**Manor Planning and Zoning Commission Hearing Sept.13,2023**

Maryann Thoman <[REDACTED]>  
Draft

Wed, Sep 13, 2023 at 11:59 AM

To the Planning and Zoning Commission:

I am sending this document to the Commission because I cannot attend your hearing this evening in person. As a concerned citizen and a resident of Manor I would like to present just a few thoughts for the Commission to consider before it votes either to accept or reject the amendments to the Chapter14 Zoning Code for Manor.

**Density** - How much open space does a community need to thrive? Should we have apartment complexes, multiple family dwellings, commercial spaces right next to each other and near single family subdivisions? If we are talking about zoning shouldn't we have special zoned areas where all of these can be built and those areas having similar types of dwellings not a mixture of building types as to infringe on personal space and privacy, not to mention noise.

**Water** - How is Manor going to supply water to all of these complexes and businesses? We have been under a stage III water ban this year. This is not the first time and it won't be the last as we have experienced this in the past. We have experienced unsafe water to drink in some of the housing areas too.

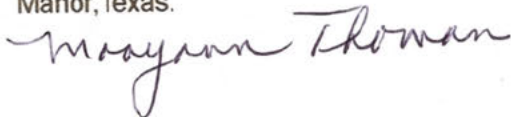

**Red Flag warnings and Fire Danger** - If you increase density you also increase fire danger. Your current zoning has the housing in such close proximity. If one house burns it could cause others to also catch fire and burn. How about underground gas lines. If they rupture for any reason it could cause a neighborhood to be evacuated or even worse to burn.

**Traffic** - I am sure everyone on this Commission has experienced the deadlock in this City. No matter what time of day, what day of the week. How traffic patterns are determined is a mystery? Why developers get to determine traffic patterns is a mystery? Rt.290, Rt.973, and Old Rt.20 see more than an average amount of cars per day and can add an extra 15-30 min. to a commute. The public safety is at risk as cars go through Red Lights and people don't follow basic rules of the road. Our Police, Fire, and EMS crews experience this every time a call comes in.

I am not anti development, I would like to see smart and safe development. Zoning is about having areas for all types of development and areas of open spaces.

You as the Commission have the ability to determine Manor's future. Will Manor be a community of haphazard placement of buildings and development or one where zoning is planned? Where public safety is considered? Please be mindful of these considerations as you either vote to reject or accept these amendments.
