

Greeley City Council Agenda

Work Session

Tuesday, June 13, 2023 at 6:00 p.m.

City Council Chambers at City Center South, 1001 11th Ave, Greeley, CO 80631 Zoom Webinar
link: <https://greeleygov.zoom.us/j/86148461863>

NOTICE:

City Council Work Sessions are held on the 2nd and 4th Tuesdays of each month in the City Council Chambers. Meetings are conducted in a hybrid format, with a Zoom webinar in addition to the in person meeting in Council Chambers.

City Council members may participate in this meeting via electronic means pursuant to their adopted policies and protocol.

Members of the public are also invited to view Council work sessions in person or remotely. **Work sessions do not include public input in any format. Public comment is only permitted at regular Council meetings on the 1st and 3rd Tuesdays of each month.**

Watch Meetings:

Meetings are open to the public
And can be attended in person
By anyone.

Meetings are livestreamed on YouTube at
[Youtube.com/CityofGreeley](https://www.youtube.com/CityofGreeley) as well as
Over the Zoom webinar. Public participation
In the Zoom webinar only allows viewing
The meeting.

For more information about this meeting or to request reasonable accommodations, contact the City Clerk's Office at 970-350-9740 or by email at CityClerk@Greeleygov.com

Meeting agendas, minutes, and archived videos are available on the City's meetings portal at [Greeley-co.municodemeetings.com/](https://greeley-co.municodemeetings.com/)

Work Session Agenda Summary

June 13, 2023

Key Staff Contact: Juliana Kitten, Assistant City Manager

Title:

Update on current status of Homelessness and Health in the City of Greeley

Background:

This summary is to provide the current status of the homelessness and health within the City of Greeley to provide context for the larger strategic plan coming before Council in a work session on July 25, 2023

Strategic Focus Area:

Housing for All

Continuum of Care

City Council Presentation

City of Greeley

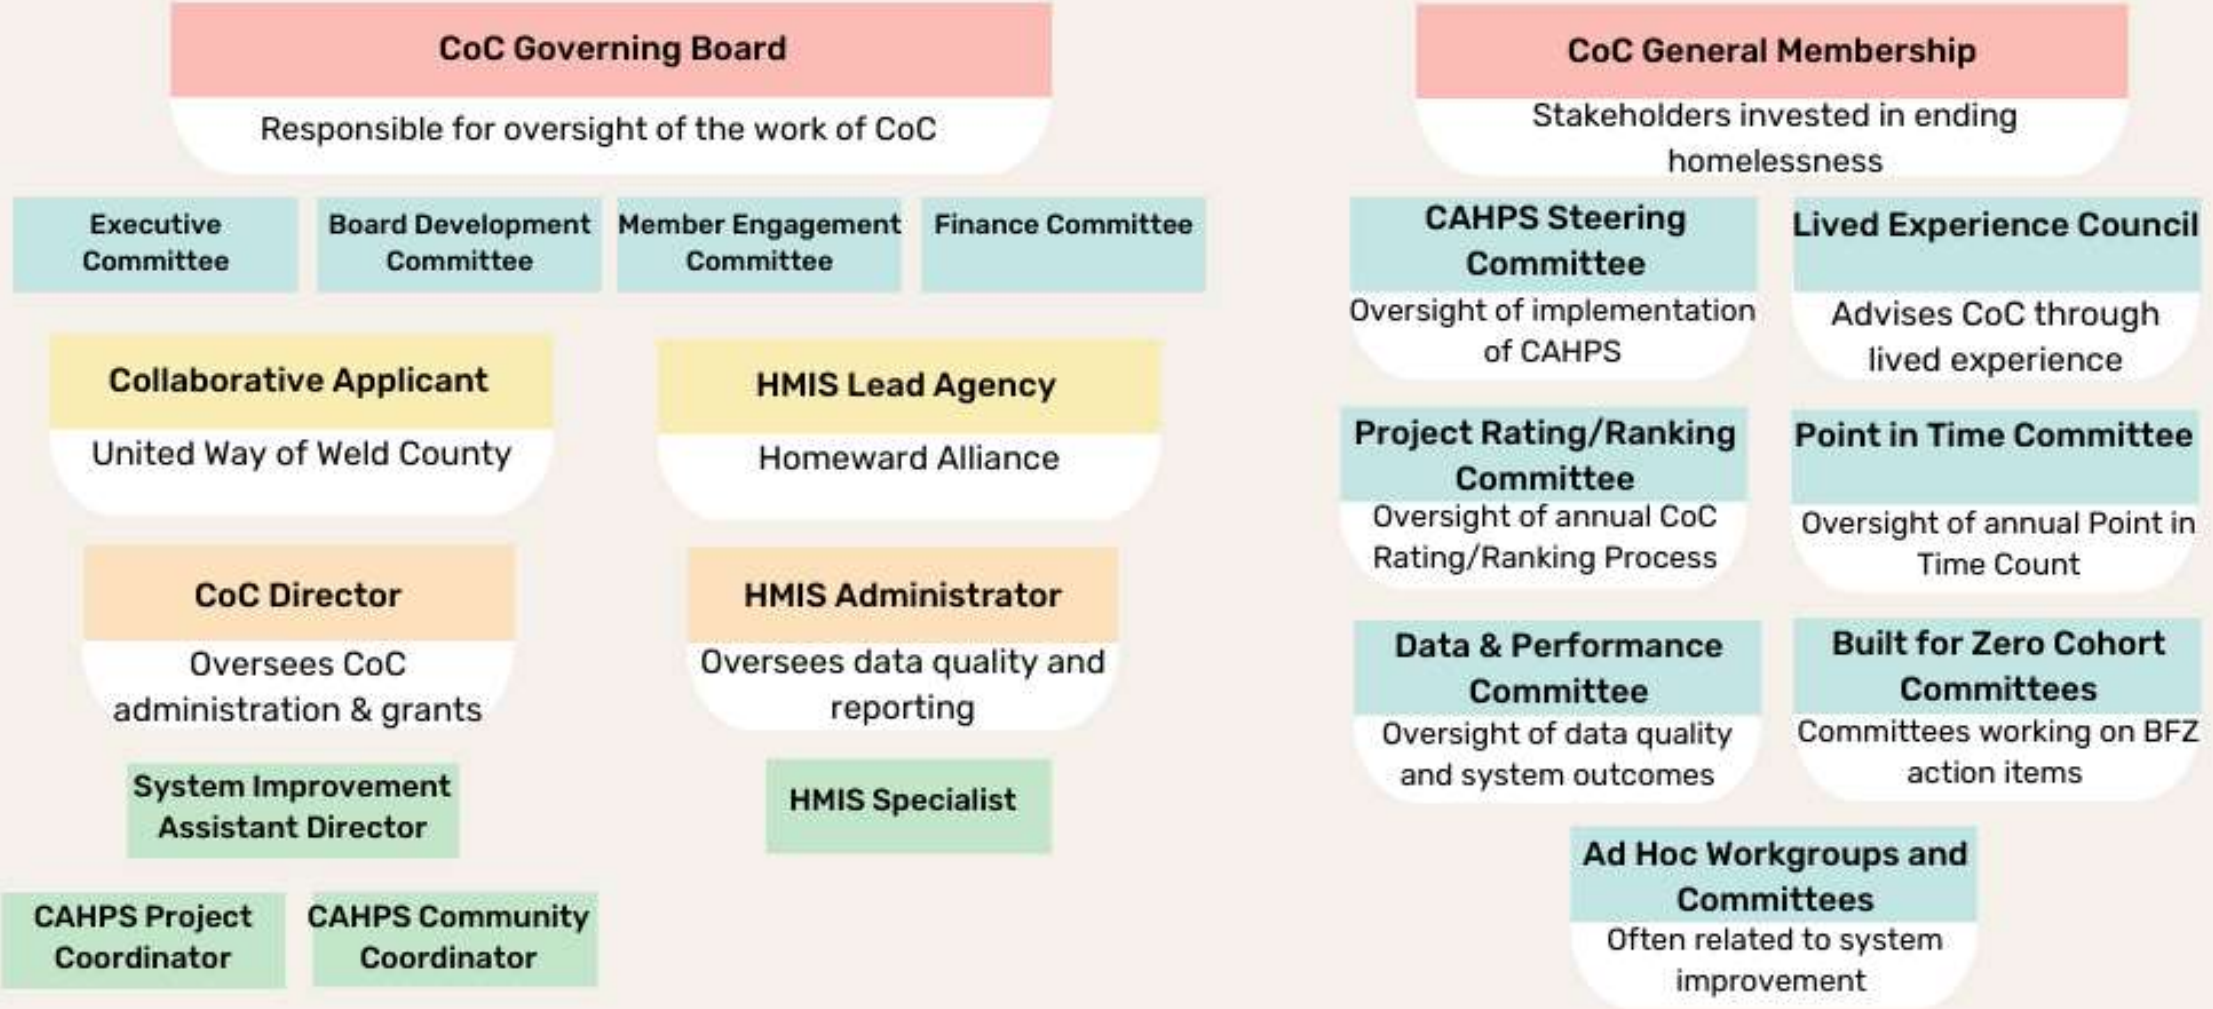

6/13/2023

What is the NoCO CoC?

- A Continuum of Care is a federally determined region responsible for organizing & coordinating a community's response to homelessness
 - Region: Larimer & Weld Counties (Northern Colorado CoC)
- Key goals of NoCO CoC
 - Aligning strategies across region to address homelessness
 - Ensuring comprehensive, quality data
 - Homeless Management Information System (HMIS)
 - Effective Housing Placements
 - Coordinated Assessment Housing Placement System (CAHPS)

NORTHERN COLORADO CONTINUUM OF CARE

Understanding Homelessness Data

- Point in Time Count
 - Snapshot count of sheltered and unsheltered individuals in our CoC, one night per year at the end of January
- Homeless Management Information System (HMIS)
 - Free shared database platform for homeless service and housing providers to collect client-level records
 - Allows for collection and analysis of homeless data across programs/agencies
 - Useful for understanding need, gaps, outcomes, demographics, etc.

Greeley Data

- Point in Time Count - January 24, 2023

- 308 Individuals Counted in Greeley/Evans
 - 220 Sheltered; 88 Unsheltered
 - 71% Sheltered
 - 29% Unsheltered
 - 62 Chronically Homeless*, 56 Children

Three Months Later, 9 Days After Closure of Cold Weather Shelter

- HMIS Report from April 24, 2023

- 462 Unduplicated Individuals Enrolled in Homeless Service Programs in Greeley/Evans
 - 81 in Shelter Programs (61% of which are children)
 - 381 Presumed Unsheltered*
 - 17.5% Sheltered
 - 96 Chronically Homeless; 68 children

Data – Deeper Dive

Comparing PIT Count with HMIS Real Time Data

Cold Weather Shelter Closed 4/15/23

Point in Time Count – 1/24/23
 71% - Sheltered
 29% Unsheltered

HMIS Report – 4/24/23
 Shows 50% increase from PIT Count #s
 17.5% - Sheltered
 82.5% Unsheltered

Housing Resources

- There are some permanent housing resources that are specifically designated to people experiencing homelessness
 - Vouchers
 - Rental assistance programs with case management
 - Permanent supportive housing units
- Every month, on average, there are 4-5 housing total resources available to refer someone across Larimer/Weld
- When *new* housing resources come into the system, we can see a positive shift the number of people housed

City of Greeley's Update on HOMELESS Initiative

Dept. of Housing and Homeless Solutions

GOALS for COG's Homeless Initiatives

- Demonstration of Best Practices When Implementing An Intensive case-management Team using the Housing First model
- House 60 people who have the highest level of needs, including unsheltered homelessness, and revolving through the crisis systems
- UNC's social research lab will conduct a two –year cost benefit analysis (this has started)

Metrics of success

DECREASE USE OF CRISIS SERVICES

- Decrease Use of Ambulance Services on avg 30% per person after 1 year of Housing
- Decrease Rates of Incarceration by 30% on average after 1 year of Housing

STABLE HOUSING

- 85% of people served will maintain stable housing after 1 year
- 30% will have reconnected with family after 1 year
- 25% will have looked for work or volunteer, or some type of meaningful activity after 18 months

INCREASED HEALTH ACTIVITIES

60 % will be established and have had 1 primary care visit within the 1st year

35% of clients with a mental health issue, will have established services with a mental health provider within 18 months

Status as of 6/5/2023

- All team members hired, 3/4 completed dept level orientation and are field, the last three are in that process
- 27 of 61 clients enrolled
- 3 people have been housed
- 15 people are in bridge housing
- 26 people have completed documentation and are in process, 9 of these have been approved and are actively looking for apartments

Additional Goals

- Work with Community Partners focusing on outcomes and results
- Work with Community Partners – to increase:
 - Rental Subsidies/ Housing Opportunities
 - Case management Services
 - Outreach
 - An Emergency Low Barrier 365/ 24/7 Shelter
- Enhance Partnerships with the Housing Authority, County Colleagues, Regional HUD Offices, and Federal Partners

The above are operationalized in the City's larger Strategic Plan for reducing homelessness – this will be presented at July 25th work session

Thank you

Work Session Agenda Summary

June 13, 2023

Key Staff Contact: Doug May, Planner III; Community Development

Title:

Council Initiative 06-2023: Comparative Analysis of Standards for Artificial Turf

Background:

On March 21, 2023, Council adopted Initiative 06-2023, directing staff to investigate comparative zoning regulations and standards for artificial turf installations in residential front yards, research landscape code, and provide updates on the alternatives for water conservation. The attached summary memo and presentation reports staff findings and a recommendation.

Strategic Focus Area:

Community Vitality

Attachments:

Summary Staff Memo
Presentation

DATE: June 13, 2023

TO: City Councilors

FROM: Doug May, Planner III; Community Development Department

RE: Council Initiative 06-2023: Comparative Analysis of Standards for Artificial Turf

Greetings:

Council Initiative #06-2023 seeks to review current standards for artificial turf and identify whether a Development Code amendment should be made to allow artificial turf to be used as a landscape component in front yards and yards visible from public rights of way.

Currently, pursuant to Greeley Development Code Section 24-802, Table 24-8-1, up to 50% of any landscape area may consist of inorganic (non-living) decorative material such as river rock, colored pea gravel, boulders, pavers, or similar natural material, provided it is designed and arranged in a way that can infiltrate runoff through associated planting areas. Artificial turf is only acceptable as ground cover for areas not visible from public rights of way and streets--and may be subject to other engineering specifications such as grading or drainage plans.

Staff performed an analysis of peer communities in our region to gather information regarding artificial turf regulations. The analysis consisted of the following communities: Fort Collins, Loveland, Longmont, Windsor, Aurora, Northglenn, Erie, and Thornton. The majority of these municipalities' development codes did not specifically address artificial turf in residential applications. It can be deduced that artificial turf in residential applications is not common enough at this point to warrant regulations around this topic. Only one municipality, Aurora, explicitly allows artificial turf in residential front yards with the stipulation that at least 50% of the front yard be living plant material. The Greeley community has determined through its Development Code that artificial turf is not an appropriate landscape feature in front yards and yards visible from public rights of way. Allowing artificial turf in these areas could create possible code enforcement issues. Additionally, to ensure that artificial turf is installed correctly and to ensure that it meets the Development Code requirements of living versus inorganic plant material, City staff would need to provide a review of each artificial turf installation in residential applications.

In addition to peer city research, staff also analyzed data regarding water demands, costs, and other environmental issues. While artificial turf reduces the demand for water, it does not eliminate it. Water is still needed to flush pet waste, clean/disinfect the turf surface, and cooling due to heat effects. Additionally, the estimated costs of artificial turf compared to water-wise

landscaping and traditional turf are higher. The table below outlines estimated costs and lifespan of artificial turf compared to living plant material:

	Install costs/sq. ft	Lifespan	1,000 sq. ft/install	Water cost
Artificial Turf	\$6.00-\$15.00+	5-10 years	>\$6,000	\$0+?
Water-wise	\$0.80-\$5.00	20+ years	>\$800	\$49
Traditional Turf	\$1.35-\$2.40	20+ years	>\$1,350	\$108

In terms of environmental impacts, according to a 2022 report from Western Water Advocates, artificial turf releases harmful chemicals into the groundwater. Additionally, because artificial turf is an impervious surface, it has potential stormwater impacts. Finally, artificial turf increases energy and greenhouse gas emissions as illustrated in the table below:

	Pounds of CO2 Emissions	Cars on the road/year	Miles driving a gas car	Trees needed to plant to off-set
Artificial Turf	1,161,824	117	1,350,990	8,714
Traditional Turf	257	0.026	299	1.9

Considering the life cycle costs, variability in installation quality, potential negative environmental impacts, as well as the potential need for a new review processes for individual residential landscape plans, staff advances the following recommendation.

Staff Recommendation: In residential applications, maintain the current standard of requiring 50% of all open space to be living material. Continue to disallow artificial turf in front yards and yards visible from the public rights of way, as well as commercial applications.

ATTACHMENT A: Greeley Development Code
Title 24, Chapter 8 “Landscape Design”
Section 24-202.b. “Planting Requirements”

Table 24-8-1		
Site Element	Trees	Evergreen Trees
Other. All other unbuilt or unpaved areas of a site.	<p>All other unbuilt or unpaved areas of a site shall require ground cover, perennials, grasses, rock, mulch, or other natural and permeable surfaces.</p> <p>Up to 50% of any landscape area may consist of inorganic (non-living) decorative material such as river rock, colored pea gravel, boulders, pavers, or similar natural material, provided it is designed and arranged in a way that can infiltrate runoff through associated planting areas.</p> <p>Artificial turf is only acceptable as ground cover for areas not visible from public rights of way and streets and may be subject to other engineering specifications subject to grading or drainage plans. Native grass or native grass seed shall be planted in detention and retention ponds and areas not highly trafficked by pedestrian activity.</p>	

Artificial Turf

6/13/2023

Background

Current Greeley regulations regarding artificial turf (Section 24-802):

- **Up to 50% of any landscape area may consist of inorganic (non-living) decorative material** such as river rock, colored pea gravel, boulders, pavers, or similar natural material, provided it is designed and arranged in a way that can infiltrate runoff through associated planting areas.
- Artificial turf is only acceptable as ground cover for areas not visible from public rights of way and streets and **may be subject to other engineering specifications such as grading or drainage plans.**
- Native grass or native grass seed shall be planted in detention and retention ponds and areas not highly trafficked by pedestrian activity.

Findings

1. Peer City Regulations
2. Turf considerations and quality
3. Economics
4. Water Demands
5. Environmental Considerations
6. Staff Recommendation

Peer City Research

- Fort Collins
- Loveland
- Windsor
- Thornton
- Longmont
- Aurora
- Northglenn

Peer City Research

Jurisdiction	Allowed in Front Yards	Reference	Notes
Fort Collins	No code info/silent		
Loveland	No code info/silent		
Longmont	No code info/silent		
Windsor	No code info/silent		Required amount of living material in front yard
Aurora	Yes	Section 4.7.3.B.11	50% of the front yard must be living material
Northglenn	No code info/silent		
Erie	No	Section 10.6.4.F	
Thornton	No	Section 18-542	Not allowed in front yards or yards visible from

Research Takeaways

1

Most cities have not **yet** addressed artificial turf

2

The Greeley community has determined that artificial turf is **not appropriate in front yards**

3

Existing regulations **require minimum living material, 50% or greater**

Artificial Turf Considerations

- May reduce landscape water demands
- Various degrees of costs
- DIY to professional installation
- May have significant environmental drawbacks

Benefits of Synthetic Lawns

1

Uniform Appearance

2

Lower Water Consumption

3

Reduced Maintenance

Variable Quality and Life Expectancy

1

Inappropriate installation

2

Improper installation

3

Phased installation/replacement

Life Cycle Concerns

1

Unmitigated Wear

2

Site Drainage Issues

3

Poor Aesthetics

Economics

	Install costs/sq. ft	Lifespan	1,000 sq.ft/install	Water cost
Artificial Turf	\$6.00-\$15.00+	5-10 years	>\$6,000	\$0-?
Water-wise	\$0.80-\$5.00	20+ years	>\$800	\$49
Traditional Turf	\$1.35-\$2.40	20+ years	>\$1,350	\$108

Water Demands

- Flush pet waste
- Pet odor issues
- Cooling needed due to heat effects
- Disinfect artificial turf

	Water needs/1,000 sq.ft/year
Traditional Turf	20,000 gallons
Water-wise Turf	8,000 gallons
Artificial Turf	?? gallons

Environmental

- Harmful chemical releases- ([Western Water Advocates 2022 Report](#))
- Potential stormwater impacts
- Increased waste stream impacts
- Increase energy and greenhouse gas emissions

	Pounds of CO2 Emissions	Cars on the road/year	Miles driving a gas car	Trees needed to plant to off-set
Artificial Turf	1,161,824	117	1,350,990	8,714
Traditional Turf	257	0.026	299	1.9

Sources

1. Magnusson, S. and Macisk, J., *Analysis of energy use and emissions of greenhouse gases, metals and organic substances from construction materials and used for artificial turf*, Resources, Conservation and Recycling, v 122 (July 2017).
2. Milesi, C. et al., *A strategy for mapping and modeling the ecological effects of US lawns*, Environmental Management, c 36 (2005).
3. U.S. Environmental Protection Agency, *Greenhouse gas equivalencies calculator* (April 2023)

Things to consider

- Could save water costs
- Environmental impacts – CO2, microplastics, etc.
- Stormwater control
- Installation, maintenance, and life cycle costs

Recommendation

In residential applications, maintain the current standard of requiring 50% of all open space to be living material. Disallow artificial turf in front yards and yards visible from the public rights of way, as well as commercial applications.

Questions?

Work Session Agenda Summary

Title

Scheduling of Meetings, Other Events

Summary

During this portion of the meeting the City Manager or City Council may review the attached Council Calendar or Work Session Schedule regarding any upcoming meetings or events.

Status Report of Council Initiatives

Initiative No.	Council Member Initiating	Council Request	Council Meeting or Work Session Date Requested	Status or Disposition (After completion, item is shown one time as completed and then removed.)	Next Steps & Schedule	Anticipated Deliverable & Date (Report, Council Presentation, etc.)	Assigned to:
15-2021	Olson	Formation of a committee for implementation of a funding strategy for the 35th and 47th interchanges.	December 7, 2021 Council Meeting	Councilmember Olson will be following up with Manager Lee and Director Trombino on next steps Staff preparing a revised funding application for the next cycle of USDOT Grant Funding expected to be available in May 2023.	Pending outcome of federal grant application submitted	Next grant application expected May 2023	Paul Trombino
09-2022	Butler	Review traffic and safety surrounding 15 acre open area between 71st Avenue and 8th Street	June 7, 2022 Council Meeting	Requested that Public Works review the traffic and to improve safety in this congested area. In late 2022, Public Works Staff installed additional signage to improve safety and line of sight issues caused by parked cars. Furthermore, GPD with the help of Public Works have identified key times to enforce both speeding and stop sign compliance. City staff along with School District 6 and Westridge Academy held a public meeting with the neighborhood on January 26th, 2023. During this meeting we heard feedback regarding traffic safety and development concerns. This feedback is being used to develop solutions to address identified traffic safety concerns. These potential solutions will be brought back to the neighborhood to garner feedback prior to moving forward with the installation of identified improvements.	Additional signage installed for traffic and parking. Staff worked with School District, builder and GPD to ensure road is passable for school buses. GPD will focus enforcement times to ensure compliance with posted speed limit. Staff developing neighborhood safety improvement options and working with School District on transportation issues to improve coordination and support related to safety and infrastructure around school sites.	Anticipate providing council an update on the next neighborhood meeting and safety improvements by late summer 2023	Paul Trombino

01-2023	Butler	Costs and feasibility study of translation services for agendas and meetings	January 3, 2023 Council Meeting	Request staff research the costs and feasibility of translating the agenda, agenda packet and live streamed meetings in other languages? Is Spanish the predominant language for translation or are other languages also appropriate? CCO is almost finished gathering the costs connected to having an in-person translator at council meetings, along with options for agenda translation services. C&E has supplied the information needed about the percentage of Spanish speaker in the community. Next Steps: Provide a written summary and recommendation to council by end of March. *April 12, 2023	CCO to work with C&E to gather statistical information for report.	CCO to provide a written report or Work Session Report on 7/25/23	City Clerk's Office/Communication & Engagement
