RE: Craig Gilkison's Certification Application

Date: December 8, 2021

Dear Board:

For the past 14 years working with Mr. Gilkison; it is my pleasure to write this recommendation to approve his application for building inspector certification that is before this board.

For the past 16 years Mr. Gilkison has split his time working for the Clermont County Building Department; doing water management and sediment control inspections per adopted standards along with complaints with storm water run-off. In the past year, the department has utilized him in virtual inspections as being the eyes and ears helping with building, mechanical, and electrical inspections; and Clermont County Sewer and Water as a Construction Inspector supervising the installation of water and sewer mains per approved plans.

He also has worked in the private sector for a number years prior to going into public sector building and supervising several residential and commercial structures that were within the scope of the "Residential Code of Ohio", and the "Ohio Building Code".

It is in my opinion that Mr. Gilkison has the aptitude, knowledge, and experience directly related to buildings or structures regulated by Ohio Board of Building Standards to be considered for the Building Inspector's certification.

Sincerely,

Steven J. Rivera, CBO

Certification Committee

Dear Committee Members,

I am writing to you this day to apply for full Residential and Non-Residential Certification for Ray Robinson # 8517. He was previously approved for Residential Building Official upon his completion of the Code Academy. Mr. Robinson has also completed 225 training hours in Residential and Non-Residential training (see attached). The training has been signed off by his Immediate Supervisor fully certified Ernest (Joe) Mundy. His training has also been verified and signed off by Art Dahlberg City of Cincinnati Building Official.

Please also find attached the passing and completion of all required examinations for Residential and Non-Residential certifications.

We are requesting full Certification for Residential Building Official and Non-Residential Building Inspector.

Should you have any questions, please feel free to contact me at you earliest convenience.

Thanks,

Mike Spry

EXAMINATION RESULT: PASS

Congratulations! You have passed this examination. This certification is current for three years.

We've simplified your experience in receiving your wall certificate. The Code Council has added a Print-on-demand option for you to print your own certificate in your home or office. This comes at no additional cost to you. When you are logged into myICC, click on the "My Certificates" tab. Under "My Certificates" you will find an "Action" column that gives you the option to print your certificate.

Start gaining Continued Education Units (CEUs) to maintain your certification. Visit the Learning Center at www.learn.iccsafe.org for information on convenient ways to obtain CEUs.

Need to update your name or address on file? Log in to your myICC account at my.iccsafe.org to update your profile.

The Code Council reserves the right to amend or withhold any examination scores if, in its sole opinion, there is adequate reason to question their validity.

Thank you for your support to public safety!

The authenticity of this score report can be validated by using Pearson VUE's Online Score Report Authentication found at:

To: Board of Building Standards,

I am applying for my Building and Mechanical Inspector interim certification. I am aware my experience falls short of the required amount, but am asking the board to take into consideration my 20 years of field experience (12+ as a state licensed plumbing contractor), 3 years of experience as a Plumbing and Residential Building inspector, and that I have passed the required exams prior to this request. I have included a few letters of recommendation to speak on my behalf. I have also included the test results for the B2 and M2. Your review would be greatly appreciated.

Sincerely,

To Whom It May Concern,

This letter of recommendation is in reference to Dan Hamker. He is a State certified Plumbing Inspector and Residential Inspector and is now pursuing a Commercial Building Inspector certification. I have known Dan for some years and he has been my back up Plumbing Inspector in the City of Sheffield Lake for over a year now. Dan is a fine upstanding person and an outstanding Inspector. I have no doubts he has the experience, background and knowledge to be a competent Commercial Building Inspector and that he will uphold the Building Code and represent the standards of the OBBS to the highest extent.

The quality and integrity of Dan's inspection work is only exceeded by his knowledge of the building codes and his dedication to the building industry; therefore, I would highly recommend him for a Commercial Building Inspector Certification.

Sincerely,

RE: Daniel Hamker

To Whom It May Concern:

I am currently the Electrical Safety Inspector, Building Inspector, and Residential Building Official with many certified departments in the Northern Ohio area. I have held these positions for over 24 years. Furthermore, I served on the Ohio Building Officials Association as a board member; I also served as the President for over eight years with the North Central Ohio Building Officials Association. Moreover, under the oversight of Executive Secretary Billy Phillips, I served on the Code Academy ad hoc committee. Recently, I received the "Train the Trainer" certificate to teach Chapter One.

In 2003, I became employed with the City of Elyria, where I met Dan Hamker. He was working as a plumber in a family business. Shortly before I retired, Dan became the plumbing inspector with the City of Elyria.

We have kept in contact, and Dan reaches out to me with Chapter One questions at least every few months. It has impressed me that Dan continues the effort to better himself regarding the current Ohio Codes, not just following the status quo.

Now that Dan has completed and passed the required tests for "Building Inspector"; It is my honor and pleasure to recommend Daniel Hamker for the certification as Building Inspector.

If you have any further questions, feel free to contact me at 440-263-8843, and I will be glad to answer any questions you have.

Sincerely,

Timothy D. Golden

Dear Ohio Board of Building Standards,

I am pleased to write to you in regards to Daniel Hamker's request for Interim Building Inspector. I highly recommend Daniel for this certification.

I have known Daniel for over 20 years, many of which while he was a part of the Yost Construction team. During this period, I had the opportunity to observe his growth of knowledge of construction and of the construction industry. While his primary discipline was plumbing his understanding of structural construction, and the mechanical and electrical trades along with his ability to communicate and interact with other contractors and customers in a positive manner allowed him to be an asset on the jobsite.

Aside from my opinion Daniel has already passed the exams required for certification. It is because of this and my personal experience with Daniel that I feel his experience meets the intent of the requirement for Building Inspector.

Sincerely,

A handwritten signature in black ink, appearing to be 'R. Yost', with a long horizontal line extending to the right.

Robert Yost
President, Dale Yost Construction

To Whom It May Concern:

This letter is my personal recommendation for Daniel Hamker. I have known Daniel for 35 years and found him to be an outstanding person. He has been a dedicated worker his entire life beginning with caring for his family's farm growing up as well as working for his father's plumbing business. After high school Daniel followed his father's footsteps eventually taking over the lead role within the company (Hamker Plumbing) which is known to have an excellent reputation in the area.

Daniel has exemplary interpersonal skills and is appreciated by everyone both personally and professionally. He is able to communicate well with others and has always carried himself in a pleasant manner. I have observed these behaviors over a long period of time and in many different professional and social settings, as well as interacting with children while coaching his son's youth baseball team.

I believe Daniel would not only be an asset to any Building Department as a Building Inspector but also helpful in other areas as well. He is a team player who has proven over time that he can be trusted to deliver quality results. I myself am a Police Commander at a local northeast Ohio Police Department and feel confident that I am qualified to provide the highest of recommendations to Daniel for this position. If you have any further questions, please contact me to discuss further details.

Regards,

Re: John JR Rinaldi Letter of Reference and Endorsement for Building Official Candidacy

To Whom it May Concern:

I write to endorse Mr. Rinaldi as a strong candidate for a Board-Certified Building Official. I met John – JR – in 2015 when I was the Project Executive for the Hall of Fame Village. He was then working with our team to provide design assist precast concrete risers for the Tom Benson Stadium, in Hall of Fame Village. John is an affable fellow with a gentle manner and strong work ethic. He's ideal for working with difficult situations and always focuses on the issues at hand – versus personalities. I next worked with John in his years with Canton Building, prior to my becoming the Canton Building Official. John acted as liaison between the City of Canton approval agencies and the Design/Construction Leadership with the Village. John facilitated meetings with the various authorization agencies and assisted the entire team in remaining coordinated thus ensuring budget and schedule performance overall.

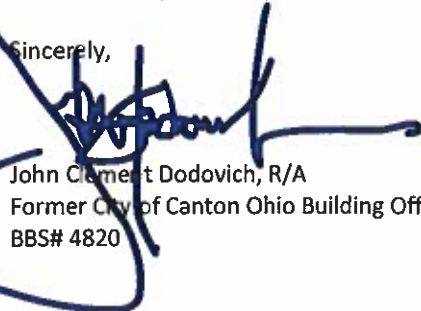

Upon the completion of the Tom Benson Stadium, I fortuitously was offered a contract position with the City of Canton, Ohio to serve as its Building Official. This gave me further opportunity to work with Mr. Rinaldi and learn about his integrity and refreshing candor in addition to his most excellence organizational and interpersonal skills.

As I left the position in Canton, I decided to investigate the possibility of having JR become my replacement. Frankly, he was involved with every major concern of the department and lead the charge for every initiative. I was pleased to learn that JR has an excellent chance of receiving such certification.

To that end, I am pleased to endorse and support any decision that would lead to realizing this objective. I believe John (JR) to be well suited the position and leagues ahead of other applicants who have not had the opportunity to serve as Chief of Staff for six years in the building department. This experience couple with his years of construction experience gives him the right amount of technical knowledge coupled with effective leadership skills.

Should the board select Mr. Rinaldi, and once John completes his studies, the board will have a high-quality conscientious person as part of the team.

Sincerely,

John Clement Dodovich, R/A

December 21, 2021

To Whom It May Concern:

The purpose of this correspondence is to offer a brief history of John M. Rinaldi and his career in the construction industry with Ironworkers Local 550 in Canton, Ohio.

Mr. Rinaldi started his Ironworking Career with Ironworkers Local 550 in 1982 working permit on numerous projects within Local 550's jurisdiction. In 1985, Mr. Rinaldi was accepted into Local 550's 3-year Apprenticeship Program. After a brief pause, Mr. Rinaldi was reinstated in 1996 as a Journeyman Ironworker and then worked fluently in the trade for many years. His work experience includes commercial, industrial, and heavy highway. Throughout his career with our Local Union, Mr. Rinaldi has held various leadership positions for Local 550's signatory employers which include foreman, detail foreman, and union steward. His last job with Local 550 was in 2016 playing a significant role in the erection of the north side seating bowl at Tom Benson Hall of Fame Stadium with Sidley Precast. Mr. Rinaldi is also a member in good standing.

Thank you in advance for your consideration in the matter and I remain at your disposal for any questions that may arise.

Respectfully yours,

Re: John M. Rinaldi Letter of Reference and Endorsement for Building Official Candidacy

Dear Sir or Madam:

This letter is written to recommend the application of Mr. John M. Rinaldi for Interim Certification as a Building Official.

Mr. Rinaldi has been employed by the City of Canton since July, 2016, in the capacity as Chief of Staff of the Canton Building and Code Enforcement Department. He is a fiduciary appointment to me.

I cannot overly state his work ethic, integrity, professionalism, knowledge, experience and personal skills which he has brought to the job. He plans and supervises a staff of 22 employees under the direction of the Chief Building Official. He personally administers the City's extensive demolition and grass mowing programs. He oversees budget, hiring and disciplinary procedures in the department. He has excellent communication skills which enables him to act as a "go-between" with other departments, police, fire and the public at large on many building department matters. The Building Department has grown significantly during his tenure in personnel, revenue and in both quantity and timeliness of plans examinations and permits. He has significant responsibility in processing and overseeing all work through the department.

Mr. Rinaldi brings a unique background to the job. He is intimately familiar with construction issues and is a journeyman ironworker for 30 plus years. He was the equipment manager for the Milwaukee Brewers baseball organization for 15 years with significant operational and organizational responsibilities and holds many relevant professional certifications.

Mr. Rinaldi is also a civic leader in our community. He is a Canton City School District Board of Education member (elected), serving 2003-2008 and 2013-present and is President of the Board. He is on the Canton Park and Recreation Department Board of Commissioners (composed of 3 Commissioners) and he is currently President of the Board. He volunteers for many other organizations.

I can give my personal assurances that Mr. Rinaldi will succeed and exceed expectations as a State of Ohio Building Official. He repeatedly demonstrates excellence in whatever he undertakes. It is my honor to recommend him for Certification as a Building Official.

Please do not hesitate to contact with any questions. Thank you.

Sincerely,

To Whom It May Concern:

Please accept this letter of recommendation on behalf of John (JR) Rinaldi.

I had the privilege of working with JR during my Minor League Baseball career where I was General Manager of two of the teams in the Milwaukee Brewers organization. JR was the Brewers point-person for equipment and logistics on the Minor League side of the operations. Space does not allow a total description of his official duties, nor would it begin to cover all his extra participation and assistance in improving our operations. But I will note a couple examples:

- The stadium in Huntsville, Alabama was aging and needed serious improvement to meet a minimum standard to continue operations. Although plans were rumored for the construction of a new facility, JR was experienced enough to know those plans, if successful, would take years. Wisely, he became heavily involved in a plan to renovate the clubhouse and other shortcomings. His insight, knowledge, and persistence not only got these items renovated on time, but also helped meet serious budgetary constraints. This was not in JR's job description, nor was it his responsibility as he was employed with another Brewers Minor League team in Nashville, Tennessee. One of his character strengths is jumping in to help when needed and his input was monumental as the plans for the new facility fell thru and we continued playing in an upgraded stadium.
- A few years later I hired JR to move to Huntsville and upgrade our operations into a Major League Baseball-style clubhouse while on a limited Minor League budget. JR accepted the challenge and not only did he improve the operation by eliminating time and money-wasting details, but outfitted the clubhouse with upgraded our equipment, esthetics, furniture, and, above all, an overall professional feel! It goes without saying that JR did this and never exceeded the already frugal budget. In this time frame he assisted with the design and construction of a new hitting tunnel (batting cage). His can-do attitude is something that can't be taught.
- When I was the General Manager of the Brewers High-A team in Brevard County, Florida, JR came south to assist setting up our clubhouse and equipment room. Understand that he was deep into his own operation and the Brewers Spring Training in Arizona, so it would have been understood if we never saw him from December thru April. But JR would come into town, work with our staff, and make sure we were ready for the season from the clubhouse and equipment operational side of the house. Additionally, when I had an unexpected vacancy of a critical position, JR called me with some individuals who were qualified; one of which I hired.

I could continue to add to this, but I think you are beginning to see the scope of what JR brings to the table. There's nothing he won't learn or do to make the operation a success. You'll never hear him utter, "That's not my job." You'll never hear him say no when you're needing assistance. There is nothing too big or too small for him; he's an all-in type of co-worker.

I wholeheartedly endorse JR as a candidate for Building Official. You won't find another man with his integrity, honesty, determination, and willingness to succeed without personal fanfare or reward.

Please feel free to contact me with any questions.

Sincerely,

Buck Rogers

Having met the certification requirements in the rules of the Board of Building Standards, enclosed please find your certification ID card below.

The expiration date(s) for your certification(s) is (are) as indicated below on your ID card.

Holders of Board certifications must complete at least thirty hours of continuing building code education for their respective certifications, *including Board sponsored required courses*, prior to the expiration date of the certification as a requirement for renewal. Failure to complete the number of hours required *and mandatory classes* shall result in forfeiture of the certification. It shall be the responsibility of the certified individual to furnish the Board with proof of completion of all Board approved courses for which credit is sought. Copies of your course certificates are to be attached to and returned with the renewal application, which will be forwarded to you at the appropriate time. Continuing education courses approved for more than one certification may be applied to each certification for which continuing education is required.

Please refer to your personnel I.D. number (shown on the ID card below) on any correspondence and on all certificates of continuing education forwarded to the Board's office related to your certification. If you have any questions, please do not hesitate to contact the Board for assistance at 614-644-2613.

Sincerely,

5650 Blazer Parkway, Suite 100 Dublin, Ohio 43017

Dear Inspection Department:

Your application for certification as an Inspection Department has been approved by the Ohio Manufactured Homes Commission. In order to maintain this certification you will be required to adhere to the laws and rules for the Ohio Manufactured Homes Commission, addressed in Chapter 4781 of the Ohio Revised Code. Additional copies of these requirements are available on the Commission website at www.omhc.ohio.gov.

Your certificate approval is based upon information supplied in your application. Any change in information, including employment status, employer, criminal convictions, address changes or other pertinent information must be reported to the Commission immediately.

The Inspectors in your Department will be required to obtain continuing education in order to renew their certificate. You may obtain information concerning those requirements at the Commission website at www.omhc.ohio.gov or you can contact the Commission office at 614-734-8454.

If you have any questions, please feel free to contact the Licensing Specialist, Debbie Beaty at 614-734-8456 for assistance.

Sincerely,

David E. Zofko, P.E.

This is to certify that **THE GREENE COUNTY BUILDING DEPARTMENT** is **CERTIFIED** by the Ohio Board of Building Standards, pursuant to Section 3781.10 (A) and (E) of the Revised Code and to the regulations for certification adopted by the Board, to accept and approve plans and to exercise enforcement authority in accordance with the Ohio Building Code for the following named occupancies:

Chapter 1232 - Residential Buildings - Nontransient
Chapter 1233 - Residential Buildings - Transient
Chapter 1238 - Places of Outdoor Assembly
Chapter 1239 - Business Buildings
Chapter 1240 - Storage Buildings
Chapter 1241 - Industrial Buildings
Chapter 1242 - Special Occupancy Buildings

With the following conditions and limitations:

Plumbing inspections to be conducted by the Greene County Board of Health.

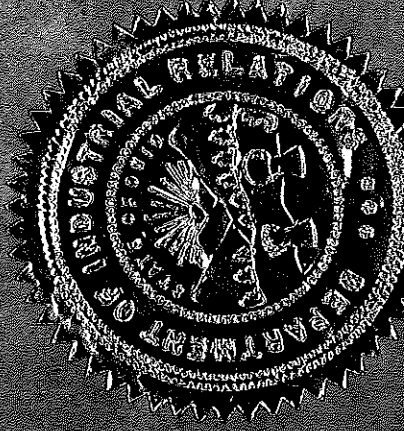

Recommendations:

See letter dated May 22, 1964.

Such was adopted and recorded in the minutes of the Ohio Board of Building Standards meeting on April 2, 1964, and this certification is based upon the data submitted on the

Application for Certification and all comments and information presented at the Public Hearing on April 2, 1964, with later submission of May 2, 1964.

This certification is subject to review and may be revoked or suspended with respect to any or all occupancies by the Ohio Board of Building Standards, after a public hearing pursuant to Section 3781.101 of the Revised Code, upon petition by any person affected by such enforcement or approval of plans, or by the Board on its own motion and is further subject to review upon receipt of the Yearly Operational Report.

DEPARTMENT OF INDUSTRIAL RELATIONS
BOARD OF BUILDING STANDARDS
2323 West Fifth Avenue - P.O. Box 825
Columbus, Ohio 43216

HELEN W. EVANS
Director

This is to certify that the GREENE COUNTY, OHIO BUILDING DEPARTMENT is CERTIFIED by the Ohio Board of Building Standards, pursuant to Section 3781.10 of the Revised Code and to the regulations for certification adopted by the Board, to exercise enforcement authority in accordance with the Ohio Building Code for the following additional named occupancies:

With the following conditions and limitations:

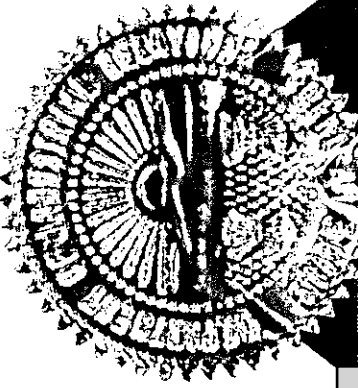

Plumbing inspection to be conducted by the Greene County Board of Health.

Recommendations:

See letter dated January 9, 1976.

Such was adopted and recorded in the minutes of the Ohio Board of Building Standards meeting on December 4, 1975, and this certification is based upon the data submitted on the Application for certification and all comments and information presented at the Public Hearing on December 4, 1975.
The effective date of this certification is February 1, 1976.

This certification is subject to review and may be revoked or suspended with respect to the enforcement authority granted by the Ohio Board of Building Standards, after a public hearing pursuant to section 3781.101 of the Revised Code, upon petition by any person affected by such enforcement or by the Board on its own motion and is further subject to review upon receipt of the Yearly Operational Report.

Dear Certification Committee:

I am submitting this letter to be included in my interim application as clarification in regards to the five (5) years of experience required for building inspector. My work history reflects fifty-four (54) months of relevant work experience in steel erection and commercial construction, which is just shy of the required sixty (60) months. I reached out to the BBS office to verify that my Associates Degree in architecture, blue printing, and design would also count toward the required months due to the course credits including a semester in each of the following: building codes, structural design and strengths of material. I understand that twelve months of formal education shall be counted.

Considering that this specific course dealt heavily with the building trade, design processes (including structural load calculations, HVAC installations and calculations, etc.), and blueprint drawing and reading, I am hopeful that this is sufficient to make up at least the difference in months required by the Board.

I am certified as an ESI, and have spent the majority of my career as an electrician. However, having been in "the trades" for over 25 years, I am very well versed in all construction types, terminology, blueprints, and specifications. Not to mention, working along side other trades and picking up on their various techniques and discussing construction practices I feel goes a long way in training and knowledge of all aspects of construction, start to finish.

I look forward to your response in regards to my application, and am excited for this next step in my career.

Thank you for your consideration,

James R. Burns

Having met the certification requirements in the rules of the Board of Building Standards, enclosed please find your certification ID card below.

The expiration date(s) for your certification(s) is (are) as indicated below on your ID card.

Holders of Board certifications must complete at least thirty hours of continuing building code education for their respective certifications, *including Board sponsored required courses*, prior to the expiration date of the certification as a requirement for renewal. Failure to complete the number of hours required *and mandatory classes* shall result in forfeiture of the certification. It shall be the responsibility of the certified individual to furnish the Board with proof of completion of all Board approved courses for which credit is sought. Copies of your course certificates are to be attached to and returned with the renewal application, which will be forwarded to you at the appropriate time. Continuing education courses approved for more than one certification may be applied to each certification for which continuing education is required.

Please refer to your personnel I.D. number (shown on the ID card below) on any correspondence and on all certificates of continuing education forwarded to the Board's office related to your certification. If you have any questions, please do not hesitate to contact the Board for assistance at 614-644-2613.

Apprentice: My role during this time period is learning the trade through the National Electrical Code and field work installing electrical equipment as per the journeyman or foreman giving instruction.

Employment: June 1998-April 2005 (84 Months) (Service Coordinator, Education Coordinator, Estimator/Project Manager)
March 2009-March 2013 (48 Months) (Estimator/Project Manager)

Projects: Edgewood High School (Build Specification)
Staple Distribution Solar Field (Build Specification)
Cincinnati Metro Sewer District (Design/Build)
Miller Valentine Service Division (Service Projects)
Cintech Construction Strip Malls (Build Specification)
Noble County ODOT Garage and Office (Build Specification)
Covington Latin High School (Build Specification)
United States Federal Building: Cincinnati (Energy Management Build Specification)
Dayton Power and Light Repair Division (Service Department)
Kettering Medical Centers MRI projects (Build Specifications)

Service Coordinator: I was responsible to schedule 10 Service Electricians with 5 apprentices for the weekly schedule. This also included 4 Heavy Equipment Operators that did work Dayton Power and Light. Ordering and Renting equipment for the Servicemen is a daily task. I would estimate small projects and coordinate ordering, permitting and mobilizing when awarded the project.

Education Coordinator/Apprenticeship Instructor:

ABC Electrical Apprentice Program: I was a certified by the State of Ohio to teach the Electrical Program. I taught 1st year and 4th year Apprenticeship Programs.

I developed an education program to help new helpers to understand basic electrical concepts and tasks. I also covered circuitry and Formulas to calculate utilizing Ohms Law and Kirkoff's Law. This gave the helper skills to make him stronger in the trade from the beginning.

The second program was developed for Journeyman on complex industrial control circuits. This class had Code and circuit design in class and hands on building of control circuits.

Estimator/Project Manager: As an estimator we was required to do Design/Build projects from the beginning concept to completion utilizing the current National Electrical Code and Building codes that applies to our design. I responsible to coordinator with the in-house Professional Engineer to check my load calculations and my electrical design per code. We estimating a build specifications projects it was my responsibility to take off all drawings that pertained to the electrical portion of the project. Corresponding with the Engineer of Record for any questions or RFIs to make sure the project is code compliant in order to bid. Once awarded the project my responsibility is now to secure the project packages and have a hand off meeting with the Foreman and Heavy Equipment Foreman to make sure they fully understand the project. I also coordinate with the Construction Manager on schedule and correspondence.

RE: Jeff Mills Personnel Application for Residential Building Inspector and
Building Inspector Trainee

I am writing this letter to recommend Jeff and clarify how I feel Jeff meets the experience qualifications for Residential Building Inspector and Building Inspector Trainee

Jeff came to our City after an extensive career in the construction industry dating back to 1989. Although I have been with the City of Wooster as the Chief Building Official for nearly 25 years, in my prior construction experience, I worked on construction sites with Jeff's family's masonry contracting business in small and large projects. Jeff has worked in this business and for many other companies in relevant construction projects and also in many other projects that are not relevant but involve skilled trades. Jeff's resume includes the necessary experience to participate in the building inspector trainee program and is ideally suited for this program. I believe the program was created for just this type of person who is willing and able to learn from more seasoned inspectors.

Jeff's extensive knowledge of construction was one of the reasons we recruited him to work for the City. I have personally supervised and worked with Jeff Mills at the City of Wooster for the past 18 months. In his time at the City of Wooster, Jeff has worked in the building department as a property maintenance inspector. Mr. Mills is conscientious and has maintained a high standard of performance. Jeff is the kind of employee that the code enforcement profession benefits from having as an inspector.

Please feel free to contact me at (330) 263-5258 or tmonea@woosteroh.com if you have any questions or need any further information.

Sincerely,

Tim Monea

**Re: Jeff Mills
Work Experience with KEMRON**

To Whom it May Concern,

I am pleased to submit this correspondence in reference to the general consulting experience of Jeff Mills. Jeff has worked on various environmental remediation construction sites and projects for KEMRON Environmental Services, Inc. (KEMRON) over the past 10 years showcasing his knowledge of general construction, plumbing and electrical trades. Jeff has worked on and constructed treatment systems for the remediation of petroleum contamination throughout West Virginia, Virginia and Ohio.

If you have any questions or comments concerning this correspondence, please feel free to contact me at (304) 755-0999.

Sincerely,
KEMRON Environmental Services, Inc.

Jeff Mills Experience:

This letter is being written on behalf of Mr. Jeff Mills in reference to his construction experience on projects through Great Lakes Water & Waste. I have supervised municipal construction projects over the past 17 years in which Jeff has worked on the installation/start-up of equipment associated with water & wastewater. Mr. Mills skill set included general construction fabrication, electrical installation and plumbing.

Thank you.
