Plumbing Certification Unification
With recent changes in the law regarding plumbing certification governance, board staff has been working with the Division of Industrial Compliance plumbing division to identify the DIC certified personnel who do not yet hold BBS certification and communicate the change to them as well as BBS and DIC certified personnel who may not hold the plumbing plans examiner certification. Board staff will issue new certifications for DIC certified plumbing inspectors and send certification cards to them before September 30.

Extending interim certification periods for personnel expiring July 2021 through December 2021

Board staff has received some requests for extension of certifications that were outside the extension previously granted for interim and trainee personnel, given that the pandemic affected their ability to attend Code Academy and take tests in the same way that the previously extended personnel were affected.

Phoenix, AZ

Chairman Galvin called for the ayes and nays.

Motion carried unanimously.

BUILDING DEPARTMENT SUPPORT AND OVERSIGHT

RE-1 Complaint Summary Report

Mr. Robert Johnson presented the complaint summary update in the Board's meeting packet at Tab RE-1:

Robert Kurtz, Former Building Official, Vermilion Township

On July 29, 2021, a complaint was received from Mr. Robert Baker, building official with Vermilion Township, indicating that previous building official Robert Kurtz had provided electrical inspections on projects for which he does not hold an Electrical Safety Inspector certification. Records were provided by Mr. Baker of electrical inspections signed-off by Mr. Kurtz during the course of several years from 2015. Mr. Kurtz provided a response in explanation of the circumstances of his actions and admitted that he did perform the inspections. *See attached documents.* Recommend dismissal of the complaint and consideration of disciplinary action based on information received.

Mr. Leach moved and Mr. John Johnson seconded to accept the complaint summary report and to require Mr. Kurtz's residential building official certification be placed on probation for a period of 6 months during which time Mr. Kurtz shall complete 3 hour chapter 1 training in addition to the required 30 hours of continuing education and the completion of an audit of the City of Vermilion's operation by Board staff for compliance with the board's rules. A certificate of completion of the continuing education shall be submitted to the Board prior to the end of the probationary period.

Chairman Galvin called for the ayes and nays.

Motion carried unanimously.

Angela Cavanaugh, Building Official, Stark County

On August 12, 2021, a complaint was received from Michael Gainer, indicating that Stark County building official, Angela Cavanaugh had exceeded her authority related to the determinations of applicability of Ohio Building Code to an existing building use and agricultural exemption. Complainant renovated a barn and began using it for paid events, such as weddings and in July 2018 Ms. Cavanaugh issued an order for the complainant to comply with the Residential Code of Ohio. The Lawrence Township Fire department issued an order for violations based on its new commercial use. The complainant appealed the Stark County building order to the Stark County Board of Building Appeals which upheld the order. Complainant then appealed the Lawrence Township fire department order to Ohio Board of Building Appeals and then to Court of Common Pleas. On June 28, 2021 the Fifth District Court of Appeals who upheld the findings of the trial court which found that the building in question is not exempt from the building code. *See attached documents.* As indicated in complainant's correspondence, complainant intends to appeal to the Ohio Supreme Court. Board staff evaluated Ms. Cavanaugh's actions and found no violation of the Boards rules. Additionally as this matter involves pending litigation regarding a legal determination of whether the building is incident to the agricultural use of the property thereby exempt, Staff recommends dismissal with no further action.

Mr. Leach moved and Ms. Cromwell seconded to accept the complaint summary report and dismiss the complaint with no further action as no violation of the Board's rules has been identified and this matter involves pending litigation regarding a legal determination of whether the building is incident to the agricultural use of the property.

Chairman Galvin called for the ayes and nays.

Motion carried unanimously.

Patrick Barnes, Lake County Residential and Electrical Safety Inspector

On August 11, 2021, a complaint was received from Nicky Vassil indicating that Lake County residential building and electrical inspector Patrick Barnes was unethical in his involvement of their pool project that was not bonded correctly when Mr. Barnes 'approved' a certification letter from a contractor for the electrical system and bonding of the pool. *See attached documents.* While Lake County's Building Official David Strichko notified the Board that Mr. Barne's actions are being addressed through Lake County's human resources as well, Staff recommends authorization of an investigation into the actions of Patrick Barnes for evaluation of violations of the Board's rules.

Mr. Leach moved and Mr. Warner seconded to accept the complaint summary report and to authorize an investigation into the actions of Patrick Barnes for evaluation of violations of the Board's rules.

Chairman Galvin called for the ayes and nays.

Motion carried unanimously.

RE-2 Investigation Report 21-01 Michael Bruns

Mr. Rob Johnson presented the Investigation Report regarding the actions of Michael Bruns included in the Board's packet at Tab RE-2 and stated that advance draft of the report was provided

to Mr. Bruns for comment. Mr. Bruns comments on the Report are attached as Appendix A. The Board initiated the investigation of Mr. Bruns on its own motion after receiving information alleging Mr. Bruns had reviewed his own construction documents produced by his company, Mote and Associates while working as a master plans examiner for Darke County. Mr. Rob Johnson summarized after having reviewed the information, Board Staff determined that Mr. Bruns had violated the certification rules relating to conflict of interest by not recusing himself from the project which he sealed as the engineer of record, and reviewed as the certified master plan examiner. The civil engineering construction documents provided the basis of that determination. Mr. Rob Johnson continued that Board Staff recommends closure of the investigation and a disciplinary action of probation requiring attendance of an ethics training class provided by the Ohio Ethics Commission.

After review of investigation report #21-01, Mr. Leach moved and Mr. John Johnson seconded to accept the staff recommendations to close the investigation, and to require Mr. Bruns' master plans examiner certification be placed on probation for a period of 12 months during which time Mr. Bruns shall complete 3 hours of ethics training sponsored by the Ohio Ethics Commission and 3 hours training in Chapter 1 in addition to the required 30 hours of annual continuing education. Certificates of completion shall be submitted to the Board of building standards prior to the end of the probationary period.

Chairman Galvin called for the ayes and nays.

Motion carried unanimously.

RE-3 BBS Case No. BBS2019-011 (John Stigalt) Report and Recommendation

After providing an overview of Chapter 119 adjudicatory process, Assistant Attorney General Brian Honen presented the Report & Recommendation of the Hearing Officer assigned in the matter of the proposed suspension or revocation of John Stigalt's Building Official, Building Inspector, Plumbing Inspector, Electrical Safety Inspector, Plumbing Plans Examiner, Building Plans Examiner, Residential Building Official, and Residential Plumbing Inspector certifications. Mr. Honen stated O.A.C. 4101:7-3-01(F)(7)(c) authorizes the Board to revoke or suspend an individual's certification if the Board concludes that the individual committed one or more of the infractions identified in the rule. In this case, Mr. Honen stated that the hearing officer determined that the Board proved by a preponderance of the evidence that Mr. Stigalt engaged in conduct described in (F)(7)(c)(iii) and (v) of the rule and recommended revocation of Mr. Stigalt's certifications as set forth in the Board's Notice of Opportunity for Hearing.

Based on review of the Hearing Officer's report and recommendation, and evidence presented at hearing, Mr. Leach moved and Mr. John Johnson seconded to confirm and approve the findings of fact and the recommendations of the assigned hearing officer in Case No. # 2019-011 and revoke Mr. Stigalt's Building Official, Building Inspector, Plumbing Inspector, Electrical Safety Inspector, Plumbing Plans Examiner, Building Plans Examiner, Residential Building Official, and Residential Plumbing Inspector Certifications.

Chairman Galvin called for the ayes and nays.

Motion carried unanimously.

OLD BUSINESS

OB-1 Reconsideration of Petition 20-01 (2020NEC)

Ms. Ohler updated the Board on additional information the Code Committee received regarding incompatibility of certain HVAC equipment and GFCI requirements in the 2020 NEC in Article 210.8(F). Following receipt of this information the Board's Code Committee reconsidered its prior action to recommend approval of Petition 20-01 to adopt 2020 National Electrical Code without amendments. The Code Committee now recommends adoption of 2020 with modifying language to exempt certain HVAC equipment from Article 120.8(F) requirements. Ms. Ohler also provided

history of the Code Committee’s review of the Petition since its receipt in early 2020 including comments received during the initial stakeholder meeting conducted in March 2020.

Mr. Samuelson moved and Mr. John Johnson seconded to reconsider the Board’s previous action on Petition 20-01 which was to approve the petition and adopt the 2020 NFPA 70 without amendments.

Chairman Galvin called for the ayes and nays.

Motion carried unanimously.

Mr. Samuelson moved and to approve Petition 20-01 adopting the 2020 NFPA 70 (National Electrical Code) with an amendment noted in rules 4101:1-35-01, 4101:2-15-01, and 4101:3-15-01 to NEC Article 210.8(F) to exempt certain HVAC equipment from GFCI requirements of this article. Mr. Samuelson furthered move to direct staff to initiate the stakeholder and rule development process to adopt this language. Mr. Miller seconded.

Chairman Galvin called for the ayes and nays.

Motion carried unanimously.
