PROCLAMATION

Whereas, Texas first observed Arbor Day in 1889, under the leadership of the Texas Forestry Association; and

Whereas, All across Texas, from towering pines to majestic oaks to scrubby mesquites — the many trees of Texas are beautiful and prominent features of our unique and breathtaking landscape; and

Whereas, As Texans, we value our trees and the benefits they provide each of us every day. Benefits like clean air, clean water, improving our health and even saving us money on energy bills; and

Whereas, We encourage people in our community to plant trees and celebrate them on the first Friday each November on Texas Arbor Day; and

Whereas, This holiday for trees is an opportunity to teach fundamental lessons about the stewardship of our natural resources and caring for our environment. It is an opportunity to learn what each of us can do to keep our community trees healthy and vibrant, and it is a time we can pause to appreciate trees in our lives; and

Whereas, Together, we can create a brighter and more beautiful future for the next generation. They, in turn, can affirm the duty of protecting our natural resources by being responsible stewards of this great land; and

Whereas, The City of Manor will host a Texas Arbor Day Event at Timmermann Park on November 13, 2021, from 10:30 a.m. – 11:30 a.m. bring your family to this fun event for all ages.

Now, Therefore, I, Dr. Larry Wallace Jr., Mayor of the City of Manor, and on behalf of the Manor City Council, do hereby proclaim Friday, November 5, 2021, as:

RE: Employee Evaluation- Employee Self Appraisal/ PayScale

November 2021

November 3, 2021

Human Resources along with City staff understand the importance of career development and the evaluation process as essential tools that benefit both the employee and the city. It is a time to provide feedback, recognize quality performance and set goals and objective for further job performance and career development.

Please see attached information regarding requested material:

- Employee Evaluation
- Employee Self evaluation

** The Departmental section will be established with Human Resources and the Department head to assign values to specific factors in each individual department.

It is the City Staff's recommendation to put into amended budget to conduct a new pay scale study, generally an employer should examine the overall salary structure at least every three to five years. The study will determine whether the structure is still aligned with the City's needs and the current labor market. The new study will take the city back to a yearly step program, as opposed to the current "5-year program" that is in place now. Step pay scales will align with the evaluation process and career development plan.

Re: City of Manor Pavement Inventory and Management Program

Dear Mayor Wallace:

GBA, Inc. was selected by the City of Manor to initialize a pavement management program (PMP) for the City. PMPs are used to objectively make data-driven decisions related to the improvement and preservation of pavement networks. A street network inventory for the City was compiled and video imagery of the streets was collected. This information was analyzed by a third-party to establish a pavement condition rating for each City street. Attached is a copy of the Pavement Inventory and Management Report which provides details of the process of preparing the PMP as well as provides the data used to make our recommendation.

Streets are not prioritized on a "worst first" basis. The main objective is to keep street segments from deteriorating into a condition that typically costs four to five times more per lane mile than rehabilitation. By implementing strategic preservation techniques, many years of useful life can be added to a street at a substantial cost savings over costly deferred maintenance. Once a street has deteriorated to the point that it must be reconstructed, the opportunity for preventive street maintenance is lost.

Based on our review of the pavement conditions for the City's Street network, it is our recommendation that the City dedicate eighty percent (80%) of the available yearly funds to preservation techniques and the remaining twenty percent (20%) to reconstruction of failed street segments on an annual basis. In general, this would mean that two (2) city blocks can be reconstructed, mill and overlay can be done on approximately one (1) mile of streets and preservation of five (5) miles of streets can be completed on City streets each year.

It should be noted that the recommended option has not been evaluated by or discussed with City Staff at this time. Please do not hesitate to contact us if you should have any questions.

Sincerely,

Pauline M. Gray, P.E.

Introduction

In 2021, GBA, Inc. was selected by the City of Manor, Texas, to initialize a pavement management program (PMP). PMPs are tools used to objectively make defensible data-driven decisions related to the improvement and preservation of a pavement network. Priorities and activities are recommended based on cost and service life added to the pavement. The city does not currently have a defined system of prioritizing street preservation activities.

GBA utilized the City's GIS information to establish a street network inventory and collected video imagery of the City's pavement network. Imagery was submitted for analysis via a third-party's artificial intelligence (AI) algorithm to establish a pavement condition rating of the network's segments. The data did not include non-pavement issues such as traffic, safety and road hazards, geometric issues, shoulders, sidewalks, curb and gutters, drainage issues, or geotechnical information.

A summary of the city's pavement inventory and condition is included within this report. Information about the types and conditions of the street network segments gives an objective status of one of the largest financial assets of the city. A major factor influencing the condition assessment of the network is the age and history of the pavement. This information was not comprehensively known for the network. Moving forward, this information would be valuable maintain. Age and condition can be plotted to determine the rate of the city's pavement deterioration.

GBA created a preventive maintenance and rehabilitation decision tree with unit costs based on recent bid tabs. Additional costs associated with projects such as sidewalks, ADA ramps, curb & gutters, storm sewers, driveways, and other soft costs are not included in the preservation costs.

A prioritization analysis was performed for an analysis period of five years based on the current budget. This analysis identified maintenance and rehabilitation (M&R) recommendations for each pavement section and determined the estimated rating of the pavement system over the five years for multiple strategies including

- Do nothing method
- "Worst first" method
- 70% rehabilitation and preservation/30% reconstruction
- 80% rehabilitation and preservation/20% reconstruction
- Proactive mill and overlay

Budget information anticipated to be available is shown here:

\$56,350 Phase 2 Project Management and Program Development

• \$516,900 2021 Cap Metro Project

This PMP will be reviewed and updated annually to measure progress, reevaluate preservation efforts, and adjust activities based on available funds.

Pavement Management Strategies

Selecting streets or street segments for preservation treatment is done through a process involving analysis, testing, and experience. The data acquired during the assessment combined with budgetary information allows the ability to group potential street segments for consideration for treatment.

Streets are not prioritized on a "worst first" basis. The main objective is to keep street segments from deteriorating into a condition that typically costs four to five times more per lane mile than rehabilitation. By implementing strategic preservation techniques, many years of useful life can be added to a street at a substantial cost savings over costly deferred maintenance. Once a street has deteriorated to the point that it must be reconstructed, the opportunity for preventive street maintenance is lost.

A strategized PMP not only reduces the cost needed to improve overall network pavement ratings, but also increases the amount of time in a street's life that the pavement is considered good.

Street Preservation Techniques

The best way to maximize efficiency in street preservation dollars spent is to utilize a large toolbox of preservation techniques and strategies. The following is a list of common pavement preservation techniques:

Surface Treatments

- **Asphalt rejuvenator** Asphalt rejuvenation is the process of restoring chemical properties that have been deteriorating since the moment new asphalt was laid down.
- **Crack Seal** Cracking in most pavements is inevitable, and if left untreated, can cause massive pavement failure like potholes and subbase failure. Crack sealing is a cost-effective method to treat all types of cracks greater than 1/8".
- **Fog Seal** Fog seal is a single application, typically light, of emulsified asphalt to an existing asphalt surface.
- **Slurry Seal** Slurry seal is a surface treatment designed to extend the life of asphalt pavements in good condition by providing skid resistance, restricting moisture intrusion, protecting the structure from further oxidation and raveling, and restoring a uniform black appearance.
- Micro Surfacing Micro surfacing is a surface treatment designed to extend the life of asphalt
 pavements in good condition by providing skid resistance, restricting moisture intrusion,
 protecting the structure from further oxidation and raveling, and restoring a uniform black
 appearance.
- **Ultra-Thin Lift Hot Mix Asphalt** An ultra-thin lift HMA is a hot mix asphalt treatment consisting of paving grade asphalt and aggregate. Ultra-thin lift asphalt treatments are generally applied at a compacted depth of .75" to 1" on roads in good condition.
- **Chip Seal** A chip seal is a roadway surface treatment that consists of a layer(s) of asphalt binder (hot or emulsion) with a layer(s) of embedded aggregate. Chip seals provide a new skid resistant wearing surface, stops raveling, seals minor cracks, and retards further deterioration of the existing roadway.
- Cape Seal Cape seal is a roadway surface treatment designed to extend the life of pavements in fair to good condition, consisting of a chip seal treatment, which is then covered by a slurry seal or micro surfacing treatment
- **Scrub Seal** Scrub seal is an application that is very similar to a chip seal treatment. The only difference is that the asphalt distributor pulls a broom sled that houses a series of brooms placed at different angles. These brooms guide or "scrub" the emulsion into cracks that ensure the road will be sealed.

Recycling and Reclamation

Mill and Overlay- Mill and Overlay is the controlled removal of the surface of an existing
pavement to the desired depth or cross-slope with specially designed equipment capable of
removing portions of the pavement surface to the specified grade and/or cross-slope and
replaced with new asphalt.

- Hot In-place Recycling Hot In-place Recycling (HIR) is an on-site, in-place pavement
 preservation and corrective maintenance technique that when combined with an asphalt
 overlay can be classified as structural rehabilitation.
- **Cold In-place Recycling** A cost-effective, long-lasting, greener alternative to conventional maintenance and rehabilitation techniques. Cold In-place recycling (CIR) is a process that cold mills and recycles the top 2-5 inches of asphalt using a continuous train operation.
- Cold Central Plant Recycling In many locations, stockpiles of high-quality RAP are available and
 Cold Central Plant Recycling (CCPR) can produce a high quality economical paving material
 preventing a valuable resource from being landfilled. CCPR is the process in which the asphalt
 recycling takes place at a central location using a stationary cold mix plant and an existing
 stockpile of RAP.
- **Full Depth Reclamation** Full Depth Reclamation (FDR) is an engineered rehabilitation technique in which the full thickness of the asphalt pavement and a predetermined portion of the underlying materials (base, subbase and/or subgrade) is uniformly pulverized and blended to provide an upgraded, homogeneous material.

Base Treatments

- **Base Stabilization** Base Stabilization is used in new construction and reconstruction to improve the physical and load bearing properties of an aggregate base layer.
- Soil Stabilization/Modification Soil modification refers to the process of adding and mixing
 chemical agents into the soil to not only dry the soil, improving workability, but also reducing
 the plasticity index (PI) and shrink swell potential. These improvements often result in a slight
 increase in the shear strength of the soil. Often, subgrade soils are too wet, exhibiting poor
 workability and lacking sufficient strength to support construction equipment. Chemical
 additives such as lime, fly ash, and cement can be added to these soils to dry and improve the
 workability of the soil.

Often, a combination of techniques can be used at the same time to extend the pavement life even further. There are many factors to consider when choosing the right preservation technique. Existing distresses, contractor availability, material availability, cost, quantity, and maintenance capabilities are some of the factors to be evaluated. Combining projects with nearby agencies can provide costs savings and opportunity for specialized contractors that otherwise might not be feasible to work in Manor.

Preservation Scenarios

For the analysis of street preservation scenarios, the pavement techniques shown below were selected to be utilized. This list can be modified and adjusted to reflect strategies that the City has found to be readily available, more cost-effective, and proven successful. Additionally, techniques may be adjusted based on specific distresses once individual projects are identified.

- **Complete reconstruction.** This method was used for pavement with a rating below 50, indicating a failed pavement structure beyond the point of salvaging through rehabilitation or preservation.
- Mill and Overlay. This method was chosen for pavements rated between 50 and 55.

- Scrub Seal. This method was chosen for pavements between 55 and 60.
- Chip Seal. This method was chosen for pavements between 60 and 90.
- Rejuvenating Fog Seal. This method was used for pavements between 90 and 94.

Five strategies were analyzed to estimate the pavement ratings over time based on the percentage of techniques used. The strategy scenarios are summarized below:

- 1. **Do-Nothing** This strategy is used as a baseline to show the pavement deterioration if pavement maintenance is discontinued. This strategy shows how rapidly pavement can fail to the point where it cannot be feasibly improved without expensive complete reconstruction.
- 2. **Worst-First** This strategy closely resembles the strategy that a lot of municipalities use to maintain their pavement systems. As the results show this method doesn't produce much better results than the do-nothing method. It is just too expensive to improve enough roads to stay in top of the rate of deterioration.
- 3. Proactive Mill and Overlay –
 This approach is similar to the worst-first approach, but only focuses on the mill and overlay technique instead of reconstruction with only slightly better results.
- 4. **70-30** This method uses 70% of the budget for preservation of the pavement above a rating of 50 and 30% of the budget to reconstruct failed pavement segments. The results are significantly better than the previous methods.
- 5. **80-20** This method uses 80% of the budget for preservation of the pavement above a rating of 50 and 20% of the budget to reconstruct failed pavement segments. The results are slightly better than the 70-30 method and predicts a higher pavement rating in year 5 than the current rating.

Recommendations

Below are the recommendations for implementing a Pavement Management Plan.

- ✓ Dedicate 80% of the available funds to preservation techniques and 20% to reconstruction of failed segments on an annual basis.
- ✓ Refine the list of preservation techniques to a list of 3 to 5 options. At a minimum these techniques should be appropriate for unique ranges of pavement ratings (i.e. 1 method for ratings from 50-70, another for 70-90, and another for 90-95). The techniques should also be feasible for local contractors to competitively bid on or City staff to complete.
- ✓ Annual project selections should include segments near each other. The segments analyzed in the scenarios were solely based on ratings, but other factors like traffic volumes, geographic equality with regards to previous years, and number of residents the preservation benefits could also be considered. Actual projects should include logical groups of segments that are more efficient to construct. Additionally, consideration to the techniques used for preservation and should be matched to the specific distresses found on chosen segments.
- ✓ Innovative techniques, such as full depth reclamation should be considered for failed pavement segments. Utilization of the existing material with supplemental cementitious or slurry additives can greatly reduce pavement replacement costs. Additionally, innovative preservation techniques should be considered where appropriate.
- ✓ Complete annual assessments to measure the progress and effectiveness of the Pavement Management Plan. Adjust preservation techniques and funding based on progress towards to expected results.
- Refine the pavement inventory to include widths or areas to the street segments, age of the existing pavement, and newly constructed segments as the information becomes available.
- ✓ Reevaluate the pavement maintenance budget as new segments are constructed and inflation changes preservation costs.
- ✓ Implement a public information strategy to inform the Manor residents of the Pavement Management Plan, goals, methods of implementation, and progress.

ARTICLE 9. Cooperative Competitive Sourcing: City acknowledges and agrees with Contractor that City's selection of Contractor may be acknowledged and used by other government entities to replace their respective competitive procurement selection processes for Request for Proposal (RFP) and Request for Qualifications (RFQ) purposes such that other government entities may contract with Contractor for the same or substantially similar product(s) or service(s) without undergoing a separate competitive procurement selection process. Terms, conditions, and prices of the contract executed with Contractor may be used by other government entities to contract with Contractor for the same or substantially similar product(s) or service(s) under either the same or a separate contract.

ARTICLE 10. Certificates of Insurance shall be completed by the Contractor's insurance agent as evidence that policies providing the required coverage, conditions, and minimum limits are in full force and effect, and shall be subject to review and approval by the City. Each certificate shall provide that the coverage afforded under the policies shall not be cancelled, terminated or materially changed until at least thirty (30) days prior written notice has been given to the City. The City reserves the right to request and receive a certified copy of any policy and any endorsement thereto.

ARTICLE 11. <u>Breach of Contract</u>: In the event of any breach or apparent breach by Contractor of any of its obligations under the terms of this Agreement, if Contractor fails to cure such breach within thirty (30) days of written notice from the City of such breach, the City has the right to terminate the Agreement without any liability. In the event of any breach or apparent breach of this Agreement by the City of any of its obligations under the terms of this Agreement, the Contractor has the right to suspend or terminate City's access to the SaaS. If the City fails to cure such breach within thirty (30) days of written notice from Contractor, the Contractor has the right to terminate the Agreement.

Exhibit A: Scope of Services

City of Manor, TX & Qwally

Overview

The City of Manor has a thriving small business sector and seeks to increase its digital presence to support emerging entrepreneurs. The City has strong municipal services and a large network of local entrepreneurial support organizations. However, many new and emerging businesses are unaware of these offerings and struggle to take their concept from idea to execution.

Entrepreneurs often move towards opening their business without undertaking proper analysis or registering with the appropriate organizations. New businesses neglect important steps such as market research or undergoing a business canvas. In addition, many of these entrepreneurs fail to obtain a federal tax ID or DUNS number. The City of Manor wants to create a virtual front door where new and emerging local businesses access important information, register for help, and receive support.

Qwally will help the City of Manor implement a combined platform small-business portal, small business support navigator, and support services directory, and administrator dashboard. Small businesses in Manor can expect to see relevant and timely information, faster and better support, service, and interaction with their local government through Qwally's platform. The City of Manor can expect better insight into their business community and improved coordination with resource providers.

Qwally will configure, deploy, maintain, and provide periodic updates to the platform. Qwally will test with City Staff, Small Businesses, and local entrepreneurial support organizations.

System Design

The platform implementation for Manor will focus on identifying requirements for and configuring the following four system modules:

- 1. Manor Small Business Portal
- 2. Small Business Navigator
- 3. Small Business Support Navigator
- 4. Administrative Dashboard

Manor Small Business Portal

The Manor Small Business Portal is a community-specific website that can be accessed by the public either directly or via the City's main website. The Small Business Portal is the "front door" for doing business in Manor, Texas. The content for the Small Business Portal can be newly

defined as part of this pilot, or consist of pre-existing content that the City wishes to repurpose (or a combination of the two). The Small Business Portal will help entrepreneurs in Manor easily find and interact with the Small Business Navigator as well as the Small Business Support Directory.

Small Business Navigator

The Small Business Navigator will provide new and emerging small businesses in Manor a way to quickly and easily understand the necessary steps and activities associated with taking their business from "idea" to "execution." The Navigator will consist of a streamlined intake questionnaire that will minimize the number of questions posed to each entrepreneur, while ensuring that the necessary information about the relevant activities and regulations are displayed to each business owner.

The scope and complexity of the tailored content displayed to each business shall be sufficient for helping them understand how to become compliant with any state, federal, and city business regulations that may apply. In addition, we will present content that outlines key business formation activities. This includes performing market research, creating a business plan or business canvas, and understanding business structures.

The objective of the configuration of the Small Business Navigator is to maximize clarity and understanding for each potential vendor or small business owner as they seek to understand how City regulations apply to their business.

Small Business Support Directory

The Manor Small Business Support Directory will represent a widely-available and easily-browsable directory of local support organizations and the programs that they offer. Qwally will work with the City to mutually identify local organizations and programs that should be included in the directory at launch. Furthermore, to facilitate a better and more seamless

search experience for small business owners, Qwally will work with the City to define the overall structure of the categories or types of organizations and programs listed in the directory.

Administrative Dashboard

City staff will have access to an Administrative Dashboard that provides community staff with a way to view and keep track of the business owners who are utilizing the Small Business Navigator. For each business owner who utilizes the navigator, a "mirrored" copy of their tailored checklist (including real-time progress towards completion) will be available for viewing alongside all information the respondent provided.

Additionally, City staff will be able to review and approve requests by entrepreneurial support organizations to list information about their organization and the programs or support that they offer in the Small Business Support Navigator.

Coordination & Training

Qwally will work with the City of Manor to identify the appropriate training needs for the implementation. Qwally provides training through a mix of webinars, video tutorials, and one-on-one assistance. Qwally can create training documentation on request, and training can be delivered as a scheduled webinar or through group breakout sessions.

The Qwally platform is designed to be intuitive and easy to use, this often limits the need for extensive training sessions. Moreover, we are sensitive to the existing workload of municipal staff, so we make certain that training can be delivered for maximum impact with limited time requirements.

Qwally makes certain that government users are equipped with the right information and

training to troubleshoot problems encountered by small businesses. Training is delivered throughout implementation and on-boarding. Moreover Qwally provides technical assistance to city staff during business hours.

AGENDA ITEM SUMMARY FORM

PROPOSED MEETING DATE: November 3, 2021

PREPARED BY: Paige Saenz, City Attorney

DEPARTMENT: City Attorney

AGENDA ITEM DESCRIPTION:

Consideration, discussion, and possible action on a Resolution authorizing the City Manager to execute documents as necessary to evidence the City Council's approval of the settlement agreement with certain opioid distributors and manufacturers negotiated by the Texas Attorney General's Office and approval of the Texas Opioid Abatement Fund Council and Settlement Allocation Term Sheet (known as the Texas Term Sheet).

BACKGROUND/SUMMARY:

The AG's Office has reached a settlement agreement in principle with four opioid companies (3 distributors (McKesson, Cardinal Health, and Amerisource Bergen) and 1 manufacturer, which is Johnson & Johnson). Texas could receive as much as \$1.17 billion from distributors and \$268 million from J&J (for a total of almost \$1.5 billion). The settlement amount paid to each public entity is greater the more public entities sign on. The majority of the funds are used for opioid abatement programs. The AG is seeking approval of the settlement from cities with a population of 10,000 or greater. IF the City agrees to the settlement, the City waives its right to sue the opioid companies through its own lawsuit. The deadline for Cities to decide to join the settlement is January 2, 2022.

B. Allocation of Settlement Proceeds

1. All Opioid Funds distributed in Texas shall be divided with 15% going to Political Subdivisions ("Subdivision Share"), 70% to the Texas Opioid Abatement Fund through the Texas Opioid Council (Texas Abatement Fund Share) identified and described on Exhibits A and C hereto, and 15% to the Office of the Texas Attorney General as Counsel for the State of Texas ("State Share"). - 8. Opioid Funds from the Texas Abatement Fund Share shall be directed to the Texas Opioid Council and used in accordance with the guidelines as set out on Exhibit A hereto, and the Texas Abatement Fund Share shall be distributed to the Texas Opioid Council under the authority and guidance of the Texas MDL Court, consistent with Exhibits A and C, and the bylaws of the Texas Opioid Council documents and disbursed as set forth therein, including without limitation all abatement funds and the 1% holdback for expenses.
- 9. The State of Texas and the Political Subdivisions understand and acknowledge that additional steps may need to be undertaken to assist the Texas Opioid Council in its mission, at a predictable level of funding, regardless of external factors.

C. Payment of Counsel and Litigation Expenses

- 1. Any Master Settlement Agreement settlement will govern the payment of fees and litigation expenses to the Parties. The Parties agree to direct control of any Texas Political Subdivision fees and expenses to the "Texas Opioid Fee and Expense Fund," which shall be allocated and distributed by the Texas MDL Court, *In re: Texas Opioid Litigation*, MDL No. 2018-63587, in the 152nd District Court of Harris County, Texas, and with the intent to compensate all counsel for Texas Political Subdivisions who have not chosen to otherwise seek compensation for fees and expenses from any federal MDL common benefit fund.

District Court of Harris County, Texas pursuant to its past and future orders.

- 4. From any opioid-related settlements with McKesson, Cardinal Health, ABDC, and Johnson & Johnson, and for any future opioid-related settlements negotiated, in whole or in part, by the Negotiating Committee with any other Pharmaceutical Supply Chain Participant, the funds to be deposited in the Texas Opioid Fee and Expense Fund shall be 9.3925% of the combined Texas Political Subdivision and Texas Abatement Fund portions of each payment (annual or otherwise) to the State of Texas for that settlement, plus expenses from the National Fund, and shall be sought by Texas Political Subdivision Counsel initially through the National Fund. The Texas Political Subdivisions' percentage share of fees and expenses from the National Fund shall be directed to the Texas Opioid Fee and Expense Fund in the Texas MDL, as soon as is practical, for allocation and distribution in accordance with the guidelines herein.
- 5. If the National Fund share to the Texas Political Subdivisions is insufficient to cover the guaranteed 9.3925%, plus expenses from the National Fund, per subsection 4, immediately *supra*, or if payment from the National Fund is not received within 12 months after the date the

first payment is made by the Defendants pursuant to the settlement, then the Texas Political Subdivisions shall recover up to 12.5% of the Texas Political Subdivision Share to make up any difference.

6. If the National Fund and the Texas Political Subdivision share are insufficient to cover the guaranteed 9.3925%, plus expenses from the National Fund, or if payment from the National Fund is not received within 12 months after the date the first payment is made by the Defendants pursuant to the settlement, then the Texas Political Subdivisions shall recover up to 8.75% of the Abatement Fund Share to make up any difference. In no event shall the Texas Political Subdivision share exceed 9.3925% of the combined Texas Political Subdivision and Texas Abatement Fund portions of any settlement, plus expenses from the National Fund. In the event that any payment is received from the National Fund such that the total amount in fees and expenses exceeds 9.3925%, the Texas Political Subdivisions shall return any amounts received greater than 9.3925% of the combined Texas Political Subdivision and Texas Abatement Fund portions to those respective Funds.

- 7. For each settlement utilizing a National Fund, the Texas Political Subdivisions need only make one attempt at seeking fees and expenses there.
- 8. The total amount of the Texas Opioid Fee and Expense Fund shall be reduced proportionally, according to the agreed upon allocation of the Texas Subdivision Fund, for any Texas litigating Political Subdivision that (1) fails to enter the settlement; and (2) was filed in Texas state court, and was transferred to the Texas MDL (or removed before or during transfer to the Texas MDL) as of the execution date of this Agreement.

The Texas Opioid Council and Texas Abatement Fund is described in detail at Exhibit A, incorporated herein by reference.

Any Texas-only Settlement agreed to with the State and Negotiating Committee shall be subject to the approval

of a majority of litigating Political Subdivisions. The Parties further agree to keep each other reasonably informed of all other global settlement negotiations with Pharmaceutical Supply Chain Participants and to include the Negotiating Committee or designees. Neither this provision, nor any other, shall be construed to state or imply that either the State or the Negotiating Committee is unauthorized to engage in settlement negotiations with Pharmaceutical Supply Chain Participants without prior consent or contemporaneous participation of the other, or that either party is entitled to participate as an active or direct participant in settlement negotiations with the other. Rather, while the State's and Negotiation Committee's efforts to achieve worthwhile settlements are to be collaborative, incremental stages need not be so.

- 2. Any Master Settlement Agreement (MSA) shall be subject to the approval and jurisdiction of the Texas MDL Court.
- 3. As this is a Texas-specific effort, the Committee shall be Chaired by the Attorney General. However, the Attorney General, or his designees, shall endeavor to coordinate any publicity or other efforts to speak publicly with the other Committee Members.
- 4. The State of Texas, the Texas MDL Plaintiff's Steering Committee representatives, or the Political Subdivision representatives may withdraw

from coordinated Settlement discussions detailed in this Section upon 10 business days' written notice to the remaining Committee Members and counsel for any affected Pharmaceutical Supply Chain Participant. The withdrawal of any Member releases the remaining Committee Members from the restrictions and obligations in this Section.

5. The obligations in this Section shall not affect any Party's right to proceed with trial or, within 30 days of the date upon which a trial involving that Party's claims against a specific Pharmaceutical Supply Chain Participant is scheduled to begin, reach a case specific resolution with that particular Pharmaceutical Supply Chain Participant.

F. Amendments

The Parties agree to make such amendments as necessary to implement the intent of this agreement.

Acknowledgment of Agreement

We, the undersigned, have participated in the drafting of the above Texas Term Sheet, including consideration based on comments solicited from Political Subdivisions. This document has been collaboratively drafted to maintain all individual claims while allowing the State and its Political Subdivisions to cooperate in exploring all possible means of resolution. Nothing in this agreement binds any party to any specific outcome. Any resolution under this document will require

acceptance by the State of Texas and a majority of the Litigating Political Subdivisions.

We, the undersigned, hereby accept the STATE OF TEXAS AND TEXAS POLITICAL SUBDIVISIONS' OPIOID ABATEMENT FUND COUNCIL AND SETTLEMENT ALLOCATION TERM SHEET. We understand that the purpose of this Texas Term Sheet is to permit collaboration between the State of Texas and Political Subdivisions to explore and potentially effectuate earlier resolution of the Opioid Litigation against Pharmaceutical Supply Chain Participants. We also understand that an additional purpose is to create an effective means of distributing any potential settlement funds obtained under this Texas Term Sheet between the State of Texas and Political Subdivisions in a manner and means that would promote an effective and meaningful use of the funds in abating the opioid epidemic throughout Texas.

Executed this 13 day of May, 2020.

EXHIBIT A

Opioid Abatement Fund (Texas) Settlement

Opioid Council

As part of the settlement agreement and upon its execution, the parties will form the Texas Opioid Council (Council) to establish the framework that ensures the funds recovered by Texas (through the joint actions of the Attorney General and the state's political subdivisions) are allocated fairly and spent to remediate the opioid crisis in Texas, using efficient and cost-effective methods that are directed to the hardest hit regions in Texas while also ensuring that all Texans benefit from prevention and recovery efforts.

I. Structure

The Council will be responsible for the processes and procedures governing the spending of the funds held in the Texas Abatement Fund, which will be approximately 70% of all funds obtained through settlement and/or litigation of the claims asserted by the State and its subdivisions in the investigations and litigation related to the manufacturing, marketing, distribution, and sale of opioids and related pharmaceuticals.

Money paid into the abatement fund will be held by an independent administrator, who shall be responsible for the ministerial task of releasing funds solely as authorized below by the Council, and accounting for all payments to and from the fund.

The Council will be formed when a court of competent jurisdiction enters an order settling the matter, including any order of a bankruptcy court. The Council's members must be appointed within sixty (60) days of the date the order is entered.

A. Membership

The Council shall be comprised of the following thirteen (13) members:

1. Statewide Members.

Six members appointed by the Governor and Attorney General to represent the State's interest in opioid abatement. The statewide members are appointed as follows:

- a. The Governor shall appoint three (3) members who are licensed health professionals with significant experience in opioid interventions;
- b. The Attorney General shall appoint three (3) members who are licensed professionals with significant experience in opioid incidences; and
- c. The Governor will appoint the Chair of the Council as a non-voting member. The Chair may only cast a vote in the event there is a tie of the membership.

2. Regional Members.

Six (6) members appointed by the State's political subdivisions to represent their designated Texas Health and Human Services Commission "HHSC" Regional Healthcare

Partnership (Regions) to ensure dedicated regional, urban, and rural representation on the Council. The regional appointees must be from either academia or the medical profession with significant experience in opioid interventions. The regional members are appointed as follows:

- a. One member representing Regions 9 and 10 (Dallas Ft-Worth);
- b. One member representing Region 3 (Houston);
- c. One member representing Regions 11, 12, 13, 14, 15, 19 (West Texas);
- d. One member representing Regions 6, 7, 8, 16 (Austin-San Antonio);
- e. One member representing Regions 1, 2, 17, 18 (East Texas); and
- f. One member representing Regions 4, 5, 20 (South Texas).

B. Terms

All members of the Council are appointed to serve staggered two-year terms, with the terms of members expiring February 1 of each year. A member may serve no more than two consecutive terms, for a total of four consecutive years. For the first term, four (4) members (two (2) statewide and two (2) for the subdivisions) will serve a three-year term. A vacancy on the Council shall be filled for the unexpired term in the same manner as the original appointment. The Governor will appoint the Chair of the Council who will not vote on Council business unless there is a tie vote, and the subdivisions will appoint a Vice-Chair voting member from one of the regional members.

C. Governance

1. Administration

The Council is attached administratively to the Comptroller. The Council is an independent, quasi-governmental agency because it is responsible for the statewide distribution of the abatement settlement funds. The Council is exempt from the following statutes:

- a. Chapter 316 of the Government Code (Appropriations);
- b. Chapter 322 of the Government Code (Legislative Budget Board);
- c. Chapter 325 of the Government Code (Sunset);
- d. Chapter 783 of the Government Code (Uniform Grants and Contract Management);
- e. Chapter 2001 of the Government Code (Administrative Procedure);
- f. Chapter 2052 of the Government Code (State Agency Reports and Publications);
- g. Chapter 2261 of the Government Code (State Contracting Standards and Oversight);
- h. Chapter 2262 of the Government Code (Statewide Contract Management);

- i. Chapter 262 of the Local Government Code (Purchasing and Contracting Authority of Counties); and
- j. Chapter 271 of the Local Government Code (Purchasing and Contracting Authority of Municipalities, Counties, and Certain Other Local Governments).

2. Transparency

The Council will abide by state laws relating to open meetings and public information, including Chapters 551 and 552 of the Texas Government Code.

- i. The Council shall hold at least four regular meetings each year. The Council may hold additional meetings on the request of the Chair or on the written request of three members of the council. All meetings shall be open to the public, and public notice of meetings shall be given as required by state law.
- ii. The Council may convene in a closed, non-public meeting:
 - a. If the Commission must discuss:
 - 1. Negotiation of contract awards; and
 - 2. Matters specifically exempted from disclosure by federal and state statutes.
 - b. All minutes and documents of a closed meeting shall remain under seal, subject to release only order of a court of competent jurisdiction.

3. Authority

The Council does not have rulemaking authority. The terms of each Judgment, Master Settlement Agreement, or any Bankruptcy Settlement for Texas control the authority of the Council and the Council may not stray outside the bounds of the authority and power vested by such settlements. Should the Council require legal assistance in determining their authority, the Council may direct the executive director to seek legal advice from the Attorney General to clarify the issue.

D. Operation and Expenses

The independent administrator will set aside up to one (1) percent of the settlement funds for the administration of the Council for reasonable costs and expenses of operating the foregoing duties, including educational activities.

1. Executive Director

The Comptroller will employ the executive director of the Council and other personnel as necessary to administer the duties of the Council and carry out the functions of the Council. The executive director must have at least 10 years of experience in government or public administration and is classified as a Director V/B30 under the State Auditor's State Classification. The Comptroller will pay the salaries of the Council employees from the

one (1) percent of the settlement funds set aside for the administration of the Council. The Comptroller will request funds from the Texas Abatement Fund Point of Contact.

2. Travel Reimbursement

A person appointed to the Council is entitled to reimbursement for the travel expenses incurred in attending Council duties. A member of the Council may be reimbursed for actual expenses for meals, lodging, transportation, and incidental expenses in accordance with travel rates set by the federal General Services Administration.

II. Duties/Roles

It is the duty of the Council to determine and approve the opioid abatement strategies and funding awards.

A. Approved Abatement Strategies

The Council will develop the approved Texas list of abatement strategies based on but not limited to the existing national list of opioid abatement strategies (see attached Appendix A) for implementing the Texas Abatement Fund.

- 1. The Council shall only approve strategies which are evidence-informed strategies.
- 2. The Texas list of abatement strategies must be approved by majority vote. The majority vote must include a majority from both sides of the statewide members and regional members in order to be approved, e.g., at least four (4) of six (6) members on each side.

B. Texas Abatement Fund Point of Contact

The Council will determine a single point of contact called the Abatement Fund Point of Contact (POC) to be established as the sole entity authorized to receive requests for funds and approve expenditures in Texas and order the release of funds from the Texas Abatement Fund by the independent administrator. The POC may be an independent third party selected by the Council with expertise in banking or financial management. The POC will manage the Opioid Council Bank Account (Account). Upon a vote, the Council will direct the POC to contact the independent administrator to release funds to the Account. The Account is outside the State Treasury and not managed by any state or local officials. The POC is responsible for payments to the qualified entities selected by the Council for abatement fund awards. The POC will submit a monthly financial statement on the Account to the Council.

C. Auditor

An independent auditor appointed by the Council will perform an audit on the Account on an annual basis and report its findings, if any, to the Council.

D. Funding Allocation

The Council is the sole decision-maker on the funding allocation process of the abatement funds. The Council will develop the application and award process based on the parameters outlined below. An entity seeking funds from the Council must apply for funds; no funds will be awarded without an application. The executive director and personnel may assist the Council in gathering and compiling the applications for consideration; however, the Council members are the sole decision-makers of awards and funding determination. The Council will use the following processes to award funds:

- 1. Statewide Funds. The Council will consider, adopt and approve the allocation methodology attached as Exhibit C, based upon population health data and prevalence of opioid incidences, at the Council's initial meeting. Adoption of such methodology will allow each Region to customize the approved abatement strategies to fit its communities' needs. The statewide regional funds will account for seventy-five (75) percent of the total overall funds, less the one (1) percent administrative expense described herein.
- 2. Targeted Funds. Each Region shall reserve twenty-five (25) percent of the overall funds, for targeted interventions in the specific Region as identified by opioid incidence data. The Council must approve on an annual basis the uses for the targeted abatement strategies and applications available to every Region, including education and outreach programs. Each Region without approved uses for the targeted funds from the Council, based upon a greater percentage of opioid incidents compared to its population, is subject to transfer of all or a portion of the targeted funds for that Region for uses based upon all Regions' targeted funding needs as approved by the Council on an annual basis.
- 3. Annual Allocation. Statewide regional funds and targeted funds will be allocated on an annual basis. If a Region lapses its funds, the funds will be reallocated based on all Regions' funding needs.

E. Appeal Process

The Council will establish an appeal process to permit the applicants for funding (state or subdivisions) to challenge decisions by the Council-designated point of contact on requests for funds or expenditures.

- 1. To challenge a decision by the designated point of contact, the State or a subdivision must file an appeal with the Council within thirty (30) days of the decision. The Council then has thirty (30) days to consider and rule on the appeal.
- 2. If the Council denies the appeal, the party may file an appeal with the state district court of record where the final opioid judgment or Master Settlement Agreement is filed. The Texas Rules of Civil Procedure and Rules of Evidence will govern these proceedings. The Council may request representation from the Attorney General in these proceedings.

In making its determination, the state district court shall apply the same clear error standards contained herein that the Council must follow when rendering its decision.

- 3. The state district court will make the final decision and the decision is not appealable.
- 4. Challenges will be limited and subject to penalty if abused.
- 5. Attorneys' fees and costs are not recoverable in these appeals.

F. Education

The Council may determine that a percentage of the funds in the Abatement Fund from the targeted funds be used to develop an education and outreach program to provide materials on the consequences of opioid drug use, prevention and interventions. Any material developed will include online resources and toolkits for communities.

Section 1 – GENERAL

Parliamentary law and the rules of procedure derived from such law are essential to all deliberative organizations so that they may consider all matters before them in an effective and efficient manner and produce results that are legal and binding. Moreover, such procedural safeguards ensure due process during deliberations among members of the organization while at the same time protecting the rights of both the group and each member. Accordingly, these rules of procedure establish guidelines to be followed by all persons attending City Council meetings, including members of the City Council, administrative staff, news media, citizens and visitors.

Section 2 – AUTHORITY

(Rule of Procedure) that "The Council shall by ordinance determine its own rules and order of business." Thus, these rules of procedure are established. In the event of any conflict between the City Charter and these rules of procedure, the City Charter shall prevail.

The parliamentary reference for the City Council is the most recent edition of *Robert's Rules of Order Newly Revised* (RONR). When any issue concerning procedure arises that is not covered by the Rules of Procedure, the City Charter or State law, the Council will refer to RONR, which shall generally determine such procedural issue. www.robertsrules.com.

ANNEX A

Fundamental Principles of Parliamentary Law

The Mayor, Council Members, City Manager, City Attorney, City Secretary, and City staff members appearing before the various sessions of the Manor City Council should become familiar with following rules and customs:

- 1. All members have equal rights, privileges, and obligations; rules must be administered impartially.
- 2. The minority has rights, which must be protected.
- 3. Full and free discussions of all motions, reports, and other items of business is a right of all members.
- 4. In doing business the simplest and most direct procedure should be used.
- 5. Logical precedence governs introduction and disposition of motions.
- 6. Only one question can be considered at a time.
- 7. Members may not make a motion or speak in debate until they have been recognized by the chair and thus have obtained the floor.
- 8. No member may speak a second time on the same question if anyone who has not spoken on that question wishes to do so.
- 9. Members must not attack or question the motives of another member. Customarily, all remarks are addressed to the presiding officer.
- 10. In voting, members have the right to know at all times what motion is before the assembly and what affirmative and negative votes mean.
- 11. The majority vote decides. This is a fundamental concept of democracy.
- 12. All meetings will be characterized by fairness and good faith.

Subject: Resignation of Place Six on City Council

I am resigning my position on the City Council due to health issues and the lack of enthusiasm for the use of resources to complete tasks for the numerous committees. I believe that the use of the City Staff is inefficient in providing for the committees and unnecessary at this time in the city's growth, we are not as big as Austin and do not need all these committees until we reach the population that will require them. Some of the committees are necessary but 75% of them are unnecessary and are an inefficient and ineffective use of City Council Members' time.

I wish you all the best for it all your endeavors and in your service to the residents of Manor.

I will return the tablet and the phone with cords this afternoon or tomorrow morning.

Respectfully,

Gene Kruppa Sent from <u>Mail</u> for Windows 10
