CERTIFICATION COMMITTEE MEETING
AGENDA (REVISED 3/23/22)

DATE: MARCH 24, 2022
TIME: 10:00 AM
LOCATION: TRAINING ROOM 3, 6606 TUSSING ROAD, REYNOLDSBURG, OHIO

Call to Order

Consent Agenda

Personnel Certification Applications

P-1 Anicic, Zoran ESI
Certification ID# 5685
Current Certs MI, PI, RBI
Staff notes: Received after ESIAC submission. recommend request for additional information, ESIAC review.
Committee recommendation:

P-2 Barbour, James BI, ESI
Certification ID: 8785
Current certs: none
Staff notes: Appears to meet requirements for ESI: recommend approval, recommend request for additional information on structural experience.
ESIAC Recommendations: Recommend approval for ESI
Committee recommendation:

P-3 Corbin, Patrick - BI
Cert ID: 8769
Current Certifications: None
Staff Notes: Additional information submitted, please review. Recommend approval.
Committee Recommendation:

P-4 Dominick Louis RBI
Certification ID# 4580
Current certifications: none
Staff notes: Application does not provide sufficient information on construction experience. Consider Trainee.
Committee recommendation:

P-5 Ferry, Raymond RBI
Certification ID: 8779
Current certifications: None
Staff notes: Application does not reflect 3 years trades experience, recommend request for additional information.
Committee recommendation:

P-6 Hackney, Joe - ESI
Certification ID:
Current certifications: None
Staff notes: Review experience, recommend approval. Will be attending meeting
ESIAC Recommendations: not recommended
Committee recommendation:

P-7 Heilman Robert - PI
Certification ID: 8789
Current certifications: None
Staff notes: Appears to meet requirements, recommend request for additional information on installation experience.
Committee recommendation:

P-8 Lamp, Eric - RBI Trainee, Alternative Trainee Plan
Cert ID:
Current Certifications: None
Staff Notes: Meets requirements, thorough alternative trainee plan. Recommend approval
Committee Recommendation:

P-9 Mercer, Nathaniel - BI, RBO
Certification ID: 8795
Current certifications: None
Staff notes: Review experience, recommend request for additional information or BI trainee
Committee recommendation:

P-10 Mowry, Michael - BI, MPE, RPE, RBI
Certification ID:8793
Current certifications: None, Registered PE since 1984
Staff Notes: Meets criteria for MPE, RPE, RBI. Review experience for BI, recommend approval
Committee Recommendation:

P-11 Schuller, Shawnee RBI Trainee, Alternative Trainee Plan
Certification ID: 8786
Current certifications: none
Staff notes: Well-constructed individualized trainee plan, recommend approval.
Committee recommendation:

P-12 Shipkowski, Scott - BI
Certification ID: 8783
Current Certifications: none
Staff notes: Review experience, recommend approval.
Committee recommendation:

P-13 Vanover, Thomas - BPE, FPI
Cert ID: 1538
Current Certifications: BO, BI, RBO
Staff Notes: Meets requirements for BPE, review equivalence for FPI.
Committee Recommendation:

P-14 Hamker, Daniel - BI, MI
Cert ID: 5935
Current Certifications: PI, RBI
Staff Notes: Tabled at last meeting to request applicant and BO implement a short trainee program: applicant confirms they will comply.
Committee recommendation:

Certification ID: 8560
Current certs- BI

C-3 Elzein, Youssef - MPE
Certification ID# 4813
Current certifications: None, PE since 1999

C-4 Esche-Lyon, Drew - NRIUI
Certification ID: 8790
Current certifications: None, has completed exams.

C-5 Gillespie, Mark - BI, RBO
Certification ID: 8796
Current certs: None

C-6 Hanigan, Ryan - BO
Cert ID: 4497
Current Certifications: BI, RBO, RBI

C-7 Harmon, Shawn - BO
Cert ID: 5544
Current Certifications: ESI, BI, RBO

C-8 Harris, Eddie - NRIUI
Certification ID: 8784
Current certifications: None, has passed all required exams

C-9 Hillier, Patrick BO
Certification ID# 5655
Current cert- MPE

C-10 Lalonde, Douglas CBO
Certification ID: 1992
Current certifications: BI, MI, RBO, RPE, RMI

C-11 Lane, William - RBO, RPE, RBI
Certification ID: 8791
Current certifications: None

C-12 Sellers, Jesse - BI, RBO
Certification ID: 8794
Current certifications: none

C-13 Swallow, Ellen BI, RBO
Certification ID: 8797
Current certifications: None

C-14 Szanati, John - RBI
Certification ID: 8792
Current certifications: None

C-15 Taylor, Jeff - NRIUI
Certification ID: 8578
Current certifications: RIUI, has passed all exams for NRIUI

C-16 Fisher, Lance - EPE
Cert ID: 8765
Current Certifications: ESI

C-17 Sanders, Jesse - BI
Cert ID: 2182
Current Certifications: EPE, ESI, RBO, RBI

Consent-Certificates Issued Administratively

A-1 Certifications issued administratively
8752 - Gilkison, Craig - RBO
8755 - Watkins, Clyde - RBO

Education: Basic electricity / Eastland Vocational/Technical School (6 months course). Advanced Electricity / Southeast Vocational / (4-month course). Advanced Electrical Motors and Controls: Southeast Vocational / (4-month course). IBEW school for transformers and power distribution (3-month course).

Westinghouse Control Systems: Refuse and Coal Power Plant; City of Columbus, (6-week training course). P&H Crane Systems Training (6-week training course). Bailey Controls: Network 90 Multi-Function-Controller (4-week course).

U.S. Department of Labor – Mine, Safety, & Health Administration; Qualified Electrical Low/Medium/High Voltage Underground.

Certified by the state of West Virginia – Classification 07 (Experienced Miner) - Certification #L-5434

Certified by the Commonwealth of Kentucky, Department of Mines & Minerals.

Miners Certification ID #1072766; EE, ES Electrical service & High Voltage – Certification #MN-91-94; FA-S Surface First Aid – Certification #MN-1025-92.

Experience: 1985-1989; City of Columbus (Refuse & Coal Power Plant). Installation, maintenance, and repair of 4160 VAC switchgear, Steam Turbine Electrical Generation equipment, and a multitude of related equipment found in a power plant. Installation of air knife equipment to clean belts during production; all new work was inspected by City of Columbus inspectors.

1989-1992; John Glenn International Airport (Port Columbus at the time). Designed and installed new runway wiring systems, new security gates that access the secured airfield environment, navigation aids for landing of commercial and private aircraft. All of these installations were reviewed and inspected by the City of Columbus and the Federal Aviation Administration.

1992-1995; Rebuild, install, and recondition all types of surface and underground mining equipment, Rewire and make federally approved 3 coal tipping and screening operations in Kentucky & West Virginia; All inspected and approved by

Federal MSHA inspectors. Made monthly safety inspections at all surface and selected underground mining operations within Western Consolidated Coal Company and signed off federal documents certifying their safety for operations.

1995-2021; Hired as plant electrician at The Columbus Dispatch. Repair, installation, and inspection of all plant electrical systems along with repairs and installation of office environmental systems and HVAC equipment. Designed and installed new photo-electric system for detecting ink spills and overruns. After becoming a supervisor and eventually the Engineering & Maintenance Department manager mentored numerous staff members in electrical safety, proper installation procedures, and use of personal protective equipment.

OPTIONAL ALTERNATIVE TRAINEE PROGRAM PLAN FORM

Building Official, Supervisor and Applicant shall complete and submit this form with BBS Application for Trainee Certification only if Trainee Sponsor is proposing an alternative trainee program in lieu of the requirements of the traditional trainee program specified in OAC 4101:7-3-01(F)(5)(e). No Alternative Trainee Program may propose to waive examination requirements or attendance at the OBCA.

PROPOSED ALTERNATIVE PROGRAM PLAN DESCRIPTION

Attach additional pages if necessary and/or a letter describing the proposed program conditions.

Proposed Alternative Program Length: 1 Year

Proposed Alternative Program Education Requirements: 10 Hours per week of individual training, and completion of code academy. Must pass ICC RBI test within the year. One hundred hours of code education within the year.

Proposed Alternative Program Training & Supervision Requirements: Half year training for review of plans and half year supervised and reviewed residential building inspections, checking for compliance.

Explanation of how the Proposed Alternative Program provides equivalent level of training and education based on the Applicant's experience documented in the application: Along with prior training in construction and work experience with the housing department, this will provide necessary field and plan review training

Applicant Signature: Eric Lamp Date: 3/14/22

Supervisor Signature: [signature] Date: 3-14-22

Building Official Signature: [signature] Date: 3/14/2022

AMY - I HAVE A REVIEW PENDING ON 3/24 FOR MASTER PLAN EXAMINER & COMMERCIAL INSPECTOR. OUR BUILDING OFFICIAL HAS ASKED ME TO ALSO OBTAIN BY APPLICATION A CERTIFICATION FOR RESIDENTIAL PLANS EXAMINER & INSPECTOR. I KNOW THIS IS INSIDE THE REQUIRED 10 DAYS PRIOR TO THE MEETING BUT I THOUGHT MAYBE SINCE THERE IS NO MEETING SCHEDULED FOR APRIL AND THEY ARE ALREADY REVIEWING MY QUALIFICATIONS AT THE PENDING MEETING IF YOU COULD ASK THEM TO COMBINE REVIEW OF THE COMMERCIAL W/ THE ATTACHED RESIDENTIAL APPLICATION W/ THE SAME INFORMATION REGARDING QUALIFICATIONS. THANKS FOR ANY CONSIDERATION YOU MIGHT BE ABLE TO RENDER.

BUILDING DEPARTMENT

Alternative Trainee Program Plan Form

Shawnee has a firm grasp of the Legal Aspects of Code Administration, Chapter 1 of the RCO, reads building plans and site plans and understands what type of information is required by our plan reviewer. She is our first line in zoning review and directing plans to the certified individuals who need to see them. She understands the inspection and enforcement procedures and most importantly understand the reasons behind those procedures. What Shawnee lacks is the field experience that connects her work in the office with the work on the jobsite. That's the gap we will be trying to close.

First and most importantly Shawnee will be going out on inspection with our RBO, this will account for 50 supervised inspections the first year and 25 per year there-after, until successful completion of Code Academy and RBI test.

Shawnee has been taking continuing Education thru BOCONEO for the past couple of years, she will continues to take those classes and supplement with Continuing Education offered by BBS, 30 hrs. within the first year.

She will also be working through Fundamentals of Residential Construction 4th addition.

I would expect that after a year she will be ready to take her test and attend Code Academy.

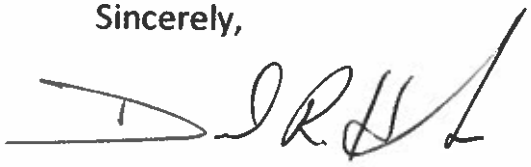
My Commission Expires: 10/5/24

January 29, 2022

To: Board of Building Standards,

I am applying for my Building and Mechanical Inspector interim certification. I am aware my experience falls short of the required amount, but am asking the board to take into consideration my 20 years of field experience (12+ as a state licensed plumbing contractor), 3 years of experience as a Plumbing and Residential Building inspector, and that I have passed the required exams prior to this request. I have included a few letters of recommendation to speak on my behalf. I have also included the test results for the B2 and M2. Your review would be greatly appreciated.

Sincerely,



Daniel Hamker

To Whom It May Concern,

This letter of recommendation is in reference to Dan Hamker. He is a State certified Plumbing Inspector and Residential Inspector and is now pursuing a Commercial Building Inspector certification. I have known Dan for some years and he has been my back up Plumbing Inspector in the City of Sheffield Lake for over a year now. Dan is a fine upstanding person and an outstanding Inspector. I have no doubts he has the experience, background and knowledge to be a competent Commercial Building Inspector and that he will uphold the Building Code an and represent the standards of the OBBS to the highest extent.

The quality and integrity of Dan's inspection work is only exceeded by his knowledge of the building codes and his dedication to the building industry; therefore, I would highly recommend him for a Commercial Building Inspector Certification.

Sincerely,

Thomas F. Carleton MBA

RE: Daniel Hamker

To Whom It May Concern:

I am currently the Electrical Safety Inspector, Building Inspector, and Residential Building Official with many certified departments in the Northern Ohio area. I have held these positions for over 24 years. Furthermore, I served on the Ohio Building Officials Association as a board member; I also served as the President for over eight years with the North Central Ohio Building Officials Association. Moreover, under the oversight of Executive Secretary Billy Phillips, I served on the Code Academy ad hoc committee. Recently, I received the "Train the Trainer" certificate to teach Chapter One.

In 2003, I became employed with the City of Elyria, where I met Dan Hamker. He was working as a plumber in a family business. Shortly before I retired, Dan became the plumbing inspector with the City of Elyria.

We have kept in contact, and Dan reaches out to me with Chapter One questions at least every few months. It has impressed me that Dan continues the effort to better himself regarding the current Ohio Codes, not just following the status quo.

Now that Dan has completed and passed the required tests for "Building Inspector";
It is my honor and pleasure to recommend Daniel Hamker for the certification as Building Inspector.

If you have any further questions, feel free to contact me at 440-263-8843, and I will be glad to answer any questions you have.

Sincerely,

Timothy D. Golden
Ohio - 540

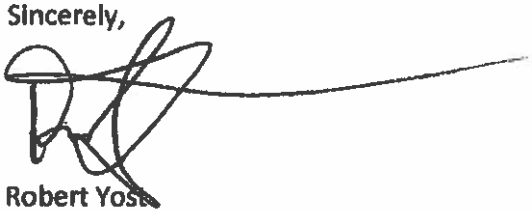
Dear Ohio Board of Building Standards,

I am pleased to write to you in regards to Daniel Hamker's request for Interim Building Inspector. I highly recommend Daniel for this certification.

I have known Daniel for over 20 years, many of which while he was a part of the Yost Construction team. During this period, I had the opportunity to observe his growth of knowledge of construction and of the construction industry. While his primary discipline was plumbing his understanding of structural construction, and the mechanical and electrical trades along with his ability to communicate and interact with other contractors and customers in a positive manner allowed him to be an asset on the jobsite.

Aside from my opinion Daniel has already passed the exams required for certification. It is because of this and my personal experience with Daniel that I feel his experience meets the intent of the requirement for Building Inspector.

Sincerely,



Robert Yost
President, Dale Yost Construction

To Whom It May Concern:

This letter is my personal recommendation for Daniel Hamker. I have known Daniel for 35 years and found him to be an outstanding person. He has been a dedicated worker his entire life beginning with caring for his family's farm growing up as well as working for his father's plumbing business. After high school Daniel followed his father's footsteps eventually taking over the lead role within the company (Hamker Plumbing) which is known to have an excellent reputation in the area.

Daniel has exemplary interpersonal skills and is appreciated by everyone both personally and professionally. He is able to communicate well with others and has always carried himself in a pleasant manner. I have observed these behaviors over a long period of time and in many different professional and social settings, as well as interacting with children while coaching his son's youth baseball team.

I believe Daniel would not only be an asset to any Building Department as a Building Inspector but also helpful in other areas as well. He is a team player who has proven over time that he can be trusted to deliver quality results. I myself am a Police Commander at a local northeast Ohio Police Department and feel confident that I am qualified to provide the highest of recommendations to Daniel for this position. If you have any further questions, please contact me to discuss further details.

Regards,

Commander,
Daniel Thompson

Having met the certification requirements in the rules of the Board of Building Standards, enclosed please find your certification ID card below.

The expiration date(s) for your certification(s) is (are) as indicated below on your ID card.

Holders of Board certifications must complete at least thirty hours of continuing building code education for their respective certifications, ***including Board sponsored required courses,*** prior to the expiration date of the certification as a requirement for renewal. Failure to complete the number of hours required ***and mandatory classes*** shall result in forfeiture of the certification. It shall be the responsibility of the certified individual to furnish the Board with proof of completion of all Board approved courses for which credit is sought. Copies of your course certificates are to be attached to and returned with the renewal application, which will be forwarded to you at the appropriate time. Continuing education courses approved for more than one certification may be applied to each certification for which continuing education is required.

Please refer to your personnel I.D. number (shown on the ID card below) on any correspondence and on all certificates of continuing education forwarded to the Board's office related to your certification. If you have any questions, please do not hesitate to contact the Board for assistance at 614-644-2613.

Sincerely,

OB-1 Permit Tech Certification Working Group update March 2022

Jim Decker and other members of the Permit Tech Certification working group will update the committee on progress, communications with large jurisdictions and governance organizations.

4101:8-1-01:

104.2.1 Residential building official. *The residential building official is responsible for the enforcement of the rules of the board and of Chapters 3781. and 3791. of the Revised Code relating to the construction, arrangement, and the erection of residential buildings or parts thereof and may perform duties outlined in this section and in sections 104.2.2.1 and 104.2.3.1 below. All residential building officials shall conduct themselves in a professional, courteous, impartial, responsive, and cooperative manner. Residential building officials shall be responsible to assure that a system is in place to track and audit all projects, to assure that all residential building department personnel perform their duties in accordance with this section, and for the overall administration of a residential building department as follows:*

104.2.1.1 Applications and plan approvals *The residential building official shall receive applications, examine or cause the submitted construction documents to be examined, ascertain by such examinations whether the construction indicated and described is in accordance with the requirements of this code, and shall issue plan approvals for the construction, erection, alteration, demolition, and moving of buildings and structures.*

104.2.1.2 Orders. *The residential building official shall issue all orders in accordance with section 109 to ensure compliance with this code.*

104.2.1.3 Inspections. *If the plans for the erection, construction, repair, alteration, relocating, or equipment of a building are subject to inspection by the residential building official, under section 108, the residential building official shall make such inspections as the building official is authorized to make or shall cause to be made such inspections, investigations, and determinations as are necessary to determine whether or not the work which has been performed and the installations which have been made are in conformity with the approved construction documents. The residential building official shall identify any special conditions that would affect the timing of inspections and schedule inspections times mutually agreed upon by the building official and the owner.*

104.2.1.4 Residential department records. *The residential building official shall keep official records of applications received, certificate of plan approvals issued, notices and orders issued, certificates of occupancy, certificates of completion and other such records required by the rules of the board of building standards. Such information shall be retained in the official permanent record for each project. One set of approved residential construction documents shall be retained by the residential building official for a period of not less than one hundred eighty days from date of completion of the permitted work, or as required by the residential department's document retention regulations.*

104.2.1.5 Department reports. *The residential building official shall be responsible for the submission of reports and any requested special information to the board of building standards as required in paragraph (F)(1)-(5) of rule 4101:7-2-01 of the Administrative Code.. Failure to submit these reports in a timely manner as required by rule or by special request or inquiry of the board of building standards may be grounds for board action as described in paragraph (G)(3)(a) of rule 4101:7-2-01 of the Administrative Code.*

104.2.1.5 Permit technicians. *Under the direction of the residential building official, building departments may elect to employ permit technicians to assist the residential building official in the performance of the duties required by this section, including*

receiving applications for plan approval, preparing invoices for plan review, routing applications and construction documents, communicating with applicants and keeping official records. Permit technicians may also process certificates of plan approval, notices, orders, certificates of occupancy, certificates of completion, and other such records or reports required by the rules board on behalf of the residential building official. Permit technician certification is not required to assist the residential building official in the performance of these duties. The residential building official is responsible for ensuring permit technicians perform these duties in compliance with the board's rules.

4101:1-1-01:

104.2.1 Building official. *The building official is responsible for the enforcement of the rules of the board and of Chapters 3781. and 3791. of the Revised Code relating to the construction, arrangement, and the erection of buildings or parts thereof. All building officials shall conduct themselves in a professional, courteous, impartial, responsive, and cooperative manner. The building official shall render interpretations of this code and to adopt policies and procedures in order to clarify the application of its provisions. Such interpretations, policies, and procedures shall be in compliance with the intent and purpose of this code. Building officials shall be responsible to assure that a system is in place to track and audit all projects, to assure that all building department personnel perform their duties in accordance with this section, and for the overall administration of a building department as follows:*

104.2.1.1 *Applications and plan approvals. The building official shall receive applications, require or cause the submitted construction documents to be examined, ascertain by such examinations whether the construction indicated and described is in accordance with the 4101:1-1-01 13 requirements of this code, and shall issue plan approvals for the construction, erection, alteration, demolition, and moving of buildings and structures. The building official shall require a master plans examiner or elective plans examiners to examine the construction documents to verify the construction indicated is in accordance with the requirements of this code and shall assure coordination of plan review.*

104.2.1.1.1 *Plan examination by the building official. When the building department does not have in its full-time employ a certified master plans examiner, the certified building official shall examine construction documents to determine compliance with the rules of the board if the registered design professional elects to submit construction documents that contain a written certification by the registered design professional indicating conformance with the requirements of the rules of the board and Chapters 3781. and 3791. of the Revised Code.*

104.2.1.2 Orders*. The building official shall issue all orders in accordance with section 109 to ensure compliance with this code.*

104.2.1.3 Inspections. *If the plans for the erection, construction, repair, alteration, relocating, or equipment of a building are subject to inspection by the building official, under section 108, the building official shall cause to be made such inspections, investigations, and determinations as are necessary to determine whether or not the work*

which has been performed and the installations which have been made are in conformity with the approved construction documents. The building official shall identify any special conditions that would affect the timing of inspections and schedule inspections times mutually agreed upon by the building official and the owner. Exception: Special inspections required under section 1704.

104.2.1.4 Department records. *The building official shall keep official records of applications received, certificates of plan approval issued, notices and orders issued, certificates of occupancy, certificates of completion, and other such records required by the rules of the board of building standards. Such information shall be retained in the official permanent record for each project. One set of approved construction documents shall be retained by the building official for a period of not less than one hundred eighty days from date of completion of the permitted work, or as required by document retention regulations.*

104.2.1.5 Permit technicians. *Under the direction of the building official, building departments may elect to employ permit technicians to assist the building official in the performance of the duties required by this section, including* receiving applications for *plan approval, preparing invoices for plan review, routing applications and construction documents, communicating with applicants and keeping official records. Permit technicians may also process certificates of plan approval, notices, orders, certificates of occupancy, certificates of completion, and other such records or reports required by the rules board on behalf of the building official. Permit technician certification is not required to assist the building official in the performance of these duties, The building official is responsible for ensuring permit technicians perform these duties in compliance with the board's rules.*

4101:7-3-01 Residential and non-residential building department personnel certification.

Residential and non-residential building departments shall have personnel qualified to execute the duties required to enforce the rules of the board. Only those certified individuals employed by or under contract with a particular political subdivision are authorized to exercise enforcement authority within that same jurisdiction.

Exception: Inspectors performing industrialized unit inspections on behalf of the board of building standards.

(A) Building department personnel certification classifications. The certifications issued by the board of building standards are as follows:

(1) Building official.

(2) Interim building official.

(3) Residential building official.

(4) Interim residential building official.

(5) Master plans examiner.

(6) Interim master plans examiner.

(7) Master plans examiner trainee.

(8) Residential plans examiner.

(9) Interim residential plans examiner.

(10) Residential plans examiner trainee.

(11) Building plans examiner.

(12) Interim building plans examiner.

(13) Building plans examiner trainee.

(14) Electrical plans examiner.

(15) Interim electrical plans examiner.

(16) Electrical plans examiner trainee.

(17) Plumbing plans examiner.

(18) Interim plumbing plans examiner.

(19) Plumbing plans examiner trainee.

(20) Mechanical plans examiner.

(21) Interim mechanical plans examiner.

(22) Mechanical plans examiner trainee.

(23) Fire protection plans examiner.

(24) Interim fire protection plans examiner.

(25) Fire protection plans examiner trainee.

(26) Building inspector.

(27) Interim building inspector.

(28) Building inspector trainee.

(29) Residential building inspector.

(30) Interim residential building inspector.

(31) Residential building inspector trainee.

(32) Fire protection inspector.

(33) Interim fire protection inspector.

(34) Mechanical inspector.

(35) Interim mechanical inspector.

(36) Mechanical inspector trainee.

(37) Residential mechanical inspector.

(38) Interim residential mechanical inspector.

(39) Residential mechanical inspector trainee.

(40) Electrical safety inspector.

(41) Electrical safety inspector trainee.

(42) Industrialized unit inspector.

(43) Interim industrialized unit inspector.

(44) Residential industrialized unit inspector.

(45) Interim residential industrialized unit inspector.

(46) Plumbing inspector.

(47) Interim plumbing inspector.

(48) Plumbing inspector trainee.

(49) Medical gas piping inspector.

(50) Permit technician

(B) Multiple personnel certifications held. A person may hold more than one certification.

(C) Conflict of interest. No certified employee or person who contracts for services within the jurisdictional area of a residential or non-residential building department shall perform services for any department which would require that person or employee to exercise authority or make an evaluation of any work furnished by him or by a private contractor that employs him on a full-time, part-time, or incidental basis. Further, such employee or person shall not engage in conduct that is prohibited or considered a conflict of interest pursuant to Chapter 102. of the Revised Code.

(D) Seals. No holder of a certification issued by the board of building standards is authorized to secure a seal in any form or of any type for use in the performance of any of their duties.

(E) Experience requirements of the applicant to qualify for certification.

(1) General experience. To qualify for certification, applicants must have experience directly related to buildings or structures within the scope of the "Residential Code of Ohio" for residential certifications or experience directly related to buildings or structures within the scope of the "Ohio Building Code" for non-residential certifications.

(a) In evaluating experience of an applicant, the board of building standards may find the following enforcement, inspection, or plans examination experience to be acceptable:

(i) Experience gained prior to 1984, with a non-residential building department certified by the board of building standards to exercise enforcement authority for buildings or structures within the scope of groups regulated by the rules of the board; or

(ii) Experience gained with the department of commerce, division of industrial compliance or an agency or jurisdiction outside the state of Ohio enforcing a model residential code, for residential certifications, or a model non-residential building code, for non-residential certifications, of a national model code organization or a code adopted for the respective buildings or structures of the types regulated by the rules of the board; or

(iii) Certification by the department of commerce, division of industrial compliance, as a plumbing inspector when application is made for board certification as a plumbing inspector; or

(iv) Experience gained as an employee of a certified residential or non-residential building department and who is a holder of a board certification other than that for which application is being made as prescribed in this rule.

Exceptions:

(a) Certified building department employees who are applicants for plumbing inspector certification shall comply with paragraph (E)(16) of this rule.

(b) Certified building department employees who are applicants for electrical safety inspector certification shall comply with paragraph (E)(17) of this rule.

(b) The board of building standards shall not credit experience gained while acting in violation of rules adopted by the board to establish equivalent experience.

(c) The board of building standards may credit experience which provides knowledge of different construction methods, processes, or types as it determines applicable, but shall not credit construction experience that does not provide required knowledge including, but not limited to, the installation of floor and wall coverings, the installation of roofing materials or roofing systems, or the finishing of concrete.

(d) For a residential or non-residential certification, the board of building standards shall credit one year of the required experience obtained through education credit pursuant to paragraph (F)(6) of this rule.

(e) Individuals certified as non-residential building officials, master plans examiners, or building inspectors must make application to the board but individuals will qualify without further testing and without providing related experience to become a residential building official, residential plans examiner, and/or residential building inspector.

(2) Building official. An applicant for a building official certification shall meet one of the following requirements:

(a) At least five years of experience in non-residential building design and construction for buildings or structures within the scope of groups regulated by the rules of the board while registered in Ohio as an architect or professional engineer;

(b) At least ten years of experience as a general contractor or superintendent of building construction for buildings or structures dealing with all phases and trades of construction including the responsibility for obtaining approvals and inspections within the scope of groups regulated by the rules of the board; or

(c) At least five years of experience employed full-time as a residential building

official in a certified residential building department.

In evaluating the experience requirements for this certification, the board may accept applicable experience as specified in paragraph (E)(1) of this rule.

(3) Residential building official. An applicant for a residential building official certification for a residential building department shall meet one of the following requirements:

(a) Ohio registration as an architect or professional engineer; or

(b) At least five years of experience as a residential contractor or non-residential contractor or superintendent with responsibility for obtaining approvals and inspections of structures regulated by the rules of the board; or

(c) At least five years of experience employed full-time as a certified permit technician in a certified residential or non-residential building department.

In evaluating the experience requirements for this certification, the board may accept applicable experience as specified in paragraph (E)(1) of this rule.

(4) Master plans examiner. An applicant for a non-residential master plans examiner certification shall meet one of the following requirements:

(a) At least five years of experience in building design, construction, or plans examination for buildings or structures within the scope of groups regulated by the rules of the board while registered in Ohio as an architect or professional engineer;

(b) Successful completion of a trainee program pursuant to paragraph (F)(5) of this rule.

In evaluating the experience requirements for this certification, the board may accept applicable experience as specified in paragraph (E)(1) of this rule.

(5) Residential plans examiner. An applicant for a residential plans examiner certification shall meet one of the following requirements:

(a) Ohio registration as an architect or professional engineer;

(b) At least five years of experience in building design and construction for residential or non-residential buildings or structures regulated by the rules of the board; or

(c) Successful completion of a trainee program pursuant to paragraph (F)(5) of this rule.

In evaluating the experience requirements for this certification, the board may accept applicable experience as specified in paragraph (E)(1) of this rule.

(6) Building plans examiner. An applicant for a building plans examiner certification shall meet one of the following requirements:

(a) At least five years of experience as a full-time building inspector in a certified non-residential building department; or

(b) Ohio registration as an architect or professional engineer; or

(c) At least ten years of experience as a full-time skilled tradesman for structural carpentry, masonry, steel erection, or concrete construction work, subject to inspection under a model building code of a national model code organization or a code adopted for non-residential buildings or structures, within the scope of groups regulated by the rules of the board.

In evaluating the experience requirements for this certification, the board may accept applicable experience as specified in paragraph (E)(1) of this rule.

(7) Electrical plans examiner. An applicant for an electrical plans examiner certification shall meet one of the following requirements:

(a) At least five years of experience as a full-time electrical safety inspector in a certified building department;

(b) At least five years of experience as an electrical safety inspector, certified pursuant to Chapter 3783. of the Revised Code and employed full-time by the Ohio department of commerce, division of industrial compliance; or

(c) Ohio registration as an architect or professional engineer; or

(d) At least ten years of experience as a full-time journeyman electrician or equivalent for the installation of electrical systems, subject to inspection under either a model building code of a national model code organization or a code adopted for buildings or structures, within the scope of groups regulated by the rules of the board.

In evaluating the experience requirements for this certification, the board may accept applicable experience as specified in paragraph (E)(1) of this rule.

(8) Plumbing plans examiner. An applicant for a plumbing plans examiner certification shall meet one of the following requirements:

(a) At least five years of experience as a full-time plumbing inspector in a certified building department;

(b) At least five years of experience as a plumbing inspector, certified pursuant to Chapter 3703. of the Revised Code, employed full-time by either the Ohio department of commerce, division of industrial compliance, or by a county board of health; or

(c) Ohio registration as an architect or professional engineer; or

(d) At least ten years of experience as a full-time journeyman plumber or equivalent for the installation of plumbing systems, subject to inspection under either a model building code of a national model code organization or a code adopted for buildings or structures, within the scope of groups regulated by the rules of the board.

In evaluating the experience requirements for this certification, the board may accept applicable experience as specified in paragraph (E)(1) of this rule.

(9) Mechanical plans examiner. An applicant for a mechanical plans examiner certification shall meet one of the following requirements:

(a) At least five years of experience as a full-time building inspector or mechanical inspector in a certified building department;

(b) At least five years of experience as a full-time residential building official, residential plans examiner, residential building inspector, or residential mechanical inspector in a certified residential building department; or

(c) Ohio registration as an architect or professional engineer; or

(d) At least ten years of experience as a full-time skilled tradesman for heating, ventilating, and air conditioning ("HVAC") systems and associated refrigeration, fuel gas, and heating piping work, subject to inspection under a model building code of a national model code organization or a code adopted for non-residential buildings or structures, within the scope of groups regulated by the rules of the board.

In evaluating the experience requirements for this certification, the board may accept applicable experience as specified in paragraph (E)(1) of this rule.

(10) Fire protection plans examiner. An applicant for a fire protection plans examiner certification shall meet one of the following requirements:

(a) At least five years of experience as a full-time certified fire safety inspector in a fire department or as a certified fire protection inspector for a non-residential building department with experience inspecting non-residential fire protection systems;

(b) At least five years of experience as a full-time certified fire protection system designer with experience designing non-residential fire protection systems;

(c) At least five years of experience as a full-time building inspector in a certified non-residential building department; or

(d) Ohio registration as an architect or professional engineer; or

(e) At least ten years of experience as a full-time skilled tradesman for the installation of fire protection systems (automatic sprinkler systems, alternative automatic fire-extinguishing systems, standpipe systems, fire alarm and detection systems and fire pump systems), subject to inspection under a model non-residential building code of a national model code organization or a code adopted for non-residential buildings or structures, within the scope of groups regulated by the rules of the board.

In evaluating the experience requirements for this certification, the board may accept applicable experience as specified in paragraph (E)(1) of this rule.

(11) Building inspector. An applicant for a building inspector certification shall meet one of the following requirements:

(a) At least five years of experience in structural carpentry, masonry, steel erection, or concrete construction work subject to inspection under a model building code of a national model code organization or a code adopted for non-residential buildings or structures within the scope of groups regulated by the rules of the board as a skilled tradesman, a supervisor, or a construction contractor;

(b) At least five years of experience as a full-time non-residential building official, master plans examiner. non-residential mechanical inspector, residential building official, residential plans examiner, residential building inspector, or residential mechanical inspector in a certified residential building department; or

(c) Successful completion of a trainee program pursuant to paragraph (F)(5) of this rule.

In evaluating the experience requirements for this certification, the board may accept applicable experience as specified in paragraph (E)(1) of this rule.

(12) Residential building inspector. An applicant for residential building inspector certification shall meet one of the following requirements:

(a) At least three years of experience as a contractor or supervisor for residential or non-residential buildings or structures regulated by the rules of the board;

(b) At least three years of experience as a skilled tradesman for work subject to inspection under a code adopted for buildings or structures regulated by the "Residential Code of Ohio" or the "Ohio Building Code";

(c) At least three years of experience employed full-time as a certified permit technician in a certified residential or non-residential building department; or

(d ~~c~~) Successful completion of a trainee program pursuant to paragraph (F)(5) of this rule.

In evaluating the experience requirements for this certification, the board may

accept applicable experience as specified in paragraph (E)(1) of this rule.

(13) Fire protection inspector. An applicant for fire protection inspector certification shall meet one of the following requirements:

(a) At least five years of experience in the installation of fire protection systems (automatic sprinkler systems, alternative automatic fire-extinguishing systems, standpipe systems, fire alarm and detection systems and fire pump systems) subject to inspection under a model non-residential building code of a national model code organization or a code adopted for non-residential buildings or structures within the scope of groups regulated by the rules of the board; or

(b) At least five years of experience as a certified fire safety inspector or a certified fire protection system designer.

In evaluating the experience requirements for this certification, the board may accept applicable experience as specified in paragraph (E)(1) of this rule.

(14) Mechanical inspector. An applicant for a mechanical inspector certification shall meet one of the following requirements:

(a) At least five years of experience as a skilled heating, ventilating, and air conditioning (HVAC) system and associated refrigeration, fuel gas, and heating piping tradesman for work subject to inspection under a model building code of a national model code organization or a code adopted for non-residential buildings or structures within the scope of groups regulated by the rules of the board;

(b) At least five years of experience as a full-time building official, master plans examiner, or building inspector in a certified non-residential building department, or a full-time residential building official, residential plans examiner, residential building inspector, or residential mechanical inspector in a certified residential building department; or

(c) Successful completion of a trainee program pursuant to paragraph (F)(5) of this rule.

In evaluating the experience requirements for this certification, the board may accept applicable experience as specified in paragraph (E)(1) of this rule.

(15) Residential mechanical inspector. An applicant for a residential mechanical inspector certification shall meet one of the following requirements:

(a) At least three years of experience as an HVAC system contractor or supervisor for residential or non-residential buildings regulated by the rules of the board;

(b) At least three years of experience as a skilled tradesman for HVAC systems and the associated refrigeration, fuel gas, and heating piping for residential or non-residential buildings regulated by the rules of the board; or

(c) Successful completion of a trainee program pursuant to paragraph (F)(5) of this rule.

In evaluating the experience requirements for this certification, the board may accept applicable experience as specified in paragraph (E)(1) of this rule.

(16) Plumbing inspector. An applicant for a plumbing inspector certification shall meet one of the following requirements:

(a) At least seven years of experience in the installation of plumbing, subject to inspection under either a model building code of a national model code organization or a code adopted for buildings or structures and within the scope of groups regulated by the rules of the board;

(b) A degree in engineering or architecture and three years of experience in plumbing system design; or

(c) Successful completion of a trainee program pursuant to paragraph (F)(5) of this rule.

(17) Electrical safety inspector. An applicant for an electrical safety inspector (ESI) certification shall meet one of the following experience requirements:

(a) Journeyman electrician or equivalent for four years, two years as an electrician foreman, and two years of experience as a building department ESI trainee;

(b) Journeyman electrician or equivalent for four years and three years of experience as a building department ESI trainee pursuant to paragraph (F)(5) of this rule;

(c) Four years of experience as a building department ESI trainee;

(d) Journeyman electrician or equivalent for six years; or

(e) An electrical engineer registered in the state of Ohio.

(18) Industrialized unit inspector. An applicant for an industrialized unit inspector certification shall meet one of the following requirements:

(a) At least five years of experience as a construction contractor or supervisor for non-residential buildings or structures within the scope of groups regulated by the rules of the board;

(b) At least five years of experience as a skilled tradesman for work subject to inspection under a model building code of a national model code organization or a code adopted for non-residential buildings or structures within the scope of groups regulated by the rules of the board;

(c) At least five years of experience as a skilled tradesman for work subject to inspection under a residential dwelling code, a model building code of a national model code organization or a code adopted for non-residential buildings or

structures regulated by the rules of the board; or

(d) Certification as a building inspector as specified in paragraph (E)(11) of this rule.

In evaluating the experience requirements for this certification, the board may accept applicable experience as specified in paragraph (E)(1) of this rule.

(19) Residential industrialized unit inspector. An applicant for a residential industrialized unit inspector certification shall meet one of the following requirements:

(a) At least three years of experience as a construction contractor or supervisor for non-residential buildings or structures within the scope of groups regulated by the rules of the board or as a construction contractor or supervisor for residential buildings or structures regulated by the rules of the board;

(b) Certification as a building inspector, residential building inspector, or industrialized unit inspector; or

(c) At least three years of experience as a skilled tradesman for work subject to inspection under a residential dwelling code, a model building code of a national model code organization or a code adopted for non-residential buildings or structures regulated by the rules of the board.

In evaluating the experience requirements for this certification, the board may accept applicable experience as specified in paragraph (E)(1) of this rule.

(20) Medical gas piping inspector. An applicant for a medical gas piping inspector certification shall provide evidence verifying that the applicant has been certified by an "American Society of Sanitary Engineering (ASSE)" recognized third party certifier in accordance with ASSE standard 6020.

(21) Permit technician. An applicant for a permit technician certification shall meet one of the following requirements:

(a) High school diploma or equivalent and at least one year of experience in office administration, customer relations, and processing and recording submittals for plan approval and inspection for work subject to inspection under a code adopted for buildings or structures and within the scope of groups regulated by the rules of the board, or

(b) International Code Council (ICC) permit technician certification.

(F) Personnel certification application, filing and processing. Applications for certification shall be sent to the office of the board at least two weeks prior to a certification hearing. The application shall expire if not approved within one year of receipt by the board. Applications for certification as an electrical safety inspector shall be submitted at least two weeks prior to a meeting of the electrical safety inspector advisory committee.

Each applicant shall also submit, with the application, an application fee of fifty dollars and evidence sufficient to show the board that the applicant is qualified. Such evidence may include proof of the statements made in the application, documentary evidence, affidavits, transcripts, diplomas, published data, photographs, or legible reproductions of the same, or any other documentation.

(1) Certification process. Upon receipt of a completed application and an application fee of fifty dollars, the board of building standard's certification committee shall review the application and make a recommendation to the board of building standards.

Exception: Upon receipt of a completed application for certification as an electrical safety inspector, the electrical safety inspector advisory committee shall review the application and make a recommendation to the board of building standards.

The committee may ask for additional information to be submitted by the applicant prior to making a recommendation to the board. If the committee requests additional information from the applicant, failure to submit the requested information within ninety days from the date of the request may be cause for disapproval of the application by the board. After receiving a recommendation from the committee, the board shall hold a certification hearing to take action on the application. The applicant may be present at the certification hearing to respond to any questions from the board and all interested persons appearing at such certification hearing may be given an opportunity to comment.

(a) Certification, approval or denial. Following the certification hearing, the board may approve, approve with conditions, table pending further review and/or receipt of additional documentation, deny the application for certification, or take such other action as the board deems appropriate. If the board requests additional information, failure to submit the requested information within ninety days from the date of the request shall be cause for disapproval of the application by the board. The board may request an interview of the applicant by the certification committee to assist the board in making its evaluation of an application.

If the application is denied, in whole or in part, by the board of building standards, the applicant shall be notified in writing of such denial, the reason for the denial, and their rights of appeal pursuant to sections 3781.10 and 3781.101 and Chapter 119. of the Revised Code.

Hearings shall be held by the board of building standards and appeals shall be permitted on any proceedings for certification as provided in section 119.07 of the Revised Code and in paragraph (F)(7)(a)(v) of this rule.

(b) Records. The board shall retain, as a part of applications which have been approved, any or all documents submitted or electronic versions of such documents, which shall be properly marked for identification and ownership.

(c) Board action. All applications shall be considered individually by the board and the action taken shall be recorded in the minutes, noted on the application form, and the applicant notified as required.

(d) Examinations. All applicants shall furnish the board evidence of passing the board approved examinations for the appropriate certification category issued by a national model code organization or a testing agency or entity recognized by the board. The board shall maintain a list of approved examinations. Examinations required for certification may be completed before application is made for certification by the board.

(2) Issuance of certificate and renewal.

(a) Issuance of certification.

(i) Upon submission of an application for certification for which the experience requirements are approved but evidence of successfully completing the required examination modules is not included, a one-time interim certification shall be issued to the applicant. No extensions shall be granted. The certificate shall state the interim certification classification being issued pursuant to paragraph (A) of this rule, expiration date, and limitations, if any, under which it has been issued. For the purpose of this paragraph the one-time interim certification period is for two years.

Exception: Applicants for certification as an electrical safety inspector whose application is approved are then qualified to begin examination only and, before exercising enforcement duties for a political subdivision, must submit evidence of successfully completing the required examination in order to receive electrical safety inspector certification.

Before the end of the interim certification period, the certificate holder shall submit evidence of successfully completing the required examination modules and meeting any other certification requirements.

(a) If the interim certification has expired prior to completing all of the requirements, the board may consider certification of the individual if the applicant presents evidence of completing the outstanding examination(s) required in paragraph (F)(1)(d) of this rule within the year following the expiration.

(b) Upon expiration, the individual shall not perform any duties for which the interim certification was received but may enter the trainee program as required in paragraph (F)(5) of this rule.

(ii) Upon submission of an application for certification for which the experience requirements are approved and evidence of successfully completing the required examination modules and completion of the "Ohio Building Code

Academy" required by paragraph (F)(4)(a) of this rule is included, an appropriate certificate shall be issued to the applicant. The certificate shall state the certification classification being issued, expiration date, and limitations, if any, under which it has been issued. For the purpose of this paragraph a certification period is for three years.

(iii) No application fee is required for conversion of interim to full certification.

(b) Renewal. It shall be the responsibility of the certificate holder to notify the board of a change of primary mailing address when it changes and to renew at three-year intervals.

(c) Applications for renewal. Applications for renewal of a certification shall be submitted to the board of building standards at least thirty days prior to the expiration date. In addition to a completed renewal application form prescribed by the board, applicants for renewal of certification shall submit a certification renewal fee of thirty dollars and evidence of having attended board-sponsored required continuing education courses or their board-approved equivalents and, other than medical gas piping inspectors, successfully completed thirty hours of approved educational courses prior to the expiration of the current certification.

Exceptions:

(i) Applications for renewal of medical gas piping inspector certifications shall include evidence verifying that the applicant's certification by an "ASSE" recognized third-party certifier, in accordance with "ASSE" standard 6020, has been renewed.

(ii) Applicants for renewal of master plans examiner certifications shall include evidence verifying current active registration as an Ohio registered design professional.

(d) Failure to renew. Any individual whose certification has expired through failure to renew may obtain a renewal within one year from the date of its expiration provided the holder has met all requirements for renewal, including payment of the renewal fee. All applications for renewal of expired certifications shall be processed as renewals during the one year period following expiration. All applications for renewal of expired certifications submitted more than one year following the expiration shall be processed as a new application. The holder of a certification that has expired shall not perform any duties for which a certification is required.

(3) Elective temporary suspension. Certifications may be placed in elective temporary suspension upon written request to and approval by the board. Except for emergency circumstances, requests shall be in writing at least sixty days prior to the certification expiration date and supported by satisfactory evidence that the holder is

withdrawing from active employment for which the certification is required.

(a) Restoring certification. Certifications placed in elective temporary suspension for a period of time not to exceed one three-year term following the expiration date may be restored to active status by the board upon written request. The request shall be supported by satisfactory evidence that the holder has completed thirty hours of continuing education for that certification and any board-sponsored mandatory training required, or their board-approved equivalents, during the time the certification was in suspension prior to the date of reinstatement. Payment of the thirty-dollar renewal fee shall accompany the request.

(b) Failure to restore certification. Certifications placed in elective temporary suspension for a period of time exceeding one three-year term following the original certification expiration date may be restored to active status by the board upon written request supported by evidence of passing of the appropriate examinations prescribed by the board, completion of the "Ohio Building Code Academy," and payment of the thirty-dollar renewal fee.

(4) Continuing education.

(a) Holders of board certifications shall:

(i) Complete the "Ohio Building Code Academy" requirements during their initial certification period. Individuals who have completed the "Ohio Building Code Academy" within thirty-six months immediately preceding the date of receipt of initial certification may attend "Code Administration and Skills Training" provided by the board in lieu of the "Ohio Building Code Academy".

Exceptions:

(a) Individuals certified as medical gas piping inspectors pursuant to paragraph (E)(20) of this rule.

(b) Individuals certified as industrialized unit inspectors or residential industrialized unit inspectors.

(ii) Complete at least thirty hours of board approved continuing education in their respective classification prior to the expiration date of the certification for each certification period other than their first. Beginning with certification renewal applications submitted on or after January 1, 2020, of those thirty hours, at least three hours of continuing education shall be dedicated to the subject of code administration, three hours shall be dedicated to existing buildings, and one hour shall be dedicated to ethics.

(a) Exceptions:

(i) Medical gas piping inspectors, who maintain their certification in accordance with ASSE standard 6020.

(ii) The board shall extend a certification period upon receipt of documentation certifying that a holder of board certification has been called to active military duty described in division (A)(3)(c) of section 5903.12 of the Revised Code during the current or previous certification period by the total number of months that the holder of the certification spent on active military duty. For the purposes of this paragraph, any portion of a month served on active duty shall be considered one full month.

(b) Failure to complete. Failure to complete the number of hours required shall result in forfeiture of the certification.

(c) Proof of completion. It shall be the responsibility of the certificate holder to furnish the board with proof of completion of all board approved courses for which credit is sought.

(d) Continuing education courses approved for health, safety, and welfare ("HSW") credit by the "American Institute of Architects" shall be recognized for fulfilling the continuing education requirements of this rule.

(iii) Attend mandatory continuing education courses prescribed by the board.

(b) Approval process for continuing education courses.

(i) Applications for approval. Applications for continuing education course approval shall be on forms prescribed by the board and submitted at least seven days prior to the meeting of the board's education committee or the electrical safety inspectors advisory committee for continuing education courses for electrical safety inspectors. (A meeting schedule is available on the board of building standards' web page at http://www.com.ohio.gov/dico/bbs/)

(ii) Application review. Upon receipt of a complete application for course approval, the board of building standards education committee shall review the application and make a recommendation to the board. Following receipt of the committee’s recommendation, the board may approve, table pending further review and/or receipt of additional documentation, deny the application for course approval, or take such other action as the board deems appropriate.

(a) Course approval number. Approved courses will be issued a course approval number with the prefix "BBSyyyy" based on the calendar year.

(b) Course approval expiration. Continuing education course approval will expire on December thirty-first of each year.

(c) Course update. The instructor or sponsor of any course(s) intended to be taught in a subsequent year, upon or near the expiration date of a current approval, shall resubmit an application for each course requesting an update. If approved, the instructor or sponsor shall receive a new approval and approval number for each course for the subsequent year. Any application for a course update shall be processed administratively as long as the course content has not changed.

(iii) Course credit. Board approved courses shall establish hour equivalencies for continuing education credit for each of the certification classifications requested. Course credit shall only be given for training in the respective certification classification. Courses approved for more than one certification classification may be applied to each certification for which training is required. No credit shall be approved for duplicate courses within the same certification period. Instructors of board approved courses may apply three course hours for every one course hour taught toward their own board certification continuing education requirements except for duplicate courses within the same certification period.

(iv) Approved course sponsor requirements. The following are requirements that apply to all approved continuing education courses:

(a) Date(s), time(s), and location(s) the course will be taught shall be provided to the board prior to the course presentation;

(b) If course content is modified, the course must be resubmitted for course approval;

(c) When promoting an approved course, the instructor shall make full and accurate disclosure regarding course title, course approval number, number of contact hours, certifications for which approval has been given, and all fees to be charged;

(d) Course sponsors shall provide participants with a certificate of completion containing the name of the participant, title of approved course, BBS approval number, date and location of session, number of contact hours awarded, certification types for which course is approved, and signature of authorized sponsor or instructor;

(e) The sponsors of an approved continuing education course shall provide the board with a legible copy of a list of participants who completed the course including: course name, date, and location of the session;

(f) Participants must attend the complete course(s) as presented by the instructor to receive the contact hours approved by the board. No partial credit shall be given to any participant failing to complete the entire course as approved. The sponsor shall verify the participant’s attendance and completion of the course; and,

(g) The board does not provide retroactive approval for continuing education courses presented prior to submission of an application for approval.

(5) Trainee program requirements. Individuals seeking certification as a trainee shall meet the requirements of this section.

(a) Trainee applicants. Trainees shall meet the following requirements:

(i) A trainee applicant shall be a full time employee of a political subdivision.

(ii) A trainee applicant shall be under the direct supervision of a trainee supervisor.

(iii) A master plan examiner trainee applicant shall also be a graduate of an NAAB, EAC-ABET, or similarly accredited architecture or engineering university program.

(iv) A building, mechanical, electrical, plumbing, or fire protection plans examiner trainee applicant for a non-residential building department shall:

(a) Be a graduate of an "NAAB", "EAC-ABET", or similarly accredited architecture or engineering university program; or

(b) Have at least one year of experience as:

(i) A full-time building inspector, fire protection inspector, plumbing inspector, electrical safety inspector, or mechanical inspector in a certified non-residnetial building department, of the division of industrial compliance in the Ohio department of commerce, or of county boards of health; or

(ii) A full-time residential building official, residential plans examiner, residential building inspector, or residential mechanical inspector in a certified residential building department; or

(iii) A full-time designer working under the direct supervision of a design professional preparing construction documents of any discipline directly related to buildings or structures within the scope of groups regulated by the Ohio building codes.

(c) Submit evidence of eligibility to receive the education credit pursuant to paragraph (F)(6) of this rule.

(v) A residential plans examiner trainee applicant for a residential building department shall meet one of the following:

(a) Have at least one year of experience as a full-time designer working under the direct supervision of a design professional preparing construction documents;

(b) Have at least one year of experience as a skilled tradesman for work

subject to inspection under a residential or non-residential code adopted for buildings or structures regulated by the "Residential Code of Ohio" or the "Ohio Building Code"; or

(c) Submit evidence of eligibility to receive the education credit pursuant to paragraph (F)(6) of this rule.

(vi) A building inspector or mechanical inspector trainee applicant for a non-residential building department shall:

(a) Have at least one year of experience as a skilled tradesman for work subject to inspection under either a model building code of a national model code organization or a code adopted for buildings or structures and within the scope of groups regulated by the rules of the board; or

(b) Submit evidence of eligibility to receive the education credit pursuant to paragraph (F)(6) of this rule.

(vii) The building inspector or mechanical inspector trainee applicant for a residential building department shall

(a) Have at least one year of experience as a skilled tradesman for work subject to inspection under a residential or non-residential code adopted for buildings or structures regulated by the "Residential Code of Ohio" or the "Ohio Building Code";

(b) Have at least one year of experience employed full-time as a certified permit technician in a certified residential or non-residential building department; or

(c) Submit evidence of eligibility to receive the education credit pursuant to paragraph (F)(6) of this rule.

(viii) A plumbing inspector trainee applicant shall:

(a) Have at least three years of experience in the installation of plumbing systems subject to inspection under either a model building code of a national model code organization or a code adopted for buildings or structures and within the scope of groups regulated by the rules of the board; or

(b) Submit evidence of eligibility to receive the education credit pursuant to paragraph (F)(6) of this rule.

(ix) An electrical safety inspector trainee applicant shall:

(a) Have at least two years of experience in the installation of electrical systems subject to inspection under either a model building code of a national model code organization or a code adopted for buildings or structures and within the scope of groups regulated by the rules of the

board; or

(b) Submit evidence of eligibility to receive the education credit pursuant to paragraph (F)(6) of this rule.

(b) Trainee supervisors. A trainee supervisor shall:

(i) Be a full time employee of the same political subdivision as the trainee and shall be available to the trainee during normal working hours;

(ii) Currently possess the certification for which the trainee is being trained except that a master plans examiner may supervise any elective plans examiner trainee;

(iii) Be responsible for no more than two trainees at one time and shall immediately notify the board of the trainee(s) under supervision;

(iv) Notify the board of any change in supervisor or trainee status within thirty days;

(v) Supervise, check, and sign the trainee's inspections and reports or a plans examiner trainee's plans examinations; and

(vi) Provide to the board a report documenting at least twenty-five inspections or plans examinations made yearly by the trainee under the direct supervision of the trainee supervisor, with an evaluation of the trainee at the end of the first six months of the program, at the end of one year, and annually afterward.

(c) Trainee sponsor requirements. The trainee sponsor (county, township, or municipal corporation) shall:

(i) Direct the appropriate building official to certify to the board that the trainee is a full time employee of the county, township, or municipal corporation and is under the direct supervision of an individual possessing the certification for which the trainee is being trained; and

(ii) Provide the trainee with a copy of the current rules of the board.

(d) Trainee certification. The board shall issue a trainee certification to each applicant who has met the qualification requirements. The certification shall expire not more than six years from the date of applicant approval by the board. After a minimum of two years, or four years for electrical safety inspector trainees, and upon satisfactory completion of the trainee program pursuant to paragraph (F)(5)(e) of this rule, the trainee may apply for certification in the respective

classification. The trainee certification is not renewable and upon expiration the individual may not reapply as a new trainee for a period of one year. The board may approve a trainee program on a case-by-case basis in lieu of the requirements of paragraph (F)(5)(e) that provides an equivalent level of training and education based on the individual applicant's documented experience.

(e) Trainee course and work requirements.

(i) Plans examiner trainees:

(a) A master plans examiner trainee, prior to completion of the trainee program, shall:

(i) Perform at least twenty-five plans examinations yearly while under the direct supervision of the trainee supervisor;

(ii) Attend and successfully complete at least ten hours of approved code education courses yearly, including completion of the "Ohio Building Code Academy" as required in paragraph (F)(3) of this rule;

(iii) Complete the appropriate examination requirements; and

(iv) Become registered in Ohio as an architect or professional engineer.

(b) A residential plans examiner trainee, prior to completion of the trainee program, shall:

(i) Perform at least twenty-five plans examinations yearly while under the direct supervision of the trainee supervisor;

(ii) Attend and successfully complete at least one-hundred hours of approved code education courses, including completion of the "Ohio Building Code Academy" as required in paragraph (F)(3) of this rule; and

(iii) Complete the appropriate examination requirements.

(c) An elective plans examiner trainee, prior to completion of the trainee program, shall:

(i) Perform at least twenty-five plans examinations yearly while under the direct supervision of the trainee supervisor;

(ii) Attend and successfully complete at least two-hundred hours of approved code education courses, including completion of the "Ohio Building Code Academy" as required in paragraph (F)(3) of this rule;

(iii) Complete the appropriate examination requirements.

(ii) Inspector trainees:

(a) A non-residential building, mechanical, or plumbing inspector trainee, prior to completion of the trainee program, shall:

(i) Perform at least twenty-five inspections yearly while under the direct supervision of the trainee supervisor;

(ii) Attend and successfully complete at least two-hundred hours of approved code education courses, including completion of the "Ohio Building Code Academy" as required in paragraph (F)(3) of this rule; and

(iii) Complete the appropriate examination requirements.

(b) A residential building, mechanical, or plumbing inspector trainee, prior to completion of the trainee program, shall:

(i) Perform at least twenty-five inspections yearly while under the direct supervision of the trainee supervisor;

(ii) Attend and successfully complete at least one-hundred hours of approved code education courses, including completion of the "Ohio Building Code Academy" as required in paragraph (F)(3) of this rule; and

(iii) Complete the appropriate examination requirements.

(c) An electrical safety inspector trainee, prior to completion of the trainee program, shall:

(i) Perform at least twenty-five inspections yearly while under the direct supervision of the trainee supervisor;

(ii) Attend and successfully complete at least two-hundred hours of approved code education courses, including completion of the "Ohio Building Code Academy" as required in paragraph (F)(3) of this rule; and

(iii) Complete the appropriate examination requirements.

(6) Education credit. An applicant for a board certification may obtain credit for one year of the required experience through education pursuant to the following:

(a) Documentation. Supporting documentation shall be provided and may include a certificate of completion, a career passport, a transcript, a college degree or diploma granted by an accredited or state sponsored institution.

(i) The applicant shall document nine hundred or more contact hours of training in an approved vocational education program at the high school or adult level; or

(ii) The applicant shall document the completion of a baccalaureate degree or an associate degree program in building design or construction.

(b) Educational programs. Education credit shall not be prorated or combined for partial or full credit and shall be awarded only upon successful completion of a specific educational program. Miscellaneous course work or isolated classes shall not be considered.

(i) Vocational programs. Vocational instructional programs that are acceptable for credit include:

(a) Air conditioning, heating, and ventilation.

(b) Carpentry.

(c) Electricity.

(d) Masonry.

(e) Plumbing and pipefitting.

(f) Firefighting.

(ii) Technical programs. Technical education instructional programs offering associate degrees that are acceptable for credit include:

(a) Architectural/construction technology.

(b) Heating and air conditioning technology.

(c) Fire science technology.

(iii) Other programs. The successful completion of other specific vocational instructional programs of a minimum of nine hundred contact hours or technical education instructional programs may be considered by the board if the training is directly related to the design and construction of buildings or structures within the scope of groups regulated by the rules of the board.

An applicant for electrical safety inspector trainee may obtain credit for one year of required experience through the completion of approved vocational training in the fundamentals of electricity.

(7) Certification, revocation or suspension. In accordance with division (E) of section 3781.10 of the Revised Code, a certification may be revoked or suspended upon receipt by the board of building standards of a written complaint from any person affected by the exercise of the authority granted under such certification, or by the board on its own motion pursuant to this paragraph.

(a) Complaint process. Upon receipt of a complaint against a holder of a certification that is substantiated to the satisfaction of the board or upon the board's own motion:

(i) The board shall decide whether the information submitted warrants causing an investigation to be initiated or sending a notice of opportunity for hearing as outlined in paragraph (F)(7)(a)(iv) of this rule;

(ii) If a formal investigation is warranted, the subject of the investigation shall be notified that an investigation has been initiated by the board;

(iii) Upon completion of the investigation, findings shall be reported to the board.

(iv) The board may dismiss the complaint, table the matter for future action, or initiate action to suspend or revoke the certification. If the board decides to initiate action to suspend or revoke the certification it shall notify the certificate holder of the charges, pursuant to paragraph (F)(7)(c) of this rule, by certified mail, return receipt requested. The certificate holder shall be informed that a hearing, if desired, must be requested within thirty days from the date of the mailing to request a hearing before the board. The order shall inform the certificate holder that counsel may represent the certificate holder at the hearing. Failure by the certification holder to request a hearing within thirty days from the date of the mailing of the notification may cause the board, after a hearing, to uphold an order revoking or suspending certification.

(v) In the event that the certificate holder timely requests a hearing, the board shall decide to either conduct a hearing or appoint a hearing officer to conduct a hearing.

(a) Board decision to hold a hearing.

(i) The board shall schedule a hearing to be held seven to fifteen days after receipt of the request.

(ii) The board may continue or postpone the hearing upon application by the party or upon its own motion.

(iii) The board shall conduct a hearing during which parties and witnesses can be examined and offer testimony in a manner that prevents unnecessary delay, and that ensures the development of a clear and adequate record. The hearing shall be conducted pursuant to the provisions of sections 3781.10, 3781.101, and 119.09 of the Revised Code.

(b) Board decision to appoint a hearing officer. The hearing officer shall submit, within thirty days after the conclusion of the hearing, a written report of the finding of fact and recommendations to the board for its consideration.

(vi) Following the hearing or following receipt of the hearing officer's report, the board shall take action. The party affected shall be sent a certified copy of the board’s action and informed by certified mail, return receipt requested,

that the certification holder may appeal the order within fifteen days to the court of common pleas in Franklin county pursuant to sections 3781.10, 3781.101, and 119.12 of the Revised Code.

(b) Building department personnel certification, hearings and appeals. Hearings shall be held by the board of building standards and appeals shall be permitted on any proceedings for certification as provided in section 119.07 of the Revised Code and in paragraph (F)(7)(a) of this rule.

(c) Grounds for revocation or suspension. The board shall revoke or suspend an individual's certification if the board concludes that the individual has committed one or more of the following:

(i) The practice of fraud or deceit in obtaining the certification;

(ii) A felony or crime involving moral turpitude;

(iii) Gross negligence, incompetence, misconduct in performance of duties, or engaging in conduct that is considered a conflict of interest;

(iv) Failure to complete the continuing education requirements prior to expiration date of the certificate;

(v) Violation of the duties described in section 104 of rule 4101:1-1-01 of the Administrative Code for non-residential certifications and section 104 of rule 4101:8-1-01 of the Administrative Code for residential certifications.

(d) Revocation or suspension. In the event of suspension or revocation of a certification, the individual shall no longer hold out to the public or any jurisdiction that the individual is certified to exercise enforcement authority or holds the board certification which has been suspended or certification revoked. During a suspension, the certificate holder shall comply with the training, reporting, auditing, or other remedial action required by the board. In addition to such other authority the board may have, the board is authorized to revoke the individual's certification for failure to comply with such remedial requirements.

(e) Probationary status. In the event of an investigation in which the board decides not to immediately suspend or revoke an individual's certification, the board may place the individual on probationary status for a period of time and require remedial action as the board deems appropriate. During this time the certificate holder shall comply with the training, reporting, auditing, or other remedial action required by the board. In addition to such other authority the board may have, the board is authorized to revoke or suspend the certificate holder's certification for failure to comply with such remedial requirements.

4101:7-2-01 Building department certification.

Municipalities, townships, and counties may seek certification by the board of building standards as described in division (E) of section 3781.10 of the Revised Code to exercise enforcement authority, to accept and approve construction documents, and to make inspections.

(A) Certification types. A political subdivision may seek to enforce the rules of the board by requesting either a certification as a building department or a sub-building department as required in paragraph (A)(1) or (A)(2) of this rule. References in this rule to "department" or "building department", unless specified, shall mean "certified building department" or "certified sub-building department."

(1) Certification as a building department. Municipalities, townships, and counties shall enforce the rules of the board in conformity with the law and as described in paragraphs (A)(1)(a) and (A)(1)(b) of this rule.

(a) Municipalities. Municipalities, in submitting the application described in paragraph (C) of this rule, must specify whether the department is to be certified to enforce the rules of the board for plumbing and will employ a plumbing inspector, certified as required in rule 4101:7-3-01 of the Administrative Code. If a department is not to be certified for plumbing, the enforcement shall be done by the local board of health or the division of industrial compliance plumbing section in the department of commerce.

Municipalities, in submitting the application described in paragraph (C) of this rule, must also specify whether the department is to be certified to enforce medical gas piping system provisions and will employ a medical gas piping inspector, certified as required in paragraph (E)(12) of rule 4101:7-3-01 of the Administrative Code. If the department is not to be certified to enforce medical gas piping system provisions, then the enforcement shall be done by the local board of health or the division of industrial compliance in the department of commerce.

Municipalities may, at any time, make application to the board of building standards to be approved to have the building department certification modified or to include, or exclude, plumbing and medical gas piping system enforcement duties in accordance with paragraph (H) of this rule.

(b) Counties and townships. Counties and townships, in submitting the application described in paragraph (C) of this rule for certification of a building department, are not certified to enforce plumbing provisions or employ plumbing inspectors required in paragraph (B)(2) of this rule. As permitted in section 3703.01 of the Revised Code, county building departments may enforce plumbing provisions if the county board of health has entered into an agreement with the board of county commissioners to provide plumbing code enforcement and employs a plumbing inspector, certified as required in division (D) of section 3703.01 of the Revised Code. The county shall specify on its application whether the

county department will enforce the rules of the board for plumbing and will employ a properly certified plumbing inspector. If, after certification, a county building department assumes plumbing code enforcement as required in section 3703.01 of the Revised Code, it shall notify the board.

Counties and townships, in submitting the application described in paragraph (C) of this rule, must also specify whether the jurisdiction desires the department to be certified to enforce medical gas piping system provisions and will employ a medical gas piping inspector, certified as required in paragraph (E)(12) of rule 4101:7-3-01 of the Administrative Code. If the county or township chooses not have its department certified to enforce medical gas piping system provisions, then the enforcement shall be done by the local board of health or the division of industrial compliance in the department of commerce.

Counties and townships may, at any time, make application to the board of building standards to be approved to have the building department certification modified or to include, or exclude, medical gas piping system enforcement duties in accordance with paragraph (H) of this rule.

(2) Certification as a sub-building department. Municipalities, townships, and counties may be certified by the board of building standards to enforce the rules of the board as a sub-building department in conformity with the law and as described in paragraphs (A)(2)(a) and (A)(2)(b) of this rule. A sub-building department has enforcement exercised on their behalf by another certified political subdivision that will perform all enforcement, reporting, and administrative duties.

(a) Municipalities. Municipalities, in submitting the application described in paragraph (C) of this rule, must specify whether the department is to be certified as a sub-building department and shall indicate which certified building department of another political subdivision will enforce the rules of the board in the municipality. The application must also specify how the public in a municipality with a building department certified sub-building department will be provided information on how construction documents will be accepted, reviewed, and approved, and how inspections will be requested and made.

Municipalities may, at any time, make application to the board of building standards to be approved to have the building department certification modified to change its certification from a sub-building department to a certified building department, or vice versa, in accordance with paragraph (H)(1) of this rule.

(b) Counties and townships. Counties and townships, in submitting the application described in paragraph (C) of this rule, must specify whether the department is to be certified as a sub-building department and shall indicate which certified building department of another political subdivision will enforce the rules of the board in the county or township. The county or township must also specify how the public in the county or township with a building department certified as a sub-building department will be provided information on how construction

documents will be accepted and approved, and how inspections will be requested and made.

Counties and townships may, at any time, make application to the board of building standards to be approved to have the building department certification modified to change its certification from a sub-building department and to a certified building department, or vice versa, in accordance with paragraph (H)(1) of this rule.

(B) Building department certification requirements. To qualify for residential or non-residential building department certification, a municipal, township, or county shall comply with the following:

(1) Conformity with law. The residential or non-residential building department shall submit an application and shall have been created in conformity with the law, shall have adopted ordinances or resolutions, and shall have entered into any agreements or contracts necessary to comply with the rules of the board and paragraph (C) of this rule;

(2) Required personnel. All personnel of municipal, township, or county residential or non-residential building departments, and persons and employees of persons, firms, or corporations whose responsibilities include the exercise of enforcement authority shall be certified by the board of building standards pursuant to rule 4101:7-3-01 of the Administrative Code prior to performing such duties. A certified residential or non-residential building department or sub-building department shall have the respective personnel qualified to execute the duties required for the exercise of enforcement authority, the review and approval of construction documents, and the performance of inspections under the rules of the board:

(a) Non-residential building department personnel.

(i) Building official.

(ii) Master plans examiner.

(iii) Building inspector.

(iv) Plumbing inspector. If the department is certified to enforce plumbing provisions, then the department shall have in its employ or under contract at least one person holding the plumbing inspector certification as required in paragraph (E)(16) of rule 4101:7-3-01 of the Administrative Code.

(v) Medical gas piping inspector. If the department is certified to enforce medical gas provisions, then the department shall have in its employ or under contract at least one person holding the medical gas inspector certification as required in paragraph (E)(20) of rule 4101:7-3-01 of the Administrative Code.

(vi) Electrical safety inspector.

(vii) Backup personnel. The department shall have in its employ or under contract alternate personnel meeting the requirements of rule 4101:7-3-01 of the Administrative Code, to serve in the event of a conflict of interest or the unavailability of the building official, master plans examiner, elective plans examiners, or inspectors. All backup personnel shall be clearly identified and disclosed on the yearly operational report. For those backup personnel under contract, copies of the respective contracts shall also be submitted.

(b) Residential building department personnel.

(i) Residential building official.

(ii) Residential plans examiner.

(iii) Residential building inspector.

(iv) Plumbing inspector. If the residential department is certified to enforce plumbing provisions, then the residential department shall have in its employ or under contract at least one person holding the plumbing inspector certification as required in paragraph (E)(16) of rule 4101:7-3-01 of the Administrative Code.

(v) Electrical safety inspector.

(vi) Backup personnel. The residential department shall have in its employ or under contract, alternate personnel meeting the requirements of this rule, to serve in the event of a conflict of interest or the unavailability of the residential building official, residential plans examiner or residential inspectors.

(3) Elective personnel. The department may elect to have the following personnel certified by the board of building standards pursuant to rule 4101:7-3-01 of the Administrative Code prior to performing such duties:

(a) Non-residential building department elective personnel.

(i) Building plans examiner.

(ii) Mechanical plans examiner.

(iii) Electrical plans examiner.

(iv) Plumbing plans examiner.

(v) Fire protection plans examiner.

(vi) Fire protection inspector.

(vii) Mechanical inspector.

(viii) Permit technician.

(b) Residential building department elective personnel.

(i) Electrical plans examiner.

(ii) Residential mechanical inspector.

(iii) Plumbing plans examiner.

(iv) Permit technician.

(4) Replacement personnel. When required personnel, both primary and backup, leave the employ of the residential or non-residential building department, permanent replacement personnel shall be designated in accordance with the rules of the board within one-hundred-twenty days.

(5) Contract employees. A municipal corporation, township, or county may contract with a certified residential or non-residential building department, health district, or with persons, firms, or corporations under contract to furnish services, and meeting the requirements of rule 4101:7-3-01 of the Administrative Code, to exercise the respective residential or non-residential building code enforcement authority, administer the board's rules, approve plans and specifications and perform inspections on behalf of such municipal corporation, township, or county, providing such authority is exercised pursuant to such contract and upon application to and approval by the board of building standards. All contract employees shall be clearly identified and disclosed on the yearly operational report and copies of the respective contracts shall also be submitted;

(6) Building department office. The certified residential or non-residential building department shall have an office conveniently located within the area it serves. The office shall be open and staffed to serve the public need and office hours shall be conspicuously posted. If the department contracts for its enforcement services, or is certified as a sub-building department, information shall be provided to the public explaining how building department services shall be provided;

(7) Availability of inspectors. The residential or non-residential building department shall be staffed so that all inspectors are available, during normal business hours, for requested inspections as required in section 108.1 of rules 4101:8-1-01 and 4101:1-1-01 of the Administrative Code, respectively. The department may offer inspections at other times at the request of the owner or owner's representative; and

(8) Building department certificate to be posted. The certificate issued by the board of building standards to a municipal, township, or county building department shall be posted in a conspicuous place within the jurisdiction.

(C) Building department certification application. Application for certification of a municipal, township, or county residential or non-residential building department, or application for modification of an existing certification, shall be made on a form prescribed by the board of building standards and shall set forth:

(1) A copy of the law creating such a department.

(2) A copy of a resolution requesting certification of the building department to enforce the rules of the board.

(3) The proposed budget for the operation of such department.

(4) A chart showing the organization of the building department within the governmental body.

(5) Data reflecting the population and the size of the area to be served.

(6) The number of and board certifications held by staff to be employed by the building department.

(7) The names, addresses, and board certifications of persons, firms or corporations contracting to furnish work or services when such persons, firms, or corporations are under contract to furnish architectural, engineering, or inspection services to the municipal corporation, township, or county, and such authority is exercised pursuant to such contract.

(8) The names of other municipal corporations, townships, counties, or health districts contracting to furnish work or services when such other municipal corporation, township, county, or health district is under contract to furnish architectural or engineering services to the municipal corporation, township, or county, and such authority is exercised pursuant to such contract and when officers or employees of any other municipal corporation, township, county, or health district under contract to furnish inspection services to the municipal corporation, township, or county, when such authority is exercised pursuant to such contract.

(9) A copy of the ordinance or resolution authorizing a residential or non-residential building department to enter into a contract with other municipalities, townships, counties, health districts, persons, firms or corporations to do their plan approval and inspections.

(10) A copy of the contract between the residential or non-residential building department and other municipalities, townships, counties, health districts, persons, firms, or corporations to do their plan approval or inspections.

(11) The department within the municipality, township, or county which will be responsible for plumbing inspection, if not within the building department.

(12) The applicant may attach any other charts, maps, statistical data or other information which it determines may be beneficial to the board in considering the applications for certification.

(13) A procedure for plan approval and for performing inspections, a copy of the plan review application, and a copy of the department's approval stamp.

(14) Signature of an authorized representative of the board of township trustees in

townships, the board of county commissioners in counties, or the appropriate officials in municipalities.

The original of the documents, papers and charts required in paragraphs (C)(1) to (C)(14) of this rule shall be filed with the board at least two weeks prior to a certification hearing.

The board may allow amendments to applications prior to formal action. Requests for amendments to applications shall be made in writing and conform to all the other provisions of this rule.

(D) Building department certification, certification hearing. Upon receipt of an application, the board of building standard's certification committee shall review the application and make a recommendation to the board of building standards. The committee may ask for additional information to be submitted by the applicant prior to making a recommendation to the board. If the committee requests additional information from the applicant, failure to submit the requested information within ninety days from the date of the request may be cause for disapproval of the application by the board. After receiving a recommendation from the committee, a certification hearing on the application shall be conducted by the board of building standards. An authorized representative of the municipality, township, or county seeking certification present at the certification hearing may give testimony or respond to any questions from the board. The board shall give all interested persons appearing at such certification hearing an opportunity to be heard and explain their positions. A record of the proceeding shall be made by the board.

(1) Building department certification, approval or denial. Following the certification hearing, the board shall act on the application for certification.

Approval by the board of building standards of an application for certification shall set forth the group classifications and subject matters for which the municipal, township, or county building department under consideration is to be certified. After such approval, the appropriate official in municipalities, the board of township trustees in townships, or the board of county commissioners in counties requesting certification, shall be furnished a certificate of approval which shall state the conditions and limitations, if any, under which it has been issued.

If the application is denied in whole, or in part, by the board of building standards, the appropriate official in municipalities, the board of township trustees in townships, or the board of county commissioners in counties requesting certification shall be notified in writing of such denial and the reason therefore and to their rights of appeal pursuant to sections 3781.10 and 3781.101 and Chapter 119. of the Revised Code.

(E) Building department certification, board to maintain list. The board of building standards shall maintain a current list of all certified nonresidential and residential building departments, their contact information and, if applicable, their contractual relationships with other persons, departments, firms, or corporations that enforce the rules of the board on behalf of the certified building department.

The list of certified building departments shall be made available upon request and shall be posted on the board's website at http://www.com.ohio.gov/dico/BBS.aspx.

(F) Building department certification, reports, and assessment. Certified building departments shall submit the following reports and information to the board of building standards:

(1) Yearly operational report. A yearly operational report for the previous year, within ninety calendar days after the end of each calendar year;

(2) Changes in personnel. Written notification of changes in personnel of the residential or non-residential building department who enforce the rules of the board, within thirty calendar days after such personnel have been appointed;

(3) Board requests or queries. Replies to any special requests or queries made by the board of building standards, within thirty calendar days of receipt;

(4) Revised contracts or agreements. Copies of revised contracts or agreements, within thirty calendar days after the residential or non-residential department creates or changes a contractual relationship with another department or firm.

(5) Board assessment. Each political subdivision that prescribes fees pursuant to division (E) of section 3781.102 of the Revised Code shall also collect on behalf of the board of building standards an assessment equal to three per cent of those fees imposed for non-residential or one per cent of those fees imposed for residential approvals, the acceptance and approval of plans and specifications, and for performing inspections.

Assessment report. The political subdivision shall report on the prescribed form and remit monthly by check or other acceptable method of payment, the amount of the assessments collected on behalf of the board not later than sixty days following the end of each month in which the assessments are collected. In the case of building departments that are certified as sub-departments, pursuant to paragraph (A)(2) of this rule, the building department exercising enforcement authority shall report and remit to the board for all certified sub-building departments. Remittance in the form of checks shall be made payable to the "Treasurer, State of Ohio."

(G) Building department certification, revocation or suspension. In accordance with division (E) of section 3781.10 of the Revised Code, a department certification may be revoked or suspended and, for a non-residential department with respect to any and all of the group classifications for which it is certified, upon receipt by the board of building standards of a written complaint from any person affected by the exercise of the authority granted under such certification, or by the board on its own motion.

(1) Complaint process. Upon receipt of a written complaint against a certified building department that is substantiated by demonstrable evidence or upon the board's own motion:

(a) The board shall decide whether the information submitted warrants causing a formal investigation to be initiated or sending a notice of opportunity for hearing

as outlined in paragraph (G)(1)(d) of this rule;

(b) If a formal investigation is warranted, the certified jurisdiction shall be notified that an investigation has been initiated by the board;

(c) Upon completion of the investigation, findings shall be reported to the board.

(d) The board may dismiss the complaint, table the matter for future action, or initiate action to suspend or revoke the certification. If the board issues an order to suspend or revoke the certification it shall:

(i) Notify the certified jurisdiction of the charges by certified mail, return receipt requested. The certified jurisdiction shall be informed that a hearing, if desired, must be requested within thirty days from the date of the mailing to request a hearing before the board. The order shall inform the certified jurisdiction that it may be represented by counsel at the hearing. Failure by the certified jurisdiction to request a hearing within thirty days from the date of the mailing of the notification may cause the board, after a hearing, to uphold the order revoking or suspending certification;

(ii) Schedule a hearing to be held seven to fifteen days after receipt of the request. The board may continue or postpone the hearing upon application by the party or upon its own motion;

(iii) The board may appoint a hearing officer to conduct a hearing.

(iv) A hearing will be conducted during which parties and witnesses can be examined and offer testimony, in a manner that prevents unnecessary delay, and that ensures the development of a clear and adequate record. The hearing shall be conducted pursuant to the provisions of sections 3781.10, 3781.101, and 119.09 of the Revised Code;

(v) If a hearing officer has been appointed, then within thirty days after the hearing, the hearing officer shall submit a written report of the findings of fact and recommendations to the board for its consideration.

(e) Following the hearing, the party affected shall be sent a certified copy of the board's action and informed by certified mail, return receipt requested, that the jurisdiction may appeal the order within fifteen days to the court of common pleas in Franklin county pursuant to sections 3781.10, 3781.101, and 119.12 of the Revised Code.

(2) Building department certification, hearings and appeals. Hearings shall be held by the board of building standards and appeals shall be permitted on any proceedings for certification as provided in section 119.07 of the Revised Code and in paragraphs (G)(1)(a) to (G)(1)(e) of this rule.

(3) Revocation or suspension. In the event of suspension or revocation of a residential or non-residential building department certification, the jurisdiction shall, within fifteen

days of being notified of such suspension or revocation, surrender to the secretary of the board of building standards the certificate previously issued under paragraph (D)(1)(a) of this rule. The department, upon suspension or revocation, shall no longer hold out to the public that it is authorized to issue certificates of plan approval for the construction, repair, alteration of buildings or classes of buildings specified in section 3781.06 of the Revised Code or for performing inspections for which it has been suspended or certification revoked.

Outstanding plans review, approvals, inspections, or orders. In the event of the suspension or revocation of a non-residential building department certification, the enforcement duties shall be transferred to the division of industrial compliance or to the certified building department as approved by the board.

(4) Probationary status. In the event of an investigation in which the board decides not to immediately suspend or revoke a residential or non-residential building department's certification, as outlined in paragraph (G) of this rule, the board may place the department on probationary status for a period of time and require remedial action as the board deems appropriate. During this time the department shall comply with the training, reporting, auditing, or other remedial action required by the board. The board is authorized to revoke or suspend the department's certification for failure to comply with such remedial requirements pursuant to paragraph (G) of this rule.

(H) Special building department requirements.

(1) Changes in jurisdictional authority. The department shall submit an application to have its existing building department certification modified. The application shall also include a transition plan identifying all outstanding projects that have received a certificate of plans approval but have yet to be issued a certificate of occupancy or certificate of completion. The transition plan shall indicate how and by whom code enforcement duties for those projects will be continued and completed and how paid and pending fees will be assessed and/or shared to prevent duplicative fees and/or enforcement duties.

(2) Surrender of department certification. The political subdivision shall submit a written notification to the board declaring its intention to surrender its existing building department certification. The notification shall also include a transition plan identifying all outstanding projects that have received a certificate of plans approval but have yet to be issued a certificate of occupancy or certificate of completion. The transition plan shall indicate how and by whom code enforcement duties for those projects will be continued and completed and how paid and pending fees will be assessed and/or shared to prevent duplicative fees and/or enforcement duties. All documents, reports, and project files will be transferred to the jurisdiction that will assume enforcement authority.

Township certification when a county is or becomes certified. A township may not submit an application pursuant to this rule to exercise enforcement authority, to accept and approve construction documents, and to make inspections that is located

in a county that is already certified. If a township is certified and the county subsequently is certified by the board, the township's certification is preempted by the county one year after the county certification is effective or at an earlier date as the board of township trustees approves. Townships and counties certified by the board as of the effective date of this rule are not affected by this section.

(3) Structures with shared jurisdictional authority. When a department receives an application for plan approval for a structure or portion of a structure which, when built, would involve shared jurisdictional authority, the building official shall immediately notify the owner that the structure involves shared jurisdictional authority and the process, determined below, that will be used in approvals and inspections for the project and shall:

(a) Determine which other political subdivision(s) has jurisdiction for a portion of the structure;

(b) Determine the name and contact information for the building official for any other political subdivision(s) which has jurisdiction for a portion of the structure;

(c) Determine, with the advice of legal counsel, and after discussion with the building official(s) of the other political subdivision(s) identified above, how and by whom code enforcement duties for the project shall be completed;

(d) Determine how, when, and which enforcement records shall be provided to the various parties;

(e) Determine how paid and pending fees will be assessed and/or shared to prevent duplicative fees and/or enforcement duties; and

(f) Establish by whom, when, and to whom the certificate of occupancy or certificate of completion shall be issued and distributed.

Department of Engineering & Building

RE: Permit Technician Certification

The City of Dayton is in full support of establishing an official BBS Permit Technician Certification for the State of Ohio. The City of Dayton has already taken the beginning steps to have our intake personnel trained with the ICC Permit Tech training materials in preparation for the ICC exam.

We feel that by encouraging our staff to take advantage of this opportunity would increase the departments public image, their level of personal achievement, confidence, productivity, skills, and abilities to provide the best possible customer service experience. It also provides the opportunity for higher pay, promotions, and job security.

Thank you for allowing my input on this matter.

Respectfully,

Scott Adams

Chief Building Official

Planning, Neighborhoods & Community Development/Building Department

Department of Engineering & Building

Re: Permit Technician Certification

Mr. Decker,

The City of Cincinnati is in full support of establishing an official BBS Permit Technician Certification for the State of Ohio. The City of Cincinnati has current Permit Technicians on staff. We encourage all customer service personnel to obtain the ICC Permit Tech Certification.

The City of Cincinnati has the core belief that training, and education is the key in providing a knowledgeable and professional Building Department. We encourage all our staff to take advantage of training, education, and certification opportunities. We feel this will increase and promote the Departments public image, personal achievement, confidence, productivity, skills, and abilities to provide the best customer service experience.

Should you have any questions regarding this matter, please feel free to contact me.

Sincerely,

Art Dahlberg

Chief Building Official

City of Cincinnati

Regina, Meg:
I am forwarding two emails of support for the permit tech certification.
Can we be on Fridays Certification Committee meeting agenda.
Thanks, Jim

Subject: RE: Support for Permit Technician Certification.

In or about 2004 the City of Cleveland Department of Building and Housing moved to a model the required all of our inspection staff to be certified by the State of Ohio Board of Building Standards. This included inspectors that were conducting property maintenance and zoning inspections. What we have found is that this requirement has increased the quality of our staff and the expertise of the inspectors. Furthermore, it has provided us a great deal of flexibility when it comes to promoting inspectors from non-regulated inspections to OBBS covered work. We continue to use this model of certification for promotions and step raise increases.

Due to the success of this model we have, for years, discussed the possibility of allowing our permit technicians and intake staff to become certified and even considered using it as a minimum qualification for some positions. This of course we would need to be reviewed and approved by our collective bargaining units so we would want the certification to be optional.

That being said the City of Cleveland Building Department fully supports a permit technician certification and it would be something that we take advantage of.

Tom and Mike:
Amit has provided an email of support for the permit tech non-required certification.
Could you two consider a similar response from you two Cities?
Thank you for your consideration.

Duane,

Thank you for your e-mail. Based on our discussion, I am inclined to think that the elective Permit Technician Certification can be useful in some building departments. I speak in support of such consideration.

Best regards,

Amit

Subject: [EXTERNAL] Support for Permit Technician Certification.

Amit,

I am following up with you on my request asking for support for the adoption of the Elective Permit Technician Certification by the Board of Building Standards. When we las talked you seemed to be supportive of the certification but wanted to think about it before putting something in writing. I am hopeful that you are still inclined to support the certification and willing to provide a letter of support.

I have attached a copy of the OBOA letter sent to the Ohio Municipal League, County Commissioners Association of Ohio, & the Ohio Township Association asking for their support for the certification. Hopefully this correspondence will clarify anything I may have

missed in providing you during our conversations.

Please let me know if you have any questions or concerns.

Thanks,

I. ACADEMY OVERVIEW

II. PROGRAM OF STUDY

III. COURSE DESCRIPTIONS

IV. SYLLABUS BY COURSE & TERM

V. CORE COMPETENCY RECORD & EVALUATION

Cincinnati Building Inspection Academy Overview

Alternative Trainee Program for Consideration by the Ohio Board of Building Standards

This academy is designed to provide the full range of basic knowledge and experience for a professional career as a building inspector with the City of Cincinnati. The Academy is an intensive 48 week program similar to the Police and Fire Academies of the City. it is to attract a diverse pool of candidates as entry level building inspector recruits with the aptitude, experience, and desire to serve the public. The academy is a mixture of classroom and field learning including construction and building code training for the first 24 weeks. The second 24 weeks will be a combination of field inspection training under the close supervision of a OBBS approved Trainee Supervisor to apply the concepts learned in the training room in practical field exercises.

The Department successfully initiated a local ordinance that requires a 1% permit training surcharge on all building permits issued to support the academy and other professional development training in the Buildings & Inspections Department. The Department will partner with several training service providers both locally and nationally to deliver a significant portion of the program. Furthermore, the department was able to add to our table of organization a new Training Supervisor to coordinate and work full time toward the implementation of the academy to further support and ensure success.

The Department has found recruitment and hiring of new inspectors very difficult due to the salaries and other competitive factors associated with the career change from primarily trade union workers in carpentry, concrete, and steel, to the governmental regulatory duties of building inspection. Those who meet the 5 year experience in structural work on commercial jobs having established a better paying career in that industry and are reluctant to change. Projections in the future of the occupation of building inspector is that we are likely to continue to suffer shortages. Finally, the pool of candidates are primarily the same persons accepted into the trades for their abilities to physically construct buildings. Inspection work is a service and analytical process. We are not seeing a diverse demographic of candidates even with community outreach. There are few women and minorities with the requisite 5 years. This is a reflection of limited opportunity and ability to enter the construction industry.

The OBBS has acknowledged the difficulties with recruitment and retention of human resources in Ohio Building Departments and has expanded the trainee rules to be able to accept alternative trainee programs where candidates demonstrate the aptitude but lack the specific years and type of experience otherwise required. The course of training in the Cincinnati Building Inspection Academy provides not only exhaustive building code learning, but concurrently provides comprehensive training on construction materials and methods, construction documents, mechanical systems and many of the basics that is broader than what a trade worker typically learns in one specialized trade. A candidate with 5 years of experience may be an excellent carpenter but may know little of steel and concrete, and less of code inspection and enforcement. This academy provides over 800 contact hours directly related to the building inspection profession.

A pilot “Construction Lab” in partnership with Easter Seals consisting of a single-family residential structure will be completely renovated as a learning tool. Each candidate will be required to pass a rigorous Core Competency Review before advancing to the next module. The focus is on the trainee demonstrating and proving ability in every discipline. The competency results for each recruit will be part of the academy record along with a record of a minimum of 50 RCO and 50 OBC regulated inspections. The accomplishments of the trainee will be provided to the OBBS as needed and at the conclusion of the 48-week academy.

Cincinnati Building Inspection Academy Course Descriptions

Alternative Trainee Program for Consideration by the Ohio Board of Building Standards

TERM ONE

	Classroom Hrs.	Field/Lab Hrs.
CONST- 100- Construction Methods and Materials	30	6

Text Book: Fundamentals of Building Construction: Materials and Methods, 7th Edition

Chapters: 1- Making Buildings, 2- Foundations & Sitework, 3- Wood (Pages 3 to 121)

This course is the first of 4 sections that provides an overview of materials and methods used in construction. This first segment will introduce the work of the design professional, construction of foundations, wood characteristics, types and uses.

Each week trainees will spend time on construction sites to see the construction of actual buildings that illustrate and reinforce the classroom topics related to foundations and wood construction as well a highlighting common building code compliance implications.

OBJECTIVE: *Develop an understanding of how foundations and wood structures are constructed and key aspects the code official must know.*

PLANS- 100- Fundamentals of Plan Reading 24 Hours Classroom

Textbook: Print Reading for Construction 7th Edition

Materials: Print Reading for Construction, 7th Edition Video Training

This course will be presented using the Print Reading for Construction, 7th Edition Video Training Series by author D.P Dorfmeuller in class followed by review of the material presented with the training supervisor and completion of exercises and practical application to actual construction drawings and projects. The following units of instruction will be presented which follows the text book: Unit 1 - Construction Drawing Organization & Unit 4 - Lines and Symbols, Unit 2 - Construction Math and Application, Unit 3 - Reading Measuring Tools and using Scales ,Unit 6 - Specifications and Building Codes , Unit 7 - Construction Materials Types and Uses, Unit 8 - Site Plans , Unit 9 - Architectural Drawings, Unit 10 – Foundations, Unit 11 - Structural Prints.

OBJECTIVE: *Learn to read and understand plans and construction documents to be able to efficiently apply them to construction work and determine compliance.*

RCODE- 100 The Residential Code of Ohio Chapters 3-5 30 Hours Classroom 6 Hours Field

Text Book: The Residential Code of Ohio-

Materials: Fire and Code Academy – Video training series

This course will be presented using the Fire Academy chapter presentation in each class followed by review of the material presented with the training supervisor and completion of exercises and practical application to actual construction projects. This course requires 30 hours of classroom and a minimum of 6 hours field application of the knowledge including building planning, foundations, and floors.

This will be the first introduction to building codes for the trainees. Beginning with Chapters 1 through 5. With focus on Building Planning, foundations, and floors.

Objective: *The trainees will understand the intent and purpose of the code provisions and be able to apply them correctly to construction projects in the field.*

COMM- 100- Customer Service For Code Officials 8 Hours Classroom

Text Book: None

Materials: City of Cincinnati Human Resources training resources

The trainees will learn the expectations of the department and skills needed to provide excellent customer service. Each trainee will "job Shadow" a Permit Technician, and Plan Examiner, to learn what the positions contribute to the customer experience. Class room topics covered include active listening skills, basic communication theory, persuasion in code compliance, handling difficult customers and de-escalation, telephone and e-mail etiquette.

Trainees will also learn applicable legal and ethical rules, including non-discrimination laws and policies, workplace violence rules and policies, freedom of information act, diversity training, sexual harassment rules, and Ohio Ethics Training.

Objectives: *Give the trainee the tools needed to understand the full scope of processes involved in the Department and to avoid unnecessary conflict and provide courteous and professional service.*

TERM TWO

CONST- 101- Construction Methods and Materials 30- Classroom 6- Field

Text Book: Fundamentals of Building Construction: Materials and Methods, 7th Edition

Chapters: 4-6 Heavy Timber and Mass, Light Frame, , (Pages 125 to 244)

This course is a continuation of CONST 100 methods and materials used in construction. This second segment will introduce heavy timber construction, light frame construction, and various applications and installations of exterior wood installations.

Each week trainees will spend time on construction sites to see the construction of actual buildings and approved construction documents that illustrate and reinforce the classroom topics related to heavy timber mass construction and light frame construction as well as highlighting common building code compliance implications of the work.

Objective: *Develop an understanding of principals of heavy timber and light frame construction and key aspects of the construction such as connections and common load paths the code inspector must know.*

RCODE- 101 The Residential Code of Ohio Chapters 6-8 30 6

Textbook: The Residential Code of Ohio

Materials: Fire and Code Academy – Video training series

This course will be presented using the Fire Academy chapter presentation in each class followed by review of the material presented with the training supervisor and completion of exercises and practical application to actual construction projects. This course requires 30 hours of classroom and a minimum of 6 hours field application of the knowledge.

This course is a continuation of RCODE-100. And covers RCO Chapters 6 through 8 with focus on wall construction, wall covering, and roof-ceiling construction.

Objectives: *The trainees will understand the intent and purpose of the code provisions to relate them to construction documents and apply them correctly to residential construction projects in the field.*

MECH -100 Introduction to Mechanical Systems 18

Materials: ASHRAE eLearning Center Fundamentals: HVAC Systems

This course will be presented using the ASHRAE Learning Center in 9 sections. Each class will be followed by review of the material presented with the training supervisor and completion of exercises and testing including 1.Introduction to HVAC Design, 2. Introduction to HVAC Systems , 3. Psychometrics, 4. Indoor Environmental Conditions for Human Comfort , 5. Ventilation and IAQ , 6. Essentials of Controls , 7. Humidity Control Design: Basic Principles, Loads and Equipment, 8. Ethics for the Built Environment Professional Engineer, 9. Central Plants

Objectives: *The trainees will learn the basics systems and components and basic design principals of HVAC Systems along with basics of indoor air quality.*

OCODE- 100 Introduction to Building Code Administration & Regulatory Process 16

Textbook: ICC Basic Code Enforcement & Legal Aspects of Code Administration
Materials: OBBS Online Courses

This course will review the history and evolution of building codes, federal, state and local legal considerations, as well as general building department and regulatory agency operations. Several OBBS Courses will be presented including Certification Basics, Chapter 1, part one and two.

ICC Basics of Code Enforcement Parts 1 An Overview of Codes, and Part 2 Administrative Aspects of Code Enforcement will be covered.

OBJECTIVE: *To provide a macro view of code enforcement and it's place and purpose in government and society today. To impress upon the trainee the importance of proper administration of codes.*

TERM THREE

CONST- 102- Construction Methods and Materials 30- Classroom 6- Field

Textbook: Fundamentals of Building Construction: Materials and Methods, 7th Edition

Chapters: 7- 9 Masonry Construction, (Pages 245 to 362)

This course is a continuation of CONST 101 methods and materials used in construction. This second segment will introduce Interior finishes, brick masonry. stone and concrete masonry.

Each week trainees will spend time on construction sites to see the construction of actual buildings and approved construction documents that illustrate and reinforce the classroom topics related to heavy timber mass construction and light frame construction as well as highlighting common building code compliance implications.

Objective: *Develop an understanding of Interior finishes, brick masonry. stone and concrete masonry and key aspects of the construction such as connections and common load paths the code inspector must know.*

RCODE- 102 The Residential Code of Ohio Chapters 9-11 30 6

Textbook: The Residential Code of Ohio

Building & Fire Academy – Video training series

This course will be presented using the Fire and Code Academy chapter presentation in each class followed by review of the material presented with the training supervisor and completion of exercises and practical application to actual construction projects. This course requires 30 hours of classroom and a minimum of 6 hours field application of the knowledge. BBS Courses; Residential Occupancy.

This course is a continuation of RCODE-100. And covers RCO Chapters 9 through 11 with focus on roof assemblies, chimneys and fireplaces, energy code provision, as well as a review of the Plumbing, Electrical, HVAC and Referenced Standards covered in Chapters 12 through 44.

Objective: *The trainees will understand the intent and purpose of the code provisions and be able to apply them correctly to construction projects in the field.*

CLEGL- 100 Legal Aspects of Code Administration 18

Textbook: ICC- Legal Aspects of Code Administration

WC3 Academy Online Course “Legal Aspects of Code Administration”

Materials: The Attorneys from the City of Cincinnati Quality of Life Unit will present training on 4th Amendment, right of entry, due process, and constitutionality of code enforcement.

This course will also be presented using the WC3 Academy Legal Aspects of Code Administration Course Modules: 1 Code History & Governments, 2: Administration & Enforcement of Laws in each class followed by review of the material presented with the training supervisor and completion of exercises and vist to Municipal Court and the Office of Administrative Hearings during proceedings. This course requires 30 hours of classroom and a minimum of 6 hours field application of the knowledge.

Objective: *This course also serves as a general overview of the legislation process, impacts of federal and state laws on local communities, and basic elements of the U.S. and State constitution inspectors must understand.*

COMM- 101- Writing & Communications for Code Officials 16

Textbook: Wright Well

Materials – Cincinnati HR Communications instruction

This course is to focus trainees on communications with customers internal and external, record keeping, public records retention, inspection notes, writing adjudication orders that are clear and understandable, case documentation, basic persuasion theory, active listening and practical skills and tools for effective, courteous, written and oral communications with citizens, contractors, engineers, and people from all walks of life.

Objective: *The trainee will learn the importance of keeping clear concise records and communicating effectively avoiding overly technical jargon and otherwise using communication appropriate to the customer..*

TERM FOUR

CONST- 103- Construction Methods and Materials 30- Classroom 6- Field

Textbook: Fundamentals of Building Construction: Materials and Methods, 7th Edition

Chapters: 10- 12- Masonry Walls, Steel Frame (Pages 363 to 490)

This course is a continuation of CONST 102 methods and materials used in construction. This second segment will introduce masonry wall, steel frame and light steel construction.

Each week trainees will spend time on construction sites to see the construction of actual buildings and approved construction documents that illustrate and reinforce the classroom topics related to masonry wall, steel frame and light steel as well as highlighting common building code compliance implication.

Objective: *Develop an understanding of Interior finishes, brick masonry. stone and concrete masonry and key aspects of the construction such as connections and common load paths the code inspector must know.*

CCODE- 100 The Ohio Building Code Chapters 1-6 30 6

Textbook: The Ohio Building Code

Materials: WC3 Academy Online Course “Commercial Building Inspector”

This course will be presented using the WC3 Academy modules in class followed by review of the material in the OBC Chapters presented with the training supervisor. WC3 Modules 1: Administration, 3: Use and Occupancy, 3: Construction Types & Special Uses, 4: Height and Area, with a quiz after each of the modules. The course includes weekly practical application of learning to actual construction documents and building scenarios. This course requires 30 hours of classroom and a minimum of 6 hours field application of the knowledge.

This will be the first introduction to the Ohio building codes for the trainees; Chapters 1 through 6.

Objective: *The trainees will learn the concepts involved with height, area, use, and construction type to determine applicability of the code provisions required to account for each of these primary risk factors.*

OCODE- 101 Construction Documents & Field Inspection 10 10

Textbook: Basic Code Enforcement ICC Administrative Series

Materials – Various building plans, job specifications, referenced standards, and check lists

This course will cover the core functions of field inspection and comprehensive comparisons of construction documents to the construction work for compliance use of check lists and preparing for inspection. The textbook Part 3 Technical Aspects of Code Enforcement, Units 1- Reading Construction Documents, Unit 2- Performing a Plan Review, Unit 3- Conducting Inspections will be covered in this section. This course will include construction site safety and building inspector job hazard safety. The process for professionally communicating the need for corrections to owners/agents and documenting findings will be covered in the field. BBS Courses; Building Inspector Breakout & Existing Buildings for Residential

Objective: *The trainee will learn the key concepts of using construction documents efficiently and comprehensively, methodical approaches to inspections by inspection type, and communicating approvals and corrections.*

MECH -101 Residential Mechanical Inspections 16

Textbook: The Ohio Residential Code

Materials: WC3 Academy: Residential Mechanical Inspector

This course will be presented using the WC3 Academy: Commercial Mechanical Inspector. Each class will be followed by review of the material presented with the training supervisor and completion of exercises and testing including. Modules include: 1-General Requirements, 2- Exhaust Combustion Air- Chimneys & Vents, 3-Boilers, Water Heaters, Hydronic Piping, Storage Tanks & Solar, 4 Gas Appliances, 5 Fuel Gas Piping, Inspections & Testing,6- Venting Gas Appliances. Each module consists of an integrated video presentation, including presentation slides, explanation, examples, and review quizzes. There is a quiz for each module and a written practice exam.

Objective: *The trainees will learn the basics of inspecting residential mechanical systems for compliance with the codes, manufacturers installation instructions, and construction documents and standards.*

TERM FIVE

CCODE- 101 The Ohio Building Code Chapters 7-11 30 6

Textbook: The Ohio Building Code

Materials: WC3 Academy Online Course “Commercial Building Inspector”

This course will be presented using the WC3 Academy modules in class followed by review of the material in the OBC Chapters presented with the training supervisor. WC3 Modules 5: Fire and Smoke Protection 1, 6: Fire and Smoke Protection 2, 7: Means of Egress, 8: Accessibility, with a quiz after each of the modules. The course includes weekly practical application of learning to actual construction documents and building scenarios. This course requires 30 hours of classroom and a minimum of 6 hours field application of the knowledge.

This is the first course in The Ohio Building Code for the trainees series; Chapters 7 through 11.

Objective: *The trainees will learn the concepts and key field inspection aspects of fire and smoke protection assemblies, means of egress, accessibility.*

CLEGL- 101 Legal Proceedings & Code Enforcement 10

Textbook: ICC- Legal Aspects of Code Administration

WC3 Academy Online Course "Legal Aspects of Code Administration"

Materials: The Attorneys from the City of Cincinnati Quality of Life (QOL) Unit will present training on: Being a Witness in a Court Case; Key Elements of Failure to Comply with Building Orders Case; Injunctive Relief to Abate Dangerous Buildings; Civil Citations, and basic land use and Zoning regulation.

This course will be presented in part using the WC3 Academy Legal Aspects of Code Administration Course Modules: 3 Civil Action, Negligence, & Wrongdoing, 4: Discrimination, 5: Legislative Administration, 6, Human Resources, 7, Building Department Administration, in each class followed by review of the material presented with the training supervisor and completion of exercises and practical application to actual construction projects. Trainees will participate in a "Mock Trial" with City QOL attorneys to learn witness skills and understand basic hearings and judicial proceedings.

Objective: *This course also serves as a general overview of the legal aspects of various duties in the code such as search warrants, civil actions, and various feasances and potential liabilities.*

FIELD- 100 Residential Inspections 6 36

Textbook: The Residential Code of Ohio

This course will be primarily job shadowing with the Trainee Supervisor and training on the job with close supervision to ensure competency and compliance with all policies, procedures, and computer automation workflow. Trainees will conduct single family construction inspections of all primary types including, Lot Markings, Footings, Foundation, Concrete Slab on Grade, Erosion Control, and Site Excavation etc.

This will course will be 36 Hours of field work and 6 hours of classroom.

Objective: *The trainees will gain knowledge and experience in conducting inspections while under close supervision of the trainee supervisor.*

MECH- 102 The Ohio Mechanical Code 16

Textbook: The Ohio Mechanical Code & The Fuel Gas Code

Materials: WC3 Academy : Commercial Mechanical Inspector

This course will be presented using the WC3 Academy: Commercial Mechanical Inspector. Each class will be followed by review of the material presented with the training supervisor and completion of exercises and testing including. Modules: 1- Administration, 2- General Regulations, 3- Ventilations & Exhaust, 4 - Commercial Kitchens, 5-Duct Systems, 6- Combustion Air, 7- Chimneys-Vents, 8- Appliances, 9 Refrigeration & Piping, 10 Fuel Oil Systems & Solar, 11- Gas Piping. 12- Gas Chimneys, Vents, & Appliances. Provisions of the fuel gas code, mechanical code and buildings code interrelations and common installation defects will be covered.

Objective: *The trainees will learn the basics of inspecting mechanical systems for compliance with the codes, manufacturers installation instructions, and construction documents and standards.*

TERM SIX

CCODE- 102 The Ohio Building Code Chapters 12-27 30 6

Textbook: The Ohio Building Code

Materials: WC3 Academy Online Course “Commercial Building Inspector”

BBS- Energy Code Overview- Debbie Ohler - Overview of RCO and OBC Energy Compliance

This course will be presented using the WC3 Academy modules in class followed by review of the material in the OBC Chapters presented with the training supervisor. WC3 Modules 12- Construction Materials, 13 -Glazing. There will be a quiz after each of the modules. The course includes weekly practical application of learning to actual construction documents and building site/ field scenarios. This course requires 30 hours of classroom and a minimum of 6 hours field application of the knowledge.

This is a continuation of The Ohio Building Code for the trainees; Chapters 12 through 27.

Objective: *The trainees will learn the concepts and key field inspection aspects of the chapters covering energy code compliance, Interior Finishes, Exterior walls, roof assemblies, soils & Foundations, and glazing.*

OCODE- 102 Fire Behavior & Disaster Response 30 6

Textbook: Building Construction For The Fire Service

FEMA P-758, Substantial Improvement and Substantial Damage Desk Reference

Materials: NFPA Basics of Fire and Fire Science Online Training

This course will provide basic information on fire behavior through NFPA Online training. As well as fire behavior in building construction with emphasis on Chapters: 2- Concepts of Construction 3- Methods & Materials Renovation & Demolition 5- Fire Behavior & Building Construction, 6- Features of Fire Protection. An introduction to the role of building inspectors in disaster response within the FEMA and National Incident Management System (NIMS) organizational structures is presented. This course requires 30 hours of classroom and a minimum of 6 hours field application of the knowledge.

Objective: *The trainees will learn the basic behavior of fire to better understand the purpose of a significant portion of the building code, and be aware of an inspectors role in responding to fires, floods, wind incidents, earthquakes and other disasters.*

FIELD- 101 Residential Inspections 6 36

Textbook: The Residential Code of Ohio

This course will be primarily job shadowing with the Trainee Supervisor and “on the job” training with close supervision to ensure competency and compliance with all policies, procedures, and computer automation workflow. Trainees will conduct single family construction inspections of all primary types such as Framing, Energy Efficiency/ Envelope, Lath Gyp Board, Fire-Resistive assemblies ,

This will course will be 36 Hours of field work and 6 hours of classroom.

Objective: *The trainees will gain knowledge and experience in conducting inspections while under close supervision of the trainee supervisor.*

TERM SEVEN

CCODE- 103 The Ohio Building Code – Existing Buildings 30 6

Textbook: The Ohio Building Code

Materials: Existing Building adaptation case studies in Cincinnati

OBBS- Chapter 34 Part 1 & Chapter 34 Part 2 (Steven Regoli)

This course will be presented using department plan examiners who will present actual case studies of existing building renovations, additions, change of use and historic buildings and walk trainees through the way the Ohio Building Code regulates and is applied to existing buildings. The course includes weekly practical application of learning to actual construction documents and building scenarios. This course requires 30 hours of classroom and a minimum of 6 hours field application of the knowledge.

This is a continuation of The Ohio Building Code for the trainees: Chapter 34.

Objective: *The trainees will understand the extent to which the OBC applies to existing buildings and Chapter 34 options for achieving safety in renovations, changes, and additions to existing buildings*

OCODE- 103- Material Testing & Referenced Standards 6 2

Textbook: OBC Chapter 35, Underwriters Laboratory Fire Resistance Directories

Materials: ASTM E119 and various testing and reference standards such as ANSI A117.1, ASHRAE 90.1, NFPA 72 & NFPA 13

This course will be presented with plan examination staff and focus on the more commonly encountered referenced standards used in building inspections.

This is a continuation of The Ohio Building Code for the trainees; Chapter 35

Objectives: *The trainees will learn when and how to apply referenced standards and understand basic functions of testing agencies and listing and labeling of commonly encountered building components and systems .*

FIELD- 102 Commercial Inspections 6 36

Textbook: The Ohio Building Code

This course will be primarily job shadowing with the assigned Trainee Supervisor and “on the job” type training with close supervision to ensure competency and compliance with all codes, policies, procedures, documentation, and computer automation workflow. Trainees will conduct Commercial construction inspections of the primary types including Footings, Foundation, Lot Lines, Lowest Floor Level Elevation, Steel, Concrete, Framing, Insulation, Mechanical, Finals etc. as well as verification of electrical and plumbing approvals to issuance of the Certificate of Occupancy. Check lists will be used to develop comprehensive and uniform inspection skills and habits. The trainee will practice excellent customer service and communication skills.

This will course will be 36 Hours of field work and 6 hours of classroom.

Objective: *The trainees will gain knowledge and experience in conducting commercial inspections while under close supervision of the trainee supervisor.*

TERM EIGHT

CCODE- 104 Active Fire Protection Systems & Alarms 30 6

Textbook: The Ohio Building Code

Materials: NFPA On Line Training

This course will be presented using the NFPA On Line Training in class followed by review of the related provisions of the OBC Chapters presented with the training supervisor. NFPA Courses: Life Safety and Fire Protection Fundamentals, NFPA 13. Standards for the Installation of Sprinkler Systems. NFPA 72 Fire Alarm and Signaling Code The course includes weekly practical application of learning to actual construction documents and building scenarios involving Fire Alarm Systems, Elevator Recall, Fire Dampers, Fire Shutters, Suppression Hood, Sprinklers, and Standpipes etc.. This course requires 30 hours of classroom and a minimum of 6 hours field application of the knowledge.

This is a continuation of The Ohio Building Code for the trainees to gain deeper understanding of life safety systems

Objective: *The trainees will understand OBC and standards applied to early warning alarms systems, and automatic fire extinguishment and containment systems.*

OCODE 104 Learning from Losses 6

Textbook: The Ohio Building Code

Materials: Case Studies of Fire, Wind, Floods, and Earthquake

BBS- Code Concepts With Debbie Ohler/ Steven Regoli,
The Beverly Hills Supper Club Fire
Surfside Florida Condominium Collapse
Triangle Shirtwaist Factory Fire

This course will introduce trainees to the function of the ISO. Examples of peril to human life and property will be presented demonstrating the results of inadequate and poorly enforced building codes. Several Case examples and their causes will be reviewed and discussed along with the code provisions intended to prevent similar disasters such as wind resistance, seismic provisions, fire protection, egress, and requirements for the maintenance of these systems in existing buildings.

Objective: *The trainees will understand the importance of inspector's role in preventing disasters through code enforcement and recognize related serious hazards in existing buildings.*

FIELD- 103 Commercial Inspections 6 36

Textbook: The Ohio Building Code

Materials: BBS- Building Inspector Breakout, Rob Johnson- Enforcement Concepts, Inspector Requirements, and Inspection Process, Building and Service Equipment Required Inspections, Special Inspections, Reinspection and Testing, and Completion

This course will be primarily job shadowing with the assigned Trainee Supervisor and "on the job" type training with close supervision to ensure competency and compliance with all codes, policies, procedures, documentation, and computer automation workflow. Trainees will conduct Commercial construction inspections Fire Alarm, Sprinkler and Standpipe, Special Occupancies, High Rise, Demolition, and coordinate with Special Inspectors etc. Check lists will be used to develop comprehensive and uniform inspection habits. The trainee will practice excellent customer service and communication skills.

This will course will be 36 Hours of field work and 6 hours of classroom.

Objective: *The trainees will gain knowledge and experience in conducting a wide range of inspections while under close supervision of the trainee supervisor.*

TERM ONE SYLLABUS

Class Schedule: CONST 100 - M,W - 8:30am to 10:00am

F – 8:15am to 9:15am

RCODE 100 – M,W –10:15am to 11:45am

F – 9:30am to 10:30am

PLANS 100 – M,W –10:45 am to 12:15pm

COMM 100 – M (4 weeks) 1:00pm to 3:00pm

Course Information: Cincinnati Building Inspection Academy

I.

Title: Construction methods and Materials

I.

Class number: CONST 100

Classroom Hrs: 30

Monday and Wednesday each week from 8:30am to 10:00am

Fridays from 8:15am to 9:15am

Field Hrs.: 6

II. Course Description: The course provides an overview of materials and methods used in construction. The course will be an introduction into the work of the design professional, constructions of foundations, wood characteristics, types and uses. The course will also cover heavy timber construction, light frame construction and various applications and installations of wood construction.

III. Course Objective:

1. The Objective is for the student to develop and understanding of how foundations and wood structures are constructed.
2. Knowledge and understanding of key aspects in code knowledge and application.
3. Applying key concepts, conceptual frameworks, techniques, methods, analytical tools for construction methods and varied materials
4. Think critically and clearly communicate the foundation methods, wood framing methods and characteristics.

IV. Instructor Information:

James Brunner

Training Supervisor

City of Cincinnati Building Department

V. Materials:

Textbook: Fundamentals of Building Construction: Materials and Methods, 7th edition

Title: The Residential Code of Ohio

Class number: RCODE 100

Classroom Hrs.: 30

Monday and Wednesday each week from 10:15am to 11:45

Fridays from 9:30am to 10:30am

Field Hrs.: 6

II. Course Description: This is an introduction to the Residential Code of Ohio. The introduction will be walkthrough of chapters 1 through 5. The chapters include Administration, Definitions, Building Planning, Foundations and Floors

III. Course Objective:

1. Understand the Administrative section of the Building Code.
2. Understand the role of the building inspector
3. Understand the process of building planning and requirements
4. Understand and implement code provisions correctly to construction projects in the field.

IV. Testing

We will utilize practice quiz covering topics of the RCO Study Guide at the end of each chapter, provided by video authors from the and the end of each Unit. The quiz will require a 75% score to pass.

There will be one final test covering all chapters with questions from the RCO Study Guide to evaluate knowledge and understanding of RCO chapters 1-5. The test will require a 75% score to pass.

There will be weekly practical field applications related to print reading and field verifications using projects under Permit from the City of Cincinnati Building Department.

V. Classroom Instructor Information:

James Brunner - Training Supervisor - Cincinnati Building Department

Richard A. Piccolo – Online Presenter - Building and Fire Code Academy

VI. Materials:

Ohio Residential Code of Ohio

Ohio Residential Code of Ohio – Study Guide

Ohio Residential Code of Ohio – Code Commentaries

Building and Fire Code Academy – Training videos

I.

Title: Fundamentals of Plan Reading

Class number: PLANS 100

Classroom Hrs.: 24

Monday and Wednesday each week from 10:45am to 12:15pm

II. Course Description:

The course will provide on online education on Construction Print Reading as prepared by author D.P.Dorfmeuller. The training videos will cover 11 units of educational topics consisting of: Lines and symbols, Construction math and applications, reading measuring tools and scales, Specifications and building codes, Construction types and materials, Site plans, Architectural Drawings. Foundations and Structural Prints.

III. Course Objective:

1.The Objective is for the student to develop and understanding of how construction documents are developed and prepared.

2. Knowledge and understanding of tools utilized for reading construction documents.

3. Knowledge and understanding to read and comprehend construction documents

4. Understand and evaluate the construction documents to the field construction to verify the field construction is consistent with construction documents

5. Understand the relationship of Building codes and Construction Documents.

IV. Testing

We will utilize practice quiz materials provided by the instructor's materials and the end of each Unit. The test will require a 75% score to pass.

There will be weekly exercises and practical field applications related to print reading and field verifications using projects under Permit from the City of Cincinnati Building Department.

V. Classroom Instructor Information:

Video Trainer - D.P.Dorfmeuller

VI. Materials:

Textbook: Print Reading for Construction, 7th edition

Videos: Print Reading for Construction, 7th edition

Title: Customer Service for Code Officials

Class number: COMM 100

Classroom Hrs.: 12

Mondays for four weeks from 1:00pm to 3:00pm

II. Course Description:

An 8 hour Departmental one-day course will provide education of the expectations of the department, the skills to provide excellent customer service to customers, contractors, and the public.

Trainees will have a 4 hour session on Customer Service Skills at new employee orientation.

III. Course Objective:

1. The Objective of the course is to provide Trainees the tools necessary to provide courteous and professional service and effectively avoid conflict.

1. The Objective is for the student to develop and understanding active listening skills

2. Understand knowledge of basic communication theory

3. Understand knowledge of telephone and e-mail etiquette

4. Learn persuasion in code compliance and how to handle difficult customers

IV. Testing

There will not be a test on this section

V. Classroom Instructor Information:

James Brunner

Training Supervisor

Cincinnati Building Department

VI. Materials:

City of Cincinnati Human Resources Training

Understanding Anger – PowerPoint video

Customer Service Questionnaire

TERM TWO SYLLABUS

Class Schedule: CONST 101 - M,W - 8:30am to 10:00am

F – 8:15am to 9:15am

RCODE 101 – M,W –10:15am to 11:45am

F – 9:30am to 10:30am

MECH 100 – M,W –12:30pm to 2:00pm

OCODE 100 – F (4 weeks) 10:45pm to 12:45pm

***Course Information*: Cincinnati Building Inspection Academy**

Title: Construction Methods and Materials

Class number: CONST 101

Classroom Hrs.: 30

Monday and Wednesday each week from 8:30am to 10:00am

Fridays from 8:15am to 9:15am

Field Hrs.: 6

Inspections will be conducted on Fridays with assigned Training Supervisor

II. Course Description: Chapters 4-6 Heavy Timber Construction

The course is a continuation of CONST100 overview of materials and methods used in construction. The course will focus on Heavy Timber Construction, light frame construction and various applications and installations of wood construction.

III. Course Objective:

1. Understand the principles and use of Heavy Timber construction
2. Understand light frame construction types and techniques
3. Understand wood connections and load path principles in construction
4. Understand framing inspections as related to the installation of Heavy Timber Construction and Light Frame Construction

IV. Testing

There will be a quiz related to wood connections and load path identifications. The quiz will require a 75% score to pass.

There will be weekly practical field applications related to framing inspections requests for field verification and evaluations in print reading, construction installations using projects under Permit from the City of Cincinnati Building Department

V. Instructor Information:

Classroom: James Brunner - Training Supervisor - Cincinnati Building Department

Field Instructor: Building Department State Approved Training Supervisor

VI. Materials:

Textbook: Fundamentals of Building Construction:

I.

Title: The Residential Code of Ohio

Class number: RCODE 101

Classroom Hrs.: 30

Monday and Wednesday each week from 10:15am to 11Fridays from 9:30am to 10:30am

Field Hrs.: 6

Inspections will be conducted on Fridays with assigned Training Supervisor

II. Course Description: This class is a continuation of RCODE100 the Residential Code of Ohio. The introduction will be walkthrough of chapters 6 through 8. The chapters include Wall Construction, Wall Coverings, and Roof-ceiling Construction.

III. Course Objective:

1. Understand wall construction types and techniques
2. Understand the interior and exterior wall coverings methods and materials
3. Understand the Roof Framing and types
4. Understand Sheathing Requirements and Ventilation Requirements
5. Understand and implement code provisions correctly to construction projects in the field.

IV. Testing

We will utilize practice quiz covering topics of the RCO Study Guide at the end of each chapter, we will utilize any quiz materials provided by video authors from the and the end of each unit. The quiz will require a 75% score to pass.

There will be one final test covering all chapters with questions from the RCO Study Guide to evaluate knowledge and understanding of RCO chapters 6-8. The test will require a 75% score to pass.

There will be weekly practical field applications related to print reading and field verifications using projects under Permit from the City of Cincinnati Building Department.

V. Instructor Information:

James Brunner - Training Supervisor - Cincinnati Building Department

I.

Title: Introduction to Mechanical Systems

Class number: MECH 100

Classroom Hrs: 20

Monday and Wednesday each week from 12:30pm to 2:00pm

Inspections will be conducted on Fridays with assigned Training Supervisor

II. Course Description: This is an introduction course to HVAC equipment, components and systems. The course will utilize presentations from the ASHRAE eLearning Center Fundamentals: HVAC Systems. The course will utilize the City of Cincinnati Heat Load Calculations and Design Training.

III. Course Objective:

1. The trainee will gain knowledge and understanding of HVAC design and operation
2. Understand the different types and operation of HVAC equipment
3. Understand a residential HVAC system contractor design
4. Understand and identify HVAC equipments and systems at construction projects in the field.

IV. Testing

We will utilize a practice quiz covering HVAC systems from the IMC Study Guide at the end of each chapter, Additional quiz material provided by video authors at the end of each Unit. The test will require a 75% score to pass.

There will be one final test covering all chapters with questions from the IMC Study Guide to evaluate knowledge and understanding HVAC systems. The test will require a 75% score to pass.

There will be weekly practical field applications related to print reading and field verifications using projects under Permit from the City of Cincinnati Building Department.

V. Classroom Instructor Information:

Joe Mundy–Assistant Supervisor - City of Cincinnati Heat Load Calculations and Design Training

– Online Presenter TBD – ASHRAE eLearning Center Fundamentals: HVAC Systems

VI. Materials:

ASHRAE eLearning Center Fundamentals: HVAC Systems

International Code Council Basic Code Enforcement

I

Title: Introduction to Building Code Administration and Regulatory Process

Class number: OCODE 100

Classroom Hrs: 16

Monday and Wednesday each week from 2:15pm to 3:15pm

II. Course Description:

The course covers the history of the Building Code. It will cover how the code is evolved. The course will look at building codes from federal, state and local jurisdictions. The course will cover ICC basics of Code Enforcement part 1 and overview of Codes, and Part 2 Administrative Aspects of Code Enforcement. The class will utilize Board of Building Standards online self help classes covering Certification Basics, Chapter 1 part 1 and Chapter 1 part 2.

III. Course Objective:

1. The trainees will gain understanding of Code enforcement work within the building code
2. Understand the legal establishment of building departments and requirements for personnel.
3. Understand proper administration and application of the codes in the field
4. Understand types of code enforcement, code adoption and enforcement procedures.

IV. Testing

There will be weekly practical field applications related to code enforcement and legal concerns during inspections for field verification and evaluation using projects under Permit from the City of Cincinnati Building Department.

V. Instructor Information:

Classroom: James Brunner - Training Supervisor - Cincinnati Building Department

OBBS video presenter – Meg Foley - Ohio Board of Building Standards

OBBS video presenter – Jay Richards - Ohio Board of Building Standards

OBBS video presenter – Rob Johnson - Ohio Board of Building Standards

VI. Materials:

Textbook: ICC Basics of Code Enforcement & Legal Aspects of Code Administration

Videos: OBBS Chapter 1 Part 1 – Sections 101, 102, 105, 106, 107, 108, 111

OBBS Chapter 1 Part 2 - Sections 103, 104, 114, 109, 110, 112, 113, 114, 115

OBBS Certification Basics

TERM THREE SYLLABUS

Class Schedule: CONST 102 - M,W - 8:30am to 10:00am

F – 8:15am to 9:15am

RCODE 102 – M,W –10:15am to 11:45am

F – 9:30am to 10:30am

COMM 101 – M,W –12:30pm to 2:00pm

CLEGL 100 – M,W (3 weeks) 2:15pm to 3:45pm

Course Information: Cincinnati Building Inspection Academy

I.

Title: Construction Methods and Materials

Class number: CONST 102

Classroom Hrs.: 30

Monday and Wednesday each week from 8:30am to 10:00am

Fridays from 8:15am to 9:15am

Field Hrs.: 6

Inspections will be conducted on Fridays with the Building Department designated OBBS Approved Trainee Supervisor

II. Course Description: Chapters 7-9 Masonry Construction

The course is a continuation of CONSY101 the overview of materials and methods used in construction. The course will focus on Masonry Construction, Topics will cover brick, stone, and concrete masonry. The course will also provide an introduction into interior finishes

III. Course Objective:

1. Understand the principles and use of Masonry Construction
2. Understand Brick applications and requirements in construction.
3. Understand Stone and concrete applications in construction.
4. Understand interior finish materials and requirements

IV. Testing

There will be weekly practical field applications related to framing inspections requests for field verification and evaluations in print reading, construction installations using projects under Permit from the City of Cincinnati Building Department

V. Instructor Information:

Classroom: James Brunner - Training Supervisor - Cincinnati Building Department

Field Instructor: Building Department designated OBBS Approved Trainee Supervisor

Textbook: Fundamentals of Building Construction: Materials and Methods, 7th Edition

I.

Title: The Residential Code of Ohio

Class number: RCODE 102

Classroom Hrs.: 30

Monday and Wednesday each week from 10:15am to 11:45

Fridays from 9:30am to 10:30am

Field Hrs.: 6

Inspections will be conducted on Fridays with assigned Training Supervisor

II. Course Description: This is a continuation of RCODE101 the Residential Code of Ohio. This installment of the class will cover chapters 9 through 11. The chapters include Roof Assemblies, chimneys and fireplaces, energy code provisions and review Plumbing, electrical and HVAC reference standards from chapters 12 through 44. The course will also utilize the OBBS video – Residential Occupancy

III. Course Objective:

1. The Trainee will understand the requirements of roof assemblies, sheathings, and roof systems
2. Understand the requirements of venting and standards for chimneys in new construction
3. Understand the standards for the Energy Code
4. Identify the reference standards for additional plumbing, electrical and HVAC systems
5. Understand and implement code provisions correctly to construction projects in the field.

IV. Testing

We will utilize practice quiz covering topics of the RCO Study Guide at the end of each chapter, provided by video authors from the and the end of each Unit. The quizzes will require a 75% score to pass.

There will be one final test covering all chapters with questions from the RCO Study Guide to evaluate knowledge and understanding of RCO chapters 9-11. The test will require a 75% score to pass.

There will be weekly practical field applications related to print reading and field verifications using projects under Permit from the City of Cincinnati Building Department.

V. Classroom Instructor Information:

James Brunner - Training Supervisor - Cincinnati Building Department

Jay Richards – Online Presenter – Ohio Board of Building Standards

Greg Sengstock – Online Presenter – Building and Fire Code Academy

VI. Materials:

OBBS Self Help Video – Residential Occupancy

Ohio Residential Code of Ohio – Study Guide

Ohio Residential Code of Ohio – Code Commentaries

Building and Fire Code and Academy – Training videos

I.

Title: Writing & Communication for Code Officials

Class number: COMM 101

Classroom Hrs: 16

Monday and Wednesday each week from 12:30pm to 2:00pm

II. Course Description:

The course will focus on communications with internal and external customers. The course will discuss the requirements for record keeping, generating clear concise inspection notes and written orders. The class will also cover tools for effective courteous communications such as basic persuasion theory, active listening. The course will cover the requirements for oral and written communications with citizens, contractors, design professionals and the public.

III. Course Objective:

1. The trainees will understand the importance of concise record keeping
2. Understand proper use of email and phone etiquette
3. Understand and utilize effective communication skills
4. Understand the importance of records request and record retention

IV. Testing

There will be weekly practical email and phone conversation evaluation to promote clear concise and effective communications

V. Instructor Information:

Classroom: James Brunner - Training Supervisor - Cincinnati Building Department

City of Cincinnati Human Resources Presenter

VI. Materials:

Textbook: Wright Well

Additional Materials: Cincinnati Human Resources Communication Instructions

Title: Legal Aspects of Code Administration

Class number: CLEGL 100

Classroom Hrs: 18

Monday and Wednesday each week for three weeks from 2:15pm to 3:45pm

II. Course Description:

The course will be a live presentation from City of Cincinnati Law Department covering legal topics such as the 4th Amendment, Legal right of entry, the proper procedures for Due Process and the constitutionality of code enforcement actions. The course will use the ICC – Legal Aspects in Code Administration. This course will also use WC3 Academy online training Legal Aspects of Code Administration with two modules. Module 1 – Code History & Governments. Module 2 – Administration & Enforcement of Laws. The course will spend time sitting in and listening to an Office of Administrative Hearing civil hearing and visit Municipal court to experience building code criminal violation proceedings.

III. Course Objective:

1. The trainees will gain knowledge and understanding of legal responsibilities
2. Understand how the Civil and Criminal system works for Building Inspections.
3. Understand the concepts of due process
4. The ability to understand Federal and State constitution related to inspections

IV. Testing

We will utilize quiz material provided by video authors at the end of each Unit.

There will be weekly practical field applications related to legal rights and procedures in existing buildings and during construction for field verification and evaluation using projects under Permit from the City of Cincinnati Building Department.

V. Instructor Information:

Classroom: James Brunner - Training Supervisor - Cincinnati Building Department

Video Class: Todd Snider and George Williams -WC3 Academy

VI. Materials:

Textbook: ICC Legal aspects of Code Administration

Videos: WC3 Academy Legal Aspects in Code Administration

TERM FOUR SYLLABUS

Class Schedule: CONST 103 - M,W - 8:30am to 10:00am

F – 8:15am to 9:15am

CCODE 100 – M,W –10:15am to 11:45am

F – 9:30am to 10:30am

MECH 101 – M,W –12:30pm to 2:00pm

OCODE 101 – M,W (5 weeks) 2:15pm to 3:15pm

Course Information: Cincinnati Building Inspection Academy

I.

Title: Construction Methods and Materials

Class number: CONST 103

Classroom Hrs: 30

Monday and Wednesday each week from 8:30am to 10:00am

Fridays from 8:15am to 9:15am

Field Hrs: 6

Inspections will be conducted on Fridays with the Building Department designated OBBS Approved Trainee Supervisor

II. Course Description: Chapters 10 through 12 - Masonry Walls, Steel Frame

The course is a continuation of CONST 104 the overview of materials and methods used in construction. The course will focus on masonry walls and steel frame and light steel construction. The course will help reinforce and understand details in the use of masonry and steel in construction projects during field inspection

III. Course Objective:

1. Understand the principles and use of Masonry walls in construction
2. Understand Brick , stone and concrete applications and requirements in construction
3. Understand Steel frame applications and requirements in construction
4. Understand Light steel framing requirements and related material attachments.

IV. Testing

There will be weekly practical field applications related to framing inspections requests for field verification and evaluations in print reading, construction installations using projects under Permit from the City of Cincinnati Building Department

V. Instructor Information:

Classroom: James Brunner - Training Supervisor - Cincinnati Building Department

Field Instructor: Building Department designated OBBS Approved Trainee Supervisor

VI. Materials:

Textbook: Fundamentals of Building Construction: Materials and Methods, 7th Edition (pgs. 363 to 490)

I.

Title: The Ohio Building Code

Class number: CCODE 100

Classroom Hrs: 30

Monday and Wednesday each week from 10:15am to 11:45

Fridays from 9:30am to 10:30am

Field Hrs: 6

Inspections will be conducted on Fridays with the Building Department designated OBBS Approved Trainee Supervisor

II. Course Description: This is an introduction course of the Ohio Building Code. The course will cover chapters 1 through 6 of the Ohio Building Code. The class will utilize the ICC certified WC3 Academy online course "Commercial Building Inspector".

III. Course Objective:

1. Gain knowledge and understanding of requirements for the covered chapters.
2. Understand the different Types of construction and Use and Occupancy
3. Understand requirements for special occupancies
4. Understand the provisions of area and height limitations
5. Understand and implement code provisions correctly to construction projects in the field.

IV. Testing

We will utilize a practice quiz covering topics from the IBC Study Guide at the end of each chapter, Additional quiz material provided by video authors at the end of each Unit. The quizzes will require a 75% score to pass.

There will be one final test covering all chapters with questions from the IBC Study Guide to evaluate knowledge and understanding of OBC chapters 1-6. The test will require a 75% score to pass.

There will be weekly practical field applications related to print reading and field verifications using projects under Permit from the City of Cincinnati Building Department.

V. Classroom Instructor Information:

James Brunner - Training Supervisor - Cincinnati Building Department

– Online Presenter – WC3 Academy, Chris Kimball, PE, SE, CBO, George Williams, MCP, CBO,

Todd Snider, PE, SE

VI. Materials:

Ohio Building Code

International Building Code – Study Guide

International Building Code – Code Commentaries

WC3 Academy – Training videos

I.

Title: Residential Mechanical Inspector

Class number: MECH 101

Classroom Hrs: 16

Monday and Wednesday each week from 12:30pm to 2:00pm

Inspections will be conducted on Fridays with the Building Department designated OBBS Approved Trainee Supervisor

II. Course Description: This is the second course for HVAC equipment, components, and systems. The course will utilize online presentations from WC3 Academy. The course consists of six modules that will cover exhaust and combustion air, chimneys and vents, boilers, water heating hydronic piping and storage tanks, installation of gas piping and gas appliances. The course provides online presentation slides, explanations, and examples.

III. Course Objective:

1. The trainee will gain knowledge and understanding of HVAC design and operation
2. Understand the different types and operation of HVAC equipment
3. Understand exhaust requirements and combustion air requirements for HVAC equipment
4. Understand and identify requirements for additional exhaust systems.

IV. Testing

We will utilize practice quizzes provided at the end of each module by the online presenter. The quizzes will require a 75% score to pass.

There will be one final test covering all chapters with questions from the IMC Study Guide to evaluate knowledge and understanding HVAC systems. The test will require a 75% score to pass.

There will be weekly practical field applications related to print reading and field verifications using projects under Permit from the City of Cincinnati Building Department.

V. Classroom Instructor Information:

James Brunner–Training Supervisor - City of Cincinnati

George Williams – Online Presenter – WC3 Academy

VI. Materials:

WC3 Academy – Online Course - Residential Mechanical Inspector

International Fuel Gas Code

Ohio Mechanical Code

I.

Title: Construction Documents and Field Inspections

Class number: OCODE 101

Classroom Hrs: 10

Monday and Wednesday for 5 weeks from 2:15pm to 3:15pm

Field Hrs: 10

Inspections will be conducted on Fridays with the Building Department designated OBBS Approved Trainee Supervisor

II. Course Description:

The course covers the functions of the field inspection process. The course will cover proper preparation of field inspection through review of the construction documents on file. The course will identify the process of to handle projects when the work in the field does not match approved drawings. The course will utilize Basic Code Enforcement ICC Administrative Series textbook consisting of three units in part 3 Technical Aspects of Code Enforcement.

III. Course Objective:

1. The trainees will gain understanding of the field inspection process
2. Understand the process of reading plans, plan reviews and planning for field inspections
3. Understand proper communication during and after the inspection
4. Understand and implement code provisions correctly to construction projects in the field.

IV. Testing

There will be weekly practical field applications related to plan reading and field inspections during inspections with the state assigned training supervisor for field verification and evaluation using projects under Permit from the City of Cincinnati Building Department.

V. Instructor Information:

Classroom: James Brunner - Training Supervisor - Cincinnati Building Department

OBBS video presenter – Jay Richards - Ohio Board of Building Standards

OBBS video presenter – Rob Johnson – Ohio Board of Building Standards

VI. Materials:

TERM FIVE SYLLABUS

Class Schedule: CCODE 101 - M,W - 8:30am to 10:00am

F – 8:15am to 9:15am

MECH 102 – M,W –10:15am to 11:45am

FIELD 100 – T –8:30am to 9:30am

CLEGL 101 – M,W (3 weeks) 12:30pm to 2:00pm

Course Information: Cincinnati Building Inspection Academy

I.

Title: The Ohio Building Code

Class number: CCODE 101

Classroom Hrs: 30

Monday and Wednesday each week from 8:30am to 10:00am

Fridays from 8:15am to 9:15am

Field Hrs: 6

Inspections will be conducted on Fridays with the Building Department designated OBBS Approved Trainee Supervisor

II. Course Description: This is a continuation of CCODE100 on the next chapters of the Ohio Building Code. The course will cover chapters 7 through chapter 11 of the Ohio Building Code. The educational materials will cover fire and smoke protections and cover code sections for safe exit from buildings based on occupancy types. The class will continue to utilize the ICC certified WC3 Academy online course "Commercial Building Inspector".

III. Course Objective:

1. Gain knowledge and understanding of requirements for the covered chapters.
2. Understand the aspects of fire and smoke walls and partitions
3. Understand fire and smoke protection systems
4. Understand the requirements for means of egress from buildings based on occupancy types
5. Understand the accessibility requirements for construction
6. Understand and implement code provisions correctly to construction projects in the field.

IV. Testing

We will utilize a practice quiz covering topics from the IBC Study Guide at the end of each chapter, Additional quiz material provided by video authors at the end of each Unit. The quizzes will require a 75% score to pass.

There will be one final test covering all chapters with questions from the IBC Study Guide to evaluate knowledge and understanding of OBC chapters 7 through 11. The test will require a 75% score to pass.

There will be weekly practical field applications related to print reading and field verifications using projects under Permit from the City of Cincinnati Building Department.

V. Classroom Instructor Information:

James Brunner - Training Supervisor - Cincinnati Building Department

– Online Presenter – WC3 Academy

Title: Commercial Mechanical Inspector

Class number: MECH 102

Classroom Hrs: 16

Monday and Wednesday each week from 10:15am to 11:45am

Inspections will be conducted on Fridays with the Building Department designated OBBS Approved Trainee Supervisor

II. Course Description: This is the second course for HVAC equipment, components, and systems. The course will utilize online presentations from WC3 Academy. The course consists of thirteen modules that will cover exhaust and combustion air, chimneys and vents, commercial Kitchens, duct systems, refrigeration and piping's, boilers, water heating hydronic piping and storage tanks, installation of gas piping and gas appliances. Fuel oil systems and solar systems. The course provides online presentation slides, explanations, and examples.

III. Course Objective:

1. The trainee will gain knowledge and understanding of HVAC design and operation
2. Understand the commercial types and operation of HVAC equipment
3. Understand exhaust requirements and combustion air requirements for HVAC equipment
4. Understand and identify requirements for commercial kitchens
5. Understand requirements for fuel oil and solar systems

IV. Testing

We will utilize practice quizzes provided at the end of each module by the online presenter. The quizzes will require a 75% score to pass.

There will be one final test covering all chapters with questions from the IMC Study Guide to evaluate knowledge and understanding HVAC systems. The test will require a 75% score to pass.

There will be weekly practical field applications related to print reading and field verifications using projects under Permit from the City of Cincinnati Building Department.

Title: Residential Field Inspections

Class number: Field 100

Classroom Hrs: 6

Tuesday mornings from 8:30am to 9:30am

Field Hrs: 36

Inspections will be conducted with the Building Department designated OBBS Approved Trainee Supervisor

II. Course Description: This course will consist of primarily job shadowing by the Training Supervisor and serve as the supervised evaluation process of the training program. The trainee will conduct the required inspection for residential construction rehabs and new residential buildings for footings, foundations, framing, draft stopping, insulation, and final inspection.

III. Course Objective:

1. The Trainee will implement a knowledge and understanding of inspection techniques
2. Understand and detail the different types of residential construction and required inspections
3. Effectively communicate with owners, contractors and the public on inspection results and requirements.
4. Understand and implement code provisions correctly to construction projects in the field.

IV. Testing

The Trainees will be evaluated by department developed evaluation forms to identify the strengths and weakness of the Trainee during inspections. The Training Supervisor will hold one on one session to discuss inspection evaluations.

The Training Supervisor will provide a written semester evaluation for the Trainee at the end of the quarter.

V. Field Instructor Information:

The Building Department designated OBBS Approved Trainee Supervisor

VI. Materials:

Assigned Residential Permits from the City of Cincinnati Building Department.

I.

Title: Legal Proceedings & Code Enforcement

Class number: CLEGL 101

Classroom Hrs: 10

Monday and Wednesday each week for three weeks from 12:30pm to 2:00pm

II. Course Description:

The course will include a presentation from City of Cincinnati Law Department covering legal topics such as the key elements of Failure to comply with building orders, how to be a witness in criminal court, Injunctive relief to abate dangerous buildings, Civil proceedings, and Zoning regulations with land use limitations. The course will use the ICC – Legal Aspects in Code Administration. This course will also use WC3 Academy online training Legal Aspects of Code Administration with five modules. Module 3 – Civil actions, Negligence and Wrongdoing: Module 4 –Discrimination: Module 5- Legislative Administration: Module 6- Human resources: Module 7 – Building Department Administration. The course will participate in role play of a "mock trial" to understand the basics of civil hearing and judicial court proceedings.

III. Course Objective:

1. The trainees will gain knowledge and understanding of legal responsibilities
2. Understand the role building inspections in civil criminal proceedings
3. Understand the process for Administrative Search Warrants
4. The ability to responsibility to Demolish or Repair Buildings by Government action.
5.

IV. Testing

We will utilize quiz material provided by video authors at the end of each Unit. The quizzes will require a 75% score to pass

There will be weekly practical field applications related to legal rights and procedures in existing buildings and during construction for field verification and evaluation using projects under Permit from the City of Cincinnati Building Department.

Title: The Ohio Building Code

Class number: CCODE 102

Classroom Hrs: 30

Monday and Wednesday each week from 8:30am to 10:00am

Fridays from 8:15am to 9:15am

Field Hrs: 6

Inspections will be conducted on Fridays with the Building Department designated OBBS Approved Trainee Supervisor

II. Course Description: This is a continuation of CCODE101 on the next chapters of the Ohio Building Code. The course will cover chapters 12 through chapter 27 of the Ohio Building Code. The educational materials will cover fire and smoke protections and cover code sections for safe exit from buildings based on occupancy types. The class will continue to utilize the ICC certified WC3 Academy online course "Commercial Building Inspector"

III. Course Objective:

1. Gain knowledge and understanding of requirements for the covered chapters.
2. Understand the Construction Materials
3. Understand The requirements of Glazing
4. Understand and implement code provisions correctly to construction projects in the field.

IV. Testing

We will utilize a practice quiz covering topics from the IBC Study Guide at the end of each chapter, Additional quiz material provided by video authors at the end of each Unit. The quizzes will require a 75% score to pass

There will be one final test covering all chapters with questions from the IBC Study Guide to evaluate knowledge and understanding of OBC chapters 12 through 27. The test will require a 75% score to pass.

Title: Fire Behavior and Disaster Response

Class number: OCODE 102

Classroom Hrs: 30

Monday and Wednesday each week from 10:15am to 11:45

Fridays from 9:30am to 10:30am

Field Hrs: 6

Inspections will be conducted on Fridays with the Building Department designated OBBS Approved Trainee Supervisor

II. Course Description:

The course will provide a basic knowledge and understanding of fire behavior. The course will utilize four chapters of the NFPA Basics of Fire and Fire Science online course. The chapters will cover Concepts of construction, Methods and Materials renovations and demolition, Fire behavior and building construction and Features of fire protection. The course will also cover the role of building inspectors in disaster response, property assessment and repair.

III. Course Objective:

1. The trainees will be able to define the chemistry and physics of fire
2. Understand the implications of fuel-rich and oxygen-rich fuel rations
3. Understand basic behaviors of fire relating to fire resistant construction
4. Understand proper response to natural disasters such as fire, flooding high winds and earthquakes.

IV. Testing

There will be weekly practical field applications related to Fire resistance construction, Fire stopping and draft stopping and legal concerns during inspections for field verification and evaluation using projects under Permit from the City of Cincinnati Building Department.

V. Instructor Information:

TERM SEVEN SYLLABUS

Class Schedule: CCODE 103- M,W - 8:30am to 10:00am

F -8:15am to 9:15am

OCODE 103 – M –10:15am to 11:15am

FIELD 102 – T – 8:30am to 9:30am

Course Information: Cincinnati Building Inspection Academy

I

Title: The Ohio Building Code

Class number: CCODE 103

Classroom Hrs: 30

Monday and Wednesday each week from 8:30am to 10:00am

Fridays from 8:15am to 9:15am

Field Hrs: 6

Inspections will be conducted on Fridays with the Building Department designated OBBS Approved Trainee Supervisor

II. Course Description: This is a continuation of CCODE102 on the next chapters of the Ohio Building Code. The course will cover Chapter 34 of the Ohio Building Code. Materials: Existing Building adaptation case studies in Cincinnati

OBBS- Chapter 34 Part 1 & Chapter 34 Part 2 (Steven Regoli)

This course will be presented using department plan examiners who will present actual case studies of existing building renovations, additions, change of use and historic buildings and walk trainees through the way the Ohio Building Code regulates and is applied to existing buildings. The course includes weekly practical application of learning to actual construction documents and building scenarios. This course requires 30 hours of classroom and a minimum of 6 hours field application of the knowledge.

This is a continuation of The Ohio Building Code for the trainees: Chapter 34.

III. Course Objective:

1. Gain knowledge and understanding of requirements for existing buildings.
2. Understand the process of review of existing buildings related to new alteration projects
3. Understand the different types and requirements of paths to code compliance
4. Understand the requirements to relocate buildings from one site to another
5. Understand and implement code provisions correctly to construction projects in the field.

IV. Testing

We will utilize a practice quiz covering topics from the chapter. There will be one final test covering the chapter. The test will require a 75% score to pass. There will be weekly practical field applications related to print reading and field verifications using projects under Permit from the City of Cincinnati Building Department.

V. Classroom Instructor Information:

I.

Title: Material Testing and Reference Standards

Class number: OCODE 103

Classroom Hrs: 6

Monday from 10:15am to 11:15am

Field Hrs: 2

Inspections will be conducted on Fridays with the assigned Training Supervisor

II. Course Description:

The course will explore Chapter 35 of the Ohio Building Code; the course will focus on common reference standards used in field inspections. The course will discuss the process of testing laboratories to develop listed and labeled systems and materials. The course will cover the NFPA standards set forth for fire suppression and fire alarm systems

III. Course Objective:

1. The trainees will be able to understand common reference standards
2. Understand and research NFPA 72 and 13 standards and requirements
3. Understand the roles of testing agencies
4. Understand proper response to natural disasters such as fire, flooding high winds and earthquakes.

IV. Testing

There will be weekly practical field applications related to Fire resistance construction, Fire suppression and fire alarm systems during inspections for field verification and evaluation using projects under Permit from the City of Cincinnati Building Department.

V. Instructor Information:

Classroom: James Brunner - Training Supervisor - Cincinnati Building Department

Classroom Presentation: City of Cincinnati Plan Examination Staff.

VI. Materials:

Textbook: Ohio Building Code

Under writers Laboratory Fire Resistance Directories

Materials: NFPA 72 and NFPA 13; ASTM 119E

I.

Title: Commercial Field Inspections

Class number: Field 102

Classroom Hrs: 6

Tuesday mornings from 8:30am to 9:30am

Field Hrs: 36

Inspections will be conducted with the Building Department designated OBBS Approved Trainee Supervisor

II. Course Description: This course will consist of primarily job shadowing by the Training Supervisor and serve as the supervised evaluation process of the training program. The trainee will conduct the required inspection for commercial construction rehabs and new commercial buildings for footings, foundations, framing, fire stopping, insulation fire protection systems and final inspection.

III. Course Objective:

1. The Trainee will implement a knowledge and understanding of inspection techniques
2. Understand and detail the different types of commercial construction and required inspections
3. Effectively communicate with owners, contractors and the public on inspection results and requirements.
4. Understand and implement code provisions correctly to construction projects in the field.

IV. Testing

The Trainees will be evaluated by department developed evaluation forms to identify the strengths and weakness of the Trainee during inspections. The Training Supervisor will hold one on one session to discuss inspection evaluations.

The Training Supervisor will provide a written semester evaluation for the Trainee at the end of the quarter.

V. Field Instructor Information:

The Building Department designated OBBS Approved Trainee Supervisor

VI. Materials:

Assigned Commercial Permits from the City of Cincinnati Building Department.

TERM EIGHT SYLLABUS

Class Schedule: CCODE 104- M,W - 8:30am to 10:00am

F -8:15am to 9:15am

OCODE 104 – M –10:15am to 11:15am

FIELD 103 – T – 8:30am to 9:30am

Course Information: Cincinnati Building Inspection Academy

I.

Title: Active Fire Protection Systems & Alarms

Class number: CCODE 104

Classroom Hrs: 30

Monday and Wednesday each week from 8:30am to 10:00am

Fridays from 8:15am to 9:15am

Field Hrs: 6

Inspections will be conducted on Fridays with the Building Department designated OBBS Approved Trainee Supervisor

II. Course Description:

The course will utilize the NFPA on line training and the related chapters of the Ohio Building Code. The NFPA course consists of three modules: Module 1- NFPA life safety and fire protection fundamentals: Module 2- NFPA 13. Standards for the installation of Sprinkler Systems: Module 3-NFPA 72. Fire Alarm and signaling code. The requirements for record keeping, generating clear concise inspection notes and written orders. The class will cover the requirements and installation of fire alarm, sprinkler systems, as well as, fire dampers, fire shutters, elevator recall and suppression hood systems

III. Course Objective:

1. The trainees will understand NFPA standards for fire alarm and sprinkler systems
2. Understand correlation between NFPA and Building code requirements
3. Understand early warning alarm systems and communication requirements
4. Understand the different types of suppression systems and containment systems
5. Understand and implement code provisions correctly to construction projects in the field.

IV. Testing

We will utilize a practice quiz covering related topics from the OBC Study Guide at the end of the quarter. The quizzes will require a 75% score to pass

There will be weekly practical field applications related to print reading and field verifications using projects under Permit from the City of Cincinnati Building Department.

V. Instructor Information:

Classroom: James Brunner - Training Supervisor - Cincinnati Building Department
Video: NFPA Online Presenter

VI. Materials:

Textbook: The Ohio Building Code
Online Class: NFPA Online Training

I

Title: Learning from Losses

Class number: OCODE 104

Classroom Hrs: 6

Monday each week from 10:15am to 11:15am

II. Course Description:

The course will be continued education of Disaster and disaster response. The course will focus on tragic events causing loss of life and the changes to building code requirements as response. The course will review additional requirements related to wind resistance, seismic provision, fire protections, and paths of egress. The course will view videos of tragic events and discuss how the effects inadequate and poorly enforced requirements can be detrimental.

III. Course Objective:

1. The trainees will gain knowledge and understanding of the role of a building inspector
2. Understand how inadequate design and inspections affects buildings and human life.
3. Understand the concepts of Malfeasance, misfeasance and nonfeasance
4. The ability to properly identify serious hazards and establish prevention plans

IV. Testing

There will be weekly practical field applications related to identifying and prevention of serious hazards in existing buildings and during construction for field verification and evaluation using projects under Permit from the City of Cincinnati Building Department.

V. Instructor Information:

Classroom: James Brunner - Training Supervisor - Cincinnati Building Department

Video - Debbie Ohler/ Steve Regoli - Ohio Board of Building Standards

VI. Materials:

Triangle Shirtwaist Factory Fire.

I.

Title: Commercial Field Inspections

Class number: Field 103

Classroom Hrs: 6

Tuesday mornings from 8:30am to 9:30am

Field Hrs: 36

Inspections will be conducted with the Building Department designated OBBS Approved Trainee Supervisor

II. Course Description:

This course will consist of primarily job shadowing by the Building Department designated OBBS Approved Trainee Supervisor and serve as the supervised evaluation process of the training program. The trainee will conduct the required inspection for commercial construction rehabs and new commercial buildings for footings, foundations, framing, fire stopping, insulation fire protection systems and final inspection.

III. Course Objective:

1. The Trainee will implement a knowledge and understanding of inspection techniques
2. Understand and detail the different types of commercial construction and required inspections
3. Effectively communicate with owners, contractors and the public on inspection results and requirements.
4. Understand and implement code provisions correctly to construction projects in the field.

IV. Testing

The Trainees will be evaluated by department developed evaluation forms to identify the strengths and weakness of the Trainee during inspections. The Training Supervisor will hold one on one session to discuss inspection evaluations.

The Training Supervisor will provide a written semester evaluation for the Trainee at the end of the quarter.

V. Field Instructor Information:

The Building Department designated OBBS Approved Trainee Supervisor

VI. Materials:

Assigned Commercial Permits from the City of Cincinnati Building Department.

CORE COMPETENCY RECORD

Evaluation

The evaluation component in this program is a necessary and critical element. It determines the level of success made in presentation of the training by quantifying and measuring actual learning and skill development. The evaluation process must be a systematic and consistent process. This process in four phases is not only for the trainee but carries on into the career of certified personnel for cross training, continuing education, and quality control. It also is applicable to and bridges across all department disciplines.

The training and evaluation process works by first presenting the learning component. The learning component is defined with by the objective of mastering the concepts. The teaching methods are presented in several ways; classroom, on-site, or one on one. Different inspectors will learn differently based on individual aptitudes and interests. This is where the trainer needs to know the audience being taught. The learning component may be presented several times and in different formats to instill and re-enforce the learning. Once a learning component has been delivered, the evaluation begins.

The evaluation comes with a critical item check list or markers based on the learning objective and practical task. This evaluation form is consistent for all the trainees or certified personnel. The evaluation will include not only code related items but also customer service and the soft skills needed to perform their duties and deliver public service effectively. The evaluation will consist of many concepts inside the learned component. It first will consist of a list of technical items to verify competency. The evaluation will cover the choices made if the inspection or plan review is denied measuring knowledge of the next steps, and ability to effectively communicate, i.e. What do I tell the contractor, owner, or design professional? How can these items be corrected?

For example, if the learning component is a soil inspection, then the list of the inspection items will be verified that the trainee observed and correctly evaluated each item. However, what happens if the soil is bad or on fill etc.? The process will evaluate the extent the student knows what to disapprove and whether to require a geo technical engineer to approve the soil bearing capacity. This will determine not only the concepts and checklist items have been learned, but the full understanding of what the inspector can or cannot approve and why; to verify a solid problem-solving process has been developed, and if the experience and training gained through the program has resulted in accurate and appropriate decision making and service delivery ability.

This process can be applied consistently across all disciplines. It is not only a verification of competency but encourages development of quality control and consistency. This process is continuous to confirm the learning objectives are met in several different applications as follows:

1. To verify the learning component in Trainees.
2. To verify the learning component is Cross Training.
3. To train and verify currently certified personnel.
4. To provide Consistency and Quality Control in all disciplines.

This is a verifiable process to provide well trained competent Building Department personnel. The following is an example of the performance of an evaluation considered in phases.

Phase I:

The phase one evaluation process is when the trainee supervisor is in attendance with the trainee. The supervisor will evaluate the trainee while they perform the inspection (or plan review.) Remembering however not to guide them or coach but evaluate them after the completion of the process or tasks. The trainee supervisor or evaluator should document all the results on the evaluation forms. The results are discussed with the Trainee once the evaluation is

completed to learn from any mistakes and reinforce positive behavior. This evaluation will qualify the results of the learning objective. Further, the evaluation will determine if teaching a component has been effective or will need to be improved. Phase one evaluation should be done until a competency level is established before moving to the next phase.

Phase II:

Phase two evaluation is when the trainee performs the inspection on their own without the presence of the Trainer. The evaluator will perform this review following in the schedule of the inspector after the trainee has completed the field learning component. The evaluator will review the notes, verify that all the markers on the checklist have been met and confirm and verify no additional steps were required. The supervisor will solicit feedback from customers on the service delivery and clarity of any communications. Once the evaluation has been completed and the results documented, the results will be shared with the trainee.

*Note:
Trainees cannot sign off on or approve anything until a certification permitting approvals has been obtained, even though the trainee is performing the inspection or learning objective by themselves direct supervision is required for approvals. The trainee supervisor is still required to perform the inspection or plan review and then approve or deny the results accordingly.

Phase III:
Phase three evaluations primarily apply to currently certified personnel. Phase three is the continual process for consistency and quality control. This process keeps the certified personnel from getting complacent. It can be used to verify is the current codes have been learned and are being applied properly after the code change adoption. It will bring to light bad habits or inconsistently applied concepts have developed over the years. This process is again the process for customer service, soft skills, communication, and technical skill verification.

The Evaluation process is the core of the learning verification process. It determines if all the learning components have been achieved. It verifies that the teaching method is effective. It will also verify if the instructor is successful on the delivery of the learning component.
The Evaluation process is the key component to the Building Inspection Academy and **All** of the departmental training programs.

The following contains typical evaluation checklists, and a trainee competency record for documenting progress and satisfactory completion both in the classroom and in the field.

Cincinnati Building Department Trainee Evaluation

Footer/soil/lot line and marker

Inspector Trainee_____ Date of Evaluation _____

TYPE of Inspection: **Footer/soil/lot line and marker** RCO ____ OBC_____

Permit#_____

Have PPE for the jobsite? (Vest, Hard Hat, Steel Toes, Eye protections) YES ____ NO_____

The Ohio State University - BS, Architecture	August, 1987
b. Related Vocational or Technical Training	Years' Experience
c. U.S. Military construction experience (MOS or other designation):	Years' Experience
d. Place of Employment:	Years' Employed
Fayette County Building Department, Washington CH, OH	2020-2022

Board of Building Standards Application for Interim Certification, Building Department Personnel

Breedlove	Craig	6338
Last Name	*First Name*	*BBS Certification ID*

SECTION 4: OBC/RCO BUILDING INSPECTION EXPERIENCE PERFORMED FOR A BBS CERTIFIED BUILDING DEPARTMENT

BBS Certified Building Department	BBS Certified Position/Title	Duties	Date of Service, Length of Time (MM/DD/YY)
		Building Official	02/06/2020, 2 Years +

SECTION 5: EXPERIENCE *(DO NOT SUBSTITUTE WITH OTHER RESUMES)*.

Refer to Experience Requirements Listed in O.A.C. 4101:7-3-01 and O.R.C. 3783

Below, list the specific projects you worked on, and the specific work you performed, your typical duties for each project, and dates of this work. You **must** demonstrate that you have the required number of months (years) of actual, practical experience for the certification requested (see matrix).

Provide letters from certified inspectors, employers, or contractors verifying your experience. Submit copies of any certificates, diplomas, or licenses. Remove all personal information.

List Each Construction Project AND Specific Type of Work Performed	Name of Employer, Contact, Address, Telephone Number	Project Time: From_ To _ (MM/YY)
Example: *Children's Hospital, Toledo* *Structural steel work on addition* See Next Page:	*Homer Steel and Trade* *125 Anytown Street* *My City, OH, 45454* *(419)555-1212*	*July 2013-May 2014* *(10 months)*
Total Experience on This Page (In Months):		

Breedlove	Craig	6338
Last Name	*First Name*	*BBS Certification ID*

SECTION 5 CONT.: EXPERIENCE

List Each Construction Project AND Specific Type of Work Performed	Name of Employer, Contact, Address, Telephone Number	Project Time: From_ To _ (MM/YY)
Worked mostly on multi-family and single family residential projects with some commercial and interior design experience. Worked most of these years as an architectural intern gaining experience for the Ohio Architects Registration Exam. Projects included mostly publicly funded single-family and multi-family residential, restaurant and nursing home alterations, and high-end custom single family residential.	Berardi-Plaisted Architects, Inc. Columbus, Ohio	6/1987 - 7/1990 (37 months)
	Functional Planning, Inc. Columbus, Ohio	7/1990 - 9/1991 (14 months)
	Giesken Associates Architects, Inc. Columbus, Ohio	9/1991 - 6/1994 (33 months)
State of Ohio Architectural Registration		2/28/1994
25 years experience working as an architectural project manager for a small office in Washington Court House, Ohio. Worked on a wide range of projects including single & Multi-family assembly uses, business and mercantile educational facilities industrial, storage and agricultural uses.	Mark Heiny, Architect Washington Court House, OH	6/1994 - 2/2020 (308 months)
Served past 2 years as the Fayette County Building Official.	Fayette County Building Dept. 121 E. East St. Washington Court House, OH	2/2020 - Present (25 MONTHS)
	Total Experience on This Page (In Months):	417

Personnel ID #: 6338
12/14/2021

Having met the certification requirements in the rules of the Board of Building Standards, enclosed please find your certification ID card below.

The expiration date(s) for your certification(s) is (are) as indicated below on your ID card.

Holders of Board certifications must complete at least thirty hours of continuing building code education for their respective certifications, ***including Board sponsored required courses,*** prior to the expiration date of the certification as a requirement for renewal. Failure to complete the number of hours required ***and mandatory classes*** shall result in forfeiture of the certification. It shall be the responsibility of the certified individual to furnish the Board with proof of completion of all Board approved courses for which credit is sought. Copies of your course certificates are to be attached to and returned with the renewal application, which will be forwarded to you at the appropriate time. Continuing education courses approved for more than one certification may be applied to each certification for which continuing education is required.

Please refer to your personnel I.D. number (shown on the ID card below) on any correspondence and on all certificates of continuing education forwarded to the Board's office related to your certification. If you have any questions, please do not hesitate to contact the Board for assistance at 614-644-2613.

Sincerely,
BOARD OF BUILDING STANDARDS

Regina S. Hanshaw
Executive Secretary

Dear Ohio EMS/Fire Service Applicant:

Congratulations on completing the requirements to hold a certification as an EMT/Fire Service provider in the State of Ohio. Attached below is your State of Ohio certification card for the level/levels you have achieved. Please review all information on the card for correctness. If there is any error, please contact the Certification Section of the Division of EMS at (800) 233-0785 or (614) 466-9447.

Please visit our Web site at www.ems.ohio.gov to obtain information for maintaining your certification. There you will find the renewal requirements for each level of certification. You can also register into our system by using the "Online Certification Renewal" process. This will give each certificate holder the ability to make changes to their personal information, email address and place of affiliation as well as tracking their continuing education classes and renewing certifications when eligible to do so.

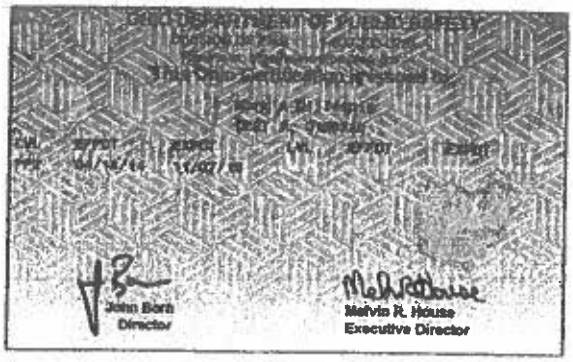
Also available on our Web site is information about all the sections of the Division of EMS which includes Education, Fire Service, Grants, EMS for Children, Data Services and The Office of Investigative Services as well as access to the Ohio Revised Code (Laws) and the Ohio Administrative Code (Rules). Please feel free to contact the Division of EMS about any questions you may have on any of these subjects.

Yours Truly,

Melvin R. House
Executive Director
Emergency Medical Services

Please refer to your certification number in all correspondence with the EMS Division.

This certificate and its renewal are subject to the conditions set forth in the Ohio Revised Code and the standards adopted by the State Board of Emergency Medical Services and the EMS Division.



YOU MUST NOTIFY THE EMS DIVISION IN WRITING ANY CHANGE IN NAME, HOME ADDRESS, OR SERVICE ADDRESS WITHIN 30 DAYS OF THAT CHANGE.

If you have any questions, contact the EMS Division at 1-800-233-0785

LEGEND FOR CERTIFICATION LEVEL ABBREVIATIONS FOUND ON BACK OF CERTIFICATION CARD.

SECTION 6: ELECTRICAL SAFETY INSPECTOR (ESI) - SPECIFIC EXPERIENCE QUALIFICATIONS

Applicants for Electrical Safety Inspector Only Must Complete This Item

Section 3783 of the Ohio Revised Code specifies that an applicant for a Certificate of Competency as an Electrical Safety Inspector must meet on of the following to qualify to take required examination. Please check the qualification that applies:

1. ☐ Have been a journeyman electrician or equivalent for four years, two of which were as an electrician foreman, and have had two years' experience as a building department electrical inspector trainee;
2. ☐ Have been a journeyman electrician or equivalent for four years and have had three years' experience as a building department electrical inspector trainee;
3. ☐ Have had for four years' experience as a building department electrical inspector trainee;
4. ☐ Have been a journeyman electrician or equivalent for six years;
5. ☐ Am a graduate electrical engineer and registered in the State of Ohio. Registration number: _____
6. ☐ Applicant authorizes all testing organizations including ICC to provide test results to the BBS.

SECTION 7: EXPERIENCE *(DO NOT SUBSTITUTE WITH OTHER RESUMES).*

Refer to Experience Requirements Listed in O.A.C. 4101:7-3-01 and O.R.C. 3783

Below, list the specific projects you worked on, and the specific work you performed, your typical duties for each project, and dates of this work. You **must** demonstrate that you have the required number of months (years) of actual, practical experience for the certification requested (see matrix).

Provide letters from certified inspectors, employers, or contractors verifying your experience. Submit copies of any certificates, diplomas, or licenses. Remove all personal information.

SECTION 7 CONT.: EXPERIENCE

List Each Construction Project AND Specific Type of Work Performed	**Name of Employer, Contact, Address, Telephone Number**	**Project Time: From_ To _** (MM/YY)
Example: *Children's Hospital, Toledo* *Structural steel work on addition*	*Homer Steel and Trade* *125 Anytown Street* *My City, OH, 45454* *(419)555-1212*	*July 2013-May 2014* *(10 months)*

Dear Ohio EMS/Fire Service Applicant:

Congratulations on completing the requirements to hold a certification as an EMT/Fire Service provider in the State of Ohio. Attached below is your State of Ohio certification card for the level/levels you have achieved. Please review all information on the card for correctness. If there is any error, please contact the Certification Section of the Division of EMS at (800) 233-0785 or (614) 466-9447.

Please visit our Web site at www.ems.ohio.gov to obtain information for maintaining your certification. There you will find the renewal requirements for each level of certification. You can also register into our system by using the "Online Certification Renewal" process. This will give each certificate holder the ability to make changes to their personal information, email address and place of affiliation as well as tracking their continuing education classes and renewing certifications when eligible to do so.

Also available on our Web site is information about all the sections of the Division of EMS which includes Education, Fire Service, Grants, EMS for Children, Data Services and The Office of Investigative Services as well as access to the Ohio Revised Code (Laws) and the Ohio Administrative Code (Rules). Please feel free to contact the Division of EMS about any questions you may have on any of these subjects.

Yours Truly,

Melvin R. House
Executive Director
Emergency Medical Services

Please refer to your certification number in all correspondence with the EMS Division.

This certificate and its renewal are subject to the conditions set forth in the Ohio Revised Code and the standards adopted by the State Board of Emergency Medical Services and the EMS Division.

Re: Application for Interim CBO Certification
Personnel ID # 4497

Dear Ms. Jones,

Please find attached my Application for Certification as an interim chief building official along with a check in the amount of $50.00 payable to the Treasurer, State of Ohio for the above referenced certification. Jen Chrysler, Development Director for the City of New Albany has asked me to serve as Assistant Chief Building Official for the new Intel site. I will be serving under the direct supervision of Michael Boryca. I have attached my RBO certification dated February 22, 2018. I am asking the Board to consider early interim certification based on my 4 years as an RBO and the following experience.

I received an accredited Undergraduate and Master's Degree in Architecture from Ball State University in 2011. I have been working full time in architectural design, as a job superintendent, and in code enforcement ever since. I have worked closely with the following Building Officials and would be happy to obtain references upon request.

Michael Boryca
Bill Toole
Kevin Moran
Roger Eastep
Michael Asebrook
Tim Schaffner

I plan to take the ICC CBO examination during my 2-year interim period. My test results will be provided to the Board. Should you have any questions or require any further information, please don't hesitate to contact me. Thank you so much for your time and consideration.

Cordially,

Ryan Hanigan
BI, RBI, RBO ID/CERT #4497

Having met the certification requirements in the rules of the Board of Building Standards, enclosed please find your certification ID card below.

The expiration date(s) for your certification(s) is (are) as indicated below on your ID card.

Holders of Board certifications must complete at least thirty hours of continuing building code education for their respective certifications, ***including Board sponsored required courses,*** prior to the expiration date of the certification as a requirement for renewal. Failure to complete the number of hours required ***and mandatory classes*** shall result in forfeiture of the certification. It shall be the responsibility of the certified individual to furnish the Board with proof of completion of all Board approved courses for which credit is sought. Copies of your course certificates are to be attached to and returned with the renewal application, which will be forwarded to you at the appropriate time. Continuing education courses approved for more than one certification may be applied to each certification for which continuing education is required.

Please refer to your personnel I.D. number (shown on the ID card below) on any correspondence and on all certificates of continuing education forwarded to the Board's office related to your certification. If you have any questions, please do not hesitate to contact the Board for assistance at 614-644-2613.

Sincerely,
BOARD OF BUILDING STANDARDS

Regina S. Hanshaw
Executive Secretary

Re: Building Official Application - 5655

Dear Board Members:

In November I applied for the Master Plans Examiner and received my Interim Certificate. During February's Code Academy I learned I should have also checked the Building Official box on the application. Attached is the same application with that box checked. I understand I will need to attend the Code Academy again for that Certificate and additional testing requirements.

Sincerely,

Patrick A. Hillier, AIA

Having met the certification requirements in the rules of the Board of Building Standards, enclosed please find your certification ID card below.

The expiration date(s) for your certification(s) is (are) as indicated below on your ID card.

Holders of Board certifications must complete at least thirty hours of continuing building code education for their respective certifications, ***including Board sponsored required courses,*** prior to the expiration date of the certification as a requirement for renewal. Failure to complete the number of hours required ***and mandatory classes*** shall result in forfeiture of the certification. It shall be the responsibility of the certified individual to furnish the Board with proof of completion of all Board approved courses for which credit is sought. Copies of your course certificates are to be attached to and returned with the renewal application, which will be forwarded to you at the appropriate time. Continuing education courses approved for more than one certification may be applied to each certification for which continuing education is required.

Please refer to your personnel I.D. number (shown on the ID card below) on any correspondence and on all certificates of continuing education forwarded to the Board's office related to your certification. If you have any questions, please do not hesitate to contact the Board for assistance at 614-644-2613.

Sincerely,
BOARD OF BUILDING STANDARDS

Regina S. Hanshaw
Executive Secretary

CLEVELAND HEIGHTS

Date: 03/01/2022

From: Building Department
City of Cleveland Heights
40 Severance Circle
Cleveland Heights, Ohio

To: Ohio Board of Building Standards,

I had the opportunity to work with William Lane when I was a building inspector for the City of North Ridgeville. I inspected William's work for 3 years on an almost daily basis. His crew did footers and poured concrete wall foundations. During that time, he was always a supervisor of the crew. William was always conscientious as a crew leader. During the time that I inspected his work he never failed an inspection and he was always done for an inspection on time. His crew was the A team in North Ridgeville, and for them inspection was a formality, because their work was beyond reproach. William is incredibly knowledgeable in his trade and could easily answer any questions about a particular job. I found him to be a great communicator and I learned quickly that I could trust him. In short, I believe that he is a great candidate for your consideration

Respectfully,

James Lenahan/ ICBO
Cleveland Heights Building Commissioner
