Borough of Manasquan Engineering Status Report Through November 2022

A. ACTIVE ENGINEERING CAPITAL PROJECTS

1. Sea Watch Recreational Improvements Final Design

This project consists of the final design for improvements at the Sea Watch Recreational Area. It is our understanding that the Borough would like to construct a raised one-story structure and improve the property for the purpose of providing multiple recreational uses for the community.

Anticipated facilities for beach goers include locker rentals, a sundries store, public restrooms, and a concession stand with an area for informal dining. We believe that to better enhance the recreational area, site improvements will also be needed for this project. Site improvements that have been discussed are improved ADA accessibility where needed within the site, the addition of sufficient bicycle parking, and reconfiguration of the existing parking lot.

Status: A proposal was authorized on December 2, 2019. A kickoff meeting took place on December 20, 2019 and survey work is underway. Programming and feasibility are underway. Topographic and Boundary Survey have been completed. A meeting with Green Acres took place on March 12, 2020 to review uses within the property limits. A programming meeting took place with the project team on March 27, 2020. Further discussion between the Borough and the Project Team has been ongoing. Currently, the programming exercise for the building is ongoing to determine the necessary square footage based on the Borough's requested building uses. A conceptual plan of the building consisting of footprints and elevation views of the proposed building was provided to the Borough on June 12, 2020. A MCAC meeting occurred July 1, 2021. The conceptual site plan was provided to the Borough on July 23, 2021. A public meeting was held on August 12, 2021 and also discussed on August 17, 2021. A follow up public meeting was held on September 21, 2021 to discuss a revised concept. An NJDEP CAFRA Pre-Application Meeting occurred in late January. The Conceptual Site Plan was provided to the Borough. The CAFRA package was submitted to NJDEP in June of 2021. Colliers Engineering & Design (CED) responded to comments received by NJDEP in late August and is awaiting the application to be deemed Administratively Complete. This project has entered the Public Comment Period which ran until December 17, 2021. A decision from NJDEP is expected 60 days after that date. CED has received comments from NJDEP and responded in January 2022. **NJDEP is reviewing the technical modification to the previously approved Individual Permit. Final Design is underway.**

2. Mount Lane Repairs

This project relates to the ongoing existing issues with the drainage system that passes thru Mount Lane that have been exposed from an event that consisted of a damaged South Monmouth Regional Sewer Authority pipe which needed immediate emergency repairs.

We are performing a hydrologic analysis of the drainage area tributary to the culvert in question. The analysis will take into account present land use, hydrologic soil group and cover type. Peak rates of runoff will be computed for the 100-year storm event plus 25%. The hydraulic capacity of the proposed structure will be analyzed to determine its design storm event capacity.

Remediation alternative analyses will be completed to determine improvements necessary to pass the storm events from which peak rates were computed. Possible remediation alternatives including the installation of a different size and material culvert, etc. will be investigated. Preliminary cost estimates and Environmental Permit issues associated with each alternative will be outlined.

Status: A proposal was authorized on February 18, 2020. A report consisting of proposed repairs was provided to the Borough for review in late March. A proposal for construction documents has been authorized by the Borough. Topographic Survey has been completed. NJ Transit permits and NJDEP permits are being coordinated. NJDEP declared the project administratively complete and our review period ended on March 15, 2021. A 30-day extension was applied for and the new deadline was April 15, 2021. Comments were provided by NJDEP and responded to in late March, and we are now awaiting the signed permit. Ongoing coordination will continue with NJ Transit to obtain an Occupancy Permit. NJDEP Permit has been obtained. NJ Transit Occupancy Permit is in progress. Meetings between NJ Transit, CED and the Borough have been ongoing. NJ Transit has provided concerns about the construction of this project. Currently, the Borough and CED is discussing potential fixes to the pipe with South Monmouth Regional Sewerage Authority (SMRSA). The project has been adjusted to consist of replacement of the two (2) culverts in kind, which requires a technical modification to the NJDEP Permit. This technical modification was submitted to NJDEP late August. The Borough is awaiting comment/approval from NJDEP. The scope has been adjusted so that no work will be completed on NJ Transit property. NJDEP Fresh Water Wetlands comments have been received, and responded to in October 2021. Flood Hazard comments were received and responded to in January 2022. NJDEP has provided the technical modification permit. **This is in project closeout. The road has been reopened to traffic.**

3. Mount Lane Roadway and Drainage Improvements

This project consists of road and drainage improvements along Mount Lane between Euclid Avenue and Virginia Avenue that has a history of drainage problems that cause dangerous ponding conditions. The estimated total construction cost for the project is approximately \$240,000.00; however, the estimate will be subject to change based upon revisions to the project scope. This project site is known for its chronic ponding, especially along Mount Lane's northern

portion. Our goal is to improve the drainage throughout the project site that will help reduce nuisance flooding. ADA upgrades will be completed where required, as well as repairs to sidewalk and driveway aprons as needed. The entire project scope will be milled and overlaid upon completion of the improvements.

Status: Topographic Survey is complete. Design is ongoing. Recent information has informed us that South Monmouth Regional Sewerage Authority (SMRSA) is performing an analysis of the force main along Mount Lane and this project will be on hold until SMRSA informs the Borough about the severity of the required repairs. SMRSA informed the Borough no project will be required. **This project is on hold.**

4. Curtis Park – Final Design

This project will look at the various components and uses that are desired by the stakeholders for improvements to Curtis Park, and work with the Borough on developing a concept that will attempt to conceptualize these items into a plan that will fit the site and be within the project budget.

This phase assumes the preparation of one (1) concept with two (2) rounds of minor revisions to address client comments and a preliminary engineer's estimate. Once concepts are reviewed and approved, our team will prepare a schematic estimate of probable cost of construction for the Borough. The intention is to provide concepts that fit within the Borough's budget for this project.

Status: An internal kickoff meeting took place and conceptual design is underway. Conceptual plans were developed and released in October of 2021. Public feedback has been accumulated and revised concepts have been internally reviewed and coordinated. An updated concept plan was presented in early December. A proposal for Final Design and Bidding was authorized by Council at the 2nd meeting in December. Survey Services have been completed. An updated Conceptual Plan has been submitted to the Borough. A public meeting to gain input was conducted at the end of January. This project was awarded at the June 13th meeting. A Pre-Construction meeting was held in early July. **Construction is underway. Final surfacing should be completed by the time of this meeting. Project punchlist will be developed and project closeout will occur in the Spring.**

5. First Avenue Improvements – FY 2021 Local Aid

First Avenue is an essential roadway that provides access to the beach for the entire Borough. We know that the Borough wishes to proceed with the road improvements in an expedited manner after the summer season concludes on Labor Day and we have structured our services to accommodate the Borough's desired schedule. The Borough recently received a FY 2021 NJDOT Municipal Aid Grant in the amount of \$305,000.00 for the roadway project and will be looking at alternative funding to get the most value in this contract. The current project limits are from the Northern Terminus to East Main Street.

Status: Authorization took place on March 15, 2021. Survey of all of First Avenue is currently underway and is expected to be completed by Mid-April with design to follow. Design is slated to be from the Northern Terminus to East Main Street. Resident notices have been provided as a template to the Borough with the intent to submit to residents this Spring so that any utility work can be completed prior to the Fall. Design has been completed. NJDOT Local Aid has provided the Borough authorization to advertise the project. This project was awarded to Fernandes Construction in mid-August. A pre-construction meeting occurred in September and Construction began in mid-October and ceased in December due to inclement weather. All concrete curb, gutter, sidewalk, driveway, and ADA compliant ramps have been completed. Milling and paving have started and will be completed prior to the meeting. **Punchlist work is being completed and we are in Project Closeout with NJDOT.**

6. First Avenue Improvements - FY 2022 Local Aid

First Avenue is an essential roadway that provides access to the beach for the entire Borough. We know that the Borough wishes to proceed with the road improvements in an expedited manner after the summer season concludes on Labor Day and we have structured our services to accommodate the Borough's desired schedule. The Borough recently received a FY 2021 NJDOT Municipal Aid Grant in the amount of \$250,000.00 for the roadway project and will be looking at alternative funding to get the most value in this contract. The current project limits are from the Main Street to Riverside Drive.

Status: Authorization took place on February 22, 2022. **Design is finishing up. We will be looking to advertise the project in the Winter with construction expected to commence in Spring of 2023.**

7. Borough Hall Parking Lot Improvements

This project includes improvements to the Borough Hall Parking Lot. The parking area at Borough Hall has deteriorating pavement and is in need of replacement/renovation. We understand there is a sentiment that various expansions were performed over the years, but after inspection, it appears the full site was not fully upgraded. There is a lack of sufficient lighting throughout the site and the current pavement marking layout is sub-standard.

Status: Authorization took place in April 2022. Survey work has been completed and design work is ongoing. A concept plan has been provided to the Borough and our team is developing construction documents for this project. This project is being advertised and will look to be awarded at the second meeting in September. This project will commence in the Fall of 2022. A pre-construction meeting is scheduled for early October. **This project is significantly complete and a project punchlist is being developed. Project closeout will occur this spring.**

8. East Virginia Avenue and South Street Pump Station Improvements

This project includes proposed upgrades to the South Street Pump Station and East Virginia Avenue Pump Station in the Borough. Based on that initial investigation and discussion with Borough representatives, the following improvements to these pump stations are proposed: Replace dry well pumps with wet well submersible pumps at both pump stations; Install new piping in wet well and new valve chamber at both pump stations; upgrade controls at both pump stations and replace level sensing equipment in wet wells; Clean and epoxy coat wet wells; modify wet wells to increase diameter of upper sections for pump removal and add hatches; Install bypass connection on the South Street Pump Station force main; and, add mixers or appropriate pumps to wet wells of both pump stations to mitigate grease buildup issues.

Status: Authorization took place in April 2022. Design is completed. Bids were received on June 30th. The Borough is has awarded this project and a Pre-Construction meeting is took place in October. **Shop Drawing Reviw is ongoing and Construction is expected in Spring of 2023.**

B. GRANTS & FUNDING

1. NJHT Grant Management Assistance for Squan Beach Life Saving Station

The Borough was awarded a \$75,000.00 New Jersey Historic Trust (NJHT) Level I Capital Preservation Grant for Exterior Repairs at the Squan Beach Life Saving Station. The grant will be used to partially reimburse the Borough for the exterior repairs at the Squan Beach Life Saving Station project, part of which was completed. Our office is assisting with management and implementation of the grant. A kickoff meeting was held April 18, 2018.

Status: The grant agreement has been executed and our office is assisting with this request for reimbursement. A meeting was held with the Borough, CED and the NJHT on September 26, 2019. The historical architect and preservation committee are refining the scope of re-bid of remaining project items to draw down the entire grant balance. A hearing was held on March 2, 2020 on the adoption of prequalification regulations for general restoration contractors for the anticipated bid. Bid opening took place August 6, 2020.

2. 2023 Monmouth County CDBG

While the Borough has not received official notice that a 2022 round grant was denied, the 2022 application did not preliminarily fall within the County's fundable range. We are preparing to submit the same project, Euclid Ave Improvements Phase 2, for the 2023 round. The deadline is July 22, 2022.

Status: Application submitted. Award announcements expected Spring 2023, with preliminary rankings in September 2022.

3. 2023 NJDOT State Aid

The next round of NJDOT State Aid (Municipal Aid, Bikeways, Transit Village and Safe Streets to Transit) is due July 1, 2022. The proposed project is along Riverside Drive. A priority 2 application will be made for Stockton Lake Boulevard.

Status: Application submitted. PMRS resolution process finalized. Award announcement was made through PMRS email notice on November 23, 2022. The Borough was awarded \$275,000 for Stockton Lake Blvd Improvements Phase 3.

4. 2022 Monmouth County Municipal Open Space

An application was submitted on September 15th for Curtis Park Phase III.

Status: Application Submitted. Awards expected to be made at a County Board of Commissioners meeting in December 2022.

**BOROUGH OF MANASQUAN
ORDINANCE 2385-22**

**ORDINANCE OF THE BOROUGH OF
MANASQUAN, COUNTY OF MONMOUTH, STATE
OF NEW JERSEY AUTHORIZING THE
ACQUISITION OF A CERTAIN INTEREST IN
REAL PROPERTY BY NEGOTIATION,
PURCHASE, CONDEMNATION OR EMINENT
DOMAIN**

WHEREAS, the Borough of Manasquan (“Borough”) has been approved for \$3 million in grant funding to design and construct the downtown NJDOT/Federal Streetscapes Beautification Project (Streetscapes Project); and

WHEREAS, the Borough has been engaged for several years in the engineering design-phase of the Streetscapes Project; and

WHEREAS, the final engineering design for the Streetscapes Project requires the acquisition of approximately 20 easements from private property owners (permanent maintenance and/or temporary construction easements); and

WHEREAS, the Mayor and the Council of the Borough of Manasquan, County of Monmouth, State of New Jersey have determined and concluded that, in order to satisfy the Streetscapes final engineering design, it is necessary, desirable and appropriate for the Borough to undertake acquisition of the property interests related to these easements which are identified as the following:

#	Property Address	Block	Lot	Temporary Construction Easement	Permanent Maintenance Easement
1	199 Main Street	65.02	120.01	X	X
2	168-170 Main Street	62	7.01 7.02	X	X
3	176 East Main Street	90	12	X	X
4	221 Main Street	89	2	X	
5	227 Main Street	89	1	X	
6	229 Main Street	83	52	X	
7	192 Main Street	90	14	X	
8	152 Main Street	62	3.01	X	
9	23 Taylor Avenue	62	9	X	
10	28 Taylor Avenue	90	11.01	X	

and,

WHEREAS, the Borough is authorized by the New Jersey State Constitution, N.J.S.A. 40A:12- 5(a), N.J.S.A. 20:3-1, *et seq.*, and/or any other provision of applicable law to proceed with acquiring certain property interests by acquisition/condemnation/eminent domain as long as just compensation is paid for the same.

NOW, THEREFORE, BE IT ORDAINED by the Mayor and the Council of the Borough of Manasquan, County of Monmouth, State of New Jersey as follows:

1. **RECITALS INCORPORATED:** The above recitals are

incorporated into this section of the Ordinance as if specifically set forth at length herein.

2. **SPECIFIC FINDINGS:** The Borough finds that the acquisition will promote the objectives of the Streetscapes project, and further finds that any purchase or taking by eminent domain of any and all property interests necessary for the same are all in the furtherance of a public use and purpose.
3. **AUTHORIZE ACQUISITION/CONDEMNATION:** The Council specifically authorizes any and all necessary and appropriate actions by Borough officials including the Mayor, Business Administrator, Chief Financial Officer, Borough Clerk, Borough Attorney, and any other Borough officials or assigned Borough Special Counsel for the takings and obtaining of certain property interests in the properties as set forth herein through negotiation, purchase, or condemnation/eminent domain, including, but not limited to, the hiring of any experts, engaging the services of land surveyors, title insurance companies, appraisers, and any other professional whose services are necessary or appropriate to implement the purposes of this Ordinance, the making of any offer by the Borough to the property owner(s) in the full amount of the fair market appraised value of the property interest that the Borough seeks to acquire in said property, and to negotiate in good faith with the record owner(s) of the property for its voluntary acquisition in accordance with N.J.S.A. 20:3-6, and in the event that the negotiations for the voluntary acquisition of the property interest are unsuccessful for any reason to commence a condemnation action by the filing of a Verified Complaint and Declaration of Taking, depositing the estimated just compensation with the Clerk of the Superior Court, filing a Lis Pendens, and taking any and all other actions of any administrative or other nature necessary to complete the process contemplated by this Ordinance.
4. **IDENTIFICATION OF PROPERTY:** The properties for which a taking of property interests is authorized by negotiation, purchase, or condemnation/eminent domain pursuant to this Ordinance are identified in the above table. The property interests to be acquired may be permanent, irrevocable, perpetual acquisitions of the easement in fee or temporary to allow for agents of the Borough to enter during construction of the Streetscapes project.
5. **OFFICIALS AUTHORIZED:** All appropriate officials of the Borough, including, but not limited, to the Mayor, Business Administrator, Chief Financial Officer, Borough Clerk, Borough Attorney, and any and all experts or others acting on behalf of the

Borough are authorized by this Ordinance to sign any and all documentation and take any and all action necessary to effectuate the purposes and intention of this Ordinance.

6. **REPEALER:** All Ordinances or parts of Ordinances inconsistent herewith are hereby repealed to the extent of such inconsistency only.
7. **SEVERABILITY:** If any section, paragraph, subdivision, subsection, clause, or provision of this Ordinance shall be adjudged invalid, such adjudication shall apply only to the section, paragraph, subdivision, subsection, clause, or provision declared invalid and the remainder of this Ordinance shall remain in full force and effect and shall be enforceable.
8. **EFFECTIVE DATE:** This Ordinance shall take effect immediately upon final adoption and publication as required by law.
