Citizen Input

Summary

During this 15 minute portion of the meeting, anyone may address the Council on any item of City Business appropriate for Council consideration that is not already listed on this evening's agenda. Individual comments read into the record will be limited to 3 minutes and must include the name and address of the person submitting the comments for the record.

Council Agenda Summary

Title

Approval of the Agenda

Items 15 and 16 on the agenda are interrelated. The City Council's Policies & Protocols prescribe the ordinary order of the agenda for Council meetings, as well as when the public can address the Council. There is a need to act on these items in an order opposite of how they appear on the regular agenda to consider the resolution for the Purchase, Sale and Raw Water Credit Administration Agreement (Terry Ranch) prior to the final reading of the ordinance amending Chapter 6 Title 14, concerning the dedication of raw water for City water service.

There is also a desire to allow public comment on the resolution prior to its consideration. Therefore, it is recommended items 15 and 16 be heard together by the Council, with a presentation by staff on both items before the public hearing is opened. To accommodate public comment on the resolution as well, the public hearing will allow comment on both the ordinance as well as the resolution. At the conclusion of the presentation and hearing, if Council is prepared to act on these items, a motion first on item 16 would be in order, followed by action on the ordinance in item 15.

4. COVID-19 Update

Dan Frazen, Emergency Manager, reviewed the most current statistics on COVID-19 and referenced the new State dial shared by the Governor. He also shared that staff and residents at long-term care facilities are expected to have the vaccine by February 18th. He reviewed the four metrics and statistics that have put us in yellow on the statewide dial and noted that we have to remain there for 7 days.

With regard to the Five Star Program, Emergency Manager Frazen reported that 70 percent of the age 70+ population needs to be vaccinated before businesses can operate in blue on the statewide dial, which is the next level up from yellow, and that we are at about 57 percent currently.

He went on to highlight the new data links added in his report within the employee dashboard for employees and facility occupancy. He advised that soon, the data will be shared daily with everything in one place, and until that happens, these Tuesday reports to Council will happen.

In response to a question from Council Member Butler, Emergency Manager Frazen advised that for the new metric, the second vaccine is the metric for hitting the 70 percent mark.

Council Member Fitzsimmons reported that he received his second vaccine with no reactions and encouraged everyone to get vaccinated.

Anissa Hollingshead, City Clerk, provided additional information on the Five Star Program and emphasized that this is a valuable program with benefits to businesses for applying and becoming certified.

5. Reports from Mayor and Council Members

Council Member Hall reported that the Colorado School of Mines is undertaking a project gathering ideas for the Poudre River Trail Narrows Project. Ideas from those engineering students will be shared soon.

Council Member Clark asked for more information about the \$93,000 that would be used to increase the ability for folks to get into the Recreation Center and Funplex to work out and use these facilities.

Roy Otto, City Manager, reported that staff will move forward in this regard and monitor how many people are using the facility, as well as monitor the budget for any needed supplemental appropriations. He added that additional hours will begin March 1st at the Recreation Center.

6. 2020 Year-end CIP Report

Joel Hemesath, Public Works Director, reported that staff in the Public Works, Water & Sewer, and Culture, Parks & Recreation Departments (CPRD) work together each month on an internal committee called the Capital Projects Committee (CPD) to coordinate capital improvement projects (CIP). He noted that this work consists of five-year planning, budget status updates, and coordination of projects to minimize disruption to areas, debriefing on projects, and training.

Together with Andy McRoberts, Culture, Parks & Recreation Director, and Adam Pryor, Chief Water & Sewer Engineer, Mr. Hemesath proceeded to review the report and offered a status of all major capital projects within Public Works, CPRD, and Water & Sewer, highlighting that the CIP budget totaled \$161,762,184 for 138 different projects.

7. Household Occupancy Standards

Brad Mueller, Community Development Director, reported that single-family zoning became prominent in the suburban housing boom of the 1950's and 1960's. Greeley first limited the number of unrelated adults allowed to share a single-family dwelling in 1966 and the number of unrelated adults allowed to share housing has been adjusted over time.

He introduced Caleb Jackson, Planner, who shared that the current standard of "you plus one" allows no more than two unrelated adults to share a single-family dwelling in

low-density areas and dates back to 1980. The increasing cost of housing in Greeley is increasing pressures for Greeley fair market rent and median sales prices for housing.

Planner Jackson reviewed standards set by peer communities and considerations. He noted that the Housing Task Force, Code Advisory Committee, the Planning Commission and the public offered feedback through a survey and found that there seems to be a desire to slightly increase the number of unrelated people in a single-family dwelling.

Planner Jackson reviewed options for Council to consider which included everything from maintaining the status quo or increasing the number based on the number of bedrooms, house size, etc.

Director Mueller shared that the goal is to get some consensus or general direction about Council's preference on this which will give staff the benefit of being able to provide Code updates and frame the issues around small lot formatting, accessory dwelling units, etc.

Council Member Clark expressed that he would not be in favor of increasing the "you plus one" designation since it is not enforceable. He added that he would not be supportive of creating those kinds of impacts to neighborhoods.

Council Member Hall shared his concern that there seems to be a disparity between related and unrelated status noting that "you plus one" is too restrictive and any number of unrelated people is too lenient. He did state that tying it to the number of bedrooms is intriguing and that it might be a good compromise.

Council Member Butler expressed agreement with Council Member Hall that tying it to the number of bedrooms does seem like a good compromise and also agreed that "you plus one" is unenforceable.

Council Member Zasada shared that she is on a mission to protect single-family zoning, and the "you plus one" designation. She stated that the issue is packing multiple tenants inside a house. She would support a small movement or an increase in other zoning areas like Residential High Density (R-H) or Residential Medium Density (R-M), but not Residential Low Density (R-L).

Council Member Payton stated that this has been discussed for many years and noted that there is only a problem when neighbors complain. Director Mueller agreed and added that there is not any ability currently to actively enforce in neighborhoods.

Council Member Payton stated that he is in favor of some change, and that this is worth additional investigation.

Council Member Fitzsimmons stated that he would like to know more about other communities that have increased from "you plus one" before a decision is made here. He added that what is really needed is enforcement, so change plus enforcement is needed for it to work.

Conversation ensued about related and unrelated people in neighborhoods and the impacts of each on a neighborhood.

Director Mueller advised that some geographic considerations could also be devised, like other communities have done.

Council consensus was reached on staff recommended option C.

Director Mueller emphasized that this discussion helps staff and noted that this is not a one and done deal. Public hearings and presentation to the Planning Commission may bring forth some new information to consider. There will be more opportunity to tie this together that hopefully meets policy goals when it comes back to Council in September.

Council Member Zasada offered that as staff looks more at the number of bedrooms, to consider both conforming and non-conforming uses.

8. Scheduling of Meetings and Other Events

City Manager Otto noted that there were no additional meetings or events scheduled.

9. Adjournment

There being no further business to come before the Council, the Worksession was adjourned at 7:10 p.m.

Consideration of a resolution authorizing the transfer of \$150,000 in Airport Improvement Funds from the Greeley-Weld County Airport to Monte Vista Municipal Airport

Summary:

As with other similar entities, the Greeley-Weld County Airport is entitled to access certain funds from the US Department of Transportation, Federal Aviation Administration (FAA). As part of an Airport Improvement Program (AIP) Agreement for Transfer of Entitlements, local airports that do not intend to use their full entitlements in a given year may release or transfer their annual entitlements to another eligible airport that does have a pending project. Greeley-Weld Airport was a beneficiary of such a transfer in 2015 for the design of the Runway 17-35 rehab project. The City has regularly approved previous reciprocal requests of a similar nature. The City approved a similar transfer to Wray Municipal Airport in 2019 and Holyoke Municipal Airport in 2020.

With this request, Greeley-Weld Airport would transfer its entitlement of \$150,000 to the Mote Vista Municipal Airport. Such a transfer requires approval from each of the legal governing entities of the Greeley-Weld Airport (City of Greeley, Weld County, and the Greeley-Weld Airport Authority).

Greeley City Council
1000 10th St

Council Members,

I am requesting that the Greeley City Council vote to transfer Greeley-Weld County Airport's 2021 FAA entitlement funding to Monte Vista Municipal Airport. These entitlement funds are granted to the Greeley-Weld County Airport on an annual basis for various airport improvement projects. As part of our future planning we elected lump multiple years of entitlements together as part of our federal match for our upcoming Runway 10/28 rehabilitation project. Since we cannot hold onto FAA entitlement funding for more than the year they are specified, we transfer them to other airports in the area. In 2022 we will receive the entitlements from the three other airports we are rotating with to complete the design phase of the 10/28 rehabilitation project. The Greeley-Weld County Airport Authority Board and the Weld County Board of Commissioners have already voted to transfer the airport's 2021 FAA entitlement funding to Monte Vista Municipal Airport. Thank you for your time on this matter and feel free to reach out to me with any questions.

Thank you,

Consideration of a resolution authorizing the City to enter into an Intergovernmental Agreement (IGA) between the City of Greeley and the Cache Metropolitan District Nos. 1-8.

Summary:

The provided IGA is in the form of the City's model IGA for metropolitan districts and was prepared in accordance with the terms, provisions, and limitations contained in the Service Plan. State law permits the districts to have these additional powers per C.R.S. Section 32-1-1004(7) and C.R.S. Section 32-1-1004(8). A metropolitan district is an independent unit of local government formed by developers, created to finance, construct and maintain public improvements related to a development.

The City of Greeley approved of a Colorado Revised Statutes Title 32 Special District Service Plan for the Cache Metropolitan District Nos. 1-8, which would provide public facilities financing and some ongoing service functions to the approximately 332-acre development, with an additional future inclusion area totaling 714 acres, on September 15, 2020 (Council Resolution 45, 2020). The approved Service Plan makes reference to the execution of an intergovernmental agreement (IGA) between the City and the Districts. The draft IGA was included in the recorded Service Plan as Exhibit H. The Cache Metropolitan District held their organization meeting on January 21, 2021 and approved the IGA as presented. The request is for the City to approve and execute the IGA to finalize the process.

Metropolitan District IGAs are not reviewed by the Planning Commission. Staff is recommending approval.

Council Agenda Summary

Key Staff Contact: Sean Chambers, Water & Sewer Director, 970-350-9815

Title:

Public hearing and final reading of an ordinance amending Chapter 6, Title 14 of the Code of the City of Greeley concerning the dedication of raw water for city water service

Summary:

The City Greeley requires that developers dedicate certain water rights or make cash payments to the city in order to receive City water service ("Raw Water Dedication"). The proposed ordinance would amend Chapter 14.06 of the Municipal Code to both consolidate and revise Raw Water Dedication policies.

Raw Water Dedication policies are primarily located in the City of Greeley Municipal Code, but are also contained in several resolutions of the Greeley Water & Sewer Board. The Water & Sewer Department desires to consolidate all policies into Municipal Code to provide developers and staff a single point of reference.

In addition, three revisions to Raw Water Dedication policies are proposed. The first revision is necessitated by the Amended and Restated Master Purchase, Sale and Raw Water Credit Administration Agreement, effective as of June 23, 2020, ("Master Agreement") for the purchase of groundwater rights, groundwater storage, and appurtenances contemplated by the Terry Ranch Project. The Master Agreement creates Raw Water Credits ("Credits") redeemable to meet Greeley's Raw Water Dedication requirements. A code revision is required to allow dedication of Credits and is a condition of closing on the Terry Ranch Project.

The two additional revisions codify graduated raw water requirements for landscaping associated with commercial and multi-family developments, and clarify that Raw Water Dedication for large parcel, single family developments is required for the developed portion of the lot.

This ordinance was introduced at the February 16, 2021 Council meeting.

Fiscal Impact:

Does this item create a fiscal impact on the City of Greeley?	Yes
If yes, what is the initial, or, onetime impact?	N/A
What is the annual impact?	Development dependent
What fund of the City will provide Funding?	N/A
What is the source of revenue within the fund?	N/A

Is there grant funding for this item?	No
If yes, does this grant require a match?	N/A
Is this grant onetime or ongoing?	N/A
Additional Comments:	Acceptance of Raw Water Dedication Credits will reduce collection of revenue via cash-in-lieu fees paid for Raw Water Dedication for new City water service. Future cash-in-lieu revenue depends on the pace of development, future cash-in-lieu rates, and rate of sale and use of Raw Water Credits.

Legal Issues:

The City Attorney's Office has reviewed the proposed ordinance. Consideration of this matter is a legislative process and a pre-closing condition of the Master Agreement which includes the following public hearing steps:

- 1) City staff presentation (if requested)
- 2) Council questions of staff
- 3) Public input (hearing opened, testimony - up to three minutes per person, hearing closed)
- 4) Council discussion
- 5) Council decision

Other Issues and Considerations:

The Terry Ranch Master Agreement prescribes certain defaults for changes to Raw Water Dedication policies that restrict redemption of Credits, specifically disadvantage Credits relative to other sources of dedication, or allow acceptance of a new water sources for dedication within 10-years following closing of the purchase. The terms ensure Greeley does not purposefully erode the value of the Credits held by Credit-holders. Consolidating policies in Municipal Code ensures adequate notice of potential changes to Raw Water Dedication policies.

Applicable Council Priority and Goal:

Infrastructure & Growth: Establish the capital and human infrastructure to support and maintain a safe, competitive, appealing and successful community.

Decision Options:

- 1) Adopt the ordinance as presented; or
- 2) Amend the ordinance and adopt as amended; or
- 3) Deny the ordinance; or
- 4) Continue consideration of the ordinance to a date certain.

Council's Recommended Action:

A motion to adopt the ordinance and publish with reference to title only.

APPENDIX A
ORDINANCE AMENDING CHAPTER 6, TITLE 14
GREELEY MUNICIPAL CODE

Section 1. Section 14.06.040 contained in Chapter 14.06, Water Service, shall be amended to update part (b) to read as follows:

14.06.040 - Taps required; service line extensions prohibited.

(a) Each detached single-family residential building, multi-family residential building, and non-residential building shall be served by a minimum of one (1) separate water tap and service line. Buildings with mixed residential and non-residential uses shall be served by separate water taps for the residential and non-residential components of the development.

(b) A separate and additional landscape irrigation tap and service line shall be required for all non-residential buildings and multi-family residential buildings with more than four (4) units within the City limits, including, without limitation, commercial, industrial, and group housing (apartment buildings, condominiums, nursing homes, hotels, and motels). The Director of Water and Sewer has the authority to grant a variance to the landscape irrigation tap requirement in this Section upon a written finding that the subject property can be served by a single tap due to minimal landscaping irrigation demand.

(c) It is unlawful for a person or entity to extend a service line to serve any other buildings, lots or premises contrary to the requirements of this Section. Notwithstanding the foregoing, the Director of Water and Sewer has the discretionary authority to grant variances when appropriate for accessory uses on the same property or an adjoining lot.

(d) A prohibited service line extension that was installed prior to September 1, 2019, may remain in effect so long as it does not create a sanitation, public health or public nuisance problem. If, in the discretion of the Director of Water and Sewer, a prohibited service line extension creates a sanitation, public health or public nuisance problem, the subject property owner(s) shall separate the compound tap at their own expense.

(e) The owner of a property to which a new water service line is installed after the associated separation of a compound tap shall be required to pay all fees applicable to the initiation of water service to the subject property, including, without limitation, the costs required to install another water tap and service line. Plant investment fees that would otherwise be due and payable for a new water service line installed pursuant to this Section shall be waived upon a written finding of the Director of Water and Sewer that there will be no increase in water service to the subject property.

(f) The use of a common service line by abutting property owners shall not alter the maintenance responsibility of the users of the common service line. The common service shall not constitute a public responsibility and the Director of Water and Sewer

shall not perform maintenance or repair on the separate or combined service lines that may serve abutting properties.

Section 2. Section 14.06.050 of the above-entitled ordinance shall be amended to read as follows:

14.06.050 - Water rights dedication; amounts and criteria.

(a) All applicants for water service within the City limits shall (i) dedicate to the City, as a prerequisite to and as part of the consideration for City water service to the subject property, water rights, if any, that the City, in its sole discretion, can use in its potable water supply system or non-potable irrigation system and (ii) if the applicant cannot satisfy the raw water dedication requirements through the dedication of water rights, shall furnish to the City a cash-in-lieu fee (or satisfy the same pursuant to Section 14.06.050(e)) to fulfill all or the remainder of the dedication requirement associated with a request for water service as a prerequisite to and as part of the consideration for City water service to the subject property. All water rights approved for dedication shall be conveyed to the City on or before the date the final plat for the development is approved. All cash-in-lieu fees shall be due and payable to the City no later than the date on which the building permit is issued.

(b) The City has determined (i) that the water rights represented by shares of stock in the Greeley & Loveland Irrigation Company and the Seven Lakes Reservoir Company, and rights in the Loveland and Greeley Reservoir Company (Lake Loveland) can be used within its potable water supply system and non-potable irrigation system and (ii) that the water rights represented by units of Colorado-Big Thompson Project Water can be used within its potable water supply system. The water rights represented by shares of stock in the Greeley Irrigation Company can only be used within non-potable irrigation systems. Therefore, the City will accept such water rights only in satisfaction of the raw water dedication requirements associated with non-potable water service on property historically irrigated by the subject water rights. The City shall use the following yield values to determine the amount of raw water transferred by an applicant toward the satisfaction of any raw water dedication requirement:

<u>Company</u>	<u>Yield/Share</u>
<u>The Greeley & Loveland Irrigation Company</u>	<u>8 acre feet/share</u>
<u>The Seven Lakes Reservoir Company</u>	<u>8 acre feet/share</u>
<u>The Loveland And Greeley Reservoir Company (Lake Loveland)</u>	<u>20 acre feet/right</u>
<u>Colorado-Big Thompson Project Water (C-BT)</u>	<u>0.75 acre feet/unit</u>
<u>Greeley Irrigation Company (Greeley No. 3 Canal)</u>	<u>10.3 acre feet/share</u>

~~(b)(c)~~ All dedications of water rights proposed to satisfy the requirements of this Section are subject to approval by the Director of Water and Sewer. Water rights approved for dedication shall Except for water rights represented by units of Colorado-Big Thompson Project Water, the City will not accept the dedication of any water rights under Section 14.06.050(b) for use within its potable water supply system or non-potable irrigation system unless the Director of Water and Sewer determines that the subject water rights meet the requisite criteria under Colorado law for conversion of the water to municipal use by the City, including, without limitation, sustained historical consumptive use. Such water rights shall also meet the criteria for dedication of water rights to the City set forth by resolution of the Water and Sewer Board. The transfer of water rights approved for dedication to the City shall be made by the applicant for water service no later than the date on which a final plat for the development is approved. that: (i) the water rights have a history of use on the property being developed; (ii) the property being developed was historically and consistently irrigated under the ditch system from which such water rights are being dedicated; (iii) the owner and all lienholders of the property being developed execute a restrictive covenant in a form acceptable to the City requiring the cessation of irrigation on the historically irrigated property with the subject water rights except under conditions authorized by the City; and (iv) the applicant provides any documents and materials reasonably required by the City to ensure consistency with any prior decrees, including but not limited to, decrees adjudicating changes of the Greeley & Loveland Irrigation Company, the Seven Lakes Reservoir Company, the Loveland and Greeley Reservoir Company (Lake Loveland), and the Greeley Irrigation Company water rights.

(d) An applicant for water service may request that the City accept or permit the use of (i) water rights other than the water rights identified in Section 14.06.050(b) or (ii) water rights that do not satisfy the requirements of Section 14.06.050(c) in partial satisfaction or reduction of the applicant's raw water dedication requirement. The City, in its sole discretion, may accept or permit the use of such water rights based on certain terms and conditions set by the Director of Water and Sewer but only in partial satisfaction or reduction of the raw water dedication requirement associated with non-potable water service on property that has been historically irrigated by the subject water rights.

(e) On or before December 31, 2099, an applicant for water service, who is also the registered owner of a certificate issued by the department to evidence one (1) or more raw water dedication credits, may redeem such credit(s) in whole or in part (but only in whole numbers) toward the satisfaction of any cash-in-lieu fee obligation associated with the applicant's request for water service in accordance with Sections 14.06.060, 14.06.070, 14.06.080, and 14.06.110. One (1) raw water dedication credit represents the equivalent of, but not an interest in, one (1) acre-foot of raw water that an applicant would otherwise have to satisfy by furnishing to the City a cash-in-lieu fee.

~~(e)(f)~~ Applicants for water service to single-family residential and multi-family residential developments with four (4) units or less within the City limits shall dedicate raw water and, if the applicant cannot dedicate raw water, furnish to the City any applicable cash-in-lieu fee in accordance with Section 14.06.060 in the amount of three (3) acre-feet per acre, or fraction thereof, of property to which water service will be provided. Streets, rights-of-way, driveways, sidewalks, outbuildings, and any other part

of the property that has been or will be developed shall be included in the calculation of the total gross acreage of the property, regardless of whether such areas have been dedicated to public use. The City may, in its sole discretion, exclude area(s) from the total gross acreage, provided that irrigating such area is legally prohibited by plat or deed.

~~(d)~~(g) Applicants for water service to non-residential and multi-family residential developments with more than four (4) units within the City limits, including, without limitation, commercial, industrial, and group housing (apartment buildings, condominiums, nursing homes, hotels, and motels), shall dedicate raw water and, if the applicant cannot dedicate raw water, furnish to the City the applicable cash-in-lieu fee in accordance with Section 14.06.070 in the amount of the water service demand for the subject development. The water service demand for non-residential and large multi-family residential developments shall be determined by multiplying the total units proposed by the applicant by the average unit use, as set forth in the business category and water use table below. The water service demand for industrial developments and commercial developments of a type not specifically identified in the business category and water use table below shall be determined by the Director of Water and Sewer on a case-by-case basis, utilizing the projected volume of total water use by the subject development.

14.06.060 - Cash in lieu of raw water required; single-family and small multi-family residential.

(a) Any applicant for water service to single-family residential and multi-family residential developments with four (4) units or less within the City limits that cannot satisfy the requirements of Section 14.06.050 ~~in full~~ through the dedication of water rights shall furnish to the City a cash-in-lieu fee to fulfill all or the remainder of the dedication requirement associated with its request for water service.

(b) The cash-in-lieu fee for single-family residential and multi-family residential developments with four (4) units or less shall be set by resolution of the Water and Sewer Board and calculated as the cash equivalent of three (3) acre-feet of water per acre, or fraction thereof, of property to which water service will be provided, using the fair market value of water per acre-foot.

Section 4. Section 14.06.070 of the above-entitled ordinance shall be amended to read as follows:

14.06.070 - Cash in lieu of raw water required; non-residential and large multi-family residential.

(a) Any applicant for water service to non-residential and multi-family residential developments with more than four (4) units within the City limits, including, without limitation, commercial, industrial, and group housing (apartment buildings, condominiums, nursing homes, hotels, and motels), that cannot satisfy the requirements of Section 14.06.050 ~~in full~~ through the dedication of water rights shall furnish to the City a cash-in-lieu fee to fulfill all or the remainder of the dedication requirement associated with its request for water service.

(b) The cash-in-lieu fee for non-residential and large multi-family residential developments shall be set by resolution of the Water and Sewer Board and calculated by multiplying the water service demand for the subject property, as determined in accordance with Section 14.06.050 ~~(de) above~~, and the landscape irrigation demand, as determined in accordance with section 14.06.050(h), by the fair market value of water per acre-foot.

Section 5. Section 14.06.080 of the above-entitled ordinance shall be amended to read as follows:

14.06.080 - Exception for large parcel single-family residential.

(a) The water rights dedication and cash-in-lieu fee requirements set forth in Sections 14.06.050 through 14.06.070 shall not apply to applications for ~~domestic~~ water service to ~~a large parcel single-family residential development, defined as a parcels~~ parcel, of ~~land~~ property exceeding one (1) acre that contain only one (1) single-family residence. ~~Any application for water service to such a parcel through a tap larger than three-quarters of an inch (¾") in diameter is not considered domestic, and therefore ineligible for the exception in this Section.~~

(b) ~~All applicants for large parcel single-family residential water service pursuant to this Section shall dedicate to the City raw water in the amount of three (3) acre-feet per three-quarter-inch (¾") domestic tap, as a prerequisite to, and as a part of the consideration for, City water service to the subject property.~~ All applicants for water service to a large parcel single-family residential development shall dedicate raw water and, if the applicant cannot dedicate raw water, furnish to the City the applicable cash-in-lieu fee in accordance with section 14.06.080(c) in the amount of the water service demand for the subject development. The water service demand for large parcel single-family residential developments shall be determined by (i) the total gross acreage, or fraction thereof, of property to which water service will be provided and (ii) the type of landscape as set forth in the landscape water use table in section 14.06.050(h) above. Landscape plans with more than seventy-five percent (75%) high water use vegetation are assumed to be entirely high water use and shall be calculated as such. Streets, rights-of-way, driveways, sidewalks, outbuildings and any other part of the property that has been or will be developed shall be included in the calculation of the total gross acreage of property, regardless of whether such areas have been dedicated to public use. The City may, in its sole discretion, exclude area(s) from the total gross acreage, provided that irrigating such area(s) is legally prohibited by plat or deed.

(c) Any applicant for large parcel single-family residential water service pursuant to this Section that cannot satisfy the requirement of Section 14.06.080(b) ~~in full~~ through the dedication of water rights shall furnish to the City a cash-in-lieu fee to fulfill all or the remainder of the dedication requirement associated with its request for water service.

(d) The cash-in-lieu fee for large parcel single-family residential water service pursuant to this Section shall be set by resolution of the Water and Sewer Board and calculated as the cash equivalent of ~~three (3) acre-feet of water per three-quarter-inch (¾") domestic tap,~~ the calculated water service demand using the fair market value of water per acre-foot.

Section 6. Section 14.06.110 of the above-entitled ordinance shall be amended to read as follows:

14.06.110 - Raw water surcharge and supplemental cash in lieu of raw water; exception.

(a) A non-residential or large multi-family residential customer whose metered water use in a calendar year exceeds its annual allotment shall be required to pay a raw water surcharge on the volume of water used in excess of such allotment, as set forth in its service commitment agreement.

(b) Non-residential and large multi-family residential customers who initiated water service prior to the enactment of the ordinance codified in this Section and have not executed a service commitment agreement shall be entitled to an annual allotment in accordance with the raw water dedicated or cash in lieu of raw water it paid upon initiation of service. Any such customer whose metered water use in a calendar year exceeds its annual allotment shall be required to pay a raw water surcharge on the volume of water used in excess of such allotment.

(c) Large parcel single-family residential customers shall be entitled to an annual allotment ~~of three (3) acre-foot per three-quarter inch (¾") domestic tap equal to the water service demand calculated in accordance with Section 14.06.080.~~ Any such customer whose metered water use in a calendar year exceeds its annual allotment shall be required to pay a raw water surcharge on the volume of water used in excess of such allotment.

(d) The raw water surcharge applicable to customers pursuant to this Section shall be set by resolution of the Water and Sewer Board. Any customer whose metered water use in a calendar year exceeds its annual allotment may also furnish to the City a separate supplemental cash-in-lieu fee to increase its annual allotment. Any such supplemental cash-in-lieu fee shall be calculated using the fair market value of water per acre-foot, as set by the Water and Sewer Board and in place when the raw water surcharge payment is due and payable, and shall result in a corresponding increase to the annual allotment for that customer, whether as determined in accordance with this Section or as set forth in its service commitment agreement.

(e) Any non-residential, large multi-family residential, or large parcel single-family residential customer who initiates or modifies its water service after the enactment of the ordinance codified in this Section and whose metered water use in a calendar year exceeds the annual allotment set forth in its service commitment agreement in any two (2) consecutive calendar years shall be required to pay a supplemental cash-in-lieu fee to increase its annual allotment, as described in Section 14.06.110(d) above.

(f) Any customer whose metered water use during its first full calendar year of water service exceeds its annual allotment shall be exempt from the raw water surcharge and supplemental cash-in-lieu fee requirements of this Section for that first year only.

Section 7. Section 14.06.130 of the above-entitled ordinance shall be amended to read as follows:

14.06.130 - Plant investment fees for water service; inside and outside the City.

(a) All applicants for water service, whether inside or outside the City limits, shall furnish to the City a water plant investment fee based on the diameter of the tap as a prerequisite to, and as a part of the consideration for, City water service to the subject property. The water plant investment fee shall be the minimum amount set by resolution of the Water and Sewer Board, unless subsequently increased by resolution of the City Council. The diameter of a service line water tap installed for fire suppression purposes shall not be considered when calculating plant investment fees due pursuant to this Section.

(b) Upon approval of the Director of Water and Sewer, plant investment fees may be based on the volume of a customer's annual allotment rather than the diameter of ~~itsthe~~ tap. When the Director of Water and Sewer authorizes a plant investment fee based on ~~size of service~~ the volume of a customer's annual allotment, then the schedule of tap fees set by resolution of the Water and Sewer Board shall be applied in accordance with the size of service line.

Section 8. Section 14.06.170 of the above-entitled ordinance shall be amended to read as follows:

14.06.170 - Water service outside the City limits.

The Director of Water and Sewer may consider applications for extraterritorial water service from persons or entities located outside the City limits. Any such extraterritorial water service authorized shall be contingent upon receipt by the City of written consent to the service from the jurisdiction in which the extraterritorial customer is located, if so required. Any person or entity granted such extraterritorial water service shall agree to ~~transfer~~ comply with this Chapter 14.06 when a request for City water is made, at no cost to the City, ~~certain water rights, including Northern Colorado Water Conservancy District allotments, irrigation water and carriage rights of such water, to the City~~ before receiving water service from the City.

Section 9. Section 14.06.180 of the above-entitled ordinance shall be amended to read as follows:

14.06.180 - Transfer of water rights upon annexation.

Any petitioners requesting annexation of their ~~land~~ property to the City shall agree, as a prerequisite to receiving approval of such annexation and on behalf of themselves and all successors in interest to the ~~land~~ property to be annexed, to ~~transfer~~ comply with this Chapter 14.06 at no cost to the City, ~~water rights, including Northern Colorado Water Conservancy District allotments, irrigation water and carriage rights upon subdividing and/or requesting domestic water service to the City,~~ before receiving the approval of the annexation.

Section 10. Section 14.06.190 of the above-entitled ordinance shall be amended to read as follows:

14.06.190 - Special agreements approved by City Council.

The provisions of this Chapter 14.06 shall not preclude the City Council from approving special agreements with applicants for water service ~~regarding~~modifying the requirements for development within the City, provided that such agreements are approved by ordinance.

Section 11. Chapter 14.06 of the Greeley Municipal Code shall be amended by adding thereto a new Section 14.06.240 to read as follows:

14.06.240 – Public Hearing; Scheduling.

If the City Council introduces and approves on first reading an ordinance to either (i) amend Sections 14.06.050 through 14.06.120, Sections 14.06.170 through 14.06.190, or this Section 14.06.240 or (ii) approve a special agreement in accordance with Section 14.06.190, then the City Council shall schedule the public hearing and final approval to take place no sooner than twenty-eight (28) days thereafter. The City Council shall provide notice of the public hearing and final approval by publishing the proposed ordinance along with the day, hour, and place as required by the City Charter.

Proposed Municipal Code Revisions: Raw Water Dedication

March 2, 2021

Background

- Greeley's raw water dedication policies prescribe:
 - The amount of water required for specific development types
 - The sources of water or other means to meet dedication requirements
 - Process and procedures for dedication
- Proposed ordinance would both revise certain raw water dedication policies and consolidate all policies to single source

Proposed Revisions

1. Allow acceptance of Terry Ranch raw water Credits
 - Condition of Closing per Terry Ranch Master Agreement
2. Graduated requirements for landscaping in commercial and multi-family developments
3. Revised requirements for large parcel, single-family developments

Graduated Landscaping Requirements

- Reduce raw water requirements for water-wise landscaping
- Commercial and multi-family developments only
- Included in commercial and multifamily raw water policy updates in 2019, but ultimately not incorporated in Code

- Applies to single-family lots over 1 acre
- Aligns with 2019 policy updates

Proposed Consolidation

- Raw water dedication policies are currently contained in:
 - Chapter 14.06 of the City of Greeley Municipal Code

Title:

Consideration of a resolution of the City Council of Greeley, Colorado authorizing the closing of the transaction contemplated by the Amended and Restated Master Purchase, Sale and Raw Water Credit Administration Agreement (Terry Ranch) and taking related actions

Summary:

In June 2020, the City, acting by and through its Water Enterprise, and pursuant to Greeley Water & Sewer Board approval, entered into a Master Purchase, Sale and Raw Water Credit Administration Agreement with Wingfoot Water Resources, LLC ("Wingfoot") for acquisition of groundwater rights, underground water storage, and appurtenance underlying the Terry Grazing Association Ranch in northwest Weld County (the "Terry Ranch Project"). On February 17, 2021, the Greeley Water & Sewer Board authorized the City, acting by and through its Water Enterprise, to enter into that Amended and Restated Master Purchase, Sale and Raw Water Credit Administration Agreement, effective as of June 23, 2020 ("Master Agreement").

Over the past eight months, staff and professional consultants have undertaken extensive scientific, engineering and geochemical inspection activities. This robust diligence investigation was designed to collect and analyze appropriate data to confirm the water resources offered in this purchase are safe and reliable. The work was also intended to identify any fatal flaws that might exist with the technical aspects of the project. A description of those studies and their results are available on the Terry Ranch website: greeleygov.com/terryranch. In summary, the City's diligence efforts found the Terry Ranch Project can provide a safe and reliable water supply that will meet Greeley's future water supply needs to support a growing population. No fatal flaws were identified during diligence activities. The investigative study findings and staff recommendations have been reviewed and confirmed by independent, third-party experts.

On February 17, 2021, the Greeley Water & Sewer Board considered inspection findings and approved a resolution authorizing closing on the Terry Ranch Project and recommending the same to the City of Greeley City Council. A video of the February 17, 2021 Water & Sewer Board meeting in which Board deliberated the Terry Ranch Project may be found at:

<https://www.youtube.com/watch?v=NrSnDGbdwMk&t=8m57s>.

Pursuant to the Master Agreement, at closing, the City must create and issue raw water dedication "Credits" to Wingfoot redeemable to meet Greeley's raw water dedication requirements. Rather than paying cash up front for the Terry Ranch Project, Greeley

will issue Credits that are redeemable with Greeley. Wingfoot may sell the Credits to home-builders or developers who will then deliver the Credits to Greeley to meet the City's existing raw water requirements for growth and development. The Credits will only be redeemable within Greeley's water service area, and Greeley will continue to accept all other current forms of raw water dedication and its cash-in-lieu of raw water program. In effect, Greeley will forego a portion of future cash-in-lieu payments, but in return will receive immediate access to the Terry Ranch water and storage. In addition, Wingfoot is required to fund up to \$125,000,000 for construction of the infrastructure necessary to develop and deliver the groundwater to Greeley.

Key to the Master Agreement are provisions to ensure Greeley does not devalue Credits that are Greeley's payment for the assets. The Master Agreement contains specific language that precludes Greeley from devaluing Credits through certain changes to its Raw Water Dedication Policy (Chapter 14.06 of the Greeley Municipal Code). Under the agreement, Wingfoot is entitled to certain remedies if the City changes its Raw Water Dedication Policy in such a way that disallows, limits, or disadvantages Credit redemption, or that allows acceptance of new sources of water for dedication within 10-years of closing. Greeley will continue to be able to change its policies to adjust water dedication requirements in response to changing water consumption habits, so long as policy changes are based on usage data, economics, and best practices.

Fiscal Impact:

Does this item create a fiscal impact on the City of Greeley?	Yes
If yes, what is the initial, or, onetime impact?	N/A
What is the annual impact?	Development dependent
What fund of the City will provide Funding?	N/A
What is the source of revenue within the fund?	N/A
Is there grant funding for this item?	No
If yes, does this grant require a match?	N/A
Is this grant onetime or ongoing?	N/A
Additional Comments:	Acceptance of Raw Water Dedication Credits will reduce collection of revenue via cash-in-lieu fees paid for Raw Water Dedication for new City water service. Future cash-in-lieu revenue depends on the pace of development, future cash-in-lieu rates, and rate of sale and use of Raw Water Credits.

Legal Issues:

As a pre-closing condition of the Master Agreement, City Council must authorize closing on the Terry Ranch Project. The City Attorney's Office has reviewed the proposed resolution.

Other Issues and Considerations:

The following are the principle findings of due diligence investigations of the Terry Ranch Project: 1) The quality of Terry Ranch groundwater is high. It contains low-levels of naturally occurring uranium, but the uranium can be removed below detection with ion exchange treatment. Proven and common treatment systems exist to remove uranium from drinking water. 2) No adverse water quality reactions are expected by

blending Terry Ranch water with Greeley's existing treated water sources. Introduction of Terry Ranch water into Greeley's existing water supply system is not anticipated to cause corrosion to or release of metals from distribution system piping. 3) The risk of contamination to Terry Ranch groundwater is at present very low. The Terry Ranch aquifer is well-isolated and well protected from surface contamination. 4) The Terry Ranch Project requires pumping and treatment, the operational costs of which will be higher than Greeley's existing water treatment and conveyance systems. However, the higher operational costs are vastly outweighed by lower capital costs. The expected cost to Greeley of building the Terry Ranch Project infrastructure for the 2065 planning horizon is \$256 million in escalated, 2020 dollars. 5) Compared to the hundreds of alternatives evaluated to date, Terry Ranch is the least costly and most certain.

City staff has sought to proactively engage the Greeley community and seek public input on the Terry Ranch Project over the last eight months. The project has been presented at three City Council meetings, monthly Water & Sewer Board meetings, two Community Open Houses (December 2, 2020 and February 10, 2021), and to over 20 community organizations, service clubs, and Boards and Commissions of the City of Greeley, Colorado. Staff have built a robust project web page with comprehensive library of information including technical reports from the diligence activities. The city has shared information on the project, the open houses and its web page through a variety of social media channels; all in a concerted effort to make sure the public had an opportunity to learn about the project, have their questions asked, and make their opinions known.

Applicable Council Priority and Goal:

Infrastructure & Growth: Establish the capital and human infrastructure to support and maintain a safe, competitive, appealing and successful community.

Decision Options:

- 1) Adopt the resolution as presented; or
- 2) Amend the resolution and adopt as amended; or
- 3) Deny the resolution; or
- 4) Continue consideration of the resolution to a date certain.

Council's Recommended Action:

A motion to adopt the resolution as presented.

INSPECTION PERIOD

5.1 Inspection. During a period of time commencing upon the Effective Date and continuing until 4:00 p.m., Mountain Time, on the two hundred and tenth (210th) day thereafter (“Inspection Period”), subject to Section 5.3 (Conditions of Access), Greeley and its authorized agents, representatives and consultants shall be entitled to enter upon the areas covered by the Access Easement and State Land Board Lease at reasonable times, and upon reasonable prior written notice to Wingfoot, to inspect the Assets for the purpose of (i) conducting surveys, water quality and soils tests, environmental and ecological assessments, test borings, engineering tests, cost evaluations, environmental audits and tests, feasibility studies and any other inspections, investigations or analyses Greeley deems necessary or appropriate in connection with its intended acquisition, use and development of the Assets or (ii) performing the following specific activities: drilling and logging of not more than three additional test borings; collection and analysis of water quality samples from test borings and existing wells; depth-specific flow, Gamma ray spectroscopic surveys, and water quality sampling of existing wells; downhole video survey of existing wells; topographical surveys; environmental assessments and field surveys of environmental resources; and bench-scale testing of geochemical interactions between aquifer core samples and recharge water, which activities Greeley has deemed necessary to conduct in connection with its intended acquisition, use and development of the Assets (collectively referred to as the “Inspections”).

5.2 Cost; Cooperation. Greeley shall bear all costs of the Inspections (“Inspection Costs”). During the Inspection Period, Wingfoot agrees to reasonably cooperate with any Inspection activity, which includes but is not limited to attempts to obtain access and any necessary approval to conduct Inspections on Terry Ranch. In the event that Closing does not occur solely due to failure of a Closing condition in Section 13.3 (Failure of Condition) within Wingfoot’s control, then Wingfoot shall reimburse Greeley for its reasonable third party out-of-pocket Inspection Costs.

5.3 Conditions of Access. Greeley and its authorized agents, representatives and consultants shall (i) comply with the terms and conditions of the Access Easement and State Land Board Lease including but not limited to all required notices and submissions, as applicable, and all applicable laws, rules and regulations; (ii) not interfere with the operation and maintenance of the Terry Ranch by the Association or interfere with the business or operations of Wingfoot; (iii) comply with all Title Documents, all Permitted Exceptions, and any reasonable requirements imposed upon it by Wingfoot or the Association in connection with such Inspections; (iv) not injure or otherwise cause bodily harm to Wingfoot or the Association, their agents, contractors or employees; (v) promptly pay when due the costs of all Inspections; (vi) not permit any liens or encumbrances to attach to Terry Ranch or any of the Assets; (vii) restore Terry Ranch and/or the Assets to substantially the same condition in which such property was found before any such Inspections were undertaken, and at the election of Wingfoot (in its sole discretion), Greeley shall be required to remove (at Greeley’s sole cost and expense) any improvement that was installed, and/or reclaim any surface disturbance, including close or seal disturbances related to below grade improvements consistent with standard industry practice, in accordance with this Section 5.3 (or with the written approval of Wingfoot) by Greeley during the Inspection Period in accordance with the terms of the Access Easement or the State Land Board Lease, as the case may be, or with

Wingfoot's approval, except that Greeley shall not be required to remove any below grade improvements associated with test bores; and (viii) give reasonable advance notice (but no less than 24 hours) to Wingfoot and the Association prior to any entry onto Terry Ranch, the Access Easement, the State Land Board Lease or the Water Rights and shall permit Wingfoot to have representatives present during all Inspections. Upon the request of Wingfoot, Greeley shall supply Wingfoot with copies of the results of the Inspections.

5.4 Defects Identified in Inspection. If Greeley identifies any defect with the Assets during its Inspection, as determined by Greeley in its good faith judgment, including but not limited to the following items:

A. Matters disclosed in (i) the Title Documents, (ii) the Off-Record Documents, or (iii) the Water Rights Documents;

B. Greeley's ability to verify or obtain real property including but not limited to adequate sites for facilities or appropriate easements for ingress, egress and utilities from third parties as deemed reasonably necessary or appropriate by Greeley for Greeley's Intended Use of the Assets;

C. The suitability of the Assets for Greeley's Intended Use, including without limitation the capital and/or operational cost of effectuating such Intended Use;

D. Greeley's ability to obtain state, local or federal approval and/or permits to construct improvements for the operation of an aquifer storage facility;

(each a "Defect"). Greeley may terminate this Agreement if (i) Greeley provides written notice of any such Defect to Wingfoot on or before the expiration of the Inspection Period (a "Defect Notice") and (ii) Wingfoot fails to cure, to Greeley's reasonable satisfaction, any Defect identified in the Defect Notice within thirty (30) days of receipt of the applicable Defect Notice. If Greeley terminates this Agreement pursuant to this Section 5.4, the Deposit shall be returned to Greeley and neither Party shall have any further obligation to the other except as specifically provided in this Agreement.

If Greeley does not provide written notice of termination to Wingfoot prior to the expiration of the Inspection Period, then Greeley's right to terminate this Agreement pursuant to this Section 5.4 shall terminate and Greeley shall be deemed to have accepted any outstanding Defects. Except as provided under Section 4.4 (Disapproved Title Matters), Section 6.1 (Closing Contingencies), Section 13.3 (Failure of Condition), Section 14.2.A(3) (Remedies, Generally) and Article 15 (Condemnation), upon the expiration of Greeley's right to terminate this Agreement pursuant to this Section 5.4 the Deposit shall be non-refundable to Greeley.

5.5 Environmental Covenants During Inspection Period. During the Inspection Period, Greeley covenants as follows (collectively, "Greeley Environmental Covenants"):

A. Greeley and its agents shall not bring onto the Assets, or permit to be brought onto the Assets, any Hazardous Substances, except to the extent that the Hazardous Substances are of a type and quantity the presence, use, storage, release and handling of which does not constitute a violation of any applicable Environmental Law and is customarily employed

in the ordinary course of, or associated with, drilling for water and water treatment and construction of infrastructure relating to the same in the State of Colorado (and, to the extent that Greeley or its agents or representatives bring Hazardous Substances onto the Assets, they shall act prudently and use reasonable care relating thereto).

B. Greeley's use of and activities on or with respect to the Assets shall comply with all applicable laws, including Environmental Laws and Environmental Permits.

5.6 Liability During Inspection Period. Subject to Section 5.2(Cost; Cooperation), with respect to Greeley's Inspections during the Inspection Period only, Wingfoot shall defend, indemnify and hold harmless Greeley from and against any loss, cost, liability, or expense claimed by a third party arising out of or related to an Environmental Condition (collectively, "Losses"), but only to the extent that any such Environmental Condition was discovered by Greeley during the Inspection Period and disclosed to Wingfoot during the Inspection Period, and was not caused or contributed to by any negligent activity of Greeley or its agents (such indemnification obligation referred to as the "Inspection Indemnification"). If a Claim for Losses is asserted against Greeley by a third party prior to Closing, which may give rise to Inspection Indemnification, Greeley must promptly notify Wingfoot in writing and give Wingfoot the right to defend (or in Wingfoot's discretion, assist in the defense of) such Claim with counsel approved by Greeley, which approval shall not be unreasonably withheld, conditioned or delayed. The Inspection Indemnification shall terminate at Closing, and no claims for Inspection Indemnification can be made by Greeley after Closing; provided, however, that Wingfoot must still satisfy or resolve any outstanding Claim as may exist at Closing except to the extent caused by the negligence of Greeley or its agents. As used in this Section 5.6, "Claim" means any written demands, causes of action, or claims of any kind and character made by a third party. This Section 5.6 does not apply to any actions taken with respect to the Assets that does not occur during the Inspection Period and does not apply to any Claim to the extent caused by or arising from Greeley or its agents.

ARTICLE 6

CLOSING CONTINGENCIES; CLOSING

6.1 Closing Contingencies.

A. Governing Body Approval. Greeley's obligation to purchase the Assets is subject to the City Council's and the Greeley Water and Sewer Board's (the "Governing Bodies") authorization to close on the purchase and the appropriation of the Purchase Price at Closing for the acquisition of the Assets within sixty (60) days following the expiration of the Inspection Period ("Governmental Approval Period"). In the event that the Governing Bodies have not authorized the closing and appropriated the Purchase Price at Closing for the acquisition of the Assets prior to the expiration of the Governmental Approval Period (unless extended by written agreement of the Parties), then, in such event, upon written notice by either Party to the other, this Agreement shall terminate, whereupon the Deposit shall be returned to Greeley pursuant to Section 13.3 (Failure of Condition) and neither Party shall have any further obligation to the other except as provided in Section 17.9 (Survival).

B. Raw Water Dedication Policy. Wingfoot's obligation to convey the Assets is subject to the Governing Bodies' approval of the Raw Water Dedication Policy, in a form

acceptable to Wingfoot, before the expiration of the Governmental Approval Period. In the event that the Governing Bodies have not approved the Raw Water Dedication Policy prior to the expiration of the Governmental Approval Period, then, in such event, upon written notice by Wingfoot to Greeley, this Agreement shall terminate, whereupon the Deposit shall be returned to Greeley pursuant to Section 13.3 (Failure of Condition) and neither Party shall have any further obligation to the other except as provided in Section 17.9 (Survival).

6.2 Closing. The closing of this transaction (the "Closing") shall occur at 1:30 p.m. at the Greeley Office of the Title Company, fifteen (15) days after the expiration of the Governmental Approval Period or such other date as the Parties may mutually agree to in writing (the "Closing Date"). At or prior to the Closing, Greeley shall provide Wingfoot with a map of the Service Area as of the Closing Date.

6.3 Transactions at Closing.

(12) Such other documents as may be reasonably necessary and appropriate to complete the Closing of the transaction contemplated herein.

B. On or before the Closing Date, Greeley shall deliver to the Title Company, acting as the Closing escrow agent, the following documents duly executed and acknowledged where appropriate:

- (1) The Closing Amount.
- (2) Documentation in such form as may be satisfactory to Wingfoot and the Title Company, evidencing (i) the Governing Bodies' authorization of the issuance of Twelve Thousand One Hundred Twenty-one (12,121) Raw Water Credits and (ii) Greeley's authority to purchase the Assets.

Collectively, except for the Initial Credits, all other documents identified under Sections 6.3.A and 6.3.B shall be referred to as the "Closing Documents."

C. Closing Agent. The Title Company shall record and/or distribute the Closing Documents and shall hold, in escrow, the Certificates evidencing Wingfoot's ownership of the Initial Credits until Wingfoot has satisfied its Initial Contribution obligation. The Parties shall instruct the Escrow Agent to release such Certificates to Wingfoot simultaneous with Wingfoot's satisfaction of its Initial Contribution, which enables Wingfoot to satisfy its obligation to make the Initial Contribution from the sale of the Initial Credits.

ARTICLE 7
PRORATIONS; CLOSING COSTS

7.1 Prorations. All real estate taxes attributable to the Assets, if any, for the calendar year in which the Closing occurs shall be prorated at the Closing on the basis of the most recent mill levy, unless the actual real estate taxes for the current year are known on the Closing Date. Wingfoot shall pay any special assessments against the Assets, if any, in full at the time of Closing. Prorations of taxes and assessments at Closing shall be a final settlement. All fees and payments for the current year due under the State Land Board Lease shall be prorated as of the Closing Date, based on the most recent payment provided by Wingfoot to the State of Colorado, State Board of Land Commissioners.

7.2 Closing Costs. Greeley shall pay for the cost of recording of all of the deeds, all title insurance endorsements and one-half (1/2) of the Title Company closing costs. Wingfoot shall pay the initial basic premium for the Title Policy, and one-half (1/2) of the Title Company closing costs. Each party shall pay its own attorneys' fees and Greeley shall be solely responsible for the payment of any real estate escrow fees to the Title Company.

ARTICLE 8
TENANCY IN COMMON

8.1 Tenancy in Common Agreement. The form of Tenancy in Common Agreement is attached hereto as Exhibit L.

8.2 Conveyance of the Tenancy in Common Interest.

A. Conveyances. Subject to Greeley's consent and except as otherwise provided in this Section 8.2.A, Wingfoot may convey all or any portion of Wingfoot's TIC Interest to a third-party (a "Third Party Transfer"), provided that the Third Party Transfer (1) identifies Greeley as a party to the agreement between Wingfoot and the third-party; (2) obligates the third-party to simultaneously convey its entire interest in the Water Rights to Greeley in exchange for a number of Raw Water Credits bearing the same proportion to the total number of Raw Water Credits as the fractional interest conveyed in the Water Rights bears to the entire interest in the Water Rights; (3) identifies the full cash consideration for such portion and such amount is certified to Greeley by Wingfoot and shown in the property declaration with respect to such Third Party Transfer; (4) shall not obligate Greeley to accept title to any property other than the Water Rights and (5) requires conveyance to Greeley consistent with the Tenancy in Common Conveyance Documents defined in Section 8.2.B (Form of Conveyance). If Wingfoot has not fully satisfied its Cash Contribution obligation on the date of the closing of any Third Party Transfer, then Wingfoot shall deposit in the Construction Escrow at closing the lesser of (a) its then remaining Cash

Contribution obligation, or (b) ninety percent (90%) of the Net Cash Proceeds. Notwithstanding the foregoing, Wingfoot may not convey Wingfoot's TIC Interest in a cashless exchange for like property. If and when the proposed Third Party Transfer is consistent with the conditions set forth in clauses (1) – (5) in all material respects, then Greeley shall present the same to the Greeley Water and Sewer Board for approval within forty-five (45) days after receipt by Greeley of a purchase and sale agreement relating to such Third Party Transfer (the "Interim Period"). If the Greeley Water and Sewer Board rejects or does not approve the proposed Third Party Transfer within the Interim Period, then within twenty (20) days after the earlier of (x) Greeley Water and Sewer Board's rejection of the proposed Third Party Transfer or (y) expiration of the Interim Period without Wingfoot's receipt of written approval of the proposed Third Party Transfer from Greeley, Greeley shall pay to Wingfoot one hundred twenty-five percent (125%) of the sales price relating to the proposed Third Party Transfer (the "Prohibited Transfer Fee") and Wingfoot shall concurrently transfer to Greeley Wingfoot's TIC Interest identified in the proposed Third Party Transfer. No portion of the Prohibited Transfer Fee shall be subject to the Deposit Obligation of Section 9.1.B (Source of Funds).

B. Form of Conveyance. Wingfoot shall convey Wingfoot's TIC Interest, and shall cause that portion of Wingfoot's TIC Interest conveyed to a third-party, if any, to be conveyed to Greeley, free and clear of all liens and encumbrances except for Permitted Exceptions, by executing the forms attached hereto as Exhibit Q (the "Tenancy in Common Conveyance Documents").

8.3 Termination of the Tenancy in Common; Ten-year limit. The Tenancy in Common shall terminate and ownership of the Water Rights shall vest entirely in Greeley (subject to any conveyances made by, through or under Greeley) upon the earlier of (i) the transfer of one hundred percent (100%) of the ownership of the Water Rights to Greeley or (ii) ten (10) years following the Closing Date, subject to Greeley's obligations and the other terms of this Agreement.

8.4 Use. Subject to the terms of the Tenancy in Common Agreement and Greeley's compliance with the terms of this Agreement, Wingfoot agrees that, after Closing, Greeley shall have the exclusive right to use the Water Rights, and Wingfoot shall not access or use the Water Rights without Greeley's written permission.

ARTICLE 9 CONSTRUCTION ESCROW

9.1 Construction Escrow. At Closing, the Parties shall execute an escrow agreement to manage the deposit and release of the Project Infrastructure funds substantially in the form attached hereto as Exhibit F (the "Construction Escrow Agreement"). Notwithstanding the preceding sentence, the Parties acknowledge and agree that the Construction Escrow Agreement attached hereto may be subject to revision as may be necessary or convenient to obtain approval from the escrow agent. Subject to the terms of this Agreement, Wingfoot shall deposit a total of one hundred twenty-five million dollars (\$125,000,000) ("Cash Contribution") in an escrow account established and maintained pursuant to the Construction Escrow Agreement (the "Construction Escrow"). The Cash Contribution is estimated to cover one-half of the estimated cost to plan, develop, permit and construct the Project Infrastructure ("Project Infrastructure Costs") and shall be funded and due as provided below, provided that "Project Infrastructure

Costs” shall not include debt service payable by Greeley. For federal, state and local income tax purposes, notwithstanding the funding mechanism set forth in this Agreement, the Parties acknowledge that Wingfoot intends to treat the Cash Contribution as a reduction in the amount realized by Wingfoot in respect of the transfer of Wingfoot’s TIC Interest or sale of Raw Water Credits, in order to reflect the fact that the Cash Contribution will reduce Wingfoot’s net economic gain derived from the transfer of Wingfoot’s TIC Interest or sale of Raw Water Credits, Wingfoot does not obtain any property or derive any separate benefit from the Cash Contribution, and the benefit of the Cash Contribution inures entirely to Greeley (in the form of Project Infrastructure owned by Greeley). For example, if the gross purchase price of a Raw Water Credit is thirty thousand dollars (\$30,000) and Wingfoot has not satisfied its Deposit Obligations under Section 9.2(B) (Source of Funds), then Wingfoot shall deposit ninety percent (90%) of such purchase price (twenty-seven thousand dollars (\$27,000)) to the Construction Escrow as a Deposit Obligation, reducing the amount realized by Wingfoot in respect to the sale of such Raw Water Credit to three thousand dollars (\$3,000). In furtherance of the foregoing, for federal, state, and local income tax purposes, (x) Wingfoot intends to treat the Initial Contribution (defined below) as an advance reduction in Wingfoot’s amount realized in respect of transfers of Wingfoot’s TIC Interest, and (y) Wingfoot may determine the extent to which a portion of the total reduction in the amount realized by Wingfoot (i.e., the total Cash Contribution, including the Initial Contribution) shall be attributed to any specific transfer of a portion of Wingfoot’s TIC Interest. It is the intent of the Parties that, to the greatest extent possible, Wingfoot shall not be treated as having an amount realized from the transfer of a portion of Wingfoot’s TIC Interest greater than the net amount of cash retained by Wingfoot in connection with that transfer, after the satisfaction of Wingfoot’s funding obligations as set forth herein. Neither Party shall take a position contrary to the positions and statements set forth in this Section 9.1.

A. Deposits Due. Within ninety (90) days after the Closing, Wingfoot shall deposit twenty-five million dollars (\$25,000,000) (“Initial Contribution”) in the Construction Escrow and provide written notice thereof to Greeley and the Title Company. The balance of the Cash Contributions shall be due on the earlier to occur of (i) twenty-four (24) months after Greeley provides written notice of its intent to construct the Project Infrastructure (“Notice to Construct”) or (ii) ten (10) years after the Closing Date (the “Contribution Deadline”). Greeley shall have no deadline or timeline to commence or complete construction of the Project Infrastructure. Notwithstanding the foregoing, Greeley may not issue the Notice to Construct sooner than two (2) years after the Closing Date unless Wingfoot has fully satisfied its Cash Contribution obligation within such time. Wingfoot shall have no obligation to fund the Construction Escrow or the Project Infrastructure in excess of the Cash Contribution and Greeley shall be solely responsible for all costs related to the Project Infrastructure exceeding the Cash Contribution.

B. Source of Funds. Until Wingfoot has fully satisfied its Cash Contribution obligation, Wingfoot shall deposit or arrange for the deposit of ninety percent (90%) of the Net Cash Proceeds received by Wingfoot (collectively, the “Deposit Obligations”). Notwithstanding anything to the contrary in this Section 9.1.B, Wingfoot shall retain one hundred percent (100%) of the proceeds from, and the Deposit Obligations shall not include, the sale of the Exercised Credits and the Released Credits pursuant to Article 11 (Put and Call Options) and from the Prohibited Transfer Fee. To track Wingfoot’s obligation under this Section 9.1.B Wingfoot shall, promptly after each such deposit of a Deposit Obligation, provide to Greeley (i) a settlement statement evidencing the purchase price and (ii) a statement evidencing that ninety percent (90%)

of the Net Cash Proceeds has been deposited in the Construction Escrow, along with the surrendered Certificate(s) or a copy of the deed transferring the Water Rights to a third-party pursuant to Section 8.2.A (Conveyance) until Wingfoot's obligation to fund the Cash Contribution has been fully satisfied. If the surrendered Certificate, or portion thereof, qualifies as a Released Credit, Wingfoot may retain one hundred percent (100%) of the proceeds.

C. Greeley's Contribution. No less than thirty (30) days before Greeley requests withdrawal of any amount from the Construction Escrow, Greeley shall deposit in an escrow account established and maintained pursuant to the Construction Escrow Agreement that is separate from the Construction Escrow ("Prorated Escrow"), an amount sufficient to maintain Greeley's aggregate, prorated share of contributions to the total Project Infrastructure Costs at the percentages shown in the table below (the "Prorated Contributions").

Project Infrastructure Costs			Wingfoot Portion		Greeley Portion	
From	To	Total Cost	Contribution to Total Cost	Percent of Total Cost	Contribution to Total Cost	Percent of Total Cost
\$0	\$78,125,000	\$78,125,000	\$62,500,000	80.00%	\$15,625,000	20.00%
\$78,125,000	\$203,125,000	\$125,000,000	\$62,500,000	50.00%	\$62,500,000	50.00%
Total		\$203,125,000	\$125,000,000	61.54%	\$78,125,000	38.46%

D. Release of Funds. Greeley may not draw upon the available Cash Contribution for Project Infrastructure construction costs less than ninety (90) days after the Closing Date. Any withdrawals after the 90-day period are subject to the following conditions: (i) Greeley must be in compliance with its obligation under Section 9.1.C (Greeley's Contribution) as of the date of withdrawal, and (ii) Greeley must (a) simultaneously withdraw an amount from the Prorated Escrow proportionate to Greeley's percent of total costs shown in the table in paragraph C of this Section 9.1.D and (b) use such funds from the Prorated Escrow and Construction Escrow solely for the planning, development, permitting and construction of Project Infrastructure. To track Greeley's compliance with this Section 9.1.D, Greeley shall provide Wingfoot with a copy of the statement evidencing withdrawal of a proportionate amount of funds from the Prorated Contribution, prior to the release of funds from the Construction Escrow to Greeley. Upon written request from Wingfoot, Greeley shall furnish evidence that the funds withdrawn have been spent on Project Infrastructure Costs. After substantial completion of the Project Infrastructure, or upon termination of this Agreement by operation of Section 14.2.B(3) (Remedies, Generally), the balance of the Cash Contribution in the Construction Escrow, if any, remaining shall be released to Wingfoot and the balance of the Prorated Contribution, if any, remaining shall be released to Greeley.

9.2 Failure to Fund.

A. Failure to Fund the Initial Contribution. If Wingfoot fails to deposit the Initial Contribution in the Construction Escrow within ninety (90) days of the Closing Date, then this Agreement shall automatically terminate, and pursuant to Section 14.2.A(3) (Remedies, General): (a) the Purchase Price shall be returned to Greeley; (b) the Initial Tenancy in Common Interest shall be conveyed back to Wingfoot, along with a reassignment of the Ancillary Assets and the State Land Board Lease; and (c) all documents deposited by Greeley or delivered to Wingfoot by Greeley, including without limitation the Initial Credits, shall be immediately returned to Greeley, if any, and all documents, deposited by Wingfoot or delivered to Greeley by Wingfoot shall be immediately returned to Wingfoot, if any. In addition, Greeley shall be entitled to reimbursements from Wingfoot and Wingfoot shall be obligated to pay Greeley for all reasonable, third party out-of-pocket costs incurred by Greeley subsequent to the Effective Date but prior to the termination, which shall include, but not be limited to, the Inspection Costs. Upon termination, all other rights and obligations of the Parties shall be terminated under this Agreement, except for the covenants, agreements and monetary obligations contained in Section 17.9 (Survival) which shall survive the termination of this Agreement to the extent set forth in Section 17.9, for the time period(s) specified therein.

B. Failure to Fund the Cash Contribution. If Wingfoot fails to fully satisfy its Cash Contribution obligation by the Contribution Deadline, and Greeley has not (i) breached any of its obligations under Section 10.5 (Material Change to Market Value); (ii) breached any of its obligations under Section 9.1.C (Greeley's Contributions) or Section 9.1.D (Release of Funds); or (iii) committed a default or otherwise breached this Agreement that prevented or interfered with or adversely affected Wingfoot's ability to fund the Cash Contribution, then Greeley shall provide Wingfoot with written notice of such failure to satisfy Wingfoot's Cash Contribution (a "Payment Default"). If Wingfoot does not cure such Payment Default within sixty (60) days after its receipt of written notice from Greeley of such Payment Default (not subject to any additional cure period under Section 14.2.D (Remedies, Generally), then pursuant to Section 14.2.A(4) (Remedies, Generally), Greeley may elect to require that Wingfoot convey the entirety of Wingfoot's TIC Interest to Greeley, and Wingfoot shall be obligated to effect such conveyance, and Wingfoot shall continue to be subject to its Deposit Obligation under Section 9.1.B (Source of Funds) until Wingfoot's Cash Contribution obligation is fully satisfied. Other than Raw Water Credits subject to the Put Option and Call Option as set forth in Article 11 (Put and Call Option), Greeley shall not be required to issue any additional Raw Water Credits (other than transfers of outstanding Raw Water Credits in the Registry) in exchange for a transfer of Wingfoot's TIC Interest pursuant to this Section 9.2.B.

ARTICLE 10 RAW WATER CREDITS

10.1 Raw Water Credit.

A. Authorization. At Closing, Greeley shall authorize the issuance of twelve thousand one hundred twenty-one (12,121) credits, with each credit representing the equivalent of, but not an interest in, one (1) acre foot of raw water (each a "Raw Water Credit").

B. Issuance. Simultaneous with or after Wingfoot satisfies its Initial Contribution pursuant to Section 9.1.A (Deposit Due), Wingfoot may request from Greeley the issuance to it of up to seven thousand nine hundred forty-six (7,946) Raw Water Credits (inclusive of the Initial Credits but less the Escrowed Credits) at any time prior to the date which is ten (10) years after the Closing Date. Within thirty (30) days of receipt of a request for Raw Water Credits from Wingfoot pursuant to this Section 10.1(B), Greeley shall issue the corresponding amount of Raw Water Credits to Wingfoot. If any Raw Water Credits remain unissued as of the date which is ten (10) years after the Closing Date, then all remaining unissued Raw Water Credits shall be issued to Wingfoot in consideration of Wingfoot transferring Wingfoot's TIC Interest to Greeley pursuant to Section 10.2 (Transfer of Tenancy in Common Interest) as of that date.

C. Form. The issuance of all Raw Water Credits shall be documented by the delivery of certificates in the form attached as Exhibit E (each a "Certificate"). A single Certificate may represent any whole number of Raw Water Credits. Each Certificate shall evidence the rights of the original or any subsequent Registered Owner (defined below) thereof with respect to the Raw Water Credits evidenced thereby.

D. Redemption Period. The form of Certificate shall provide that any Registered Owner may redeem a Raw Water Credit from Greeley through December 31, 2099, subject to the terms and conditions of the Certificate and the Raw Water Dedication Policy.

E. Limitations; Sales. All Raw Water Credits issued to Wingfoot shall be subject to Section 10.2 (Transfer of Tenancy in Common Interest). After issuance, Wingfoot may sell, convey, or transfer a Raw Water Credit to a third-party, subject to Section 9.1.B (Source of Funds). All Registered Owners, including Wingfoot, may freely sell, transfer, or convey Raw Water Credits to third-parties subject to compliance with Section 10.3 (Administration; Tracking).

10.2 Transfer of the Tenancy in Common Interest. Greeley's issuance of a Raw Water Credit to Wingfoot shall obligate Wingfoot to convey an amount of Wingfoot's TIC Interest to Greeley as described in this Section 10.2. Wingfoot shall satisfy this obligation on a semiannual basis. On February 1 and August 1 of each year, Greeley and Wingfoot shall calculate the total number of Raw Water Credits issued to Wingfoot and the total number of Raw Water Credits released from the Credit Escrow pursuant to Article 11 during the preceding six months, but excluding the amount issued to a third-party pursuant to Section 8.2A (Conveyance) (collectively, the "Semester Total"). By each February 15 and August 15, Wingfoot shall convey to Greeley a fraction of the total interests in the Water Rights (out of Wingfoot's TIC Interest) with the (i) numerator being equal to the Semester Total and (ii) denominator being twelve thousand one hundred twenty-one (12,121) (i.e., the total authorized number of Raw Water Credits). Wingfoot shall convey any portion of Wingfoot's TIC Interest to Greeley in accordance with the terms and conditions of the Tenancy in Common Agreement and Section 8.2.B (Form of Conveyance). Upon the issuance of all of the Raw Water Credits available to Wingfoot under this Agreement, Wingfoot shall convey all of Wingfoot's TIC Interest to Greeley, at which point the tenancy in common shall terminate and one hundred percent (100%) ownership in and to the Water Rights will vest in Greeley, except to the extent that Greeley has assigned or encumbered any of its interest in the Tenancy in Common or the Water Rights.

10.3 Administration; Tracking.

A. Issuance. Greeley's Water and Sewer Department, acting on behalf of Greeley, (the "Department") shall establish and maintain a written record of all issued and outstanding Certificates (the "Registry"). The Registry shall include, but is not limited to, (i) the name of the person or entity to whom a Certificate has been issued or transferred ("Registered Owner"), (ii) the date of issuance or transfer, as applicable, (iii) the Registered Owner's contact information as of the date of the issuance or transfer, (iv) the Certificate Number affixed thereto, and (v) the number of Raw Water Credits evidenced thereby.

B. Assignment. A Certificate may be transferred in the Registry, in whole or in part, but only in whole numbers of Raw Water Credits, by the Registered Owner upon presentation of the original Certificate with the form of assignment thereon, properly executed and acknowledged. If Wingfoot is the Registered Owner and Wingfoot has not fully satisfied its Cash Contribution obligation, then Wingfoot must submit documentation and deposit or arrange for the deposit of funds as required by Section 9.1.B (Source of Funds) along with the original Certificate and the properly executed and acknowledged assignment. Certificates for fractional Raw Water Credits will not be issued or accepted by Greeley. If a Registered Owner assigns only a portion of the Raw Water Credits evidenced by a Certificate, then the Department will issue the first Certificate to the assignee for the amount assigned and a second Certificate to the assignor (i.e., the original Registered Owner) for the amount retained. The Department shall not be obligated to: (i) recognize any person or entity as the owner of a Certificate, or having any interest therein, who does not appear as the Registered Owner thereof in the Registry or (ii) issue or reissue a Certificate to a Registered Owner, including Wingfoot, who has failed to comply with this Section 10.3 with respect to the Raw Water Credits evidenced or to be evidenced by such Certificate, until such failure to comply is remedied or cured.

C. Redemption; Cancellation of Credit. A Registered Owner may redeem a Raw Water Credit in satisfaction of any cash-in-lieu fee obligation associated with the Registered Owner's request for water service as prescribed by the Raw Water Dedication Policy. If a Registered Owner presents a Certificate to Greeley and redeems a Raw Water Credit in satisfaction of the Raw Water Dedication Policy or if Wingfoot surrenders a Certificate evidencing put or called Raw Water Credits pursuant to Section 11.5 (Release; Payment; Cancellation of Raw Water Credits), then the Raw Water Credits so presented or acquired shall be deemed exercised and the Certificate or Certificates evidencing the same shall be cancelled.

10.4 Audit of Registry and Sales.

A. Wingfoot's Records. Upon no less than ten (10) days' written notice to Wingfoot, Greeley may audit Wingfoot's non-Confidential records related to the sale of Raw Water Credits or transfer, disposition, or encumbrance of the Water Rights. As used in the preceding sentence, "Confidential" means any documents or other information that Wingfoot believes in good faith would create a risk of financial or other injury if disclosed; provided, however, that proposed sale price and accounting of the Net Cash Proceeds of proposed or completed Third Party Transfers shall not be considered Confidential. Greeley agrees that it will not request an audit more than once in a calendar year, unless (a) an audit or investigation is required by any governmental or regulatory authority or (b) Greeley reasonably believes that an audit is necessary to address a potential breach of this Agreement. If during the course of an audit Greeley reasonably determines that Wingfoot has sold Raw Water Credits or transferred, disposed

or encumbered the Water Rights in a manner that (x) either (i) violates this Agreement or (ii) constitutes an Event of Default by Wingfoot, and (y) individually or in the aggregate has a Material Adverse Effect on Greeley's interest in the Assets, then Greeley shall provide written notice to Wingfoot and an opportunity to cure such default in accordance with Article 14. Upon Wingfoot's failure to cure such default, Greeley may pursue any applicable or available remedy under this Agreement.

B. Greeley's Records. Upon no less than then ten (10) days written notice to Greeley, Wingfoot may audit the Registry and Greeley's policies, procedures and records that relate to the maintenance of the Registry under this Agreement to ensure accurate and complete records consistent with Section 10.3 (Administration; Tracking). Wingfoot agrees that it will not request an audit more than once in a calendar year, unless (i) an audit or investigation is required by any governmental or regulatory authority or (ii) Wingfoot reasonably believes that an audit is necessary to address a potential breach of this Agreement. If during the course of an audit Wingfoot reasonably determines that the tracking of the Raw Water Credits in the Registry is deficient or that Greeley is in default of this Agreement (each, a "Registry Default"), then Wingfoot shall provide written notice to Greeley and an opportunity to cure such Registry Default in accordance with Article 14. If Greeley fails to cure such default, Wingfoot may pursue any applicable or available remedy under this Agreement including, but not limited to, the remedy in Section 10.4.C (Election to Require External Registrar) below. As used in this Section 10.4, "deficient" means that the administrator failed to (i) retain accurate records of ownership or redemption of Raw Water Credits, or (ii) record any transfer or issuance of Raw Water Credits within thirty (30) days of (x) receipt of the proper form of assignment, or (y) the date of such issuance, as the case may be.

C. Election to Require External Registrar. If, after notice and opportunity to cure, Greeley fails to cure either (i) a Registry Default, or (ii) an Event of Default arising from a breach of the provisions of Section 10.3 (Administration; Tracking), in each case, within thirty (30) days of receipt of notice from Wingfoot, and the Parties agree that this thirty (30) day period is the sole cure period under this Section 10.4.C and they shall disregard the application of any and all other cure periods set forth in this Agreement, then Wingfoot may elect to treat this Agreement as being in full force and effect and, upon delivering written notice to Greeley, Wingfoot may require that Greeley retain at Greeley's cost a financial institution experienced in maintaining similar registries to act as the registrar and administer the Registry until the earlier of December 31, 2009, or the last day upon which any Raw Water Credits remain outstanding.

10.5 Material Change to Market Value.

A. Raw Water Dedication Policy Changes.

(1) Revocation. If the City revokes or rescinds the Raw Water Dedication Policy to deny acceptance of Raw Water Credits (except as provided under Section 10.5.A. of this Agreement) prior to the earlier of December 31, 2009, or the date the last outstanding Raw Water Credit is redeemed, then Wingfoot may elect to terminate this Agreement and Wingfoot (and Credit Escrow Transferee) shall have the remedies provided in either Section 14.2.B(3) (Remedies, Generally) or 10.5.A(4) (Rights of Registered Owners Derived Solely from Certificate), or both, as applicable.

(2) Amendments.

(a) Adding New Sources. The City may amend the Raw Water Dedication Policy to accept a New Source (defined below) in dedication and satisfaction of its raw water requirements, provided that such amendment does not occur within ten (10) years of the Closing Date. A “New Source” shall mean raw water taken in dedication from a source other than water attributable to units or shares of the following: (i) Colorado Big-Thompson Project, (ii) Greeley-Loveland Irrigation Company, (iii) Seven Lakes Reservoir Company, (iv) Loveland and Greeley Reservoir Company, (v) Greeley Irrigation Company, and/or (vi) any other water right used to historically irrigate lands within the Service Area, provided that the dedication of such water rights is limited to the satisfaction of the non-potable demand and are used to continue irrigating the historically irrigated lands. If the City amends the Raw Water Dedication Policy to accept a New Source less than ten (10) years after the Closing Date, then Wingfoot may terminate this Agreement and Wingfoot (and Credit Escrow Transferee) shall have the remedies provided in either Section 14.2.B(3) (Remedies, Generally) or 10.5.A(4) (Rights of Registered Owners Derived Solely from Certificate), or both, as applicable.

(b) Limiting Redemption of Raw Water Credits. As of the Closing Date, the Raw Water Dedication Policy shall provide that a Registered Owner may satisfy up to one hundred percent (100%) of the Registered Owner’s cash-in-lieu fee obligation under the Raw Water Dedication Policy with Raw Water Credits. The City may amend the Raw Water Dedication Policy to limit a Registered Owner’s right to satisfy up to one hundred percent (100%) of the Registered Owner’s cash-in-lieu fee obligation with Raw Water Credits, provided that such amendment does not (i) occur on or before fifteen (15) years after the Closing Date, and (ii) reduce the proportion of Raw Water Credits that may be redeemed in satisfaction of a Registered Owner’s cash-in-lieu fee obligation below seventy-five percent (75%) of such obligation. If the City (i) amends the Raw Water Dedication Policy to limit, or (ii) otherwise reduces, a Registered Owner’s right to satisfy one hundred percent (100%) of the Registered Owner’s cash-in-lieu fee obligation with Raw Water Credits before fifteen (15) years after the Closing Date, then Wingfoot may terminate this Agreement and shall have the remedies provided in Section 14.2.B(3) (Remedies, Generally). If the City (i) amends the Raw Water Dedication Policy to limit, or (ii) otherwise reduces, a Registered Owner’s right to satisfy not less than seventy-five percent (75%) of the Registered Owner’s cash-in-lieu fee obligation with Raw Water Credits prior to the earlier of December 31, 2099, or the date the last outstanding Raw Water Credit is redeemed, then Wingfoot may terminate this Agreement and Wingfoot (and Credit Escrow Transferee) shall have the remedies provided in either Section 14.2.B(3) (Remedies, Generally) or 10.5.A(4) (Rights of Registered Owners Derived Solely from Certificate), or both, as applicable.

(c) Disadvantaging Raw Water Credits. Except as provided in Section 10.5.A(2)(c)(i) (Permissible Policy Change) and subject to Section 10.5.A(2)(c)(ii) (Objection to a Proposed Change), if the City amends or revises the Raw Water Dedication Policy or enters into an agreement pursuant to Section 14.06.190 of the City’s Municipal Code that has the effect of disadvantaging a Raw Water Credit relative to other sources or means of satisfying the City’s raw water dedication requirements prior to the earlier of December 31, 2099, or the date the last outstanding Raw Water Credit is redeemed, then Wingfoot may elect to terminate this Agreement and Wingfoot (and Credit Escrow Transferee) shall have the remedies provided in

either Section 14.2.B(3) (Remedies, Generally) or 10.5.A(4) (Rights of Registered Owners Derived Solely from Certificate), or both, as applicable.

(i) Permissible Policy Changes. Notwithstanding Section 10.5.A.(2)(c) (Disadvantaging Raw Water Credits) above and subject to Section 10.5.A(2)(c)(ii) (Objection to a Proposed Change), the City may amend or revise the Raw Water Dedication Policy to: (i) address non-substantive administrative, clerical, or procedural changes, including but not limited to any municipal code renumbering, that do not have the effect of disadvantaging a Raw Water Credit relative to other sources or means of satisfying the City's raw water dedication requirements; (ii) reflect or address a change in water use and/or consumption that is supported by economic or scientific analysis and is consistent with reasonable industry practice; or (iii) comply with applicable federal and state law (each a "Permissible Policy Change"). The intent of a Permissible Policy Change is to narrowly tailor such change to minimize a reduction or adverse change in the value of the Raw Water Credits. Subject to the process set forth in Section 10.5.A(2)(c)(ii) (Objection to a Proposed Change), if the City amends or revises the Raw Water Dedication Policy and such amendments or revisions do not qualify as a Permissible Policy Change prior to the earlier of December 31, 2099, or the date the last outstanding Raw Water Credit is redeemed, then Wingfoot may terminate this Agreement and Wingfoot (and Credit Escrow Transferee) may exercise the remedies under either Section 14.2.B(3) (Remedies, Generally) or Section 10.5.A(4) (Rights of Registered Owners Derived Solely from Certificate), or both, as applicable.

(ii) Objection to a Proposed Change. If the City approves an agreement pursuant to Section 14.06.190 of the Greeley Municipal Code or adopts an amendment or revision to the Raw Water Dedication Policy in a manner that is inconsistent with or otherwise violates Section 10.5.A(2)(c) (Disadvantaging Raw Water Credits) or Section 10.5.A(2)(c)(i) (Permissible Policy Changes) prior to the earlier of December 31, 2099, or the date the last outstanding Raw Water Credit is redeemed, then the Certificate shall provide a means for all Registered Owners (including Wingfoot and Credit Escrow Transferee) to object to such amendments or revisions consistent with the following process. All Registered Owners will be deemed to have notice of any agreement approved pursuant to Section 14.06.190 or any amendment or revision to the Raw Water Dedication Policy adopted pursuant to such policy if the City follows its normal ordinance adoption, hearing and publication requirements in accordance with C.R.S. §24-6-402(2)(c), Section 3-17 of the City's Charter, and the Raw Water Dedication Policy. Registered Owners may object to the proposed final approval of any such agreement or the proposed final adoption of any such amendment or revision to the Raw Water Dedication Policy by providing written notice to the Department (an "Objection"), certified by a majority of the Registered Owners of the then-outstanding Raw Water Credits (through a duly-appointed "Committee Representative", the "Registered Owner Committee"), no less than five (5) days prior to the date of the public hearing of the ordinance approving an agreement pursuant to Section 14.06.190 or adopting an amendment or revision to the Raw Water Dedication Policy. In accordance with Section 3-17 and the Raw Water Dedication Policy, the date of the public hearing shall be published after the first reading and shall be set for a date no less than twenty-eight (28) days after the first reading. The Objection shall include the Registered Owner Committee's basis for the Objection and, to the extent possible, suggested modifications that would resolve the Objection. After receipt of such Objection, the Department shall remove the ordinance approving the agreement or adopting the amendment or revision to the Raw Water Dedication Policy from

the City Council's agenda. Thereafter, the Department, and the Committee Representative shall have thirty (30) days from the date of receipt of the Objection to resolve the Objection. If the Committee Representative does not withdraw the Objection, in writing, thirty (30) days from the date of receipt of the Objection, then the Department and the Committee Representative shall submit the agreement or amendments or revisions, along with each party's respective position, to an economist or engineer, agreeable to both parties, who is a Colorado based utility rate or policy expert, to determine whether the agreement violates Section 10.5.A(2)(c) (Disadvantaging Raw Water Credits) or the amendment or revision qualifies as a Permissible Policy Change. The economist or engineer's findings shall be binding on Greeley and the Registered Owner Committee (acting by and through the Committee Representative). If the economist or engineer finds that the agreement does not violate Section 10.5.A(2)(c) (Disadvantaging Raw Water Credits) or that the amendment or revision qualifies as a Permissible Policy Change, then the Registered Owners shall not be entitled to exercise the remedy defined in Section 10.5.A(4) (Rights of Registered Owners Derived Solely from Certificate) pursuant to Section 10.5.A(2)(c) (Disadvantaging Raw Water Credits) or Section 10.5.A(2)(c)(i) (Permissible Policy Changes), as the case may be. If the economist or engineer finds (x) either (i) that the agreement violates Section 10.5.A(2)(c) (Disadvantaging Raw Water Credits) or (ii) that the amendment or revision does not qualify as a Permissible Policy Change and (y) the City does not amend or reject the agreement or the ordinance amending or revising the Raw Water Dedication Policy to resolve or otherwise satisfy the Registered Owner Committee's Objection, then a Registered Owner may surrender all or a portion of the Raw Water Credits (but only in whole numbers of Raw Water Credits) held by such Registered Owner to the Department and exercise the remedy defined in Section 10.5.A(4) (Rights of Registered Owners Derived Solely from Certificate) pursuant to Section 10.5.A(2)(c) (Disadvantaging Raw Water Credits) or Section 10.5.A(2)(c)(i) (Permissible Policy Changes), as the case may be. If the Registered Owner Committee, acting by and through a Committee Representative, does not provide an Objection to the Department, five (5) days prior to the date of the public hearing of the ordinance approving an agreement pursuant to Section 14.06.190 or adopting an amendment or revision to the Raw Water Dedication Policy, then each Registered Owner shall be deemed to have consented to the agreement or to have accepted the amendment or revision to the Raw Water Dedication Policy as a Permissible Policy Change. Nothing in this Section 10.5.A(2)(c)(ii) shall be read to limit the Registered Owner Committee or individual Registered Owners from participating in any public hearing on an ordinance approving an agreement pursuant to Section 14.06.190 or amending or revising the Raw Water Dedication Policy. In addition to the foregoing, if Wingfoot has not conveyed one hundred percent (100%) of Wingfoot's TIC Interest when the economist or engineer finds that (x) either (i) the agreement violates Section 10.5.A(2)(c) (Disadvantaging Raw Water Credits) or (ii) that the amendment or revision does not qualify as a Permissible Policy Change, and (y) the City does not amend or reject the agreement or the ordinance amending the Raw Water Dedication Policy to resolve or otherwise satisfy the Registered Owner Committee's Objection, then Wingfoot may terminate this Agreement and Wingfoot (and Credit Escrow Transferee) may exercise the remedies under either Section 14.2.B(3) or Section 10.5.A(4) (Rights of Registered Owners Derived Solely from Certificate), or both, as applicable.

(3) Reserved.

(4) Rights of Registered Owners Derived Solely from Certificate. The form of the Certificate shall include the terms of Section 10.5.A(1) (Revocations) and Section

10.5.A(2) (Amendments). If, prior to the earlier of December 31, 2099 or the date the last outstanding Raw Water Credit is redeemed, Greeley (i) revokes or rescinds the Raw Water Dedication Policy pursuant to Section 10.5.A(1) (Revocation), (ii) adds a new source in violation of Section 10.5.A(2)(a) (Adding New Sources), (iii) limits or reduces the redemption of the Raw Water Credits or otherwise is in violation of Section 10.5.A(2)(b) (Limiting Redemption of Raw Water Credits), (iv) enters into an agreement that violates Section 10.5.A(2)(c) (Disadvantaging Raw Water Credits), or (v) approves an amendment or revision that does not qualify as a Permissible Policy Change pursuant to Section 10.5.A(2)(c)(ii), then, subject to Section 17.21 (Integrated Agreement), a Registered Owner's exclusive remedy shall be to have the option to surrender all or a portion of the Raw Water Credits (but only in whole numbers of Raw Water Credits) held by such Registered Owner to Greeley, and Greeley shall be obligated to buy back the surrendered Raw Water Credits at the greater of (a) thirty thousand dollars (\$30,000) per Raw Water Credit in 2020 escalated three percent (3%) compounded annually thereafter, or (b) the three-year trailing average of Greeley's cash-in-lieu price, as defined by the Raw Water Dedication Policy. The form of the Certificate shall include the foregoing remedies and the instrument through which a Registered Owner shall exercise such rights and remedies, except that any rights and remedies of Wingfoot or a Credit Escrow Transferee shall not be limited or waived by this Section 10.5.A(4).

B. Cash-In-Lieu. If Greeley's calculated cash-in-lieu requirement, as provided in the Raw Water Dedication Policy, falls below thirty thousand dollars (\$30,000) per acre-foot ("Base Amount") in any year prior to the earlier of (i) December 31, 2099 or (ii) the date that Wingfoot transfers and assigns its last Raw Water Credit to a third-party as evidenced by the Registry, Greeley shall compensate Wingfoot by paying the Specified Difference to Wingfoot each year Greeley's calculated cash-in-lieu requirement falls below the Base Amount. The Specified Difference shall be an amount equal to the product of the number of Raw Water Credits (including the Released Credits) sold by Wingfoot to a third-party and the difference between the Base Amount and the cash-in-lieu requirement set for that year ("Specified Difference") which shall be considered liquidated damages pursuant to Section 14.2.C (Remedies, Generally). The Specified Difference shall be calculated one (1) year after each reduction in cash-in-lieu requirement becomes effective and shall be due and payable to Wingfoot thirty (30) days thereafter and shall only be payable to Wingfoot.

ARTICLE 11 PUT AND CALL OPTIONS

11.1 Options.

A. Call Option. Each calendar year, beginning in 2021 and expiring after July 15, 2045 ("Option Period"), Greeley may purchase (in its sole discretion), and Wingfoot shall sell, up to one hundred sixty-seven (167) Escrowed Credits (defined below) at the Option Price on an annual basis ("Call Option"), if Greeley timely delivers to Wingfoot and Credit Escrow Agent (defined below) the Call Notice (defined below). To exercise its Call Option, Greeley must provide written notice to Wingfoot and Credit Escrow Agent on or before June 8th of such calendar year ("Call Notice").

B. Put Option. Each calendar year, during the Option Period, Wingfoot may sell (in its sole discretion), and Greeley shall purchase, up to one hundred sixty-seven (167) Escrowed Credits at the Option Price on an annual basis ("Put Option"), if Wingfoot timely delivers to Greeley and Credit Escrow Agent the Put Notice (defined below). To exercise its Put Option, Wingfoot must provide written notice to Greeley and Credit Escrow Agent on or before July 15 of such calendar year ("Put Notice"). Wingfoot may also provide notice to Greeley and the Credit Escrow Agent at any date during the Option Period on or after June 8 of a commitment to not exercise the Put Option in any given year (a "Release Notice") subject to any terms or conditions agreed by Wingfoot (or Credit Escrow Transferee) in any applicable indenture, assignment or pledge.

11.2 Escrowed Credits. For the purpose of reserving sufficient Raw Water Credits to support the Put Option and the Call Option, at Closing, the Parties shall execute an escrow agreement, substantially in the form attached hereto as Exhibit R (the "Credit Escrow"), with an escrow agent (the "Credit Escrow Agent") to manage the deposit and release of twenty-five (25) Certificates, each evidencing one hundred sixty-seven (167) Raw Water Credits ("Escrowed Credits") during the Option Period. Further, the Credit Escrow Agent will manage the deposit and release of an additional twenty-five (25) Certificates, each evidencing one hundred sixty-seven (167) Raw Water Credits deposited pursuant to Section 6.2, which shall not be considered Escrowed Credits for purposes of this Article 11. Notwithstanding the preceding sentence, the Parties acknowledge and agree that the Credit Escrow attached hereto may be subject to revision as may be necessary or convenient to obtain approval from the Credit Escrow Agent. Escrowed Credits held in escrow for the benefit of Wingfoot, or any duly-approved assignee hereunder (including Credit Escrow Transferee), shall be considered issued for all purposes.

11.3 Released Credits. To the extent that the Put Option and/or Call Option are not exercised in full in any calendar year with respect to all of the one hundred sixty seven (167) annual Escrowed Credits (such non-exercised credits being referred to as the "Released Credits"), then all Released Credits shall no longer be subject to the Put Option or the Call Option in future years. If neither the Put Option nor Call Option are exercised in any given calendar year, then on the earlier to occur of (i) the Credit Escrow Agent's receipt of a Release Notice; or (ii) July 16 of such year, the Credit Escrow Agent shall promptly deliver a Certificate representing all such Released Credits to Wingfoot, and, prior to the date which is ten (10) years after the Closing Date, the same amount shall be added to the Semester Total under Section 10.2 (Transfer of Tenancy in Common Interest). If the Put Option and/or Call Option are exercised in part or in full in any calendar year, then Section 11.5 (Release; Payment; Cancellation of Raw Water Credits) shall also apply. Notwithstanding anything to the contrary, Wingfoot shall retain one hundred percent (100%) of the proceeds received by it from the sale of any Released Credits.

11.4 Contents of Notices; Acknowledgement. Each Call Notice and Put Notice shall contain (a) the number of Raw Water Credits to which the Call Option or Put Option is being exercised ("Exercised Credits"), (b) the Option Price, and (c) the product of the Option Price and Exercised Credits (the "Exercise Price"), with respect to such Call Option or Put Option being exercised.

11.5 Release; Payment; Cancellation of Raw Water Credits. On July 16 of each year, in the event that the Put Option and/or Call Option is properly exercised by providing a timely Put

Notice or Call Notice, respectively (each, an “Exercise Event”), then (i) the Credit Escrow Agent shall release one (1) Certificate evidencing one hundred sixty-seven (167) Raw Water Credits to Greeley (the “Surrendered Certificate”) and (ii) the same amount shall be added to the Semester Total under Section 10.2. (Transfer of Tenancy in Common Interest). If an Exercise Event occurs in any calendar year as described in the preceding sentence, Wingfoot shall provide Greeley with wire transfer instructions (which may be included in the Put Notice, if applicable) on or before August 1. On or before the fifth (5th) business day after receipt of both the wire transfer instructions and the Surrendered Certificate, Greeley shall (x) pay Wingfoot the Exercise Price under the Put Notice and/or Call Notice, as applicable, and (y) Greeley shall issue Wingfoot a Certificate for the total Released Credits, if any, not exercised as part of any Exercise Event. Notwithstanding anything to the contrary, in addition to proceeds received from sales of any Released Credits, Wingfoot may retain one hundred percent (100%) of the Exercise Price and none of the Exercise Price shall be required to be put into any escrow or otherwise withheld.

11.6 Annual Limit. The annual aggregate maximum amount of Raw Water Credits that can be sold and purchased under the Put Option and Call Option shall be one hundred sixty-seven (167). Greeley shall not be obligated to purchase, and Wingfoot shall not be obligated to sell, more than an aggregate of one hundred sixty-seven (167) Raw Water Credits in any one year under the combined Call Option and Put Option for such calendar year.

11.7 Assignment; Transfer. Wingfoot, or any of its duly-authorized successors or assigns, may assign all of its rights (or remaining rights) under this Article 11 to a third-party and the Credit Escrow (such third party, a “Credit Escrow Transferee”), provided that the form of assignment (and any subsequent reassignment) shall be approved by Greeley in its reasonable discretion. On or shortly after Closing, Wingfoot intends to assign all of its rights under this Article 11 to a third-party directly or indirectly owned or controlled by HA I, LLC, which entity, as Credit Escrow Transferee, intends to assign its rights, remedies and obligations under this Article 11, including an assignment of revenues derived from the rights and/or obligations, to an indenture trustee in connection with financing secured by Wingfoot. In anticipation of that assignment, the Parties have agreed that Greeley shall issue a series of twenty-five (25) Certificates in the name of Wingfoot and a second series of twenty-five (25) Certificates, which have been duly assigned by Wingfoot, in the name of the Credit Escrow Transferee and to deliver both series of Certificates to the Credit Escrow Agent at Closing. Upon assignment of Wingfoot’s rights under this Article 11 and the Credit Escrow to a Credit Escrow Transferee, the following shall occur: (i) the Credit Escrow Agent shall be directed to release to Greeley (for cancellation by Greeley) the twenty-five (25) Certificates held in the name of Wingfoot, each evidencing 167 Escrowed Credits, along with the duly executed assignment by Wingfoot to the Credit Escrow Transferee; (ii) the Credit Escrow Agent shall be directed to continue to maintain custody of the remaining twenty-five (25) Certificates evidencing the issued but unreleased Escrowed Credits in the name of and for the benefit of the Credit Escrow Transferee; (iii) the total number of Raw Water Credits (totaling 4,175 credits) that are in the name of Wingfoot and released to Greeley pursuant to 11.7(i) shall be added to the applicable Semester Total under Section 10.2 (Transfer of the Tenancy in Common Interest); (iv) the Credit Escrow Agent shall be directed to accept notices and instructions from the Credit Escrow Transferee (including the Put Notice, Release Notice, and rights to the Released Credits) as though it were a party (as if it was Wingfoot) to this Agreement and the Credit Escrow; and (v) Wingfoot shall covenant and agree, for itself, its successors and assigns, to indemnify, protect, defend and hold harmless Greeley, its successors and assigns, from and against any and all

damages, losses, liabilities, obligations, penalties, claims, litigation, demands, defenses, judgments, suits, actions, proceedings, costs, disbursements and/or expenses (including without limitation reasonable attorneys' fees) which are imposed upon or incurred by Greeley, its successors or assigns, for claims by any Credit Escrow Transferee against Greeley for breaches by Wingfoot of the assignment (described in this Section 11.7) to any Credit Escrow Transferee. Wingfoot agrees that the foregoing covenants and agreements shall survive any subsequent assignment. The Parties expressly acknowledge that an assignment of Wingfoot's or Credit Escrow Transferee's rights, remedies and obligations under this Article 11, including an assignment of revenues derived from the rights and/or obligations under this Article 11, to an indenture trustee in connection with financing secured by Wingfoot or Credit Escrow Transferee shall be permitted, provided such assignment otherwise complies with this Section 11.7. Upon assignment of Wingfoot's (or any subsequent Credit Escrow Transferee's) rights under this Article 11, the Credit Escrow Transferee shall be entitled to enforce Wingfoot's rights and remedies pursuant to Article 14 (Post-Closing Defaults and Remedies) and Section 10.5 (Material Change to Market Value), as may be applicable and to the extent of the Escrowed Credits, (i) in the event of any Greeley breach of its obligations under this Article 11, any default by Greeley under Article 14 or as may be owed to the Credit Escrow Transferee, or (ii) to otherwise enforce the protections applicable to the Escrowed Credits (including protections generally inuring to the benefit of the Raw Water Credits) under this Agreement. In addition, the Credit Escrow Transferee shall have the rights applicable to a Registered Owner under the Escrowed Credits, and shall be treated as the Registered Owner of the Escrowed Credits for such purpose (including, without limitation, for purposes of enforcing its remedies under the terms of the Certificates). Following transfer or assignment of Wingfoot's obligations, rights, and remedies pursuant to this Section 11.7, all references to Wingfoot in Article 11 shall mean and refer to Credit Escrow Transferee and its duly authorized successors and assigns.

11.8 Termination of Article 11. Except as otherwise provided, this Article 11 shall terminate at expiration of the Option Period. Upon expiration of the Option Period, all rights, remedies, and obligations under this Article 11 shall terminate, except for such rights, remedies and obligations that are left unperformed as of the date of the end of the Option Period. Subject to the preceding sentence, on termination of Article 11, Credit Escrow Transferee shall have remedies only under the terms of the Certificates it holds as a Registered Owner and not under this Agreement.

11.9 Treatment of Semester Total Following Assignment. Notwithstanding anything to the contrary in this Article 11 (including but not limited to Sections 11.3 and 11.5), exercise or release of any Escrowed Credits under this Article 11 shall not impact the Semester Total subsequent to Wingfoot's transfer or assignment of this Article 11 to a Credit Escrow Transferee pursuant to Section 11.7, the intent being that Wingfoot has transferred the amount of Wingfoot's TIC Interest that corresponds to the Escrowed Credits upon assignment of this Article 11.

ARTICLE 12
REVENUE SHARING

12.1 Revenue Sharing.

A. Use; Outside Customers Non-Municipal. From the Closing Date until the earlier of December 31, 2055, or twenty-five (25) years after Greeley has certified completion of the Project Infrastructure, Wingfoot shall be entitled to receive an amount equal to fifty percent (50%) of the Net Revenue generated by Greeley from the sale or lease of the untreated, raw water attributable to the Water Rights or the State Land Board Lease to non-municipal, non-domestic customers, including but not limited to oil and gas operators and agricultural water users. For this purpose, “Net Revenue” means an amount equal to the net proceeds of such sales or leases after deduction of power costs for any pumping required to deliver such water. Wingfoot shall also receive an amount equal to fifty percent (50%) of any revenue derived from the operation of power generation facilities constructed as part of the Project Infrastructure for a period of twenty-five (25) years after completion of the Project Infrastructure (“Power Revenue Interest”). In the event power generating facilities are completed as part of the Project Infrastructure prior to December 31, 2055, then on or before December 31, 2055, Greeley and Wingfoot shall appoint an independent third-party expert, agreeable to both Greeley and Wingfoot, who is an expert in power generation and valuation, to perform a valuation of the obligation of Greeley to pay the remaining 25-year Power Revenue Interest to Wingfoot beyond December 31, 2055 in addition to any then unpaid Power Revenue Interests (the “Power Valuation”) and deliver a written report of the Power Valuation to Greeley and Wingfoot. Within thirty (30) days of receipt of such report, Greeley shall purchase the remaining, unpaid Power Revenue Interest for the amount of the Power Valuation (the “Power Transaction”). Greeley shall determine in its sole discretion whether to sell or lease the untreated, raw water attributable to the Water Rights and the State Land Board Lease, and at what rate, and whether to install power generating capabilities. This provision shall only apply to the untreated, raw water attributable to the Water Rights and the State Land Board Lease, but shall not apply to the revenue generated from the sale or lease of wholly consumable effluent associated with Greeley’s use of the water attributable to the Water Rights and/or the State Land Board Lease.

B. Outside Customers. From the Closing Date until the earlier of December 31, 2050, or twenty-five (25) years after Greeley has certified completion of the Project Infrastructure, Wingfoot shall be entitled to receive an amount equal to fifty cents (\$0.50) per one-thousand (1,000) gallons of treated water attributable to the Water Rights and/or the State Land Board Lease and delivered by Greeley to municipal and domestic water users located outside of the Service Area. Greeley shall maintain and make available to Wingfoot on request, flow records and water rights accounting for any deliveries outside the Service Area.

ARTICLE 13
CONDITIONS OF CLOSING

13.1 Wingfoot’s Conditions. Wingfoot’s obligation to sell, convey and assign, as applicable, the Assets at Closing under this Agreement is subject to the satisfaction of the following conditions precedent or conditions concurrent (the satisfaction of which may be waived only in

A. Delivery and execution by Greeley of all monies, items, and other instruments required to be delivered by Greeley at or prior to the Closing.

B. All of the actions contemplated by this Agreement to have been performed by Greeley at or before Closing shall have been completed.

D. The pre-closing conditions under Section 6.1.A (Governing Body Approval) and B (Raw Water Dedication Policy) have been satisfied.

E. The warranties and representations made by Greeley as specifically set forth in Greeley's General Representations, attached as Exhibit K, shall be true and correct in all material respects as of the Closing Date, and the warranties and representations made by Greeley as specifically set forth in the Environmental Representations and Warranties, attached as Exhibit H, shall be true and correct in all material respects as of the Closing Date.

F. No Credit Event shall have occurred and be continuing with respect to Greeley.

13.2 Greeley's Conditions. The obligation of Greeley to acquire and assume, as applicable, the Assets at Closing under this Agreement is subject to the satisfaction of the following conditions precedent or conditions concurrent (the satisfaction of which may be waived only in writing by Greeley). If Greeley elects not to close this transaction for failure of a condition, this Agreement shall terminate.

A. Delivery and execution by Wingfoot of all items and other instruments required to be delivered by Wingfoot at or prior to the Closing.

B. All of the actions contemplated by this Agreement to have been performed by Wingfoot at or prior to Closing shall have been completed.

C. There being no uncured default by Wingfoot of any of its material obligations under this Agreement resulting in a Material Adverse Effect.

D. No Credit Event shall have occurred and be continuing with respect to Wingfoot.

E. That the pre-closing condition under Section 6.1.A (Governing Body Approval) has been satisfied.

F. That the warranties and representations made by Wingfoot as specifically set forth in Wingfoot's General Representations and Warranties, attached as Exhibit J, and the Environmental Representations and Warranties, attached as Exhibit G, shall be true and correct in

all material respects as of the Closing Date and shall not be deemed waived in the event Greeley shall elect to close pursuant to Section 13.3.A(3) (Failure of Condition) below.

13.3 Failure of Condition.

A. Except (i) as set forth in subparagraph B below and (ii) for failure of the condition set forth in Section 13.2.E (Greeley's Conditions) which shall be subject to Section 6.1.A (Governing Body Approval), in the event of a failure of any condition contained in Section 13.2 (Greeley's Conditions), Greeley may in its sole discretion:

(1) Terminate this Agreement by written notice to Wingfoot, in which event: (a) all funds deposited by Greeley under this Agreement as of such date shall be immediately returned to Greeley and (b) Greeley shall be entitled to reimbursements from Wingfoot and Wingfoot shall be obligated to pay Greeley for all reasonable, out-of-pocket costs incurred by Greeley subsequent to the Effective Date and prior to the termination arising from or in connection with this Agreement, which shall include but is not limited to the Inspection Costs; or

(2) Greeley may waive such default or condition and effectuate the Closing; or

(3) If the failure of condition consists of a default by Wingfoot that can be cured by action within the reasonable control of Wingfoot, Greeley may elect to treat this Agreement as being in full force and effect and Greeley shall have the right to specific performance, monetary damages arising out of such default, or both, EXCEPT THAT GREELEY SPECIFICALLY WAIVES ANY SPECIAL, CONSEQUENTIAL, PUNITIVE, SPECULATIVE OR INDIRECT DAMAGES.

B. In the event of a failure of any condition contained in Section 13.1 (Wingfoot's Conditions) above, Wingfoot may in its sole discretion:

(1) Terminate this Agreement by written notice to Greeley, in which event Wingfoot shall retain the Deposit, as liquidated damages pursuant to Section 13.4 (Pre-Closing Liquidated Damages), in addition to reimbursements from Greeley of all of Wingfoot's reasonable, out-of-pocket costs incurred by Wingfoot subsequent to the Effective Date and prior to the termination arising from or in connection with this Agreement; or

(2) Wingfoot may waive such default or condition and effectuate the Closing and Wingfoot shall have the right to recover monetary damages arising out of such default, EXCEPT THAT WINGFOOT SPECIFICALLY WAIVES ANY SPECIAL, CONSEQUENTIAL, PUNITIVE, SPECULATIVE OR INDIRECT DAMAGES.

WINGFOOT HEREBY WAIVES ANY RIGHTS IT MAY HAVE TO SPECIFIC PERFORMANCE IN THE EVENT OF A DEFAULT BY GREELEY.

13.4 Pre-Closing Liquidated Damages. If Greeley defaults in any of its obligations under this Agreement prior to Closing and Wingfoot does not waive the default, Wingfoot's sole remedy shall be to terminate this Agreement and retain the amount of the Deposit as liquidated damages in addition to reimbursements from Greeley of all of Wingfoot's reasonable, out-of-

pocket costs incurred by Wingfoot subsequent to the Effective Date and prior to the termination arising from or in connection with this Agreement. WINGFOOT AND GREELEY ACKNOWLEDGE THAT WINGFOOT'S DAMAGES WOULD BE DIFFICULT TO DETERMINE AND THAT THE DEPOSIT AND REIMBURSEMENTS IS A REASONABLE ESTIMATE OF WINGFOOT'S DAMAGES.

ARTICLE 14
POST-CLOSING DEFAULTS AND REMEDIES

14.1 Events of Default. After Closing, each of the following shall constitute an “Event of Default”:

A. Failure by either Party to make any payment or deposit when due.

B. Default by either Party in the due and punctual performance of any of its covenants, conditions, agreements or other provisions contained in this Agreement on its part to be performed, if such default continues for thirty (30) days after written notice specifying such default and requiring the same to be remedied is given by the non-defaulting Party; provided that if such default cannot be cured within such thirty (30) days, and during such thirty (30) day period the defaulting Party has taken commercially reasonable efforts to remedy such default and subsequently is diligently pursued to the completion of such performance, an Event of Default shall not be deemed to have occurred until ninety (90) days after written notice has been delivered.

C. Subject to the survival provisions of Section 17.9 (Survival), any of the representations or warranties made by a Party shall prove to have been materially incorrect under the circumstances when made.

D. The occurrence and continuation of a Credit Event with respect to either Party.

14.2 Remedies, Generally. Upon the occurrence and continuation of an Event of Default, the following remedies shall be available to the Parties:

A. Except as provided in Section 14.3.A (Special Provisions for Liquidated Damages) below, if an Event of Default by Wingfoot, Greeley may in its sole discretion:

(1) Waive such default or condition; or

(2) If the Event of Default by Wingfoot can be cured by action within the reasonable control of Wingfoot, then Greeley may elect to treat this Agreement as being in full force and effect and Greeley may suspend its obligation to issue, reissue, acquire or buy Raw Water Credits, except as may be required by Article 11 (Put and Call Options) (which obligations may not be suspended by Greeley, subject to Section 11.8), until the default is cured, and shall have the right to specific performance, damages, or both, EXCEPT THAT GREELEY SPECIFICALLY WAIVES ANY SPECIAL, CONSEQUENTIAL, PUNITIVE, SPECULATIVE OR INDIRECT DAMAGES; or

(3) If the Event of Default by Wingfoot consists of a failure under Section 9.1.A (Deposit Due) to deposit the Initial Contribution within ninety (90) days of the Closing Date, then this Agreement shall automatically terminate, in which event: (a) the Purchase Price shall be returned to Greeley; (b) the Initial Tenancy in Common Interest shall be conveyed back to Wingfoot, along with a re-assignment of the Ancillary Assets and the State Land Board Lease; and (c) all documents deposited by Greeley or delivered to Wingfoot by Greeley shall be immediately returned to Greeley, if any, and all documents deposited by Wingfoot or delivered to Greeley by Wingfoot shall be immediately returned to Wingfoot, if any. In addition, Greeley shall be entitled to reimbursements from Wingfoot and Wingfoot shall be obligated to pay Greeley for all reasonable, third party out-of-pocket costs incurred by Greeley subsequent to the Effective Date but prior to the termination, which shall include but not be limited to the Inspection Costs. Upon termination, all other rights and obligations of the Parties shall be terminated under this Agreement, except for the covenants, agreements and monetary obligations contained in Section 17.9 (Survival) which shall survive the Termination of this Agreement, for the time period(s) specified therein, and the rights and obligations of the Registered Owners of any Certificates remaining outstanding.

(4) If the Event of Default consists of a default by Wingfoot under Section 9.2.B (Failure to Fund the Cash Contribution) or Section 14.1.D (Credit Event) then Greeley may elect to terminate this Agreement by delivering written notice to Wingfoot, in which event, as Liquidated Damages pursuant to Section 14.3.A (Special Provision for Liquidated Damages), Greeley may elect to require that Wingfoot convey the entirety of Wingfoot's TIC Interest to Greeley, and, in the event of a default by Wingfoot under Section 9.2.B (Failure to Fund the Cash Contribution), Wingfoot shall continue to be subject to its Deposit Obligation under Section 9.1.B (Source of Funds) until Wingfoot's Cash Contribution obligation is fully satisfied (as provided in Section 9.2.B (Failure to Fund the Cash Contribution)). Upon termination, all other rights and obligations of the Parties shall be terminated under this Agreement except for the covenants, agreements and monetary obligations contained in Section 17.9 (Survival) which shall survive the Termination of this Agreement, for the time period(s) specified therein, and the obligations, liabilities, covenants, agreements and monetary obligations contained in following Article(s), Section(s) or term(s) which shall survive the Termination of this Agreement: (i) Article 11 (Put and Call Options) subject to Section 11.8; (ii) Wingfoot's Deposit Obligation under Section 9.1.B (Source of Funds), which shall survive until the Cash Contribution is satisfied as provided in Section 9.1.B (Source of Funds); and (iii) Section 17.18 (Limited Source of Payments by Greeley), which shall survive as long as Greeley has obligations to Wingfoot or any assignee or Credit Escrow Transferee hereunder; and (iv) Section 10.5 (Material Change to Market Value), which shall survive (a) as long as Wingfoot remains a Registered Owner and (b) until Article 11 terminates pursuant to Section 11.8.

B. If the Event of Default consists of a default by Greeley under Section 14.1.B or C (Events of Default) above, Wingfoot may in its sole discretion:

- (1) Waive such default or condition; or
- (2) If the default by Greeley can be cured by action within the reasonable control of Greeley, then Wingfoot may elect to treat this Agreement as being in full force and effect and Wingfoot shall have the right to specific performance, damages, or both,

EXCEPT THAT WINGFOOT SPECIFICALLY WAIVES ANY SPECIAL, CONSEQUENTIAL, PUNITIVE, SPECULATIVE OR INDIRECT DAMAGES.

(3) If the default consists of a default by Greeley under Section 10.5.A.(1) (Revocation) or (2) (Amendments), 17.11 (Assignment), 14.1.A. or 14.1.D (Events of Default), then, as Liquidated Damages pursuant to Section 14.3.B (Special Provision for Liquidated Damages), Wingfoot may elect to terminate this Agreement by delivering written notice to Greeley, in which event, (i) Wingfoot (or the Credit Escrow Transferee, as the case may be) shall have the option to sell to Greeley, and Greeley shall be obligated to purchase, all unissued Raw Water Credits and all current Escrowed Credits (i.e., all Raw Water Credits remaining to be issued to Wingfoot or remaining with the Credit Escrow Agent pursuant to the Credit Escrow as of the date of such termination and whether or not considered issued under this Agreement) at the greater of (a) a price of thirty thousand dollars (\$30,000) per Raw Water Credit in 2020 escalated three percent (3%) compounded annually thereafter, or (b) the 3-year trailing average of Greeley's cash-in-lieu price; and (ii) Wingfoot shall be entitled to all funds remaining in the Construction Escrow as of the date of default by Greeley. If Wingfoot exercises such election, then upon receipt of the full cash payment, Wingfoot shall concurrently convey its entire TIC Interest to Greeley in accordance with Section 10.2 (Transfer of the Tenancy in Common Interest) as if the unissued Raw Water Credits had been issued to Wingfoot and the Escrowed Credits released. Upon termination, all other rights and obligations of the Parties shall be terminated under this Agreement except for the covenants, agreements and monetary obligations contained in Section 17.9 (Survival) which shall survive the Termination of this Agreement for the time period(s) specified therein. For the avoidance of doubt, Credit Escrow Transferee may elect to terminate that portion of this Agreement duly assigned to it pursuant to Section 11.7, and be entitled to sell to Greeley (and obligate Greeley to purchase) such assigned, unreleased Escrowed Credits pursuant to this Section 14.2.B(3). For purposes of exercising its rights under this Section, a Credit Escrow Transferee shall only have the right to terminate Article 11 of this Agreement (and only to the extent of its assignment and assumption of such Article pursuant to the terms of this Agreement), by delivering written notice to Greeley pursuant to this Section 14.2.B.(3), and provided that such termination by a Credit Escrow Transferee shall (i) be without regard to Wingfoot's election to terminate, and (ii) not affect the rights, obligations or remedies retained by Wingfoot pursuant to this Agreement.

(4) If the Event of Default consists of a default by Greeley under Section 10.3 (Administration; Tracking), then Wingfoot may elect to treat this Agreement as being in full force and effect and, upon delivering written notice to Greeley, Wingfoot may require that Greeley retain a financial institution, reasonably acceptable to Greeley and experienced in maintaining similar registries, to act as the registrar and administer the Registry until December 31, 2099 or such earlier date as the last outstanding Raw Water Credit has been redeemed.

C. If the Event of Default consists of a default by Greeley under Section 10.5.B (Cash-in-Lieu), then, as Liquidated Damages pursuant to Section 14.3.C (Special Provisions for Liquidated Damages), Wingfoot may elect to treat this Agreement as being in full force and effect and, upon delivering written notice to Greeley, Greeley shall be obligated to pay the Specified Difference.

D. If a cure period for an Event of Default is not otherwise expressly provided in this Agreement then, except for the giving of notices, neither party shall be deemed in default hereunder with respect to such Event of Default unless such Party fails to cure such default within thirty (30) days after written notice stating such default and requiring the same to be remedied is given by the non-defaulting Party; provided that if such default cannot be cured within such thirty (30) days, and during such thirty (30) day period the defaulting Party has taken commercially reasonable efforts to remedy such default and subsequently is diligently pursued to the completion of such performance (a full cure), an Event of Default shall not be deemed to have occurred until ninety (90) days after written notice has been delivered. If a cure period for an Event of Default is expressly provided in this Agreement, then such express cure period will control and be given effect.

14.3 Special Provisions for Liquidated Damages. The following provisions shall apply to Events of Default by either Party which result in the following liquidated damages (each referred to as "Liquidated Damages"):

A. If Wingfoot defaults in any of its obligations under Section 9.1.A (Deposits Due) and Greeley elects to terminate this Agreement, then Greeley's sole remedy shall be the terms of Section 14.2.A.(3) (Remedies, Generally). WINGFOOT AND GREELEY ACKNOWLEDGE THAT GREELEY'S DAMAGES WOULD BE DIFFICULT TO DETERMINE AND THAT THE TERMS OF SECTION 14.2.A.(3) (Remedies, Generally) ARE A REASONABLE ESTIMATE OF GREELEY'S DAMAGES.

B. If Greeley defaults in any of its obligations under Section 10.5.A(1) (Revocation) and (2) (Amendments) of this Agreement and Wingfoot elects to terminate this Agreement, then Wingfoot's sole remedy shall be the terms of Section 14.2.B(3) (Remedies, Generally). WINGFOOT AND GREELEY ACKNOWLEDGE THAT WINGFOOT'S DAMAGES WOULD BE DIFFICULT TO DETERMINE AND THE TERMS OF SECTION 14.2.B(3) (REMEDIES, GENERALLY) ARE A REASONABLE ESTIMATE OF WINGFOOT'S DAMAGES.

C. If Greeley defaults in any of its obligations under Section 10.5.B (Cash-in-Lieu) of this Agreement, Wingfoot's sole remedy shall be to the Specified Difference as provided in Section 10.5.B. WINGFOOT AND GREELEY ACKNOWLEDGE THAT WINGFOOT'S DAMAGES WOULD BE DIFFICULT TO DETERMINE AND THAT THE SPECIFIED DIFFERENCE IS A REASONABLE ESTIMATE OF WINGFOOT'S DAMAGES.

ARTICLE 15 CONDEMNATION

If prior to Closing all or a Material Part (defined below) of the Property are subject to a proposed taking by any public authority other than Greeley, Wingfoot shall promptly notify Greeley of such proposed taking and Greeley may terminate this Agreement by notice to Wingfoot within fifteen (15) days after written notice thereof. In the event Greeley elects to terminate this Agreement, the Deposit shall be returned to Greeley and neither Party shall have any further obligation to the other except as provided in Section 17.9 (Survival). If Greeley does not terminate this Agreement, or if the taking is as to a non-Material Part of the Property, Greeley shall accept

title to the Property subject to the taking without a reduction in the Purchase Price and shall receive at Closing an assignment of all of Wingfoot's rights to any condemnation award and Greeley shall have the sole right after the Closing to negotiate and otherwise deal with the condemning authority in respect of such matter. A "Material Part" of the Property for purposes of this Article 15 shall mean a portion that would have a Material Adverse Effect on Greeley's use of the Property to deliver water and as an aquifer supply, recharge and storage facility as determined by Greeley in its good faith judgment.

ARTICLE 16

ARTICLE 17
MISCELLANEOUS

17.1 Termination. Except as otherwise provided, this Agreement shall terminate at the later of the end of the Option Period or the expiration of the revenue sharing obligation of Greeley under Section 12.1 (Revenue Sharing). Upon termination of this Agreement, all other rights and obligations of the Parties shall be terminated under this Agreement except for the representations, obligations, liabilities, warranties, covenants, agreements and monetary obligations contained in following Article(s), Section(s) or term(s) which shall survive the Termination of this Agreement in addition to those identified in Section 17.9 (Survival): (i) Section 10.5.A(2) (Amendments); (ii) Article 11 (Put and Call Options) subject to Section 11.8; and (iii) Section 10.5.B (Cash-In-Lieu), which shall terminate on the dates specified therein.

17.2 No Third Party Beneficiary; No Waiver of Governmental Immunity. This Agreement shall not create any duty of care or liability with respect to any person or entity not a Party to this Agreement, including without limitation any Registered Owner (except for Wingfoot), or waive any of the privileges or immunities Greeley or their officers, employees, successors and assigns may present pursuant to law, including, but not limited to, the Colorado Governmental Immunity Act, C.R.S. 24-10-101, et seq., as amended.

17.3 Limits on Governmental Immunity. Greeley represents that, pursuant to C.R.S. §24-10-106, its governmental immunity is limited to claims for injury that lie in tort or could lie in tort. Under existing law, Greeley is not entitled to raise the defense of sovereign immunity in connection with any legal proceeding to enforce or collect upon contractual obligations, including this Agreement, or any amendments or exhibits to this Agreement, including the payment of any amounts due thereunder, provided however that no term or condition of this Agreement shall be construed or interpreted as a waiver, express or implied, of any of the privileges or immunities of Greeley or its officers, employees, successors or assigns may present pursuant to law, including but not limited to the Colorado Governmental Immunity Act, C.R.S. §24-10-101 et seq., as amended.

17.4 Mediation. If any dispute arises under this Agreement (including as to whether any Party has breached this Agreement or whether an Event of Default has occurred), then either Party may require that the other engage in nonbinding dispute resolution processes upon delivery of a written notice (a “Dispute Notice”) setting forth the disputed matter. Upon receipt by the other party of such Dispute Notice, the Parties shall use their commercially reasonable efforts to negotiate a resolution of the dispute for a period of thirty (30) days (the “Dispute Resolution Period”) which may include mediation using a mediator chosen by the Parties. During the Dispute Resolution Period, no Party may bring a claim or commence legal action related to or in connection with the matter set forth in the Dispute Notice until the Dispute Resolution Period ends. This Section 17.4 shall not alter any date in this Agreement, unless otherwise agreed.

17.5 Time. Except as otherwise provided in this Agreement, time is of the essence as to each provision of this Agreement and the performance of each Party’s obligations hereunder.

17.6 Attorneys’ Fees. If any legal action or other proceeding is commenced to enforce or interpret any provision of this Agreement, the Prevailing Party (defined below) shall be awarded its attorneys’ fees and expenses, in addition to any other relief granted. The phrase “Prevailing Party” shall include a Party who receives substantially the relief desired whether by dismissal, summary judgment, judgment or otherwise. This provision shall survive the termination of this Agreement.

17.7 No Waiver. No waiver by any party of the performance or satisfaction of any covenant or condition shall be valid unless in writing and shall not be considered to be a waiver by such party of any other covenant or condition hereunder. Any failure of a Party to enforce any of the provisions of this Agreement or to require compliance with any of its terms at any time during the pendency of this Agreement shall in no way affect the validity of this Agreement, or any part hereof, and shall not be deemed a waiver of the right of such Party thereafter to enforce any and each such provision.

17.8 Entire Agreement. This Agreement and its Exhibits contain the entire agreement among the Parties regarding the subject matter hereof and supersedes all prior agreements, whether written or oral, among the Parties regarding the same. This Agreement may only be modified by mutual written agreement duly authorized and executed by the Parties.

17.9 Survival. The following representations and warranties shall survive until Closing (and they shall terminate and be of no further force and effect after Closing), unless otherwise specified below, but if the Closing does not occur, the following representations and warranties shall terminate upon termination of this Agreement:

A. All warranties of title set forth in this Agreement shall merge with any deed or assignment delivered at Closing.

B. All representations and warranties contained in the General Representations and Warranties of both Parties shall survive for six months from the Closing Date, if the Closing Occurs.

C. All representations and warranties contained in the Environmental Representations and Warranties.

D. All other representations and warranties hereunder.

All covenants and agreements (including monetary obligations) shall continue until the earlier of: (i) performance of such covenants or agreements or (ii) this Agreement terminates (except for the covenants and agreements contained in Article 11 (Put and Call Options), subject to Section 11.8, Section 14.2.A(4) (Remedies, Generally), 14.2.B(3) (Remedies, Generally) and Section 17.18 (Limited Source of Payments by Greeley) which shall survive termination).

17.10 Successors. Subject to Section 17.11 (Assignment), Section 8.2 (Conveyance of Tenancy in Common Interest) and Section 11.7 (Assignment; Transfer of Put and Call) this Agreement shall be binding upon, shall inure to the benefit of, and shall be enforceable by, the Parties, their successors and permitted assigns and the Parties hereto and their respective successors and permitted assigns.

17.11 Assignment. No assignment shall relieve either of the Parties from its respective obligations hereunder if such obligations are not properly discharged by the assignee of such Party. The sale, pledge, or other disposition of greater than a fifty percent (50%) ownership interest in Wingfoot (a "Change of Control") to a third party not directly or indirectly owned or controlled by HA I, LLC shall require the written consent of Greeley, which consent shall not be unreasonably conditioned, withheld or delayed. Except as otherwise provided in this Agreement, neither this Agreement, nor any right hereunder, may be assigned by either Party without the prior written consent of the other Party, and any attempt to do so will be void. Notwithstanding anything to the contrary in this Agreement, in the event that Greeley unreasonably conditions, withholds or delays approval of any request for a Change of Control, Wingfoot may elect to terminate this Agreement and shall have the remedies provided in Section 14.2.B(3) (Remedies, Generally).

17.12 Relationship of the Parties. The Parties acknowledge that neither Party is an agent for the other Party, and that neither Party shall or can bind or enter into agreements for the other Party.

17.13 Governing Law and Construction. This Agreement, including any instrument or agreement required hereunder, and all matters arising out of or in connection with this Agreement (whether in contract, tort or otherwise) shall be construed in accordance with and governed by the laws of the State of Colorado without giving effect to any conflict of law principles that would require the application of the laws of another jurisdiction. The Parties hereby agree that the normal rule of construction to the effect that any ambiguities are to be resolved against the drafting party shall not be employed in the interpretation of this Agreement or any amendments or exhibits hereto.

17.14 Joint Effort. Preparation of this Agreement has been a joint effort of the Parties and the resulting document shall not be construed more severely against one Party than against any other Party.

17.15 Review by Counsel. The Parties acknowledge that each Party and its legal counsel have reviewed and approved this Agreement.

17.16 Calendar Days. In the event any time period set forth in this Agreement commences, expires or is determined from a date which falls on a Saturday, Sunday or legal

holiday of the State of Colorado, the date of such commencement, performance, expiration or determination shall automatically be extended to the next business day which is not a Saturday, Sunday or legal holiday of the State of Colorado.

17.17 Counterparts; Electronic Signatures. The Agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same document. The Agreement, including all component parts set forth above, may be executed and delivered by electronic signature by any of the parties and all parties consent to the use of electronic signatures.

17.18 Limited Source of Payments by Greeley.

A. This Agreement does not constitute the debt, indebtedness or multiple fiscal year financial obligation of the City within the meaning of the constitution or laws of the State of Colorado or the home rule Charter of the City.

B. Any obligation of Greeley for the payment of money hereunder (each a "Payment Obligation") shall be solely the special and limited obligations of the Enterprise. Any Payment Obligation shall be payable solely from the net revenues of the Water System remaining in each year after payment of or provision for (1) all standard operation and maintenance expenses of the Water System and the principal of, interest on and reserve requirements of its first-lien "Parity Obligations" (as that term is defined in the Water Revenue Bond Ordinance) issued and outstanding from time to time permitted by Ordinance No. 41, 2018 (the "Water Revenue Bond Ordinance"), (2) a reserve for operation and maintenance expenses equal to twenty five percent (25%) of the previous year's operation and maintenance expenses, and (3) reserves for depreciation and other amounts with respect to the Water System specifically required by the City Charter as in effect on the Closing Date (such net revenues being referred to herein as the "Surplus Revenues"). Each Payment Obligation shall constitute a "Subordinate Obligation" (as that term is defined in the Water Revenue Bond Ordinance) of the City, acting by and through the Enterprise, provided that notwithstanding the provisions of Sections 22 and 25(c) of the Water Revenue Bond Ordinance, Greeley shall not be required in any year to apply more than seventy percent (70%) of its Surplus Revenues to the payment of all Payment Obligations.

C. In the event that Greeley fails to pay any Payment Obligations in full in the year incurred, then, and without limiting Wingfoot's other remedies under this Agreement or applicable law, the unpaid portion of the Payment Obligation shall continue to be due and shall be payable as provided in this Section 17.18. Greeley shall issue to Wingfoot a subordinate promissory note (each a "Subordinate Revenue Note"), in a principal amount equal to each such unpaid portion. The parties agree and acknowledge that any such Subordinate Revenue Note constitutes a "Security" as defined at C.R.S. §11-57-203(5), and is subject to the provisions of the Supplemental Public Securities Act, C.R.S. §11-57-201 et seq. Any such Subordinate Revenue Note shall mature not more than fifteen (15) years from issuance and shall be payable solely from Surplus Revenues semiannually on the first day of February and the first day of August in each year in substantially level installments of principal and interest, with simple interest accruing on the unpaid principal amount at the rate of ten percent (10%) per annum, and shall be subject to prepayment by Greeley in whole or in part, without prepayment penalty, upon not less than thirty (30) days' notice. Greeley shall set water rates during the term of any Subordinate Revenue Note

at a level to assure repayment of the Subordinate Revenue Note within the fifteen year maturity period of the Subordinate Revenue Note.

D. Pursuant to C.R.S. §11-57-208, the Surplus Revenues are hereby pledged as security for the Payment Obligations, if any. This pledge shall be specifically confirmed by the City Council of the City in connection with each issuance of a Subordinate Revenue Note. The creation, perfection and priority of such pledge shall be governed by such Section, this Agreement (which is, and shall be deemed to be, a security agreement for all purposes under sections 922(d) and 928(a) of the federal Bankruptcy Code) and the acts of issuance by the City Council taken in connection with the issuance of each Subordinate Revenue Note. Whether or not for whatever reason (i) a Subordinate Revenue Note is issued to evidence any Payment Obligation or (ii) the City Council of the City confirms the pledge, the Surplus Revenues are hereby subject to the lien of such pledge without any physical delivery, filing or further act on the part of the City, the Enterprise or Wingfoot, and such pledge shall have priority over any and all other obligations and liabilities of Greeley, except as limited in this Section 17.18 by the Charter or by the Water Revenue Bond Ordinance. In addition, any breach of or noncompliance with this Section 17.18 shall not limit Wingfoot's rights or remedies under this Agreement or applicable law. The lien of each such pledge shall be valid, binding, and enforceable as against all persons having claims of any kind in tort, contract, or otherwise against the public entity irrespective of whether such persons have notice of such liens. Greeley agrees that it will authorize and issue all Subordinate Revenue Notes in the manner and according to the procedures provided by its Charter and the Water Revenue Bond Ordinance, including advertisement for public sale to the extent then required by the Charter.

E. Greeley hereby represents and warrants, as of the Effective Date, that there are no other currently outstanding Subordinate Obligations, as that term is used in the Water Revenue Bond Ordinance. Greeley further covenants that it shall not create, nor cause to be created, any Subordinate Obligations other than (1) Subordinate Obligations or Subordinate Revenue Notes owed or issued to Wingfoot; (2) Subordinate Obligations or Subordinate Revenue Notes issued to persons other than Wingfoot for the purpose of paying or refinancing Subordinate Revenue Notes or Subordinate Obligations held by or owed to Wingfoot; or (3) Subordinate Obligations secured on a basis expressly junior to the Subordinate Obligations or Subordinate Revenue Notes owed to or held by Wingfoot.

17.19 Interest. Any Payment Obligation owed by Greeley under this Agreement and not paid when due shall bear simple interest at the rate of ten percent (10%) per annum on the unpaid amount until paid, provided that any such amount shall be subject to prepayment at any time in whole or in part, together with the interest accrued on the amount so prepaid.

17.20 Fiscal Contingency. The City shall include in its budget and appropriation measures for each fiscal year the estimated amount of revenues available for Payment Obligations pursuant to Section 17.18 (Limited Source of Payments by Greeley) hereof.

17.21 Integrated Agreement. This Agreement, including all exhibits referenced herein, constitutes the complete, unseverable, unitary, integrated agreement between Greeley and Wingfoot concerning the subject matter hereof. This Agreement constitutes the entire understanding between the parties hereto and supersedes and cancels all prior written and oral

agreements and understandings, including the 2020 Agreement, with respect to the subject matter of this Agreement. The parties hereto acknowledge that they negotiated this Agreement, including all exhibits, as a single transaction and would not have entered into any portion of the Agreement without the rights and obligations conferred by the Agreement as a whole. In the event that (i) there is a conflict between the terms of this Agreement and any exhibits, or (ii) this Agreement provides additional or more specific rights or remedies than those described in the exhibits (including, for purposes of an example only, those under Article 17), the terms of this Agreement shall control; provided, however, that any such remedies shall not be cumulative. The rights created hereunder are intended by the parties to be presently vested and fully enforceable according to their terms. The provisions of this Agreement were negotiated as, and constitute, parts of an integrated whole, and the inability of either party to enforce any of such provisions or to consummate any of the transactions contemplated hereby due to changes in law, whether by amendments to the State or federal constitutions, the Charter, the Code or any applicable statute or regulation, or by regulatory or judicial action, would result in substantial and irreparable harm to both parties and an impairment of their vested contractual rights.

17.22 Approval. THE OBLIGATIONS OF GREELEY ARE EXPRESSLY CONTINGENT UPON THE APPROVAL OF THIS AGREEMENT BY GREELEY CITY COUNCIL AND WATER AND SEWER BOARD PURSUANT TO SECTION 6.1.A (GOVERNING BODY APPROVAL) ABOVE.

17.23 Requirement of Good Faith and Reasonable Judgment. Unless otherwise expressly provided in this Agreement, all decisions (including, for the avoidance of doubt, any determinations, approvals, and findings) to be made by a Party shall be interpreted to require the exercise of that Party's reasonable judgment, acting in good faith, in rendering such decision.

17.24 Venue. All actions or proceedings arising out of or relating to this Agreement and any dispute shall be litigated in any court in Weld County, Colorado. Each Party accepts for itself, generally and unconditionally, the exclusive jurisdiction and venue of the aforesaid courts, submits itself to the personal jurisdiction of such courts and waives any defense of *forum non conveniens* or any similar defense. Each Party hereby waives its respective right to a trial by jury for any claim or cause of action based upon or arising out of or related to this Agreement in any action, proceeding, or other litigation of any type brought by any Party against any other Party, whether with respect to contract claims, tort claims, or otherwise. Each Party agrees that any such claim or cause of action will be tried by a court trial without a jury.

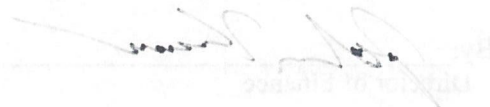

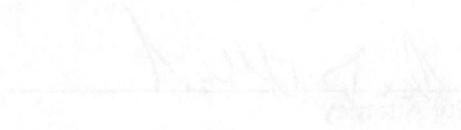

17.25 Severability. In case any one or more of the provisions contained in this Agreement for any reason is held to be invalid or unenforceable, the invalidity or unenforceability will not affect any other provision of this Agreement, which will be construed as if the invalid or unenforceable provision had not been contained in this Agreement and, in lieu of each invalid or unenforceable provision, there will be added automatically as a part of this Agreement a provision as similar in terms to the invalid or unenforceable provision as may be possible and be valid and enforceable.

17.26 Amendments and Waivers. This Agreement may not be amended except by a writing signed by all of the Parties hereto. No term or provision of this Agreement shall be deemed waived except in a writing executed by the waiving party.

17.27 No Warranty of Tax Treatment. Each party is relying solely on itself and its own tax advisors regarding the tax treatment of the transactions contemplated under this Agreement. Greeley does not give any assurance that any of the transactions contemplated by this Agreement will be treated for federal or state income tax purposes in any particular manner. Wingfoot shall be solely responsible for any tax consequences to it or to its owners, successors or assigns resulting from the execution, delivery and performance of this Agreement.

17.28 Cooperation. At the request of the other Party, each Party, on its own behalf, covenants that it shall reasonably cooperate with the other Party, at no cost to the cooperating Party, in obtaining permits or other governmental approvals which are required to implement the Project and use it as an aquifer and storage recovery facility; provided that after Closing, the parties agree that Wingfoot shall not be required to spend more than a de minimis amount of time assisting Greeley obtaining permits or other governmental approvals.

AMENDED EASEMENT AGREEMENT

THIS AMENDED EASEMENT AGREEMENT, made and entered into the 24th day of Jan, 2020, by and between **TERRY GRAZING ASSOCIATION**, a Colorado corporation, whose address is P.O. Box 3170, Cheyenne, Wyoming 82003 (“GRANTOR”) and **WINGFOOT WATER RESOURCES LLC**, a Colorado limited liability company, whose address is 3003 E. Harmony Rd., Suite 300, Fort Collins, Colorado 80528 (“Wingfoot” or “Grantee”). Grantor and Grantee are referred to collectively as “the Parties”:

WHEREAS Grantor owns 10,662 acres situated in Weld County, Colorado as described on attached **EXHIBIT “A”** depicted on **EXHIBIT “B”** (the “Property”), which overlies ground water in the Upper Laramie aquifer (the “Nontributary Ground Water”).

WHEREAS, in Case No. 11CW275, the Division 1 Water Court, entered a Decree on Oct. 26, 2013, as amended by the Amended Decree entered on June 14, 2018, which quantified the Nontributary Ground Water rights underlying the Property.

WHEREAS, by Special Warranty Deed dated September 30, 2016, and recorded at Reception No. 4245308 by the Weld County Clerk and Recorder, GRANTOR conveyed to Total Water Resources, LLC (“TWR”) and Wingfoot undivided interests (56% and 44%, respectively) in the Upper Laramie Aquifer and Nontributary Ground Water underlying the Property.

WHEREAS, by Special Warranty Deed dated April 30, 2018 and recorded at Reception No. 4394951 by the Weld County Clerk and Recorder, TWR conveyed to Wingfoot its undivided 56% interest in the Upper Laramie aquifer and Nontributary Ground Water underlying the Property.

WHEREAS, this Amended Easement Agreement supersedes and replaces the Easement Agreement dated September 30, 2016 and recorded at Reception No. 4245309 by the Weld County Clerk and Recorder.

NOW, THEREFORE, in consideration of the sum of Ten Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the undersigned Parties do hereby agree as follows:

1. GRANT OF EASEMENTS

Grantor hereby conveys and grants to the Grantee, as owner of the Nontributary Ground Water and water storage capacity in the Upper Laramie aquifer underlying the Property, nonexclusive rights-of-way and easements for the purpose of installing, constructing, operating, maintaining, repairing, reconstructing, replacing, inspecting, surveying and removing, at any time and from time to time, all underground and surface appurtenances thereto necessary to withdraw the Nontributary Ground Water, and to inject into and withdraw other water from the Upper Laramie aquifer underlying the Property, and for laying pipelines, and erection of structures thereon to inject, withdraw, store, and transport the Nontributary Ground Water and other water, all subject

to the terms and conditions set forth below. Such uses of the Property by Grantee are hereinafter referred to as "Permitted Water Development Activities" or "PWDA."

Grantor hereby warrants that Grantor is the owner of the above-described Property and that the easements and rights of way are free and clear of all liens and encumbrances. Grantor agrees to defend the title to the Property herein described, and agrees that the Grantee shall have the right, at any time, to redeem by payment for Grantor any mortgages, taxes or other liens on the Property, in the event of default of payment by Grantor.

2. ACCESS

2.1. The easements and other rights of access to the Property granted to Grantee by the Grantor for PWDA shall be limited to the roads existing as of September 30, 2016 or thereafter constructed as New Roads on the Property as provided for herein. Access for operations, construction, equipment, etc., is granted solely for those activities associated with the Grantee's commercial activities within the boundaries of the Property. Operator shall confine its employees only to the areas where work necessary to its operations is being performed. Following a survey to locate a well site or other facility used for PWDA, Grantor and Grantee shall meet to determine a mutually agreeable route of ingress and egress. Meeting times and locations shall be as mutually agreed by Grantor and Grantee.

2.2. New Roads

2.2.1. Any road constructed or improved for Grantee's use shall be considered a New Road. In the event an existing road is improved for use by Grantee it shall be considered a New Road. Permanent access easements for roads, cuts, fills, and shoulders shall not exceed thirty-five feet (35') in total width, with twenty feet (20') in width for traveled surface. Temporary construction access shall not exceed thirty-five feet (35'). Temporary construction access shall be limited to two months following commencement of road construction, subject to weather delays and emergency repairs. Grantee shall use best efforts to minimize temporary construction access area used. Grantee shall re-vegetate all areas of easements upon completion of construction outside the twenty-foot (20') wide travel area. At least 30 days prior to the construction of a new road, Grantee shall provide Grantor (a) written notice of the proposed dimensions and location of the new road, including a map depicting the locations of the proposed new road; (b) the approximate date when construction operations will start; (c) current phone number and address for the Grantee and the contractor; and (d) the estimated amount of the "ROW construction payment" as defined below. Prior to construction, Grantee, in good faith, shall consider whether reasonable requests of Grantor as to the new roads may be accommodated, with the final determination to be made in the sole discretion of Grantee. Grantee shall pay Grantor the following "ROW construction payment" as consideration for surface damage associated with the construction, maintenance and use of any new roads and any new rights-of-way necessary for access to any new location utilized in connection with Grantee's drilling, production, or other activities allowed hereunder; (1) no ROW construction payment for new roads constructed along section lines or along the existing fence lines at the right of way for the

Union Pacific Railroad and Interstate Highway 25; (2) ten dollars and No/100ths (\$10.00) per rod for new roads constructed along quarter section lines; (3) twenty dollars and No/100ths (\$20.00) per rod for new roads constructed along quarter-quarter section lines; and (4) thirty dollars and No/100ths (\$30.00) per rod for new roads not constructed along one of the aforementioned routes. Any new roads constructed along quarter or quarter-quarter section lines where there is an existing fence shall be constructed on one side or the other of the existing fence. The final amount of the ROW construction payment shall be based upon the as-built new road location and length, and shall be made to Grantor within fifteen (15) days following the date of substantial completion of the new road construction.

2.2.2. Grantee shall surface the roads constructed or improved with road base material of a quality, which provides for Grantee's intended use. Improvements to roads shall be graded to spread drainage instead of channeling runoff. Road improvements shall be constructed so as to avoid areas with high erosion potential. Erosion control, including but not limited to netting, mulching, reseeding and weed control, shall be put in place for any construction activities. Water bars shall be constructed on road grades or slopes to avoid erosion. Spacing of water breaks is dependent on slope and soil type

2.2.3. Grantee is responsible for obtaining any required permits, i.e., storm water and drainage permits, for construction of the roads from the appropriate environmental authority and state and local governments.

2.3. Use of existing roads. Grantee may use existing roads as follows:

2.3.1. Surface damage to existing roads shall be minimized. Grantee agrees to repair, at Grantee's cost, any damage caused by Grantee to existing roads used for Grantee's access.

2.3.2. Grantee shall be responsible, at its own expense, for any road improvements and culvert replacements necessary to support heavy truck traffic and for all maintenance on roads used by Grantee. Where roads cross fence lines, Grantee may install cattle guards and/or braced gates at its sole cost and expense. Such installations shall meet the reasonable approval of Grantor.

2.3.3. Once Grantee begins construction activities for building its improvements and/or Pipelines within portions of existing roads, Grantee shall be responsible to improve and maintain such portions of existing roads until final reclamation.

2.3.3.1. A designated representative of Grantee and a designated representative of Grantor shall meet as needed to assess maintenance needs to be addressed on portions of access to be improved and/or maintained by Grantee.

2.3.4. In the event that emergency maintenance is necessary, Grantor shall contact Grantee's designated representative and Grantee will make repairs as soon as reasonably possible. If road or portions of roads are impassable, Grantee shall use best efforts to effect repairs within 24 hours. If roads or portions of roads are passable, Grantee and Grantor shall agree to a mutually acceptable time for the emergency maintenance.

2.3.5. Existing Access must remain safe and passable, even while under construction.

2.4. Speed limit. The speed limit on all roads shall be 15 miles per hour. The Grantee shall post and enforce compliance with speed limits by its employees and contractors. Travel shall be limited to within the existing access corridors.

2.5. General limits on use of roads. Grantee shall confine its employees, agents, and contractors only to the areas where work necessary to the PWDA is being performed.

2.6. Road maintenance. Grantee agrees to use reasonable efforts to keep all roads free of weeds, debris, litter and trash, and if necessary, shall perform trash pickup.

2.7. Road reclamation. At least thirty (30) days prior to reclamation of any roadway, Grantee shall provide Grantor written notice of such roadway reclamation, which shall include a map of the roadway to be reclaimed. During the period prior to reclamation, Grantor may elect to retain any such roadway for ranch use by giving written notice to Grantee. Upon receipt of Grantor's election to retain such roadway, Grantee shall place the roadway, crown and borrow ditches in good and passable condition, and shall thereafter be relieved of its obligation to maintain and/or reclaim such roadway.

2.8. Setbacks from certain improvements. PWDA shall not occur closer than 200 feet to any existing or future residential, agricultural, commercial or industrial building on the Property (collectively, the "Buildings" and those Buildings, if any, constructed after the date of this Amended Easement Agreement, collectively, the "New Buildings") without the written consent of Grantor. This requirement shall not apply to, and Grantee shall have no duty to relocate any, roads, wells, Pipelines, power lines, and other appurtenances for the PWDA that existed prior to the construction of any New Buildings.

3. WELLS AND APPURTENANCES

3.1. PWDA Structures. Grantor hereby ratifies and further grants to Grantee the right, privilege and easement to locate, construct, entrench, maintain, protect, operate, inspect, repair, re-size and replace wells, pipeline(s) and other appurtenances, including but not limited to electrical service, to Grantee's wells (collectively the "Pipelines") necessary for Grantee's PWDA.

3.2. Well sites.

3.2.1. The permanent easements granted hereunder for well sites shall not exceed 0.5 acres per well. Each well site may have one or more wells into the Upper Laramie aquifer. The survey and legal description of each well site that describes the boundaries of the permanent easement for that well, shall be completed and recorded within 60 days after completion of construction of each well. All permanent well site easement shall be fenced and access will be limited via secured gates.

3.2.2. In addition to the use of the permanent well site easements as provided above, Grantor grants and conveys to Grantee temporary construction easement at each well site, which easement shall not exceed one (1.5) acres surrounding each well site. Such temporary construction easement shall be subject to all terms and conditions of this Amended Easement Agreement. Grantee shall repair or replace physical damage to natural vegetation whether within or without the boundaries of said temporary construction easements, caused by Grantee's activities on the Property. Such temporary construction easements for well sites shall continue only for such time as is necessary for Grantees to drill wells, construct necessary improvements or reconstruct or maintain facilities installed at well sites.

3.2.3. At least thirty (30) days prior to commencing any drilling operation, other than emergency repairs for the purpose of protecting public health and safety, Grantee shall provide Grantor (a) written notice of the proposed dimensions and location of the well site construction, and the approximate date when construction operations will start and (b) payment of \$7,500 for each permanent well site easement.

3.2.4. Grantor shall not take any action to impede, limit or restrict Grantee's access to or from any well site. To the extent the Grantor desires to construct or install fencing or gates over or across Grantee's access corridor(s), the plans for such fencing or gates shall be subject to the reasonable prior approval of Grantee and Grantee shall be given such keys, combinations, access codes or cards as may be necessary for Grantee to have immediate access to any well site at any time.

3.3. Pipelines.

3.3.1. Permanent easements for Pipelines shall not exceed thirty-five feet (35') in total width. Temporary construction access shall not exceed thirty-five feet (35') Temporary construction access shall be limited to six months following commencement of Pipeline construction, subject to weather delays and emergency repairs. Grantee shall use best efforts to minimize actually temporary construction access area used. Grantee shall re-vegetate all areas of easements upon completion of construction.

3.3.2. At least 30 days prior to the construction of new Pipelines, other than emergency repairs for the purpose of protecting public health and safety, Grantee shall provide Grantor: (a) written notice of the location of the proposed Pipelines, including a map depicting the

locations of the proposed Pipelines; (b) the approximate date when construction operations will start; (c) current phone number and address for the Grantee and the Pipeline contractor; and (d) the estimated amount of the ROW construction payment for the Pipelines. Prior to construction, Grantee in good faith shall consider whether reasonable requests of Grantor as to the new Pipelines may be accommodated, with the final determination to be made in the sole discretion of the Grantee. If Pipelines are constructed in rights-of-way for which Grantor has received a ROW construction payment (e.g. the new Pipelines will be constructed in a road for which Grantee previously made a ROW construction payment), then no additional ROW construction payment shall be due Grantor. For all other new Pipeline construction, the ROW construction payment shall be calculated as follows: (1) no ROW construction payment for new Pipelines constructed along section lines or along the existing fence lines at the right of way for the Union Pacific Railroad and Interstate Highway 25; (2) ten dollars and No/100ths (\$10.00) per rod for Pipelines constructed along quarter section lines; (3) twenty dollars and No/100ths (\$20.00) per rod for Pipelines constructed along quarter-quarter section lines; and (4) thirty dollars and No/100ths (\$30.00) per rod for Pipelines not constructed along one of the aforementioned aliquot routes. The ROW construction payment shall be made within fifteen (15) days following the date of commencement of construction of the new Pipelines. The final amount of the ROW construction payment shall be based upon the as-build Pipeline location and length, and shall be made to Grantor within fifteen (15) days following the date of substantial completion of the Pipeline construction.

3.4. Existing access during construction. Existing access shall not be blocked or made impassable during construction of well sites and Pipelines.

3.5. Marking and burying. Pipelines shall be clearly marked as to location and shall be covered by a minimum of 24" of soil.

Pipeline trenches shall be maintained by Grantee to correct subsidence and control erosion.

3.7. Erosion prevention. Pipeline construction shall avoid erodible slopes to the extent reasonably possible and in accordance with the regulations of the governing authority. Where necessary, erosion control features, such as water bars or other means of diverting flows off sloping Pipeline rights-of-way, will be constructed to control and eliminate increased runoff and erosion.

3.8. Abandonment of Wells and Pipelines. Reclamation and abandonment of Wells and Pipelines shall be in accordance with state and local requirements. Abandoned Pipelines shall be emptied, cut off below the ground surface, and capped at the ends.

5.2.2. Grantee shall not use the Property for the long-term storage (more than 120 days) of equipment or materials related to PWDA without approval of Grantor. In the event of violation of this condition, Grantor may cause the removal of any such property and bill Grantee for the actual costs thereof plus 20%.

5.3. Fire prevention.

5.3.1. Grantee shall make every effort to use safe construction practices, and shall take precautions at all times to prevent fire, including, but not limited to (a) maintaining a fire extinguisher, shovel, ax and bucket, in each service vehicle entering upon the property and (b) utilizing spark attestors on any gas powered pumps.

This clause shall survive any term of this Amended Easement Agreement and Grantee's PWDA.

5.6. Existing vegetation. Vegetation removal necessitated by a construction project shall be confined to the limits of actual construction. No trees on the Property shall be removed without prior notice to Grantor.

5.7. Debris removal. All construction debris must be removed from the Property promptly.

5.8. Control measures. For each area of surface disturbance, temporary erosion control measures such as mulch, jute netting, or other appropriate methods shall be used on unstable soils, steep slopes, and wetland areas to prevent erosion and sedimentation until vegetation becomes established. Grantor and Grantee agree that Grantee's operation shall be designed and located to minimize damages, however, Grantee shall not be required to comply with any demand by Grantor that is unreasonable or cost prohibitive when compared to industry standards for a prudent water well operator.

6.1.1.3. Foreign substances and unnecessary equipment on the Property from PWDA shall be removed from each disturbed area.

6.1.1.4. Erosion shall be adequately controlled, and if erosion occurs, it shall be terminated and remediated.

6.1.1.5. Noxious weeds shall be adequately controlled, and if such weeds appear on any disturbed area, Grantee shall promptly remove such noxious weeds from the disturbed area together with any such weeds which have spread onto other areas adjacent to the disturbed area of the Property.

6.1.2. The following are exempted from the reclamation requirement:

6.1.2.1. The driving surface and borrow ditches of roads.

6.1.2.2. Permanent well sites and temporary retention ponds while used by Grantee for PWDA.

6.1.3. If Grantee damages Grantor's personal property, Grantee shall promptly notify Grantor, or Grantor shall promptly notify Grantee of said damage, and Grantee shall pay Grantor the replacement value of personal property damaged by Grantee within ninety (90) days of said damage.

6.2. Well abandonment. Abandonment of any wells will be accomplished pursuant to the rules and regulations of the State Engineer. Within one hundred twenty (120) days following the abandonment of each well, all surface equipment and surface appurtenances, including without limitation, above ground piping (which shall be removed to a depth of four feet below ground), together with all foreign substances (including gravel) associated with such well and related Pipelines, shall be promptly removed by Grantee from the Property, and all un-reclaimed and/or un-revegetated areas previously disturbed and associated with the abandoned well, shall be reclaimed by Grantee in accordance with standards set out above.

7. ELECTRIC POWER

Grantor hereby grants to Grantee the right, privilege and easement to locate, construct, entrench, maintain, protect, operate, inspect, repair, re-size and replace electric power lines (whether overhead or underground) for the PWDA. At least 30 days prior to the construction of the power lines, Grantee shall provide Grantor: (a) written notice of the proposed location of the proposed power lines, including a map depicting the locations of the proposed power lines; (b) the approximate date when construction operations will start; (c) current phone number and address for the Grantee and the power line contractor; and (d) the estimated amount of the ROW construction payment for the power lines. Prior to construction, Grantee in good faith shall consider whether reasonable requests of Grantor as to the new power lines may be accommodated, with the final determination to be made in the sole discretion of the Grantee. If power lines are constructed in rights-of-way for which Grantor has received a ROW construction payment (e.g. the new power lines will be constructed in a road for which Grantee previously made a ROW construction payment), then no additional ROW construction payment shall be due Grantor. For all other new power line construction, the ROW construction payment shall be calculated follows: (1) no ROW construction payment for new power lines constructed along section lines or along the existing fence lines at the right of way for the Union Pacific Railroad and Interstate Highway 25; (2) ten dollars and No/100ths (\$10.00) per rod for power lines constructed along quarter section lines; (3) twenty dollars and No/100ths (\$20.00) per rod for power lines constructed along quarter-quarter section lines; and (4) thirty dollars and No/100ths (\$30.00) per rod for power lines not constructed along one of the aforementioned aliquot routes. The final amount of the ROW construction payment shall be based upon the as-build power line location and length, and shall be made to Grantor within fifteen (15) days following the date of substantial completion of the power line construction. Any such power lines constructed on the Property shall be constructed and maintained to the following specifications:

7.1. Grantee will consult with Grantor with respect to the location of power lines prior to construction.

7.2. Following construction of power lines, any disturbed area shall be reclaimed as set forth in paragraph 5.9, above.

8. GRANTEE'S USE NONEXCLUSIVE

Except for well sites, Grantee's easements for surface use pursuant to this Amended Easement Agreement shall be non-exclusive. Grantor shall have the right to use the surface of the Property in any manner which does not unreasonably interfere with the PWDA. Further, Grantor retains the exclusive right to grant rights-of-way, easements, rights to surface use to third parties other than the Grantee, which rights shall not unreasonably interfere with PWDA. Any utilities that parallel Grantee's Pipelines shall be placed to the side of the Pipeline to create a minimum horizontal space between the Pipeline and the utility of two (2) feet. To the extent that the Grantor grants rights-of-way, easements, rights to surface use to third parties that involve use of roads for which Grantee is responsible hereunder, the rights of those users shall be subject to the requirement to pay for damages caused by their use and for a reasonable portion of the operation and maintenance for said roads. The Parties shall submit any disputes regarding such third-party right-of-way, easements, or surface use to mediation pursuant to paragraph 9.6.

9. MISCELLANEOUS

9.1. Lawful operations. Grantee shall conduct its operations on the Property in accordance with all of the rules and regulations promulgated by the governing authority, as well as all other state and federal laws, rules and regulations.

9.2. Indemnification. Grantee agrees to defend, indemnify and hold Grantor harmless from any and all third party claims, demands or judgments associated with Grantee's use of the Property. To the maximum extent permitted by law, Grantee releases and waives and discharges Grantor and Grantor's officers, directors, employees, agents, successors, and assigns from any and all liabilities for personal injury, death, property damage and costs arising out of Grantee's PWDA, including, without limitation, any claims that Grantee's operations are either illegal, unauthorized or improper, and any claims by any person or state or federal agency for environmental damage or flooding or pollution resulting from Grantee's activities. Section 651 et seq.) and any similar law whether state or federal regulating the use, discharge, emission and/or cleanup of substances or wastes of the type covered by the foregoing laws.

9.3. Tax liability. Grantee shall pay all additional taxes that may be assessed against the Property by reason of any improvements placed thereon by Grantee. The Parties shall submit any disputes regarding such tax liability to mediation pursuant to paragraph 9.6.

9.4. Termination. Unless otherwise agreed by Grantor, the rights and obligations granted by Grantor to Grantee under this Amended Easement Agreement shall not terminate as long as Grantee has the right to withdraw Nontributary Ground Water or is engaged in ongoing operations to artificially recharge, store and withdraw other water in the Upper Laramie aquifer underlying the Property.

All express and implied covenants of this Amended Easement Agreement shall be subject to all applicable federal, state, county or municipal laws, executive orders, rules and regulations. Grantee's obligations and covenants hereunder, whether express or implied, shall be suspended at the time or from time to time as compliance with such obligations and covenants is prevented or is in conflict with applicable federal, state, county or municipal laws, rules, regulations or executive orders asserted as official by or under public authority claiming jurisdiction, or act of God. 9.6. Alternative Dispute Resolution. If a dispute arises relating to this Amended Easement Agreement, and is not resolved, the Parties shall first proceed in good faith to submit the matter to mediation. The Parties will jointly appoint an acceptable mediator and will share equally in the cost of such mediation. In the event the entire dispute is not resolved within thirty (30) calendar days from the date written notice requesting mediation is sent by one Party to the other, the mediation, unless otherwise agreed, shall terminate. Development and use of the Leased Water is subject to the terms of the Lease and any well permits or water court decrees to be obtained by the Lessee.

4. **USE OF THE LEASED WATER** - The use of the Leased Water shall be limited to and controlled by the terms of all well permits and water court decrees to be obtained by the Lessee at the Lessee's sole expense. Lessee shall be responsible for developing and implementing any augmentation plans or substitute water supply plans required by any well permits or water court decrees at Lessee's sole expense. Lessee shall submit all plans for development of the Leased Water, including augmentation plans or substitute water supply plans, to Lessor for Lessor's approval prior to submitting to other government agencies, which approval shall not be unreasonably withheld. Lessor shall be listed as a Co-Applicant on any water court or well permit application. Lessee shall have the exclusive right to use, recapture and reuse all such Leased Water produced and to take credit for any and all return flows generated by the use of such produced groundwater during the Term of this lease. Lessee may not take any actions or fail to act in a manner which could result in the abandonment or diminution of the

historic use of the Leased Water or that violates the terms of the any well permits, water court decrees, augmentation plans, or substitute water supply plans applicable to Leased Water.

5. **LEASE TERM** - This Lease shall have a Term beginning with the effective date first written above and ending on January 18, 2028, subject to the payment of compensation and compliance with covenants and agreements contained herein.
6. **COMPENSATION**
 - A. Lessee will pay a minimum annual payment of \$100,000, payable regardless of annual water production volumes ("Water Opportunity Charge"). The Water Opportunity Charge will be credited toward the first 200 acre feet per year of water produced. If less than 200 acre feet of water is produced during the lease year, the Lessor will retain the full amount of the Water Opportunity Charge, and it shall not carry over into the next lease year.
 - B. If Lessee produces more than 200 acre feet of Leased Water per year, Lessee will pay the greater of \$200.00 per acre foot or 12.5% of the gross sales price for Leased Water produced, as measured at the wellheads. ("Volumetric Charge")
 - C. Lessee will pay \$500 per acre per year for Lease Land occupied by surface facilities on Lessor's lands.
 - D. Lessee will pay \$1,000 per mile per month for temporary above ground piping located on Lessor's lands.
 - E. Underground Piping - Lessee will pay for underground piping at the then-current ROW Pricing per the schedule published on the State Land Board website.

The Water Opportunity Charge payment is due on the Effective Date and annually thereafter on the anniversary date of the Effective Date. The Volumetric Charge shall be due and payable on or before the last day of each calendar month during the term of this Lease for Leased Water produced and sold by Lessee during the preceding calendar month.

Effective on January 18, 2023, and every five years thereafter, Lessor may increase the Volumetric Charge and Water Opportunity Charge based on the increase in the Consumer Price Index - All Urban Consumers, "CPI-U" (CUUR0000SA4), (Base Period 1982-84=100) (the "Index"), as first published by the U. S. Department of Labor, Bureau of Labor Statistics, for the preceding five year period.

7. **SURFACE ACCESS** - Lessee has the right to use as much of the surface above the Leased Water as may be reasonably required in the exercise of the right to develop and produce the Leased Water, including the right to enter upon the surface to construct wells, install water storage tanks, install and maintain pumps, conduct environmental monitoring, surveying and assessments and the right to reasonable ingress and egress; the right to construct buildings, pipelines and other improvements as may be reasonably necessary in producing the Leased Water, to the extent Lessor has the authority to grant such rights. However, this grant is subject to all existing easements and rights-of-way of third parties, the rights of surface lessees and surface patentees, the rights of existing mineral lessees, and the terms, conditions and agreements set out in this Lease. Lessee shall submit plans for use of the surface to Lessor for Lessor's approval prior to any disturbance or construction, the approval of which shall not be unreasonably withheld. If Lessee desires to use the Leased Land to transport water originating from wells on adjacent property or elsewhere in Lessee's system, Lessee must obtain from Lessor a separate right-of-way agreement, approval of which shall not be unreasonably withheld. The right of way application process shall be in compliance with Lessor's then-current Right-of-Way Policy No. 300-002 (Rev. February 2018) and then-current ROW Pricing per the schedule published on the State Land Board website.
8. **EXTENSION** - Lessor is not obligated to issue a new lease or to renew this Lease upon the expiration of the Term. However, Lessee may have a preferential right to renew this Lease or to receive a new lease, under the following conditions:

- a) Lessee shall furnish to Lessor satisfactory evidence of plans for developing beneficial uses of Leased Water during the term of the renewed lease or during the term of a new lease.
- b) An extension of this Lease would, as determined by Lessor, be in the best interest of Lessor.
- c) A water opportunity charge, the amount to be negotiated at the time of this extension, will be due and payable annually commencing on the effective date this Lease is extended and shall continue until the expiration of the extended term.
9. **EXTENSION BY PRODUCTION** - This Lease shall not be held in perpetuity; however, a producing well, or well capable of producing Leased Water, will perpetuate this lease beyond its Term as to the Leased Water and those Leased Lands that are located within the Section where the well is located. At the end of the Term, all Sections of land that do not contain a producing well or a well capable of producing will be eligible to be released from the lease at the option of the Lessor.
10. **CARRIAGE LOSS** - Lessee is responsible for, and shall bear, any carriage loss or charge, transit loss, ditch loss (whether by seep, evaporation, or otherwise) or similar loss of the amount of water from measurement of the water at the wellhead.
11. **MEASUREMENT DEVICES** - Lessee must install all necessary measurement devices and maintain the measurement devices in good working condition.
12. **NO RIGHTS CONVEYED** - This Lease does not convey or confer rights or ownership in the Leased Water other than as specifically stated in this Lease, nor shall any future needs of Lessee for water enable Lessee to make claim against Lessor for any water rights owned or controlled by Lessor.
13. **OFFSET DRAINAGE** - Lessee agrees to protect the Leased Water from potential drainage by wells located on adjoining lands not owned by Lessor. Lessee agrees to make every reasonable attempt to ensure that water court decrees obtained for Leased Water shall have a proportional allocation to the water rights decreed on lands adjacent to Leased Land, and any subsequent modifications or new decrees approved by water court. Development plans for Leased Water shall be coordinated by the Lessee with the development plans on adjacent lands to ensure that well locations follow all setback requirements enforced by the Colorado Division of Water Resources, unless otherwise agreed to in writing by the Lessor.
14. **PARTNERSHIP** - Nothing in this Lease shall cause the Lessor in any way to be construed as a partner, a joint venture or associated in any way with the Lessee, or subject the Lessor to any obligation, loss, charge or expense connected with or arising from the operation or use of the Leased Water or any part thereof.
15. **LIABILITY AND INDEMNITY** - The Lessee assumes all liability arising directly or indirectly from the Lessee's use or development of the Leased Water under this Lease. This assumption includes, but is not limited to, liability for all personal injuries (including death) and environmental and property damage and destruction caused by or arising out of Lessee's operations, or caused by or arising out of operations conducted by any party at the direction of Lessee; with the exception of any injuries, damage, or destruction caused by the gross negligence or intentional misconduct of Lessor. Lessee agrees to defend, indemnify and hold harmless Lessor from and against liability, damage, expense, claim and judgment arising under this Lease caused by Lessee, or by any party acting at the direction of Lessee, or Lessee's designated operators, agents, employees or assigns. Lessee further agrees to indemnify Lessor for any costs, including costs of suit and fees for consultants, experts, and attorneys, incurred by Lessor in terminating or canceling, enforcing obligations or defending itself against any matter arising under this Lease. Liability for claims for injuries to persons or property arising from the negligence of the State of Colorado, its departments institutions, agencies, boards, officials, and employees is controlled and limited by the provisions of the Governmental Immunity Act CRS §24-10-101, et seq. and the risk management statutes, CRS §24-30-1501, et seq., as amended. This provision shall survive termination,

cancellation or relinquishment of this Lease and any cause of action by Lessor to enforce it shall not be deemed to accrue until Lessor's actual discovery of said liability, claim, loss, damage, or exposure.

16. **RESERVATIONS TO LESSOR** - This Lease is subject to any and all presently existing easements, rights of way and other interests, whether or not visible on the ground; and, in addition to its reversion upon termination of this Lease, the Board hereby reserves:
- A. All rights, privileges and uses of every kind or nature not specifically granted to Lessee by this Lease.
 - B. The right to sell, exchange, or otherwise dispose of all or any portion of the surface where Lessor is the surface owner subject to the terms and conditions of this Lease. Lessor shall provide Lessee notice upon the Lessor's decision to initiate a sale or exchange of all or a portion of the Leased Land.
 - C. The right to lease all or any portion of Lessor's land to other persons for the purposes of initiating and continuing grazing and agricultural uses, developing renewable energy, and exploring for and removing timber, minerals, ores, metals, coal, asphaltum, sand, gravel, clay, quarry products, peat, geothermal resources, and all other naturally occurring resources, together with reasonable and adequate rights of entry and surface rights necessary or convenient to exercise such reserved rights. Any new leases shall be compatible with and subject to the rights and privileges granted to Lessee herein.
 - D. Upon termination of this Lease, the right to sell, exchange, develop or otherwise dispose of all or any portion of the Leased Water that is subject to this Lease and the Decree.
 - E. Ownership of the Leased Water and all water, water rights, ditch rights, water stock and/or ditch stock appurtenant to or used in connection with the Leased Water including wells, rights in ditch or canal organizations or companies, except those structures constructed or completed by the Lessee. All such rights shall be and remain the property of the Lessor, except as stated herein.
 - F. The right at any time to grant a right-of-way upon, over or across all or any part of Lessor's surface for any ditch, reservoir, railroad, communication system, electric powerline, pipeline, schoolhouse or other lawful purpose. Such grants shall be subject and subordinate to the rights of Lessee granted herein, and shall provide that any and all damages caused to any structures or improvements placed upon the surface of the premises subsequent to the date hereof shall be repaired by and at the expense of the party to whom the easement or right-of-way was granted. If the grant of such rights shall unreasonably interfere with Lessee's rights hereunder, the implementation or effectiveness of the grant of such rights shall be delayed until such time as there is no interference with Lessee's rights.
 - G. The right at any time to place the Leased Land into the Stewardship Trust as set forth in Section 10(1)(b)(l) of Article IX, of the State Constitution. Said placement into the Stewardship Trust shall be for reasons not inconsistent with the rights and privileges of Lessee.
17. **ASSIGNMENTS, SUBLEASING AND ENCUMBRANCES** - This Lease shall be binding on the parties hereto, their heirs, representatives, successors and permitted assigns. This Lease shall not be assigned, transferred or sold, voluntarily or by operation of law, without the prior written consent of Lessor. Consent to an assignment shall be at the Board's sole discretion and upon such terms and conditions as determined by Lessor, including the payment of an assignment fee not to exceed \$100.00, and such consent shall not be unreasonably withheld. Any name change of the Lessee shall be considered an assignment. Assignment or other transfer without written consent of Lessor shall not affect a novation of this Lease, and shall, nevertheless, make the assignee responsible and liable, along with the Lessee, for performing this Lease. The acceptance by the Lessor of any payment due hereunder from any person other than the Lessee shall not be deemed a waiver by the Board of any provision of this Lease or to be consent to any assignment.
18. **DEFAULTS AND REMEDIES**
- A. Defaults. The occurrences of any one or more of the following events shall constitute a default hereunder by the Lessee:

- i. Failure by the Lessee to make any payment required under the Lease when due.
- ii. Use of the Leased Water by the Lessee, its successors and assigns or attempted use of the Leased Water for any other purpose than those permitted by this Lease.
- iii. Failure by the Lessee to perform any and all of the covenants, conditions or requirements contained herein.

Any of the above events of default may be cured by the Lessee within thirty (30) days after written notice thereof from the Lessor to the Lessee in accordance with Paragraph 29.q - "Notices" section of this Lease. If the nature of the Lessee's default is such that more than thirty (30) days are reasonably required to cure such default then the Lessee shall not be deemed to be in default if the Lessee shall commence such cure within said thirty (30) day period and thereafter diligently pursue such cure to completion. If documents provided do not cure the default or defaults specified in the written notice, the Lease shall be terminated automatically and no further notice shall be necessary.

- B. Remedies. In any event of default and in addition to any or all other rights or remedies of the Lessor hereunder or by the law provided, Lessor may exercise the following remedies at its sole option:
- i. Termination. Terminate the Lessee's right to possession of the Leased Water by any lawful means, in which case this Lease shall terminate and the Lessee shall immediately surrender possession of the Leased Water and Leased Land to Lessor according to the terms of Paragraph 19 - "Surrender" section of this Lease. In such event of termination the Lessor shall be entitled to recover from the Lessee:
 - a. The accrued but unpaid rental as of the date of such default, and other payments owed pursuant to this Lease which have accrued together with interest; and,
 - b. Any other amount necessary to compensate Lessor for the Lessee's failure to perform its obligations under this Lease or which would be likely to result therefrom, including, but not limited to, the cost of recovering possession of the Leased Water, expenses of re-leasing, reasonable damages, reasonable attorney fees, and any other reasonable costs;
 - c. Compensation for costs incurred for use of the Leased Water, including ongoing obligations under the Decree;
 - d. Interest - The interest shall be one and one half percent (1-1/2%) compounded monthly. Said interest shall accrue from the dates such amounts accrued to the Lessor until paid by the Lessee.
 - ii. Cumulative Rights. The rights and remedies reserved to Lessor, including those not specifically described, shall be cumulative, and Lessor may pursue any or all of such rights and remedies, at the same time or separately.

19. **SURRENDER** - Lessee may terminate this Lease for any reason, including if the Leased Water does not satisfy the requirements of Lessee in any way, by providing written notice to Lessor 30 days prior to termination. Such termination is the sole recourse. All prior payments will be forfeited. Upon expiration or termination of this Lease prior to January 18, 2028, the Lessee shall peaceably and quietly surrender possession of the Leased Water and any portion of Lessor's surface used by Lessee, at no cost to Lessor. Lessee shall transfer ownership of all structures to Lessor and provide written notice to Lessor of the relinquishment of any right to use the Leased Water under any water court decree that includes the Leased Water; provided, however, that at Lessee's option and expense, Lessee may remove all or a portion of such structures from the Leased Lands, and in connection therewith Lessee shall use commercially reasonable efforts to restore any disturbed land surfaces on the Leased Lands. During the Term of or upon termination or expiration of this Lease, Lessee shall have the right to negotiate a separate agreement with Lessor to continue to use structures that cross the Leased Lands, such as pipelines crossing the Leased Lands that connect to wells on private property, and shall complete The State Board of Land Commissioners right of way application process in compliance with The State Board of Land Commissioners Right-of-Way Policy No. 300-002 (Rev. February 2018) (but shall not be obligated to pay any additional right-of-way fees to the extent such fees were paid pursuant to Section 6.E above).

20. LIENS AND CLAIMS

A. Mechanics' Liens

The Lessee shall not suffer or permit to be enforced against the Leased Water or Leased Land, or any part thereof, or any improvements, any mechanics', material men's, contractors', or subcontractors' liens arising from, or any claim for damage growing out of the work of any construction, or improvement related to the Leased Water, or any other claim or demand howsoever the same may arise, but the Lessee shall pay or cause to be paid all of said liens, claims, or demands before any action is brought to enforce the same against the Leased Water or improvements.

The Lessee agrees to defend, indemnify and hold Lessor and the Leased Water free and harmless from all liability for any and all such liens, claims, demands, and actions (collectively, the "liens") together with reasonable attorneys fees and all costs and expenses in connection herewith.

B. Rights to Contest

Notwithstanding the foregoing, if the Lessee shall in good faith contest the validity of any such lien, then the Lessee shall at its sole expense defend itself and Lessor against the same and shall pay and satisfy any adverse expense or cost or adverse judgment that may be rendered thereon before the enforcement thereof against Lessor or the Leased Water, upon the condition that if Lessor shall require, the Lessee shall furnish a surety bond satisfactory in form and amount to Lessor. Said bond shall not be less than one hundred twenty percent (120%) of such contested lien indemnifying Lessor against liability for the same, and holding the Leased Water free from the effect of such lien.

21. NO REPRESENTATIONS OR WARRANTIES - Lessor makes no representations or warranties as to the Leased Water, its quantity, quality, or availability.

22. RECORDS - Lessee agrees to keep and to have in possession complete and accurate books and records regarding the Lessee's payment obligations under this Lease, including, but not limited to, contracts and agreements for the sale or exchange, or other disposition of the Leased Water, and records showing the production, water levels, sale, exchange and disposition of any and all Leased Water, including all information necessary to determine the Volumetric Charge for the Leased Water and all information and accounts required under the Decree. Lessee shall provide to Lessor an annual summary report containing such information as may be necessary to confirm the accuracy of the Volumetric Charge. Lessee shall permit Lessor, at all reasonable hours, to audit, examine, or copy such books, accounts, and records, or to furnish copies of same to Lessor within 10 days of request. Any confidential information reviewed during such audit or examination shall be kept confidential by Lessor to the extent allowed by law. Lessor will not be unreasonable with requests. All said books, accounts, and records shall be retained by Lessee and made available in Colorado to Lessor for a period of not less than 7 years.

23. DAMAGE TO LEASED LAND AND BONDS - All operations of the Lessee shall be conducted in a workmanlike and reasonable manner, and all necessary precautions shall be taken to avoid damage to the Leased Land. Prior to commencing operations on the Leased Land, Lessee shall file a good and sufficient bond with Lessor, in an amount to be fixed by Lessor prior to the issuance of the Lease, to secure the payment for damages caused by Lessee's operations on the Leased Land, and to assure compliance with all the terms and provisions of this Lease. Lessor will accept cash, a surety bond, or a bank irrevocable letter of credit. The Lessee may satisfy this individual lease bond obligation by maintaining a blanket bond with Lessor in an amount determined by Lessor. Lessor may agree to accept alternative forms of bonds. Such bond or bonds furnished prior to development of the lands contained in this Lease may be increased in such reasonable amounts as the Lessor may decide upon commencement of operations. In Lessor's discretion, the Lessor may draw upon the bond after Lessee has failed to perform its obligations under the Lease beyond the stated cure periods provided in the Lease.

When the Lessor owns the surface estate, Lessee shall be liable for all damages to the surface of the Leased Land, native grass, timber, irrigation structures, livestock, growing crops, water wells, reservoirs, or improvements caused by Lessee's operations on the Leased Land. Lessee shall give or cause to be given to Lessor prompt notice of damage to or destruction of the Leased Land or its surface, if owned by Lessor, or any part thereof, by any cause, resulting from the Lessee's use. Subject to Lessee's right to make a reasonable use of the surface of the Leased Land for its operations, and Lessee's obligation to comply with the Colorado Ground Water Commission ("Commission") rules and regulations, Lessee shall promptly proceed with due diligence to repair, restore, replace or rebuild so as to make the Leased Land at least equal or substantially similar in quality to the original condition, restore it as required by the Commission's rules and regulations, and to plans approved in writing by Lessor, if required in the special stipulations of this Lease.

These obligations shall not terminate upon the assignment, termination, surrender or expiration of the Lease, but shall continue until the Leased Land is returned to at least the same or substantially similar quality as its original condition prior to any operations under this Lease on the Leased Land.

24. **SURVIVAL OF TERMS, CONDITIONS, RESTRICTIONS, RESERVATIONS, AND COVENANTS** - Any term, condition, restriction, reservation or covenant that gives rise to any rights or claims of Lessor against Lessee shall be deemed to survive the termination, relinquishment, surrender, or abandonment of this Lease until all claims and issues have been settled or resolved. Upon termination, surrender, or abandonment of this Lease for any reason, provided Lessor does not expressly take over or assume any of Lessee's obligations hereunder, Lessor shall not be liable or responsible for compliance with the Decree, any laws, rules, regulations, orders, local ordinances or resolutions applicable to this Lease.
25. **NO WAIVER** - Failure or delay by either party to exercise any right, power or privilege hereunder will not operate as a waiver hereof, nor will any single or partial exercise of any right or privilege hereunder preclude further exercise of the same right or the exercise of any right hereunder. A waiver on one or more occasions of any of the provisions hereof shall not be deemed a continuing one. Acceptance of payments by Lessor shall not be deemed to effect (a) a ratification, renewal, extension, or amendment of this Lease, or (b) a waiver of any rights granted to Lessor, the obligations imposed upon Lessee, express or implied, or the remedies for Lessee's breach, or (c) an estoppel against Lessor preventing Lessor from enforcing Lessor's rights or Lessee's obligations hereunder, express or implied, or from seeking damages for Lessee's breach thereof. No instrument executed by Lessor shall be effective to constitute ratification, renewal, extension or amendment of this Lease unless the instrument is clearly titled to indicate its purpose and intent.
26. **INSURANCE** - The Lessee at its sole cost and expense shall, during the entire term hereof procure, pay for and keep in full force and effect a comprehensive policy of public liability insurance covering the Leased Water and the improvements, insuring the Lessee in an amount that complies with the policy of Lessor, currently one million dollars (\$1,000,000.00), protecting Lessor and covering bodily injury, including death to persons, personal injury and property damage liability. Such coverage shall include, without limitation, legal liability of the insured for property damage, bodily injuries and deaths of persons in connection with the operation, maintenance or use of the Leased Water and shall name Lessor as an additional or co-insured.

The policy shall contain a provision that it cannot be cancelled or materially altered either by the insured or the insurance company until thirty (30) days prior written notice thereof is given to the Lessee and Lessor. The Lessee shall furnish a duplicate original of such policies or renewal thereof with proof of premium payment to Lessor.

No policy of insurance shall include a deductible clause in an amount greater than 1% of the face amount of the policy.

Notwithstanding anything to the contrary contained herein, the Lessee's obligation to carry insurance as provided herein may be brought within the coverage of a "blanket" policy or policies of insurance carried and maintained by the Lessee, so long as such policy(s) segregates the amount of coverage applicable to the Leased Water.

27. **NO THIRD PARTY BENEFICIARY** - Nothing in this Lease is intended, nor will be deemed, to confer rights or remedies upon any person or legal entity not a party to this Lease.
28. **COMPLIANCE WITH LAW** - Lessee shall comply fully with all provisions, terms, conditions of all laws, whether local, state or federal, and orders issued thereunder, including but not limited to the rules and regulations of the Lessor, the Colorado Division of Water Resources, the Commission, any ground water management district, and any other state, local, or federal agency or commission with authority to regulate activities pursuant to this Lease. In the event that the Lessee is required to file applications, instruments, and documents with other agencies, Lessee shall notify Lessor of said filing and Lessor reserves the right to request and obtain copies of such applications, instruments, and documents from the Lessee.
29. **MISCELLANEOUS**
- a) **Waiver.** The waiver of any breach of any provision of this Lease by any party hereto shall not constitute a continuing waiver of any subsequent breach of said party, for any breach of the same or any other provision of the Lease.
- b) **Entire Understanding.** This Lease represents the complete integration of all understandings between the parties and all prior representations and understandings, oral or written, are merged herein. Prior or contemporaneous additions, deletions, or other changes hereto shall not have any force or effect whatsoever, unless embodied herein.
- c) **Captions.** Captions and paragraph headings in this Lease are intended for convenience and reference only and shall not define, limit or describe the scope or intent of any provisions of this Lease.
- d) **Severability.** Provided this Lease can be executed and performance of the obligations of the parties accomplished within its intent, the provisions hereof are severable and any provision that is declared invalid or becomes inoperable for any reason shall not affect the validity of any other provision hereof, provided that the parties can continue to perform their obligations under this Lease in accordance with its intent.
- e) **Survival.** Notwithstanding anything herein to the contrary, provisions of this Lease requiring continued performance, compliance, or effect after termination hereof, shall survive such termination and shall be enforceable by the Lessor if Lessee fails to perform or comply as required.
- f) **Binding Effect.** This Lease and the rights and obligations created hereby shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.
- g) **Modification or Amendment.**
- 1) **By the Parties.** Except as specifically provided in this Lease, modifications of this Lease shall not be effective unless agreed to in writing by the parties in an amendment to this Lease.
- 2) **By Operation of Law.** This Lease is subject to such modifications as may be required by changes in Federal or Colorado State law, or their implementing regulations. Any such required modification automatically shall be incorporated into and be part of this Lease on the effective date of such change, as if fully set forth herein.
- h) **Governing Law and Venue.** This Lease and its application shall be construed in accordance with the laws of the State of Colorado. The parties agree that venue for any litigated disputes regarding this Lease shall be Denver County.

- i) **Counterparts.** This Lease may be executed in multiple identical original counterparts, all of which shall constitute one Lease.
- j) **No Third-Party Beneficiaries.** Enforcement of this Lease and all rights and obligations hereunder are reserved solely to the parties. Any services or benefits which third parties receive as a result of this Lease are incidental to the Lease, and do not create any rights for such third parties.
- k) **Non-Business Days.** If the date of any action under this Lease falls on Saturday, Sunday or a day recognized as a holiday by the State of Colorado, then the relevant date shall be extended automatically until the next day that is not Saturday, Sunday or a holiday.
- l) **CORA Disclosure.** This Lease is subject to public release through the Colorado Open Records Act, CRS §24-72-201, et seq.
- m) **Costs of Suit, Attorneys Fees.** In the event that the State Land Board shall, without fault on the State Land Board's part, be made party to any litigation instituted by the Lessee or by any third party against the Lessee, or by or against any person holding under or using the Leased Water or Leased Land by license of the Lessee, or for the foreclosure of any lien for labor or material furnished to or for the Lessee or any such other person or otherwise arising out of or resulting from any action or transaction of the Lessee or of any such other person, the Lessee hereby indemnifies and holds the State Land Board harmless from and against any judgment rendered against the State Land Board or the improvements or any part thereof, and all costs and expenses, including reasonable attorney's fees, incurred by the State Land Board in or in connection with such litigation.
- n) **Governmental Immunity.** No term or condition of this Lease shall be construed or interpreted as a waiver, express or implied, of any of the immunities, rights, benefits, protections, or other provisions, of the Colorado Governmental Immunity Act, CRS §24-10-101 et seq., as applicable now or hereafter amended.
- o) **Compliance with Laws.** The Lessee shall comply with the Decrees and all applicable federal, state and local ordinances, rules, regulations, and laws regarding the Leased Water and activities conducted in the use thereof. Furthermore, the Lessee shall not use or permit the Leased Water to be used in violation of the Decrees and any rule, regulation or law or for any purpose tending to damage or harm the Leased Water.
- p) **Lessee's Authority.** If the Lessee is an entity other than an individual, each individual executing this Lease on behalf of said entity represents and warrants that he or she is duly authorized to execute and deliver this Lease on behalf of said entity and that this Lease is binding upon said entity in accordance with its terms. Upon request, the Lessee shall deliver a certified copy of the appropriate document evidencing authorization for such execution.
- q) **Notices.** Any notice, demand, request, designation, consent, approval or other document or instrument required under the provisions of this Lease shall be in writing, shall be deemed to have been duly served on the day of receipt or rejection and shall be sent by registered or certified United States mail, postage prepaid, return receipt requested, or by a nationally recognized overnight courier service that provides written evidence of delivery, as addressed to the Parties hereto. The Parties may change the place for serving such papers on it, or provide for the delivery of not more than 2 additional copies, by giving the other party at least 30 days prior written notice to such effect. THE CITY OF GREELEY, COLORADO
RAW WATER DEDICATION CREDIT CERTIFICATE NO. _____.

THIS RAW WATER DEDICATION CREDIT CERTIFICATE ("CERTIFICATE") CERTIFIES that, _____ is the "Registered Owner" of _____ "Raw Water Credits", as defined in the enclosed "Terms and Conditions." By execution and delivery of this Certificate, the City of Greeley ("City"), acting by and through its Water Enterprise ("Enterprise"), agrees to, and by acceptance of this Certificate the Registered Owner agrees to, the Terms and Conditions on the following pages.

IN WITNESS WHEREOF, this Certificate is executed and delivered by the City, acting by and through its Enterprise this ___ day of 20__.

By: _____
Director of Water and Sewer

TERMS AND CONDITIONS
(Raw Water Credits)

1. Credit Redemption; Assignment and Transfer.

A. Credit Value. One (1) Raw Water Credit represents the equivalent of, but not an interest in, one acre-foot of raw water.

B. Redemption or Transfer of Certificate. The Registered Owner of this Certificate may surrender this Certificate to the Greeley Water and Sewer Department, acting on behalf of the Enterprise (the "Department"), to either (i) redeem the Raw Water Credit(s) represented by this Certificate in whole or in part (but only in whole numbers of Raw Water Credits) towards the satisfaction of any cash-in-lieu fee obligation associated with the Registered Owner's request for water service as prescribed by the raw water dedication provisions under Chapter 14.06 of the Greeley Municipal Code ("Raw Water Dedication Policy"), attached hereto and incorporated herein as Exhibit I, which may be amended consistent with these Terms and Conditions, or (ii) transfer the Raw Water Credit(s) represented by this Certificate, in whole or in part (but only in whole numbers of Raw Water Credits), to a transferee. The Department shall not be obligated to (x) recognize any person or entity as the owner of Raw Water Credits represented by a Certificate, or having any interest therein, who does not appear as the Registered Owner thereof in the Registry (defined below) or (y) issue or reissue a Certificate to a Registered Owner who has failed to comply with these Terms and Conditions, until such failure to comply has been remedied or cured.

a. Redemption. If the Registered Owner of this Certificate surrenders this Certificate to the Department and redeems all or a portion of the Raw Water Credits represented thereby in accordance with the Raw Water Dedication Policy, then the Raw Water Credits so presented shall be deemed exercised and the Certificate evidencing the same shall be cancelled. Should the number of Raw Water Credits evidenced by this Certificate exceed the number of Raw Water Credits redeemed, the Department shall issue a new certificate to the Registered Owner for any unredeemed Raw Water Credits within thirty (30) days of surrender of this Certificate.

b. Transfer. If the Registered Owner of this Certificate transfers all or a portion of the Raw Water Credit represented by this Certificate, then the Certificate evidencing the same shall be cancelled. The form attached hereto and incorporated herein as Exhibit II, properly executed and acknowledged, shall be used for the transfer of a Raw Water Credit. Should the number of Raw Water Credits evidenced by this Certificate exceed the number of Raw Water Credits transferred, the Department shall issue a new certificate to the Registered Owner for any retained Raw Water Credits. The Department shall process all transfers made in accordance with these Terms and Conditions within thirty (30) days of surrender of this Certificate.

C. Expiry. A Registered Owner may redeem a Raw Water Credit from the Enterprise through December 31, 2099, subject to these Terms and Conditions and the Raw Water Dedication Policy.

2. Registry. The Department shall establish and maintain a written record of all issued and outstanding Certificates (the “Registry”). The Registry shall include, but is not limited to, (i) the name of the person or entity to whom a Certificate has been issued, (ii) the date of issuance or transfer, (iii) the Registered Owner’s contact information on the date of the issuance or transfer, (iv) the Certificate Number affixed thereto, and (v) the number of Raw Water Credits evidenced thereby. The Department shall have no obligation to verify the Registered Owner’s contact information; provided, however, that the Department shall update information in the Registered Owner Contacts upon the issuance or reissuance of any Certificate or if the Registered Owner provides written notice to the Department of a change to its respective Registered Owner Contacts.

3. Inspection. The Registry, including a Registered Owner’s contact information, shall be publicly available for inspection during the Department’s normal business hours and upon reasonable prior notice.

4. Termination Date. These Terms and Conditions shall be effective from the date of issuance of a Certificate to a Registered Owner, and its successors and assigns, until the earlier of (i) redemption of all Raw Water Credits held by such Registered Owner, or (ii) December 31, 2099.

5. Revocation. If the City revokes or rescinds the Raw Water Dedication Policy to deny acceptance of Raw Water Credits prior to the earlier of December 31, 2099, or the date the last outstanding Raw Water Credit is redeemed, then the Registered Owner may surrender any Raw Water Credits held by such Registered Owner to the Department and exercise the Remedy defined in Section 12.

6. Adding New Sources. The City may amend the Raw Water Dedication Policy to accept a New Source (defined below) in dedication and satisfaction of its raw water requirements, provided that such amendment does not occur before [**Closing Date + 10 years**]. A “New Source” shall mean raw water taken in dedication from a source other than water attributable to units or shares of the following: (i) Colorado Big-Thompson Project, (ii) Greeley-Loveland Irrigation Company, (iii) Seven Lakes Reservoir Company, (iv) Loveland and Greeley Reservoir Company, (v) Greeley Irrigation Company, and/or (vi) any other water right used to historically irrigate lands within the service area, provided that the dedication of such water rights is limited to the satisfaction of non-potable demand and are used to continue irrigating the historically irrigated lands. If the City amends the Raw Water Dedication Policy to accept a New Source before [**Closing Date + 10 years**], then a Registered Owner may surrender Raw Water Credits held by such Registered Owner to the Department and exercise the Remedy defined in Section 12. As used in this Section 6, “service area” means and refers to that area within which the Enterprise provides water services as of [**CLOSING DATE**], inclusive of any expansions of the service area subsequent to [**CLOSING DATE**], as well as areas served by other water districts that accept Raw Water Credits in the future in accordance with the Raw Water Dedication Policy or any similar policy recognized by another water district.

7. Limiting Redemption of Raw Water Credits. A Registered Owner may satisfy up

to one hundred percent (100%) of the Registered Owner's cash-in-lieu fee obligation under the Raw Water Dedication Policy with Raw Water Credits on or before [**Closing Date + 15 years**]. The City may amend the Raw Water Dedication Policy to limit a Registered Owner's right to satisfy up to one hundred percent (100%) of the Registered Owner's cash-in-lieu fee obligation with Raw Water Credits, provided that such amendment does not (i) occur before [**Closing Date + 15 years**], and (ii) reduce the proportion of Raw Water Credits that may be redeemed in satisfaction of a Registered Owner's cash-in-lieu fee obligation below seventy-five percent (75%) of such obligation. If the City (i) amends the Raw Water Dedication Policy to limit, or (ii) otherwise reduces, a Registered Owner's right to satisfy one hundred percent (100%) of the Registered Owner's cash-in-lieu fee obligation with Raw Water Credits before [**Closing Date + 15 years**], then a Registered Owner may surrender Raw Water Credits held by such Registered Owner to the Department and exercise the Remedy defined in Section 12 (Remedy; Obligation of the Enterprise). If the City (i) amends the Raw Water Dedication Policy to limit, or (ii) otherwise reduces, a Registered Owner's right to satisfy not less than seventy-five percent (75%) of the Registered Owner's cash-in-lieu fee obligation with Raw Water Credits prior to the earlier of December 31, 2099, or the date the last outstanding Raw Water Credit is redeemed, then a Registered Owner may surrender Raw Water Credits held by such Registered Owner to the Department and exercise the Remedy defined in Section 12 (Remedy; Obligation of the Enterprise).

8. Disadvantaging Raw Water Credits. Subject to the process set forth in Section 10 (Objection to a Proposed Change; Registered Owners Committee) below, if the City amends or revises the Raw Water Dedication Policy or enters into an agreement pursuant to Section 14.06.190 of the City's Municipal Code that has the effect of disadvantaging a Raw Water Credit relative to other sources or means of satisfying the City's raw water dedication requirements prior to the earlier of December 31, 2099, or the date the last outstanding Raw Water Credit is redeemed, then a Registered Owner may surrender all or a portion of the Raw Water Credits (but only in whole numbers of Raw Water Credits) held by such Registered Owner to the Department and exercise the Remedy defined in Section 12 (Remedy; Obligation of the Enterprise).

9. Permissible Policy Changes. Notwithstanding Section 8 (Disadvantaging Raw Water Credits) above and subject to Section 10 (Objection to a Proposed Change; Registered Owners Committee) below, the City may amend or revise the Raw Water Dedication Policy to: (i) address non-substantive administrative, clerical, or procedural changes, including but not limited to any municipal code renumbering, that do not have the effect of disadvantaging a Raw Water Credit relative to other sources or means of satisfying the City's raw water dedication requirements; (ii) reflect or address a change in water use and/or consumption that is supported by economic or scientific analysis and is consistent with reasonable industry practice; or (iii) to comply with applicable federal and state law (each a "Permissible Policy Change"). The intent of a Permissible Policy Change is to narrowly tailor such change to minimize a reduction or adverse change in the value of the Raw Water Credits. Subject to the process set forth in Section 10 (Objection to a Proposed Change; Registered Owners Committee) below, if the City amends or revises the Raw Water Dedication Policy and such amendments or revisions do not qualify as a Permissible Policy Change prior to the earlier of December 31, 2099, or the date the last outstanding Raw Water Credit is redeemed, then a Registered Owner may surrender Raw Water Credits held by such Registered Owner to the Department and exercise the Remedy defined in

Section 12 (Remedy; Obligation of the Enterprise).10. Objection to a Proposed Change; Registered Owners Committee.

A. Notice; Objection. If the City adopts an agreement pursuant to Section 14.06.190 of the Greeley Municipal Code or amends or revises the Raw Water Dedication Policy in a manner that is inconsistent with or otherwise violates Section 8 (Disadvantaging Raw Water Credits) or Section 9 (Permissible Policy Changes) prior to the earlier of December 31, 2099, or the date the last outstanding Raw Water Credit is redeemed, then the Registered Owners shall have the right to object to such agreements or amendments or revisions consistent with the following process. All Registered Owners will be deemed to have notice of any agreement approved pursuant to Section 14.06.190 or any amendments or revisions to the Raw Water Dedication Policy approved pursuant to such policy if the City follows its normal ordinance adoption, hearing and publication requirements in accordance with C.R.S. § 24-6-402(2)(c), Section 3-17 of the City's Charter, and the Raw Water Dedication Policy. Registered Owners may object to the proposed final approval of such agreements or any proposed final adoption of such amendments or revisions to the Raw Water Dedication Policy by providing written notice to the Department (an "Objection"), certified by the Committee Representative (defined below), no less than five (5) days prior to the date of the public hearing of the ordinance approving an agreement pursuant to Section 14.06.190 or adopting an amendment or revisions to the Raw Water Dedication Policy. The Committee Representative shall furnish a copy of the Executed Committee Authorization (defined below) to the Department along with the Objection. In accordance with Section 3-17 and the Raw Water Dedication Policy, the date of the public hearing shall be published after the first reading and shall be set for a date no less than twenty-eight days after the first reading. The Objection shall include the Registered Owner Committee's basis for the Objection and, to the extent possible, suggested modifications that would resolve the Objection. After receipt of such Objection, the Department shall remove the ordinance approving the agreement or adopting the amendments or revisions to the Raw Water Dedication Policy from the City Council's agenda. Thereafter, the Department, and the Committee Representative shall have thirty (30) days from the date of receipt of the Objection to resolve the Objection. If the Committee Representative does not withdraw the Objection, in writing, thirty (30) days from the date of receipt of the Objection, then the Department and the Committee Representative shall submit the agreement or the amendments or revisions, along with each party's respective position, to an economist or engineer, agreeable to both parties, who is a Colorado based utility rate or policy expert, to determine whether the agreement violates Section 8 (Disadvantaging Raw Water Credits) or the amendments or revisions qualify as a Permissible Policy Change. The economist or engineer's findings shall be binding on the Enterprise, and the Registered Owner Committee (acting by and through the Committee Representative). If the economist or engineer finds that the agreement does not violate Section 8 (Disadvantaging Raw Water Credits) or that the amendments or revisions qualify as a Permissible Policy Change, then the Registered Owners shall not be entitled to exercise the Remedy defined in Section 12 (Remedy; Obligation of the Enterprise) pursuant to Section 8 (Disadvantaging Raw Water Credits) or Section 9 (Permissible Policy Changes), as the case may be. If the economist or engineer finds (x) either (i) that the agreement violates Section 8 (Disadvantaging Raw Water Credits) or (ii) that the amendments or revisions do not qualify as a Permissible Policy Change and (y) the City does not amend or reject the agreement or the ordinance amending or revising

the Raw Water Dedication Policy to resolve or otherwise satisfy the Registered Owner Committee's Objection, then a Registered Owner may surrender all or a portion of the Raw Water Credits (but only in whole numbers of Raw Water Credits) held by such Registered Owner to the Department and exercise the Remedy defined in Section 12 (Remedy; Obligation of the Enterprise) pursuant to Section 8 (Disadvantaging Raw Water Credits) or Section 9 (Permissible Policy Changes), as the case may be. If the Registered Owner Committee, acting by and through a Committee Representative, does not provide an Objection to the Department, five (5) days prior to the date of the public hearing of the ordinance approving an agreement pursuant to Section 14.06.190 or adopting an amendment or revision to the Raw Water Dedication Policy, then each Registered Owner shall be deemed to have consented to the agreement or to have accepted the amendments or revisions to the Raw Water Dedication Policy as a Permissible Policy Change. Nothing in this Section 10 shall be read to limit the Registered Owner Committee or individual Registered Owners from participating in any public hearing on an ordinance approving an agreement pursuant to Section 14.06.190 or amending or revising the Raw Water Dedication Policy.

B. Registered Owner Committee; Committee Representative. The Registered Owners that account for a majority of the then-outstanding Raw Water Credits, as reflected in the Registry (the "Committee Threshold"), may form a "Registered Owner Committee", with full authority to act for all Registered Owners for the purposes of exercising the rights provided in Section 10.A (Notice; Objection). Any Registered Owner may submit a written request to form the Registered Owner Committee (a "Committee Authorization") to the other Registered Owners. A Committee Authorization shall include (i) a description of the Objection, which shall serve as a basis for forming the Registered Owner Committee, and (ii) the proposed representative or representatives of such Registered Owner Committee (the "Committee Representative"). The signatures (including electronic signatures) of a Committee Threshold on a Committee Authorization shall be conclusive evidence that a Registered Owner Committee has been formed ("Executed Committee Authorization"). Following delivery of the Executed Committee Authorization and Objection to the Department, the Committee Representative(s) shall have full authority to act on behalf of the Registered Owners for the purposes of resolving the Objection. The Committee Authorization shall terminate when the Objection has been resolved in accordance with Section 10.A (Notice; Objection).

11. No Duty to Other Registered Owners. These Terms and Conditions, including but not limited to Section 10 (Objection to a Proposed Change; Registered Owners Committee), shall not give rise to any duty, claim or cause of action by one Registered Owner against another. Moreover, each Registered Owner acknowledges and agrees that no Registered Owner has any obligation or responsibility to (a) monitor any amendments or revisions to the Raw Water Dedication Policy, (b) submit any Objection, even if such Objection relates to a revision or amendment that is not a Permissible Policy Change, or (c) authorize or vote in favor of the formation of the Registered Owner Committee. The rights to submit an Objection and to authorize the Registered Owner Committee are to be exercised in each Registered Owner's sole and absolute discretion.

12. Remedy; Obligation of the Enterprise. If a Registered Owner elects to surrender any Raw Water Credits held by such Registered Owner to the Department pursuant to Section 5

(Revocation), Section 6 (Adding New Sources), Section 7 (Limiting Redemption of Raw Water Credits), Section 8 (Disadvantaging Raw Water Credits), or Section 9 (Permissible Policy Changes), then the Enterprise shall be obligated to buy back the surrendered Raw Water Credits at the greater of (i) thirty thousand dollars (\$30,000) per Raw Water Credit in 2020 escalated three percent (3%) compounded annually thereafter, or (ii) the three-year trailing average of the City's cash-in-lieu price ("Remedy"). A Registered Owner may surrender and the Enterprise will be obligated to buy back only a portion of the Raw Water Credits held by a Registered Owners, but only in whole numbers of Raw Water Credits. The parties agree that the amount of damages would be very difficult or impossible to calculate and the Remedy defined in this Section is intended to, and does, represent the amount of damages due to a Registered Owner (and shall constitute liquidated damages), and shall be the Registered Owner's sole and exclusive remedy, both at law and in equity, arising from or relating to those acts of the City set forth in Section 5 (Revocation), Section 6 (Adding New Sources), Section 7 (Limiting Redemption of Raw Water Credits), Section 8 (Disadvantaging Raw Water Credits), or Section 9 (Permissible Policy Changes), .

13. Amounts Due; Payable. This Certificate does not represent a debt, indebtedness or multiple fiscal year financial obligation of the City and cannot be redeemed except as expressly provided in these Terms and Conditions. Any amounts due and payable by the City to a Registered Owner pursuant to these Terms and Conditions (a "Payment Obligation") shall be solely the special and limited obligations of the Enterprise. Any Payment Obligation shall be payable solely from the net revenues of Greeley's municipal water system, operated by the Enterprise (the "Water System"), remaining in each year after payment of or provision for (a) all standard operation and maintenance expenses of the Water System and the principal of, interest on and reserve requirements of its first-lien Parity Obligations (as that term is defined in the Water Revenue Bond Ordinance) issued and outstanding from time to time as permitted by Ordinance No. 41, 2018 (the "Water Revenue Bond Ordinance"), (b) a reserve for operation and maintenance expenses equal to twenty five (25%) of the previous year's operation and maintenance expenses, and (c) reserves for depreciation and other amounts with respect to the Water System specifically required by the City Charter as in effect on [**Closing Date**] (such net revenues being referred to herein as the "Surplus Revenues"). Each Payment Obligation shall constitute a "Subordinate Obligation" (as that term is defined in the Water Revenue Bond Ordinance) of the City, acting by and through the Enterprise, provided that notwithstanding the provisions of Sections 22 and 25(c) of the Water Revenue Bond Ordinance, Greeley shall not be required in any year to apply more than seventy percent (70%) of its Surplus Revenues to the payment of all Payment Obligations.

14. No Third Party Beneficiary; No Waiver of Governmental Immunity. These Terms and Conditions shall not create any duty of care or liability with respect to any person or entity not a Registered Owner, or waive any of the privileges or immunities the City or its officers, employees, successors and assigns may present pursuant to law, including, but not limited to, the Colorado Governmental Immunity Act, C.R.S. 24-10-101, et seq., as amended.

15. Governing Law; Venue. These Terms and Conditions, including any instrument or agreement required hereunder, and all matters arising out of or in connection with these Terms and Conditions (whether in contract, tort or otherwise) shall be construed in accordance with and

governed by the laws of the State of Colorado, without giving effect to any conflict of law principles that would require the application of the laws of another jurisdiction. All actions or proceedings arising out of or relating to these Terms and Conditions and any dispute shall be litigated in any such court in Weld County, Colorado. Each party accepts for itself, generally and unconditionally, the exclusive jurisdiction and venue of the aforesaid courts, submits itself to the personal jurisdiction of such courts and waives any defense of *forum non conveniens* or any similar defense. Each party hereby waives its respective right to a trial by jury for any claim or cause of action based upon or arising out of or related to this Agreement in any action, proceeding, or other litigation of any type brought by any party against any other party, whether with respect to contract claims, tort claims, or otherwise. Each party agrees that any such claim or cause of action will be tried by a court trial without a jury.

16. Amendments. These Terms and Conditions shall not be amended, modified or changed without the written agreement of the Department and Registered Owner.

CONSTRUCTION ESCROW AGREEMENT

THIS CONSTRUCTION ESCROW AGREEMENT (as the same may be modified, amended, supplemented, restated or replaced, this “Agreement”), made and entered into as of _____, 2020 by and among **THE CITY OF GREELEY, COLORADO, acting by and through its WATER ENTERPRISE** (together with its permitted successors and assigns, “Greeley”), **WINGFOOT WATER RESOURCES, LLC**, a Delaware limited liability company (together with its permitted successors and assigns, “Wingfoot”) and _____, a _____, as escrow agent (the “Escrow Agent”);

WITNESSETH:

WHEREAS, Greeley and Wingfoot have previously entered into a Master Purchase, Sale and Raw Water Credit Administration Agreement (Terry Ranch) dated as of _____, 2020 (as the same may be modified, amended, supplemented, restated or replaced, the “Master Agreement”) for the purpose of providing for the acquisition, financing, construction, improvement and installation of certain water rights, infrastructure improvements and appurtenant property for use by Greeley in its municipal water system; and

WHEREAS, pursuant to the Master Agreement, Greeley and Wingfoot have agreed to deposit certain funds (collectively and individually, “Cash Contributions”) in escrow for the purpose of funding Greeley’s cost of construction of infrastructure (the “Project Infrastructure”) for the purpose of withdrawing, collecting, transporting, treating and storing water withdrawn from or used for the recharge of the Upper Laramie-Fox Hills Aquifer underlying certain real property in Weld County, Colorado; and

WHEREAS, the Master Agreement contemplates that, upon the occurrence of certain events Greeley, Wingfoot, or both Greeley and Wingfoot, will deposit funds in escrow with the Escrow Agent, subject to withdrawal upon the satisfaction of certain conditions, for payment of Project Infrastructure Costs (as defined in the Master Agreement), or, upon certain other events, including the completion of the Project Infrastructure, termination of or certain defaults under the Master Agreement or termination of this Agreement, for distribution to Greeley or Wingfoot or both; and

WHEREAS, Greeley and Wingfoot desire to establish an escrow account to provide for the custody and disbursement of the Escrow Deposit (defined below) in accordance with the terms and conditions of this Agreement; and

NOW, THEREFORE, in consideration of the foregoing and the mutual covenants herein set forth, and in order to secure the payment of the Project Infrastructure Costs or the return of the Escrow Deposit in whole or in part according to the tenor and effect of the Master Agreement, the parties hereto hereby agree as follows:

ARTICLE II

**ESTABLISHMENT OF CONSTRUCTION ESCROW ACCOUNT;
DISBURSEMENTS AND FLOW OF FUNDS**

Section 2.01. Creation of the Escrow Account and Deposit of Moneys.

(a) The Escrow Account shall be held by the Escrow Agent and accounted for separately from other funds of Greeley, Wingfoot, the Escrow Agent and all other persons.

(b) The Escrow Agent shall treat the deposits and withdrawals of funds by each party hereto as two separate subaccounts designated as the “Greeley Subaccount” for deposits made by Greeley, and the “Wingfoot Subaccount” for deposits made by Wingfoot. Such Subaccounts shall be maintained and accounted for separately. All interest and investment earnings on funds in (i) the Greeley Subaccount shall accrue to the benefit of Greeley, and (ii) the Wingfoot Subaccount shall accrue to the benefit of Wingfoot.

(c) Pursuant to the Master Agreement, within Ninety (90) days after the date of this Agreement, Wingfoot shall deposit Twenty-Five Million and 00/100 Dollars (\$25,000,000.00) (“Initial Contribution”) with the Escrow Agent in the Escrow Account and provide written notice thereof to Greeley. The balance of the Cash Contributions, in the amount of One Hundred Million and 00/100 Dollars (\$100,000,000.00) shall be deposited by Wingfoot into the Escrow Account in accordance with the terms and provisions of the Master Agreement.

(d) Greeley shall be entitled to a credit against its Cash Contribution requirements to the extent that it utilizes funds other than those held in the Wingfoot Subaccount by the Escrow Agent to acquire or construct any portion of the Project Infrastructure described in the Master Agreement.

(e) No less than thirty (30) days before Greeley requests withdrawal of any amount from the Wingfoot Subaccount of the Escrow Account, Greeley shall deposit in the Greeley Subaccount of the Escrow Account an amount sufficient to maintain Greeley’s aggregate, prorated share of contributions to the total Project Infrastructure Costs at the percentages shown in the table below (the “Prorated Contributions”).

Project Infrastructure Costs			Wingfoot Portion		Greeley Portion	
From	To	Total Cost	Contribution to Total Cost	Percent of Total Cost	Contribution to Total Cost	Percent of Total Cost
\$0	\$78,125,000	\$78,125,000	\$62,500,000	80.00%	\$15,625,000	20.00%

Total		\$203,125,000	\$125,000,000	61.54%	\$78,125,000	38.46%

Section 2.02. Disbursements for Payment of Costs of Project Infrastructure.

(a) Greeley may not draw upon the funds in the Wingfoot Subaccount of the Escrow Account for any reason during the period on or prior to ninety (90) days after the Closing Date. Any withdrawals by Greeley from the Wingfoot Subaccount of the Escrow Account after the ninety (90)-day period are subject to the following conditions: (i) Greeley must have made a Cash Contribution into the Escrow Account in accordance with Section 2.01(e) hereof, and (ii) Greeley must (a) simultaneously withdraw an amount from the Greeley Subaccount of the Escrow Account proportionate to Greeley's percent of total costs shown in the table in Section 2.01(e), and (b) use such funds from the Escrow Account solely for the Project Infrastructure Costs. After substantial completion and payment for the Project Infrastructure, the balance of the Escrow Deposit in the Escrow Account, if any, remaining in the Wingfoot Subaccount shall be released to Wingfoot and the balance of the Escrow Deposit, if any, remaining in the Greeley Subaccount shall be released to Greeley.

(b) The moneys deposited with the Escrow Agent pursuant to Section 2.01 hereof shall be applied by the Escrow Agent to pay or reimburse costs of Project Infrastructure as follows:

(i) For each disbursement (except as expressly set forth herein), Greeley shall deliver a requisition (a "Greeley Requisition") to the Escrow Agent and Wingfoot, at least five (5) business days prior to the requested disbursement, which shall consist of:

(A) a certification of the Director confirming that: (i) the funds being requested are for Project Infrastructure Costs incurred by Greeley in accordance with the Master Agreement, and (ii) the work for which funds are requested has been completed to Greeley's satisfaction;

(B) a written request signed by an authorized representative of Greeley for an amount or amounts either paid by Greeley, or due and payable, in connection with Project Infrastructure Costs, to be disbursed from the Greeley Subaccount and the Wingfoot Subaccount in proportions consistent with the "Percent of Total Cost" listed in Section 2.01(e) above, which total requested amount shall not exceed the lesser of the balance on hand in the Escrow Account or the maximum amount thereof permitted to be withdrawn from the Escrow Account in accordance with this Agreement, which request shall name the persons or person to whom payment is to be made;

(C) either written evidence of payments made or costs incurred by Greeley or the unpaid invoices for such work.

Upon receipt of each such Greeley Requisition and supporting documents the Escrow Agent shall disburse the amount or amounts requested from the Greeley Subaccount and the Wingfoot Subaccount in proportions consistent with the "Percent of Total Cost" listed in Section 2.01(e)

above by check or wire transfer to the persons named therein. Greeley shall be the only party authorized to submit requisitions for Project Infrastructure Costs from the Escrow Account.

Section 2.03. Disbursement upon Termination of this Agreement. Upon the occurrence of any of the following events, and provided that the fees and expenses of the Escrow Agent are paid, this Agreement shall terminate and the Escrow Agent shall disburse any funds remaining in its custody and not required for fees and expenses of the Escrow Agent or any pending Greeley Requisitions to Greeley and Wingfoot their respective remaining balances in the Greeley Subaccount and the Wingfoot Subaccount, respectively, within [two] ([2]) business days of: (a) receipt by the Escrow Agent of written notice from Greeley that no further requests for disbursements for Project Infrastructure Costs will be submitted; (b) receipt by the Escrow Agent of written notice from Greeley that the Project Infrastructure is completed and there are no disbursement requisitions outstanding and unpaid; (c) receipt by the Escrow Agent of written notice acknowledged by Greeley and Wingfoot that the Master Agreement has been terminated, or (d) termination of this Agreement by its terms on or before _____, 20__.

Section 2.04. Investment of Funds. The Escrow Agent shall, at all times, maintain the Escrow Deposit in an interest-bearing account, and shall have no power or duty to invest any moneys held hereunder except as provided in this Agreement, nor shall the Escrow Agent have any liability with respect to such investments, including, without limitation, any losses or taxes thereon. The Escrow Deposit shall be either held in cash or invested and reinvested from time to time in Investment Securities as directed in writing by Greeley.

ARTICLE III

CONCERNING THE ESCROW AGENT

Section 3.01. Duties of Escrow Agent. The Escrow Agent shall have no duties or responsibilities whatsoever except such duties and responsibilities as are expressly set forth in this Agreement, and no covenant or obligation shall be implied in this Agreement against the Escrow Agent.

Section 3.02. Status Report.

(a) Not less than fifteen (15) days after the close of each month, commencing with the first full month following the Initial Contribution, the Escrow Agent shall submit to the Director and Wingfoot a report covering all money which the Escrow Agent shall have received and all payments which it shall have made or caused to be made hereunder.

Section 3.03. Liability of the Escrow Agent.

(a) The Escrow Agent shall have no lien, security interest or right of setoff whatsoever upon any of the moneys or investments in the Escrow Account for the payment of fees or expenses for services rendered by the Escrow Agent under this Agreement.

(b) The Escrow Agent shall not be liable for any loss or damage in tort, contract or otherwise, including counsel fees and expenses, resulting from or in

connection with the execution and delivery of this Agreement, the establishment of the Escrow Account or any payment, transfer or other application of moneys by the Escrow Agent in accordance with the provisions of this Agreement, or by reason of any other action, omission or error hereunder, except for any loss or damage arising out of its own negligence or misconduct. Without limiting the generality of the foregoing, the Escrow Agent shall not be liable for any action taken or omitted in reliance on any notice, direction, consent, certificate, affidavit, statement, designation or other paper or document reasonably believed by it to be genuine and to have been duly and properly signed or presented to it by the Director or his or her designee, with respect to Greeley, and [_____] or his or her designee, with respect to Wingfoot.

Section 3.04. Fees, Expenses and Indemnification.

(a) Greeley and Wingfoot shall be responsible for and shall pay to the Escrow Agent, in equal shares, for its performance hereunder: (i) such compensation as may mutually be agreed upon in writing; and (ii) the Escrow Agent's reasonable out-of-pocket expenses (including reasonable third-party counsel fees and expenses) incurred in connection with this Agreement, to the extent agreed upon in writing (collectively, the "Escrow Agent Fees").

(b) Wingfoot, on the one hand, and, to the extent permitted by law, Greeley, on the other hand, severally (on a 50%/50% basis) and not jointly, shall indemnify, defend and hold harmless the Escrow Agent from and against any and all claims, demands, expenses (including reasonable counsel fees and expenses) and liabilities of any and every nature (the "Indemnified Costs") which the Escrow Agent may sustain or incur or which may be asserted against the Escrow Agent as a result of any action taken or omitted by the Escrow Agent as provided hereunder, except to the extent any such Indemnified Costs arise out of the Escrow Agent's bad faith, negligence or willful misconduct. At any time, the Escrow Agent may apply to Greeley or Wingfoot, as applicable for written instructions with respect to any matter arising under this Agreement and shall be fully protected in acting in accordance with such instructions, provided that such action are not contrary to the express terms of this Agreement. If the Escrow Agent receives conflicting instructions it shall not be obligated to act. In addition, the Escrow Agent may, as reasonably necessary, consult its own counsel and shall be fully protected with respect to any action taken or omitted in good faith in accordance with such advice or opinion of counsel. Notwithstanding anything to the contrary in this Agreement, to the extent any Indemnified Costs arise out of Wingfoot's or Greeley's bad faith, negligence or willful misconduct, such party shall be solely responsible for indemnifying the Escrow Agent for such Indemnified Costs.

Section 3.05. Permitted Acts. Nothing herein shall prevent the Escrow Agent from engaging in business dealings with either Greeley or Wingfoot, either as customers or borrowers or in any other capacity or in any other matter provided that it is unrelated to the subject matter of this Agreement.

Section 3.06. Disagreements. If any conflict, disagreement or dispute arises between, among, or involving any of the parties hereto concerning the meaning or validity of any provision

hereunder or concerning any other matter relating to this Agreement, or the Escrow Agent is in doubt as to the action to be taken hereunder, the Escrow Agent may, at its option, after sending written notice of the same to Wingfoot and Greeley, retain the Escrow Deposit until Escrow Agent (a) receives a final non-appealable order of a court of competent jurisdiction or a final non-appealable arbitration decision directing delivery of the Escrow Deposit, (b) receives a written agreement executed by each of the parties involved in such disagreement or dispute directing delivery of the Escrow Deposit, in which event the Escrow Agent will be authorized to make such disbursement in accordance with such final court order, arbitration decision, or agreement, or (c) files an interpleader action in any court of competent jurisdiction, and upon the filing thereof, the Escrow Agent will be relieved of all liability as to the Escrow Deposit and will be entitled to recover reasonable and documented out-of-pocket attorneys' fees, expenses and other costs incurred in commencing and maintaining any such interpleader action. The Escrow Agent will be entitled to act on any such agreement, court order, or arbitration decision without further question, inquiry or consent.

ARTICLE IV

MISCELLANEOUS

Section 4.01. Amendments to this Agreement. This Agreement is made for the benefit of Greeley and Wingfoot and it shall not be repealed, revoked, altered or amended without the prior written consent of both such parties and the Escrow Agent, except for the termination of this Agreement in accordance with Section [4.04] hereof.

Section 4.02. Severability. If any one or more of the provisions in this Agreement shall be determined by a court of competent jurisdiction to be contrary to law, each such provision shall be deemed and construed to be severable from the remaining provisions hereof and its invalidity shall not affect the validity of the remaining provisions of this Agreement.

Section 4.03. Agreement Binding. All the covenants, promises and agreements in this agreement contained by or on behalf of Greeley, Wingfoot or the Escrow Agent shall bind and inure to the benefit of their respective permitted successors and assigns, whether or not so expressed.

Section 4.04. Termination, Resignation and Removal of the Escrow Agent.

(a) This Agreement shall terminate on the earliest of (i) _____, 20__, (ii) when all transfers and payments required to be made by the Escrow Agent under the provisions of Sections [2.02, 2.03 and/or 2.04, as applicable,] hereof shall have been made, or (iii) [termination of the Master Agreement.] The provisions of Sections 3.03 and 3.04 shall survive the termination of this Agreement.

(b) The Escrow Agent may evidence its intent to resign by giving written notice to Greeley and Wingfoot. Such resignation shall take effect only upon delivery of the Escrow Deposit to the successor Escrow Agent agreed upon in writing by Greeley and Wingfoot, and the Escrow Agent shall thereupon be discharged from all obligations under this Agreement and shall have no further duties or responsibilities in connection herewith. The Escrow Agent shall deliver the Escrow Deposit without unreasonable

delay, and no later than [two] ([2]) business days, after receiving the designation of the successor Escrow Agent and upon payment of all of its fees and expenses due and owing as of such date.

(c) Greeley and Wingfoot may evidence their intent to remove the Escrow Agent with or without cause by giving joint written notice to the Escrow Agent and Wingfoot. “**State**” means the State of Colorado.

“**Third Party Owner**” means any Person other than the Original Owners who acquires and owns (for any period of time) an undivided interest as a tenant in common in the Property and executes a Deed (in compliance with Section 8.1), and two or more such Persons being referred to herein collectively as “**Third Party Owners**”.

“**Unanimous Consent Action**” means any event, action or matter which requires the consent or approval of the Original Owners pursuant to the terms of this Agreement as further described in Section 2.8 of this Agreement.

ARTICLE 2 INVESTMENT IN AND MANAGEMENT OF THE PROPERTY

2.1. **Purpose and Scope of Investment.** The Owners hereby enter into this Agreement and agree to the terms, conditions and provisions hereof for the purpose of regulating their ownership and Management of the Property.

2.2. **Acquisition of Property.** The Owners, as limited by this Agreement, including Section 6.3, own the Property in their respective names as tenants in common under Colorado law, with each Owner owning an undivided interest in the Property in the amount of their respective Percentage Ownership Interests. As of the Effective Date of this Agreement, the initial Percentage Ownership Interests of the Owners are set forth on **Exhibit D** attached to this Agreement. Any changes to the Percentage Ownership Interests shall be documented and recorded in the Registry, as further described in the Master Agreement.

2.3. **Use of Property.** Each of the Owners agrees that it shall exercise its rights to use the Property only pursuant to and in accordance with the terms of this Agreement and the Master Agreement. Each Owner hereby agrees that during the Term (defined below) it will not exercise its rights as a tenant in common, or any of its rights to use or improve the Property or to lease or sell the Property to any Person, except as (and subject to the conditions and restrictions) provided in this Agreement and the Master Agreement.

2.4. **Indebtedness.** Each Owner agrees that it will not incur any indebtedness secured by the Property, or allow any Lien to be placed on the Property, subject to Greeley's right to incur debt or payment obligations, unsecured by the Property, in the ordinary course of its business, including the Enterprise's right to issue water bonds unsecured by the Property.

2.5. **Term of Agreement.**

(a) The term of this Agreement (the "**Term**") shall commence on the Effective Date, and shall end upon the sooner of the following to occur (each, a "**Termination Event**"):

(i) either of the Original Owners acquiring all of the undivided interests in the Property such that any Owner's Percentage Ownership Interest is one hundred percent (100%); and

(ii) subject to Section 8.3 of the Master Agreement, the date which is ten (10) years after the Closing Date.

(b) Upon the occurrence of a Termination Event, this Agreement shall not be terminated and shall continue until the winding up of the affairs of the Owners under Section 7.1 of this Agreement is completed.

2.6. **Controlling Agreement.** This Agreement is intended to be the governing agreement between the parties regarding their co-tenancy in common in the Property, but remains expressly subject to the Master Agreement in all respects. In the event of any inconsistency between the terms of the Master Agreement, or any portion thereof, and the terms of this Agreement, the applicable terms of the Master Agreement shall prevail.

2.7. **Management of the Property.**

(a) Except as provided in and limited by Section 2.8 and the Master Agreement, the Administrator shall have full authority to take the following actions with respect to the Property, including executing and delivering all documents in connection therewith:

(i) holding, operating, managing, maintaining, improving, and repairing the Property, including constructing the Project Infrastructure (as that term is defined in the Master Agreement) and operating the Water Distribution System (as that term is defined in the Master Agreement) on the Property in accordance with the Master Agreement;

(ii) depositing funds in banks or with an escrow agent and authorizing withdrawals therefrom (except as limited by the Master Agreement, including provisions regarding the Construction Escrow and Prorated Escrow), to pay the legitimate expenses of the Co-tenancy, on the signature of such person as the Administrator determines; and

(iii) acquiring and contracting for products, insurance and other goods and services for use in the ordinary course of the Co-tenancy's operation and in connection with construction of the Project Infrastructure and the operation of the Water Distribution System.

(b) The Administrator shall maintain the records of the Property, including copies of any documents executed or maintained by the Administrator in its Management of the Property. Each Original Owner may inspect and make copies of the records maintained by the Administrator and related to the Property during the Administrator's regular business hours and upon reasonable prior notice to the Administrator; provided, however, that any out-of-pocket expenses incurred by an Original Owner's inspection shall be borne solely by the Original Owner conducting such inspection. The Administrator will provide annual financial information related to the Property and Assets within ninety (90) days of the applicable calendar year end to each Original Owner sufficient to allow each Original Owner to complete federal, state and local income tax returns.

(c) Except as otherwise provided in this Agreement or the Master Agreement, the Administrator shall have the exclusive right to use and access the Property including, but not limited to, enjoyment of the rights set forth in the Ancillary Assets, to achieve the stated purposes set forth in the Master Agreement and this Agreement. All elements of the Project Infrastructure and the Water Distribution System constructed on the Property by Administrator shall be the sole property of Greeley and no other Owner shall have any ownership interest therein. Any other Original Owner or Third-Party Owner may only access and use the property upon (i) written permission from the Administrator or (ii) upon any default by the Administrator under this Agreement or the Master Agreement.

2.8. **Unanimous Consent Actions.**

(a) All actions with respect to the Property not enumerated in Section 2.7 shall be Unanimous Consent Actions, and such Unanimous Consent Actions cannot be taken by the Administrator without the prior consent of all of the Original Owners pursuant to Section 2.9. Notwithstanding anything to the contrary in this Agreement, the Administrator may not take any action with respect to the Property that is inconsistent with its rights and obligations under the Master Agreement, even with the consent of the Original Owners.

(b) Unanimous Consent Actions include, but shall not be limited to, the following:

(i) On behalf of the Owners, acquisition of any property by purchase, lease, or otherwise to be held by the Owners as tenants in common pursuant to the terms of this Agreement, other than

(A) the Property, and

(B) the proceeds of the Property;

(ii) sell or otherwise transfer the Property or any ownership interests in the Property, except for Third Party Transfers described in Section 8.1;

(iii) Except for transactions contemplated by the Master Agreement, give or grant any options, rights of first refusal, deeds of trusts, mortgages, pledges, security interests, other encumbrances, or other interests in or to the Property, any portion thereof, or Percentage Ownership Interest;

(iv) cause or permit any loans to be made in relation to the Co-tenancy or allow the Co-tenancy to become a surety, guarantor, endorser, or accommodation endorser for any person, firm or corporation;

(v) enter into a Property management agreement or assignment of Administrator's rights;

(vi) on behalf of the Owners, enter into any written employment agreement or severance arrangement with any individual, or amending or terminating any such agreement;

(vii) modify, amend or waive, in any material respect, the terms and conditions of this Agreement;

(viii) bring onto the Property, or permit to be brought onto the Property, any hazardous or toxic substance or material regulated by the State of Colorado, the United States of America, or any other government authority with applicable jurisdiction, except to the extent that the hazardous or toxic substances are of a type or quantity the presence, use, storage, release or handling of which does not constitute a violation of any applicable environmental laws and is customarily employed in the ordinary course of, or associated with, drilling and water treatment and construction of infrastructure relating to same in the State of Colorado.

2.9. **Approval Process.** Any Unanimous Consent Action must be approved by a written instrument signed by each Original Owner that sets forth the approval of the subject matter at issue. An Original Owner may request approval by delivering to the other Original Owner written notice requesting approval of a Unanimous Consent Action (an “**Approval Notice**”). Any Approval Notice not executed by both Original Owners shall be deemed to be disapproved by the Original Owners. Such approval or disapproval, as applicable, shall be binding upon each Owner. The approval or disapproval by an Original Owner of a matter shall not be deemed to waive or render unnecessary approval to or for any similar or subsequent act or request.

2.10. **Binding Authority.** Consistent with (and as limited by) Section 2.8, the Administrator shall have the power and authority to act on behalf of the Owners.

ARTICLE 3 RELATIONSHIP AMONG OWNERS

3.1. **Nature of Ownership Relationship.** Each Owner owns an undivided interest in the Property, subject to Section 6.3, describing the nature of ownership acquired by Third Party Owners. The percentage of each Owner’s undivided interest in the Property as of the Effective Date is reflected on **Exhibit D** and shall be maintained and amended in the Registry. Nothing in this Agreement shall modify the nature of an Owner’s interest as an owner of an undivided interest in the Property as a tenant-in-common. In the event of any change in the Percentage Ownership Interests of the Owners, whether pursuant to this Agreement or the Master Agreement, the Owners agree to update the Registry pursuant to the Master Agreement, and each Owner, on its own behalf, shall cooperate and shall execute any documents in connection therewith.

3.2. **Disclaimer of Partnership and Fiduciary Relationship; Tax Reporting.**

(a) The Owners expressly intend that their relationship shall be that of co-tenant owners of the Property. The provisions of this Agreement are not intended to create, nor shall they be in any way interpreted to create: (i) a joint venture, partnership or other similar relationship between or among the Owners, and each of the Owners hereby expressly waives and disclaims any such joint venture, partnership or similar relationship or (ii) any fiduciary relationship between or among the Owners, and each Owner hereby expressly disclaims any such fiduciary relationship. The Owners intend that the tenancy in common created by this Agreement not be treated as a partnership for federal and state income tax purposes and each Owner agrees that it will prepare or cause to be prepared its federal and applicable state income tax returns (or, if applicable, its beneficial owners' federal and applicable state income tax returns) in a manner consistent with such intention, unless otherwise required by law. The Owners, in addition, may not hold themselves or the Co-Tenancy out collectively as one entity or under one name or conduct business holding forth as one entity. The Original Owners' activities shall be limited to those customarily performed in connection with the maintenance, repair and operation of the Property, taking into account all activities of the Owners, their agents and any person related to the Owners. Third Party Owners' actions shall at all times be expressly limited as described in Section 6.3. Notwithstanding any terms or conditions contained herein, all terms and conditions hereof are subject to the terms and conditions of the Internal Revenue Code as may be necessary to establish and maintain the relationship of the parties strictly as co-tenants.

(b) The Owners shall be subject to any and all restrictions in the Master Agreement concerning an Owner's right to engage in or possess an interest in other business ventures, whether or not in competition with the Property, including, but not limited to, limitations on Wingfoot's activities provided in the Master Agreement.

(c) Wingfoot was and is organized solely for the limited purpose of obtaining real property rights and related assets and rights regarding water and water-related projects and carrying out the transactions contemplated by the Master Agreement as provided in the Amended and Restated Limited Liability Company Operating Agreement of Wingfoot dated _____, 2020 (the "**Wingfoot Operating Agreement**") and during the Term of this Agreement, Wingfoot agrees to maintain its existence and at all times conduct its business operations in a manner consistent in all material respects with the Wingfoot Operating Agreement.

3.3. **Waiver of Right to Partition.** Having been previously advised of their respective rights to bring an action for partition under the Laws of the State (“Action for Partition”), each of the Owners hereby covenants and warrants that it will not bring, pursue or maintain an action (a) for partition with respect to the Property or (b) to compel any sale thereof under the Laws of the State as from time to time in effect, and each Owner hereby irrevocably waives its rights to bring an action for partition with respect to the Property or to compel any sale thereof. In connection with the foregoing, the Owners acknowledge and agree that each of them has been induced to enter into this Agreement in reliance on the aforementioned covenants, warranties and waivers of the other Owners and, without such covenants, warranties and waivers, no Owner would have entered into this Agreement. The Owners expressly acknowledge and agree that the foregoing covenants may be enforced by an action for specific performance or injunction preventing an Owner from bringing or maintaining an action for partition.

ARTICLE 4 SHARING OF COSTS AND EXPENSES

4.1. **Sharing of Income and Expenses.**

(a) All income arising from or with respect to the Original Owners’ interests in the Property shall be allocated, distributed and deposited as described in the Master Agreement. Except as provided in the Master Agreement, including Wingfoot’s obligations under Article 9 of the Master Agreement, Greeley shall be solely responsible for all expenses arising out of the business of the Co-tenancy and the operating, managing, maintaining, improving, and repairing of the Property, Project Infrastructure and Water Distribution System.

(b) For the avoidance of doubt, the sale of Raw Water Credits (as that term is defined in the Master Agreement) by Wingfoot shall not be considered income arising from the Owners’ interest in the Property, and such sale shall not be subject to the terms of this Agreement.

ARTICLE 5 OWNERS’ FUNDING OBLIGATIONS

5.1. **Costs other than Project Infrastructure.** Except as provided in the Master Agreement with respect to Wingfoot’s Cash Contribution commitments related to Project Infrastructure (as that term is defined in the Master Agreement), Greeley shall be solely responsible for contribution and funding for all costs associated with operating, managing, maintaining, improving, and repairing of the Property, and Greeley shall have no right or authority to seek contribution from Wingfoot or the other Owners for such costs and expenses.

ARTICLE 6 RIGHTS OF OWNERS

6.1. **Limitation on Owners’ Rights.**

Except as expressly provided in this Agreement or the Master Agreement, no Owner shall have the authority or power to act for or on behalf of the other Owners or to exercise any rights with respect to the ownership or Management of the Property, or to do any act that would be binding on the other Owners, or to make or incur any expenditures or liabilities on behalf of the Property or the other Owners. Each Owner hereby waives any rights it may have at law or in equity to use of the Property separate and apart from rights granted under and pursuant to this Agreement and the Master Agreement. Further, each Owner agrees that it will not incur any expense with respect to the Property except and to the extent permitted under and pursuant to this Agreement or the Master Agreement, and no Owner shall be liable to any Owner who incurs any expense or cost with respect to the Property, except as provided in this Agreement or the Master Agreement.

6.2. **Liability for Certain Acts.**

(a) The Administrator shall perform its duties in good faith, in a manner it reasonably believes to be in the best interests of the Owners and with such care as an ordinarily prudent person in a similar position would use under similar circumstances.

(b) Except as provided in the Master Agreement, the Administrator shall not be liable to the Owners for any loss or damage sustained by the Owners, unless:

(i) the loss or damage shall have been the result of gross negligence, bad faith or involve intentional misconduct or violation of Law by the Administrator;

(ii) the Administrator gained a financial profit or other advantage to which it was not legally entitled to the detriment of the Owners; or

(iii) entered into any agreement, transaction or arrangement with Greeley, the Enterprise or their Affiliates unless on commercially reasonable terms.

6.3. **Limitation on Third Party Owners.** Notwithstanding anything to the contrary in this Agreement, Third Party Owners shall have no right to participate in the ownership or management of the Co-tenancy or the Property. Third Party Owners shall have no right to use, access, encumber, convey, or otherwise engage in any activity whatsoever with respect to the Property, Co-tenancy, or any interest therein, except as expressly granted by the Deed attached to the Master Agreement as Exhibit Q (the “**Deed**”). Third Party Owners shall have no right or claim to (i) incomes, revenues or other beneficial use of the Property, (ii) approve decisions of the Administrator, or (iii) appoint or remove the Administrator. For the sake of clarity, Third Party Owners shall be subject to all other limitations and restrictions applicable to Owners in this Agreement, and if applicable, to such restrictions in the Master Agreement.

6.4. **Removal and Designation of Successor Administrator.** If, after the Effective Date of this Agreement, the Administrator (i) sells, transfers or has a loss of title to its interest in the Co-tenancy, (ii) is no longer capable of serving as Administrator, or (iii) provides thirty (30) day advance written notice of its voluntary resignation as Administrator, then the Administrator shall be deemed to have resigned without any action by the other Owners. Upon resignation of the Administrator, a successor Administrator shall be selected by Wingfoot.

ARTICLE 7 TERMINATION AND WINDUP

7.1. **Termination of the Tenancy in Common.** Upon the occurrence of any Termination Event, this Agreement and the Co-tenancy shall continue until the affairs of the Co-tenancy are diligently wound up. If determined necessary by all of the Original Owners, a person selected by the Original Owners shall act as liquidator to wind up the Co-tenancy. Such liquidator shall have full power and authority, subject to the Master Agreement, to sell, assign and encumber any or all of the assets of the Co-tenancy for the express purpose of facilitating vesting of one hundred percent (100%) ownership of the Property in a single Original Owner.

ARTICLE 8 RESTRICTION ON TRANSFER OF AN OWNERSHIP INTEREST

8.1. **Third Party Transfers.** Wingfoot may transfer its interest in the Co-tenancy and the Property to a Third Party Owner pursuant to the terms of the Master Agreement (a “**Third Party Transfer**”). A Third Party Transfer shall be effective only upon the execution of the Deed in addition to the other requirements set forth in Section 8.2 of the Master Agreement. Any purported sale, transfer or conveyance of an interest in the Property contrary to the terms of this Agreement or the Master Agreement shall be void. For the avoidance of doubt, each Third Party Owner acknowledges and agrees that, upon its acquisition of any interest in the Property or the Co-tenancy as part of a Third Party Transfer, such interest acquired must be immediately conveyed to Greeley pursuant to the terms of the Master Agreement.

8.2. **Transferability of Ownership Interests.** No Owner shall have the right to sell its Percentage Ownership Interest to a third party, or to mortgage, pledge or encumber its Percentage Ownership Interests except as provided in this Agreement (including but not limited to Section 8.1 of this Agreement) or the Master Agreement (including but not limited to Section 8.2 of the Master Agreement). The transfer or sale of any Raw Water Credits shall not be considered to be a transfer of any Owner’s Percentage Ownership Interest or a transfer of an interest in the Property.

ARTICLE 9 LIABILITIES, EXCULPATION AND INDEMNIFICATION

9.1. **Disclaimer of Liability.** No individual Owner shall be personally liable for any act of the other Owner or any act by the Administrator. No individual Owner shall be responsible or liable for any indebtedness or obligation of the other Owner or the Administrator, incurred either before or after the execution of this Agreement.

9.2. **Indemnification of Administrator.** Each Owner, on its own behalf, to the extent of its respective net assets of its Percentage Ownership Interest, shall indemnify, defend and save harmless the Administrator from and against any claims, demands, damage, loss, liability (whether tort, contract or otherwise), cost or expense (including, but not limited to, reasonable attorneys' fees), incurred by it in connection with or resulting from any act or omission to act on behalf of the Co-tenancy, *provided* that the Administrator's action (or omission) was performed in compliance with this Agreement, including Article 2, and the Master Agreement. In no event shall any Owner be obligated to indemnify the Administrator for (i) any special, punitive, consequential or treble damages, or (ii) any claims or causes of action arising out of the Administrator's negligence, willful misconduct, fraud (actual or constructive), breach of contract, or any other tortious or illegal conduct, whether by action or omission of the Administrator.

ARTICLE 10 MISCELLANEOUS

10.1. **Notices.** Any notice, statement, demand, claim, offer or other written instrument required or permitted to be given pursuant to this Agreement shall be in writing signed by the Owner giving such notice and shall be sent by electronic mail, hand messenger delivery, overnight courier service, or certified mail (receipt requested) to each other Owner at the address set forth below and shall be deemed to have been duly given by delivery to the respective addresses provided below, or such other address changed by the recipient by notice consistent with this Section: (i) on the date and at the time of delivery if delivered personally to the Owner to whom notice is given at such address; (ii) on the date and at the time of delivery or refusal of acceptance of delivery if delivered or attempted to be delivered by an overnight courier service to the Owner to whom notice is given at such address; (iii) on the date of delivery or attempted delivery shown on the return receipt if mailed to the Owner to whom notice is to be given by first-class mail, sent by registered or certified mail, return receipt requested, postage prepaid and properly addressed to such address; (iv) if a facsimile number is specified, on the date and at the time shown on the facsimile; or (v) if an e-mail address is specified, on the date and at the time shown on the sent e-mail message if sent to the e-mail address specified below:

Any Person may change its address for notice under this Agreement by sending notice thereof to all other address parties hereunder in accordance with the provisions of this Section 10.1. Any such notice of change of address shall be effective fifteen (15) days after the same is deposited with the United States Postal Service.

10.2. **Successors and Assigns.** All provisions, conditions, covenants, restrictions, obligations and agreements contained herein are made for the direct, mutual and reciprocal benefit of each and every part of the Property; shall be binding upon and shall inure to the benefit of each of the Owners and their respective heirs, executors, administrators, successors, assigns, devisees, representatives, lessees and all other persons acquiring any undivided interest in the Property or any portion thereof whether by operation of law or any manner whatsoever (collectively, "**Successors**"); shall create mutual, equitable servitudes and burdens upon the undivided interest in the Property of each Owner in favor of the interest of every other Owner; shall create reciprocal rights and obligations between the respective Owners, their interests in the Property, and their Successors; and shall, as to each of the Owners and their Successors, operate as covenants running with the land, for the benefit of the other Owners pursuant to applicable law, including, but not limited to, the laws of the State. It is expressly agreed that each covenant contained herein (a) is for the benefit of and is a burden upon the undivided interests in the Property of each of the Owners, (b) runs with the undivided interest in the Property of each Owner and (c) benefits and is binding upon each Successor owner during its ownership of any undivided interest in the Property, and each owner having any interest therein derived in any manner through any Owner or Successor. Every person or entity who now or hereafter owns or acquires any right, title or interest in or to any portion of the Property is and shall be conclusively deemed to have consented and agreed to every restriction, provision, covenant, right and limitation contained herein, whether or not such person or entity expressly assumes such obligations or whether or not any reference to this Agreement contained in the instrument conveying such interest in the Property to such person or entity. The Owners agree that, subject to the restrictions on transfer and on Third-Party Owners, any Successor shall become a party to this Agreement upon acquisition of an undivided interest in the Property. Wingfoot may assign its interest under this Agreement (or in the Property) as provided in the Master Agreement.

10.3. **Governing Law, Jurisdiction.** This Agreement, and any instrument or agreement required, or disputes arising, hereunder (to the extent not otherwise expressly provided for therein), shall be construed in accordance with, and all matters arising out of or in connection with this Agreement (whether in contract, tort or otherwise) shall be governed by, the laws of the State of Colorado without giving effect to any conflict of law principles that would require the application of the laws of another jurisdiction.

10.4. **No Waiver of Governmental Immunity/No Third Party Beneficiary.** This Agreement shall not create any duty of care or liability with respect to any person or entity not a party to this Agreement, or waive any of the privileges or immunities Greeley or their officers, employees, successors and assigns may present pursuant to law, including, but not limited to the Colorado Governmental Immunity Act, C.R.S. 24-10-101, et seq., as amended. Greeley represents and agrees that, pursuant to C.R.S. § 24-10-106, its and the Enterprise's governmental immunity is limited to claims for injury that lie in tort or could lie in tort. Under existing law, Greeley and the Enterprise are not entitled to raise the defense of sovereign immunity in connection with any legal proceeding to enforce or collect upon contractual obligations, including this Agreement; provided, however, no term or condition of this Agreement shall be construed or interpreted as a waiver, express or implied, of any of the privileges or immunities Greeley, the Enterprise, or their officers, employees, successors and assigns may present pursuant to law, including, but not limited to, the Colorado Governmental Immunity Act, C.R.S. § 24-10-101, et seq., as amended.

10.5. **Amendment.** Notwithstanding anything herein to the contrary, this Agreement may be amended only by a written agreement executed by both of the Original Owners.

10.6. **Waiver; Ratification.** No waiver by the Owners of the performance or satisfaction of any covenant or condition shall be valid unless in writing and shall not be considered to be a waiver by such Owner of any other covenant or condition hereunder. Any failure of an Owner to enforce any of the provisions of this Agreement or to require compliance with any of its terms at any time during the pendency of this Agreement shall in no way affect the validity of this Agreement, or any part hereof, and shall not be deemed a waiver of the right of such Owner thereafter to enforce any and each such provision.

10.7. **Attorney Fees.** If any legal action, arbitration or other proceeding is commenced to enforce or interpret any provision of this Agreement or to enforce any indemnity, the prevailing Owner shall be awarded its attorneys' fees and expenses, in addition to any other relief granted. The phrase "prevailing Owner" shall include an Owner who receives substantially the relief desired whether by dismissal, summary judgment, judgment or otherwise. This provision shall survive the termination of this Agreement.

10.8. **Headings.** The Article, Section and paragraph headings in this Agreement are used only for convenience in finding the subject matters and are not part of this Agreement or to be used in determining the intent of the parties or otherwise in interpreting this Agreement.

10.9. **Recordation.** This Agreement and the agreements of the Owners contained herein shall be covenants running with the land. This Agreement or a memorandum containing a summary notice of the terms hereof shall be recorded by Greeley in the real property records of the clerk and recorder of Weld County, Colorado.

10.10. **Multiple Counterparts.** This Agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same document. The Agreement, including all component parts set forth above, may be executed and delivered by electronic signature by any of the Original Owners and all Original Owners consent to the use of electronic signatures.

10.11. **Integration with Other Agreements.** This Agreement and all attachments, together with the Master Agreement, and all attachments and all documents contemplated thereby, constitutes the entire agreement of the Owners with respect to the matters set forth herein and therein, provided that nothing contained in this Agreement shall be deemed to amend, modify, alter or otherwise affect any of the provisions of the Master Agreement, which shall control pursuant to Section 2.6.

10.12. **Legal Construction.** In case any one or more of the provisions contained in this Agreement for any reason is held to be invalid or unenforceable, the invalidity or unenforceability will not affect any other provision of this Agreement, which will be construed as if the invalid or unenforceable provision had not been contained in this Agreement and, in lieu of each invalid and unenforceable provision, there will be added automatically a part of this Agreement a provision as similar in terms to the invalid or unenforceable provision as may be possible and be valid and enforceable.

10.13. **Joint Effort and Review.** Preparation of this Agreement has been a joint effort of the Parties and the resulting document shall not be construed more severely against one Party than against any other Party. The Parties acknowledge that each Party and its legal counsel have reviewed and approved this Agreement.

10.14. **Dispute Resolution and Jury Trial Waiver.** If any dispute arises under this Agreement (including as to whether any Owner has breached this Agreement), then any Owner may require that the Owners engage in nonbinding dispute resolution processes upon delivery of written notice to all other Owners (a “**Dispute Notice**”) setting forth the disputed matter. Upon receipt by all Owners of such Dispute Notice, the Owners shall use their commercially reasonable efforts to negotiate a resolution of the dispute for a period of thirty (30) days (the “**Dispute Resolution Period**”) which may include mediation using a mediator chosen by the Owners. After all Owners receive a Dispute Notice, no Owner may bring a claim or commence any legal action related to or in connection with the matter set forth in the Dispute Notice until Dispute Resolution Period ends. ALL ACTIONS OR PROCEEDINGS ARISING OUT OF OR RELATING TO THIS AGREEMENT AND ANY DISPUTE SHALL BE LITIGATED IN ANY SUCH COURT IN WELD COUNTY, COLORADO. EVERY OWNER AND THIRD PARTY OWNER ACCEPTS FOR ITSELF, GENERALLY AND UNCONDITIONALLY, THE EXCLUSIVE JURISDICTION AND VENUE OF THE AFORESAID COURTS, SUBMITS ITSELF TO THE PERSONAL JURISDICTION OF SUCH COURTS AND WAIVES ANY DEFENSE OF FORUM NON CONVENIENS OR ANY SIMILAR DEFENSE. EACH OWNER AND THIRD PARTY OWNER HEREBY WAIVES ITS RESPECTIVE RIGHT TO A TRIAL BY JURY FOR ANY CLAIM OR CAUSE OF ACTION BASED UPON OR ARISING OUT OF OR RELATED TO THIS AGREEMENT IN ANY ACTION, PROCEEDING, OR OTHER LITIGATION OF ANY TYPE BROUGHT BY ANY OWNER OR THIRD PARTY OWNER AGAINST ANY OTHER OWNER OR THIRD PARTY, WHETHER WITH RESPECT TO CONTRACT CLAIMS, TORT CLAIMS, OR OTHERWISE. EACH OWNER AND THIRD PARTY OWNER AGREES THAT ANY SUCH CLAIM OR CAUSE OF ACTION WILL BE TRIED BY A COURT TRIAL WITHOUT A JURY.

10.15. **Further Assurances.** The Owners each agree to execute such documents as may be reasonably required to achieve the intent of the Owners pursuant to and in accordance with this Agreement with respect to the Property.

10.16. **Singular Includes Plural.** Where applicable the singular use of a word shall be deemed to include the plural use of the word.

10.17. **Calendar Days.** In the event any time period set forth in this Agreement commences, expires or is determined from a date which falls on a Saturday, Sunday, legal holiday of the State of Colorado, the date of such commencement, performance, expiration or determination shall automatically be extended to the next business day which is not a Saturday, Sunday, legal holiday of the State.

- (ii) The Member shall not, until the later of (a) the earlier of (i) the termination of the Tenancy in Common Agreement or (ii) Greeley owning all of Wingfoot's TIC Interest (as defined in the Master Agreement), and (b) the earlier of (x) termination of the Construction Escrow or Construction Escrow Agreement (each as defined under the Master Agreement) and either the spending of the funds in the Construction Escrow or return of the funds in the Construction Escrow to the Company or Wingfoot, or (y) completion of the Project Infrastructure (such date, the "**Termination Date**"), amend, alter, change or repeal the definition of "Independent Manager" or Section 6(c), 7, 8, 9, 10, 16, 20-26, 30 or 31 or Schedule A (solely to the extent that any amendment, alteration, change, or repeal of the definitions in Section A would have the effect of amending, altering, changing, or repealing any of the immediately referenced sections in any material respect) of this Agreement without the written consent of the Independent Manager (which written consent shall not be unreasonably withheld, delayed, or conditioned). Subject to this Section 9(d), the Member reserves the right to amend, alter, change or repeal any provisions contained in this Agreement in accordance with Section 32.
- (iii) Notwithstanding any other provision of this Agreement and any provision of law that otherwise so empowers the Company, the Member or any other Person, until the Termination Date, neither the Member nor any other Person shall be authorized or empowered on behalf of the Company to, nor shall

they permit the Company to, and the Company shall not, without the prior written consent of both the Member and the Independent Manager (which written consent cannot be unreasonably withheld, delayed, or conditioned), take any Material Action; provided, however, that so long as any Obligation is outstanding, the Member may not authorize the taking of any Material Action unless there is at least one Independent Manager then serving in such capacity.

- (iv) The Member shall use commercially reasonable efforts to cause the Company to do or cause to be done all things necessary to preserve and keep in full force and effect its existence, rights (charter and statutory) and franchises. So long as any Obligation is outstanding, the Member also shall use commercially reasonable efforts to cause the Company to comply with the following:
- (A) The Company was, is and will be organized solely for the purpose of the Limited Purposes;
 - (B) The Company is not and will not be engaged, in any business unrelated to the Limited Purposes;
 - (C) The Company does not have and will not have any assets other than ordinary course assets (*i.e.*, cash, cash equivalents, prepaid expenses, receivables), and those related to the Water Rights and the Raw Water Credits and the proceeds from the sale of the above;
 - (D) The Company has not engaged in, sought or consented to, and will, to the fullest extent permitted by law, not engage in, seek or consent to (1) any dissolution, winding up, liquidation, or, (2) except as expressly permitted or contemplated under the terms of the Transaction Documents, while insolvent, any consolidation, merger, or sale of all or substantially all of its assets, to the extent such consolidation, merger, or sale would constitute a fraudulent transfer or fraudulent conveyance under state or federal law;
 - (E) The Company currently is and will be a limited liability company formed under the laws of the State of Delaware and shall at all times have a Special Member and Independent Manager as provided in Sections 6 and 10 of this Agreement;
 - (F) The Company has been, is, and intends to remain solvent and has paid and intends to continue to pay its debts and liabilities from its then available assets (including a fairly-allocated portion of any personnel and overhead expenses that it shares with any Affiliate) from its assets as the same shall become due; *provided, however*, the foregoing shall

not require any owner of the Company to make any additional capital contribution, loans, or other funding to the Company;

- (G) The Company has not failed, and will not fail, to correct any known misunderstanding (known by the Member) regarding the separate identity of the Company and has not and shall not identify itself as a division of any other Person;
- (H) The Company has maintained and will maintain its accounts, books, and records separate from any other Person and has filed and will file its own tax returns, except to the extent that it has been or is required or permitted to file consolidated tax returns by law;
- (I) The Company has maintained and will maintain its own records, books and resolutions and will not enter into agreements in the name of other Persons;
- (J) The Company (i) has not commingled, and will not commingle, its funds or assets with those of any other Person and (ii) has not participated and will not share bank accounts with any other Person, except as may be contemplated under the Transaction Documents;
- (K) The Company has held and will hold its assets in its own name;
- (L) The Company has conducted and shall conduct its business in its name or in a name franchised or licensed to it by an entity other than an Affiliate of itself or the Company, except for business conducted on behalf of itself by another Person under a business management services agreement that is on commercially reasonable terms, so long as the manager, or equivalent thereof, under such business management services agreement holds itself out as an agent of the Company;
- (M) The Company has maintained and will maintain its books, bank accounts, balance sheets, financial statements, accounting records and other entity documents separate from any other Person and has not permitted, and will not permit, its assets to be listed as assets on the financial statement of any other entity except as required or permitted by GAAP; *provided, however*, that the Company may permit its assets to be listed as assets on the consolidated financial statements of an Affiliate if appropriate notation is made in at least one place on any such consolidated statements (including but not limited to footnotes) to indicate the Company's separateness from such Affiliate and to indicate that the Company's assets are not available to satisfy the debts and other obligations of such Affiliates

or any other Person (except as may be permitted under this Agreement); *provided* that notwithstanding anything to the contrary, the Company's cash or current assets may be distributed to the Member in accordance with applicable law;

- (N) While the Company has never had and does not currently have any employees or believe any employees will be necessary, the Company will pay its own liabilities and expenses, including the salaries of its own employees, if any, out of its own funds and assets, and has maintained and will maintain a sufficient number of employees (if any) in light of its business operations; *provided, however*, the foregoing shall not require any owner of the Company to make any additional capital contributions, loans, or other funding to the Company;
- (O) The Company has observed and will observe in all material respects all limited liability company formalities;
- (P) The Company has not had, and will not have, any indebtedness for borrowed money other than (i) as provided or contemplated under the Transaction Documents, (ii) unsecured trade and operation debt incurred in the ordinary course of business relating to the ownership and operation of the Water Rights and Raw Water Credits and the routine administration of the Company, which liabilities are not evidenced by a promissory note, and which amounts are normal and reasonable under the circumstances, and (iii) such other liabilities that are permitted pursuant to or contemplated by the Transaction Documents;
- (Q) The Company has not assumed or guaranteed or become obligated for, and will not assume or guarantee or become obligated for, the debts of any other Person and has not held out and will not hold out its credit as being available to satisfy the obligations of any other Person except as may be permitted pursuant to the Transaction Documents;
- (R) The Company has not acquired and will not acquire obligations or securities of its partners, members or shareholders or any other Affiliate;
- (S) The Company has allocated and will allocate, fairly and reasonably, any overhead expenses that are shared with any Affiliate, including but not limited to, paying for shared office space and services performed by any employee of an Affiliate, although it is not

currently contemplated that the Company will have the need for office space and the like;

- (T) To the extent applicable, the Company has maintained and used, now maintains and uses, and will maintain and use, separate invoices and checks bearing its name, and all invoices, and checks utilized by such Person or utilized to collect its funds or pay its expenses have borne and shall bear its own name and have not borne and shall not bear the name of any other entity unless such entity is clearly designated as being such Person's agent;
- (U) Except pursuant to the Transaction Documents, the Company has not pledged and will not pledge its assets for the benefit of any other Person;
- (V) The Company has held itself out and identified itself, and will hold itself out and identify itself, as a separate and distinct entity under its own name or in a name franchised or licensed to it by an entity other than an Affiliate of the Company and not as a division or part of any other Person; *provided* that the owners of the Company can state that the Company is a portfolio company or investment of its owners (and statements consistent with that);
- (W) Except only for the Company's shared interest in the Property and Assets with Greeley (as such terms are defined in the Transaction Documents) or otherwise contemplated under the Transaction Documents, the Company has maintained and will maintain its assets in such a manner that it will not be costly or difficult to segregate, ascertain or identify its individual assets from those of any other Person;
- (X) The Company has not made and will not make loans to any Person or hold evidence of Indebtedness issued by any other Person or entity (other than cash and investment grade securities issued by an entity that is not an Affiliate of or subject to common ownership with such entity);
- (Y) The Company has not entered into or been a party to, and will not enter into or be a party to, any transaction with its partners, members, shareholders or Affiliates except (i) in the ordinary course of its business and on terms which are commercially reasonable (which are reasonably comparable to those of an arm's-length transaction with an unrelated third party, (ii) as may be permitted or contemplated by the Transaction Documents, and (iii) that agreement with Chris Dietzler dated _____, 201_ (the "Dietzler Agreement");

- (Z) Except as provided in Section 20 of this Agreement, the Company has not had and will not have any obligation to indemnify, and has not indemnified and will not indemnify, its partners, officers, directors, managers or members, as the case may be, unless such an obligation or indemnification is fully subordinated to the Company's Obligations under the Transaction Documents and shall not constitute a claim against the Company in the event that cash flow is insufficient to pay such Obligations;
- (AA) The Company does not and will not have any of its obligations guaranteed by any Affiliate; and
- (BB) Other than capital contributions and distributions permitted under the terms of this Agreement, the Company has not entered into or been a party to, and shall not enter into or be a party to, any transaction with any of its partners, members, shareholders or Affiliates except (i) for the Dietzler Agreement and (ii) in the ordinary course of its business and on terms which are commercially reasonable terms (which are reasonably comparable to those of an arm's length transaction with an unrelated third party).

To the fullest extent permitted by law, failure of the Company, or an Officer or the Member on behalf of the Company, to comply with any of the foregoing covenants or any other covenants contained in this Agreement shall not affect the status of the Company as a separate legal entity or the limited liability of the Member.

Section 10. Independent Manager.

As long as any Obligation is outstanding, the Member shall use commercially reasonable efforts to cause the Company at all times to have at least one (1) Independent Manager who will be appointed by the Member. In acting or otherwise voting on matters referred to in Section 9(d)(iii) of this Agreement, the Independent Manager shall, to the extent permitted by law, including Section 18-1101(c) of the Act and notwithstanding any duty otherwise existing at law or in equity, consider only the interests of the Member of the Company and the Company (including its creditors to the extent a duty would run from a manager to the Company's creditors under applicable law) in acting or otherwise voting on a Material Action (which such duties to the Member of the Company and its creditors, to the extent a duty would run from a manager to the Company's creditors under applicable law, in each case, shall be deemed to apply solely to the extent of their respective economic interests in the Company exclusive of (A) all other interests, (B) the interests of other affiliates of the Member of the Company or the Company, and (C) the interests of any group of affiliates of which the Member of the Company or the Company is a part). Except as provided in the second sentence of this Section 10, the Independent Manager shall not have any fiduciary duties to any Member, or any other Person; provided, however, that the foregoing shall not eliminate the implied contractual covenant of good faith and fair dealing. To the fullest extent permitted by law, including Section 18-1101(e) of the Act, an Independent Manager shall not be liable to the

Company, any Member, or any other Person for breach of contract or breach of duties (including fiduciary duties), unless the Independent Manager acted in bad faith or engaged in willful misconduct. In the event of a vacancy in the position of Independent Manager, the Member shall, as soon as practicable, appoint a successor Independent Manager. The Independent Manager shall not be removed other than for Cause, and the Company shall be required to give Greeley at least fifteen (15) days' prior written notice of any removal along with the identity of the proposed replacement Independent Manager, together with a certification that such replacement satisfies the requirements for an Independent Manager set forth in this Agreement. All right, power and authority of the Independent Manager shall be limited to the extent necessary to exercise those rights and perform those duties specifically set forth in this Agreement and the Independent Manager shall otherwise have no authority to bind the Company. The Independent Manager shall not at any time serve as trustee in bankruptcy for an Affiliate of the Company. Notwithstanding any other provision of this Agreement, the Independent Manager, in its capacity as Independent Manager, may only vote on, or otherwise participate in, Material Actions. The Independent Manager is hereby designated as a "manager" within the meaning of Section 18-101(12) of the Act, but solely for these express purposes.

Section 11. Officers.

The Member may appoint such Officers and agents as it shall deem necessary or advisable who shall hold their offices for such terms and shall exercise such powers and perform such duties as shall be determined from time to time by the Member. Any number of offices may be held by the same person. The Officers of the Company shall hold office until their successors are chosen and qualified. Any Officer may be removed at any time, with or without cause, by the Member. Any vacancy occurring in any office of the Company may be filled by the Member. The Member may also delegate its authority and rights to others by resolution. The Officers, to the extent of their powers set forth in this Agreement or otherwise vested in them by action of the Member not inconsistent with this Agreement, are agents of the Company for the purpose of the Company's business and, subject to Section 9(d), the actions of the Officers taken in accordance with such powers shall bind the Company.

Section 12. Limited Liability.

Except as otherwise expressly provided by the Act, the debts, obligations and liabilities of the Company, whether arising in contract, tort or otherwise, shall be the debts, obligations and liabilities solely of the Company, and none of the Member, Special Member, Officers, or Independent Manager shall be obligated personally for any such debt, obligation or liability of the Company solely by reason of being a Member, Special Member, Independent Manager or Officer of the Company.

Section 13. Intentionally Omitted.

Section 14. Additional Contributions.

The Member is not required to make any additional capital contribution or loan to the Company. However, the Member may make additional capital contributions to the Company at any time upon the written consent of such Member. To the extent that the Member makes an additional capital contribution to the Company, the Member shall revise Schedule B of this Agreement. The provisions of this Agreement, including this Section 14, are intended to benefit the Member and, to the fullest extent permitted by law, shall not be construed as conferring any benefit upon any creditor of the Company (and no such creditor of the Company shall be a third-party beneficiary of this Agreement) and the Member shall not have any duty or obligation to any creditor of the Company to make any contribution to the Company or to issue any call for capital pursuant to this Agreement.

Section 15. Allocation of Profits and Losses.

The Company's profits and losses shall be allocated to the Member.

Section 16. Distributions.

Distributions shall be made to the Member at the times and in the aggregate amounts determined by the Member. Notwithstanding any provision to the contrary contained in this Agreement, the Company shall not be required to make a distribution to the Member on account of its interest in the Company if such distribution would violate the Act or any other applicable law.

Section 17. Books and Records.

The Company shall keep or cause to be kept complete and accurate books of account and records with respect to the Company's business. The Member and its duly authorized representatives shall have the right to examine the Company books, records and documents during normal business hours. The Company's books of account shall be kept using the method of accounting determined by the Member. The Company's independent auditor, if any, shall be an independent public accounting firm selected by the Member.

Section 18. Intentionally Omitted.

Section 19. Other Business.

Notwithstanding any duty otherwise existing at law or in equity, the Member, the Special Member, the Officers, and the Independent Manager and any Affiliate of the Member, the Special Member, or the Independent Manager may engage in or possess an interest in other business ventures (unconnected with the Company) of every kind and description, independently or with others, and the Company shall not have any rights in or to such independent ventures or the income or profits therefrom by virtue of this Agreement.

Section 20. Exculpation and Indemnification.

(a) To the fullest extent permitted by applicable law, none of the Member, the Special Member, Officers, or the Independent Manager nor any officer, director, employee, agent or Affiliate of the foregoing (collectively, the “**Covered Persons**”) shall be liable to the Company or any other Person who is bound by this Agreement for any loss, damage or claim incurred by reason of any act or omission performed or omitted by such Covered Person in good faith on behalf of the Company and in a manner reasonably believed to be within the scope of the authority conferred on such Covered Person by this Agreement, except that a Covered Person shall be liable for any such loss, damage or claim incurred by reason of such Covered Person’s gross negligence, bad faith, or willful misconduct (or in the case of the Independent Manager, bad faith or willful misconduct).

(b) To the fullest extent permitted by applicable law, a Covered Person shall be entitled to indemnification from the Company for any loss, damage or claim incurred by such Covered Person by reason of any act or omission performed or omitted by such Covered Person in good faith on behalf of the Company and in a manner reasonably believed to be within the scope of the authority conferred on such Covered Person by this Agreement, except that no Covered Person shall be entitled to be indemnified in respect of any loss, damage or claim incurred by such Covered Person by reason of such Covered Person’s gross negligence, bad faith, or willful misconduct (or in the case of the Independent Manager, bad faith or willful misconduct), with respect to such acts or omissions; *provided, however*, that any indemnity under this Section 20 by the Company shall be provided out of and to the extent of Company assets only, and the Member shall not have personal liability on account thereof and provided further, that so long as any Obligation is outstanding, no indemnity payment from funds of the Company (as distinct from funds from other sources, such as insurance) of any indemnity under this Section 20 shall be payable from amounts allocable to any other Person pursuant to the Transaction Documents.

(c) To the fullest extent permitted by applicable law, expenses (including reasonable legal fees) incurred by a Covered Person defending any claim, demand, action, suit or proceeding shall, from time to time, be advanced by the Company prior to the final disposition of such claim, demand, action, suit or proceeding upon receipt by the Company of a written undertaking by or on behalf of the Covered Person to repay such amount if it shall be determined that the Covered Person is not entitled to be indemnified as authorized in this Section 20.

(d) A Covered Person shall be fully protected in relying in good faith upon the records of the Company and upon such information, opinions, reports or statements presented to the Company by any Person as to matters the Covered Person reasonably believes are within such other Person’s professional or expert competence and who has been selected with reasonable care by or on behalf of the Company, including information, opinions, reports or statements as to the value and amount of the assets, liabilities, or any other facts pertinent to the existence and amount of assets from which distributions to the Member might properly be paid.

(e) The provisions of this Agreement, to the extent that they restrict or eliminate the duties and liabilities of a Covered Person to the Company or its members otherwise existing at law

or in equity, are agreed by the parties hereto to replace such other duties and liabilities of such Covered Person.

(f) The foregoing provisions of this Section 20 shall survive any termination of this Agreement.

Section 21. Assignments.

The Member may assign in whole or in part its limited liability company interest in the Company. Subject to Section 23, the transferee shall be admitted to the Company as a member of the Company upon its execution of an instrument signifying its agreement to be bound by the terms and conditions of this Agreement, which instrument may be a counterpart signature page to this Agreement. If the Member transfers all of its limited liability company interest in the Company pursuant to this Section 21, such admission shall be deemed effective immediately prior to the transfer and, immediately following such admission, the transferor Member shall cease to be a member of the Company. Notwithstanding anything in this Agreement to the contrary, any successor to the Member by merger or consolidation in compliance with the Transaction Documents shall, without further act, be the Member hereunder, and such merger or consolidation shall not constitute an assignment for purposes of this Agreement and the Company shall continue without dissolution.

Section 22. Resignation.

So long as any Obligation is outstanding, the Member may not resign as a member, except as permitted under the Transaction Documents unless Greeley's prior written consent has been obtained. If the Member is permitted to resign pursuant to this Section 22, an additional member of the Company shall be admitted to the Company, subject to Section 23, upon its execution of an instrument signifying its agreement to be bound by the terms and conditions of this Agreement, which instrument may be a counterpart signature page to this Agreement. Such admission shall be deemed effective immediately prior to the resignation and, immediately following such admission, the resigning Member shall cease to be a member of the Company.

Section 23. Admission of Additional Members.

One or more additional Members of the Company may be admitted to the Company with the written consent of the Member, subject to any further restrictions expressly provided for in the Transaction Documents; *provided* that notwithstanding anything to the contrary, membership interests may be transferred or assigned (and additional members may be admitted to the Company) without the consent of the Independent Manager or any other Person; *provided* further that HA II, LLC and its Affiliates directly or indirectly own or control at least 50% of the membership interests of the Company.

Section 24. Dissolution.

(a) Subject to Section 9(d), the Company shall be dissolved, and its affairs shall be wound up upon the first to occur of the following: (i) the termination of the legal existence of the last remaining member of the Company or the occurrence of any other event which terminates the continued membership of the last remaining member of the Company in the Company unless the Company is continued without dissolution in a manner permitted by this Agreement or the Act, (ii) the entry of a decree of judicial dissolution under Section 18-802 of the Act, or (iii) after no Obligation is outstanding, as determined by the Member. Upon the occurrence of any event that causes the last remaining member of the Company to cease to be a member of the Company or that causes the Member to cease to be a member of the Company (other than upon continuation of the Company without dissolution upon (i) an assignment by the Member of all of its limited liability company interest in the Company and the admission of the transferee pursuant to Sections 21 and 23, or (ii) the resignation of the Member and the admission of an additional member of the Company pursuant to Sections 22 and 23), to the fullest extent permitted by law, the personal representative of such member is hereby authorized to, and shall, within 90 days after the occurrence of the event that terminated the continued membership of such member in the Company, agree in writing (i) to continue the Company and (ii) to the admission of the personal representative or its nominee or designee, as the case may be, as a substitute member of the Company, effective as of the occurrence of the event that terminated the continued membership of such member in the Company.

(b) Notwithstanding any other provision of this Agreement, the Bankruptcy of the Member or Special Member shall not cause the Member or Special Member, respectively, to cease to be a member of the Company and upon the occurrence of such an event, the Company shall continue without dissolution.

(c) Notwithstanding any other provision of this Agreement, each of the Member and the Special Member waives any right it might have to agree in writing to dissolve the Company upon the Bankruptcy of the Member or the Special Member, or the occurrence of an event that causes the Member or the Special Member to cease to be a member of the Company. In the event of dissolution, the Company shall conduct only such activities as are necessary to wind up its affairs (including the sale of the assets of the Company in an orderly manner), and the assets of the Company shall be applied in the manner, and in the order of priority, set forth in Section 18-804 of the Act.

(d) The Company shall terminate when (i) all of the assets of the Company, after payment of or due provision for all debts, liabilities and obligations of the Company shall have been distributed to the Member in the manner provided for in this Agreement and (ii) the Certificate of Formation shall have been canceled in the manner required by the Act.

Section 25. Waiver of Partition; Nature of Interest.

Except as otherwise expressly provided in this Agreement and the Transaction Documents, to the fullest extent permitted by law, the Member hereby irrevocably waives any right or power

that such Person might have to cause the Company or any of its assets to be partitioned, to cause the appointment of a receiver for all or any portion of the assets of the Company, to compel any sale of all or any portion of the assets of the Company pursuant to any applicable law or to file a complaint or to institute any proceeding at law or in equity to cause the dissolution, liquidation, winding up or termination of the Company. The Member shall not have any interest in any specific assets of the Company, and the Member shall not have the status of a creditor with respect to any distribution pursuant to Section 16 hereof. The interest of the Member in the Company is personal property.

Section 26. Benefits of Agreement; No Third-Party Rights.

None of the provisions of this Agreement shall be for the benefit of or enforceable by any creditor of the Company or by any creditor of the Member. Nothing in this Agreement shall be deemed to create any right in any Person (other than Covered Persons) not a party hereto, and this Agreement shall not be construed in any respect to be a contract in whole or in part for the benefit of any third Person (other than Covered Persons).

Section 27. Tax Status

It is intended that the Company shall be a disregarded entity for federal, state, and local income tax purposes.

Section 28. Severability of Provisions.

Each provision of this Agreement shall be considered severable and if for any reason any provision or provisions herein are determined to be invalid, unenforceable or illegal under any existing or future law, such invalidity, unenforceability or illegality shall not impair the operation of or affect those portions of this Agreement which are valid, enforceable and legal.

Section 29. Entire Agreement.

This Agreement constitutes the entire agreement of the parties with respect to the subject matter hereof.

Section 30. Binding Agreement.

Notwithstanding any other provision of this Agreement, the Member agrees that this Agreement, including, without limitation, Sections 7, 8, 9, 10, 20, 21, 22, 23, 24, 26, 30 and 32, constitutes a legal, valid and binding agreement of the Member, and is enforceable against the Member by the Independent Manager, in accordance with its terms.

Section 31. Governing Law.

This Agreement shall be governed by and construed under the laws of the State of Delaware (without regard to conflict of laws principles), all rights and remedies being governed by said laws.

Section 32. Amendments.

This Agreement may be modified, altered, supplemented or amended pursuant to a written agreement executed and delivered by the Member. Notwithstanding anything to the contrary in this Agreement, so long as any financial Obligation is outstanding, this Agreement may not be modified, altered, supplemented or amended without Greeley's prior written consent to the extent that such amendment, alteration, supplement, or amendment addresses the Limited Purposes, Material Actions, the limitations set forth in Section 9(d), and/or the rights, duties, and obligations of the Independent Manager (including but not limited to those set forth in Section 9(d)); *provided* that this sentence shall be terminated and have no force and effect upon the Termination Date.

Section 33. Counterparts.

This Agreement may be executed in any number of counterparts, each of which shall be deemed an original of this Agreement and all of which together shall constitute one and the same instrument.

Section 34. Notices.

Any notices required to be delivered hereunder shall be in writing and personally delivered, mailed or sent by telecopy, electronic mail or other similar form of rapid transmission, and shall be deemed to have been duly given upon receipt (a) in the case of the Company, to the Company at its address in Section 3, (b) in the case of the Member, to the Member at its address as listed on Schedule B attached hereto and (c) in the case of either of the foregoing, at such other address as may be designated by written notice to the other party.

All real estate taxes attributable to the Assets, if any, for the calendar year in which the Closing occurs shall be prorated at the Closing on the basis of the most recent mill levy, unless the actual real estate taxes for the current year are known on the Closing Date. ARTICLE 8 TENANCY IN COMMON

8.1 Tenancy in Common Agreement. The form of Tenancy in Common Agreement is attached hereto as Exhibit L.

8.2 Conveyance of the Tenancy in Common Interest.

A. Conveyances. Subject to Greeley's consent and except as otherwise provided in this Section 8.2.A, Wingfoot may convey all or any portion of Wingfoot's TIC Interest to a third-party (a "Third Party Transfer"), provided that the Third Party Transfer (1) identifies Greeley as a party to the agreement between Wingfoot and the third-party; (2) obligates the third-party to simultaneously convey its entire interest in the Property Water Rights to Greeley in exchange for a number of Raw Water Credits bearing the same proportion to the total number of Raw Water Credits as the fractional interest conveyed in the Property Water Rights bears to the entire interest in the Property Water Rights; (3) identifies the full cash consideration for such portion and such amount is certified to Greeley by Wingfoot and shown in the property declaration with respect to such Third Party Transfer; (4) shall not obligate Greeley to accept title to any property other than the Property Water Rights and (5) requires conveyance to Greeley consistent with the Tenancy in Common Conveyance Documents defined in Section 8.2.B (Form of Conveyance). If Wingfoot has not fully satisfied its Cash Contribution obligation on the date of the closing of any Third Party Transfer, then Wingfoot shall deposit in the Construction Escrow at closing the lesser of (a) its then remaining Cash Contribution obligation, or (b) ninety percent (90%) of the Net Cash Proceeds. Notwithstanding the foregoing, Wingfoot may not convey Wingfoot's TIC Interest in a cashless exchange for like property. If and when the proposed Third Party Transfer is consistent with the conditions set forth in clauses (1) – (5) in all material respects, then Greeley shall present the same to the Greeley Water and Sewer Board for approval within forty-five (45) days after receipt by Greeley of a purchase and sale agreement relating to such Third Party Transfer (the "Interim Period"). If the Greeley Water and Sewer Board rejects or does not approve the proposed Third Party Transfer within the Interim Period, then within twenty (20) days after the earlier of (x) Greeley Water and Sewer Board's rejection of the proposed Third Party Transfer or (y) expiration of the Interim Period without Wingfoot's

receipt of written approval of the proposed Third Party Transfer from Greeley, Greeley shall pay to Wingfoot one hundred twenty-five percent (125%) of the sales price relating to the proposed Third Party Transfer (the “Prohibited Transfer Fee”) and Wingfoot shall concurrently transfer to Greeley Wingfoot’s TIC Interest identified in the proposed Third Party Transfer. No portion of the Prohibited Transfer Fee shall be subject to the Deposit Obligation of Section 9.1.B (Source of Funds).

B. Form of Conveyance. Wingfoot shall convey Wingfoot’s TIC Interest, and shall cause that portion of Wingfoot’s TIC Interest conveyed to a third-party, if any, to be conveyed to Greeley, free and clear of all liens and encumbrances except for Permitted Exceptions, by executing the forms attached hereto as Exhibit Q (the “Tenancy in Common Conveyance Documents”).

8.3 Termination of the Tenancy in Common; Ten-year limit. The Tenancy in Common shall terminate and ownership of the PropertyWater Rights shall vest entirely in Greeley (subject to any conveyances made by, through or under Greeley) upon the earlier of (i) the transfer of one hundred percent (100%) of the ownership of the PropertyWater Rights to Greeley or (ii) ten (10) years following the Closing Date, subject to Greeley’s obligations and the other terms of this Agreement.

8.4 Use. Subject to the terms of the Tenancy in Common Agreement and Greeley’s compliance with the terms of this Agreement, Wingfoot agrees that, after Closing, Greeley shall have the exclusive right to use the PropertyWater Rights, and Wingfoot shall not access or use the PropertyWater Rights without Greeley’s written permission.

ARTICLE 9 CONSTRUCTION ESCROW

9.1 Construction Escrow. At Closing, the Parties shall execute an escrow agreement to manage the deposit and release of the Project Infrastructure funds substantially in the form attached hereto as Exhibit F (the “Construction Escrow Agreement”). Notwithstanding the preceding sentence, the Parties acknowledge and agree that the Construction Escrow Agreement attached hereto may be subject to revision as may be necessary or convenient to obtain approval from the escrow agent. Subject to the terms of this Agreement, Wingfoot shall deposit a total of ~~One Hundred Twenty Five Million Dollars~~ one hundred twenty-five million dollars (\$125,000,000) (“Cash Contribution”) in an escrow account established and maintained pursuant to the Construction Escrow Agreement (the “Construction Escrow”). The Cash Contribution is estimated to cover one-half of the estimated cost to plan, develop, permit and construct the Project Infrastructure (“Project Infrastructure Costs”) and shall be funded and due as provided below, provided that “Project Infrastructure Costs” shall not include debt service payable by Greeley. For federal, state and local income tax purposes, notwithstanding the funding mechanism set forth in this Agreement, the Parties acknowledge that Wingfoot intends to treat the Cash Contribution as a reduction in the amount realized by Wingfoot in respect of the transfer of Wingfoot’s TIC Interest or sale of Raw Water Credits, in order to reflect the fact that the Cash Contribution will reduce Wingfoot’s net economic gain derived from the transfer of Wingfoot’s TIC Interest or sale of Raw Water Credits, Wingfoot does not obtain any property or derive any separate benefit from the Cash Contribution, and the benefit of the Cash Contribution

inures entirely to Greeley (in the form of Project Infrastructure owned by Greeley). For example, if the gross purchase price of a Raw Water Credit is ~~Thirty Thousand Dollars~~thirty thousand dollars (\$30,000) and Wingfoot has not satisfied its Deposit Obligations under Section 9.2(B) (Source of Funds), then Wingfoot shall deposit ninety percent (90%) of such purchase price (~~Twenty Seven Thousand Dollars~~twenty-seven thousand dollars (\$27,000)) to the Construction Escrow as a Deposit Obligation, reducing the amount realized by Wingfoot in respect to the sale of such Raw Water Credit to ~~Three Thousand Dollars~~(three thousand dollars (\$3,000)). In furtherance of the foregoing, for federal, state, and local income tax purposes, (x) Wingfoot intends to treat the Initial Contribution (defined below) as an advance reduction in Wingfoot's amount realized in respect of transfers of Wingfoot's TIC Interest, and (y) Wingfoot may determine the extent to which a portion of the total reduction in the amount realized by Wingfoot (i.e., the total Cash Contribution, including the Initial Contribution) shall be attributed to any specific transfer of a portion of Wingfoot's TIC Interest. It is the intent of the Parties that, to the greatest extent possible, Wingfoot shall not be treated as having an amount realized from the transfer of a portion of Wingfoot's TIC Interest greater than the net amount of cash retained by Wingfoot in connection with that transfer, after the satisfaction of Wingfoot's funding obligations as set forth herein. Neither Party shall take a position contrary to the positions and statements set forth in this Section 9.1.

A. Deposits Due. Within ~~Ninety~~ninety (90) days after the Closing, Wingfoot shall deposit ~~Twenty five Million Dollars~~twenty-five million dollars (\$25,000,000) ("Initial Contribution") in the Construction Escrow and provide written notice thereof to Greeley and the Title Company. The balance of the Cash Contributions shall be due on the earlier to occur of (i) twenty-four (24) months after Greeley provides written notice of its intent to construct the Project Infrastructure ("Notice to Construct") or (ii) ten (10) years after the Closing Date (the "Contribution Deadline"). Greeley shall have no deadline or timeline to commence or complete construction of the Project Infrastructure. Notwithstanding the foregoing, Greeley may not issue the Notice to Construct sooner than two (2) years after the Closing Date unless Wingfoot has fully satisfied its Cash Contribution obligation within such time. Wingfoot shall have no obligation to fund the Construction Escrow or the Project Infrastructure in excess of the Cash Contribution and Greeley shall be solely responsible for all costs related to the Project Infrastructure exceeding the Cash Contribution.

B. Source of Funds. Until Wingfoot has fully satisfied its Cash Contribution obligation, Wingfoot shall deposit or arrange for the deposit of ninety percent (90%) of the Net Cash Proceeds received by Wingfoot (collectively, the "Deposit Obligations"). Notwithstanding anything to the contrary in this Section 9.1.B, Wingfoot shall retain one hundred percent (100%) of the proceeds from, and the Deposit Obligations shall not include, the sale of the Exercised Credits and the Released Credits pursuant to Article 11 (Put and Call Options) and from the Prohibited Transfer Fee. To track Wingfoot's obligation under this Section 9.1.B Wingfoot shall, promptly after each such deposit of a Deposit Obligation, provide to Greeley (i) a settlement statement evidencing the purchase price and (ii) a statement evidencing that ninety percent (90%) of the Net Cash Proceeds has been deposited in the Construction Escrow, along with the surrendered Certificate(s) or a copy of the deed transferring the ~~Property~~Water Rights to a third-party pursuant to Section 8.2.A (Conveyance) until Wingfoot's obligation to fund the Cash Contribution has been fully satisfied. If the surrendered

9.2 Failure to Fund.

A. Failure to Fund the Initial Contribution. If Wingfoot fails to deposit the Initial Contribution in the Construction Escrow within ninety (90) days of the Closing Date, then this Agreement shall automatically terminate, and pursuant to Section 14.2.A(3) (Remedies, General): (a) the Purchase Price shall be returned to Greeley; (b) the Initial Tenancy in Common Interest shall be conveyed back to Wingfoot, along with a reassignment of the Ancillary Assets and the State Land Board Lease; and (c) all documents deposited by Greeley or delivered to Wingfoot by Greeley, including without limitation the Initial Credits, shall be immediately returned to Greeley, if any, and all documents, deposited by Wingfoot or delivered to Greeley by Wingfoot shall be immediately returned to Wingfoot, if any. In addition, Greeley shall be entitled to reimbursements from Wingfoot and Wingfoot shall be obligated to pay Greeley for all reasonable, third party out-of-pocket costs incurred by Greeley subsequent to the Effective Date but prior to the termination, which shall include, but not be limited to, the Inspection Costs. Upon termination, all other rights and obligations of the Parties shall be terminated under this Agreement, except for the covenants, agreements and monetary obligations contained in Section 17.9 (Survival) which shall survive the ~~Termination~~termination of this Agreement to the extent set forth in Section 17.9, for the time period(s) specified therein.

B. Failure to Fund the Cash Contribution. If Wingfoot fails to fully satisfy its Cash Contribution obligation by the Contribution Deadline, and Greeley has not (i) breached any of its obligations under Section 10.5 (Material Change to Market Value); (ii) breached any of its obligations under Section 9.1.C (Greeley's Contributions) or Section 9.1.D (Release of Funds); or (iii) committed a default or otherwise breached this Agreement that prevented or interfered with or adversely affected Wingfoot's ability to fund the Cash Contribution, then Greeley shall provide Wingfoot with written notice of such failure to satisfy Wingfoot's Cash Contribution (a "Payment Default"). If Wingfoot does not cure such Payment Default within sixty (60) days after its receipt of written notice from Greeley of such Payment Default (not subject to any additional cure period under Section 14.2.D (Remedies, Generally), then pursuant to Section 14.2.A(4) (Remedies, Generally), Greeley may elect to require that Wingfoot convey the entirety of Wingfoot's TIC Interest to Greeley, and Wingfoot shall be obligated to effect such conveyance, and Wingfoot shall continue to be subject to its Deposit Obligation under Section 9.1.B (Source of Funds) until Wingfoot's Cash Contribution obligation is fully satisfied. Other than Raw Water Credits subject to the Put Option and Call Option as set forth in Article 11 (Put and Call Option), Greeley shall not be required to issue any additional Raw Water Credits (other than transfers of outstanding Raw Water Credits in the Registry) in exchange for a transfer of Wingfoot's TIC Interest pursuant to this Section 9.2.B.

ARTICLE 10 RAW WATER CREDITS

10.1 Raw Water Credit.

A. Authorization. At Closing, Greeley shall authorize the issuance of ~~Twelve Thousand One Hundred Twenty-one~~twelve thousand one hundred twenty-one (12,121)

credits, with each credit representing the equivalent of, but not an interest in, one (1) acre foot of raw water (each a “Raw Water Credit”).

B. Issuance. ~~After~~ Simultaneous with or after Wingfoot satisfies its Initial Contribution pursuant to Section 9.1.A (Deposit Due), Wingfoot may request from Greeley the issuance to it of up to ~~Twelve Thousand One Hundred Twenty One (12,121)~~ seven thousand nine hundred forty-six (7,946) Raw Water Credits (inclusive of the Initial Credits ~~and~~ but less the Escrowed Credits) at any time prior to the date which is ten (10) years after the Closing Date. Within thirty (30) days of receipt of a request for Raw Water Credits from Wingfoot pursuant to this Section 10.1(B), Greeley shall issue the corresponding amount of Raw Water Credits to Wingfoot. If any Raw Water Credits remain unissued as of the date which is ten (10) years after the Closing Date, then all remaining unissued Raw Water Credits shall be issued to Wingfoot in consideration of Wingfoot transferring Wingfoot’s TIC Interest to Greeley pursuant to Section 10.2 (Transfer of Tenancy in Common Interest) as of that date.

C. Form. The issuance of all Raw Water Credits shall be documented by the delivery of certificates in the form attached as Exhibit E (each a “Certificate”). A single Certificate may represent any whole number of Raw Water Credits. Each Certificate shall evidence the rights of the original or any subsequent Registered Owner (defined below) thereof with respect to the Raw Water Credits evidenced thereby.

D. Redemption Period. The form of Certificate shall provide that any Registered Owner may redeem a Raw Water Credit from Greeley through December 31, 2099, subject to the terms and conditions of the Certificate and the Raw Water Dedication Policy.

E. Limitations; Sales. All Raw Water Credits issued to Wingfoot shall be subject to Section 10.2 (Transfer of Tenancy in Common Interest). After issuance, Wingfoot may sell, convey, or transfer a Raw Water Credit to a third-party, subject to Section 9.1.B (Source of Funds). All Registered Owners, including Wingfoot, may freely sell, transfer, or convey Raw Water Credits to third-parties subject to compliance with Section 10.3 (Administration; Tracking).

10.2 Transfer of the Tenancy in Common Interest. Greeley’s issuance of a Raw Water Credit to Wingfoot shall obligate Wingfoot to convey an amount of Wingfoot’s TIC Interest to Greeley as described in this Section 10.2. Wingfoot shall satisfy this obligation on a semiannual basis. On February 1 and August 1 of each year, Greeley and Wingfoot shall calculate the total number of Raw Water Credits issued to Wingfoot and the total number of Raw Water Credits released from the Credit Escrow pursuant to Article 11 during the preceding six months, but excluding the amount issued to a third-party pursuant to Section 8.2A (Conveyance) (“collectively, the “Semester Total”). By each February 15 and August 15, Wingfoot shall convey to Greeley a fraction of the total interests in the ~~Property~~ Water Rights (out of Wingfoot’s TIC Interest) with the (i) numerator being equal to the Semester Total and (ii) denominator being twelve thousand one hundred twenty-one (12,121) (i.e., the total authorized number of Raw Water Credits). Wingfoot shall convey any portion of Wingfoot’s TIC Interest to Greeley in accordance with the terms and conditions of the Tenancy in Common Agreement and Section 8.2.B (Form of Conveyance). Upon the issuance of all of the Raw Water Credits available to Wingfoot under this Agreement, Wingfoot shall convey all of Wingfoot’s TIC Interest to

Greeley, at which point the tenancy in common shall terminate and one hundred percent (100%) ownership in and to the Property Water Rights will vest in Greeley, except to the extent that Greeley has assigned or encumbered any of its interest in the Tenancy in Common or the Property Water Rights.

10.3 Administration; Tracking.

A. Issuance. Greeley's Water and Sewer Department, acting on behalf of Greeley, (the "Department") shall establish and maintain a written record of all issued and outstanding Certificates (the "Registry"). The Registry shall include, but is not limited to, (i) the name of the person or entity to whom a Certificate has been issued or transferred ("Registered Owner"), (ii) the date of issuance or transfer, as applicable, (iii) the Registered Owner's contact information as of the date of the issuance or transfer, (iv) the Certificate Number affixed thereto, and (v) the number of Raw Water Credits evidenced thereby.

B. Assignment. A Certificate may be transferred in the Registry, in whole or in part, but only in whole numbers of Raw Water Credits, by the Registered Owner upon presentation of the original Certificate with the form of assignment thereon, properly executed and acknowledged. If Wingfoot is the Registered Owner and Wingfoot has not fully satisfied its Cash Contribution obligation, then Wingfoot must submit documentation and deposit or arrange for the deposit of funds as required by Section 9.1.B (Source of Funds) along with the original Certificate and the properly executed and acknowledged assignment. Certificates for fractional Raw Water Credits will not be issued or accepted by Greeley. If a Registered Owner assigns only a portion of the Raw Water Credits evidenced by a Certificate, then the Department will issue ~~one~~ the first Certificate to the assignee for the amount assigned and a second Certificate to the assignor (i.e., the original Registered Owner) for the amount retained. The Department shall not be obligated to: (i) recognize any person or entity as the owner of a Certificate, or having any interest therein, who does not appear as the Registered Owner thereof in the Registry or (ii) issue or reissue a Certificate to a Registered Owner, including Wingfoot, who has failed to comply with this Section 10.3 with respect to the Raw Water Credits evidenced or to be evidenced by such Certificate, until such failure to comply is remedied or cured.

C. Redemption; Cancellation of Credit. A Registered Owner may redeem a Raw Water Credit in satisfaction of any cash-in-lieu fee obligation associated with the Registered Owner's request for water service as prescribed by the Raw Water Dedication Policy. If a Registered Owner presents a Certificate to Greeley and redeems a Raw Water Credit in satisfaction of the Raw Water Dedication Policy or if Wingfoot surrenders a Certificate evidencing put or called Raw Water Credits pursuant to Section 11.5 (Release; Payment; Cancellation of Raw Water Credits), then the Raw Water Credits so presented or acquired shall be deemed exercised and the Certificate or Certificates evidencing the same shall be cancelled.

10.4 Audit of Registry and Sales.

A. Wingfoot's Records. Upon no less than ten (10) days' written notice to Wingfoot, Greeley may audit Wingfoot's non-Confidential records related to the sale of Raw Water Credits or transfer, disposition, or encumbrance of the Property Water Rights. As used in the preceding sentence, "Confidential" means any documents or other information that Wingfoot

believes in good faith would create a risk of financial or other injury if disclosed; provided, however, that proposed sale price and accounting of the Net Cash Proceeds of proposed or completed Third Party Transfers shall not be considered Confidential. Greeley agrees that it will not request an audit more than once in a calendar year, unless (a) an audit or investigation is required by any governmental or regulatory authority or (b) Greeley reasonably believes that an audit is necessary to address a potential breach of this Agreement. If during the course of an audit Greeley reasonably determines that Wingfoot has sold Raw Water Credits or transferred, disposed or encumbered the ~~Property~~Water Rights in a manner that (x) either (i) violates this Agreement or (ii) constitutes an Event of Default by Wingfoot, and (y) individually or in the aggregate has a Material Adverse Effect on Greeley's interest in the Assets, then Greeley shall provide written notice to Wingfoot and an opportunity to cure such default in accordance with Article 14. Upon Wingfoot's failure to cure such default, Greeley may pursue any applicable or available remedy under this Agreement.

B. Greeley's Records. Upon no less than then ten (10) days written notice to Greeley, Wingfoot may audit the Registry and Greeley's policies, procedures and records that relate to the maintenance of the Registry under this Agreement to ensure accurate and complete records consistent with Section 10.3 (Administration; Tracking). Wingfoot agrees that it will not request an audit more than once in a calendar year, unless (i) an audit or investigation is required by any governmental or regulatory authority or (ii) Wingfoot reasonably believes that an audit is necessary to address a potential breach of this Agreement. If during the course of an audit Wingfoot reasonably determines that the tracking of the Raw Water Credits in the Registry is deficient or that Greeley is in default of this Agreement (each, a "Registry Default"), then Wingfoot shall provide written notice to Greeley and an opportunity to cure such Registry Default in accordance with Article 14. If Greeley fails to cure such default, Wingfoot may pursue any applicable or available remedy under this Agreement including, but not limited to, the remedy in Section 10.4.C (Election to Require External Registrar) below. As used in this Section 10.4, "deficient" means that the administrator failed to (i) retain accurate records of ownership or redemption of Raw Water Credits, or (ii) record any transfer or issuance of Raw Water Credits within thirty (30) days of (x) receipt of the proper form of assignment, or (y) the date of such issuance, as the case may be.

C. Election to Require External Registrar. If, after notice and opportunity to cure, Greeley fails to cure either (i) a Registry Default, or (ii) an Event of Default arising from a breach of the provisions of Section 10.3 (Administration; Tracking), in each case, within thirty (30) days of receipt of notice from Wingfoot, and the ~~parties~~Parties agree that this thirty (30) day period is the sole cure period under this Section 10.4.C and they shall disregard the application of any and all other cure periods set forth in this Agreement, then Wingfoot may elect to treat this Agreement as being in full force and effect and, upon delivering written notice to Greeley, Wingfoot may require that Greeley retain at Greeley's cost a financial institution experienced in maintaining similar registries to act as the registrar and administer the Registry until the earlier of December 31, 2099, or the last day upon which any Raw Water Credits remain outstanding.

10.5 Material Change to Market Value.

A. Raw Water Dedication Policy Changes.

(1) Revocation. If the City revokes or rescinds the Raw Water Dedication Policy to deny acceptance of Raw Water Credits (except as provided under Section 10.5.A. of this Agreement) prior to the earlier of December 31, 2099, or the date the last outstanding Raw Water Credit is redeemed, then Wingfoot may elect to terminate this Agreement and [Wingfoot \(and Credit Escrow Transferee\)](#) shall have the remedies provided in either Section 14.2.B(3) (Remedies, Generally) or 10.5.A(4) (Rights of Registered Owners Derived Solely from Certificate), or both, as applicable.

(2) Amendments.

(a) Adding New Sources. The City may amend the Raw Water Dedication Policy to accept a New Source (defined below) in dedication and satisfaction of its raw water requirements, provided that such amendment does not occur within ten (10) years of the Closing Date. A “New Source” shall mean raw water taken in dedication from a source other than water attributable to units or shares of the following: (i) Colorado Big-Thompson Project, (ii) Greeley-Loveland Irrigation Company, (iii) Seven Lakes Reservoir Company, (iv) Loveland and Greeley Reservoir Company, (v) Greeley Irrigation Company, and/or (vi) any other water right used to historically irrigate lands within the Service Area, provided that the dedication of such water rights is limited to the satisfaction of the non-potable demand and are used to continue irrigating the historically irrigated lands. If the City amends the Raw Water Dedication Policy to accept a New Source less than ten (10) years after the Closing Date, then Wingfoot may terminate this Agreement and [Wingfoot \(and Credit Escrow Transferee\)](#) shall have the remedies provided in either Section 14.2.B(3) (Remedies, Generally) or 10.5.A(4) (Rights of Registered Owners Derived Solely from Certificate), or both, as applicable.

(b) Limiting Redemption of Raw Water Credits. As of the Closing Date, the Raw Water Dedication Policy shall provide that a Registered Owner may satisfy up to one hundred percent (100%) of the Registered Owner’s cash-in-lieu fee obligation under the Raw Water Dedication Policy with Raw Water Credits. The City may amend the Raw Water Dedication Policy to limit a Registered Owner’s right to satisfy up to one hundred percent (100%) of the Registered Owner’s cash-in-lieu fee obligation with Raw Water Credits, provided that such amendment does not (i) occur on or before fifteen (15) years after the Closing Date, and (ii) reduce the proportion of Raw Water Credits that may be redeemed in satisfaction of a Registered Owner’s cash-in-lieu fee obligation below seventy-five percent (75%) of such obligation. If the City (i) amends the Raw Water Dedication Policy to limit, or (ii) otherwise reduces, a Registered Owner’s right to satisfy one hundred percent (100%) of the Registered Owner’s cash-in-lieu fee obligation with Raw Water Credits before fifteen (15) years after the Closing Date, then Wingfoot may terminate this Agreement and shall have the remedies provided in Section 14.2.B(3) (Remedies, Generally). If the City (i) amends the Raw Water Dedication Policy to limit, or (ii) otherwise reduces, a Registered Owner’s right to satisfy not less than seventy-five percent (75%) of the Registered Owner’s cash-in-lieu fee obligation with Raw Water Credits prior to the earlier of December 31, 2099, or the date the last outstanding Raw Water Credit is redeemed, then Wingfoot may terminate this Agreement and [Wingfoot \(and Credit Escrow Transferee\)](#) shall have the remedies provided in either Section 14.2.B(3) (Remedies, Generally) or 10.5.A(4) (Rights of Registered Owners Derived Solely from Certificate), or both, as applicable.

(c) Disadvantaging Raw Water Credits. Except as provided in Section 10.5.A(2)(c)(i) (Permissible Policy Change) and subject to Section 10.5.A(2)(c)(ii) (Objection to a Proposed Change), if the City amends or revises the Raw Water Dedication Policy or enters into an agreement pursuant to Section 14.06.190 of the City’s Municipal Code that has the effect of disadvantaging a Raw Water Credit relative to other sources or means of satisfying the City’s raw water dedication requirements prior to the earlier of December 31, 2099, or the date the last outstanding Raw Water Credit is redeemed, then Wingfoot may elect to terminate this Agreement and Wingfoot (and Credit Escrow Transferee) shall have the remedies provided in either Section 14.2.B(3) (Remedies, Generally) or 10.5.A(4) (Rights of Registered Owners Derived Solely from Certificate), or both, as applicable.

(i) Permissible Policy Changes. Notwithstanding Section 10.5.A(2)(c) (Disadvantaging Raw Water Credits) above and subject to Section 10.5.A(2)(c)(ii) (Objection to a Proposed Change), the City may amend or revise the Raw Water Dedication Policy to: (i) address non-substantive administrative, clerical, or procedural changes, including but not limited to any municipal code renumbering, that do not have the effect of disadvantaging a Raw Water Credit relative to other sources or means of satisfying the City’s raw water dedication requirements; (ii) reflect or address a change in water use and/or consumption that is supported by economic or scientific analysis and is consistent with reasonable industry practice; or (iii) ~~to~~ comply with applicable federal and state law (each a “Permissible Policy Change”). The intent of a Permissible Policy Change is to narrowly tailor such change to minimize a reduction or adverse change in the value of the Raw Water Credits. Subject to the process set forth in Section 10.5.A(2)(c)(ii) (Objection to a Proposed Change), if the City amends or revises the Raw Water Dedication Policy and such amendments or revisions do not qualify as a Permissible Policy Change prior to the earlier of December 31, 2099, or the date the last outstanding Raw Water Credit is redeemed, then ~~the Registered Owner (including Wingfoot in its capacity as a Registered Owner) shall have~~ Wingfoot may terminate this Agreement and Wingfoot (and Credit Escrow Transferee) may exercise the remedies ~~provided in~~ provided ~~under~~ either Section 14.2.B(3) (Remedies, Generally) or Section 10.5.A(4) (Rights of Registered Owners Derived Solely from Certificate), or both, as applicable.

(ii) Objection to a Proposed Change. If the City approves an agreement pursuant to Section 14.06.190 of the Greeley Municipal Code or adopts an amendment or revision to the Raw Water Dedication Policy in a manner that is inconsistent with or otherwise violates Section 10.5.A(2)(c) (Disadvantaging Raw Water Credits) or Section 10.5.A(2)(c)(i) (Permissible Policy Changes) prior to the earlier of December 31, 2099, or the date the last outstanding Raw Water Credit is redeemed, then the Certificate shall provide a means for all Registered Owners (including Wingfoot and Credit Escrow Transferee) to object to such amendments or revisions consistent with the following process. All Registered Owners will be deemed to have notice of any agreement approved pursuant to Section 14.06.190 or any ~~amendments or revisions~~ amendment or revision to the Raw Water Dedication Policy adopted pursuant to such policy if the City follows its normal ordinance adoption, hearing and publication requirements in accordance with C.R.S. §24-6-402(2)(c), Section 3-17 of the City’s Charter, and the Raw Water Dedication Policy. Registered Owners may object to the proposed final approval of ~~such agreements or any such agreement or the~~ any such amendment or revision proposed final adoption of ~~such amendments or revisions~~ any such amendment or revision to the Raw Water Dedication Policy by providing written notice to the Department (an “Objection”), certified by a majority of the

Registered Owners of the then-outstanding Raw Water Credits (through a duly-appointed “Committee Representative”, the “Registered Owner Committee”), no less than five (5) days prior to the date of the public hearing of the ordinance approving an agreement pursuant to Section 14.06.190 or adopting an amendment or revision to the Raw Water Dedication Policy. In accordance with Section 3-17 and the Raw Water Dedication Policy, the date of the public hearing shall be published after the first reading and shall be set for a date no less than twenty-eight (28) days after the first reading. The Objection shall include the Registered Owner Committee’s basis for the Objection and, to the extent possible, suggested modifications that would resolve the Objection. After receipt of such Objection, the Department shall remove the ordinance approving the agreement or adopting the amendment or revision to the Raw Water Dedication Policy from the City Council’s agenda. Thereafter, the Department, and the Committee Representative shall have thirty (30) days from the date of receipt of the Objection to resolve the Objection. If the Committee Representative does not withdraw the Objection, in writing, thirty (30) days from the date of receipt of the Objection, then the Department and the Committee Representative shall submit the agreement or amendments or revisions, along with each party’s respective position, to an economist or engineer, agreeable to both parties, who is a Colorado based utility rate or policy expert, to determine whether the agreement violates Section 10.5.A(2)(c) (Disadvantaging Raw Water Credits) or the ~~amendments—or—revisions~~ amendment or revision qualifies as a Permissible Policy Change. The economist or engineer’s findings shall be binding on Greeley and the Registered Owner Committee (acting by and through the Committee Representative). If the economist or engineer finds that the agreement does not violate Section 10.5.A(2)(c) (Disadvantaging Raw Water Credits) or that the ~~amendments—or—revisions—qualify~~ amendment or revision qualifies as a Permissible Policy Change, then the Registered Owners shall not be entitled to exercise the remedy defined in Section 10.5.A(4) (Rights of Registered Owners Derived Solely from Certificate) pursuant to Section 10.5.A(2)(c) (Disadvantaging Raw Water Credits) or Section 10.5.A(2)(c)(i) (Permissible Policy Changes), as the case may be. If the economist or engineer finds (x) either (i) that the agreement violates Section 10.5.A(2)(c) (Disadvantaging Raw Water Credits) or (ii) that the ~~amendments—or—revisions—do~~ amendment or revision does not qualify as a Permissible Policy Change and (y) the City does not amend or reject the agreement or the ordinance amending or revising the Raw Water Dedication Policy to resolve or otherwise satisfy the Registered Owner Committee’s Objection, then a Registered Owner may surrender all or a portion of the Raw Water Credits (but only in whole numbers of Raw Water Credits) held by such Registered Owner to the Department and exercise the remedy defined in Section 10.5.A(4) (Rights of Registered Owners Derived Solely from Certificate) pursuant to Section 10.5.A(2)(c) (Disadvantaging Raw Water Credits) or Section 10.5.A(2)(c)(i) (Permissible Policy Changes), as the case may be. If the Registered Owner Committee, acting by and through a Committee Representative, does not provide an Objection to the Department, five (5) days prior to the date of the public hearing of the ordinance approving an agreement pursuant to Section 14.06.190 or adopting an amendment or revision to the Raw Water Dedication Policy, then each Registered Owner shall be deemed to have consented to the agreement or to have accepted the ~~amendments—or—revisions~~ amendment or revision to the Raw Water Dedication Policy as a Permissible Policy Change. Nothing in this Section 10.5.A(2)(c)(ii) shall be read to limit the Registered Owner Committee or individual Registered Owners from participating in any public hearing on an ordinance approving an agreement pursuant to Section 14.06.190 or amending or revising the Raw Water Dedication Policy. In addition to the foregoing, if Wingfoot has not conveyed one

hundred percent (100%) of Wingfoot's TIC Interest when the economist or engineer finds that (x) either (i) the agreement violates Section 10.5.A(2)(c) (Disadvantaging Raw Water Credits) or (ii) that the amendment or revision does not qualify as a Permissible Policy Change, and (y) the City does not amend or reject the agreement or the ordinance amending the Raw Water Dedication Policy to resolve or otherwise satisfy the Registered Owner Committee's Objection, then Wingfoot may terminate this Agreement and Wingfoot (and Credit Escrow Transferee) may exercise the remedies under either Section 14.2.B(3) or Section 10.5.A(4) (Rights of Registered Owners Derived Solely from Certificate), or both, as applicable.

(3) Reserved.

(4) Rights of Registered Owners Derived Solely from Certificate. The form of the Certificate shall include the terms of Section 10.5.A(1) (Revocations) and Section 10.5.A(2) (Amendments). If, prior to the earlier of December 31, 2099 or the date the last outstanding Raw Water Credit is redeemed, Greeley (i) revokes or rescinds the Raw Water Dedication Policy pursuant to Section 10.5.A(1) (Revocation), (ii) adds a new source in violation of Section 10.5.A(2)(a) (Adding New Sources), (iii) limits or reduces the redemption of the Raw Water Credits or otherwise is in violation of Section 10.5.A(2)(b) (Limiting Redemption of Raw Water Credits), (iv) enters into an agreement that violates Section 10.5.A(2)(c) (Disadvantaging Raw Water Credits), or (v) approves an amendment or revision that does not qualify as a Permissible Policy Change pursuant to Section 10.5.A(2)(c)(ii), then, subject to Section 17.21 (Integrated Agreement), a Registered Owner's exclusive remedy shall be to have the option to surrender all or a portion of the Raw Water Credits (but only in whole numbers of Raw Water Credits) held by such Registered Owner to Greeley, and Greeley shall be obligated to buy back the surrendered Raw Water Credits at the greater of (a) thirty thousand dollars (\$30,000) per Raw Water Credit in 2020 escalated three percent (3%) compounded annually thereafter, or (b) the three-year trailing average of Greeley's cash-in-lieu price, as defined by the Raw Water Dedication Policy. The form of the Certificate shall include the foregoing remedies and the instrument through which a Registered Owner shall exercise such rights and remedies, except that any rights and remedies of Wingfoot or a Credit Escrow Transferee shall not be limited or waived by this Section 10.5.A(4).

B. Cash-In-Lieu. If Greeley's calculated cash-in-lieu requirement, as provided in the Raw Water Dedication Policy, falls below thirty thousand dollars (\$30,000) per acre-foot ("Base Amount") in any year prior to the earlier of (i) December 31, 2099 or (ii) the date that Wingfoot transfers and assigns its last Raw Water Credit to a third-party as evidenced by the Registry, Greeley shall compensate Wingfoot by paying the Specified Difference to Wingfoot each year Greeley's calculated cash-in-lieu requirement falls below the Base Amount. The Specified Difference shall be an amount equal to the product of the number of Raw Water Credits (including the Released Credits) sold by Wingfoot to a third-party and the difference between the Base Amount and the cash-in-lieu requirement set for that year ("Specified Difference") which shall be considered liquidated damages pursuant to Section 14.2.C (Remedies, Generally). The Specified Difference shall be calculated one (1) year after each reduction in cash-in-lieu requirement becomes effective and shall be due and payable to Wingfoot thirty (30) days thereafter and shall only be payable to Wingfoot.

ARTICLE 11
PUT AND CALL OPTIONS

11.1 Options.

A. Call Option. Each calendar year, beginning in ~~2022~~2021 and expiring after ~~calendar year 2047~~July 15, 2045 (“Option Period”), Greeley may purchase (in its sole discretion), and Wingfoot shall sell, up to one hundred sixty-seven (167) ~~Raw Water~~Escrowed Credits (defined below) at the Option Price on an annual basis (“Call Option”), if Greeley timely delivers to Wingfoot and Credit Escrow Agent (defined below) the Call Notice (defined below). To exercise its Call Option, Greeley must provide written notice to Wingfoot and Credit Escrow Agent on or before ~~July 1st~~June 8th of such calendar year (“Call Notice”).

B. Put Option. Each calendar year, during the Option Period, Wingfoot may sell (in its sole discretion), and Greeley shall purchase, up to one hundred sixty-seven (167) ~~Raw Water~~Escrowed Credits at the Option Price on an annual basis (“Put Option”), if Wingfoot timely delivers to Greeley and Credit Escrow Agent the Put Notice (defined below). To exercise its Put Option, Wingfoot must provide written notice to Greeley and Credit Escrow Agent on or before July 15th of such calendar year (“Put Notice”). Wingfoot may also provide notice to Greeley and the Credit Escrow Agent at any date during the Option Period on or after June 8 of a commitment to not exercise the Put Option in any given year (a “Release Notice”) subject to any terms or conditions agreed by Wingfoot (or Credit Escrow Transferee) in any applicable indenture, assignment or pledge.

11.2 Escrowed Credits. For the purpose of reserving sufficient Raw Water Credits to support the Put Option and the Call Option, at Closing, the Parties shall execute an escrow agreement, substantially in the form attached hereto as Exhibit R (the “Credit Escrow”), with an escrow agent (the “Credit Escrow Agent”) to manage the deposit and release of twenty-five (25) Certificates, each evidencing one hundred sixty-seven (167) Raw Water Credits (“Escrowed Credits”) during the Option Period. Further, the Credit Escrow Agent will manage the deposit and release of an additional twenty-five (25) Certificates, each evidencing one hundred sixty-seven (167) Raw Water Credits deposited pursuant to Section 6.2, which shall not be considered Escrowed Credits for purposes of this Article 11. Notwithstanding the preceding sentence, the Parties acknowledge and agree that the Credit Escrow attached hereto may be subject to revision as may be necessary or convenient to obtain approval from the Credit Escrow Agent. Escrowed Credits held in escrow for the benefit of Wingfoot, or any duly-approved assignee hereunder (including Credit Escrow Transferee), shall be considered issued for all purposes.

11.3 Released Credits. To the extent that the Put Option and/or Call Option are not exercised in full in any calendar year with respect to all of the one hundred sixty seven (167) annual Escrowed Credits (such non-exercised credits being referred to as the “Released Credits”), then all Released Credits shall no longer be subject to the Put Option or the Call Option in future years. If neither the Put Option nor Call Option are exercised in any given calendar year, then on the earlier to occur of (i) the Credit Escrow Agent’s receipt of a Release Notice; or (ii) July 16 of such year, the Credit Escrow Agent shall promptly deliver a Certificate representing all such Released Credits to Wingfoot, and, prior to the date which is ten (10) years after the Closing Date, the same amount shall be added to the Semester Total under Section 10.2

(Transfer of Tenancy in Common Interest). If the Put Option and/or Call Option are exercised in part or in full in any calendar year, then Section 11.5 (Release; Payment; Cancellation of Raw Water Credits) shall also apply. Notwithstanding anything to the contrary, Wingfoot shall retain one hundred percent (100%) of the proceeds received by it from the sale of any Released Credits.

11.4 Contents of Notices; Acknowledgement. Each Call Notice and Put Notice shall contain (a) the number of Raw Water Credits to which the Call Option or Put Option is being exercised (“Exercised Credits”), (b) the Option Price, and (c) the product of the Option Price and Exercised Credits (the “Exercise Price”), with respect to such Call Option or Put Option being exercised.

11.5 Release; Payment; Cancellation of Raw Water Credits. On July 16 of each year, in the event that the Put Option and/or Call Option is properly exercised by providing a timely Put Notice or Call Notice, respectively (each, an “Exercise Event”), then (i) the Credit Escrow Agent shall release one (1) Certificate evidencing one hundred sixty-seven (167) Raw Water Credits to Greeley (the “Surrendered Certificate”) and (ii) the same amount shall be added to the Semester Total under Section 10.2. (Transfer of Tenancy in Common Interest). If an Exercise Event occurs in any calendar year as described in the preceding sentence, Wingfoot shall provide Greeley with wire transfer instructions (which may be included in the Put Notice, if applicable) on or before August 1st. On or before the fifth (5th) business day after receipt of both the wire transfer instructions and the Surrendered Certificate, Greeley shall (x) pay Wingfoot the Exercise Price under the Put Notice and/or Call Notice, as applicable, and (y) Greeley shall issue Wingfoot a Certificate for the total Released Credits, if any, not exercised as part of any Exercise Event. Notwithstanding anything to the contrary, in addition to proceeds received from sales of any Released Credits, Wingfoot may retain one hundred percent (100%) of the Exercise Price and none of the Exercise Price shall be required to be put into any escrow or otherwise withheld.

11.6 Annual Limit. The annual aggregate maximum amount of Raw Water Credits that can be sold and purchased under the Put Option and Call Option shall be one hundred sixty-seven (167). Greeley shall not be obligated to purchase, and Wingfoot shall not be obligated to sell, more than an aggregate of one hundred sixty-seven (167) Raw Water Credits in any one year under the combined Call Option and Put Option for such calendar year.

11.7 Assignment; Transfer. Wingfoot, or any of its duly-authorized successors or assigns, may assign all of its rights (or remaining rights) under this Article 11 to a third-party, ~~or assign all of its rights under this Agreement pursuant to Section 17.11 (Assignment) (in either case, such third party, a “Transferee”)~~ and the following: (i) that and the Credit Escrow (such third party, a “Credit Escrow Transferee”), provided that the form of assignment (and any subsequent reassignment) shall be approved by Greeley in its reasonable discretion. On or shortly after Closing, Wingfoot intends to assign all of its rights under this Article 11 to a third-party directly or indirectly owned or controlled by HA I, LLC, which entity, as Credit Escrow Transferee, intends to assign its rights, remedies and obligations under this Article 11, including an assignment of revenues derived from the rights and/or obligations, to an indenture trustee in connection with financing secured by Wingfoot. In anticipation of that assignment, the Parties have agreed that Greeley shall issue a series of twenty-five (25) Certificates in the name of Wingfoot and a second series of twenty-five (25) Certificates, which have been duly assigned by Wingfoot, in the name of the Credit Escrow Transferee and to deliver both series of Certificates

to the Credit Escrow Agent at Closing. Upon assignment of Wingfoot's rights under this Article 11 and the Credit Escrow to a Credit Escrow Transferee, the following shall occur: (i) the Credit Escrow Agent shall be directed to release to Greeley (for cancellation by Greeley) the twenty-five (25) Certificates held in the name of Wingfoot, each evidencing 167 Escrowed Credits, along with the duly executed assignment by Wingfoot to the Credit Escrow Transferee; (ii) the Credit Escrow Agent shall be directed to continue to maintain custody of the remaining twenty-five (25) Certificates evidencing the issued but unreleased Escrowed Credits in the name of and for the benefit of the Credit Escrow Transferee; (iii) the total number of ~~unreleased Escrowed~~ Raw Water Credits (totaling 4,175 credits) that are in the name of Wingfoot and released to Greeley pursuant to 11.7(i) shall be added to the applicable Semester Total under Section 10.2 (Transfer of the Tenancy in Common Interest); ~~(iiiv) that~~ the Credit Escrow Agent shall be directed to ~~release the Escrowed Credits pursuant to Section 11.5 (Release; Payment; Cancellation of Raw Water Credits) to Greeley, instead of Wingfoot or the Transferee, with instruction to the Registrar to authenticate and deliver a Certificate or Certificates representing~~ accept notices and instructions from the Credit Escrow Transferee (including the Put Notice, Release Notice, and rights to the Released Credits ~~in the name of the Transferee, (iii) that the form of assignment (and any subsequent reassignment) be approved by Greeley in its reasonable discretion and include the Transferee's express assumption of all obligations of Wingfoot pursuant to such Credits or~~) as though it were a party (as if it was Wingfoot) to this Agreement and ~~(iv) that~~ the Credit Escrow; and (v) Wingfoot ~~covenants~~ shall covenant and agrees agree, for itself, its successors and assigns, to indemnify, protect, defend and hold harmless Greeley, its successors and assigns, from and against any and all damages, losses, liabilities, obligations, penalties, claims, litigation, demands, defenses, judgments, suits, actions, proceedings, costs, disbursements and/or expenses (including without limitation reasonable attorneys' fees) which are imposed upon or incurred by Greeley, its successors or assigns, for claims by ~~the~~ any Credit Escrow Transferee against Greeley for breaches by Wingfoot of the assignment (described in this Section 11.7) to ~~the~~ any Credit Escrow Transferee. In addition, the Credit Escrow Transferee shall have the rights applicable to a Registered Owner under the Escrowed Credits, and shall be treated as the Registered Owner of the Escrowed Credits for such purpose (including, without limitation, for purposes of enforcing its remedies under the terms of the Certificates). Following transfer or

assignment of Wingfoot's obligations, rights, and remedies pursuant to this Section 11.7, all references to Wingfoot in Article 11 shall mean and refer to Credit Escrow Transferee and its duly authorized successors and assigns.

11.8 Termination of Article 11. Except as otherwise provided, this Article 11 shall terminate at expiration of the Option Period. Upon expiration of the Option Period, all rights, remedies, and obligations under this Article 11 shall terminate, except for such rights, remedies and obligations that are left unperformed as of the date of the end of the Option Period. Subject to the preceding sentence, on termination of Article 11, Credit Escrow Transferee shall have remedies only under the terms of the Certificates it holds as a Registered Owner and not under this Agreement.

11.9 Treatment of Semester Total Following Assignment. Notwithstanding anything to the contrary in this Article 11 (including but not limited to Sections 11.3 and 11.5), exercise or release of any Escrowed Credits under this Article 11 shall not impact the Semester Total subsequent to Wingfoot's transfer or assignment of this Article 11 to a Credit Escrow Transferee pursuant to Section 11.7, the intent being that Wingfoot has transferred the amount of Wingfoot's TIC Interest that corresponds to the Escrowed Credits upon assignment of this Article 11.

ARTICLE 12
REVENUE SHARING

12.1 Revenue Sharing.

A. Use; Outside Customers Non-Municipal. From the Closing Date until the earlier of December 31, 2055, or twenty-five (25) years after Greeley has certified completion of the Project Infrastructure, Wingfoot shall be entitled to receive an amount equal to fifty percent (50%) of the Net Revenue generated by Greeley from the sale or lease of the untreated, raw water attributable to the Water Rights or the State Land Board Lease to non-municipal, non-domestic customers, including but not limited to oil and gas operators and agricultural water users. For this purpose, “Net Revenue” means an amount equal to the net proceeds of such sales or leases after deduction of power costs for any pumping required to deliver such water. Wingfoot shall also receive an amount equal to fifty percent (50%) of any revenue derived from the operation of power generation facilities constructed as part of the Project Infrastructure for a period of twenty-five (25) years after completion of the Project Infrastructure (“Power Revenue Interest”). In the event power generating facilities are completed as part of the Project Infrastructure prior to December 31, 2055, then on or before December 31, 2055, Greeley and Wingfoot shall appoint an independent third-party expert, agreeable to both Greeley and Wingfoot, who is an expert in power generation and valuation, to perform a valuation of the obligation of Greeley to pay the remaining 25-year Power Revenue Interest to Wingfoot beyond December 31, 2055 in addition to any then unpaid Power Revenue Interests (the “Power Valuation”) and deliver a written report of the Power Valuation to Greeley and Wingfoot. Within thirty (30) days of receipt of such report, Greeley shall purchase the remaining, unpaid Power Revenue Interest for the amount of the Power Valuation (the “Power Transaction”). Greeley shall determine in its sole discretion whether to sell or lease the untreated, raw water attributable to the Water Rights and the State Land Board Lease, and at what rate, and whether to install power generating capabilities. This provision shall only apply to the untreated, raw water attributable to the Water Rights and the State Land Board Lease, but shall not apply to the revenue generated from the sale or lease of wholly consumable effluent associated with Greeley’s use of the water attributable to the Water Rights and/or the State Land Board Lease.

B. Outside Customers. From the Closing Date until the earlier of December 31, 2050, or twenty-five (25) years after Greeley has certified completion of the Project Infrastructure, Wingfoot shall be entitled to receive an amount equal to fifty cents (\$0.50) per one-thousand (1,000) gallons of treated water attributable to the Water Rights and/or the State Land Board Lease and delivered by Greeley to municipal and domestic water users located outside of the Service Area. Greeley shall maintain and make available to Wingfoot on request, flow records and water rights accounting for any deliveries outside the Service Area.

ARTICLE 13
CONDITIONS OF CLOSING

13.1 Wingfoot’s Conditions. Wingfoot’s obligation to sell, convey and assign, as applicable, the Assets at Closing under this Agreement is subject to the satisfaction of the following conditions precedent or conditions concurrent (the satisfaction of which may be

and correct in all material respects as of the Closing Date and shall not be deemed waived in the event Greeley shall elect to close pursuant to Section 13.3.A(3) (Failure of Condition) below.

13.3 Failure of Condition.

A. Except (i) as set forth in subparagraph B below and (ii) for failure of the condition set forth in Section 13.2.E (Greeley's Conditions) which shall be subject to Section 6.1.A (Governing Body Approval), in the event of a failure of any condition contained in Section 13.2 (Greeley's Conditions), Greeley may in its sole discretion:

(1) Terminate this Agreement by written notice to Wingfoot, in which event: (a) all funds deposited by Greeley under this Agreement as of such date shall be immediately returned to Greeley and (b) Greeley shall be entitled to reimbursements from Wingfoot and Wingfoot shall be obligated to pay Greeley for all reasonable, out-of-pocket costs incurred by Greeley subsequent to the Effective Date and prior to the termination arising from or in connection with this Agreement, which shall include but is not limited to the Inspection Costs; or

(2) Greeley may waive such default or condition and effectuate the Closing; or

(3) If the failure of condition consists of a default by Wingfoot that can be cured by action within the reasonable control of Wingfoot, Greeley may elect to treat this Agreement as being in full force and effect and Greeley shall have the right to specific performance, monetary damages arising out of such default, or both, EXCEPT THAT GREELEY SPECIFICALLY WAIVES ANY SPECIAL, CONSEQUENTIAL, PUNITIVE, SPECULATIVE OR INDIRECT DAMAGES.

B. In the event of a failure of any condition contained in Section 13.1 (Wingfoot's Conditions) above, Wingfoot may in its sole discretion:

(1) Terminate this Agreement by written notice to Greeley, in which event Wingfoot shall retain the Deposit, as liquidated damages pursuant to Section 13.4 (Pre-Closing Liquidated Damages), in addition to reimbursements from Greeley of all of Wingfoot's reasonable, out-of-pocket costs incurred by Wingfoot subsequent to the Effective Date and prior to the termination arising from or in connection with this Agreement; or

(2) Wingfoot may waive such default or condition and effectuate the Closing and Wingfoot shall have the right to recover monetary damages arising out of such default, EXCEPT THAT WINGFOOT SPECIFICALLY WAIVES ANY SPECIAL, CONSEQUENTIAL, PUNITIVE, SPECULATIVE OR INDIRECT DAMAGES.

WINGFOOT HEREBY WAIVES ANY RIGHTS IT MAY HAVE TO SPECIFIC PERFORMANCE IN THE EVENT OF A DEFAULT BY GREELEY.

13.4 Pre-Closing Liquidated Damages. If Greeley defaults in any of its obligations under this Agreement prior to Closing and Wingfoot does not waive the default, Wingfoot's sole remedy shall be to terminate this Agreement and retain the amount of the Deposit as liquidated

damages in addition to reimbursements from Greeley of all of Wingfoot's reasonable, out-of-pocket costs incurred by Wingfoot subsequent to the Effective Date and prior to the termination arising from or in connection with this Agreement. WINGFOOT AND GREELEY ACKNOWLEDGE THAT WINGFOOT'S DAMAGES WOULD BE DIFFICULT TO DETERMINE AND THAT THE DEPOSIT AND REIMBURSEMENTS IS A REASONABLE ESTIMATE OF WINGFOOT'S DAMAGES.

ARTICLE 14
POST-CLOSING DEFAULTS AND REMEDIES

14.1 Events of Default. After Closing, each of the following shall constitute an "Event of Default":

A. Failure by either Party to make any payment or deposit when due.

B. Default by either Party in the due and punctual performance of any of its covenants, conditions, agreements or other provisions contained in this Agreement on its part to be performed, if such default continues for thirty (30) days after written notice specifying such default and requiring the same to be remedied is given by the non-defaulting Party; provided that if such default cannot be cured within such thirty (30) days, and during such thirty (30) day period the defaulting Party has taken commercially reasonable efforts to remedy such default and subsequently is diligently pursued to the completion of such performance, an Event of Default shall not be deemed to have occurred until ninety (90) days after written notice has been delivered.

C. Subject to the survival provisions of Section 17.9 (Survival), any of the representations or warranties made by a Party shall prove to have been materially incorrect under the circumstances when made.

D. The occurrence and continuation of a Credit Event with respect to either Party.

14.2 Remedies, Generally. Upon the occurrence and continuation of an Event of Default, the following remedies shall be available to the Parties:

A. Except as provided in Section 14.3.A (Special Provisions for Liquidated Damages) below, if an Event of Default by Wingfoot, Greeley may in its sole discretion:

(1) Waive such default or condition; or

(2) If the Event of Default by Wingfoot can be cured by action within the reasonable control of Wingfoot, then Greeley may elect to treat this Agreement as being in full force and effect and Greeley may suspend its obligation to issue, reissue, acquire or buy Raw Water Credits, except as may be required by Article 11 (Put and Call Options) (which obligations may not be suspended by Greeley, subject to Section 11.8), until the default is cured, and shall have the right to specific performance, damages, or both, EXCEPT THAT

GREELEY SPECIFICALLY WAIVES ANY SPECIAL, CONSEQUENTIAL, PUNITIVE, SPECULATIVE OR INDIRECT DAMAGES; or

(3) If the Event of Default by Wingfoot consists of a failure under Section 9.1.A (Deposit Due) to deposit the Initial Contribution within ninety (90) days of the Closing Date, then this Agreement shall automatically terminate, in which event: (a) the Purchase Price shall be returned to Greeley; (b) the Initial Tenancy in Common Interest shall be conveyed back to Wingfoot, along with a re-assignment of the Ancillary Assets and the State Land Board Lease; and (c) all documents deposited by Greeley or delivered to Wingfoot by Greeley shall be immediately returned to Greeley, if any, and all documents deposited by Wingfoot or delivered to Greeley by Wingfoot shall be immediately returned to Wingfoot, if any. In addition, Greeley shall be entitled to reimbursements from Wingfoot and Wingfoot shall be obligated to pay Greeley for all reasonable, third party out-of-pocket costs incurred by Greeley subsequent to the Effective Date but prior to the termination, which shall include but not be limited to the Inspection Costs. Upon termination, all other rights and obligations of the Parties shall be terminated under this Agreement, except for the covenants, agreements and monetary obligations contained in Section 17.9 (Survival) which shall survive the Termination of this Agreement, for the time period(s) specified therein, and the rights and obligations of the Registered Owners of any Certificates remaining outstanding.

(4) If the Event of Default consists of a default by Wingfoot under Section 9.2.B (Failure to Fund the Cash Contribution) or Section 14.1.D (Credit Event) then Greeley may elect to terminate this Agreement by delivering written notice to Wingfoot, in which event, as Liquidated Damages pursuant to Section 14.3.A (Special Provision for Liquidated Damages), Greeley may elect to require that Wingfoot convey the entirety of Wingfoot's TIC Interest to Greeley, and, in the event of a default by Wingfoot under Section 9.2.B (Failure to Fund the Cash Contribution), Wingfoot shall continue to be subject to its Deposit Obligation under Section 9.1.B (Source of Funds) until Wingfoot's Cash Contribution obligation is fully satisfied (as provided in Section 9.2.B (Failure to Fund the Cash Contribution)). Upon termination, all other rights and obligations of the Parties shall be terminated under this Agreement except for the covenants, agreements and monetary obligations contained in Section 17.9 (Survival) which shall survive the Termination of this Agreement, for the time period(s) specified therein, and the obligations, liabilities, covenants, agreements and monetary obligations contained in following Article(s), Section(s) or term(s) which shall survive the Termination of this Agreement: (i) Article 11 (Put and Call Options) ~~and~~ subject to Section 11.8; (ii) Wingfoot's Deposit Obligation under Section 9.1.B (Source of Funds), which shall survive until the Cash Contribution is satisfied as provided in Section 9.1.B (Source of Funds); ~~and~~ (iii) Section 17.18 (Limited Source of Payments by Greeley), which shall survive as long as Greeley has obligations to Wingfoot or any assignee or Credit Escrow Transferee hereunder; and (iv) Section 10.5 (Material Change to Market Value), which shall survive (a) as long as Wingfoot remains a Registered Owner and (b) until Article 11 terminates pursuant to Section 11.8.

~~(5) If the Event of Default consists of a default by Greeley under Section 10.3 (Administration; Tracking), then Wingfoot may elect to treat this Agreement as being in full force and effect and, upon delivering written notice to Greeley, Wingfoot may require that Greeley retain a financial institution, reasonably acceptable to Greeley and experienced in~~

~~maintaining similar registries, to act as the registrar and administer the Registry until December 31, 2099 or such earlier date as the last outstanding Raw Water Credit has been redeemed.~~

B. If the Event of Default consists of a default by Greeley under Section 14.1.B or C (Events of Default) above, Wingfoot may in its sole discretion:

(1) Waive such default or condition; or

(2) If the default by Greeley can be cured by action within the reasonable control of Greeley, then Wingfoot may elect to treat this Agreement as being in full force and effect and Wingfoot shall have the right to specific performance, damages, or both, EXCEPT THAT WINGFOOT SPECIFICALLY WAIVES ANY SPECIAL, CONSEQUENTIAL, PUNITIVE, SPECULATIVE OR INDIRECT DAMAGES.

(3) If the default consists of a default by Greeley under Section 10.5.A.(1) (Revocation) or (2) (Amendments), 17.11 (Assignment), 14.1.A. or 14.1.D (Events of Default), then, as Liquidated Damages pursuant to Section 14.3.B (Special Provision for Liquidated Damages), Wingfoot may elect to terminate this ~~Agreement~~ by Agreement by delivering written notice to Greeley, in which event, (i) Wingfoot (or the Credit Escrow Transferee, as the case may be) shall have the option to sell to Greeley, and Greeley shall be obligated to purchase, all unissued Raw Water Credits ~~including~~ and all current Escrowed Credits (i.e., all Raw Water Credits remaining to be issued to Wingfoot or ~~deposited~~ remaining with the Credit Escrow Agent pursuant to the Credit Escrow as of the date of such termination and whether or not considered issued under this Agreement) at the greater of (a) a price of thirty thousand dollars (\$30,000) per Raw Water Credit in 2020 escalated three percent (3%) compounded annually thereafter, or (b) the ~~three-year~~ 3-year trailing average of Greeley's cash-in-lieu price; and (ii) Wingfoot shall be entitled to all funds remaining in the Construction Escrow as of the date of default by Greeley. If Wingfoot exercises such election, then upon receipt of the full cash payment, Wingfoot shall concurrently convey its entire TIC Interest to Greeley in accordance with Section 10.2 (Transfer of the Tenancy in Common Interest) as if the unissued Raw Water Credits had been issued to Wingfoot and the Escrowed Credits released. Upon termination, all other rights and obligations of the Parties shall be terminated under this Agreement except for the covenants, agreements and monetary obligations contained in Section 17.9 (Survival) which shall survive the Termination of this Agreement for the time period(s) specified therein. For the avoidance of doubt, Credit Escrow Transferee may elect to terminate that portion of this Agreement duly assigned to it pursuant to Section 11.7, and be entitled to sell to Greeley (and obligate Greeley to purchase) such assigned, unreleased Escrowed Credits pursuant to this Section 14.2.B(3). For purposes of exercising its rights under this Section, a Credit Escrow Transferee shall only have the right to terminate Article 11 of this Agreement (and only to the extent of its assignment and assumption of such Article pursuant to the terms of this Agreement), by delivering written notice to Greeley pursuant to this Section 14.2.B.(3), and provided that such termination by a Credit Escrow Transferee shall (i) be without regard to Wingfoot's election to terminate, and (ii) not affect the rights, obligations or remedies retained by Wingfoot pursuant to this Agreement.

(4) If the Event of Default consists of a default by Greeley under Section 10.3 (Administration; Tracking), then Wingfoot may elect to treat this Agreement as

being in full force and effect and, upon delivering written notice to Greeley, Wingfoot may require that Greeley retain a financial institution, reasonably acceptable to Greeley and experienced in maintaining similar registries, to act as the registrar and administer the Registry until December 31, 2099 or such earlier date as the last outstanding Raw Water Credit has been redeemed.

C. If the Event of Default consists of a default by Greeley under Section 10.5.B (Cash-in-Lieu), then, as Liquidated Damages pursuant to Section 14.3.C (Special Provisions for Liquidated Damages), Wingfoot may elect to treat this Agreement as being in full force and effect and, upon delivering written notice to Greeley, Greeley shall be obligated to pay the Specified Difference.

D. If a cure period for an Event of Default is not otherwise expressly provided in this Agreement then, except for the giving of notices, neither party shall be deemed in default hereunder with respect to such Event of Default unless such Party fails to cure such default within thirty (30) days after written notice stating such default and requiring the same to be remedied is given by the non-defaulting Party; provided that if such default cannot be cured within such thirty (30) days, and during such thirty (30) day period the defaulting Party has taken commercially reasonable efforts to remedy such default and subsequently is diligently pursued to the completion of such performance (a full cure), an Event of Default shall not be deemed to have occurred until ninety (90) days after written notice has been delivered. If a cure period for an Event of Default is expressly provided in this Agreement, then such express cure period will control and be given effect.

14.3 Special Provisions for Liquidated Damages. The following provisions shall apply to Events of Default by either Party which result in the following liquidated damages (each referred to as “Liquidated Damages”):

A. If Wingfoot defaults in any of its obligations under Section 9.1.A (Deposits Due) and Greeley elects to terminate this Agreement, then Greeley’s sole remedy shall be the terms of Section 14.2.A.(3) (Remedies, Generally). WINGFOOT AND GREELEY ACKNOWLEDGE THAT GREELEY’S DAMAGES WOULD BE DIFFICULT TO DETERMINE AND THAT THE TERMS OF SECTION 14.2.A.(3) (Remedies, Generally) ARE A REASONABLE ESTIMATE OF GREELEY’S DAMAGES.

B. If Greeley defaults in any of its obligations under Section 10.5.A(1) (Revocation) and (2) (Amendments) of this Agreement and Wingfoot elects to terminate this Agreement, then Wingfoot’s sole remedy shall be the terms of Section 14.2.B(3) (Remedies, Generally). WINGFOOT AND GREELEY ACKNOWLEDGE THAT WINGFOOT’S DAMAGES WOULD BE DIFFICULT TO DETERMINE AND THE TERMS OF SECTION 14.2.B(3) (REMEDIES, GENERALLY) ARE A REASONABLE ESTIMATE OF WINGFOOT’S DAMAGES.

C. If Greeley defaults in any of its obligations under Section 10.5.B (Cash-in-Lieu) of this Agreement, Wingfoot’s sole remedy shall be to the Specified Difference as provided in Section 10.5.B. WINGFOOT AND GREELEY ACKNOWLEDGE THAT

ARTICLE 17
MISCELLANEOUS

17.1 Termination. Except as otherwise provided, this Agreement shall terminate at the later of the end of the Option Period or the expiration of the revenue sharing obligation of Greeley under Section 12.1 (Revenue Sharing). Upon termination of this Agreement, all other rights and obligations of the Parties shall be terminated under this Agreement except for the representations, obligations, liabilities, warranties, covenants, agreements and monetary obligations contained in following Article(s), Section(s) or term(s) which shall survive the Termination of this Agreement in addition to those identified in Section 17.9 (Survival): (i) Section 10.5.A(2) (Amendments); (ii) Article 11 (Put and Call Options) subject to Section 11.8; and (iii) Section 10.5.B (Cash-In-Lieu), which shall terminate on the dates specified therein.

17.2 No Third Party Beneficiary; No Waiver of Governmental Immunity. This Agreement shall not create any duty of care or liability with respect to any person or entity not a Party to this Agreement, including without limitation any Registered Owner (except for Wingfoot), or waive any of the privileges or immunities Greeley or their officers, employees,

successors and assigns may present pursuant to law, including, but not limited to, the Colorado Governmental Immunity Act, C.R.S. 24-10-101, et seq., as amended.

17.3 Limits on Governmental Immunity. Greeley represents that, pursuant to C.R.S. §24-10-106, its governmental immunity is limited to claims for injury that lie in tort or could lie in tort. Under existing law, Greeley is not entitled to raise the defense of sovereign immunity in connection with any legal proceeding to enforce or collect upon contractual obligations, including this Agreement, or any amendments or exhibits to this Agreement, including the payment of any amounts due thereunder, provided however that no term or condition of this Agreement shall be construed or interpreted as a waiver, express or implied, of any of the privileges or immunities of Greeley or its officers, employees, successors or assigns may present pursuant to law, including but not limited to the Colorado Governmental Immunity Act, C.R.S. §24-10-101 *et seq.*, as amended.

17.4 Mediation. If any dispute arises under this Agreement (including as to whether any Party has breached this Agreement or whether an Event of Default has occurred), then either Party may require that the other engage in nonbinding dispute resolution processes upon delivery of a written notice (a “Dispute Notice”) setting forth the disputed matter. Upon receipt by the other party of such Dispute Notice, the Parties shall use their commercially reasonable efforts to negotiate a resolution of the dispute for a period of thirty (30) days (the “Dispute Resolution Period”) which may include mediation using a mediator chosen by the Parties. During the Dispute Resolution Period, no Party may bring a claim or commence legal action related to or in connection with the matter set forth in the Dispute Notice until the Dispute Resolution Period ends. This Section 17.4 shall not alter any date in this Agreement, unless otherwise agreed.

17.5 Time. Except as otherwise provided in this Agreement, time is of the essence as to each provision of this Agreement and the performance of each Party’s obligations hereunder.

17.6 Attorneys’ Fees. If any legal action or other proceeding is commenced to enforce or interpret any provision of this Agreement, the Prevailing Party (defined below) shall be awarded its attorneys’ fees and expenses, in addition to any other relief granted. The phrase “Prevailing Party” shall include a Party who receives substantially the relief desired whether by dismissal, summary judgment, judgment or otherwise. This provision shall survive the termination of this Agreement.

17.7 No Waiver. No waiver by any party of the performance or satisfaction of any covenant or condition shall be valid unless in writing and shall not be considered to be a waiver by such party of any other covenant or condition hereunder. Any failure of a Party to enforce any of the provisions of this Agreement or to require compliance with any of its terms at any time during the pendency of this Agreement shall in no way affect the validity of this Agreement, or any part hereof, and shall not be deemed a waiver of the right of such Party thereafter to enforce any and each such provision.

17.8 Entire Agreement. This Agreement and its Exhibits contain the entire agreement among the ~~parties~~Parties regarding the subject matter hereof and supersedes all prior agreements,

whether written or oral, among the ~~parties~~Parties regarding the same. This Agreement may only be modified by mutual written agreement duly authorized and executed by the ~~parties~~Parties.

17.9 Survival. The following representations and warranties shall survive until Closing (and they shall terminate and be of no further force and effect after Closing), unless otherwise specified below, but if the Closing does not occur, the following representations and warranties shall terminate upon termination of this Agreement:

A. All warranties of title set forth in this Agreement shall merge with any deed or assignment delivered at Closing.

B. All representations and warranties contained in the General Representations and Warranties of both ~~parties~~Parties shall survive for six months from the Closing Date, if the Closing Occurs.

C. All representations and warranties contained in the Environmental Representations and Warranties.

D. All other representations and warranties hereunder.

All covenants and agreements (including monetary obligations) shall continue until the earlier of: (i) performance of such covenants or agreements or (ii) this Agreement terminates (except for the covenants and agreements contained in Article 11 (Put and Call Options), subject to Section 11.8, Section 14.2.A(4) (Remedies, Generally), 14.2.B(3) (Remedies, Generally) and Section 17.18 (Limited Source of Payments by Greeley) which shall survive termination).

17.10 Successors. Subject to Section 17.11 (Assignment), Section 8.2 (Conveyance of Tenancy in Common Interest) and Section 11.7 (Assignment; Transfer of Put and Call) this Agreement shall be binding upon, shall inure to the benefit of, and shall be enforceable by, the Parties, their successors and permitted assigns and the ~~parties~~Parties hereto and their respective successors and permitted assigns.

17.11 Assignment. No assignment shall relieve either of the Parties from its respective obligations hereunder if such obligations are not properly discharged by the assignee of such Party. The sale, pledge, or other disposition of greater than a fifty percent (50%) ownership interest in Wingfoot (a "Change of Control") to a third party not directly or indirectly owned or controlled by HA ~~III~~, LLC shall require the written consent of Greeley, which consent shall not be unreasonably conditioned, withheld or delayed. Except as otherwise provided in this Agreement, neither this Agreement, nor any right hereunder, may be assigned by either Party without the prior written consent of the other Party, and any attempt to do so will be void. Notwithstanding anything to the contrary in this Agreement, in the event that Greeley unreasonably conditions, withholds or delays approval of any request for a Change of Control, Wingfoot may elect to terminate this Agreement and shall have the remedies provided in Section 14.2.B(3) (Remedies, Generally).

17.12 Relationship of the Parties. The ~~parties~~Parties acknowledge that neither Party is an agent for the other Party, and that neither Party shall or can bind or enter into agreements for the other Party.

17.13 Governing Law and Construction. This Agreement, including any instrument or agreement required hereunder, and all matters arising out of or in connection with this Agreement (whether in contract, tort or otherwise) shall be construed in accordance with and governed by the laws of the State of Colorado without giving effect to any conflict of law principles that would require the application of the laws of another jurisdiction. The ~~parties~~Parties hereby agree that the normal rule of construction to the effect that any ambiguities are to be resolved against the drafting party shall not be employed in the interpretation of this Agreement or any amendments or exhibits hereto.

17.14 Joint Effort. Preparation of this Agreement has been a joint effort of the Parties and the resulting document shall not be construed more severely against one Party than against any other Party.

17.15 Review by Counsel. The ~~parties~~Parties acknowledge that each Party and its legal counsel have reviewed and approved this Agreement.

17.16 Calendar Days. In the event any time period set forth in this Agreement commences, expires or is determined from a date which falls on a Saturday, Sunday or legal holiday of the State of Colorado, the date of such commencement, performance, expiration or determination shall automatically be extended to the next business day which is not a Saturday, Sunday or legal holiday of the State of Colorado.

17.17 Counterparts; Electronic Signatures. The Agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same document. The Agreement, including all component parts set forth above, may be executed and delivered by electronic signature by any of the parties and all parties consent to the use of electronic signatures.

17.18 Limited Source of Payments by Greeley.

A. This Agreement does not constitute the debt, indebtedness or multiple fiscal year financial obligation of the City within the meaning of the constitution or laws of the State of Colorado or the home rule Charter of the City.

B. Any obligation of Greeley for the payment of money hereunder (each a “Payment Obligation”) shall be solely the special and limited obligations of the Enterprise. Any Payment Obligation shall be payable solely from the net revenues of the Water System remaining in each year after payment of or provision for (1) all standard operation and maintenance expenses of the Water System and the principal of, interest on and reserve requirements of its first-lien “Parity Obligations” (as that term is defined in the Water Revenue Bond Ordinance) issued and outstanding from time to time permitted by Ordinance No. 41, 2018 (the “Water Revenue Bond Ordinance”), (2) a reserve for operation and maintenance expenses equal to twenty five percent (25%) of the previous year’s operation and maintenance expenses, and (3) reserves for depreciation and other amounts with respect to the Water System specifically

required by the City Charter as in effect on the Closing Date (such net revenues being referred to herein as the “Surplus Revenues”). Each Payment Obligation shall constitute a “Subordinate Obligation” (as that term is defined in the Water Revenue Bond Ordinance) of the City, acting by and through the Enterprise, provided that notwithstanding the provisions of Sections 22 and 25(c) of the Water Revenue Bond Ordinance, Greeley shall not be required in any year to apply more than seventy percent (70%) of its Surplus Revenues to the payment of all Payment Obligations.

C. In the event that Greeley fails to pay any Payment Obligations in full in the year incurred, then, and without limiting Wingfoot’s other remedies under this Agreement or applicable law, the unpaid portion of the Payment Obligation shall continue to be due and shall be payable as provided in this Section 17.18. Greeley shall issue to Wingfoot a subordinate promissory note (each a “Subordinate Revenue Note”), in a principal amount equal to each such unpaid portion. The parties agree and acknowledge that any such Subordinate Revenue Note constitutes a “Security” as defined at C.R.S. §11-57-203(5), and is subject to the provisions of the Supplemental Public Securities Act, C.R.S. §11-57-201 et seq. Any such Subordinate Revenue Note shall mature not more than fifteen (15) years from issuance and shall be payable solely from Surplus Revenues semiannually on the first day of February and the first day of August in each year in substantially level installments of principal and interest, with simple interest accruing on the unpaid principal amount at the rate of ten percent (10%) per annum, and shall be subject to prepayment by Greeley in whole or in part, without prepayment penalty, upon not less than thirty (30) days’ notice. Greeley shall set water rates during the term of any Subordinate Revenue Note at a level to assure repayment of the Subordinate Revenue Note within the fifteen year maturity period of the Subordinate Revenue Note.

D. Pursuant to C.R.S. §11-57-208, the Surplus Revenues are hereby pledged as security for the Payment Obligations, if any, ~~and this~~. This pledge shall be specifically confirmed by the City Council of the City in connection with each issuance of a Subordinate Revenue Note. The creation, perfection and priority of such pledge shall be governed by such Section, this Agreement (which is, and shall be deemed to be, a security agreement for all purposes under sections 922(d) and 928(a) of the federal Bankruptcy Code) and the acts of issuance by the City Council taken in connection with the issuance of each Subordinate Revenue Note. Whether or not for whatever reason (i) a Subordinate Revenue Note is issued to evidence any Payment Obligation or (ii) the City Council of the City confirms the pledge, the Surplus Revenues ~~shall immediately bear hereby~~ subject to the lien of such pledge without any physical delivery, filing or further act on the part of the City, the Enterprise or Wingfoot, and such pledge shall have priority over any and all other obligations and liabilities of Greeley, except as limited in this Section 17.18 by the Charter or by the Water Revenue Bond Ordinance. In addition, any breach of or noncompliance with this Section 17.18 shall not limit Wingfoot’s rights or remedies under this Agreement or applicable law. The lien of each such pledge shall be valid, binding, and enforceable as against all persons having claims of any kind in tort, contract, or otherwise against the public entity irrespective of whether such persons have notice of such liens. Greeley agrees that it will authorize and issue all Subordinate Revenue Notes in the manner and according to the procedures provided by its Charter and the Water Revenue Bond Ordinance, including advertisement for public sale to the extent then required by the Charter.

E. Greeley hereby represents and warrants, as of the Effective Date, that there are no other currently outstanding Subordinate Obligations, as that term is used in the Water Revenue Bond Ordinance. Greeley further covenants that it shall not create, nor cause to be created, any Subordinate Obligations other than (1) Subordinate Obligations or Subordinate Revenue Notes owed or issued to Wingfoot; (2) Subordinate Obligations or Subordinate Revenue Notes issued to persons other than Wingfoot for the purpose of paying or refinancing Subordinate Revenue Notes or Subordinate Obligations held by or owed to Wingfoot; or (3) Subordinate Obligations secured on a basis expressly junior to the Subordinate Obligations or Subordinate Revenue Notes owed to or held by Wingfoot.

17.19 Interest. Any Payment Obligation owed by Greeley under this Agreement and not paid when due shall bear simple interest at the rate of ten percent (10%) per annum on the unpaid amount until paid, provided that any such amount shall be subject to prepayment at any time in whole or in part, together with the interest accrued on the amount so prepaid.

17.20 Fiscal Contingency. The City shall include in its budget and appropriation measures for each fiscal year the estimated amount of revenues available for Payment Obligations pursuant to Section 17.18 (Limited Source of Payments by Greeley) hereof.

17.21 Integrated Agreement. This Agreement, including all exhibits referenced herein, constitutes the complete, unseverable, unitary, integrated agreement between Greeley and Wingfoot concerning the subject matter hereof. This Agreement constitutes the entire understanding between the parties hereto and supersedes and cancels all prior written and oral agreements and understandings, including the 2020 Agreement, with respect to the subject matter of this Agreement. The parties hereto acknowledge that they negotiated this Agreement, including all exhibits, as a single transaction and would not have entered into any portion of the Agreement without the rights and obligations conferred by the Agreement as a whole. In the event that (i) there is a conflict between the terms of this Agreement and any exhibits, or (ii) this Agreement provides additional or more specific rights or remedies than those described in the exhibits (including, for purposes of an example only, those under Article 17), the terms of this Agreement shall control; provided, however, that any such remedies shall not be cumulative. The rights created hereunder are intended by the parties to be presently vested and fully enforceable according to their terms. The provisions of this Agreement were negotiated as, and constitute, parts of an integrated whole, and the inability of either party to enforce any of such provisions or to consummate any of the transactions contemplated hereby due to changes in law, whether by amendments to the State or federal constitutions, the Charter, the Code or any applicable statute or regulation, or by regulatory or judicial action, would result in substantial and irreparable harm to both parties and an impairment of their vested contractual rights.

17.22 Approval. THE OBLIGATIONS OF GREELEY ARE EXPRESSLY CONTINGENT UPON THE APPROVAL OF THIS AGREEMENT BY GREELEY CITY COUNCIL AND WATER AND SEWER BOARD PURSUANT TO SECTION 6.1.A (GOVERNING BODY APPROVAL) ABOVE.

17.23 Requirement of Good Faith and Reasonable Judgment. Unless otherwise expressly provided in this Agreement, all decisions (including, for the avoidance of doubt, any

RE: 3/2/21 Greeley City Council meeting; Public comment in support of advancing Terry Ranch initiative

Dear Council Members and Mayor Gates:

In our arid and politically fraught region, securing access to clean and reliable sources of water through time is proving to be the elusive linchpin in planning for a community's continued well being. As a longtime resident business person of Greeley I fully appreciate that our water future presents a unique challenge. Then again, given our community's legacy of leadership in this area it is a challenge to which the considered wisdom of our elected, appointed and hired leadership, including that of Council, is uniquely suited. Thus, I am encouraged by the efforts of the City's water staff and board in identifying, and thoroughly vetting, the Terry Ranch opportunity. Noting the significant diligence performed here, I fully endorse, and hope that all of Council will endorse, the recommendations of our water experts in furthering implementation of the strategic Terry Ranch initiative.

Thank you for your valued stewardship and efforts now to ensure our economic and social prosperity for generations to come.

Respectfully,

Ty Notestine

City Council,
I am writing in support of the Terry Ranch project. I have listened to presentations and read the articles in the Tribune. I think the research has been done and the questions have been answered. Thank you for your transparency. This project will continue the legacy of Northern Colorado's water history well into the future .

Mr. Mayor and City Council,

Thanks for your service.

You have to opportunity to approved a massive water project for the city of Greeley that would be the largest water project in Colorado-even larger than Blue Mesa Reservoir! Unlike Blue Mesa, Terry Ranch doesn't evaporate or require as much federal approval as surface projects, doesn't serve others in other states and doesn't take a drop from current users like farmers or east vs. west issues.

You can add some water to it in great water years, yes there will be great water years again soon! Greeley can use this as a supplemental source for decades. The science is already good with respect to removal of any metals or contaminants. I believe that the science and techniques, if required, will only get better.

This is a WD Farr kind of project, in my opinion. One with vision.

The only question you really need to answer is: Do I have the kind of vision possessed by other Great Greeley Water professionals through the years? Yes to Water Storage for Greeley's future, or no to fear?

Sincerely,

Bill Jerke, past Chair of the South Platte Water Roundtable

Attn: Water Board Chairman

My name is Nikki Giordano and I'm the Executive Officer of the Home Builders Association of Northern Colorado. I am writing on behalf of 300 member companies which equates to 20,000 individuals representing the Northern Colorado home building industry. We are in support of the Terry Ranch Project.

This project is environmentally sustainable, reliable and affordable. As you know the cost of water continues to increase each year which in turn drives up the cost of housing. NoCo HBA's mission is to provide safe and attainable housing for all Coloradans. With the Terry Ranch Project being built over time this will help keep water rates down. It will also lower water acquisition costs and permitting costs than other surface reservoir alternatives.

NoCo is in full support of the Terry Ranch Project.

Feel free to call 970-686-2798 with any questions.

Thank you for your time.

Anissa, while this message is being sent to you, I would ask you to distribute it to the members of the Greeley Council before they have their discussion and vote regarding the above.

As a fifteen-year veteran of the Water and Sewer Board, I strongly recommend the purchase of the Terry Ranch aquifer by the City of Greeley.

As a result of forward thinking on the part of our predecessors, the citizens of Greeley have benefited from an ample supply of clean, fresh water. In addition, this water has allowed the community to grow in terms of population and to have an adequate foundation for solid economic development. This purchase provides for a continuation of planned growth and development for the community.

Subject: [EXTERNAL] Terry Ranch / Wingfoot Deal

Letter to Mayor and Council. Honorable Mayor and Council,

It is my understanding that most, if not all, of you will vote to approve the Terry Ranch/Wingfoot deal on March 2. I don't understand how you can approve this, knowing the feeling of a large portion of the community about taking on such a risk. This will not secure our water future. Greeley does not need this at this time, or ever. We have adequate stores of water in the Poudre and elsewhere to provide for a bright future, even without expanding Milton Seaman Reservoir.

In my opinion, this decision is more about securing Fort Collins' clean water future than Greeley's. We will no longer be a competitor to Fort Collins for that clean water once we commit Greeley to using ground water. Expect a big exodus of the Greeley population to Fort Collins if Terry Ranch becomes part of Greeley's water inventory.

It is easy to say that we will treat the uranium in the ground water to 0. It is another thing, and about \$20 million dollars a year, to do it. But uranium is not the only threat to the Terry Ranch ground water. There is the threat due to fracking, sewage sludge on the recharge area, and the TCE spill identified and being monitored by the USACE which could become a Superfund Site. USACE has enlarged its monitoring area south to the northern border of Terry Ranch. The aquifer below the Terry Ranch extends into Wyoming. Aquifers are not like having a concrete reservoir with rebar to hold it together. They are full of fissures and lenses and different types of rock with different porosities. The water can go wherever it wants. You cannot contain it to just to the area you prefer.

I know that the staff and water board have made light of all of these concerns of the citizens. They reference their consultants who have also dismissed these concerns. These same consultants wouldn't also have a financial interest in seeing that this project gets done would they? And some of you who are voting to approve this deal...you wouldn't be setting yourselves up to receive cheap water credits from Wingfoot would you?

This whole deal just smells bad. The council hasn't even read the financial agreement, and undoubtedly wouldn't understand it if they did. I don't think you would sign a deal like this if your personal finances were involved. I bet most of you have children. How can you even conceive of doing this to our future generations?

Please don't do this to Greeley! We love our city. The reason many of us live in Colorado, and specifically Greeley, is for its clean water. And I don't care what you may believe or say about this Terry Ranch deal, it will forever change the public's perception of Greeley, in a negative way. You think the odor problem was bad, this will be so much worse. At least we could move the dairies out of town. What will you do when Terry Ranch proves to be much more contaminated than you ever imagined?

This will all be on you council. You will be wearing the albatross. Don't even bother blaming the staff. They will all be gone by then. But you will live in the history books forever!

Please keep Greeley's water clean. Please vote no on Terry Ranch!!

Mayor John Gates and Greeley City Council

Another Drought Back-up System?

Even working under the premise that the main and long-term benefit of the City of Greeley to purchasing the Terry Ranch Aquifer is to provide drought protection, it is imperative to have at least a ballpark purchase price as to determine its benefit to Greeley. Wingfoot gets at least 12,120 water credits backed up by Greeley's inventory of water to sell for development in Greeley. There is a huge expense to build all the infrastructure and to add a third water treatment plant and to maintain a State water lease. Not sure what that total will be, but it has to over a billion dollars. What the Water Department wants to gain is a third layer of drought protection. The first layer being the newly updated drought water use plan that the City Council just enacted. (Most Cities use this system as their only drought protection plan.) The second drought action being taken by the Water Department is by devaluing all existing and new water purchases rights to drought yield levels. The water board tell us they do this so that when a drought occurs, Greeley will have enough water to get through the drought without restrictions. Now the water department desires to provide a third layer of drought protection for Greeley residents with another billion dollar investment that will set idle most of the time like the treatment Plant at Boyd Lake.

If you really analyze, this transaction, the Water Department is putting up for sale our existing water rights to be sold to developers with the money going to Wingfoot to purchase a redundant-redundant and redundant drought protection scheme. Wingfoot is giving a kick back to Greeley of \$125 million to help push this deal through. And Wingfoot only owns roughly half the aquifer with the other half being owned by State of Colorado. (The assumed State lease cost a minimum \$100,000 annually to keep it force and if raw water is removed it is on a cost sharing basis with additional rent fees for use of any above ground structures.) Wingfoot is the only winner in this deal with very little investment and a windfall return. I can reassure you that W D Farr would not consider this transaction is needed for drought protection and consider it a cost saving to Greeley as does current leadership.

One last point is that these questionable water policies coming out of our water department are a hindrance to Greeley ever having low-cost housing developments. When the water department decided to base water dedication on arbitrary firm yields rather than use historical averages it nearly doubled the amount of raw water needed to develop in Greeley. (Firm yields are derived from a mathematical drought formula to help determine how much raw water to expect during prolonged drought periods.) Our water department and board likes using firm yields rather than historical averages for dedication because it gives them an added safety factor. This ultra conservative approach to deal with potential droughts is not cost effective and does not help in a competitive growth market.

From just a handful of people I shared this information with, the reaction was overwhelming not to proceed.

Best regards, Jack Schneider

Mayor and Councilmembers:

As a former Greeley City Councilmember, during my service, I was very interested in our water history, issues, acquisition, rate pricing, storage, sewer, and storm water. Therefore, the Terry Ranch Water Aquifer Acquisition Project is important to me today.

Water – what are our first thoughts when we think about water? I will share my thoughts. When I am thirsty, I want to turn on the faucet to get a drink of good, clean water from the sink, frig, or drinking fountain at the mall or park. I want to get a shower or soak in a bathtub, not to mention, flush my toilet and wash my hands often. Vegetables grown in my garden and a pretty green lawn at my house are things important to me. Clean clothes from my washing machine is a priority for our family. We need water to extinguish a potential fire at my house or yours, or in our forests or grasslands. I also really like going to restaurants and eating out. Swimming pools, splash parks, hot tubs, fishing and boating are recreational activities enjoyed by thousands of people that all involve water. And let's not forget our water and sewer bills, keeping them reasonable. There are countless water usages, some absolutely necessary and some luxuries, of course.

But, do we think about where that water comes from and how it gets to our homes when we turn on the faucet? No, probably not, or for some folks, never. But we should. Most of the time we don't even think about it unless it isn't there. I am glad that there are skilled, knowledgeable, professional planners, technicians, engineers, attorneys and leaders who do think about our water all the time. Greeley has positioned itself extremely well through our history of strong visionaries securing water resources for Greeley, yesterday, today and for the foreseeable future. But, what about 100+ years from now (and, no, that is not an exaggeration)? I want to be assured that the same opportunities for safe clean water, with nationally recognized quality that I enjoy today, are available to my children, grandchildren and for all our generations to come for many years into the future.

Terry Ranch Water Aquifer Acquisition Project enters the scene now as a potential water source and storage for our future. That is a huge issue and, in my opinion, THE most important decision for you, ever, in your Council service and in reality, yours and all of our lifetimes. Is the Terry Ranch aquifer perfect – no. Are Milton Seaman and Joe Wright Reservoirs perfect – no. Is anything perfect – no. Do we need to plan for and provide safe, quality water for generations to come with the projected population growth – yes.

I have read through all of the agendas and meeting minutes of both the Water and Sewer Board, and the Greeley City Council related to Terry Ranch; watched all the available website videos, social media information, newspaper articles and commentaries and webinars; and asked numerous questions of all involved, and have received responsive and satisfactory answers. I have talked with numerous people in support AND opposed to this project. I have read all the information in opposition, as well. I appreciate all the information available and respect the care for and passion of everyone in support and opposed to the Terry Ranch Project.

Will there be surprises and perhaps challenges in the future with the Terry Ranch Aquifer Project, maybe and perhaps probably. Obviously we don't know what those precisely might be, but on-going testing and modeling has and will continue to provide some reassurances and skill in response to any potential future occurrences.

I could go extremely techno here, but I won't, you all have total access to all of that detailed information. In my opinion, the staff, consultants, attorneys, professionals and Water and Sewer Board have done their demanded and expected, in-depth and detailed due-diligence on this project, and I believe acquisition of this water aquifer and the water storage and water source it provides for our water future is in the very best interest of the residents of Greeley today and well into the future. I am completely confident that the safety and quality of this water is priority one for all.

Mayor and Councilmembers, thank you for the opportunity to provide my input on this project. You have a fiduciary responsibility, both financially and operationally, to the residents of Greeley, therefore I support Council voting in favor of the Terry Ranch Water Aquifer Acquisition and move forward with the vision of our forefathers, to continue providing us a legacy of the safe, clean and abundant quality water resources we have today.

Dear Mayor Gates and Members of the City of Greeley City Council,

I write to offer my support of the Terry Ranch Project as Greeley seeks to establish the security of the water supply to the city for future generations. And, I urge the members of the City of Greeley City Council to vote to approve this project.

The health and strength of any college or university is only as good as that of its hometown. Greeley's long history of investing in its resources to provide for residents and local businesses has helped to ensure that our community is a great place to live and work -- and importantly for the University of Northern Colorado's mission and the future success of families across the city, our region, and the state -- a great place to learn. Efforts today to plan to meet Greeley's water needs for decades to come will make it possible for our city and UNC to continue to thrive as partners invested in the success of our people.

The University of Northern Colorado was founded in 1889 as a normal school in response to this community's desire to ensure future generations had access to excellent teachers and a first class education. As its President, I am deeply committed not just to maintaining, but building upon our university's partnerships with the City of Greeley, Greeley-Evans School District 6, Aims Community College, local businesses, community organizations, and residents. The Terry Ranch Project is an important part of ensuring we all succeed with a healthy, sustainable water supply well into the future.

RE: Terry Bison Ranch

Mr. Chambers,

The development of water supplies for current and future needs is the task all of us in the water industry face. Greeley's history of good decisions has led to a bountiful water portfolio and I think that the Terry Bison Ranch project is another good decision.

The Colorado Water Conservation Board has encouraged and facilitated collaborative and innovative watershed-based solutions to meet future water demands. Demands which require thought and careful planning to support a population which will continue to increase as our citizens enjoy all the splendor that the Northern Front Range has to offer.

The Central Colorado Water Conservancy District and multiple project partners have recently completed the Water Storage Reallocation Project at Chatfield Reservoir. This project took nearly 20 years, millions of dollars of permitting, design work and construction to make it happen. These types of federally approved water storage projects are not going to be any simpler or more feasible in the future.

As referenced in the several project documents I've reviewed, my position is the Terry Bison Ranch project benefits make for a successful water bank for years to come. A water bank in the sense that the supply is not exposed to any evaporative losses, the water quality is proven to be safe for potable use, and the largest benefit in my mind is it is replenishable. There are water utilities in Colorado using aquifer storage and recovery (ASR), as well as across the United States.

In closing, I anticipate the Terry Ranch project to be looked upon in the future as a wise decision by the City of Greeley – similar to how we all appreciate our forefathers who invested in the Colorado Big Thompson project.

Sincerely,

I did not write this letter but I agree with it. Put it to a vote of the people!

Honorable Mayor and Council, It is my understanding that most, if not all, of you will vote to approve the Terry Ranch/Wingfoot deal on March 2. I don't understand how you can approve this, knowing the feeling of a large portion of the community about taking on such a risk. This will not secure our water future. Greeley does not need this at this time, or ever. We have adequate stores of water in the Poudre and elsewhere to provide for a bright future, even without expanding Milton Seaman Reservoir. In my opinion, this decision is more about securing Fort Collins' clean water future than Greeley's. We will no longer be a competitor to Fort Collins for that clean water once we commit Greeley to using groundwater. Expect a big exodus of the Greeley population to Fort Collins if Terry Ranch becomes part of Greeley's water inventory. It is easy to say that we will treat the uranium in the groundwater to 0. It is another thing, and about \$20 million dollars a year, to do it. But uranium is not the only threat to the Terry Ranch groundwater. There is the threat due to fracking, sewage sludge on the recharge area, and the TCE spill identified and being monitored by the USACE which could become a Superfund Site. USACE has enlarged its monitoring area south to the northern border of Terry Ranch. The aquifer below the Terry Ranch extends into Wyoming. Aquifers are not like having a concrete reservoir with rebar to hold it together. They are full of fissures and lenses and different types of rock with different porosities. The water can go wherever it wants. You cannot contain it to just to the area you prefer. I know that the staff and water board have made light of all of these concerns of the citizens. They reference their consultants who have also dismissed these concerns. These same consultants wouldn't also have a financial interest in seeing that this project gets done would they? And some of you who are voting to approve this deal...you wouldn't be setting yourselves up to receive cheap water credits from Wingfoot would you? This whole deal just smells bad. The council hasn't even read the financial agreement, and undoubtedly wouldn't understand it if they did. I don't think you would sign a deal like this if your personal finances were involved. I bet most of you have children. How can you even conceive of doing this to our future generations? Please don't do this to Greeley! We love our city. The reason many of us live in Colorado, and specifically Greeley, is for its clean water. And I don't care what you may believe or say about this Terry Ranch deal, it will forever change the public's perception of Greeley, in a negative way. You think the odor problem was bad, this will be so much worse. At least we could move the dairies out of town. What will you do when Terry Ranch proves to be much more contaminated than you ever imagined? This will all be on you, council. You will be wearing the albatross. Don't even bother blaming the staff. They will all be gone by then. But you will live in the history books forever! Please keep Greeley's water clean. Please vote no on Terry Ranch!!

Greetings,

It is with heartfelt sincerity, that I add my support to the proposed Terry Ranch Project!

I am very grateful that our Waterboard as well as you all, for completing your diligence on investigating if this is indeed a viable project.

I think this is a very appealing alternative to our Milton Seaman project. To think back, even when I was on city Council, there would be one issue after another with the Corps. of Engineers wanting us to complete or mitigate something. (I think in my time it was the endangered jumping mouse). Time and time again they would come back with something we needed to complete for us to receive our permit. After the tune of millions of dollars., in my heart, I firmly believe they will never issue us a permit, even though we went through the proper channels of Process.

- I find the Terry Ranch Project attractive because it is exclusively for Greeley!
- Uranium will be removed for usage, just as it is currently being done for our drinking water currently
- No "water rights" are sold (please note "credits" for economic development is different)
- There are no active oil wells in area & a very low impact on our environment.
- Being a NON-tributary, this is not hydraulically connected to any surface streams
- This project will help keep citizens water rates low.
- I'm very impressed with the transparency and the willingness to answer any question that comes to mind by the citizens of Greeley.
- This project is done in stages, if re-evaluating needs to take place
- Aquifer storage is thinking ahead much like W.D. Farr did in his time to ensure water for future generations, now it is our turn to ensure it for our children's children.

In my morning meditation, it was coincidental, it took me to Genesis, that Joseph had a dream to store food for an upcoming famine. We to must "store" water for future, Greeleyites to thrive on.

I am writing on behalf of 300 member companies which equates to 20,000 individuals representing the Northern Colorado home building industry. We are in support of the Terry Ranch Project.

This project is more environmentally sustainable, more reliable and more affordable. As you know the cost of water continues to increase each year which in turn drives up the cost of housing. NoCo HBA's mission is to provide safe and attainable housing for all Coloradans. With the Terry Ranch Project being built over time this will help keep water rates down. It will also lower water acquisition costs and permitting costs than other surface reservoir alternatives.

NoCo is in full support of the Terry Ranch Project.

On behalf of HighPoint Resources, I am writing to express our support for the Terry Ranch Project. Greeley has long been recognized for its foresight and innovation in securing water resources to meet the City's needs, and the Terry Ranch Project is just the latest expression of this spirit of innovation. This project will allow Greeley to continue to provide the water needed for residents and industry alike while keeping the water rates low and ensuring reliable back-up supply needed during drought years.

As a proud member of the greater Greeley-area business community, HighPoint Resources recognizes the critical role that abundant and inexpensive water will continue to play in growth of businesses and residences throughout the area. Dear Members:

What a wonderful opportunity awaits you next week, to make a historic investment in this city's security and growth, not unlike the legacy of your forebears, who successfully engineered a practical way to divert high country water to the Great American Desert.

I write as chair of the Greeley Area Chamber's Local Government and Business Affairs Committee, which has followed the Terry Ranch project for months; find convincing the financial, environmental, and political arguments in its favor; and consequently, recommended its approval to the Chamber Board. Council has heard from several of our members independently, bringing valuable, relevant business perspective to your deliberation. Now we are eager to see it through.

At your public hearing Tuesday night, March 2, you will hear from skeptical, fearful voices warning you of grave consequences of this new venture into aquifer storage and recovery that, while common in the west, was "too quickly" or "too thoughtlessly" or "too conveniently" brought to the table to stand scrutiny. With all due respect, ladies and gentlemen, they are wrong.

In fact, our advisory group of experienced, deliberative, collaborative volunteers are mightily impressed by the sustained due diligence demonstrated by city staff, outside consultants, and your Water and Sewer Board. Further we acknowledge the deep and unflagging sense of personal responsibility demonstrated by City Manager Roy Otto, Major John Gates, and Water Board Chair Harold Evans. LGBAC, as the Chamber Board of Directors, is not only satisfied by, but deeply grateful, for the critical thinking, problem solving, and evident professionalism that underlies the opportunity before you now.

Terry Ranch is a once in a generation, if not lifetime, opportunity to secure the City of Greeley's investment in a precious natural resource that can accommodate current users and projected users safely, efficiently, and affordably for decades to come. Thank you for allowing us to be part of this proud, historic exercise of public stewardship.

Re: Terry Ranch Aquifer Proposal

Dear Mayor Gates:

I am writing today on behalf of the Poudre Learning Center (PLC), expressing our enthusiastic support of the City of Greeley's Terry Ranch Aquifer Storage and Recovery Project which is currently under consideration. As you know, the PLC is an educational facility focused on the use of science, technology, engineering and math (STEM) principles in shepherding stewardship of our natural resources. With current and future projected population growth along the Northern Front Range, it is essential for communities to exercise wisdom in planning for the future, with planning based strongly on STEM methodologies, the key to protecting finite natural resources, including limited water supplies. There are no cheap or easy solutions for solving Front Range Water needs, waiting to act will result in fewer options at higher costs, so acting now for Greeley's future is crucial. STEM analysis on the Terry Ranch proposal has been completed and thoroughly vetted, and from that work it is clear that implementation of the project will successfully further the City of Greeley's long legacy in innovative and cost-effective water planning!

While it is necessary to plan for future demand now, in securing additional water Greeley must exercise absolute care and due diligence! In analyzing this proposal, City staff has conducted a thorough, detailed evaluation using STEM methodologies focused on current science, gathering over 7,000 pertinent data points, testing the benefits and challenging potential limiting factors. The findings have been peer reviewed by independent third-party consultants, verifying the STEM analysis, confirming the yields, calculating that projected withdrawals/recharge rates are viable, that harvested water can be treated to accepted State and Federal water quality standards, that water can be conveyed and transferred effectively using engineered designs as specified and that project costs and remuneration rates are realistic, fair and equitable, while fulfilling the standards of Colorado water law. The analysis and documents for the project proposal are openly available for inspection by the public on the City of Greeley web site. Dr. William Hoyt, PLC Board President and Professor Emeritus of Oceanography, University of Northern Colorado, conducted an independent review of the proposal and published findings in an opinion piece in the Greeley Tribune, noting that the science presented for the project is solid. While others have expressed concerns about the Terry Proposal, a search of their web site

indicates speculative findings contradicted by the facts presented in the volumes of data compiled by the City.

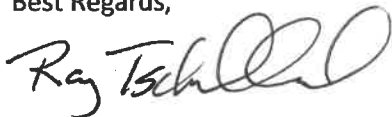

Although the yield on this project is estimated at 1.2 million acre-feet with additional storage capability, the primary purpose for Terry Ranch water will be supplementary supply to be used to cover drought deficits. In essence the Terry Ranch will be a savings account for water, withdrawn as needed and replenished in times of surplus. Carefully managed under this strategy the Terry Ranch water can be managed in perpetuity, continuing to be available long into Greeley's future.

Critical to PLC's mission of stewarding natural resources, the implementation of the Terry Ranch Project is the preferred alternative as it will eliminate the need for proposed expansion of the Milton Seaman Reservoir dam and footprint, a costly project that if implemented would have serious negative impacts on riparian habitat and wildlife use and movement corridors along the North Fork of the Cache La Poudre River. In its long-range plan The City of Greeley speaks eloquently, that in managing for future needs and growth we have an absolute obligation to protect essential natural resources, the lands and waters in our watershed. The Terry Ranch Proposal is responsibly designed, economically practical, with the least negative impacts to fish, wildlife, habitat and lands, and for these reasons the Poudre Learning Center supports the Terry Ranch aquifer acquisition project!

Please feel free to contact me if I can be of service as the Terry Ranch Project moves forward!

Finally, we would like to thank Harold Evans, Chairman of the Greeley Water and Sewer Board, for taking his time and energy to provide an informative program on the Terry project for PLC staff and volunteers! We are blessed in Greeley with legions of people ready, willing and able to support the PLC and the City of Greeley in innumerable projects, and Harold is always at the front of the line to pitch in and help. Thanks again to Harold, we value his support!

Best Regards,

Ray Tschillard

Filling Lake Loveland could eliminate need for Terry Ranch water

The Greeley Tribune article of February 24, 2021 regarding Lake Loveland water levels is very timely and illustrates why the Boyd Lake treatment plant needs to be upgraded to year around use now. As explained in the article, there needs to be a year around user to meet new State regulations. All that Greeley needs to do is upgrade the Boyd Lake treatment plant for year around use and problem is solved. By making the Greeley/Loveland irrigation water a reliable source of potable drinking water it would help multiple communities out by putting their Water to beneficial use. First, Greeley would have enough water to fully develop its potential without having to invest in Terry Ranch as a backup system. City of Evans' water portfolio would now easily satisfy their current needs as they own a substantial amount Greeley/Loveland water that is being totally under utilized (as does Greeley). City of Milliken would benefit as well from year around use as they also own shares of Greeley/Loveland Irrigation water. Loveland would benefit from a fuller reservoir. It would take some type of joint venture between them to make this work. Loveland could help by keeping contaminated street water from their streets out of Lake Loveland Boyd lake and/or paying some of the treatment costs and Evans and Milliken assist with cost of plant changes.

Our water department will need the encouragement of City Council to implement such a plan as the Water Department has been unwilling to do so recently. I believe the citizens of Greeley would prefer a plan like this over the redundant drought protection of Terry Ranch. This would be money well spent to benefit of many with almost immediate results.

I could see W D Farr supporting this approach to Greeley's water issues.

RE: Terry Ranch Aquifer Storage and Recovery Project

Dear Mayor Gates and City Council Members:

The Greeley Downtown Development Authority (DDA) Board appreciates the recent presentation from City Water Department staff regarding the proposed Terry Ranch project. We found the information to be thorough, insightful and transparent. Many of the questions we had were answered with confident assurance both in the due diligence in exploring this project and in the commitment to maintaining a high level of water quality in our city.

The DDA Board agrees with the State Demographer's growth projections and knows that adequate infrastructure, and water resources are essential to the sustainable growth of Greeley. We understand that the project offers drought proof diversity to the city's water portfolio. It will ensure that Greeley has reliable, resilient water assets, ample for serving our city long into the future. We know that water is scarce and expensive in Northern Colorado, as we have learned from recent residential redevelopment projects in our district.

Notwithstanding the benefits, the DDA Board is aware of the low levels of natural uranium in the Terry Ranch water but feel confident in the professional engineering reports and pilot project demonstration that uranium can be removed far below the EPA requirements to below the limits of detection after treatment. The city's current treatment process of all sources of water for a variety of pathogens, metals and other contaminants before the water is safe for our community gives us confidence that this process will be no different.

The DDA appreciates the scalable nature of the project as proposed and the ability to minimize rate impacts to our residents and businesses. The fact that this project can be permitted, constructed and developed in phases as the demand for its water and storage grow is a real attribute that will serve our community's best interests. Further, we are excited to hear that this project does not replace our existing rights or systems but adds to them and makes use of existing infrastructure. Our stakeholders are proud of Greeley's water history and heritage and remain optimistic about how the Terry Ranch aquifer storage and supply project could build upon that legacy.

Phil Grizzle, DDA Board Chairman

RE: Terry Ranch Project

Honorable Mayor Gates and Councilmembers:

As former legal counsel to the Water and Sewer Department, I was directly involved for years with efforts to secure high-quality reliable water sources to meet Greeley's future water needs. I understand the challenges presented by the intense competition for water in the region, and the difficulties in taking an infrastructure project through local, state, and federal permitting processes.

Terry Ranch appears to be an implementable and cost-effective project that can meet Greeley's water needs for the foreseeable future. It is essentially a storage vessel the size of Blue Mesa Reservoir that comes pre-filled. It also presents far less of a permitting burden than most storage projects of this magnitude. I am confident that the thorough diligence process overseen by the Water and Sewer Board and Department staff will ensure that the project functions as anticipated, and reliably produces water of the quality that Greeley citizens have come to expect.

I urge the Council to vote in favor of this project. It will help ensure a prosperous future for the City and reaffirm Greeley's leadership in the Colorado water community.

Sincerely,

John A. Kolanz

Terry Ranch

I just finished reviewing the staff's and consultant's report on the Terry Ranch project. I was very encouraged to see we are still thinking outside the box.

One of the greatest treasures Greeley has is our Water Board with years of experience and highly dedicated individuals. Having served on the Greeley City Council for nine years I have the greatest respect for our Water Board. They are all highly respected community professionals with years of experience and dedication to our community. W D Farr gets much deserved credit for foresight of our water development, but he passed the torch to some incredibly talented individuals who share his vision for our future growth. With a population that is likely to double by the year 2060, we need to continue to meet our water needs. The Greeley Water Board does not get paid for their service, they just have a great love and dedication for the community they live in.

Over the past 20 years, Greeley has spent over \$20,000,000 in permitting fees trying to expand our reservoir capacity with little progress. Working with federal and state bureaucracies is like trying to coax water uphill, or so it seems.

The Terry Ranch Project seems like an incredible opportunity to meet water requirements for generations to come. It is obvious to me that the Water Board and Staff did their homework on this Project. As a community we should thank everyone involved for their dedication.

On the surface, this looks like the greatest water improvement since the Big Thompson Project.

In my opinion, it would be a mistake for the Greeley City Council not to approve this project.

Sincerely,

Mike Finn

RE: Letter of Support for the Terry Ranch Project

Dear City of Greeley Council Members:

I am writing this letter to voice my support for the Terry Ranch Project. There are many reasons for my support, including the continuance of Greeley's legacy of being the leading innovators of water protection and supply, good stewards of the citizen's financial resources and keeping our efforts local. Greeley's water supply management is a crown jewel for us and has left us in a position where we can continue to plan smartly and thoroughly. Rather than being forced to make rash decisions that cost significantly more, produce poor results, and relies on other entities with conflicting interests, our leaders have found a better way. By approving the Terry Ranch Project, Greeley's future generations will continue to say these things about our era's innovative approach to acquisition and storage.

The ability to acquire the 1.2 million acre feet is a once-in-a-lifetime opportunity that I do not think people can really wrap their minds around. This amount of water ensures Greeley's water supply for many, many generations to come. Almost as important and impressive is the fact that this water is stored within an isolated aquifer. This not only protects the available water, but also eliminates loss due to evaporation. This saving of the evaporative loss combined with the innovative purchase method is truly remarkable and honors Greeley's legacy while taking care to protect its citizen's resources.

The essentially, "pay as you go" financial agreement is one that is quite creative and looks out for the citizens of Greeley. Unfortunately, Greeley has been dragged through the wringer trying to permit the expansion of Milton Seaman Reservoir over the years. The continued studies, evaluations, legal battles etc.... have cost the City millions to no avail. The Terry Ranch Project is something that should be looked at as environmentally friendly and with the water laws applying differently to this source than surface water laws, the time and cost to put into operation will be dramatically reduced. The project's elevation is higher than that of Greeley's which will allow gravity flows into town. Much better than having to pump it most of the way. The lines from the project are also all within Weld County borders which is a very significant thing.

As seen in countless news articles, the city in the Denver Metro area that has been buying Northern Colorado farms in order get the water that comes with them, has been having a heck of a time getting easements from the county with different interest from their own. This project keeps it local. The City of Greeley and Weld County have common interests lending itself to true cooperation.

This opportunity is so unique, impactful and unprecedented, I cannot think of a reason why one could appose it. I understand Colorado water rights can be confusing which could leave many to write it off as "too expensive". However, to pass this opportunity by would be hundreds of times more costly. Another opportunity like this will not come again. I strongly urge you to vote in support of this project and keep Greeley in position to grow sensibly and safely.

Sincerely,

Tim Pike

Honorable Mayor and Members of City Council for Greeley, Colorado,

Good morning and thank you for taking the time to read my note. I believe that you are scheduled on Tuesday, March 2, to vote whether to move forward with the Terry Ranch Project. As a Greeley native, born in Weld County General Hospital, and a lifelong resident of this great city, I have appreciated the great lengths our city leaders have taken in the past to ensure we, as citizens, have reliable and safe (and tasty) water.

I have taken the time to understand as much as I am able about the pros and cons, and the positive and potentially negative outcomes of this project. Based on everything I have read, and have learned from the videos and discussions with others, I can see no potentially negative outcome, or con, to this project that would even remotely out way the long-term positive impact this will have on our current and future community.

I have two young daughters, who will no doubt witness the great things to come to Greeley in the future. I believe we will see unimaginable growth, in a positive way, and this source of water and water storage will ensure that my girls, and their future families, will have the safe, reliable and tasty water that I've enjoyed for my 44 years.

I just wanted you all to know that I support you in your decision to vote to move forward with the Terry Ranch Project, and would be happy to publicly declare that as well.

Again, I genuinely appreciate your consideration of my thoughts.

Sincerely,
Randy Watkins

To: City of Greeley Honorable Mayor and Council

Subject: Terry Ranch - New Water Source

Greetings:

I am a Registered Professional Engineer in Colorado, Texas and Wyoming with Degrees in Civil Engineering and Environmental Science. I have approximately 50 years of experience in the water industry and was the City of Greeley Water Department's Chief Engineer for 22 years between 1979 and 2001. During my time at the Greeley Water & Sewer Department I acquired permits for and rehabilitated all of the City's High Mountain Dams, managed the purchase of millions of dollars of water rights, managed the operations of and improvements to the supply system, water treatment plants, approximately 700 miles of transmission and distribution system and administered and planned the Department's budget, including setting water rates. In addition, I managed all engineering and construction for the department.

The City of Greeley is on the verge of changing the quality, cost, and perception of Greeley's drinking water forever. This will happen if the City Council approves an agreement, signed by the City of Greeley Water & Sewer Board and Wingfoot Water Resources, LLC dated June 17, 2020.

Attached are some exhibits and discussions, including the body of a letter previously sent to your Honor Mayor and the Council, which I think would highlight some my concerns regarding the Terry Ranch groundwater purchase.

Cost of Uranium Removal from Poudre River Water in Comparison to Terry Ranch groundwater

See the attached uranium graph comparison of the Poudre River vs Terry Ranch groundwater. The average uranium concentration in the Poudre River is 0.85 ug/L. The cost of treating uranium out of the Poudre is incidental to the normal treatment process. The total cost of treating Poudre River water for all contaminates is \$0.27 per 1000 gallons.

What is the approximate cost to treat uranium out of the Terry Ranch?

Based on Terry Ranch's most productive well, the uranium concentration is 43 ug/L. The cost of uranium removal to non-detectable level is approximately \$4.50 per 1000 gallons as stated in City Staff presentation to the Water & Sewer Board during the Sept 2019 meeting (executive session). The cost of uranium removal was determined also in a study in Jefferson County ,Co (Jelinek, R. T., R. L. Clemmer, AND F. J. Johns. URANIUM REMOVAL FROM DRINKING WATER USING A SMALL FULL-SCALE SYSTEM. U.S. Environmental Protection Agency, Washington, D.C., EPA/600/2-89/012 (NTIS 89-169890), 1989.) to be \$4.30/1000 gallons.

The cost to remove uranium from either source for the same amount of water, 12,121 acre-feet per year is:

Poudre River - \$1,066,330 per year

Terry Ranch - \$17,772,000 per year

Trichloroethylene Ground Water Pollution Heading for Terry Ranch

I have included a couple of maps showing the Trichloroethylene (TCE) groundwater pollution plume resulting from the Atlas D Site 4 Missile Silo in Wyoming and a discussion regarding TCE plume's significance to the Terry Ranch groundwater. The TCE plume is 12 miles long and 3 miles wide and is the largest in the Nation. TCE is a known carcinogen and causes birth defects. The missile site is 18 miles from Terry Ranch. The TCE plume has advanced 12 miles of the 18 miles in 60 years. It is now 6 miles from Terry Ranch's highest production water well. The US Army Corps of Engineers (USACE) has been monitoring the plume and has increased the monitoring area to the Northern border of Terry Ranch. Because of the complexity of the underground geology USACE is unable to accurately model the direction and speed the plume will take. See the attached dialogue for the map of the TCE plume. I believe the City Staff and their consultants are irresponsibly ignoring or dismissing a massive risk to the health and financial wellbeing of Greeley Citizens as well as those who will be consuming and paying the real cost of the Terry Ranch Project including residents in Evans, Milliken, and Windsor.

Oil and Gas Drilling on Terry Ranch

See the attached Oil Gas Well Map. I have shown the Colorado Oil and Gas Commission Interactive Map data on a map of Terry Ranch. It shows many plugged and abandoned wells, pending wells and horizontal boring (fracking) patterns proposed for the site. I have not included the oil and gas drilling map for Wyoming, but it is similar to Colorado activity. All those existing oil and gas well casings, as well as all the product pipelines crossing Terry Ranch pose significant hazard to the groundwater aquifer that is intended to be a permanent municipal water supply.

City of Fort Collins Sewage Sludge Disposal on Terry Ranch Groundwater Recharge Area

See any of the attached maps. The maps show the Meadow Springs Ranch, which is just West of Terry Ranch. The City of Fort Collins disposes of over 2,000 metric tons of sewage sludge per year on the Terry Ranch aquifer recharge area which is on the Meadow Springs Ranch. While this disposal method was all the fad in past years, recent discovery of chemicals other than nutrients have been ruining ground water aquifers thought the USA. The chemicals of concern include perfluoroalkyl substances. Perfluoroalkyl substances (PFAS) are known as "forever chemicals" because once released into the environment they do not break down, and they build up in our blood and organs. Exposure to Perfluoroalkyl substances (PFAS) increases the risk of cancer, harms the development of the fetus and causes other health problems. The sewage sludge can also contaminate groundwater with pharmaceuticals breakdown products and pseudo-estrogen compounds.

Summary

Greeley is in the enviable position of having the best drinking water in the nation. This water supply is from the snow melt in the high mountains. Greeley still has the opportunity

to obtain more high-quality water from the mountains through the enlargement of Milton Seaman Reservoir. Greeley currently owns 15,000 acre-feet of conditional water rights intended to be captured in an enlarged Milton Seaman Reservoir. Despite the City Staff's current claims that permitting the Milton Seaman Reservoir Enlargement is too difficult for them to accomplish and more expensive than Terry Ranch, I believe that the Milton Seaman Reservoir Enlargement project can be accomplished. (See the attached EIS Milestones Table) The table shows the progress of the City of Greeley in comparison to the City of Fort Collins in obtaining the required US Army Corps of Engineers Permit. Because of the many personnel changes, poor city management, and no diligent and determined effort, the City has made no progress in obtaining a permit. The City of Greeley's progress stopped in 2006. While the City Staff claims to have spent \$19,000,000 on permitting, I have yet to see a detailed accounting of that number. In contrast the City of Fort Collins has made reasonable progress with their Halligan Reservoir Enlargement Project. I also believe that the cost of Milton Seaman Reservoir has been exaggerated to support a preconceived goal to close on the deal with Wingfoot, LLC. When members of our Save Greeley's Water group requested detailed cost estimate with quantities, unit costs and assumptions for the MSR enlargement through the Colorado Open Records Act, the City responded with a \$3,600 bill for supplying the detailed estimate. SGW is an volunteer group of concerned citizens. I think we have already paid for the requested records though our monthly water bills. If these reports and estimates are up to date, then they should be in pdf format and available to the public in a digital library.

At least one other thing should be considered. That one thing is the perception of Greeley when it changes its water supply from award winning mountain snow melt, to what could be considered a potential Super Fund Site. Greeley will become a less desirable place to live and home values could plummet. At that point future development may be unnecessary.

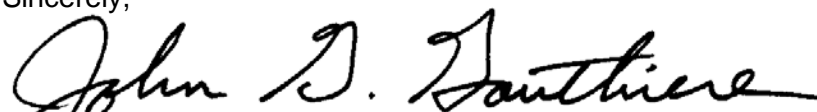

The top level of the Water Department, who are pushing Terry Ranch, do not live in Greeley. They do not understand what our clean mountain drinking water means to us. To them, this is just a business deal.

Thank you for taking the time to investigate this issue. Please vote no to reject the Terry Ranch/Wingfoot purchase agreement.

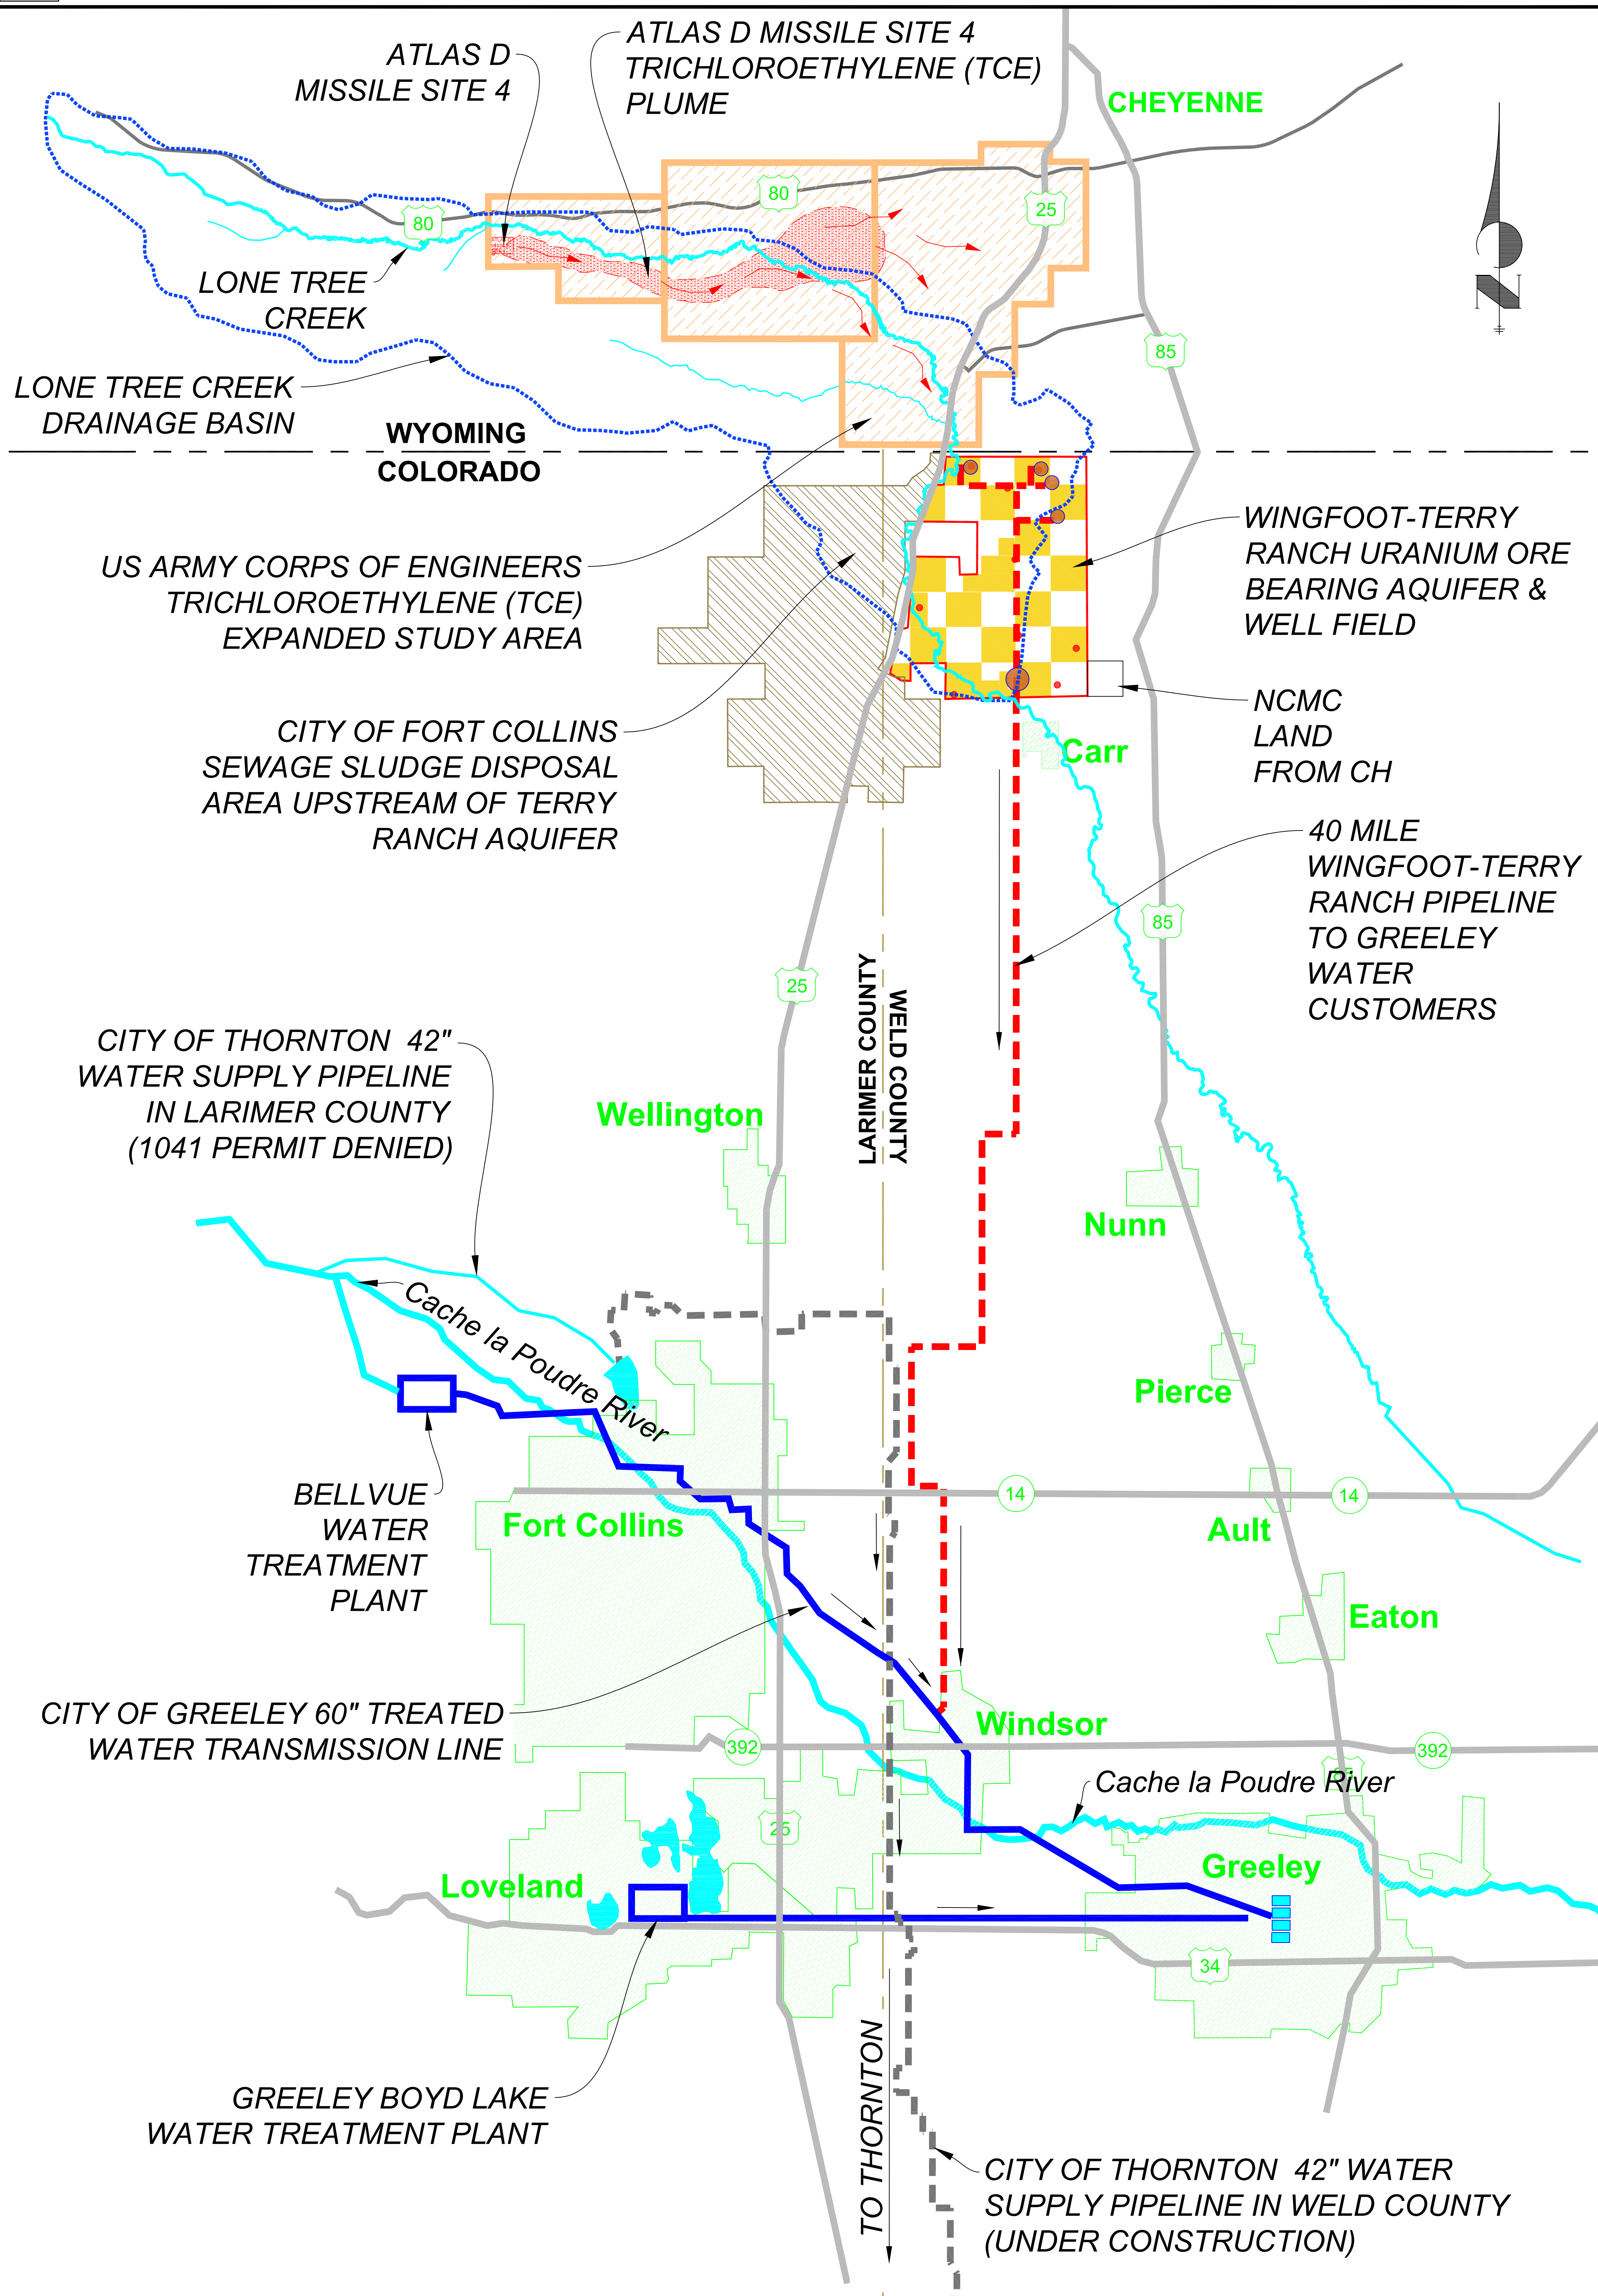

Thank you.

TERRY RANCH LOCATION

ATLAS D MISSILE SITE 4 EXHIBIT
 TRICHLOROETHYLENE PLUME (TCE) IS 12 MILES LONG BY 3 MILES WIDE AND IS THE LARGEST IN THE NATION. THE PLUME HAS TRAVELED 12 MILES OF THE 18 MILES TOWARD TERRY RANCH IN THE PAST 60 YEARS. THE PLUME IS WITHIN 6 MILES OF TERRY RANCH'S HIGHEST PRODUCING WATER WELL. TCE IS A CARCINOGEN AND CAUSES BIRTH DEFECTS.

The Atlas D Missile Site 4 trichloroethylene (TCE) plume is the largest TCE plume in the nation.

Trichloroethylene is a known carcinogen and is a cause of birth defects.

This dialogue is intended to explain the map of the trichloroethylene (TCE) plume which originated at the Atlas D Missile Site 4 eighteen miles west of Cheyenne, Wyoming. It is important to understand the location of the Atlas D Missile Site 4 Trichloroethylene ground water contamination plume in relation to Terry Ranch.

The Atlas D Missile Site 4 is just South of I-80. *The (TCE) plume emanating from it is now 12 miles long and 3 miles wide, according to the Wyoming Department of Environmental Quality. Atlas Site 4's TCE concentrations in the groundwater exceeds 240,000 parts per billion, well above Safe Drinking Act limit of 5 parts per billion.*¹ As a matter of fact, the TCE at the site is 48,000 times the safe drinking water limit.

It is quite possible that the TCE plume will turn South and follow the Lone Tree Creek geology to Terry Ranch and its Upper Laramie aquifer recharge area . The TCE plume has advanced 12 miles in 60 years towards the Ranch. The TCE plume is within 6 miles of the Northern border of Terry Ranch and the highest capacity water producing well on the Ranch. Judging from the historic rate of travel it could take 30 years, plus or minus, to get to Terry Ranch.

As a practical matter, the geology in the area is complex, and the presence, location, nature, and extent of lenses of highly permeable material, fractures and solution holes are never completely understood.

*However, buried paleo-drainages that generally mimic the surface topography exist, such as the drainage pattern of Lone Tree Creek. These paleo-drainages represent preferential groundwater flow pathways.*²

If this is true, then the TCE plume would likely follow the Lone Tree Creek pathway and travel to the Terry Ranch. While the City of Greeley's staff considers the Brule Member of the White River geologic formation a confining impermeable geologic formation that might impede downward seepage of the TCE plume into the Upper Laramie (Terry Ranch) formation, it would be a mistake to do so. *It would likely be incorrect, however, to simply consider the Brule a confining unit throughout the Site 4 study area.*³

The US Corps of Engineers (USACE) has been trying to model the trajectory of the TCE plume but is having difficulty producing a reliable model because of the complexity of the geological formations. Note the USACE Expanded Study area which covers the area between the East end of the plume and the Northern border of Terry Ranch. The expanded study area indicates that USACE believes the plume could possible head south to Terry Ranch. It is hard to ignore the US Corps of Engineers' good judgement. However,

³ US Army Corps of Engineers, Final Area-Wide Remedial Investigation Report Former Atlas D Missile Site 4, P 5

Adam Jokerst, Deputy Director of the Greeley Water Department, seems more than willing to ignore this good judgment.

Considering the interesting surprises that lurk in underground geology, the City of Greeley should not invest in or depend on the Terry Ranch as its future source of water for Greeley Citizens. Greeley Citizens deserve the right to vote on this most important issue.

SAVE GREELEY'S WATER
TERRY RANCH OIL, GAS RISK M

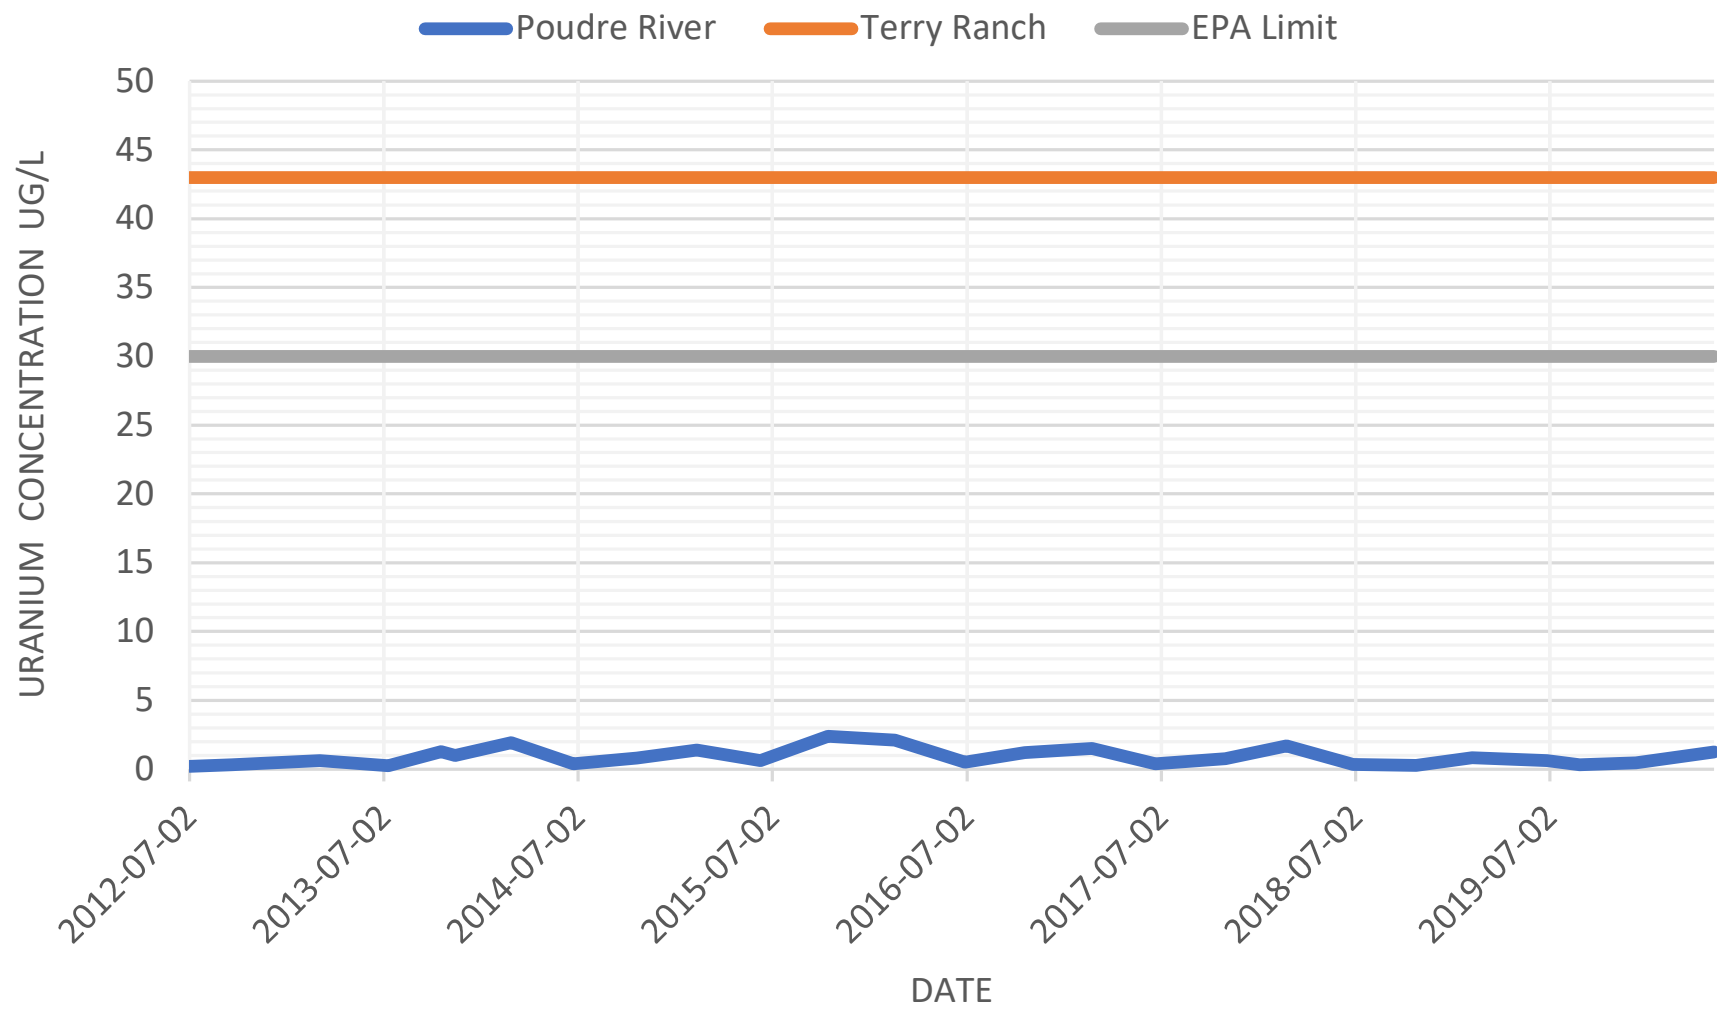

Terry Ranch Aquifer Contamination Risk Map

This map is intended to give a sense of the potential aquifer contamination sources in the vicinity of the Terry Ranch aquifer. The potential for groundwater contamination is directly related to the intensity and type of land use above the aquifer or in the aquifer's off-site recharge areas or upstream drainage areas such as the Meadow Spring Ranch or in Wyoming. Some of the potential aquifer contamination sources would include spills or leaks from oil, gas and mining operations, railway accidents and highway (I-25) accidents. The area contains many abandoned oil and gas well sites as well as approved and pending well sites which will be drilled in the future. Note the intensity of approved and pending horizontal well bores. Also note the Meadow Springs Ranch which is part of the recharge area for the Terry Ranch aquifer. The Meadow Springs Ranch is owned and utilized by the City of Fort Collins for disposal of their municipal sewage sludge.

Not shown on the map are potential sources of contamination from activities in Wyoming. For example, the upstream drainage area for Terry Ranch in Wyoming to the northwest includes groundwater contamination from Atlas D Missile Site 4 located in Laramie County. The groundwater at Atlas D Missile Site 4 is contaminated with trichloroethylene (TCE), a solvent used to clean defense equipment. The U. S. Army Corps of Engineers is aware of the TCE groundwater contamination. TCE is a known human carcinogen. The TCE groundwater contamination plume seems to be moving southwesterly toward Terry Ranch. We are currently investigating the TCE groundwater contamination issue and other issues yet to be investigated by the City of Greeley and its consultants. We will provide this information as soon as it becomes available.

The City of Greeley's investigation of the area upstream of Terry Ranch in Wyoming seems to have escaped their pre-purchase diligence efforts.

City of Greeley officials at Terry Ranch

There is a reason the City of Greeley has award-winning water. Even with some of the most stubborn raw water that comes from various source to our treatment plants, our dedicated team of water treatment professionals work hard to ensure this water is the most pristine before it makes it to Greeley customers. That idea has not changed with Terry Ranch. The city has undertaken extensive testing (more than 7,000 data points) on the water to ensure it can be treated to the high standards we've come to trust, and the results have been peer-reviewed by third party consultants to ensure accuracy. The following is the results of that testing.

Terry Ranch Aquifer Storage & Recovery

It is estimated that Greeley will have over 260,000 people by 2065. The Greeley Water Department is challenged with providing water to meet this future growth. The development of additional water and storage is an essential element in securing Greeley's water future. Terry Ranch is an innovative project to meet the City's future water needs.

By the Numbers

40 miles
 south of Greeley

- ✓ All diligence reports available on project website
- ✓ Preliminary findings shared with City Council on Oct. 13 and Jan 12
- ✓ Final findings presented to W&S Board on Feb. 17; video provided

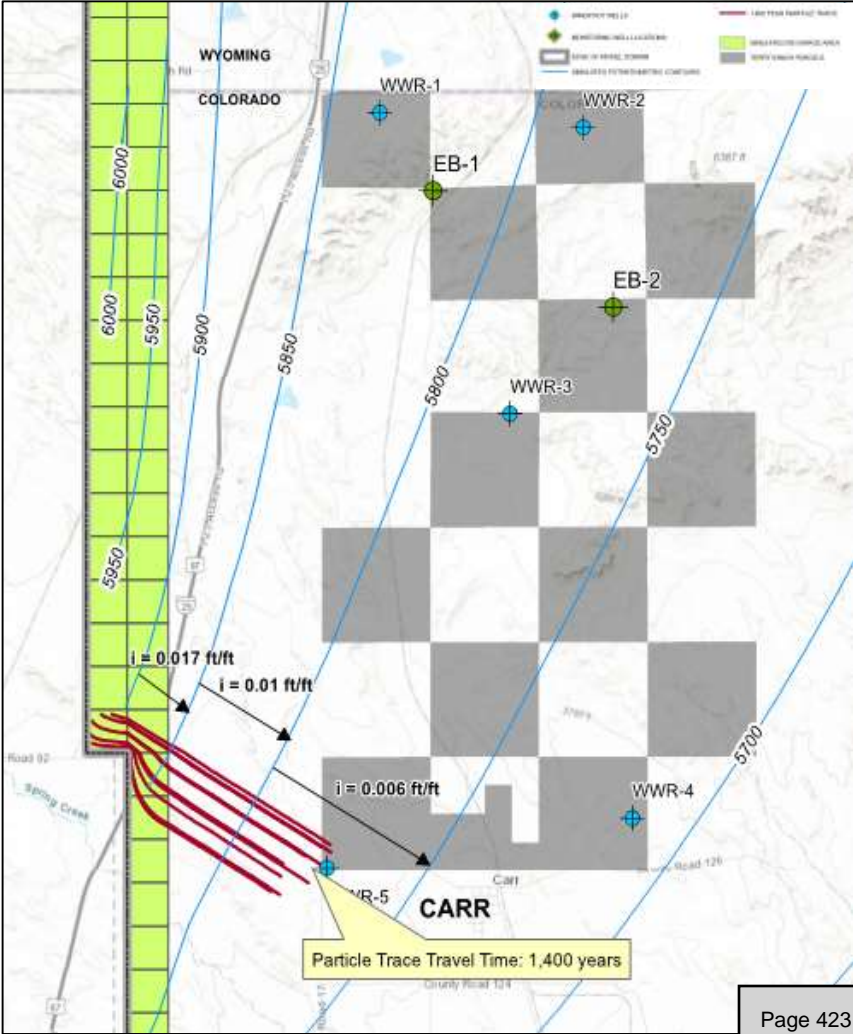

Key Findings

- ✓ Extensive water quality study: over 7,000 data points & 575 compounds from 7 wells
- ✓ Overall water quality is excellent
- ✓ Uranium is present but can be removed by proven treatment (ion exchange)
- ✓ **Greeley customers will not receive water with measurable uranium**
- ✓ Injection will not mobilize metals
- ✓ Water is compatible with existing supplies
- ✓ Pipe corrosion/metal release not expected

Contamination Risk

- ✓ Risk of groundwater contamination is low
- ✓ Groundwater is generally deep and isolated
- ✓ Groundwater flow rates are low (10-12 ft/yr or ~1 mile in 500 years)
- ✓ No producing oil & gas wells
- ✓ Apparently low oil & gas potential

Contamination Risk

**Surface Use Above Terry Ranch/
Upper Laramie Aquifer**

Surface Use Above Denver Basin Aquifers

Contrast in land surface between the Denver Basin Aquifers and Upper Laramie Aquifer

Trichloroethylene (TCE) Risk

- ✓ Investigated TCE plume from Atlas D missile site
 - ✓ TCE plume is in a different geologic formation (Ogallala and Brule Member of White River Formation)
 - ✓ Terry Ranch aquifer is protected by the claystone/shale layers in the White River Formation
 - ✓ Plume is migrating East-Northeast towards Cheyenne, not towards Terry Ranch
 - ✓ Plume is well-characterized and actively being remediated by the USACE
 - ✓ Edge of the plume has very low TCE concentrations (5 to 10 ppb)

TCE Risk

- ✓ TCE is not a risk to Terry Ranch groundwater
- ✓ TCE is treatable
 - ✓ Cheyenne uses groundwater within plume area for drinking water
 - ✓ Treated below detection by air-stripping
 - ✓ Paid for by Army Corps
- ✓ TCE can be remediated

Peer Review

- ✓ Independent, third-party peer review
 - ✓ City performed adequate testing and diligence followed established professional guidelines
 - ✓ Terry Ranch is a high quality potable water source
 - ✓ Treatment can remove uranium and provide safe water supply
 - ✓ Concur with conceptual design
 - ✓ Additional testing to refine operations and cost

Costs

Cost Comparison

Item No. 16.

Cost to Meet 2065 Water Needs

- ✓ Terry Ranch construction will be phased
- ✓ Milton Seaman/other reservoirs cannot
- ✓ Phasing lowers water rates

*Costs presented as 2020 net present values using 5% construction escalation and 3% discount rate. Timeline assumed.

Operational Costs

- ✓ Terry Ranch will be more expensive to operate than existing treatment plants
- ✓ Higher operational costs are vastly outweighed by lower construction costs
- ✓ Avg. 2065 operational costs: \$530,000/year (\$810,000/year with injection)

Recommendations

Staff Recommendations

- ✓ Additional water supplies and storage are needed to support a growing city
- ✓ Developing new water projects is extremely difficult in today's regulatory environment and highly competitive water market
- ✓ Terry Ranch is least costly and most certain among hundreds of alternatives evaluated
- ✓ Terry Ranch will be a safe and reliable water supply

Water & Sewer Board Recommendations

- ✓ Closely guided project development and negotiations over last two years
- ✓ Received monthly diligence updates since June 2020
- ✓ Approved closing and related actions on February 17, 2021

Staff and the Water & Sewer Board recommends City Council authorize the closing and related actions for acquisition of Terry Ranch water rights and storage
