NEW BUSINESS

9. Targeted Multi-Family and Mixed-Use Housing Study – Results and Recommendations

Principal Planner Desmond Parrington made a presentation and responded to questions from the City Council.

The City Council discussed aspects of the Housing Study and was supportive of staff's recommendations to increase density, use floor area ratio (FAR) for more intensive projects, adjust height limits, and use build-to lines instead of setbacks in the target areas. Target areas include the East Bidwell Corridor, the areas around the Glenn and Iron Point light rail stations, and the Folsom Plan Area Town Center area. Several councilmembers expressed concerns about allowing parking reductions in the East Bidwell Corridor but were more supportive if alternative parking options were required for those reductions. Mayor Kerri Howell wanted staff to use different development standards for the East Bidwell Corridor since that area is already developed compared to the Glenn Station site and the Folsom Town Area. The City Council directed staff to proceed with the technical and environmental analyses using the recommended changes and return to a future meeting in 6 to 12 months with the results.
