RESOLVED, that the Zoning Board hereby makes the following Findings of Fact:

1. That the variances are not substantial, each one being less than 20% of the requirement;
2. That there is no feasible alternative to granting the variances since the architect has testified that the entire design of the residence would be changed if the height were reduced;
3. That the reason for the variance is the flat roof, i.e., if the residence had a gabled roof the Village definition of height would be complied with;
4. That the benefit to the applicant by granting the variances is substantial whereas no detriment to neighboring properties or to the environment has been identified.

**Item #9 –Public Hearing- Mark Schwartz and Goldie Slater
7 Ardley Place**

Chairman Schwab read the public hearing notice into the record. Mark Schwartz, homeowner, was present and affirmed to tell the truth. Mr. Schwartz stated that there had been a site visit of his property last weekend. Mr. Schwartz agreed that the driveway should not be 20 feet wide. Mr. Schwartz stated that the current plan states that the driveway is 15.9 feet wide.

Doris Ulman asked why the need for the four (4) additional feet than currently exist. Mr. Schwartz stated that it is current difficult to get out of the driveway, requiring a K-turn to exit in many situations. Mr. Schwartz stated that this request is purely a practical matter.

Chairman Schwab asked if anyone from the public wished to be heard. No one wished to be heard.

Chairman Schwab asked if anyone from the Board wished to be heard. Stefanie Collantes-Bouvry stated that this seemed to be a reasonable request.

Chairman Schwab made a motion to close the public hearing, seconded by Stefanie Collantes-Bouvry. Upon vote, this motion carried unanimously.

Dennis Dale made a motion to approve this application, seconded by Carole Anderson. Upon vote, this motion carried unanimously.

Mark Schwartz and Goldie Slater
Premises situated on the south side of Ardley Place
Approximately 700 feet west of Wilder Road, known
As 7 Ardley Place, designated on the Tax Map as
Section 41.10 Block 1 Lot 24, in an R-35 Zoning District

WHEREAS, application had been made to the Zoning Board of Appeals of the Village of Wesley Hills by Nancy Rubin as Project Manager for Mark Schwartz and Goldie Slater for a variance from the provisions of Section 230-34(D)(4) to permit a new circular driveway that is 20 feet wide instead of the maximum permitted of 12 feet wide, and

WHEREAS, after due notice, a public hearing on said application was held by the Zoning Board of Appeals on October 19, 2022, which hearing was continued on November 16, 2022, and

WHEREAS, the applicant, Mark Schwartz, appeared in person and testified as follows:

That the driveway is bordered by a wall on each side so that the maximum width of 12 feet is less than 12 and makes it difficult for cars to turn around to leave the driveway;

That applicant has reduced the request for the variance and is now requesting that the circular driveway be permitted at 16 feet wide;

That members of the Zoning Board of Appeals visited the site and noted that the existing 12 foot wide driveway does not permit vehicles to turnaround in order to exit the property; and

WHEREAS, no one appeared in opposition to the application,

NOW, THEREFORE, IT IS HEREBY DETERMINED that the proposed action is a Type II action and that no SEQRA determination is required, and be it further

RESOLVED, that the application submitted by Nancy Rubin as Project manager for Mark Schwartz and Goldie Slater for a variance from the provisions of Section 230-34(D)(4) of the Code of the Village of Wesley Hills, to permit the construction, maintenance and use of a circular driveway having a width of 16 feet instead of the maximum permitted of 12 feet is hereby approved, and be it further

RESOLVED, that the Zoning Board of Appeals hereby makes the following Findings of Fact:

1. That the way this driveway is constructed, the 12-foot width impedes the ability to turnaround to drive out of the property;
2. That there is no feasible alternative to granting the variance because of the safety issue;
3. That the benefit to the applicant by granting the variance is substantial whereas no detriment to adjoining properties or to the neighborhood has been identified.

INSET B

In the Matter of the Application of
 Mark and Goldie Schwartz
 Premises situated on the south side of Ardley Place
 approximately 250 feet east of Astor Place, known as
 7 Ardley Place, designated on the Tax Map as Section
 41.20 Block 1 Lot 24, in an R-35 Zoning District

WHEREAS, application has been made to the Zoning Board of Appeals of the Village of Wesley Hills by Mark and Goldie Schwartz for variances from the provisions of Section 230-17 Attachment I of the Code of the Village of Wesley Hills, to permit the construction, maintenance and use of a single family residence and cabana having a side yard of 20.3 feet instead of the minimum required of 25 feet on the west side of the property, a side yard of 15.9 feet instead of the minimum required of 25 feet on the east side of the property, rear yard of 16.2 feet instead of the minimum required of 50 feet, total side yard of 58.4 feet instead of the minimum required of 60 feet, building coverage of .134 instead of the maximum permitted of .12 and front yard impervious surface ratio of .28 instead of the maximum permitted of .20, and

WHEREAS, after due notice, a public hearing was held by the Zoning Board of Appeals on May 19, 2021, which hearing was continued on June 16, 2021, and

WHEREAS, the applicants appeared in person and by their architect, who testified as follows:

That after the site visit and at the request of the Board, the applicant has revised the site plan 1) to install pervious pavers in the majority of the driveway so that the variance for front yard impervious surface ratio has been eliminated and 2) to move the cabana two feet further from the side and rear property lines so that the variances for the cabana have been reduced to 18 feet from the side property line and 18 feet from the rear property line;

That applicant has retained Yost Design Landscape Architects who have prepared a landscaping plan to reduce or eliminate any potential impacts on adjacent properties;

That the cabana is only 450 square feet of which 175 square feet is open porch so that the impact of the building will be minimal since there will be substantial open space within the side and rear yards;

That the next door neighbor has requested that the cabana be placed in the proposed location so that it is not intrusive;

That only one corner of the cabana is 18 feet from the property lines since the building will be placed on an angle; and

WHEREAS, members of the Zoning Board of Appeals visited the site and viewed the placement of the structures; and

WHEREAS, no one appeared in opposition to the application and applicant submitted several letters in support;

NOW, THEREFORE, IT IS HEREBY DETERMINED that the proposed action is a Type II action and that no SEQRA determination is required, and be it further

RESOLVED, that the application submitted by Mark and Goldie Schwartz for variances from the provisions of Section 230-17 Attachment I of the Code of the Village of Wesley Hills, to permit the construction, maintenance and use of a single family residence and cabana having one side yard of 20.3 feet for an open decorative archway instead of the minimum required of 25 feet, having the other side yard of 18 feet instead of the minimum required of 25 feet for a cabana, rear yard of 18 feet instead of the minimum required of 50 feet for the cabana, total side yard of 58.4 feet instead of the minimum required of 60 feet and building coverage of .134 instead of the maximum permitted of .12 is hereby approved, subject to the condition that applicants install and maintain landscaping in accordance with the landscaping plan prepared by Yost Design Landscape Architecture dated November 16, 2020, and be it further

RESOLVED, that the Zoning Board of Appeals hereby makes the following Findings of Fact:

1. That none of the variances are substantial except for the rear yard variance for the cabana and, because the cabana will be constructed on a slant, only one corner of the cabana will be 18 feet from the property line; in addition the entire front on the cabana will be open porch so that only 275 square feet of the cabana will encroach into the rear yard;
2. That because of the clearing limit line that prevents construction throughout much of the rear yard of the property and the need to have the cabana in close proximity to the pool, the space within which the cabana can be placed is very limited;
3. That the landscaping plan provides adequate screening to limit the impacts on adjacent properties;
4. That the Zoning Board of Appeals appreciates applicants' efforts to reduce the size and number of variances and the submission of a revised site plan that eliminates the need for the front yard impervious surface variance and reduces the size of the side and rear yard variances for the cabana;
5. That the benefit to the applicant by granting the variances is substantial whereas no evidence of detriment to adjacent properties or to the community has been identified.

**NARRATIVE SUMMARY
FOR
2 ARDLEY PLACE
S/B/L: 41.10-1-20**

INTRODUCTION

This narrative summary is submitted in support of the within application by Goldy Rosenfeld, the owner of the single-family dwelling located at 2 Ardley Place (the "Property"). The applicant is seeking variances in order to legalize the construction of a new single-family home and pool (the "Project"). The Project will require variances from the Table of Dimensional Requirements for the R-35 Zone as follows:

	Permitted	Proposed
Maximum Building Height	25 ft	26.18 ft.
Max. Impervious Surface Ratio	.25	.30
Rear Yard for Pool	15 ft.	11.5 ft.

The applicant has constructed a new single-family dwelling and inground swimming pool on the Property. A building permit for the construction of the home was issued on October 2, 2020. A copy of the building permit is attached as Exhibit A. A copy of the plot plan is attached as Exhibit B. Thereafter, an inground swimming pool was added. A permit for the pool was issued on January 10, 2022. A copy of the building permit is attached as Exhibit C. A copy of the plot plan is attached as Exhibit D.

Upon the final inspection to close out the permits and obtain the final certificates of occupancy for the house and pool, it was discovered that the due to the grading of the property, the elevation of the house exceeded the 25-foot height requirement by 1.18 feet. It was further determined that the patio area around the pool was constructed 3.5 feet closer to the rear yard than the 15 feet permitted by the code. Further, upon the final calculation of the impervious surface ratio, the final calculation determined the ratio was .30.

The applicant seeks the variances to legalize these existing conditions.

SEQRA

The action is a Type II pursuant to 6 NYCRR 617.5(c)(2) replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site); (11) construction or expansion of a single-family, a two-family or a three-family residence on an approved lot including provision of necessary utility connections); (12) construction, expansion or placement of minor accessory/appurtenant residential structures, including garages, carports, patios, decks, swimming pools, tennis courts, satellite dishes, fences, barns, storage sheds or other buildings not changing land use or density; (16) granting of individual setback and lot line variances and adjustments) and; (17) granting of an area variance for a single-family, two-family or three-family residence. It is not subject to environmental review pursuant to SEQRA. An SEAF Part 1 has been submitted.

GML

The property is within 500' of Wilder Road (County Highway 81). Pursuant to General

Page 2

Municipal Law Section 239-m, a referral to the Rockland County Department of Planning is required.

VARIANCES

The requested variances will not impact any of the neighbors, will not change the character of the neighborhood or create any detriment to neighboring properties, nor will they cause an adverse effect or impact on the physical or environmental conditions of the neighborhood or district. The height of the home is only 22.95'. However, due to a high-water table, the first floor elevation was set at 525.23' instead of the originally proposed 524'. Because the average existing grade is 522' the house is considered to be 26.18' high instead of the 24.95' originally proposed in the plans so that the final building height, measured from average grade, exceeds the 25-foot height requirement by a minimal 1.8'. The deficiency is so slight that it will be undetectable from anyone viewing the home.

The deficiency in the rear yard for the pool is also minimal. The pool itself is set back more than the 15' required by the code, but the patio around the pool encroaches into the rear yard by 3.5'. The applicant also owns the property to the north that is most impacted by the pool variance.

At the time of the issuance of the pool permit, the impervious surface ratio was proposed to be .238 based on an area of 8,317 SF. The final calculated impervious area is 10,409 SF for a ratio of .30. The increase in impervious area is due to an increase in the actual size of the driveway/front walk from 1,627 SF to 2,121 SF (a gain of 494 SF), an increase in the pool area from 2,194 SF to 3,790 SF (a gain of 1596 SF), and a slight increase in the house from 4,204 to 4,318 (a gain of 114 SF). The additional impervious surface will be addressed by an appropriate storm water management system to be approved by the Village's Engineering Consultant so that there will be no net increase in the peak rate of runoff. The water will be appropriately detained and will not impact any neighbors.

There are no other feasible alternatives to the variances other than to tear off the roof of the house or tear out the additional pool patio in the rear yard. That would not be a practical approach based on the limited impacts these conditions have on the neighborhood. There is no other reasonable manner in which the property can be brought into compliance other than granting the variances.

Under the particular circumstances of this case, the benefit to the applicant from the grant of the variances significantly outweighs any detriment to the health, safety and welfare of the neighborhood. It is therefore respectfully requested that the Zoning Board grant the variances requested.

**Re: Site Plan Review for Single-Family Residence and In-Ground Pool
2 Ardley Place in Wesley Hills, NY
Tax Lot #41.10-1-20; R-35 Zoning District**

Dear Ms. Schultz:

The Rockland County Highway Department ("RCHD") was in receipt of the above application along with a site plan prepared by Anthony R. Celentano, P.L.S., dated 03.10.23, as part of the GML review process. The review has been complete now and we offer the following comments.

1. It appears the evergreen hedge/trees planted in the Rockland County Right of Way ("ROW") is causing a traffic safety issue at the intersection as the line of sight is restricted. The trees/hedge shall be removed, and the line of sight shall be enhanced to promote traffic safety at the intersection.
2. A drainage report shall be prepared to demonstrate that the existing/proposed drainage system in the parcel is adequately designed to produce no net increase in the peak rate of discharge from the site at all design points.
3. A road work permit must be secured from the RCHD prior to starting any construction work in the site.

We appreciate you for the opportunity to review the site plan. Please feel free to contact us at 845 638 5060 with any question or concern you may have regarding this matter.

Thank you.

Map Date: 12/04/2023

Date Review Received: 01/02/2024

Item: *GOLDY ROSENFELD/2 ARDLEY PLACE (Whi-204)*

Variances to legalize an existing single-family dwelling with a pool located on 0.80 acres in the R-35 zoning district. The requested variances include building height, rear yard to the pool, and maximum impervious surface ratio.

Northwest corner of Wilder Road and Ardley Place

Reason for Referral:

Wilder Road (CR 81)

The County of Rockland Department of Planning has reviewed the above item. Acting under the terms of the above GML powers and those vested by the County of Rockland Charter, I, the Commissioner of Planning, hereby:

****Recommend the following modifications***

It is normally our policy to advise caution when granting a variance for impervious surface ratio that exceeds the maximum standard by 20 percent. However, the site features have already been constructed and appear to be consistent with other lots in the immediate vicinity. We therefore offer the following comments on the requested variances.

1 The applicant shall comply with the comments made by the Rockland County Highway Department in their letter dated January 16, 2024.

2 A review must be completed by the County of Rockland Department of Health, any comments or concerns addressed, and any required permits obtained.

3 A review must be completed by the County of Rockland Sewer District No. 1, any comments or concerns addressed, and all required permits obtained.

4 The bulk table indicates a variance is needed from Section 230-14L for fence height. This is not indicated anywhere else in the application materials. This variance must be confirmed and, if required, the materials must be revised so that all application materials remain consistent. If the public hearing notice did not contain all required variances, it must be revised and reissued.

GOLDY ROSENFELD/2 ARDLEY PLACE (Whi-204)

5 Pursuant to General Municipal Law (GML) Section 239-m and 239-n, if any of the conditions of this GML review are overridden by the board, then the local land use board must file a report with the County Commissioner of Planning of the final action taken. If the final action is contrary to the recommendation of the Commissioner, the local land use board must state the reasons for such action.

6 In addition, pursuant to Executive Order 01-2017 signed by County Executive Day on May 22, 2017, County departments are prohibited from issuing a County permit, license, or approval until the report is filed with the County Commissioner of Planning. The applicant must provide to any County agency which has jurisdiction of the project: 1) a copy of the Commissioner report approving the proposed action; or 2) a copy of the Commissioner of Planning recommendations to modify or disapprove the proposed action, and a certified copy of the land use board statement overriding the recommendations to modify or disapprove, and the stated reasons for the land use board's override.

7 The following additional comments are offered strictly as observations and are not part of our General Municipal Law (GML) review. The board may have already addressed these points or may disregard them without any formal vote under the GML process:

7.1 This application was officially received by the Rockland County Planning Department on January 2, 2024. The application materials indicate that the public hearing was held on January 17, 2024. As a reminder, State General Municipal Law, Section 239 (m) 4.(b) states that "Such county planning agency or regional planning council, or an authorized agent of said agency or council, shall have thirty days after receipt of a full statement of such proposed action, or such longer period as may have been agreed upon by the county planning agency or regional planning council and the referring body, to report its recommendations to the referring body, accompanied by a statement of the reasons for such recommendations." Adequate time must be provided to the Rockland County Planning Department in order for us to do our review before the public hearing is scheduled and the matter heard before the board.

7.2 The bulk table shall not include estimations. The actual exposed building height must be indicated on the bulk table.

7.3 The site plan shall contain map notes that list all appropriate information, including the district details and parcel specific information such as lot area, zoning designation, owner, and existing and proposed use. The applicant's engineer has been reminded of this requirement, and the importance of providing these details.

7.4 The site plan must contain a vicinity map that has a north arrow and scale.

7.5 A revision table must be provided on the site plan. The revision dates shall be listed chronologically.

**NYS General Municipal Law Section 239 requires a vote of a 'majority plus one' of your agency to act contrary to the above findings. The review undertaken by the County of Rockland Department of Planning is pursuant to, and follows the mandates of Article 12-B of the New York General Municipal Law. Under Article 12-B the County of Rockland does not render opinions, nor does it make determinations, whether the item reviewed implicates the Religious Land Use and Institutionalized Persons Act. The County of Rockland Department of Planning defers to the municipality forwarding the item reviewed to render such opinions and make such determinations if appropriate under the circumstances.*

GOLDY ROSENFELD/2 ARDLEY PLACE (Whi-204)

In this respect, municipalities are advised that under the Religious Land Use and Institutionalized Persons Act, the preemptive force of any provision of the Act may be avoided (1) by changing a policy or practice that may result in a substantial burden on religious exercise, (2) by retaining a policy or practice and exempting the substantially burdened religious exercise, (3) by providing exemptions from a policy or practice for applications that substantially burden religious exercise, or (4) by any other means that eliminates the substantial burden.

Proponents of projects are advised to apply for variances, special permits or exceptions, hardship approval or other relief.

Pursuant to New York State General Municipal Law §239-m(6), the referring body shall file a report of final action it has taken with the County of Rockland Department of Planning within thirty (30) days after final action. A referring body which acts contrary to a recommendation of modification or disapproval of a proposed action shall set forth the reasons for the contrary action in such report.

Dear Ms. Schultz:

We have received an application and plans as prepared by Anthony R. Celentano, PLS, revised through December 04, 2023, for the above referenced project. Comments are as follows:

1. Application is to be made to the RCDOH for review of the storm water management system for compliance with the County Mosquito Code. The drainage structures on the final survey differ from the original approval issued by this office.

If you have any questions regarding this matter, do not hesitate to call.

Re: 2 Ardley Place
As-built Review (x2)

Dear Ms. Schultz,

Our office has reviewed the “Final Survey for 2 Ardley Pl”, prepared by Anthony Celentano, P.L.S. last revised May 10, 2023. A site visit was last performed on June 6, 2023. At this time, we do not recommend the issuance of a Certificate of Occupancy. It is noted that the two properties are under the same ownership, however, they’re still considered two separate lots which may cause issues with zoning and the approval for the adjacent neighborhood gathering based on how the overall site is being utilized. We offer the following comments:

1. Swing set/play area to be shown on survey. Material of play area to be indicated. Trampoline and playset improvements are not consistent with the adjacent neighborhood gathering’s special permit. Location of accessory structure(s) may require a variance for side setback and front yard setback.
2. Existing drainage easement on the north side of 29 Wilder should be labeled. The filed subdivision Map #3252 indicates that this 15’ drainage easement is to the County of Rockland.
3. Please note that our office did not have the opportunity to review the pool plan. It is noted that a building permit was issued from the Village in January 2022. A swale was proposed in the location of the constructed pool/patio. Applicant shall demonstrate equivalent measure to replace the proposed swale to mitigate any negative impacts to the adjacent neighbors. Additional topography information in the northwesterly corner and pool/patio area shall be provided.
4. Due to the as-built impervious surface ratio and, Applicant to confirm that the installed drywell system provides sufficient volume to demonstrate a net decrease in peak runoff rates for the 100-year, 24-hour storm. Additional drainage mitigation may be required.
5. The maximum building height calculation has been corrected and is measured at 26.18’ as noted in the Bulk Table. This requires a variance and is referred to the Zoning Board of Appeals for further consideration.
6. The pool patio encroaches the 15’ pool setback requirements along the northern property line. This requires a variance and is referred to the Zoning Board of Appeals for further consideration.
7. The Bulk Table has been updated to indicate a maximum impervious surface ratio of 0.30, exceeding the allowable ratio of 0.25. This requires a variance and is referred to the Zoning Board of Appeals for further consideration.
8. The installed 4”/6” SDR-35 drainage pipes on the north side of building are shown encroaching into the adjacent property to the North (29 Wilder) and daylighting into a 15’-wide drainage easement on the North side of 29 Wilder. Drainage pipes to be removed/modified or appropriate easements shall be filed. Applicant to review the potential of rerouting the drainage pipes to the existing catch basin on the South side of the property.
9. During the site visit, it was found that the 4” and 6” SDR-35 drainage pipes are installed on top of the other at the point of daylight. Applicant to provide additional information on how these pipes were

installed and where the secondary line is from. Standing water was found in all four of the installed catch basins on the north side of the building. Inverts of the pipes to be provided on the survey and positive conveyance of runoff through the installed pipes to be demonstrated.

10. Fence and hedges appear to be located within the westerly 15' wide drainage easement on top of an existing drainage pipe. Fence & hedges shall be relocated east outside of the easement.
11. Fence, hedges, and grading along eastern property line to be relocated within the property or Applicant to seek approval from the Village Board. Please note that the allowable height for a fence along the front lot line is 4 feet. A 6-foot fence in the front yard must be setback at least 4 feet (2/3rds its height) from the property line to be in conformance. In the most recent site visit, it appears the fence has been relocated to the west side of the fence. Survey shall be updated to reflect this and confirm appropriate setbacks. Based upon field measurements, the fence appears to encroach within the allowable setback, possibly the R.O.W., and is not in conformance. Furthermore, a concern was raised for fence/hedge location as it relates to sufficient sight distance. The setbacks required per code will assist with this issue.
12. Soil to be removed from the existing catch basin in the Wilder Road R.O.W.
13. Signoff from the Town of Ramapo for sewer connection to be provided.
14. During the site visit, the water service curb box could not be found. Contractor to confirm location and curb box to be brought to grade if not done so already.
15. Roof leader inverts to be provided once drywells are cleaned of accumulated soil.
16. It appeared that the ripped inlet protection and accumulated soil remain within the two drywells. Drywell shall be cleaned of sediment, as necessary. Inlet protection for the two drywells to be removed.
17. Disturbed areas with the Wilder Road R.O.W. are to be repaired with topsoil and seed. Remains of the concrete base for fence poles to be removed.

Our office will continue our review upon submission of a revised survey and satisfaction to the outstanding comments above.

Very truly yours,

To Whom it May Concern:

I write this letter to you regarding the two-lot subdivision entitled "Subdivision Plat for Hurwitz" already approved by the Planning Board of the Village of Wesley Hills. This created a certain property now known as 91 Spook Rock Road (from my existing property of 89 Spook Rock Road). The approval required the existing driveway to be relocated to the common driveway easement, as well as removing some of my existing driveway on my property.

As part of the agreement that I signed with the Village to issue a C of O prior to the driveway being relocated, I retained my right to appeal to the Zoning Board regarding some of the requirements for the driveway. I agreed to make this application by January 12, 2024, but was advised that I could submit it by January 17, 2024 upon receipt of my Engineer's renderings.

At this time, I respectfully request a variance to allow the original 'cut outs' in my driveway to remain (see attached highlighted in yellow). The current curves of the driveway in front of the garage area have been utilized by me and my now elderly husband for the past 17 years, and create an easy flow from the driveway to the garage that would be difficult for us to make as the approved subdivision plan depicts. For the 'cut outs' to remain, the impervious surface ratio would increase from .26 to .29.

Thank you for your anticipated courtesies.

Bassie Hurwitz

Hi Renee,

Yes that is confirmed. Only the impervious on her lot has been indicated to be removed.

The plans clearly indicate the impervious area to be removed. Here is an 8.5" x 11" sheet at larger scale (1"=20') to help clarify the proposed areas to be removed.

As far as a letter, you should just add it to your ZBA narrative. Simply put, previously there was 11,260 sf of impervious area for the approved development at Lot #1 (see approved subdivision set last revised 5-2-18).

The ratio was 11,260 sf / 44,097 sf yielding an impervious area ratio of 0.255 which was rounded up to 0.26 on the plan. For the proposed plan the increase of 1,330 sf (resulting from not sawcutting and removing the pavement in the driveway for Lot #1) makes the total impervious area now 12,590 sf for the proposed ZBA plan. This yields a new ratio of 12,590 sf / 44,097 sf = 0.286 which rounds up to 0.29. This is the number indicated in the plan attached above.

Please let us know if you need anything else.

**Re: Site Plan Review for Driveway Configuration
89 Spook Rock Road in Wesley Hills, NY
Tax Lot #40.16-1-10.21; R-50 Zoning District**

Dear Ms. Schultz:

The Rockland County Highway Department ("RCHD") was in receipt of the above application along with a site plan prepared by Sparaco & Youngblood, PLLC., dated 01.08.24, as part of the GML review process. The review has been complete now and we offer the following comments.

1. The applicant shall ensure that the existing/proposed drainage system in the parcel is adequately designed to produce no net increase in the peak rate of discharge from the site at all design points.
2. The proposed access easement shall be prepared and recorded in the Rockland County Clerk Office.
3. The existing road work permit must be renewed along with the revised site plan if the proposed amendment is approved by the Village.

We appreciate you for the opportunity to review the site plan. Please feel free to contact us at 845 638 5060 with any question or concern you may have regarding this matter.

Thank you.

Dear Ms. Schultz:

Our office has received and reviewed a ZBA planimetric plan that was last revised on January 8, 2024, which Sparaco & Youngblood prepared for the above referenced project. We thank you for the opportunity to comment on this application. Our comments are as follows:

1. Approval of this application and the variances the proposed one-family dwelling on a 45,227 square foot lot in the R-50 District, which was created from the 2-lot subdivision of a 92,431 square foot lot (40.16-1-10.2), does not require the applicant to pay an impact fee, in accordance with the Rockland County *Sewer Use Law* as last amended in 2010. **However, if public sewers are extended to this lot, the District will require further review and the owner will have to pay an impact fee.**
2. Details for septic system construction are subject to approval by the Rockland County Health Department and the Town of Ramapo.
3. If future sanitary sewer lines are extended to this lot, the owner will be required to connect to the sanitary sewer line and pay an impact fee.

Please inform us of all developments in this project. If you have any questions, please contact this office at 845-365-6111.

Dear Zoning Board Members:

The Rockland County Drainage Agency (RCDA) has reviewed the above referenced proposal as prepared by Sparaco & Youngblood, PLLC, dated/last revised 01/08/2024, included with the municipal referral dated 1/17/2024. Based on a review, the RCDA offers the following comment(s):

- 1) The above referenced site is outside the jurisdiction of the RCDA, pursuant to the Rockland County Stream Control Act, Chapter 846. Therefore, a Stream Control Act permit from the RCDA is not required for developments within this site. Also, the RCDA has no further comments regarding the proposal, pursuant to the State Environmental Quality Review (SEQR).
- 2) The RCDA recommends that the municipal land use boards and/or departments review all development proposals for this site and ensure that developments with increase in impervious areas and/or land disturbances will not result any increase in stormwater runoff from the site and will have adequate measures to prevent soil erosion and control sediment from leaving the site.

Please contact the undersigned at (845) 638-5060 or by email: drainageagency@co.rockland.ny.us, if you have any questions regarding this matter.

**NYS General Municipal Law Section 239 requires a vote of a 'majority plus one' of your agency to act contrary to the above findings.*

BASSIE HURWITZ/89 SPOOK ROCK ROAD (Whi-50D)

The review undertaken by the County of Rockland Department of Planning is pursuant to, and follows the mandates of Article 12-B of the New York General Municipal Law. Under Article 12-B the County of Rockland does not render opinions, nor does it make determinations, whether the item reviewed implicates the Religious Land Use and Institutionalized Persons Act. The County of Rockland Department of Planning defers to the municipality forwarding the item reviewed to render such opinions and make such determinations if appropriate under the circumstances.

In this respect, municipalities are advised that under the Religious Land Use and Institutionalized Persons Act, the preemptive force of any provision of the Act may be avoided (1) by changing a policy or practice that may result in a substantial burden on religious exercise, (2) by retaining a policy or practice and exempting the substantially burdened religious exercise, (3) by providing exemptions from a policy or practice for applications that substantially burden religious exercise, or (4) by any other means that eliminates the substantial burden.

Proponents of projects are advised to apply for variances, special permits or exceptions, hardship approval or other relief

Pursuant to New York State General Municipal Law § 299-a(8), the referring body shall file a report of final action it has taken with the County of Rockland Department of Planning within thirty (30) days after final action. A referring body which acts contrary to a recommendation of modification or disapproval of a proposed action shall set forth the reasons for the contrary action in such report.

Narrative

Dear Zoning Board Members,

As the project manager at Mayerfeld Architecture, I, Stanley Mayerfeld, am representing Mr. Shalom Moskowitz, the homeowner residing at 53 Grandview Avenue since July of 2016. We have been retained to represent a zoning board of appeals application for the construction of a new covered front porch not complying with the building coverage and front yard regulations of the Village's zoning code.

Grandview Avenue is a busy road with fast-moving vehicular traffic, and the intention of the new front porch is to provide a safe place for the Moskowitz children to wait for their bus and carpool. Being that the house is being extended on its original foundation with a front yard of only 49', it is not feasible to build a front porch without requiring a variance from the zoning board of appeals.

Please note that there are fully grown evergreen trees along the front property line that provides adequate screening along Grandview Avenue.

The new covered porch requires the following variances:

	Required	Provided
Front Yard	50'	43'
Maximum Building Coverage	.10	.13

See submitted drawings dated 12/08/23 by Anthony Celentano P.E.

Sincerely,

Stanley Mayerfeld

BUILDING AND ZONING DEPARTMENT:

Please be advised that your application for a building permit for the addition to a single-family home has been denied. The requirements of the Zoning Law of the Village of Wesley Hills have not been satisfied. The following variances are required:

- Maximum building coverage of 0.13 when 0.10 is required.
- Front yard of 43' when 50' is required.

In addition, the Zoning Board of Appeals may review any existing non-conforming items and previously granted variances.

Narrative

Dear Zoning Board Members,

As the project manager at Mayerfeld Architecture, I, Stanley Mayerfeld, am representing Isaac Wieder, the homeowner residing at 49 Tranquility Road since June of 2011.

Our firm has been retained to represent a zoning board of appeals application for the construction and maintenance of a proposed addition to his existing home. Due to the existing shape and conditions of the lot, the proposed addition requires two minor variances.

BUILDING AND ZONING DEPARTMENT:

Please be advised that your application for a building permit for construction of an addition to a single-family home has been denied. The requirements of the Zoning Law of the Village of Wesley Hills have not been satisfied. The following variances are required:

- Front Yard maximum impervious surface ratio (Tranquility Road) of 0.228 when 0.20 is required.
- Minimum front yard (Tranquility Road) of 46.7' when 50' is required.

In addition, the Zoning Board of Appeals may review any existing non-conforming items and previously granted variances.

Re: Site Plan Review for Addition to Single-Family Dwelling (Wieder)
49 Tranquility Rod Wesley Hills, NY
Tax Lot #41.09-1-28; R-50 Zoning District

Dear Ms. Schultz:

The Rockland County Highway Department ("RCHD") was in receipt of the above application along with a site plan prepared by Paul Gdanski, PE, PLLC., dated 09.11.23, as part of the GML review process. The review has been complete now and we offer the following comment.

1. A drainage report shall be prepared to demonstrate that the existing/proposed drainage system in the parcel is adequately designed to produce no net increase in the peak rate of discharge from the site at all design points.

We appreciate you for the opportunity to review the site plan. Please feel free to contact us at 845 638 5060 with any question or concern you may have regarding this matter.

Thank you.

Re: Wieder Single-Family Dwelling Addition

Location: 49 Tranquility Road, Suffern
Parcel ID(s): Section 41.09, Block 1, Lot(s) 28
Municipality Village of Wesley Hills
Resource: Willow Tree Brook

Dear Planning Board Members:

The Rockland County Drainage Agency (RCDA) has reviewed the above referenced proposal as prepared by Paul Gdanski, PLLC, dated/last revised 09/11/2023, included with the municipal referral dated 11/1/2023. Based on a review, the RCDA offers the following comment(s):

- 1) The above referenced site is within the jurisdiction of the RCDA, pursuant to the Rockland County Stream Control Act, Chapter 846, but a Stream Control Act permit from the RCDA is not requested for the current proposal. However, any future development proposal for this site will require a review and written determination from the RCDA as to whether a permit is required.
- 2) Any future decisions or determinations made by municipal land use boards and departments regarding developments at this site should indicate that it is within the jurisdiction of the RCDA and will require a review and written determination from the RCDA as to whether a permit is required. The RCDA recommends that the municipal departments ensure the project with any land disturbance has adequate soil erosion and sediment control measures to prevent sediment from leaving the site.

Please contact the undersigned at (845) 638-5060 or by email: drainageagency@co.rockland.ny.us, if you have any questions regarding this matter.

Very truly yours,

Re: Yitzchok Issac Wieder
49 Tranquility Road
Tax Lot 11/41.09-1-28 (formerly a portion of ESA Lot 8./19/A2)

Dear Ms. Schultz:

Our office has received and reviewed a plot plan that was last revised on September 11, 2023, which Paul Gdanski, PE prepared for the above referenced project. We thank you for the opportunity to comment on this application. Our comments are as follows:

1. Rockland County Sewer District No. 1 does not object to the plan as shown. Approval of this application and the variances for a proposed addition to a single-family dwelling on an 83,880 square foot lot in the R-50 District does not affect any sanitary sewers. The site has a septic system, and there are no sanitary sewers in the vicinity of this lot.
2. The lot that is subject of this application was formerly a portion of Tax Lot 8./19/A2, which the United States Environmental Protection Agency (EPA) has designated as an Environmentally Sensitive Area (ESA).
 - a. If future sanitary sewer lines are extended to this lot, and prior to connecting any building to sanitary sewers, the developer must obtain a waiver of the EPA's grant condition, which restricts sewer connections from ESA lots.
 - b. In addition to 49 Tranquility Road, any sewer application for the following parcels –
 - i. 52 Spook Rock Road (41.09-1-6),
 - ii. 2 Wesley Chapel Road (41.09-1-5),
 - iii. 4 Wesley Chapel Road (41.09-1-29),
 - iv. 47 Tranquility Road (41.09-1-23),
 - v. 45 Tranquility Road (41.09-1-24),

- vi. 43 Tranquility Road (41.09-1-25),
- vii. 44 Tranquility Road (41.09-1-26), and
- viii. 46 Tranquility Road (41.09-1-27) –

which were formerly portions of ESA Lot 8./19/A2, cannot be approved until the EPA and New York State Department of Environmental Conservation approve the waivers for these lots.

- 3. If future sanitary sewer lines are extended to this lot, the property owner will be required to connect to the sewer, and will have to pay an impact fee *if the use or occupancy of the property exceeds one (1) sewer unit (e.g., with an additional dwelling unit, a guest suite, a house of worship, a school, a daycare center, or a home occupation).*

Please inform us of all developments in this project. If you have any questions, please contact this office at 845-365-6111.

The County of Rockland Department of Planning has reviewed the above item. Acting under the terms of the above GML powers and those vested by the County of Rockland Charter, I, the Commissioner of Planning, hereby:

****Recommend the following modifications***

- 1 A review must be completed by the County of Rockland Drainage Agency, and any required permits obtained.
- 2 A review must be completed by the County of Rockland Department of Health, any comments or concerns addressed, and any required permits obtained.
- 3 A review must be completed by the County of Rockland Sewer District No. 1, any comments or concerns addressed, and all required permits obtained.
- 4 The applicant shall comply with the comment made by the Rockland County Highway Department in their letter dated November 20, 2023.
- 5 Since there is encroachment into the 100-foot wetland buffer area, a review must be completed by the United States Army Corps of Engineers (USACOE) and all required permits obtained. If a Section 404 USACOE permit is required, then a Section 401 Water Quality Certification will be required from the NYS Department of Environmental Conservation.

YITZCOCK WIEDER/49 TRANQUILITY ROAD (Whi-203)

6 According to the New York Natural Heritage Program's (NHP) database, as is reflected on the Hudson Valley Natural Resources Mapper (<https://gisservices.dec.ny.gov/gis/hvnm/>), a majority of the site is located within the riparian buffer of the Willow Tree Brook. The NHP has identified riparian buffers to highlight important streamside areas that influence stream dynamics and health. Well-vegetated riparian buffers intercept stormwater runoff, filter sediment and nutrients, and help attenuate flooding. Natural buffers also support unique and diverse habitats, and often serve as wildlife travel corridors. The DEC has found the Willow Tree Brook to be a low-condition stream. The Village must consider the potential impacts of the proposed development on the on-site wetlands and the Willow Tree Brook.

7 The engineer of record shall certify to the floodplain administrator for the Village of Wesley Hills that the proposed construction is in compliance with the floodplain regulations of the Town and the Federal Emergency Management Agency.

8 We request the opportunity to review any variances that may be needed to implement the proposed development, as required by New York State General Municipal Law, Section 239-m (3)(a)(v).

9 Pursuant to General Municipal Law (GML) Section 239-m and 239-n, if any of the conditions of this GML review are overridden by the board, then the local land use board must file a report with the County Commissioner of Planning of the final action taken. If the final action is contrary to the recommendation of the Commissioner, the local land use board must state the reasons for such action.

10 In addition, pursuant to Executive Order 01-2017 signed by County Executive Day on May 22, 2017, County departments are prohibited from issuing a County permit, license, or approval until the report is filed with the County Commissioner of Planning. The applicant must provide to any County agency which has jurisdiction of the project: 1) a copy of the Commissioner report approving the proposed action; or 2) a copy of the Commissioner of Planning recommendations to modify or disapprove the proposed action, and a certified copy of the land use board statement overriding the recommendations to modify or disapprove, and the stated reasons for the land use board's override.

11 The following additional comments are offered strictly as observations and are not part of our General Municipal Law (GML) review. The board may have already addressed these points or may disregard them without any formal vote under the GML process:

11.1 This application was officially received by the Rockland County Planning Department on November 3, 2023. The application materials indicate that the public hearing will be held on November 27, 2023. As a reminder, State General Municipal Law, Section 239 (m) 4.(b) states that "Such county planning agency or regional planning council, or an authorized agent of said agency or council, shall have thirty days after receipt of a full statement of such proposed action, or such longer period as may have been agreed upon by the county planning agency or regional planning council and the referring body, to report its recommendations to the referring body, accompanied by a statement of the reasons for such recommendations." Adequate time must be provided to the Rockland County Planning Department in order for us to do our review before the public hearing is scheduled and the matter heard before the board.

11.2 The actual building height and exposed building height proposed must be indicated on the bulk table, rather than "< 25'" and "<40'," respectively. The bulk table shall not include estimations.

11.3 The plot plan must contain a vicinity map that has a north arrow and scale.

**NYS General Municipal Law Section 239 requires a vote of a 'majority plus one' of your agency to act contrary to the above findings. The review undertaken by the County of Rockland Department of Planning is pursuant to, and follows the mandates of Article 12-B of the New York General Municipal Law. Under Article 12-B the County of Rockland does not render opinions, nor does it make determinations, whether the item reviewed implicates the Religious Land Use and Institutionalized Persons Act. The County of Rockland Department of Planning defers to the municipality forwarding the item reviewed to render such opinions and make such determinations if appropriate under the circumstances.*

In this respect, municipalities are advised that under the Religious Land Use and Institutionalized Persons Act, the presumptive force of any provision of the Act may be avoided (1) by changing a policy or practice that may result in a substantial burden on religious exercise, (2) by retaining a policy or practice and exempting the substantially burdened religious exercise, (3) by providing exemptions from a policy or practice for applications that substantially burden religious exercise, or (4) by any other means that eliminates the substantial burden.

Proponents of projects are advised to apply for variances, special permits or exceptions, hardship approval or other relief.

Pursuant to New York State General Municipal Law §239-m(6), the referring body shall file a report of final action it has taken with the County of Rockland Department of Planning within thirty (30) days after final action. A referring body which acts contrary to a recommendation of modification or disapproval of a proposed action shall set forth the reasons for the contrary action in such report.
