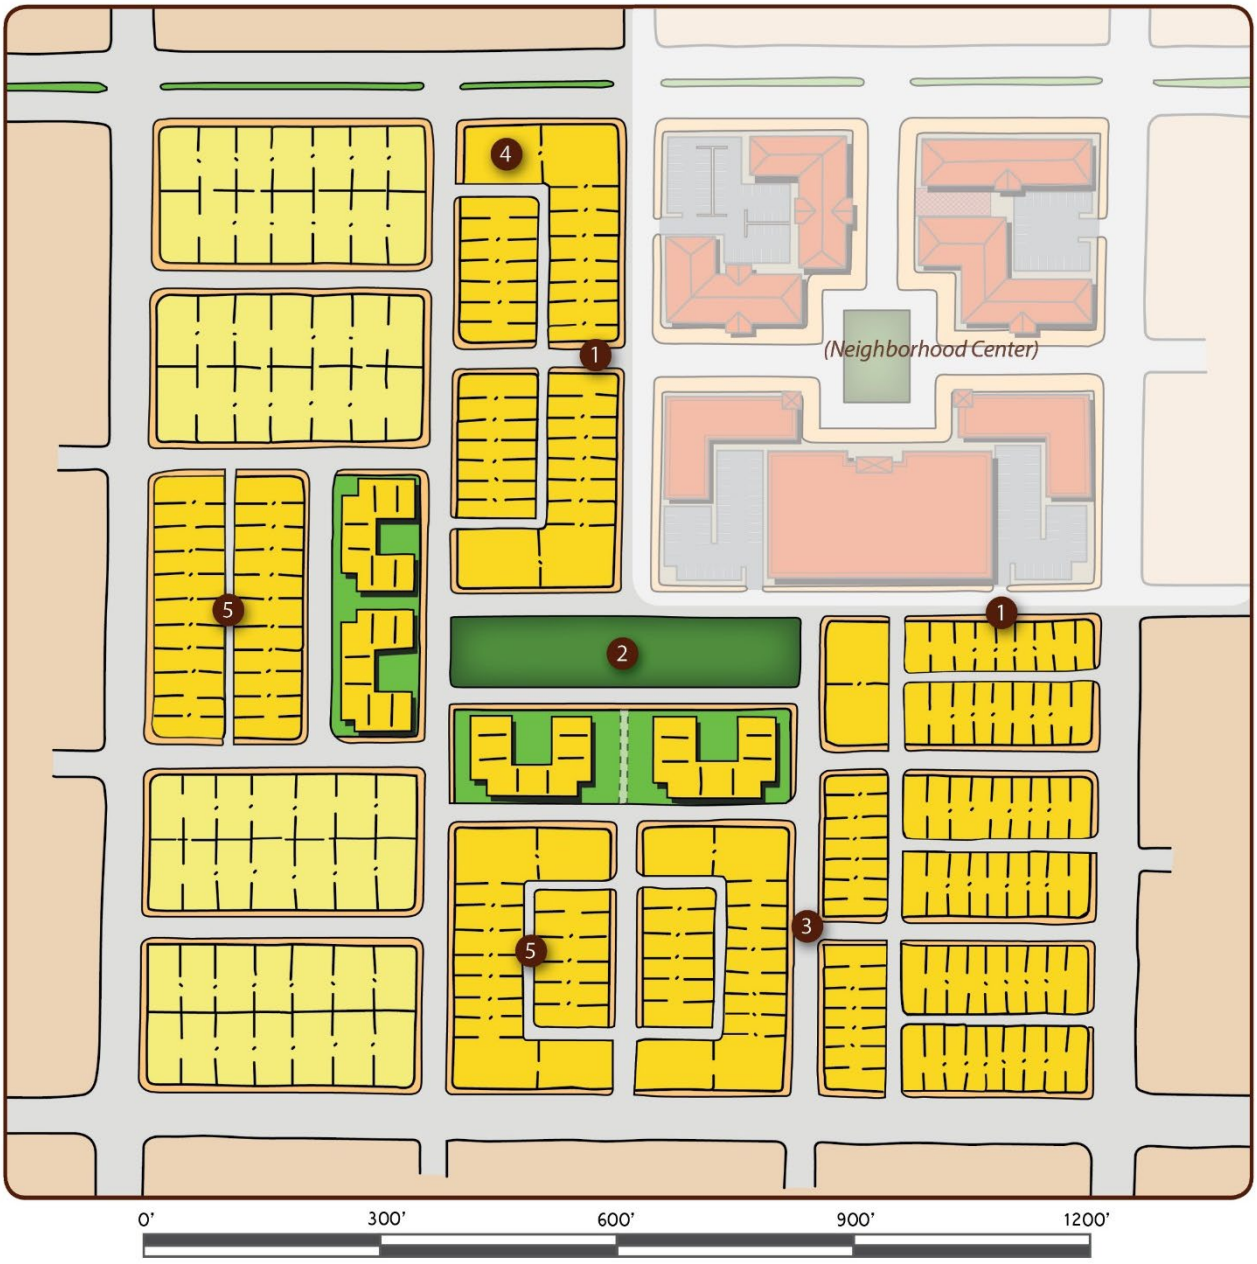
Urban Form Guidelines

1. Lot coverage generally does not exceed 50 percent.
2. Desired building types are Single-Family Houses, Duplex/Triplex/Quadplex, Multiplex/Efficiency Dwelling, Rowhouse/Townhouse, Garden Apartment and Urban Apartment.
3. Building are generally one and two stories, with some three-story buildings near a Neighborhood Center.
4. Buildings – except row houses – should have front, rear and side yards.
5. The main entrance to the residence should be located within the front façade, accessed directly from the street and designed to welcome visitors.
6. Vehicular access should be provided through an alley at the rear of the lot or a driveway to the street. Driveways from the street should be as narrow as practical – and not more than 20% of the lot width – to minimize front-yard paving.



Duplexes provide a high quality street-fronting condition.

Two-story rowhouses are suitable to General Neighborhood.



Bungalow courts are appropriate for a desired density of 7-25 DUA.

Alley-loaded townhouses face a narrow, residential street.

Figure 4-6: Examples of General Neighborhood form and character

General Neighborhood

1. Diversity of housing in close proximity and well-connected to neighborhood center.
2. Neighborhood park located near the center of the community.
3. Well-connected street network with 200' x 350' blocks.
4. Multiplex/efficiency dwelling housing type fronting arterial.
5. Alley-loaded attached building types can be used for narrow lots.

Figure 4-7: Illustrative land use diagram for desired character and form of General Neighborhood.

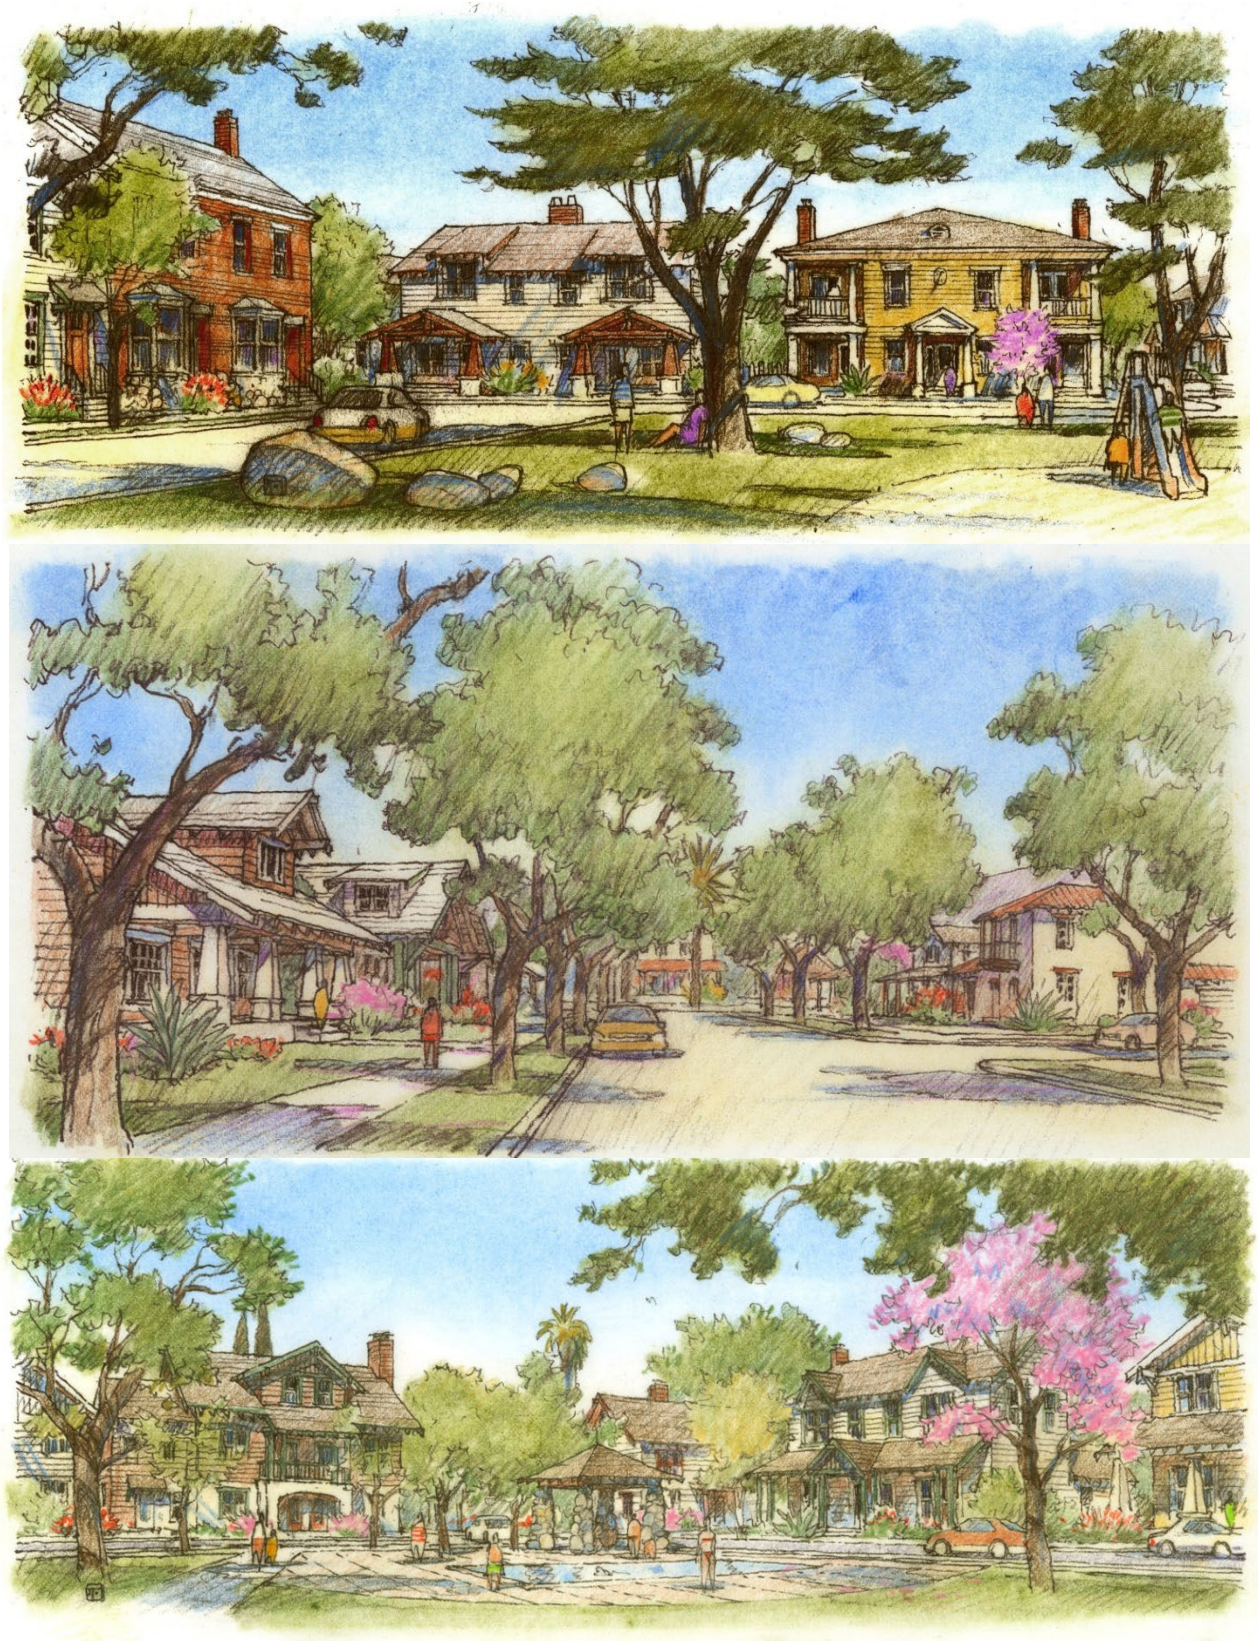


Figure 4-8: Illustrative renderings of General Neighborhood form and character (Source: Sargent Town Planning)

URBAN NEIGHBORHOOD

Intent and purpose

Urban Neighborhoods create a high-intensity, walkable, transit-ready neighborhood with a variety of types of housing - predominantly multi-family of various types. Urban Neighborhoods should be located in close proximity to high quantities of commercial, civic and recreational uses. The value of the Urban Neighborhood derives from its compactness, and the degree to which it allows a larger number of residents to live near one another, within easy walking distance of parks, schools, shops, transit and employment.

Intended Physical Character

The design character of an urban neighborhood is defined by its buildings, with smaller setbacks and smaller yard area per household. This compression of more building and more activity into each block requires vehicular access, parking and services be provided primarily by alleys, to avoid degrading the pedestrian quality of the streetscapes. The design quality of public open spaces and private frontages is especially critical to making a comfortable living environment for neighborhood residents.

Allowed land Uses

Primarily multi-family residential. Support retail, office, civic and recreational uses may be allowed in limited quantities. Small numbers of single-family homes may be allowed.

Development Intensity

DU/AC = 20 – 38 DU/AC with 30 DU/AC average for new projects
FAR = 0.5

Network and Connectivity

1. The street network should be highly interconnected with pedestrian friendly blocks, between 400 and 500 feet long in most cases. Block depths are generally 250 to 300 feet to allow space for alley-accessed parking at the rear of lots. The block perimeter should be no more than 2,400 feet
2. Neighborhoods must be designed with at least one through street every 800 feet, unless the community design value of natural elements – such as waterways, hills or sensitive habitats – warrant compromise. Considerations warranting such compromise do *not* include increasing the number of lots or reducing the connectivity within a neighborhood or adjoining neighborhoods.

Street Design

1. Streets should be as narrow as practical to encourage slow, safe driving speeds, with curbside parking on both sides. Recommended curb to curb dimensions range from 34 to 36 feet, depending on expected traffic volumes.
2. Sidewalks (minimum of six feet) should be provided on both sides of the street, separated from the curb by a parkway strip at least six feet wide. On streets with multi-family housing, portions of the parkway strip may be paved to facilitate higher parking volume.
3. Trees should be planted approximately 30 to 40 feet apart to provide a canopy and shade to enhance neighborhood character and identity. Deciduous trees and those with broad, shading canopies are preferred.

Parks and Open Space

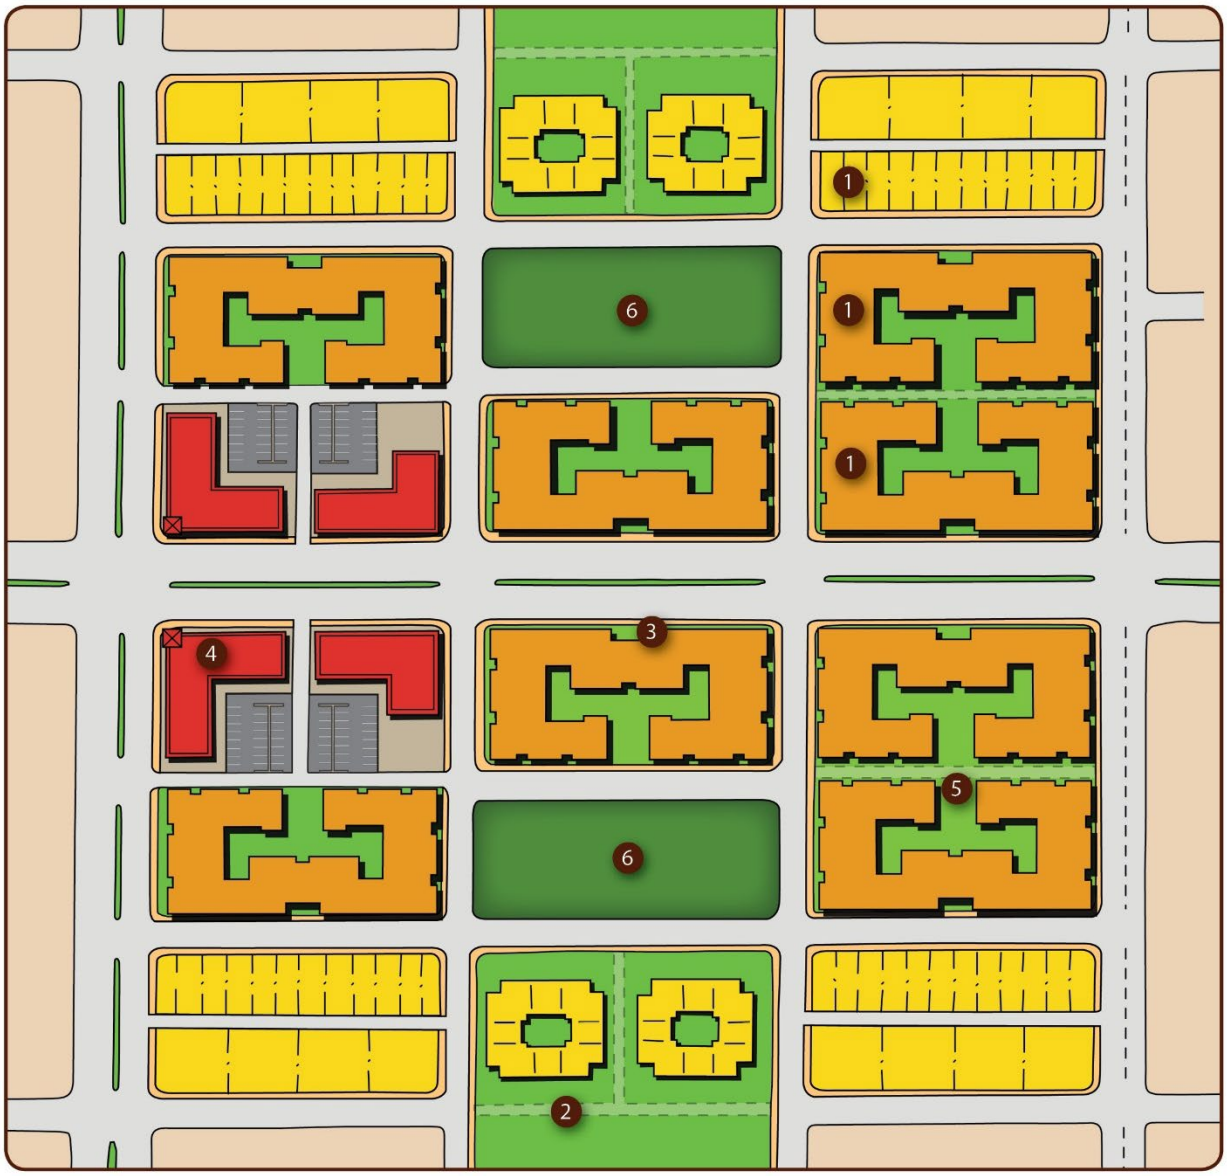
1. Mini Parks and Neighborhood Parks should be integrated into the neighborhood, within approximately a quarter-mile distance of at least 75 percent of the dwelling units. Other allowed park types include Plazas/Greens and Greenways/Trails.

Urban Form Guidelines

1. Lot coverage generally does not exceed 60 percent.
2. Buildings should generally have front and rear yards.
3. Desired building types are Rowhouse/Townhouse, Garden Apartment and Urban Apartment.
4. The main entrance to each building should be located within the front façade, accessed directly from the street and designed to welcome visitors.
5. Building heights are generally two to ~~three~~ four stories.
6. Vehicular access should be provided through an alley at the rear of the lot or a driveway connecting to the street. Driveways from the street, when necessary, should be as narrow as practical – and not more than 18 feet wide.

Three-story apartment complex with a landscaped setback.

Narrow townhouses contribute to a dense, walkable place.



Garden multiplexes with common entrances and private yards.

Three-story modern townhouses with tuck-under parking.

Figure 4-9: Examples of Urban Neighborhood Form and Character

Urban Neighborhood

1. Mix of housing types, including townhouses, courtyard housing, and apartment buildings.
2. Pedestrian pathways allow mid-block connections.
3. Residential entrances located to the front.
4. Commercial uses within walking distance of residents.
5. Block sizes of approximately 300 to 400 feet.
6. Open spaces serve as amenity for residents.

Figure 4-10: Illustrative land use diagram for desired character and form of Urban Neighborhood Form.

CENTER DESIGNATIONS

Centers are commercial areas with a compact and walkable environment and a mix of primarily non-residential uses. Some Centers are retail and service commercial oriented and provide concentrations of goods and services that residents of the nearby neighborhoods need for their daily lives. Others provide concentrations of jobs, civic and cultural uses. Multi-family residences may also be integrated into Centers, often on upper floors of buildings above ground-floor businesses.

This General Plan presents three different Centers, each with a slightly different character and non-residential intent. Retail-oriented Centers will vary in size but are generally located on larger, cross-town avenues, where they have the benefit of significant amounts of pass-by traffic as well as connections back into adjoining neighborhoods. In some areas near the middle of town, Centers may extend along major avenues in a form similar to strip commercial but with a stronger pedestrian orientation. There can be town-scale buildings that address the avenue and neighborhood streets that provide high quality pedestrian and bicycle connections to nearby residences. In such cases, the Centers become "corridors" (or linear Centers) that derive value from the traffic on the avenue while buffering the flanking neighborhoods from the busier corridor environment.

Like neighborhoods, the design character and mix of commercial types will vary by center and by location within town but all should have the following common characteristics:

- A diversity of architectural styles.
- A variety of attractive, green, walkable streets that provide a safe environment for pedestrians, bicyclists and children.
- Comfortable walking and biking access to nearby neighborhoods.
- An interconnected street network designed to provide abundant routes connecting to adjoining neighborhoods, districts and corridors – for walking, biking and short car trips.

Based on these characteristics, the Coachella General Plan identifies three designations for the creation of centers within the City. These are:

1. Neighborhood Center: Provides for a concentration of neighborhood-serving commercial businesses and civic amenities - often mixed with multi-family housing - within convenient walking or biking distance of nearby neighborhoods.
2. Downtown Center: Serves to bring the entire community together in a one-of-a-kind Coachella center that is the civic heart of the City. The hallmark of Downtown Coachella is unique local goods, services, culture and society.
3. Urban Employment Center: Provides for a range of employment uses to help expand and diversify the City's economy and transform Coachella from a small town into a full-service city. These centers are the primary location for office and professional jobs, supported by retail, services and homes.
4. Downtown Transition: Serves to transition commercial development from that along Grapefruit Boulevard to the core of the Pueblo Viejo around Veteran's Park and City Hall.

NEIGHBORHOOD CENTER

Intent and Purpose

This designation creates a concentration of commercial businesses and civic amenities—often mixed with multi-family housing—within convenient walking or biking distance of nearby neighborhoods. Centers provide gathering places for the residents of surrounding neighborhoods and are ideal locations for high-quality transit stops.

Intended Physical Character

Generally located at the intersection of two major roadways, Neighborhood Centers balance the need to provide convenient access and parking for passing motorists with the need to provide a comfortable, walkable environment for shoppers and diners. Buildings face public streets (either the primary roadway or new internal streets) with attractive shopfronts designed to display merchandise, dining rooms,, patios and signage to passersby. Streets connect the center to adjacent neighborhoods and to the urban corridor(s), providing convenient access on foot or by bike from residences to retail amenities and to transit.

Allowed Land Uses

Primarily neighborhood-serving retail and services, with residential uses on upper floors of mixed-use buildings and in multi-family buildings at the edge of the center where it transitions to the adjoining neighborhood.

Development Intensity

DU/AC = 15 – 40
FAR = 0.5 – 1.5

Network and Connectivity

1. Blocks may be large, up to 800 by 800 feet to accommodate parking required for such commercial centers. These blocks should be subdivided into smaller “virtual blocks” with dimensions in the 400- to 500- foot range by major driveways or internal streets that include sidewalks on at least one side, detailed as small streets within individual projects. The streets flanking the blocks and the drives that transect them should connect to neighborhood streets to provide convenient access for nearby residents as well as motorists.
2. Block perimeters should be no more than 3,200 feet and Neighborhood Centers must be connected to adjacent neighborhoods and other areas at least every 600 feet, except where connections cannot be made because of physical obstacles, such as prior platting of property, construction of existing buildings or other barriers, slopes over 20%, water bodies, railroad and utility rights-of-way, existing limited access motor vehicle rights-of-way and existing parks and dedicated open space.

ICSC Center Type Correlations

While Coachella’s Neighborhood Centers are envisioned as shopping centers and centers of social life – as well as possessing physical design characteristics particular to Coachella – the close parallel among the center types defined by the International Council of Shopping Centers (ICSC) would be the eponymous Neighborhood Center, providing a super market and other shops and restaurants to meet the daily and weekly shopping needs of residents.

Street Design

1. New internal streets should be designed for pedestrians and vehicles with comfortable sidewalks and vehicle lanes that are 10 feet wide in most cases, and up to 12 feet to accommodate

back-out movements from angled parking spaces. Parallel parking lanes should typically be 8 feet wide.

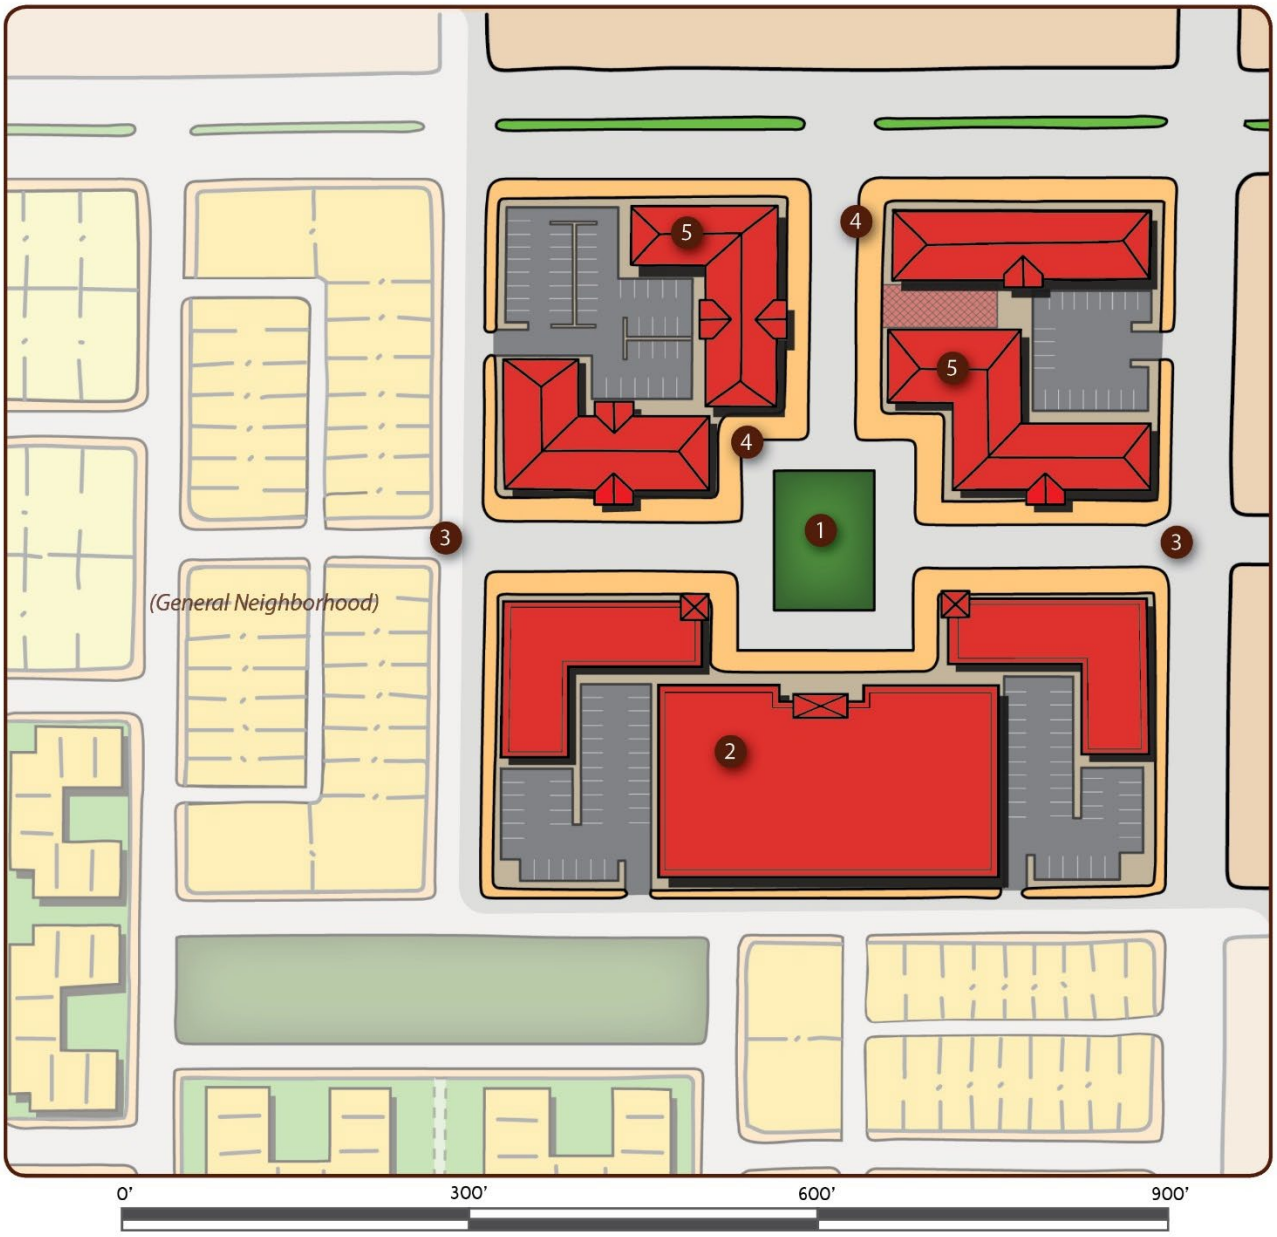
2. Sidewalks 10 to 18 feet wide should be provided on both sides of the street, with trees planted in grates or landscaped planters approximately 30 feet on center.
3. High-branching deciduous trees with relatively open canopy structure are recommended to increase the visibility of buildings and signage.
4. Streets along major roadways may be wider but should be designed to be comfortable and safe for pedestrians and cyclists while also accommodating the needs of vehicles.

Parks and Open Space

1. Open spaces in Centers generally take the form of Plazas and Greens and should be flanked by active ground floor retail or restaurant uses and in some cases ground-floor residences. Mini Parks with playgrounds could also be utilized as a park type within Centers.

Urban Form Guidelines

1. A variety of building types are allowed, ranging from Rowhouse/Townhouse to Main Street/Mixed-Use.
2. Building entrances are direct from the sidewalk, generally via shopfronts.
3. Building heights are generally one to three stories.
4. Vehicular access is provided to parking lots via common drives detailed as small streets and by alleys. Services and trash should be located behind the buildings in alleys.



Neighborhood-serving commercial with a mix of upper-floor uses.

Two-story corner building with flats above storefronts.

Figure 4-11: Examples of Neighborhood Center Form and Character

Neighborhood Center

1. Green space integrated into design provides gathering place.
2. Supermarket or other large format retail store anchors neighborhood center.
3. Connections to surrounding neighborhoods allow residents to walk to shops.
4. Wide sidewalks (15 -18 feet) and buildings near edge of sidewalk create walkable shopping environment.
5. "Main street"/mixed-use buildings with minimal setback provide opportunities for local-serving retail.

Figure 4-12: Illustrative land use diagram for desired character and form of Neighborhood Center.

Figure 4-13: Examples of Neighborhood Center form and character. (Source: Sargent Town Planning)

DOWNTOWN CENTER

Intent and Purpose

As Neighborhood Centers bring residents of surrounding neighborhoods together by providing a convenient and congenial environment for everyday shopping and dining, the Downtown brings the entire community together in a one-of-a-kind Coachella center that is the civic heart of the City.

While many of Coachella's other Centers and Districts are focused on bringing goods and services from around the region and the world to the residents of the City, the hallmark of Downtown Coachella is unique local goods, services, culture and society. Downtown should integrate the seat of city government, include a higher educational institution and provide a variety of space for local startup businesses, local theater and entertainment, boutiques and studios focused on local goods, arts and crafts and restaurants featuring fresh local foods and produce. Most importantly, the Downtown is a place that belongs to all of the people of Coachella and provides a space where they can meet and greet one another as they enjoy the life of their town.

> *"Pueblo Viejo is the civic and cultural heart of Coachella. The community is proud of the historic charm, locally-owned businesses and vibrant civic center. As you enter through the attractive gateways on Sixth Street, you are immersed in a lively street scene offering shady walkways, cooling water fountains, outdoor dining and unique shopping. Once empty lots are now filled with mixed-use buildings that respect the heritage, climate and community values. Family-friendly events and festivals fill the streets and public spaces. As you relax in the clean, well-maintained civic center core, you know . . .* ***you have arrived in Pueblo Viejo!"***
>
> Pueblo Viejo Revitalization Plan (March 2010)

Intended Physical Character

Every Downtown street is designed as an outdoor room, defined by active building facades and frontages that provide valuable addresses for shops, restaurants, hotels, residences and community facilities of many kinds. Plazas and squares punctuate the network of streets, providing larger, comfortable spaces for formal and informal gatherings, outdoor dining, public markets and special events.

Buildings define the public realm with arcades, galleries and awnings that provide welcome shade for pedestrians. Large trees offer shade on hot days and moderate winds make open spaces more inviting.

Allowed Land Uses

A diverse mix of commercial, civic, and residential uses focused primarily on retail, office, residential, civic and recreation.

Development Intensity

DU/AC = 20 – 65
FAR = 0. 5 – 3.0

ICSC Center Type Correlations

While Coachella's Downtown is envisioned as much more than a shopping center, to the extent that a concentration of retail businesses can be attracted to and organized within the Downtown, the closest parallel among the center types defined by the International Council of Shopping Centers (ICSC) would be the Theme or Festival Center, as it emphasizes a unique theme (Coachella and the Coachella Valley) along with restaurants and entertainment.

Network and Connectivity

1. Blocks are 300 by 400 feet (the approximate size of the existing blocks in Downtown Coachella). Mid-block paseos are recommended to provide pedestrian connections from the streets to parking facilities within the blocks. Selected blocks may be larger if necessary to accommodate special uses such as theaters, college facilities or major municipal parking structures but multiple paseos should be provided in such blocks to ensure a high degree of connectivity and amenities for pedestrians.

Street Design

1. Downtown streets should be designed for slow driving speeds, convenient curbside parking and easy and safe pedestrian movement. Large delivery or emergency vehicles must be accommodated but the geometry of intersections and crosswalks should favor the pedestrian in all cases.
2. Vehicular lanes should be 10 feet wide in most cases, and up to 12 feet to accommodate back-out movements from angled parking spaces. Parallel parking lanes should typically be eight feet wide, although seven feet is sufficient along residential frontages.
3. Sidewalks of 14 to 20 feet wide should be provided on both sides of the street, with trees planted in grates or landscaped planters approximately 30 feet on center.
4. High-branching deciduous trees with relatively open canopy structure are recommended to increase the visibility of buildings and signage. Palms can provide vertical accents in selected locations but should generally be used sparingly in combination with canopy trees that provide shade.

Parks and Open Space

1. Open spaces in the Downtown will generally take the form of Plazas, Squares, Courtyards and Paseos. In limited instances, Mini Parks and Neighborhood Parks would also be acceptable.

Urban Form Guidelines

1. An overall diversity of building types is allowed and encouraged. The allowed types are: Rowhouse/Townhouse; Garden Apartment; Urban Apartment and Main Street/Mixed Use.
2. Building entrances are direct from the sidewalk, via shopfronts, arcades, galleries and forecourts for shops and restaurants, and via stoops, dooryards or porches for residences.
3. Building heights are generally two to five stories, with taller buildings toward the Downtown core.
4. Vehicle access is designed to minimize impact on the pedestrian environment. Parking lots are located internally to blocks and accessed via side streets, alleys or with a minimal number of intrusions in the sidewalk.
5. Buildings made of, or emulating, heavy masonry are generally recommended in the Downtown subarea.

Main street shopping corridor with mid-block paseo.

Two-story of residential above ground floor shops.

Mixed-use apartment building with pedestrian arcade.

Pedestrian-scaled frontages.

High-quality streetscape.

Open space in Downtown Coachella.

Pedestrian zone.

Figure 4-14: Examples of Downtown Center form and character

DOWNTOWN TRANSITION

Intent and Purpose

The Downtown Transition area refers to the parcels surrounding Veterans' Park and City Hall. The area is envisioned to serve as a transition between residential and commercial use, using the existing residential structures and maintaining similar density and massing. This designation intends to utilize and improve existing structures, encourages infill development and co-exists with surrounding single-family residential use for convenience services and a transition between automobile uses and the core of the Pueblo Viejo.

Intended Physical Character

The Veterans' Park, City Hall and Coachella Branch Library create a civic presence in this part of Downtown. The surrounding blocks are expected to transition to provide building facades and frontages that create a gracious and active interface for new shops, restaurants, residences, and community facilities. New buildings define the public realm with arcades, galleries and awnings that provide welcome shade for pedestrians. Large trees offer shade on hot days and moderate winds make open spaces more inviting. The scale of buildings is less dense than that in the Downtown Center.

Allowed Land Uses

A diverse mix of commercial, civic, and residential uses focused primarily on retail, office, residential, civic and recreation.

Development Intensity

DU/AC = > 25
FAR = > 1.5

Network and Connectivity

1. Blocks are 300 by 400 feet (the approximate size of the existing blocks in Downtown Coachella). Mid-block paseos are recommended to provide pedestrian connections from the streets to parking facilities within the blocks.

Street Design

2. Downtown streets should be designed for slow driving speeds, convenient curbside parking, and easy and safe pedestrian movement. Large delivery or emergency vehicles must be accommodated but the geometry of intersections and crosswalks should favor the pedestrian in all cases.
3. Vehicular lanes should be 10 feet wide in most cases, and up to 12 feet to accommodate backout movements from angled parking spaces. Parallel parking lanes should typically be eight feet wide, although seven feet is sufficient along residential frontages.
4. Sidewalks of 10 to 14 feet wide should be provided on both sides of the street, with trees planted in grates or landscaped planters approximately 30 feet on center.
5. High-branching deciduous trees with relatively open canopy structure are recommended to increase the visibility of buildings and signage. Palms can provide vertical accents in selected locations but should generally be used sparingly in combination with canopy trees that provide shade.

Parks and Open Space

1. Open spaces in the Downtown Transition subarea will generally take the form of Plazas, Squares, Courtyards and Paseos. In limited instances, Mini Parks and Neighborhood Parks would also be acceptable.

Urban Form Guidelines

1. An overall diversity of building types is allowed and encouraged. The allowed types are: Rowhouse/Townhouse; Garden Apartment; Urban Apartment and Main Street/Mixed Use.
2. Building entrances are direct from the sidewalk, via shopfronts, arcades, galleries and forecourts for shops and restaurants, and via stoops, dooryards, or porches for residences.
3. Building heights are generally two to three stories to be compatible with the existing fabric.
4. Vehicle access is designed to minimize impact on the pedestrian environment. Parking lots are located internally to blocks and accessed via side streets, alleys or with a minimal number of intrusions in the sidewalk.
5. Buildings made of, or emulating, heavy masonry are generally recommended in the Downtown Transition area.

Commercial use with inviting outdoor space.~~Mix of commercial retail uses with wide sidewalks and a comfortable~~

URBAN EMPLOYMENT CENTER

Intent and Purpose

This General Plan designation provides space for a range of employment uses to help expand and diversify the City's economy and transform Coachella from a small town to a full-service city. The desired employment uses are office and research and development rather than industrial uses such as manufacturing, distribution and warehouse. The employment uses are supported by retail, service and similar uses. Residential uses are allowed in residential-only buildings or in a mixed-use configuration with ground-floor retail. Also allowed are higher education uses (such as a college or university) designed in urban setting.

~~Subarea~~ Intended Physical Character

The buildings are configured in an urban format of walkable blocks, attractive streetscapes and buildings at or near the sidewalk edge. There is limited surface parking and minimal landscaping between the buildings and the sidewalk, typical of office or business parks in the Coachella Valley and Western Riverside County.

Allowed Land Uses

Office, research and development, live-work, multi-family residential, and support retail.

Development Intensity

DU/AC = 30 – 65
FAR = 0.5 – 2.0

Network and Connectivity

1. Blocks should be approximately 400-500 feet in length with a block perimeter of no more than 2,400 feet.
2. Pedestrian connectivity within these centers—and connecting them to adjoining neighborhoods and the Downtown system—are top priorities as that is what will differentiate these centers from the more auto-oriented industrial district closer to the airport. Mid-block paseos are recommended to provide pedestrian connections from the streets to parking facilities within the blocks.

Street Design

1. Streets should be designed for slow speeds, convenient curbside parking and easy and safe pedestrian crossing. Large delivery or emergency vehicles must be accommodated but the geometry of intersections and crosswalks should favor the pedestrian.
2. Vehicular lanes should be 10 to 12 feet wide and parallel parking lanes typically eight feet wide, although seven feet is sufficient along residential frontages.
3. Sidewalks 10 to 16 feet wide should be provided on both sides of the street, with trees planted in grates or landscaped planters at approximately 30-40 feet on center.
4. High-branching deciduous trees with relatively open canopy structure are recommended to increase the visibility of buildings and signage. Palms can provide vertical accents in selected locations but should generally be used in combination with canopy trees that provide welcome shade.
5. In some areas—and particularly in order to attract a large employer to locate in these center—it may be appropriate for several blocks to be joined together as a campus environment with

pedestrian-only paths that connect to the streets of the surrounding district and neighborhoods. This configuration should not be used for speculative building development but reserved as a potential enticement to a large user offering significant employment opportunities.

Parks and Open Space

1. Open spaces in the Urban Employment Centers will generally take the form of public Plazas/Greens, Mini Parks and perhaps a Neighborhood Park. Greenways/Trails may also be used to connect open spaces throughout the area and provide connectivity to adjacent areas.

Urban Form Guidelines

1. The primary building types allowed should be Office/R&D and Mixed Use/Main Street. Other allowed building types are Garden Apartment and Urban Apartment. Rowhouses/Townhouses may be allowed in limited circumstances to serve as a transition to lower density residential uses.
2. Buildings with ground-floor shopfronts are generally built to the sidewalk and office or R&D buildings may be set back behind shallow front yards or forecourts.
3. Building entrances are directly from the sidewalk, via forecourts, shopfronts, dooryards, stoops and porches.
4. Building heights are generally two to five stories.
5. Vehicular access is provided to parking lots or structures by alleys and driveways. Services and trash should be located behind the buildings in alleys or rear parking areas.
6. Buildings made of, or emulating, heavy masonry are generally recommended in the Downtown subarea. Concrete buildings—including good quality tilt-up buildings designed with appropriate urban facades—as well as buildings clad with metal are appropriate except in the Downtown subarea.

Office building with special corner treatment.

Cluster of office buildings.

Typical two-story office building.

"Corporate campus" style development pattern which attracts larger employers by virtue of the enhanced public realm.

Figure 4-15: Examples of Urban Employment Center form and character. (Source: Sargent Town Planning)

Urban Employment Center

1. Typical block size is 300' by 400.'
2. Ground floor retail provides services for workers.
3. Public spaces interspersed throughout office buildings.
4. Wide sidewalks (15 to 20 feet wide).
5. Residential uses integrated into employment district.
6. Buildings front streets, plazas, and parks.
7. Retail uses integrated with employment uses.
8. Multiple blocks joined together to create 'campus.'

Figure 4-16: Illustrative land use diagram for desired character and form of Urban Employment District.

DISTRICT DESIGNATIONS

Districts are areas of the City that generally have a single or limited number of uses and are more automobile-oriented. They differ from Neighborhoods and Centers in that the most important physical characteristics are the connectivity through the area and the way the districts adjoin (and potentially impacts) adjacent uses. Districts play an important role in the City since they are the primary retail and entertainment areas (Suburban Retail District and Regional Retail District), and provide jobs and economic development opportunities (Industrial District). The Resort District also provides an opportunity for the City to capitalize on the part-time living and hospitality economic sectors.

SUBURBAN RETAIL DISTRICT

Intent and Purpose

The Suburban Retail District provides concentration of retail businesses—including "big box" and "large format" retailers—in a setting that accommodates the parking requirements of such businesses. it also provides good pedestrian connectivity and town scale buildings adjacent to corridor frontages, bringing shopping amenities and fiscal resources to Coachella without unreasonably disrupting its small-town character.

Intended Physical Character

Located on major crosstown corridors, retail districts balance the need to provide convenient access and parking for motorists while also providing an attractive shopping environment. Buildings face the street or internal sidewalks with attractive shop fronts. Neighborhood streets connect the center to adjacent neighborhoods and urban corridor(s), providing convenient access on foot or by bike from residences to retail amenities and to transit.

Allowed Land Uses

Primarily retail and services, sometimes with commercial uses on upper floors.

Development Intensity

DU/AC = n/a
FAR = 0.35 – 1.0

ICSC Center Type Correlations

Coachella's Suburban Shopping Districts – integrating concentrations of larger format retail businesses with Coachella's family-oriented neighborhoods – are expected to be similar in retail tenant mix and functional format to the Community Center type as defined by ICSC. These generally include two or more anchor tenants, and occupy sites between 10 and 30 acres in size.

Network and Connectivity

1. Blocks – as defined by public streets – may be very large, up to 1,000 by 1,000 feet to accommodate the parking required for such commercial centers. These blocks should be subdivided into smaller "virtual blocks" with dimensions in the 400- to 500- foot range by major drives that include sidewalks on at least one side, detailed as small streets. The streets flanking the blocks and the drives that transect them should connect to neighborhood streets to provide convenient access for nearby residents as well as motorists.
2. The internal streets should result in block perimeters that are no more than 3,200 feet.

3. To ensure connectivity with adjacent areas, there must be a vehicle or pedestrian connection at the project boundary every 800 feet.

Street Design

1. New internal streets and drive aisles should be designed for slower speeds and provide access to the retail areas. Recommended lane widths are 10 to 12 feet, and curbside parking lanes, if any, should be eight feet wide.
2. Sidewalks of six to eight feet wide should be provided on at least one side of the private streets, and 12 to 18 feet wide along the shop front side of private drives.
3. Rows of high-branching deciduous trees with relatively open canopy structure are recommended along the private streets, in order to provide shade and spatially define those streets.

Parks and Open Space

1. Open spaces in Suburban Retail Districts should generally be Plazas/Greens to provide sufficient gathering space for shoppers and visitors. Mini Parks may be appropriate as supporting open space. Greenways/Parkways may be acceptable to link open spaces together.
2. Parking lots should be defined by rows of high-branching deciduous trees to provide shade and improve the visual appearance. The location of trees should be balanced with the desire to provide visibility from the major thoroughfare.
3. Drainage swales planted with drought tolerant native species are recommended between parking rows to manage storm water flow, improve stormwater quality and provide locations for planting trees.

Urban Form Guidelines

1. Lot coverage generally does not exceed 30 percent and building heights are generally one ~~and~~ to ~~two~~ three stories.
2. The allowed building types for this District are Suburban Retail and Main Street/Mixed Use.
3. Buildings with ground-floor shop fronts are generally built to the sidewalk or walkway and are generally attached, with no side yards. Service functions (loading and trash pickup) should occur at the rear, where employee parking may also be provided to reduce the required size of front parking lots to the minimum needed for customers.
4. Vehicular access is provided to parking lots via private streets (a.k.a. common drives detailed as small streets) by driveways from adjacent neighborhood streets and by service alleys.

Suburban Retail District

1. Liner buildings front major streets.
2. Connections to surrounding neighborhoods improve access.
3. Parking lots are mostly set back from major streets.
4. Private, internal driveways service retail parking lots.
5. Service functions occur at the rear of building and must be separated from adjacent uses.

Figure 4-17: Illustrative land use diagram for desired character and form of Suburban Retail District.

Gateway feature at entrance to suburban retail center.

Typical façade rhythm for retail center.

Retail center that provides pedestrian speed table in front.

Parking lots may be located in front, below or on top of retail.

Retail center composed of scattered one to two-story buildings, with high visibility signage.

Figure 4-18: Examples of Suburban Retail District form and character. (Source: Sargent Town Planning)

REGIONAL RETAIL DISTRICT

Intent and Purpose

This designation provides opportunities for a wide range of shopping and entertainment in a variety of urban and suburban formats. These include regional shopping centers, mixed destination centers or similar uses. The uses allowed in this designation will cater to regional clientele and provide a unique amenity to all residents of the Coachella Valley and an important revenue source for the City. The primary purpose of the District is to provide for commercial opportunities, with residential uses supporting the retail environment.

Intended Physical Character

Like the other Centers and Districts of Coachella, the Regional Retail District is organized into blocks by a combination of public and private streets that provide addresses for the businesses and organize access and parking for them. The blocks of this District may be the largest in Coachella, with buildings, landscape and signage similarly scaled up in size, but not neglecting the importance of creating a comfortable and attractive pedestrian environment for shoppers.

Allowed Land Uses

A wide range of retail, lodging, entertainment and residential uses.

Development Intensity

DU/ac = 10 – 15
FAR = 0.35 – 2.0

Network and Connectivity

1. The block size will vary depending on the type of uses. The majority of retail, residential and commercial uses should strive for blocks of no more than 1,000 feet in length with a block perimeter of no more than 4,000 feet.
2. Where large blocks exist, pedestrian and bicycle connections, which could be realized as sidewalks, bicycle paths and multi-use paths, should ideally occur as frequently as every 400 to 500 feet. Also, in pedestrian-oriented retail and residential environments, these blocks should be subdivided into smaller “virtual blocks” with lengths in the 400- to 500- foot range by major drives that include sidewalks on at least one side, detailed as small streets. The streets flanking the blocks and the drives that transect them should connect to neighborhood streets to provide convenient access for nearby residents as well as motorists.

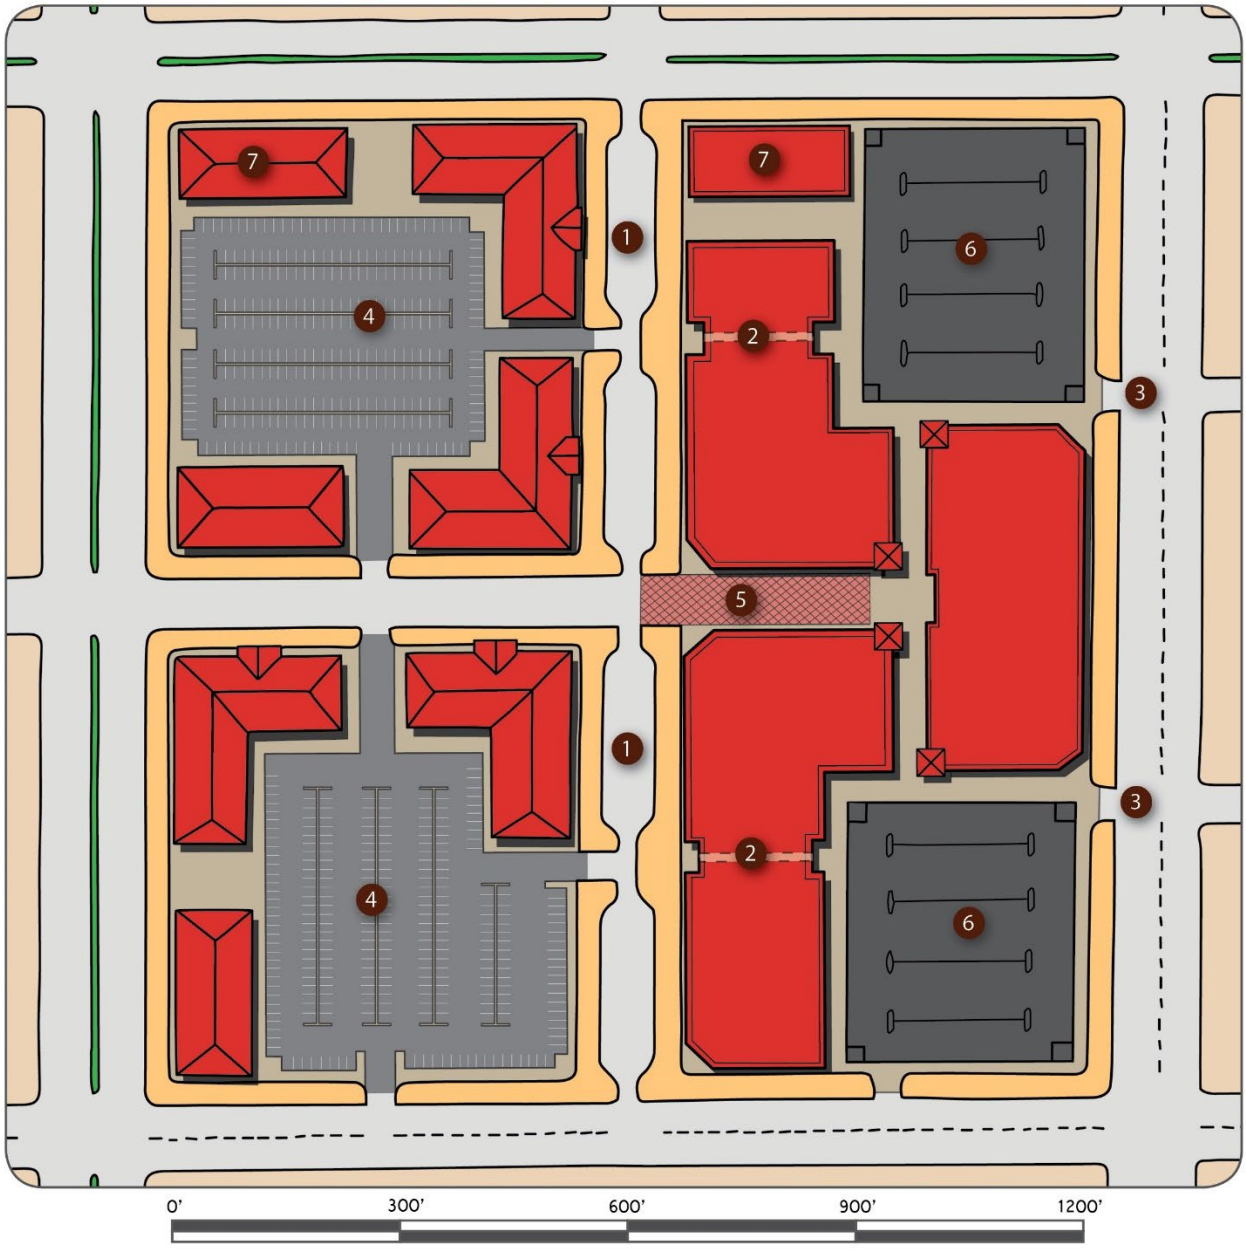
ICSC Center Type Correlations

Among other uses, Coachella’s Regional Retail District will allow shopping environments similar to a number of the ICSC Center Types, including Regional Center, Superregional Center, Power Center and Outlet Center. As Coachella is able to attract significant new retail and entertainment businesses, careful and strategic consideration should be given to their location within the City. Ideally, tenants with a very large trade area should be allocated to the Regional Retail District tenants with a trade area focused more on Coachella and neighboring towns to the Suburban Retail District, and smaller scale tenants focused on food and entertainment to the Downtown.

Street Design

1. Street widths may vary depending on the adjacent uses, with some streets carrying high traffic volumes.

2. All streets should create safe and comfortable pedestrian accommodations with sidewalks, trees and safe pedestrian crossings. Sidewalks six to eight feet wide should be provided on at least one side of the private streets, and 12 to 18 feet in front of retail projects. On other major roadways, sidewalks shall be at least eight feet and separated from the vehicle travel lanes planting strips and by on-street parking or street trees. Soundwalls and other similar barriers should be avoided, except adjacent to freeways.
3. Rows of high-branching deciduous trees with relatively open canopy structure are recommended along the pedestrian-oriented streets, to provide shade, to spatially define those streets and the parking lots they organize, while providing visibility of buildings and signage.



Parks and Open Space

1. A variety of open spaces allowed depending on the uses. These include Mini Parks, Community Parks, Plazas/Greens and Greenway/Trails.

Urban Form Guidelines

1. The primary building type envisioned for this designation is Suburban Retail. Other building types allowed include Main Street/Mixed Use, Urban Apartment and Rowhouse/Townhouse.
2. Building heights are generally one and two stories but may be up to four stories, particularly for mixed use projects. Exceptions may be made in special circumstances such as hotels, iconic buildings or structures.
3. The District—including its streets, buildings, parking fields and signage—should be designed for the comfort and wayfinding of shoppers within the District, while projecting a unique and compelling image from the adjoining highways to entice passersby to become shoppers.
4. Buildings with ground-floor shopfronts are generally built to the sidewalk and are generally attached, with no side yards. Service functions such as loading and trash pickup should occur at the rear, where employee parking may also be provided to reduce the required size of front parking lots to the minimum needed for customers.
5. Vehicular access is provided to parking lots via public and private streets (e.g., common drives detailed as small streets) by driveways from adjacent neighborhood streets, by service alleys and from the primary roadway.
6. Drainage swales planted with drought tolerant native species are recommended between parking rows to manage stormwater flow, improve stormwater quality, and provide locations for planting trees.

Regional Retail District

1. Wide sidewalks and on-street parking enhance district character.
2. Pedestrian paseos create smaller 'virtual' blocks within larger blocks.
3. Connections to adjacent neighborhoods allow residents to walk to services.
4. Parking primarily located behind buildings.
5. Major plaza creates central activity space.
6. Structured parking minimizes surface area needed for parking.
7. Commercial buildings front arterials.

Figure 4-19: Illustrative land use diagram for desired character and form of Regional Retail District.

Though most customers arrive by car, a regional retail district can still provide a walkable experience.

Large, nationally recognized anchors occupy significant square footage at a Regional Retail District.

Vast parking lots are necessary to serve regional retailers but facades can still front onto internal streets rather than the lots.

Figure 4-20: Examples of Regional Retail District form and pattern

INDUSTRIAL DISTRICT

Intent and Purpose

This designation accommodates a range of light and heavy commercial and industrial businesses that provide employment and generate more noise, light, odors or truck traffic than would be appropriate in the Urban Employment District.

Intended Physical Character

Coachella's Industrial District is characterized by larger blocks, lots and buildings that would be incompatible with the scale and character of Coachella's neighborhoods and centers. This District accommodates higher concentrations of heavy business activity. Nonetheless, the streetscapes of this District are well landscaped and include good quality pedestrian and bicycle routes so employees and visitors may conveniently arrive by bicycle or transit, while safely and comfortably walk to restaurants and service businesses in the course of their workday.

Allowed Land Uses

Industrial and research and development uses, with support retail and office uses.

Development Intensity

DU/ac = n/a
FAR = 0.1 – 2.0

Network and Connectivity

1. Blocks – as defined by public streets – may be very large, up to 1,200 by 1,200 feet to accommodate the large buildings, truck loading and outdoor storage functions required for such industrial districts. Whenever practical, these blocks should be subdivided into smaller "virtual blocks" or provide non-motorized through connections with dimensions in the 400- to 600- foot range by major drives that include sidewalks on at least one side, detailed as small streets, organizing large parking areas and providing addresses for buildings within multi-building complexes or campuses.
2. External connections from individual development to adjacent areas shall occur at least every 1,200 feet.

Street Design

1. Streets are generally wider than those elsewhere in Coachella in order to accommodate higher volumes of large vehicle traffic. Curb to curb widths range from 40 to 60 feet, with curbside parking generally provided on both sides for employees and visitors and center turn lanes where appropriate. Vehicular lanes should generally be 12 feet wide and parallel parking lanes should be a minimum of eight feet wide.
2. Within multi-building complexes or campuses – whether designed for large users or as a multi-tenant industrial development – the major drives should be designed as small streets, defined by rows of "street trees" to project the image of valuable business addresses.
3. Sidewalks of six to eight feet wide should be provided on all public streets and on at least one side of private streets and major drives aisles to improve the visitor/customer experience while encouraging employees to commute by transit.
4. Rows of deciduous trees are recommended along the private streets and within the parking fields to provide shade.

Parks and Open Space

1. Open spaces in the District will generally take the form of small private or public Plazas/Greens to provide comfortable locations for employee breaks, dining areas for District restaurants and play areas for day-care facilities.
2. Neighborhood Parks, with athletic facilities and passive open spaces, are allowed in order to serve employees and visitors.
3. Greenways/Trails are also encouraged to increase non-motorized connectivity through the area.

Urban Form Guidelines

1. Lot coverage is generally in the 25- to 50- percent range but may be lower for uses with significant outdoor operations and higher for uses requiring only small amounts of parking.
2. Buildings should face the street with simple, attractive facades with main entries and windows, welcoming visitors, providing light and view for the occupants and animating the architecture.
3. Buildings may be set back from the street with appropriate landscaping to provide an attractive visual buffer.
4. Allowed building types are Office/R&D, Industrial and Suburban Retail.
5. Building heights are generally one and two stories but office buildings may be up to three stories. Higher height limits may be allowed if necessitated by specific uses and industries so long as there is no negative impact on health, welfare or the economic development opportunity of other properties in the District or nearby areas.
6. Office functions and activity areas – such as lunchrooms – should be organized at the frontage when feasible to provide a human scale and sense of activity along the streetscapes.
7. Loading functions should be located toward the rear of the property. Employee parking lots should also be located beside or behind buildings when possible rather than in front.
8. Simple modern masonry and concrete architecture is recommended. Large buildings should be organized into multiple simple masses and articulated with fenestration. Galleries, arcades, and projecting sunscreens are recommended architectural elements, providing valuable shade and visual depth to the architecture.
9. Natural masonry, concrete and metal materials that weather and age with grace, are recommended.

Typical two-story industrial/R&D warehouse style building.

Utilitarian architecture is appropriate for industrial districts.

Industrial building with well landscaped pedestrian path.

Large industrial manufacturing facility provides head of household jobs but should be distant from residential districts.

Figure 4-21: Examples of Industrial District form and character

RESORT DISTRICT

Intent and Purpose

This designation creates a neighborhood organized around a recreational, entertainment or vacation destination, providing a range of residential options, neighborhood-serving retail, service and restaurant amenities, and, in some cases, lodging. This designation also allows a range of entertainment and destination uses not allowed in other areas, such as theme parks, that require large amounts of land and that draw visitors to the City.

Intended Physical Character

The design of resorts will vary, depending upon the core amenities or intended market niche. However, a resort by its nature must be a place where visitors will go out of their way to spend time, thus must present a cohesive, comfortable and attractive vacation environment. In general, there is significant flexibility on the internal design of resorts. Critical to the City is visual appearance of the outside of the resort so its location does not affect the overall connectivity, and the economic development benefits that result for the City. This designation also provides for flexibility for certain uses, such as theme parks or large entertainment venues, which may not be able to meet the urban and pedestrian-oriented standards of other designations.

Allowed Land Uses

Residential, lodging, recreational and support retail and commercial services. Theme parks, sports venues and specialized entertainment uses are also allowed within this designation.

Development Intensity

DU/AC = up to 8[1]

FAR = 0.10 max, exceptions may be made for certain entertainment uses such as theme parks.

Network and Connectivity

1. An internal street network is not defined for resorts. However, residential resorts with a variety of housing types should follow the same general design principles as the Neighborhood General destination.
2. Resorts, by reduced vehicular connectivity, should be located and designed to not unreasonably disrupt the overall connectivity of Coachella. Accordingly, it is recommended they be located adjacent to elements that inherently impede such connectivity, such as the highways, the canal, and the river. Properties abutting the southerly/westerly edge of the canal are particularly suitable for resorts, being adjacent to the open space of the canal and connecting to the linear park and trails that will flank the canal, which should be designed to accommodate pedestrians, bicycles and horses. External connections around and through the resort should be at minimum

[1] Within Resorts, the distinction between lodging and vacation rentals may become blurred. A mix of houses, casitas, small multi-family buildings and larger hotels could be mixed within a single resort, making dwelling units per acre an inadequate metric. Such facilities should occupy buildings from one to four stories, having a town scale and Coachella character, which will be determined on a case-by-case basis.

every quarter-mile but exceptions may be made depending on the location and the proposed uses.

3. Resorts may be gated and provide limited public access.

Street Design

1. Streets internal to resorts may be designed according to the specifications of the resort developer. However, residential resorts with a variety of housing types should follow the same general design principles as the Neighborhood General destination.
2. Streets on the perimeter of the resort may vary based on location but all streets should provide comfortable pedestrian amenities such as sidewalks (of at least five feet in width), street trees (planted approximate every 40 feet) and safe pedestrian crossings.

Parks and Open Space

1. Parks should be integrated into the resort design in the form of Plazas/Greens, Mini Parks, Special Use Parks and Greenways/Trails. Parks internal to the resort may be private, however public parks outside of the project must be provided to meet City standards.

Urban Form Guidelines

1. A range of building types are allowed to suit the needs of the resort developer and expected clientele and types other than these are allowed so long as there is no negative visual or aesthetic impact to areas outside of the resort.
2. Building heights should generally be between one and four stories but higher limits may be allowed in certain circumstances such as larger hotels or other structures.

Roundabout circulation entrance is acceptable for resorts.

Tall vertical landscaping elements mark entrance to a resort.

Figure 4-22: Examples of Resort District form and character

SPECIFIC PLANS

This designation provides unique projects the City entitles under a Specific Plan. State legislation provides for the preparation and use of Specific Plans as focused implementation tools for individual developments in a defined area. In the future, the City may see fit to process and entitle special projects that may not be easily described by this General Plan and a Specific Plan would be an acceptable approach for approving such a project. If a Specific Plan is approved, that document defines the parameters of the land uses and character. However, under this General Plan designation, should an area of land be designated as "Specific Plan" and a Specific Plan be prepared for the area, the Specific Plan must conform to the Vision, Goals, and Polices of this General Plan. Additionally, when possible, the General Plan designation presented here should be used by any future Specific Plans.

At the time of this General Plan update, the City had numerous approved Specific Plans in place for various areas of the City. Given the change in the housing market and other economic and demographic changes, many of the City's Specific Plans are undergoing revisions or expected to undergo revisions. Following The following, is a brief summary of the nature and status of the City's larger Specific Plans.

LA ENTRADA

The La Entrada Specific Plan provides for approximately 2,200 acres on the eastern edge of the City, providing for approximately 7,800 residential units, 135 acres of mixed-use, elementary schools, 343.8 acres of parks, multi-purpose trails and 556.9 acres of open space.

COACHELLA VINEYARD

The Coachella Vineyard Specific Plan provides for 807 units in the southeastern area of the City.

BRANDENBURG BUTTERS SPECIFIC PLAN

The Brandenburg Butters project provides for 71.5 acres of commercial uses and 1,381 dwelling units.

EAGLE FALLS

The Eagle Falls is a Specific Plan that is within the boundaries of Coachella (60 acres) and Indio (30 acres) on a 90-acre site with plans for 295 units, of which 202 units will be within the City of Coachella. The Specific Plan provides for a gated golf course community and is included as a part of the Cabazon Band of Mission Indians Fantasy Springs Master Plan.

SHADOW VIEW

The Shadow View Specific Plan provides for a single-family residential community consisting of 1,600 dwelling units on 380 acres, a mixed-use commercial center on 100 acres, and a 37-acre park. The commercial site has a residential overlay that provides an option to construct up to 1,000 high-density residential units.

VISTA DEL AGUA

The Vista del Agua Specific Plan is located on 275 acres in the north central portion of Subarea 11 - Commercial Entertainment district as designated in the City's General Plan. The Specific Plan provides for a mixed residential community consisting of 1,639 dwelling units, a neighborhood commercial center on 17 acres, and a 14-acre neighborhood-serving park.

PUBLIC DESIGNATIONS

This category of General Plan designations is intended for a variety of public uses including parks, schools, public buildings and other similar uses. These areas host community services and/or educational, cultural, administrative and recreational facilities often located within a well-landscaped setting. These areas provide a public function and often include a significant amount of parking to accommodate users of the facilities. It should be noted many of the public uses are also allowed and located in other General Plan Designations.

PARKS AND OPEN SPACES

Parks and Open Spaces provide for the preservation, continued growth and enhancement of Coachella's parklands, recreational areas and surrounding open spaces. Open spaces are areas intended to remain essentially open with limited or no development. This includes spaces used for passive recreation, resource protection and/or hazard avoidance. Parks include greenways, developed parks and other areas primarily used for recreation. Typically, these areas are characterized by a high degree of open area and a limited number of buildings. Parks frequently include sports fields, playground equipment, picnic areas, sitting areas, concession businesses, open turf, natural areas, trails and public golf courses.

The following describes the variety of Parks and Open Space types included in the General Plan and additional details can be found in Table 6-1, Parks Classification Standards, within the Sustainability and Natural Environment Element:

Mini Parks. Mini Parks are spaces that exist primarily in residential areas or adjacent to light business zones and have features such as grass, shade, trees, passive areas, green space, shelters, native plant life, playgrounds and play structures. Use is limited to the local neighborhood. They may be realized in "tot-lot" configurations that provide secure recreational space for small children and typically include equipment such as swings, slides, 'monkey bars' and sandboxes while leaving sufficient room for people to sit and enjoy the space. The size of Mini Parks varies but should be up to 1.5 acres in size and are intended to serve a population within a walking or short biking distance.

Plazas/Greens. Plazas and Greens have the widest variety and the most intense activities of all open spaces. Plazas and Greens serve as formal or informal community gathering spaces. Plazas are unique to the City of Coachella and represent a connection to the culture of the community. These park types are often shaped primarily by building frontages. Plazas are shaped primarily by building frontages, primarily hardscape with occasional landscape in planters or containers. Greens are landscaped open areas located at the center of a community. Features may include gazebos, water features, trees, shade, performance areas, public artwork and other similar features. Plazas and Greens vary in size but are typically no larger than two acres.

Neighborhood Parks. Neighborhood Parks are larger than Mini Parks and provide large unobstructed areas for passive or active recreation throughout neighborhoods. Neighborhood Parks often contain community gardens and playgrounds and are primarily landscaped. Neighborhood parks are between approximately 1.5 acres and 15 acres in size. These parks provide features such as grass, trees, restrooms, tot-lots, picnic and shade shelters, grills, playground equipment, open fields, informal sport areas, swimming pools and neighborhood/community centers. Neighborhood Parks have a service area of about a 2.5-mile radius.

Community Parks. Community Parks are larger than Neighborhood Parks and the largest of formal (non-natural) open spaces for the purpose of providing regionally-oriented areas for passive or active recreation. Community Parks may contain large grass areas, large picnic and shelter areas, restrooms, on-site parking, swimming pool, community centers, sports arenas/complexes, entertainment areas and special features such as skateboard areas, outdoor theaters, disc golf, exercise stations, ponds and water features. Community parks are approximately between 10 and 45 acres in size (but may be larger under special circumstances) and have a service area of greater than 2.5 miles in radius.

Special Use Parks. Special Use Parks are not located in residential areas. Features might include large scale sports complex, special events site (such as fairs and festivals), gardens, concessions, trails, natural/open space, lakes and animal uses.

Nature/Open Space. Nature areas are generally free from development and respect the natural environmental characteristics that serve as preservation of natural, cultural and archeological resources. Specific uses include natural parks, habitat, floodplains and areas with permanent open-space easements. In some cases, Open Space also includes working lands such as farming, ranching and mining.

Greenway/Trails. Greenways and Trails are community- and regionally-oriented, active and passive open spaces. Greenways and Trails traverse or define multiple neighborhoods and can have natural or identified paths and trails. Greenways may be opportunistic such as the reclaiming of areas within overhead utility easements or may be in response to natural conditions such as an existing natural feature such as a river, canal or seismic hazard area.

Linear Parks. Linear parks are a special type whose primary purpose is to connect parks, entry ways and transportation routes with unique features. These parks and the trails may be concrete, asphalt, or crusher fine, among other options.

SCHOOLS

This designation is intended for public schools, including elementary, middle and high schools and colleges and universities within the City of Coachella. Public K through 12 schools will vary in size but all new schools should be located within or adjacent to neighborhoods to enable students to walk and bike to school. Schools should not be designed as fenced and walled-off campuses. Colleges and universities should be encouraged to integrate uses such as residential, retail, services and other public facilities in and around their campuses to augment the economic vitality of the neighborhood. They should ensure other public enhancements that contribute to a greater quality of life in Coachella, such as arts, culture, athletics, public lectures and/or medical facilities are accessible to the community.

PUBLIC FACILITIES AND BUILDINGS

This designation provides for governmental buildings and facilities to ensure a high quality of life for residents of Coachella. A wide range of public uses in this designation include city hall, libraries, community centers, senior centers, fire stations, police stations, corporate yards and similar uses. Given the activities that occur in public facilities and buildings, the urban design will vary greatly from use to use. The majority of public facilities and buildings should be located in Downtown, Neighborhood Centers or integrated within neighborhoods to ensure they are central to the residents they intend to serve. Locating city office in remote, auto-oriented areas shall be discouraged.

BUILDING TYPES

All complete cities have a wide variety of types of buildings that vary depending on the use, location and intended intensity of development. While there are a large number of building types, the following are the types that will help implement the City's vision. The information below provides a general description of the building type and general rules of thumb on the density and lot size for each type. These summaries are meant to be guides rather than standards. Other types may be used as long as they conform to the vision and character defined in this General Plan.

SINGLE-FAMILY HOUSE

A building surrounded on all four sides by setbacks and may contain one dwelling unit and/or commercial use as allowed by the zone. On-site open space is provided through a rear yard. The intensity range varies from very low density rural settings of one unit per 40 acres or large to upwards of eight units per acre. Lot areas are a minimum of 5,000 square feet.

DUPLEX/TRIPLEX/QUADPLEX HOUSE

A building with two or more dwellings surrounded on all four sides by setbacks and may contain dwelling units and/or commercial uses as allowed by the zone. Onsite open space is provided through a rear yard for all the dwellings or through individual yards for each dwelling. The density range depends on location but is generally between eight and 18 units per acre. Lot areas are generally between 5,000 and 15,000 square feet.

MULTIPLEX/EFFICIENCY DWELLING

A building with the appearance of a large house containing up to eight dwelling units or congregate living facilities. The building has a central lobby that provides access to individual units. On-site open space is provided by a rear yard for all the dwellings. The building may accommodate commercial uses allowed by the General Plan. The density of Mansion buildings is generally between 15 and 20 units per acre. Lot areas are generally between 10,000 and 15,000 square feet.

ROWHOUSE/TOWNHOUSE

A building of attached dwellings arranged side by side, with above grade to provide rooms and unit access from the street. The building is located at the front of the property, with the garage at the rear, ideally separated by a rear yard. The density range for Rowhouses/Townhouses is between 15 and 22 units per acre. The lot area is generally 2,000 to 2,500 square feet per unit.

GARDEN APARTMENT

A group of attached dwellings arranged to share one or more common courtyards with pedestrian access to the building's entrances from the courtyard and/or fronting street. Courtyard buildings may accommodate commercial/flex uses as allowed by the General Plan. The density range for Courtyard Buildings is between 25 and 35 units per acre and the lot area is generally between 15,000 and 60,000 square feet.

URBAN APARTMENT BUILDING

A building with multiple stories of dwellings that is arranged on a large open space such as a park or along a street. The building has a central lobby or multiple lobbies that provide access to individual dwellings. The ground floor may accommodate commercial/ flex uses as allowed by the General Plan. The dwelling unit range is between 30 and 65 units per acre and the lot area is generally between 20,000 and 60,000 square feet. (Note that this intensity may be increased for affordable and senior housing where smaller units and/or less on-site parking is provided.)

MAIN STREET/MIXED USE BUILDING

A building designed for occupancy by retail, service and/or office uses on the ground floor with upper floors configured for retail, service, office and/or dwellings with occupancy fronting on streets. Upper units may be directly accessed from the street through a stair or street level lobby. Residential densities range between 30 to 65 units per acre and non-residential intensities vary by General Plan Designation. The lot area is as small as 5,000 and as large as 125,000 square feet.

SUBURBAN RETAIL BUILDING

A building designed for occupancy by commercial service or retail uses on the ground floor, with upper floors configured for the same uses. The building is located away from the street typically with parking between the street and the building. Non-residential intensities vary by General Plan Designation and the minimum lot areas is 10,000 square feet.

OFFICE/R&D BUILDING

A building designed for occupancy by office and laboratory-type space on the ground floor, with upper floors configured for the same uses. Ground floors may accommodate commercial uses as allowed by the General Plan. Non-residential intensities vary by General Plan Designation and lot areas have a vast range from 10,000 to 250,000 square feet.

INDUSTRIAL BUILDING

A building designed for occupancy by industrial, commercial service or retail uses on the ground floor, with upper floors configured for service or industrial uses. The building is located anywhere on the lot to accommodate outdoor industrial activity. Non-residential intensities vary by General Plan Designation and the minimum lot size is 5,000 square feet; however parcels are usually much larger to accommodate industrial uses.

RANGE OF COMPATIBLE LAND USES

The following table, Table 3-1, further defines the range of allowed land uses expected within each General Plan Designation. The table includes three categories. The first is the primary use or uses expected within the designation. There may be more than one "primary" use in a designation. The next category is the secondary use (shown with an "S" in the table). The secondary uses are support uses that are allowed but shall not be the primary use. The last category is for uses that are not allowed within the designation. These uses are marked with the following symbol: "—". In addition, some of the uses have annotations to further explain the vision for the use within the designation. This table of compatible uses is not the complete range of possible uses and the allowable uses will be further refined in the zoning code. Table 4-1: General Plan Designations Summary~~Table 4-2: General Plan Designations Summary~~ provides a summary of the development characteristics for each General Plan Designation.

General Plan Designation Map

This section presents the General Plan Designation Map for the City of Coachella. While the General Plan Designations are applied directly to each parcel, the General Plan provides for some flexibility in the ultimate range and distribution of uses for subareas 5 through 17. The ranges of appropriate uses for each of these subareas are defined in the Subarea Descriptions. It is expected that the final mix and distribution of appropriate uses would be defined for each through the City's Master Planning process. Figure 4-23: General Plan Designation Map~~Figure 4-23: General Plan Designation Map~~ shows the General Plan Designation map and Figure 4-24: General Plan Subareas Map, shows the extent of the various subareas.

MASTER PLANNING PROCESS DESCRIBED

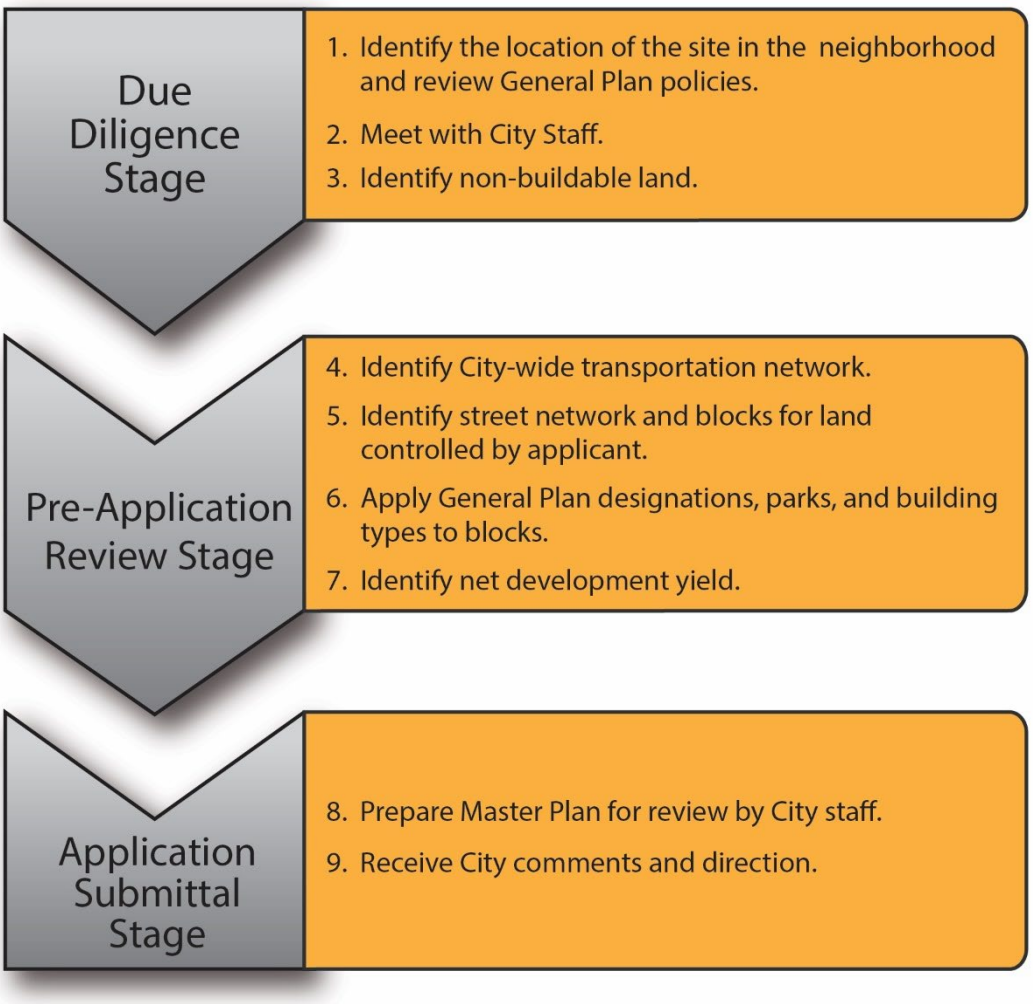
For parcels in Subareas 5 through 17, project sponsors must use the following system during the project application process. The purpose of this section is to enable incremental development of vacant parcels while generating interconnected neighborhoods and employment areas of the City. Before preparing a subdivision map, the applicant is required to prepare a Specific Plan or similar master planning document (Master Plan) for City review and comment per the following requirements.

DUE DILIGENCE STAGE

1. **Identify the location of the site in neighborhood and review General Plan policies.**
    - Project sponsors must first identify the project site and the subarea where the project site is located.
    - The project sponsor must then review the General Plan vision and policies for the subarea and the range of allowed General Plan designations. As part of this process, the project sponsor should understand the requirements for preserving open space, development of parks and public facilities and the specific network connectivity requirements in the General Plan.
2. **Meet with City staff.**
    - Once the materials have been reviewed, the project sponsor should meet with the City to determine if any other Master Plans have been created for the subarea.
    - For land controlled by others, those owners are to be invited to participate in the master planning process. The requirements for land not controlled by the applicant are focused on minimum connectivity and adjacencies.
3. **Identify non-buildable land.**
    - For all land within the subarea, the project sponsors should identify and map the general extent of existing and potential future land not buildable because of environmental constraints such as soils, drainage, seismic conditions, endangered species or other factors. This may require reviewing existing technical studies or working with resource agencies.
    - A detailed parcel-by-parcel assessment and major technical studies are not required at this point in the process and the information should be more detailed within the project site than outside of the project site.
    - This analysis should also include consideration of projects within the subarea that are built or in the development pipeline.

PRE-APPLICATION REVIEW STAGE

4. **Identify City-wide transportation network.**
    - Once the major non-buildable land is identified, the project applicant should identify the major transportation network through the entire subarea, if this has not already been created by a previous project or the City.
    - The project sponsor should map this network (which is assumed to be approximately every quarter-mile) and show connections to the project site.

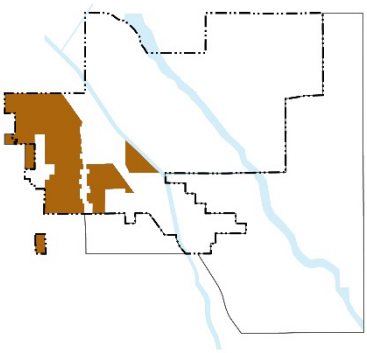


5. **Identify street network and blocks for land controlled by applicant.**
    - The next step is to develop the internal transportation network for the project site. Requirements in the General Plan designations shall be followed to understand the intersection spacing.
    - Connections to existing roadways adjacent to the site should be, wherever feasible, continued into the site and the project should plan for connections to adjacent undeveloped areas. The point of this critical step is to ensure that isolated subdivisions are not created and new neighborhoods, centers and districts connect to one another throughout the City.
    - This process will result in both a transportation network and block pattern within the project site.
6. **Apply General Plan Designations, parks and building types to blocks.**
    - For each block, the project applicant should then apply the allowed General Plan designations and identify the approximate location and amount of various types of parks to be located within the project site. While the General Plan has a map of designations, it is understood that in large, undeveloped areas the designations may change as long as the vision of the General Plan and subareas is met. The policy guidance for each subarea provides a range of designations allowable.
    - As part of this step, the project sponsor should further identify the potential building types by block to more precisely define the form and character of their development.
7. **Identify net development yield.**
    - Using the information in the previous step, the project sponsor should create a block-by-block development program table that calculates the various building types, number of units, non-residential square footage and other site conditions.

APPLICATION SUBMITTAL STAGE

8. **Prepare Master Plan for review by City staff.**
    - The project sponsor shall prepare a master plan for site review by City staff. The Master Plan should have the following components:
        - Land not controlled by project sponsor:
            - Subarea map with project site identified.
            - Undevelopable land due to environmental or other constraints (generalized if specific data is not available).
            - Existing streets in the subarea.
            - Planned major streets at approximately quarter-mile intervals
            - Existing planned and approved projects in the subarea
        - Land controlled by project sponsor:
            - Site boundary map.
            - Undevelopable land due to environmental or other constraints (must be more detailed than land not controlled by project sponsor).
            - Existing streets in the project site.

- Planned streets and network connections within and external to the project site
- Blocks for development (based on the street network requirements).
- Required park locations, types and acreages.
- Map of General Plan designations applied to blocks (or portions of blocks).
- Map of building types applied to blocks (or portions of blocks).
- Development program table calculating net development yield and the amounts of other uses (such as parks, roads, open space, etc.).



9. **Receive City comment and direction.**
    - Present Master Plan to the City for review and comment. At its discretion, the City may retain an outside consultant such as a "town planner" to provide guidance on compliance with the vision and the policies. Additionally, the Planning Commission or the City Council may provide input or guidance on compliance with the vision and policies.
    - Upon receiving direction from the Planning Commission, the applicant may proceed with preparing a subdivision map.

SUBAREA DESCRIPTIONS

For planning purposes, the City of Coachella is divided into 17 unique subareas and every parcel in the City is located in one of these areas. Figure 4-24: General Plan Subareas Map, shows the subareas. The purpose of the subareas is to define an overall vision and specific policy direction that supplements the General Plan Designations and the citywide goals and policies.

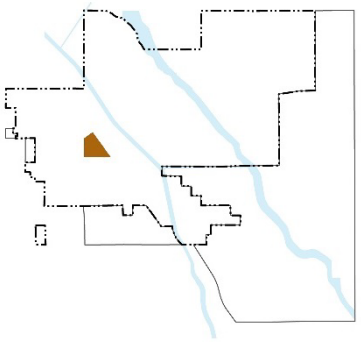
SUBAREA 1 – WEST COACHELLA NEIGHBORHOODS

Existing Conditions

The West Coachella neighborhoods are located west, south and east of downtown and encompass most of the urbanized area in 2010. The area is predominantly single-family homes but also contains various types of retail uses, apartments, schools and parks. The area was built over a long period with a significant number of homes and retail centers built in the past 20 years. While there are some areas that are highly walkable and built on a traditional street grid, a significant amount of the area is in conventional subdivisions characterized by cul-de-sacs, sound walls and automobile-oriented roadways. The development pattern has resulted in a lack of connectivity, between both residential subdivisions and residential and commercial areas along with a limited amount of parks space.

Vision

The West Coachella Neighborhoods will evolve over time with new development and improvements to existing neighborhoods to create a block and street network that links existing and new development into a coherent town. West Coachella will provide much needed housing that ranges from single-family houses to house-scale multi-family buildings. New development will occur as infill development completes and repairs the neighborhood fabric of West Coachella. The discontinuous street networks are retrofitted to interconnect with all new areas fully connected, providing easy access to shopping and jobs located within adjacent areas. Streets are pedestrian friendly with on-street parking, sidewalks shaded by trees and safe crosswalks.



Policy Direction

1. Encourage the infill of vacant and underutilized parcels with neighborhood patterns that support walkability, exemplify great urban neighborhoods as described by the General Plan designations and expand the range of housing available.
2. Retrofit existing neighborhoods with a variety of improvements including improved connections to adjacent neighborhoods and commercial districts, pedestrian-friendly streets, parks and open spaces.
3. Pursue the transformation of automobile-oriented strip commercial areas into walkable Neighborhood Centers that are physically connected with the adjacent neighborhoods.
4. Retrofit existing streets to be more pedestrian friendly, including trees, safe crossings, road diets, and traffic calming.
5. Encourage and facilitate the development of new parks and related recreational opportunities.

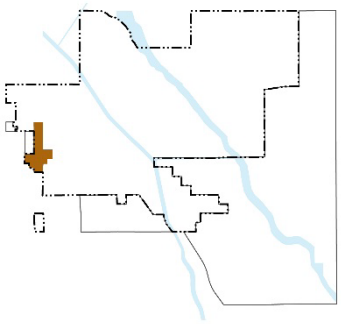
6. Balance the development of new homes and the preservation of existing residences to realize a dynamic mix of housing vintages.
7. Pursue the creation of new and improved physical connections to Downtown and the Harrison Street corridor from adjacent neighborhoods.

SUBAREA 2 – DOWNTOWN

Existing Conditions

The Downtown subarea of Coachella is diverse and dynamic, containing historic homes, shops, and numerous civic uses, housing City Hall, the Post Office, churches, schools and parks. The Downtown is an original railroad town and is laid out in a walkable, small-block pattern west of the railroad tracks. Harrison Street also runs through the Downtown Subarea, providing a variety of new and old commercial uses and a fairly auto-focused transportation system.

Vision



Downtown will continue as the physical, civic and cultural heart of Coachella. As the City grows, new civic uses, cultural facilities, housing and retail will be located in Downtown to enhance its role as the central meeting and gathering place for Coachella residents. Sixth Street, the central spine of Downtown, will continue to evolve as a lively, mixed-use street offering shady walkways, cooling water fountains, outdoor dining and unique shopping. New mixed-use, town-scale buildings that respect the heritage and community values of Coachella will be built to expand the retail, commercial and cultural offerings. The existing residential areas north and south of the central core will evolve over time as existing homes are upgraded and new housing added. As Coachella grows into a large city, the Downtown area will grow, expanding into the area east of the railroad with additional specialty and local-serving retail, civic uses, restaurants, services, arts, and cultural opportunities and diverse employment opportunities (See subarea 3).

Policy Direction

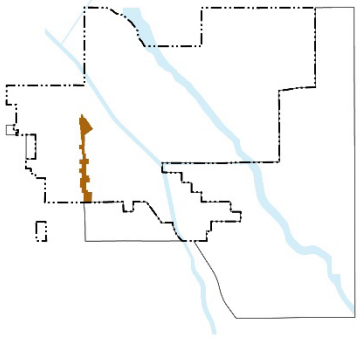
1. Actively facilitate the implementation of the Pueblo Viejo Plan through appropriate new development approvals and targeted public investments.
2. Ensure new development does not conflict with the Pueblo Viejo Plan. If there are inconsistencies between the Pueblo Viejo Plan and this General Plan, the General Plan shall govern.
3. Recognizing that Downtown is the heart of the City, encourage development there.
4. Focus a variety of cultural arts and cultural uses in the Downtown.
5. Improve Sixth Street as the “main street” of Downtown with a pedestrian-oriented environment and a diverse mix of retail and commercial activity.
6. Maintain a strong civic focus and ensure that City H all remains in the area.
7. Pursue mixed-use development on vacant parcels and create a new gateway to Downtown at the intersection of Sixth Street and Harrison Street.
8. Improve residential neighborhoods adjacent to Downtown by upgrading existing housing and infilling vacant and underutilized parcels with a diverse mix of housing types.
9. Conduct streetscape improvements throughout Downtown to make the area safe and inviting for pedestrians.

10. Develop a plan to provide for the evolution of Downtown and its expansion east across the railroad tracks into an active, livable civic core, appropriate for a large city.
11. Seek to construct multiple, safe connections across the railroad tracks from Downtown to the Downtown Expansion subarea.
12. Work with local and regional transit and transportation agencies to establish a transportation center in Downtown provides for bus and rail transit to the City.
13. Work with State and regional agencies to bring high frequency, regional transit to the Downtown.
14. Allow the re-zoning of certain residential block faces where existing bungalows can be converted to office and/or professional uses.

SUBAREA 3 – VAN BUREN CORRIDOR

EXISTING CONDITIONS

The Van Buren Corridor extends from approximately 50th to 53rd Avenues along Van Buren. Existing uses along the corridor include single-family, retail, schools and vacant land. The Van Buren Corridor is at a key location between Indio, Coachella, and La Quinta and much of the land through the corridor is still available for quality development, providing Coachella with a great opportunity to create a strong neighborhood center and regional shopping district.



VISION

The Van Buren Corridor will transform into a major sub-regional retail destination that will provide a wide variety of goods and services for Coachella residents, as well as neighboring communities. The large format, regional-serving retail will be built in a fashion so it coexists with existing and future neighborhood development in and around the Van Buren Corridor. The new commercial development will promote walkability with a mix of appropriately scaled buildings fronting the streets and large, block-scale buildings throughout. While walkable, the retail area will also provide ample parking for visitors. The commercial development will be connected to the surrounding new and existing residential areas, allowing a high degree of access and balancing the impact of traffic on the community.

POLICY DIRECTION

1. Pursue a diverse mix of retail and services along the Van Buren Corridor to capitalize on the area's strategic location.
2. Allow large format, auto-oriented retail and commercial uses to locate along the corridor.
3. Ensure appropriate and well-designed transition between retail and commercial development along the corridor and the adjacent residential neighborhoods.
4. Physically connect the development along Van Buren with adjacent areas with frequent streets and pedestrian connections to ensure easy pedestrian, bicycle and automobile access.
5. Require new development include wide sidewalks, trees, pedestrian furniture, safe pedestrian crossings and direct connections to the front entrances of retail and services.

SUBAREA 4 – HARRISON STREET CORRIDOR

EXISTING CONDITIONS

The Harrison Street corridor extends from approximately 54th Avenue north to the intersection of Harrison Street and SR111 (at approximately 49th Avenue). Presently, the corridor is an automobile oriented roadway with shopping centers, large surface parking lots and limited pedestrian facilities.

VISION

Over time, the Harrison Street Corridor will become a pedestrian-oriented mixed-use corridor with a diverse mix of retail, commercial and residential uses. New development will be more urban in design with buildings that frame the street and parking located back of the buildings. While transformed over time, the corridor will continue to serve as a major thoroughfare and a major retail street for the City, focusing on goods and services that meet the daily needs of residents.

POLICY DIRECTION

1. Require new development to follow the vision and design direction presented in the 2011 report titled "Improving Neighborhood Connections along Coachella's Harrison Street Corridor." If there are inconsistencies between the report and this General Plan, the General Plan shall govern.

2. Pursue the revitalization of the Harrison Street Corridor as proposed by the Harrison Street Corridor Plan through:

   Transforming the Harrison Street Corridor into a pedestrian friendly neighborhood commercial area that is integrated with the Downtown and surrounding neighborhoods.

   Conducting a series of roadway improvements to Harrison Street that:

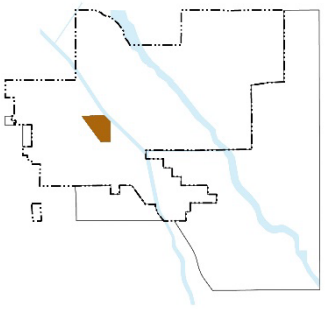
   - Improve safety for everyone on the street.
   - Reduce vehicle speeds.
   - Reduce unsafe turns in and out of driveways.
   - Reduce crashes.
   - Reduce crash severity.
   - Shorten crosswalk distance to improve pedestrian safety.
   - Improve sidewalks where they are insufficient or missing.
   - Provide space dedicated to bicyclists.
   - Beautify the streets.

3. Creating gateways to the City at Harrison Street and SR111 and at Harrison Street and 54th Avenue. Create a new gateway to the Downtown at Sixth Street.
4. Allowing mixed use and pedestrian-oriented retail along the corridor.

SUBAREA 5 - AIRPORT DISTRICT

Existing Conditions

This area of the City contains a variety of industrial uses, very low density residential development and agricultural uses. Generally bounded by Harrison Street on the west, Airport Boulevard on the south and SR111 on the east, the area has exceptional regional highway and airport access and a significant amount of vacant parcels.



Vision

The Airport District will continue to evolve into one of the primary industrial areas of the City. Proximity to the airport and access to regional highways provides an excellent location for manufacturing, logistics, and agricultural support uses. The area will be built with large buildings, lots and block sizes to accommodate the large areas needed for a variety of industrial activities. Visitor and service retail is allowed along Harrison Street and Grapefruit Boulevard, serving the employees of the District, as well as the traffic traveling these roads.

Policy Direction

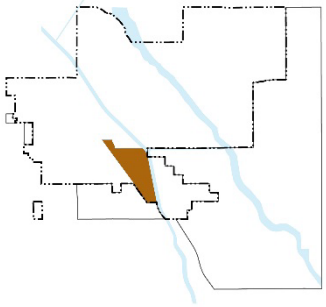
1. Encourage the development of a variety of industrial and manufacturing uses within this subarea.
2. Target new uses to this area that take advantage of the proximity to the Jacqueline Cochran Airport.
3. Ensure new development is compliant with airport safety standards and the Airport Land Use Compatibility Plan.
4. Ensure new uses are compatible with, and appropriately transition, from nearby residential and commercial uses and focus objectionable uses near the airport.
5. Allow a variety of retail and commercial activities to locate along SR111 and Harrison Street to take advantage of through traffic along these roadways.
6. Limit heavy industrial to vicinity of Grapefruit Avenue and 54th Street.
7. Prohibit the annexation of additional land adjacent to this subarea into the City limits unless other areas that allow industrial development are significantly built out or unless there is a major industrial development that produces new jobs and economic development opportunities for the City.
8. Final designation mix should be:
    - 70 to 90 percent Industrial District
    - Up to 20 percent Suburban Retail District

SUBAREA 6 - DOWNTOWN EXPANSION

EXISTING CONDITIONS

The Downtown Expansion area is located on the east side of SR111 and the railroad tracks and is bordered by 50th Avenue to the north, Tyler Street to the east and Bagdad Avenue to the South. The area is currently primarily agricultural uses with fields and processing facilities.

VISION



Over time, this area will serve as the expansion of Downtown Coachella and it is envisioned to have a wide diversity of employment and civic uses. The area is envisioned as having small, walkable blocks with office, R&D and supporting retail and services. Multi-family residential uses may be located on the edges of this area and adjacent to existing residential development, such as the area east of Tyler Street. This area would also be an ideal location for a college or university that could benefit from the proximity to Downtown and expected office and R&D uses and an orientation towards walkable, university campus-style development.

POLICY DIRECTION

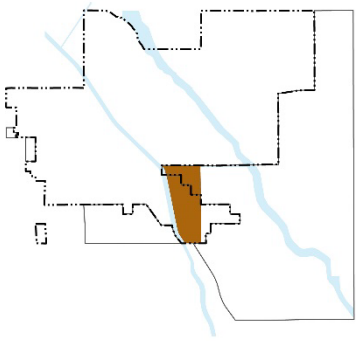
2. Design the Downtown Expansion area as a series of walkable blocks (between approximately 300 and 500 feet in length).
3. Pursue a variety of office and R&D uses to anchor the area.
4. Require all new developments are pedestrian-oriented with buildings fronting the street with minimal setbacks and parking located internal to blocks. Prohibit new projects designed in a typical automobile-oriented business-park format.
5. Seek out and recruit a college or university to locate in this subarea.
6. Encourage the creation and incubation of new businesses and research and development operations.
7. Increase connectivity between this subarea and the Downtown subarea with additional pedestrian, bicycle and vehicle connections across SR111 and the railroad tracks.
8. Encourage the creation of a riverfront promenade and park that incorporates the regional Whitewater River multi-use trail.
9. Final designation mix should be:
    - Up to 10 percent General Neighborhood
    - 10 to 50 percent Urban Neighborhood
    - Up to 50 percent Downtown Center and Downtown Transition
    - 20 to 35 percent Urban Employment Center

SUBAREA 7 – SOUTH EMPLOYMENT DISTRICT

Existing Conditions

The South Employment District contains a variety of industrial uses, a significant amount of vacant land, limited single-family residential uses, and a school. The area is bounded by the railroad and SR111 on the west and by the Whitewater River and SR86S on the east.

Vision



This area will transform over time into an employment district that contains a diversity of job-producing uses. Toward the northern end of the subarea, the uses should focus on office and research and development while to the south the uses should be more industrial, warehouse and distribution. The subarea should capitalize on the proximity to the airport and the railroad corridor. Residential development should be allowed in limited locations and in situations that do not interfere with the expansion of jobs and employment uses. Connecting this area over the Union Pacific Railroad and SR86S should be a priority as development occurs.

Policy Direction

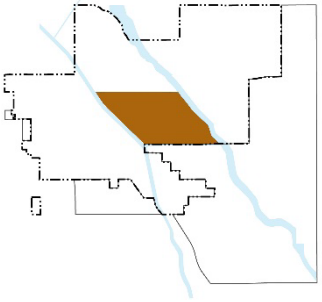
1. Require most of the area be developed with employment uses and prohibit the conversion of this subarea to residential uses.
2. Pursue uses that capitalize on the subarea's location adjacent to the railroad and SR86S.
3. Require new industrial development to locate in this subarea (or adjacent subareas 5 and 8) before additional annexation of land into the City limits.
4. The area south of 52nd Avenue, west of Polk, and north of 54th should remain light industrial.
5. Limit heavy industrial to the SR-86 corridor.
6. Discourage significant residential development and only locate new residential uses in ways that do not inhibit the employment generating uses.
7. Allow support retail and services in this subarea that support the employment uses. Such uses would include restaurants, dry cleaners, cafés and small markets.
8. Pursue an auto mall or auto dealers adjacent to SR86S.
9. Final designation mix should be:
    - Up to 15 percent General Neighborhood
    - Up to 10 percent Downtown Center
    - 20 to 80 percent Urban Employment Center
    - 50 to 75 percent Industrial District

SUBAREA 8 – EAST INDUSTRIAL DISTRICT

Existing Conditions

The East Industrial District is located east of the Whitewater River, west of Fillmore and between Airport Boulevard and 52nd Avenue. Approximately two-thirds of the subarea is within the City limits and the other one-third is located in the Sphere of Influence. The area is topographically flat and contains agricultural uses.

Vision



This subarea will transform over time into an employment district that contains a variety of industrial and office uses. The area should take advantage of the SR86S that runs along the eastern side of the subarea. Development along 52nd Avenue could also be for retail and office development as this corridor transforms into a major east-west thoroughfare.

Policy Direction

1. Require that the majority of land area be developed with employment uses and prohibit the conversion of this subarea to residential development.
2. Encourage uses that take advantage of the area's location adjacent to the railroad and SR86S.
3. Encourage new industrial development to locate in subarea the City limits (or adjacent subareas 5 and 7) before additional annexation of land. However, given the location, this subarea could be completely annexed into the City before 2035.
4. Encourage a collaborative planning effort with the Rancho California Vineyards Specific Plan in Subarea 15 in order to achieve a critical mass of development that will help facilitate the extension of infrastructure to this area of the City.
5. Limit heavy industrial to the SR-86 corridor.
6. Capitalize on the transformation of 52nd Avenue into a major thoroughfare and allow a range of retail, commercial and office uses.
7. Ensure well designed, effective transitions between the employment uses in this subarea and residential uses that are expected to occur in subareas 9 and 15 so as to minimize impacts and encourage connectivity between areas.
8. Encourage support retail and services in this subarea that support employment uses. Such uses would include restaurants, dry cleaners, cafés and small markets.
9. Pursue an auto mall or auto dealers adjacent to SR86S.
10. Final designation mix should be:
    - Up to 10 percent General Neighborhood
    - 30 to 60 percent Urban Employment Center
    - Five to 10 percent Suburban Retail District
    - 50 to 90 percent Industrial District

SUBAREA 9 – CENTRAL COACHELLA NEIGHBORHOODS

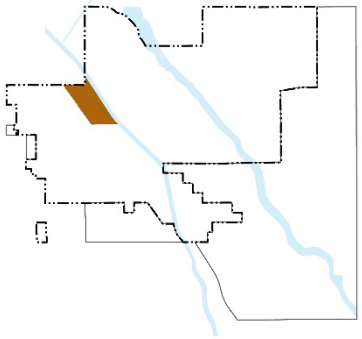
Existing Conditions

The area is bounded by the Whitewater River on the west and the Coachella Canal on the east, Avenue 52 on the south and Avenue 49 on the north. The area is primarily used for agricultural production, with a combination of cultivated row crops, orchards and natural open space. The area also hosts limited rural homes, including unpermitted informal mobile home parks.

Vision

Central Coachella is a priority expansion area, envisioned as a series of vibrant, sustainable, healthy, walkable, interconnected neighborhoods, each with its own unique character and amenities. Housing is the dominant use of Coachella's neighborhoods – and single family houses the prevalent housing type – but most neighborhoods also include additional amenities that enrich the life of the neighborhood, including neighborhood-scale retail and services, neighborhood parks and playgrounds, schools and other civic facilities. To promote choice, livability and economic viability, multi-family housing is also present in most neighborhoods in modest amounts, designed so as to be integrated into the fabric of the neighborhood. In some cases this will be in house-scale buildings interspersed with houses and in other cases built along cross-town corridors and in mixed-use centers at key crossroads with good access to transit. Multi-family uses will be more often found near neighborhood commercial nodes in order to better promote transit viability. Most neighborhoods should be within walking distance of neighborhood services, a school or park and open space, including regional multi-use trails on the Whitewater River and Coachella Canal. Neighborhoods should emphasize residential living but include non-residential along the edges and at key locations. The public realm will be beautiful and comfortable, with diverse and finely-grained streets, parks and plazas. The street networks will be highly interconnected, providing multiple paths for pedestrians, bicyclists and motorists.

Policy Direction



1. As the City grows, prioritize new residential development in this subarea over subareas to the east.
2. Require a variety of neighborhood types throughout the central Coachella Neighborhoods subarea.
3. Ensure neighborhoods are tied together with pedestrian, bicycle and vehicle connections and not treated as separate subdivisions surrounded by sound walls or other barriers.
4. Prohibit gated subdivisions in this subarea.
5. Prohibit sound walls along major thoroughfares.
6. Capitalize on Avenues 50 and 52 as major east-west thoroughfares and promote the development of retail, goods and services along these corridors.
7. Create a diversity of parks and open spaces that are connected by green streets and a multi-use trail network and strive for a majority of residents to be within a quarter-mile walking distance of a park or open space.
8. Locate Neighborhood Centers at major intersections so the majority of residents are within a short walk of retail, goods and services.
9. Allow higher intensity, non-residential uses in the western portion of the subarea in order to complements and support the Downtown and nearby employment centers.

10. Require primary boulevards to be designed, constructed and operated as multi-modal, not wide, auto-oriented arterials.
11. Pursue an auto mall or auto dealers adjacent to SR86S.
12. Final designation mix should be:
    - Up to 35 percent Suburban Neighborhood
    - 40 to 70 percent General Neighborhood
    - Up to 15 percent Urban Neighborhood
    - Five to 15 percent Neighborhood Center
    - Up to 10 percent Suburban Retail District

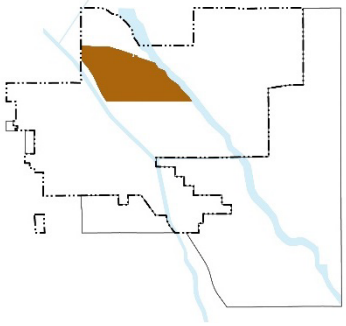
SUBAREA 10 – NORTH EMPLOYMENT DISTRICT

Existing Conditions

The North Employment District is used primarily for agricultural activities, but also includes some industrial and residential uses. The area is bounded by the 50th Avenue on the south, Grapefruit Boulevard and the Union Pacific Railroad on the west, Whitewater River on the east and the city limit on the north. Given its location, regional access to the area is relatively poor with limited roadway access. Additionally, most of the area is Native American tribal land, thus limiting the amount of new development that can be controlled by the City.

Vision

While much of this area is under tribal governance and subject to their land use and development decisions, the North Employment District is intended to become an employment center with industrial and, to a lesser degree, office jobs and residential uses. The North Employment district allows for a mixture of office and light fabrication in a block structure and building fabric compatible with a mixture of urban commercial and residential uses, becoming a jobs center that hosts a wide variety of employment opportunities. Limited residential uses could be near the Whitewater River on the east and multi-family residential is also found on the south of the area, in a mixed-use configuration that supports the Downtown Expansion Subarea with nearby residents.



Policy Direction

1. Work with the Native American Tribes to develop the area in a way that supports the vision for Coachella and this Subarea.
2. Develop the subarea in a way that supports Downtown by locating more intense and active uses closest to the Downtown Expansion subarea, allowing industrial uses to occur in the northern portion of the subarea.
3. Require the development of pedestrian-appropriate building designs, with loading activities sited behind buildings.
4. Require a mix of retail to provide adequate services for the daytime employment population.
5. Allow residential development adjacent to the Whitewater River.

6. Allow residential development adjacent to the Downtown Expansion Subarea when residential uses are a secondary use in mixed-use buildings.
7. Encourage areas immediately adjacent to the Interstate 10 interchange to develop visitor serving, auto-oriented uses.
8. Allow recycling and wrecking yard uses to continue in the vicinity of 48th and Harrison Street.
9. Final designation mix should be:
    - Up to 10 percent Suburban Neighborhood
    - Up to 15 percent General Neighborhood
    - Up to 10 percent Urban Neighborhood
    - Up to 10 percent Neighborhood Center
    - 20 to 60 percent Urban Employment Center
    - Up to 10 percent Suburban Retail District
    - 20 to 50 percent Industrial District

SUBAREA 11 – COMMERCIAL ENTERTAINMENT DISTRICT

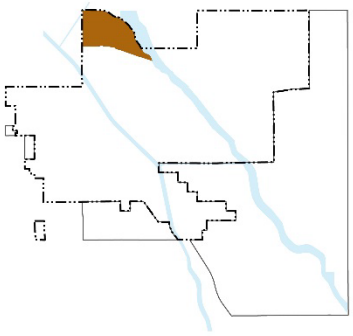
Existing Conditions

The Commercial Entertainment District is located at the junction of Interstate 10 and SR86S, an area with exceptional regional accessibility. It is in close proximity to tribal lands and Spotlight 29 Casino. The area is mostly agricultural uses and limited residential and commercial uses.

Vision:

The Commercial Entertainment District will contain much of the new development that attracts visitors to Coachella, including destination retail, hotels and resorts, and entertainment uses. This subarea will capitalize on its location at the junction of Coachella's major freeways, making it easy for people to reach these unique, visitor-serving destinations from other parts of the region. Special attention to design will be paid in the development of the area to ensure that it is visually attractive to motorists traveling the adjacent highways. This is a highly unusual area and it will have special and unique developments in the area. A range of residential densities and building types should be encouraged in this subarea, provided they are designed to integrate with the high intensity commercial uses planned for the area. The subarea must also exhibit strong, fine-grained connections to the surrounding neighborhoods of the subarea and the adjacent subareas, allowing community members easy access to shopping and entertainment.

Policy Direction



1. Encourage a wide variety of entertainment, commercial and mixed use projects and focus commercial uses in the area west of Tyler and north of Avenue 48.
2. Act with strong discretion when approving projects, seeking unique, destination-oriented and visitor-serving entertainment and retail uses that would be enhanced by the subarea's location and exceptional regional access.
3. Allow resort developments along the eastern edge of the subarea adjacent to the canal.

4. Pursue a large scale destination retail complex (that could include multi-family housing) in this subarea.
5. Require new development buildings and signage visible from Interstate 10 and SR86S to be attractive to passing motorists.
6. Allow a range of hospitality uses including hotels and motels.
7. Work with the tribal government to pursue development of regionally unique entertainment.
8. Allow development of walkable neighborhoods with a mix of housing types within the subarea provided it does not inhibit the primary goal of developing regionally unique retail and entertainment uses and provided such development is connected and integrated with the intense, regional uses.
9. Require new developments to incorporate design features that facilitate pedestrian, bicycle and vehicular connections throughout the subarea.
10. Encourage areas immediately adjacent to the I-10 interchange to develop visitor serving, auto-oriented uses.
11. Require an amendment to portions of the Shadow View Specific Plan in general, conceptual conformance with the site plan concept shown in Figure 3-25. With this modification, and notwithstanding the percentages set forth in Policy Directive No. 12, the remaining components of the Shadow View Specific Plan, as shown on Exhibit 3-4, Land Use Master Plan, of the approved Specific Plan, including the single family residential development, is determined to be consistent with the goals and policies of the Commercial Entertainment District.
12. Consider Urban Neighborhood as a substitute for Regional Commercial so long as the walkable character intended for the subarea is still achieved and so long as the opportunity for viable Regional Retail is not lost.
13. Final designation mix should be:
    - Up to 25 percent Suburban Neighborhood
    - Up to 50 percent General Neighborhood
    - Up to 25 percent Urban Neighborhood
    - Up to 15 percent Neighborhood Center
    - Up to 15 percent Urban Employment Center
    - Up to 15 percent Suburban Retail District
    - 30 to 60 percent Regional Retail District
    - Up to 50 percent Resort

Figure 4-25: Conceptual Amendments to Shadow View Specific Plan

SUBAREA 12 - NORTH DILLON ROAD

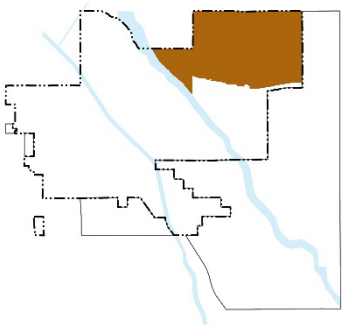
Existing Conditions

The North Dillon Road Area is largely undeveloped, but does contain some limited residential, recreational and commercial development. The area is adjacent to Interstate 10 and situated with particularly rich and interesting natural amenities. The site has excellent views of the nearby mountains, is adjacent to the Coachella Canal and is adjacent to the San Andreas fault zone. The area is bounded by Interstate 10 to the south, the Coachella Canal to the east and the City limits to the north and west.

Vision

With excellent regional access and unique natural attributes, this area has great entertainment, recreation and service retail potential. The North Dillon Road area is intended to develop as a regional visitor-serving area with uses that complement the regional Commercial Entertainment District to its south. Lodging, entertainment and large-scale service and fueling stations can all be found in this area

along Interstate 10 and the uses are arranged in a highly logical way that builds value and minimizes use incompatibilities.



Policy Direction

1. Seek out and encourage uses that complement the vision of the Commercial Entertainment District and ensure proposed uses do not conflict with those planned for the Commercial Entertainment area.
2. Capitalize on the access to the freeway and seek out and encourage freeway oriented uses, large format retail, truck stops, lodging and regional entertainment and recreational uses that benefit from easy regional access.
3. Work closely with nearby tribes to ensure compatibility of uses with planned development on nearby tribal land.
4. Allow resorts and lower density residential development within this subarea, particularly along the Coachella Canal and the northern edge of the subarea.
5. Consider a range of entertainment uses for this subarea including amphitheaters, sports complexes, golf courses and similar uses.
6. Final designation mix should be:
    - Up to 10 percent Neighborhood Center
    - 15 to 40 percent Suburban Retail District
    - Up to 25 percent Regional Retail District
    - Up to 25 percent Resort

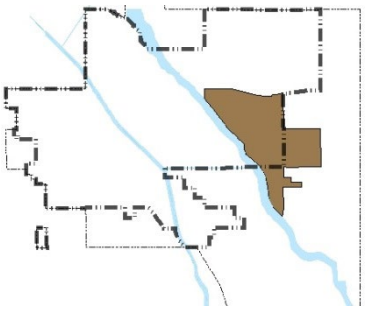
SUBAREA 13 – DESERT LAKES

Existing Conditions

Desert Lakes is an environmentally diverse and rich area of the City. It is part of the Mecca Hills that serve as a scenic backdrop to Coachella and is bounded on the south by Interstate 10 and on the west by the San Andreas Fault and Coachella Canal. The area is a very environmentally sensitive and constrained area, with desert washes and 100 year floodplains, active faults and potentially sensitive habitat. Access to the area is very limited.

Vision

As a very sensitive area with limited access and a need for substantial infrastructure investment, this area of the City is envisioned, but not required, to remain undeveloped during the planning horizon of the General Plan. When development does occur, the vision for this area is to have low density resorts, rural residential development and some suburban neighborhoods and suburban retail. Until this is developed, this subarea will contribute to the visual identity and aesthetic beauty of Coachella.



Policy Direction

1. Maintain Resort and Open Space General Plan designations for this subarea.
2. Facilitate good roadway connectivity to Dillon Road. The network illustrated by Figure 4-1 could be adjusted to account for topography and physical constraints as long as the envisioned connectivity is maintained.
3. Prior to development, prepare a single conceptual Specific Plan for the subarea that establishes a long-term vision, land uses and an implementation program. Separate implementing project-level specific plans may be prepared for individual projects.
4. Minimize grading of the subarea and follow the natural topographic features during the planning and development process.
5. Require that public facilities and services be provided concurrent with the development to ensure a high quality of life for residents.
6. Require rural and clustered development in steeper and topographically constrained areas.
7. Require new developments be designed for, and provided with, adequate public services and infrastructure to be self-sufficient in the event of a large earthquake.
8. Require the primary boulevards to be designed, constructed and operated as multi-modal boulevards, not wide high-speed streets.
9. Limit all resort development to a density of no more than 4 DU/AC.
10. Final designation mix should be:
    - 20 to 30 percent Open Space
    - Up to 25 percent Agricultural Rancho and Open Space
    - Up to 50 percent Rural Rancho
    - Up to 10 percent General Neighborhood
    - Up to 3 percent Suburban Retail District
    - Up to five percent Neighborhood Center
    - Up to 60 percent Resort

SUBAREA 14 – LA ENTRADA

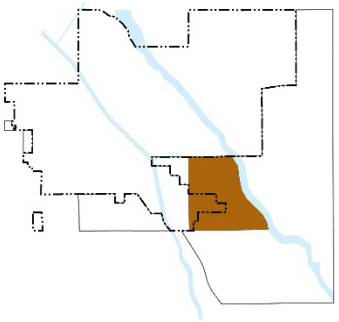
Existing Conditions

The La Entrada subarea is an environmentally rich area of the City with rugged topography. It is part of the Mecca Hills that serve as a scenic backdrop of the City and is bounded on the north by Interstate 10 and on the west by the San Andreas Fault and The Coachella Canal. The area is currently undeveloped and access to the subarea is limited.

Vision

La Entrada is envisioned with a diversity of neighborhoods and commercial services. Regional Commercial and Mixed-Use Development will be located in the western portion of the subarea along 50th Avenue that is being realigned to allow for a new interchange with I-10. The subarea will contain a diversity of residential neighborhoods that may include retirement communities and more traditional walkable neighborhoods. The rugged natural topography shall be maintained with lower density

residential and open space. The area will have a well-defined open-space network with multi-use trails connecting neighborhoods, parks and natural open spaces. While some distance from Downtown, La Entrada will be directly connected to Central Coachella, Downtown and West Coachella via Avenues 50 and 52, which are broad four-six-lane boulevards with frequent pedestrian crossings and pleasant tree-lined sidewalks.



Policy Direction

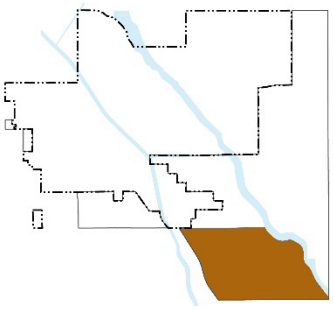
1. Prepare and maintain two Specific Plans for the subarea that establish a long-term vision, land uses and an implementation program; one for the La Entrada project and one for the Phillips Ranch project.
2. To the greatest extent feasible, preserve the natural topographic features during the planning and development process.
3. Require public facilities and services be provided concurrent with the development to ensure a high quality of life for residents.
4. Require all new development within this subarea conform to the vision and design parameters of the General Plan Designations.
5. Strive for a high level of connectivity of residents to neighborhood services through site design, open space linkages, and bicycle facilities. Strive for 75 percent of residents (except for the rural residential and resorts) to be within a half-mile walk distance of retail and neighborhood services.
6. Require the 90 percent of residents be within quarter-mile walk distances of a dedicated park, school, or multi-use trail.
7. Require new development be designed as high quality neighborhoods that provide multiple amenities, a beautiful public realm and are consistent with the City's vision for complete neighborhoods.
8. Require rural neighborhoods and clustered development in steeper and topographically constrained areas and use these development types to preserve the significant natural amenities.
9. Require new developments be designed for and provided with adequate public services and infrastructure to be self-sufficient in the event of a large earthquake.
10. Require the primary boulevards to be designed, constructed and operated as multi-modal boulevards, not wide high-speed streets.
11. Follow the block size and connectivity standards for new development found in this General Plan.
12. Require development of grading guidelines and standards as part of a Specific Plan for the Phillips Ranch project.
13. Require clustered single family and multifamily development in less constrained portions of Phillips Ranch, transferring density from areas constrained by seismic, drainage, rights of way, or other conditions based on technical studies. Assumed gross density would be 4 du/acre.
14. Consider annexation as a logical extension of the City boundaries as neighboring properties are annexed and adjacent properties are developed.
15. The final designation mix should be determined through the preparation of Specific Plans.

SUBAREA 15 –COCOPAH AREA

Existing Conditions

This area is primarily used for agricultural production, with a combination of cultivated row crops, orchards and natural open space. The area is bounded by the Whitewater River on the west, Fillmore on the east, 52nd Avenue to the north and Airport Avenue to the south. The area is generally flat with a slight increase in elevation toward the east. The majority of the subarea is located outside of the City limits and within the Sphere of Influence.

Vision



This subarea is identified as a long-term urban expansion area that is not expected to develop during the time horizon of the General Plan. Through 2035, uses are envisioned as agriculture and open space. Over the long term, this area may be urbanized with a diversity of residential neighborhoods supported by Neighborhood Centers and Suburban Retail Districts.

Policy Direction

1. Prohibit the annexation of new land into the City limits in this subarea unless 60 percent of the land within subareas 9, 11 and 14 are developed with urban uses.
2. Allow the annexation land for public uses such as parks.
3. For areas outside of the City limits, maintain the county's land-use designations until the land is annexed to the City.
4. Prioritize and actively support near and mid-term activities and uses that focus on agriculture and natural open space.
5. When it becomes appropriate to transition to urban uses, require new development be designed as traditional neighborhoods with a mix of housing types and densities, an interconnected street network and access to a diversity of commercial and public uses.
6. Allow resorts in the eastern portion of the subarea and prohibit resort development on the western side or anywhere that resorts could harm network connectivity.
7. Allow rural residential development in the eastern portion of the subarea.
8. Final designation mix should be:
    - Ten to 20 percent Open Space
    - Up to 25 percent Agricultural Rancho
    - Up to 20 percent Rural Rancho
    - Up to 50 percent Suburban Neighborhood
    - Up to 25 percent General Neighborhood
    - Up to five percent Urban Neighborhood
    - Up to five percent Neighborhood Center
    - Up to five percent Suburban Retail District
    - Up to five percent Regional Retail District
    - Up to five percent Industrial District
    - Up to 40 percent Resort

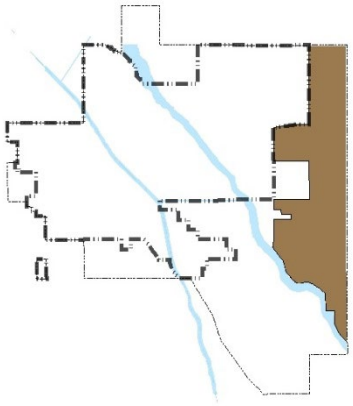
SUBAREA 16 – SOUTH COACHELLA

Existing Conditions

This area is primarily used for agricultural production, with a combination of cultivated row crops, orchards and natural open space. The area is bounded by SR86S on the west, the Coachella Canal on the east, Airport Boulevard on the north and 60th Avenue on the south.

Vision

This subarea is identified as long-term urban expansion, not expected to develop during the time horizon of the General Plan. Through 2035, uses are envisioned as agriculture and open space. Over the long term, this area may be urbanized with a diversity of residential neighborhoods supported by Neighborhood Centers and Suburban Retail Districts.



Policy Direction

1. Prohibit the annexation of new land into the City limits in the subarea unless 60 percent of the land within subareas 9, 11, 14 and 15 are developed with urban uses.
2. For areas outside of the City limits, maintain the county's land use designations until such a time as it is annexed to the City.
3. Prioritize and actively support near and mid-term activities and uses that focus on agriculture and natural open space.
4. When it becomes appropriate to transition to urban uses, require new development be designed as traditional neighborhoods with a mix of housing types and densities, an interconnected street network and access to a diversity of commercial and public uses.
5. Allow resorts in the eastern portion of the subarea and prohibit resort development on the western side or anywhere that resorts could harm network connectivity.
6. Allow rural residential development in the eastern portion of the subarea.
7. Work with the College of the Desert to encourage their growth and expansion to occur adjacent to the Downtown (in subarea 6) as opposed to this area. If the College of the Desert does pursue expansion plans in this subarea, encourage the campus to be located in Subarea 6 as an urban campus rather than an auto-oriented suburban complex.
8. Final designation mix should be:
    - Up to 100 percent Agricultural Rancho
    - Up to 50 percent Rural Rancho
    - Up to 60 percent Suburban Neighborhood
    - Up to 20 percent General Neighborhood
    - Up to five percent Urban Neighborhood
    - Up to five percent Neighborhood Center
    - Up to five percent Suburban Retail District
    - Up to five percent Regional Retail District
    - Up to five percent Industrial District
    - Up to 40 percent Resort

SUBAREA 17 – EASTERN COACHELLA

Existing Conditions

The Eastern Coachella area is environmentally diverse and rich. It is part of the Mecca Hills that serve as a scenic backdrop of the City. The area is bounded on the southwest by the San Andreas Fault and Coachella Canal, bisected by Interstate 10. The area is a very environmentally sensitive and constrained area, with desert washes and 100 year floodplains, active faults and sensitive habitat and nearly all of the area has been set aside for conservation. Access to the area is limited due to the topography and location.

Vision

This area of the City should continue to be mostly undeveloped open space that defines the eastern edge of Coachella and provides a beautiful visual backdrop to the City. The urban development that does occur should be rural residential with minimal impact to the natural landscape from roads and homes.

Policy Direction

1. Investigate and consider the de-annexation of the subarea from the City's jurisdiction since the majority of the land is set aside for conservation or only allows very low density residential development.
2. Limit uses to Rural Residential and passive open space.
3. Prohibit grading to the minimum necessary to construct rural roadways and the allowed Rural Residential development.
4. As feasible, construct multi-use trails along the Coachella Canal either inside, or adjacent to, this subarea.
5. Final designation mix should be:
    - Ten to 40 percent Agricultural Rancho
    - Up to 100 percent Rural Rancho
    - 25 to 100 percent Open Space

GOALS AND POLICIES

Goal 1. Development Regulations. A land development and regulatory system that reinforces the City's desire to grow from a small town to a medium sized city in a sustainable and orderly manner.

Policies

1.1 **City limits.** Establish and maintain a city limit for Coachella that allows for a realistic amount of future growth.

1.2 **Annexation.** Allow the annexation of new land into the City when at least 60 percent of the land within the city limits is built with urban uses or permanently preserved open space.

1.3 **Sphere of influence.** Establish and maintain a Sphere of Influence that identifies the long-term growth plans of the City. The Sphere of Influence may encompass an area that accommodates more growth than the time horizon of the General Plan.

1.4 **Planning area.** Establish and maintain a Planning Area that allows Coachella to communicate to adjacent jurisdictions about potential the impact of Growth on the City.

1.5 **Subareas.** Establish and utilize a system of subareas to efficiently plan and manage the City's growth. Each area of the City and Sphere of Influence shall be included in a subarea. All development and policy decisions shall conform to the vision and policies for that planning area, in addition to the citywide goals and policies. See Figure 3-24 for a map of the City's subareas.

1.6 **General plan designations.** Establish and maintain a system of General Plan designations that:

- Provides flexibility for land developers to determine the best use of their land within the bounds of the vision for the subarea, particularly in undeveloped areas of the City.
- Regulates the form and character of new development to ensure the development that does occur is complete with a diversity of uses so residents don't have to drive long distances to access goods and services, connected to the Downtown and other parts of the City via multiple modes of transportation, and compact so that areas are walkable and pedestrian-friendly. The exception to the above shall be Resort developments which may be developed as isolated projects separate from the rest of the City.
- Uses the development process to enhance the charterer and identity of Coachella.

1.7 **Specific Plans.** Utilize specific plans as strategic entitlement tools when considering unique projects that bring exceptional value to the community. Periodically review existing, un-built specific plans for relevance and the potential for needed updates.

Goal 2. Growth and Development. The successful transformation of Coachella from a small town into a medium-sized, full-service City that is a major economic center for the Coachella Valley.

Policies

2.1 **Population and employment growth.** Allow the City to grow from its current population of approximately 40,000 and 5,800 jobs to a maximum of 135,000 and 32,000 jobs by 2035.

2.2 **Character and identity.** Strive to maintain Coachella's existing small-town character, identity and cultural diversity as development occurs in the future.

2.3 **Urban design as identity.** Recognize the City can differentiate itself from other Coachella Valley cities through urban design practices such as the development of complete neighborhoods, preservation of agriculture and open space, pedestrian-oriented design and sustainable development practices.

2.4 **Natural context.** Retain the City's natural infrastructure and visual character derived from topography, farmlands and waterway corridors.

2.5 **High quality construction and architecture.** Require high-quality and long-lasting building materials on all new development projects in the City. Encourage innovative and quality architecture in the City with all new public and private projects.

2.6 **Architectural diversity.** A diversity of architectural styles is encouraged, particularly those that have their roots in the heritage of Southern California and the Desert Southwest.

2.7 **Climate-appropriate design.** Require architecture, building materials and landscape design to respect and relate to the local climate, topography, history, and building practices.

2.8 **Growth and development evaluation.** Every five years, review and adjust, as needed, the General Plan's population and employment capacities to meet changes in economic and demographic conditions.

2.9 **Infill development.** Promote and provide development incentives for infill development and redevelopment of existing properties.

2.10 **Contiguous development pattern.** Encourage and incentivize development to occur contiguous to, or proximate to, existing built areas to facilitate delivery of City services and minimize "leapfrog" development not connected to existing urbanized areas.

2.11 **New growth.** Continue to plan for future expansion and new growth on previously undeveloped areas.

2.12 **High priority development areas.** Identify subareas 5, 6, 7, 8, 9, 10, and 11 as Priority Growth Areas to be targeted for growth through City policies and actions and to receive priority for funding, community facilities and services.

2.13 **Growth expansion areas.** Identify subareas 12 and 14 as future Growth Expansion Areas. During the time horizon of the General Plan, growth that occurs in these areas shall conform to the following criteria and characteristics.

- Minimum size of proposed development projects must be over 100 acres
- Residential areas must be developed as one or more complete neighborhoods that contain a mix of housing types, sufficient parks and open spaces, necessary community facilities and services with access to retail and other goods and services.
- Development must be connected to the existing City via a network of multi-modal streets and non-motorized trails.
- All infrastructure connecting the new development to the existing City must be paid by the project sponsor using the City's infrastructure specifications.
- Financing plans for on-going operation and maintenance of streets, roads, parks and other community facilities and services that do not increase taxes or reduce services for existing residents must be approved and in place.

2.14 **Reserve development areas.** Subareas 13, 15 and 16 shall be maintained as reserve development areas. These areas shall maintain their current land or agricultural use until the identified High Priority Development Areas and Growth

Expansion Areas are at least 60 percent developed with urban uses or preserved open spaces.

2.15 **Steep slopes.** Limit development and grading in areas with slopes greater than 20 percent and limit the density and intensity of development in areas with slopes of between 10 and 19 percent.

2.16 **Range of uses.** Through Specific Plans, Planned Developments, or other similar master planning processes, allow the designations shown on the General Plan Designation Map to be adjusted within the ranges set forth for each policy area in large, undeveloped areas of the City so long as the visions of the General Plan and the applicable subarea is met.

2.17 **Parks and open space.** Establish parks and open space as allowed uses within all General Plan Designations.

2.18 **Open space conservation.** Establish mechanisms to provide for the conservation of resource land that is not yet conserved if it falls within one of the following categories:

- Flood plain, including Special Flood Hazard Areas.
- Open Space to be acquired.
- Wildlife corridors.
- Legacy farmland.
- Riparian areas.
- Areas of cultural significance.
- Seismic or geological hazard areas.
- Legacy viewsheds.

2.19 **Community Amenities.** Encourage the provision of a high-level of neighborhood and community amenities and design features as a way of balancing increased density, recognizing that the General Plan increases the average planned density by several times and specifies a desire for a very high quality, amenity-rich, livable community.

Goal 3. Healthy Community Design. Development patterns and urban design comprised of complete, walkable, attractive, family-friendly neighborhoods, districts and corridors that support healthy and active lifestyles.

Policies

3.1 **Physical plan.** Facilitate the construction of a built environment that supports a healthy physical and social environment for new and existing neighborhoods.

3.2 **Walkable streets.** Regulate new development to ensure new blocks encourage walkability by maximizing connectivity and route choice, create reasonable block lengths to encourage more walking and physical activity and improve the walkability of existing neighborhood streets.

3.3 **Pedestrian barriers.** Discourage physical barriers to walking and bicycling between and within neighborhoods and neighborhood centers. If physical barriers are unavoidable, provide safe and comfortable crossings for pedestrians and cyclists. Physical barriers may include arterial streets with speed limits above 35 mph, transit

or utility rights-of-way, very long blocks without through-streets, and sound walls, among others.

3.4 **Shared driveways.** Allow and encourage new commercial and residential developments to have common driveways serving multiple units, to minimize the number of curb cuts along any given block to improve pedestrian safety.

3.5 **Health in Developments.** Evaluate the health impact and benefits of new development projects in the early planning phases to maximize its contribution to the vision for a healthier Coachella.

3.6 **Family-friendly community.** Strive to create multi-generational family-friendly public spaces and affordable family-friendly neighborhoods through the following measures:

- The provision of family-friendly amenities, such as libraries, recreation centers and parks in residential neighborhoods.
- Encouraging child-care and schools near employment centers and housing and vice versa.
- Set a minimum proportion or number of two-, and three-bedroom units in multi-family and rental housing development.
- Allow family child care in residential units by right.
- Provide child care at public meetings.
- Encourage youth participation in the planning process.

3.7 **Culture and entertainment hub.** Create opportunities for leisure/cultural activities in Coachella such as a movie theater, music and dancing venue, museum/gallery, cafe, or bowling alley, among many other facilities to ensure teens and young adults have safe ways to enrich their social lives.

Goal 4. Rural Areas. A strong, preserved rural and agricultural heritage and character that preserves the natural beauty and context of the City.

4.1 **Agricultural land preservation.** Provide for the protection and preservation of agricultural land as a major industry for Coachella and sufficient to maintain the rural character of the City. Explore and allow a variety of methods of preserving land in sizes that are viable economic units for continuing agricultural activities including:

- Density transfers to allow a greater portion of proposed development on other in order to allow productive sites to remain in agricultural production.
- Use of the Williamson Act.
- Implementation of a “right-to-farm” ordinance.
- Adopting a farmland protection program.

4.2 **Agricultural land conversion.** Actively discourage the urbanization of agricultural land when other land not in agricultural use within the city limits is available for development.

4.3 **Agricultural elements in urban landscape.** Where feasible, incorporate existing agricultural elements, such as date farms, vineyards and citrus trees into the urban landscape as part of development projects. This preservation will enable the agricultural history of the City to remain visible and provide unique urban landscape features that can distinguish Coachella from other cities in the Coachella Valley.

4.4 **Agricultural land in sphere of influence.** Preserve existing agricultural land in the Sphere of Influence and limit the annexation of active agricultural land, unless it is part of a development project.

4.5 **Rural residential.** Allow rural residential with homes on lots of up to 2.5 acres in size in limited areas of the City. These areas shall serve as buffers between more urban development and permanently undeveloped areas of the City. The Rural areas may serve as part of the City's greenbelt.

4.6 **Conservation subdivisions.** Provide for, and encourage, conservation subdivisions that cluster development on a site as a way of preserving valuable natural resources such as agricultural lands.

4.7 **City Greenbelt.** Strive to create an undeveloped or rural greenbelt around the City comprised of rural residential, preserved parks and open space, and agricultural lands.

Goal 5.

Neighborhoods. Neighborhoods that provide a variety of housing types, densities, designs and mix of uses and services that reflect the diversity and identity of Coachella, provide for diverse needs of residents of all ages, ethnicities, socio-economic groups and abilities, and support healthy and active lifestyles. ***(The following policies apply to all locations with a "Neighborhood" General Plan Designation.)***

Policies

5.1 **Complete neighborhoods.** Through the development entitlement process, ensure that all new Neighborhoods (areas with a "Neighborhood" General Plan Designation) are complete and well-structured such that the physical layout and land use mix promote walking to services, biking and transit use; develop community identity and pride, are family friendly and address the needs of multiple ages and physical abilities. New neighborhoods should have the following characteristics:

- Be approximately 125 acres in size and approximately half-mile in diameter
- Contain short, walkable block lengths.
- Have a grid or modified grid street network (except where topography necessitates another street network layout).
- Contain a high level of connectivity for pedestrians, bicycles and vehicles (except where existing development or natural features prohibit connectivity).
- Have homes with entries and windows facing the street.
- Contain a diversity of housing types, where possible.
- Provide a diversity of architectural styles.
- Have goods and services within a short walking distance.
- Are organized around a central focal point such as a park, school, civic building or neighborhood retail such that most homes are no more than one quarter-mile from this focal point.

5.2 **Conventional neighborhood design.** Discourage the construction of new residential neighborhoods that are characterized by cul-de-sacs, soundwalls, long block lengths, single building and housing types and lack of access to goods and services.

5.3 **Variety of types of neighborhoods.** Promote a variety of neighborhoods within the City and ensure that neighborhood types are dispersed throughout the City.

5.4 **Balanced neighborhoods.** Within the allowed densities and housing types, promote a range of housing and price levels within each neighborhood in order to accommodate diverse ages and incomes. For development projects larger than five acres, require that a diversity of housing types be provided and that these housing types be mixed rather than segregated by unit type.

5.5 **Housing affordability.** Ensure affordable housing is distributed throughout the City to avoid concentrations of poverty and be accessible to jobs.

5.6 **Senior housing.** Encourage the development of senior housing in neighborhoods that are accessible to public transit, commercial services and health and community facilities.

5.7 **Walkable neighborhoods.** Require that all new neighborhoods are designed and constructed to be pedestrian friendly and include features such as short blocks, wide sidewalks, tree-shaded streets, buildings that define and are oriented to streets or public spaces, traffic-calming features, convenient pedestrian street crossings, and safe streets that are designed for pedestrians, cyclists and vehicles.

5.8 **Provision of sidewalks.** Except within designated rural areas, require sidewalks of at least six feet in width on both sides of streets in neighborhoods.

5.9 **Street network.** Except where infeasible because of topographic conditions, require new Neighborhoods to be designed with a traditional grid pattern and block sizes ranging from 300 to 600 feet, depending on the General Plan Designations.

5.10 **Street layout.** Design streets and lot layouts to provide a majority of lots within 20 degrees of a north-south orientation for increased energy conservation.

5.11 **Connections to key destinations.** Require direct pedestrian connections between residential areas and nearby commercial areas.

5.12 **Hillside connectivity.** Allow street patterns to follow natural topography and open spaces as long as connectivity and sense of place is maintained.

5.13 **Tree-lined streets.** Design and build Neighborhoods to provide trees on both sides of at least 60 percent of new and existing streets within the project and on the project's side of bordering streets, between the vehicle travel way and walkway at intervals averaging no more than 50 feet (excluding driveways and utility vaults). This standard shall apply whenever new streets are constructed or when existing streets and sidewalks are significantly rehabilitated with existing neighborhoods.

5.14 **Shaded sidewalks.** Strive to design and build neighborhoods to provide shade over at least 30 percent of the length of sidewalks on streets within the project. Trees must provide shade within 10 years of landscape installation and should be as water efficient as possible.

5.15 **Access to daily activities.** Strive to create development patterns such that the majority of residents are within one-half mile walking distance to a variety of neighborhood goods and services, such as supermarkets, restaurants, churches, cafes, dry cleaners, laundromats, farmers markets, banks, hair care, pharmacies and similar uses.

5.16 **Access to parks and open spaces.** Design new neighborhoods and, where feasible, retrofit existing neighborhoods, so that 60 percent of dwelling units are within a one-third mile walk distance of a usable open space such as a tot-lot, neighborhood park, community park or plaza/green.

5.17 **Neighborhood transitions.** Require that new neighborhoods provide appropriate transitions in scale, building type and density between different General Plan designations.

5.18 **Gated communities.** Prohibit the construction of new gated communities except in the Rural or Resort General Plan Designations. As an alternative, consider gates around individual properties.

5.19 **Gated blocks.** Allow small groups of homes up to one block to be gated as an alternative to gated communities so long as it does not impact community connectivity.

5.20 **Soundwalls.** Allow the use of soundwalls to buffer new Neighborhoods from existing sources of noise pollution such as railroads and limited access roadways. Prohibit the use of soundwalls to buffer residential areas from arterial or collector streets. Instead design approaches such as building setbacks, landscaping and other techniques shall be used.

5.21 **Subdivision gateways.** Discourage the use of signs to distinguish one residential project from another. Strive for neighborhoods to blend seamlessly into one another.

5.22 **Green neighborhoods.** Encourage new developments to build to a green neighborhood rating standard and apply for certification from a program such as LEED for Neighborhood Development or LEED for Homes.

5.23 **Neighborhood preservation.** Preserve and enhance the character of existing residential neighborhoods.

5.24 **Infill neighborhoods.** In existing developed areas of the City, encourage repair-oriented development that creates complete neighborhoods (as defined above). Such activities include:

- Enhancing connectivity and reducing block size, including reasonable and related improvements in off-site locations.
- Completing abandoned subdivisions with building types identified in this General Plan.
- Making pedestrian-oriented blocks out of large scale superblocks through the addition of new streets.

Goal 6. Centers. A variety of mixed use, urban centers throughout the City that provides opportunities for shopping, recreation, commerce, employment and arts and culture.

Policies

6.1 **Downtown.** Facilitate the development of the Downtown as a vibrant, active downtown that is the civic and cultural heart of the community and as the regional center of the Coachella Valley for commerce, culture and government.

6.2 **Downtown implementation.** Follow the Pueblo Viejo Revitalization Plan for the Downtown adopted by the City Council in 2009.

6.3 **Arts and culture.** Focus arts and cultural activities in and around the Downtown.

6.4 **Diverse centers.** Encourage the development of local and city-wide centers that address different community needs and market sectors. The centers shall complement and be integrated with surrounding neighborhoods.

6.5 **Access to transit.** Promote the development of commercial and mixed use centers that are located on existing or planned transit stops in order to facilitate and take advantage of transit service, reduce vehicle trips and allow residents without private vehicles to access services.

6.6 **Redevelopment of existing retail into neighborhood centers.** Provide incentives to transform existing, auto-dominated suburban centers into neighborhood destinations by adding a diversity of uses, providing new pedestrian connections to adjacent residential areas, reducing the visual prominence of parking lots, making the centers more pedestrian-friendly and enhance the definition and character of street frontage and associated streetscapes.

6.7 **New neighborhood centers.** Create a series of new neighborhood centers throughout Coachella so the majority of dwelling units in each Neighborhood are no more than one-half mile from any neighborhood center.

6.8 **Neighborhood center location.** Locate new Neighborhood Centers at the intersections of major roadways such as collectors and arterials.

6.9 **Neighborhood center design.** Design new neighborhood centers to be walkable and pedestrian-friendly with buildings that front internal streets and public sidewalks and with buildings facing major roadways. No more than 50 percent of the frontage on streets may be parking lots.

6.10 **New urban employment centers.** Strive to create a series of new Urban Employment Centers in strategic locations in Coachella. The primary locations for this use are subareas 6, 7 and 10.

6.11 **Design of urban employment centers.** Design Urban Employment Centers to be urban in character with compact buildings sited at or near front lot lines, a high percentage of lot coverage, and building facades and entrances directly addressing the street and with a high degree of transparency. Parking lots and large setbacks shall not dominate the frontage of the Urban Employment Centers.

Goal 7. Districts. A series of unique, destination-oriented districts throughout Coachella that provide space for large-format retail, industrial and resort uses in order to increase access to jobs, provide amenities for residents and improve the fiscal stability of the City.

Policies

7.1 **Higher education.** Actively seek the location and establishment of higher education facilities, such as colleges or universities, within the City, ideally located adjacent to

the Downtown in subarea 6. The colleges and universities should be integrated with the urban fabric and not designed as an isolated campus.

7.2 **Industrial expansion.** Actively seek to expand the amount of industrial uses in Coachella as a source of jobs and economic development. Industrial uses should be focused in subareas 5, 7 and 8.

7.3 **Heavy industry.** Locate heavy industrial uses in locations that do not affect sensitive uses.

7.4 **Impact of industrial development.** Require new development within the City's industrial districts be designed for compatibility with surrounding uses to minimize impact and cultivate connectivity with each district.

7.5 **Industrial compatibility.** Where industrial uses are near existing and planned residential development, require industrial projects be designed to limit the impact of truck traffic on residential areas.

7.6 **New suburban retail districts.** Allow Suburban Retail Districts to locate along major roadways throughout the City.

7.7 **Suburban retail district design.** Allow Suburban Retail Districts to have an automobile-oriented design with surface parking lots with landscaping, buildings set back from the street and relatively low floor area ratios. Freestanding retail pads are encouraged. Ensure that the design also allows for pedestrian and bicycle access to and through the site.

7.8 **Regional retail districts.** Establish major regional serving commercial centers that provide a mix of uses in a pedestrian oriented format and become vibrant destinations for people to live, work, shop and congregate. Allow a wide variety of uses to locate in Regional Retail Districts including destination retail centers, mixed-use town centers, theme parks, sports venues, entertainment complexes and hotels, among other uses.

7.9 **Regional retail district design.** Allow for significant flexibility in the design of Regional Retail Districts so long as city-wide and project-level connectivity standards are met, the uses do not adversely affect adjacent uses and accommodations are made for pedestrians, bicycle and transit users.

7.10 **Resorts.** Actively pursue the establishment of multiple resort complexes in Coachella. Locate resorts in areas of the City where city-wide connectivity will not be negatively affected by the design of the project. Such locations include adjacent to hillsides, on the edge of the Sphere of Influence and city limit where additional annexation is not expected to occur and adjacent to rivers and canals.

7.11 **Resort design and connectivity.** Allow resorts to be designed as isolated and gated developments as long as through traffic and external connectivity occurs at distances of no greater than 1,300 feet. Exceptions to this may be made where external connection is not possible because of steep slopes, natural or man-made barriers such as limited access roadways or rivers.

Goal 8. Public Facilities and Buildings. A variety of public facilities and buildings throughout the City that improves the quality of life for residents and maintains a high-level of public services.

Policies

8.1 **Equitable distribution of facilities and services.** Strive to equitably distribute public facilities, improvements and services throughout Coachella, with priority given to remedying existing deficiencies in blighted or underserved areas of the City.

8.2 **Phasing of public facilities.** Require new parks, open spaces and public facilities be constructed concurrent with, or prior to, the development of each Neighborhood. All required parks, open spaces and public facilities should be constructed before 75 percent of the dwelling units are constructed.

8.3 **School location and design.** Work with school districts to size, design and locate schools to better enable students to walk or bicycle to them.

8.4 **Parks and open space.** Establish a range of parks and open spaces, including tot lots, neighborhood parks, community parks, plazas/greens and/or greenways/parkways within all new Neighborhoods, Centers and Districts.

8.5 **Civic and institutional uses.** Locate civic and institutional uses in Downtown and neighborhood centers and avoid locating these uses in remote, single-use complexes.

8.6 **Civic identity.** Encourage civic buildings and public gathering places to be designed to provide locations that reinforce community identity and support self-government.

8.7 **Role of civic buildings.** Require civic buildings be distinctive and appropriate to a role more important than the other buildings that constitute the fabric of the City.

Goal 9. Corridors and Connectivity. A network of transportation and open space corridors throughout the City that provides a high level of connectivity for vehicles, cyclists and pedestrians.

Policies

9.1 **City-wide connectivity.** Establish and preserve a Citywide street network throughout the City where through roads occur approximately every one-quarter mile, except where connections cannot be made because of previous large development projects or physical constraints. Physical constraints shall be canals, railroads, water, steep slopes, limited access roadways and similar natural and man-made barriers.

9.2 **Subarea connectivity.** Ensure a high-level of connectivity in all Neighborhoods, Centers and Districts throughout the City. The connectivity shall be measured as block perimeter and in external connectivity on the perimeter of a new development project.

9.3 **Connections between development projects.** Require the continuation of the street network between adjacent development projects and discourage the use of cul-de-sacs except where necessary because connections cannot be made due to existing development, topographic conditions or limited access to transportation systems.

9.4 **Transportation corridors.** Plan and reserve transportation corridors in coordination with land use.

- ***Van Buren Corridor.*** Facilitate the development of the Van Buren Corridor into a beautiful, shaded, pedestrian-friendly avenue that provides regional retail commercial and serves to repair the edges of existing neighborhoods of the surrounding area.
- ***Harrison Street.*** Require development along Harrison Street conform to recommendations of the Harrison Street Study to realize a town-scale Main Street environment that supports pedestrian activity and local serving commerce.
- ***Avenues 50 and 52.*** Establish Avenues 50 and 52 as important cross-town corridors that connect Coachella, serve as transitions between neighborhoods, provide opportunities for local-serving retail and balance the needs of multiple transport modes.
- ***Grapefruit Avenue.*** Facilitate the development of Grapefruit Avenue as major cross-town corridor that balances intercity automobile needs with pedestrian, bicycle and transit.

9.5 **Green/open space network.** Establish an interconnected open space network throughout Coachella that serves as a network for active transportation, recreation and scenic beauty and connects all existing and future areas of the City. In particular, connections should be made between preserved open spaces, parks, the Downtown, Neighborhood Centers and other destinations within the City. Consider the following components when designing and implementing the green/open space network:

- Preserved open space areas.
- Greenways and parkways along fault lines, the Whitewater River and the Coachella Canal.
- Roadways with significant landscaping and pedestrian and bicycle amenities.
- Community and neighborhood parks.
- Multi-use trails and non-motorized rights-of-way.

9.6 **Trip Chaining.** Prioritize complementary land uses to encourage trip chaining and reduce automobile use.

9.7 **Unbundled parking.** Allow and encourage developers of residential, mixed-use and multi-tenant commercial projects to unbundle parking costs from unit sale and rental costs in denser, mixed-use areas to give tenants and owners the opportunity to save money by using fewer parking spaces.

Goal 10. Development requirements. A fair, understandable and predictable approach that ensures new development does not impose a fiscal burden on the City, conforms to regional airport and railroad safety practices, and requires new projects to provide adequate public facilities and services as part of the overall process.

Policies

10.1 **Required contents of Specific Plans and Planned Developments that implement the subarea Master Plans.** Require that all Specific Plans, Planned Developments, Master Plans and other master-planned community implementation tools include:

- A plan for the phasing of all off-site infrastructure.

- A performance schedule for the issuance of building permits based on the concurrent availability of public services and amenities, including parks, schools and other public facilities identified in the entitlement documents.
- A clear statement of the minimum public improvements that will be required as part of the first phase of development.
- A statement of the financing mechanisms that will provide for the ongoing funding and financing of the public facilities of the project. These financing tools should be presented and discussed in the entitlement document implementation plan.

10.2 **Concurrency.** Prohibit the issuance of precise grading plans and building permits unless the City has made a determination that adequate stormwater facilities, parks, solid waste, water, sewer and transportation facilities are operating to serve each phase of development.

10.3 **Phasing of project site improvements.** Require that new subdivisions complete the public improvements before occupancy inspections unless a development agreement is implemented.

10.4 **Airport compatibility.** Require new development in the vicinity of Jacqueline Cochran Airport to conform to the County's airport land use and safety plans. Notwithstanding the allowable land use intensities and densities set forth by this Land Use and Community Character Element, there may be more restrictive density and intensity limitations on land use and development parameters, as set forth by the Airport Land Use and Compatibility Plan. Additionally, per the Airport Land Use Plan, there may be additional limits, restrictions, and requirements, such as aviation easements, height limits, occupancy limits, and deed restrictions, required of new developments within the vicinity of the airport

10.5 **Wildlife Hazards Study.** New developments proposing golf course or significant open space and/or water features shall prepare a wildlife hazard study if the site is within the Airport Influence Area.

10.6 **Airport Land Use Commission Review.** Before the adoption or amendment of this General Plan, any specific plan, the adoption or amendment of a zoning ordinance or building regulation within the planning boundary of the airport land use compatibility plan, the City shall refer proposed actions for review, determination and processing by the Riverside County Airport Land Use Commission as provided by the Airport Land Use Law. The City shall notify the Airport Land Use Commission office and send a Request for Agency Comments for all new projects, and projects proposing added floor area or change in building occupancy type within 2 miles of the airport.

10.7 **Federal Aviation Administration Review.** Projects that require an FAA notice and review will be conditioned accordingly by the City to obtain an FAA Determination of No Hazard to Air Navigation prior to issuance of any building permits.

10.8 **Residential Development near airport.** New residential development within Airport Compatibility Zone D shall have a net density of at least five dwelling units per acre. New dwelling units should not be permitted as secondary uses of the Urban Employment Center General Plan Designation within Airport Compatibility Zone C.

10.9 **Nonresidential Development near airport.** The land use intensity of nonresidential structures within Airport Compatibility Zones B1, C, and D shall be limited as set forth by Table 2A of the Airport Land Use Compatibility Plan.

10.10 **Hospitals near airport:** Hospitals shall be prohibited within Airport Compatibility Zones B1 and C and discouraged in Airport Compatibility Zone D.

10.11 **Regional coordination.** Promote coordinated long-range planning between the City, airport authorities, businesses and the public to meet the region's aviation needs.

10.12 **Railroad Safety.** When considering development adjacent to the railroad right-of-way, work to minimize potential safety issues associated with railroad adjacency.

Goal 11. Economic Development. A broad-based and long-term economic development environment for Coachella that is supportive of existing businesses and will attract new business and tourism.

Policies

11.1 **Long-term economic development.** Support the development and implementation of long-term economic development strategies that seek to establish and keep new businesses and a strong-middle class in Coachella over the decades to come.

11.2 **Regional presence.** Encourage economic development strategies that will cause Coachella to become a major city in the Coachella Valley and a driving force behind the area's economy.

11.3 **Regional jobs center.** Encourage economic development strategies that will cause Coachella to become a jobs center for the Coachella Valley.

11.4 **Diversified economy.** Encourage economic development strategies that allow the City to move beyond reliance on its two main industries – agriculture and resort services – and transform itself to a mature mix of economic activity and job opportunities.

11.5 **Jobs-housing balance.** Strive to improve the jobs-housing balance in the City by actively pursuing employment uses to the City.

11.6 **Jobs-housing match.** To the extent feasible, attract new employment uses to Coachella that match the skill and educational levels of existing and future residents.

11.7 **Job training.** Expand job training opportunities for Coachella residents.

11.8 **Development incentives.** Consider incentives for new development that provides a substantial economic benefit to the community such as retail sales taxes, transient occupancy taxes or higher-paying jobs. Prohibit the provision of incentives that outweigh the direct benefits from the use.

11.9 **Business support.** Support the Chamber of Commerce, retailers, tourist service businesses, artists, resort operators and other agencies to develop an aggressive marketing strategy with implementation procedures.

11.10 **Revitalization incentives.** Develop and provide incentives to assist developers in revitalization and rehabilitation of existing structures, uses and properties through

improvement programs, innovative development standards, specific plans and assessment districts.

11.11 **Joint-use.** Promote joint use of public and private facilities for community use, tourism, conference, convention and cultural uses.

11.12 **State and Federal assistance.** Utilize state and federal economic development assistance programs when appropriate and develop additional local financing programs. Work with the California Office of Tourism to develop the area's recognition as a major area for state recreational opportunities and cultural development.

11.13 **Natural environment.** Maintain and enhance the natural environment as critical to the attraction of tourists and ensure that new development does not adversely affect the natural environment as a tourist draw.

11.14 **Recreational amenities.** Strategically utilize City recreational investments to create and enhance development opportunities.

11.15 **Creative Economy.** Prioritize strategies that will create an economy full of diverse talents, trades and goods for the City. For long lasting economic success, a range of services, arts, music, entertainment and retail should be supported on all scales of the City's economy.

11.16 **Special events.** Actively recruit seasonal and special events, such as festivals and concerts and develop mitigation strategies that will offset the impact of such events in the City on community members and neighborhoods.

Goal 12. Diversity of uses for economic development. Non-residential uses that creates a complete city and diversifies the local economy.

Policies

12.1 **Airport.** Encourage activities and developments that capitalize on Jacqueline Cochran Airport as an asset.

12.2 **Office/R&D.** Actively attract and expand the number of and development (R&D) uses in Coachella.

12.3 **Agriculture.** Recognize and maintain agriculture and related uses as a key component of the City's long-term economic development strategy. Prioritize the preservation of date groves, citrus groves and vineyards.

12.4 **Entertainment and tourist attractions.** Pursue one or more major entertainment destinations for Coachella residents and to draw visitors from around the region. Such entertainment uses could include theme parks, water parks, theme-oriented retail destinations, sports facilities, performance venues and other similar uses. Strive to locate these uses near regional transportation infrastructure and in subareas 9, 11, and 12.

12.5 **Arts and culture.** Pursue one or more arts and cultural facilities in Coachella as an economic development strategy. Such uses could include museums, theaters, performing arts centers and similar uses. Strive to locate these uses in or around Downtown.

12.6 **Casinos.** Support the existing casinos around Coachella due to their ability to attract visitors to the region. Strive to capitalize on the casinos to expand destinations within Coachella.

12.7 **Hospitality.** Expand the number and variety of hospitality options with Coachella as a means of providing jobs for residents and expanding the local tax base.

12.8 **Convention/retreat center.** Pursue the development of one or more convention and retreat centers for the City over the long-term. To the extent feasible, locate these uses close to existing hospitality uses and/or the Downtown.

12.9 **Retail base.** Encourage economic development of all scales of retail development within Coachella in order to create a stronger tax base and increase the City's tax revenue.

Goal 13. Fiscal Stability. A City with thorough economic development strategies and reasoned decisions based on sound fiscal policies.

Policies

13.1 **Fiscal impact assessment.** For all major development projects, including but not limited to specific plans, annexations and changes in General Plan designations for areas over 20 acres in size, require a fiscal impact assessment to determine possible fiscal impact of the development project and use the information to formulate conditions of approval for the project.

13.2 **Development fees.** Implement a series of development fees needed to maintain the fiscal health of the City and ensure high quality public facilities and services. Annually review and, as needed, update the impact fees to keep pace with changing economic conditions and community needs. Adopt and update the City's authority for collection of development fees within the full extent allowed under state law.

13.3 **Efficient growth.** Manage growth in a manner that is fiscally sustainable and protects and/or enhances community values.

13.4 **Diverse tax base.** Provide a fiscally sound City with a sustainable tax base and user fees including property tax, sales tax, transient occupancy tax, utilities user tax and user fees that pay for cost of services.

13.5 **Rural-town transformation.** Manage infrastructure investments and growth to efficiently manage the transformation of Coachella from a rural area to a midsize town, and to an eventual large city.

13.6 **Growth costs.** Prioritize short-term and long-term fiscal sustainability to grow in a way that does not cost the City money.

13.7 **Fiscal impacts of infrastructure.** When considering new development proposals, discourage developments that require the construction of new infrastructure across large expanses of the City's undeveloped areas.

Goal 14. Regional Collaboration. A leader and partner in the region.

Policies

14.1 **Sustainable development leadership.** Establish the City as a regional leader in sustainable development and encourage compact, higher-density development that conserves land resources, protects habitat, supports transit, reduces vehicle trips, improves air quality, conserves energy and water and diversifies the housing stock in the Coachella Valley.

14.2 **Relationships with adjacent jurisdictions.** Maintain strong relationships with adjacent jurisdictions and work together on projects of mutual interest and concern.

14.3 **Regional transportation and infrastructure decisions.** Actively support regional transportation decisions that benefit the City and the region.

14.4 **Regional governance.** Plan an active role in the Coachella Valley Association of Governments, the Southern California Association of Governments and other regional agencies to protect and promote the interests of the City.

Goal 15. Governance. Fair, predictable and transparent governance.

Policies

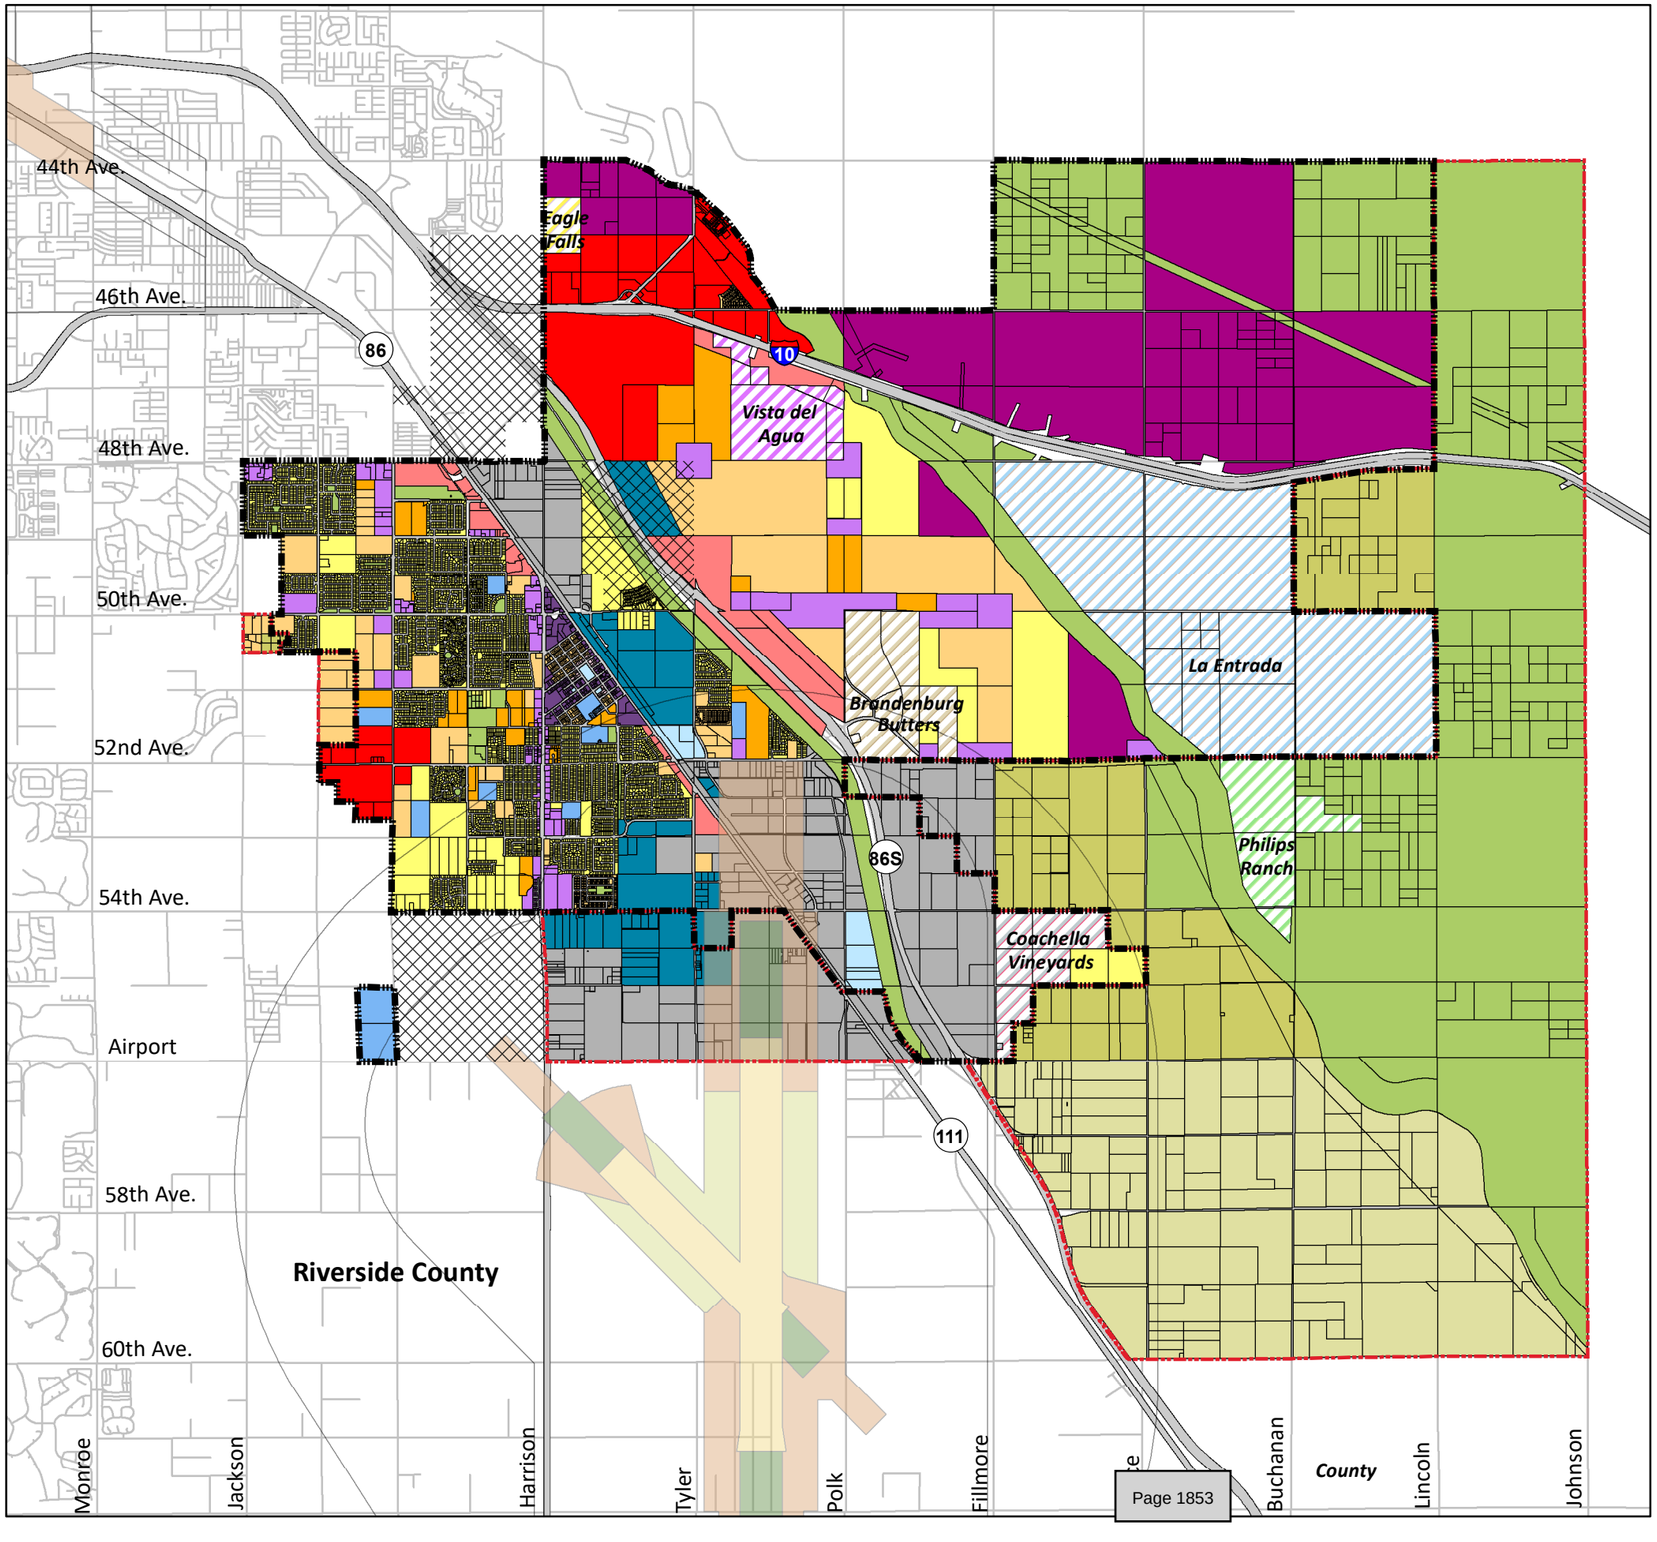
15.1 **Development decisions.** Strive to conduct the development review process in a consistent and predictable manner.

15.2 **Regulations.** Establish clear, unambiguous regulations and policies to clearly communicate the City's expectations for new development.

15.3 **Long-term considerations.** Prioritize decisions that provide long-term community benefit and discourage decisions that provide short-term community benefit but reduce long-term opportunities.

15.4 **Clear decision making.** Provide for clear development standards, rules and procedures that will guide the implementation of the City's Vision.

15.5 **Universal outreach.** Utilize diverse methods of outreach that promote public participation and ensure Coachella events are communicated to all communities, especially to linguistically isolated households, households without internet access along with senior and low-income residents.



15.6 **Universal outreach guidelines.** Establish parameters and guidelines to ensure public participation is promoted through diverse methods.

15.7 **Civic policy and leadership academy.** Support the development of a local academy that teaches community members about local government functions and processes and encourages community participation in civic efforts.

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF COACHELLA, CALIFORNIA, AMENDING COACHELLA MUNICIPAL CODE TITLE 17, ZONING, AND THE OFFICIAL COACHELLA ZONING MAP REGARDING ZONING CONSISTENCY UPDATES FOR IMPLEMENTATION OF THE COACHELLA GENERAL PLAN 2035. CITY-INITIATED (*First Reading*)

WHEREAS, pursuant to the authority granted to the City of Coachella ("City") by Article XI, Section 7 of the California Constitution, the City has the police power to regulate the use of land and property within the City in a manner designed to promote public convenience and general prosperity, as well as public health, welfare, and safety; and,

WHEREAS, the proposed Ordinance would amend Title 17 (Zoning) under Zoning Ordinance Amendment No. 22-03 to implement the General Plan 2035 by reclassifying five (5) zones, revised eight (8) zones, create four (4) new zones and delete one (1) zone including the list of permitted uses and development standards as well as amend the City of Coachella Official Zoning Map (Change of Zone No. 23-01); and,

WHEREAS, The City's proposed Zoning Code and General Plan Amendment is in accordance with Section §15183 (Projects Consistent with a Community Plan or Zoning) of the California Environmental Quality Act (CEQA) Guidelines, subsection (a) which states that additional environmental review is not required for projects "which are consistent with the development density established by existing zoning, community plan, or general plan policies for which an EIR was certified", except as might be necessary to determine whether there are project-specific significant effects.

WHEREAS, based on that analysis, the City Council does not require preparation of a subsequent or supplemental EIR because in this case, the proposed project is consistent with the City's General Plan 2035 and Final Environmental Impact Report (EIR), which were adopted and certified by the City Council on April 22, 2015. Therefore, the proposed project is consistent with State CEQA Guidelines Section §15168(c)(2) since it is within the programmatic scope covered by the Final EIR and there is no substantial evidence that the proposed Zoning Code Update would require additional environmental analysis.

WHEREAS, on June 7, 2023 the Planning Commission held a duly noticed public hearing to review the project, as modified and the related environmental documents, at which time during the hearing members of the public were given an opportunity to testify regarding the Project; and

WHEREAS, after said public hearing, the Planning Commission recommended that the City Council approve this Ordinance.

WHEREAS, on June 28, 2023 the City Council held a duly noticed public hearing to review the project, as modified and the related environmental documents, at which time during the hearing members of the public were given an opportunity to testify regarding the Project; and

NOW THEREFORE, THE CITY COUNCIL OF THE CITY OF COACHELLA, CALIFORNIA, DOES HEREBY ORDAIN AS FOLLOWS:

SECTION 1. Recitals. The above recitals are true and correct and incorporated herein as findings of fact.

SECTION 2. Findings. The City Council finds that the amendments to Zoning Ordinance and Official Zoning Map proposed by "Exhibit A.1" and "Exhibit A.2" are consistent with the goals and policies of all elements of the General Plan and exercise the City's land use powers to protect the health, safety, and welfare of the public.

The City Council also finds that the proposed Zoning Ordinance Amendment No. 22-03 and Change of Zone No. 23-01 would not be detrimental to the public interest, health, safety, convenience, or welfare of the City in that they will ensure parcels within the City limits include an assigned zoning district consistent with the General Plan and that the City's Pueblo Viejo Implementation Strategy Plan is implemented with appropriate zoning to ensure a thriving downtown environment.

SECTION 3. Amendment to Municipal Code Title 17, Zoning, is hereby amended as identified in Zoning Consistency Update Zoning Ordinance Amendment (ZOA No. 22-03) Exhibit A.1

SECTION 4. Amendment to City of Coachella Official Zoning Map The City of Coachella Official Zoning Map is hereby amends as identified in Zoning Consistency Update Zoning Map Amendment (Change of Zone No. 23-01) in Exhibit A.2

SECTION 5. CEQA Analysis. The City Council finds that proposed Zoning Code and General Plan Amendment is in accordance with Section §15183 (Projects Consistent with a Community Plan or Zoning) of the California Environmental Quality Act (CEQA) Guidelines, subsection (a) which states that additional environmental review is not required for projects "which are consistent with the development density established by existing zoning, community plan, or general plan policies for which an EIR was certified", except as might be necessary to determine whether there are project-specific significant effects. In this case, the proposed project is consistent with the City's GP 2035 and Final Environmental Impact Report (EIR) which were adopted and certified by the City Council on April 22, 2015. Therefore, the proposed project is consistent with State CEQA Guidelines Section §15168(c)(2) since it is within the programmatic scope covered by the Final EIR and there is no substantial evidence that the proposed Zoning Code Update would require additional environmental analysis.

Similarly, the proposed project is consistent with CEQA Guidelines Section §15183 (d)(1)(C) since it meets the consistency with "a general plan of a local agency", and with Section §15183 (d) (2) which states that "an EIR was certified by the lead agency for the…. general plan".

Additionally, the proposed project is consistent with CEQA Guidelines Section §15162(a) in that no subsequent environmental documentation will be required for the proposed project.

Specifically, the proposed project is not proposing any substantial changes to the City's GP 2035 [§15162(a)(1)], would not result in substantial changes due to the GPU and Zoning Code Update [§15162(a)(2)], nor would it present new information of substantial importance, which was not known and could not have been known with the exercise of reasonable due diligence at the time the previous EIR was certified as complete, showing any of the following [§15162(a)(3)]:

A. The project will have one or more significant effects not discussed in the previous EIR
B. Significant effects previously examined will be substantially more severe than shown in the previous EIR
C. Mitigation measures or alternatives previously found not to be feasible would in fact be feasible, and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative
D. Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative

The proposed project is further analyzed for consistency with the certified 2015 EIR prepared for the City's General Plan 2035 in the Findings of Consistency Memorandum (Exhibit A.3) prepared pursuant to the applicable provisions of §15183 of the California Environmental Quality Act (CEQA) Guidelines. Since the Zoning Code Update is a regulatory document that affects the entire City, any future development and redevelopment project in the City would have to be analyzed at a project level for all CEQA related impacts.

SECTION 6. Severability. If any section, subsection, subdivision, paragraph, sentence, clause or phrase of this Ordinance, or any part thereof, is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Ordinance, or any part thereof. The City Council hereby declares that it would have passed each section, subsection, subdivision, paragraph, sentence, clause or phrase thereof, irrespective of the fact that any one or more section, subsection, subdivision, paragraph, sentence, clause or phrase would be subsequently declared invalid or unconstitutional.

SECTION 7. Publication and Effective Date. The City Clerk shall certify to the passage and adoption of this Ordinance and shall cause this Ordinance to published or posted as required by law, which shall take full force and effect thirty (30) days from its adoption.

PASSED, APPROVED, AND ADOPTED this _____ of _____, 2023 by the following vote:

Chapter 17.06 DEFINITIONS

The following definitions shall be added to this chapter:

Artisan manufacturing/flex space. Limited fabrication, assembly, or light industrial activities that provide ancillary warehousing and storage, require minimal outdoor storage, and require minimal heavy vehicle delivery/pick-up, and are in support of a primary research and development and/or industrial permitted land use in the applicable zone. Also includes any commercial use (charitable or for profit) or space for the creation, exhibition, or production of artistic or craft pieces, including art installations, ceramic products manufacturing, crafts, glass work, jewelry, painting, sculpture, and welding activities limited to the production of art.

Polanco park. Mobile home parks developed under the provisions of the 1992 bill AB 3526, commonly known as the Polanco Bill. These MHPs are intended to serve as farmworker housing and may not contain more than twelve units.

Public Utility Facilities (City-Initiated). Public utilities include, but are not limited to, reservoirs, utility substations, including electrical distribution and transmission substations.

Chapter 17.08 ZONING DISTRICTS DESIGNATED

17.08.010 Zones established.

For the purpose of this title as stated in Chapter 17.02, the city is divided into the following zones:

A-R	Agricultural R~~r~~eserve zone
~~A-T~~R-R	Rural ~~Agricultural transition~~ zone
R-E	Residential E~~e~~state zone
~~R-S~~S-N	Suburban Neighborhood~~Single-family~~ zone
~~R-M~~G-N	General Neighborhood~~Multiple-family~~ zone
U-N	Urban Neighborhood zone
U-E	Urban Employment zone
R-D	Resort District zone
DT-PV	Downtown Pueblo Viejo zone
DT-TR	Downtown Transition zone
R-MH	Mobilehome Park subdivision zone
C-N	Neighborhood C~~c~~ommercial zone
C-G	General C~~c~~ommercial zone
~~C-T~~R-C	Regional~~Tourist~~ C~~c~~ommercial zone
M-S	Manufacturing S~~s~~ervice zone
M-H	Heavy I~~i~~ndustrial zone
M-W	Wrecking Y~~y~~ard zone
O-S	Open Space zone
SP	Specific Plan
PUD	Planned Unit Development overlay

(Prior code § 014.01)

17.08.020 Official zoning map.

The areas assigned to these zones, their designations, and the boundaries of said zones shown on the map hereto attached and made part of this chapter, are hereby established. Said map being designated as the "Official Zoning Map" and such map and its proper notations, references, and other information shown thereon shall be as much a part of this chapter as if the matters and information set forth by such map were fully described in this chapter.

(Prior code § 014.02)

17.08.030 Interpretation of district boundaries.

Where uncertainty exists as to the boundaries of any zone shown on the official zoning map, the following rules shall apply:

A. Where zone boundaries are indicated a approximately following street lines, alley lines, or lot lines, such lines shall be construed to be such boundaries.

B. In the case of unsubdivided property, or where the zone boundary divides a lot, the location of such boundary unless the same are indicated by dimension, shall be determined by use of the scale appearing on said zoning map.

C. Where any public street or alley is officially vacated or abandoned, the area comprising such vacated street or alley shall acquire the zone classification of the property to which it reverts.

(Prior code § 014.03)

17.08.040 Area zoning symbols.

A. Where a number follows the zoning symbol on any zoning map hereafter adopted, the following interpretations shall govern the minimum permitted lot area:

1. Where the number is less than one hundred (100), it shall designate an area in acres;

2. Where the number is greater than one hundred (100), it shall designate an area in square feet;

3. In no case shall an area zoning symbol be established which would reduce the minimum lot area below that required in the zone itself.

B. The addition or deletion of such numbers to zoning symbols shall be deemed a change of zone, and shall be accomplished in accord with all provisions of Chapters 17.70 through 17.82.

C. Where no number follows the zoning symbol, the minimum building site shall be that prescribed by the designated zone.

(Prior code § 014.04)

17.08.050 References to other parts.

References made in this section to other parts of this chapter are designated thus as Section 17.02.190.

(Prior code § 014.05)

17.08.060 Consistency with the Jacqueline Cochran Regional Airport Land Use Compatibility Plan.

If a project is located in the Jacqueline Cochran Airport Compatibility zones, densities, intensities, and prohibited uses shall be consistent with criteria of the Jacqueline Cochran Regional Airport Land Use Compatibility Plan, including applicable Countywide criteria as may exist at the time of project review. Please see ALUCP and Coachella City Planning Staff for the most up-to-date regulations.

Chapter 17.10 A-R AGRICULTURAL RESERVE ZONE

17.10.010 Intent and purpose.

This zone is intended to preserve certain designated prime agricultural lands within the city and protect those lands, which are deemed to be agricultural preserves, from the intrusion of urban development incompatible with agricultural land uses. This zone designation is reserved for only those lands which are subject to recorded Williamson Act contracts pursuant to Government Code, Section 51200 et seq. This zone implements the Agricultural Rancho land use designation in the General Plan.

(Prior code § 018.01)

17.10.020 Permitted uses.

The following uses are permitted in the A-R (Agricultural Reserve) zone subject to all provisions of this chapter:

A. Primary Uses.

1. The growing of field crops, trees, vegetables, fruits, berries, flowers, and nursery stock.
2. Animal raising, noncommercial, small animals, such as poultry, birds, fish, fowl, rabbits, chinchilla, mice, frogs, earthworms, bees, and others of similar nature, form, and size, including hatching and fattening, and involving eggs or similar products derived therefrom.
3. Animal grazing, commercial, limited to horses, cattle, sheep, and goats and including their supplementary feeding; provided such grazing is not a part of, nor conducted in conjunction with any dairy, livestock feed yard, livestock sales yard or commercial riding academy located on the premises.
4. Polanco mobilehomes.
5. Public and private parks.~~;~~
6. Public Utility Facilities (City-initiated).

B. Accessory Uses. The following buildings, structures, and uses are permitted when clearly incidental and accessory to the primary permitted use:

1. Single-Family Dwellings. No more than one such dwelling shall be permitted on one lot regardless of the size of the lot.
2. Storage of tools, supplies, equipment, and petroleum products intended for use on the premises, but not for resale.
3. Housing and storage (including corrals, coops, pens, etc.) for animals and for crop products produced on the premises.
4. Parking facilities, including cars, trucks, and vehicles owned by persons residing on the premises.
5. Accessory living quarters for persons employed on the premises, or for temporary use by guests of occupants on the premises. Such quarters shall not be rented or leased to persons not employed on the premises. Where not a part of the main building, such quarters shall be separated from the main building by twenty-five (25) feet.
6. Permitted Signs. Only the following signs shall be permitted:

a. One unlighted identification sign not to exceed twenty (20) square feet in area.

b. One unlighted sign pertaining to the rental, sale, or lease of the premises, not to exceed twelve (12) square feet in area. Such signs shall be located at last ten (10) feet from any property line.

7. Home occupations, subject to the provisions of Section 17.58.010.

C. Conditional Uses. The following may be permitted in the A-R (Agricultural Reserve) zone, subject to obtaining a conditional use permit as specified in Section 17.74.010.

~~2~~1. One temporary stand~~,~~ of temporary construction, for the display and sale of agricultural products produced on the premises, and placed not less than twenty-five (25) feet from any street or highway upon which such property fronts. When granting approval for such a temporary stand, the ~~planning commission~~Planning Commission shall set a maximum time limit not to exceed one year on each such stand. Said time limit may be renewed at the option of the Planning C~~c~~ommission.~~;~~

2. Animal raising, commercial; small animals, such as poultry, birds, fish, fowl, rabbits, chinchilla, mice, frogs, earthworms, bees, and others of similar nature, form, and size, including hatching and fattening, and involving eggs or similar products derived therefrom.

3. Apiaries (bee farming).

~~3~~4. Cemeteries, crematories, columbariums, and mausoleums~~;~~.

5. Dairy farms.

~~4. Reserved;~~

~~5. Reserved;~~

6. Farms or establishments for the selective or experimental breeding of cattle or horses, or the raising and training of horses or show cattle.~~;~~

~~4~~7. Farm labor camps.

~~5~~8. Fruit and vegetable packing houses.

~~11~~9. Interim outdoor commercial cannabis cultivation, pursuant to Chapter 17.85.

~~6~~10. Kennels.

(Prior code § 018.02; Ord. No. 1171~~-~~, § 5, 8-25-21)

17.10.030 Property development standards.

The following standards of development shall apply in the A-R (Agricultural reserve) Zone:

A. Residential Density.

1. Maximum Density. 0.025 dwelling units/acre.

B. Lot Requirements.

1. Minimum Lot Size. Forty (40) acres, or one-sixteenth of a section as determined by government survey.

2. Minimum Lot Width. Six hundred (600) feet.

3. Minimum Lot Depth. Six hundred (600) feet.

~~B~~C. Yard Requirements.

1. Building Setback. A building setback of not less than sixty (60) feet from the center line of any street, public or private, or not less than twenty (20) feet from the established street line of any street shall be maintained.

2. Side Yard. Each lot shall have side yards of not less than twenty (20) feet.

3. Rear Yard. Each lot shall have a rear yard of not less than twenty-five (25) feet.

4. Animals. Housing for animals (including corrals, coops, pens, stables, etc.) as permitted in this zone shall not be located within thirty-five (35) feet of any building or structure which is used for human habitation or assembly of persons.

5. Feed and Crop Storage. Feed and crop products shall not be stored within:

   a. Fifty (50) feet of any front lot line.

   b. Twenty (20) feet of any residential lot line.

~~C~~D. Height Limits.

~~1. The maximum height of buildings or structures incidental to agricultural pursuits as permitted in Section 17.10.020 shall be equal to one-half the distance of such building or structure from any property line.~~

1~~2~~. The maximum height of the primary structure ~~all dwellings, living quarters, garages, and other buildings permitted in this zone~~ shall be two-and-a-half stories or thirty-five (35) feet, whichever is less.

2. The maximum height of accessory buildings or structures shall be 17 feet except that the maximum height of accessory buildings or structures incidental to agricultural pursuits as permitted in Section 17.10.020 shall be equal to one-half the distance of such building or structure from any property line.

E. Off-Street Parking.

1. ~~Off-street parking shall be provided for each dwelling unit. Parking for no less than four vehicles shall be provided on-site.~~Refer to Section 17.54.010.

~~E. Architectural Review.~~

~~1. Allow mobilehomes in any residential zone subject to the architectural review process as set forth in Section 17.72.010 of this title.~~

~~2. All mobilehomes subject to this review process shall be certified under the National Mobilehome Construction and Safety Act of 1974; and permanent foundations shall be approved by the building official; and roof material. Roof overhang and exterior finish materials shall be the same as typically used on conventional single-family structures.~~

~~3. All mobilehomes shall be compatible with surrounding development.~~

~~4. All mobilehomes subject to the same development standards that apply to a conventional single-family dwelling.~~

~~5. All mobilehomes shall be allowed to be placed upon any lot of record.~~

(Prior code § 018.03)

Chapter 17.~~12~~ 11 R-R (RURAL RANCHO)~~A-T AGRICULTURAL TRANSITION~~ ZONE

17.~~12~~11.010 Intent and purpose.

~~This zone has the purpose of permitting the continued agricultural use of those lands suited to eventual development in other uses and zones, pending proper timing for the economical provisions of utilities, major streets, and other facilities, so that compact, orderly development will occur.~~ This zone accommodates low intensity residential development within a preserved rural landscape which is intended to serve as a buffer between Agriculture and any of the urban uses or as the edge of the urbanized City. It is intended to provide for the establishment of residential areas which are to be developed at low density and with reasonable and adequate limitations, safeguards, and controls for the keeping and maintenance of horses in those areas of the city where noncommercial equestrian activities may be an integral part of the neighborhood amenities. This zone implements the Rural Rancho land use designation in the General Plan.

~~(Prior code § 020.01)~~

17.~~12~~11.020 Permitted uses.

The following uses are permitted in the ~~A-T~~R-R (Rural Rancho) zone subject to all provisions of this chapter:

A. Primary Uses.

1. Dwellings, single-family detached. No more than one such dwelling shall be permitted on one lot regardless of the size of the lot.

2. The growing of field crops, trees, vegetables, fruits, berries, flowers, and nursery stock, including wholesaling of crops produced upon the premises.

~~2~~3. Animal raising, noncommercial, small animals, such as, poultry, birds, fish, fowl, rabbits, chinchillas, mice, frogs, earthworms, bees, and others of similar nature, form, and size, including hatching and fattening, and involving eggs or similar products derived therefrom.

~~3. Animal grazing, commercial, limited to horses, cattle, sheep and goats and including their supplementary feeding; provided such grazing is not a part of, nor conducted in conjunction with any dairy, livestock feed yard, livestock sales yard or commercial riding academy located on the premises.~~

4. Public and private parks.

5. Public Utility Facilities (City-initiated).

B. Accessory Uses. The following buildings, structures, and uses are permitted when clearly incidental and accessory to the primary permitted use:

1. ~~1. Single-Family Dwellings. No more than one such dwelling shall be permitted on one lot regardless of the size of the lot.~~ Accessory dwelling units and Junior accessory dwelling units, per Section 17.60.010.H. (Accessory Dwelling Units).

2. Accessory structures, non-habitable, including private garages or carports, garden greenhouses, recreation rooms, pool bathhouses, or private stables and swimming pools.

~~2~~3. Storage of tools, supplies, equipment, and petroleum products intended for use on the premises, but not for resale.

~~3~~4. Housing and storage (including corrals, coops, pens, etc.) for animals and for crop products produced on the premises.

5. Keeping of horses with the following specifications:

a. Minimum Lot Area. Twenty thousand (20,000) square feet.

b. Minimum Lot Area Per Horse. Five thousand (5,000) square feet.

c. No stable, shelter or corral shall be located within thirty-five (35) feet of any dwelling or other building used for human habitation.

d. Horses are kept or maintained for the private use of the family residing on the premises, except that a maximum of two horses owned by residents in the neighborhood may be boarded.

~~4~~6. Pens and other shelter for domestic, noncommercial animals and pets. Such shelter shall not be nearer than thirty-five (35) feet from any building used for human habitation.

7. Parking facilities, including cars, trucks, and vehicles owned by persons residing on the premises.

~~5. Accessory living quarters for persons employed on the premises, or for temporary use by guests of occupants on the premises. Such quarters shall not be rented or leased to persons not employed on the premises. Where not a part of the main building, such quarters shall be separated from the main building by twenty-five (25) feet.~~

~~6~~8. Permitted Signs. Only the following signs shall be permitted:

a. One unlighted identification sign not to exceed ~~twenty~~ twelve (~~20~~12) square feet in area.

b. One unlighted sign pertaining to the rental, sale, or lease of the premises, not to exceed twelve (12) square feet in area. Such signs shall be located at least ten (10) feet from any property line.

~~7~~9. Home occupations, subject to the provisions of Section 17.58.010.

10. Public Utility Facilities (City-Initiated)

C. Conditional Uses. The following may be permitted in the ~~A-T~~R-R (Rural Rancho) zone, subject to obtaining a conditional use permit as specified in Section 17.74.010.

~~1. Public and private parks; .~~

~~2~~1. Animal Raising, Commercial. Small animals, such as, poultry, birds, fish, fowl, rabbits, chinchilla, mice, frogs, earthworms, bees, and others of similar nature, form, and size, including hatching and fattening, and involving eggs or similar products derived therefrom~~;~~.

~~5~~2. Borrow pits, gravel pits, and other recovery of natural mineral resources~~;~~.

~~10~~3. Campgrounds, private, containing picnic areas, overnight camping facilities and temporary parking for travel trailers and camper trucks~~;~~.

4. Cemeteries, crematories, columbariums, and mausoleums.~~;~~

5. Clubs and lodges, private, nonprofit when site fronting on an arterial street.~~;~~

6. Dairy farms~~;~~.

~~4~~7. Equestrian establishments, provided that in no case shall permanent maintenance or stabling of horses, storage of feed, riding arenas, or storage or maintenance of equipment be permitted

within three hundred feet of the boundary of any ~~R-S or RM~~residential zone except for A-R (Agricultural Reserve) zone.~~;~~.

~~6~~8. Farms or establishments for the selective or experimental breeding of cattle or horses, or the raising and training of horses or show cattle.~~;~~

~~12~~9. Farm labor camps~~; and,~~.

~~11~~10. Fruit and vegetable packing houses~~;~~.

~~7~~11. Golf courses (public and private).

~~13~~12. Interim outdoor commercial cannabis cultivation, pursuant to Chapter 17.85.

13. Kennels.~~;~~

14. Mobilehomes.

14. One temporary stand~~,~~ of temporary construction, for the display and sale of agricultural products produced on the premises, and placed not less than twenty-five (25) feet from any street or highway upon which such property fronts. When granting approval for such a temporary stand, the ~~planning commission~~Planning Commission shall set a maximum time limit not to exceed one year on each such stand. Said time limit may be renewed at the option of the Planning C~~c~~ommission~~;~~

~~14~~15. Swimming, polo, and country clubs.

(Prior code § 020.02; Ord. No. 1171, § 6, 8-25-21)

17.~~12~~11.030 Property development standards.

The following standards of development shall apply in the R-R (Rural Rancho) Zone:

A. Residential Density.

1. Minimum Density. 0.4 dwelling units/acre.

2. Maximum Density. 1 dwelling unit/acre.

~~A~~B. Lot Requirements.

1. Minimum Lot Size. ~~Five acres.~~ One acre.

2. Minimum Lot Width. ~~Two hundred sixty~~One hundred twenty (~~260~~120) feet.

3. Minimum Lot Depth. ~~Two hundred sixt~~One hundred twenty~~y~~ (120~~260~~) feet.

~~B~~C. Yard Requirements.

1. Building Setback. A building setback of not less than sixty (60) feet from the center line of any street, public or private, or not less than twenty (20) feet from the established street line of any street shall be maintained.

2. Side Yard. Each lot shall have side yards of at least twenty (20) feet in width.

3. Rear Yard. Each lot shall have a rear yard of at least twenty-five (25) feet.

4. Animals. Housing for animals (including corrals, coops, pens, stables, etc.) as permitted in this zone shall not be located within thirty-five (35) feet of any building or structure which is used for human habitation or assembly of persons.

5. Feed and Crop Storage. Feed and crop products shall not be stored within:

   a. Fifty (50) feet of any front lot line.

   b. Twenty (20) feet of any residential lot line.

~~C~~D. Height Limits.

1. ~~2.~~ The maximum height of the primary structure shall be two-and-a-half stories or thirty-five (35) feet, whichever is less.

2. The maximum height of accessory buildings or structures shall be 17 feet except that the maximum height of accessory buildings or structures incidental to agricultural pursuits as permitted in Section 17.10.020 shall be equal to one-half the distance of such building or structure from any property line.

3. The maximum height of accessory dwelling units shall be per Section 17.60.010.H. (Accessory Dwelling Units).

~~The maximum height of all dwellings, living quarters, garages, and other buildings permitted in this zone shall be two stories or thirty-five (35) feet, whichever is less.~~

~~1. The maximum height of buildings or structures incidental to agricultural pursuits as permitted in Section 17.10.020 shall be equal to one-half the distance of such building or structure from any property line.~~

~~D~~E. Off-Street Parking. Off-street parking shall be provided for, subject to the requirements of Section 17.54.010 of this chapter.

~~E~~F. Architectural Review. All development in the R-R, (Rural Rancho) Zone, is subject to architectural review as set forth in Section 17.72.010 of this title.

1. S~~Allow s~~ingle-family dwellings (one only per parcel) in the ~~A-T~~R-R (Rural Rancho) zone are subject to the architectural review process as set forth in Section 17.72.010 of this chapter. Approval of such applications shall be made only after review by the planning division and concurrence by the director therefor.

2. All mobilehomes subject to this review process shall ~~h~~be certified under the National Mobilehome Construction and Safety Act of 1974; and permanent foundations shall be approved by the Building Official; and roof material, roof overhang and exterior finish materials shall be the same as typically used on conventional single-family structures.

3. All mobilehomes shall be compatible with surrounding development.

4. All mobilehomes subject to the same development standards that apply to a conventional single-family dwelling.

5. All mobilehomes shall be allowed to be placed upon any lot of record.

(Prior code § 020.03)

Chapter 17.1~~2~~4 R-E RESIDENTIAL ESTATE ZONE

17.12.010 Intent and purpose.

This zone is intended to provide for the establishment of residential areas which are to be developed at low density and with reasonable and adequate limitations, safeguards, and controls for the keeping and maintenance of horses in those areas of the city where noncommercial equestrian activities may be an integral part of the neighborhood amenities. This zone implements the Estate Rancho land use designation in the General Plan.

(Prior code § 025.01)

17.~~14~~12.020 Permitted uses.

The following uses are permitted in the R-E (Residential Estate) zone subject to all provisions of this chapter.

A. Primary Uses.

1. Dwellings, single-family detached. No more than one such dwelling shall be permitted on one lot regardless of the size of the lot.

2. Public and private parks.

3. Public Utility Facilities (City-initiated).

B. Accessory Uses. The following buildings, structures, and uses are permitted when clearly incidental and accessory to the primary permitted use.

1. ~~Accessory structures, habitable, including guest houses, accessory living quarters and servants quarters.~~ Accessory dwelling units and Junior accessory dwelling units, per Section 17.60.010.H. (Accessory Dwelling Units)

2. Accessory structures, non-habitable, including private garages or carports, garden greenhouses, recreation rooms, pool bathhouses, or private stables and swimming pools.

3. Keeping of horses with the following specifications:

   a. Minimum Lot Area. Twenty thousand (20,000) square feet.

   b. Minimum Lot Area Per Horse. Five thousand (5,000) square feet.

   c. No stable, shelter or corral shall be located within thirty-five (35) feet of any dwelling or other building used for human habitation.

   d. Horses are kept or maintained for the private use of the family residing on the premises, except that a maximum of two horses owned by residents in the neighborhood may be boarded.

4. Parking facilities, such as cars, trucks, and vehicles owned by persons residing on the premises.

5. Home occupations, subject to the provisions of Section 17.58.010.~~,~~

6. Pens and other shelter for domestic, noncommercial animals and pets. Such shelter shall not be nearer than thirty-five (35) feet from any building used for human habitation.

7. Permitted Signs. Only the following signs shall be permitted:

   a. One unlighted identification sign not to exceed eight (8) square feet in area.

b. One unlighted sign pertaining to the rental, sale, or lease of the premises, not to exceed twelve (12) square feet in area. Such sign shall be located not less than ten (10) feet from any property line.

8. The growing of field crops, trees, vegetables, fruits, berries, and nursery stock, including wholesaling of crops produced upon the premises.

C. Conditional Uses. The following uses may be permitted in the RE zone, subject to obtaining a conditional use permit as specified in Section 17.74.010.

1. Clubs and lodges, private, nonprofit when site fronting on an arterial street~~;~~.

2. Public and private golf courses.~~; and~~

3. School, private, nonprofit.

(Prior code § 025.02)

17.~~14~~12.030 Property development standards.

The following standards of development shall apply in the R-E (Residential Estate) Zone:

A. Residential Density.

1. Minimum Density. 1 dwelling unit/acre.

2. Maximum Density. 2.2 dwelling unit/acre.

~~A~~B. Lot Requirements.

1. Minimum Lot Area. Twenty thousand (20,000) square feet.

2. Minimum Lot Width. One hundred (100) feet.

3. Minimum Lot Depth. One hundred (100) feet.

~~B~~C. Yard Requirements.

1. Building Setback. A building setback of not less than sixty (60) feet from the center line of any street, public or private, or not less than twenty (20) feet from the established street line of any street shall be maintained.

2. Side Yard. Each lot shall have side yards of at least twenty (20) feet in width.

3. Rear Yard. Each lot shall have a rear yard of at least twenty-five (25) feet.

C. Height Limits.

1. The maximum height of ~~till dwellings, living quarters, garages, and other buildings~~the primary structure ~~permitted in this zone~~ shall be two-and-a-half stories or thirty-five (35) feet, whichever is less. ~~except provided herein. No two-story structure shall be in any single-family zone where there is another dwelling within one hundred fifty (150) feet of the exterior boundaries of the property boundary.~~

2. The maximum height of accessory buildings or structures shall be 17 feet except that the maximum height of accessory buildings or structures incidental to agricultural pursuits as permitted in Section 17.10.020 shall be equal to one-half the distance of such building or structure from any property line.

3. The maximum height of accessory dwelling units shall be per Section 17.60.010.H. (Accessory Dwelling Units).

D. Off-Street Parking. Off-street parking shall be provided for, subject to the requirement of Section 17.54.010 of this title.

E. Architectural Review. All development in the R-E~~,~~ (Residential Estate) Zone, is subject to architectural review as set forth in Section 17.72.010 of this title.

1. M~~Allow m~~obilehomes ~~in any residential zone~~ are subject to the architectural review process as set forth in Section 17.72.010 of this title.

2. All mobilehomes subject to this review process shall be certified under the National Mobilehome Construction and Safety Act of 1974; and permanent foundations shall be approved by the building official; and roof material, roof overhang and exterior finish materials shall be the same as typically used on conventional single-family structures.

3. All mobilehomes shall be compatible with surrounding development.

4. All mobilehomes subject to the same development standards that apply to a conventional single-family dwelling.

(Prior code § 025.03)

Chapter 17.~~16~~13 ~~R-S RESIDENTIAL SINGLE-FAMILY~~ S-N SUBURBAN NEIGHBORHOOD ZONE

17.~~16~~13.010 Intent and purpose.

This zone is intended to provide areas within the city where development is limited to low-density concentrations of single-family dwellings, and to stabilize and protect the residential character of such areas. It has the further purpose of the provision of community facilities needed to complement urban residential areas and for institutions which require a residential environment and to minimize traffic congestion and to avoid an overload of utilities designed to service only low-density residential uses. The provisions of this zone are intended to encourage a suitable environment for family life through the regulation of densities of development, yards, fencing, heights, and similar aspects of development. This zone implements the Suburban Neighborhood land use designation in the General Plan.

(Prior code § 030.01)

17.~~16~~13.020 Permitted uses.

The following uses are permitted in the ~~R-S~~S-N (~~residential single-family~~Suburban Neighborhood) zone subject to all provisions of this chapter:

A. Primary Uses.

1. Single-family detached dwelling~~;~~. No more than one principal dwelling unit shall be located on each lot.
2. Family daycare homes~~;~~.
3. Public parks and playgrounds~~;~~
4. Temporary subdivision sales offices~~;~~.
5. The keeping of household pets so long as the number thereof does not exceed four dogs or cats, or a combination thereof, over four months of age, and other household pets that shall not be a public nuisance due to odors, noise, or public health considerations~~;~~.
6. ~~Licensed day care centers for five or less children; and~~
7. Such other similar uses as are approved by the ~~planning commission~~Planning Commission.
8. Public Utility Facilities (City-initiated).
9. Community gardens (subject to site plan review).

~~B. Conditional Uses. The following uses are permitted in the R-S (residential single-family) zone subject to the acquisition of a conditional use permit in accordance with the provisions of Section 17.74.010:~~

1. ~~Single-family detached residential subdivisions using flexible standards of the planned development overlay zone in Chapter 17.38;~~
2. ~~Public and quasi-public uses of an educational or religious type, including public and parochial elementary schools, junior high schools, high schools and colleges, commercial child daycare and pre-school facilities, churches, parsonages and other religious institutions;~~
3. ~~Public and private golf courses;~~
4. ~~Fire stations, police stations;~~

~~5. Libraries, museums;~~

~~6. Parks, playgrounds, court games and community centers;~~

~~7. Public utility distribution substations and public service facilities;~~

~~8. Private lighted or unlighted tennis courts and such other similar uses not to include swimming pools and spas;~~

~~9. Commercial radio and television towers.~~

~~C~~B. Accessory Uses. The uses listed below are allowed as incidental uses to an existing permitted or conditional use on the site.

1. Utility and recreational uses including garages, carports, pool cabana, storage shed, laundry room, electrical equipment room, shade structure, and similar uses subject to the provisions of Chapter 17.60.
2. Swimming pools and related equipment, outdoor kitchen countertops and gas-fired pits/barbeque grills, subject to the provisions of Chapter 17.60.
3. Court games and ~~Outdoor~~ outdoor play courts with lighting up to ten (10) feet in height.
4. Greenhouses, date orchards, and other fruit and vegetable gardens for private use.
5. Home occupations, and cottage food operations, subject to the provisions of Section 17.58.010.
6. Accessory dwelling units and Junior accessory dwelling units, per Section 17.60.010.H. (Accessory Dwelling Units).

~~Secondary housing units, subject to the regulations listed below.~~

~~a. One secondary housing unit may be located on a site that contains a single-family residence with an approved two-car garage.~~

~~b. The secondary housing unit may be located only on sites with at least five thousand five hundred (5,500) square feet of lot area.~~

~~c. A detached secondary housing unit shall be located in the rear yard portion of the site, and shall not be within ten (10) feet of a corner street line.~~

~~d. The secondary housing unit shall be subject to an administrative architectural review by the planning director, and shall comply with current residential design guidelines and/or match the exterior building materials of the neighborhood.~~

~~e. The habitable floor area of a secondary housing unit may be up to thirty (30) percent of the size of the main dwelling or eight hundred (800) square feet, whichever is greater.~~

~~f. An attached secondary housing unit shall provide a twenty-foot rear yard setback, and a combined side yard setback of fifteen (15) feet, with no less than five feet on any one side. A detached secondary housing unit shall provide a minimum rear yard setback of fifteen (15) feet, a minimum side yard setback of five feet, and shall provide a minimum distance of ten (10) feet from any other structure or from any corner street line.~~

~~g. The secondary housing unit shall utilize sewer and water services and shall pay the appropriate fees, subject to review and approval by the city's utilities staff.~~

~~h. Off-Street Parking. A secondary housing unit up to six hundred forty (640) square feet must provide one covered parking space in a garage or carport. A secondary housing unit larger than six hundred forty (640) square feet shall provide two covered parking spaces in a garage or carport. The~~

~~parking requirements for the secondary housing unit shall be in addition to the two-car garage required for the main residence.~~

~~i. Address and Building Permit Required. The owner of the property shall obtain a separate address, a building permit, and pay all applicable development impact fees for the secondary housing unit as a separate dwelling unit on the site.~~

C. Conditional Uses. The following uses are permitted in the S-N (Suburban Neighborhood) zone subject to the acquisition of a conditional use permit in accordance with the provisions of Section 17.74.010:

1. Apiaries (bee farming).

~~9~~2. Commercial radio and television towers.

3. Fire stations, police stations.

4. Libraries, museums.

5. Community centers.

6. Parking lots.

7. Private lighted or unlighted tennis courts and other similar uses, except for ~~not to include~~ swimming pools and spas.

~~Single-family detached residential subdivisions using flexible standards of the planned development overlay zone in Chapter 17.38;~~

~~8~~2. Public and quasi-public uses of an educational or religious type, including public and parochial elementary schools, junior high schools, high schools and colleges, commercial child daycare and pre-school facilities, churches, parsonages, and other religious institutions~~;~~.

~~3~~9. Public and private golf courses~~;~~.

~~4. Fire stations, police stations;~~

~~5. Libraries, museums;~~

~~6. Parks, playgrounds, court games and community centers;~~

~~7~~10. Public utility distribution substations and public service facilities~~;~~.

~~8. Private lighted or unlighted tennis courts and such other similar uses not to include swimming pools and spas;~~

~~9. Commercial radio and television towers.~~

~~10. Parking lots~~

~~11. Apiaries (bee farming)~~

11~~2~~. Single-family detached residential subdivisions using flexible standards of the planned development overlay zone in Chapter 17.38.

12. Special Event Establishments on a parcel ~~2~~two (2) acres or greater.

D. Prohibited Uses. The following uses are expressly prohibited in the S-N (Suburban Neighborhood) district:

1. Outdoor advertising displays and billboards.

(Prior code § 030.02)

(Ord. No. 1026, § 6, 1-12-11; Ord. No. 1075, § 3, 6-10-15)

17.~~16~~13.030 Property development standards.

The following standards of development shall apply in the S-N (Suburban Neighborhood) ~~R-S (residential single-family)~~ zone:

A. Residential Density.

1. Minimum Density. 2 dwelling units/acre.

2. Maximum Density. 8 dwelling units/acre.

~~General Development Standards.~~

~~1. Building height shall not exceed thirty (30) feet; not to exceed two stories;~~

~~2. Not more than one principal dwelling unit shall be located on each lot;~~

~~3. Front yard setbacks in subdivision developments may be reduced by twenty-five (25) percent provided the average of all such setbacks is not less than the minimum for the district; and~~

~~4. Off-street parking spaces shall be provided and continuously maintained (free of storage or other obstructions) in accordance with the requirements set forth in Section 17.56.010.~~

~~B~~B. Lot Area Requirements. The minimum lot area for any new lot created in the S-N (Suburban Neighborhood)~~R-S (residential single-family)~~ zone shall be as follows:

1. Interior Lots. ~~Seven~~ Five thousand four~~two~~ hundred (~~7,200~~5,400) square feet; however, the average lot size for any subdivision shall be a minimum of ~~seven~~ five thousand (~~7~~5,000) square feet.

2. Corner Lots. ~~Seven~~ Six thousand ~~two hundred~~ (~~7,200~~6,000) square feet.

~~3. Exception. Whenever a lot is adjacent to a lower density zoning district or an existing developed parcel with a larger lot size than required in the R-S zone, a transition or buffer shall be provided between the adjacent property and a new subdivision, which may include, but is not limited to, lot size, lot width, lot depth, increased setbacks or slopes. The purpose of this transition shall be to minimize the disparity between different densities of development. The adequacy of this transition shall be subject to the review and approval of the planning commission and the city council on a case-by-case basis.~~

~~4. In the implementation of subsection 3 of this section, any change in a lot size which would leave the lot at a size at least seventy-five (75) percent the size of the largest adjacent developed lot will be presumed appropriate, absent unusual circumstances, and provided the minimum average lot size in the adjacent zone is eight thousand (8,000) square feet or greater. Any application to change a lot to a size lower than said seventy-five (75) percent standard will be permitted only upon showing of good cause. It is the intent of this paragraph to set a standard but also to allow flexibility.~~

~~5~~3. Minimum lot width shall be ~~sixty~~ fifty (~~60~~50) feet; corner lots shall be ~~seventy~~ sixty (~~70~~60) feet minimum. Knuckle or cul-de-sac lots shall be forty (40) feet, provided the average width is ~~sixty~~ fifty (50~~60~~) feet.

~~6~~4. Minimum lot depth shall be ~~one hundred~~eighty (~~100~~80) feet.

C. Yard Requirements.

~~7~~1. Minimum side yards shall be ~~fifteen (15) feet combined, one of five feet, the other ten (10) feet~~ five (5) feet and maintained ~~if~~ free and clear of obstructions from ground or wall-mounted equipment.

~~8~~2. Minimum street side yard shall be ten (10) feet.

~~9~~3. Minimum front yard shall be fifteen (15) feet for the habitable portion of the residence, and twenty (20) feet for front-loading garages. Side-loaded garages shall be a minimum of twelve (12) feet from the front property line. The percentage of side-loaded garages shall not exceed fifty (50) percent within any block face.

~~10~~4. Minimum rear yard shall be twenty (20) feet for the main residence. Accessory structures shall comply with the rear yard regulations of Section 17.60.010(F).

~~3~~5. Front yard setbacks in subdivision developments may be reduced by twenty-five (25) percent provided the average of all such setbacks is not less than the minimum for the district.~~; and~~

~~11~~D. Maximum Lot Coverage.

1. The maximum lot coverage by all buildings, main and accessory structures, shall be fifty~~orty~~ (5~~4~~0) percent, except as allowed per Section 17.60.010.H. (Accessory Dwelling Units).

E. Height Limits.

1. Building height for the primary structure shall not exceed thirty-five (35) feet; not to exceed three stories.

2. Building height for accessory structures shall not exceed seventeen (17) feet; not to exceed one story.

3. The maximum height of accessory dwelling units shall be per Section 17.60.010.H. (Accessory Dwelling Units).

F. Off-Street Parking.

41. Off-street parking spaces shall be provided and continuously maintained (free of storage or other obstructions) in accordance with the requirements set forth in Section 17.56.010.

2. All new single-family homes shall provide a two-car garage with a minimum clear dimension of twenty (20) feet by twenty (20) feet. An approved two-car carport in the rear yard may satisfy the minimum parking requirements for an existing single-family dwelling and would qualify the home for a garage conversion into habitable space, provided the driveway and drive approach serving the garage are completely removed and replaced with front yard landscaping.

~~C~~G. Additional Regulations and Standards.

1. Architectural review by the ~~planning commission~~Planning Commission is required for development projects involving the construction of more than three dwelling units. The ~~planning commission~~Planning Commission shall make a decision pursuant to Chapter 17.72 after conducting a public hearing. An administrative architectural review is required by the planning director for up to two units concurrent with building plan check. ~~after routing and the director shall determine if the architectural review occur with building permit plan check. The director shall determine if submitted plans for three or fewer units be routed for for agency comments, for projects involving new construction of three or fewer dwelling units.~~

~~2. Minimum Lot Size/Unit Size.~~

~~a. New single family residential subdivisions in the residential zones shall provide a minimum lot size of seven thousand two hundred (7,200) square feet.~~

~~b. All new single family homes shall provide a minimum floor area of one thousand fifty (1,050) square feet for one- and two-bedroom homes, and one thousand two hundred (1,200) square feet for three-bedroom or larger homes.~~

~~c. All new single family homes shall provide a four hundred (400) square foot garage.~~

~~3~~2. Covered Parking. All new ~~single family~~single-family homes shall provide a two-car garage with a minimum clear dimension of twenty (20) feet by twenty (20) feet. An approved two-car carport in the rear yard may satisfy the minimum parking requirements for an existing ~~single family~~single-family dwelling~~,~~ and would qualify the home for a garage conversion into habitable space, provided the driveway and drive approach serving the garage are completely removed and replaced with front yard landscaping.

~~4~~3. Landscaping in the front yard and within the public right-of-way abutting a site shall include the following.

a. A minimum of one twenty-four-inch box shade tree and one fifteen-gallon shade tree.

b. A minimum of twenty (20) shrubs, espaliers, and succulent plants. Landscaping shall include vertical shrubs to adequately screen the sides of utility boxes or cables boxes without obstructing access to the utility boxes.

c. Ground cover in the form of decomposed granite for yard or planter areas less than ten (10) feet in width, and ¾-inch pea gravel or larger gravel for planter or yard areas larger than ten (10) feet in width.

d. The use of sod shall be limited to no more than ~~fifty~~ twenty ~~(5~~20) percent of the total ~~required~~ front yard area. The remainder of the yard shall be landscaped utilizing a variety of drought tolerant plant materials including shrubs, espaliers, and succulents.

e. The front yard area between the front building line of the home and the street line shall not be paved more than sixty (60) percent of the total front yard area. Those areas that are not paved shall be landscaped in accordance with this section.

f. A minimum thirty-inch landscaped planter is required along the interior property line abutting a residential driveway serving an attached garage, unless the side yard serves as an approved driveway, pursuant to Section 17.54.010(H).

g. A permanent underground irrigation system shall be installed for the front yard and public right-of-way areas of the site.

h. All trees, plants and groundcovers located in the front yard and in the adjacent public right-of-way shall be maintained by the land~~-~~owner/occupier as needed to avoid overgrowth~~,~~ and shall be adequately irrigated to avoid loss of plants. Dead plants shall be re-planted as needed with new plantings to provide a well-maintained front yard appearance.

~~5. Walls or fences not exceeding six feet in height shall be constructed in all side and rear yards along the property lines starting at the beginning of any primary structure. In subdivisions of five or more dwellings, solid masonry walls shall be required on side and rear property lines of those dwellings forming the boundaries of the respective subdivision.~~

~~6~~4. Refer to Section 16.32.170 of the Coachella Municipal Code for proposed changes in product sizes within single-family residential tracts in which a previously approved product was constructed.

D. Fencing. All developments in the S-N (Suburban Neighborhood) ~~R-S (residential single family)~~ zone shall have fencing as follows:

1. A six-foot high fence on all rear property lines and interior side lot lines. Fences shall be solid and substantially built. Openings in such fences shall be protected by doors which are normally kept closed.

   a. All wood fences shall be provided with a two-inch by four-inch plate, top and bottom, and shall be well braced.

   b. The fence material shall be a minimum of three-fourths inch boards and shall be vertical in alignment and without interruption.

2. In subdivisions of five or more units, fencing on all rear property lines and those side yard lot lines of those units denoting the boundaries of the subdivisions shall be of solid masonry construction. Such walls shall be finished with caps of appropriate size. Opening for pedestrian and bicycle connections shall be provided at no less than 250-foot intervals to improve connectivity with the surrounding neighborhood.

3. Front and street side yard fencing shall conform to Section 17.60.010(D (3) of this code.

4. If a fence exists at the required location, the requirement may be waived. Waiver may be granted if the chief building official, with the concurrence of the director of community development, finds that the existing fence is of sound construction with an expected life of at least ten (10) years.

E. All new single-family residential development shall be designed pursuant to the design standards included in Chapter 17.19 (Supplemental Standards for Single-family Residential).

~~E. Prohibited Uses. The following uses are expressly prohibited in the R-S (residential single-family) district:~~

~~1. Outdoor advertising displays and billboards.~~

~~F. Lot Coverage. In no case shall more than forty-five (45) percent of the total lot area be covered by the combined area of the main building(s) and accessory building(s).~~

(Ord. 909, 2004; prior code § 030.03)

(Ord. No. 1021, § 2, 7-28-10; Ord. No. 1075, § 4, 6-10-15)

~~Chapter 17.18 R-O 6000 RESIDENTIAL OVERLAY ZONE~~

~~17.18.010 Intent and purpose.~~

~~This zone is intended to provide adequate housing in a satisfying living environment for all persons regardless of age, race, ethnic background, national origin, religion, family size, marital status, handicap or any other arbitrary factor so long as such use is consistent with sound standards of public health and safety. It has the further purpose of maintaining and promoting residential living environments compatible and in harmony with the previously established patterns of development of existing low and moderate-income housing. As such, the objective of this chapter is to provide the city with a device needed to correct existing shortages and to meet projected growth needs within the city. The content of this chapter is intended to provide incentives to developers to build a range of housing that is affordable to city residents.~~

~~(Prior code § 031.01)~~

17.18.020 Permitted uses.

The following uses are permitted in the R-O 6000 zone subject to all provisions of this chapter:

A. Primary Uses.

1. One-family dwellings, subject to the following minimum dwelling unit sizes:

a. One-bedroom units shall not be permitted.

b. Two-bedroom units shall have a minimum of eleven hundred (1,100) square feet of living area.

c. Three-bedroom units shall have a minimum of twelve hundred (1,200) square feet of living area.

2. Minimum Dwelling Unit Sizes.

a. One and two bedroom units. One thousand (1,000) square feet.

b. Three bedrooms or more. One thousand one hundred fifty (1,150) square feet.

3. Household pets and gardens as permitted in the R-S zone.

4. Such other similar uses as are approved by the planning commission.

B. Conditional Uses. The following uses may be permitted subject to obtaining a conditional use permit:

1. Secondary housing units subject to the provisions of Section 17.16.020(D).

2. Multiple-family dwelling units;

3. Manufactured homes, provided they comply with the city's development standards and design guidelines for new single family homes;

4. Family daycare homes;

5. Boardinghouses, transient occupancy facilities, facilities used for the purposes of providing shelter for migrant agricultural workers, and other such facilities needed for emergency housing;

6. Public utility structures and public service facilities;

7. Hospitals;

8. Schools and colleges, not including art, business or trade schools, both public and private;

9. Parks and recreational facilities such as tennis courts and swimming pools without incidental commercial uses, both public and private; and

10. Planned unit development subject to the provisions of Chapters 17.38 and 17.52.

C. Prohibited Uses. The following uses are expressly prohibited in the R-O 6000 district:

1. Outdoor advertising displays or billboards.

(Prior code § 031.02)

(Ord. No. 1075, § 5, 6-10-15)

17.18.030 Property development standards.

A. Required Provisions. At least ten (10) percent of all units in one-family and multifamily units constructed will be required to be affordable to persons earning less than one hundred twenty (120) percent of the median-range income group throughout Riverside County. Half of the "below market rate" or subsidized units are

required to be made available to households earning less than eighty (80) percent of the median county income.

B. Lot Requirements. All newly created lots shall meet the following minimum dimensions:

1. Minimum Lot Area. Six thousand (6,000) square feet.

2. Minimum Lot Width. As specified in Section 17.60.010. The width of corner lots shall be sufficient to meet all setback requirements.

3. Maximum Lot Coverage. The maximum lot coverage by all buildings, main and accessory shall be forty (40) percent.

C. Yard Requirement.

1. Minimum Front Yard Setback Depth. Twenty (20) feet except where the garage is a side entry (the door of the garage is perpendicular to the street) then twelve (12) feet. The percentage of side-entry garages with reduced setbacks shall not exceed fifty (50) percent within a subdivision.

2. Rear Yard. Each lot shall have a minimum rear yard of fifteen (15) feet.

3. Minimum Side Yard Width.

a. Interior Lots. Side yard setbacks shall be measured from the property line to the point representing the finished surface of the exterior wall of the dwelling unit. The minimum distance allowed shall not be less than five feet.

b. Corner Lots. Side yard setbacks shall be a minimum of ten (10) feet on the street side and a minimum of five feet on the interior lot side.

D. Height Limits.

1. The maximum height of all dwellings, living quarters, garages and other buildings permitted in this zone shall be two stories or thirty-five (35) feet, whichever is less.

E. Off-Street Parking. Off-street parking shall be provided for, subject to the requirements of Section 17.54.010 of this title.

F. Application Procedure.

1. Individual one-family and two-family dwellings on random lots shall require the approval of the director of community development.

2. Multiple dwelling units, either one-family or two-family, shall require approval of the planning commission through the architectural review process.

G. Lot Coverage. In no case shall more than forty-five (45) percent of the total lot area be covered by the combined area of the main building(s) and accessory building(s).

H. Refer to Section 16.32.170 of the Coachella Municipal Code for proposed changes in product sizes within single-family residential tracts in which a previously approved product was constructed.

(Prior code § 031.03)

(Ord. No. 1021, § 3, 7-28-10)

Chapter 17.~~20~~14 ~~R-M MULTIPLE-FAMILY RESIDENTIAL~~ G-N GENERAL NEIGHBORHOOD ZONE

17.~~20~~14.010 Intent and purpose.

This zone is intended to provide for the establishment and expansion of detached and attached single-family and ~~multiple-family~~multiple-family residential development areas at various medium and high population densities and related open space and community services, all located in conformance with the general plan. This zone implements the General Neighborhood land use designation in the General Plan.

(Prior code § 032.01)

17.~~20~~14.020 Permitted uses.

The following uses are permitted in the ~~R-M~~G-N (General Neighborhood) zone, subject to all provisions of this chapter:

A. Primary Uses.

1. Single-family and duplex dwellings: ~~unit sizes.~~

   a. Detached ~~S~~single-family dwellings shall conform to the standards as set forth in the ~~R-S~~S-N (~~single-family~~Suburban Neighborhood) zone (Chapter 17.16) and Chapter 17.19 (Supplemental Standards for Single-Family Residential).

   b. Duplex dwellings, attached or detached. ~~shall conform to the standards as set forth in the R-O (residential overlay) zone (Chapter 17.18).~~

   c. Attached single-family such as rowhouses.

   c. Small lot single-family subdivisions.

2. Triplex or Fourplex.

~~single-family townhouses, two-family townhouses and two-family detached dwellings.~~

3. Multi-family dwellings (5+ units).~~, 3. No mobilehomes shall be allowed.~~

4. Public Utility Facilities (City-initiated).

B. Accessory Uses. The following buildings, structures, and uses are permitted when clearly incidental and accessory to the primary permitted use.

1. Accessory structures, non-habitable, including private garages, carports, garden greenhouses, recreation rooms or pool bathhouses and swimming pools.

2. Accessory dwelling units and Junior accessory dwelling units, per Section 17.60.010.H. (Accessory Dwelling Units).

~~2~~3. Permitted Signs. Only the following signs shall be permitted:

   a. One unlighted identification sign of a maximum of twenty (20) square feet in area, placed on the wall of the building, containing only the name and address of the building.

   b. One unlighted sign pertaining to the rental, sale, or lease of the premises, not to exceed ten (10) square feet in area.

c. Conditional Uses. The following uses may be permitted in the R-M zone, subject to obtaining a conditional use permit as specified in Section 17.74.010.

C. Conditional Uses. The following uses are permitted in the G-N (General Neighborhood) zone subject to obtaining a conditional use permit in accordance with the provisions of Section 17.74.010:

1. All conditional uses listed in Section 17.16.020(C) of the R-SS-N (Suburban Neighborhood) zone;.

2. Boarding and lodging houses.;

3. Child nurseries, day care centers;.

44. Hospitals, convalescent homes, rest homes, and sanitaria, excepting animal hospitals; subject to the following:

a. Minimum lot size shall be five acres.

b. All buildings shall be at least fifty (50) feet removed from any lot lines.

5. Professional offices and uses accessory thereto, including medical and dental laboratories; subject to the following:

a. Minimum lot size shall be twenty thousand (20,000) square feet.

b. Access on arterial or collector.

(Prior code § 032.02)

17.2014.030 Property development standards.

The following standards of development shall apply in the G-N (General Neighborhood) zone:

A. Residential Density.

1. Minimum Density. 8 dwelling units/acre

2. Maximum Density. 25 dwelling units/acre

AB. Density and Lot Size Area Requirements.

1. Single-family detached residential subdivisions shall comply with the allowable density range of the general plan land use designators. have Aa minimum lot size of fourfive thousand (5,0004,000) square feet shall be required. The minimum lot width and depth for an interior lot shall be 40 feet and 75 feet respectively. The minimum lot width for a corner lot shall be 45 feet.

2. Single-family attached residential subdivisions shall comply with the allowable density range of the general plan land use designators. Ahave a minimum lot size of twofour thousand five hundred (42,500) square feet shall be required. The minimum lot width and depth for an interior lot shall be 30 feet and 50 feet respectively. The minimum lot width for a corner lot shall be 35 feet.

3. Multiple-familyMultiple-family residential developments of five or more dwelling units shall comply with the allowable density ranges (dwelling units per acre) of the general plan land use designators.have Aa minimum site area of ten thousand (10,000) square feet is required for multifamily developments of five or more dwelling units. Multifamily residential developments on less than ten thousand (10,000) square feet of site area shall be limited one dwelling unit per three thousand two hundred (3,200) square feet of land area. The minimum lot width and depth for an interior lot shall be 60 feet and 100 feet respectively. The minimum lot width for a corner lot shall be 70 feet.

~~B~~C. Yard Requirements.

1. Front Yard. Each lot or building site shall have a front yard of at least fifteen (15) feet in depth for single-family residential development and ten (10) feet for multifamily housing types.

2. Side Yard. Each lot or building site shall have a minimum side yard as follows:

   a. Interior and Corner Lots. Ten (10) percent of the lot width, but not less than five feet, and need not be greater than ten (10) feet, except as specified below.

   b. Street Side of Corner Lots. Ten (10) feet.

3. Rear Yard. Each lot or building site shall have a minimum rear yard of twenty (20) feet.

~~D~~C. Height Limits.

1. ~~1.~~ The maximum height of all buildings shall be three stories, or forty-five (45) feet, whichever is less.

2. The maximum height of all accessory structures shall be one story, or 15 feet, whichever is less.

3. The maximum height of accessory dwelling units shall be per Section 17.60.010.H. (Accessory Dwelling Units).

~~D~~E. ~~Distance Between Buildings.~~

~~1. Between two main buildings: Twenty (20) feet;~~

~~2. Between a main building and an accessory buildingstructure, or between two accessory buildingsstructures: Ten (10) feet;~~

~~3. Between a single-family dwelling and either another single-family dwelling or a multiple-family dwelling: Twenty (20) feet;~~

~~4. Where one or both of the main buildings above are three stories in height, the distance enumerated above shall be increased by five feet.~~

~~E~~E. Usable Open Space.

1. ~~1.~~ Single-family detached and attached residential subdivisions shall provide a minimum of 250 square feet per unit.

2. Multifamily developments shall provide a minimum of 250 square feet total per unit, minimum 150 square feet of private open space required for ground-level units and 80 square feet of private open space for upper-level units. The remaining area shall be provided as common open space. Portions of spaces required under the yard and distance between buildings provisions of this section may be included in the calculation of usable open space, provided they are integrated with and clearly usable as part of a larger area per Section E.3 below.

~~Usable open space equal to twenty-five (25) percent of the indicated required lot area per dwelling unit shall be provided for each multiple-family dwelling unit. Portions of spaces required under the yard and distance between buildings provisions of this section may be included in the calculation of usable open space, provided they are integrated with and clearly usable as part of a larger area.~~

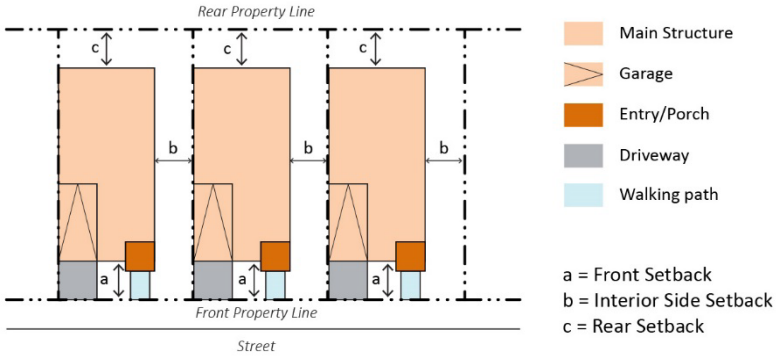
~~2~~3. Usable Open Space Standards:

   a. Usable open space may be provided as private outdoor living areas, balconies, decks, or as common recreational-leisure areas. Except in the case of balconies, such areas shall be landscaped.

b.~~3.~~ Usable open space, when provided as common recreational leisure area, may extend into the required front yard to within five feet of the front lot line, subject to the following provisions:

~~i~~a. No more than forty (40) percent of the required front yard may be so used.

~~b~~ii. No permanent structures, except swimming pools and those structures required by law, shall be permitted in the required front yard.



~~c~~iii. Such areas shall be screened from the street and adjacent properties by landscaping and/or decorative fencing of a maximum height of forty-two (42) inches, except where a greater height is required by law.

~~d~~iv. The remaining portion of the required front yard, except for access drives and walks, shall be landscaped and maintained.

~~F~~F. Off-Street Parking. Off-street parking shall be provided for each dwelling unit subject to the requirements of Section 17.54.010 of this title.

G. Zero Lot Line Option. If new zero lot line single-family residential developments are proposed, these standards shall apply:

1. The total setback may be aggregated on one side of the dwelling unit, with no setback required on the opposite side. The minimum setback on one side of the dwelling shall be ten feet. See diagram below:

2. All or part of the setback requirements of interior yards along property lines adjoining other private lots may be waived with the written approval of the City and the property owner of the lot adjoining the yard which is being encroached upon. This written agreement shall take the form of a zero-lot line agreement which shall be recorded on the chain of title of both properties involved. The zero-lot line agreement shall describe in detail the extent of said waiver. Zero lot line agreements shall be executed between private property owners only. Swimming pools are not eligible for zero lot line agreements.

3. Approval of a zero-lot line agreement shall be subject to the following requirements:

a. All building and fire code requirements related to construction shall be met.

b. Approval regarding the provision of adequate access shall be obtained by the Fire Department.

c. Where the setback is reduced to less than three feet, a maintenance access easement of five feet in width shall be provided on the adjoining property.

H. All new single-family residential development shall be designed pursuant to the design standards included in Chapter 17.19 (Supplemental Standards for Single-family Residential).

I. All new multi-family residential development shall be designed pursuant to the City of Coachella Multi-Family Objective Design Standards.

~~G~~J. Architectural Review. All development in the ~~R-M~~G-N (General Neighborhood) zone is subject to architectural review as set forth in Section 17.72.010 of this title.

~~H. Minimum Dwelling Unit Sizes.~~

~~a. Minimum floor area per dwelling unit:~~

~~Efficiency~~	~~600 square feet~~
~~One bedroom~~	~~750 square feet~~
~~Two bedroom~~	~~900 square feet~~
~~Each additional bedroom~~	~~150 square feet~~

~~b. Refer to Section 16.32.170 of the Coachella Municipal Code for proposed changes in product sizes within single-family residential tracts in which a previously approved product was constructed.~~

(Prior code § 032.03)

(Ord. No. 1021, § 4, 7-28-10; Ord. No. 1075, § 6, 6-10-15)

Chapter 17.15 U-N URBAN NEIGHBORHOOD ZONE

17.15.010 Intent and purpose.

This zone is intended to provide for the establishment of high-intensity, walkable, transit-ready neighborhoods with a variety of types of housing - predominantly multi-family of various types. These compact neighborhoods are located within easy walking distance of parks, schools, shops, transit, and employment. This zone implements the Urban Neighborhood land use designation in the General Plan.

17.15.020 Permitted uses.

The following uses are permitted in the U-N (Urban Neighborhood) zone, subject to all provisions of this chapter:

A. Primary Uses.

1. Multi-family dwellings (5+ units).
2. Attached single-family dwellings such as rowhouses.
3. Small lot single-family subdivisions.
4. Duplex, Triplex or Fourplex.
5. Neighborhood retail uses under 10,000 square feet, along Major Arterials, Major Arterials with Enhanced Bicycle Facilities, Primary Arterials, and Primary Arterials with Enhanced Bicycle Facilities, per Chapter 17.24 (C-N Neighborhood Commercial Zone).
6. Restaurants along Major Arterials, Major Arterials with Enhanced Bicycle Facilities, Primary Arterials, and Primary Arterials with Enhanced Bicycle Facilities, per Chapter 17.24 (C-N Neighborhood Commercial Zone).
7. Child nurseries, day care centers.
8. Public Utility Facilities (City-initiated).
9. Existing single family residential uses built before the date of this adoption.

B. Accessory Uses. The following buildings, structures, and uses are permitted when clearly incidental and accessory to the primary permitted use.

1. Accessory dwelling units and Junior accessory dwelling units, per Section 17.60.010.H. (Accessory Dwelling Units).
2. Accessory structures, non-habitable, including private garages, carports, garden greenhouses, recreation rooms or pool bathhouses and swimming pools.
3. Permitted Signs. Only the following signs shall be permitted:
   a. One unlighted identification sign of a maximum of twenty (20) square feet in area, placed on the wall of the building, containing only the name and address of the building.
   b. One unlighted sign pertaining to the rental, sale, or lease of the premises, not to exceed ten (10) square feet in area.

C. Conditional Uses. The following uses are permitted in the U-N (Urban Neighborhood) zone subject to obtaining a conditional use permit in accordance with the provisions of Section 17.74.010:

1. All conditional uses listed in Section 17.13.020(C) of the S-N (Suburban Neighborhood) zone.

2. Boarding and lodging houses.

3. Child nurseries, day care centers.

4. Hotels.

~~7~~5. Medical Offices.

D. Prohibited Uses. The following uses are prohibited in the U-N (Urban Neighborhood) zone:

1. Mobilehomes.

2. Motels.

3. Outdoor advertising and billboards.

17.15.030 Property development standards.

The following standards of development shall apply in the U-N (Urban Neighborhood) zone:

A. Residential Density and Non-Residential Intensity.

1. Minimum Density. 20 dwelling units/acre.

2. Maximum Density. 38 dwelling units/acre.

3. Maximum non-residential FAR. 0.5, where allowed.

B. Lot Area Requirements.

1. Single-family attached residential subdivisions shall have a minimum lot size of one thousand eight hundred (1,800) square feet. The minimum lot width and depth for an interior lot shall be 25 feet and 45 feet respectively. The minimum lot width for a corner lot shall be 30 feet.

2. Multiple-family residential developments of five or more dwelling units shall have a minimum site area of ten thousand (10,000) square feet.

3. Developments with stand-alone commercial uses or mixed uses shall have a minimum site area of twenty thousand (20,000) square feet.

C. Yard Requirements.

1. Front Yard. Each lot or building site shall have a front yard of at least ten (10) feet in depth.

2. Side Yard. Each lot or building site shall have a minimum side yard as follows:

a. Interior and Corner Lots. Ten (10) percent of the lot width, but not less than five feet, and need not be greater than ten (10) feet, except as specified below.

b. Street Side of Corner Lots. Ten (10) feet.

3. Rear Yard. Each lot or building site shall have a minimum rear yard of fifteen (15) feet.

D. Height Limits.

1. The maximum height of all buildings shall be four stories, (50) feet, whichever is less.

2. The maximum height of all accessory structures shall be one story, or 15 feet, whichever is less.

3. The maximum height of accessory dwelling units shall be per Section 17.60.010.H. (Accessory Dwelling Units).

E. Usable Open Space.

1. Single-family detached and attached residential subdivisions shall provide a minimum of 200 square feet per unit.

2. Multifamily developments shall provide a minimum of 200 square feet total per unit, minimum 120 square feet of private open space required for ground-level units and 60 square feet of private open space for upper-level units. The remaining area shall be provided as common open space. Portions of spaces required under the yard and distance between buildings provisions of this section may be included in the calculation of usable open space, provided they are integrated with and clearly usable as part of a larger area.

3. Usable Open Space Standards:

   a. Usable open space may be provided as private outdoor living areas, balconies, decks, or as common recreational-leisure areas. Except in the case of balconies, such areas shall be landscaped.

   b. Usable open space, when provided as common recreational leisure area, may extend into the required front yard to within five feet of the front lot line, subject to the following provisions:

      i. No more than forty (40) percent of the required front yard may be so used.

      ii. No permanent structures, except swimming pools and those structures required by law, shall be permitted in the required front yard.

      iii. Such areas shall be screened from the street and adjacent properties by landscaping and/or decorative fencing of a maximum height of forty-two (42) inches, except where a greater height is required by law.

      iv. The remaining portion of the required front yard, except for access drives and walks, shall be landscaped and maintained.

G. Off-Street Parking. Off-street parking shall be provided for each dwelling unit or commercial use subject to the requirements of Section 17.54.010 of this title.

H. Zero Lot Line Option. If new zero lot line single-family residential developments are proposed, these standards shall apply:

1. The total setback may be aggregated on one side of the dwelling unit, with no setback required on the opposite side. The minimum setback on one side of the dwelling shall be ten feet. See diagram below:

2. All or part of the setback requirements of interior yards along property lines adjoining other private lots may be waived with the written approval of the City and the property owner of the

lot adjoining the yard which is being encroached upon. This written agreement shall take the form of a zero-lot line agreement which shall be recorded on the chain of title of both properties involved. The zero-lot line agreement shall describe in detail the extent of said waiver. Zero lot line agreements shall be executed between private property owners only. Swimming pools are not eligible for zero lot line agreements.

3. Approval of a zero-lot line agreement shall be subject to the following requirements:

   a. All building and fire code requirements related to construction shall be met;

   b. Approval regarding the provision of adequate access shall be obtained by the Fire Department; and,

   c. Where the setback is reduced to less than three feet, a maintenance access easement of five feet in width shall be provided on the adjoining property.

I. All new single-family residential developments shall be designed pursuant to the design standards included in Chapter 17.19 (Supplemental Standards for Single-family Residential).

J. All new multi-family residential developments shall be designed pursuant to the City of Coachella Multi-Family Objective Design Standards.

K. Architectural Review. All development in the U-N (Urban Neighborhood) zone is subject to architectural review as set forth in Section 17.72.010 of this title.

Chapter 17.16 U-E URBAN EMPLOYMENT ZONE

17.16.010 Intent and purpose.

This zone is intended to provide for the establishment of a range of employment uses such as office and research and development in a mixed, campus setting. The employment uses are supported by retail, service, and similar uses. Residential uses are allowed in residential-only buildings or in a mixed-use configuration with ground-floor retail. Also allowed are higher education uses (such as a college or university) designed in an urban setting. This zone implements the Urban Employment Center land use designation in the General Plan.

17.16.020 Permitted uses.

The following uses are permitted in the U-E (Urban Employment) zone, subject to all provisions of this chapter:

A. Primary Uses.

1. Office uses of all types, including but not limited to the following:

a. Medical and dental offices.

b. Administrative, business, executive and editorial.

c. Professional offices.

d. Financial, insurance, real estate offices, including banks and related institutions.

e. General offices.

2. Research and Development.

3. Neighborhood retail uses per Chapter 17.24 (C-N Neighborhood Commercial Zone).

4. Restaurants per Chapter 17.24 (C-N Neighborhood Commercial Zone).

5. Artisan manufacturing/flex space.

6. Multi-family dwellings (5+ units), except that no new residential uses are permitted in the area bounded by Avenue 53, Tyler Street, Avenue 54, and Shady Lane.

7. Public Utility Facilities (city-initiated).

8. Child nurseries, day care centers.

B. Accessory Uses. The following buildings, structures, and uses are permitted when clearly incidental and accessory to the primary permitted use.

1. Accessory structures, non-habitable, including arcades (shade structures), parking garages, garden greenhouses, community gardens, recreation rooms or pool bathhouses and swimming pools.

2. Accessory dwelling units and Junior accessory dwelling units, per Section 17.60.010.H. (Accessory Dwelling Units), except that no new residential uses are permitted in the area bounded by Avenue 53, Tyler Street, Avenue 54, and Shady Lane.

3. Permitted Signs. Per Chapter 17.56 (Signs).

C. Conditional Uses. The following uses are permitted in the U-E (Urban Employment) zone subject to obtaining a conditional use permit in accordance with the provisions of Section 17.74.010:

~~6~~1. Bars and Cocktail lounges

2. College/University.

~~4~~3. Community Gardens

4. Hotels/Motels.

5. Light Industrial uses as permitted in the M-S (Manufacturing Service) Zone, and as stand-alone uses operating indoors. Such uses in existence and permitted at the time of adoption of this code amendment shall be allowed to continue as a permitted use without obtaining a conditional use permit.

6. Microbrewery and taprooms.

D. Consistency with the Jacqueline Cochran Regional Airport Land Use Compatibility Plan.

1. If a project is located in the Jacqueline Cochran Airport Compatibility zones, densities, intensities, and prohibited uses shall be consistent with criteria in the airport land use compatibility plan for the Jacqueline Cochran Regional Airport, including applicable Countywide criteria as may exist at the time of project review.

17.16.030 Property development standards.

The following standards of development shall apply in the U-E (Urban Employment) zone:

A. Residential Density and Non-Residential Intensity.

1. Minimum Density. 30 dwelling units/acre.

2. Maximum Density. 65 dwelling units/acre.

3. Maximum non-residential FAR. 2.0.

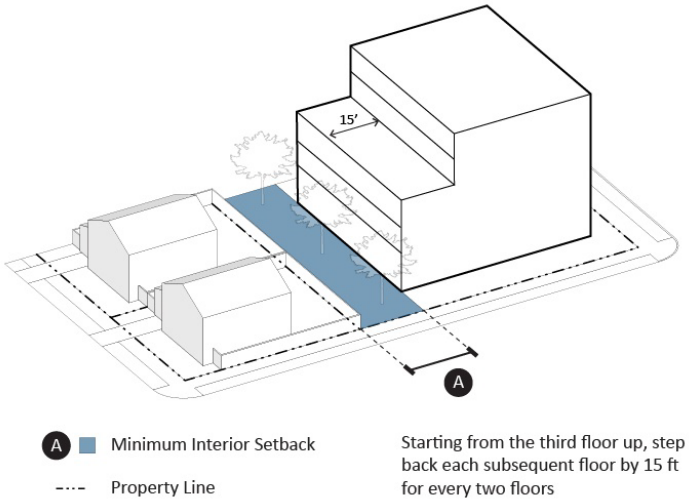
B. Lot Area Requirements.

1. Developments with stand-alone commercial or light industrial uses or mixed uses shall have a minimum site area of twenty thousand (20,000) square feet.

2. Stand-alone multiple-family residential developments shall have a minimum site area of ten thousand (10,000) square feet.

C. Yard Requirements.

1. Front Yard. Where one or both adjoining zones are residential, a yard shall be provided which is equal in depth to the average of the required front yards of the adjoining zones.



2. Side Yard. Where a parcel in the U-E (Urban Employment) zone adjoins a street or residential zone, there shall be a side yard of not less than ten (10) feet on the side or sides adjoining said street or residential zone. In the case of a reversed corner lot, the side yard adjoining the street shall be not less than the required front yard of the adjoining key lot to the rear.

3. Rear Yard. Where a parcel in the U-E (Urban Employment) zone adjoins a residential zone, there shall be a rear yard of not less than ten (10) feet adjoining that residential zone. This shall not apply where there exists a public alley separating the two zones.

4. Permitted Encroachments in Required Yards. The yards required in subsections 1—3 of this section may be used as part of an automobile parking area, provided however that a minimum three-foot wide screen planting strip shall be maintained adjacent to the street right-of-way lines.

D. Height Limits.

1. The maximum height of all buildings shall be five stories, or seventy-five (75) feet, whichever is less, except that for properties adjacent to a single-family zone, starting from the third floor up, each subsequent floor shall be stepped back by 15 ft for every two floors. See diagram below:

2. The maximum height of all accessory structures shall be one story, or 15 feet, whichever is less. Accessory structures exceeding 15 feet may be approved up to 35 feet subject to Architectural Review by the Planning Commission.

3. The maximum height of accessory dwelling units shall be per Section 17.60.010.H. (Accessory Dwelling Units)

E. Distance Between Buildings.

1. Between two main buildings: Twenty (20) feet.

2. Between a main building and an accessory structure, or between two accessory structures: Fifteen (15) feet.

F. Usable Open Space.

1. Greater than 25,000 square feet non-residential portion of developments shall provide three percent of the gross building area as usable open space. Common open space may be utilized for employees or publicly accessible open space. If the open space is over 1,000 square feet and provided as publicly accessible, up to 50 percent may count toward the required residential common open space (if in a mixed-use project).

2. Multifamily developments shall provide a minimum of 150 square feet total per unit, minimum 120 square feet of private open space required for ground-level units and 60 square feet of private open space for upper-level units. The remaining area shall be provided as common open space. Portions of spaces required under the yard and distance between buildings provisions of this section may be included in the calculation of usable open space, provided they are integrated with and clearly usable as part of a larger area.

3. Usable Open Space Standards:

   a. Usable open space may be provided as private outdoor living areas, balconies, decks, or as common recreational-leisure areas. Except in the case of balconies, such areas shall be landscaped.

b. Usable open space, when provided as common recreational leisure area, may extend into the required front yard to within five feet of the front lot line, subject to the following provisions:

i. No more than forty (40) percent of the required front yard may be so used.

ii. No permanent structures, except swimming pools and those structures required by law, shall be permitted in the required front yard.

iii. Such areas shall be screened from the street and adjacent properties by landscaping and/or decorative fencing of a maximum height of forty-two (42) inches, except where a greater height is required by law.

iv. The remaining portion of the required front yard, except for access drives and walks, shall be landscaped and maintained.

G. Off-Street Parking. Off-street parking shall be provided for each dwelling unit or commercial use subject to the requirements of Section 17.54.010 of this title.

H. All new multi-family residential development shall be designed pursuant to the City of Coachella Multi-Family Objective Design Standards.

I. Architectural Review. All development in the U-E (Urban Employment) zone is subject to architectural review as set forth in Section 17.72.010 of this title.

J. Consistency with the Jacqueline Cochran Regional Airport Land Use Compatibility Plan.

1. If a project is located in the Jacqueline Cochran Airport Compatibility zones, densities, intensities, and prohibited uses shall be consistent with criteria in the airport land use compatibility plan for the Jacqueline Cochran Regional Airport, including applicable Countywide criteria as may exist at the time of project review.

K. Other Property Development Standards.

1. All uses shall be conducted entirely within a completely enclosed building, except for off-street parking and loading facilities, and certain uses permitted subject to a conditional use permit.

Chapter 17.17 R-D RESORT DISTRICT

17.17.010 Intent and purpose.

This zone is intended to provide for and encourage a neighborhood organized around a recreational, entertainment or vacation destination, providing a range of residential options, neighborhood-serving retail, service and restaurant amenities, and lodging. This zone also allows a range of entertainment and destination uses not allowed in other areas, such as theme parks, that require large amounts of land and that draw visitors to the c~~C~~ity. This zone implements the Resort District land use designation in the General Plan.

17.17.020 Permitted uses.

The following uses are permitted in the R-D (Resort District) zone, subject to all provisions of this chapter:

A. Primary Uses.

1. Hotel.
2. Motel.
3. Restaurants.
4. Retail establishments.
5. Exhibit hall, tourist centers.
6. Single-family and duplex dwellings:
    a. Detached single-family dwellings shall conform to the standards as set forth in the S-N (Suburban Neighborhood) zone (Chapter 17.13) and Chapter 17.19 (Supplemental Standards for Single-Family Residential).
    b. Duplex dwellings, attached or detached.
    c. Attached single-family such as rowhouses.
    c. Small lot single-family subdivisions.
7. Triplex or Fourplex.
8. Multi-family dwellings (5+ units) shall conform to standards as set forth in G-N (General Neighborhood) zone (Chapter 17.14) and the City of Coachella Multi-Family Objective Design Standards.
9. Outdoor Uses. Only the following outdoor uses are permitted:
    a. Golf courses and driving ranges.
    b. Private s~~S~~wimming pools; tennis courts, and similar recreational amenities.
10. Public Utility Facilities (City-initiated).

B. Tourist-Related Uses. The following uses are permitted only where integrated with and clearly incidental to a primary use, and where part of a hotel or motel building, and where the intent is to serve the needs of tourists:

1. Barber or beauty shop.

2. Drugstores.

3. Tobacco, candy, newspaper, and magazine counter.

4. Laundromat, clothes cleaning agency.

5. Travel agency.

6. Automobile rental agency office (no auto storage or service permitted.)

C. Accessory Uses. The following buildings, structures, and uses are permitted when clearly incidental and accessory to primary permitted use:

1. Dwelling, where used by a proprietor, manager, or custodian of a use permitted within this zone.

2. Recreational buildings, structures, and uses designated to serve the patrons of primary permitted use.

3. Signs as follows, subject to all provisions of Section 17.56.010 of this title.

a. One unlighted sign pertaining to the rental, sale, or lease of the premises, not to exceed twenty (20) square feet in area.

b. Advertising signs pertaining to the goods and services sold on the premises, or to the name of the establishment. The total aggregate area of all signs pertaining to any one establishment shall be two hundred fifty (250) square feet.

4. Other accessory uses customarily appurtenant to a primary permitted use.

D. Conditional Uses. The following uses may be permitted the R-D (Resort District) zone subject to obtaining a conditional use permit as specified in Section 17.74.010.

1. Animal hospital and veterinary services.

2. Automobile service stations.

3. Bar or cocktail lounge.

4. Billiard parlor.

5. Bowling alley.

6. Bus terminals, depots, and similar transit facilities.

7. Car washes as part of a multi-tenant retail center.

8. Clubs and lodges.

9. Dance hall.

10. Drive-in or walk-up or other fast-food service establishments.

11. Pet care services.

12. Skating rinks.

13. Special event establishments.

14. Sports complex.

15. Taprooms and microbreweries.

16. Theater.

17. Tourist camps.

18. Theme parks.

17.17.030 Property development standards.

The following standards of development shall apply in the R-D (Resort District) zone:

A. Residential Density and Non-Residential Intensity.

1. Maximum Density. 8 dwelling units/acre.

2. Maximum non-residential FAR. 0.1; an increase to 0.75 may be granted for theme parks and other entertainment related uses.

B. Lot Requirements.

1. Minimum Lot Size. The minimum lot size shall be ten thousand (10,000) square feet.

2. Minimum Lot Width. None.

3. Minimum Lot Depth. None.

4. Maximum Lot Coverage. None.

C. Yard Requirement.

1. Front Yard. Each lot or building site shall have a front yard of at least fifteen (15) feet in depth, except where one or both adjoining zones are residential, in which case the required yard shall be increased to equal the average of the required front yards of the adjoining zones.

2. Side Yard. There shall be no side yard requirement except where a R-D zone adjoins a street or a residential zone, in which case there shall be a side yard of not less than ten (10) feet on the side or sides adjoining said street or residential zones. In the case of a reversed corner lot, the side yard adjoining the street shall be not less than the required front yard of the adjoining key lot to the rear.

3. Rear Yard. There shall be no rear yard requirement except where the R-D zone adjoins a residential zone, in which case there shall be a rear yard of not less than ten (10) feet adjoining that residential zone. This shall not apply where there exists a public alley separating the two zones.

4. Permitted Encroachments in Required Yards.

a. The yards required in subsections 1—3 of this section may be used as part of an automobile parking area, provided however that a minimum three-foot wide screen planting strip shall be maintained adjacent to the planned highway right-of-way line.

b. Swimming pools provided as an accessory use to a hotel or motel may encroach into the rear two-thirds of the required front yard.

D. Height Limits.

1. The maximum height of hotel buildings shall be seven stories or eighty-five (85) feet, whichever is less. The maximum height of all other buildings shall be four stories or fifty (50) feet, whichever is less.

2. Notwithstanding the above, the maximum height of any building located within fifty (50) feet of any single-family residential zone, or any agricultural zone, shall be two-and-a-half stories or

thirty-five (35) feet, whichever is less. Vehicular rights-of-way shall be included in calculating the distance.

E. Distance Between Buildings. No requirements, except that buildings not actually adjoining shall be provided with a minimum eight-foot separation.

F. Off-Street Parking and Loading. Off-street parking and loading facilities shall be provided in accordance with the provisions of Section 17.54.010.

G. Screening. Where the R-D (Resort District) zone abuts upon a residential zone, there shall be provided screening not less than six feet, or more than eight feet in height on the zone boundary line. Said screening shall be reduced to forty-two (42) inches in height within a required yard adjacent to a street or highway.

H. Other Property Development Standards.

1. All uses shall be conducted entirely within a completely enclosed building, except for off-street parking and loading facilities; those outdoor uses permitted by Section 17.28.020(A)(7), and certain uses permitted subject to a conditional use permit by Section 17.28.020(D).

2. No building or structure having exterior walls of sheet metal shall be erected in this zone.

I. All new single-family residential development shall be designed pursuant to the design standards included in Chapter 17.19 (Supplemental Standards for Single-family Residential).

J. All new multi-family residential development shall be designed pursuant to the City of Coachella Multi-Family Objective Design Standards.

K. Architectural Review. All development in the R-D (Resort District) Zone, is subject to architectural review as set forth in Section 17.72.010 of this title.

Chapter 17.18 DT-PV DOWNTOWN PUEBLO VIEJO AND TR-PV DOWNTOWN TRANSITION ZONES

17.18.010 Intent and purpose.

The Downtown Zone (DT-PV) and Downtown Transition (TR-PV) zones are intended to provide for and encourage the orderly development of the core of the Pueblo Viejo District, the core of the Pueblo Viejo District is envisioned, by the city's General Plan and Pueblo Viejo Vision Plan, as a higher-density mixed-use (either vertical and/or horizontal) downtown area that provides for a wide variety of multi-family residential housing, office, and retail uses. The Downtown Zone (DT-PV) zone encourages a high-energy pedestrian-friendly environment with street-facing buildings, maintained building lines, a variation of architectural character, and sidewalk and public spaces to provide for gathering spaces and promote outdoor activities including dining, public art, and passive recreation. Motorized vehicle access would minimize impacts on a highly connected pedestrian environment with alley and rear entry access, parking in structures or internal to blocks, and services located behind buildings, in alleyways or rear parking areas. The use of the public realm is encouraged with on-street dining and temporary uses encouraged on sidewalks and adjoining setbacks for these purposes. The Downtown Transition (TR-PV) Zone area serves to transition commercial development from that along Grapefruit Boulevard to the core of the Pueblo Viejo around Veteran's Park and City Hall. The DT-PV and TR-PV zones implement the Downtown Center and Downtown Transition land use designations in the General Plan respectively.

17.18.020 Permitted uses.

The following uses are permitted in the DT-PV (Downtown) and TR-PV (Downtown Transition) zones, subject to all provisions of this chapter:

A. Primary Uses.

1. Retail

a) Antique dealers and shop.
b) Art dealers.
c) Art related retail - art and architecture supply shops and studios.
d) Beer and/or winemaking supply retail stores.
e) Bookstore.
f) Candle shops.
g) Clothing and clothing accessories stores.
h) Collectors' shops.
i) Cosmetics, beauty supplies and perfume stores.
j) Drugstores or retail pharmacies.
k) Electronics and appliance stores.
l) Flag and banner shops.
m) Florist shops.
n) Fruit and vegetable markets.
o) Hardware stores.
p) Health and personal care stores.
q) Home furnishing stores.
r) Jewelry, luggage, and leather goods stores.
s) Meat, fish, and seafood markets (No on-site slaughtering).

t) Office machinery and equipment rental and leasing.
u) Office supplies, stationery, and gift stores.
v) Home security equipment stores.
w) Optical goods stores.
x) Other building materials dealers or retail stores (Except lumber stores, fencing dealers, garage door dealers and prefabricated building dealers – no construction or trade services permitted).
y) Paint and wallpaper stores.
z) Pet and pet supply stores.
aa) Photographic services and photofinishing.
bb) Religious goods store.
cc) Restaurants, delicatessens, and other eating establishments (No drive-thru permitted).
dd) Retail bakeries.
ee) Specialty food stores (No on-site slaughtering).
ff) Sporting goods, hobby, musical instrument, toy stores.
gg) Supermarkets and other grocery stores.
hh) Trophy (including awards and plaques) shops.

2. Lodging
   a) Hotels.
   b) Resort hotels.
   c) Motels.
3. Entertainment (Amusement Arcades - Indoor and Bowling Centers).
4. Office, Professional (Medical, construction, finance, real estate, music and video production, health care, newspaper/media, scientific and technical services other than testing laboratories, event promotions, construction industry, telemarketing/contact centers, banks, finance and insurance retail, social advocacy organizations, informational, Independent Artists, Writers, and Performers, Business Professional, Labor, Political and Similar organizations, Tourist Information Centers, Sound Recording Industries, recreational and youth sport teams).
5. Personal Care Services (Including Day Spas, Depilatory or Electrolysis Salons, Beauty Salons, Saunas, Ear Piercing Services, Steam or Turkish Baths, Hair Replacement or Weaving Services, Tanning Salons, or Permanent Makeup Salons, Hair, Nail and Skin Care Services, Barber Shops).
6. Public/Quasi Public and Institutional Uses (Libraries and Archives, Employment Centers, Educational Services, Business Service Centers, Civic and Social organizations, Fitness and Recreational Sports Centers).
7. Residential (Multi-family of 5+ units).
8. Service - business support services except collection agencies, administrative services, Computer Systems Design and Related Services, Travel Arrangement and Reservation Services, Pet Care Services (Except Animal Shelters, Outdoor Boarding Services, Outdoor Catteries, Dog Pounds, Guard Dog Training Services and Outdoor Kennels, Reupholstery and Furniture Repair, Tailor and Alterations Stores, Jewelry Repair Shops, Dry-Cleaning and Laundry Services (Except Linen and Uniform Supply and Industrial Launderers), Footwear and Leather Goods Repair, Other Personal and Household Goods Repair and Maintenance.
9. Existing single family residential uses built before July 1st, 2019.
10. Public Utility Facilities (City-initiated).

B. Accessory Uses. The following buildings, structures, and uses are permitted when clearly incidental and accessory to the primary permitted use.

1. Accessory dwelling units and Junior accessory dwelling units, per Section 17.60.010.H. (Accessory Dwelling Units).
2. Accessory structures, non-habitable, including arcades (shade structures), carports, parking garages, garden greenhouses, community gardens, recreation rooms or pool bathhouses and swimming pools.
3. Dwelling, where used by a proprietor, manager, or custodian of a use permitted within this zone.
4. Outdoor dining areas.
5. Permitted Signs. Per Chapter 17.56 (Signs).

C. Conditional Uses. The following uses are permitted in the DT-PV and TR-PV zones subject to obtaining a conditional use permit in accordance with the provisions of Section 17.74.010:

1. Commercial
   a) Alcoholic beverage sales (For Off-premise consumption).
   d) Appliance repair and maintenance.
   e) Automobile service stations.
   f) Bar or cocktail lounge.
   g) Caterers.
   h) Check cashing establishments (not permitted on 6th Street).
   i) Consignment shops.
   j) Gun and ammunitions sales as a component of a sporting goods store.
   k) Locksmiths.
   l) Microbreweries, Tasting rooms, Wine tasting facilities and Micro-distilleries.
   m) Non-storefront retailer and non-storefront retail microbusiness. A non-storefront retailer or non-storefront retail microbusiness shall have a minimum of one hundred (100) feet separation from any residential structure; be at least five hundred (500) feet from any other storefront retail or non-storefront retail cannabis business; and may not be located in the City's Pueblo Viejo District. For purposes of this chapter, "Pueblo Viejo District" shall be that area in the city bounded by Cesar Chavez Street to the south, 1st Street to the west, Grapefruit Boulevard to the north, and 9th Street to the east.
   n) Post services.
   o) Smoke shop or Hookah shops and lounges.
   p) Scenic and sightseeing transportation.
   q) Thrift stores in which at least 50 percent of the gross receipts are from the sale of a secondhand tangible personal property.
3. Live/Work dwellings.
4. Lodging - Bed and Breakfast Inns.
5. Entertainment.
   a) Billiard and pool halls.
   b) Dance halls.
6. Office, Professional (Laboratory- research, Laboratory - support, Medical and diagnostic laboratories, Performing arts companies, Scientific research and development services, Testing

laboratories, Outpatient care centers, Animal hospitals and Veterinary services (No Outdoor Facilities).

7. Public/Quasi Public and Institutional Uses (Community gardens, Child day care centers, Emergency services stations (including Police and Fire), Funeral homes and Funeral services, Interurban and Rural bus transportation, Museums, Historical sites, and Similar institutions (Except Zoos), Standalone commercial parking lot or Parking structures (private), Theaters and auditoriums, Urban transit systems.

8. Personal care services (Massage, Tattoo parlor).

9. Unclassified (Jewelry and silverware manufacturing, Recycling center, Neighborhood only, Major Public Utility facilities).

17.18.030 Property development standards.

The following property development standards shall apply to all land and permitted or conditionally permitted buildings located within their respective Downtown zones.

A. General Development Standards. Table 17.18.030A, Downtown Zone Development Standards, lists the site development standards required for Downtown (DT-PV) and Downtown Transition (TR-PV) Zone projects.

Table 17.18.030A

Development Standards Downtown Zones

Standard	DT-PV Downtown Zone	DT-PV Downtown Transition Zone
Residential Density & Non-residential Intensity Minimum Density Maximum Density	 20 dwelling units/acre 65 dwelling units/acre	 No minimum 25 dwelling units/acre
Maximum Floor Area Ratio (FAR) for non-residential uses	3.0	1.5
Lot Area, Minimum -Standalone commercial uses or mixed uses	10,000 square feet	5,000 square feet
Lot Area, Minimum - Multifamily Minimum	5,000 square feet ***(1)***	5,000 square feet ***(1)***
Lot Frontage, Maximum	N/A	70%
Front Yard requirement	Where one or both adjoining zones are zoned residential, the front yard shall be the average of the adjoining zones.	The average of front setbacks for existing structures on the block face. For all other lots, the maximum front setback shall be ten (10) feet. For corner lots, the side setback shall be the average setbacks for existing structures.

Side Yard Requirement	Where a DT-PV zone adjoins a street or residential zone, the minimum side yard is 10 feet. Otherwise, no side yard is required.	Minimum of five 5 feet. 10 feet if adjacent to single-family residential use.
Rear Yard Requirement	Where the DT-PV zone adjoins a residential zone, the minimum rear yard shall be 10 feet. ***(2)*** No other rear yard is required except as required by Building Code.	Minimum 10 feet when adjoining a residential zone. Minimum 20 feet when adjoining a building or structure in residential use.
Encroachments for Colonnades or Arcades	Colonnades and/or arcades may occur forward of the property line and may encroach upon the rights of way if an encroachment permit is approved by the Department of Public Works. Colonnades and/or arcades that encroach within the rights of way must not impede pedestrian traffic and be setback a minimum of six (6) feet from the curb line. Encroachments are not permitted on Grapefruit Boulevard and Cesar Chavez Street.	Colonnades and/or arcades may occur forward of the property line and may encroach upon the rights of way if an encroachment permit is approved by the Department of Public Works. Colonnades and/or arcades that encroach within the rights of way must not impede pedestrian traffic and be setback a minimum of six (6) feet from the curb line. Encroachments are not permitted on Grapefruit Boulevard and Cesar Chavez Street.
Height Limits ~~–~~ Building(s)	5 stories or 75 feet, whichever is less.	3 stories or 50 feet, whichever is less.
Height Limits – Accessory Structure(s)	1 story or 15 feet, whichever is less.	1 story or 15 feet, whichever is less.
Stepbacks	All buildings exceeding four stories in height shall require a minimum of ten (10) foot additional front setback (including corner lots) for stories above the fourth story. ***(3)***	Adjacent to a single-family zone, starting from the third floor up, each floor shall be stepped back by 15 feet for every floor. See diagram in Section 17.16.030 D (1). All buildings over two stories shall have a 10-foot additional front setback.

Usable Open Space Standards	Multifamily developments: 150 square feet total of private open space per unit minimum. 10 square feet per unit or 1,000 square feet total, whichever is greater shall be required for common open space for a common recreation and/or leisure area. Usable open space may be provided as private outdoor living areas, balconies, decks, or as common recreational-leisure areas ***(4).*** Usable common open space may extend into the required front yard to within five feet of the front lot line ***(5).***	Multifamily developments: 150 square feet total per unit minimum. 120 square feet of private open space required for ground-level units 60 square feet of private open space for upper-level units. 10 square feet per unit or 1,000 square feet total, whichever is greater required for common open space for common recreation/leisure area. Usable open space may be provided as private outdoor living areas, balconies, decks, or as common recreational-leisure areas ***(4).*** Usable common open space may extend into the required front yard to within five feet of the front lot line ***(5).***
Public Open Space	Development over one-half (1/2) acre or more in gross land area, must provide a minimum of ten (10) percent of the development for public open space. ***(6)***	NA

(1) All development shall maintain existing block sizes. New development without existing streets shall mimic prevailing block dimensions with maximum block lengths no longer than 500 feet.

(2) This standard does not apply where zones are separated by an alley.

(3) An additional five (5) foot setback for every additional story shall be required on building facades facing 5th or 7th Street.

(4) Except in the case of balconies, such areas shall be landscaped.

(5) Subject to the following provisions:

i. No more than forty (40) percent of the required front yard may be so used.

ii. No permanent structures, except swimming pools and those structures required by law, shall be permitted in the required front yard.

iii. Such areas shall be screened from the street and adjacent properties by landscaping and/or decorative fencing of a maximum height of forty-two (42) inches, except where a greater height is required by law.

iv. The remaining portion of the required front yard, except for access drives and walks, shall be landscaped and maintained. "

(6) Public open space must be accessible from the public realm. Applicant may make a payment to the City in lieu of public space reservation for larger park or plaza development within the Pueblo Viejo upon approval of the Planning Director or their designee.

B. Off-Street Parking. Off-street parking shall be provided for each dwelling unit or commercial use subject to the requirements of Section 17.54.010 of this title, except where the following provisions shall supersede those of 17.54.010:

Table 17.18.030B

Off-Street Parking Standards

Mixed-Use Development Parking Requirements		
Standard	DT-PV Downtown Zone	DT-PV Downtown Transition Zone
All Mixed-use development	Three (3) spaces for 1,000 square feet of gross floor area	Three (3) spaces for 1,000 square feet of gross floor area
Single-Use Development Parking Requirements		
Standard	DT-PV Downtown Zone	DT-PV Downtown Transition Zone
Multi-family residential	Minimum: 1.25 spaces per unit plus one guest space per every five (5) units. Maximum: 1.33 spaces per unit plus one guest space per every five (5) units.	Minimum: 1.25 spaces per unit plus one guest space per every five (5) units. Maximum: 1.33 spaces per unit plus one guest space per every five (5) units.
Office	Four (4) spaces per 1,000 square feet of gross floor area.	Four (4) spaces per 1,000 square feet of gross floor area.
Retail	Minimum: 3.75 spaces per 1,000 square feet of gross floor area. Maximum: four (4) spaces per 1,000 square feet of gross floor area	Minimum: 3.75 spaces per 1,000 square feet of gross floor area. Maximum: four (4) spaces per 1,000 square feet of gross floor area
Restaurants and Drinking places	Minimum: twelve (12) spaces per 1,000 square feet of gross floor area. Maximum: fifteen (15) spaces per 1,000 square feet of gross floor area.	Minimum: twelve (12) spaces per 1,000 square feet of gross floor area. Maximum: fifteen (15) spaces per 1,000 square feet of gross floor area.

Notes:

1. No development that was not approved or in existence prior to July 1st, 2019, shall be allowed to locate off-street parking areas adjacent to the primary street.

2. On-street parking that is within five hundred (500) feet of the main entrance(s) of a development may be utilized to satisfy the requirement for off-street parking subject insofar as the property owner enters into an agreement with the City of Coachella creating a parking easement over the property owner's parking lot allowing public parking after regular business hours and weekends to increase the public parking supply in the Downtown Center Zone.

3. Shared curb-cuts are required for all new development in the DT-PV Zone. All curb-cuts are subject to City approval. An internal circulation plan with provisions for shared curb-cuts and internal circulation with neighboring properties is required.

4. New development must consider existing development and provide connections to existing development within each block to allow for internal block circulation.

5. All internal vehicle circulation roads, except for those leading to non-public areas or loading access, must include sidewalks with compliant ADA facilities and landscaping. Pedestrian facilities must connect all building entrances, retail entrances and residential entrances. Safe and adequate pedestrian connectivity within the development and connections to adjacent development and existing pedestrian facilities is required.

6. The parking requirements of this section may be reduced, with the approval of the Planning Commission, if any of the following provisions are provided for in the circulation plan:

a. The proposed development is located within a Business Improvement District or a special district that institutes shared-parking, timed parking restrictions, and/or paid parking.

b. The proposed development incorporates paid parking into the development.

c. A cooperative use agreement is executed with another property owner to provide for a portion of the required parking of the proposed development.

d. A payment-in-lieu agreement is executed with the City or another entity responsible for parking management to defray the cost for accommodating additional demand generated by the proposed development.

e. Land set-aside or structural design of proposed parking surface lots or structured parking is provided to allow for expansion to accommodate additional parking supply when demand exceeds approved supply. The parking study must justify current supply, based upon current demand, and provide for future demand thresholds that would trigger the expansion of additional supply. Any future demand thresholds and supply expansion provisions shall become a condition of approval and continued use of the property.

f. The property owner enters into an agreement with the City of Coachella creating a parking easement over the property owner's parking lot allowing public parking after regular business hours and weekends.

7. Exemptions from off-street parking near existing public ~~-~~parking ~~–~~within the Downtown Center zone are permitted insofar as the property owner enters into an agreement with the City of Coachella, if determined necessary by the Planning Director, creating a parking easement over the property owner's parking lot allowing public parking after regular business hours and weekends to increase the public parking supply in the Downtown Center z~~Z~~one. Exemptions are permitted under the following scenarios:

a. Uses within existing commercial buildings located within five hundred (500) feet of a publicly owned~~-~~ parking~~-~~ lot shall be exempt from this subsection.

b. Uses within existing buildings more than 500 feet from publicly owned parking will be required to meet the ~~-~~parking ~~-~~requirements except that the required number of ~~-~~parking~~-~~ spaces may be reduced by sixty (60) percent with the approval of the ~~planning commission~~Planning Commission as a part of architectural review.

c. Expansions of any existing buildings will be required to meet the ~~-~~parking~~-~~ requirements except that the required number of ~~-~~parking~~-~~ spaces may be reduced by sixty (60) percent with the approval of the Planning Commission as a part of architectural review.

C. Mixed Use Development Standards.

1. Buildings may be oriented initially in integrated-horizontal development or vertical mixed-use patterns depending upon current market demands.

2. Integrated horizontal mixed-use development must include a mix of at least two (2) uses including one use being residential.

3. Residential uses may be allowed on the first floor of a building provided all of the following are met:

   a. The first floor must be a minimum of fifteen (15) feet in height to accommodate modern commercial and retail activities, even if the initial use is residential in nature.

   b. The first floor must be reconfigurable to accommodate a transition to non-residential uses in the future.

   c. No ownership tenure is allowed for first-floor residential use along the primary frontage.

4. The lower floor of proposed parking garages that face or partially face Sixth Street must include usable commercial space along the frontage and are required to follow the architectural guidelines for parking garages.

5. The lower floor of proposed parking garages that face or partially face Sixth Street must include usable commercial space and are required to follow the architectural guidelines for parking garages.

D. Standards for Outdoor Dining Areas.

1. Required parking shall be provided for outdoor seating areas, except for common outdoor seating areas not attributable to a single establishment.

2. Sound amplification devices, such as speakers, shall be limited to devices that are necessary to provide low-level background music. Noise levels shall comply with Chapter 7.04 of the City of Coachella Municipal Code. The Planning Director or their designee may waive this provision, except for Chapter 7.04 compliance, on a temporary or permanent basis in conjunction with a waiver granted in part © above.

3. Outdoor dining areas are subject to all permit approvals and the design guidelines and configuration, and design must be included on any drawings and application submissions.

4. Outdoor dining areas located adjacent to, or within the public rights-of-way must leave a minimum of five (5) feet of sidewalk, for clear pedestrian path of travel.

5. All outdoor dining within the public rights-of-way must obtain an encroachment permit from the City Engineering Department.

6. Outdoor dining areas that include the sales of alcohol must meet all requirements and regulations of the California Department of Alcoholic Beverage Control.

K. All new multi-family residential development shall be designed pursuant to the City of Coachella Multi-Family Objective Design Standards.

L. Architectural Review. All non-residential development is subject to the Pueblo Viejo Design Guidelines as the governing architectural guidelines for the zone.

M. All development in the DT-PV (Downtown) and TR-PV (Downtown Transition) zones is subject to architectural review as set forth in Section 17.72.010 of this title.

N. Signage. The provisions of Chapter 17.56 and the design guidelines in the Pueblo Viejo Design Guidelines shall apply to all signs within Downtown zones.

F. Affordable housing Requirements. A minimum of ten (10) percent of all residential units for projects of more than 10 units must be priced for low and/or moderate-income residents. Units should be disbursed

throughout the structure and must proportionally reflect the size of market rate units. While trim detail may vary, the overall quality of building materials may not depart from those used within market rate units within the same structure. See Chapter 17.88 (Density Bonus and Development Incentives) for additional information.

G. Existing Uses and Structures at the Time of Adoption of this Section

1. All uses, lots, structures, and characteristics, except for signage, that were lawful, and in existence, prior to July 1st, 2019, shall remain as legally conforming uses, lots, structures, and characteristics with all the previous entitlements intact provided:

   a. the use, lot, structure and/or characteristics remain otherwise lawful.

   b. No use, lot, structure and/or characteristics may cease operation for a period greater than one (1) year.

   c. No use, lot, and/or structure may be abandoned for a period greater than one (1) year.

   d. If the use, lot, structure and/or characteristics fall within a permitted and/or conditional use, as defined in -section 17.17.020, the provisions of this section will no longer apply and the previous use, lot, structure and/or characteristics must fully comply with the provisions of this zone thereafter.

2. If the provisions of this section are no longer met, the property is then subject to the provisions of Chapter 17.78 of this ordinance.

Chapter 17.19 SUPPLEMENTAL STANDARDS FOR SINGLE-FAMILY RESIDENTIAL

17.19.010 Intent and purpose.

New single-family structures, and alterations to existing single-family structures, shall comply with the supplemental standards in this Section.

17.19.020 Detached Single-Family Residential Standards.

A. Purpose. The following detached single-family residential design standards are intended to ensure that single-family detached homes are well-designed while allowing for flexibility and creativity. A broad range of configurations are allowed including cluster homes, cottages, auto courts, and other configurations that meet the allowed density requirements and development standards of the applicable zone.

B. Applicability. This section shall apply to allowed construction or installation of all detached single-family residential structures, additions thereto, and all accessory structures including but not limited to garages, guest houses, and second dwelling units, except as otherwise authorized by State law or per Section 17.60.010.H. (Accessory Dwelling Units).

C. Site Planning Standards

1. Access and Connectivity

a. External Connectivity. Streets within any proposed subdivision or building site shall be aligned with existing and planned streets in the surrounding area to create a continuous street pattern. All streets in any subdivision or development site shall connect to other streets and to existing and planned streets outside the proposed subdivision or development to the extent feasible. Any cul-de-sac or other dead-end street longer than 300 feet shall be connected to other streets by a pedestrian path. If a development is gated, it shall provide frequent pedestrian and bicycle connections between the gated community and surrounding areas at distances no more than 600 feet apart.

b. Pedestrian Pathways/Sidewalks. New development shall be required to provide pedestrian pathways/sidewalks connecting to the public sidewalk and other planned or existing pedestrian routes or trails. A pedestrian pathway/sidewalk shall connect the primary common building entry or entries to the public sidewalk on each street frontage. Pedestrian pathways/sidewalks, a minimum of five feet wide, shall be provided from the public right-of-way to all primary common entryways and common areas, guest parking, and centralized trash enclosures (if provided). This is not applicable to a typical single-family detached residential subdivision.

2. Street and Pathway Landscaping. All publicly accessible private streets and pathways shall provide a combination of trees, shrubs, and ground cover in a minimum five-foot-wide planting strip. Trees shall be planted at a minimum of one tree for every 40 feet of linear street/path. Shrubs and groundcover shall cover at least 30 percent of the planting strip.

3. Parking

a. Parking Location. Curb cuts and driveways providing access to parking shall be provided from an alley or secondary/private street, rather than from the public right-of-way, whenever such alley or secondary/private access is feasible. Parking is not allowed in the front setback area for individual lots and building sites, except within approved driveways.

b. Garage Design

1. A fully enclosed two-car garage with a clear and free minimum interior dimension of 20 feet in width and 22 feet in length shall be provided, except on lots having a width of 50 feet or less, a fully enclosed tandem garage with a clear and free minimum interior dimension of 12 feet in width by 44 feet in depth may be provided. All garages shall be constructed in compliance with the City Building & Safety Division requirements.

2. Detached garage structures shall be designed using at least two of the same exterior finish materials and/or colors used on the principal structure and shall be provided with decorative sectional roll-up doors constructed of durable material, such as wood or metal. Doors constructed of plywood sheeting shall not be allowed.

3. When the width of the driveway exceeds 20 feet in width (as measured five feet in front of the garage), a decorative driveway, which may consist of paver treatments, colored concrete, decorative concrete finishes, or other treatments as approved by the Director, shall be required. Stamped concrete shall not be allowed.

4. Services and Utilities

   a. Utilities. All new utility boxes and equipment and utility connections shall be undergrounded unless otherwise prohibited by the utility provider (e.g., water backflow prevention device that must be placed above ground) or the City Engineer grants an exemption following his/her determination that such undergrounding is not practicable.

   b. Utility Hookups. Utility hookups and an area to accommodate installation of a clothes washer and dryer shall be provided within the primary structure or within an enclosed accessory structure.

   c. Location of Above-ground Utilities and Service Areas. All above-ground utilities and equipment (e.g., electric and gas meters, fire sprinkler valves, irrigation backflow prevention devices, etc.), shall be integrated into building and landscape design and located to minimize impact on the pedestrian experience and neighboring properties by adhering to the below standards:

   d. Utilities and equipment shall be located on non-primary street frontages, alleys, parking areas, and/or at the rear or side of buildings.

   e. Utilities and equipment shall be fully screened from view and not be located within the front or street side setback area of the lot or development site.

   f. Air-Conditioning Equipment. No new roof-mounted air conditioning equipment or evaporative coolers visible from the public right-of-way shall be allowed. Push through air conditioning units or evaporative coolers may be allowed on any side or rear elevation, as long as they are not visible from any public right-of-way. Air conditioning equipment shall be ground-mounted, set back a minimum of five feet from any side or rear property line and shall not be located within the required front yard setback.

5. Refuse and Recycling.

   a. Single-family residential development projects do not require communal or shared trash and recycling areas/containers. In such cases, no enclosure structure shall be required, however individual trash and recycling containers shall be stored in such a manner that containers are not visible from public view from the front of the property. Containers may be placed in public view for purposes of collection only on the scheduled collection day and shall be removed from public view following said collection.

   b. For cluster homes, cottages, and auto courts, common refuse and recycling containers and collection areas shall be adequate in capacity, number, and distribution to accommodate all waste generation of the site. The number of containers and collection areas shall be reviewed by

the local disposal service and approved by the Director. Common refuse and recycling collection areas shall be located inside of enclosures located along alleys, in parking areas, or at the rear or side of buildings and shall be fully screened from view per the screening standard in CMC Section 17.19.020.B.5.c (Service, Utility, and Equipment Screening) below. Communal refuse collection areas shall be prohibited on primary frontages.

c. Service, Utility, and Equipment Screening. Screening of common refuse collection areas, utilities, and equipment shall be equal to or higher than the height of the equipment to be screened. Screening materials shall consist of a primary exterior finish material used on other portions of the residential units.

C. Building and Façade Design Standards

1. Architectural Variability. For all developments involving five or more contiguous lots, there shall be multiple "distinctly different" front façade designs. No more than two houses shall be of the same front façade design as any other house directly adjacent along the same block face and side of the street. Mirror images of the same configuration do not meet the intent of "distinctly different." "Distinctly different" shall mean that a single-family dwelling's elevation must differ from other house elevations in the following criteria. The number of required different front ~~facade~~façade designs shall be in accordance with Table 17.19-1. Architectural Variability.

a. Number of stories (optional);

b. Modulation strategies~~.~~ - at least one ((see CMC Section 17.19.020.C.2 (Façade Modulation and Articulation);

c. Articulation strategies~~.~~ - at least one ((see CMC Section 17.19.020.C.2 (Façade Modulation and Articulation); and,

d. Variation in materials~~.~~ - different material palette, with a different primary material.

Table 17.19-1. Architectural Variability

Total number of Dwelling Units	Minimum Number of Façade Designs
4 – 8	2
9 – 20	3
21 – 30	4
31 – 40	5
41 – 60	6
61 – 100	7
>100	8

2. Façade Modulation and Articulation

a. Modulation. Residential units shall employ at least two of the following building modulation strategies:

1. Varied roof forms, including but not limited to changes in roof height, offsets, change in direction of roof slope, dormers, parapets, etc.;

2. Use of balconies, front porches, overhangs, or covered patios; and/or,

3. Projections, offsets, and/or recesses of the building wall at least one foot in depth, including but not limited to bay windows, chimneys, brackets, and cornices.

b. Articulation. All building elevations that face a street or a cluster driveway shall employ varied façade articulation of wall surfaces. Facades shall incorporate at least three of the following features, consistent in design style, which provide articulation and design interest:

1. Variation in texture or material, provided all exterior wall textures and materials are consistent with the overall architectural style of the dwelling;

2. Decorative trim elements that add detail and articulation, such as door surrounds with at least a two-inch depth, decorative eave detailing, belt courses, etc.;

3. Railings with a design pattern and materials such as wood, metal, or stone which reinforces the architectural style of the building;

4. Decorative window elements such as, lintels, shutters, window boxes, etc.; and/or,

5. Increased roof overhangs at least 18 inches deep.

c. Side and Rear Elevations. In no case shall any side or rear elevation be a solid blank wall with no articulation. Side facades facing a private street or common driveway shall include details which are compatible with those on the ~~front~~ façade~~facade~~, with similar types and treatments of roofs, windows, shutters, planter boxes, and other architectural elements.

3. Window Trim or Recess. Trim at least two inches in depth shall be provided around all windows, or windows shall be recessed at least two inches from the plane of the surrounding exterior wall. Foam trim material is prohibited.

4. Building Entries.

a. Orientation.

1. Dwelling units that abut a public right-of-way shall orient the primary entryway toward the public street. Exceptions to this requirement may be approved by the Director or his/her designee for projects where the project site is located on a Major or Primary Arterial (with and without Bicycle facilities), provided the façade facing the public street is designed with similar details and treatments to those of the front façade.

2. Dwelling units located in the interior of a development shall orient the primary entryway toward and be visible from a private street, pedestrian pathway, or open space that is connected to a public right-of-way or private street.

b. Projection or Recess. Building entrances shall have a roofed projection (such as a porch) or recess with a minimum depth of at least six feet and a minimum area of 36 square feet. Exceptions to this requirement may be approved by the Director or his/her designee for alternative designs that create a welcoming entry feature facing the street, such as a trellis or landscaped courtyard entry.

c. Grade. Ground floor/entry height shall be a maximum of three feet above grade.

5. Building Roofs.

a. Roof Form. Primary roof forms shall be gable, hipped, flat, or shed.

b. Roof Pitch. Steep roofs with a rise to run ratio over 6:12 (26.6 degrees) are prohibited.

c. Gable Overhangs. All residential structures shall have eave and gable overhangs of not less than 12 inches measured from the vertical side of the residential structure, unless overhangs are

architecturally incompatible with the design of the structure as approved by the Director or his/her designee.

d. Roof Materials. Roof materials shall be non-combustible; shake and composite shingles shall be prohibited on any new single-family residential structure.

e. Roof Vents. All roof vents shall be flat or similar style.

6. Colors and Materials.

a. Variation in Materials. Each home shall incorporate at least three materials for facades.

b. Siding Materials. Siding material shall consist of stucco, wood, brick, stone, or decorative concrete block. Synthetic products of a similar appearance, equivalent durability, and providing equivalent fire resistance may be allowed. Metal siding, if utilized, shall be non-reflective and horizontally overlapping. The exterior covering material shall extend to a point at or near grade except that if an approved solid wood, metal, concrete, or masonry perimeter foundation is used, the exterior covering material need not extend below the top of the foundation.

c. Building Component Colors. All vents, gutters, downspouts, flashing, electrical conduits, etc., shall be painted to match the color of the adjacent surface.

7. Transitions and Privacy.

a. Window Placement. Windows on adjacent units shall be offset by at least three feet to avoid direct sightlines into and from neighboring properties.

b. Upper-Story Decks and Balconies. Upper-story decks and/or balconies over 20 square feet in area shall be setback a minimum of 15 feet from the property line when adjacent to a single-family zoned property.

c. Landscape Buffer. For development projects of six units or more, a landscaped planter strip of at least three feet in width shall be provided along the abutting property line between a small lot subdivision/development and any adjoining low-density residential zoning district boundaries. Trees shall be planted within this area every 20 to 40 feet on center (depending on the tree species and canopy at maturity) to provide screening between the small lot subdivision/development and the adjacent low-density residential uses.

8. Accessory Structures. Accessory structures over 120 square feet such as detached garages, porches, pergolas, and other similar structures shall be architecturally compatible with the primary residential structure by incorporating at least two of the same colors, materials, design elements, or roof materials. Attached solid patio covers with a 3:12 pitch or greater shall substantially match the existing roof material and color. If a pitch less than 3:12 is proposed, the roof shall only be required to match the color of the primary structure roof. If open lattice is proposed, it shall match the existing trim color of the primary structure.

Chapter 17.20 to 17.21 RESERVED

Chapter 17.22 R-MH MOBILEHOME PARK SUBDIVISION

17.22.010 Intent and purpose.

It is the intent of this chapter to provide regulations for the placement of mobilehomes on individual lots within an approved subdivision specifically designed and designated for the sale, not rental, of lots to accommodate mobilehomes as the dwelling unit. The minimum site that may be zoned for this purpose shall be twenty (20) acres, including one-half but not to exceed thirty-three (33) feet of width of adjacent boundary streets dedicated to the public. This zone implements mobilehomes in several General Plan land use designations.

(Prior code § 036.01)

17.22.020 Permitted uses.

The following uses are permitted in the R-MH (Mobilehome) zone, subject to all provisions of this chapter:

A. Primary Uses.

1. Mobilehomes for residential use; in no event shall more than one mobilehome be used for residential purposes on a lot.

2. Public Utility Facilities (City-initiated).

B. Accessory Uses. The following buildings, structures, and uses are permitted when clearly incidental and accessory to the primary permitted use:

1. Patio slab, awning, carport or garage, swimming pool, pool bathhouse, storage, and washroom building.

2. Permitted Signs. Only the following signs shall be permitted:

a. One nameplate not to exceed one foot square in area.

b. One unlighted sign pertaining to the rental, sale, or lease of the premises, not to exceed six feet in area. Such signs shall be located at least ten (10) feet from any property line.

C. Conditional Uses. The following uses may be permitted in the R-MH (Mobilehome) zone, subject to obtaining a conditional use permit as specified in Section 17.74.010.

1. Community recreation facilities for the use of individual lot owner within the subdivision may be developed after the provisions for their continued and proper operation have been approved by the ~~planning commission~~Planning Commission. The maintenance of the community recreation and service areas shall be assured by provisions in the deeds, such as covenants running with the land, providing for participation by the individual lot owners and the responsibility and cost thereof.

2. Temporary real estate tract offices, to be used only during the original sale of the subdivision, but not to exceed a period of one year.

(Prior code § 036.02)

17.22.030 Property development standards.

A. Lot Requirements.

1. Minimum Lot Area. Four thousand five hundred (4,500) square feet.
2. Minimum Lot Width. Forty (40) feet.
3. Minimum Lot Depth. Ninety (90) feet.
4. Minimum Street Frontage. Not less than thirty-five (35) feet.

B. Yard Requirement.

1. Minimum Front Yard Depth. Twenty (20) feet.
2. Minimum Side Yard Width. Five (5) feet.
3. Minimum Rear Yard. Five (5) feet.

C. Height Limit.

1. Primary Use. Fifteen (15) feet.
2. Accessory Use. Fifteen (15) feet.
3. Conditional Use. Two (2) stories or thirty-five (35) feet, whichever is less.

D. Off-Street Parking. Off-street parking shall be provided for, subject to the requirements of Section 17.54.010 of this title.

E. On-Site Recreation.

1. A concrete slab or other standard metal or wood deck containing at least two hundred (200) square feet shall be installed on each lot prior to placing a mobilehome on each lot for residential purposes. This area is to be in addition to any area required for parking.

(Prior code § 036.03)

17.22.040 Other regulations.

A. No R-MH (Mobilehome) zone shall be applied to an area containing structures that do not conform to the R-MH (Mobilehome) zone.

B. Camping and boat trailers may be stored on the property providing they are kept on the rear half of the lot. All other materials shall be maintained within a completely enclosed storage structure.

C. All trailers and mobilehomes shall be kept mobile.

D. All trailers and mobilehomes shall carry a current state license.

(Prior code § 036.04)

Chapter 17.24 C-N NEIGHBORHOOD COMMERCIAL ZONE

17.24.010 Intent and purpose.

This zone is intended to provide for ~~everyday~~every day~~,~~ convenience shopping intended to serve residential neighborhoods, consistent with the environmental requirements of such neighborhoods. Convenience shopping facilities are those which provide space for retail and service businesses serving the immediate neighborhood. This zone also provides the opportunity for multi-family housing mixed in with the neighborhood serving uses, all within convenient walking or biking distance of nearby neighborhoods. These areas provide gathering places for the residents of surrounding neighborhoods. The provisions of this zone are intended to minimize or eliminate, insofar as possible, any conflicting aspects of commercial land use within residential neighborhoods, particularly as related to traffic, type of activity, and site requirements. This zone implements the Neighborhood Center land use designation in the General Plan.

(Prior code § 040.01)

17.24.020 Permitted uses.

The following uses are permitted in the C-N (Neighborhood Commercial) zone, subject to all provisions of this chapter:

A. Primary Uses.

1. Local retail businesses primarily intended to serve the immediate neighborhood, provided that no one use shall exceed ~~five~~ ten thousand (~~5~~10,000) square feet of floor area, including the following:
    a. Grocery, fruit, or vegetable store; meat market.~~;~~
    b. Meat, fish, or dressed poultry (no live poultry) sales.~~;~~
    c. Bakery.~~;~~
    d. Drugstore.~~;~~
    ~~e. Reserved;~~
    ~~f~~e. Hardware store.~~; and~~
    ~~g~~f. Restaurant, ~~cafe~~café, or soda fountain, not including entertainment, dancing, sale of liquor, beer, or other alcoholic beverages.
2. Local service businesses primarily intended to serve the immediate neighborhood, including the following:
    a. Barber or beauty shop.~~;~~
    b. Child care centers.~~;~~
    c. Clothes cleaning and laundry pickup stations, laundromat, coin-operated ~~dry cleaning~~dry-cleaning establishment.~~;~~
    d. Offices of physicians, dentists, optometrists, chiropractors, accountants, and realtors.~~; and~~
    e. Tailor, dressmaker.
3. Multi-tenant retail, up to 35,000 square feet of floor area.
4. Public Utility Facilities (City-initiated).

5. Existing single family residential uses built before the date of this adoption.

B. Accessory Uses. The following buildings, structures, and uses are permitted when clearly incidental and accessory to the primary permitted use:

1. Signs as follows, subject to all provisions of Section 17.56.010 of this title.

a. One unlighted sign pertaining to the rental, sale, or lease of the premises, not to exceed twenty (20) square feet in area.

b. Advertising signs pertaining only to the goods and services sold on the premises, or to the name of the establishment. The total aggregate area of all signs pertaining to any one establishment shall be eighty (80) square feet.

2. Canopies, arcades, carports, or similar shading devices.

3. Other accessory buildings, structures and uses customarily appurtenant to a primary permitted use.

C. Conditional Uses. The following uses may be permitted in the C-N (Neighborhood Commercial) zone, subject to obtaining a conditional use permit as specified in Section 17.74.010 of this title.

1. Those uses allowed as conditional uses by Section 17.~~16~~12.020(C) of the ~~R-S~~S-N (Suburban Neighborhood) zone~~;~~.

2. Multi-family residential (5+ units).

3. Ambulance services.

4. Automobile accessories and parts.

~~2. Lodges, fraternal organizations, and clubs;~~

~~3~~5. Automobile service stations~~;~~.

~~4. Dwelling units, Residential (5+ units)multiple family, limited to second story;~~

~~5. Liquor sales, subject to Section 17.74.015; and~~

~~5~~6~~6~~. Automotive repair garage as an accessory to automobile service station.

7. Bars and cocktail lounges.

8. Bowling, pool, or billiard centers.

9. Bus terminals, depots, and similar transit facilities.

10. Check cashing services.

11. Commercial cannabis testing laboratories, pursuant to Chapter 17.85.

12. Non-storefront cannabis retailers and non-storefront retail microbusinesses, pursuant to Chapter 17.84.

13. Car washes.

14. Commercial parking lots.

15. Commercial psychic activities.

16. Dance halls.

~~6~~17. Drive-in, walk-up, or other fast-food establishments~~;~~.

18. Engineering research and testing firms and laboratories.

~~36~~19. Hotels, motels.~~;~~

~~7. Bus terminals, depots, and similar transit facilities;~~

~~8. Thrift Stores;~~

~~9. Ambulance services;~~

~~10. Car washes;~~

20. Laundromat/coin operated laundry so long as a full-time attendant is provided.

21. Liquor sales, subject to Section 17.74.015.

22. Lodges, fraternal organizations, and clubs.

23. Mattress manufacture.

24. Mortuaries.

~~33~~25. Neighborhood recycling centers, pursuant to Chapter 17.90~~11. Pawn shops;~~

~~12. Bowling, pool, or billiard centers;~~

~~13. Commercial parking lots;~~

~~14. Tourist camps;~~

~~15. Automotive repair garage as an accessory to automobile service station;~~

~~16. Commercial psychic activities;~~

~~17. Liquor sales, subject to Section 17.74.015;~~

~~18. Automobile accessories and parts;~~

~~19~~26.

26. New and used automobile sales and mobilehome sales, located on sites with frontage on Cesar Chavez Street provided that a ten-foot landscaped setback from the planned highway right-of-way line be maintained.~~;~~

27. Pawn shops. ~~20. Engineering research and testing firms and laboratories;~~

~~21. Truck, farm implement and machinery sales and rental, sale of parts;~~

~~22. Laundromat/coin operated laundry so long as a full-time attendant is provided;~~

~~23. Plumbing shop, provided all outside storage is completely screened;~~

~~24~~8. Parcel or overnight delivery services.~~;~~

~~25~~9. Photocopying, photo processing and blueprinting~~;~~.

~~23~~30. Plumbing shop, provided all outside storage is completely screened.~~;~~

~~26.~~31. Printing establishments.~~;~~

32. Private lodges, clubs, meeting halls.

33. Special event establishments.

~~26. Mattress manufacture;~~

~~27. Reserved;~~

~~28. Mortuaries;~~

~~29~~34. Swap meet, indoor.~~;~~

~~30~~5. Swap meet, outdoor~~;~~.

36. Taproom.

~~31. Multi-tenant retail;~~

~~32~~7. Tattoo and body piercing parlors~~;~~.

38. Thrift stores.

39. Truck, farm implement and machinery sales and rental, sale of parts.

~~33. Neighborhood recycling centers, pursuant to Chapter 17.90;~~

~~34. Commercial cannabis testing laboratories, pursuant to Chapter 17.85;~~

~~35. Non-storefront cannabis retailers and non-storefront retail microbusinesses, pursuant to Chapter 17.84.~~

~~36. Hotels, motels;~~

~~37. Private lodges, clubs, meeting halls;~~

~~38. Check Cashing services;~~

~~39. Dance Halls;~~

~~40. Bars and Cocktail Lounges;~~

~~42. Special Event Establishments;~~

~~43. Taproom~~

(Prior code § 040.02)

(Ord. No. 1088, § 1, 12-14-16)

17.24.030 Property development standards.

The following standards of development shall apply in the C-N (Neighborhood Commercial) zone:

A. Residential Density and Non-Residential Intensity.

1. Minimum Density. 15 dwelling units/acre, when residential uses are provided.

2. Maximum Density. 40 dwelling units/acre.

3. Maximum FAR. 1.5.

~~A~~B. Lot Requirements.

1. Minimum Lot Area. Five thousand (5,000) square feet.~~;~~ ~~parcels not contiguous to C-N (Neighborhood Commercial) zoned property shall have a minimum area of one-half acre~~twenty thousand (20,000) square feet~~.~~

2. Minimum Lot Width. Fifty (50) feet.

3. Minimum Lot Depth. None.

4. Maximum Lot Coverage. No limit.

~~B~~C. Yard Requirements.

1. Front Yard. Where one or both adjoining zones are residential, a yard shall be provided which is equal in depth to the average of the required front yards of the adjoining zones.

2. Side Yard. Where a C-N (Neighborhood Commercial) zone adjoins a street or a residential zone, there shall be a side yard of not less than ten (10) feet on the side or sides adjoining such street or residential zone. In the case of a reversed corner lot, the side yard adjoining the street shall be not less than the required front yard of the adjoining key lot to the rear.

3. Rear Yard. Where the C-N (Neighborhood Commercial) zone adjoins a residential zone, there shall be a rear yard of not less than ten (10) feet adjoining that residential zone. In the case of a building or structure for residential use, there shall be a rear yard of not less than twenty (20) feet.

4. Permitted Encroachments in Required Yard. The yards required in subsections 1—3 of this section may be used as part of an automobile parking area, provided however that a minimum three-foot wide screen planting strip shall be maintained adjacent to the planned highway right-of-way line.

~~C~~D. Height Limit. The maximum height of any building or structure shall be ~~two~~ three stories or ~~thirty-five~~fifty (~~35~~50) feet, whichever is less.

~~D~~E. Distance Between Buildings. Buildings not actually adjoining shall be provided with a minimum eight-foot separation.

~~E~~F. Off-Street Parking and Loading. Off-street parking and loading facilities shall be provided in accordance with the provisions of Section 17.54.010.

~~F~~G. Screening. Where the C-N (N~~n~~eighborhood C~~c~~ommercial) zone abuts upon any residential zone, there shall be provided screening not less than six feet or more than eight feet in height on the zoning boundary line. Said screening shall be reduced to forty-two (42) inches in height within a setback area adjacent to a street or highway.

~~G~~H. Other Property Development Standards.

1. All residential uses shall follow the site development standards for U-N (Urban Neighborhood) zone, except as noted in this subsection.

2. Any structure originally designed or intended for residential purposes may be used for service businesses, (except clothes cleaning, etc.) as permitted in this zone, subject to all provisions of this article, and further subject to the following conditions:

   a. The required front yard of the structure shall be permanently maintained in landscaping as defined in Section 17.60.010(D)(4).

   b. All parking shall be provided to the rear of the residential structure.

   c. All structures shall conform to all provisions of the applicable building, housing, and fire codes of the city.

   d. Signs permitted shall be limited to a total surface area twenty (20) square feet.

   e. No structure shall be used for residential and commercial uses at the same time.

2. All uses shall be conducted entirely within a completely enclosed building, except for off-street parking and loading facilities, and automobile service stations permitted subject to Section 17.24.020(C)(3).

~~H~~I. All new multi-family residential development shall be designed pursuant to the City of Coachella Multi-Family Objective Design Standards.

J~~I~~. Architectural Review. All development in the C-N (Neighborhood Commercial) z~~Z~~one~~,~~ is subject to architectural review as set forth in Section 17.72.010 of this title.

(Prior code § 040.03)

Chapter 17.26 C-G GENERAL COMMERCIAL USE ZONE

17.26.010 Intent and purpose.

This zone is intended to provide for and encourage the orderly development of commercial areas designed to serve ~~the~~ community-wide needs. Such areas provide a wide variety of goods and services~~,~~ and must be consistent with the overall development of the city and its environs. The provisions of this zone are intended to ~~insure~~ensure that such commerce will be compatible with adjacent, noncommercial development, and to minimize the undesirable effects of heavy traffic, type of activity, and to set forth site requirements. This zone implements the Suburban Retail land use designation in the General Plan.

(Prior code § 042.01)

17.26.020 Permitted uses.

The following uses are permitted in the C-G (General Commercial) zone, subject to all provisions of this chapter:

A. Primary Uses.

1. All uses permitted by ~~subsection~~ Section 17.24.010 A of ~~this section~~ the C-N (Neighborhood Commercial) zone except laundromats/coin-operated ~~dry cleaning~~dry-cleaning establishments.

2. Retail Uses~~;~~:

a. Antique shop.

b. Appliance store.

c. Automobile accessories and parts.

d. Art gallery.

e. Bicycle shop.

f. Bookstore.

g. Cigar or tobacco store.

h. Clothing or apparel sales.

i. Confectionery store.

j. Department store.

~~k. Dress or millinery shop~~

k. Drugstore.

l. Electronics store.

m. Furniture store.

n. Grocery store.

~~n. Hobby shop.~~

o. Interior decorator.

p. Jewelry store.

q. Lapidary.

r. Motorcycle sales and accessories.

~~q. Notions store.~~

s. Pet shop, including grooming, but no kennel.

t. Photographic supplies.

~~u. Radio and television.~~

u. Restaurant without liquor sales.

v. Shoe store.

w. Sporting goods store.

x. Toy store.

y. Unfinished furniture sales (new).

z. Yardage store.

~~3~~13. Multi-tenant retail.

4. Service Businesses.

a. Bicycle repair shop~~;~~.

b. Blueprinting service~~;~~.

c. Business, trade schools~~,~~;

d. Drafting service~~.~~;

e. Drycleaning establishments.

f. Exhibition ha~~i~~ll, theater, auditorium~~,~~;

~~f~~g. Hotels and~~,~~ motels~~,~~;

~~g. Job printer;~~

h. Library or reading room~~.~~;

i. Locksmith~~,~~;

j. Medical or dental clinic~~;~~.

k. Microfilm service~~;~~.

~~1~~l. Mortuary~~;~~.

m. Photo studio~~;~~.

n. ~~n.~~ Private lodges, clubs, meeting halls~~,~~;

o. Radio, television repair~~;~~

p. Rental of household, sickroom, and office equipment~~;~~.

q. Secretarial service~~;~~.

r. Shoe repair~~;~~.

s. Small appliance repair~~;~~.

t. Studio, dancing, music, art, etc.

u. Telephone answering service~~;~~.

v. Tuxedo/costume rental.

~~u. drycleaners~~

~~4~~5. Office uses of all types, including but not limited to the following:

a. Medical and dental offices~~;~~.

b. Administrative, business, executive and editorial.~~;~~

c. Professional offices.~~;~~

d. Financial, insurance, real estate offices, including banks and related institutions.~~;~~

e. General offices.

~~5~~6. Outdoor Uses. Only the following outdoor uses are permitted:

~~a. Automobile service stations, including self-service stations or self-service islands at a store, but only if such self-service establishments maintains restroom facilities for both sexes and water and air for the vehicles;~~

~~b. New and used automobile sales and mobile homemobilehome sales, provided that a ten-foot landscaped setback from the planned highway right-of-way line be maintained;~~

a~~c~~. Plant nurseries, provided that all areas devoted to outdoor storage of other than live plant material shall be completely screened from view from arterial highways and abutting residential properties. No bulk storage of sand, gravel, fertilizer, or other chemical or organic materials is permitted.~~;~~

~~d. Auto parking and loading area;~~

~~e. Storage yards; provided, that a ten (10) foot landscaped setback from planned street right-of-way be permanently maintained and that all outside storage shall be completely screened from view from streets, highways, and abutting properties. Bulk storage of sand, gravel or other materials which may be conveyed by wind onto adjacent properties shall be located within walled structures allowing enclosure on all sides.~~

7. Public Utility Facilities (City-initiated).

B. Accessory Uses. The following buildings, structures, and uses are permitted when clearly incidental and accessory to a primary permitted use:

1. Wholesaling of products.

2. The manufacturing, processing, treatment, or storage of products which is clearly incidental to the retail or service business conducted on the premises, provided that:

a. The premises are not the primary source of the production of goods sold on the premises.

b. Not more than twenty-five (25) percent of the ground floor area shall be used for such purposes.

c. No motor exceeding one horsepower be used for manufacturing, treatment, or processing in connection therewith, and that the total horsepower so used shall not exceed five horsepower. This restriction shall not apply to air conditioning equipment.

d. No portion of any building or premises so used shall be less than fifty (50) feet from any residential district.

3. Dwelling, where used by a proprietor, manager, or custodian of a use permitted within this zone~~, provided that the minimum floor area of such a dwelling shall be that which may be required in the R-M zone~~.

4. Signs as follows, subject to all provisions of Section 17.56.010 of this title:

a. One unlighted sign pertaining to the rental, sale, or lease of the premises, not to exceed twenty (20) square feet in area.

b. Advertising signs pertaining only to the goods and services sold on the premises, or to the name of the establishment. The total aggregate area of all signs pertaining to any one establishment shall be one hundred fifty (150) square feet for those establishments with less than one thousand five hundred (1,500) square feet of gross floor area, and two hundred fifty (250) square feet for those establishments with one thousand five hundred (1,500) or more square feet of gross floor area.

5. Canopies, arcades, carports, or similar shading devices.

6. Other accessory uses customarily appurtenant to a primary permitted use.

C. Conditional Uses. The following uses may be permitted in all sectors of the CG zone subject to obtaining a conditional use permit pursuant to Chapter 17.74.

1. Ambulance services.

2. Automobile accessories and parts.

3. Automotive repair garage as an accessory to automobile service station.

4. Automobile service stations, including self-service stations or self-service islands at a store, but only if such self-service establishments maintain restroom facilities for both sexes and water and air for the vehicles.

5. Bars and Cocktail Lounges.

6. Bowling, pool, or billiard centers.

7. Bus terminals, depots, and similar transit facilities.

8. Car washes.

9. Ceramic products manufacture.

10. Check Cashing services.

11. Commercial cannabis testing laboratories, pursuant to Chapter 17.85.

12. Commercial parking lots.

13. Commercial psychic activities.

14. Dance Halls.

15. Drive-in, walk-up, or other fast-food establishments.

~~16. Drycleaners~~

16. Engineering research and testing firms and laboratories.
17. Laundromat/coin operated laundry so long as a full-time attendant is provided.
18. Liquor sales, subject to Section 17.74.015.
19. Mattress manufacture.
20. Mini-Storage Warehouse as accessory to a permitted use.
21. Multi-bay auto repair.
22. Mortuaries.
23. Neighborhood recycling centers, pursuant to Chapter 17.90;
24. New and used automobile sales and mobilehome sales, provided that a ten-foot landscaped setback from the planned highway right-of-way line be maintained.
25. Non-storefront cannabis retailers and non-storefront retail microbusinesses, pursuant to Chapter 17.84.
26. Pawn shops.
27. Parcel or overnight delivery services.
28. Photocopying, photo processing and blueprinting.
29. Plumbing shop, provided all outside storage is completely screened.
30. Printing establishments.
31. Sign manufacture.
32. Special Event Establishments.
33. Taproom.
34. Tattoo and body piercing parlors.
35. Thrift stores (Reconditioned or used merchandise sales)
36. Tourist camps.
37. Truck, farm implement and machinery sales and rental, sale of parts.
38. Swap meet, indoor.
39. Swap meet, outdoor.

~~D. Area-Specific Conditional Uses. Because of unique or special constraints, the following uses may be permitted within certain specified sectors of the C-G (General Commercial) zone subject to obtaining a conditional use permit as specified in Section 17.74.010. Each use is followed by a general location designating areas within the C-G (General Commercial) zoning district where these applications may be approved.~~

~~1. North of Mitchell Drive and East of Frederick Street:~~

~~a. Automotive repair garage, body and fender works, within a completely enclosed building.~~

~~b. Upholstering and reupholstering establishments within a completely enclosed building.~~

~~c. Prohibited in all other areas.~~

~~2. North of the Highway 86/Highway III split or south of Avenue 52:~~

a. Mini-storage warehouses.

b. Storage yards:

(a) Building materials, retail sales.

(b) Lumber yards, retail sales.

(c) Equipment rental yards.

Prohibited in all other areas.

ED. Prohibited Uses. The following uses are prohibited in the C-G (General Commercial) zone:

1. Residential.

2. Mobilehomes.

(Prior code § 042.02)

(Ord. No. 1033, § 2, 1-11-12; Ord. No. 1065, § 2, 6-11-14; Ord. No. 1088, § 2, 12-14-16; Ord. No. 1108, § 1, 7-12-17; Ord. No. 1161-, § 2, 5-27-20)

17.26.030 Property development standards.

The following standards of development shall apply in the C-N (Neighborhood Commercial) zone:

A. Non-Residential Intensity.

1. Maximum FAR. 1.0.

BA. Lot Requirements.

1. Minimum Lot Size. Ten thousand (10,000) square feet; Parcels not contiguous to C-G (General Commercial) zoned property shall have a minimum area of five (5) acres.

2. Minimum Lot Width. Fifty (50) feet.

3. Minimum Lot Depth. None.

4. Maximum Lot Coverage. No limit.

BC. Yard Requirements.

1. Front Yard. Where one or both adjoining zones are residential, a yard shall be provided which is equal in depth to the average of the required front yards of the adjoining zones.

2. Side Yard. Where a C-G (General Commercial) zone adjoins a street or residential zone, there shall be a side yard of not less than ten (10) feet on the side or sides adjoining said street or residential zone. In the case of a reversed corner lot, the side yard adjoining the street shall be not less than the required front yard of the adjoining key lot to the rear.

3. Rear Yard. Where the C-G (General Commercial) zone adjoins a residential zone, there shall be a rear yard of not less than ten (10) feet adjoining that residential zone. This shall not apply where there exists a public alley separating the two zones.

4. Permitted Encroachments in Required Yards. The yards required in subsections 1—3 of this section may be used as part of an automobile parking area, provided however that a minimum three-foot wide screen planting strip shall be maintained adjacent to the planned highway right-of-way lines.

~~C~~D. Height Limits.

1. The maximum height of any building within one hundred thirty (130) feet of any residential zone shall be two stories or thirty-five (35) feet, whichever is less. Vehicular rights-of-way shall be included in calculating distance. The distance of one hundred thirty (130) feet is a minimum setback and setbacks requirements may be increased based on safety, privacy, views, noise, and light issues.

2. The maximum height of all other buildings shall be fifty (50) feet or three stories, whichever is less.

D. Distance Between Buildings. Buildings not actually joined, shall be provided with a minimum eight-foot separation.

E. Off-Street Parking And Loading. Off-street parking and loading facilities shall be provided in accordance with the provisions of Section 17.54.010.

F. Screening. Where the C-G (General Commercial) general commercial zone abuts any residential zone, there shall be provided screening not less than six feet or more than eight feet in height on the zone boundary line. Said screening shall be reduced to forty-two (42) inches in height within a required yard adjacent to a street or highway.

~~G. Other Property Development Standards.~~

~~1. Any structure originally designed or intended for residential purposes may be used for the purposes indicated below, subject to the following conditions:~~

~~a. The required front yard of the residential structure shall be permanently maintained in landscaping as defined in Section 17.60.010(D)(4).~~

~~b. All parking shall be provided to the rear of the residential structure.~~

~~c. All structures shall conform to all provisions of the applicable building, housing and fire codes of the city.~~

~~d. Signs permitted shall be limited to a total surface area of twenty (20) square feet.~~

~~e. No structure shall be used for residential and commercial uses at the same time.~~

~~f. The following uses shall be permitted:~~

~~(A) All uses permitted by Section 17.26.020(A)(4).~~

~~(B) Antique shop;~~

~~(C) Art gallery;~~

~~(D) Bather and beauty shop;~~

~~(E) Bookstore;~~

~~(F) Drafting service;~~

~~(G) Dressmaker;~~

~~(H) Gift shop;~~

~~(I) Hobby shop;~~

~~(J) Interior decorator;~~

~~(K) Knitting shop;~~

~~(L) Restaurant; and~~

~~(M) Tailor.~~

~~2. All uses shall be conducted entirely within a completely enclosed building, except for off-street parking and loading facilities, those outdoor uses permitted by Section 17.26.020(A)(5) and certain uses permitted subject to a conditional use permit by Section 17.26.020(C).~~

~~H~~G. Architectural Review. All development in the C-G (Ggeneral Ccommercial) ~~use~~ zone, is subject to architectural review as set forth in Section 17.72.010 of this title.

~~I~~H. Non-storefront retailer and non-storefront retail microbusiness. A non-storefront retailer or non-storefront retail microbusiness shall have a minimum of one hundred (100) feet separation from any residential structure; be at least five hundred (500) feet from any other storefront retail or non-storefront retail cannabis business; and may not be located in the City's Pueblo Viejo District. For purposes of this chapter, "Pueblo Viejo District" shall be that area in the city bounded by Cesar Chavez Street to the south, 1st Street to the west, Grapefruit Boulevard to the north, and 9th Street to the east.

(Prior code § 042.03)

(Ord. No. 1161~~.~~, § 3, 5-27-20)

Chapter 17.28 ~~C-T TOURIST COMMERCIAL~~ R-C REGIONAL COMMERCIAL ZONE

17.28.010 Intent and purpose.

This zone is intended to provide for and encourage ~~t~~a wide range of shopping and entertainment in a variety of urban and suburban formats. These include regional shopping centers, mixed destination centers or similar uses.~~he orderly development of commercial areas designed to serve the needs of tourists and the vacationing and motoring public, consistent with the overall development of the community. Such uses constitute an important an important activity to the community, and are vital to its health and well-being. The provisions of this zone are intended to insure that tourist commercial areas will be compatible with adjacent development.~~ The uses allowed in this zone will cater to regional clientele and provide a unique amenity to all residents of the Coachella Valley and an important revenue source for the City. Implementing the Regional Retail land use designation in the General Plan, the primary purpose of the zone is to provide for commercial opportunities, with residential uses supporting the retail environment.

(Prior code § 046.01)

17.28.020 Permitted uses.

The following uses are permitted in the ~~C-T~~R-C (Regional Commercial) zone, subject to all provisions of this chapter:

A. Primary Uses.

1. All retail establishments including big box retail (>35,000 square feet).

2. Automobile rental.

~~1~~3. Hotel.~~;~~

~~2~~4. Motel~~;~~.

~~3~~5. Resort.

~~4~~6~~3~~. Restaurants ~~without liquor sales.~~;

~~5. Retail establishments for the sale of souvenirs, curios, film, magazines and other products customarily provided to meet the needs of the public;~~

~~6~~7.

~~5. Exhibit hall, tourist centers;~~

~~6. Automobile club offices;~~

~~7. Outdoor Uses. Only the following outdoor uses are permitted:~~

~~a. Golf courses, driving ranges;~~

~~b.~~ Private s~~S~~wimming pools.~~;~~

~~7. Automobile rental;~~

~~8.~~ Public Utility Facilities (City-Initiated).

~~c. Automobile service station.~~

B. ~~Local service business~~ All uses permitted by S~~subsection A of this s~~ection 17.26.020 in Chapter 17.26~~the~~ C-G (General Commercial).

~~primarily intended to serve the immediate neighborhood, including the following:~~

~~a. Barber or beauty shop;~~

~~b. Drugstores;~~

~~c. Clothes cleaning and laundry pickup stations, laundromat, coin-operated dry-cleaning establishment;~~

~~d. Offices of physicians, dentists, optometrists, chiropractors, accountants, and realtors; and~~

~~e. Tailor, dressmaker.~~

~~B. Tourist-Related Uses. The following uses are permitted only where integrated with and clearly incidental to a primary use, and where part of a hotel or motel building, and where the intent is to serve the needs of tourists:~~

~~1. Barber or beauty shop;~~

~~2. Drugstores;~~

~~3. Tobacco, candy, newspaper and magazine counter;~~

~~4. Laundromat, clothes cleaning agency;~~

~~5. Travel agency;~~

~~6. Automobile rental agency office (no auto storage or service permitted.)~~

C. Accessory Uses. The following buildings, structures, and uses are permitted when clearly incidental and accessory to primary permitted use:

1. Dwelling, where used by a proprietor, manager, or custodian of a use permitted within this zone~~, provided that the minimum floor area of such a dwelling shall be that which may be required in the R-M zone~~.

2. Ice vending machines, of three-ton capacity or less subject to all other provisions of this zone. Such machines shall be located so as not to interfere with the movement of traffic on the site.

~~3. Recreational buildings, structures, and uses designated to serve the patrons of primary permitted use.~~

~~4. Signs as follows, subject to all provisions of Section 17.56.010 of this title.~~

~~a. One unlighted sign pertaining to the rental, sale, or lease of the premises, not to exceed twenty (20) square feet in area.~~

~~b. Advertising signs pertaining to the goods and services sold on the premises, or to the name of the establishment. The total aggregate area of all signs pertaining to any one establishment shall be two hundred fifty (250) square feet.~~

~~5. Other accessory uses customarily appurtenant to a primary permitted use.~~

D. Conditional Uses. The following uses may be permitted the ~~C-T~~R-C (Regional Commercial) zone subject to obtaining a conditional use permit as specified in Section 17.74.010.

1. Amusement center or theme park.

2. Automotive repair garage as an accessory to automobile service station.

3. Automobile service station.

4. Bars and Cocktail lounges.

5. Billiard parlor.

~~6~~3. Bowling alley~~;~~.

~~7~~67. Bus terminals, depots, and similar transit facilities.~~;~~

~~8~~78. Car washes as part of a multi-tenant retail center.~~;~~

9. Commercial Parking Lot.

10. Drive-in or walk-up or other fast-food service establishments.

11. Exhibition hall, conference center, theater, amphitheater, auditorium.

12. Golf courses, driving ranges.

13. Hospital Uses.

~~6~~14. Liquor sales, subject to Section 17.74.015;

~~8~~159. Medical offices.~~Tourist camps;~~

16. Microbreweries and taproom.

17. Mini-storage warehouse as an accessory to a permitted use.

18. Multiple-family residential (5+ units).

19. New and used automobile sales and recreational vehicle sales.

~~18~~20. Recreational vehicle storage as an accessory to a permitted use.~~;~~

21. Restaurants with liquor sales.

22. Skating rinks.

23. Special event establishments.

~~2~~14. Sports Complex.~~;~~

25. Theater, including drive-in.

(Prior code § 046.02)

(Ord. No. 1088, § 3, 12-14-16)

17.28.030 Property development standards.

The following standards of development shall apply in the R-C (Regional Commercial) zone:

~~A~~ A. Residential Density and Non-Residential Intensity.

1. Minimum Density. 10 dwelling units/acre, when residential uses are provided.

2. Maximum Density. 15 dwelling units/acre.

3. Maximum Non-Residential FAR. 2.0.

B. Residential uses shall follow the development standards in Section 17.14.030 for multi-family uses and the City of Coachella Multifamily Objective Design Standards.

C. Lot Requirements.

1. Minimum Lot Size. The minimum lot size shall be t~~wenty~~en thousand (2~~1~~0,000) square feet for commercial uses.

2. Minimum Lot Width. None.

3. Minimum Lot Depth. None.

4. Maximum Lot Coverage. None.

D~~B~~. Yard Requirement.

1. Front Yard. Each lot or building site shall have a front yard of at least fifteen (15) feet in depth, except where one or both adjoining zones are residential, in which case the required yard shall be increased to equal the average of the required front yards of the adjoining zones.

2. Side Yard. There shall be no side yard requirement except where a ~~C-T~~R-C (Regional Commercial) zone adjoins a street or a residential zone, in which case there shall be a side yard of not less than ten (10) feet on the side or sides adjoining said street or residential zones. In the case of a reversed corner lot, the side yard adjoining the street shall be not less than the required front yard of the adjoining key lot to the rear.

3. Rear Yard. There shall be no rear yard requirement except where the ~~C-T~~R-C (Regional Commercial) zone adjoins a residential zone, in which case there shall be a rear yard of not less than ten (10) feet adjoining that residential zone. This shall not apply where there exists a public alley separating the two zones.

4. Permitted Encroachments in Required Yards.

   a. The yards required in subsections 1—3 of this section may be used as part of an automobile parking area, provided however that a minimum three-foot wide screen planting strip shall be maintained adjacent to the planned highway right-of-way line.

   b. Swimming pools provided as an accessory use to a hotel or motel may encroach into the rear two-thirds of the required front yard.

C. Height Limits.

1. The maximum height of any building located within one hundred fifty (150) feet of any R-S, single-family residential zone, or any agricultural zone, shall be one story or twenty (20) feet, whichever is less. Vehicular rights-of-way shall be included in calculating the distance.

2. The maximum height of all other buildings shall be two stories or thirty-five (35) feet, whichever is less, except that hotels shall have a maximum height of eighty-five (85) feet.

D. Distance Between Buildings. No requirements, except that buildings not actually adjoining shall be ~~provided with a minimum eight foot~~eight-foot ~~separation.~~determined through site plan review.

E. Off-Street Parking and Loading. Off-street parking and loading facilities shall be provided in accordance with the provisions of Section 17.54.010.

F. Screening. Where the C-T zone abuts upon a residential zone, there shall be provided screening not less than six feet, or more than eight feet in height on the zone boundary line. Said screening shall be reduced to forty-two (42) inches in height within a required yard adjacent to a street or highway.

G. Other Property Development Standards.

1. All uses shall be conducted entirely within a completely enclosed building, except for off-street parking and loading facilities, those outdoor uses permitted by Section 17.28.020(A)(7), and certain uses permitted subject to a conditional use permit by Section 17.28.020(D).

2. No building or structure having exterior walls of sheet metal shall be erected in this zone.

H. Architectural Review. All development in the ~~C-T Tourist~~R-C (Regional Commercial) Zone, is subject to architectural review as set forth in Section 17.72.010 of this title.

(Prior code § 046.03)

Chapter 17.30 M-S MANUFACTURING SERVICE ZONE

17.30.010 Intent and purpose.

This zone is intended to provide for and encourage the orderly development of light manufacturing, wholesaling, and commercial service within the community. Such areas are vital to the community's economic health and well-being by providing employment and an important revenue source for the city. The provisions of this zone are intended to ~~insure~~ ensure that manufacturing service areas will be compatible with adjacent, non-industrial development and will protect such areas from potential hazards of industrial development.

(Prior code § 050.01)

17.30.020 Permitted uses.

The following uses are permitted in the M-S (Manufacturing Service) zone subject to all provisions of this chapter.

A. Primary Uses.

1. Automotive repair garage, body and fender works, within a completely enclosed building.
2. Bakery.
3. Boat building.
4. Bottling plant.
5. Cabinet shop.
6. Carpet cleaning plant.
7. Ceramic products manufacture.
8. Cleaning and dyeing plant.
9. Dairy products processing.
10. Drugs manufacture.
11. Electrical, electronic, or electro-mechanical machinery manufacturing.
12. Engineering research and testing firms and laboratories.
13. Food products processing, manufacturing, canning, preserving, and freezing.
14. Fruit and vegetable packing house.
15. Furniture manufacturing, refinishing.
16. Garment manufacture.
17. Glass manufacture.
18. Ice and cold storage plant.
19. Laboratories. Experimental, testing, motion picture.
20. Laundry.

21. Machine shop.
22. Metalworking, fabrication, or welding firm.
23. Newspaper printing plants.
24. Parcel delivery services.
25. Photo-engraving, photocopying, photo-processing, and blueprinting.
26. Plastic, fabrication firm.
27. Plumbing shop.
28. Prefabricated buildings manufacture.
29. Printing establishments.
30. Sales and rental of trucks, autos, farm machinery and implements, and truck and auto parts.
31. Sheet metal shop.
32. Sign manufacture.
33. Textile manufacture.
34. Tire rebuilding, recapping, and retreading.
35. Trailer, camper, mobilehome manufacturer or assembly.
36. Upholstering and reupholstering.
37. Wholesale business, storage buildings, and warehouses.
38. Woodworking shop.
39. Storage yards:
    a. Contractors' storage yards.
    b. Building materials
    c. Lumber yards.
    d. Machinery, truck rental yards.
    e. Draying and freight yard.
    f. Truck terminal.
40. Retail sales.
41. Restaurant.
42. Emergency shelters complying with the following criteria.
    a. Emergency shelters shall be operated by a responsible agency or organization, with experience in managing or providing social services.
    b. The shelter shall provide at least one qualified on-site supervisor at all times, plus one attendant for each fifty (50) occupants.
    c. A shelter shall not be approved when another homeless shelter ~~is existing~~exists within three hundred (300) feet of the proposed site.

d. Emergency shelters shall provide a setback of thirty (30) feet from the shelter building to any residential zone.

e. Parking shall be supplied at a ratio of one vehicle space per ten (10) beds, and one secured bicycle parking area designed to accommodate up to one bicycle per ten (10) beds.

f. Each shelter shall be limited to a maximum occupancy of fifty (50) persons, including warming shelters and daytime facilities.

g. A management plan shall be required to address how the immediate sheltering needs of individuals who may be turned away from the shelter will be handled. The management plan shall establish a maximum length of time for which clients may be accommodated.

43. Public Utility Facilities (City-Initiated).

B. Accessory Uses. The following buildings, structures, and uses are permitted when clearly incidental and accessory to a primary permitted use:

1. Detached dwelling, where used by a proprietor, manager, or custodian of a use permitted within this zone~~;~~.

2. Retail distribution of products produced on the premises (where not the primary retail outlet for said products)~~;~~.

3. Storage of equipment, materials, finished products, or refuse basic to operations of a permitted use~~;~~.

4. Signs as follows, subject to all provisions of Section 17.56.010 of this title:

a. One unlighted sign pertaining to the rental, sale, or lease of the premises, not to exceed twenty (20) square feet in area~~;~~.

b. Advertising signs pertaining to the goods and services sold on the premises, or to the name of the establishment. The total aggregate area of all signs pertaining to any one establishment shall be two hundred (200) square feet~~;~~.

5. Other accessory uses customarily appurtenant to a primary permitted use.

C. Conditional Uses. The following uses may be permitted in the M-S (Manufacturing Service) zone subject to obtaining a conditional use permit as specified in Section 17.74.010.

1. Automotive repair garage as an accessory to automobile service station.

2. Breweries and Distilleries.

3. Cotton gins, oil mills, vegetable oil plants.

4. Exterminating or disinfecting service firm.

5. Metal plating.

6. Mini storage warehouse.

7. Non-storefront cannabis retailers and non-storefront retail microbusinesses, pursuant to Chapter 17.84.

8. Oil cloth or linoleum manufacture.

9. Paint, oil, shellac, turpentine, or varnish manufacture.

10. Plastic manufacture.

11. Planing mills.

12. Poultry dressing and packaging.

~~17~~13. Recreational Vehicle Storage. ~~subject to Development Agreement to ensure the use is revenue generating.~~ Such uses as standalone uses shall not exceed fifteen percent of the M-S Zone.

14. Restaurant with cocktail lounge.

15. Service stations.

16. Stone monument works.

17. Taproom.

18. Tattoo and body piercing parlors.

19. Wire and wire products manufacture.

D. Industrial-Related Uses. Certain non-industrial uses are functionally related to industrial areas. The following uses are permitted only when ~~re~~ intended to serve industrial areas and employees.

1. Restaurants and coffee shops~~;~~.

2. Industrial hospitals or clinics~~; and~~ .

3. Industrial training center.

(Ord. 925 § 1, 2005; Ord. 918 § 1, 2005; prior code § 050.02)

(Ord. No. 1033, § 3, 1-11-12; Ord. No. 1051, § 2, 5-22-13; Ord. No. 1161~~-~~, § 4, 5-27-20)

17.30.030 Property development standards.

The following standards of development shall apply in the M-S (Manufacturing Service) zone:

A. Non-Residential Intensity.

1. Maximum FAR. 1.0.

~~A~~B. Lot Requirements.

1. Minimum Lot Size. Ten thousand (10,000) square feet.

2. Minimum Lot Width. None.

3. Minimum Lot Depth. None.

4. Maximum Lot Coverage. None.

~~B~~C. Yard Requirements. None, except in the following instances:

1. Where an M-S (Manufacturing Service) zone abuts upon a street or highway where two-thirds of the property in the block on the opposite side of the street is zoned residential, a yard shall be provided of ten (10) feet in depth.

2. Where an M-S (Manufacturing Service) zone abuts upon a street or highway and where one or both adjoining zones are residential, a yard shall be provided which is equal in depth to the average of the required yards of the adjoining zones.

3. Where an M-S (Manufacturing Service) zone abuts upon a Major Arterial, Major Arterial with Enhanced Bicycle Facilities, Primary Arterial, and Primary Arterial with Enhanced Bicycle Facilities ~~primary highway~~ as designated on the circulation element of the general plan, a yard ~~shall be provided~~ of ten (10) feet in depth shall be provided.

4. Where an M-S (Manufacturing Service) zone directly abuts a residential zone, there shall be a yard of not less than thirty (30) feet adjoining that zone. This shall be reduced to twenty (20) feet where there exists a public alley separating the two zones.

5. Permitted Encroachments in Required Yards. The yards required in subsections 1—3 of this section may be used as part of an automobile parking area, provided however that a minimum three-foot wide screen planting shall be maintained adjacent to the planned highway right-of-way line.

~~C~~D. Height Limits.

1. The maximum height of any buildings or structures located within one hundred fifty (150) feet of any residential zone shall be two stories or thirty-five (35) feet, which ~~e~~ever is less. Vehicular rights-of-way shall be included in calculating distance.

2. The maximum height of all other buildings or structures shall be fifty (50) feet.

~~D~~E. Distance Between Buildings. No requirements, except that buildings not actually adjoining shall be provided with a minimum eight-foot separation.

~~E~~F. Off-Street Parking and Loading. Off-street parking and loading facilities shall be provided in accordance with the provisions of Section 17.54.010.

~~F~~G. Walls and Screening.

1. Where an M-S (Manufacturing Service) zone abuts upon any residential zone there shall be provided a solid masonry wall not less than six feet nor more than eight feet in height along the zone boundary. Said wall shall be reduced to forty-two (42) inches in height within a required yard adjacent to a street or highway.

2. Where property in an M-S (Manufacturing Service) zone is used for operations incidental to a primary permitted use, as a storage yard, or where material necessary to the conduct of a primary permitted use is stored outside, there shall be provided screening not less than six feet or more than eight feet in height. Said screening shall screen storage areas from adjacent residential and/or commercial zones.

~~G~~H. Other Property Development Standards.

1. No structure originally designed or intended for residential purposes shall be occupied by uses permitted in this zone, except when used as a dwelling by a proprietor, manager or custodian or custodian of a permitted use.

2. No use shall be established in any M-S (Manufacturing Service) zone which causes or emits any dust, gas, smoke, fumes, odors, noises, vibrations, electromagnetic disturbance, radiation, or other similar effects which are or may be detrimental to the public health, safety, or general welfare. All uses shall be continuously maintained so that they are neither obnoxious ~~or~~nor offensive by reason of the above emissions.

3. All lot area not in use by buildings shall be paved, planted, or otherwise surfaced to eliminate dust. Use of gravel, decomposed granite and similar materials is permitted, subject to continuous maintenance in a neat and sightly manner. Use of oil is permitted only where treated areas will not be visible from public streets, or adjacent residential or commercial zones. Yards and off-street parking and loading areas shall be treated as required in this title.

I~~H~~. Architectural Review. All development in the M-S~~,~~ (Manufacturing Service) z~~Z~~one~~,~~ is subject to architectural review as set forth in Section 17.72.010 of this title.

~~J~~. Non-storefront retailer and non-storefront retail microbusiness. A non-storefront retailer or non-storefront retail microbusiness shall have a minimum of one hundred (100) feet separation from any residential structure; be at least five hundred (500) feet from any other storefront retail or non-storefront retail cannabis business; and may not be located in the City's Pueblo Viejo District. For purposes of this chapter, "Pueblo Viejo District" shall be that area in the city bounded by Cesar Chavez Street to the south, 1st Street to the west, Grapefruit Boulevard to the north, and 9th Street to the east.

(Prior code § 050.03; Ord. No. 1161-, § 5, 5-27-20)

Chapter 17.32 M-H HEAVY INDUSTRIAL ZONE

17.32.010 Intent and purpose.

This zone is intended to provide for and encourage the orderly development of heavy industrial areas within the community. Such areas are vital to the community's health and well-being and must be protected from intrusion by dwellings and inharmonious commercial uses. Such areas are vital to the community's economic health and well-being by providing employment and an important revenue source for the city. The provisions of this zone are intended to provide an industrial environment which will be compatible with the inherent characteristics of heavy industry, and also to provide proper safeguards and appropriate transition for surrounding land uses.

(Prior code § 055.01)

17.32.020 Permitted uses.

The following uses are permitted in the M-H (Heavy Industrial) zone subject to all provisions of this chapter.

A. Primary Uses.

1. All uses permitted by Section 17.30.020 of the M-S (Manufacturing Service) zone, except emergency shelters.~~;~~
2. Blacksmith shop~~;~~.
3. Cotton gins, oil mills, vegetable oil plants~~;~~.
4. Exterminating or disinfecting service firm~~;~~.
5. Glass manufacture~~;~~.
6. Hemp products manufacture~~;~~.
7. Heavy metals fabrication~~;~~.
8. Oil cloth or linoleum manufacture~~;~~.
9. Oil Paint, oil, shellac, turpentine, or varnish manufacture~~;~~.
10. Paper, pulp manufacture~~;~~.
11. Plastic manufacture~~;~~.
12. Planing mills~~;~~.
13. Poultry dressing and packaging.~~;~~
14. Public Utility Facilities (City-initiated).
~~14~~15. Railroad yards, repair shops.~~;~~
~~15~~16. Salt works.~~;~~
~~16~~17. Slaughterhouses.~~;~~
1~~8~~7. Soap manufacture.~~;~~
1~~9~~8. Stone monument works.~~; and~~
20~~19~~. Wire and wire products manufacture.

B. Accessory Uses. The following buildings, structures and uses are permitted when clearly incidental and accessory to a primary permitted use:

1. Detached dwelling, where used by a proprietor, manager, or custodian or a use permitted within this zone.~~;~~
2. Retail distribution of products produced on the premises where not the primary retail outlet for said products.~~;~~
3. Signs as permitted in the M-S (Manufacturing Service) zone.~~;~~
4. Storage of equipment, materials, finished products, or refuse basic to operations of a permitted use.~~; and~~
5. Other accessory uses customarily appurtenant to a primary permitted use.

C. Conditional Uses. The following uses may be permitted in the M-H (Heavy Industrial) zone subject to obtaining a conditional use permit pursuant to Chapter 17.74.

1. Acid manufacture.~~;~~
2. Animal (including fish) products manufacture or processing.~~;~~
3. Asphalt or asphaltic concrete manufacturing plants.~~;~~
4. Borrow pits.~~;~~
5. Brick yards.~~;~~
6. Breweries and alcoholic beverage manufacture~~;~~.
7. Bulk distributing stations—Hazardous materials~~;~~.
8. Cement block, concrete block manufacture, storage yards~~;~~.
9. Concrete ready-mix plants~~;~~.
10. Community recycling collection facilities, pursuant to Chapter 17.90~~;~~.
11. Creosote manufacture~~;~~.
12. Distillation of alcohol, bones, coal, coal tar, coke, wood~~;~~.
13. Drop forge industries~~;~~.
14. Explosives or fireworks manufacture~~;~~.
15. Feed yards, feed mills~~;~~.
16. Foundry~~;~~.
17. Gas manufacture, including but not limited to chlorine and other noxious gases.~~;~~
18. Glue manufacture.~~;~~
19. Livestock sales and feed yards.~~;~~
20. Lamp black manufacture.~~;~~
21. Prison, jail, correctional facility, or detention facility.~~;~~
22. Quarries.~~;~~
23. Rock crushing operations.~~;~~
24. Smelting operations.~~;~~

25. Tannery.~~;~~
26. Tar distillation or tar products manufacture.~~;~~
27. Transfer station, small scale, pursuant to Chapter 17.90.~~;~~
28. Winery.~~;~~
29. Non-storefront cannabis retailers and non-storefront retail microbusinesses, pursuant to Chapter 17.84.
30. Recreational Vehicle Storage ~~subject to Development Agreement to ensure the use is revenue generating. Such uses as~~such that standalone uses shall not exceed fifteen percent of the M-H Zone.
31. All conditional uses permitted by Section 17.30.020 of the M-S (Manufacturing Service) zone.

D. Industrial-Related Uses. Certain nonindustrial uses are functionally related to industrial areas. The following uses are permitted only where intended to serve industrial areas and employees.

1. Restaurants and coffee shops.~~;~~
2. Industrial hospital or clinics~~; and~~ .
3. Industrial training center.

E. Consistency with the Jacqueline Cochran Regional Airport Land Use Compatibility Plan.

1. If a project is located in the Jacqueline Cochran Airport Compatibility zones, densities, intensities, and prohibited uses shall be consistent with criteria in the airport land use compatibility plan for the Jacqueline Cochran Regional Airport, including applicable Countywide criteria as may exist at the time of project review.

(Prior code § 055.02)

(Ord. No. 1051, § 3, 5-22-13; Ord. No. 1065, § 3, 6-11-14)

(Ord. No. 1161~~-~~, § 6, 5-27-20)

17.32.030 Property development standards.

The property development standards of Section 17.30.030 shall apply to all M-H (Heavy Industrial) zones.

(Prior code § 055.03)

Chapter 17.34 M-W WRECKING YARD ZONE

17.34.010 Intent and purpose.

This zone is intended to provide for, and to encourage the orderly development of heavy industrial uses and recycling operations deemed to be of regional significance, but of such nature that extra care must be taken in the regulation of said uses to protect the community~~'~~'s health and wellbeing, and where said uses are subject to aesthetic and environmental conditions which require the provision of safeguards to control and suppress some of the heavier manifestations of said uses to prevent adverse effects on the community.

(Prior code § 057.01; Ord. No. 1065, § 4, 6-11-14)

17.34.020 Permitted uses.

The following uses are permitted in the M-W (Wrecking Yard) zone subject to all provisions of this chapter.

A. Primary Uses.

1. All uses permitted by Section 17.32.030(A) of the M-H (Heavy Industrial) zone.~~;~~

B. Accessory Uses. The following buildings, structures, and uses are permitted when clearly incidental and accessory to a primary permitted use.

1. Those uses permitted by Section 17.32.020(B) of the M-H (Heavy Industrial) ~~-~~zone.

C. Conditional Uses. The following uses may be permitted in the M-W (Wrecking Yard) zone subject to obtaining a conditional use permit pursuant to Chapter 17.74 of this code.

1. Those conditional uses allowed by Section 17.32.020(C) in the M-H (Heavy Industrial) zone.~~;~~

2. Automobile dismantling or wrecking yard~~;~~.

3. Automobile impounding yard~~;~~.

4. Community recycling collection facilities, pursuant to Chapter 17.90~~;~~.

5. Construction and demo material recycling facilities pursuant to Chapter 17.90~~;~~.

6. Wood and green waste recycling facilities, pursuant to Chapter 17.90.

7. Cannabis cultivation, manufacturing, distribution, testing, non-retail microbusiness, non-storefront retail, non-storefront retail microbusiness, storefront retail, and storefront retail microbusiness, facilities, pursuant to Chapters 17.84 and 17.85.

D. The following uses may be permitted in the M-W (Wrecking Yard) zone subject to obtaining a specific plan adoption pursuant to Chapter 17.36 of this code.

1. Transfer station, large scale, pursuant to Chapter 17.90.

(Prior code § 057.02; Ord. No. 1065, § 4, 6-11-14)

(Ord. No. 1083, § 2, 1-27-16; Ord. No. 1140~~-~~, § 2(Exh. A), 7-10-19; Ord. No. 1161~~-~~, § 7, 5-27-20)

17.34.030 Property development standards.

The following standards of development shall apply in the M-W (Wrecking Yard) zone:

A. Non-Residential Intensity.

1. Maximum FAR. 0.5.

~~A~~B. Lot Requirements.

1. Minimum Lot Area. Ten thousand (10,000) square feet.
2. Minimum Lot Width. One hundred (100) feet.
3. Minimum Lot Depth. One hundred (100) feet.
4. Maximum Lot Coverage. None.

~~B~~C. Yard Requirements and Height Limits. The yard requirements and height limits as set forth in Section 17.30.030(B) and (C), respectively, shall apply in the M-W (Wrecking Yard) zone.

~~C~~D. Enclosure Required. All operations and storage, including all equipment used in conducting an automobile dismantling or junk and salvage business, other than parking, shall be conducted within an enclosed building, or within an area enclosed by screening.

~~D~~E. Requirements for Screening. Where screening is provided, it shall be developed as provided in this chapter:

1. All screening shall be of a uniform height in relation to the ground upon which it stands~~,~~ and shall be a minimum of eight feet and shall not exceed ten (10) feet in height. Where screening exceeds a height of eight feet and is located on street or highway frontages, it shall be set back at least three feet from the lot line. The area between the screening and the lot line shall be fully landscaped.
2. Two gates not less than eight feet in height and not more than twelve (12) feet in width each, may be installed at a convenient place in said screening. Such gates shall be kept closed when not in use. Such gates shall be of material and color compatible with said screening.

~~E~~F. Paving. All driveways, fire lanes, or other access ways shall be paved with an asphalt surfacing or an oil and aggregate mixture to prevent emission of dust or tracking of dust and mud onto public rights-of-way, provided however, the ~~planning commission~~Planning Commission may approve other paving materials while provide, in their opinion, the equivalent in service and useful life.

~~F~~G. Parking Spaces.

1. Regardless of the size of the yard area, a minimum of six parking spaces shall be provided.
2. The parking spaces required herein shall not be used for the parking of vehicles used directly in the conducting of such use or of renovated, repaired, or reassembled vehicles which are owned, operated or in the possession of the proprietor of the automobile dismantling yard, or junk and salvage yard.

~~G~~H. Landscaping. At least two square feet of landscaping shall be provided for each lineal foot of street frontage and said landscaping shall be developed in accordance with a site plan that complies with the following criteria:

1. Landscaping shall be distributed along said frontage in accordance with the site plan approved by the planning commission.
2. No planting area shall have a horizontal dimension of less than three feet.

3. A permanent watering system or hose bibs shall be provided which satisfactorily irrigates all planted area. When hose bibs are utilized, they shall be located not more than twenty-five (25) feet apart.

4. All landscaped areas shall be continuously and properly maintained in good condition.

~~H~~I. Junk Outside Yard. No wrecked or dismantled vehicles, salvage or junk shall be placed or allowed to remain outside of the enclosed yard area.

~~I~~J. Junk Exceeding Height of Wall. No wrecked or dismantled vehicles, salvage or junk shall be stored at a height greater than that of the surrounding screening.

~~J~~K. Architectural Review. All development in the M-W~~,~~ (W~~w~~recking Y~~y~~ard) zone, is subject to architectural review as set forth in Section 17.72.010 of this title.

~~K~~L. Non-storefront retailer and non-storefront retail microbusiness. A non-storefront retailer or non-storefront retail microbusiness shall have a minimum of one hundred (100) feet separation from any residential structure; be at least five hundred (500) feet from any other storefront retail or non-storefront retail cannabis business; and may not be located in the City's Pueblo Viejo District. For purposes of this chapter, "Pueblo Viejo District" shall be that area in the city bounded by Cesar Chavez Street to the south, 1st Street to the west, Grapefruit Boulevard to the north, and 9th Street to the east.

(Prior code § 057.03)

(Ord. No. 1161~~-~~, § 8, 5-27-20)

Chapter 17.35 O-S OPEN SPACE ZONE

17.35.010 Intent and purpose.

The purpose of the Open Space zone is to provide opportunities for outdoor recreation and meet the recreational needs of City residents, and to provide land for development of parks, recreation, and open space that provide services to the community and support existing and new residential, commercial, and industrial land uses.

This zone also reserves areas for passive recreation, open space, habitat protection and enhancement, and hazard avoidance. This zone includes the City's public and private open space, golf courses and support structures. This zone implements the Parks and Open Space land use designation in the General Plan.

17.35.020 Permitted uses.

The following uses are permitted in the O-S (Open Space) zone subject to all provisions of this chapter.

A. Primary Uses.

1. Athletic fields, unlighted.
2. Open space, natural.
3. Parks and recreation facilities.
4. Preserved lands.
5. Public Utility Facilities (City-initiated).

B. Accessory Uses. The following buildings, structures, and uses are permitted when clearly incidental and accessory to a primary permitted use.

1. Kiosks.
2. Parking lots.
3. Playground equipment.
4. Swimming pools.

C. Conditional Uses. The following uses may be permitted in the O-S (Open Space) zone subject to obtaining a conditional use permit pursuant to Chapter 17.74 of this code.

1. Athletic fields, lighted.
2. Campground.
3. Special events.
4. Outdoor theaters.

17.35.030 Property development standards.

A. Lot Requirements.

1. Minimum Lot Area. Minimum lot area sufficient to accommodate all required parking, setbacks, landscaping, loading, trash enclosures and access requirements.
2. Minimum Lot Width. Not established.
3. Minimum Lot Depth. Not established.

4. Maximum Lot Coverage. 25%.

B. Yard Requirement.

1. Front Yard. Each lot or building site shall have a front yard of at least twenty five (25) feet in depth, except where one or both adjoining zones are residential, in which case the required yard shall be increased to equal the average of the required front yards of the adjoining zones.

2. Side Yard. There shall be no side yard requirement except where a O-S zone adjoins a street or a residential zone, in which case there shall be a side yard of not less than ten (10) feet on the side or sides adjoining said street or residential zones. In the case of a reversed corner lot, the side yard adjoining the street shall be not less than the required front yard of the adjoining key lot to the rear.

3. Rear Yard. There shall be no rear yard requirement except where the O-S zone adjoins a residential zone, in which case there shall be a rear yard of not less than ten (10) feet adjoining that residential zone. This shall not apply where there exists a public alley separating the two zones.

4. Permitted Encroachments in Required Yards.

a. The yards required in subsections 1—3 of this section may be used as part of an automobile parking area, provided however that a minimum three-foot wide screen planting strip shall be maintained adjacent to the planned highway right-of-way line.

b. Swimming pools provided as an accessory use may encroach into the rear two-thirds of the required front yard.

C. Height Limits.

1. The maximum height of all buildings shall be two stories or thirty (30) feet, whichever is less.

F. Parking Spaces.

1. Off-street parking and loading facilities shall be provided in accordance with the provisions of Section 17.54.010.

Chapter 17.36 SPECIFIC PLAN DISTRICT

17.36.010 Intent and purpose.

The purpose of this district includes the following:

A. To encourage the planned development of parcels and to permit comprehensive site planning and building design;

B. To provide a more flexible regulatory procedure by which the basic public purpose of the ~~c~~City's general plan and the ~~c~~City's zoning code may be accomplished;

C. To encourage creative approaches to the use of land through variation in siting of buildings and the appropriate mixing of several land uses, activities, and dwelling types;

D. To enhance the appearance and living environment of the community through encouragement of creative approaches to the use of land and the design of facilities;

E. To promote and create public and private open space as an integral part of land development design;

F. To reduce, when appropriate, the amounts of public and private improvements normally required by developments;

G. To maximize choice in types of environments available in the city; and

H. To encourage private development of older areas of the city and for the enhancement and preservation of property with unique features, such as property having historical significance, unusual topography, and landscape features.

(Prior code § 058.01)

17.36.020 General requirements for a specific plan proposal.

A. Property that is held in single or multiple ownerships may be considered for a specific plan. The city, property owner or his or her representative may initiate the specific plan proposal. Components of the specific plan shall include the submittal of a development plan and text. Land development within the specific plan area shall be initiated and completed by the applicant or his or her agents, whichever the case may be. Unless otherwise provided in the approval of the specific plan, the applicant may divide and transfer units within the specific plan area, provided the total density permitted by the specific plan is not exceeded. The applicant or his or her agent shall complete, use, and maintain the development in strict accordance with the specific plan and subsequent conditions of approval as required. To be in addition to; in concert with etc.

B. All provisions of this district are supplemental to the city's subdivision ordinance. Any site plans and/or maps contemplated for the specific plan area or for portions thereof may be processed concurrently with the specific plan as specified under this chapter.

(Prior code § 058.02)

17.36.030 General provisions and standards for a specific plan district.

The following provisions shall apply in this specific plan district, together with all other applicable provisions of the city's zoning and subdivision ordinances. Where conflict in a regulation occurs, the regulations specified in this district or in an approved specific plan shall supersede and apply:

A. Specific plan zones may be established pursuant to the regulations and requirements specified in the specific plan district ordinance codified in this appendix to the Municipal Code. It is the intent of the individual specific plan zones to provide innovative development plan design and development standards in which development standards may vary between specific plan zones.

B. The specific plan shall consist of a development plan and text material and is recognized as a guide to the developers and designers of land use plans for the property. The development standards are, in effect, performance standards, the ramifications of which become manifest when a site plan has been drawn.

C. Specific plan zones may be established on parcels of land which are suitable for and of sufficient size to be planned and developed in a manner consistent with the purposes of this district. Such suitability and scope shall be reviewed and approved by the ~~planning commission~~Planning Commission and shall be in accordance with the general plan.

D. The purpose of this district may be accomplished only upon satisfactory demonstration by the applicant that the specific plan is in conformance with the intent of the city's general plan and any element thereof, and in accordance with other applicable plans and policies adopted by the city.

E. Specific plans may combine several land uses on the development plan. Mixed uses may include any combination of residential, commercial, industrial, open space and agricultural uses, and may occur among or within buildings as long as the uses are compatible with each other and with existing and potential uses surrounding the specific plan zone.

F. Standards for building coverage, light and air orientation, building height, sign placement and design, yard requirements, open spaces, off-street parking, and screening for specific plan uses and other specified standards shall be governed by the development standards set forth in the specific plan and subsequent documents.

G. The provision of public and private open space, as an integral part of land development planning and design, is set forth as a purpose of this specific plan district. The specific plan shall contain criteria providing for open space and performance standards for the improvement and maintenance of required open space.

H. All electrical and telephone facilities, fire alarm conduits, street light wiring, cable television, and other wiring, conduits or facilities shall, where feasible, be placed underground. Electric and telephone facilities shall be installed in accordance with standard specifications of the serving utilities.

I. Standards for private and public improvements shall be governed by the specific plan and may vary from adopted city standards.

(Prior code § 058.03)

17.36.040 Definitions.

For the purpose of this chapter, the following words and phrases shall have the meaning indicated:

"Applicant" means the party filing the application for and requesting a specific plan zone designation for particular parcels) of land. The applicant may be the city, a property owner or a group of property owners or their designated representative for the particular parcel(s) of land for which the specified plan zone is requested.

"Building permit" means a permit issued by the city that allows the building of a structure, according to the specified conditions of the permit, where located on the approved grading plan.

"Conceptual" means a working combination of land uses and development intensities designed as a mandatory component of the draft specific plan.

"Criteria" means the actual means employed to review and judge the effectiveness of the specific plan.

"Dedicated" means land, improvements, or both, dedicated by the landowner or developer to a public or quasi-public agency thereby releasing certain obligations from the ~~land owner~~landowner or developer.

"Development plan" means a mandatory requirement of the specific plan identifying areas on a map proposed for various land uses, backbone circulation systems, public use areas, open space areas, major landscape features and other general items as required by the city.

"Development standards" means a set of customized standards devised for the purpose of guiding and controlling future development on the property to ensure compliance with the proposed character of design described in the specific plan. They may be developed for a particular project or reference existing zoning districts.

"Draft specific plan" means a preliminary compilation of specific plan components, including conceptual plans of the development plan and an outline of the text material, the purpose of which is to expose the development concept and to solicit city responses and comments on the development concept.

"Environmental studies" includes various requirements of the California Environmental Quality Act.

"Final specific plan" means a final representation of the proposed development for a specific plan area that includes the information required by the city. The final specific plan, as approved by the ~~planning commission~~Planning Commission and ~~city council~~City Council, shall be considered an official zoning document for parcel(s) with approved specific plan (SP) zoning as placed on the official zoning map.

"Grading permit" means a permit issued by the city that allows grading to occur, according to the specified conditions of the permit, on the terrain of the specific plan area.

"Performance standards" means the development standards provided by the specific plan area to be enforced as performance standards when detailed site plans and subdivision maps are prepared. Project design is to be evaluated by the measure of performance described by the development standards.

"Private open space" means open-space lands identified in the specific plan that are recognized as being for the private use, enjoyment, or primary benefit of a limited group of people, generally restricted to the residents and their guests of the specific plan area.

"Public open space" means open-space lands identified in the specific plan that are recognized as being for the use, enjoyment, or primary benefit to the general public.

"Reservation (reserved)" means the setting aside of land for a specific purpose as required in the specific plan.

"Site plan" means a detailed development plan illustrating the precise locations and dimensions of parcels, buildings, circulation systems, public uses, urban design elements and other precise development elements as required by the city, the specific plan district or, as necessary, to illustrate site plan concepts.

"Specific plan" means the legal document consisting of a development plan and text material that describes the character and building intensity of proposed development standards to guide developers and designers of the property.

"Specific plan designation" means a special-purpose specific plan area that is designated in the C~~c~~ity's general plan. The development intensity policy is designated on the general plan. All areas that have a specific plan designation in the city's general plan must be developed with an approved specific plan and must have specific (SP) plan zoning.

"Specific plan district" means that district of the Coachella Zoning Ordinance permitting the establishment of specific plan zones.

"Specific plan zones" means an official zone established for specific parcel(s) of land for which particular intensities of land uses or combination of land uses are proposed and guided by a specific plan document. A

designation of (SP) is placed on the city's official zoning map upon approval, by ordinance, of specific plan zoning for parcel(s) of land.

"Subsequent reviews" means reviews of discretionary actions, as required to complete the development process concurrent with or subsequent to specific plan and specific plan (SP) zone approval.

"Text material" means a mandatory requirement of the specific plan describing, in written form, the character of the proposed development standards.

(Prior code § 058.04)

17.36.050 Application procedure.

The application procedure allows the applicant to receive conditional specific plan (SP) zoning prior to final specific plan approval. (See Exhibit "A", Specific Plan Process, found on file in the office of the city clerk). The application for specific plan (SP) zoning shall be made on a form supplied by and submitted to the planning staff for review. It shall be the responsibility of the planning staff to contact interested departments and all agency personnel regarding necessary meetings with the applicant.

(Prior code § 058.05)

17.36.060 Conditional specific ~~(SP)~~ plan (SP) zoning procedure.

The purpose of selecting the process for conditional specific plan (SP) zoning is to allow the applicant to receive an (SP) zoning designation for properties prior to preparing and submitting specific land documents.

A. Subsequent to acceptance of any application for conditional specific plan (SP) zoning by the planning staff, the city shall conduct the necessary public hearings as provided in Chapters 17.70—17.82 of this title.

B. At such time as conditional specific plan (SP) is approved, the ~~planning commission~~Planning Commission shall determine the residential, commercial, or industrial development intensity policy, as provided in Section 17.36.070 of this chapter and it shall be placed on the city's official zoning map. This zoning designation will remain conditional until a final specific plan is approved for the subject parcel(s).

C. The applicant shall submit a draft specific plan to the planning staff for review and comment. The draft specific plan shall consist of conceptual plan for the development plan and a general outline describing the content of the text material, as provided in Section 17.36.080 of this chapter.

D. The applicant shall submit a final specific plan to the planning staff for processing to the ~~planning commission~~Planning Commission for review and comment. The final specific plan shall consist of the information contained in the draft specific plan and additional information, as provided in Section 17.36.090 of this chapter.

E. The city shall notice said specific plan and conduct necessary public hearings as provided in Chapters 17.70—17.82 of this code. Upon approval of the final specific plan, the specific plan (SP) zoning designation will be implemented thereby removing the conditional status.

(Prior code § 058.06)

17.36.070 Residential, commercial, or industrial development intensity policy.

A. The residential, commercial, or industrial development intensity policy shall be established for each specific plan zone concurrent with the approval of specific plan (SP) zoning or other applicable zoning district(s). The planning commission shall determine the allowable development intensity for specific plan zones and shall designate said density on the official zoning map of the city and/or as described in the text of the zoning code.

B. Development intensity for specific plan zones shall be determined by one of two processes described as follows:

1. Development intensity for specific plan zones may be governed by the land use category designated in the city's general plan, or in other city plans and policies that may be in the process of preparation.

2. Development intensity for specific plan areas shall generally be evaluated with reference to other similar specific plan developments or evaluation procedures within the city, or in the case where other similar developments do not exist, with reference to other similar developments in comparable jurisdictions.

(Prior code § 058.07)

17.36.080 Draft specific plan.

The draft specific plan shall describe the intensity of land uses proposed and their interrelationship~~,~~ and shall not be construed to endorse the precise location of uses, configuration of parcels or engineering feasibility. The draft specific plan shall be submitted to the planning staff~~,~~ and shall include the following information:

A. A preliminary plan of the development plan for the entire specific plan area delineated on one or more maps showing:

1. Project land uses, densities, existing and proposed major streets, public use areas (schools, parks, fire stations, etc.) and open space and major landscape features.

2. General plan, regional and sub-regional or community plan land use designations.

3. Slope analysis, utilizing categories provided by the planning staff. Included in the slope analysis is the number of acres in each slope category;

B. A general outline of the text material describing the general objectives/concept; a tabulation of the land area to be devoted to various uses, including open spaces, a calculation of the overall density and the average densities per net residential acre of the various residential areas; and a summary of development standards for commercial or industrial uses when those uses are proposed. The text material shall include development standards to be implemented as performance standards for the specific plan area:

1. A statement proposing the method of maintaining common open areas and facilities.

2. A description of the proposed grading program.

3. Identification of proposed future ownership and maintenance of streets, driveways, sidewalks, pedestrian ways, and open space areas.

4. A discussion of the project as it relates to each of the general plan elements, including land use, circulation, open space safety, noise, housing; conservation and community design. If a community plan is adopted or pending that includes the project site, the relationship of the project with the growth management plan should be discussed.

C. After ~~planning commission~~Planning Commission review, the planning staff shall furnish the applicant with written comments regarding, the review conference(s), including appropriate recommendations to inform and assist the applicant prior to preparing the final specific plan.

(Prior code § 058.08)

17.36.090 Final specific plan.

The final specific plan shall consist of the information contained in the draft specific plan and other additional as determined by the planning staff, ~~planning commission~~Planning Commission, ~~city council~~City Council or redevelopment agency. This additional information shall include all or a portion of the following:

A. Survey of the property, showing existing features including trees, structures, streets, easements, utility lines, land uses, existing zoning, and existing ownerships;

B. Topographic map showing area of major grading;

C. Proposed standards for height, open space, building intensity and public improvements;

D. Copies of legal documents required for dedication or reservation of public or private open space, or for the creation of homeowner's associations for open space maintenance.

(Prior code § 058.09)

17.36.100 Criteria for reviewing specific plans.

Before recommending approval, the ~~planning commission~~Planning Commission and ~~city council~~City Council shall find that the proposed development conforms to the following criteria:

A. The location and design of the proposed development shall be consistent with the goals and policies of the city's general plan and with any other applicable plan or policies adopted by the city, or in the process of being prepared and adopted.

B. The proposed location shall allow the development to be well-integrated with or adequately buffered from its surroundings, whichever may be the case.

C. All vehicular traffic generated by the development, either in phased increments or at full build-out, is to be accommodated safely and without causing undue congestion upon adjoining streets.

D. The final specific plan shall identify a methodology(s) to allow land uses to be adequately serviced by existing or proposed public facilities and services. In appropriate circumstances, and as provided elsewhere by this code, the city may require that suitable areas be reserved for schools, parks, and pedestrian ways; or public open spaces shall be dedicated or reserved by private covenant for the common use of residents, establishments, or operations in the development.

E. The overall design element of the specific plan will produce an attractive, efficient, and stable development.

F. In accordance with the requirements of the California Environmental Quality Act (CEQA), impacts have been reduced to a level of non-significance, or in the case where impacts remain, a statement of overriding considerations must be adopted to justify the merits of project implementation.

(Prior code § 058.10)

17.36.110 Approval by ordinance.

Approval of the final specific plan and/or establishment of (SP) specific plan zoning may be by resolution or by ordinance. Approval of zoning to the specific plan zone shall include, but not be limited to, the following stipulations:

A. Unless otherwise specified in the final specific plan, the regulations provided in the city zoning code shall apply. Approval of the specific plan shall not be interpreted as waiving compliance with other provisions of this code, except in those areas where the specific plan expressly regulates a use.

B. The approved final specific plan shall be filed in the office of the city clerk and in the office of the planning staff.

C. No building shall be constructed, maintained, or used other than for the purpose specified in the approved final specific plan, as filed, nor prior to the approval of a site plan as required in this chapter.

(Prior code § 058.11)

17.36.120 Specific plan approval, denial, and modifications.

A. The ~~planning commission~~Planning Commission may recommend to the ~~city council~~City Council approval or denial of the specific plan~~,~~ or may recommend approval subject to specified modifications and conditions.

B. The ~~city council~~City Council may approve, approve with modifications or conditions, or deny the final specific plan; provided, that in overruling a ~~planning commission~~Planning Commission recommendation for denial, the ~~city council~~City Council shall make the finding listed in Section 17.36.100 of this chapter.

(Prior code § 058.12)

17.36.130 Concurrent actions.

The ~~planning commission~~Planning Commission and the ~~city council~~City Council may act upon a subdivision map and site plan for all portions of the final specific plan concurrently with an approval action on the final specific plan.

(Prior code § 058.13)

17.36.140 Site plan and subdivision map review.

A. The purpose of a site plan is to provide the city with a detailed development plan that utilizes the development standards defined in the specific plan. The following criteria shall be applied to all portions of the specific plan requiring site plan review:

1. A topographic map or sufficient detail to show all cuts and fills, precise drainage and flood-control proposals, and boundary data;

2. Detailed site plan, showing lot or site dimensions; traffic and pedestrian circulation; location, widths, grades and types of improvements proposed for all streets, parking areas, driveways, walkways, trails, utilities and other public improvements; building height, location, size and proposed use; yards and space between buildings and distances from property lines and rights-of-way~~s~~, walls, fences to include location, height and materials; location, size and height of all signs; and loading areas;

3. Building plans and elevations (typical);

4. A landscape, staking and irrigation plan;

5. A tentative subdivision map shall be submitted, if applicable, showing precise divisions of the land for sale or lease of individual property, if any, as provided in the State Map Act and the city's subdivision ordinance;

6. Location and dimensions of public or quasi-public areas, including, but not limited to, schools, parks, playgrounds, and parking areas. The area of required open space and parks shall be based on this code in effect at the time of tentative map filing;

7. A statement setting forth a program for installation and continued maintenance of parking areas; location and general design of lighting, courts, public and private grounds, landscaping, streets, utilities, parks, playgrounds or public or quasi-public community buildings and facilities.

B. Within forty-five (45) days following acceptance of the application for site plan approval, and after all environmental certifications have been obtained, the ~~planning commission~~Planning Commission may approve, conditionally approve, or disapprove the proposed site plan, and shall notify the applicant of its action.

C. An appeal of the ~~planning commission~~Planning Commission action may be made to the ~~city council~~City Council by the applicant in accordance with the appeal procedure of this district.

(Prior code § 058.14)

17.36.150 Site plan modifications.

Modifications shall be processed as a site plan amendment and shall be subject to all site plan procedures.

(Prior code § 058.15)

17.36.160 Dedication—Maintenance of open space.

A. The ~~planning commission~~Planning Commission or ~~city council~~City Council, as the appropriate responsible reviewing body, may, as an approval, require that suitable areas for parks be dedicated or in-lieu fees be paid as determined for the entire specific plan area, and for schools and other public use facilities land be reserved for public use or be reserved for the owners and residents in the development by deed restrictions. Whenever group or common open space is provided, whether required or not, the ~~planning commission~~Planning Commission or ~~city council~~City Council shall, as a condition of approval upon review, require that some provision be made for perpetual maintenance of such open space. The form of any instrument used to assure open space maintenance shall be approved by the city attorney and planning staff as to form and content. Agreements and covenants running with the land shall include provisions for charges to be levied for carrying out the specified functions and administrative expenses of such perpetual maintenance. The city shall be a party in interest in any such development and may, by mandatory injunction or other appropriate actions, enforce the provisions of this district.

B. To assure that open space shall be available for the specific plan zone, public sites, and transfer of development rights within the specific plan area in exchange for open spaces shall be dedicated in advance of development (prior to issuance of the first building permit).

(Prior code § 058.16)

17.36.170 Tentative and final subdivision map.

A. A master subdivision map or parcel map, the purpose of which is to subdivide large parcels, may be prepared and submitted for approval to the city prior to individual site plan and tentative map approval. A grading permit based on all or a portion of this master subdivision map or parcel map may be issued after approval of such master subdivision map or parcel map.

B. A tentative subdivision map or parcel map, submitted in combination with or after approval of the site plan, shall not be approved for recordation by the ~~city council~~City Council until after the specific plan (SP) zoning and an approved final specific plan have become effective.

C. No building permit shall be issued until a final subdivision map or parcel map, if required, has been prepared for the site plan or any approved state thereof, in compliance with the State Map Act and city's subdivision ordinance.

(Prior code § 058.17)

17.36.180 Site plan and tentative subdivision map appeal.

The applicant may appeal the action of the ~~planning commission~~Planning Commission in writing to the ~~city council~~City Council. Such appeal shall be filed in triplicate with the planning staff within ten (10) days after the decision. The planning staff shall forward the triplicate copy of the appeal to the city clerk and ~~planning commission~~Planning Commission. The ~~city council~~City Council shall consider the appeal at a regular meeting within thirty (30) calendar days following the receipt by the clerk of the triplicate copy, or within such time as the council shall continue the matter. The ~~city council~~City Council shall review the site plan and shall recommend approval, approval with conditions or disapproval.

(Prior code § 058.18)

Chapter 17.38 PUD PLANNED UN~~I~~IT DEVELOPMENTS

17.38.010 Intent and purpose.

The purpose of this chapter is to provide for attractive, planned, residential districts in accordance with the general plan; to provide a means of achieving greater quality, variety and flexibility in residential development on relatively large areas of land; to encourage more imaginative and innovative design of projects; to promote more desirable living environments that would not be possible through the strict application of zoning standards; to assist in the development of old or blighted neighborhoods by providing incentives for higher quality multiple residential housing and project design; to require a more efficient use of open space, separation of pedestrian and vehicular traffic and increased project amenities; to insure that such projects will be assets to their surrounding neighborhoods, and safeguards will be required through the conditional use procedure. The overall plan shall provide equivalent or higher standards of development, operation, light, air, safety, convenience, and aesthetics, than if developed under the underlying zone.

(Prior code § 060.01)

17.38.020 Procedure and regulations.

A. Procedure. An application for a planned development project or ~~mobile home~~mobilehome project shall submit a request for change of zone to allow a "PUD" overlay zone on base district zone, pursuant to Chapter 17.82.

B. Land Use Regulations. All planned development projects shall comply with the land use and density regulations of the base district, except as may be modified by the PUD overlay zone regulations, subject to compliance with the general plan.

C. Development Standards. All planned development projects shall comply with the applicable development standards of the base district and other sections of the municipal code, except that an applicant for a PUD project may utilize flexible development standards in order to meet the policy directives of the general plan.

D. Conditional Use Permit. A conditional use permit must be obtained by the applicant as a part of the PUD overlay zone and related entitlements in order to vest modified land use regulations, utilize flexible standards of the PUD overlay zone and vest the design guidelines for the planned development.

(Ord. No. 1075, § 7, 6-10-15)

Editor's note(s)—Ord. No. 1075, § 7, adopted June 10, 2015, amended § 17.38.020 in its entirety to read as herein set out. Former § 17.38.020, pertained to uses, and derived from prior code, § 060.02; and Ord. No. 1026, § 7, adopted Jan. 12, 2011.

17.38.030 Design guidelines.

A. Design Guidelines. All planned developments shall submit a comprehensive set of design guidelines for the project as part of the conditional use permit required under Section 17.38.020(D), that include the following items.

1. Circulation and Streets Plan. The design guidelines shall incorporate a street network plan showing street and pedestrian connectivity for future neighborhoods of the planned development. This shall include the typical roadway diagrams proposed for neighborhood streets and shall incorporate the use a landscaped parkway with street trees separating the sidewalk from the street curb line. Any

deviations, for private streets, from the city's public street improvement requirements shall be included in the circulation and streets plan.

2. Open Space Plan. A plan for the major common open space elements of the community shall be included in the design guidelines of the project. This shall include conceptual plans for park amenities, recreational facilities, and gathering spots for the future residents.

3. Building Massing Plan. A colored site plan showing the typical building massing and relationship of buildings to streets and pedestrian paths and open space features for the various neighborhoods within the planned development shall be included as part of the design guidelines.

4. Architectural Theming. Detailed architectural and/or artist renderings of allowable building types, architectural themes, and typical front yard landscaping shall be provided for all planned developments. Conceptual design guidelines in text describing the architectural theming and exterior building materials, window treatments, and garage door designs, and landscaping plant palettes, must accompany the planned development submittal.

5. Signs. A comprehensive sign program shall be included as a part of all planned developments.

B. Change in Product Size. Refer to Section 16.32.170 of the Coachella Municipal Code for proposed changes in product sizes within single-family residential tracts in which a previously approved product was constructed.

(Ord. No. 1075, § 8, 6-10-15)

Editor's note(s)—Ord. No. 1075, § 8, adopted June 10, 2015, amended § 17.38.030 in its entirety to read as herein set out. Former § 17.38.030, pertained to property development standards, and derived from prior code, § 060.03; and Ord. No. 1021, § 5, adopted July 28, 2010.

17.38.040 ~~Mobile home~~Mobilehome parks.

A. Intent and Purpose. These regulations are intended to provide for the development of ~~mobile home~~mobilehome parks within the city, consistent with the general plan. These provisions are further intended to create standards of development consistent with those in other residential areas of the community.

B. Review Procedure. A ~~mobile home~~mobilehome park community may be established in the RM base district zone through a planned development overlay zone, subject to approval of the conditional use permit and design guidelines required under Sections 17.38.020 and 17.38.030, and subject to compliance with the regulations contained herein.

C. Permitted Uses. The following uses are permitted in any ~~mobile home~~mobilehome park:

1. Mobilehomes, trailers, trailer coaches, campers, camp cars;

2. Recreational buildings, structures, and uses intended to serve only the residents of the ~~mobile home~~mobilehome park; and

3. Accessory buildings normally appurtenant to the conduct of a ~~mobile home~~mobilehome park, including buildings and structures required by law.

D. Lot Requirements for ~~Mobile home~~Mobilehome Parks.

1. Minimum Lot Size. Five acres.

2. Density Permitted. One ~~mobile home~~mobilehome for each four thousand five hundred (4,500) square feet of gross lot area.

3. Lot width and depth shall be determined by the ~~planning commission~~Planning Commission or ~~city council~~City Council when the conditional use permit is considered.

E. Yard Requirements for ~~Mobile home~~Mobilehome Parks.

1. Front Yard. Each park shall have a front yard of at least twenty-five (25) feet in depth.

2. Side Yard. Each park shall have side yards of at least fifteen (15) feet in depth.

3. Rear Yard. Each park shall have a rear yard of at least fifteen (15) feet in depth.

F. Requirements for Individual ~~Mobile home~~Mobilehome Sites Within a ~~Mobile home~~Mobilehome Park.

1. Minimum individual site size shall be three thousand (3,000) square feet.

2. Each individual ~~mobile home~~mobilehome site shall have a minimum width of thirty-five (35) feet.

3. Each ~~mobile home~~mobilehome shall be set back at least five feet from the edge of any interior site roadway.

G. Height Limits. Height limits shall be those in the zone in which a ~~mobile home~~mobilehome park is authorized.

H. Distance Between Buildings and ~~Mobile home~~Mobilehomes.

1. There shall be a minimum average distance between ~~mobile home~~mobilehomes of twenty (20) feet; except that where placed end to end, the distance may be reduced by ten (10) feet.

2. There shall be a minimum distance between ~~mobile home~~mobilehomes and accessory buildings of fifteen (15) feet.

3. There shall be a minimum distance between accessory buildings of ten (10) feet.

I. Usable Open Space.

1. A common recreational-leisure area shall be provided for each ~~mobile home~~mobilehome park. Such recreational-leisure area shall be for the purpose of providing usable open space for the residents of the ~~mobile home~~mobilehome park~~,~~ and shall not be for the use of the general public.

2. The size of such recreational-leisure area shall be equal to at least four hundred (400) square feet for each ~~mobile home~~mobilehome site. Cabanas, swimming pools, decks, game areas, and similar uses may be included in such an area.

(Prior code § 060.04)

(Ord. No. 1075, § 8, 6-10-15)

17.38.050 Nonresidential uses.

The ~~planning commission~~Planning Commission shall approve the appropriate number, location, area requirements, access, parking, identification, and operating conditions for all institutional, recreational, commercial and health facilities in the planned unit development.

(Prior code § 060.05)

17.38.060 Special conditions and procedures.

In addition to the following special conditions and procedures for planned unit development, the ~~planning commission~~Planning Commission may impose such other conditions as it deems necessary or desirable in carrying out the general purpose and intent of this section.

A. A conditional use permit obtained through procedures contained in this chapter and in Sections 17.74.010 through 17.74.050 of this title is required for any planned unit development.

B. Tract or Parcel Maps. A tentative tract or parcel map is required to be submitted to the planning director subsequent to approval of the application~~,~~ but may be filed with the application for zone change and conditional use. However, if the property is located in a hillside area, the tentative tract or parcel map shall be filed concurrently with the application.

No building permit shall be issued for any building within a planned unit development, except for sales models, recreational buildings, or community facilities, unless a final tract or parcel map has first been recorded for the property on which the building or buildings are located.

C. Project Site Plans.

1. A preliminary project site plan is required to be filed with the application for planned unit development. Contour intervals shall be indicated for property in hillside areas. The site plan required by Section 17.62.010 shall, in addition to other requirements, indicate compliance with the provisions of this chapter.

2. Landscape Plans and List. A plan for landscaping all common area, including plant lists and sprinkler system, shall be approved by the planning director.

3. Phasing Plans. A progress plan delineating the various development phases, if more than one, and specifying a reasonable time allocation for each phase, shall be submitted, and made a condition of approval by the ~~planning commission~~Planning Commission. No phase component shall have a residential density that exceeds by twenty (20) percent the proposed residential density of the entire planned unit development. The total area of common open space provided in each phase shall, at a minimum, be in the same proportion as in the entire development.

4. Highway Access. Each planned unit development shall be located on and have direct access to a major or secondary arterial or a collector street.

5. Utilities. All utility lines necessary to serve the development shall be installed underground.

6. Vehicular Access. The approved site plan shall indicate all vehicular access. In order to encourage inward orientation, increased living amenities, and variety and flexibility of parking areas, direct access to all dwelling units is not required. However, the planning director shall determine the property access system.

7. Specific Plan. The project plans for a planned unit development may be adopted as a specific plan amendment to the general plan.

D. Condominium Common Areas. Except for property dedicated to the C~~c~~ity for inclusion within a public park, school site or park maintenance district, every owner of a dwelling unit or lot shall own as an appurtenance to such dwelling unit or lot, either an undivided interest in the common areas and facilities of the entire project or of the tract in which the ownership is located; or a share in the corporation, or voting membership in an association owning the common areas and facilities of the entire project or of the tract in which the ownership is located.

1. Management Agreement for Control and Maintenance of Common Areas. No lot or dwelling unit in the development shall be sold until a corporation, association, property owner's group or similar entity has been formed with the right to assess all the properties which are jointly owned

with interests in the common areas and facilities in the entire development or in the tract which is a part of the entire development to meet the expenses of such entity, and with authority to control, and the duty to maintain, all of said mutually available features of the development or tract portion thereof. Such entity shall operate under recorded conditions, covenants and restrictions which shall include compulsory membership of all owners of lots and/or dwelling units, and flexibility of assessments to meet changing costs of maintenance, repairs, and services. The developer shall submit evidence of compliance with the requirement to the planning director. This condition shall not apply to land dedicated to the city and included in a park maintenance district or dedication to the city for other public purposes.

2. Maintenance. The right to maintain the buildings and use the property for a residential planned unit development as indicated on the approved revised site plan shall continue in effect only so long as all of the mutually available features, such as recreational areas, community buildings, and landscaping, as well as the general appearance of the premises and buildings are all well maintained.

3. Covenants.

   a. The provisions of subsections (C)(1) and (C)(2) of this section shall be included in the conditions, covenants, and restrictions applying to the property, which are recorded in the office of the county recorder, and copies of said provisions shall be furnished to the individual purchasers of units in the development.

   b. The provisions of subsections (C)(1) and (C)(2) of this section shall also be in each of the preliminary and final drafts of the conditions, covenants, and restrictions submitted to the real estate commissioner.

E. Separate Lots. No portion of land within a residential planned unit development shall be divided in ownership unless it is first recorded as a separate lot on a recorded final tract or parcel map.

F. Sale of Lots or Units. No dwelling unit or lot shall be sold or encumbered separately from an interest in the common areas and facilities in the development which shall be appurtenant to such dwelling unit or lot. No lot shall be sold or transferred in ownership from the other lots in the total development, unless all approved community buildings, structures, and recreational facilities for the total development, or approved phase thereof, have been completed, or completion is assured, to the satisfaction of the planning director.

G. Nonconformities. All nonconformities existing prior to development of the project must be eliminated or alleviated to the satisfaction of the ~~planning commission~~Planning Commission.

Chapter 17.60 DEVELOPMENT STANDARDS

17.60.010 Property development standards.

A. Intent and Purpose. The following general development standards are set forth in order to assure that property in the various zones of the city will be developed in a uniform and orderly manner which will promote the public health, safety, comfort, convenience, and general welfare. These development requirements shall be in addition to the property development standards set forth in each zone. In addition, the design standards established for single family residential development in Chapter 17.19 (Supplemental Standards for Single-Family Residential Development shall apply.

B. Responsibility for Measurements. In measuring lot dimensions and other requirements, it shall be the responsibility of the property owner or his or her authorized agent to provide accurate dimensions and calculations. The submission of inaccurate dimensions or calculations which result in a lot or structure not complying with the requirements set forth in this chapter shall constitute a violation of this chapter, and any permits or approvals granted thereunder shall be void.

C. Lot Widths. Lot widths in residential zones shall vary according to the size of the lot, and shall be determined ~~as provided in the following table~~per the zone-specific standards in Chapters 17.10 - 17.18 and Chapters 17.22 - 17.35).~~:~~

~~**Minimum Lot Width Requirements in Residential Zones**~~

~~Lot Size in Square Feet~~	~~Interior Lot~~	~~Corner Lot~~
~~6,000 to 6,999~~	~~60 feet~~	~~Not permitted~~
~~7,000 to 7,999~~	~~65 feet~~	~~70 feet~~
~~8,000 to 8,999~~	~~70 feet~~	~~75 feet~~
~~9,000 to 9,999~~	~~80 feet~~	~~85 feet~~
~~10,000 & above~~	~~85 feet~~	~~85 feet~~

D. Yards.

1. Encroachments. Where yards are required in this chapter, they shall not be less in depth or width than the minimum dimensions specified in any part, and they shall be at every point open and unobstructed from the ground to the sky, except as follows:

   a. Outside stairways, porches, or landing places, if unroofed and unenclosed, may extend into a required side yard for a distance of not to exceed three feet or into the required rear yard a distance not to exceed five feet.

   b. Awnings, cornice trims, eaves, decks, railings, stoops, and landings, and similar architectural features may encroach two feet into a required front, side, or rear yard.

2. Through Lot Regulations. On through lots either separating such lot from a public thoroughfare may be designated as the front lot line. In such cases the minimum rear yard shall be the average of the yards required on lots next adjoining.

3. Fences, Walls in Yards. Fences or walls not exceeding six feet in height may occupy any portion of a side or rear yard. In a residential single-family zone, where any such fence or wall projects beyond the front yard line or setback toward the front property line it shall not be more than six feet in height if it

is of wrought iron, or other such material; provided that such material does not obscure the view to the front lawn through the fence.

a. Walls and low silhouette plants such as hedges, and other flora along front yard property lines must be approved by city staff and shall not be more than thirty (30) inches in height.

b. Fences and walls shall not extend beyond the property line.

c. There shall be no visual obstructions which would interfere with intersection visibility from a corner setback area. In the corner property radius area any fence shall not be more than six feet in height provided it does not cause visual obstruction. In the corner property radius area, visual obstructions are hereby defined as any wall, obstacle mature landscaping or thing allowed, installed, set out or maintained which obscures intersection visibility.

d. Notwithstanding the above provisions, existing walls and fences shall be permitted to remain unless and until the property owner applies for a building permit to reconstruct, remodel or otherwise perform any construction activity upon the property; at such time any walls or fences shall be brought into compliance with subsections (D)(3)(a) through (c) of this section, as a condition of obtaining such building permit.

e. In residential districts the use of razor, chain-link, or barbed wire is prohibited. Precision concrete block shall not be used unless exterior surfaces visible from the outside of the property are covered by stucco, paint, or texture coating as approved by the community development director.

f. Maintenance. All walls and fences shall be continuously maintained in good repair. The property owner shall be provided thirty (30) days after receiving notice from the city to repair a wall or fence. The building official may grant an extension for the repair of the wall or fence.

4. Landscaping.

a. Except where otherwise provided, required yards and setback areas shall be landscaped with lawn, trees, shrubs, or other plant materials and shall be permanently maintained in a neat and orderly manner as a condition to use. Decorative rock may be used for landscaping in a manner incidental and accessory to the required lawn, trees, shrubs, or other plant materials. Fountains, ponds, sculpture, planters, walkways, flagpoles for display of national, state, city or company ensigns only, light standards, and decorative screen-type walls, forty-two (42) inches or less in height, where an integral part of a landscaping scheme comprised primarily of plant materials are permitted. Entrance and exit drives and walks may be provided into parking areas. Said drives shall not exceed thirty (30) feet in width for each curb opening.

b. Where walls are required between nonresidential and residential zones, no landscaping zones, no landscaping shall be required.

c. Additional standards as established in zone-specific standards (Chapters 17.10 - 17.18 and Chapters 17.22 to 17.35) and Chapter 17.19 (Supplemental Standards for Single-Family Residential) also apply.

5. Measurement. The depth of all required yards which abut a street or highway shall be measured from the street or planned highway right-of-way line, as specified in Section 17.66.010 of this title.

E. Distance Between Buildings. Encroachment into required distances between buildings are permitted as specified for encroachments into yards in subsection D of this section.

F. Accessory Structures. The following regulations shall apply to accessory structures in residential zones:

1. Accessory structures detached from the main dwelling, may not occupy a required front yard, side yard, or corner side yard, except as provided herein.

2. An accessory structure may occupy a required rear yard provided it is at least five feet from any interior property line, and a minimum of ten (10) feet from any street property line.

3. An accessory structure may be a maximum of fifteen (15) feet in height and no more than one story in height, or as provided by the specific zone standards.

4. An accessory structure in the rear yard is limited to a maximum size of four hundred (400) square feet or thirty (30) percent of the size of the main dwelling, whichever is greater. Interior partitions are not allowed within accessory structures. Kitchens and full bathrooms are not allowed inside of any accessory structure~~, except as allowed in Section 17.16.020.C. for secondary housing units~~.

5. Except for side loaded garages, the wall planes or sides of an accessory structure must be a minimum of ten (10) feet from the sides or wall planes of any other structure, measured at right angles from the wall plane or sides of the accessory structure. The corner of an accessory structure may be no closer than five feet from the corner of any other structure, provided the wall planes or sides of both structures comply with the distance requirements specified in this subsection.

6. Accessory structures on a site may not cover more than fifty (50) percent of the required rear yard setback area.

7. Pools and spas may encroach into any required side or rear yard provided they are at least five feet from any property line. Pools and spas may not occupy a required front yard.

8. Mechanical and pool equipment may not occupy a required front yard.

9. Mechanical and pool equipment may occupy a required side yard or corner side yard provided a minimum setback of three feet is provided from any property line.

10. Mechanical and pool equipment may occupy a required rear yard provided a minimum setback of twelve (12) inches is provided from any property line and provided a minimum distance of three feet is provided from any other structure.

11. On lots under seven thousand two hundred (7,200) square feet, an attached patio cover may encroach into a required rear yard provided a minimum setback of ten (10) feet is provided. On lots under six thousand five hundred (6,500) square feet, an attached patio cover may encroach into a required side yard or corner side yard provided a minimum setback of five feet is provided.

12. One freestanding arbor or trellis, up to twelve (12) feet in height and open on all sides, may encroach into a required front yard, provided no more than five percent of the required yard area is covered with the arbor or trellis.

13. Carports may be allowed in a required rear yard of any single family residential site provided they are accessible through an approved driveway that is at least eleven (11) feet clear in width. All vehicles parked in a carport must be architecturally screened from view to the street, and located behind an opaque metal gate at least six feet in height.

14. A detached garage or carport must be a minimum of twenty (20) feet from any street property line if front loading. Side-loaded garages may be twelve (12) feet from the street line. Carports must provide a minimum of ten (10) feet from any corner street line.

15. An attached carport accessed from the corner street must be at least fifteen (15) feet from the rear property line.

G. Trailers Outside Camps. It shall be unlawful for any person to keep or maintain, or to permit to be placed, kept or maintained, any trailer coach being presently used or being intended for present use for human habitation upon any lot, piece or parcel of land within the city, except in a trailer camp or when all of the following regulations and conditions have been complied with:

1. Such trailer coach shall be kept or maintained at the rear of a private residential building, other than an apartment house or hotel.
2. Such trailer coach shall not be placed closer than ten (10) feet to any building or closer than five feet to any property line other than a public street or alley line.
3. Such trailer coach shall be used only for sleeping quarters, and none of the sanitary and cooking facilities in such trailer coach shall be used.
4. Such trailer coach shall not be kept or maintained for sleeping purposes as permitted herein for more than three successive nights in any successive ninety (90) days.

H. Accessory Dwelling Units.

1. Purpose. The purpose of this section is to allow and regulate accessory dwelling units (ADUs) and junior accessory dwelling units (JADUs) in compliance with California Government Code sections 65852.2 and 65852.22. Notwithstanding any conflicting regulations in this title, the regulations in this subsection shall supersede and be applicable to the new construction of ADUs and JADUs, and the conversion of existing structures for said purpose, in the city's residential and agricultural zones.
2. Effect of Conforming. An ADU or JADU that conforms to the standards in this section will not be:
    a. Deemed to be inconsistent with the city's general plan and zoning designation for the lot on which the ADU or JADU is located.
    b. Deemed to exceed the allowable density for the lot on which the ADU or JADU is located.
    c. Considered in the application of any local ordinance, policy, or program to limit residential growth.
    d. Required to correct a nonconforming zoning condition, as defined in subsection (3)(g) below.
3. Definitions. As used in this section, terms are defined as follows:
    a. "Accessory dwelling unit" or "ADU" means an attached or a detached residential dwelling unit that provides complete independent living facilities for one or more persons and is located on a lot with a proposed or existing primary residence. An accessory dwelling unit also includes the following:
        1) An efficiency unit, as defined by Section 17958.1 of the California Health and Safety Code; and
        2) A manufactured home, as defined by Section 18007 of the California Health and Safety Code.
    b. "Accessory structure" means a structure that is accessory and incidental to a dwelling located on the same lot.
    c. "Complete independent living facilities" means permanent provisions for living, sleeping, eating, cooking, and sanitation on the same parcel as the single-family or multifamily dwelling is or will be situated.
    d. "Efficiency kitchen" means a kitchen that includes each of the following:
        1) A cooking facility with appliances.
        2) A food preparation counter or counters that total a minimum of fifteen (15) square feet in area.
        3) Food storage cabinets that total a minimum of thirty (30) square feet of shelf space.
    e. "Junior accessory dwelling unit" or "JADU" means a residential unit that

1) is no more than five hundred (500) square feet in size,

2) is contained entirely within an existing or proposed single-family structure,

3) includes its own separate sanitation facilities or shares sanitation facilities with the existing or proposed single-family structure, and

4) includes an efficiency kitchen, as defined in subsection (3)(d) above.

f. "Living area" means the interior habitable area of a dwelling unit, including basements and attics, but does not include a garage or any accessory structure.

g. "Nonconforming zoning condition" means a physical improvement on a property that does not conform with current zoning standards.

h. "Passageway" means a pathway that is unobstructed clear to the sky and extends from a street to one entrance of the ADU or JADU.

i. "Proposed dwelling" means a dwelling that is the subject of a permit application and that meets the requirements for permitting.

j. "Public transit" means a location, including, but not limited to, a bus stop or train station, where the public may access buses, trains, subways, and other forms of transportation that charge set fares, run on fixed routes, and are available to the public.

k. "Tandem parking" means that two or more automobiles are parked on a driveway or in any other location on a lot, lined up behind one another.

4. Approvals. The following approvals apply to ADUs and JADUs under this section:

a. Building-permit Only. If an ADU or JADU complies with each of the general requirements in subsection (e) below, it is allowed with only a building permit in the following scenarios:

1) Converted on Single-family Lot: Only one ADU or JADU on a lot with a proposed or existing single-family dwelling on it, where the ADU or JADU:

(i) Is either: within the space of a proposed single-family dwelling; within the existing space of an existing single-family dwelling; or within the existing space of an accessory structure, plus up to one hundred fifty (150) additional square feet if the expansion is limited to accommodating ingress and egress.

(ii) Has exterior access that is independent of that for the single-family dwelling.

(iii) Has side and rear setbacks sufficient for fire and safety, as dictated by applicable building and fire codes.

2) Limited Detached on Single-family Lot: One detached, new-construction ADU on a lot with a proposed or existing single-family dwelling (in addition to any JADU that might otherwise be established on the lot under subsection (4)(a)(1) above, if the detached ADU satisfies the following limitations:

(i) The side- and rear-yard setbacks are at least four-feet.

(ii) The total floor area is eight hundred (800) square feet or smaller.

(iii) The peak height above grade is sixteen (16) feet or less.

3) Converted on Multifamily Lot: Multiple ADUs within portions of existing multifamily dwelling structures that are not used as livable space, including but not limited to storage rooms, boiler rooms, passageways, attics, basements, or garages, if each converted ADU complies with state building standards for dwellings. At least one converted ADU is allowed

within an existing multifamily dwelling, and up to twenty-five (25) percent of the existing multifamily dwelling units may each have a converted ADU under this paragraph.

4) Limited Detached on Multifamily Lot: No more than two detached ADUs on a lot that has an existing multifamily dwelling if each detached ADU satisfies the following limitations:

(i) The side- and rear-yard setbacks are at least four-feet.

(ii) The total floor area is eight hundred (800) square feet or smaller.

b. ADU Permit.

1) Except as allowed under subsection (d)(1) above, no ADU may be created without a building permit and an ADU permit in compliance with the standards set forth in subsections (e) and (f) below.

2) The city may charge a fee to reimburse it for costs incurred in processing ADU permits, including the costs of adopting or amending the city's ADU ordinance. The ADU-permit processing fee is determined by the planning director and approved by the city council by resolution.

c. Process and Timing.

1) An ADU permit is considered and approved ministerially, without discretionary review or a hearing.

2) The city must act on an application to create an ADU or JADU within sixty (60) days from the date that the city receives a completed application, unless either:

(i) The applicant requests a delay, in which case the 60-day time period is tolled for the period of the requested delay, or

(ii) In the case of a JADU and the application to create a junior accessory dwelling unit is submitted with a permit application to create a new single-family dwelling on the lot, the city may delay acting on the permit application for the JADU until the city acts on the permit application to create the new single-family dwelling, but the application to create the JADU will still be considered ministerially without discretionary review or a hearing.

5. General ADU and JADU Requirements. The following requirements apply to all ADUs and JADUs that are approved under subsections (4)(a) or (4)(b) above:

a. Zoning.

1) An ADU or JADU subject only to a building permit under subsection (4)(a) above may be created on a lot in a residential or mixed-use zone.

2) An ADU or JADU subject to an ADU permit under subsection (4)(b) may be created on a lot that is zoned to allow single-family dwelling residential use or multifamily dwelling residential use.

b. Fire Sprinklers. Fire sprinklers are required in an ADU if sprinklers are required in the primary residence.

c. Rental Term. No ADU or JADU may be rented for a term that is shorter than 30 days.

d. No Separate Conveyance. An ADU or JADU may be rented, but no ADU or JADU may be sold or otherwise conveyed separately from the lot and the primary dwelling (in the case of a single-family lot) or from the lot and all of the dwellings (in the case of a multifamily lot).

e. Septic System. If the ADU or JADU will connect to an onsite water-treatment system, the owner must include with the application a percolation test completed within the last five years or, if the percolation test has been recertified, within the last ten (10) years.

f. Owner Occupancy.

1) All ADUs created before January 1, 2020 are subject to the owner-occupancy requirement that was in place when the ADU was created.

2) An ADU that is created after that date but before January 1, 2025, is not subject to any owner-occupancy requirement.

3) All ADUs that are created on or after January 1, 2025 are subject to an owner-occupancy requirement. A natural person with legal or equitable title to the property must reside on the property as the person's legal domicile and permanent residence.

4) All JADUs are subject to an owner-occupancy requirement. A natural person with legal or equitable title to the property must reside on the property, in either the primary dwelling or JADU, as the person's legal domicile and permanent residence. However, the owner-occupancy requirement of this paragraph does not apply if the property is entirely owned by another governmental agency, land trust, or housing organization.

g. Deed Restriction. Prior to issuance of a building permit for an ADU or JADU, a deed restriction must be recorded against the title of the property in the county recorder's office and a copy filed with the planning director. The deed restriction must run with the land and bind all future owners. The form of the deed restriction will be provided by the city and must provide that:

1) The ADU or JADU may not be sold separately from the primary dwelling.

2) The ADU or JADU is restricted to the approved size and to other attributes allowed by this section.

3) The deed restriction runs with the land and may be enforced against future property owners.

4) The deed restriction may be removed if the owner eliminates the ADU or JADU, as evidenced by, for example, removal of the kitchen facilities. To remove the deed restriction, an owner may make a written request of the director, providing evidence that the ADU or JADU has in fact been eliminated. The director may then determine whether the evidence supports the claim that the ADU or JADU has been eliminated. Appeal may be taken from the director's determination consistent with other provisions of this code. If the ADU or JADU is not entirely physically removed, but is only eliminated by virtue of having a necessary component of an ADU or JADU removed, the remaining structure and improvements must otherwise comply with applicable provisions of this code.

5) The deed restriction is enforceable by the director or his or her designee for the benefit of the city. Failure of the property owner to comply with the deed restriction may result in legal action against the property owner, and the city is authorized to obtain any remedy available to it at law or equity, including, but not limited to, obtaining an injunction enjoining the use of the ADU or JADU in violation of the recorded restrictions or abatement of the illegal unit.

6. Specific ADU Requirements. The following requirements apply only to ADUs that require an ADU permit under subsection (4)(b) above.

a. Maximum Size.

1) The maximum size of a detached or attached ADU subject to this subsection (6) is eight hundred fifty (850) square feet for a studio or one-bedroom unit and one thousand (1,000) square feet for a unit with two bedrooms. No more than two bedrooms are allowed.

2) An attached ADU that is created on a lot with an existing primary dwelling is further limited to fifty (50) percent of the floor area of the existing primary dwelling.

3) Application of other development standards in this subsection (6), such as FAR or lot coverage, might further limit the size of the ADU, but no application of FAR, lot coverage, or open-space requirements may require the ADU to be less than eight hundred (800) square feet.

b. Floor Area Ratio (FAR). No ADU subject to this subsection (6) may cause the total FAR of the lot to exceed forty-five (45) percent, subject to subsection (6)(a)(3).

c. Lot Coverage. No ADU subject to this subsection (6) may cause the total lot coverage of the lot to exceed fifty (50) percent, subject to subsection (6)(a)(3).

d. Minimum Open Space. No ADU subject to this subsection (6) may cause the total percentage of open space of the lot to fall below fifty (50) percent, subject to subsection (6)(a)(3) above.

e. Height.

1) A single-story attached or detached ADU may not exceed sixteen (16) feet in height above grade, measured to the peak of the structure.

2) A second story or two-story attached ADU may not exceed the height of the primary dwelling.

3) A detached ADU may not exceed one story.

f. Passageway. No passageway, as defined by subsection (c)(8) above, is required for an ADU.

g. Parking.

1) Generally. One off-street parking space is required for each ADU. The parking space may be provided in setback areas or as tandem parking, as defined in subsection (3)(k) above. The parking space may be provided in setback areas or as tandem parking, as defined in subsection (3)(k) above.

2) Exceptions. No parking under subsection (6)(g)(1) is required in the following situations:

(i) The ADU is located within one-half mile walking distance of public transit, as defined in subsection (3)(j) above.

(ii) The ADU is located within an architecturally and historically significant historic district.

(iii) The ADU is part of the proposed or existing primary residence or an accessory structure under subsection (4)(a)(1) above.

(iv) When on-street parking permits are required but not offered to the occupant of the ADU.

(v) When there is an established car share vehicle stop located within one block of the ADU.

3) No Replacement. When a garage, carport, or covered parking structure is demolished in conjunction with the construction of an ADU or converted to an ADU, those off-street parking spaces are not required to be replaced.

h. Architectural Requirements.

1) Exterior building materials and colors of the exterior walls, roof, and windows and doors shall match the appearance and architectural design of those of the primary dwelling.

2) The roof slope must match that of the dominant roof slope of the primary dwelling. The dominant roof slope is the slope shared by the largest portion of the roof.

3) The exterior lighting must be limited to down-lights or as otherwise required by the building or fire code.

4) The ADU must have an independent exterior entrance, apart from that of the primary dwelling. The ADU entrance must be located on the side or rear building façade, not facing a public-right-of-way.

5) The interior horizontal dimensions of an ADU must be at least ten (10) feet wide in every direction, with a minimum interior wall height of seven feet.

6) Windows and doors of the ADU may not have a direct line of sight to an adjoining residential property. Fencing, landscaping, or privacy glass may be used to provide screening and prevent a direct line of sight.

i. Landscape Requirements.

1) Evergreen landscape screening must be planted and maintained between the ADU and adjacent parcels as follows:

a) At least one 15-gallon size plant shall be provided for every five linear feet of exterior wall. Alternatively, at least one 24-inch box size plant shall be provided for every ten (10) linear feet of exterior wall.

b) For a ground-level ADU, plant specimens must be at least six feet tall when installed. As an alternative, for a ground level ADU, a solid fence of at least six feet in height may be installed.

c) For a second-story ADU, plant specimens must be at least twelve (12) feet tall when installed.

2) All landscaping must be desert-friendly and water-efficient plantings and irrigation systems.

7. Fees.

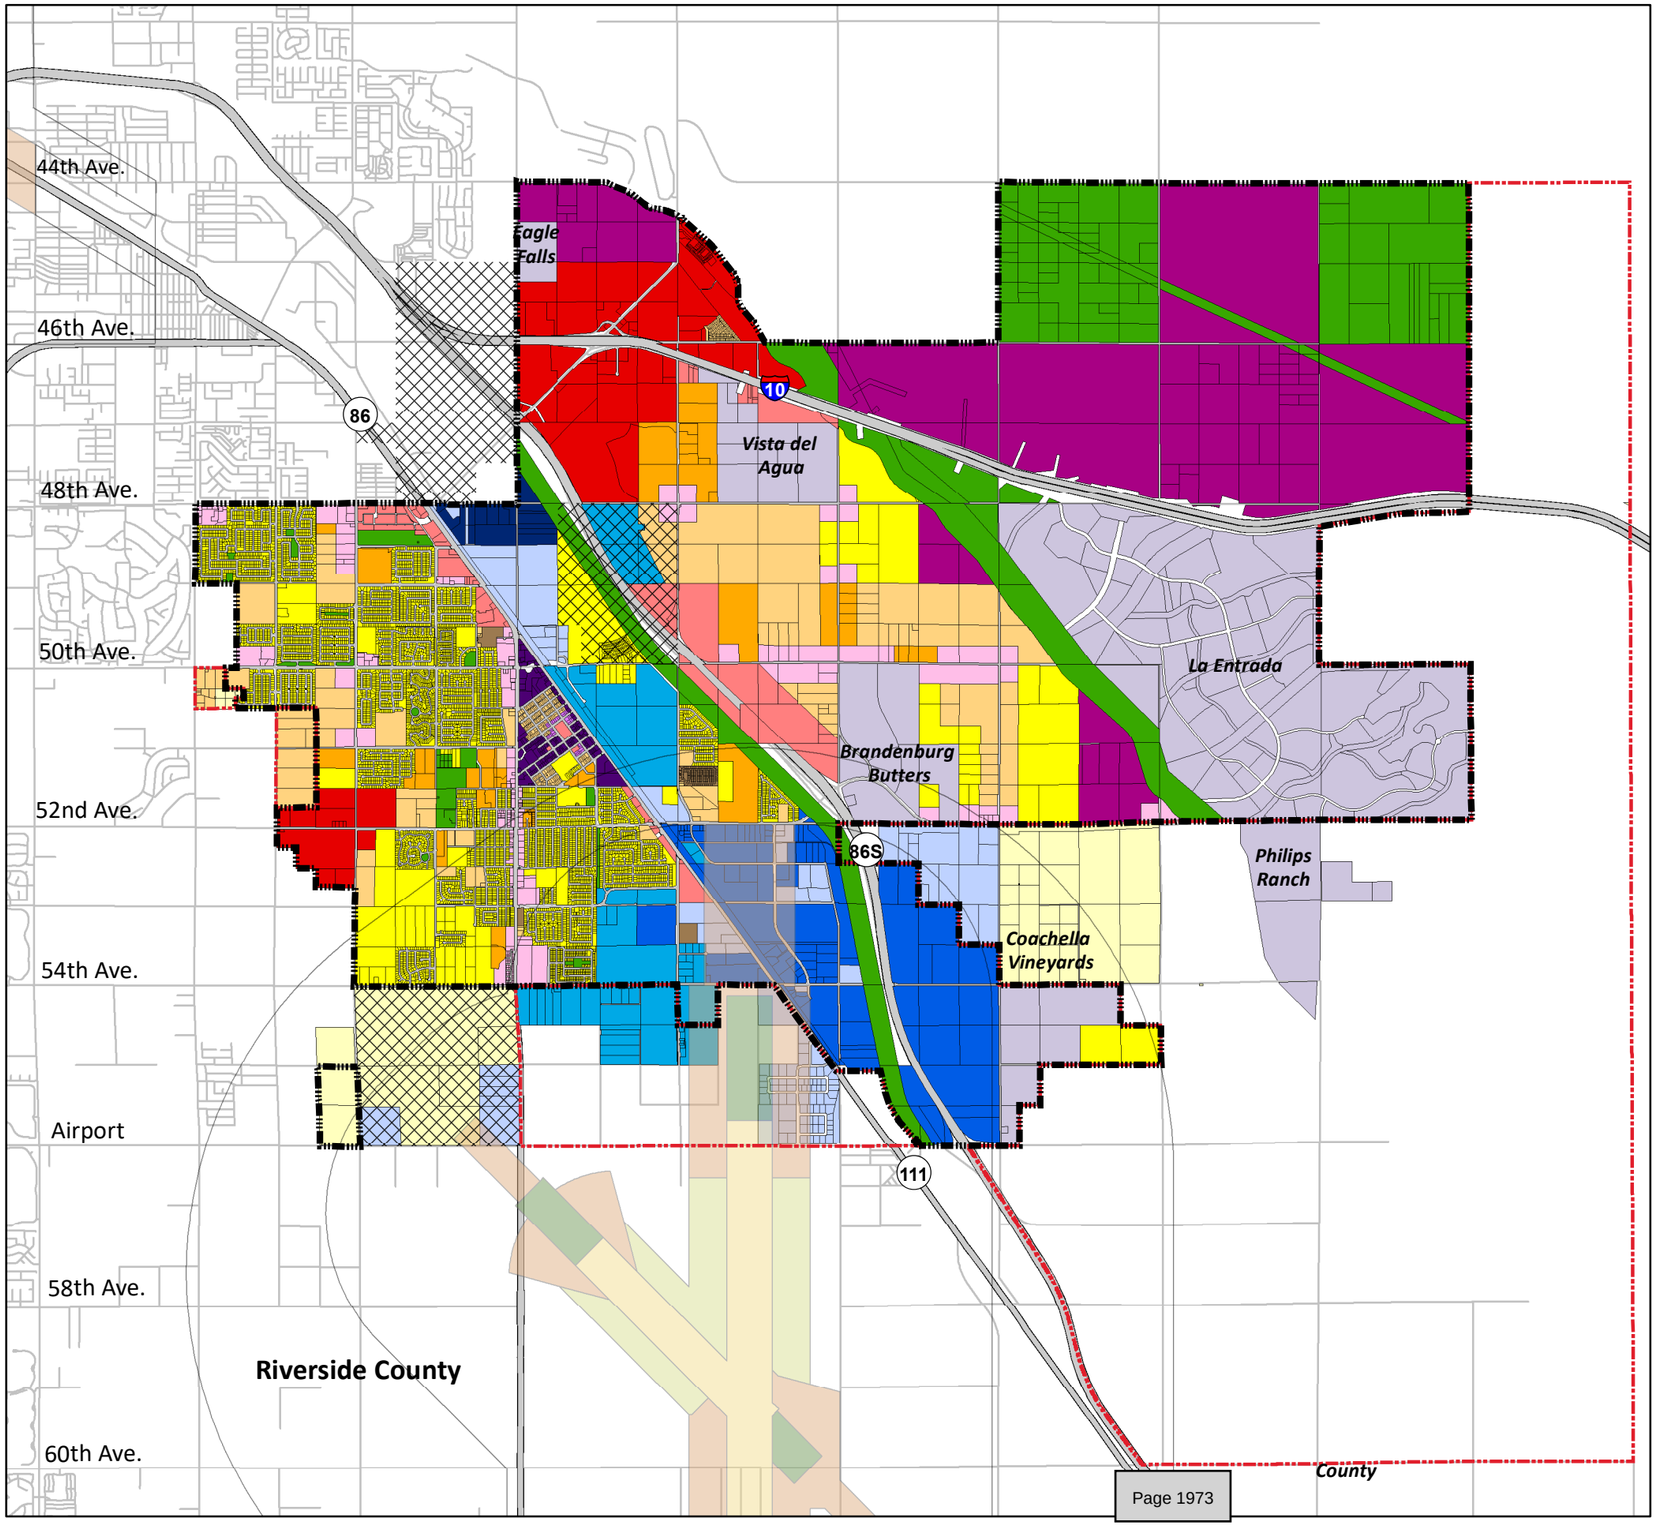
a. Impact Fees.

1) No impact fee is required for an ADU that is less than seven hundred fifty (750) square feet in size.

2) Any impact fee that is required for an ADU that is seven hundred fifty (750) square feet or larger in size must be charged proportionately in relation to the square footage of the primary dwelling unit. (e.g., the floor area of the primary dwelling, divided by the floor area of the ADU, times the typical fee amount charged for a new dwelling.) "Impact fee" here does not include any connection fee or capacity charge for water or sewer service.

b. Utility Fees.

1) Converted ADUs and JADUs on a single-family lot, created under subsection (4)(a)(1) above, are not required to have a new or separate utility connection directly between the ADU or JADU and the utility. Nor is a connection fee or capacity charge required unless the ADO or JADU is constructed with a new single-family home.



8. Nonconforming ADUs and Discretionary Approval. Any proposed ADU or JADU that does not conform to the objective standards set forth in subsections (1) through (7)(b) of this section may be allowed by the city with a conditional use permit, in accordance with Chapter 17.74 of this title.

(Ord. 984 § 1, 2007; prior code § 070.07)

(Ord. No. 1075, §§ 10, 11, 6-10-15; Ord. No. 1150 , Exh. A, 12-11-19)

Re: Finding of Consistency – Coachella Zoning Code Update and Minor Amendments to GP 2035

This memorandum provides a summary of Rincon Consultants, Inc.'s (Rincon) Finding of Consistency (FOC) that evaluates consistency between the City of Coachella's (City) proposed Zoning Code Update and minor updates to the General Plan 2035 (hereafter referred to as 'proposed project') and the findings of the City's Final Environmental Impact Report (hereafter referred to as the 2015 Final EIR) for the City of Coachella General Plan 2035 (hereafter referred to as GP 2035). GP 2035, which was adopted by the City of Coachella City Council on April 22, 2015, establishes the City's vision and capacity for development of the City through the year 2035. Since adoption of GP 2035 and the 2015 Final EIR, the City has initiated an update to its Zoning Code and minor revisions and modifications to the Land Use and Community Character Element of GP 2035 and to the General Plan Land Use 2035 Map to implement the land use patterns and development framework established by the City's GP 2035.

The City's proposed Zoning Code Update would amend the City's existing Zoning Code to implement the City's GP 2035 and to promote and enhance the public health, safety, and welfare of the residents of the city. Since a Zoning Code regulates, among other things, a jurisdiction's land use, density, lot coverages, lot sizes and setbacks, building sizes, landscaping, and parking, it is the means to implement a jurisdiction's General Plan, which is the policy document for its future growth. A jurisdiction's General Plan (in this case, GP 2035) is the official guide for the future physical development of the City and its

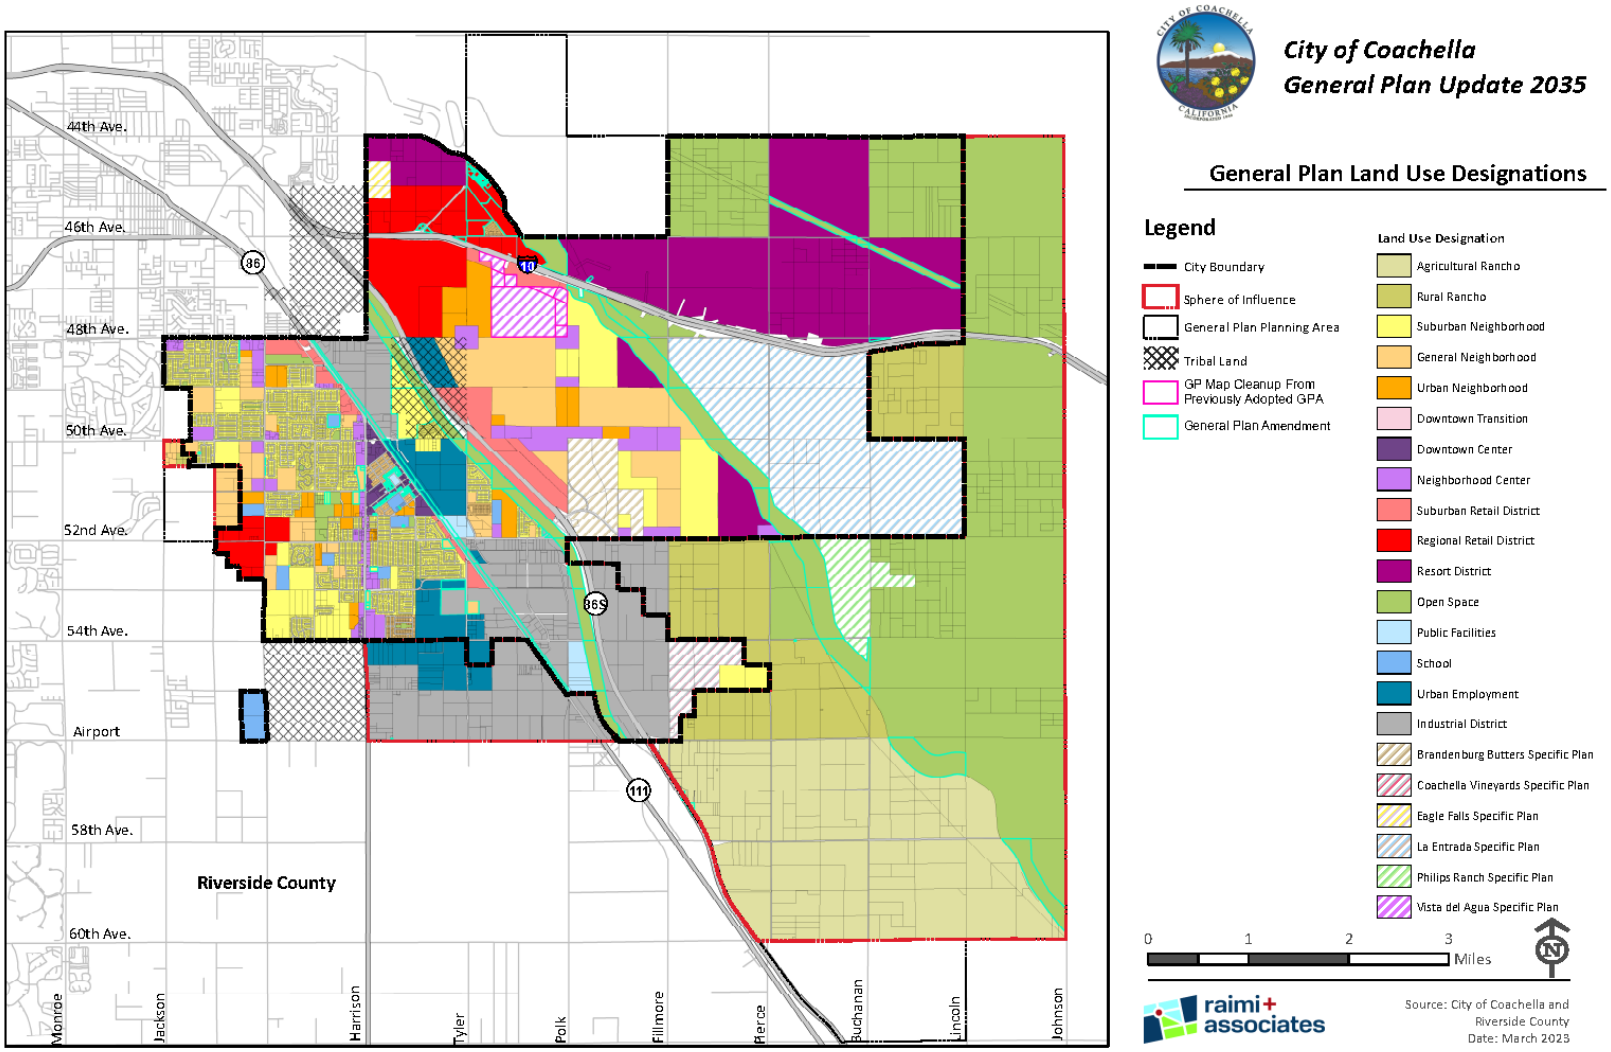
land use planning and zoning changes. As required by State law, a City's Zoning Code needs to be consistent with its adopted General Plan goals and policies.

GP 2035, specifically the Land Use and Community Character Element and the General Plan Land Use Map (Figure 1), classifies and represents the different land use types and locations where growth and development under the updated General Plan is expected (or desired) to occur or where locations should be protected from future development. In addition to the Zoning Code Update, the proposed project would result in minor revisions to the General Plan Land Use Map and the Land Use and Community Character Element of GP 2035. These updates are for minor land use changes in terms of land use categories, density, and design but would not result in a net change in the overall growth of GP 2035 or affect the basis for impact analysis in the Final EIR. These minor updates in GP 2035 provide decision-makers and the public an overview of the area of change, an understanding of where change will occur, the vision for change in each area, the overall level of intensity, and the priority level of change in each area.

With the minor edits noted above, there would be no net loss in the City's future development capacity under GP 2035 compared to what was previously analyzed. To be consistent with the City's place-making goals, each of the General Plan Land Use place types identifies the type of use, character and form, as well as intensity/density of use under the categories of Neighborhoods, Centers, and Districts. These proposed land use designations under the General Plan amendment would allow for future development/redevelopment to conform to a consistent development form and character in building placement, design and density, parking lot locations and streetscape designs as was previously envisioned when GP 2035 was adopted.

With the minor edits to GP 2035, the Zoning Code Update would then follow and allow the City to designate zoning designations (Figure 2) that would better articulate the City's growth, uses, and character as envisioned by GP 2035.

Figure 1 Updated GP Places Types Map



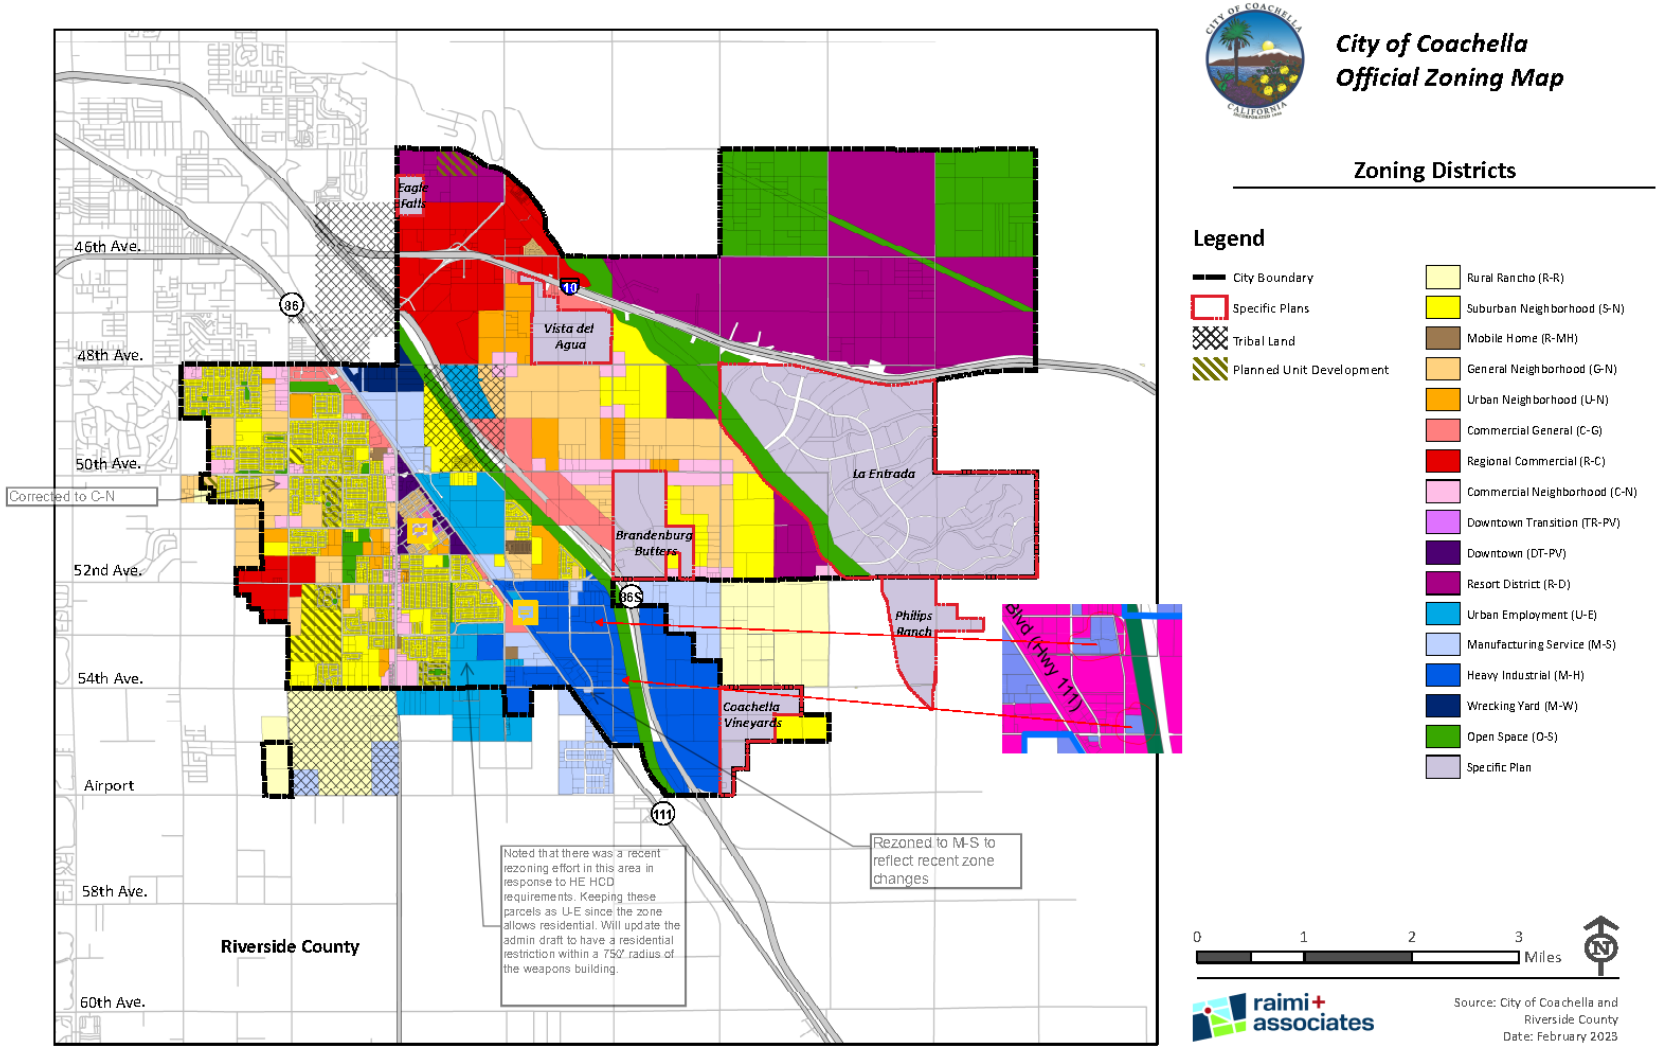


Figure 2 Zoning Map

Project Background

Project Location

The City of Coachella is in central Riverside County (County), in the Coachella Valley. The Coachella Valley is surrounded by the Santa Rosa Mountains approximately 10 miles southwest of the city, the San Bernardino Mountains about 45 miles northwest, the San Gorgonio pass 35 miles to the northwest, and the San Jacinto Mountains about 25 miles to the west. The northern and northeastern parts of the valley are defined by the Little San Bernardino Mountains, which are immediately north and northeast of the city. The south end of the valley is defined by the northern shore of the Salton Sea.

The Coachella Valley has an arid climate, with hot, dry summers and moderately cold winters. Typical summertime highs exceed 110 degrees Fahrenheit, with wintertime temperatures generally in the low 50s. The geomorphology and climate of the Coachella Valley has created diverse habitats that support a wide array of plant and animal species. The General Plan 2035 planning area includes the City and its Sphere of Influence (SOI) that encompass a total of approximately 45,300 acres in central Riverside County in the Coachella Valley, between the Santa Rosa and San Jacinto Mountains National Monument to the southwest and Joshua Tree National Park to the northeast. It lies approximately 10 miles northwest of the Salton Sea, 20 miles southeast of Palm Springs, and 80 miles east of Riverside. The City is bounded by unincorporated Riverside County lands to the north and east; the City of Indio to the northwest; the City of La Quinta to the west; and the unincorporated community of Thermal to the south. The City's Zoning Code update applies to all areas where the City has jurisdictional authority.

Proposed Project

California Government Code Section §65860(a) requires that a jurisdiction's zoning ordinance be consistent with its General Plan or any updates to its General Plan. Therefore, the City is proposing to amend its existing Zoning Ordinance to ensure compatibility with its adopted General Plan 2035 and to allow for development intensities and uses that are consistent with its adopted General Plan. The City's updated Zoning Code would therefore implement the goals and policies of the Coachella General Plan by regulating the use of land and structures within the City.

The City's existing Zoning Ordinance has 13 zones. The proposed Zoning Code Update would revise these zones and create new zones to create updated density ranges and match the Zoning Code with the GPU land use designations. Four new zones would be created including the Urban Neighborhood (U-N), Urban Employment (U-E), Resort District (R-D), and Open Space (OS). The proposed Zoning Code Update would have 18 zones. Updates and revisions are shown in Table 1[1]. The zones recommended by the Pueblo Viejo Implementation Strategy Plan for Downtown Coachella have also been incorporated in Title 17 with some revisions.

Existing land uses in the City are predominantly a mix of residential, resort, open space, industrial, and retail, followed by, public facilities, schools, and specific plan areas.

[1] The Pueblo Viejo Plan listed under the "Old Zoning District" in Table 1 is a Revitalization Plan, not a zone, so it is not counted as one of the thirteen zones in the City's existing Zoning Ordinance.

Table 1 Zoning Updates

Old Chapter #	Old Zoning District	New Chapter #	New/Revised Zoning District	New Density Range (du/ac)	New FAR	Corresponding GPLU
	Residential Zones					
17.10	Agricultural Reserve (A-R)	17.10	Agricultural Reserve (A-R)	Up to 0.025	-	Agricultural Rancho
17.12	Agricultural Transition (A-T)	17.11	Rural Rancho (R-R)	0.4 to 1	-	Rural Rancho
17.14	Residential Estate (R-E)	17.12	Residential Estate (R-E)	1 to 2.2	-	Estate Rancho
17.16	Residential Single Family (R-S)	17.13	Suburban Neighborhood (S-N)	2 to 8	-	Suburban Neighborhood
17.18	6000 Overlay (R-O-6000)					
17.20	Residential Multiple Family (R-M)	17.14	General Neighborhood (G-N)	8 to 25	-	General Neighborhood
		17.15	Urban Neighborhood (U-N)	20 to 38	0.5	Urban Neighborhood
17.22	Mobilehome Park (R-MH)	17.22	Mobile Home Park (R-MH)	~0.1 mobile home/ac (1 mobile home/ 4,500 sf)	-	Varies
	Commercial and Mixed Use Zones					
		17.16	Urban Employment (U-E)	30 to 65	2.0	Urban Employment
		17.17	Resort District (R-D)	Up to 8	0.1	Resort District
Pueblo Viejo Plan	Transition Area Pueblo Viejo Zone (TR-PV)	17.18	Downtown Transition (TR-PV)	Up to 25	1.5	Downtown Transition
	Sixth Street Pueblo Viejo Zone (SS-PV)	17.18	Downtown Zone (DT-PV) – collapses several Pueblo Viejo zones	20 to 65	3.0	Downtown Center
	Grapefruit Boulevard Pueblo Viejo Zone (GB-PV)					
	Cesar Chavez Street Pueblo Viejo Zone (CC-PV)					
17.24	Neighborhood Commercial (C-N)	17.24	Neighborhood Commercial (C-N)	15 to 40	1.5	Neighborhood Center
17.26	General Commercial (C-G)	17.26	General Commercial (C-G)	-	1.0	Suburban Retail
17.28	Tourist Commercial (C-T)	17.28	Regional Commercial (R-C)	10 to 15	2.0	Regional Retail
	Industrial and Other Zones					
17.30	Manufacturing Service (M-S)	17.30	Manufacturing Service (M-S)	-	2.0	Industrial
17.32	Heavy Industrial (M-H)	17.32	Heavy Industrial (M-H)	-	2.0	Industrial
17.34	Wrecking Yard (M-W)	17.34	Wrecking Yard (M-W)	-	2.0	Industrial
		17.35	Open Space (OS)	-	-	Parks and Open Space

As part of the City's Zoning Code Update, the City is also implementing minor amendments to GP 2035, specifically to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map. These include changes to the General Plan Land Use Types, specifically the addition of a new land use designation - Downtown Transition. Table 2 shows these changes would result in a net addition of 325 additional potential units in the City's future development capacity under GP 2035 compared to what was previously analyzed: 176,478 units under the 2015 GPLU compared to 176,478 under GP 2035. This 0.2% increase in development capacity is negligible in the context of the maximum overall development capacity under either scenario. To be consistent with the City's place-making goals, each of the General Plan Land Use place types identifies the type of use, character, and form, as well as intensity/density of use under the categories of Neighborhoods, Centers, and Districts. These minor changes noted above to proposed land use designations under the General Plan Amendment would allow for future development and redevelopment to conform to a consistent development form and character in building placement, design and density, parking lot locations and streetscape designs as was previously envisioned when GP 2035 was adopted.

The City's GP 2035 and related Zoning Code update, and minor amendments, would ensure that future development is guided to areas where the community desires change while protecting the character of existing development in other areas such as the majority of the residential and some of the commercial areas. The City's Zoning Code Update would therefore help guide the future growth and character of the City while allowing for development changes such as, but not limited to, increased building heights, maximum Floor Area Ratios (FARs), and design regulations.

Table 2 Land Use Comparison

2015 GPLU	Acres	Percent of Total	Allowed Max Density (du/ac)	Max. Capacity	2023 GPLU	Acres	Percent of Total	Allowed Max Density (du/ac)	Max. Capacity	Net Change
Agricultural Rancho	0.00	0%	0.025	0	Agricultural Rancho	0.00	0%	0.025	0	0
Downtown Center	80.60	0%	65	5,239	Downtown Center	88.56	1%	65	5,756	518
					Downtown Transition	6.26	0%	25	156	156

Total	**176,44.30**	**100%**		**176,478**	**Total**	**176,44.30**	**100%**		**176,803**	**325**

CEQA Guidelines Applicability

The City's proposed Zoning Code and General Plan Amendment (proposed project) is in accordance with Section §15183 (Projects Consistent with a Community Plan or Zoning) of the California Environmental Quality Act (CEQA) Guidelines, subsection (a) which states that additional environmental review is not required for projects "which are consistent with the development density established by existing zoning, community plan, or general plan policies for which an EIR was certified", except as might be necessary to determine whether there are project-specific significant effects. In this case, the proposed project is consistent with the City's GP 2035 and Final Environmental Impact Report (EIR) which were adopted and certified by the City Council on April 22, 2015. Therefore, the proposed project is consistent with State CEQA Guidelines Section §15168(c)(2) since it is within the programmatic scope covered by the Final EIR and there is no substantial evidence that the proposed Zoning Code Update would require additional environmental analysis.

Similarly, the proposed project is consistent with CEQA Guidelines Section §15183 (d)(1)(C) since it meets the consistency with "a general plan of a local agency", and with Section §15183 (d) (2) which states that "an EIR was certified by the lead agency for the…. general plan".

Additionally, the proposed project is consistent with CEQA Guidelines Section §15162(a) in that no subsequent environmental documentation will be required for the proposed project. Specifically, the proposed project is not proposing any substantial changes to the City's GP 2035 [§15162(a)(1)], would not result in substantial changes due to the GPU and Zoning Code Update [§15162(a)(2)], nor would it present new information of substantial importance, which was not known and could not have been known with the exercise of reasonable due diligence at the time the previous EIR was certified as complete, showing any of the following [§15162(a)(3)]:

A. The project will have one or more significant effects not discussed in the previous EIR
B. Significant effects previously examined will be substantially more severe than shown in the previous EIR
C. Mitigation measures or alternatives previously found not to be feasible would in fact be feasible, and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative
D. Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative

Therefore, the following discussion evaluates the proposed project's consistency with the certified 2015 EIR prepared for the City's GP 2035 to determine whether the proposed project would have new effects or an increase in severity of significant environmental effects beyond those identified in the 2015 EIR. Since the Zoning Code Update is a regulatory document that affects the entire City, any future development and redevelopment project in the City would have to be analyzed at a project level for all CEQA related impacts.

This FOC has been prepared pursuant to the applicable provisions of §15183 of the California Environmental Quality Act (CEQA) Guidelines.

Finding of Consistency

The following discussion addresses each of the environmental issues studied in the 2015 EIR for the City's GP 2035, comparing the effects of the proposed project to the effects of the adopted GP 2035. These environmental issues include aesthetics, agricultural resources, air quality, biological resources, cultural resources (including tribal cultural resources), geology and soils (including mineral resources), greenhouse gas emissions, hazards and hazardous materials, hydrology and water quality, land use and planning, mineral resources, noise, population and housing, public services and recreation, transportation and traffic, and utilities and public service systems. However, in 2019, Appendix G of the CEQA Guidelines was amended and two new environmental issue areas were added: energy and wildfire. These topics are incorporated into the discussions below.

Aesthetics

There are no designated scenic vistas within the GP 2035 Planning Area, but certain scenic views, such as those of nearby mountains, are present. Although future development consistent with GP 2035 would allow for development on currently undeveloped parcels and intensify urban development on previously developed parcels, the 2015 EIR determined that conformance to goals and policies of the Land Use and Community Character, and Infrastructure and Public Services Elements of GP 2035 would ensure development would be designed and sited to minimize obstruction of views. The 2015 EIR therefore determined less than significant impacts on scenic vistas.

There are no state-designated scenic highways within the GPU Planning Area. However, all future development in the City and its Planning Area would be required to comply with GP 2035 policies. Sustainability and Natural Environment Element policies 6.2, 10.9, and 13.6 would lessen potential impacts by restricting new billboards and encouraging preservation and conservation of open space and scenic natural features. Therefore, the 2015 EIR determined less than significant impacts to scenic resources along a state-designated scenic highway.

GP 2035 would facilitate development that would alter the visual character of the City, specifically along the I-10 corridor. However, land use designations included in GP 2035 provide guidance for allowable uses, building density, parking location, streetscape design, and other elements which drive future development within specific land use designations. Urban form would be retained by adherence to the GP 2035 policies that preserve the visual characteristics of the City. Policies within the Land Use and Community Character Element would ensure compatibility with the existing visual character of the City. The 2015 EIR determined a less-than-significant impact to community character as a result of GP 2035.

GP 2035 would facilitate development that would introduce new sources of light and glare within the planning area. Development within the City would comply with applicable zoning standards that limit light and glare, such as Municipal Code 16.28.150 (L), 17.56.010 (J)(2)(e), and 17.54.010 (k). In addition, Furthermore, the GP 2035 includes the Land Use and Community Character policy 6.5, Dark sky, to limit outdoor light sources from new development to preserve night sky viewing opportunities. Therefore, the 2015 EIR found less than significant impacts to aesthetics associated with light and glare.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implements the City's updated General Plan goals and policies. The proposed project in and of itself would not directly result in development, but rather is meant to designate zoning to conform with land use patterns identified in the GPU. The Zoning Code Update is a

regulatory document that would supervise land development by enforcing the GPU's goals and policies and making it easier for future development and redevelopment projects to conform to the land use patterns and development framework established by GP 2035. The Zoning Code Update would also provide for standards that promote orderly growth and development in the City, while considering its natural environmental features and existing land uses. The proposed project would therefore involve updated regulations relative to the use and development of land uses in the City, and would not in itself affect scenic views, scenic vistas and community resources beyond what was analyzed under the 2015 EIR for the GP 2035. Therefore, the proposed project would not create any new significant impacts, nor would it increase the severity of impacts that were identified in the 2015 EIR. Impacts would remain less than significant.

Agriculture and Forestry Resources

The 2015 EIR determined significant and unavoidable impacts to the direct conversion of agricultural resources and Williamson Act contracts. The 2035 GPU did not designate any lands for exclusive agricultural use and development facilitated by the 2035 GPU could ultimately end commercial agricultural activity and preclude fallow agricultural land from future production. There are 9,862 acres of farmland in the City rated as Prime or Unique Farmland, or Farmland of Local Importance impacted by the 2035 GPU. The 2035 GPU identified approximately 994 acres of Williamson Act contracts within the Planning Area which would be designated to urban uses. Furthermore, the 2015 EIR did not identify any mitigation measures available to reduce potential impacts.

The 2015 EIR determined less than significant impacts related to the indirect conversion of agricultural resources as a result of the 2035 GPU. Although implementation of the 2035 GPU could place incompatible land uses next to agriculture, policies within the Sustainability and Natural Resources Element address urban-agricultural interfaces. Policies would be implemented on a project-by-project basis to address specific project-level impacts.

The 2015 EIR determined no impacts related to the direct and indirect conversion of forestry resources as a result of the 2035 GPU. The Planning Area does not contain forest land or timberland and no areas are zoned for such uses. As a result, the 2035 GPU would not result in a loss or conversion of forest land or timberland.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implements the City's updated General Plan goals and policies. As a regulatory document, the proposed project would supervise land development by enforcing the GPU's goals and policies and making it easier for future development and redevelopment projects to conform to the land use patterns and development framework established by GP 2035. The Zoning Code Update would provide for standards that promote orderly growth and development in the City, while considering its existing land uses. The proposed project would involve updated regulations relative to the use and development of land uses in the City, however these changes are not related to agricultural or forestry resources. The proposed project would not in itself affect agricultural or forestry resources or result in the loss or conversion of land or Williamson Act Contracts, beyond what was analyzed under the 2015 EIR for the GP 2035. Since all subsequent development would be required to adhere to GP 2035 policies if located on or adjacent to agricultural lands, and specific requirements would be determined by the City at a project-level, the proposed project would not create any new significant impacts beyond those identified in the 2015 EIR.

Air Quality

The 2015 EIR determined that housing, population, and employment growth generated by implementation of the 2035 GPU would be roughly similar to projections utilized in the Air Quality Management Plan. Therefore, the 2035 GPU would not conflict with the applicable air quality plan for the region and impacts would be less than significant.

The 2035 GPU would result in new development that would generate temporary construction and long-term operational air pollutant emissions, including toxic air contaminants (TACs), that could exceed the applicable thresholds and expose sensitive receptors to substantial pollutant concentrations. The 2035 GPU includes policies in the Sustainability and Natural Environment Element such as 11.3 and 11.8 to limit sensitive receptors' exposure to emissions and dust. Thus, the 2015 EIR identified a less than significant impact related to criteria air pollutant emissions and the exposure of sensitive receptors to pollutant concentrations.

The 2015 EIR determined that implementation of the 2035 GPU would not result in significant odor impacts. Policies within the Land Use and Community Character Element and Health and Equity Element would ensure that future development within the City would be compatible with existing uses and would not expose sensitive receptors to significant new sources of objectionable odors.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implements the City's updated General Plan goals and policies. The proposed project in itself would not directly result in development, but rather is meant to designate zoning to conform with land use patterns identified in the GPU. As shown in Table 2, the proposed project would not generate substantial population growth or accommodate growth beyond what was envisioned under GP 2035. Neither would the Zoning Code Update result in an impact to the South Coast Air Quality Management District (SCAQMD) AQMP beyond that identified and analyzed in the 2015 EIR. Implementation of the proposed project would not result in air pollutant emissions or CO concentrations beyond those associated with the growth forecast under GP 2035. There would be no construction or operation impacts of the proposed project because the proposed project in itself would not directly result in development. The proposed Zoning Code Update would not therefore create any new significant impacts related to air quality, nor would it increase the severity of impacts identified in the 2015 EIR. The proposed project would therefore not result in air quality impacts beyond those identified in the 2015 EIR.

Biological Resources

As discussed in the 2015 EIR, new or intensified development in the City and its SOI could lead to direct or indirect impacts to special-status species from construction and operation. Compliance with existing policies and regulations such as the Migratory Bird Treaty Act (MBTA), National Pollutant Discharge Elimination System (NPDES), and Coachella Valley Multiple Species Habitat Conservation Plan (CVMSHCP) Land Use Agency Guidelines would limit potential construction impacts. In subareas 5, 6, and 7 of the land use map shown in the General Plan update, agricultural lands may be replaced by industrial, commercial, and civic uses where there is moderate potential for sensitive species. The 2035 GPU notes potential impacts are less than significant but recommends mitigation to add a policy to survey projects proposed in subareas 5, 6, and 7 and implement mitigation measures prescribed by a qualified biologist if sensitive species are present. In addition, policies contained in the Sustainability and Natural Environment Element of the 2035 GPU such as 5.6, 9.1, 9.2, 9.4, and 10.7 would reduce the

potential for future impacts to sensitive species. Therefore, the 2015 EIR determined that, with mitigation, the 2035 GPU would not result in significant impacts to special-status species.

Compliance with existing policies and regulations such as NPDES and the CVMSHCP would limit potential construction impacts to riparian and sensitive habitats. In addition, policies contained in the Sustainability and Natural Environment Element such as 7.1, 7.2, 7.6, 10.2, and 10.8 would reduce the potential for future impacts to sensitive natural communities. Therefore, the 2015 EIR determined that the 2035 GPU would not result in significant impacts to riparian habitat or sensitive natural communities.

As discussed in the 2015 EIR, the Planning Area contains portions of the Whitewater River, and blue line channels and washes east of the Coachella Canal that are likely jurisdictional. Future development associated with the 2035 GPU could result in direct impacts to jurisdictional resources should it encroach into jurisdictional waters and wetlands through grading or vegetation removal. Indirect impacts to jurisdictional resources may occur during and after construction or operations if these activities introduce runoff, toxics, or invasive species into these systems. However, future development would be required to comply with policies and regulations including the Clean Water Act, NPDES, California Fish and Game Code, and CVMSHCP. In addition, the 2035 GPU includes policies in the Sustainability and Natural Environment Element to protect wetlands. Therefore, the 2015 EIR determined that the 2035 GPU would have less than significant impacts to wetlands.

Future development consistent with the 2035 GPU could result in impacts to the movement of resident and migratory wildlife species should existing wildlife movement corridors be constrained or replaced by future development. Two migratory species reside seasonally with the Planning Area: Golden Eagle and Swainson's Hawk. The 2015 EIR notes significant tracts of land that would be set aside as open space, such as subarea 13 and subarea 17. Additionally, policies in the Sustainability and Natural Environment Element such as 5.6, 9.2, 9.6, and 9.7 provide tools to preserve wildlife corridors and preserve open space in the Planning Area. Therefore, the 2015 EIR determined that the 2035 GPU would not result in significant impacts to wildlife movement.

The Planning Area contains Conservation Areas identified in the CVMSHCP, primarily within the SOI. The 2035 GPU does not propose development within the SOI and any development within Conservation Areas located within the City limits would be required to comply with the provisions of the CVMSHCP. Additionally, the 2035 GPU Sustainability and Natural Environment Element contain policies to minimize the potential for conflicts with the CVMSHCP, such as Policy 9.4, 9.5, 10.2, and 10.7 to ensure compliance with the CVMSHCP. Therefore, the 2015 EIR determined that the 2035 GPU would not conflict with the CVMSHCP and impacts would be less than significant.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implements the City's updated General Plan goals and policies. The proposed project in itself would not directly result in development, but rather is meant to designate zoning to conform with land use patterns and growth projections as identified in 2035 GPU. As a policy and regulatory document, it would not result in potential development or redevelopment such that there are resulting impacts to sensitive species, riparian habitats or sensitive natural communities, wetlands, or migratory corridors. Likewise, the proposed project would not conflict with the provisions of the CVMSHCP or local policies protecting biological resources. Since the proposed project would implement the 2035 GPU Goals, Policies, and land use designations, the proposed Zoning Code Update and minor modifications to the Land Use and Community Character Element and to the General Plan

Land Use 2035 Map would not create any new significant impacts related to biological resources, nor would it increase the severity of impacts beyond those identified in the 2015 EIR. Impacts would remain less than significant under the proposed project.

Cultural Resources and Tribal Cultural Resources

Historical and Archeological Resources

Historic resources are located throughout the Planning Area. According to the Eastern Information Center, there are 176 historical resources in the Planning Area, but the only registered historical resource is the Coachella Valley Water District Building. The City has an existing ordinance (Section 15.98.190) to prevent destruction or impact on Class 1 historical resources. With compliance to the National Historic Preservation Act, California Public Resources Code Section 5097.5, and 2035 GPU Sustainability and Natural Environment policies 12.3 and 12.4, the 2015 EIR determined impacts to historical resources would be less than significant.

The Planning Area contains a significant amount of archaeological resources due to its rich history and historic settlements. If archaeological resources are found on Tribal Lands, a Sacred Lands Search through the Native American Heritage Commission would be required. Existing State regulations provide a framework to protect against impacts to unique archaeological resources. The 2035 GPU Sustainability and Natural Environment Element contains policies which require site plan review and monitoring of development activities to minimize the potential for impacts to archaeological resources. Therefore, the 2015 EIR determined a less than significant impact to archaeological resources.

Human remains, including cemeteries and tribal burial sites, do exist within the Planning Area. Although soil-disturbing activities associated with future development consistent with the 2035 GPU could result in the discovery of human remains, compliance with existing laws and regulations, including the California Health and Safety Code, would ensure that significant impacts to human remains would not occur. Therefore, the 2015 EIR determined that the 2035 GPU would result in less than significant impacts related to disturbance of human remains.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implements the City's updated General Plan goals and policies. The proposed project in itself would not directly result in development, but rather is meant to designate zoning to conform with land use patterns identified in the 2035 GPU. The Zoning Code Update is a regulatory document that would supervise land development by enforcing the GPU's goals and policies and making it easier for future development and redevelopment projects to conform to the land use patterns and development framework established by 2035 GPU. The Zoning Code Update would provide for standards that promote orderly growth and development in the City, while considering its natural environmental features and existing land uses. The proposed project would therefore involve updated regulations relative to the use and development of land uses in the City and would not directly affect historical or archaeological resources beyond what was analyzed under the 2015 EIR. Therefore, the proposed project would not create any new significant impacts, nor would it increase the severity of impacts identified in the 2015 EIR.

Tribal Cultural Resources

Land disturbance associated with implementation of the 2035 GPU could result in the accidental destruction or disturbance of known or previously undiscovered tribal cultural resources. Pursuant to Senate Bill 18, Native American tribes were contacted when creating the 2035 GPU to ensure tribal resources were adequately considered. No sacred uses or tribal cultural resources were identified in communications with tribes. In addition, the Sustainability and Natural Environment Element of the 2035 GPU implements policies requiring site monitoring and coordination with local tribes to minimize the potential for impacts. Therefore, the 2015 EIR determined a less than significant impact to tribal cultural resources.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implements the City's updated General Plan goals and policies. As a regulatory document, the proposed project in itself would not directly result in development but would rather designate zoning to conform with land use patterns identified in the GPU. The Zoning Code Update would provide for standards that promote orderly growth and development in the City, while considering its natural environmental features and existing land uses. The proposed project therefore would not directly affect tribal cultural resources beyond what was analyzed under the 2015 EIR for the GP 2035. Therefore, the proposed project would not create any new significant impacts, nor would it increase the severity of impacts identified in the 2015 EIR. Impacts would therefore remain less than significant.

Energy

The 2015 EIR did not discuss energy impacts as the inclusion of this issue was not a standalone environmental CEQA Guidelines Appendix G checklist question at the time the 2015 EIR document was prepared. Therefore, a discussion of energy impacts is provided to supplement the 2015 EIR.

Pursuant to Section 15126.2 and Appendix G of the CEQA Guidelines, analysis of a project's energy use should consider whether the project may result in significant environmental effects due to wasteful, inefficient, or unnecessary use of energy resources or conflict with or obstruct a State or local plan for renewable energy or energy efficiency. The analysis should include the project's energy use for all phases and components, including construction and operation.

However, the proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implements the City's updated General Plan goals and policies. The Zoning Code Update is a regulatory document that would supervise land development by enforcing the 2035 GPU's goals and policies and making it easier for future development and redevelopment projects to conform to the land use patterns and development framework established under the 2035 GPU. The Zoning Code Update would provide for standards that promote orderly growth and development in the City, while considering its natural environmental features and existing land uses. 2035 GPU policies in the Sustainability and Natural Environment Element in such as 2.1 through 2.14 would minimize the occurrence of inefficient, wasteful, and unnecessary energy consumption during construction and operation of development carried out under the proposed project. In addition, construction and operation of projects facilitated by the proposed project would be required to comply with relevant provisions of CALGreen and Title 24 of the California Energy Code. Therefore, the proposed project would not result in any significant impacts relative to energy.

Geology and Soils

The City contains areas subject to fault rupture, seismic ground shaking, liquefaction, landslides, and soil expansion. In addition, future development associated with the 2035 GPU could result in erosion from construction activities. Although implementation of the 2035 GPU would result in subsequent development that could be exposed to geologic hazards including seismic hazards and unstable soils and may result in erosion, future development would adhere to applicable state laws, local regulations, and 2035 GPU policies in the Safety Element such as 1.6, 1.7, 2.1, 2.2, 2.3, 2.4, 2.5, 2.6, and 2.8, which would minimize these effects. Therefore, the 2015 EIR determined all impacts related to geology and soils to be less than significant. Additionally, impacts to paleontological resources, discussed in Section 4.4, *Cultural Resources,* of the 2015 EIR were determined to be less than significant with incorporation of applicable 2035 GPU policies 10.3, 10.4, 10.5, and 12.6 from the Sustainability and Natural Environment Element.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Urban Design Element and to the General Plan Land Use 2035 Map, all of which implements the City's updated General Plan goals and policies. As a regulatory document, the proposed project in itself would not directly result in development, but rather is meant to designate zoning to conform with land use patterns identified in the 2035 GPU. Future permitted uses under the proposed project would be required to comply with the California Building Code (CBC), which provides standards for excavation, grading, and earthwork construction; fills and embankments; expansive soils; foundation investigations; and liquefaction potential and soils strength loss. Furthermore, all development on sites of between one and five acres would be required to comply with the provisions of the NPDES Phase II regulations concerning the discharge of eroded materials and pollutants from construction sites. Any future development or redevelopment would also have to comply with the GP 2035 goals and policies contained in the Land Use and Community Character Element, Sustainability and Natural Environment Element, and Safety Element related to geologic hazards and the minimization of erosion impacts. The proposed project would not expose individuals to the effects of strong seismic ground shaking, seismic-related ground failure, liquefaction or landslides, erosion or loss of topsoil, expansive soils, subsidence, or collapse beyond what could occur under the 2035 GPU and impacts would be less than significant. Likewise, with adherence to the 2035 General Plan Sustainability and Natural Environment Element policies, the proposed project would have less than significant impacts to paleontological resources.

Greenhouse Gas Emissions

The 2015 EIR determined that future development consistent with the 2035 GPU would result in greenhouse gas (GHG) emissions that would exceed the applicable per service population reduction target threshold of 4.2 MT CO_2E established by the City. The 2015 EIR determined impacts would be significant but mitigable with implementation of the City's Climate Action Plan (CAP) measures included in Table 18 of the CAP to reach an annual per service population emission figure of 4.2 MT CO_2E or less by 2035.

In addition, the 2015 EIR determined that the sustainability policies and CAP programs would help the City progress toward its greenhouse gas emission reduction target and consistency with the Climate Change Scoping Plan of the California Air Resources Board (ARB) and the Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS) of the Southern California Association of Governments (SCAG September 2020). Therefore, the policies, programs, measures, and actions of the

2035 GPU are consistent with the ARB's Scoping Plan and the statewide plan to achieve the goals of AB 32 and impacts related to conflicts with plans, policies, or regulations would be less than significant.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Urban Design Element and to the General Plan Land Use 2035 Map, all of which implements the City's updated General Plan goals and policies. The proposed project would not directly result in development, but rather is meant to designate zoning to conform with land use patterns identified in the GPU. The Zoning Code Update is a regulatory document that would supervise land development by enforcing the GPU's goals and policies and making it easier for future development and redevelopment projects to conform to the land use patterns and development framework established by the 2035 GPU. The intended land use pattern of the 2035 GPU would promote mixed use development, which tends to reduce GHG emissions by reducing car trips, consistent with the following strategy from SCAG's 2020-2045 RTP/SCS: "Encourage design and transportation options that reduce the reliance on and number of solo car trips (this could include mixed uses or locating and orienting close to existing destinations)" (SCAG 2020).

While implementation of the proposed project itself would not result in direct or indirect operational and construction GHG emissions, the Zoning Code Update would have the potential to assist in the development of future uses which would generate GHG emissions. Construction GHG emissions would result from the combustion of fossil fuels from heavy-duty construction equipment and from construction worker vehicles and would be temporary in nature. In addition, future development would generate operational emissions associated with vehicle, energy, and water use, as well as solid waste and wastewater generation. Future development in the City would be subject to regulations in place at the time the development is proposed that are aimed at achieving statewide GHG reduction targets, including Title 24 and the California Green Building Code. Additionally, as shown in Table 2, there is negligible net change in land use and growth associated with the proposed project. Therefore, the proposed project would not create any new significant impacts, nor would it increase the severity of impacts that were identified in the 2015 EIR as less than significant impacts.

Hazards and Hazardous Materials

The 2035 GPU facilitates the development of commercial and industrial uses which may handle hazardous materials. However, the use, transport, and disposal of hazardous materials and waste is highly regulated, and the 2035 GPU contains policies in the Safety Element to further limit the potential for impacts due to the transport, use, disposal, and accidental release of hazardous materials. All future and existing development that involves hazardous materials use, transport, and disposal would be required to comply with the California Health and Safety Code; the Comprehensive Environmental Response, Compensation, and Liability Act; the Resource Conservation and Recovery Act; and applicable 2035 GPU policies. Therefore, the 2015 EIR determined that the 2035 GPU would not result in a significant impact due to the routine transport, use, or disposal of hazardous materials or accidental release of hazardous materials.

At the time of certification, the 2015 EIR identified one open/active hazardous materials site listed on a hazardous material site list compiled pursuant to Government Code §65962.5. The 2015 EIR determined the listed site is required to be remediated for anticipated future land use in accordance with existing state and federal regulatory requirements. Additionally, the 2015 EIR notes that policies within the 2035 GPU and applicable federal and state laws would ensure impacts related to future development on listed hazardous materials sites are taken into consideration and avoided, minimized, or mitigated.

Therefore, the 2015 EIR determined that buildout of the 2035 GPU would result in less than significant impacts related to listed hazardous materials sites.

The 2035 GPU would involve the alteration, intensification, and redistribution of land uses within the City. However, all future development would be subject to policies within the Safety Element and would also be reviewed by the City's Fire Department prior to any issuance of permits to ensure that projects would not interfere with emergency access and response. 2035 GPU Safety Element policies would ensure that the City's emergency response plan and City Ordinances are updated regularly to reflect current evacuation and emergency procedures. In addition, Policy 8.1 would ensure that the Local Hazard Mitigation Plan is maintained and updated to reflect up to date emergency response and disaster preparedness information, and applicable evacuation procedures. Therefore, the 2015 Final EIR determined a less than significant impact to potential impairment of implementation of, or physical interference with, an adopted emergency response plan or emergency evacuation plan as a result of the 2035 GPU.

Although the 2015 EIR identifies the Jacqueline Cochran Regional Airport as an airport which could result in potential hazards, all future development would be required to comply with federal and state law concerning airport hazards. Additionally, 2035 GPU policies would ensure specific development projects are consistent with the Jacqueline Cochran Regional Airport's Airport Land Use Compatibility Plan hazard zones. Therefore, the 2015 EIR determined a less than significant impact associated with airport hazards.

Although the City is not subject to extensive wildland fire risk due to its desert environment, because the Planning Area has an urban-wildland interface in areas of the City, exposure to wildland fires is a potential threat to existing and proposed structures. Policies in the Sustainability and Natural Environment Element and Safety Element requiring buffers, vegetation control, and adequate fire response; and encouraging sprinkler retrofits; aim to protect structures and population from wildland fires. Therefore, the 2015 EIR determined that the 2035 GPU would have less than significant impacts related to wildland fire risk.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implements the City's updated General Plan goals and policies. As a regulatory document, the proposed project in itself would not directly result in development that would introduce new hazards or hazardous materials in the City, but rather is meant to designate zoning to conform with land use patterns identified in the 2035 GPU. Likewise, the project would not directly result in new development on properties identified on a hazardous material site list compiled pursuant to Government Code §65962.5. As described in the 2015 EIR, future development in the City would remain subject to federal, state, and local laws and regulations pertaining to the transport, use, disposal, handling, and storage of hazardous waste, as well as laws pertaining to the use and cleanup of contaminated sites. Therefore, the proposed project would not create any new significant impacts related to the routine use, transport, or disposal of hazardous materials, risk of accidental release of hazardous materials, or risks related to development on contaminated sites. Impacts would remain less than significant, as identified in the 2015 EIR.

Although the proposed project would facilitate changes to the intensity and distribution of land uses within the City, including potential changes to land uses in areas nearby the Jacqueline Cochran Regional Airport, all subsequent development would be required to adhere to federal and state law concerning airport hazards. Likewise, future development would be required to comply with City policies concerning

emergency access, response, and evacuation procedures. Therefore, similar to the 2035 GPU, the Zoning Code Update would not result in a significant impact due to airport hazards or impairment of implementation of, or physical interference with, an adopted emergency response plan or emergency evacuation plan. Impacts would remain less than significant, as identified in the 2015 EIR.

As described in the 2015 EIR, wildland fires are a potential threat to existing and proposed structures in the City. Implementation of the Zoning Code Update and the minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map would not increase wildland fire risk or expose people or structures to significant risk of wildland fires. Therefore, the proposed project would not create any new significant impacts related to wildland fires, nor would it increase the severity of impacts that were identified in the 2015 EIR.

Hydrology and Water Quality

Future development facilitated by the 2035 GPU could result in impacts to water quality during construction due to erosion and chemical and fuel spills. In addition, operation of new development could result in altered drainage patterns and runoff and generate common pollutants such as sediment, oil and grease, pesticides, and trash that could create polluted runoff. However, as concluded in the 2015 EIR, compliance with NPDES permit requirements, the Coachella Municipal Code (CMC), and policies from the Sustainability and Natural Environment Element, Safety Element, Land Use and Community Character Element, and Infrastructure and Public Services Element of the 2035 GPU would reduce water pollutants from construction and operation of new development to the maximum extent practicable. Likewise, compliance with these policies and regulations would ensure that new development would not alter site drainage patterns such that there would be increased runoff or flooding. Therefore, the 2015 EIR determined that the 2035 GPU would result in less than significant impacts to water quality and waste discharge requirements, site drainage patterns, erosion and siltation, and runoff.

Future development facilitated by the 2035 GPU could result in increased impervious surfaces and reduced groundwater infiltration and recharge. However, the 2035 GPU contains policies in the Safety Element, such as Policy 2.9, Groundwater resources protection; and Infrastructure and Public Services Element Policy 2.19, which would promote groundwater recharge and reduce such impacts. In addition, future development would be required to comply with local and state regulations that require the inclusion of permeable surfaces to ensure stormwater retention and infiltration. Therefore, the 2015 EIR determined that the 2035 GPU would result in less than significant impacts to groundwater.

The City is not at risk of flooding from tsunamis or seiches because of its distance from the ocean or other large bodies of water and intervening topography, but portions of the City are within 100- and 500-year flood zones. The 2035 GPU Land Use Element permits a variety of uses in these areas, including but not limited to residential, mixed-use, open space, and commercial uses. Therefore, future development with these flood hazard areas has the potential to expose people or structures to flooding or impede/redirect flood flows. However, the 2035 GPU includes a range of policies in the Sustainability and Natural Environment, Infrastructure and Public Services, and Safety Elements intended to reduce risks from flooding, including design review of storm drain and flood control facilities, restricted development within floodplains, and regularly updated hazards mapping. Therefore, the 2015 EIR determined that with compliance with local, state, and federal regulations related to flooding, the 2035 GPU would not result in significant flooding-related risks.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implements the City's updated General Plan goals and policies. The proposed project in itself would not directly result in development, but rather is meant to designate zoning to conform with land use patterns identified in the 2035 GPU. The Zoning Code Update is a regulatory document that would supervise land development by enforcing the GPU's goals and policies and making it easier for future development and redevelopment projects to conform to the land use patterns and development framework established by 2035 GPU. The Zoning Code Update would provide for standards that promote orderly growth and development in the City, while considering its natural environmental features and existing land uses.

Any future development and redevelopment projects in the City would be subject to applicable water quality standards and waste discharge requirements. Furthermore, in compliance with federal, state, regional, and local requirements, contractors constructing new development or redevelopment projects would be required to implement Best Management Practices, which aim to control flooding, reduce erosion, and improve overall water quality. All future development projects would be required to comply with applicable federal, state, and local laws and regulations concerning the protection of water quality, runoff and stormwater control, flood risks, and groundwater infiltration, including the federal Clean Water Act and the CMC, as discussed in the 2015 EIR. Therefore, the proposed project would not create any new significant impacts, nor would it increase the severity of impacts relative to stormwater and pollutants, reduction in groundwater supplies and quality, drainage patterns, downstream flooding and urban runoff, dam inundations, tsunamis and seiches, beyond what was identified in the 2015 EIR. Impacts would remain less than significant.

Land Use and Planning

Implementation of the 2035 GPU would involve development within the existing City boundaries/limits. New development or redevelopment would not physically divide any established communities in the Planning Area, rather, the GPU seeks to maintain and preserve the quality of Coachella's existing neighborhoods. Thus, the 2015 EIR determined that the 2035 GPU would have less than significant impacts associated with physically dividing established communities. The 2015 EIR determined the 2035 GPU is in line with all existing plans besides the proposed Shadow View Specific Plan. However, the 2035 GPU includes a policy requiring a plan amendment to revise Shadow View to comply with 2035 GPU goals, policies, and land use designations to bring this specific plan into conformance with the General Plan prior to development. Therefore, the 2015 EIR determined that the 2035 EIR would not conflict with applicable land use plans, policies, and regulations and impacts would be less than significant.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implements the 2035 GPU's goals and policies. The proposed project in itself would not directly result in development, but rather is meant to designate zoning to conform with land use patterns identified in the GPU. The Zoning Code Update is a regulatory document that would supervise land development by enforcing the GPU's goals and policies and making it easier for future development and redevelopment projects to conform to the land use patterns and development framework established by the 2035 GPU. The Zoning Code Update would provide for standards that promote orderly growth and development in the City, while considering its natural environmental features and existing land uses. As the Zoning Code Update would align with the 2035 GPU, the proposed project would not conflict with an existing land use plan, policy or regulation, nor would it

physically divide an established community beyond what was analyzed under the 2015 EIR for the 2035 GPU. Therefore, the proposed project would not create any new significant impacts, nor would it increase the severity of impacts that were identified in the 2015 EIR. Impacts would remain less than significant.

Mineral Resources

Impacts to mineral resources were discussed in Section 4.5, *Geology and Soils,* of the 2015 EIR. The state Mining and Geology Board has defined Mineral Resource Zones (MRZs) based on the presence or absence of significant sand, gravel, and crushed rock resources. The majority of the City is identified as MRZ-1, which are areas with little likelihood for significant mineral deposits. However, there are some areas in subarea 17 that are classified as MRZ-2a, which are areas with significant mineral deposits. The MRZ-2 areas within the City are designated as open space and mining activity is a permitted use. Goal 8 and Policies 8.1 through 8.5 of the Sustainability and Natural Environment Element regarding mining operations and mineral resources would lessen impacts related to the availability of mineral resources. Therefore, the 2015 EIR determined that the 2035 GPU would result in less than significant impacts.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implements the City's updated General Plan goals and policies. The proposed project in itself would not directly result in development, but rather is meant to designate zoning to conform with land use patterns identified in the GPU. The Zoning Code Update is a regulatory document that would supervise land development by enforcing the GPU's goals and policies and making it easier for future development and redevelopment projects to conform to the land use patterns and development framework established by the 2035 GPU. The 2015 EIR noted that the 2035 GPU would not result in significant impacts. Similarly, the Zoning Code Update would not create any new significant impacts, nor would it increase the severity of impacts that were identified in the 2015 EIR. Impacts would remain less than significant.

Noise

The 2035 GPU would result in new development that would generate construction noise and vibration, along with increased traffic and stationary noise sources. Additionally, new development in accordance with the 2035 GPU could result in new noise sensitive receptors in areas with existing and future noise levels that would exceed the applicable thresholds. As concluded in the 2015 EIR, implementation of the City's existing noise regulations and standards, as well as goals and policies of the 2035 GPU, would reduce potential temporary noise and vibration impacts related to the construction of future land uses to less than significant levels. The 2015 EIR also determined that implementation of the 2035 GPU would not result in the siting of new sensitive land uses and receptors that would be exposed to significant traffic, railroad, or stationary sources of noise. Likewise, the 2015 EIR determined that development of new land uses in accordance with the 2035 GPU would not result in exposure of future residents and workers to airport noise levels in excess of the standards.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implements the 2035 GPU goals and policies. The proposed project in itself would not directly result in development, but rather is meant to designate zoning to conform with land use patterns identified in the 2035 GPU. Therefore, as a regulatory document, the proposed project

would not generate substantial population growth or accommodate growth beyond what was envisioned under the 2035 GPU. As shown in Table 2, there is negligible net change in land use and growth associated with the proposed project. Therefore, the Zoning Code Update would not result in any new noise impacts beyond that was identified and analyzed in the 2015 EIR, nor would it increase the severity of impacts identified in the 2015 EIR.

Population and Housing

The 2035 GPU is intended to accommodate an increased projected population to 135,000 people by 2035. This projection is considered reasonably similar to the population projection developed by the Southern California Association of Governments, which envisions population increases to about 128,700 in 2035. Additionally, the City is already served by essential public services, and future roadway system improvements identified in the 2035 GPU are intended to accommodate future population growth. Thus, infrastructure and roadway system improvements would not induce additional development that would increase population. Therefore, the 2015 Final EIR determined the 2035 GPU would not induce growth, directly or indirectly, beyond what was projected for the City.

The 2035 GPU would accommodate new housing opportunities in the City to accommodate future growth. The 2015 EIR does not identify any loss of housing opportunities because the 2035 GPU accommodates forecasted growth in the City through 2035. Since new housing would more than offset any temporarily displaced housing due to future land use development, the 2015 EIR determined no additional replacement housing would be necessary.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implement the 2035 GPU's goals and policies. The proposed project in itself would not directly result in development or population growth, but rather is meant to designate zoning to conform with land use patterns identified in the 2035 GPU. Accordingly, as shown in Table 2, there is negligible net change in land use and growth associated with the proposed project. Therefore, implementation of the project would not generate substantial housing or population growth beyond what was anticipated in the 2035 GPU and the 2015 EIR. Likewise, the proposed project would provide for appropriate zoning designations throughout the City and would ensure the City is able meet the housing needs identified in the 2035 GPU to accommodate anticipated population growth. Therefore, the project would not result in substantial displacement of housing or people beyond what was identified in the 2015 Final EIR. Impacts would remain less than significant.

Public Services

Fire and Police Protection

The 2035 GPU would facilitate growth that would increase demand for fire and police protection services. However, future development in accordance with the 2035 GPU would be required to pay development impact fees to offset increased demands for fire and police services. In addition, the 2035 GPU Infrastructure and Public Services Element and Sustainability and Natural Environment Element contain policies to ensure adequate firefighting and police staff, infrastructure, and the provision of environmentally sustainable infrastructure and facilities. The 2035 GPU did not propose new fire or police facilities, and thus the 2015 EIR determined that impacts would be less than significant.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implement the 2035 GPU's goals and policies. The proposed project in itself would not directly result in development or population growth, but rather is meant to designate zoning to conform with land use patterns identified in the 2035 GPU. Although the 2035 GPU anticipates growth, as discussed in the *Population and Housing* section, growth would be similar to forecasted projections, and thus applying zoning to align with land use patterns identified in the 2035 GPU would not cause substantial growth beyond what was expected, as shown in Table 2, and therefore not result in the need for new or physically altered fire or police facilities beyond what was already anticipated. Therefore, the project would not result in an exceedance of impacts concerning the need for new or physically altered emergency service facilities than what was identified in the 2015 EIR.

Schools

To accommodate a future influx of students, local school districts have anticipated that construction of new schools would be required. However, future development in accordance with the 2035 GPU would be required to pay development impact fees to offset increased demands for schools. In addition, the 2035 GPU Infrastructure and Public Services Element and Land Use and Community Character Element contain policies to ensure schools and facilities can accommodate the City's existing and future population, and the provisioning of environmentally sustainable school facilities. Although future expansion of existing schools or development of new schools may be required, no specific school facilities were proposed within the 2035 GPU, and thus project-specific impacts would be addressed when future facilities are proposed. The 2015 Final EIR determined 2035 GPU impacts to schools would be less than significant.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implements the 2035 GPU's goals and policies. The proposed project in itself would not directly result in development or population growth, but rather is meant to designate zoning to conform with land use patterns identified in the 2035 GPU. Although the 2015 EIR anticipates an influx of students with population growth through 2035, which may exceed the current capacity of school systems serving the City, Table 2 shows the proposed project would not contribute to a substantial additional influx of students beyond what was previously predicted since the overall land use changes are negligible. Therefore, the project would not result in an exceedance of impacts concerning the need for new or physically altered school facilities beyond what was anticipated within the 2015 EIR.

Libraries

The 2035 GPU anticipates growth, and subsequently an increased demand for library services. However, growth accommodated by the 2035 GPU would generate revenue for the library pursuant to the City's Development Impact Fee ordinance in Section 4.45.060 (B) which requires developer fees for library facilities to be used for the land acquisition and construction costs of a public library facility as part of the Riverside County Library System, to serve the new residential development in the City Future development would be required to pay development impact fees that would be used to offset additional demand on libraries serving the City. In addition, the 2035 GPU Infrastructure and Public Services and Land Use and Community Character Elements provide policies intended to ensure the development of necessary public facilities and services for the City, which can aid the County in the planning of future

local libraries. Therefore, the 2015 EIR determined that impacts to libraries would be less than significant.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implement the 2035 GPU's goals and policies. The proposed project in itself would not directly result in development or population growth, but rather is meant to designate zoning to conform with land use patterns identified in the 2035 GPU. Although the 2035 GPU would result in increased population and resulting demand for libraries, the proposed project would not contribute to a substantial additional influx of residents beyond what was previously predicted in the 2015 EIR. As shown in Table 2, there is negligible net change in land use and growth associated with the proposed project. Therefore, the project would not result in an exceedance of impacts concerning the need for new or physically altered libraries beyond what was determined in the 2015 EIR. Impacts would remain less than significant.

Recreation

Growth accommodated by the 2035 GPU would result in increased demand for parks and recreational facilities. The 2035 GPU identifies a goal to expand parkland to cover 3.0 acres per 1,000 persons. The Planning Area is currently deficient in parkland by 62 acres. The 2035 GPU Land Use and Community Character, Community Health and Wellness, and Sustainability and Natural Environment Elements addresses potential environmental impacts by including policies that would require the provision of new parkland concurrently with new development, ensuring that goals to have 3.0 acres of parkland per 1,000 persons will be met. It would also increase parks and recreational amenities for residents to meet the demands associated with future population growth. Individual recreational and park projects identified in the 2035 GPU would be required to undergo project-level environmental review once project details are determined. Therefore, the 2015 EIR determined that growth accommodated by the 2035 GPU would not result in significant impacts to parks and recreational facilities.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implements the 2035 GPU's goals and policies. The proposed project in itself would not directly result in development or population growth, but rather is meant to designate zoning to conform with land use patterns identified in the 2035 GPU. Although the 2035 GPU would result in increased population and resulting demand for parks and recreational amenities, the proposed project would not substantially contribute to any additional influx of residents beyond what was previously predicted in the 2015 EIR. As shown in Table 2, the 2035 GPU would increase the amount of land designated for open space from 1,586.08 acres (9% of total land) under current land use designations to 2,309.52 acres (13% of total land) under the proposed land use designations. Additionally, as shown in Table 2, there is negligible net change in land use and growth associated with the proposed project. The 2035 GPU designates specific areas as Parks and Open Space, and by applying the corresponding zoning through the Zoning Code Update, the City would be furthering their goal of expanding parkland. Therefore, the project would not result in an exceedance of impacts related to parks and recreational facilities beyond what was determined in the 2015 EIR. Impacts would remain less than significant.

Recreation

The potential for the 2035 GPU to result in the substantial physical deterioration of existing parks and recreational facilities or the need for the construction of new facilities which might have an adverse physical effect on the environment is addressed in Section 4.15, *Public Services*, of the 2015 EIR and discussed above.

Pursuant to Section 15126.2 and Appendix G of the CEQA Guidelines, a project should consider potential impacts related to the increased use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated. The CEQA analysis should also consider whether the project would include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implements the 2035 GPU's goals and policies. The proposed project in itself would not directly result in development of new parks or other uses or population growth, but rather is meant to designate zoning to conform with land use patterns identified in the 2035 GPU. Although the 2035 GPU would result in increased population and resulting demand for parks and recreational amenities, as shown in Table 2, there is negligible net change in land use and growth associated with the proposed project and the proposed project would therefore not contribute to a substantial additional influx of residents beyond what was previously predicted in the 2015 EIR. Additionally, the 2035 GPU designates specific areas as Parks and Open Space, and by applying the corresponding zoning through the Zoning Code Update, the City would be furthering its goal of expanding parkland. As shown in Table 2, the 2035 GPU would increase the amount of land designated for open space from 1,586.08 acres (9% of total land) under current land use designations to 2,309.52 acres (13% of total land) under the proposed land use designations. Therefore, the project would not result in an exceedance of impacts related to parks and recreational facilities beyond what was determined in the 2015 EIR. Impacts would remain less than significant.

Transportation/Traffic

The 2015 EIR determined that future traffic generated by the 2035 GPU would result in significant and unavoidable impacts to roadway congestion on several street and freeway segments. Impacts to local roadway segments which would be mitigated to a less than significant level through implementation of physical improvements associated with key intersections and the expansion of Avenue 50. Additional impact reduction is provided by policy language in the Land Use Element and Mobility Element oriented toward reducing vehicle usage, but the 2015 EIR determined that level of service (LOS) impacts to these segments would remain significant and unavoidable. It should be noted that, subject to Senate Bill 743 (SB 743) of 2013 and changes to the CEQA Guidelines adopted by the State Office of Planning and Research (OPR) in 2018 in response to SB 743, a project's impact on vehicle miles traveled (VMT), not LOS, is now the appropriate metric for analyzing a project's transportation impacts under CEQA Guidelines section 15064.3, subdivision (b). The intended land use pattern of the 2035 GPU would promote mixed use development, which tends to reduce VMT by reducing solo car trips, consistent with the following strategy from SCAG's 2020-2045 RTP/SCS: "Encourage design and transportation options that reduce the reliance on and number of solo car trips (this could include mixed uses or locating and orienting close to existing destinations)" (SCAG 2020).

The 2015 EIR determined that policies contained in the 2035 GPU Mobility Element to promote alternate modes of transportation including active transportation and public transit would align with the Riverside County Transportation Commission Congestion Management Program but would not fully mitigate regional impacts. Therefore, the 2015 EIR determined that the 2035 GPU would result in a significant impact due to conflict with adopted policies, plans, or programs regarding public transit, bicycle, or pedestrian facilities, or otherwise decrease the performance or safety of such facilities. The 2015 EIR noted there are no feasible mitigation measures that would fully mitigate these impacts to regional roadways.

Public transportation improvements proposed by the 2035 GPU and future private development could potentially result in hazardous roadway conditions due to design features or incompatible uses or inefficient or inadequate emergency access. However, all proposed development would be subject to the City's roadway engineering and Fire Code standards, which are meant to ensure adequately designed roads for safety and emergency access. Future development would also be required to comply with the land uses proposed in the 2035 GPU and the zoning code, which minimize incompatible uses within the City. The 2035 GPU Mobility Element includes policies that encourage traffic safety, which would further help avoid traffic hazards and inadequate emergency access from growth facilitated by the 2035 GPU. Therefore, the 2015 EIR determined that the 2035 GPU would have less than significant impacts related to roadway hazards and emergency access.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implement the 2035 GPU goals and policies. As a regulatory document, the proposed project in itself would not directly result in development, but rather is meant to designate zoning to conform with land use patterns identified in the 2035 GPU. Additionally, as noted in Table 2, there would be negligible net land use change. The proposed project would therefore not generate substantial population growth or modify the existing transportation system beyond what was envisioned under the 2035 GPU. The 2015 EIR determined that since all future development in the City would have to comply with plans, policies, and programs related to alternate modes of transportation, traffic hazards, traffic safety, and emergency access, traffic impacts for these issues areas would be less than significant. Similarly, the proposed project would have less than significant impacts related to these issues because it would have to comply with the same plans, policies, and programs.

As a policy document that is consistent with the 2035 GPU, the proposed Zoning Code Update and minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map. The proposed Zoning Code Update would not increase transportation/traffic impacts beyond those identified in the 2015 EIR. The 2015 EIR determined that the 2035 GPU would result in a significant impact due to its potential to conflict with adopted regional transportation plans, and there are no feasible mitigation measures that would fully mitigate these impacts to regional roadways. The proposed Zoning Code Update would not increase this policy inconsistency impact but would also not reduce it to a less than significant level, and this impact would remain significant and unavoidable.

Utilities and Service Systems

Wastewater

The increased population of the City under the 2035 GPU is anticipated to result in an increased total demand for wastewater treatment services in the year 2035. The water reclamation facility serving the

City is anticipated to have adequate capacity to treat wastewater flows generated by growth expected under the 2035 GPU. In addition, the 2035 GPU Land Use and Community Character Element and Infrastructure and Public Services Element include overarching goals and policies supporting effective wastewater treatment facilities. Therefore, the 2015 EIR concluded that the 2035 GPU would have less than significant impacts related to wastewater.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implement the 2035 GPU goals and policies. The proposed project in itself would not directly result in development, but rather is meant to designate zoning to conform with land use patterns identified in the 2035 GPU. The Zoning Code update is a regulatory document that would supervise land development by enforcing the 2035 GPU's goals and policies and making it easier for future development and redevelopment projects to conform to the land use patterns and development framework established by the 2035 GPU. Although the 2035 GPU anticipates growth, as discussed in *Population and Housing*, growth would be similar to forecasted projections, and thus applying zoning to align with land use patterns identified in the 2035 GPU would not cause growth and associated wastewater generation beyond what was expected. Therefore, the proposed project would not result in impacts related to wastewater generation and treatment beyond what was already anticipated in the 2035 GPU and 2015 EIR. Impacts would remain less than significant.

Water System and Water Supply

The 2035 GPU would result in increased development and population growth in the City, which would create additional demand for potable water. However, the 2035 GPU contains a number of goals and policies in the Land Use and Community Character, Sustainability and Natural Environment, and Infrastructure and Public Services Elements to ensure a sustainable water supply and promote water conservation. In addition, the 2010 Urban Water Management Plan for the City's water supplier indicates that adequate water supplies would be available to serve the City through the year 2035. Therefore, the 2015 EIR determined that the 2035 GPU would result in less than significant impacts related to the water system and water supply.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implement the 2035 GPU goals and policies. The proposed project in itself would not directly result in development, but rather is meant to designate zoning to conform with land use patterns identified in the 2035 GPU. The Zoning Code update is a regulatory document that would supervise land development by enforcing the 2035 GPU's goals and policies and making it easier for future development and redevelopment projects to conform to the land use patterns and development framework established by the 2035 GPU. Although the 2035 GPU anticipates growth, as discussed in *Population and Housing*, growth would be similar to forecasted projections, and thus applying zoning to align with land use patterns identified in the 2035 GPU would not cause population growth and associated water use beyond what was already anticipated in the 2035 GPU and 2015 EIR. Therefore, the proposed project would not create any new significant impacts, nor would it increase the severity of impacts that were identified in the 2015 EIR and impacts would remain less than significant.

Stormwater Drainage System

Future development consistent with the 2035 GPU would involve grading or alteration of existing site conditions that would affect site runoff. However, future development projects would be required to prepare grading and site drainage plans consistent with RWQCB requirements that require new development and redevelopment to control the rate and volume of storm water runoff through installation of storm water infrastructure such as retention structures, subsurface areas, and cisterns. Furthermore, the 2035 GPU includes goals and policies in the Sustainability and Natural Environment and Infrastructure and Public Services Elements that support provisioning of adequate storm water facilities in the City. Therefore, the 2015 EIR determined that implementation of the 2035 GPU would result in less than significant impacts to the stormwater drainage system.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implement the 2035 GPU goals and policies. The proposed project in itself would not directly result in development, but rather is meant to designate zoning to conform with land use patterns identified in the 2035 GPU. The Zoning Code update is a regulatory document that would supervise land development by enforcing the 2035 GPU's goals and policies and making it easier for future development and redevelopment projects to conform to the land use patterns and development framework established by the 2035 GPU. Although the 2035 GPU anticipates changes to land use that could alter site drainage and increase flows to the stormwater drainage system, the proposed project would not cause increased development and associated stormwater generation beyond what was already anticipated in the 2035 GPU and 2015 EIR. Therefore, the proposed project would not create any new significant impacts, nor would it increase the severity of impacts that were identified in the 2015 EIR and impacts would remain less than significant.

Solid Waste

The 2035 GPU would result in increased development and population within the City, which would generate increased solid waste that could affect the capacity of landfills serving the City. The 2035 GPU Infrastructure and Public Services Element includes goals and policies that would support solid waste diversion from landfills and would promote recycling and reuse, aligning with statewide policies addressing solid waste such as AB 341. Future development would be required to comply with the provisions of the 2035 GPU to reduce solid waste generation. Furthermore, Riverside County area landfills serving the City are anticipated to have sufficient capacity to continue serving the City under 2035 GPU population and development conditions. Therefore, the 2015 EIR determined that the 2035 GPU would have a less than significant impact related to solid waste.

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implement the 2035 GPU goals and policies. The proposed project in itself would not directly result in development, but rather is meant to designate zoning to conform with land use patterns identified in the 2035 GPU. The Zoning Code update is a regulatory document that would supervise land development by enforcing the 2035 GPU's goals and policies and making it easier for future development and redevelopment projects to conform to the land use patterns and development framework established by the 2035 GPU. Although the 2035 GPU anticipates growth, as discussed in *Population and Housing*, growth would be similar to forecasted projections, and thus applying zoning to align with land use patterns identified in the 2035 GPU would not cause population

growth and associated waste generation beyond what was already anticipated in the 2035 GPU and 2015 EIR. Therefore, the proposed project would not create any new significant impacts related to solid waste, nor would it increase the severity of impacts that were identified in the 2015 EIR and impacts would remain less than significant.

Wildfire

The 2015 Final EIR does not discuss wildfire as a separate environmental impact area because the inclusion of this issue area was not yet required under CEQA at the time the document was prepared. While the issue of wildfires was discussed as a potential hazard in the 2015 EIR (see the *Hazards and Hazardous Materials* section of this memorandum), a discussion of wildfire impacts is provided herein to supplement the 2015 Final EIR.

According to the California Department of Forestry and Fire Protection (Cal Fire), the City is located within a Local Responsibility Area (LRA) and surrounded primarily by Federal Responsibility Areas (FRAs) (Cal Fire 2023). The City and its immediate surroundings are not within a Very High Fire Hazard Severity (VHFHS) zone. The City is located within the eastern end of Riverside County which is primarily desert, with far less population and vegetation compared to the western end of the county. The City is not prone to any major wildland fires due to the desert environment which does not support large amounts of vegetation (County of Riverside Emergency Management Department 2018).

The proposed project is a change to the City's Zoning Code and a General Plan Amendment that would provide minor modifications to the Land Use and Community Character Element and to the General Plan Land Use 2035 Map, all of which implement the City's updated General Plan goals and policies. As a regulatory document, the proposed project in itself would not directly result in development, but rather is meant to designate zoning to conform with land use patterns identified in the 2035 GPU. The Zoning Code Update would provide development standards for all future growth such that all new development and redevelopment occurs in an orderly fashion in compliance with applicable fire and life safety standards and code requirements, as well as standard design requirements in accordance with the California Building Code. The proposed project would involve updated regulations relative to the use and development of land uses in the City and minor modifications to the Land Use and Community Character Element and General Plan Land Use 2035 Map and therefore would not in itself substantially alter existing land use patterns, uses, or development standards in the City beyond what was analyzed under the 2015 EIR for the 2035 GPU. Therefore, the proposed project would not create any new significant impacts relative to wildfires.

Conclusion

As discussed in the *Finding of Consistency* section above, the proposed project is consistent with the City's General Plan 2035 and its development is within the parameters considered in the 2015 EIR. In addition, as concluded under each analyzed environmental issue area, the proposed project would have no new significant environmental effects beyond those identified in the 2015 EIR. As such, additional environmental documentation is not required under CEQA.

Memo

May 31, 2023
To: Gabriel Perez, City of Coachella
From: Simran Malhotra and Melissa Stark, Raimi Associates

Subject: **Summary of Recommended Changes to the Zoning Code and General Plan based on Public Input**

The following memo summarizes recommended changes to the Coachella Public Draft Zoning Code and recommended amendments to the General Plan based on recent public feedback and staff-directed clean up items:

Public Utility Facilities (City-initiated)

- Add definition for Public Utility Facilities (City-initiated) in Chapter 17.06 Definitions.
- **Staff Recommendation:** Allow as primary use in all zones.

Chapter 17.08 Zoning Districts Designated

- Add language regarding maintaining consistency with the Airport Land Use Compatibility (ALUC) Plan for the Jacqueline Cochran Regional Airport.

Chapter 17.14 G-N General Neighborhood Zone - Setbacks

- **Staff Recommendation:** Reduce front setback requirements for multifamily housing types to 10 feet (from 15 feet) to better align with the Draft Objective Design Standards.

Chapter 17.15 U-N General Neighborhood Zone – Primary Uses
(51-996 Tyler Street)

- **Request:** Allow day care uses, corporate office and regional cooking service in Urban Neighborhood (U-N) to allow for existing uses
- **Staff Recommendation:**
  - Amend the code to allow commercial daycare facilities in Urban Neighborhood (U-N) zone.
  - Allow existing single family uses to continue as permitted use.

raimi+ associates

Chapter 17.15 U-E Urban Employment Zone – Primary Uses

- **Request:** Allow day care uses, corporate office and regional cooking service in Urban Employment (U-E) to allow for existing uses.
- **Staff Recommendation:**
  - Amend the code to allow commercial daycare facilities in Urban Employment (U-E) zone.
  - Add language regarding consistency with the ALUC Plan for Jacqueline Cochran Regional Airport.

85-220 Avenue 50

- **Request:** Allow legacy multi-tenant uses on the property as a right of use instead of making these uses non-conforming. Current uses on this property include a variety of manufacturing service-related uses.
- Also, request that the M-S zone allow towing/impound as a permitted use.
- **Staff Recommendation:** Add following language to **17.16.020.C. Conditional Uses for Urban Employment zone:**
- 5. Light Industrial uses as permitted in the M-S (Manufacturing Service) Zone, and as stand-alone uses operating indoors. *Such uses in existence and permitted at the time of adoption of this code amendment shall be permitted to continue as a permitted use without obtaining a conditional use permit.*
- No recommendation re. towing/impound.

Chapter 17.24 Neighborhood Commercial Zone – Primary Uses

- **Staff Recommendation:**
  - Allow existing single family uses to continue as permitted use.

Chapter 17.30 M-S Manufacturing Service Zone

- **Request:** Do not limit RV Storage Uses to 15% of the zone. Instead allow staff to decide appropriate locations where these should be allowed.

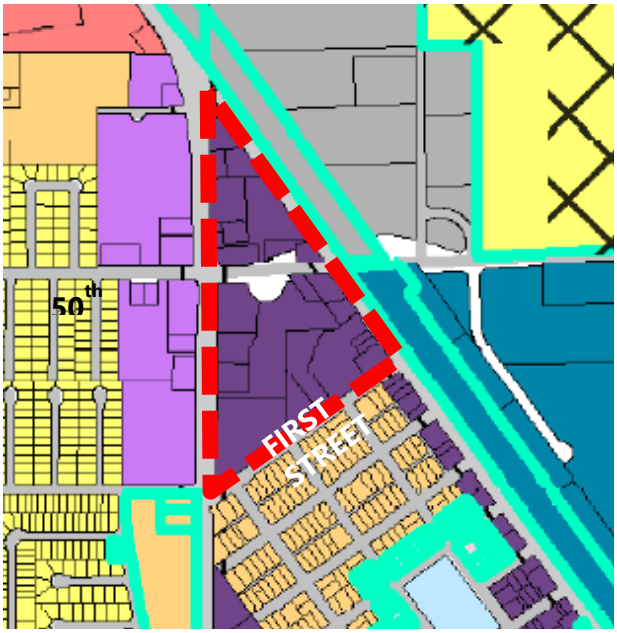
- **Options for Planning Commission to consider:**
  - Maintain current requirement.
  - Make it more restrictive – reduce to 10%. *(Economic Development Subcommittee is considering making this requirement more restrictive for RV storage and mini-storage.)*
  - Another option is to limit these uses on parcels that do not front on the major arterials.

raimi+ associates

Chapter 17.32 M-H Heavy Industrial Zone

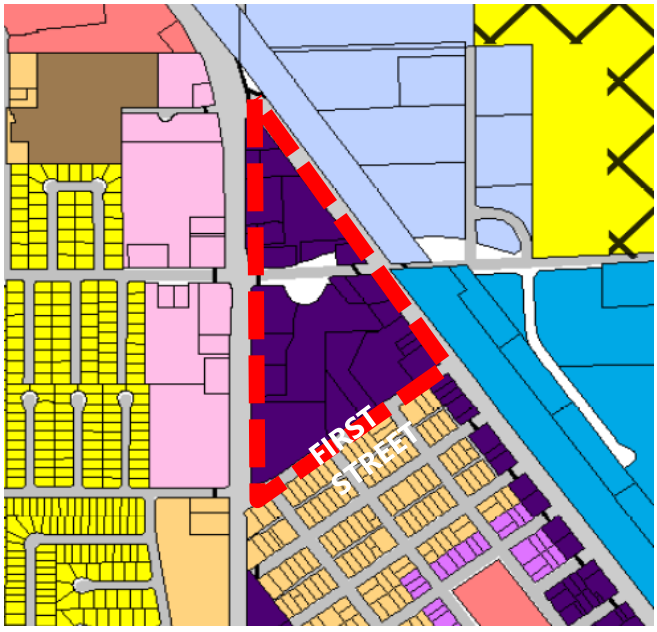
- **Staff Recommendation:**
  - Add language regarding consistency with the ALUC Plan for Jacqueline Cochran Regional Airport.

Chapter 17.60 Development Standards



- **Staff Recommendation:**
  - Clean up language re. lot widths.

MAP CHANGES

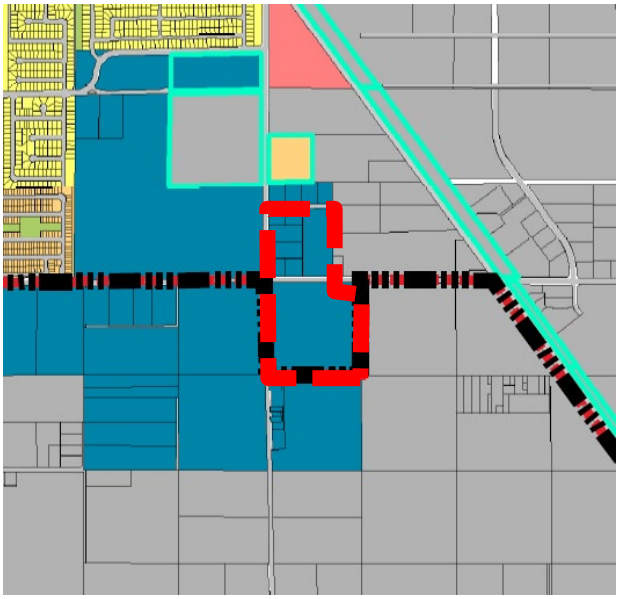


Fountainhead Plaza

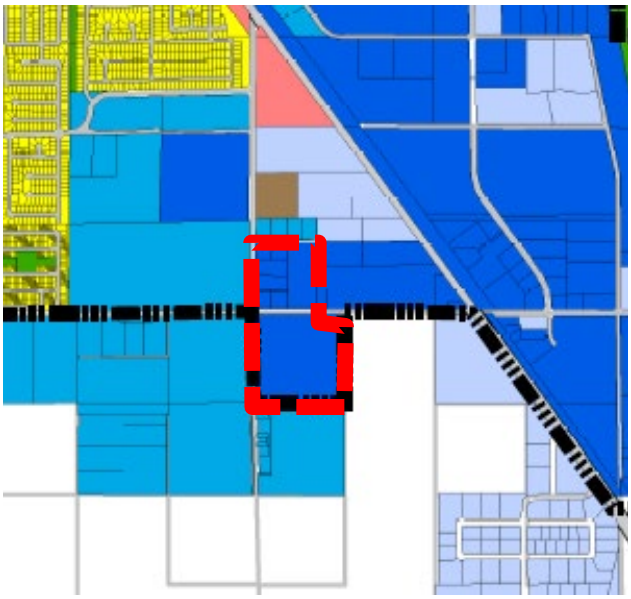
- **Request:** Allow auto-oriented uses in this part of the Downtown center (GPLU) and DT-PV zone.
- **Staff Recommendations:** Change the GPLU and Zoning to Urban Employment to better reflect current and proposed uses in this area.
  - Current GPLU – Downtown Center
  - Recommended GPLU – Urban Employment
  - Draft Zone – Downtown (DT-PV)
  - Recommended Zone – Urban Employment (U-E)

General Plan Land Use

Draft Zoning



raimi+ associates

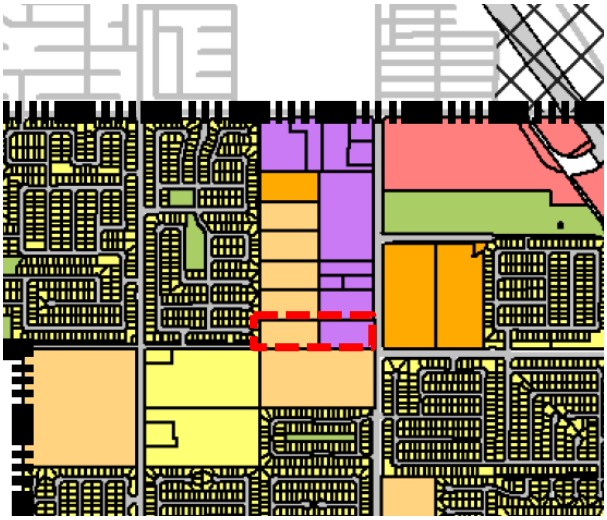


Tyler Street/54th Avenue

- **Staff Recommendations:** Recommend clean up change related to General Plan consistency.
    - Draft Zone – Heavy Industrial
    - General Plan – Urban Employment
    - Recommended Zone – Urban Employment

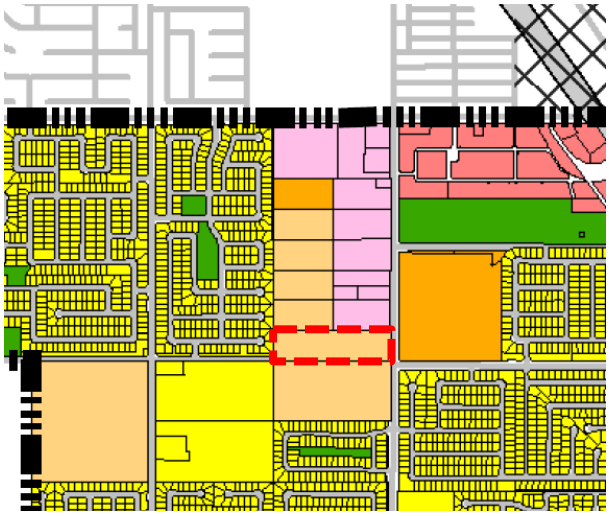
General Plan Land Use

Draft Zoning



,

raimi+ associates



Van Buren and 49th Avenue

- **Staff Recommendations:** Recommend clean up change related to General Plan consistency.
    - Draft Zone – General Neighborhood
    - General Plan – split General Neighborhood and Neighborhood Center
    - Recommendation - split General Neighborhood and Neighborhood Center

General Plan Land Use

Draft Zoning

Memo

To: City of Coachella Planning Commission
Gabriel Perez
From: Tyler 52 & Associates, Inc.
Date: May 5, 2023
RE: 51-996 Tyler Street, Coachella, California
APN: 763-060-031

We have reviewed the proposed zone change from R-M (Residential Multi-Family) to U-N (Urban Neighborhood). We request that the zone be expanded to allow the existing childcare, corporate office, and regional cooking service that exists on the above-mentioned property, as a primary use within the zone. Daycare services are a very needed and scarce service that complements the U-N zone.

Thank you for your consideration.

David B. Turner
Principal

Memo

To: City of Coachella Planning Commission
Gabriel Perez
From: Dakota Dunes, Inc
Date: May 5, 2023
RE: 85-220 Avenue 50, Coachella, California
APNs: 778-030-003 & 778-030-004

We have reviewed the proposed zone change from M-S (Manufacturing Service) to U-E (Urban Employment) for the above referenced property. Although we are not opposed to the zone change, as it will allow for more types of use in the future, we request that you retain the legacy multi-tenant uses on the property as a right of use, instead of existing non-conformance and the requirement of a CUP for future use. This will allow a change out of similar uses on the multi-tenancy property and or lease land, until such time as the property develops as a whole, as part of a larger project.

Allowing the existing uses in the multi-tenancy property of automotive repair, machine shop, metal working, fabrication, sheet metal, welding, painting, prefabrication/manufacturing, tire, RV, trailer, mobile home, storage yard, contractor's yards, building materials yard, lumber yard, etc. will allow the continuation of needed uses in the City and not force existing businesses to close down and/or move out of the City. Some businesses have been there for over 30 years. We would also like to request that the M-S zone be allowed to allow towing/impound as a right in the zone to allow very needed uses in the City and to assist our State Highway Patrol.

Thank you for your consideration.

David B. Turner
Principal

CVE
Coachella Valley Engineers

To: City of Coachella Planning Commission
Gabriel Perez
From: Coachella Valley Engineers, Inc.
Date: May 5, 2023
RE: Manufacturing Service Zone

M-S (Manufacturing Service Zone) – C.13
We have reviewed the proposed changes to the RV Storage Section. We would propose rather than limiting the zone to 15% to not drive away valued businesses to the City and its residents, as well as potential capital investment in the City, we would propose that staff determines where the best storage facilities should be located in the city (potentially near existing facilities) and create a subcategory of where they would be allowed, whether that encompasses 15% of the zone space or not. The zoning classification would reduce the potential for ambiguity and not be subject to interpretation.

Thank you for your consideration.

Fountainhead
Development

April 26, 2023

Gabriel Perez
Development Services Director
City of Coachella
53990 Enterprise Way
Coachella, CA 92236

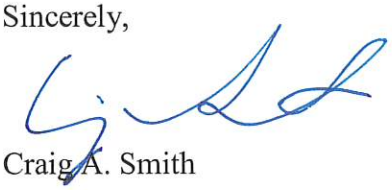
Dear Gabriel,

It has been a pleasure working with the City of Coachella for nearly twenty years developing Fountainhead Plaza. We are proud of the high-quality tenants who have joined our project and would like to present the reasons why we think this project zoning should be amended to allow certain additional uses. The current General Plan Designations Compatible Uses table does not allow for automotive oriented uses, or drive-through restaurants. This is a large neighborhood center that successfully provides retail services to the surrounding community. The center as it is built today already features many vehicle oriented businesses in addition to the retail businesses. The current development consists of a pharmacy, grocery store, drive-through restaurants and a gas station approved through Site Plan Review and Conditional Use Permit.

Since we began our development activity on this project, we have seen many changes in the retail and commercial development business. Larger format retail tenants have stopped opening new stores and in fact have been closing stores, which is continuing at an accelerating pace. Smaller retail tenants are expanding, however that expansion is primarily into 2nd generation retail space since the cost of construction has far outpaced the level of rents these tenants can afford. The project already has the daily essential needs tenants with a grocer and drug store, thus the options for completing the remainder of the project are very limited.

We do have a very successful business interested by the name of SuperStar Carwash which fits perfectly into the characteristics of the existing tenant mix. This business is growing rapidly and provides a much needed service to the community. With a SuperStar in the project someone could handle their grocery shopping, grab a bite to eat, fuel up their car and get a carwash all in one stop.

An additional great benefit is that SuperStar is willing to develop a brand new state-of-the-art facility with limited visibility behind Walgreens. The limited visibility from Cesar Chavez Street has caused all previous tenants over the past years to decline the opportunity.



1401 Quail Street, Suite 100 • Newport Beach, CA 92660
949/752-251[illegible] 949/752-7442

Fountainhead
Development

Removing this site from the Downtown Center or Central District Zone will be consistent with the development that has already taken place and serve to attract additional commercial uses, which will benefit the community significantly.

Hopefully the City of Coachella Development Services team can see the community benefits, cohesive nature of the tenant mix, and great use of a challenging site as great reasons to allow this development to move forward. We appreciate your consideration and look forward to discussing further.

Sincerely,

Craig A. Smith

RE: General Plan Amendment No. 23-03, Zoning Ordinance Amendment No. 22-03
Petition to Maintain Residential / G-N (General Neighborhood) Zoning

Dear Honorable Chair and Members of the Coachella Planning Commission,

Enclosed you will find a copy of a signed petition prepared by my client, Mr. Javier Soliz, on behalf of himself and two of his neighbors, including Mr. Jerry Jimenez, and Mr. Leonardo Alvarado, who together own three abutting properties on the west side of Van Buren Boulevard, 660 feet north of the Avenue 49 street alignment. The Assessor Parcel Numbers for their properties are 612-250-010 (Alvarado), 612-250-011 (Jimenez), and 612-250-012 (Soliz).

Their mutual request is to have their properties be re-zoned to a G-N (General Neighborhood) zoning, consistent with the City's prior policy that allowed R-M zoning within the "Neighborhood Center" land use designation. This is substantially in conformance with the "Neighborhood Center" land use vision of the city's General Plan, especially if future multifamily developments must adhere to the "Urban Residential" standards, as proposed by the Code Amendments, which would establish a more "urban" character at this location.

A fourth neighbor who owns the 4.71-acre parcel that is 330 feet north of the Avenue 49 street alignment was out of town when the petition was circulated. However, that neighbor is similarly situated and my client believes that landowner would similarly want to retain a residential zoning, and we will likely secure his signature on the petition before the City Council's public hearing on this matter.

JUSTIFICATION FOR THE REQUEST

My client and his neighbors are concerned about the proposed C-N (Neighborhood Center) zoning designation that is proposed for their properties because of the following reasons:

1) The Notice of Public Hearing for this matter did not include a "Change of Zone" application and failed to adequately describe the City's intention for a city-wide "re-zoning". The City's administrative practice is to require property owners to file an application for "Change of Zone" whenever the City's Official Zoning Map is being amended. My Client only learned about the city-wide re-zoning after he inquired with city staff about building two dwelling units on his property in April 2023. We believe the notice should have included a "Change of Zone" application, and a project description that generally described a "city wide zone change" effort. Additionally, my client was not advised about the "public outreach" meetings described in the staff report, which apparently took place after my client met with city staff in April 2023. For these reasons, we believe this matter should be continued and re-noticed.

2) My client and his neighbors have historically maintained, or intend to build, residential uses on their properties. Two of the three parcels in question have an existing single-family home, and these owners are concerned about their homes now becoming a "nonconforming use" which would have secondary adverse effects on their ability to sell or refinance their homes. Mr. Jimenez' property is a vacant lot that is located behind my client's parcel and is accessed through an ingress/egress easement, and as such is best suited for construction of a residential use.

3) Except for the 4.71-acre parcel, the properties are not individually large enough to build a commercial or mixed-use development on their own, and would necessitate that a developer acquire all three parcels to create a suitable commercial/mixed-use development site. Alternatively, a phased residential development (i.e., "bungalow court" or "clustered single-family PUD" could be developed on the three parcels without having to substantially modify the existing lot configurations.

4) The 9.80-acre parcel with a date grove, known as APN 612-250-007 (see maps in attached "Exhibit B") located on the west side of Van Buren Boulevard, abutting the north side of the Avenue 49 alignment was not included in the "Neighborhood Center" re-zoning, even though the General Plan land use designation for this parcel would have required it to be "split zoned" (front half to be "C-N" and rear-half to be "G-N" zoning). This entire parcel is shown with G-N (General Neighborhood) zoning on the "Proposed Zoning Map" exhibit in the staff report. My client and his neighbors would like the same opportunity (equal treatment) by allowing their parcels to be designated as G-N (General Neighborhood).

Thank you for your consideration in this matter. I will be available to answer any questions at the public hearing.

Sincerely,

J. LUIS LOPEZ
Attorney at Law

PETITION TO KEEP RM-MULTI FAMILY RESIDENTIAL ZONING

Petition summary and background	The City of Coachella is proposing City-wide zone changes on private properties in order to make the zoning consistent with the City's General Plan (adopted in 2015). The properties on the west side of Van Buren Street, between Avenue 49 and Avenue 48 will be changed to NC (Neighborhood Commercial) or a Mixed-Use (MU) designation, to be consistent with the "Neighborhood Center" vision for this sector of the City. Commercial zoning would prohibit single family homes or duplexes and triplexes, and would make any existing home a "nonconforming use" which then makes it difficult to get a mortgage loan when we decide to sell our homes. The City has previously allowed developers to use an RM (Multifamily Residential) zoning in the Neighborhood Center designation (i.e., Coachella Village Apartments project on Avenue 48). The RM zone still allows single family homes under certain conditions, and would avoid the "nonconforming use" designation by the City.
Action petitioned for	We petition the City of Coachella to keep RM-Multi Family Residential Zoning for said parcels along the west side of Van Buren Street; ○ 48665 Van Buren St. (APN: 612-250-012) Soliz PARCEL ○ 48785 Van Buren St. (APN: 612-250-008) ○ APN: 612-250-011 – J. JIMENEZ PARCEL ○ APN: 612-250-010 ALVARADO PARCEL
