2. Monthly Financial and Investment Reports for July, August, and September 2020

Ms. Harriss reviewed the Monthly Financial and Investment Report for July.

For July, base rent was \$146,610, and additional rent totaled \$22,901. Interest earnings for the month were \$1,927 for total receipts of \$171,439. Disbursements for the month were \$3,670. The net increase in cash and investments was \$167,769.

The Sports Corporation had total cash & investments of \$11,065,770.

For August, base rent was \$146,610, and additional rent totaled \$12,528. Interest earnings for the month were \$1,569 for total receipts of \$160,707. Disbursements for the month were \$275,674. The net increase in cash and investments was \$(114,967).

The Sports Corporation had total cash & investments of \$10,950,804.

For September, base rent was \$146,610 and additional rent totaled \$12,982. Interest earnings for the month were \$1,085 for total receipts of \$160,677. Disbursements for the month were \$552.

The net increase in cash and investments was \$160,125.

The Sports Corporation had total cash & investments of \$11,110,928.

Investment Recap:

The Investment Recap summarizes the activity by month in the Sports Corp’s investment portfolio. The schedule shows a year-to-date increase of \$1,200,470. The book value and market value of each type of investment is also shown on the report. At September 30, 2020, the Sports Corp had an unrealized gain of \$1,582 on its securities. This has occurred as the bond market slowed.

Portfolio by Type of Investment:

Approximately 82% of the portfolio is invested in Texpool (Public Fund Investment Pool) and the remainder is invested in US Agency investments.

Portfolio by Maturity:

Approximately 82% of total investments mature within 31 days, with a remaining agency out at 3 years. Policy allows up to 5 years max maturity. The portfolio is in compliance with this limit.

Weighted Average Maturity:

As of September 30, 2020, the WAM was 193. Policy is a maximum WAM of 2 years. This portfolio is in compliance.

Interest Earnings:

The primary difference in this amount is due to the timing of when interest is received and reported. Interest received is on a cash basis, as is the budgeted amount. Interest earnings and accrued interest are on an accrual basis. As long as the portfolio is kept relatively liquid, interest earnings will be lower than in year’s past.

Yield Compared to U.S. Treasury Bill and Texpool:

A metric more indicative of the portfolio performance is the overall expected yield-to-maturity. This metric is benchmarked against monthly yield of the one-year U.S. Treasury Bill and the average monthly yield on Texpool. Since the strategy at the Corporation is a buy and hold to maturity, the yield-to-maturity rate represents the final expected results.

Investment Policy and Strategy:

The portfolio continues to operate under a buy and hold strategy. During this time of economic uncertainty, we have attempted to keep the fund more liquid to address any potential scenario.

President Jensen inquired how much of our cash balance has been promised. Ms. Harris replied there is an upcoming GPMURD payment due and another SC CIP request. President Jensen asked what we owe Lone Star Park for our 50/50. Mr. Giessner said we have just under 50% left for this year which would be a quarter of a million dollars. President Jensen remarked that the ¼ cent sales tax could be used to make a donation to PlayGrand Adventures.

Ayes: Jensen, Clemson, Garcia, Giessner, Skinner
Nays: None

Grand Prairie Sports Facilities Development Corporation Investment Report For the Quarter ended December 31, 2020

Investment Recap

The attached Investment Recap summarizes the activity by month in the Sports Corp’s investment portfolio. The schedule shows a year-to-date increase of \$5,466. The book value and market value of each type of investment is also shown on the report. At December 31, 2020, the Sports Corp had an unrealized loss of \$1,080 on its securities.

Portfolio by Type of Investment

Chart 1 presents the portfolio by type of investment. 82% of the portfolio is invested in Texpool, a Public Fund Investment Pool with the remainder in a government agency.

Portfolio by Maturity

Chart 2 presents the portfolio by maturity. 82% of total investments mature within 31 days, with a remaining agency out at 3 years. Policy allows up to five years maximum maturity. The portfolio is in compliance with this limit.

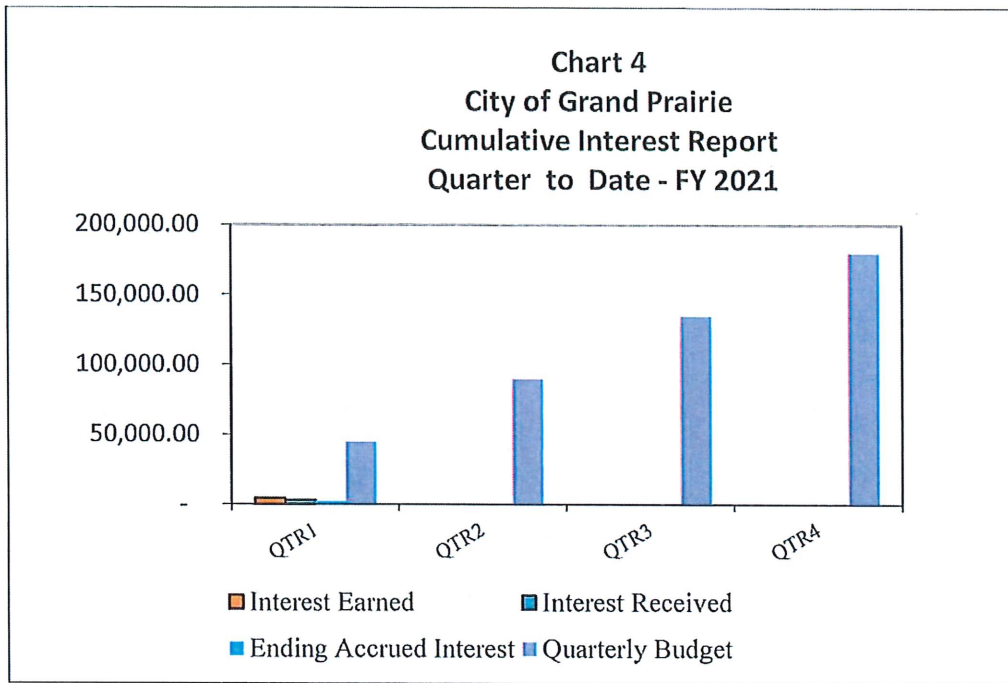

Weighted Average Maturity

Chart 3 shows the weighted average maturity (WAM) for the last twelve months. As of December 31 2020 the WAM was 176 days. Policy is a maximum WAM of 2 years, so the portfolio is in compliance.

Interest Earnings

Chart 4 compares the interest income budget, interest received, and ending accrued interest. The primary difference in this amount is due to the timing of when interest is received and reported. Interest received is on a cash basis, as is the budgeted amount. Interest earnings and accrued interest are on an accrual basis. As long as the portfolio is kept relatively liquid, interest earnings will be lower than in year's past. It is highly unlikely investment income reaches budgeted figures this year.

Yield Compared to U.S. Treasury Bill and Texpool

A metric more indicative of the portfolio performance is the overall expected yield-to-maturity, as shown in Chart 5. This metric is benchmarked against monthly yield of the one year U.S. Treasury Bill and the average monthly yield on Texpool. Since the strategy at the Corporation is a buy and hold to maturity, the yield-to-maturity rate represents the final expected results.

INVESTMENT POLICY AND STRATEGY

The portfolio continues to operate under a buy and hold strategy. During this time of economic uncertainty, we have attempted to keep the fund more liquid to address any potential scenario.
