This proposal is for the installation of a new 600 ampere, 3 phase, 277/480 volt electrical service with a manual transfer switch (MTS) and Cam-Loc quick connects to accommodate a portable generator. The proposed new service shall be installed on a new steel structure at the rear of the Civic Center adjacent to the wall and near the current electric utility service.

Below is a general description of the installation we propose.

Two 8"x36" bollards shall be installed to protect the new electrical service. The service structure and bollards shall be cleaned, primed and painted.
- 2) Furnish and install one new Manual Transfer Switch, 600 amp, 3 pole, 277/480 volts, service entrance rated, NEMA 3R enclosure.
- 3) Service entrance conduits and conductors shall consist of two parallel 3" conduits with entrance caps and two parallel 350 MCM copper

conductors for each phase and two parallel 4/0 copper conductors for the neutral conductor.

4) Furnish and install load conduits and conductors from the MTS and connect to existing service entrance conductors. Parallel conduits and wire shall be the same size and type as in service entrance. See item #3.

5) Furnish and install twelve 200 amp, single pole, panel mount Cam-Loc receptacles. The Cam-Loc connectors shall be color coded and mounted on the underside of a NEMA 3R junction box and connected to the MTS with one 4/0 copper conductor per Cam-Loc connector. Three 200 amp Cam-Loc connectors shall be installed per phase, with two for the neutral and one for the grounding conductor.

6) Furnish and install metering boxes, conduits, seven point rack, C.T. rack, mounting studs etc. as required by utility company for metering equipment.

JOHN DEERE

1570 TerrainCut™ Front Mower

1600 Turbo TerrainCut™ Wide-Area Mower

1585 TerrainCut™ Front Mower

Meet your anytime, anywhere mower.

They say there's a mower for every job. We say there's a mower that can handle just about any job you throw at it. It's called the 1500 Series TerrainCut.

1500 Series TerrainCut™ Mowers

The most capable year-round front mount mowers we've ever made, this lineup delivers unsurpassed performance. With an available factory-installed ComfortCab, powerful diesel engines that meet US EPA T4 requirements, and 7Iron™ PRO decks, the 1500 TerrainCut Series Mowers are more than up to the task.

Make that tasks – because the 1500 Series is also the most versatile front mower we've ever made. When you combine the full array of optional attachments and implements with that heated, cooled, sealed, sit-back-and-get-to-work-in-any-weather cab, you've got a machine that pretty much stops at nothing. Mowing and sweeping, pushing and plowing? It's all in a day's work. Every day of the year.

Decks

Since 1998 the John Deere 7Iron™ mower deck has demonstrated commercial quality, performance, and durability. The 7Iron PRO and Fastback™ Pro Rear Discharge deliver an even higher-quality cut in even more diverse conditions.

25 hp (18.4 kW)² and 37.4 hp (27.5 kW)² Tier 4 diesel engines give you the power to cut wet grass, throw packed snow and and sweep up leaves.

TerrainCut 1500 Series Mowers are great on grass. They're even better when you've also got snow, dirt, gravel or leaves piling up underfoot. Just swap out the implements (sold separately), and keep right on crossing jobs off your to-do list.

1500 Series TerrainCut™ Mowers Implements/Accessories

Item-4.

What *can't* they do?

As far as the 1500 Series TerrainCut Mowers are concerned, there's no such thing as downtime. If there isn't any grass to cut, they're ready to clear driveways. If there's no snow to blow, they'll happily tackle some material piles. And if there's no dirt to push around, just get out the broom and sweep up every sidewalk in sight.

And with the factory-installed, fully enclosed ComfortCab, along with a deck lift system that makes swapping implements a snap, you won't have to worry about operators having cold feet. Or getting hot under the collar.

Accessories

Pull away.

With a dual wheel kit, you can generate even more pulling power when you need it.

See the way.

Knowing what's behind you means you can move forward with confidence. Mirrors install easily and help you keep safety first, every time.

Steady your way.

Add a weight kit to keep it all nice and balanced, no matter what implement you're using.

Keep away.

Not that you ever like to slow down, but if you're out on the road, you'll be sure to be seen.

Cut away.

When there's grass to be cut, go at it with everything you've got – including a side-discharging 72-in (183 cm) deck out in the front.

Sweep away.

The 60-inch (152 cm) heavy-duty rotary broom can handle light snow, gravel, debris and leaves.

Push away.

Opt for a heavy 60-inch (152 cm) blade, and you'll have winter out of the way in no time.

Blow away.

47- or 60-inch (119 cm or 152 cm) cutting width snow blowers have a two-stage design to handle wet, heavy snow with ease.

Go wide. Go long. Go strong.

Let's talk width: almost 11 feet (3.35 m). You want to hear about coverage? Then pay attention to an area of more than 75 acres in a single eight-hour day. And as for strength, well, how does a high-torque 60.0 hp (44.0 kW)³ turbo-charged diesel engine sound?

The 1600 Turbo TerrainCut™

No matter how you measure it, the 1600 Turbo Wide-Area Mower means business. With sweeping deck coverage, an innovative baffling system that virtually eliminates clumping and wings that follow ground contour, the 1600 delivers a consistent quality cut. And thanks to on-demand or full-time rear wheel drive and an advanced top-draw cooling system, it can keep at it acre after acre.

And don't worry – the 1600 can think small, too. Mowing with just one wing and the center deck, or the center deck alone, it's flexible enough to maneuver along paths as narrow as 84 inches (2.13 m) wide.

62 in. with center deck only

128 in. with all wings down

94 in. with center deck and either side deck

84-in. transport width with both sides folded in

The air-ride, high-backed seat

is comfortable with soft, body-contoured cushions. Seat adjustment controls are color coded for simplicity and the seat's suspension has been reinforced and strengthened. That's one tough and comfortable seat.

Ergonomic control cluster

Carefully arranged for efficiency, comfort and safety – and placed to the operator's right.

Designed from your point of view.

Tilt steering adjusts for improved comfort and visibility; electronic cruise control lends a helping hand for transporting or mowing open areas.

The 1600 is always on your side with either the standard 2-post ROPS or optional factory installed (ISO 21299 certified) 4-post ROPS featuring a canopy that adds protection from the sun and rain.

Work hard. With ease.

The 1600 Turbo was designed to run hard all day, day after day. What does that mean? First, it's tough as nails. Even the Flat Free caster tires work to keep the machine on the job.

And second, as hard as it is on turf, it's surprisingly easy on operators. We take comfort seriously, from the air-ride seat and Twin Touch™ foot pedals to the tilt steering wheel and finger-touch control cluster, maximizing efficiency.

We've even gone ahead and made things easier for your mechanics. With everything from a 90° hood opening to easy-access daily service points to Service ADVISOR™ that automatically delivers symptoms-based diagnostics, it delivers the reliability, ease of use and serviceability you expect from John Deere.

Orders are placed at manufacturer's current list price. In the event of price changes by manufacturer, customer will pay the price prevailing at the time of delivery. 2. This proposal shall terminate unless Mustang receives written acceptance hereof within the period set forth on the reverse side hereof. Such written acceptance must refer to the proposal number and date of this proposal. 3. Customer acknowledges and agrees that this proposal contains all agreements between Customer and Mustang and Customer hereby accepts them. Customer further agrees and acknowledges that no verbal contracts, agreements or warranties other than what is written within this proposal have been received or given, and signature on this proposal by Customer acknowledges this fact. 4. Method of delivery in writing from F.O.B. point shall be at Mustang's discretion unless specifically designated by Customer. Notwithstanding any agreement to pay freight, legal title to, beneficial ownership of, right to possession of and risk of loss and damage to all merchandise described herein shall pass from Mustang to Customer upon delivery to a common carrier or licensed trucker or in cases of overseas shipment, upon delivery on board an aircraft or vessel at the Port of Exit, which delivery shall constitute delivery to the Customer. 5. Every effort will be made to meet the Customer's required delivery dates but Mustang will not be liable for damages or be deemed to be in default by reason of any failure to deliver or delay in delivery due to any preference, priority, allocation, or allotment order issued by the Government, whether Federal, State or local, or causes beyond its control including, but not limited to, Acts of God or a public enemy, acts of Government, fires, floods, epidemics, quarantine restrictions, strikes, lockouts, freight embargoes, unusually severe weather, unavailability of materials or shipping space, delays of carriers or suppliers or delays of any subcontractors. 6. Mustang reserves the right to make delivery in installments unless otherwise expressly stated herein. All such installments shall be separately invoiced and paid for when due, without regard to subsequent deliveries. Delay in delivery of an installment shall not relieve Customer of its obligations to accept remaining deliveries. 7. If the product(s) is not paid for in full in cash at the time of delivery, Mustang will retain and Customer hereby grants to Mustang a security interest in such product(s) within the meaning of the Uniform Commercial Code together with all and any substitutions, additions, or accessions to such product(s), and in any and all proceeds from the sale, exchange or disposal thereof to secure payment of the purchase price of such product(s). Customer, prior to or after delivery, specifically agrees to enter into and execute a financing statement, or statements, and an Agreement between the parties in relation to the security interest of Mustang. Customer further appoints Mustang, as its attorney-in-fact to execute any such financing statement or security agreement in the place and stead of Customer. Customer also agrees to execute and deliver to Mustang any notes or other evidences of indebtedness that may be required by Mustang. However, any note taken herewith shall be evidence of Customer's obligation to pay the unpaid time balance only and is not to be considered or construed to be payment for the product(s). **LATE OR DEFERRED PAYMENT SHALL BEAR INTEREST AT THE HIGHEST CONTRACT RATE PERMITTED BY LAW.** 8. Customer further agrees to indemnify and save harmless Mustang from all loss, damage, expense and penalty arising from any action on account of any injury to person or property of any character whatsoever occasioned by the operation, handling or transportation of any of the product(s) covered by this proposal and while the product(s) is in the possession or under the custody and control of the customer. 9. In consideration of the sale of the product(s) by Mustang, Customer agrees to pay Mustang for such product(s) at Mustang's principal office in Houston, Harris County, Texas. 10. In the event any action either to collect payment or enforce the terms and provisions of this proposal becomes necessary, Customer agrees to pay reasonable attorney's fees to Mustang should this matter be placed in the hands of an attorney for collection. 11. Customer agrees that this proposal, upon acceptance by Customer, shall not be countermanded by him and that when it is accepted (and until the execution and delivery of the contract and note or notes required to consummate the sale of this above specified) it will, together with any security agreement, promissory note or other evidence of indebtedness executed by Customer subsequently hereto, constitute the entire agreement between the parties relative to this transaction. Customer further agrees that Mustang is not bound by any representations or agreements made by any agent or employee of Mustang relative to this transaction unless specifically embodied herein. 12. The only warranties, if any, applicable to any item of machinery, equipment or other personal property subject hereto are identified on the reverse side hereof. a. Customer's sole and exclusive remedy, if any, for defects in materials or workmanship with respect to any new item of machinery, equipment or other personal property subject hereto shall be against the manufacturer or manufacturers thereof pursuant to the express, written warranty, if any, extended by such manufacturer or manufacturers with respect to such products and described on the reverse side hereof. If any such express, written warranty is applicable, a copy thereof will be furnished upon request. b. Neither Mustang nor other manufacturers are responsible for any warranty other than that warranty as set out in the warrant(s) described above. Customer further acknowledges and agrees that this proposal contains all agreements between Customer and Mustang, and Customer hereby accepts them. Customer further agrees and acknowledges that no verbal contracts, agreements or warranties other than what is written in this proposal have been given or received, and so acknowledges by his signature hereon. c. **CATERPILLAR WARRANTIES** extend only to parts or attachments sold by CATERPILLAR. Mid-Sized Tractor, Massive Versatility and Value

JOHN DEERE

MID-SIZED TRACTOR, MASSIVE VERSATILITY AND VALUE

The 5M tractors provide massive versatility to meet the needs of your operation. Choose from multiple transmission options, premium or standard cab or open operator station (OOS) options. With two-wheel drive or Mechanical Front-Wheel Drive (MFWD) options, you'll find the choice that's right for you.

Whatever model you choose, you'll find options for the premium features you want and need, or more standard options if that better fits your operation. Either way, you're sure to find a mid-sized tractor that matches your jobs with the 5M.

PREMIUM FEATURES

Now you can shift gears easier with less foot clutching with PowrQuad™ PLUS and Powr8™ transmission options on the 5M Tractors. These transmission options let you select what works best for you. You can also pull heavier implements with higher horsepower (hp) options, up to 128 hp on the 5130M. Do it all while reducing overlaps, saving on inputs, and staying on track with AutoTrac™ technology available using a Precision Ag Display on the redefined 5M.

RIGHT-SIZED TRACTOR

You'll get the premium features in a maneuverable tractor that best meets the needs of your operation. The 5M continues to have great maneuverability, whether you are cleaning alley ways or moving materials into narrow spaces. The visibility remains great, too. Whether you're hauling bales or doing loader work, you'll enjoy the great loader visibility and the Panorama roof available on the premium cab models. Whether you need a climate-controlled cab or OOS, low- to high-clearance and a wide variety of tire sizes, the 5M tractors provide you the variety of offerings you demand. With these features, it's easy to see how the 5M fits in any operation.

5M PowrReverser™ 73 - 118 HP: The two-lever shift strategy of the PowrReverser transmission works well for jobs without frequent shifting, for example, loader work, mowing or spraying. The PowrReverser comes standard with 16 forward and 16 reverse speeds (16F/16R) with an optional Hi-Lo splitting each forward gear for a 32F/16R. Baling and headland turns get easier with a 20-percent increase or decrease in speed in each forward gear with the Hi-Lo push-button shifting.

5M PowrQuad™ PLUS 93 - 128 HP: The PowrQuad PLUS is ideal for baling, loader work, tillage, and frequent transport. A single range shift lever is all you need to get the job done in 16F/16R speeds with the PowrQuad PLUS transmission. Easily change gears with a push of the upshift/downshift buttons and change ranges without foot clutching using the hand de-clutch button on the same lever. Tune your speed to your work's range with the 20-percent change in speed of each of the four speed shifts in each range. Make connections to ISOBUS implements and GreenStar™ Displays simpler with ISOBUS/ GreenStar Ready option or upgrade to an integrated AutoTrac™ experience with available AutoTrac Ready.

Powr8™: Baling, tillage, loader work and frequent transport are a breeze with the Powr8 transmission. Transport at up to 24 mph (40 km/h) at reduced engine speed saving you fuel costs, while delivering the power to get the job done with ECO shift. Get 32 forward and 16 reverse (32F/16R) speeds with a single shift lever with the Powr8 transmission. Easily change gears with a push of the upshift/downshift buttons and change ranges without foot clutching using the hand de-clutch button on the same lever. Enjoy a finer adjustment of speed to tune your work's range with the speed shift, giving you a 10-percent change in speed. Feeding cattle or working in high-value crops are easier with the optional creeper, giving you two additional slow working ranges. Make connections to ISO-BUS implements and GreenStar™ Displays simpler with ISOBUS/ GreenStar Ready option or upgrade to an integrated AutoTrac™ experience with available AutoTrac Ready.

CONNECT WITH WHAT COUNTS

Your land, your herd, your fleet and your crop are important to you. You chose this work and this lifestyle because you care about it. John Deere 5 Series Tractors and its technology help you connect with the things you care about more deeply.

JDLink™ puts you in control of being more connected to your tractor. Being connected gives property owners more time to play or work with their tractor, the convenience of having all the information they need to run their tractor when they want, and the confidence that if a problem arises, they'll know what to do or have remote support available from their dealer if they need more help. Dairy and livestock producers gain more time to work on their farm and with their animals and make data-driven decisions by being connected. For high-value crop growers, or other businesses managing a fleet of tractors, being connected provides visibility to their whole fleet in one place, so they can tell where it is and what it needs, as well as information about equipment location and performance to enable training and improved efficiency. No matter your needs, JDLink helps you manage your land, your fleet, your crop, or your herd.

STAY ON TRACK WITH AUTOTRAC™

Save fuel, reduce overlaps and inputs with AutoTrac™ technology options. Stay on track in straight-line mowing jobs, or more efficiently spray pastures thanks to AutoTrac.

* Some additional accessories and/or components may be required. JDLink requires a cellular data connection to transfer information from machine to John Deere Operations Center™ website. See your John Deere Dealer for coverage availability.

PROVEN 5M FEATURES

MAXIMUM MANEUVERABILITY

The 5M can maneuver into tight spaces, like barns, alley ways, through gates or mowing around obstacles. With a maximum steering angle of 50 degrees and a shorter turning radius of 12.6 ft. (3.85 m), the 5M is designed for tight areas. The brake valve on the 5M reduces the stopping distance when the brakes are applied, helping you maneuver and stop with greater precision and ease.

RELIABILITY YOU CAN COUNT ON

Built for long hard days in the field, the heavy-duty axles withstand tough fields conditions, delivering dependable performance, the 5Ms give you reliability you can count on.

POWERFUL ENGINE

John Deere PowerTech™ turbocharged diesel engines are designed to meet stringent Final Tier 4 (FT4) emissions requirements while still delivering powerful low-end torque. The responsive power and outstanding torque reserve of the 5Ms let you pull heavy loads and handle challenging field conditions.

PROVEN PERFORMANCE

Perform multiple functions when you need hydraulic power the most, thanks to the 5M open-center hydraulic system. The dual-pump provides dedicated flow for steering and brakes simultaneously to the implement and loader hydraulics. You'll get excellent performance in tough conditions, thanks to the radial tire options. Great traction and increased payload of the redefined 5M means you'll make fewer trips and get more done in less time.

EXCLUSIVE MID-FRAME DESIGN

Enjoy the additional heft when hauling heavy bales or transporting heavy 3-point implements, thanks to the rugged cast iron design of the 5M. The design provides extra strength and rigidity and a heavier tractor, giving you more stability for loader work, putting more power to the ground and improving traction in tough field conditions.

RIDE IN COMFORT IN CAB OR OPEN OPERATOR STATION

Whether you choose a cab or open operator station (OOS), the 5Ms are designed with fingertip controls, and all-day comfort and convenience. The OOS gives you a smooth ride with great visibility and extended entrance ladders from both the left- and right-hand sides of the tractor. The cab provides a quiet ride with an optional premium high-backed, heated seat with low frequency suspension, so you'll feel like you're riding on air.

BUILT TO LOAD

Tractor and cast iron loader frames work together to lift and distribute heavy loads. When you combine a 5M with one of six loader options you'll get positive, aggressive filling and fast, complete emptying. For applications where a level bucket is ideal, like pallet fork work, a mechanical self-leveling (MSL) loader fits the bill. For applications requiring more lift capacity at max height, select from our non-self-leveling (NSL) options. Carry loads over hay fields and other uneven ground with ease, thanks to the optional loader suspension system available either when you order your loader or later as a kit. You'll enjoy the easy-to-use joystick, optional 3rd function controls, and hydraulic hookups with multi-coupler or single-point hydraulic connections.
