Why OneHopewell?

Rank #131 of 134 counties in Virginia

Health Outcomes represent how healthy a county is right now, in terms of length of life but quality of life as well. Hopewell City (HO) is ranked among the least healthy counties in Virginia (Lowest 0%-25%).

Health Factors represent those things we can modify to improve the length and quality of life for residents. Hopewell City (HO) is ranked among the least healthy counties in Virginia (Lowest 0%-25%).

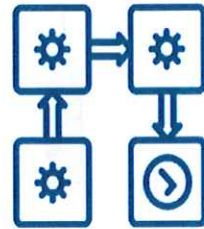

Background

OneHopewell was established in 2020, supported by the Cameron Foundation's Policies, Systems, Environmental (PSE) Approach to Address Health Disparities Grant.

Policy: Written statement of organizational position, decision or course of action. (Such as ordinances, resolutions, mandates, guidelines, or rules.

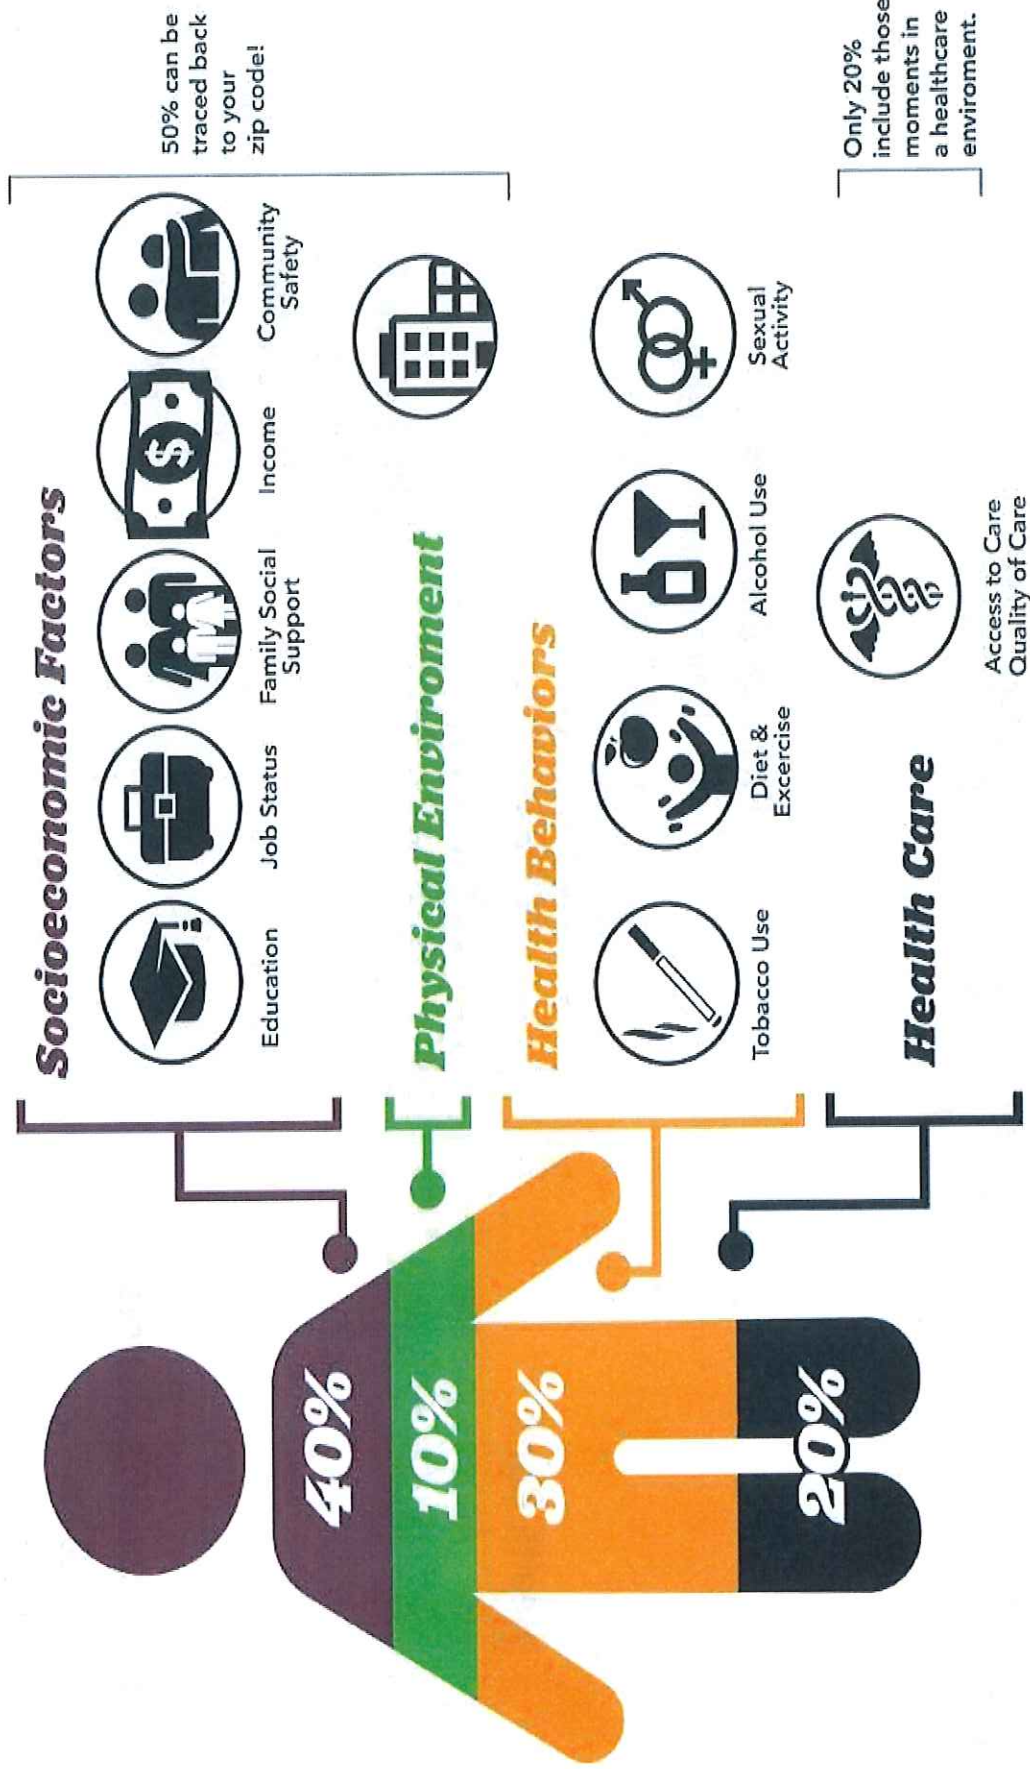

Systems: Changes in organizational procedures (such as personnel, resource allocation, programs)

Environment: Physical, observable changes in built, economic, and/or social environment.

Social Determinants of Health

Impact Areas

Physical Environment:

- Environmental quality
- Built environment

Health Behaviors:

- Tobacco use
- Diet & exercise
- Alcohol use
- Unsafe sex

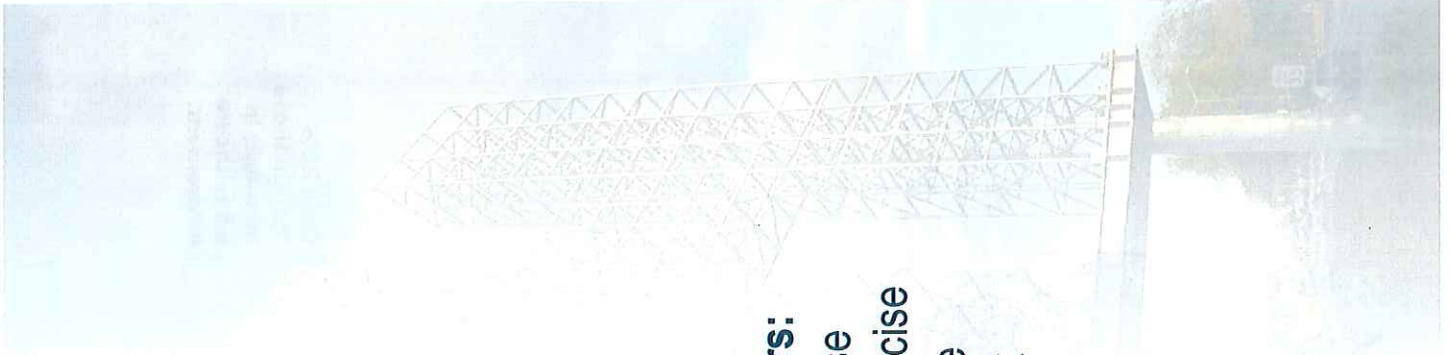

Health Care:

- Access to care
- Quality of care

Socio-Economic Factors:

- Education
- Employment
- Income
- Family/social support
- Community safety

Core Overview

Building Blocks data will aid in identifying which "neighborhoods" within the City have the greatest need for target PSE support.

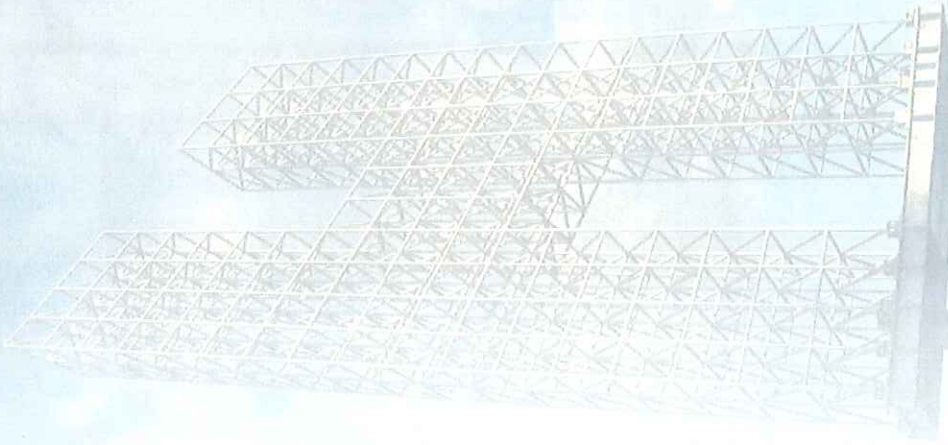

Neighborhood Councils will engage citizens and City Staff will adjust services to meet the need. Directors will relay recommendations to adjust resource allocation, policy and funding to address gaps in services/impact.

City Council and City Administration will consider recommendations in order to meet citizens needs and improve data over time.

OneHopewell partners will provide services in the Community Services Building to address the lack of resources to meet citizens needs.
