Chamber of Commerce.

Summary: Attached is the Chamber's proposal for the 2021 Tourism Contract. We have

decreased the amount for 2021 to \$85000. Attached is a plan for the 2021 Tourism Advertising dollars. These funds will be used to promote events and attractions. Our marketing plan also allows for radio and print advertising in addition to the social media ads. The Marketing Plan is still very heavy on social media advertising so that we can easily track engagement and see ROI

on our advertising investment.

MEMORANDUM

To:

Moberly City Council; Brian Crane, City Manager

From:

Matt Douglass, Assistant Finance Director

Re:

2020-2021 Budget Update/Information for Wage Adjustment Decision

Date:

November 12, 2020

WAGE ADJUSTMENT

When developing the 2020-2021 operating budget, the effects of the COVID-19 were largely unknown. The annual budget adopted for 2020-2021 factored in an estimated 5% reduction in sales tax revenues and conservative income estimates in other categories. The budget held salaries and wages for City personnel at 2019-2020 levels, pending review later in the fiscal year after more information was available.

Through the first four months of the 2020-2021 fiscal year, sales tax revenues are 20% above the budgeted levels, and 12% over the previous year to date. Use tax, gas/electric franchise fees, and business license revenue are also well above budgeted levels.

The revenues have been strong, but this has not translated to an increased cash balance in the General Fund. The purpose of this memo and the attached information is to explain that difference and give management and City Council assurance that funds are available for salary and wage increases for City personnel.

General Fund – Exhibit 1a

Through the first four months of fiscal year 2020-2021, actual General Fund revenues received total \$2,541,758. If total budgeted General Fund revenues for the year of \$7,971,000 is divided by 3, it gives an expected revenue amount of \$2,657,000 through four months. However, simply dividing total budgeted revenue does not give an accurate picture of whether revenues are truly ahead or behind expected. Real estate and personal property taxes make up a significant portion of revenues and are received in January-February. To balance revenues and expenditures, transfers from the Use Tax Trust Fund, Street Improvement Fund, and Payroll Fund were budgeted. These transfers have not needed to be made in years past but are budgeted in case of serious revenue shortfalls. Exhibit 1a shows an expected year to date budget with these revenue items not yet received removed from the calculation. Using this model, revenues for the fiscal year are currently \$399,028 in excess of the adjusted budget.

Expenditures year to date total \$2,874,077. This amount is \$217,077.06 over 33.3%- or four-months' worth of budget, but that does not necessarily mean we are over-spent. The annual payment to MIRMA of \$314,000 for liability and work comp insurance was made in July. Other large or non-recurring items are listed below the calculation on Exhibit 1a.

Using the adjusted revenue figure that removes real estate tax, personal property tax, and transfers, net revenue in excess of budget year to date is \$181,951.48 for General Fund.

This means if revenues and expenditures meet budget for the rest of the fiscal year, General Fund will have this surplus.

Parks and Recreation - Exhibit 1b

As shown in Exhibit 1b, Revenues for Parks and Recreation have been adjusted in a similar manner as General Fund, with the budgeted amounts for real estate tax, personal property tax. and interfund transfers removed. When comparing actual revenue received with this adjusted budget, Parks and Recreation revenues are \$133,675 in excess of budgeted. Expenditures are about \$10,000 over the year to date budgeted amount, but several one-time purchases have already been made for the fiscal year. Using the adjusted revenue figure that removes real estate tax, personal property tax, and transfers, net revenue in excess of budget year to date is \$123,613.66 for Parks and Recreation.

Public Utilities - Exhibit 1c

Since revenues for Public Utilities are not derived from taxes, there has been no adjustments to the revenues as presented in Exhibit 1c. Revenues for Utilities have been above budgeted amounts through the first four months of the fiscal year by \$168,990. Each month the amount of utilities collections revenue that is not used for operations is transferred to the Operating Reserve Fund. This is not an expense, but a transfer, and it has been removed from the expenditure calculation. For the fiscal year to date, net revenue in excess of budget year to date is \$369,275.55 for Public Utilities.

Emergency 911 Telephone - Exhibit 1d

In attached Exhibit 1d, no adjustments to revenues for the Emergency 911 Telephone Fund have been made. This is because revenues are received relatively evenly throughout the year in this fund. Due in large part to making the budgeted transfer from general fund every month instead at the end of the fiscal year, revenues for the Emergency 911 Telephone Fund have been much better than last year. Revenues are above budget and expenditures are below budget through the first four months of the fiscal year. For the fiscal year to date, net revenue in excess of budget year to date is \$45,783.20 for Emergency 911 Telephone.

As shown in each of these exhibits, each fund that has personnel costs is well above net budgeted revenue for the first four months.

Projected Cost of Wage Increases - Exhibits 2a & 2b.

These tables show the additional costs of different wage increase levels. **Exhibit 2a illustrates the additional cost to the budget for salary increases in the range of 2-4%.** Each across-the-board percentage point increase will cost General Fund approximately \$39,000, Parks and Recreation \$4,000, Utilities \$12,000 and other funds \$4,000. A 2% increase for all City personnel would increase the overall budget by \$115,756.88.

Exhibit 2b shows the additional cost to the budget for a one-time increase. An additional \$100 for all employees would cost General fund approximately \$10,000, Parks and Recreation \$1,200, Utilities \$3,400 and other funds \$850. A \$500 one time increase for all City personnel would increase the overall budget by \$77,731.55

HEALTH PLAN UPDATE

Brian, Marva, Greg, and I met with the USI team members on Monday, November 9 to finalize the plan design and set rates for the new health plans. The core/base plan will now be an HDHP (High Deductible Health Plan) with deductibles of \$2,800 individual and \$5,600 family, with the City contributing \$75 seed money monthly to the HSA account of each participating employee. The current core plan will become the alternate or "buy-up" plan retaining the existing structure, but it will add a \$50

monthly employee premium. Costs to the City will be \$700 per month for the HSA plan (\$625 for the plan + \$75 seed money funding) and \$650 per month for the alternate/buy-up plan. This creates a dual contribution rate structure which will make the accounting a little more challenging, but we are up to it. In addition, the employee cost for family coverage on the alternate plan will increase 8%, the percentage that the HDHP cost plan increased, which equates to approximately \$32-\$35 per employee per month.

HDHP cost to City budget

HDHP cost differential = \$50/month (\$700 new contribution rate less \$650 current contribution rate)

| 10% HDHP participation (13 employees) | 13 x \$50 x 6 months | \$ 3,900 |
|---------------------------------------|----------------------|----------|
| 25% HDHP participation (33 employees) | 33 x \$50 x 6 months | \$ 9,900 |
| 40% HDHP participation (53 employees) | 53 x \$50 x 6 months | \$15,900 |

Below are estimates using the October plan census as a basis to give you some idea of the effect of this plan change on the Health Trust Fund. This is an educated guess only as there are multiple factors that will play into the actuals once enrollment is completed.

Virtual employee education meetings to detail the new health plan structure are scheduled to begin November 18. There will also be a Brainshark recording of this information that employees can access on their own if they cannot attend a regular meeting. Open enrollment will be completed in early December which should allow UMR and Capital RX enough time to get all changes incorporated into their IT systems.
