Dear Sir,

Please find my enclosed application for non-residential Building Dept. Personnel. for your consideration and review. As you can see, I have enclosed a couple of references as well as a work history which spans decades. I must say that it was difficult to complete the work history and it is not comprehensive, as I have performed on many other jobs including extensive construction and new home construction in the residential marketplace as well. Please feel free to call me anytime if you have further questions.

Best Regards,

David L. White

Re: RBI Application Glen Benedict

Dear Board Members:

I am writing this letter to provide a character reference for Mr. Glen Benedict, who is applying for certification as a Residential Building Inspector. Glen has successfully completed the ICC B1 exam and acquired the ICC Residential Building Inspector Certification.

Glen is a Property Maintenance/Code Enforcement Officer enforcing the provisions of the Mentor Code of Ordinance relating to the upkeep of the exterior of properties in the City of Mentor.

I have known Glen for 3 years. He conducts his business with great respect for residents, property owners and contractors hired to perform repairs. His attitude and work ethics are phenomenal.

His certification as a Residential Building Inspector will open many doors of opportunity. Acquiring this certification will lend itself to a higher level of standard among his clientele.

I hope the Board finds itself approving the application for Residential Building Inspector Certification for Mr. Glen Benedict.

Sincerely,

James E. Decker, Jr., P.E.

Attn: To whom it may concern

As a foreman with Wat-Kem Mechanical, David worked on numerous commercial building projects. Most of these projects it is essential to have the knowledge and skill of commercial building construction. As the foreman on the project, David's responsibilities were but not limited to ensure structure integrity and design of the building and plans, schedule sub-contractors, and scheduled inspections.

Fitz Hall at University of Dayton (Dayton, OH) 8/16/17

As the foreman on the project, David's responsibilities were but not limited to assist the university as a contractor In remodeling of a classroom science lab, to ensure structure integrity and design, schedule sub-contractors, and scheduled inspections.

Regina/Debbie,

In past years we had a few Universities that had certified ESI or Plumbing inspectors on staff that had oversight for minor work not requiring sealed plans. Either through attrition or other operational reasons, we do not have any that currently utilize this program.

In my conversations recently with the Universities, there are several with upcoming plans for campus-wide projects involving minor building scopes of work – many of a repetitive nature. For example, some buildings may have plans for minor HVAC alterations which involves reconfiguring soffits or bulkheads, therefore the framing of these soffits would require an inspection.

As you are aware, OBC 105.1.5 does not currently mention “building” as one of the scopes of work. If it was possible to have this code section modified as such, it would give owners an option to hire certified building inspectors for oversight of minor building scopes of work. This would also eliminate the need for a building department such as DIC from tying up an inspector for repetitive type projects of low complexity.

105.1.5 Annual approval. *In lieu of an individual approval for each alteration to an existing **electrical, gas, mechanical, plumbing, or piping** installation, the building official may issue an annual approval upon application to any person, firm or corporation regularly employing individuals holding the related board 4101:1-1-01 21 certification in the building, structure or on the premises owned or operated by the applicant for the approval.*

Let me know your thoughts and the potential of this getting legs.

Thanks!

NB-2 Complaint Summary Update

Complaint and Investigation Consideration Status Report

May 7, 2021

To: Members of the Ohio Board of Building Standards (OBBS) for the May 14, 2021 Board Conference Meeting as reported by Board staff. The following list of new complaints received are to be considered by the OBBS certification committee for recommendation to the full Board for any action.

New Complaints:

I. Village of Newburgh Heights

A. On April 14, 2021, a complaint was received from Mr. Todd Knight alleging that Building and Housing commissioner Kristine Pagsuyoin and inspector Hilary Schickler were refusing to release an escrow account for work completed for a new residential garage. He provided that the commissioner required electric to be installed in the garage even though it was not in the design that was approved by the building official, Anthony Carbone. He also indicated that the inspector issued a lengthy list of arbitrarily violations to items that were previously inspected. He also indicated that she did not cite the code sections from the building codes or the ordinances on the inspection record.

B. On April 30, 2021, A second complaint was received from Mr. Nick Smerglia alleging similar circumstances related to building enforcement in the Village. After review by Board staff, it appears that the complainants do not understand the separation between the Village 'Housing' department and associated staff, and the Village 'Building' department and associated staff that are certified by the OBBS. The Village representatives, Ms. Pagsuyoin and Ms. Schickler are not certified by the OBBS. Neither were enforcing the OBBS rules, but rather the ordinances. After Board staff reviewed the complaints, and processed the additional constituent calls related to the concerns about enforcement, their situations and Village Housing staff, it was determined by Board staff that these issues were all associated with the local enforcement of property maintenance, point of sale, and rental registration ordinances which are outside the Board's authority. Additionally, due to the recent separation of Mr. Carbone and previous staff from Newburgh Hts, the Village contracted with Safebuilt to provide code enforcement services. Attached are the certified personnel assigned to the Village. Board staff recommends the Board dismiss the complaints with no further action.

II. City of Greenville.

On March 29, 2021, the State Fire Marshal's office notified the Board's office of a possible conflict of interest involving certified plans examiner Michael Bruns and a project in Greenville, Ohio that was reviewed for code compliance by Mr. Bruns on behalf of the Miami County building department. It was noted in documents received that Mr. Bruns had sealed documents that were authored by the engineering company, Mote and Associates, which he is affiliated. A phased approval was issued for footings

and foundations for the project. After review, Board staff recommends the Board authorize an investigation on its own motion.

Hello Amy,

I just received your letter requesting additional information for my work experience. I have worked with RADCO for only 6 months as a 3rd party inspector. Before that, I worked as an inspector in North Carolina for over 20 years. During this time, I have worked for various jurisdictions. My last 3 employers: Chatham County for 1 year, Town of Chapel Hill for 3 years, and City of Raleigh for 4 years. I have inspected every occupancy classification recognized by code: Assembly, Business, Education, Hazardous, Industrial, Institutional, Mercantile, Residential, and Storage.

I hold certifications as a Level III inspector in Building, Fire, Electrical, Mechanical, and Plumbing with the State of North Carolina.

If you need verification of my certifications, please contact Shane Phelps, shane.phelps@ncdoi.gov (919-647-0057) or Terri Tart, terri.tart@ncdoi.gov (919-647-0031) with the NC Department of Insurance Office of State Fire Marshal. Note – my ID# is 5915 and my full name is Robert Eugene Peele, Jr.

Please contact me if you need any other information.

Thanks for all that you do,

Gene Peele
