GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the no-new-revenue (NNR) tax rate and voter-approval tax rate for the taxing unit. These tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll and the estimated values of properties under protest. The designated officer or employee shall certify that the officer or employee has accurately calculated the tax rates and used values shown for the certified appraisal roll or certified estimate. The officer or employee submits the rates to the governing body by Aug. 7 or as soon thereafter as practicable.

School districts do not use this form, but instead use Comptroller Form 50-859 Tax Rate Calculation Worksheet, School District without Chapter 313 Agreements or Comptroller Form 50-884 Tax Rate Calculation Worksheet, School District with Chapter 313 Agreements.

Water districts as defined under Water Code Section 49.001(1) do not use this form, but instead use Comptroller Form 50-858 Water District Voter-Approval Tax Rate Worksheet for Low Tax Rate and Developing Districts or Comptroller Form 50-860 Developed Water District Voter-Approval Tax Rate Worksheet.

The Comptroller's office provides this worksheet to assist taxing units in determining tax rates. The information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

SECTION 1: No-New-Revenue Tax Rate

The NNR tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of taxes (no new taxes) if applied to the same properties that are taxed in both years. When appraisal values increase, the NNR tax rate should decrease.

The NNR tax rate for a county is the sum of the NNR tax rates calculated for each type of tax the county levies.

While uncommon, it is possible for a taxing unit to provide an exemption for only maintenance and operations taxes. In this case, the taxing unit will need to calculate the NNR tax rate separately for the maintenance and operations tax and the debt tax, then add the two components together.

SECTION 2: Voter-Approval Tax Rate

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. The voter-approval tax rate is split into two separate rates:

- 1. Maintenance and Operations (M&O) Tax Rate: The M&O portion is the tax rate that is needed to raise the same amount of taxes that the taxing unit levied in the prior year plus the applicable percentage allowed by law. This rate accounts for such things as salaries, utilities and day-to-day operations.
- 2. Debt Rate: The debt rate includes the debt service necessary to pay the taxing unit's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The voter-approval tax rate for a county is the sum of the voter-approval tax rates calculated for each type of tax the county levies. In most cases the voter-approval tax rate exceeds the no-new-revenue tax rate, but occasionally decreases in a taxing unit's debt service will cause the NNR tax rate to be higher than the voter-approval tax rate.

SECTION 3: NNR Tax Rate and Voter-Approval Tax Rate Adjustments for Additional Sales Tax to Reduce Property Taxes

Cities, counties and hospital districts may levy a sales tax specifically to reduce property taxes. Local voters by election must approve imposing or abolishing the additional sales tax. If approved, the taxing unit must reduce its NNR and voter-approval tax rates to offset the expected sales tax revenue.

This section should only be completed by a county, city or hospital district that is required to adjust its NNR tax rate and/or voter-approval tax rate because it adopted the additional sales tax.

SECTION 4: Voter-Approval Tax Rate Adjustment for Pollution Control

A taxing unit may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The taxing unit's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The taxing unit must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This section should only be completed by a taxing unit that uses M&O funds to pay for a facility, device or method for the control of air, water or land pollution.

SECTION 5: Voter-Approval Tax Rate Adjustment for Unused Increment Rate

The unused increment rate is the rate equal to the difference between the adopted tax rate and voter-approval tax rate before the unused increment rate for the prior three years. ³⁹ In a year where a taxing unit adopts a rate by applying any portion of the unused increment rate, the unused increment rate for that year would be zero.

The difference between the adopted tax rate and voter-approval tax rate is considered zero in the following scenarios:

- a tax year before 2020; 40
- a tax year in which the municipality is a defunding municipality, as defined by Tax Code Section 26.0501(a); ⁴¹ or
- after Jan. 1, 2022, a tax year in which the comptroller determines that the county implemented a budget reduction or reallocation described by Local Government Code Section 120.002(a) without the required voter approval.⁴²

This section should only be completed by a taxing unit that does not meet the definition of a special taxing unit. ⁴³

|------|--|----------------------------|

SECTION 6: De Minimis Rate

The de minimis rate is the rate equal to the sum of the no-new-revenue maintenance and operations rate, the rate that will raise \$500,000, and the current debt rate for a taxing unit.⁴⁴ This section should only be completed by a taxing unit that is a municipality of less than 30,000 or a taxing unit that does not meet the definition of a special taxing unit.⁴⁵

| 72. | De minimis rate. Add Lines 68, 70 and 71. | \$0.1892 _{/\$100} |

SECTION 7: Voter-Approval Tax Rate Adjustment for Emergency Revenue Rate

In the tax year after the end of the disaster calculation time period detailed in Tax Code Section 26.042(a), a taxing unit that calculated its voter-approval tax rate in the manner provided for a special taxing unit due to a disaster must calculate its emergency revenue rate and reduce its voter-approval tax rate for that year.⁴⁶

Similarly, if a taxing unit adopted a tax rate that exceeded its voter-approval tax rate, calculated normally, without holding an election to respond to a disaster, as allowed by Tax Code Section 26.042(d), in the prior year, it must also reduce its voter-approval tax rate for the current tax year.⁴⁷

This section will apply to a taxing unit other than a special taxing unit that:

- directed the designated officer or employee to calculate the voter-approval tax rate of the taxing unit in the manner provided for a special taxing unit in the prior year; and
- the current year is the first tax year in which the total taxable value of property taxable by the taxing unit as shown on the appraisal roll for the taxing unit submitted by the
 assessor for the taxing unit to the governing body exceeds the total taxable value of property taxable by the taxing unit on January 1 of the tax year in which the disaster
 occurred or the disaster occurred four years ago.

| Submitted By: | 511 Mercer Street Dripping Springs, TX 78620 Ginger Faught, Deputy City Administrator | | |
|------------------------|--|--|--|
| Council Meeting Date: | August 16, 2022 | | |
| Agenda Item Wording: | Approval of a Corrected Wastewater Ordinance an Ordinance amending Chapter 20, Article 20.02 and 20.06, Sections 20.02.006 of the Dripping Springs Code of Ordinances; Amending the General Provisions related to Wastewater and Water Rates including Rates for Service Provided to out o city customers. <i>Sponsor: Mayor Foulds, Jr.</i> | | |
| Agenda Item Requestor: | Sarah Cole, Building Official | | |
| Summary/Background: | The city discussed and adopted a rate of \$28.88 but the published ordinance was \$28.28. This ordinance is correcting the ordinance to be \$28.88. | | |
| | The City hired Bruce Fairchild to conduct a wastewater and water rate analysis and study (see attached report). Mr. Fairchild also did the last rate analysis that was completed in 2018 which resulted in a wastewater rate increase. | | |
| | This proposed amendment will increase wastewater rates by 10% (both the base fee and the volumetric charge). We are charging both in city and out city residents the same rates. The last rate increase was approved in Janua 2018. | | |
| | Currently our water rates are a markup of 6% on top of what we are charged by the West Travis County Public Utility Agency. This has not been an issue for us as we have not had active residential customers. We are startin to connect homes in the Driftwood Development and need to set standard rates. This proposed amendment sets a base fee and volumetric charge for water customers based on the rates charged by the Dripping Springs Water Supply. The recommendation sets rates 20% higher for those customers outside of the City Limits. See the attached report from Mr. Fairchild regarding his analysis and justification. | | |
| | | | |

Item 6.

| Recommended Council Actions: | Approve rates as presented. |

Ms. Ginger Faught Deputy City Administrator City of Dripping Springs 511 Mercer Street Dripping Springs, Texas 78620

Dear Ginger:

You requested that we prepare a study developing rates for water service that the City of Dripping Springs is scheduled to begin providing in 2022. Rates for water service are customarily based on an analysis of the utility's cost of providing service, similar to the methodology used to establish the rates Dripping Springs charges customers for wastewater service. A cost-of-service study is based on historical or budgeted data that reflects representative levels of the operating expenses, capital costs, and customer usage that are expected to prevail when the rates will be in effect.

For most water systems, operating expenses and capital costs are known historically or can be reasonably estimated, and the number of customers and their usage are measurable and relatively stable. However, because the Dripping Springs water system is new and developing, it is difficult to determine accurately the operating and capital costs required to operate the system, and even more difficult to estimate the number and usage of customers that will be served. As a result, performing a traditional cost-of-service study to calculate rates for the Dripping Spring water system is problematic, with there being no assurance that any rates will reflect the cost of providing service and produce revenues reasonably expected to recover these costs.

An alternative to a cost-of-service study is to set initial rates for a new utility based on to those charged by neighboring utilities. The rates that similarly situated utilities charge are expected to be generally reflective of the cost of providing service in the area and can be viewed as a competitive and fair price for water service. Further, setting initial rates based on those charged by neighboring utilities provides an objective basis for initial rates until the Dripping Springs water system becomes sufficiently established and mature that information is available to allow a meaningful cost-of-service study to be performed.

Ms. Ginger Faught April 11, 2022 Page Two

A second consideration in setting the rates to be charged by the Dripping Springs water system in whether to differentiate between customers located inside and outside the city limits. When a city-owned utility serves outside-city customers, it takes on additional risks and responsibilities in providing service. This burden is often accounted for by charging outside-city customers higher rates, which are determined based on differences in the cost of providing service or an amount judged reasonable. For example, the rates of the cities of Buda, Kyle, and Johnson City are approximately 30, 35, and 50 percent higher for customers located outside their city limits than within. Because meaningful cost data for the Dripping Springs water system do not yet exist, any inside/outside city rate differential must necessarily be based on other factors.

The most immediate neighboring utility to the Dripping Springs water system is the Dripping Springs Water Supply Corporation. DSWSC's current water rates consist of a fixed monthly charge of \$35.00 plus volumetric charges that increase in blocks as a customer's monthly usage rises. This rate structure is intended to encourage water conservation and is typical of most water utilities' rate design, although the blocks and rates are specific to each utility. In Attachment A, DSWSC's schedule of rates is displayed in the first column, with rates calculated assuming a 20 percent rate differential for outside-city customers being shown in the second column.

Attachment B is a graph that compares typical monthly bills based DSWSC's rates for inside and outside customers with the monthly bills of other nearby communities assuming monthly water usage of 10,000 gallons. As can be seen there, using DSWSC's rates as the basis for initial rates for the Dripping Springs water system would result in monthly bills that generally compare favorably with those of nearby communities.

If I can answer any questions or provide additional information, please do not hesitate to contact me.

Sincerely,

Bruce H. Fairchild

Dear Applicant:

We're pleased to tell you we determined you're exempt from federal income tax under Internal Revenue Code (IRC) Section 501(c)(3). Donors can deduct contributions they make to you under IRC Section 170. You're also qualified to receive tax deductible bequests, devises, transfers or gifts under Section 2055, 2106, or 2522. This letter could help resolve questions on your exempt status. Please keep it for your records.

Organizations exempt under IRC Section 501(c)(3) are further classified as either public charities or private foundations. We determined you're a public charity under the IRC Section listed at the top of this letter.

If we indicated at the top of this letter that you're required to file Form 990/990-EZ/990-N, our records show you're required to file an annual information return (Form 990 or Form 990-EZ) or electronic notice (Form 990-N, the e-Postcard). If you don't file a required return or notice for three consecutive years, your exempt status will be automatically revoked.

If we indicated at the top of this letter that an addendum applies, the enclosed addendum is an integral part of this letter.

For important information about your responsibilities as a tax-exempt organization, go to www.irs.gov/charities. Enter "4221-PC" in the search bar to view Publication 4221-PC, Compliance Guide for 501(c)(3) Public Charities, which describes your recordkeeping, reporting, and disclosure requirements.

| Submitted By: | Craig Rice, Maintenance Director |
| Council Meeting Date: | August 16 th , 2022 |
| Agenda Item Wording: | Discuss and consider approval of an agreement with Brightly Software Inc. for public works software. |
| Agenda Item Requestor: | Craig Rice, Maintenance Director |
| Summary/Background: | City staff began researching work order management software early in Fiscal year 2022 when the wastewater services were brought in house and the current work order system did not meet their needs for maintenance and operations. The Maintenance Department has been making do with the current provider but would benefit as much if a software program better fit both Public Works and Maintenance Department needs. |
| | All of the features of the software will serve to meet one of our strategic planning initiatives – Create Operational Efficiency. Having the ability to generate a work order while in the field will greatly increase the quality and accuracy of work orders. The completed work orders will then be tracked and staff will have the ability to generate reports and analyze more accurately where time is being spent, which will help us in the budgeting process as well as with staffing and equipment. |
| | The initial startup and first-year support will cost \$19,273.48. That includes a Sourcewell discount as these services are included in the Sourcewell competitively negotiated contract. Going forward the City will continue to get a Sourcewell discount on the annual subscription fees. The proposal is a five-year contract with around 3% increases each year over the five years with year 2 services invoiced at \$10,312.54. |
| Commission Recommendations: | N/A |
| Recommended Council Actions: | Approval of the agreement and purchase for FY23 of the Work Order management software from Brightly Software Inc. |

Asset Essentials – Assets, GIS, and PM Schedules Implementation Consulting Package Statement of Work

Purpose

Brightly's (Company) Asset Essentials is designed to provide our clients with focused guidance by experienced consultants to ensure an effective and efficient implementation and a faster ROI. This includes - meeting with key stakeholders to ensure the set-up and configuration of the system will meet the client's current and future needs; location and category hierarchies are configured appropriately; workflows meet the needs of the business; available data is cleaned, aligned and imported; and end users are trained and ready for go-live.

Value

By partnering with Brightly, you are provided expert guidance in the best practice configuration and usage of Asset Essentials. The following are ways in which this value is realized:

- Expert data management: we work with client data every day and provide guidance on creating good data for reporting. In partnership, we will help clean up and import data for you, allowing you more time to focus on your daily operations, and not the one-time activities necessary to get your account configured effectively.
- Dedicated professional services: the partnership between you and your consultant will align Asset Essentials best practices, configuration and workflows to best meet your business needs. Our team will bring their thousands of hours of expertise to the table, helping ensure a smooth transition to your new CMMS system.

Methodology and Approach

Brightly or a qualified Service Provider (Company Service Provider) will interview your key maintenance stakeholders to determine account configurations and settings. With over 12,000 clients successfully using our software, we understand the importance of understanding your goals, objectives, and current workflows, as well as the importance of getting to know your users. Your professional services implementation will begin with an Orientation Call with a dedicated Project Coordinator. Additional resources will help prepare you for your consulting time through access to a project collaboration tool (Financial Force Community) where a team of implementation specialists will help answer questions and provide access and recommendations for Virtual Classroom Training sessions. Once your data has been collected you will be ready to work with your assigned consultant to understand your workflow, cleanse and import your data, configure your account and offer user-role based software training sessions. Below are topics that will be discussed with your Company Service Provider:

- The primary reasons your organization began a CMMS search
- The ideal timeline for completion
- Business deadlines that drive this timeline
- · Project team members who will be participating in the implementation, and their roles
- Internal champions for this project
- Sceptics that may require additional change management support

Company may, at its option, and without limiting its other remedies, suspend (rather than terminate) any Services if Subscriber breaches the Agreement (including with respect to payment of Fees) until the breach is remedied.

5.3 <u>Effect of Termination</u>. Termination or suspension of an individual Order Form or reseller purchase, will not terminate or suspend any other Order Form, reseller purchase or the remainder of the Agreement unless specified in the notice of termination or suspension. If the Agreement is terminated in whole, all outstanding Order Form(s) and reseller purchases will terminate.
