

**PUBLIC HEALTH ADVISORY COMMITTEE**  
**CITY HALL EAST CONFERENCE ROOM C - 300 W. MAIN STREET**  
**MONDAY, APRIL 08, 2024 AT 6:00 PM**

---

**AGENDA**

**CALL TO ORDER**

**AGENDA ITEMS**

*Citizens may speak for up to five minutes on any item on the agenda by completing and submitting a speaker card.*

- [1.](#) Minutes of the February 12, 2024 Public Health Advisory Committee Meeting
- [2.](#) Review of Quarterly Report
- [3.](#) Get Fit GP Updates
- [4.](#) 2023 Annual Report
- [5.](#) 2023 Clean Prairie Report

**CITIZEN COMMENTS**

*Citizens may speak during Citizen Comments for up to five minutes on any item not on the agenda by completing and submitting a speaker card.*

**ADJOURNMENT**

*The Grand Prairie City Hall is accessible to people with disabilities. If you need assistance in participating in this meeting due to a disability as defined under the ADA, please call 972-237-8055 or email [cmendez@gptx.org](mailto:cmendez@gptx.org) at least three (3) business days prior to the scheduled meeting to request an accommodation.*

*Certification*

*In accordance with Chapter 551, Subchapter C of the Government Code, V.T.C.A, the Public Health Advisory Committee agenda was prepared and posted April 05, 2024.*

A handwritten signature in black ink, appearing to read "Cindy Mendez", written over a horizontal line.

*Cindy Mendez, Public Health & Environmental Quality  
Director*

**CITY OF GRAND PRAIRIE  
COMMUNICATION**

---

**MEETING DATE:** 04/08/2024

**REQUESTER:** Cindy Mendez, Public Health & Environmental Quality Director

**PRESENTER:** Cindy Mendez, Public Health & Environmental Quality Director

**TITLE:** Minutes of the February 12, 2024 Public Health Advisory Committee Meeting

**RECOMMENDED ACTION:** Approve

---

**PUBLIC HEALTH ADVISORY COMMITTEE  
MINUTES: FEBRUARY 12, 2024**

**MEMBERS PRESENT:**

Keith Fletcher Carol Landrum Mary Linicomn David Pomerantz Cassandra Roberson  
Xochitl Rodriguez Omolara Olanrewaju Sanusi

**STAFF:**

Cindy Mendez, Public Health & Environmental Quality Director  
Werner Rodriguez, Public Health Manager  
Tamilia Johnson, Administrative Supervisor

**Call to Order:**

The meeting was called to order by Keith Fletcher at 6:36 pm with a quorum present.

- I. Review Minutes – The last public health meeting was held November 13, 2023. Carol Landrum motioned to approve minutes, seconded by David Pomerantz, all were in favor.
  
- II. Review of Quarterly Report – The 4<sup>th</sup> quarterly report was reviewed by the committee and staff. Mr. Fletcher raised a question regarding the rise of tuberculosis. Cindy Mendez, Public Health & Environmental Quality Director, explained this is likely due to homelessness and non-compliance. Ms. Landrum mentioned it can also be due to crowds. Ms. Mendez offered to get a speaker, such as one for TABC, for a future meeting.
  
- III. Get Fit GP Updates – Ms. Mendez reviewed Get Fit GP events. Over 600 riders participated for the Cyclin with the Mayor Prairie Lights Ride held November 2023. The Grand Holiday Craft Fair/Mental Health Event was held on December 7<sup>th</sup>. Beginning January 2024, Healthy Resolutions, our community health initiative, includes My Health Passport. These are still valid and can be used until the end of this month. Also, New Year Healthy Resolution, which are ideas to share on social media outlets. In February 2024, the Healthy Heart Art Contest is for all ages and types of art. The art contest is being advertised to schools and the senior center. On April 6<sup>th</sup>, during the opening day of Farmer’s Market, there will be a Health Fair beginning at 8 a.m. and the Mayor’s 5k, Community Walk, Run or Stroll will start at 9:30 a.m. Shirts will be available while supplies lasts. April 11<sup>th</sup> is the first Cyclin’ with the Mayor for the season at the Epic area. Two community events will be held at our parks, (1) Tyree Park on May 23<sup>rd</sup> and (2) Action State Park on June 13<sup>th</sup>. Earth Day will be held back at EpicCentral this year, alongside the walkway, on April 20<sup>th</sup>. This event will include exotic animals and free-tree-giveaways.

- IV. Amendments to Mobile Food Ordinance – Public Health Manager Werner Rodriguez spoke about the amendments to the Mobile Food Ordinance. Counties with certain populations, such as Dallas and Tarrant, had to comply. A diagram was shown to the committee regarding the current UDC guidelines where mobile food units can be. Mr. Rodriguez explained that we still regulate and cite mobile food units if they are not registered. He also stated that we can issue temporary permits for special events.
- V. Overview of Alcohol Permitting – Mr. Rodriguez provided the committee a brief history of alcohol sales in Texas. Effective 9/1/2023, per Senate Bill 577, we can no longer charge fees for alcohol permits fees and food manger certificates. Ms. Mendez would like to amend this and waiting on our legal team to find other ways for us to collect. She stated our Mobile Food Ordinance will be amended on 2/20/2024, and this may come up on the City Council meeting in March.
- VI. 2024 Meeting Dates – The committee discussed changing the meetings to bi-monthly instead of quarterly, which will add two meetings per year. The meeting start time was also discussed to be moved from 6:30 p.m. to 6:00 p.m. Ms. Landrum motioned to adopt the bi-monthly meeting proposal with 6:00 p.m. start time, seconded by Mr. Pomerantz, approved by all present. The next meeting is scheduled on 4/8/2024 at 6:00 p.m.

Adjournment – With no other questions or comments, Mr. Fletcher motioned to adjourn. The meeting was adjourned at 7:36 pm.

# 2023 Annual Report

*Grand Prairie*  
— T E X A S —  
PUBLIC HEALTH &  
ENVIRONMENTAL QUALITY

# OUR MISSION

## Public Health & Environmental Quality

advocates and ensures responsible health and environmental practices for the protection of human health and environmental health through monitoring, oversight, and education.

# WHAT WE DO

Item 4.

## Environmental Monitoring

PHEQ monitors the city's drinking water system, the wastewater system, streams, and air quality

## Vector Management

PHEQ traps mosquitoes and applies pesticides when necessary

## Inspections & Enforcement

PHEQ inspects restaurants, food manufacturers, food warehouses, public swimming pools, childcare facilities, industrial facilities, automotive facilities, and gas well production sites and enforces city, state, and federal codes

## Emergency Response

PHEQ responds to hazardous material spills to the environment, abandoned regulated materials, sanitary sewer overflows, and potable water discharges

## City Permits

PHEQ oversees various city environmental permits in regards to air quality, storm water, drinking water, wastewater, and regulated waste

## Public Education

PHEQ educates industrial and commercial facilities and provides health and environmental education and screenings/activities to residents

# Environmental Quality

---

Item 4.

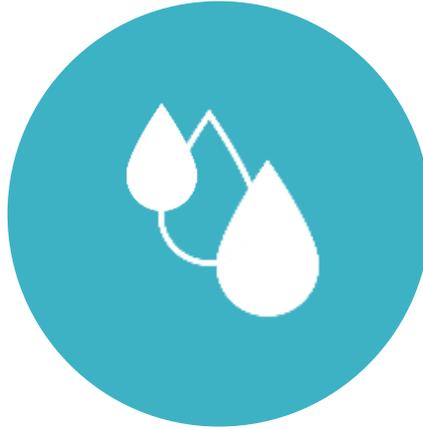

# Bacteriological Sampling

Drinking Water Program

Item 4.

Number of bacteriological samples collected

The City is required to collect a minimum of 120 samples each month for Total Coliform testing. Total coliform are useful indicator of other pathogens and are used to determine the adequacy of water treatment.

Percentage of Total Coliform positive samples

# > Nitrification Action Plan

Drinking Water Program

The purpose of the Nitrification Action Plan (NAP) is to identify normal operating conditions and monitor for signs of nitrification in the drinking water system. Nitrification is a microbial process that can have adverse impacts on the quality of drinking water. The NAP establishes trigger levels that indicate that nitrification may be likely to occur and directs actions needed to return the distribution system to desired operating conditions.

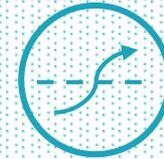

12

Sites sampled each  
week

424

Number of samples  
collected

4.7%

Percentage of samples  
exceeding trigger levels

# Cross Connection Control Program

Drinking Water Program

**6,136**

Number of backflow prevention assemblies tracked

**25%**

Increase over the last 5 years in number of assemblies tracked

**89%**

Compliance with annual testing requirement without need for enforcement

Item 4.

A cross connection is an actual or potential connection between the drinking water lines and potential sources of contamination. One way to eliminate backflow is with the installation of a backflow prevention assembly. Each year these assemblies must be tested by a licensed tester and the results submitted to the City.

# Industrial Pretreatment Program

Item 4.

The Industrial Pretreatment Program protects the wastewater treatment works from pollutants that may cause harm or interfere with operation and to protect the environment. This program regulates and monitors industrial wastewater discharged to the City's sanitary sewer system for compliance with local, state, and federal regulations. Additionally, facilities are inspected to ensure compliance with waste, air, and other requirements.

1,253

**Number of samples collected**

58

**Number of facilities sampled**

218

**Number of industrial inspections**

# Industrial Facility Inspection Program

Item 4.

Industrial Pretreatment Program

Machining and Metal Works

Plastics Manufacturing

Printing

Furniture/Wood Products Manufacturing

Food Manufacturing

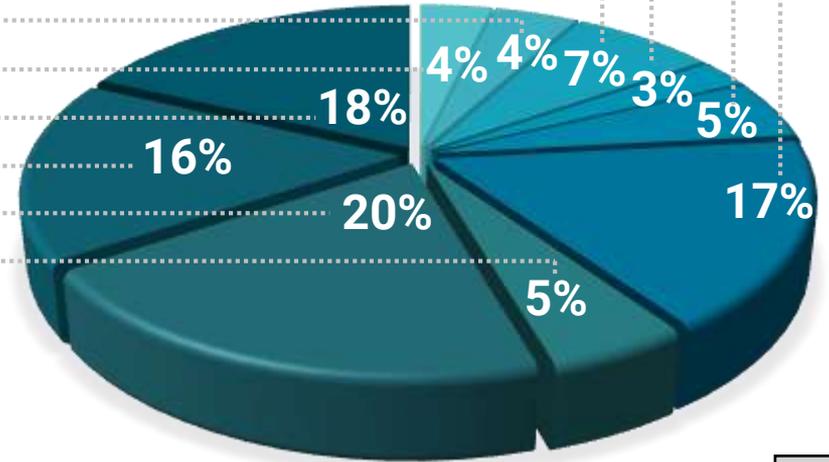

Construction

Repair Services

Wholesale/Distribution

Miscellaneous Manufacturing

Transportation/Aerospace

# Enforcement

Industrial Pretreatment Program

Item 4.

31

Total number of violations of discharge limits to sanitary sewer.

1

Total number of reporting violations from permitted facilities.

8%↓

Decrease in total number of violations.

1

Number of Significantly Non-Compliant facilities.

19

Number of facilities with no violations.

# Municipal Separate Storm Sewer System (MS4)

Item 4.

Stormwater Program

73

## Best Management Practices

As part of the City's MS4 permit, the City completed seventy-three BMPs that helped prevent or reduce discharges of pollutants

114

## Activities

There were one-hundred fourteen activities associated with the BMPs.

287

## Storm Drain Markers

Two-hundred eighty-seven "Don't Dump" storm drain markers were placed throughout the city as one of BMPs.

2

## Creek Clean-ups

The PHEQ staff performed two creek clean-ups in 2023 as part of the MS4 permit BMPs.

# Auto-Related Business Program

Stormwater Program

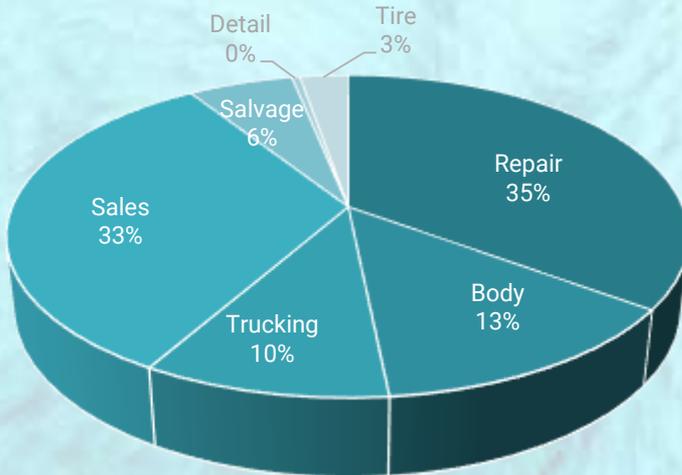

Item 4.

670

Inspections conducted

Auto Related Business Inspections by Facility Type

612

Auto-Related Businesses in Grand Prairie

118

Violations observed

35

Tires w/o rims violations – Most observed violation

46

Violations observed at repair facilities – Most cited facility type

# Stream Monitoring

Stormwater Program

Each month, PHEQ personnel sample 25 different stream sites located in various watersheds of the creeks located within the city including Bear Creek, Johnson Creek, Cottonwood Creek, and Fish Creek. Seven sites are part of the Clean Rivers Program (CRP). The overall goal of the CRP is to assess and improve the state's water resources. Through this program, PHEQ personnel provide quality-assured data to the TCEQ for decision making.

25

Stream sites sampled each month

300

Sampling visits made in 2023

2,100

Field measurements taken

# Household Hazardous Waste Program

Item 4.

Waste Program & Emergency Response

**1,192**

Total number of participants

**50,985**

Pounds of household hazardous waste collected at City-held events

**76.5**

Average pounds per person received during City-held events

# Emergency Response

Waste Program & Emergency Response

Item 4.

37

Number of emergency responses in 2023.

19% ↑

Increase in number of emergency responses from 2022 to 2023.

16

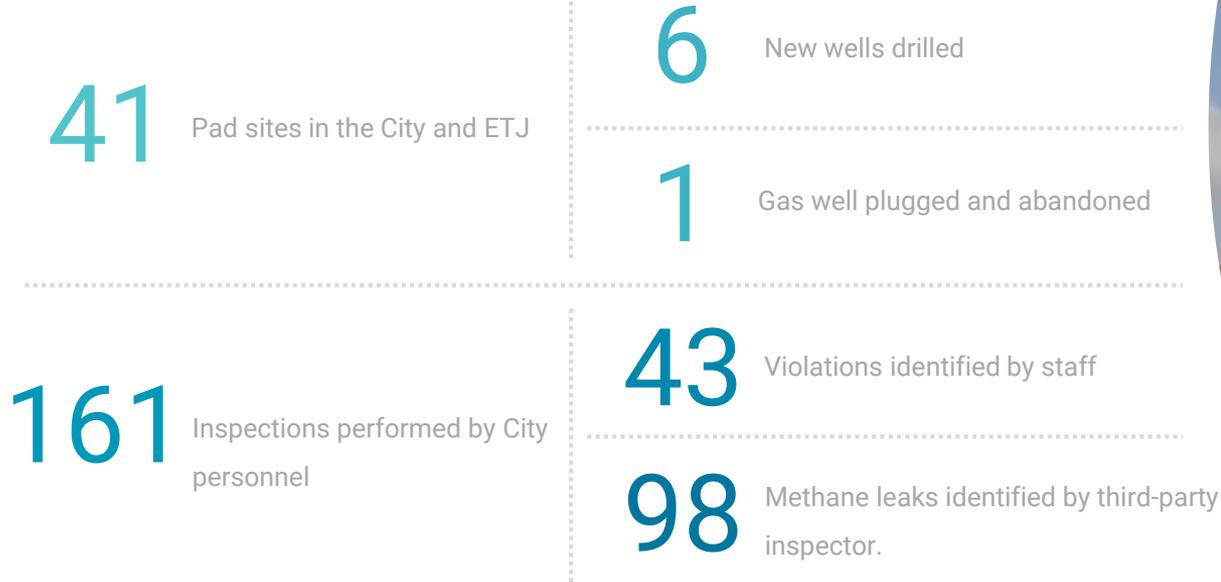

Number of afterhours responses in 2023.

The division responds to various emergency situations that involve a wide variety of environmental concerns. As was the case in previous years, fuel/oil spills were responsible for the majority of the hazardous material responses (16) in 2023.

# Gas Well Program

The Year At A Glance

Item 4.

## Water Well Permitting

# PUBLIC HEALTH

Item 4.

# Permitted Food & Alcohol Establishments

Item 4.

## Number of Permits

The number of active permits during 2023 was **2,089**.  
Some facilities have multiple permits.

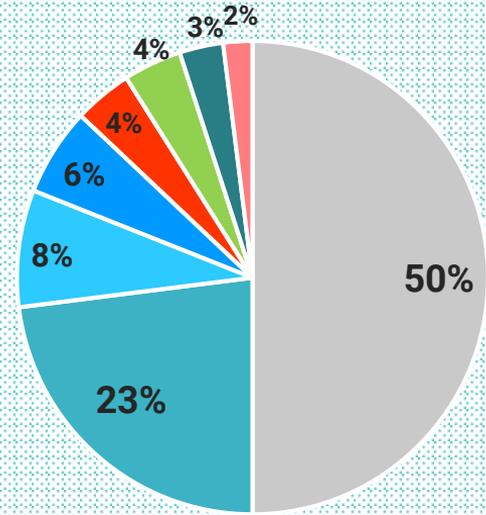

## Increased Number of Permits

During this period, a **6.6%** increase in the number of permits was observed in comparison with the previous year.

## 2023 Inspections

A total of **2,033** inspections were performed during this review period.

Food Service

Food Warehouse

School Cafeteria

Bakery/Deli

Grocery

Food Manufacturer

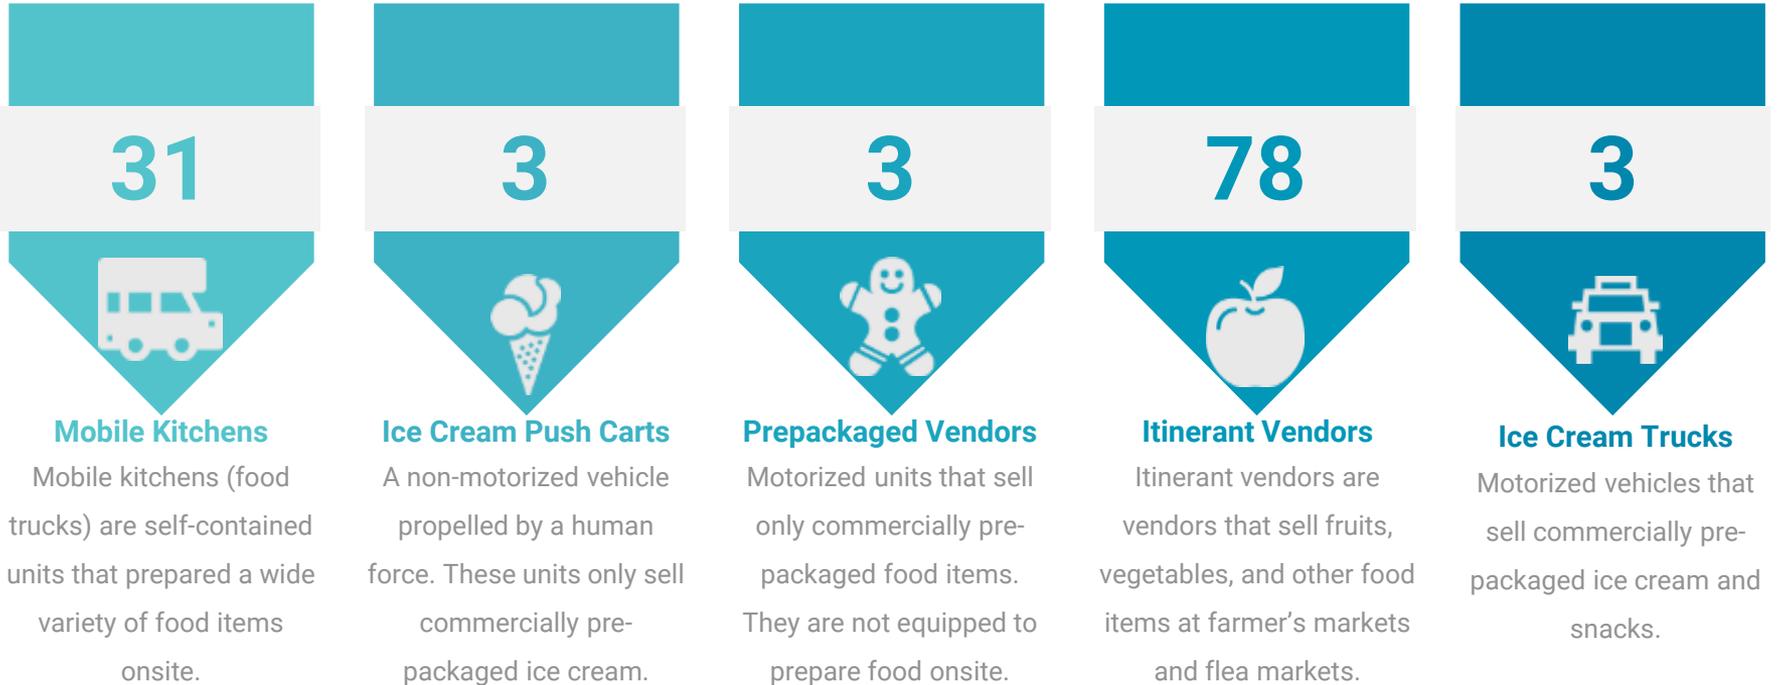

Drinking Establishment

Meat Market

# Mobile and Itinerant Vendors

Item 4.

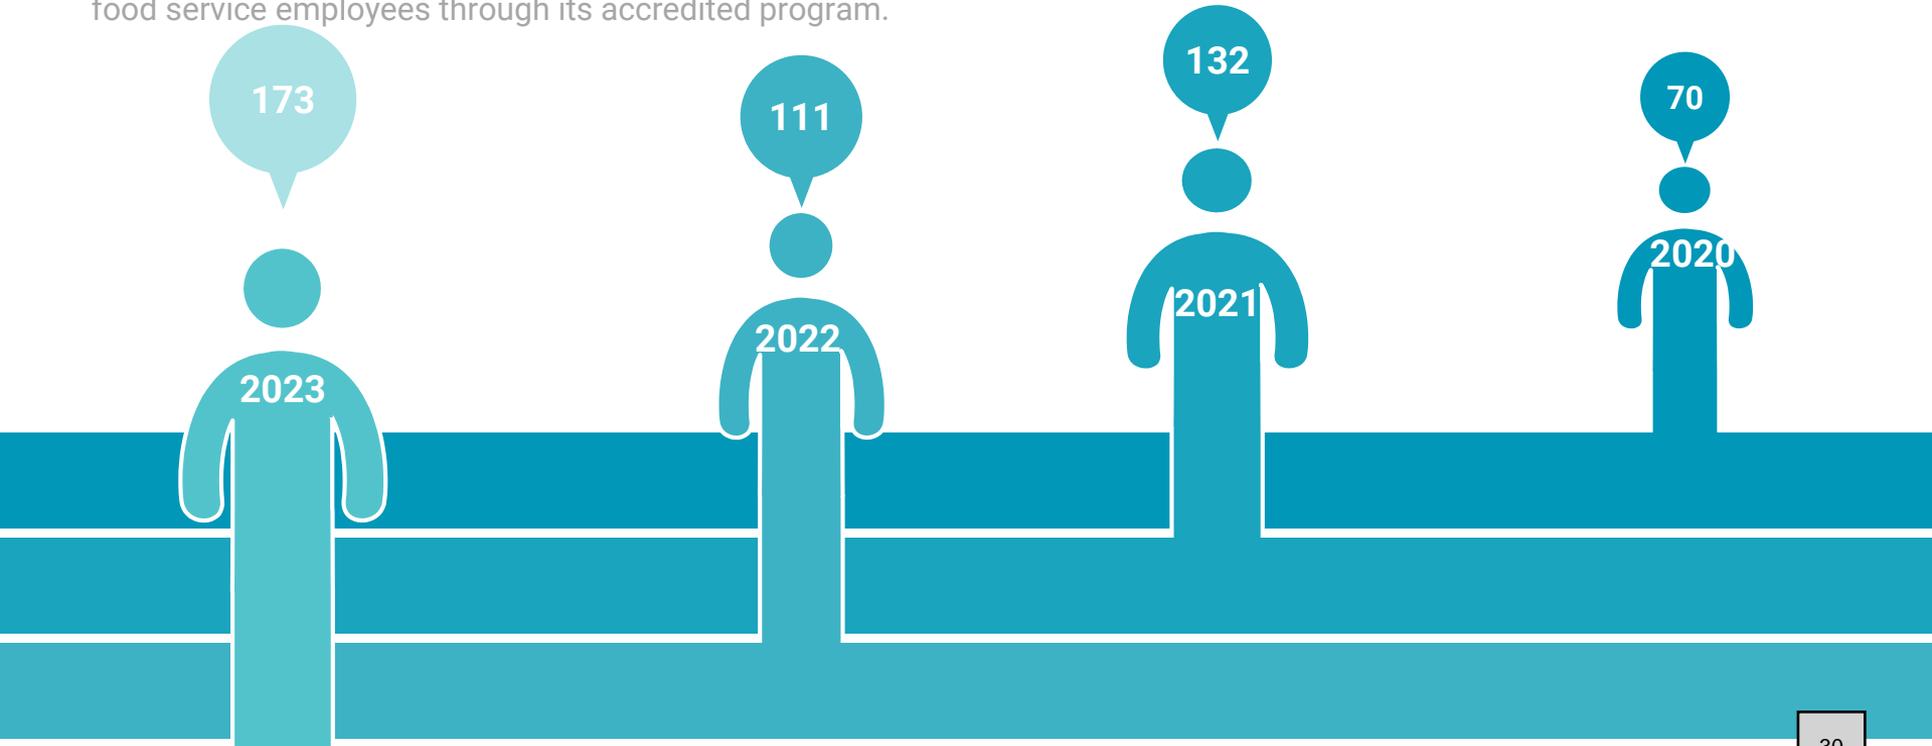

In 2023, 118 Permits were issued to mobile and itinerant vendors. This represents a 30.5% increase from 2022.

# Food Handler Cards Program

Item 4.

The program's main objective is the prevention of food borne diseases. This is accomplished by training and certifying food service employees through its accredited program.

Yearly comparison of food handler cards issued through the past 4 years

# Childcare Inspection Program

Item 4.

The Childcare Inspection Program inspects licensed commercial facilities and registered family homes.

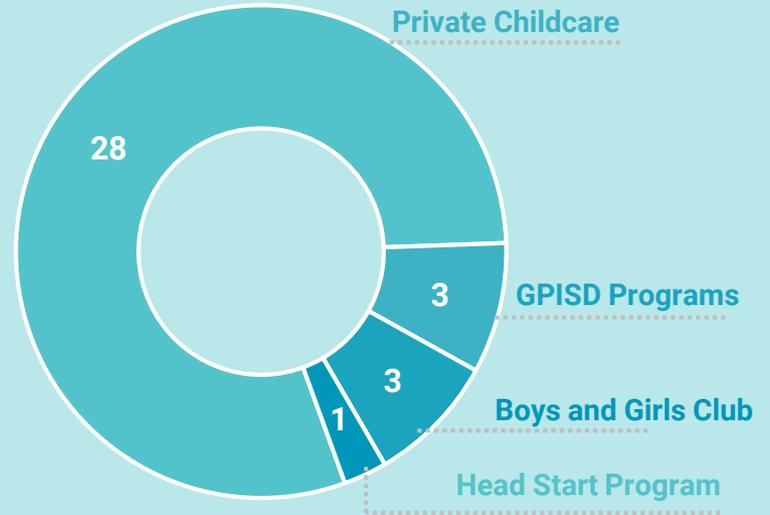

**Licensed Childcare Centers** are commercial establishments that provide care, supervision, training, or education to children less than 14 years of age.

**Registered Family Homes** are facilities that provide care for children in the caregivers' own residence. They may care for up to 12 children.

## Permitted Facilities

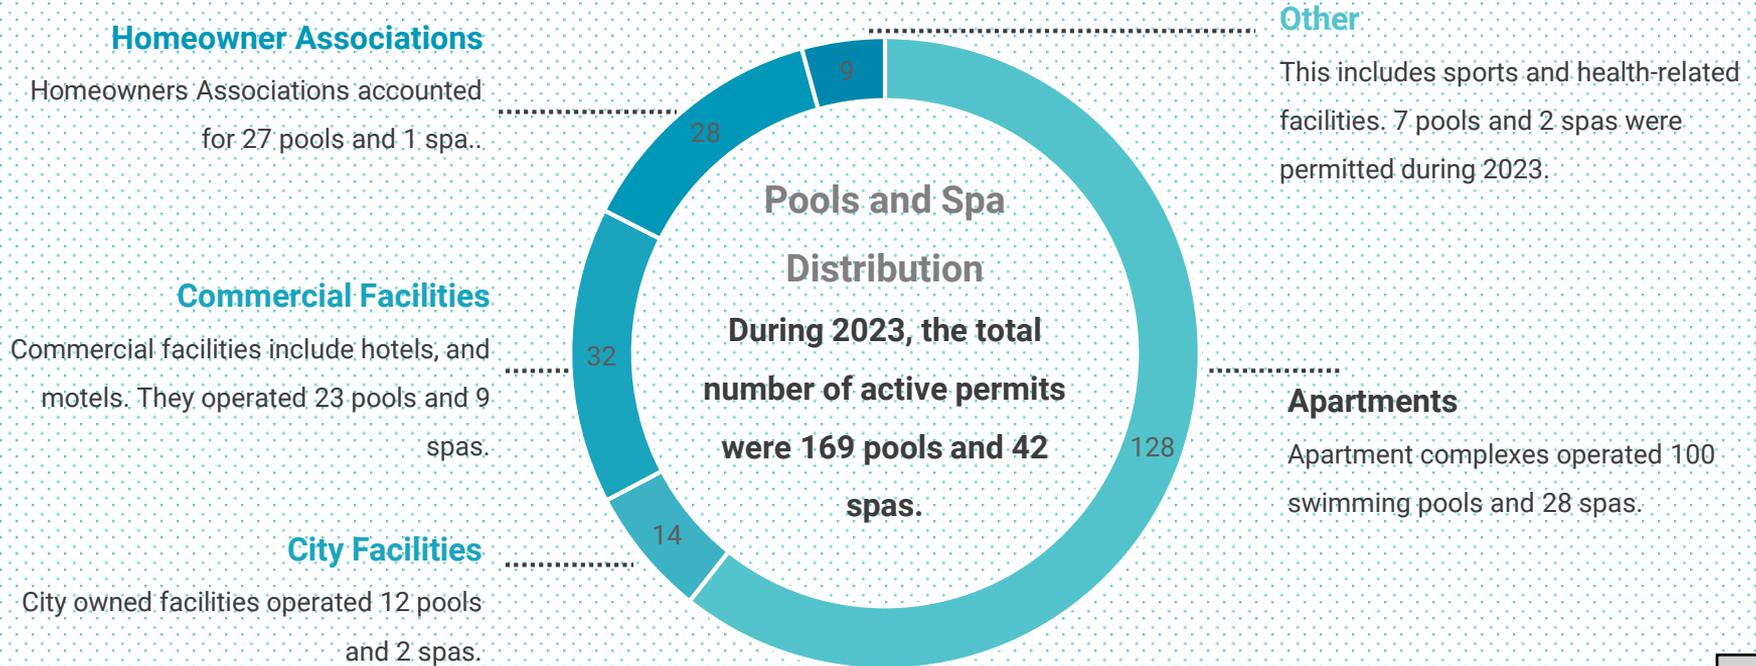

35 Licensed Childcare Centers  
26 Registered Family Homes

Licensed Childcare Centers

# Swimming Pools Inspection Program

The Swimming Pool Inspection Program is designed to ensure compliance with the Texas Department of State Health Services standards and the City of Grand Prairie Code of Ordinances.

# Mosquito Control Program

Item 4.

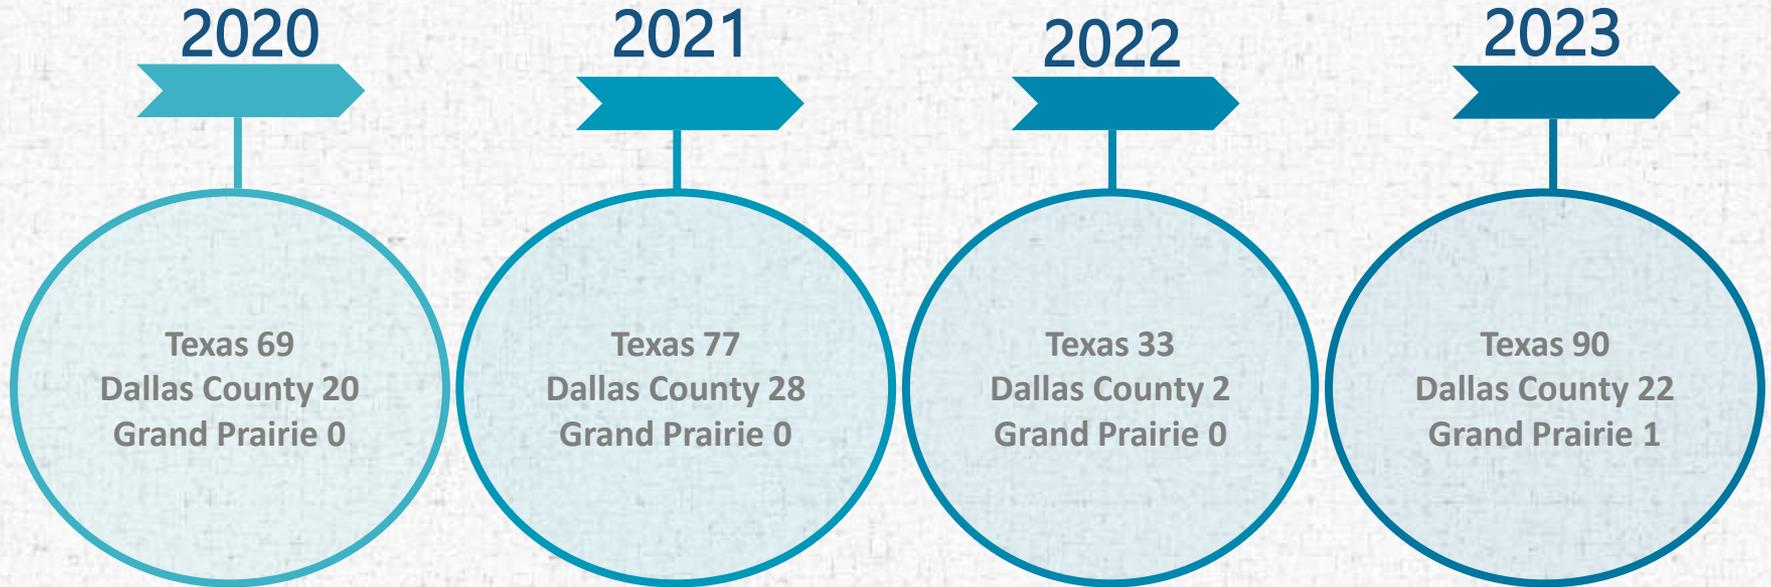

**Positive  
Mosquito  
Pools**

## Mosquito samples infected with West Nile Virus

**In 2023, PHEQ collected  
835 mosquito pools.**

# Human Cases of West Nile Virus Disease
