Call to Order

Consent Agenda

Personnel Certification Applications

- [P-1](#) Downard, Dylan - BI, Additional Information
Certification ID: 9000
Current Certifications: None
Staff Notes: Application reviewed in December, additional information requested on commercial structural experience.
Applicant has submitted additional information, and plans to attend meeting virtually to discuss qualification
Committee Recommendation:
- P-2 Budrevich, Gerald ESI Trainee - Alternative Trainee Plan
Certification ID: 8990
Current certification- EPE, approved for ESI exams December 2022
Staff notes: Plan for alternative trainee is thorough and appropriate for candidate. Recommend approval.
Committee recommendation:
- [P-3](#) Connelly, William - ESI, BO, BPE, PPE, PI, BI
Certification ID# 9033
Current certifications- none in Ohio: Multiple certifications in Florida and through ICC.
Staff notes: The Florida certifications are not precisely aligned with Ohio certifications.
Recommend approval for BO, BPE, PPE, PI, BI. Recommend request for additional information on ESI.
ESIAC Recommendations: Not recommended for ESI on information provided.
Committee recommendation:
- [P-4](#) Convery, Timothy - RBI, BI
Certification ID: 2396
Current certifications- ESI since 1985
Staff notes: Recommend approval of RBI, request additional information on qualifications for BI
Committee recommendation:

[P-5](#)

Gookin, Chris - ESI, BI
Certification ID# 9011
Current certifications: none
Staff notes: Recommend approval for ESI. Recommend request for additional information on qualification for BI. Has passed ESI exams.
ESIAC Recommendations: Recommend approval.
Committee recommendation:

[P-6](#)

Kovacic, Andrew - FPI
Certification ID: 9040
Current Certifications: None
Staff Notes: Application does not reflect five years FSI certification.
Committee Recommendation:

[P-7](#)

Miller, Doug - MPE
Certification ID: 9043
Current Certifications: None, registered architect since 2019, +15 years architectural experience.
Staff Notes: Recommend approval on basis of length of architectural experience in addition to registration +4 years.
Committee Recommendation:

[P-8](#)

Moore, Lawrence - BI
Certification ID: 8423
Current Certifications: None (FPI Interim expired 7/2022)
Staff Notes: Application does not demonstrate 5 years structural commercial experience.
Recommend request for additional information on structural experience.
Committee Recommendation:

[P-9](#)

Oliver, Christopher - BI, RBO
Certification ID: 8980
Current certifications- ESI
Staff notes: Work detailed in application appears to be electrical or HVAC in nature. Recommend approval for RBO, recommend request for additional information on structural commercial experience for BI.
Committee recommendation:

[P-10](#)

Schneider, Brett - PI
Certification ID: 9044
Current Certifications: None
Staff Notes: Unusual experience, but it seems to reflect 7+ years plumbing installation or supervision experience. Recommend approval.
Committee Recommendation:

[P-11](#) Yates, Chris - PI
Certification ID:5273
Current certifications- BI, RBI, RBO, RPE
Staff notes: Much of the plumbing experience listed is not building code work.
Committee recommendation:

[P-12](#) Fritz, Jason - RBO, RPE
Certification ID: 6274
Current Certifications: ESI, RBI, RMI
Staff notes: Prior application (RBI, RMI) included for reference, since current application does not include sufficient information to support approval. Recommend approval.
Committee Recommendation:

[P-13](#) Sawyer, Andre FPI
Certification ID# 9046
Current certifications- none
Staff notes-Has been an FSI for 4.7 years. Recommend approval.
Committee recommendations-

SECTION 6: ELECTRICAL SAFETY INSPECTOR (ESI) - SPECIFIC EXPERIENCE QUALIFICATIONS

Applicants for Electrical Safety Inspector Only Must Complete This Item

Section 3783 of the Ohio Revised Code specifies that an applicant for a Certificate of Competency as an Electrical Safety Inspector must meet one of the following to qualify to take required examination. Please check the qualification that applies:

1. Have been a journeyman electrician or equivalent for four years, two of which were as an electrician foreman, and have had two years' experience as a building department electrical inspector trainee;
2. Have been a journeyman electrician or equivalent for four years and have had three years' experience as a building department electrical inspector trainee;
3. Have had for four years' experience as a building department electrical inspector trainee;
4. Have been a journeyman electrician or equivalent for six years;
5. Am a graduate electrical engineer and registered in the State of Ohio. Registration number: _____
6. Applicant authorizes all testing organizations including ICC to provide test results to the BBS.

SECTION 7: EXPERIENCE (DO NOT SUBSTITUTE WITH OTHER RESUMES).

Refer to Experience Requirements Listed in O.A.C. 4101:7-3-01 and O.R.C. 3783

Below, list the specific projects you worked on, and the specific work you performed, your typical duties for each project, and dates of this work. You must demonstrate that you have the required number of months (years) of actual, practical experience for the certification requested (see matrix).

Provide letters from certified inspectors, employers, or contractors verifying your experience. Submit copies of any certificates, diplomas, or licenses. Remove all personal information.

Department of Commerce
Board of Building Standard
6606 Tussing road,
Reynoldsburg, Ohio 430681

Dear Certification Committee,

I, Dylan Downard, First off would like to start by saying, Thank you, for reviewing my application. In the letter I received from the Board of Building Standard, the Certification Committee reviewed my Interim Certification application, With further review they asked for more information regarding my Commercial experience, Along with my 5 years experience doing residential structural Construction. I was asked to elaborate on any of the following requirements my experience matches up with, for section (E)(7)(a), Rule 4101:7-3-01 of the administrative code. I figure the best way to explain in detail was a letter format along with the attached documentation of my cover letter and current resume. As requested, on the resume, you will find work subject to inspection, along with Company contacts, and work performed. I will state that my time duration per project ranges per company, and project type.

Also mentioned in the letter from the department of commerce, it states that there is RBI and BI training available considering my experience does not fit with the requirements given, if that becomes the case, I would like to gain more information regarding training and work with the Board of Building standard to achieve those goals.

Here I will be able to go into more detail regarding myself and my experience in residential structural construction, Along with my commercial construction experience. As you will notice in my resume, being 21 years old, I've worked for a variety of companies based around the residential construction industry and the durations I've worked for each company. Throughout my journey, my goals were to gain the knowledge and experience each different company could provide me with while being hired on and/or working alongside a few of my different childhood mentors. Which can go a long way when considering hands-on training and knowledge to grow each step of the way throughout each different company and trade I've invested my time with. With most of my experience being in residential general construction, all of my certifications are geared towards Residential HVAC. With my plumbing experience coming from Jaco, Bartels Heating and cooling and B&B Plumbing. Most of my Commercial experience has been geared towards foundation repair, Along with service and install of plumbing and HVAC equipment, Such as Talawanda Elementary school's new building, Installed/ Serviced equipment such as commercial steam boilers and commercial Water tanks with B&B Plumbing.

I'm going to break this into two parts, one for commercial experience and one for residential structural experience. Each part listing which company, while giving a detailed example for each, that should have been subject to inspection. The companies I've worked for should have documentation regarding pull permits. Also, mentioning a few other commercial projects related to each topic.

Residential Structural Construction

Legendary construction

General Contractor: Thomas Downard (513)535-9912

Project Type: Renovation, Fire Repair, Structural Damage.

Project duration: 2 weeks-2 months

Subject to Inspection

Job details: House was covered by insurance, fire had damaged the back wall of the house leading to the back patio, due to no structural support holding up what is said to be a load bearing wall, per the on site engineer. Our job was to tear out existing burnt flooring joists and wall studs, dig 32 inches past the foundation footer, through the frost layer, install three 4x4 support posts 8 foot apart, fill existing hole with concrete level to 9" footer, install 16' lvl beams, attach posts and roof trusses, then reframe walls and floor joists into our now existing load bearing support. We later attached Siding, metal trim and 5 inch gutters.

Examples of Codes Followed throughout this project:

- Wall studs 16" on center
- Floor joices 16" on center
- Measuring snow Load Per Sq.ft. 25 Lbs.
- 20-40 inches extreme frost layer levels

This being one example, through My family owned residential general construction company, I've been able to work on load bearing walls, room additions, foundation repair, set trusses, built gables and designed wood decks and porches. Along the way following codes and guidelines given by on site engineers when needed. From my understanding, part of the engineer's job is to draw up blueprints to illustrate how the built structure should look considering all codes that will be involved. Once complete, the inspector approves the drawing and everything is being done to code to make sure we as contractors are installing everything to code, in order to pass inspection. Most inspections begin before considering the completion of the project. Working with insurance contracts and contractors ,time on site can vary from the start to finish time, meaning start to finish might be one month total, laborers may only be onsite 2 weeks of that.

For an additional example I will list a couple commonly used code references we currently use such as:

- Ohio.gov/board of building standard/OBC
- Latest edition of the downloadable pdf file (OBC, Ohio Building Code)

Commercial Construction

Jaco waterproofing

Owner: Bill Sacenhiem (513)738-0084

Project Type: Foundation Repair, Structure lifting

Project Duration: 2 weeks-6 weeks

Subject to inspection

Job Details: What happens when your foundation settles? You start finding cracks or indications of movement in the areas that have settled. This job specifically was a two story church, no basement, on the front of the building the foundation had settled, our job was to place 10-12 peers in different locations based on where the structure needed to be lifted. To place peers, the exterior footers are dug past as deep as 32 inches and jack hammered off just enough to lag bolt the bracket onto the foundation. From there the peers are set in the bracket and driven into the ground using a custom hydraulic press. Once all the peers are set in place and the structure is lifted and leveled to approval, an inspector comes to pass it. Once we pass we leave the bracket and peers in the ground and backfill.

While setting peers is a straightforward process, there were several commercial projects that I've completed while with Jaco Waterproofing. Most involving peers, others involving "Slab Jacking". Slab Jacking is best described as a lifting or void filling technique used when concrete has settled or when land underneath has eroded away. This can be done two ways, both involve drilling holes through the slab of concrete, First way is a mud, sand and clay mix pumped underneath the structure. Best used for lifting smaller weights. The other way is by infusing two chemical compounds under the concrete, which mix into an expanding foam that later hardens like concrete, best used for lifting concrete slabs underneath very heavy structures such as, commercial grain bins 4 stories tall or slab foundations under commercial real estate rentals. These projects usually only take up to a day, depending on what's being lifted and how much of a void is below the structure.

B&B Plumbing, Heating and air

Chris Slone (513)523-4010

Project Type: New construction Plumbing Service

Job Details: Once Commercial Steam Boilers Were installed with commercial size tanks, It takes time dial in the burner assembly and troubleshoot codes, based on the amount of water used, to the amount of time it takes for the "master" steam boiler to tell the "slave" Steam boiler to kick on for backup heat. Once All the equipment was in operating order, we troubleshooted drain back ups, made repairs and installed Drinking fountains in classrooms and bathrooms. Although Most of the permitting and installation was done, Ms. Slone set up a time for me to go with a lead foreman to walk me through equipment, the installation process regarding codes and permitting done for each step in the process and just give me a head start on training.

COVER LETTER

Hiring Manager | City of Hamilton | Hamilton Ohio 45013

12-29-2022

Dear Hiring Manager,

I'm writing to express my interest in investing in my future long term career with Butler County, as a building and zoning Inspector. When I read the qualifications and job description, I thought to myself, at 21 years old with my Education and background in residential Construction, feeling comfortable onsite and negotiating with contractors and property owners. This position Fits very well. It will allow me to take the majority of my experience and education over the last consistent 4-5 years in construction and apply it to my everyday long term career. Considering I've worked permitting and following local codes throughout my journey in the construction industry, along with understanding architectural drawing, plans and blueprints. This position is not only something I can understand but something I will enjoy and plan to be successful with long term. With the years of experience I have in construction, I have yet to check off a few of the qualification boxes, in terms of building inspector certifications and residential building official certifications. That being said, I'm a driven, young and willing to learn individual who is ready to work with Butler County to obtain required education/certifications to excel in my position. I believe I bring a range of talents and abilities that I think can be very valuable to the Butler County Building inspection and zoning office. Along with great people skills, a leadership mentality and a can-do attitude.

Thank you for your time and please take further review of my resume, along with experience, references and accomplishments. Feel Free to contact me through call, text or email. I will be excited to hear back from you guys, and schedule an interview.

Sincerely,

Dylan T. Downard

DYLAN DOWNARD

DYLAN DOWNARD

PROFILE

Dylan Downard, 21 year old entrepreneur. High School education with a GPA of 3.0, Along with numerous certifications in the HVAC trade, through Carrier and Ultimate tech University in Little Rock, Arkansas. Aside from Education, I've obtained a substantial amount of knowledge in general Contracting and have spent a large portion of my life gaining experience throughout residential construction.

EXPERIENCE/ REFERENCES

Ed Shelton (contractor, home builder, politician)

(513)-607-9761

- Contracted Various interior and exterior Residential Construction projects like Plumbing, Shingle tear off and reinstall, masonry projects, landscaping etc.

Legendary Construction

(2016 – Present)

General Contractor: Thomas Downard - (513) 535-9912

- SubContracting from Corporations such Servpro waterproofing, bryant hartke Construction, and astech Construction.
- Emergency 24-hour service repair calls involving shingle, gutter, windows, siding, venting and exhaust, chimney repairs, tarping.
- Residential Interior and Exterior renovations, Room additions, structural repairs.
- New Construction Projects.
- Operated equipment such as an excavator, skid steer, roller, tractor, and forklift.
- Yearly Property Maintenance 25-40 real estate properties.

H-5 Traffic

(2017 – 2019)

Scott Hoover – (513) 324–3308

- Performed projects such as lane closures, road closures, sign installation, cone drop-offs, and pickups.

Unlimited Tree Service

(2017 – 2019)

Contractor Johnny Smith - (513) 839-0962

- Tree removal from 20ft tall to 120ft tall.
- Operation and maintenance of bucket truck, woodchipper, chain saws, and pruners.

Miami university Recreational Sports Center – (513) 529-8181

(Jan. 2017 – Mar. 2017)

- Operated and maintained protocol for services and center equipment at the front desk.
- Checked-in, directed, and informed visitors of facility amenities and services.

Shademakers Landscaping and Hardscaping – (513) 523-2427

(June 2019 – Nov. 2019)

- Basic yard maintenance: Planted trees and flowers, trimmed bushes, laid mulch, seeded yard.
- Aerated yards, and regraded yards. Projects include areas around Oxford's Gaslight and Wildberry.
- Hardscaping: laid out paver stone patios or paver driveways and walkways. Built retaining walls, boulder landscapes, and flat rock staircases.
- Operated equipment such as dingoes, skid steers, and excavators.

Jaco Water Proofing

(Nov. 2019 – June 2020)

Bill Sacenhiem – (513) 738-0084

- Operated equipment such as skid steers, dingoes', excavators, hydraulic lift presses, forklifts, mixers, mud pumps, and chemical pumps.
- Slab Jacking
- 36,000 lbs. International truck was equipped with a generator, water pump and water tank, mud pump, 3 ton mud tank, and mixer used to pump baseball diamond mud under concrete cavities to provide stabilization, or to lift and level out, to become flush with other concrete slabs.
- Not only did I do this with the International and mud pump, but I also did it with an enclosed trailer with two separate chemicals. When mixed and shot under concrete, it would foam up and harden and the chemicals could lift a much heavier weight than baseball diamond mud/clay. I've lifted everything from slab foundations, porches, to concrete pools, to commercial grain bins. **(permitted projects)**
- Completed removals of foundation walls supported with 4-to-6-inch eye beams, either rebuilt with block or framed up and poured. **(permitted projects)**
- Crack repairs: injection of chemical foam every 3 to 5 in. through the duration of the crack, ensuring that it is water tight.
- Sump pumps with corrugated pipe around the circumference of your foundation footer. 20ft runs to 400ft runs, paired with 1/2hp to 3hp pumps with check valves and drainage.
- Settled foundation issues, fixed with a hydraulic press that bracketed on to the outside foot of the foundation. Used hydraulic press to drive 3 ft. section of 3-to-4-inch round legs into ground, lifted it to the repairable height. Have also done this process manually. **(Permitted projects)**
- Installed sliding windows, block windows, window wells, and window egresses. **(Permitted projects)**

Bartels Heating and Cooling

Install Technician -

Paul Reed – (513) 867-8629

- Have installed the following equipment following code, EPA and company protocol:
 - o 80% furnaces, 90% furnaces, electric air handlers, oil furnaces, mini split systems, boilers, I Wave air cleaners, blue light air cleaners, humidifiers, Red Link Bluetooth communication
 - o Installed equipment brands including Carrier, Paine, Comfortmaker, Bryant.
- Developed a foundational understanding of safety in terms of CO2 or any gasses, equipment sizing, ducting sizing, CFM calculation, gas pressure setting, static pressure testing, duct fitting skills, refrigeration handling, soldering, wiring trouble shooting, and retrofitting.
- Had the opportunity to install water heaters from 30 to 50 gallons heated through electric, propane, or natural gas. Have installed black iron gas line from meter to loads-- 20ft runs to 150ft runs.
- **All installs were Permitted**

B and B Plumbing, Heating and Cooling

Chris Slone – (513) 523-4010

- Plumbing: **Permitted Projects**
 - o Installed water Heaters from 30 gallon to 90 gallon--electric, propane, natural gas.
 - o Installed water softeners with single system units or separated brim tanks and salt tanks.
 - o Have replaced and re-ran water lines in materials including pek, u- ponor, copper, PVC, and CPVC.
 - o Tested Backflow systems, checked for CO2, tested soil, and water samples.
 - o Installed and replaced faucets such as Delta or Moan, toilets such as American Standard, replaced valves such as ball

valves, boiler drains, ¼ turn shut offs, and snake sewers. Maintenance grease traps, videotaped and located drain line, replaced sump and battery backup system. Also maintained wells and well Pumps.

- Heating and Air: **All Installs were permitted**
 - o Have conducted primary and secondary burner replacements, inducer replacements, pressure switches, HSI, fan motors, and a/c coils and compressors.
 - o Have worked on and serviced more boilers as well as installed baseboard heat or radiators.
 - o Expanded knowledge on as well as installed 80%, 90%, oil, electric, and propane furnaces. Have broadened my service ability on oil and mini split units.

SKILLS/BACKGROUND

As a 21-year-old entrepreneur, born and raised in Butler County. I consider myself to have 10+ years in working and building a range of skills some more outside of the more physically demanding part of this type of career. I can produce structured emails, invoices, work orders, documentation of current projects, and receipts. I do well with numbers as well as keeping up with day-to-day informational calls, informational education/research, networking, and scheduling. Since I've been old enough to walk I have helped with repairs and renovations to family owned rental properties and other projects, A Few skills I've picked up on since I was 10-11 years old, would be networking, building a name for myself. From buying my own lawn mower, cutting lawns and mulching. to buying and selling expensive shoes, Shoes eventually turned to cars, trucks trailers and many different offroad toys as I got older. At 21 years old I'm now in the position where I want to solidify myself in a long term career that allows me to plan for my future endeavors.

Reference: Certified Inspectors

Subject: Application

BBS reviewer and board,

Enclosed is an application for certification in Ohio.

I currently have valid licenses in Florida for the following:

Building Code Administrator # BU1795

Plans Examiner # PX2550 - Building, Plumbing

Standard Inspector # BN5436 - Plumbing, Building, Electrical, Residential

I am requesting the same licenses be approved in Ohio, as issued in Florida.

I find the qualifications for certification in Ohio and Florida to be the same or similar.

The base qualifications for certification in Florida, at time of my licensing, are as follows:

Building Code Administrator - ten (10) years experience

Standard Inspector - five (5) years experience

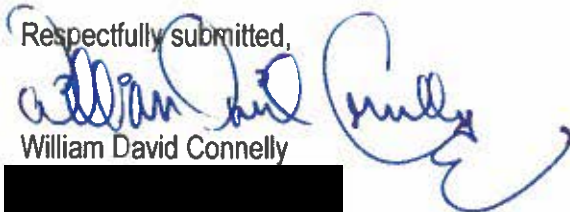

Note: Qualifications for certification may have changed recently in Florida.

I believe upon being approved, I would be an asset to any inspection team in Ohio.

Thank you in advance for your attention in this matter.

Respectfully submitted,

William David Connelly

William David Connelly

QUALIFICATIONS:

Twenty (20) years of diversified plans examining for permit issuance; including, constructibility reviews and on-site code inspections. Additionally, thirty (30) years of diversified design experience, and construction involving hands-on knowledge with regards to administration, management and quality assurance. Special ability in analyzing problem solving and ensuring work is completed as specified. Achieved a reputation for thorough communication and documentation skills, knowledge of codes, ordinances and standards, with an ability to work well with all parties involved and aggressively, completing assignments on time and budget.

To whom it may concern:

This letter verifies that Timothy Convery has met all requirements to complete the four year Inside Wireman (Electrician) Apprenticeship Program sponsored by the Cleveland Electrical Joint Apprenticeship and Training Committee of the International Brotherhood of Electrical Workers, Local 38 and the National Electrical Contractors Association, Greater Cleveland Chapter. This program is registered with, and meets all the requirements of, the Ohio State Apprenticeship Council and the U.S. Department of Labor, Bureau of Apprenticeship and Training. His apprenticeship was completed August 1975.

The program consisted of a minimum of 8000 hours of on-the-job training and minimum of 576 hours of classroom instruction.

Please feel free to contact me if you need additional information or if you have any questions about the Apprenticeship Program.

Sincerely,

Eugene W. Stepanik

Job site prefabrication of electrical equipment.

We would get a measurement of wire or panel fabrication request from a Jobsite Foreman.

We cut MC cable to pre-determined stripped the MC placed a connector on the wire and installed it into a junction box for either a switch or receptacle, and wire accordingly. We would install switch or receptacle into the mudring of the box and install a drywall protection plate. This be installed in sequence with other devices on the jobsite as the foreman requested.

We would receive request for pre-wired panels from a jobsite foreman. We would mount the panel on a unistrut frame, a trough above the panel with conduits in between. We would pull wires to the breakers from the trough terminate them onto the breakers, and mark them accordingly. These panels would be quickly installed on the jobsite.

We would get pre-determined wire length, size, and quantity of THHN for long distance home runs. We would take multiple wire spools and place them onto one spool to fit he specifications of the foreman.

614 529-7500

July. 2021 - Jan. 2022

We coordinated with General Contractor, and other trades to ensure that the BMS (Building Management System) was installed per the prints.

We would install BMS panels, conduit to HVAC systems and server rack aisles per NEC code regulations.

We installed BMS monitoring devices, pulled wire to the devices, and terminated wire according to prints.

We pulled wire to the HVAC control systems, terminated, tested, and troubleshot the control wiring.

We terminated control wiring in the BMS panels. Tested and troubleshot when needed.

SECTION 6: ELECTRICAL SAFETY INSPECTOR (ESI) - SPECIFIC EXPERIENCE QUALIFICATIONS

Applicants for Electrical Safety Inspector Only Must Complete This Item

Section 3783 of the Ohio Revised Code specifies that an applicant for a Certificate of Competency as an Electrical Safety Inspector must meet one of the following to qualify to take required examination. Please check the qualification that applies:

1. Have been a journeyman electrician or equivalent for four years, two of which were as an electrician foreman, and have had two years' experience as a building department electrical inspector trainee;
2. Have been a journeyman electrician or equivalent for four years and have had three years' experience as a building department electrical inspector trainee;
3. Have had for four years' experience as a building department electrical inspector trainee;
4. Have been a journeyman electrician or equivalent for six years;
5. Am a graduate electrical engineer and registered in the State of Ohio. Registration number: _____
6. Applicant authorizes all testing organizations including ICC to provide test results to the BBS.

SECTION 7: EXPERIENCE (DO NOT SUBSTITUTE WITH OTHER RESUMES).

Refer to Experience Requirements Listed in O.A.C. 4101:7-3-01 and O.R.C. 3783

Below, list the specific projects you worked on, and the specific work you performed, your typical duties for each project, and dates of this work. You **must** demonstrate that you have the required number of months (years) of actual, practical experience for the certification requested (see matrix).

Provide letters from certified inspectors, employers, or contractors verifying your experience. Submit copies of any certificates, diplomas, or licenses. Remove all personal information.

SECTION 7 CONT.: EXPERIENCE

List Each Construction Project AND Specific Type of Work Performed	Name of Employer, Contact, Address, Telephone Number	Project Time: From_ To_ (MM/YY)
<i>Example:</i> Children's Hospital, Toledo Structural steel work on addition	Homer Steel and Trade 125 Anytown Street My City, OH, 45454 (419)555-1212	July 2013-May 2014 (10 months)
50 Public Square - Terminal Tower R-2 Apartment conversion floors 3-16. Performed life safety inspection in each of the individual units along with corridors verifying code compliance prior to Certificate of Occupancy.	City of Cleveland Fire Marshall David Telban 1645 Superior Ave East Cleveland, OH 44115 216-664-6867	November 2019-March 2020

February 6, 2023

Ohio Board of Building Standards
6606 Tussing Rd
Reynoldsburg, OH 43068

To whom it may concern:

As a Lieutenant with the Cleveland Fire Department, I have known Lieutenant Kovacic for nearly twenty years. Most recently, I have worked alongside him within the Cleveland Fire Prevention Bureau. I want to take the opportunity to recommend Lieutenant Kovacic for the Fire Protection Inspector Interim Certification (FPI).

From the time Lieutenant Kovacic entered the Cleveland Fire Prevention Bureau in October 2019, he showed leadership qualities by quickly digesting the requirements needed to complete multiple types of inspections and then designing an efficient logistical process using information technology to handle the office workload so that all inspectors are more efficient, resulting in a safer city.

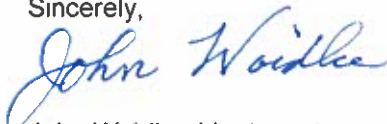

Lieutenant Kovacic demonstrates his teamwork mindset by vetting inspections that come through the bureau and disseminating the inspections to the inspectors while involving himself in those inspections that may require extra attention.

Lieutenant Kovacic's understanding of the importance of training and quality inspections is demonstrated by training new inspectors in the office one on one to make sure they understand the inspection fundamentals and a clear understanding of our roles in achieving code compliance.

The attention to detail, a broad understanding of our mission statement of serving the public, and an efficient and coordinated work ethic make Lieutenant Kovacic a well-respected individual within the Fire Department and the business community.

For these reasons, I offer a strong recommendation for Lieutenant Kovacic without reservation. His abilities and drive will be an asset to the inspection process. If you have any questions regarding this recommendation, please do not hesitate to contact me.

Sincerely,

John Woidke, Lieutenant
City of Cleveland
Division of Fire

NOTES TO OBC CERTIFICATION REQUIREMENTS FOR BUILDING DEPARTMENT PERSONNEL

- NOTE 1.** Only experience directly related to buildings or structures within the scope of groups regulated by the Ohio Building Code is acceptable for any class certification. THIS DOES NOT INCLUDE ONE-, TWO-, OR THREE-FAMILY STRUCTURES.
- NOTE 2.** All applicants may obtain credit for one year of the required experience through education pursuant to 4101:7-3-01(F)(6) OAC. Documentation must be submitted with the application.
- NOTE 3.** All trainee applicants must be under the direct supervision of a person certified in the trainee's respective field. Sponsor and Supervisor forms must be signed by the Building Official and the certified supervisor, respectively. Submit with application.
- NOTE 4.** Applicants may contact either: Prometric, 1360 Energy Lane, St. Paul MN 55108, (800) 864-5309, www.prometric.com for NCPCCI exams or, International Code Council, National Certification Services, 900 Montclair Road, Birmingham, AL 35213, (888) 422-7233, www.iccsafe.org for scheduling examinations.
- NOTE 5.** Only enforcement, inspection, or plans examination experience performed (a) prior to 1984, for a non-residential building department certified by the board of building standards to exercise enforcement authority for buildings or structures within the scope of groups regulated by the rules of the board; (b) for an agency or jurisdiction outside the state of Ohio enforcing a model non-residential building code of a national model code organization or a code adopted for the respective buildings or structures of the types regulated by the rules of the board; or (c) certification by the department of commerce, division of industrial compliance, as a plumbing inspector when application is made for board certification as a plumbing inspector. **THIS DOES NOT INCLUDE ONE-, TWO-, OR THREE-FAMILY STRUCTURES.**
- NOTE 6.** Module description:
- | <u>NCPCCI:</u> | <u>ICC:</u> |
|---------------------------------------|---|
| 1A – Building 1-, 2-Family Dwelling | MM – Management |
| 1B – Building General | MG – Legal |
| 1C – Building Plan Review | BC – Building Codes and Standards |
| 2A – Electrical 1-, 2-Family Dwelling | CA – Commercial Fire Alarm Inspector |
| 2B – Electrical General | CF – Commercial Sprinkler Inspector |
| 2C – Electrical Plan Review | CP – Commercial Fire Sprinkler Plans Examiner |
| 3B – Fire Protection General | B1 – Residential Building Inspector |
| 3C – Fire Protection Plan Review | B2 – Commercial Building Inspector |
| 4A – Mechanical 1-, 2-Family Dwelling | B3 – Building Plan Examiner |
| 4B – Mechanical General | E1 – Residential Electrical Inspector |
| 4C – Mechanical Plan Review | E2 – Commercial Electrical Inspector |
| 5A – Plumbing 1-, 2-Family Dwelling | E3 – Electrical Plan Examiner |
| 5B – Plumbing General | M1 – Residential Mechanical Inspector |
| 5C – Plumbing Plan Review | M2 – Commercial Mechanical Inspector |
| | M3 – Mechanical Plan Examiner |
| | P1 – Residential Plumbing Inspector |
| | P2 – Commercial Plumbing Inspector |
| | P3 – Plumbing Plan Examiner |
- NOTE 7.** All applicants must complete the Ohio Building Code Academy during their initial certification period.
- Exceptions:**
- Medical gas piping inspectors pursuant to paragraph (E)(20) of 4101:7-3-01.
 - Industrialized unit inspectors or residential industrialized unit inspectors.
 - Plumbing inspectors certified pursuant to Chapter 3703. of the Revised Code with five years of experience as full-time employees of the division of industrial compliance in the Ohio Dept. of Commerce or of county boards of health who are seeking plumbing inspector certification.
 - Individuals who have completed the code academy within thirty-six months immediately preceding the date of receipt of initial certification.
- NOTE 8.** Applicants for Electrical Safety Inspector must be authorized by the Board *prior* to taking the required examinations. Applicants for the Electrical Safety Inspector who fail the examinations twice must enter the Electrical Safety Inspector Training Program.
- NOTE 9.** Completion of non-residential exam modules may be accepted as equivalent to the respective required residential certification modules when applying for residential certifications.

Commercial Plumbing Experience

From June of 1993 to February 2001 – RLR Construction 7518 West ridge Rd. Elyria, OH. (Custom Builder no Longer in Business)

Owner – Robert Rigsby (888) 534-1116 or (440) 324-5992

Employed from, June 1993 to February 2001. Commercial plumbing work consisted of installation of sewer laterals for English lakes Condominiums, 278 English Lakes Blvd, Amherst Ohio, Westchester Estates, Amherst OH, Ravenglass Estates, Amherst OH and Saint James Reserve, Lorain, OH. Work consisted of the installation of sewer laterals for this development in its entirety. Work consisted of digging trenching for sanitary laterals, Installation of bedding, Installation of sanitary piping and cleanouts, Installation bedding above installed sanitary piping and backfilling sanitary trenches to grade. This work lasted for the entirety of my employment with this company.

Installation of storm laterals and storm foundation drainage piping. Duties consisted of digging trenching for storm laterals to appropriate depth, installation of bedding gravel to appropriate slope as determined by size of pipe, installation of storm lateral piping including cleanouts, installation of storm drainage related to footer and roof drainage, backfilling to grade of storm laterals only. This work lasted for the entirety of my employment with this company.

From February 2001 to September of 2006 – Coggins Builders (Now Upgrade Construction) 3365 Cooper Foster Park Rd. Vermillion, OH

Owner – Jim Coggins (440)-320-6460

Commercial plumbing work consisted of installation of storm laterals and storm foundation drainage including cleanouts for Our Lady of the Wayside assisted living complexes. 4691 French Creek Rd, Sheffield Village, OH. Duties consisted of digging trenching for storm laterals to appropriate depth, installation of bedding gravel to appropriate slope as determined by size of pipe, installation of storm lateral piping including cleanouts, installation of storm drainage related to footer and roof drainage, backfilling to grade of storm laterals only. Duties also consisted of the installation of toilets and clinical sinks. Three of these facilities were built between 2004 and 2005 with approximately 6 months pertaining to commercially inspected plumbing work.

From April of 2013 to January 2014 – Yates and Yates Construction. 38746 Arbor Court. Grafton, OH.

Owner- Edward Yates (440) 934-9333

Commercial plumbing work consisted of the installation of clinical sinks including drain piping and water lines that service these sinks at Mercy Regional Medical Center (Cardiac Building). Other duties consisted of replacement and installation of all toilets. This project lasted 5 Months.

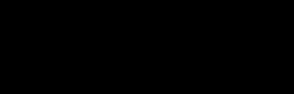

Installation of drinking fountains and replacement of restroom sinks and toilets at Second Baptist Church. 427 Chapman Lane. Elyria, OH. Duties consisted of removal and replacement of existing sinks and installation of 4 drinking fountains and their water supply lines. This project lasted 2 months.

Having met the certification requirements in the rules of the Board of Building Standards, enclosed please find your certification ID card below.

The expiration date(s) for your certification(s) is (are) as indicated below on your ID card.

Holders of Board certifications must complete at least thirty hours of continuing building code education for their respective certifications, *including Board sponsored required courses*, prior to the expiration date of the certification as a requirement for renewal. Failure to complete the number of hours required *and mandatory classes* shall result in forfeiture of the certification. It shall be the responsibility of the certified individual to furnish the Board with proof of completion of all Board approved courses for which credit is sought. Copies of your course certificates are to be attached to and returned with the renewal application, which will be forwarded to you at the appropriate time. Continuing education courses approved for more than one certification may be applied to each certification for which continuing education is required.

Please refer to your personnel I.D. number (shown on the ID card below) on any correspondence and on all certificates of continuing education forwarded to the Board's office related to your certification. If you have any questions, please do not hesitate to contact the Board for assistance at 614-644-2613.

Sincerely,
BOARD OF BUILDING STANDARDS

Regina S. Hanshaw
Executive Secretary

D-1 Village of Brice - Rescission of Certification for Commercial and Residential Department

RESOLUTION NO. 2023-01
ADOPTED: 2-9-23

A RESOLUTION REPEALING RESOLUTION 2019-03 AND RESOLUTION 2019-04, WHICH CREATED THE VILLAGE OF BRICE BUILDING DEPARTMENT, AND DECLARING AN EMERGENCY

WHEREAS, with Resolutions 2019-03 and 2019-04, adopted on May 9, 2019, Council for the Village of Brice established and created the Village of Brice Building Department; and

WHEREAS, with Resolution 2019-02 and Ordinance 2019-05, also adopted on May 9, 2019, Council for the Village of Brice requested the Ohio Board of Building Standards certify the Village to enforce the Residential Code of Ohio as well as the Ohio Mechanical Code; and

WHEREAS, since May 2019, the Village of Brice enforced the Ohio State Building Codes for the purpose of providing uniform standards and requirements for the erection, construction, repair, alteration, and maintenance of buildings, and

WHEREAS, in December 2022, the Village's service provider, SAFEBuilt, withdrew its application to provide Building Department services for the Village of Brice. As such, the Village has no way to provide residents and businesses with Building Department services; and

WHEREAS, after speaking with the Ohio Board of Building Standards, the Village of Brice understands that once it dissolves its Building Department, commercial projects can make application with the State of Ohio Division of Industrial Compliance and residential projects must comply with Ohio Admin. Code 4101:8 (Residential Code of Ohio).

NOW, **THEREFORE, BE IT RESOLVED** by the Council of the Village of Brice, County of Franklin, State of Ohio:

SECTION 1: Resolution 2019-03 and Resolution 2019-04, adopted on May 9, 2019, are hereby repealed.

SECTION 2: The Village of Brice Building Department is hereby dissolved.

SECTION 3: It is hereby found and determined that all formal actions of this Council concerning and relating to the passage of this legislation were adopted in an open meeting of Council and all deliberations of the Council and any of the decision-making bodies of the Village of Brice which resulted in such formal actions were in meetings open to the public in compliance with all legal requirements of the State of Ohio.

SECTION 4: All prior legislation, or any parts thereof, which is/are inconsistent with this Resolution is/are hereby repealed as to the inconsistent parts thereof.

SECTION 5: Council declares this to be an emergency measure immediately necessary for the preservation of the public peace, health, and safety of this municipality and the further reason that the Village needs to dissolve its (unmanned) Building Department as soon as possible so that residential and commercial project applications are not delayed (as they now will be reviewed by the State). Wherefore, provided this Resolution

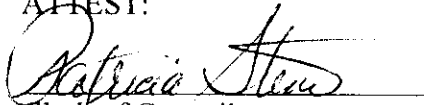

receives the required affirmative votes of Council, it shall take effect and be in full force immediately upon passage by Council.

Passed in Council this 9 day of February 2023.

President of Council

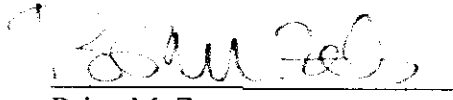

ATTEST:

Clerk of Council
Fiscal Officer

APPROVED:

Approved as to form this 30th day of January 2023:

NB-1 Complaint Summary Report

Complaint and Investigation Consideration Status Report

DATE: January 24, 2023

To: Members of the Ohio Board of Building Standards (OBBS) for the February 17, 2023, Board Conference Meeting as reported by Board staff. The following list of new complaints received were considered by the OBBS certification committee for action.

New Complaints:

A. Jeffrey Uroseva, Building Official, Mahoning County Building Department

On January 19, 2023, a complaint was received from Ms. Nicole Carter located at 211 Hamrock Dr., Campbell, OH. She alleged that on January 17, 2023, Mahoning County building department personnel Jeffrey Uroseva, BO, an electrical safety inspector, a plumbing inspector, and building inspectors had entered her property without consent to the inspect. Ms. Carter also claimed that the Personnel caused damage to her house and belongings and acted unprofessionally.

Board staff contacted Mr. Uroseva to secure preliminary information regarding the incident. Mr. Uroseva indicated he was not present at the inspection. The project is a repair/restoration to an existing residential structure heavily damaged last year by a driver in a vehicle. Ms. Carter is performing as general contractor for her project, having secured sub-contractors to repair her home. According to Mr. Uroseva, the Building Department has been monitoring the situation and found that required inspections for the work have not been completed, and that Ms. Carter has been uncooperative in the process. Mr. Uroseva indicated she has made threats against an electrical inspector. Due to the situation, Department staff had signed incident reports regarding the January 17 inspection, attesting that none of the alleged complaints took place.

Recommendation: Dismiss complaint.

Laurin Carpenter's Plumbing Experience

1. Graduate of Lorain County JVS's Plumbing and Pipefitting program in 2014, a 2 year program.

2. First place of employment was "Olmsted Plumbing" out of Brunswick, Ohio.

Employed May of 2013- June of 2014.

I worked here during summer vacations, spring breaks, winter breaks ect, during our "work based learning" program, and roughly 1 month after graduation.

This company did strictly Ryan homes, predominately in Lorain and Medina county, doing

1st and 2nd rough work, along with finish work. I estimate I worked on 200 homes while employed with them.

3. My next place of employment was Dick Esser Plumbing & Heating INC out of Lorain, Ohio.

I worked here from July of 2014- July 4th of 2018.

From July 2014 to February 2015 I worked residential jobs including Ryan, Drees, Charles

Morgan, Garland Griffin, along with various remodel work.

Now comes the larger, more recordable jobs that I worked on, they will all be with Dick Esser until stated otherwise.

Concord Village Skilled Nursing and Rehabilitation, in Concord, Ohio

Include examination results and Ohio Building Code Academy Certificate
Mail to BBS, 6606 Tussing Road, PO Box 4009, Reynoldsburg, OH 43068

Approval process:

- Full Certification granted administratively once certification requirements (tests, Code Academy) are met.

Section 1: Check Full Certification(s) Being Requested

Table with 5 columns: Building Official, Master Plans Examiner, Building Inspector, Electrical Safety Inspector, Fire Protection Inspector, Building Plans Examiner, Plumbing Plans Examiner, Mechanical Plans Examiner, Electrical Plans Examiner, Fire Protection Plans Examiner, Plumbing Inspector, Mechanical Inspector, Non-Residential Industrial Unit Inspector.

Section 2: Personal History

1. Have you ever been convicted of any felony, or any crime involving moral turpitude? Yes No

If you answered "Yes" please explain below:

Empty box for explanation of conviction.

Section 3: Certification

I certify the information contained in this application is true and complete, and I understand that providing false information may be grounds for not granting certification or for immediate termination of certification at any point in the future, if granted.

Signature of Applicant: Richard E Martin

INTERNATIONAL CODE COUNCIL

RICHARD E. MARTIN

The International Code Council attests that the individual named on this certificate has satisfactorily demonstrated knowledge as required by the International Code Council by successfully completing the prescribed written examination based on codes and standards then in effect, and is hereby issued this certification as:

Building Plans Examiner

Given this day December 22, 2022

Handwritten signature of Michael P. Wich in black ink.

Michael Wich, CBO
President, Board of Directors

Certificate No. 10002452

Handwritten signature of Dominic Sims in black ink.

Dominic Sims, CBO

Board Members
Board of Building Standards
6606 Tussing Road
Reynoldsburg, OH 43068

Dear Board Members:

I am writing to you all today to provide a narrative of my application for Interim Residential Building Official. I started working in the construction industry around the age of 19, learning various trades. I worked on and off as a carpenter, general tradesman, and concrete mason for many years before going to The Ohio State University. Throughout my life I have been on many of construction sites, doing everything from swinging a hammer to project management. A brief rundown of my construction career would be best summarized as general trades work for various contractors residential and commercial, from 2008-2018. In 2018 while attending The Ohio State University majoring in Construction Management, I decided to focus my employment into a management role, at the time holding the title of superintendent. This superintendent role was at Wesney Construction (2018-2019), where they consider superintendents to be working management. I found the working management style a great transition from working as a tradesman to the project management side of the industry. At Wesney I preformed commercial remodels, ADA compliance projects, and ground up new construction. From Wesney I moved to Turner Construction (2019-2020) in hopes to learn about large scale commercial projects. While at Turner I was a superintendent on the JP Morgan Chase main branch remodel until Covid brought the project to a hold, thus moving me to the NAO Data Centers project where I remained until the end of my tenure at Turner Construction. After Turner I took a position building custom homes with Schumacher Homes as a production manager, where I managed the building of new build homes. After Schumacher I took a position as a Project Manager for Maxima concrete, working in their commercial division. While at Maxima Concrete I managed many projects ranging from small newbuild commercial slabs to large building footings and everything in between. For the past year I worked as a Project Manager for Outdoor-FX, where our scope of work revolved around decks, patios, inground pools (In municipalities that enforce Appendix G Swimming Pools, Spas and Hot Tubs of the ICC International Residential Code), pergolas, covered patio/decks, outdoor kitchens, and addition 3-4 season rooms. In addition to working for others I also own a project management company with my wife that we use to facilitate our real estate client's needs. We have a few investors that own multifamily and commercial buildings that I oversee construction and remodel projects for them, these projects range from new electric, framing and plumbing of multifamily units to remodeling/tenant fit out of commercial space. Throughout my time in the construction industry I have held a myriad of positions and learned many trades which I feel aids me in understanding the building process and understanding the Building Code that will need to be enforced while working at the City of Powell. In addition to my construction experience I do hold an Associate's Degree from The Ohio State University. I hope this summary will aid in the assistance of your understanding my work history and experience level.

Respectfully,

Jonathon Merriman

Reynoldsburg, OH 43068

Dear Board Members:

I am writing to you all today to provide a narrative of my application for Interim Building Inspector. I started working in the construction industry around the age of 19, learning various trades. I worked on and off as a carpenter, general tradesman, and concrete mason for many years before going to The Ohio State University. Throughout my life I have been on many of construction sites, doing everything from swinging a hammer to project management. A brief rundown of my construction career would be best summarized as general trades work for various contractors residential and commercial, from 2008-2018. In 2018 while attending The Ohio State University majoring in Construction Management, I decided to focus my employment into a management role, at the time holding the title of superintendent. This superintendent role was at Wesney Construction (2018-2019), where they consider superintendents to be working management. I found the working management style a great transition from working as a tradesman to the project management side of the industry. At Wesney I preformed commercial remodels, ADA compliance projects, and ground up new construction. From Wesney I moved to Turner Construction (2019-2020) in hopes to learn about large scale commercial projects. While at Turner I was a superintendent on the JP Morgan Chase main branch remodel until Covid brought the project to a hold, thus moving me to the NAO Data Centers project where I remained until the end of my tenure at Turner Construction. After Turner I took a position as a Project Manager for Maxima concrete, working in their commercial division. While at Maxima Concrete I managed many projects ranging from small newbuild commercial slabs to large building footings and everything in between. In addition to working for others I also own a project management company with my wife that we use to facilitate our real estate client's needs. We have a few investors that own multifamily and commercial buildings that I oversee construction and remodel projects for them, these projects range from new electric, framing and plumbing of multifamily units to remodeling/tenant fit out of commercial space. Throughout my time in the construction industry I have held a myriad of positions and learned many trades which I feel aids me in understanding the building process and understanding the Building Code that will need to be enforced while working at the City of Powell. In addition to my construction experience I do hold an Associate's Degree from The Ohio State University. I hope this summary will aid in the assistance of your understanding my work history and experience level.

Respectfully,

Jonathon Merriman

Department of Commerce

My name is Stephen Molnar and this application is for the Commercial Building Official Interim.

The information below is to the best of my abilities and many companies have either closed or no longer have a listed address. I will provide the best of my knowledge in response to prior employment.

- 1987-1997 Hardwick Home Improvement
 Old Pleasant Valley Rd.
 Middleburg Hts. Ohio 44130

~Worked and learned all phases of Construction but not limited to roofing, rough frame, finish carpentry, structural knowledge, residential and commercial building codes, foundation installation, windows, siding, concrete, plumbing, electrical, HVAC, painting, doors, etc.

- 1996-1998 Coleman Electric
 SB & J Electric

~Work performed was to install wiring and troubleshoot electrical problems in homes and businesses. Worked in new-home construction install outlets, provide access to power, and tele/data where needed. Worked in maintenance and remodeling typically repair and replace faulty equipment. Learned how to read blueprints, NEC 1996 and 1999 editions, installed and maintain wiring, controls, lighting systems, inspected electrical components, such as transformers and circuit breakers, troubleshoot and identify electrical problems with a variety of testing devices. As well as repair or replace wiring, equipment, or fixtures using hand tools and power tools, power services to homes and businesses, panel replacements, taught how to run small crews, fuse box replacements, and conduit bending.

- 1998-2000 Sanders Construction

~ Work performed in businesses, homes, factories, schools, restaurants, retail spaces, landlord work, office buildings, apartment buildings, warehouses, industrial workshops, etc. I also learned the residential and commercial building codes, NEC, rough frame, finish carpentry, energy code requirements, insulation requirements and knowledge, door and window installation and types, comprehension of electrical installation and methods.

- 2000-2005

IBEW Local 38
1590 East 23rd Street
Cleveland, Oh 44114

Companies I worked for in the Union:

G& B Electric Co.
10343 Brecksville Rd.
Brecksville, Oh 44141

Harrington Electric Co.
3800 Perkins Ave.
Cleveland, Oh 44114

London Road Electric Co.

RE: Stephen Molnar
#5473

Dear Ms. Hanshaw:

Stephen Molnar has been performing the duties of a Residential Building Official on a regular basis for the last two years (July 2021-present) and was also listed as a back-up on the OBBS Yearly Operational Report. Stephen Molnar also performed commercial building inspections, including but not limited to, commercial/residential plumbing, commercial/residential electrical, residential building and commercial/residential mechanical inspections. In addition to doing the inspections, Stephen Molnar has performed commercial occupancy and he is well versed in Ohio Building Code.

I recommend to the Ohio Board of Building Standards that Stephen Molnar be accepted as an Interim Building Official. I have full confidence he has the knowledge, skillset and experience to succeed as Building Official.

Sincerely,

Dave Smerek
Chief Building Official, City of North Royalton

EMS certification titles are being updated to align with national EMS provider titles. All titles, as denoted below, are valid and mean the same thing under Ohio law. New cards will not be issued to those certified prior to the change until the certificate is renewed or a new certification obtained.

First Responder -> Emergency Medical Responder (EMR)
EMT-Basic -> Emergency Medical Technician (EMT)
EMT-Intermediate -> Advanced EMT (AEMT)
EMT-Paramedic -> Paramedic

Certification Status Definitions

Active	The certificate is current and valid.
Denial	The application was denied due to a violation of either Ohio Revised Code Chapter 4765 or the provisions of Ohio Administrative Code 4765.
Discipline	Sanctions have been issued against the certificate due to a violation of either Ohio Revised Code Chapter 4765 or the provisions of Ohio Administrative Code 4765.
Extension - Functioning	The certificate holder was approved for an extension of time to complete the renewal requirements and may function during that extension period.
Extension - Non Functioning	The certificate holder was approved for an extension of time to complete the renewal requirements and may not function during that extension period.
Inactive	The certificate is no longer current and valid.
Incomplete Application	The application was not processed and the certification was not issued due to information not being provided by the applicant.
Needs Approval	The application requires further review before it can be considered for processing.
Pending	For renewal applications, the certificate is pending until the effective date when the status will change to "Active". Once the certification has changed to an "Active" status, you will have the option to print an updated copy of the certificate. For initial applications, the certificate will remain in a "Pending" status until midnight of the effective date when the status will change to "Active". Once the certification has changed to an "Active" status, you will have the option to print a copy for your records.
Permanent Denial	The application was permanently denied due to a violation of either Ohio Revised Code Chapter 4765 or the provisions of Ohio Administrative Code 4765, and the certificate holder is not eligible to re-apply for this certificate.
Permanent Revocation	The application was permanently revoked due to a violation of either Ohio Revised Code Chapter 4765 or the provisions of Ohio Administrative Code 4765, and the certificate holder is not eligible to re-apply for this certificate.

Rejected	Prior to December, 2016, this status was assigned when a certificate holder either surrendered a certificate or withdrew an application. After December, 2016, "Rejected" is assigned when an application has been submitted in error.
Revoked	The certificate was revoked due to a violation of either Ohio Revised Code Chapter 4765 or the provisions of Ohio Administrative Code 4765.
Surrendered	The certificate holder voluntarily surrendered the certificate; may be eligible to reinstate or re-apply.
Suspension	The certificate holder is prohibited from practicing during a specified time due to a violation of Ohio Revised Code Chapter 4765 or the provisions of Ohio Administrative Code 4765.

Emergency Medical Technician	Inactive	10/20/1998	10/20/2001	

EMS certification titles are being updated to align with national EMS provider titles. All titles, as denoted below, are valid and mean the same thing under Ohio law. New cards will not be issued to those certified prior to the change until the certificate is renewed or a new certification obtained.

First Responder -> Emergency Medical Responder (EMR)

EMT-Basic -> Emergency Medical Technician (EMT)
EMT-Intermediate -> Advanced EMT (AEMT)
EMT-Paramedic -> Paramedic

Certification Status Definitions

Active	The certificate is current and valid.
Denial	The application was denied due to a violation of either Ohio Revised Code Chapter 4765 or the provisions of Ohio Administrative Code 4765.
Discipline	Sanctions have been issued against the certificate due to a violation of either Ohio Revised Code Chapter 4765 or the provisions of Ohio Administrative Code 4765.
Extension - Functioning	The certificate holder was approved for an extension of time to complete the renewal requirements and may function during that extension period.
Extension - Non Functioning	The certificate holder was approved for an extension of time to complete the renewal requirements and may not function during that extension period.
Inactive	The certificate is no longer current and valid.
Incomplete Application	The application was not processed and the certification was not issued due to information not being provided by the applicant.
Needs Approval	The application requires further review before it can be considered for processing.
Pending	<p>For renewal applications, the certificate is pending until the effective date when the status will change to "Active". Once the certification has changed to an "Active" status, you will have the option to print an updated copy of the certificate.</p> <p>For initial applications, the certificate will remain in a "Pending" status until midnight of the effective date when the status will change to "Active". Once the certification has changed to an "Active" status, you will have the option to print a copy for your records.</p>
Permanent Denial	The application was permanently denied due to a violation of either Ohio Revised Code Chapter 4765 or the provisions of Ohio Administrative Code 4765, and the certificate holder is not eligible to re-apply for this certificate.
Permanent Revocation	The application was permanently revoked due to a violation of either Ohio Revised Code Chapter 4765 or the provisions of Ohio Administrative Code 4765, and the certificate holder is not eligible to re-apply for this certificate.
Rejected	Prior to December, 2016, this status was assigned when a certificate holder either surrendered a certificate or withdrew an application. After December, 2016, "Rejected" is assigned when an application has been submitted in error.
Revoked	The certificate was revoked due to a violation of either Ohio Revised Code Chapter 4765 or the provisions of Ohio Administrative Code 4765.
Surrendered	The certificate holder voluntarily surrendered the certificate; may be eligible to reinstate or re-apply.
Suspension	The certificate holder is prohibited from practicing during a specified time due to a violation of Ohio Revised Code Chapter 4765 or the provisions of Ohio Administrative Code 4765.

At its meeting on 6/1/2018, the Board of Building Standards approved your interim certification as indicated on the enclosed certification ID card below.

The expiration date(s) for your interim certification(s) is (are) as indicated below on the ID card.

You must complete the conditions of your interim certification during the interim certification period stated on your ID card. The specific examination and Ohio Building Code Academy, if applicable, requirements are summarized in the attached form and can also be found in Ohio Administrative Code Chapter 4101:1-1-01 for commercial certifications and Ohio Administrative Code Chapter 4101:8-1-01 for residential certifications.

Please refer to your personnel I.D. number (shown on the ID card below) on any correspondence and on all certificates of continuing education forwarded to the Board's office related to your certification. If you have any questions, please contact the Board for assistance at 614-644-2613.

Sincerely,
BOARD OF BUILDING STANDARDS

Regina S. Hanshaw
Executive Secretary

7/8/2021

At its meeting on 6/25/2021, the Board of Building Standards approved your trainee.

The expiration date for your trainee certification is as indicated below on the ID card.

Applicants must complete the "Ohio Building Code Academy" (OBCA) requirements during the certification period (not to exceed four-years). If, during the OBCA evaluation phase, it is determined the applicant must complete additional coursework, it must be completed during the trainee certification period. A trainee must attend and successfully complete two hundred hours of approved courses. During the first year the trainee must complete at least one hundred hours of course work, including completion of the "Ohio Building Code Academy" requirements in section 103.3.6. and complete the second one hundred hours prior to completion of the trainee program. The trainee must perform at least twenty-five inspections annually while in the trainee program under the direct supervision of the trainee supervisor. A master plans examiner trainee must perform at least twenty-five plans examinations yearly under the direct supervision of the trainee supervisor, complete at least ten hours of approved continuing building code education courses yearly, and become registered in Ohio as an architect or professional engineer prior to the completion of the trainee program. Trainees shall also complete the appropriate examination requirements prior to the completion of the trainee program. Upon expiration of a trainee certification, the individual may not reapply for certification for one year after the trainee certification has expired. Please refer to your personnel I.D. number (shown on the ID card below) on any correspondence and on all certificates of continuing education forwarded to the Board's office related to your certification. If you have any questions, please do not hesitate to contact the Board for assistance at 614-644-2613.

Sincerely,
BOARD OF BUILDING STANDARDS

An Equal Opportunity Employer and Service Provider

Summary

Owner/Operator/Construction Sales Manager/Carpenter successful at various challenges that arise during Commercial and Residential construction. Results-oriented person who works efficiently and effectively to complete projects on time and within budget.

Highlights

- Sales
- Building codes and regulations
- MS Office proficient
- Commercial/Residential Construction Specialist
- Organized/Detail Oriented
- Superb management skills

Accomplishments

Successfully ran a General Contracting business for many years. Led the construction of multiple new Commercial and Residential projects.

Trained and mentored construction workers, general laborers and apprentices.

Boosted company sales through innovative marketing strategies. Improved customer satisfaction ratings. Journeyman Carpenter/Held Union Card, Member of HBA, Re-modelers License, and Volunteer Youth Football Coach

Experience**City Of Toledo**

December 2017 to present

Permit Technician

Receives, reviews and verifies accuracy of applications for residential building permits, sign permits, water and sewer kill permits, special hauling permits, sidewalk and curb cut permits, and street opening permits; verifies adherence to appropriate code, approves applications, and issues minor permits consistent with established policies and procedures; receives applications for commercial building permits, mechanical permits, trade licenses, trade examinations, water service, sanitary and storm sewer construction taps, and requests for zoning and other land use changes; reads blueprints, reviews plans submitted for completeness and conformity to submission requirements, and determines type of permits required for construction project; reviews land use requirements for project locations; verifies applications with atlas maps, zoning maps, legal descriptions, and other City reference materials to determine accuracy of information, correct address, availability of service, necessary measurements, and other relevant data; prepares sketches and line drawings; calculates fees in all of the aforementioned areas; directs and sends permits and other related documents along established procedural routes; contacts other City department, divisions and agencies to obtain updated information concerning permits and procedures; issues major permits following review and approval by pertinent divisions and agencies; maintains computerized and manual records of permits and other transactions; maintains and updates atlases, zoning maps, and other resource records; answers inquiries or complaints either in person or over the telephone; performs a variety of related clerical activities.

Butler Builders

June 2003 to October 2010

Owner/Operator/Project Manager

Toledo, OH

Monitored costs, time scales and resources used to achieve Commercial/Residential Sales contracts. Monitored team progress and enforced deadlines. Verified competitive subcontractor bids prior to execution of contracts. Carefully coordinated plans and specs using marketing programming standards. Assigned projects and tasks to employees based on their competencies and specialties. Led and managed resolution of all issues during project construction and commissioning phases. Led the planning, budgeting and direction of construction projects.

Lathrop/Willson Builders/Van Tassel

June 1999 to June 2003

Journeyman Carpenter

Toledo, OH

Construction of Commercial projects including hospitals, banks, churches and multi-family assisted

living complexes. Examined buildings and project specifications to determine measurements and dimensions. Installed cabinets, base cabinets and crown molding. Built and stained oak casing and hardwood floors. Worked independently on projects and tasks within a carpentry team. Set windows and layouts for stairs and common rafters.

Butler Construction

June 1990 to June 1999

Journeyman Carpenter

Toledo, OH

New construction of commercial and single-family homes. Examined commercial buildings and project specifications to determine measurements and dimensions. Managed work crews on the construction of residential, commercial and industrial buildings. Installed cabinets, base cabinets and crown molding. Built and stained oak casing and hardwood floors. Worked independently on projects and tasks within a carpentry team. Safely used band, circular, jig, reciprocating, chop and compound miter saws. Set windows and layouts for stairs and common rafters. Calculated accurate material estimates.

Education

Owens Community College

Toledo, O H, United States

Emphasis in Construction Management, Sales, Marketing, and Contemporary Business.

Toledo, OH

Construction of Commercial projects including hospitals, banks, churches and multi-family assisted

living complexes. Examined buildings and project specifications to determine measurements and dimensions. Installed cabinets, base cabinets and crown molding. Built and stained oak casing and hardwood floors. Worked independently on projects and tasks within a carpentry team. Set windows and layouts for stairs and common rafters.

Butler Construction

June 1990 to June 1999

Journeyman Carpenter

Toledo, OH

New construction of commercial and single-family homes. Examined commercial buildings and project specifications to determine measurements and dimensions. Managed work crews on the construction of residential, commercial and industrial buildings. Installed cabinets, base cabinets and crown molding. Built and stained oak casing and hardwood floors. Worked independently on projects and tasks within a carpentry team. Safely used band, circular, jig, reciprocating, chop and compound miter saws. Set windows and layouts for stairs and common rafters. Calculated accurate material estimates.

Education

Owens Community College

Toledo, O H, United States

Emphasis in Construction Management, Sales, Marketing, and Contemporary Business.
